RECRUITS ON THE WAY EAST

Nearly Four Hundred Men Took Train Saturday Afternoon at Winnipeg for Ottawa

SPLENDID BODY OF MEN THEY ARE

Gathered All Along the Line From Calgary to the Prairie City—Special Train Carries Them

Winnipeg, March 3.—(Special)—Saturday afternoon 130 men for the special train from Ottawa, enlisting in the ranks of the officers at the barracks which have been engaged in the recruiting expressed the opinion to-day that a finer looking and more capable body of men were never assembled than have been seen here. They are mostly young men of high intelligence, fair education and perfect physique.

These were on the train from the West 246 recruits, from the following points: 61 from Calgary, 20 from Prince Albert, 20 from Macleod, 17 from Pincher Creek, 8 from Lethbridge, 40 from Regina, 20 from Moosejaw and 44 from Portage la Prairie. These were joined here by 150 who had enlisted in Winnipeg, bringing the total up to 396. A special train for their accommodation was made up here. It consisted of eight tourist cars, with commissary and baggage cars.

### DEATH OF DR. GEORGE M. DAWSON AFTER ONLY 48 HOURS' ILLNESS

The Head of the Canadian Geological Survey Succumbed on Saturday Evening From Bronchitis—An Eventful and Honorable Career Brought Suddenly to a Close.

Ottawa, March 3.—(Special)—Dr. George M. Dawson, C.M.G., F.R.S.E., director of the geological survey of Canada, after whom Dawson City in the Yukon is named, died here Saturday night after 48 hours' illness, of bronchitis.

George Mercer Dawson was born in Pictou, N.S., August 1, 1849, and was the eldest son of the late Sir J. W. Dawson. He was educated at McGill University, Montreal, and in 1870 entered the Royal School of Mines, London, where he remained for three years. He was first in his class to pass, being awarded the Edward Fettes medals and prizes in paleontology and natural history. Returning to Canada he was engaged in mining surveys in Nova Scotia and also lectured in McGill University in 1881. In the same year he was awarded the Bagby gold medal from the London Geological Society for his services to the science of geology. He was also a fellow of the Royal Society in 1888 and president of the Royal Geological Society of Canada in 1890. In 1890 he was elected president of the British Association for the Advancement of Science. In 1896 he was appointed by the Dominion government to be in charge of the geological survey of the Dominion in 1897. He became assistant director in July, 1898, and deputy head of the geological survey in January, 1898. While attend-

### A LITTLE OF DEBARRISM OVER ELEVEN HUNDRED MILLIONS BACK OF THE GREAT STEEL TRUST

Domination Labor Commissioners Have Put the Alien Law Into Operation.

New York, March 3.—A circular addressed by J. P. Morgan & Co. to the stockholders of the Federal Steel Co., National Steel Co., National Tube Co., American Steel and Wire Co., American Tin Plate Co., American Sheet Steel Co., and American Sheet Steel Co., which, together with the Carnegie Co., are to be merged into the United States Steel Corporation, was issued today. It recites the previously known terms of exchange of securities of the constituent companies, and is supplemented by an address of the boards of directors of the various companies, urging acceptance of the terms offered.

As to Dividends.  
Preferred stock dividends of the various companies are adjusted up to April 1, but common stocks deposited must have dividends or rights to dividends declared or payable up to March 1. No adjustment is made otherwise.

### SENT 16 MEN FROM ROSSLAND. First Time the Law Has Been Enforced in British Columbia—Penalty Waived.

Roseland, B.C., March 2.—Messrs. E. P. Bremner of Vancouver and Edward W. Jones of the Red Mountain Railway, have been here for about a week looking into the matter of alien labor, and as a result of their labors, 16 of the men in the employ of Messrs. Winters, Paton & Bromer, who have contracts to do some work for the Red Mountain Railway, were ordered deported. The contractors will pay the way of the men back to the United States, where they were engaged.

### SMALLPOX AT LAPRAIRIE. Four Cases Reported, One of Which Was Fatal—A Case Reported

Montreal, March 3.—(Special)—Smallpox has broken out in the village of Laprairie, a rumor to this effect was confirmed to-day by Dr. Peletier, secretary of the Provincial Board of Health. The doctor says there are now four cases, one of which he declares fatal.

### THE DEATH OF MRS. MAYNARD Was Caused by Nervous Shock or Fear, Caused by Bites of Dogs.

Montreal, March 3.—(Special)—Last evening the jury rendered a verdict that Mary Maynard died from nervous shock or fear, caused by the bites of dogs, which he stated in the course of their examination. One case of smallpox is also reported from the district.

