That the solution of the so-called returned soldier problem may rest with the men themselves is borne out by the quiet but efficient manner in which Major R. On March 19 Major Cockburn and Mr. R. Hickey had their first conference regarding the employment of returned men. Soon after it was decided to fence in the forty acres that the plant occupies, and to employ a guard.

LABOR DEMANDS ACTION AT ONCE

Speakers at Trades and Labor Council Score Government Delay.

CITY MEMBERS HIT Are Blamed for Not Fighting High Cost of Living.

Delegates at the meeting of the Trades and Labor Council in the Labor Temple last night threw their whole-hearted support into the fast-growing campaign against the high cost of living, and by resolution adopted the recommendation of the executive council calling upon the Dominion Government to appoint a fuel and food controller, take over the cold storage plants of the country and to prohibit the practice of gambling in wheat.

WAR SUMMARY THE DAYS EVENTS REVIEWED

AFTER two weeks of constant fighting the British completed the reduction of Bullecourt yesterday, and they now hold all of the village site. The struggle for this most important position in the Hindenburg line produced some of the most bitter fighting in the war.

Stewart Lyon, who is with the Canadians, reports that bad weather has caused a marked slackening of activity on their front in the past three days. The Germans have become even more inactive than the Canadians.

The French resumed their advance on Laon yesterday by attacking the enemy east of Craonne. They captured some trench elements near Hill 108, south of Berry-au-Bac. Their artillery also violently engaged the enemy on the Calonne Plateau.

According to Major-General Maurice, the allies in the west plan to wear down the enemy rather than to make big incursions into hostile territory. In the past five weeks they have already compelled him to use up 45 of the 49 divisions formed as a new strategic reserve.

The battle of the Balkans is proceeding in full vigor and it is resulting in the gaining of further advantages by the allies, calculated to make the decision incline more in their favor. The French did the chief work yesterday in the offensive when they carried a strong series of works on an 850-yard front west of the Cerna.

The rival factions in Russia have settled their differences, and after coalescing in a coalition government, they will unite to suppress the anarchists of the extreme right. The unsettling effect of the revolution will speedily yield under proper handling to a new steadiness and determination to win.

THE CANADIAN PACIFIC

Would Like to Take Over the C.N.R.—Promises Western Farmer Good Service.

New York, May 17.—Daily Financial America will tomorrow say editorially: While there is much to be said for the interesting suggestion made by The Montreal Gazette that the Canadian railway problem should be solved by nationalizing the National Transcontinental and Grand Trunk Pacific railways, and by inducing the Canadian Pacific to take over the Canadian Northern the latter proposal will, we fear, remain somewhat visionary unless the terms on which the Canadian Northern could be transferred were exceptionally reasonable.

SUIT OVER MOTOR ACCIDENT

In the county jury court yesterday, before Justice Denison, a suit was heard for \$500 damages for a motor car accident. The plaintiff, a woman, claimed that the defendant's car knocked her down at Queen street and University avenue. This case was heard last December and the damages assessed were \$250, but in the court of appeal a new trial was ordered.

If you are a man who will wear none but the better grade suits, and are on the lookout for a saving of dollars on a suit in the very latest style for young men, you will certainly be interested in these offered for special clearance on Saturday morning. Among the materials are cheviot-finished tweeds, homespuns, and worsteds, with chalk line and thread stripes, entirely new mixtures, and small checks, in greys, browns, greenish tints, and blues with colored stripes. Many of these suits are reduced almost to half price, and there is a straight saving of several dollars on every model. Saturday special clearing price, each **18.75**

Will you not take this appeal to heart and give generously according to your means? Consider a moment the immense cost of easing the strain upon our soldiers, not only all over Canada, but at the many Canadian camps in England and France.

FRIDAY MORNING, MAY 18.

Proclaim the Militia Act.

