STRIKE IS CALLED OFF MEN GO BACK TO WORK AS COMPANY REQUIRES

Thru Energy of Members of Roblin Ministry, Peace Pact is Arranged and C.P.R. Mechanics Accept Majority Award.

MONTREAL, Oct. 4.—(Special.)—It is announced this evening by the Hon. R. Rogers, minister of public works for Manitoba, who has been negotiating with the president of the C.P.R. for ome days past, that the strike has een brought to a close.

It is understood that the western negotiations have been in the hands of Wm. Whyte, vice-president at Winnipeg, and Bell Hardy for the strikers, The Manitoba minister stated this evening that by the terms agreed upon the men accept the finding of the ma fority of the arbitration committee which, it will be remembered, they relected, and which was the cause of all

The company agrees to take back the men as they find room for them, and there will be no discrimination against men who may have gone on strike.

In fact, the president declares that there is no hard feeling whatever says: against the men on account of the dif-

ment which has been reached will give the company an excuse to get rid of a good many men who may have proved incompetent, yet on the other hand they are bound by contract to keep all the men who are good workmen.

It is quite likely that the agreement is larger money, there was never a hint that she was a smuggler.

During her lifetime she is declared to have smuggled into the United States merchandise, mostly jewels, worth \$2,000,000. With the sixty per cent. tariff added the value would be swelled to \$3,000,000.

James Somerville of the Machinists' Union, who was seen this evening, had not heard the news officially, but he said he expected it, and felt quite disappointed over the terms. It was Mr. Somerville who submitted the minority report of the board of arbitration, to back up which the strike was called.

CONFIRMED AT WINNIPEG.

WINNIPEG, Oct. 4.—(Special).— Seen late to-night J. H. McVety, who has had local charge of the strike, confirmed the report that a settlement had been reached satisfactory and honorable to all concerned, the exact terms being held in confidence by all parties. The agreement was signed this afternoon at the residence of Hon.

"An agreement has been reached between the company and the men honorable to both sides, particulars of which will be announced later," was the brief announcement of the ending of the strike. Both parties are extremely reticent and beyond the fact

SIR WILFRID DECIDES.

Convention Nominee Must Give Way to the Ex-Member.

MONTREAL, Oct. 4 .- (Special.) - Sir Wilfrid Laurier, who passed thru here to-day, fixed up a tangle in the County of Soulanges. At the convention Dr. Dauth got the majority, and the ex-M.P., Dr. Bourbonnais, would not agree. To-day Sir Wilfrid decided that Dr. Bourbonnais must be the condidate of the government.

Dr. Dauth has submitted to the party but this does not heal up the

WAR CLOUD AGAIN SETTLING ON BALKANS

Prince Ferdinand to Call Himself Czar of Bulgaria, and Austria Gives Notice to Powers.

LONDON, Oct. 4.-Events which threaten to change the political face of Europe are crystalizing with lightning rapidity. Almonst overnight the horizon of the near east, which seemed gradually to be assuming a peaceful appearance, has become crowded with war clouds.

News reaches here from several sources that two definite strokes are impending which cannot fail to bring matters to a crisis, and perhaps force an immediate war. One is the proclamation by Prince Ferdinand of the independence of Bulgaria, which will include Rumelia, taking for himself the title of "czar." The other is an uncement of Austria-Hungary of the practical annexation of the Provinces of Bosnia and Herzegovina as appanages of the Austro-Hungarian

DEVOTES MOST ATTENTION TO EFFECTS OF TREATIES

NIAGARA FALLS, Oct. 3 .- (Special.)-The best day's work of R. L. Borden, the Conservative leader, was performed to-day when he made a spectacular tour of the Niagara frontier and finished the week with a remarkable meeting in the big skating rink here to-night. His progress from St. Catharines was attended by a serles of ovations, the most enthusiastic of which was when he reached the of which was when he reached the big arena and was given a cheer-that lasted five minutes and was well sustained thruout. During the afternoon and evening Mr. Borden spoke three times, and in addition he made his appearance before hundreds at Merritton. At St. Catharines the opera house was packed and several hundred people who could not get in were spoken to in the Masonic Temple. By special car on the Niagara, St. Catharines and Toronto Electric Railway, the party proceeded to Niagara Falls. As the car passed thru Merritton, a manucar passed thru Merritton, a manufacturing town, factory whistles screeched a welcome and the crowd was so great at the trolley station that Mr. Borden got down to meet the people.