### LONDON COUNTY COUNCIL. Progressive Have Been Returned to Power with Increased Numbers.

London, March 2.—The elections for members of the London County Council resulted as follows: Progressives, 52; Moderates, 23; Independents, 1, and uncounted, 8, including the city's four members. The old Council contained 71 Progressives and 47 Moderates.

### HOCKEY PLAYER FELL DEAD. Fred Hale, Who Had Never Before Been Sick an Hour, Succumbed During a Game.

Montreal, March 3.—(Special)—Death came very quickly last evening to Fred Hale, who was playing hockey with St. Andrew's Marquette Lodge team against the Temple Club team. The game had lasted only a few minutes when young Hale, who had never before been sick an hour, came down with a fit. He died on his knees at about half an hour. Hale was 21 years old, and was to have been married Saturday to a Miss Brown of Point St. Charles. Deceased had been for some time in the employ of the St. Lawrence, and resided at 424 Rue St. Lawrence.

### B.C. WANTS THE DUKE. Legislature Resolves to Try and Have the King's Son Visit the Pacific.

Vancouver, B.C., March 3.—In the Province of British Columbia a motion passed that the Duke of Cornwall be asked to visit British Columbia on his tour to Canada. It is suggested that the party should come here from Australia and pass thru Canada from the Pacific to the Atlantic. Resolutions were also passed asking the Dominion Government to establish a line in Canada and congratulating the Commonwealth of Australia on Confederation in the southern colonies.

### TORPEDO DESTROYER LAUNCHED. The Preble Put Afloat Saturday at the Union Iron Works, San Francisco.

San Francisco, March 2.—At the shipbuilding plant of the Union Iron Works this afternoon the torpedo boat destroyer Preble was successfully launched.

### Cut Both His Legs Off. Moncton, N.B., March 3.—Willie McKelvie, 9 years old, was playing with some boys on the railway track Saturday evening. A train came along and the boy jumped on to a slow back. McKelvie rebounded on the track and the train cut both of his legs off. He died shortly after.

### Will Not Attend. Ottawa, March 2.—Lord Minto, Governor-General, has decided not to attend the inauguration ceremony of President McKinley of the United States.

### HAD VERY STORMY PASSAGE Invalidated Canadians Arrived at Halifax Yesterday by the SS. Lusitania.

Lieut. Cosby was also aboard.

The Toronto Officer Has Accepted a Commission in Middlesex Imperial Regiment.

Halifax, N.S., March 3.—The steamer Lusitania arrived late Saturday night from Liverpool, after a very stormy passage. Last Sunday the steering gear broke and the vessel rolled heavily in the trough of the sea until the damage was repaired. The Lusitania brought the following invalidated Canadians: Driver Parker, R.C.F.A., A., who won distinguished service medals; Lieutenant Cosby, R.C.F.A., who was invalided as a result of the Boer War; Sergeant Armstrong, C.M.R., St. John's; Corporal Coombs, R.C.F.A., St. John's; Trooper Tresser, C.M.R.; Sergeant Taylor, C.M.R., Toronto; Sergeant George, R.C.F.A., Dawson City; Private Stewart, C.M.R., Montreal. In addition to the above were Lieut. Cosby of Toronto, who went out with the Mounted Rifles and has accepted a commission in the Middlesex Regiment, and Mr. Pender of the Imperial Yeomanry. They leave for the west to-morrow afternoon by the Maritime Express.

### FIRE IN WORLD OFFICE. Shortly after 1 o'clock Sunday morning fire was discovered in the premises of the Central Press Agency (Limited), electrotypers and stenographers in the two upper parts of the World building on Yonge street. The fire is supposed to have originated from an electric wire, as it can be traced to a switch-board connected with a motor. Some of the men who were employed in the World, and who were cleaning up after the Saturday night storm, gave the alarm and ran up stairs to do what they could. The firemen arrived promptly, and had the flames under control in a short time.

The salvage men spent several hours all the World plant, and in this way saved the linotype press and other machinery from any great damage by reason of water. The Central Press Agency's loss to machinery and stock is below \$10,000, and is covered by insurance. The rear portion of the World building was badly burned, and the plant in the basement, ground and first floors more or less hurt by gust and water. This is all covered by insurance. The World carries some \$50,000, spread over the building companies and the Central Press \$15,000. The Central Press has a duplicate outfit on York street, and will do its business there for some days.

A large force of men were put to work cleaning up The World's plant, and by noon Sunday everything was in possible shape for turning out the paper of this morning. The night watching of The World was thru the building 25 minutes before the flames were first noticed, and saw nothing wrong. The Central Press shut down at noon Saturday, and had no fire or lights on after that hour.

### THE KING IN LONDON. His Majesty Arrived Last Night From Germany.

London, March 3.—King Edward arrived in London to-night from the Continent.

