His Majesty Promptly Sends Appreciative Reply Pope Pius Repled His Blessing—Papal Message is Delivered.

Rome Learns With Joy Of Canada's Devotion

MONTREAL, Sept. 6.—(Special.)—The formal opening of the 21st International Eucharistic Congress, and the first ever held in the new world, took place here this evening at 8 o'clock in St. James' Cathedral, amid exceptional brilliancy and display, probably never before seen in any Catholic centre of this continent.

Archbishop Bruchet made many sacrifices to obtain this signal honor for the Canadian church and for his diocese, but his triumph this evening was sufficiently magnificent to repay this brilliant, priestly and probably prince of the church for all he has done.

As hinted in the despatch of last evening, the legate in his opening address declared that in future these congresses would probably alternate between the old and new world.

Loyalty to the King, and his majesty's telegram to the King, and his majesty's reply, as follows:

"To His Majesty King George V., 'The Catholics of the empire, bishops, priests and laity present at the International Eucharistic Congress in Montreal, pray your majesty to accept this respectful homage of unwavering loyalty, and their expression of profound gratitude for the modification in the telegram to the King, and his majesty's reply, as follows:'"

"Signed) Vincenzo Vannutelli, 'Cardinal.'"

"Bismarck, Sept. 5, 1910. 'To His Eminence Cardinal Vannutelli, Montreal. 'I sincerely thank your eminence and all who are present at the International Eucharistic Congress in Montreal for the expressions of loyalty and wishes contained in the telegram which I have received to-day with much pleasure and satisfaction.'"

"(Signed) George, R. L. 'From the Holy Father. In answer to a telegram to the Holy Father, the cardinal secretary of state sent the following: 'Cardinal Vincenzo Vannutelli, Montreal, Canada: 'The Holy Father, profoundly touched by such noble sentiments, expressed by your eminence and the congress from the countries of the old and new world, of 120 bishops and a large number of priests, surrounding your eminence, the continent of America, joins with lively joy and emotion of the splendid manifestation of admirable piety, union and devotion of the government, citizens and Canadian people with the religious authorities united most cordially with the congress during these touching moments, from the altar, Jesus with the Eucharist to show the abundance of His favor upon the people and their labors, he sends with effusion his apostolic benediction.'"

"(Signed) Merry Del Val. 'Cardinal.'"

It was a magnificent sight at about 8 o'clock, when a hundred bishops and archbishops, headed by Cardinal Vannutelli, the Pontifical legate, and Cardinal Luigi, were seated in scarlet and gold, led the band of the archbishop's palace, and, coming out to Palace-street, entered the Cathedral from the east, and proceeded to their respective places in front of the altar railing.

The Papal Message. The great cathedral was packed to the doors, and there would have been many thousands more had the vast edifice been large enough to contain them. The legate first delivered his message to the congress, supplementing the same by reading the papal message, which had just arrived from the Vatican, in the following terms: "To our beloved son, Vincenzo Vannutelli, the Pontifical legate, and Cardinal Vannutelli, Cardinal of the Holy Roman Church, Bishop of Palestrina, Pius X., Pope. 'Beloved son, health and apostolic benediction. 'Our great desire to foster the devotion to the most blessed eucharist, from which, as the apostle says, 'streams of divine grace are poured upon Christian society at large, and the faithful individually, renders very gratifying to us the fact that you have almost passed into a custom, of holding solemn conventions at stated intervals and in various quarters of the world. In honor of this sacred mystery. 'Consequently, having learned that a eucharistic congress was to be held at Montreal, in Canada, and being desirous of enhancing the dignity, as also of meeting the wishes of our well-loved sons, the Archbishop of Montreal, who had labored with exceptional zeal to assure the solemnity and splendor in his metropolitan city, and the Bishop of Namur, who has long had charge of this species of congresses, we have de-

termined to send you our apostolic benediction, and to express to you our affectionate regards, and to commend you to the prayers of the Holy Father, and of all the bishops of the world.'"

"JOY-RIDE" ENDS IN CRASH WITH STREET CAR

Young Woman Seriously Injured and Two Men Hurt When Auto, Going at Lively Clip, Comes Into Collision With Trolley at Crawford and Arthur Streets.

Miss Dorothy Charlton, 54 Coxwell-avenue, is seriously injured, and E. Wetherall, 770 Lake Shore-road, Hanlan's Point, and Samuel W. Allingham, chasseur for T. W. Kennedy, 41 Colindar-street, were severely shaken up, while Mr. Kennedy's car was badly damaged as the result of a collision between the auto and a westbound Dundas car at Crawford and Arthur-streets at 11.35 last night. The young woman was carried into 283 Crawford-street and later taken into No. 251, where she remained in charge of two trained nurses over night.

Wetherall and Miss Charlton had been at a dance at 105 Arthur-street, when she said that she needed fresh air, and they went for a walk. They met Allingham in the car in Arthur-street and as he knew him, he invited them for a ride. They went north to visit the home of another young woman and were returning down Crawford-street, at what Wetherall admits was "a rate too fast for my liking," when they saw the car approaching. Allingham shoved on the brakes, but the car skidded. He tried to turn west on Arthur, to avoid the collision, but was struck a "side-swipe" by the motor. The car was raised on its north wheels and thrown into the gutter, where it struck both Wetherall and his companion, who were thrown out. Allingham retained his seat, while the nose of the car was thrown into the glass window of James Kennedy's at the corner.

Ready handed picked the unconscious woman from the sidewalk, and she was carried into the home of Henry L. Hudson at 283 Crawford-street. There she was attended by Drs. F. V. Hannlin, Grace and Arthur-street, and S. J. Magwood, 2 Lakeview-avenue. She was found to be suffering from severe cuts upon the head and a wrenched ankle. An artery in the head was severed and she bled profusely. She was later carried into the home of Mrs. Elizabeth Farrell, 283 Crawford-street.

The car, a green 4-cylinder McLaughlin-Buick, was badly battered and wrenched, but was run on to a garage by the police. The car was in charge of Motorman 738 and Conductor 748.

Wetherall's story of the occurrence leaves little doubt that the driver, Mr. Kennedy, was not at fault, and his statement that the auto was speeding is backed up by the statement of a resident of the street, who saw the auto passing on its way south, and that it was running at nearly 50 miles an hour.

The Good Cheer Angel Miss Theora Carter Adds Seventy-five Members to Her Society.

With one of the largest lecture rooms in the Technical School crowded to the doors last evening, Miss Theora Carter addressed the Canadian Business Women's Club on the good cheer work in which she is so deeply interested. Miss Carter has a very pleasing manner, and she won no less than 75 new members for the first society of good cheer to be formed in Toronto. Among those who expressed themselves much interested in the work were Miss Shereden, president of the University Alumnae Association and Mr. Hewitson, superintendent of the Friendly Club, and an ever cheerful angel has been requested to address meetings at both of these places in the near future.

Embalmers Convene Consider Proposed Act to Be Submitted to Legislature.

The 27th annual convention of the Association of Canadian Embalmers opened in the anatomical building of Toronto University yesterday. C. M. Greenwood of Stratford, presided. In his address he made very few recommendations, the chief one being in connection with the presentation of the proposed Embalmers' Act at the next session of the legislature. Prof. Hohenstein gave lecture on decomposition and communicable diseases, and the executive presented their report on the act. By the act, if passed, every person engaged in the embalming business will have to be duly qualified, and the holder of a certificate. A board of examiners will be appointed by the province, consisting of five members, the chief one being in connection with the examination of candidates.

A large number of new members were enrolled yesterday, and the sessions will be continued to-day. Father O'Mally of St. Mary's Church will this morning at 11.45, give them an address on "Gentlemen of Culture."

Posed as a Priest. MONTREAL, Sept. 6.—A sensation developed to-day when it was discovered that a man dressed in priest's apparel, who had smuggled his way into the Archbishop's Collegiate Institute, where, with twenty-five regular priests, he was enjoying the free hospitality of the diocese, was nothing but an impostor.

"EX" TO BENEFIT BY MONDAY'S DELUGE

Permanent Pavements to Be Laid—Yesterday's Attendance Shows Gain of 11,000 or More—Gen. Cotton Reviews the Syracuse Guardsmen, and is Impressed.

Stock-breeders' and fruit-growers' day at the exhibition, with its estimated attendance of from 75,000 to 75,000, as compared with 61,000 for the corresponding day of last year, is an indication that the big show has resumed the record-breaking gait which was somewhat severely checked by an event that will be known in exhibition annals as Black Monday. Gratifying annuals as Black Monday. Gratifying annuals as Black Monday. Gratifying annuals as Black Monday.

The farmers, stock-breeders and fruit-growers of Ontario are doing well, but, in the opinion of George C. Creelman, president of the Ontario Agricultural College, they would fare even better if they were more given to the investing surplus funds in farm implements instead of swelling the savings banks' deposits. Mr. Creelman gave his views at the directors' luncheon, held last evening on the grand stand in

HAMILTON HAPPENINGS

COMPANY IS ALLOWED TO BUILD THE FACTORY

Had Threatened to Leave the City Otherwise—Lack of Water Service on Mountain.

HAMILTON, Sept. 6.—(Special.)—The works committee was called on by a large deputation of property owners in the southeast section of the city tonight, who protested against the proposed bylaw to give the Appleford Counter Check Book Co. the right to build a factory in that district. The council enacted a bylaw a couple of years ago, prohibiting the erection of factories in that district, and the company in question threatens to leave the city unless allowed to build near the T. H. & B. tracks. It is proposed to pass a bylaw giving them that power. Thomas Allen, ex-wardman, was one of the deputation, and he threatened to sue the city for breach of contract, if the proposed bylaw was passed. The committee, however, decided to recommend the council to pass the bylaw, but that permission be denied all future applicants for the same privilege.

In order to provide a complete row of ornamental lamps on James-street, from King to Rebecca-street, which the merchants on both sides of the city hall have contracted for with the Cataract Power Co., the committee decided to make a contract with the company for three such lights in front of the city hall at \$10.72 a month. City Solicitor Waddell was instructed to prepare a bylaw prohibiting the use of dynamite in quarries and gravels within the city limits, or to regulate the use of the same. This was due to the complaint of residents of Crooks-street that their property was damaged by blasting in Yeates' gravel pit. The mountain residents registered another complaint about the lack of suitable water service, for the roads and roadways. The water and fire questions are already under consideration, and the committee had no money for roadway improvements there. Owing to the heavy traffic on Sherman-ave., the committee recommended that roadway between Barton-street and the G. T. R. tracks be reconstructed, and that an asphalt pavement be laid on Bay-street from Main to Bold and Rebecca, from James to Hughson-st. Market Regulating.