The neighboring Town of Thorold, which is in the riding of Welland, gave the Conservative leader a warm

FEAST OF ATONEMENT. Day of Worship for Hebrews World Over.

The Day of Atonement, the most important houiday in their calendar, is being delebrated by Jews all over the world from sunset last evening until sunset to-day.

This day occurs on the 10th of the month of Tishri and with it the penitential term, which begins on New cording to ancient tradition the Book Kippurim or Yom-Kippur, and the Jews who do not observe it are con-

sidered by their brethren lost to their festivals representing conditions and commemorating facts of a bygone past, will, in the course of time, necessarily disappear from the Jewish calendar, dragging with them perhaps even the awe-inspiring Rosch-ha-schonah; while the synagogue of the future will vainly try to save the Sabbath from its rption, in one way or the other, by the Christian day of rest, the Yem-ha-Kippurim, being rooted in the psychological needs of man, will survive as long as the Jewish community shall maintain its independent religious existence. BY CHAS. M. HENDERSON & CO. IMPORTANT AUCTION SALE or Six New Solid Brick Houses

AUCTION SALES.

A grand opportunity to secure a lovely home or a fine reatable property for investment.

The houses to be sold are Nos. 36, 38, 40, 42, 44, 46 Wolfrey Avenue. This street runs east from the head of Broadview Avenue. The location is magnificent, overlooking Riverdale Park.

The elevation being high, the air is bracing and healthful; as one resident has said, "it's grand here." Near to schools, a minute's walk from cars, 11 minutes to Queen and Yonge Streets.

The houses are newly built and ready for occupation; they have six rooms, all modern conveniences, such as gas and electric lights, three-piece nickel-plated plumbing, clothes closets, summer porches, good pantries, sideboard built in from kitchen to dining room, a great convenience; large verandahs, improved furnaces, divided concrete celtars, side entrances, concrete walks to front. These houses are well and substantially built and docated in a fine residential section.

They were built to suit the requirements of the man who desired a first-class home with all improvements at a low price. If you are looking for a home it will pay you to come and examine these houses. If you are investors, this is an opportunity for you, being new houses, no repairs will be required for ten years. Terms easy.

This is an unusual opportunity to purchase first-class property.

DON'T MISS IT.

Date of sale, SATURDAY AFTERNOON, OCT. 10, at 8-o'clock, on the premises, Wolfrey Avenue.

EVERY PAIR OF SHOES IN THE STORE REDUCED

AN OPPORTUNITY TO SECURE SHOE BARGAINS THAT MAY NEVER OCCUR AGAIN

This store had but one reason for its existence-to introduce Dolly Varden Shoes to the women and Foot-Rite Shoes to the men of Toronto and surrounding districts. It was opened because the manufacturers were unable to find a dealer at that time who would carry the complete range of styles and sizes prior to a demand being created for the Shoes with the public. Now, however, we have completed negotiations with a prominent merchant to handle Dolly Varden and Foot-Rite Shoes in their entirety in this city. With an established agency to promote our interests, this store has fulfilled its mission. Hence the reductions offered on present stock, and the agent appointed wishes to start the new agency with an entirely new line of Dolly Varden and Foot-Rite Shoes. So every pair of Shoes in this \$28,000.00 stock must be sold within 14 days.

COMPELLED TO VACATE PREMISES ON OCTOBER 24th.

OF INTEREST TO WOMEN

Miss Barrymore's Friends.

No wonder society in the United States was shocked at the reported — but denied remarks of Ethel Barrymore. Society women in New York who have entertained Miss Barrymore frequently include Mrs. John Jacob Astor, Mrs. J. Borden Harriman, Mrs. George J. Gould, Mrs. Robert Goelet, Mrs. C. Oliver Iselin, Mrs. S. Stanwood Menker and many others. These women, with fifty others, made up a fund only with a cloth and make air-tight. teenth pole. Red Gauntlet was disqualified and W. H. Carey declared the winner. The decision of the judges caused a roar of applause from the supporters of Carey.