### Little Girl Badly Burned. Capehart, March 3.—A little girl named Palmer, 3 years old, was badly burned to-day on Front street and is in the General Hospital. Her clothing caught fire while she was playing, and she may not recover.

### It Was a Big Day. Saturday was a big day in the spring business in Toronto, principally because the Dineen Company have imported a special line of new American Duetty hats and Albin hats. They are exactly the same as being offered by the big Broadway firm, and of specially selected designs.

### Another Cold Snap Coming. Meteorological Office, Toronto, March 3.—(8 p.m.)—An important storm is now centred over the Straits of Massachusetts, and the weather over the city will be stormy with snow and rain, and these stormy conditions will rapidly spread to Eastern Canada. A pronounced cold wave is following the storm, indicating another cold period for all portions of Canada.

### Lower Lakes—Strong winds and gales; westerly to northwesterly; partly fair and becoming decidedly colder; light to moderate snow falls and local snow falls, turning decidedly colder; Tuesday decidedly cold.

### Georgian Bay—Strong winds and gales, westerly to northwesterly; snow flurries and local snow falls, turning decidedly colder; Tuesday decidedly cold.

### Thunder Bay—Strong winds and gales, westerly to northwesterly; snow flurries and local snow falls, turning decidedly colder; Tuesday decidedly cold.

### NEGRO FOUGHT LIKE A DEMON Shot the Doorman of Detroit Police Station and Then Defied Attempts to Capture Him.

Detroit, March 3.—Timothy Sullivan, doorman at the Central Police Station, was shot thru the head and dangerously wounded while in the exercise of his duty at the Central Station last night. The bullet was fired from the officer's own revolver, which came into the possession of an apparently insane colored man, who was being detained in the doorman's office awaiting medical examination. For nearly an hour after the shooting the colored man, entrenched in the Turkish office, defied all attempts to capture him, and narrowly escaped shooting several times by officers who were trying to secure him. Even after being drenched from a stream from the chemical engine on hose wagon No. 2 and having exhausted all his ammunition, the crazy man fought like a demon, and the combined efforts of a dozen busy policemen hardly sufficed to bring him to subjection. The man was brought to headquarters in the patrol wagon by Officer Noonan, who had been sent up to Dr. Leonard's residence, John street, at the request of Dr. Leonard, who telephoned that he was detaining his patient. The fellow gave no evidence of a homicidal disposition on the way to the station. On the contrary, he seemed to be pleased that he was being taken care of, several times expressing his fear that he should be captured by imaginary pursuers. When searched, Harris was found to be in possession of an honorable discharge from the service of the army of the United States. He comes here from the west.

### AN ANTI-MILLIONAIRE BILL. French Chamber Has Accepted a Measure Which is Viewed as a Sheer Confiscation.

Paris, March 2.—It is believed that the Senate will reject the death duties which the Chamber by a large vote has committed itself. This "anti-millionaire" bill, as it is called, is so-called to the verge of disintegration, transcending anything ever accepted by any representative legislative body. The scale of taxes of bequests under 200,000 francs varies from 2 to 10 per cent. In a case of 1,000,000 francs the tax is from 2 1/2 to 15 1/2 per cent, according to relationship, while a bequest of 5,000,000 francs might be taxed 30 per cent.

### BIRTHS. ANDERSON—At March 1, 1901, at 211 McCall-street, the wife of Alexander Anderson, of a daughter, 2,000,000 francs, by one-half; 3,000,000 francs, by one-eighth; 3,000,000 francs, by one-fourth; 10,000,000 francs, by one-half; 20,000,000 francs, by double; 50,000,000 francs, by 2 1/2; and 100,000,000 francs, by three. Such a bill would be calculated to expatriate capital and ruin France.

### DEATHS. CHADWICK—At 167 Huron-street, Toronto, on Saturday, March 3, 1901, Patricia Barbara, only child of Vaux and Jessie Doretha Chadwick, aged 1 year and 4 months; Charles, aged 7 years and 4 months. Funeral private.

EASY FOR THE WELLINGTONS

Queen's Beaten in Final Saturday Night on Their Own Ice by 4 Goals to 1.

THE WINNERS WERE MOBBED.

Arduous Was Especially Roughly Handled by Unprincipled Spectators.

Kingston, March 3.—The final match between the Wellingtons and Queen's in the O.H.A. championship took place at the Kingston rink tonight before an immense crowd. It was 9 o'clock before the Wellingtons appeared on the ice. With a score of two goals they felt quite confident of retaining the championship they won from Queen's a year ago.