"They should go forward, and I am going forward," was the progressive utterance of the prime minister in connection with the debate on women's voting rights in the Dominion. Sir Robert Borden apparently took the position that the Dominion franchise for women would go without saying, as everyone who looks ahead to the close of the war, and the new conditions the world will meet, has been assured.

It might have been thought that this well party spirit would have been extinguished by the grievous responsibilities of the great war. But even the long horrors of the casualty lists have not been sufficient to kill the bitterness of party feeling.

The country would hail with joy any indication on the part of party leaders that they were realizing the first importance of the urgent matters that have been laid upon the heart and conscience of the nation. There are only these urgent things now to be thought about. Even such questions as suffrage, important and inevitable as it is, are secondary.

The Militia Act only needs to be proclaimed and the whole machinery of the law prepared years ago in times of peace, assembled by all parties and all provinces, would be set in motion, and the national life would move freely once more.

Adversity makes friends, and if the war has done nothing else it has rehabilitated the reputation and renown of Great Britain in many quarters where for one reason or another it had not stood as high as it may have merited.

consciousness of a bad cause touches their heart and sears it with a flaming finger, their spirits droop and their blood runs thin.

The United States Government worked out the problem of the moral right and wrong of Germany on its own account. It was at no behest of Britain that diplomatic relations were severed. It was by sad experience that Washington learned what honor meant in the Toulon code.

The great missions that have crossed from France and Britain to lay their hands on America have been chosen with singular wisdom. Joffre, the bravest of the brave, who worthily leads the French delegation, and Viviani, the Socialist, who should teach our unknowing ones that all Socialists are not gabblers, represent the military and the civil genius of their republic.

Great Britain sends the Scotsman, Rt. Hon. Arthur J. Balfour, the scholar, the philosopher, the long-age member of the Society of "Souls," the psychic researcher, the golfer, the statesman, and the politician, the addresser, the most graceful, the inevitable ensuager, to make clear the inevitable enmeshment of the British and Americans that Britain was right in heart and purpose, as she was right in profession and deed.

LET US HAVE CONSCRIPTION. Editor World: It is to be regretted that some politicians and some newspaper editors try to stir up strife during the war.

There are also indications that the Borden government have practically decided to enforce the Militia Act and to supplement it, if necessary, with powers taken under the War Measures Act that will substantially bring about selective conscription.

RETURN FROM MESOPOTAMIA. E. H. Clarke, national student secretary of the Y. M. C. A. who has been in Mesopotamia for about a year working among the soldiers, will arrive in Toronto next Monday, accompanied by Mrs. Clarke, better known here as Miss Carrie Dunnett, of the Y. W. C. A.

THE GOVERNMENT ASSUREDLY HAS PUBLIC OPINION BEHIND IT

THE POLITICAL POT A-BOILING

Ottawa, May 17.—There has been considerable change in the political situation since the return of Sir Robert Borden. The proceedings in the house on Wednesday, when the question of votes for women in federal elections was up, have cleared the air in two directions: first, that before another election is held there will be a new federal franchise law making a uniform franchise for all the Dominion, including votes for women under reasonable restrictions.

There are also indications that the Borden government have practically decided to enforce the Militia Act and to supplement it, if necessary, with powers taken under the War Measures Act that will substantially bring about selective conscription.

It also begins to look as if the government might declare for nationalization of all railways with the exception of the Canadian Pacific, including some kind of compensation to the debenture shareholders of the Grand Trunk and the common shares in the Canadian Northern system held by the Dominion.

There might also be further reconstruction of the government with a war cabinet, but much of this rather sweeping program would be more or less dependent on the government putting a resolution thru the senate and the house of commons in favor of the extension of the life of parliament for a year or until the war is over.

But there are those here at Ottawa who say that the great stimulus to action on the part of the government since the return of Sir Robert Borden is the approaching Win-the-War Convention at Montreal on May 23, 24 and 25.

Such is the Expressed Opinion of Montreal, Quebec WONT FIGHT IT. Correspondence Toronto Telegram: Montreal, May 17.—The French-Canadian press is gradually swinging around in its attitude towards conscription.