The steeplechase, at two and one-half miles, had but five starters, and went to the top-heavy favorite after a sharp struggle with the Flippen gelding. Bell-the-Cat. Bilberry, as usual, refused, and Byzantine unloaded Jockey E. Stone early in the trip.

R. F. Carmer's mare, Cloisteress, was an odds-on favorite for the fifth race, but the best she could do was to finish second a head in front of the outsider, Manheimer. Aimee C. won the race after receiving a perfect ride from Garner, and in doing so the Water-color filly negotiated the 6 furlongs in 1.12 3-5. The talent went down good and hard in this race, as the favorite was well played even at the short price of 7 to 10.

Get wise boys, and go with the man that get the winners. Two good things for today—10 to 1 and 4 to 1—and a cinclate 4 to 1. Guaranteed special. Com and set them, boys. Regular card and a cinclated the street of the set of the series of the	and generous master to follow over such a magnificent country as surrounds Toronto. Particularly exhilarating is a chase across country at this season of the year, when teh air is chill, with fields tinted and autumn's rustic foliage presenting such a magnificent sight. The faint twang of the huntsman's horn, blending with the cry of the hounds, is music only known to a hunting man. The kind-hearted farmers of Etobicoke, Scarboro and York, whose lands the Toronto Hunt ride over, are also to be thanked for the generous manner in which they grant this privilege, and it is to be hoped that this year will see at the point-to-point cross-country races, which are to be held on Saturday, Oct. 17, on the Munroe farm (Stop 24, Kingston-road cars), a very strong contingent representing each of these townships in the farmers' flat race, for which the master, Mr. G. W. Beardmore, kindly donates a valuable cup. The run on Saturday was in a westerly direction, circling around and finishing at Bedford Park, a distance of about 15 miles, with fair fencing and the ground in excellent condition. Owing to the dry condition of the ground the scent was not picked up very quickly, and a fairly fast run was made. It may well be said that "it is seldom, if ever, you will find them together," a finer lot of hunters at any meet. There were about 40 in saddles, and among those were: The master, Mr. G. W. For a steady grind, a safe and conservative method of beating the races, nothing compares with this series. Only a small capital is required to make a good income every week. Don't be surprised to see us put six straight winners over the plate this week, and most of them at good odds. From information we have on hand about a number of tricks, we feel almost positive that not our followers will gather in a bunch of easy money.

The Galt Reporter says editorially: While traveling thru Indiana two weeks ago the editor of The Reporter saw from the car window farms after farm given over largely to sheep raising and corn. In conversation with a member of the staff of the state university and the manager of an implement factory he learned that it was a question which line of industry had the call among producers. But each was declared to yield splendid results to the farmer, and in one section at least the agriculturist preferred sheer Asked as to the price of wool in the state, the Indianians said it ranged between 18 and 20 cents.

The points across the line referred to are only ten hours' journey from Galt, where wool is quoted at 8 cents. Why this difference in price? Time was when Ontario was a first-class wool market. Her farms are still adapted to the raising of sheep. Why is the industry-so profitable in Indiana, where farm land averages, according to the official returns, \$60 per acre declining in this province?
In our tariff, the tariff that kills, is

found the answer. The sheep raisers of Indiana, Ohio Utah, Oregon and other western states were in a bad plight a few years ago while Cleveland was in office and a low tariff brought into the country a flood of European woolen goods, closing hundreds of home mills. The sheep raiser found his profitable market gone, while the manufacturer saw his capital tied up in a losing business. The latter could not pay the standard of American wages and keep his mill

open. He could not compete with the product of cheap labor. Four years of disaster quite satis-fied the wool growers of half a dozen states and they joined hands with the manufacturers to put in McKinley to conditions favorable to home industries. The election of the Ohio pro-tectionist brought the Dingley Bill and PUTNAM'S PAINLESS in the allied interests. Protection that

Castro Inclines to Fight.

CARACAS, Sept. 28, via Willemstad, Oct. 4.—President Castro returned to Caracas a few days ago, cutting short his stay at Barquisimeto on account of ill-health. For a time the president was a very sick man, and consultations of physicians were held daily. His condition is improving now, but as yet he has not been able to give his attention to Holland's second note, which Baron Seckendorff, the German minister, presented to him on Friday last.