The property committee to-night instructed City Solicitor Waddell to prepare a bylaw governing the sale of butter on the central market, so that the public will no longer be cheated on the sale of prints. At the same time he will draft another bylaw compelling farmers to take the crops out of town before offering them for sale on the market. The weighing clerk at the coal scales on the hay market square will be transferred to Mylors' scales for the winter, and in the spring the committee will try and arrange to have the present city scales placed near the company's coal yard.

Robert Smith, property-gall, at the corner of Barton and James-streets. He was slightly cut and bruised, and after having his injuries dressed at the city hospital, was taken to his home. Trappnell GUILTY. Monteith Trappnell, the asylum attendant, charged under common law with aiding and abetting in the escape of the murderers, Moir and Taggart, appeared before Judge Monck this morning. Dr. English, superintendent of the institution, testified that Trappnell and his fellow-attendant, McCullough, were in charge of the murderers the night of their escape. McCullough, in the box, repeated that he had had keys of the asylum made at the instigation of Trappnell, and at his direction given them to Moir. He said he confessed when arrested and told the police about Trappnell. Trappnell himself gave evidence and denied in toto the whole of McCullough's statement. Judge Monck found Trappnell guilty and remanded him for sentence. Mr. O'Reilly said he would appeal.

The Gold Medal Exhibit. The beautiful array of gems, jewels and preserved in display in the east end of the manufacturers' building is representative of the exhibit which was awarded the gold medal at the Winnipeg Exposition this year, except, possibly, there is more of it. The high quality of the products of Weststaffe, Limited, Hamilton, is justly meritorious of highest awards, and the company's reputation has built up a demand that far exceeds the supply.

HOW MANY REALIZE THE MARVELLOUS VALUE OF FRUIT

IN CURING MANY DISEASES?

Wonderful Success of "Fruit-a-tives"—The Famous Fruit Medicine.

Fruit juice consists of about 91 per cent. water, 8 per cent. of sweet matter and only 1 per cent. of an intensely bitter substance. Careful experiments show that it is this bitter principle which is the active or medicinal material of fruit juice. Under certain conditions, the bitter principle can be made to replace or transform some of the sweet atoms in the juice, thus making a new compound which is much more active medicinally than the ordinary juice. Many fruits were analyzed and it was found that the juices of apples, oranges, figs and prunes gave the best results. These fruit juices, having been made more active by the secret process of changing the bitter principle into the bitter, are combined with tonics and antiseptics and made into tablets. These tablets are the famous fruit medicine—"Fruit-a-tives"—known in every part of Canada for their wonderful curative qualities in diseases of the Stomach, Liver, Bowels, Kidneys and Skin. "Fruit-a-tives" is the only medicine in the world made of fruit juices. 50c a box, 6 for \$2.50, or trial size, 25c.

and it has been found necessary to double the capacity of the immense preserving establishment in Hamilton next spring. Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1906. Modern and strictly first-class American plan. Rates \$1.50 to \$2 per day. Thos. Hanrahan, proprietor. Phone 1465. 131st

WHOLE FAMILY IS MURDERED

Policeman, Wife and Six Children Victims of the Black Hand.

REGGIO DI CALIBRA, Italy, Sept. 6.—The police arrested thirty persons, among them two who recently returned to Italy from the United States, on suspicion of having knowledge of the murder at Pellaro early Monday morning of Policeman Rovolino and his wife and six children. All except a little girl were killed with an axe. The child's throat was cut as she ran screaming from the house to attract attention. The police here ascribe the wholesale murder to the vengeance of the Black Hand Society in New York. The Rovolino family once lived in the United States.

FINE FALL FOR THE FARMERS.

One of the severest electrical storms of the season passed over the southern portion of York County on Saturday afternoon and, although little damage is reported, the lightning was especially vivid and the down-pour a short time later. Fortunately little grain now remains in the field, indeed it would be difficult to find any stalk remaining in Markham, York or Scarborough, in the northern Township of Whitchurch, Georgina and Oshington. The heavy rain has done much to clear the soil, and it is unlikely that the showing in quantity and quality was ever so large. Barley fruit remaining in the field ought to be good. The root and corn crops are being watered this autumn, and the latter are almost being up by day. A week or two and the corn cutters will be busy and the work of filling the silos will be in progress. It is not to become general until after the first of October. Second crop clover never looked better and so many avenues by which the farmer may aid to his bank account are opening up that the life of the latter is easily overshadowing in point of financial standing that of any of the professions.

APPOINTED A WOMAN.

ST. THOMAS, Sept. 6.—Mrs. Sprerin Chant, wife of Alderman Chant of York, has been given a place on the board of management of Alma College by the General Conference of the Methodist Church. It is the first time on record that the church has so appointed a woman.

Attorneys Refused to Act. NEWARK, Ohio, Sept. 6.—Several attorneys who were asked to defend some of the men indicted for murder of first degree, in connection with the lynching of Gale Charton, have refused to do so, saying they were opposed to lynching. Attorneys were finally obtained, and nearly all of the 58 persons indicted in connection with the slaying of July 8 last were formally arraigned to-day.

York County and Suburbs

PARALLEL ROADS TO GO THROUGH SHORT ORDER

Committee Force Project Through—Arrest in Weston—East Toronto Men Do Well.

NORTH TORONTO, Sept. 6.—(Special.)—It looks now as tho the parallel roads committee would not, even after its hitherto stormy passage, be allowed to conclude its work in peace and quietness, a bombshell having been fired into the committee's ranks at the last minute, by one of those directly interested in the prosecution of the work. Mr. George Cook is not satisfied with the award of the official arbitrator, and a consoling of changing the, he refuses to allow Engineer James to go on with the opening up of the road thru his property. This was communicated by Engineer James at a meeting of the parallel roads committee tonight, and to say the least, the members were disappointed, they, it is said, having expected little or no opposition to the scheme in its entirety. It is not contended that Mr. Cook has not a right to raise an objection, if he is dissatisfied with the award made, but the committee were hopeful that their worries were nearly over. However, drastic measures will be adopted, and on motion, Mr. Cook was given 48 hours in which to reconsider the matter and failing compliance with the orders of the council, there will be something doing. The eastern parallel road has already been opened from Broadway-avenue southerly to Davisville, and only waits Mr. Cook's consent to go southerly. The plan is to open up the parallel road between Brantford-avenue and Woodward. It was further decided that the westerly parallel road should be opened up and the proposition was told to get in touch with C. D. Warren in relation to the proposition made by Mr. Warren to the council some 100 days ago. Following the meeting of the parallel roads committee, the council were in session for a short time, and they made one or two important propositions, one of them being the appointment of Mayor Brown to interview the board of control and the city engineer, requesting the former to allow the latter to pass upon the sewerage scheme at present in course of preparation by T. Air Murray, C.E. This is in accordance with the expressed view of Mayor Brown to the works of some months ago, to the effect that any big work projected in the future must necessarily be in accord with the city's idea and secure the city's approval.

Another thing the council did was to favor the establishment of a concrete tank, the better to allow L. Lee Chong to proceed with his wash-house. The matter was handed over to the new board of health (their first official duty) for their endorsement. A court of revision will be held on the several local improvements in the near future. It is said that a good deal of real estate is changing hands in a quiet way, and some of the values here are properties are comparatively neglected. Real estate men look for a fairly active fall movement, and while no spectacular features are expected, there is a general feeling that North Toronto real estate was never in a more satisfactory condition than just at the present. Some of the values here have been placed beyond a legitimate basis, said a large property owner in the town to-night, "but while the advance is gradual, and we are of a long way from the centre of the city, I am satisfied that to the man who can afford to wait for a while, North Toronto property offers a most attractive prospect."

There is undoubtedly a good deal of dissatisfaction in town over the failure of the council to reduce the tax rate below the 18 mill rate, especially in view of the abnormal increase in the assessment over last year. "I can't see what the council have to show for the money spent on the rate, since they are not going to make a payment on that this year at all," said one man to-night. "Not alone the general rate, but the school question is a serious one," he continued.

EAST TORONTO.

Local Horsemen Win Three First Out of Four Exhibits. EAST TORONTO, Sept. 6.—(Special.)—One of the most gratifying features of the Canadian National Exhibition, especially from a local standpoint, is the magnificent success attending the well known firm of Paterson Bros. in their exhibit of thoroughbred and standard bred horses. In a large and especially meritorious class they won the coveted red ticket with the great thoroughbred stallion "Haling" and again with the beautiful three year old filly "Violet E.", they carried off the highest honors. The thoroughbred mare "Be Quiet" with her colt, also succeeded in bringing to her owners the highest award. The fact that Paterson Bros. won three firsts out of an entry of four, is a wonderful tribute to the good judgment of this young firm, and stamps them as in the very forefront in their chosen line to-day. The honors won will give especial pleasure thruout York County, where Paterson Bros. are well and favorably known.

A STRANGE ASSAULT.

County Constables Arrest Weston Man Charged With Serious Offence. WESTON, Sept. 6.—(Special.)—James Finnegan, a local man, living on Main-street in this village, was arrested at 2 o'clock this afternoon by County Constables Burns and Stewart, charged with committing an assault upon his sister-in-law, Miss Maggie Moran, at an early hour this morning. The facts leading up to the arrest are substantially these: About 2 o'clock this morning Miss Moran was awakened in her room by the noise of someone moving about, and feeling a hand on her shoulder, which she at first thought to be her sister, Miss Mary, sleeping in an adjoining room. On finding that the hand was that of a man, she

"Have you tried the new chewing gum with the mint flavor?"

"Yes it's the most fascinating and refreshing flavor I ever tasted. It has whitened my teeth, perfumed my breath, and helped my digestion!"

Look for the spear The flavor lasts. Made in Toronto, Canada. Your dealer should sell it. Wm. Wrigley, Jr. & Co., Ltd., 7 Scott Street, Toronto, Ont.

"Buy of the Cutlers" ONTARIO DIAMOND CO., 99 Yonge St. Consolidated with Antwerp Diamond Cutters, successors to Welsman & Co. Established 1887.

NOTE—Diamonds bought of us may be returned, less ten per cent. of purchase price, at any time stipulated in bill of sale. We handle only blue-white or pure white stones.

Drink and Tobacco Habits

Were a remedy known that would cure without the knowledge or co-operation of the patient it would be the greatest discovery of the age, since not a single addict of a tobacco user, in a very short time, would be found in the land. Dr. McFargar's is specially prepared for the purpose—the cost being only \$1.00—and the course lasts about two weeks. Both remedies are excellent tonics, hence leave no bad after effects. Abundance of testimonials, by permission, will be furnished to any interested person. The doctor invites correspondence.