On a shot from the side, after two minutes play, Warden scored for the Wellingtons. Queen's scored a goal in the next few minutes which was recovered. On a pass from Merrill right in front of the Wellington goal, Harry scored for Queen's, and things looked a little brighter for the challengers, until the crowd again broke out to cheer up. During a few minutes Queen's goal-keepers were kept busy, but they were not to be troubled again. Queen's were more aggressive than Wellingtons, and shot three times as often as the Wellingtons.

Wellingtons Were Mobbed. The Wellingtons won the championship after their hard-fought game on Saturday night at Kingston. The champions were given the hardest kind of treatment from the thousands of the Kingston crowd, but they overcame the odds and played to a draw. The match was a close one, and the Wellingtons were not to be taken for granted. The boys felt all right after the Wellingtons' victory, and they were not to be taken for granted. THE FACTS OF THE CASE. The facts elicited at the annual meeting of the Crow's Nest Pass Coal Company, held on Friday last, are of public importance, and of particular interest at the present time, as they have a direct bearing on an important railway issue that is about to engage the attention of Parliament.

The Ontario Accident Insurance Co. The annual meeting of the shareholders of this company was held on Monday afternoon, Feb. 28, in the company's offices, 3 Toronto-street, and was largely attended. Dr. Larratt, W. Smith presided, and Mr. P. J. Lightbourn acted as secretary.

LA PRESSE AND BOURASSA. His Motion in the House of Commons is said to be extremely unbecoming. Montreal, March 2.—"Supremely unbecoming" is the way La Presse newspaper has marked by the inspectors as low as a in either teaching, discipline or supervision.

MURPHY OF NEW YORK. The New Police Commissioner inaugurates a Renovating Campaign. Montreal, March 2.—The Star's New York special says: Col. Murphy, the new commissioner of police, has treated New Yorkers to a surprise by announcing that he intends to enforce the law, no matter what the cost.

Telephone Girls May Go. Montreal, March 2.—A small mechanical shop here is being made for an invention which the promoters expect will revolutionize the system of telephoning. It is the work of an electrician in the employ of the Providence Electric Co. of Providence, R.I., who is backed by New York and Boston men.

STREET CAR ACCIDENT—Mr. Thomas Smith says: How he got his foot badly injured by being run over by a car on the street railway. Mr. Smith was riding on the street railway when he was struck by a car. He was thrown from the car and his foot was crushed.

Senate Amendment Defeated. Washington, March 3.—A motion to amend the Senate amendment to the Sunday Civil Bill, providing for the St. Louis, Buffalo and Charleston Expositions, was defeated in the House this afternoon by a vote of 76 to 10.

King Edward at Flushing. Flushing, March 2.—King Edward arrived here at 10:20 o'clock this evening and went on board the royal yacht. He will sail in the morning.

CEYLON, GREEN OR BLACK. THE FAVORITE TEA OF BRITAIN AND HER COLONIES. GROWN BY BRITISH PLANTERS.

Amusing to see foreign teas advertised as Ceylon. Is it not fit that colors them? "SALADA" Teas are sold in sealed lead packets only—never in bulk. Black, Mixed or Uncolored Ceylon Green. Samples on application "Salada," Toronto.

YANKEES HAVE THE LEAD. Mr. Asquith has discovered that the Exports of Great Britain are not great. London, March 2.—Mr. Herbert Henry Asquith, member of Parliament for East Fife, speaking at Coventry on the defects of the British industrial system, said: "We are seriously threatened in our export trade by the rise in time in our country. The exports of the United States now exceed those of Great Britain."

INCREASED SOME SALARIES. Finance Committee of the Public School Board yesterday afternoon. The vexatious question of teachers' salaries again was the subject at the meeting of the Public School Finance Committee on Saturday afternoon. At one time very few of the trustees said they would favor an increase, but all kinds of influences have been brought to bear on them, and with but one exception they are now of the opinion that the salaries should be increased.

PROTECTION FOR PLANTERS. Seed is the planters' ammunition, and good seed is just as important to them as the man's bullet is to the soldier. The Ontario Seed and Planting Co. is now in receipt of a large quantity of seed from the U.S.A. and is offering it at a special price.

RIOTING AT PALERMO. Riot prevented the raining of Train Cars and Depositions. Rome, March 2.—Manifestants in Palermo today prevented the operation of the tramway by placing obstructions on the tracks and by cutting the overhead wires. The crowd was dispersed by the police.

FOUL PLAY SUSPECTED. New York Millionaire Disappeared, and Had Diamonds and Cash on Him. New York, March 2.—Foul play is feared to be the cause of the disappearance of millionaire William H. Leff, head of the tailoring goods importing house of William H. Leff & Co. of this city. He disappeared half an hour after midnight on Tuesday morning last, wearing diamonds worth \$20,000 and with \$100 in cash on his person.