"The Belle ofo New York," presented at the Royal Alexandra on Saturday afternoon, makes special demands on the capacity of the company that undertakes its production. It has little of strong interest and owes its popularity exclusively to artistic ability, and its attraction and arrangement. But the Imperial Opera Company evidently found little difficulty in satisfying the expectations of the exceptionally large audience that welcomed their appearance. The musical comedy from beginning to end met with an entirely appreciative reception and the from begining to end met with an entirely appreciative reception and the numerous recalls showed that "The Belle of New York," in their hands, has lost none of its quality which en-

sured its original success.
Saturday's performance saw the return of Miss Agnes Cain-Browne after her holiday recess. She took the role of Violet Gray, a Salvation lassle, and her liquid voice and fine vocalization confirmed the impression created by her appearance earlier in the season. Her renderings met with sympathetic reception and testified to the place she now holds in Toronto musical circles. Miss Carrie Reynolds was bright and happy as usual in the role of Fifi Fricot, and Miss Eva Crox as Cora Angelique, confirmed the favor-able opinion formed on her first appearance as a member of the Imperial Opera Company. As Mamie Clancy, a Peel-street girl, Miss Maud Courtenay Peel-street girl, Miss Maud Courtenay gave an excellent characterization, and Misses Rubie Leslie and Laura Chris-topher in their parts of Kissie Fitzger-ald and Pansy Pinns were fully up to

Mr. Harvey's rendering made his part
amusing without vulgarity and this is
one of the secrets of his popularity.
W. H. Pringle as "Blinky Bill," a

DRIFT OF FOREIGN VOTE IN CENTRE TORONTO

Meetings for Jews and Italians-No Still Hunt Tactics in the Ward.

Ward for the capture of a majority of the foreign vote is one of absorbing local political interest. Friends of both candidates have been claiming that their man was winning out. The them Jewish and Italian vote is each a strong factor and this is receiving great attention, especially by T. C. Robinette, the Liberal candidate, who addressed no less than three meetings of Jews on Saturday night, and will hold a public meeting for the Jewish voters in St. George's Hall to-morrow

w. J. O'Reilly, secretary of the Toronto Liberal Association, was asked why he was so confident that Mr. Robinette would carry Centre Toronto on Oct. 26. The reply was for one thing because Mr. Robinette has done more than any other man to establish the right of Toronto to the many public expenditures made here by the Dominion Government during the past five years. He rendered valuable at in securing the needed harbor im provements, the enlargement of the armories, and the retention of the observatory in Toronto in its new build-ing on Spadina-avenue. He is at present making a vigorous effort with every prospect of success to secure a new postal station at the corner of Spadina-avenue and College-street.

The police are joking over the new records which the flery red Robinette automobile is making flying around the ward. They say that Tom will be his own client in the police court if he permits his zeal to further outstrip the speed bylaw. But to the residents of the ward quite a little spice is added by the Liberal candidate making his calls on them, in so resplendent a

THE WEATHER

Yesterday was everybody's day, and ne of the most beautiful since fall

one of the most beautiful since fall began.

The man without an overcoat was as happy out in the warm sunshine as the down-town swell in his newest Chesterfield. The girl with the straw hat held her head just as high, and her eyes sparkled—because of the beauty of the day—just as brightly as did the girl with her new fall millinery.

The young lady with the white lawn shirt waist was just as happy as she with the newest gown, directoire or empire effect. Everybody was out, everybody enjoyed the day.

In the morning something like 'steen million little yellow flies blocked the way of church-goers or those who were going some place else. They butted into everybody, got into eyes and mouths, and covered the black suit, until its wearer, looking down, wondered if he'd 'brushed up' before leaving home. But that was about the only drawback to a very pleasant morning—and it wasn't very serious. The sky was a rather peculiar one. Blue, yes; but a rather sickly blue, and covered by a haze like my lady's veil.

If I was the Weather Man, and had

and covered by a haze like my lady's veil.

If I was the Weather Man, and had only the sky to go by, I would have said of yesterday's probabilities that rain was "just around the corner." The sun seemed to be working hard, but he stuck to his job all day long, and gave cheerfulness to many a sad heart as well as increased happiness to many a glad one.