"Tomlin's Bread"

will still continue to hold first place. How do you like our bread?

Abraham John Griffith of Weston, a retired farmer. The estate was made up by mortgages, cash and farm property. To his widow he left half his personal estate, and a home in his homestead for life. His daughter Margaret Ellen Mercer, was treated similarly. At their death the homestead goes to his grandchildren.

An Organ in Your Home for 25 Cents. What is proving a selling sensation of the week is the clearing of about one hundred slightly used organs of leading manufacturers by ye olde firm of Heintzman & Co., 115-117 King-street west, on payment of twenty-five and fifty cents a week. Each organ is marked at a fraction of the original price, and all are guaranteed in first-class condition, having been thoroughly overhauled before they are put out for sale. The early removal of Heintzman & Co. to their new warehouses, 198-197 Yonge-street, makes this clearing imperative. 234

J. Roes Robertson has returned from a two months' holiday in Great Britain and Europe.

Headache

"My father has been a sufferer from sick headache for the last twenty-five years and never found any relief until he began taking your Cascarets. Since he has begun taking Cascarets he has never had the headache. They have entirely cured him. Cascarets do what you recommend them to do. I will give you the privilege of using his name."—E. M. Dickson, 1120 Resner St., W. Indianapolis, Ind.

EATON'S DAILY STORE NEWS

New Supply of Algor Books for Boys, Cloth Bound, Each, 15c.

Why a Chalmers "30"?

We handle the Chalmers, and you should consider its claims.

Because it has been designed by men who know how.

Because the materials used in its construction are of the grade used in cars selling for twice the price.

Because of the absolute guarantee that covers material and workmanship.

Because the EATON guarantee stands behind it.

Because the Chalmers is easily driven and maintained at a low cost.

Because of its performance. The Chalmers has proved its capabilities in speed, endurance and reliability under the most severe conditions, in two years winning 90 firsts, 32 seconds and 21 thirds. It is still unbeaten by any car in its class, crowning its career by winning the 1910 Glidden tour of 2,850 miles, over the worst road it is possible to find anywhere, averaging 178 miles per day for 16 days.

—Garage, Albert St.

Gloves for Fall Wear

The Heavy Capeskin Correct for Tailored Suits

The rough cloths and severe lines that constitute present style in women's tailoring call to a certain extent corresponding qualities in the accessories that will be worn with the suits and coats. And for general street and knockabout wear it is likely that few gloves will prove more popular than the heavy capeskin. We are showing one line of those in a smart tan shade that particularly merits mention. These gloves have the single clasp, gusset fingers, Bolton thumb, and arrowed back. Price \$1.00

Other Good Lines of Seasonable Attraction Are:

Women's Real French Kid Gloves, 2 dome fasteners, oversewn seams and Paris points. Colors mode, beaver, brown, black and white. 59c

Women's Extra Choice French Kid Gloves—The "Vero," made from selected skins, with 2 dome fasteners, oversewn seams, gusset finger and Paris points. Colors, tan, mode, beaver, brown, grey, myrtle, navy, black and white 75c

Men's Capeskin Gloves, 75c

Men's English Capeskin Gloves, with 1 clasp, outside seams, gusset finger, Bolton thumb, and spear pointed backs, in assorted tan 75c

The New Nemo Self-reducing Corset

Introducing the Lastikops Bandlet

The Nemo, No. 522, is specially designed for stout figures, and has already earned for itself a distinguished name among self-reducing corsets. And not only women inclined to embonpoint, but those of medium proportions, are choosing this particular corset, because it produces with perfect comfort the slenderness which is the modish requirement of the moment.

This slim effect is brought about chiefly by the incorporation of the Lastikops Bandlet—a hygienic device in the form of a semi-elastic abdominal belt, which holds the internal organs in place and serves as a helpful support rather than a medium of pressure.

Miss Newport, the expert corsetier, who is at present in attendance in the new fitting rooms in the Corset Department, is giving daily demonstrations of Nemo 522.

Take elevators at East side of Queen Street section.

One Reason Why Eatonias Fit So Perfectly

The Goodyear Welt System, a practical demonstration of which you'll see in the Process Building at the Exhibition, does away with lumps, threads, tacks or anything to make the inside of the boot uncomfortable. Goodyear welt system leaves the inside of the boot perfectly smooth and flexible, and in a great measure is responsible for that cool, comfortable and easy fit for which Eatonias are noted. As you watch the various operators at work you'll note the care, the thoroughness and skill that goes into the manufacture of Eatonias, and you'll also observe the high-grade material used in every phase of Eatonias manufacture, both in the parts you see and those that most people never see—and upon which, to a great extent, the life of the boot depends.

When in the Store visit the Footwear Section, Second Floor. Here you'll see our Fall display of Eatonias and you'll note with pleasure the splendid variety of styles that may be had in this, the best of all \$3.00 boots. Made for men and women, all sizes, all at one price, pair \$3.00

Seasonable Underwear

Women's Vests and Drawers at Moderate Prices

—Main Floor, Centre.

Great Offering in Lace Curtains, at Small Expense

1,187 pairs of Super Grade Curtains are the material proof of our success in raising lace curtain values without boosting prices. Every pair of this huge quantity is marked by one-third less than the usual regular prices. In style, design and quality there's something for every room you may be furnishing. The display is satisfactory, comprehensive and far above the ordinary in substantial values.

Nottingham Lace Curtains, 5 and 5 1/2 inches wide, and 3 1/4 yards long, white or ivory, are of an extra fine quality lace, made from good grades of cotton, evenly twisted and finished with stout edges. The designs are new, including some very pretty scroll effects. A choice lot and particularly attractive. Per pair \$1.95

Copper Sable is One of the Season's Handsomest Furs

The Stole and Muff illustrated show one of our smart designs in the same.

Among the season's showing of rich exclusive furs, copper sable in its beautiful soft brown shading—the exquisite shading of the ripe horse chestnut—claims a foremost place. It composes the set in the accompanying sketch, the design of which represents an original departure in the diagonal arrangement of the skins. Claws and heads are employed as a finishing touch, and both muff and stole are lined with shirred silk. Price, per set \$355.00

Other Items of Interest in the Fur Section

5 only Persian Lamb Jackets, 32 inches long, straight front, semi-fitting back, storm collar, medium sleeve with cuffs, black satin lining—a very stylish coat; sizes 32 to 42. Price \$187.50

15 Canadian Mink Muffs, Empire style, showing 3 and 4 stripes, satin lining, equipped with wrist cord and down bed, good full fur \$19.95

15 Canadian Muskrat Ties, 60 inches long, brown satin lining, graduating from neck to wide paddle ends \$5.00

25 Black Belgium Hare Muffs, pillow shape, nicely lined and finished, and equipped with wrist cord \$2.50

A Professional Model in the Fur Department

As in the showrooms of the leading furriers in Paris and New York, so in our Fur Department here, will be found a living model ready to don any garment a customer may select, and thus display in a practical manner its sundry points of attraction, enabling one to form a correct estimate of how the jacket or neckpiece will appear in actual use.

—Second Floor, Albert Street.

Style and Quality in Young Women's Suits

Our line at \$13.75 is a production of especial worth. Gone is all the early prejudice that associated a crudeness of finish and a lack of character with the garment bought ready-to-wear. Designing in accordance with the best approved dictates of style, combined with tailoring of a high order, has lifted the ready-made costume to a high place in the apparel realm. And every season its many advantages are widely acknowledged.

A creditable example of a production of this type is found in the coat and skirt specialized in the Young Women's Department at \$13.75. It is a stylish suit, made in a smart diagonal worsted, and carrying out all the essential features of the new season's strictly plain tailoring—single-breasted coat, raised seams, notch collar, small cuffs sleeves, and plain, desirably narrow skirt. Sizes 32, 34 and 36 bust measure, and skirt lengths to 38 inches. Price \$13.75

Young Women's Panama Skirts, \$3.50

A smart band effect, that is yet compatible with easy comfort in walking, is a leading characteristic in these separate skirts. They are made from good Panama cloth, in black or navy, and are perfect fitting in every respect—capital skirts for wear with a shirt waist under the full length coats so much in vogue. Lengths 35 to 38 inches. Very special price \$3.50

—Second Floor, James Street North.

Cosy Coats and Dresses for the Wee Folk

It will be conceded by general vote that the little coat of white furry bear cloth is the ideal wrap for the little tot of infant years and upward. The material is happily harmonious with baby softness and freshness. The fact that it will launder is a special point in its favor.

The little garment illustrated is one of our special Bear Cloth Coats. It is cut with deep round collar and cuffs, finished with silk frog fasteners, and lined throughout with eiderdown flannelette; sizes 22, 24 and 26 inches. \$1.85

Children's Flannelette Dresses

Children's Flannelette Dresses—Buster style, box pleat, the cuffs and the panel down front edged with white piping, finished with belt. Colors red, sky, white and dark blue; sizes 2, 3 and 4 years. Price 50c

Women's Golf Coats

Women's Golf Coats—In Norfolk style, in fancy stitch, with plain collar and front, finished with pockets. Colors white, grey, maroon and brown in combinations; sizes 34 to 42. Price \$1.50

New Net Waist, \$1.98

The Net Waist still carries all before it as a bodice of the dressy blouse class. New designs are being brought to the front almost daily. Among these it would be difficult to find one more conspicuously combining good taste and moderation of price than our line in ecru or white at \$1.98. They are distinguished by embroidered fronts outlined with piping of silk, and arranged over a V-shaped vest effect of tuck, net, and exploit one of the new sleeve styles with cuffs of tuck net edged with frill of lace; sizes 32 to 42. Price \$1.98

—Second Floor, Centre.

The Cooking School Cook Book

—Main Floor, Queen Street.

"Acme" Gasoline Engines

Being demonstrated in our Farm Implement Department. See them. The practicability of the Gasoline Engine has long since passed the experimental stage. There are hundreds of uses to which it may be economically put—for blacksmiths, wood shops, dough mixers, ice cream freezers, drills, lathes, sewing machines and many other machines.

Our Acme Gasoline Engine will fill the most exacting demands for all small powers. Simple in construction, it can be operated quite easily. Very economical, using gasoline according to power developed. This is due to the simple and effective construction of the governor, which cuts off quickly and positively when less power is needed. The outfit is self-contained, mounted on skids, ready to start when placed in position.

1 horse-power, 2-inch pulley, 475 R.P.M. \$50.75	5 horse-power, 16-inch pulley, 400 R.P.M. \$168.75
2 1/2 horse-power, 6-inch pulley, 435 R.P.M. \$97.00	8 horse-power, 20-inch pulley, 325 R.P.M. \$260.00
3 horse-power, 8-inch pulley, 450 R.P.M. \$107.50	10 horse-power, 24-inch pulley, 300 R.P.M. \$340.00

—Farm Implement Section, Basement.