IT DON'T COST MUCH TO CURE CONSUMPTION. At one time it was considered necessary for a consumptive to go South for his health. Then he was told to go North. What for? The ozone in the atmosphere. A new way to get this and a much less expensive one is to take Powley's Liquefied Ozone. You get condensed oxygen in this preparation and your lungs are healed. Powley's Liquefied Ozone stops the germ attack.

Death of Sammy Harris. Chicago, March 2.—Sammy Harris, a well-known featherweight boxer, died suddenly today of pneumonia, at his home in this city. He was a twin brother of Harry Harris, the featherweight fighter, who is now in England.

GIRL ROBBED HER FATHER. Lilee Stever, Pretty and Accomplished, Sent to Prison at Her Father's Instance.

Woodbury, N.J., March 2.—Stern and immovable as Evan Stever in the County Court yesterday while his pretty and accomplished daughter stood trial for robbing her father of \$425. Mr. Stever, who is a well-to-do citizen of Westville, had lavished money on Lilee, his favorite child, and when he was robbed he could not believe that his daughter had appropriated the money. Evidence which could not be disputed was finally brought out, however, and then the kind and indulgent father grew stern and uncompromising and demanded the arrest of his daughter.

WEEPING GIRL PLEADED GUILTY. Her Stern Father Was Evidently in Distress But Was Obdurate. Woodbury, N.J., March 2.—Stern and immovable as Evan Stever in the County Court yesterday while his pretty and accomplished daughter stood trial for robbing her father of \$425. Mr. Stever, who is a well-to-do citizen of Westville, had lavished money on Lilee, his favorite child, and when he was robbed he could not believe that his daughter had appropriated the money. BELL ORCHESTRAL Pianos Supreme

I received the magnificent Bell piano which I ordered for my own personal use. I had been expecting a first-class instrument, but the piano which is available here, surpasses all my hopes. It possesses a splendid quality of sound, rich, pure and melodious, with great evenness of the scale. The action is rapid, with wonderful elasticity. I declare it is unequalled in Canada to possess a manufacturing plant able to turn out pianos of the Bell, which are unquestionably the best piano made in Canada.

WOMAN'S WORLD BY KATHERINE LESLIE

The idea of a hospital under canvas is one with which we are all more or less familiar because of recent wars in the world, but we do not usually think of this world, but in the "piping times of peace."

In advocating for the wife a little advice of her own to do with and spend as she pleases, Mr. Dawson says, and, in so saying, has got pretty well at the root of the trouble.

She kissed her finger tips to me— 'Twas winter weather, yet I swear The scent of woodbine in the air And shivering birds piped merrily.

We are assured on excellent authority that hats are to be low and broad for the spring and summer seasons, and that skirted gowns are to be strongly pressed forward.

The Crow's Nest Pass Coal Company, Limited ANNUAL MEETING.

The President Discusses the Proposed Railway to the American Boundary.

The annual meeting of the Crow's Nest Pass Coal Company, Limited, was held in Toronto on Friday, the 1st March, 1901.

The Directors have pleasure in submitting to the Shareholders at the Company their annual report, including statement of assets and liabilities as at December 31, 1900.

FINANCIAL STATEMENT—DECEMBER 31, 1900. ASSETS. Cash in bank, 2,208,016.65; Mines, real estate, plant, development, etc., 87,201.65; Accounts receivable, 67,005.42; Total, 2,362,223.72. LIABILITIES. Capital stock, paid up, 2,000,000.00; Profit and Loss Account, 362,223.72; Total, 2,362,223.72.

The President's Address.

Senator Geo. A. Cox, President of the Company, made the following address: In congratulating you upon the success of the last year's operations, it may be worth while to refer to the erroneous ideas that have gone abroad with regard to the management and control of the Crow's Nest Pass Coal Company.

It affords me great pleasure to announce that we are prepared to proceed at once with construction and development work, involving an immediate expenditure of \$888,000, and we already have in the treasury of the Company for this purpose, this large sum does not include the railway project, to which I will refer later, but will be devoted exclusively to development work.

All business men will at once realize how important such a development will be to the country at large, as mining camps are invariably extensive consumers of supplies. Not only will there be the direct employment for several thousand additional Canadian workmen, but a new and more extensive demand will be created for the products of Canadian factories in the east, and the food supplies from the western farms and cattle ranches.

It is only fair to you, however, to state that the present demand of British Columbia for coal and coke would not justify any such expenditures as we propose to make. This is self evident, when I state that the present demand of British Columbia does not exceed 100,000 tons of coal and coke per day, and we cannot expect this demand to increase in the near future, even under most favorable conditions, so as to justify such expenditures.