It was a Sunday to be remembereda grand day.

Mayor Oliver and Youthful Ruler of Milwaukee Have Warm Argument at Omaha.

The question of how a municipal council should deal with the liquor business was a very keenly-discussed one at the Omaha convention of the League of American Municipalities, according to Mayor Oliver, who, with Controller Hocken, returned yesterday. The session lasted three days.

The debate was very spirited, owing to the radically different opinions held by representatives. From his worship's remarks it appears that he and Mayor Rose of Milwaukee (the "boy mayor") became involved in a warm controversy. In the brewery city, saloons are open at all hours, night and day, including Sundays, the city council having shown no inclination towards "putting on the lid." Mayor Rose argued that this broad policy of dealing with the foaming stein was a model for other cities, but Mayor Oliver owned up to other ideals. He told the delegates that in Toronto the city council controlled the traffic, and that a bylaw reducing the number of licenses had been upset by a technicality. The Mayor of Wichita, Kansas, spoke very strongly on the advantages of a "dry" city, asserting that Wichita's progress since the citizens had voted for the water wagon ticket a year ago had been much greater than before.

the convention.

The subjects of home rule for cities and municipal government by commission were also given prominence, and there was plenty of argument on both sides. The mayor was not impressed by the system in the United States cities, which makes it necessary for civic candidates to get the endorsation of the primaries before they can run.

Nearly three times that amount was donated. The new building is of solid brick, \$4 feet by 20. It was erected and equipped at a cost of about \$1000. The room will be largely used for social meetings in connection with the church.

OTTAWA, Oct. 4.—(Special.)—Chas. H. Parmelee, ex-M.P. for Shefford, has been formally appointed King's printer, in room of Dr. S. E. Dawson. Mr. Parmelee, who is 53 years of age, has been a newspaper man for thirty-five years. He is the publisher of The Waterloo Advertiser. For two or three years he was in journalism in Montreal. He was first returned to parliament for Shefford in 1896.

FROM THE LAKESIDE HOME. 125 Inmates to Be Brought Over From Island This Morning.

This morning 125 children, patients of the Hospital For Sick Children, will be brought from the Lakeside Home for Little Children, the summer sanitarium of the hospital at the lighthouse, to the mother hospital on Collegestreet. They will land at the ferry dock, Bay-street, at 11.30, and proceed in fifty open carriages along York, King, Yonge and College-streets. About 350 sick children have been housed and treated this summer at the Lakeside Homethe most successful season since it was founded, in 1832. Every night for four months 100 of these sick little ones have slept on the great balconies of the home, and the results in improved health have been marvelous.

sumption of North America dividend. World Office Saturday Evening, Oct. 3. Saturday Evening, Oct. 3.

Clever manipulation was the only feature at the New York market during the past week. The exchange apparently had relapsed into the ordinary traders' proposition during the larger part of the week, when the supporting interests saw that a short interest had interests saw that a short interest had accumulated and an attempt was made accumulated, and an attempt was made to make these speculators cover. to make these speculators cover. The contest between the opposing forces was carried on until to-day, and unless an examination of the accounts of the contestants could be made it would be impossible to decide which had profited impossible to decide which had profited products.

It is no longer believed, even by the neophyte, that prices at this market represent anything else than the specurepresent anything else than the speculative situation at any one moment. The whole market is saturated with the idea that money is to be made out of someone. Earnings and everything else in regard to securities are entirely subjugated to the personal operations of cliques, who can only profit by acting in opposition to the large majority of outside traders. It has been found difficult to get buyers at present quotations, but there are always those who tations, but there are always those who are willing to play the market, and sentiment recently has been strongly against the high range of quotations.
Against short transactions by clients and brokers, the New York financiers are now exacting profits by reason of their grip of the market and their ability to control funds.

The one favorable incident in the market, if such can be accepted as of any permanent value, is the attempt row being made to advance railroad rates. The transcontinental roads have agreed upon an advance in freight rates of from 5 to 8 per cent., and the southern roads are endeavoring to take concerted action along the same lines. This movement seems to have been well-timed, as the members of the interstate. timed, as the members of the interstate

With the political campaign now in full swing, the market will lend itself to frequent swings, and on good breaks speculative purchases can be made for quick turns.