No Need to Shout The "Auris" for Deafness

Only a small proportion of deafness is incurable. In many cases, where the sufferer can hear faintly with great effort, the difficulty can be entirely overcome by using the "Auris" without inconvenience and without making the wearer conspicuous.

The "Auris" is an adaptation of the principle employed in long distance telephoning, by which the sound is magnified and clarified, coming in full true tones to the ear-piece.

Have a demonstration free at our Optical Section. It simply means to slip the battery into your pocket, hang the receiver on your vest and press the shell-like ear-piece to your ear. The sounds will be reported without buzzing or any disagreeable accompaniment.

The cost is extremely low and the relief positive at the time often becomes of permanent value by putting into operation parts of the ear that were becoming useless through disuse.

—Second Floor, Albert St.

Ribbon a Strong Feature for Fancy Work

See our display of Dresden Ribbons and what they will make. The high attainments reached in the art of ribbon making have resulted in an unprecedented demand for these lovely silken strands as an artistic medium in the making up of dainty bags, toilet cases, pillow tops, and all the other useful and ornamental conceits known as "fancy work." For such purposes we are specializing as one item in our large stock of suitable ribbons an assortment of Dresden ribbons in a wide range of beautiful designs. The colors include brown, mauve, pink, sky, Alice, navy, wine, champagne, cream and white. Width 6 inches, and priced, to clear, per yard 33c

Big Reduction in Ribbon Cushion Frills—Combination pleated frills, in silk or satin, 4 inches wide, of two ribbons of harmonious shades, including combinations of sky, pink, myrtle, moss, Nile, brown, yellow, purple, red, cardinal, rose, black and violet. These are useful for cushions up to 22 by 22 inches, and are greatly reduced for 8 o'clock business. We cannot promise to fill phone or mail orders. Each 49c

Special Satin and Taffeta Ribbons—A collection of broken lines of 6 to 6 1/2 inches in width. Beautiful ribbons for millinery, hair bows, sashes, etc. Colors include sky, rose, pink, navy, Alice, wine, Nile, reseda, myrtle, tan, brown, cream, grey, taupe, and white. Special for Thursday clearance 17c

—Main Floor, Yonge Street.

FARMERS NEED BUSINESS METHODS IN THEIR WORK

President Creelman of the O.A.C Says the Tariff isn't Altogether to Blame for Their Troubles.

Chief guests at the directors' luncheon were: O. J. Ferrault, president of the Ontario Chamber of Commerce, and Geo. C. Creelman, president of the Ontario Agricultural College, Guelph.

A number of other members of the Montreal Chamber of Commerce, and a representative gathering of live stock men and fruit growers were guests at the directors' luncheon.

The speakers were: O. J. Ferrault, president; Fred C. Carrière, vice-president; Geo. Gonthier, treasurer; F. Bourbonniere, secretary; C. H. Catell, ex-president; Cos. Fortier, ex-treasurer; J. O. Garreau, A. Renaud, Mrs. Ferrault and family.

"I am happy and proud as a Canadian to feel that the spirit of enterprise and endeavor of this city, and of this great province, not only has not been lost, but that it shall go on increasing forever. Toronto has inaugurated and by her annual exhibition is continuing what I may call 'An annual inventory of our national assets.' You have created and are fostering a spirit of emulation that can only lead but to the best results.

"Looking as we do to-day, at the results of the labor, the industry, the genius of our people, one might well feel proud to be a Canadian. Canadians have the greatest and the mightiest home that Providence ever designed for a nation. We have to adorn it with high ideals. The first and the noblest of these ideals is the creation upon this continent of a powerful and progressive people, cemented for ever to this great British Empire, whose lessons in all paths of human activities have inspired and shall inspire for ever the sons and daughters of this Dominion, so that every man in this country, high or low, whether a native or a newcomer or the old inhabitant of Scotch, English, French or of any other extraction, when speaking of Canada, shall repeat with pride the words, 'Home sweet home.'

"By giving to Montreal and to the Province of Quebec a special day in your festivities, you are recalling the lessons of the past and memories that the people of this country should never forget.

The West and the East.

Hon. Duncan Marshall, Alberta's minister of agriculture, and a former Toronto newspaper man, made an excellent impression by his clear and forceful style. He announced that he didn't belong to the class of westerners who thought they could learn nothing from the east. He said he had learned something of agriculture that would make him the better prepared for his duties.

The live stock industry was at the foundation of a national enterprise, and in his opinion there was not a finished product of the mill or factory exhibited that would compare with the finished products of the farm as shown in the live stock states. The supply largely to Ontario for a week of the best horses and cattle.

In passing reference to the sterling virtues of the "Gay Paree" speaker declared that great cities, such as London and New York, would die from their own rottenness but for the rich red blood brought in from the country.

An Arena Needed.

Maxwell Smith represented the Canadian apple show, to be held in Vancouver, B.C.

"Those in the business know we are growing entirely too many varieties of apples in Canada," he declared. The show's object was to demonstrate what localities were best adapted to certain varieties.

A. W. Smith, M.P., of Middlesex, said candidly that the exhibition lagged behind in one respect. For many years there had been an agitation for the building of an arena where live stock could be shown, but the arena wasn't yet built.

In reply, Mr. Gooderham assured him that the necessary funds were on hand, and that when a suitable location could be fixed, the arena would be provided.

The Farmer's Weakness.

George C. Creelman, president of the Ontario Agricultural College, Guelph, after congratulating farmers on bountiful crops, tendered some friendly advice.

"I don't believe our farmers are sufficiently speculative," he confessed. He did not mean that the word should be misconstrued. It was generally understood that the farmer would speculate in everything that came to him from the city. Despite the thousands of meetings held by agricultural societies, breeders' associations, etc., the farmer hadn't yet become speculative enough to enable him to spend \$10 to make \$20. He believed this to be the weakness of Ontario's farmers.

In illustration of this short-sighted policy, Mr. Creelman told of a Wellington farmer who had marketed 10 pigs, including several young sows which should not have been marketed, receiving \$180. He collected \$9 on a debt, and then borrowed \$11, so that he

could deposit \$200 in the bank. If he had put some of the money back into the farm, he could have earned more with it.

Scientific farming had greatly enhanced the value of land, so that in some cases it reached \$1000 an acre. If farming didn't pay it wasn't because of the tariff, but because the fault lay with the farmers' methods.

Exhibition Notes

Avoiding the Crowds.

Those who experience the discomforts of being jostled and crushed in the crowds at the exhibition will be in a frame of mind to sympathize with women who have to endure a time of being two or three times every day. In the National Cash Register Lecture Building, alongside the Women's Building, you can enjoy a quiet, restful and profitable half hour during which you will be interested to learn how the National Cash Register Company profits its women workers from "rush hour" and other discomforts usually associated with factory life.

At its Dayton, Ohio, factories, the women employes arrive and leave at a different hour from the men, and thus avoid overcrowded street cars and other objectionable features of a "same-hour-for-all" policy. Retiring rooms with trained nurses in attendance, morning and afternoon recesses, restaurant and reading rooms are other accommodations provided for the women employes of this model factory.

The lecture at the exhibition tells all about these model factory conditions. Don't miss it. Admission is free, there are plenty of comfortable seats, and light refreshments are served free on the lawn after each lecture.

Shows as good as Edwards Bros.' wild animal show are few and far between, you don't have a chance to visit them very often. No matter what else you miss at the big fair, you absolutely must not fail to visit the Edwards Brothers' gigantic menagerie. It is without a doubt the greatest traveling menagerie that ever visited Toronto. The display represents an outlay of several thousand dollars.

The thirty odd cages contain over two hundred of the rarest animals in captivity, and is considered to be one of the most valuable collections in America.

Thousands of people visit the show every day and needless to say everyone receives entire satisfaction. The two large tents are crowded from morning till late at night, and the people that visit the show are its greatest advertisement.

The Edwards' show is the outstanding feature of the midway. It is the only show of its kind that Torontonians have ever had the chance of witnessing, and they are certainly taking advantage of their opportunity. The Edwards' show is something different than you have ever seen before, something you will probably never have the chance of seeing again. It is a show that receives the highest commendation from its patrons, because they get more value for their money there than any other show on the midway.

Scientific Character Reading.

Madame Baxter is again on the Midway with her scientific character reading. They read your life like an open book. No mystery in the life of man they cannot unravel.

"Gay Paree" on Midway.

The "Gay Paree" show on the Midway is the most pretentious presentation of Parisian life ever attempted in W. H. Smith, the proprietor, has gathered together a bunch of dancers that have no rivals in the terpsichorean art. The three vaudeville turns put on are of very best and never fail to bring a laugh. Don't fail to visit this stupendous production.

Have Served 25,000 Meals.

Nasmit's meals are conceded to be the best served on the exhibition grounds. Their commodious dining room concession under the main part of the grand stand is bright, dry and well ventilated, and seats 700 people. It is estimated they have fed 25,000 people since the exhibition opened, with first-class full course meals. The menu offers a wide choice of meats, vegetables and dessert. A staff of fifteen qualified chefs are constantly engaged. Meals are served at 35 and 50 cents.

Personally Conducted Homesekers' Tour to Alberta.

Anyone who is thinking of buying property in the west should consult with Thos. G. McPherson, president of the Lamont, Alta., Board of Trade, and president of the Northwest Live Stock Co., who is at the exhibition with a view to personally escorting any intending purchasers back with him. His agents come into personal touch with the farmers of Central Alberta, and are in a position to know all the maps in land values. They can save a quarter section from \$500 to \$1000 on a quarter section. Those desiring to take advantage of this exceptional opportunity will be given the benefit of this first-hand experience and knowledge, free of charge.

Try a Cup of Coffee Flavored With Borden's Condensed Milk.

Many thousands of delicious draughts have been drunk at the Borden Condensed Milk booth in the centre of the manufacturers' building, since the exhibition opened. Fragrant cups of coffee flavored with "Fecreiss

Brand" cream are dispensed liberally and freely to all who call at the exhibit.

The most important article of food used in the household should be scrupulously pure. That is why the Borden brand is the one that everyone should visit. The frequent warnings of the health authorities of our cities against the indiscriminate use of dairy milk has brought condensed milk more prominently to the notice of the public. The result being a wonderful increase in its consumption during the past couple of years. Gall Borden, in 1877, introduced the system of scientific handling of milk before the time of the pure food laws, and his "Eagle" brand has always been recognized as the highest standard. Borden's milk products are manufactured under a system of strict sanitary regulation that assures purity. They have no equal for richness and flavor.