It is only fair to you, however, to state that the present demand of British Columbia for coal and coke would not justify any such expenditures as we propose to make. This is self evident, when I state that the present demand of British Columbia does not exceed 100,000 tons of coal and coke per day, and we cannot expect this demand to increase in the near future, even under most favorable conditions, so as to justify such expenditures.

Successful operation of the mines on a large scale would be impossible if our market were limited to British Columbia, and it was subject to the fluctuations we have experienced this last year.

To enter and hold this market, which means from 5000 to 6000 tons of coal per day, the Crow's Nest Pass Coal Company must have the best railway facilities available, and this is why it is absolutely necessary to build the proposed open, and why it is hardly any industry so universally beneficial to a country as coal mining and coke making for export trade.

In addition to the development of the coal and coke industry, the proposed railway will open up a prospect, and an assured prospect, of smelting development, which will come, from a public standpoint, of the very greatest importance. The success of the smelting industry depends upon the ability to assemble the various materials essential to the smelting process at the lowest possible cost, and the proposed line of railway is built connecting the Crow's Nest fields with the American railway systems.

Not the least important factor in the situation is the fear in the minds of American capitalists interested in the mining industry of the west, that an export duty may be put upon ores by the Canadian Government, and that this will cripple any smelting industry established on the American side dependent upon Canadian ores as its source of supply.

That this is not simply theory, but the mature judgment of practical smelting men, is evidenced by the fact that we have the most positive assurance from a smelting man of large capital and experience, that the charges for the proposed railway connection between British Columbia and the coast will be paid in full by the American side, and that the American side will be responsible for the construction of the railway.

With improved transportation facilities, as well as the improved smelting facilities which would be secured, a smelter could secure freight charges and give rates for treatment that are now impossible. It is hardly necessary to dwell at length on the resultant benefits to mining and other enterprises in British Columbia, which are of an immense nature.

It is hardly necessary to dwell at length on the resultant benefits to mining and other enterprises in British Columbia, which are of an immense nature. The prospect, therefore, for Southern British Columbia would appear to be excellent. Once the charter for the railway is assured, the construction of the coke area, the building of the homes for the miners and the virtual establishment of two new towns in Southern British Columbia will await only the opening of the season.

Advances in Canadian Securities During the Week—Irregularity of the Wall Street Market—The State of Money—The Steel Company—Railway Earnings.

The earlier tendency of the market to look for a recovery in the steel industry is now being replaced by a more pessimistic view. The steel market is still in a state of uncertainty, and the price of steel is expected to remain low for some time.

The market for Canadian securities is also showing signs of weakness. The price of Canadian stocks is generally lower than it was a few weeks ago, and this is due to a number of factors, including the uncertainty of the steel market and the general state of the economy.

**A Hair Food**

There is this peculiar thing about our Hair Vigor: it's a hair food, not a dye. It doesn't turn your hair suddenly black and make it look dead and lifeless. But gradually the old color comes back to your hair, — all the rich, dark color it used to have.

And if it stops falling of the hair. Even if your hair isn't coming out, isn't turning gray, isn't too short, isn't in the least unsatisfactory, yet you certainly want a fine dressing for it. You can't get anything better than Ayer's Hair Vigor. It keeps the scalp clean and healthy, makes the hair grow rapidly, prevents it from falling out, and does not allow a single gray hair to appear.

One dollar a bottle.

Rev. F. H. DuVernet Comments on Churchgoers Not Heading Preachers.

YOUNG LADIES AND WEARING APPAREL

Toronto Junction Council To-Night Will Discuss the Electric Light Question.

Toronto Junction, March 3.—Rev. F. H. DuVernet will to-morrow evening give a lecture on "Hypnotism or Artificial Sleep," in St. John's schoolhouse. His sermons to-day were very much on this line of thought. People, he said, grow so accustomed to the ticking of a clock, that when the mind was absorbed in thought they did not hear the tick. A slight burn, and the pain from it, were sometimes entirely removed for the time being by excitement of the mind in some other line of thought. So in church, when the sermon was being preached, the old man's thoughts would sometimes revert to the days of the past. The young man planned business enterprise; the youth thought of the big stroke he made in the last hockey match; and the young lady's thoughts were absorbed in the wearing apparel and millinery exhibits before her. Such persons went home, knowing nothing of what had been taught in the sermon. His remarks aimed at concentrating the mind upon the subject of the moment. His text was taken from Philippians, IV, 8, in which it is urged: "Whatever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report, if there be any virtue, and if there be any praise, think on these things."

The young people from all the churches in the town will hold a regular meeting of the Inverness Methodist Church on Monday, March 11. A song service will take place at 7:30, after which Rev. H. S. Matthews will speak on "The Social Side of Church Life," which will be followed by the "Question Drawer," conducted by Rev. J. W. Lee. Refreshments will be served at the close.