Speculation has entirely disappeared from the Toronto stock market during the week. Traders have ceased to re gard this market as presenting any possibilities for quick turns, and are gradually turning their attention to the wider and more active field in the mining issues. Nothing of consequence has transpired to interrupt the market or to change the trend of sentiment and apathy among both speculators and investors is now clearly the feature of

The only activity in Canadian securi ties has come by way of New York in C.P.R. stock and the stocks of its allies. movement seems to have been well-timed, as the members of the-interstate commerce commission will be largely governed in their actions by the political outlook, and will not feel disposed to make unnecessary enemies during the campaign now in progress. These tunnatural advances, however, cannot gain the confidence of those looking beyond the immediate present.

As far as the operations in the market are concerned, manipulation has been confined to a few stocks. The biggest advance has been made in Rock Island preferred. On what grounds this stock has been boosted has not yet been proclaimed, but seeing that only a few months ago it was presumed that the company was unable to pay its debts the advance in this stock is the more noteworthy. excellent The surface news on Monday will probably have a bearish appearance, but in our opinion it has been discounted. The longs are pretty well sold out, and a large short interest exists. Public interest is extremely light, which leaves the market in temporary control of the professional element, which at the moment are playing bear side. However, we are looking for a decrease in receipts, and feel that on any decline from this level foreigners will be large buyers of wheat. These breaks are great opportunities to buy. Timidity is a liability; courage is an asset.

Corn—Weak, owing to ideal crop conditions, and the lessening of cash demand. The feeling that the large deliveries made to the bull pool in September corn will be a menace to the cash market for a few weeks, is creating a weak feeling in the futures. There are reports that the country is already soliciting bids for new corn. If this is true, the stocks of old corn will have to compete with new offerings, and until the atmosphere is more clear, we would advise caution on the long side, but as the crop is only a moderate one, May corn around 60 cents, in our opinion, is not too high.

Oats—The strongest on the list. Pit offerings extremely light. Demand seems sufficient to absorb all cash offerings at this level. There is apparently very good buying in May oats, as the crop reports this last week have been uniformly bod. Around 50c they should prove a purchase.

Reaction in the Mining Market is Healthy and 1814

World Office,

Saturday Evening, Oct. 3.

Last week's record of the transactions in the mining markets is very suggestive of a period of rest and recuperation, after a strenuous advance. The remarkable part of the episode was the firmness displayed by nearly every one of the active Cobalt securities in the face of a good deal of profit taking. The steady and quick advances in prices during the previous few weeks, had served to accumulate a large speculative following in the market, which could only be gotten rid of by a reaction in prices. Speculators who had followed the advance began to sell their securities just as soon as this mine. Trethewey has been will bought during the week, as has also been the case with Cohlagas, on 20 winds a discovered recently.

At the close of the deek a bigger activity was only prevented by a scarcity of stocks on cround present prices.

Stocks on cround present prices, of the buying orders in the market, which could only be gotten rid of by a reaction in prices. Speculators when had followed the advance began to sell their securities as soon as they saw the market provides in the market, which told only be gotten rid of by a reaction in prices. Speculative selling in such a followed the shares more for the purpose of dividends and prospective future values, than for immediate profits. The fact that the market by investors.

The news of the week has served to stimulate buying from those who now regard the camp as a permanent and continuously improving proposition. New strikes on many of the better properties were reported. Ore shipments for the month of September were largely in excess of a

There has been excellent absorption of the La Rose shares all over the continent, and New York is beginning to take a greater interest in Cobalt than it has done since the boom two years ago. The resuming of full shipments by the Silver Queen property has taken place. The work at the mine was somewhat interfered with by the fire which disabled part of the company's machinery, but these shares are now beginning to appreciate this improved condition.

COBALT, Oct 3.—(From the Man on the Spot.)—One of the best undeveloped properties in Cobalt is the Cochrane. Its proximity to the Temiskaming means that at a depth of 200 feet the Cochrane will be in enormously rich ore. "The Man on the Spot" has pointed out in many letters the great possibilities of this section of the camp.