The company publish a booklet entitled "My Biography," in which to record the principal events of the baby's life, and also contains valuable suggestions as to the care and feeding of infants, a valuable booklet for mothers. The company will be pleased to send this, free of charge, upon request.

A STOVE WORTH SEEING.

The exhibit of the Wrought Iron Range Company, manufacturers of Home Comfort Kitchen Outfits, is one of the main points of interest in the grounds. The range is a masterpiece of art and science, and is without doubt the one solution to the cooking problem. This range is manufactured in the Wrought Iron Range Company, and is practically indestructible. With this range is given an absolute guarantee for working and durability, and if the range proves to be less than it is stated to be, the defect is remedied to the satisfaction of the purchaser. For instance, if the house of the purchaser is destroyed, the range is replaced at once.

The company manufacture a dish washer which is the most effective on the market. The working of the dish washer is very simple, and it is acknowledged to be the best in the world. It is a masterpiece of art and science, and is without doubt the one solution to the dish washing problem. This range is manufactured in the Wrought Iron Range Company, and is practically indestructible. With this range is given an absolute guarantee for working and durability, and if the range proves to be less than it is stated to be, the defect is remedied to the satisfaction of the purchaser. For instance, if the house of the purchaser is destroyed, the range is replaced at once.

Cigars Arrive From Jamaica.

A new lot of choice imported cigars arrived at the Jamaica court of the British West Indies booth in the horticultural building yesterday. The popularity of this exhibit and the welcome with which the Jamaican cigars are likely to be received when put on sale in the Canadian market is becoming more and more manifest by the increased interest that is being shown in the exhibit by the public. The cigars are of the superior standard shown at the booth should not become equally as popular as the product of Cuba, which is only one of the many brands of cigars bearing the general trade names of "Golofina" and "La Tropical" are unexcelled for a gentleman's smoke.

"Wonder-Shine" is Brilliant.

That "Wonder-Shine," the great polish for cleaning gold, silver and platinum, which is the most brilliant of the wondrous of the age, is apparent from the vast crowds which throng the exhibit in the process building. No lady should leave without a package of "Wonder-Shine."

Salada Tea.

As a practical illustration of the growth of this firm's business in the past 13 years, a herd of ebony elephants, ranging in size from two inches to two feet, is being displayed in the Salada Tea exhibit in the manufacturers' building. The booth is the place for all quality-loving housewives.

Glass Blowers Continue to Attract.

The glass blowers continue to be one of the most patronized attractions of the midway. Their art has never been their business in the slightest. Their reputation from former years ensures them a call from every visitor to the fair and besides, they have secured the entrance to the midway, where everything is high and dry.

Spooner's Copperins.

Mr. Alonzo Spooner, the manufacturer and inventor of Spooner's Copperins, and the first man to make Babbit metal in Canada, has an exhibit in the left aisle of the south side. This metal is used in the largest factories in Canada, where it has taken the place of all other so-called Babbit metals. The Montreal Power Co. use it exclusively and have about thirty-five hundred pounds of Spooner's Copperins in use. It was decided to use this metal for the exhibit, and it is a very severe test. McGill University with other metals. This metal is manufactured in different grades for use in any engine, from the heaviest to the lightest made. All the grades are being displayed at the exhibit, where Mr. Spooner is in charge personally.

shows combined, the added attraction being the biggest and best girl show on the Midway.

Practical Woodworking Machinery.

When going thru the machinery hall, be sure to look up the exhibit of Cowan & Co. of Galt. There you will find something that will hold your attention as one of the greatest time, labor and money saving machines in the Dominion. At least that's what it did to the crowds who went into that institution yesterday and Labor Day. One feature is a 12 inch moulder—moulding at 15 feet a minute. Another is a chain saw mortise with a chain of tooth-shaped links traveling at 15,000 feet per minute and 40,000 teeth presented to the work during the same period.

MEN WHO MAKE AUTOMOBILE HISTORY IN CANADA.

Mr. R. D. Aldrich, manager of the Regal Motor Car Company, is one of the men who are making automobile history in Canada. He is a pioneer in the industry, and has been instrumental in the development of the automobile in this country. His company, the Regal Motor Car Company, has produced some of the finest automobiles in the world, and has a reputation for excellence in every respect.

Alberta's Interesting Show.

Visitors to the Canadian National Exhibition, who have not already inspected the Alberta Provincial Government exhibit, should not miss the opportunity before the close of the week. The large space occupied by this exhibit in the east wing of the horticultural building is most attractive to those interested in the wonderful grain growing possibilities of that province.

WANT TO CHANGE DATE OF ELECTION CONTESTS

Many Important Resolutions Before Ontario Municipal Association—Good Roads Amendment.

A number of resolutions of an important character in their relations to municipal affairs were presented by the resolution committee at the meeting of the Ontario Municipal Association, which opened in the city hall yesterday morning. There were almost 40 delegates present, and President Geo. Geddes, mayor of St. Thomas, presided. For the most part the delegates comprise mayors, reeves and city clerks of Ontario municipalities.

WILL DELAY COMPLETION OF G.T.P. FOR TWO YEARS

Section Thru Northern British Columbia Held Up by Scarcity of Labor.

VANCOUVER, Sept. 6.—(Special.)—That the completion of the Grand Trunk Pacific Railway thru northern British Columbia may be delayed a couple of years because very apparently it became known that no effort would be made to get under contract this year a large section between Aldermere and Tete Jaune Cache. All the rest of the line is now under contract and it was expected that on the present trip President Hays of the G.T.P. would announce the awarding of the contract.

PHENOMENAL DEVELOPMENT

C. N. R. Has Achieved Something That Was Thought Impossible.

Perhaps the first thing to attract the attention of the public to the Canadian Northern Railway exhibit is the large map, which occupies 37 feet wall space, and which illustrates the tremendous development that railway. From 108 miles in 1888 to 5000 miles in 1910 is a record which has never been equaled or concurred possible in the history of railroad development in Canada. A look at the map in the railroad building easily discloses the purpose of such a rapid settlement as the Province of Alberta is now seeing.

A GREAT ORDER.

A very conspicuous feature on Society Row this year is the tent of the Independent Order of Oddfellows. Odd-fellowship has for recent years taken a very prominent place among leading fraternal societies of the day. Being a purely fraternal order, its great object is to impress upon its members the importance of pure thoughts, pure language and pure deeds, the great ideal being the bringing up of the rising generation in all that tends to elevate the character and to fit them for the high duties which they will at no distant date be called upon to discharge. The order has just passed its ninety-first year. Starting in 1819 with five members, it now has on its roll in the year 1910, 1,000,000 members. The order knows no system of sect or politics, and this seems to have been one of its greatest safeguards. The past year has been one of the very best in the history of the order in Ontario, where it now has a membership of nearly forty-five thousand, and steady growth in every possible direction. During the past year for relieving the sick and distressed and burying the dead \$129,000, or an average of \$82 for each day in the year. It will thus be seen that its benevolent work never ceases. Its present accumulated funds amount to \$1,700,000, or about \$41 per member. Such an order naturally attracts the very best class of citizens to its ranks. The tent is under the jurisdiction of the district deputy grand masters of district No. 19, which includes east, centre and west Toronto. Mr. Manly Anderson is in constant attendance, and will be delighted to give the very possible information to enquirers. The head offices are in West King-street, and there, too, any information desired will be cheerfully given.

PRIZE MOTOR LAUNCH

Thirty-seven Footer of the Schofield-Holden Co. Makes Better Than 18-Miles Per Hour—Attracting Much Interest.

If you see a big crowd under the grand stand, you may guess that they are looking at the Schofield-Holden launch.

This is without doubt the finest boat ever exhibited at the Canadian National.

It is 37 feet long over all, and is guaranteed to make a speed of 18 miles an hour. In reality, it can go considerably faster than this.

It is finished in solid mahogany, and its interior decorations and equipment are luxurious.

Great cast chairs with plenty of room to move about makes travel in this launch a comfort. There are 12 chairs in it at present, and three or four more could be used easily.

It is fitted with a 4 cylinder 2 cycle engine, with 20 horsepower. In other words, it is a 4-20 among the launches.

Both the motor and the hull were made right here in Toronto at the works of the Schofield-Holden Company on Carlaw-avenue.

During the past season this company has sold the largest number of the most prominent people in Toronto. With these boats the owners have won a Grand Qat. of local and international championships.

This is all the more remarkable when it is considered that these are not built to be racing models. They are family boats, but combined with safety and room, there is reliability and the smooth running of the engines, which bring along a truly remarkable speed.

For table use, its crystal purity and wonderful "freshest" taste make

MAGGI THE WATER OF QUANTITY

There were about 200 cases on the docket before Magistrate Denison yesterday morning.

"Corella" and Big Burlesque Show.

"Corella," the wonderful magician, in conjunction with the greatest burlesque show that has ever been presented on the exhibition grounds, is one of the cleverest entertainers that Torontonians have yet had the opportunity of witnessing. Corella's knowledge of the black art is truly wonderful. He needs no elaborate stage fixtures to disguise the method of executing his tricks; he does nothing but make a few mysterious passes and the trick is accomplished.

The Corella show is really two big

TOOL STEEL BEING MADE FROM IRON IN 4 HOURS

Marvelous Scientific Discovery is Shown in Machinery Hall—Thousands Interested.

The most wonderful discovery of recent years is the Henderson Process for making tool steel.

When it is considered that tool steel of the finest quality can be made from iron by this process in four hours, one can readily understand its importance. Not only will it make enormous profits for those who operate it, as steel has a life of 1000 years, but it will be of immense value in the reduction of the present prices of tool steel to the consumer.

The steel made by this process is shown in the exhibit of the Canadian Malleable Iron and Steel Company, southwest corner of machinery hall, and being examined by thousands of people.

Already large orders have been booked for tools made from this steel and for steel in bars.

ALBERTA'S INTERESTING SHOW

Plies of Oats, Barley, Winter and Spring Wheat Represent Average Yield Per Acre.

Visitors to the Canadian National Exhibition, who have not already inspected the Alberta Provincial Government exhibit, should not miss the opportunity before the close of the week. The large space occupied by this exhibit in the east wing of the horticultural building is most attractive to those interested in the wonderful grain growing possibilities of that province.

Both the motor and the hull were made right here in Toronto at the works of the Schofield-Holden Company on Carlaw-avenue.

During the past season this company has sold the largest number of the most prominent people in Toronto. With these boats the owners have won a Grand Qat. of local and international championships.

This is all the more remarkable when it is considered that these are not built to be racing models. They are family boats, but combined with safety and room, there is reliability and the smooth running of the engines, which bring along a truly remarkable speed.