In addition to the salary question, the town council will discuss the electric light question at the regular meeting of Council to-morrow night.

The Carlton street choir and Sheldon quarter will furnish a program at the choir concert of Annet-street Methodist Church to-morrow evening.

Weston. The Weston Village Council, at a meeting held on Friday night, accepted the resignation of Councillor Frank, and fixed Wednesday, March 15, as the day of nomination for candidates to fill the vacancy. Mr. McEwen and Mr. J. T. McGuire are spoken of as probable candidates.

North Toronto. The receipts from the recent Liberal Conservative concert were between \$30 and \$50. Mrs. McCartney of Darville has caused a summons to be issued against Mr. J. Hinds of the same place for assault and use of abusive language. The case will be heard by Magistrate Smith on Wednesday morning at the Town Hall.

East Toronto. The Excelsior Club is the name of a club started on Saturday by Mr. W. Alexander in the building formerly occupied by the Excelsior Bicycle Club, on Danforth-road. The billiard tables are already well patronized, and other games and literature will shortly be provided. Mr. Alexander intends holding a bowling alley in connection with the club at an early date.

North York Farmers. A meeting of the Farmers' Institute will be held in Spofford's Hall, Spoffordville, to-morrow at 10:30, when the following subjects will be taken up: "Cold Storage and the Transportation and Marketing of Our Perishable Products," "Sheep Management," "The Export Bacon Trade," and "Soil Cultivation." The speakers are G. C. Cain, Craigburn, and M. A. Gee, Fisherville.

Deportations to Exclusion To-Day. Several deportations will wait upon the York Township Council to-day, in favor of adopting the principle of local self-governance.

Salisbury's Son Said to Have Offended Him by Position on Marriage Bill.

London, March 3.—Colonial Secretary Chamberlain is angry with Premier Salisbury's son, Lord Hugh Cecil, a member of the House of Commons, who has blocked a bill which had been warmly approved by Mr. Chamberlain, and which proposed to legalize in England marriages with dead wives' sisters which had been contracted in the colonies, where such unions are legal. Lord Cecil is the parliamentary champion of the extreme High Church party, which has always fiercely opposed attempts to make such marriages legal. Mr. Chamberlain's intention is known, because he has been advised that the new Australian Commonwealth will insist upon the stigma to colonial marriages of this kind being removed, and, knowing this, the Premier's son persisted in blocking the proposed legislation, which kills the hope of passage or discussing the bill at the present session.

There is said to be a considerable majority in favor of the bill in the House of Commons, and the statement of the Australian Commonwealth looked in Prime Minister Salisbury to secure a majority in the House of Lords.

Points of Advantage

The pedal motion of the Harmonist is the bicycle motion—not that tiring motion like that of an organ, where with long playing the ankles become intensely weary. The most delicate can operate the Harmonist without fatigue—less physical effort with the Harmonist than with any other "Piano-Player" made.

It has an automatic expression stop which easily enables the operator to give the proper shading and expression to any composition, however little she or he may know about music. This is a feature exclusive to the Harmonist—not known in other "Piano-Players."

Ye Olde Firm of HEINTZMAN & CO., 115-117 King St. West, Toronto.

No Knowledge of Music Required to Operate This Instrument.

.. THE ..

Harmonist

THE ONLY PERFECT "PIANO-PLAYER" IN EXISTENCE.

In other "Piano-Players" a knowledge of music is a necessity in order to get at the proper shading and expression when playing.

The first principle of a "Piano-Player" is that anyone, without a knowledge of music, can play on it.

The Pianola, Angelus and other "Piano-Players" fail at this point.

The Harmonist is the one exception—it can be operated by a child, it is so simple, whilst it has greater power, greater variation of tempo, greater range between pianissimo and fortissimo than any "Player" in existence.

—We invite everyone to visit our handsome Piano Salon and see for themselves the operations of this only perfect "Piano-Player" manufactured.

Ye Olde Firm of HEINTZMAN & CO., 115-117 King St. West, Toronto.

Points of Advantage

With other "Piano-Players"—the Pianola, Angelus, etc.—the operator must have a sufficient knowledge of music to mark his own time. The Harmonist is possessed of a simple contrivance, adjustable by anyone, that can be set to any time to suit the player's wish.

There is danger of the paper music of the "Piano-Player" sometimes getting damp and swelling, and then it will not adjust itself to the track on the bridge. But the Harmonist has an adjustable bridge in case the music does not track right and the defect is promptly overcome.

CAPTAIN BERNIER HAS FAITH IN HIS NORTH POLE EXPEDITION

The Intrepid French-Canadian Navigator Inspired an Audience With Some of His Own Enthusiasm at the Canadian Institute on Saturday Night.