It is gratifying to know that a first-class mining engineer will be put in charge of the development work at Cochrane next week. New buildings will be exceeded to replace those burnt during the redent forest fires, and the shaft near the Temiskaming will be continued to a depth of 200 feet.

Rich ore has also been found in the other shaft, originally the main shaft and this will be continued to a depth of 100 feet before drifting will be started.

COBALT. Ont., Sept. 22, 1908.-(From Our Own Correspondent.)-The Nova Scotia Mine, one of the new and promising properties of this district, I have visited to-day in the course of my inspection of

the mines of Cobalt. This property, by thoro and systematic development, is showing splendid results and promises soon not only to become a dividend column shortly.

I have seen at the Nova Scotia some of the highest grade ore to be found any-where in this camp, and I have found that, locally, as well as thruout Canada, it is regarded as one of the great mines

location of the Nova Scotia is one The location of the Nova Scotia is one factor greatly in its favor; and another is that it is backed by men strong financially, who have great faith in its future and are rapidly pushing its development. I find that very many of the best-posted mining men in Cobalt, as well as in Toronto and Montreal, are quietly buying the stock with the expectation of a good, substantial advance in price in the near future.

BUYERS

Improvements at the Nova Scotia are going forward rapidly. There are two shafts on the property, No. 1 being 120 feet deep, and No. 3 150 feet deep. Thru these shafts the mine has been opened up with 1300 feet of drifting and 500 feet of cross-cutting. The main pay chute was encountered in No. 3 shaft at a depth of 100 feet from the surface, and on this chute in eight equal annual prest at 4 per cent. Survey

feet and found the ore continuous for this entire distance.

In examining the ore from this vein I found some of it to be bonanza, assaying very high. Rich seams of native silver are scattered thru it, and as soon as stoning is begun considerable high-grade shipping ore will be available and will yield handsome returns.

The Nova Scotia Mine is in good hands, and will, I believe, be heard from in the near future in a very favorable way. It is surrounded and in close proximity to several of the most important mines here, and its owners have good reason for their strong faith in its richness and value.

It is estimated by well-posted mining men in Cobalt that upward of \$1,000,000 worth of good ore is already blocked out in this mine.

Joseph L. Barker.

NELSON, B.C., Oct. 3.—Despite shutdown of Boundary smelters during the early part of the year, the production for 1908 is now nearly the same as corresponding period of last year. Owing to reorganization of Dominion Copper Company's plant at Boundary Falls, the output for the week is slightly less than it was this week last year, being 43,118 tons, as against 44,066 tons. Total output to date is 1,324,364 tons, as against 1,364,271 tons a year ago. Boundary shows an increase of 70,061 tons, and Rossland 5937 tons. The falling off is in the output of the Slocan mills, and is more apparent than real, several not reporting. A good many properties are being opened up all over these districts.

Free Railroad Fare to Buyers

Every purchaser of 160 acres or more of The Saskatoon & Western Land Co.'s land will have the entire price of his railroad transportation paid back to him. You buy your ticket on the very low homeseekers' rates all the roads give, and we pay it back. That is an inducement for you to come, to the auction and to buy now.

When purchasing your railroad ticket, get a regular railroad receipt from the railroad agent showing the point from which you start and the amount paid, also the name of the railroad company, the date purchased and the signature of the railroad agent.

The Saskatoon & Western Land Co.'s auction will be held at Regina, Saskatchewau, Canada. Nowhere else. It will be held in The Saskatoon & Western Land Co.'s own pavilion—nowhere else. It will be held Oct. 12, 13, 14, 15, 16, 17. Remember those dates. Don't get there late. Be on hand early. Don't buy, under any circumstances, of anyone until the auction is on—no matter what you hear. The Saskatoon & Western Land Co.'s land is extra choice. Don't take somebody else's word that they have land "just as good."

This land was especially selected—its title Is from the Crown. The terms of payment will be the fairest. You will be dealing with a wealthy company that will always stand behind every promise and give you the most liberal treatment you can ask.