For table use, its crystal purity and wonderful "freshest" taste make

MAGGI THE WATER OF QUANTITY

There were about 200 cases on the docket before Magistrate Denison yesterday morning.

"Corella" and Big Burlesque Show.

"Corella," the wonderful magician, in conjunction with the greatest burlesque show that has ever been presented on the exhibition grounds, is one of the cleverest entertainers that Torontonians have yet had the opportunity of witnessing. Corella's knowledge of the black art is truly wonderful. He needs no elaborate stage fixtures to disguise the method of executing his tricks; he does nothing but make a few mysterious passes and the trick is accomplished.

The Corella show is really two big

TOOL STEEL BEING MADE FROM IRON IN 4 HOURS

Marvelous Scientific Discovery is Shown in Machinery Hall—Thousands Interested.

The most wonderful discovery of recent years is the Henderson Process for making tool steel.

When it is considered that tool steel of the finest quality can be made from iron by this process in four hours, one can readily understand its importance. Not only will it make enormous profits for those who operate it, as steel has a life of 1000 years, but it will be of immense value in the reduction of the present prices of tool steel to the consumer.

The steel made by this process is shown in the exhibit of the Canadian Malleable Iron and Steel Company, southwest corner of machinery hall, and being examined by thousands of people.

Already large orders have been booked for tools made from this steel and for steel in bars.

ALBERTA'S INTERESTING SHOW

Plies of Oats, Barley, Winter and Spring Wheat Represent Average Yield Per Acre.

Visitors to the Canadian National Exhibition, who have not already inspected the Alberta Provincial Government exhibit, should not miss the opportunity before the close of the week. The large space occupied by this exhibit in the east wing of the horticultural building is most attractive to those interested in the wonderful grain growing possibilities of that province.

WANT TO CHANGE DATE OF ELECTION CONTESTS

Many Important Resolutions Before Ontario Municipal Association—Good Roads Amendment.

A number of resolutions of an important character in their relations to municipal affairs were presented by the resolution committee at the meeting of the Ontario Municipal Association, which opened in the city hall yesterday morning. There were almost 40 delegates present, and President Geo. Geddes, mayor of St. Thomas, presided. For the most part the delegates comprise mayors, reeves and city clerks of Ontario municipalities.

WILL DELAY COMPLETION OF G.T.P. FOR TWO YEARS

Section Thru Northern British Columbia Held Up by Scarcity of Labor.

VANCOUVER, Sept. 6.—(Special.)—That the completion of the Grand Trunk Pacific Railway thru northern British Columbia may be delayed a couple of years because very apparently it became known that no effort would be made to get under contract this year a large section between Aldermere and Tete Jaune Cache. All the rest of the line is now under contract and it was expected that on the present trip President Hays of the G.T.P. would announce the awarding of the contract.

All the rest of the line is now under contract and it was expected that on the present trip President Hays of the G.T.P. would announce the awarding of the contract.

PHENOMENAL DEVELOPMENT

C. N. R. Has Achieved Something That Was Thought Impossible.

Perhaps the first thing to attract the attention of the public to the Canadian Northern Railway exhibit is the large map, which occupies 37 feet wall space, and which illustrates the tremendous development that railway. From 108 miles in 1888 to 5000 miles in 1910 is a record which has never been equaled or concurred possible in the history of railroad development in Canada. A look at the map in the railroad building easily discloses the purpose of such a rapid settlement as the Province of Alberta is now seeing.

A GREAT ORDER.

A very conspicuous feature on Society Row this year is the tent of the Independent Order of Oddfellows. Odd-fellowship has for recent years taken a very prominent place among leading fraternal societies of the day. Being a purely fraternal order, its great object is to impress upon its members the importance of pure thoughts, pure language and pure deeds, the great ideal being the bringing up of the rising generation in all that tends to elevate the character and to fit them for the high duties which they will at no distant date be called upon to discharge. The order has just passed its ninety-first year. Starting in 1819 with five members, it now has on its roll in the year 1910, 1,000,000 members. The order knows no system of sect or politics, and this seems to have been one of its greatest safeguards. The past year has been one of the very best in the history of the order in Ontario, where it now has a membership of nearly forty-five thousand, and steady growth in every possible direction. During the past year for relieving the sick and distressed and burying the dead \$129,000, or an average of \$82 for each day in the year. It will thus be seen that its benevolent work never ceases. Its present accumulated funds amount to \$1,700,000, or about \$41 per member. Such an order naturally attracts the very best class of citizens to its ranks. The tent is under the jurisdiction of the district deputy grand masters of district No. 19, which includes east, centre and west Toronto. Mr. Manly Anderson is in constant attendance, and will be delighted to give the very possible information to enquirers. The head offices are in West King-street, and there, too, any information desired will be cheerfully given.

PRIZE MOTOR LAUNCH

Thirty-seven Footer of the Schofield-Holden Co. Makes Better Than 18-Miles Per Hour—Attracting Much Interest.

If you see a big crowd under the grand stand, you may guess that they are looking at the Schofield-Holden launch.

This is without doubt the finest boat ever exhibited at the Canadian National.

It is 37 feet long over all, and is guaranteed to make a speed of 18 miles an hour. In reality, it can go considerably faster than this.

It is finished in solid mahogany, and its interior decorations and equipment are luxurious.

Great cast chairs with plenty of room to move about makes travel in this launch a comfort. There are 12 chairs in it at present, and three or four more could be used easily.

It is fitted with a 4 cylinder 2 cycle engine, with 20 horsepower. In other words, it is a 4-20 among the launches.

Both the motor and the hull were made right here in Toronto at the works of the Schofield-Holden Company on Carlaw-avenue.

During the past season this company has sold the largest number of the most prominent people in Toronto. With these boats the owners have won a Grand Qat. of local and international championships.

This is all the more remarkable when it is considered that these are not built to be racing models. They are family boats, but combined with safety and room, there is reliability and the smooth running of the engines, which bring along a truly remarkable speed.

WINNERS of KELLARIC MATTRESS GUESSING CONTEST

The following three persons who came nearest to the number of admissions to the Fair on Labor Day, will be given a KELLARIC MATTRESS (valued \$12.50).

1st—R. J. Kincaid, 477 Yonge street, Toronto.
2nd—W. A. Hillhouse, Shelburne, Ont.
3rd—Dr. Robertson, 415 Manning avenue.

You Want the Most Improved Car?

Buy a Russell with a Knight Engine, the Motor Equipment of the Highest Grade Cars in the World.

Power
The four-cylinder "35" Russell-Knight Motor at 1,500 revolutions per minute develops the remarkable power of 48 to 72 Horse Power. Compared with the best poppet valve motors, the Russell-Knight engine will develop 25 per cent. and upwards more power after the engine passes 400 revolutions per minute.

Reliability and Endurance
The famous test of the Knight motor by the Royal Automobile Club of Great Britain is a leading event in automobile history. This test the engines of both 35 and 45 Horse Power models were run continuously for six days and six nights and developed throughout 48 per cent. over their rated horse power.

Flexibility
To the experienced motorist one of the most striking features of the Russell-Knight car is its quickness and ease in getting away under load, changing from five to fifty miles, if desired, without slipping the clutch or changing gears. The clutch in the car itself is the best way to be convinced of the difference from other cars.

Quietness
The Knight motor is recognized as the quietest motor in the world. This is due to the absence of the hammering of valves, which also accounts for a wonderful smoothness and quietness of operation.

Simplicity and Efficiency
Contrast the complicated valve mechanism of the old style poppet valve motor with the simple positive action of the Knight sliding sleeves—the steam engine principle. The little steam hammers actuated by revolving cams and push rods are done away with, and the engine is not dependent on the action of springs and contact at a small point.

More Power
More Reliable
Greater Endurance
Simpler
More Flexible
More Quiet
More Efficient

Automobile News

Mr. Hugh Tudhope, general manager of the well known motor car company which bears his name, made his headquarters at the firm's superb exhibit, and, with his associates, was kept busy informing their many friends regarding the merits of their popular cars.

Mr. Tudhope is widely and familiarly known all over the Dominion as a successful manufacturer of carriages and vehicles, and long before the automobile was in use his house was one of the commercial landmarks of the Dominion.

The Dominion Limited.
Manager H. T. Scott and his assistants were occupied in explaining the mechanism of the motor car when a representative of The World asked for a statement of his opinion of the increasing demand and interest in automobiles in Scotland in part: "The automobile of the future, possessing strength, speed and durability, and at the same time must be sold at a reasonable price and contain some special improvements that will render it superior to others. Then, in order to insure proper protection to a factory, it should all be made in one factory, they can only come thru a factory which makes all the component parts of the motor car, and when asked that was the reason of the many reasons why the Dominion car was so successful, said "Yes."

The E. M. F. Exhibit.
The E. M. F. exhibit at each and every day drew its usual share of attention. The subject of most interest seemed to centre upon the style which has all the qualifications of a perfect motor car and at the same time reaches all pocketbooks. All day long Messrs. Sibley and Macdonald were kept busy explaining the many valuable points of this popular car.

FOR MOTOR ENTHUSIASTS.
The Messrs for motor boat enthusiasts is the exhibit of the Swift Motor Car Company of Chatham, in the northeast corner of the machinery hall, where the company is showing a motor of absolutely new design, incorporating all the best features known to the art to-day. Their engines, which are of the two cycle type, are manufactured in sizes varying from one to six cylinders, and ranging in horse power from five to forty. These motors are exceptionally well designed, built by workmen of the highest skill, and outfitted with the highest grade of accessories obtainable to-day. The method of control shown on this motor is very unique, being arranged in such a way that every means of control is at the finger tips of the operator, giving access to all the important parts without moving out of position. These motors prove that Canada is producing this type of machinery of a kind which is the best in the world, and it is no longer necessary to cross the border for a strictly high-grade article. This company has also obtained an exceptional reputation for the manufacture of automobile parts, tools, signs, and fixtures for the Canadian automobile trade, having their factory equipped with the highest class of machinery and supervised by men who have a life-long experience in this class of work in the States.

Woman Nearly Asphyxiated.
Not familiar with the working of a gas jet, Mrs. Margaret Plewa, a widow from Hepworth, retired late Monday night at the Clyde Hotel, with the jet open. She was found unconscious yesterday morning. Having the window open saved her life.

RAINS FLOODING CELLARS CITY ROUSED TO ACTION

Special Gang of Men to Try and Help Downtown Merchants Clean Up—That Lake St. Siding.

The board of control yesterday reaffirmed the decision to allow the C.P.R. to have a temporary siding on Lake-street. The city solicitor reported that the company must, however, also have the permission of the Dominion Railway Board.