The lecture on Saturday night of Capt. Bernier, the celebrated navigator, at the institute will be in smooth working order in the annals of the society. The gallant mariner, who is determined to carry the Canadian ensign farther north than has been penetrated by any adventurous predecessor in the Northern Polar region, was introduced to his Toronto audience, which thronged the hall last night, by Mr. James Bata, Public Librarian. Brought by the lecture, which was a most robust and vigorous in appearance, he fulfilled the ideal of an intrepid leader for heroic adventure. Having the record of becoming a sea captain at 17 years of age, he is every such a sailor.

Capt. Bernier, in simple but convincing language, laid his plan for his projected Polar expedition clearly before the members of the institute, and their friends who had gathered to hear him. He believes that by sailing thru the Behring Straits early in July, it is possible, by taking a certain passage, to reach the actual North Pole. Should his ship be once becalmed, he will have in charge of his crew, which will be trained in wireless telegraph, and in gun signals.

After talking to the institute which can be converted by sails into ice ships, he will plant cylindrical hollow flag staffs at regular intervals of his progress. These will be filled with powder, and will signal to the ship with wireless telegraph, and send up messenger balloons. He expects the expedition will be absent about four years. Capt. Bernier occupied over two hours in his lecture, in which he reviewed the past expeditions and the causes of failure, and inspired the audience with some, at least, of his enthusiastic belief that a Canadian is to be the first to reach the Pole.

Left for Ottawa. Capt. Bernier left Ottawa on the C.P.R. train last night. When seen at the Queen's Hotel last evening, he expressed himself as enthusiastic of receiving the aid which he asked from the Dominion Government, an enthusiastic and leading citizen of Toronto. He stated that he had forwarded the resolution passed on Saturday night to the president of the Society of Toronto, and the Canadian Institute.

From communications which he has had with Sir Wilfrid Laurier, he expects to see members of the Government at Ottawa to-day, and is sanguine that the Dominion Parliament in Montreal, which will convene on Friday, will take a year's advance money to secure the expedition.

ROUND THE CITY

Catholics and Temperance. Hundreds were obliged to stand at the meeting of the Canadian Temperance Association in Music Hall yesterday afternoon, fully 5000 people being present, so great was the crowd of people from Buffalo, who for 15 years, despite such persecutions, have remained true to the cause. The chair was occupied by A. J. Joseph Oliver, who in a neat speech attacked the liquor traffic. In his address yesterday afternoon, by liberal quotations from Roman Catholic authorities, he showed that the teachings of the Roman Catholic Church support those of the Catholics who were opposed to the sale of total abstinence and prohibition.

Woodgreen Anniversary. Anniversary services were held yesterday in the Woodgreen Tabernacle north of Toronto. The services were presided over by Rev. J. W. St. John, M.P.L.A., and in the evening Rev. J. H. Olive of Clinton-street Methodist Church. The church was prettily decorated with palms and flowers. A platform erected behind the pulpit afforded seats for the scholars. An excellent orchestra furnished the music for the services. Figures were given showing a steady increase in the attendance, and the flourishing condition of the Sunday school. A night, commencing at 8 o'clock, a concert will be held, for which a fine program has been prepared.

Two Sunday Blazes. A lighted cigar thrown in the grate of a store at 512 West Queen-street, occupied by H. Cooper, started a blaze shortly after noon hour yesterday. Before the fire was extinguished, damage to the amount of \$10 was occasioned to the contents. They are insured in the Economical Insurance Co. for \$1000.

Another small fire occurred yesterday afternoon in a four-story brick building at 200 Church-street, occupied by Mr. E. May and owned by Mr. Albert Myers. The fire was caused by a lighted match falling on a sofa. The damage amounted to \$10 to the contents.

Silver Anniversary. The congregation of Christ Congregational church, which has always fiercely opposed attempts to make such marriages legal. Mr. Chamberlain's intention is known, because he has been advised that the new Australian Commonwealth will insist upon the stigma to colonial marriages of this kind being removed, and, knowing this, the Premier's son persisted in blocking the proposed legislation, which kills the hope of passage or discussing the bill at the present session.

There is said to be a considerable majority in favor of the bill in the House of Commons, and the statement of the Australian Commonwealth looked in Prime Minister Salisbury to secure a majority in the House of Lords.

Ontario Rifle Association. The annual meeting of the Ontario Rifle Association will be held at the Canadian Military Institute on Tuesday at 11 a.m. The President, Mr. E. R. Deiter, M.P., is expected to preside, if by other engagements permit.

Milliners in Town. A large number of milliners from the leading cities of the province are registered at the hotel. They are here for the millinery openings.