The Saskatoon and Western Land Co.'s Land is Extra Choice Grain Land. You Get Title From the Crown -An Indisputable Title

The Saskatoon & Western Land Co., Ltd., had the pick of 3,000,000 acres of best Saskatchewan prairie lands. We took in our grant extra choice acres—not all in one continuous piece, but a section here and there, so as to get the most fertile, the deepest soil, ground free from boulders, with best water, near railways—in fact, land ready for the plow, ready to yield the golden harvest and make profits from the very first. Think of it! 250,000 acres of these lands to be offered at public auction.

THE AUCTION

Upon a parcel being knocked down, the bidder shall immediately make the derosit of 10 per cent. of the purchase price with the Clerk of Sale. Otherwise the parcel may be put up again or withdrawn from sale.

The Weston Fair Grounds are admirably adapted for the purpose, im-

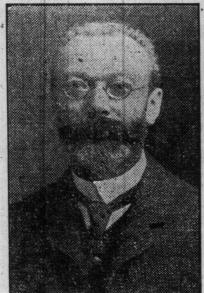

mirably adapted for the purpose, immediately to the west of the village, and skirted on the one side by the Humber River and on the other by a natural amphitheatre of hills, affording shelter and a fine opportunity of sightseeing.

But more than all else, Weston Fair is fortunate in the choice of president in George W. Verral, who has the happy faculty of inspiring his fellow directors with some of his own enthusiasm and self-sacrific, and to this fact, more than any other, are due the magnificent results of Saturday afternoon. Expert judges of horses drawn from different parts of the province were free to admit that in some respects the display was superior to the Canadian National, and this is borne out by the fact that winners of the red ticket in Toronto were forced to take second place here to local exhibitors. The display of ladies' work was surprisingly large and excellent, and the same may be said of dairy and domestic products, grain and roots, poultry, plants, flowers and fine art.

Partial Opening of the New Basement

Part of the new Basement will be ready for business Wednesday morning—as much of it as can be spared by the builders, who are still at work on elevators, machinery equipment and the larger task of concreting and finishing the upper floors. Enough of it is in evidence to show the character of construction in the New Building-the massive pillars and high ceilings, the solid, safe, luxurious finish to everything even in its incomplete state. It will enable shoppers to judge for themselves how really magnificent the store will be when fully completed, and how very different to anything heretofore attempted in Toronto. Our only reason for the partial opening at this time is urgent need of room for the

October China Sale Extraordinary

which will occupy all the new premises available, with the largest and finest collection of fancy China, Dinnerware and Cut Glassware ever dreamed of in Canadian Storekeeping. In addition to buying much more heavily ourselves in anticipation of the New Building, we have made the store a clearing house for overstocked manufacturers, who are glad of the chance to make big reductions for quick money. It is natural and reasonable that we should want the New Basement to get the biggest kind of a send-off as regards business, and any reputation we have ever had for liberal values is to be largely strengthened by this sale. We want you to see the character of the building as well as the surprising bargains, and by combining the two in one special event we anticipate big crowds and big selling from the opening of the doors Wednesday morning.

New Perfection in Men's Clothing

Simpson clothing for men has a new reputation this fall. In all the years that we've operated a men's store, no such suits and overcoats have been offered before readyto-wear. Made of the finest foreign and domestic fabrics, the workmanship rivals the most skilful custom tailoring in styles that are absolutely new. Some men will continue to imagine that fit or style depends on custom-work, but five minutes' looking will very quickly prove different. For instance see these Tuesday.

Men's Fall Topper Coats, made from fine imported English covert cloth, in plain rich fawn and assorted olive shades, with fancy self stripe, they are fashionably cut in short boxy style, shoulders are broad and well built, tailored in the most careful manner, best twill linings, all sizes, extra special value, Tuesday \$8.50.

Men's Black English Melton Overcoats, made up in Chesterfield style, single breasted, the acme of latest design, the material has a quality of endurance that will outlast the fashion, they are made roomy and long, with silk velvet collar, permanently shaped lapels, tailored to perfection in every respect, best twill linings, every size, special price Tuesday \$13.50.

Wolsey Underwear for Men

No matter when or where you purchase Wolsey Underwear you can rely upon its excellence. Wolsey Underwear is absolutely ALL WOOL and unshrinkable-so unshrinkable that should one turn out otherwise we will replace it with a new garment FREE. Come in Tuesday or any day you like and ask to see itwe'll be only too pleased to show you, whether you buy or not.