Controller Church wanted the matter to go before council. "You are simply turning handspins for the railways," he told his colleagues, Mayor Geary retorting warmly, "You are only talking for the press, Mr. Church, you have no right to make such remarks."

"And we are not handing over a franchise, it is only a privilege of a few months." The Mayor. "We were trying to please the board of trade rather than the railways."

Controller Spence said it was the right and proper thing to do, and Controller Foster said it was to relieve the freight congestion.

There was an additional 7-10-inch of rainfall during the early hours of yesterday, making three inches since Saturday. As a result the flooded cellars, washed out streets, and undermined sidewalks of the city were being cleaned out by a special gang of men to try and help downtown merchants clean up.

The board of control, on the recommendation of the property commissioner, decided to rent the coal cellars in St. Lawrence Market to the Harris Abator Company for \$1,416 a year. This, with revenue from other space rented by the company, will increase the market revenue \$2,000 a year.

That Anderson-street should be widened by taking 36 feet of property on the north rather than on the south side, as proposed, was the effect of a request made by a large deputation of citizens and members of St. Patrick's Church to the board of control yesterday.

"We have 300 children attending the school there," said Father Doyle, "and if the street is widened the school will be impossible for children to attend school. It would be the establishment of a juggernaut there. King Herod slaughtered the innocents 2000 years ago, and it has been getting worse ever since."

ANXIOUS FOR MANOEUVRES
Queen's Own Will Be Sorry, However, to Leave Aldershot.

LONDON, Sept. 6.—Yesterday the Q.O.R. had a busy day watching the regulars shooting under service conditions at moving targets. They then witnessed the Buffs carrying out an attack. Both were popular object lessons. The men are anxious to get busy with the manoeuvres, the sorry to leave Aldershot.

The health of the men is excellent; only one man is in the hospital. Sir James Whitney and Hon. Dr. Pyne visited the camp to-day. The Q.O.R. will probably march thru the city twice, the second occasion being their visit to the Tower. Saturday's exhibition by the Scots and Irish Guards was the one theme of conversation in the camp.

Were opinion crystallized into phrase it would be, "Even the Germans can't touch our Guards." Immediately on return to camp Sir Henry Fetherly and the Q.O.R. practising the march past.

He said he was more than delighted with the parade; it was a sincere compliment to the Queen and King. Rev. Mr. Lidwyd preached at All Saints, in Aldershot, on Sunday.

Many of the Q.O.R. spent the weekend on leave in London.

Be Careful at the Corner.
A. W. Appleghagh couldn't say yesterday whether or not his auto had been going 22 miles an hour on Aug. 16, and Magistrate Ellis fined him \$10. Geo. Sutherland, who autoed on the wrong side of the Queen and Yonge-street corner, was fined \$5.

"As far as I am concerned I am going to be very zealous of the corners of King and Yonge-streets and Queen and Yonge, and I am not going to allow vehicles to cross those corners on the wrong side," said the magistrate.

The shaking auto of Greer was destroyed by a truck on the E. W. and N. Railway, the recently acquired branch of the Canadian Northern, on Aug. 8 last.

Engineer of Train Killed.
MANSFIELD, O., Sept. 6.—A runaway locomotive on the Wheeling and Lake Erie railroad crashed into a passenger train at Run Junction, seven miles south of here, to-day, killing the engineer of the passenger train, Charles W. Foster, of this city. Not one of the 100 passengers was seriously hurt.

OTORISTS AND DEALERS will be greatly interested in the first showing of the new "EVERITT 30" as "Made in Canada" by TUDHOPES of Orillia.

The exhibit will be found in the Transportation Building at the Canadian National Exhibition. It should be noted that the "EVERITT 30" in its entirety is manufactured in the plant of TUDHOPES at ORILLIA, and is NOT AN ASSEMBLED CAR. This insures to the purchaser interchangeability of parts, which may be required at any time.

On orders placed at the Exhibition date of delivery will be guaranteed. Applications from dealers for agencies will be considered. Territory is now being allotted.

Society Notes

In Queen Street Methodist Church yesterday afternoon, Miss Violet May Apted, daughter of Mr. and Mrs. Wm. H. Apted of 58 Admiral-road, was united in marriage to Russell Wray Burgess, son of Wm. J. Burgess of Rockton, by Rev. C. O. Johnston. The church was decorated with palms, roses and pink asters. Fred R. Beatty, organist and choirmaster of Queen-street choir, of which Miss Apted has been leading soprano soloist for three years, rendered Mendelssohn's Wedding March. The bride was crowned in a handsome ivory duchesse satin, made with court train trimmed with silk applique and pearls and wore a tulle veil caught with a coronet of orange blossoms, and carried a bouquet of roses and lilies of the valley. Miss Alice Apted, sister of the bride, was bridesmaid and Miss Clara German was flower girl. The groom was supported by Fred. A. Apted, and the ushers were Chas. A. Ogilvie of Hamilton and Bert Vale of Toronto. Chas. H. Leslie sang "Love's Coronation." After the ceremony Mr. and Mrs. Apted held a reception at their home, An ed music. Mrs. Apted wore a black sequin gown, trimmed with touches of mauve and gold and a black plumed hat, and carried a bouquet of mauve asters. The happy couple left for New York and Atlantic City, the bride traveling in a navy blue whipcord tailored suit and large black velvet hat with a cut glass water set from the church choir. Mr. and Mrs. Burgess will reside at 20 Fairleigh-avenue south, Hamilton.

Public Amusements

The third selection in the repertory of the Aborn English Grand Opera Co. at the Royal Alexandra Theatre, Mitchell William Balfe's "The Bohemian Girl," most popular of all English grand operas, will be given this afternoon. With its beautiful ballad-like numbers, such as "The Heart Bow'd Down," "I Dream'd I Dwellt in Marble Halls," "Then You'll Remember Me," "The Fair Land of Poland," "The Gypsy Bride," and many others, this delightful opera never fails to attract. To-night Verdi's beautiful "Il Trovatore" will be sung.

The sale of seats commences tomorrow morning for the engagement of "The Lottery Man" next week at the Royal Alexandra. The New York press was unanimous in pronouncing it a comedy of unusual merit. It is the original cast, headed by Cyril Scott, and New York production will be seen here.

Thomas E. Shea, one of the most popular character actors to visit Toronto, will return to the Grand next week, when he will be seen in his new dramatic success, "A Self-made Man," and his two favorites, "The Bell" and "Dr. Jekyll and Mr. Hyde." "A Self-made Man" is said to be a powerful play, with money and matrimony the theme. The seat sale for Mr. Shea's engagement already indicates a big business. The usual Wednesday and Saturday matinees will be given.

DARING SILVER ROBBERY.

COBALT, Sept. 6.—The most daring robbery ever perpetrated in Northern Ontario occurred last night, when 25,000 ounces of silver bullion disappeared from the safe of the Nova Scotia mill. The value of the bullion is roughly \$17,500. The silver disappeared between the hours of 10 last night and 7 this morning. The entire staff of the provincial police are detailed on the case.

Won't Finish the Contract.
Because Electrical Engineer Aitken changed the plans for the laying of conduits on city streets, Golden & Lansing, the contractors, claim that their contract work is done, tho their tender was \$55,801, and they have done only \$40,000 worth of work.

Yesterday Mr. Aitken advised the controllers to draw up a supplementary contract for work to cost \$15,000, the same to be billed to the department at 15 per cent. above cost, and Mr. Golden to get \$5 per day for his service in overseeing the work. The controllers cut out Mr. Golden's \$5 per day.

Nearly Severed His Foot.

KINGSTON, Sept. 6.—Eldred Bennett, Willie's Home, aged five, was riding on back of one of three horses attached to a gang plow when the animals ran away. The little fellow fell off and the revolving cutter nearly severed one of his feet. He was brought to the General Hospital, where the flesh was stitched together.

Assize Court Fixtures.
The non-jury assize court opens after the summer vacation on Monday, Sept. 19, when Hon. Mr. Justice Cluse presiding, and a list of 47 cases. The jury assize court sits a week later, on Sept. 26, before the chancellor, Sir John Boyd. The criminal assize court opens on Nov. 7, with the Hon. Mr. Justice Britton presiding.

Silver Service for Cruiser.
HALIFAX, Sept. 6.—The Province of Nova Scotia will present to the mess of the Canadian cruiser Niobe a silver service valued at \$500.

EXHIBITION VISITORS

IT WILL PLEASE US TO HAVE YOU CALL WHILE IN THE CITY AND HAVE A PERSONAL CONSULTATION ABOUT MY BELT. IT WILL PLACE YOU UNDER NO OBLIGATION.

IF YOU LACK STRENGTH ELECTRICITY WILL RESTORE IT

I have a remedy that cures while you sleep. No poisonous drugs to swallow. No weak stomach or digestive troubles due to drugging. This remedy is Nature's medicine—electricity.

The only way to cure anything is to help Nature. Nature will cure when she has the power. That power is electricity. Feed it to your nerves, and they will absorb and carry it to every organ and tissue of the body, where it gives health and vim to every ailing part.

The reason drugs don't cure is because they do not assist Nature. Nature needs nourishment, strength, something that builds up. Drugs contain no nourishment, no electricity, not one thing that builds vitality—just poison, which weakens.

My wife is the best way of applying electricity. It's the only method that has proven successful. I've had twenty years' experience in creating disease. My Electric Belt is the result of this twenty years' experience.

My Belt is applied while you sleep. It sends a constant stream of electric life into the nerves and vital all night long.

Electricity is a great success. It has cured people all over the Dominion whom drugs had failed to benefit.

"The human system is an electrochemical battery, and the life principle is electric."

"The electrical age is here. Drugs are hard hit on all sides, and an intelligent physician tells me that he has almost entirely stopped their use."

The word health now means a normal supply of electricity in the body, and the word disease means an insufficiency of that power."

If you are skeptical, all I ask is reasonable security for the price of the Belt, and YOU NEED NOT PAY UNTIL CURED.

AMPLE PROOF WILL BE GIVEN YOU ON REQUEST.

CALL TO-DAY—FREE CONSULTATION—FREE BOOK.

If you can't call, write for my beautifully illustrated book. Sent sealed, FREE.

PILES

Dr. Chase's Ointment is a certain and reliable cure for hemorrhoids, piles, itching, bleeding, and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. Sold at all drug stores or by Dr. Chase & Co., Toronto.

DR. CHASE'S OINTMENT.

A Warning to the Public.

Dishonorable, and disreputable pharmaceutical concerns are flooding the market with cheap and worthless preparations designed to be imitations of

Dr. Fowler's Extract of Wild Strawberry.

Some of these are even labeled "Extract of Wild Strawberry," "Wild Strawberry Compound," etc., in the hope that the public may be deceived and led to purchase them, thinking they are getting the genuine "Dr. Fowler's."

For over sixty-five years "Dr. Fowler's EXTRACT OF WILD STRAWBERRY" has been used in thousands of families for

Diarrhoea,

Dysentery, Colic, Cramps, Pain in the Stomach, Summer Complaint, Cholera Morbus, Cholera Infantum, Seasickness, and all Looseness of the Bowels.

Ask for "Dr. Fowler's" and insist on getting what you ask for. Price 35c. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

DECORATING CHURCHES FOR GREAT CONGRESS

Even Yesterday Workmen Were Still Busily Engaged in Decking Famous Notre Dame Cathedral.

MONTREAL, Sept. 6.—(Special correspondence)—Toronto may imagine it knows something about rain, but to know rain in its fullness and power it is necessary to be in Montreal during Eucharistic Congress week.

Visitors to-day are pouring into the city for to-night's great event and functions soon to be in progress. They have passed the time by visiting the principal points of attraction from the points of decoration or architectural or historic interest.

The decorations at St. Patrick's are perhaps the most complete at the time of writing. When last the writer visited this well-known temple, its walls were hidden under the mourning drapings which told of the death of the great Leo XIII.

It seems to have been taken for granted that the coming of the noted priest, Rev. Father Bernard Vaughan, would be accompanied by something sensational, so it happens that each of the addresses so far delivered by him has been headed by newspaper scare lines as if something alarming or altogether new had come to the front.

In the Monument National last night, an audience amongst which were countless scholarly bishops and minor churchmen, remained spellbound under the polished periods of the renowned London Jesuit, when he told them of the upbuilding of character by an education which began in the arms of a Christian mother and when properly developed would stand the tests of God Himself, and would deserve a glorious eternity in a land beyond the stars.

The sins of society came in for his unmerciful flail, and as Cardinal Logue, the eminent dignitary, who introduced Father Vaughan remarked, the address of the evening was really more of a sermon than a lecture. Amongst the visitors, of whom the press has taken special notice, is Eugene O'Keefe, now at the Windsor.

To Toronto readers, Mr. O'Keefe needs no introduction, but his recognition by The Montreal Gazette, as one of the leading Roman Catholic pillars of the continent, must be gratifying to the many in his home city already acquainted with his beneficence, and also to the generous donor to whom the church and institution are indebted for repeated and lavish assistance.

Whenever the red liver of the cardinal's carriage appeared, it was the signal for the cheers and greetings of the passersby.

Another Fire at Brussels Ex.—BRUSSELS, Sept. 6.—Widespread consternation was caused by a second fire on the exposition grounds this evening. The fire was discovered in the gallery of the international machinery building, and extinguished without much difficulty.

Mr. Bryce in Jamaica.—Right Hon. James Bryce, the British ambassador at Washington, arrived here to-day from New York, and is the guest of Gov. Oliver Mr. Bryce will sail to-morrow for Chile.

Dr. Martel's Female Pills

SEVENTEEN YEARS THE STANDARD Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

SIMPSON

A Pageful of Values for Discriminating Customers.

Our advertisements are addressed primarily to people of discrimination — so that when "American Visitors' Day" comes along we do not feel that we must fall over ourselves to attract their attention. As a rule American tourists are good buyers of good merchandise. For that reason they will fairly revel in the goods advertised here for to-morrow's selling.

American Visitors' Day

This store frankly acknowledges indebtedness for ideas received from our neighbors in the great cities of the United States.

Before tackling the problem of construction, our architect made a study of the most notable achievements of New York and Chicago in the department of retail store building. We received the greatest possible courtesy and attention—just what might be expected from men of large plans who have reason to be proud of their achievement.

In turn we are pleased to be able to show American visitors some new things and some improvements in store construction they will hardly find elsewhere. The freedom of the store is theirs, its conveniences at their disposal, its accommodation at their service, its stocks for their inspection and comparison, purchase or no purchase, with the most cheerful attention of the staff and the heartiest welcome of the management.

Toronto has been described as an American city, and we appreciate the compliment; but Toronto is more—it is a British-American city, with the stability and sound sense of the motherland underlying the progressiveness of the newer continent. Its Exhibition is the greatest annual event of the kind on the continent, and this store is in its best dress for the occasion.

See the Silk and Dress Goods Section. Visit the World of Women's Wear, 3rd Floor. The Rest Room, the Art Gallery, the Orchestra, the Restaurant, the Ice Cream Circle—all invite you.

"Bonnet's" Black Silks

FOR DRESSES, COATS, SUITS, CLOAKS, SEPARATE SKIRTS, ETC.

A new shipment of C. J. Bonnet's French Silks has just come to our counters. Owing to the demand for black silks, these are particularly welcome. Black silks that are guaranteed dye and finish. French cord silks, 30 and 36 inches wide, for coats. Per yard \$1.00 to \$2.50.

Bonnet's French Pean de Soie, 20 inches to 42 inches wide, 75c to \$3.00 per yard.

Bonnet's French Taffeta, 20 inches to 36 inches wide, 75c to \$1.50 per yard.

Bonnet's Moire Francaise, Bonnet's Moire Velour, Bonnet's Radismer, Bonnet's Duchesse Messaline, for coats, dresses and suits. Prices, per yard \$1.00 to \$3.00.

West of England Serges

New mill finish, new diagonal finish, new chevrot finish. These popular suitings come in a large choice of the new fall subdued tones, new tans, new tans, new amethysts, new wood brown and tabac brown, new marine and military blue, new tones in King's blue and Copenhagen blue, new plaid and grey, guaranteed four thoroughly shrunk, in three qualities. 52 and 56 inches, \$1.00, \$1.25, \$1.50.

"Broadcloths," in fine, medium and heavy weights for dresses, suits and coats. We have this popular cloth in a beautiful range of new colorings for fall wear; also the new pastel shades, for coats and cloaks, thoroughly shrunk and spot proof. 52 and 54 inches, \$1.00, \$1.25, \$1.50.

A SPECIAL PURCHASE OF HIGH-CLASS BLACK DRESS GOODS.

2,500 yards San Tons, Panamas, Poplins, Armoires, Cashmere Twills, Velour Cashmere, English Coating Twills; high grade fabrics, and guaranteed fast unfading blacks. 42 to 52 inches. Regular \$1.00 value. Thursday special 75c.

New Fall Clothes for Women

Misses' Neat and Cleverly Tailored Suit, of good quality vicuna cloth; coat is 30 inches long, single breasted, fastened with four novelty buttons, lined with English twill; skirt made in the new pleated tailored style; colors are navy, brown and black. Price \$8.25.

Women's Diagonal Weave Suit, made in extremely good style; coat 34 inches long, lined throughout with silk serge; fastens with novelty cloth buttons; gored skirt, with the new deep bias piece around bottom; colors are black and navy. Good value \$18.50.

DRESSES.

Women's Dress of diagonal serge, in one-piece style, new pointed yoke of fancy net and silk, finished with braid effect over hips; colors navy, green, rose and brown. Price \$10.00.

FALL COATS.

A distinctive model coat; made of fine kersey cloth, lined to waist; 54 inches long; back semi-fitted, with side panels, meeting in a three-buttoned effect in centre back; a handsome scalloped collar, with 2-inch facing; fastens with novelty single breasted front; buttoned low, with large moire silk revers; suitable for early fall wear; sides and cuffs trimmed with silk buttons—\$21.00.

A Smart Fall Coat, made of good weight hop-sack; colors green and black; full length; lined to waist; back semi-fitted, with a buttoned strap effect at waist; sides finished with large ornaments; new turned-back collar and revers, trimmed with novelty buttons and velvet piping; sleeves tailored; finished with buttoned trimmed cuffs—\$19.75.

VOILE SKIRTS.

High Grade Skirt, of good, crisp quality even mesh, all-wool, voile; made in a very pretty pleated style; trimmed with tabs of self, piped with taffeta silk, and finished with silk covered buttons. Price \$13.50.

A Sale of Robes and Tunics

(In the Trimming Dept., Main Floor.)

Jet and Crystal Robes, colored and black sequins; fine lace robes, in black, white, ecru and colors; gorgeous colored and black tunics; hand-mesh silk sheath tunic; superb real lace coats, principally black; lovely French garniture.

ALL AT \$19.50—\$19.50.

Robes Worth Up to \$75.00 each, Tunics Worth Up to \$50.00 Each, Coats Worth Up to \$65.00 Each.

150 Jet, Crystal and Sequin Robes, in black, crystal, gold, black ground, with clumps of color, self-colored sequin, etc.; all imported from Paris, and just delivered to us; they are all what may be termed creations. The ordinary selling price would be \$39.50, \$49.00, \$60.00 and \$75.00 each. Your choice Thursday \$19.50.

100 Beautiful Lace Robes, of the very finest texture, in black, white, ecru and many plain colors, fine Bruges and Renaissance, and the finest of needle run machine laces. Ordinary selling \$35, \$45, \$55 and \$65 each. Your choice Thursday \$19.50.

50 Superb Tunics, now all the rage in Paris, black and combinations of every known color; this lot includes some beautiful specimens of the hand-mesh, tight fitting effects, with heavy fringe. Regular prices \$30.00, \$35.00, \$45.00 and \$50.00. Your choice Thursday \$19.50.

15 Aristocratic Long Silk Embroidered Coats, chiefly black, but some delightful colors; some of these coats cost as high as 150 francs in Paris. Your choice Thursday \$19.50.

We shall display some of these goods in the window on Wednesday, but it only represents a twentieth part of this great stock.

Attractive Parasols at 42c Each

The balance of our Summer Parasols will go at this price. Only 150 in the lot; in neat and fancy stripes and checks, including pure white, in moire effects; gilt frames and natural wood handles; many in the lot worth three times the price. Thursday 42c.

300 Ladies' Umbrellas, a fine grade Austria tops; splendid range of pretty handles; strong steel rod and frame. 75c and \$1.00 values. Thursday 63c.

Ostrich Feathers—Look at These Prices!

As most people know, Ostrich Feathers come into Canada at a very low duty. London is the world's great manufacturing centre for these goods, and where the best dyes and finish are to be obtained. From London we have just opened up one of the largest shipments of feathers we have ever received. They come in black, white or cream, and at all prices from 50c to \$30.00 each.

Here are a few typical values:

Handsome Willow Plumes at \$10.00.

Willow Plumes, worth \$6.00 and \$7.00, for \$4.95.

Duchesse Plumes. Regular \$6.00, for \$4.50.

Duchesse Plumes. Regular \$4.50, for \$3.50.