GOOD REPORT BY BANK OF MONTREAL

Assets in Semi-Annual Statement Show a Very Large Increase.

The half yearly report of the Bank of Montreal for the six months period ending April 30th, is a worthy testimonial to the efficient and unswerving administration which this institution enjoys.

The total assets now stand at \$256,804,887, an increase of over \$21,000,000, as compared with the end of the bank's last fiscal year. Just how strong and well prepared is the bank is reflected by the condition of the assets, classified as liquid, representing as much as \$270,004,423, equal to 75.19 per cent of the liabilities to the public, compared with 75.20 per cent at the end of the fiscal year and 64.3 per cent at the end of the previous year.

The principal accounts included in the liquid assets show some important changes, the Dominion and British Government securities, now standing at \$16,278,465, as compared with only \$419,734 at the end of the fiscal year. This very large increase reflects, no doubt, the bank's participation in government war bonds, debentures and stocks, which have increased to \$14,723,193, up from \$12,947,120, and Canadian municipal securities, British, foreign and colonial public securities, other than Canadian, \$2,090,036, as compared with \$21,798,159.

In line with the bank's large government business this is likely represented by a further holding of British Government securities. The balances due by banks and banking correspondents elsewhere than in Canada, call and short loans in Great Britain and the United States show a slight falling off, these now standing at \$17,846,807, as compared with \$14,633,254.

The deposit accounts have continued to show marked growth. This must be considered as especially satisfactory, as withdrawals must have been unusually large on the part of depositors anxious to subscribe to portions of the Canadian war loan.

Baseball Inter-League Series Will Not Be Played

TORONTO CLIMBS UP INTO THIRD PLACE

Take Fourth Straight Game From the Richmond Rebels—Wildness Helped.

The Leafs made it a clean sweep with the Richmond Rebels by taking the fourth game of the series, 1 to 0, at the island yesterday. It was the fourth straight win from the south-owners and five wins in a row for the Lajoie boys. The victory boosted the Leafs into their right position, third place. Providence lost a double-headed and the Baltimore Birds obliged by trouncing Rochester, 7 to 0, for Newark and a race for the top position.

It was a funny old ball game. Billy Smith started Waldbauer, and he was indeed wild. He walked the first three batters, supplied a wild pitch, and Larry Lajoie's corking single scored two runs, and an error let another run in. The victory boosted the Leafs into their right position, third place. Providence lost a double-headed and the Baltimore Birds obliged by trouncing Rochester, 7 to 0, for Newark and a race for the top position.

SIX STRAIGHT FOR CHICAGO WHITE SOX

Blank Athletics—Four in a Row for the Yankees at St. Louis.

At Cleveland (Am.)—Cleveland and Boston broke even in the series, Cleveland winning yesterday, 3 to 1, and Boston winning today, 2 to 1. The series is now tied 2 to 2. The Yankees are four games ahead of the Athletics in St. Louis.

EDDIE CARMICHAEL DIES, STAR LACROSSE PLAYER

Eddie Carmichael, the well-known lacrosse player, died at Weston Sanitarium yesterday from tuberculosis. Carmichael entered the Weston institution some time previous to his illness. He was born in Tottenham, and started his lacrosse career with the Capitals of Toronto. He then moved to the Marlboro and was one of the bright stars of the north and club. He turned professional in 1914, and played on the Tecumseh team.

The Soldiers' Khaki Club will have charge of the game at the Tecumseh first home N.L.C. game. The Indians will have Cornell as their first opponents at the island on June 2. All proceeds from the game will be turned over to the patriotic purposes.

LEGISLATION EXPECTED TO STOP GAMBLING

### UPSET IN FEATURE RACE AT WINDSOR

Windsor, Ont., May 17.—An upset came with the running of the motor city handicap when Adald won from a small select field. The winner was rushed to the front going to the first turn and after drawing into a commanding lead won well in hand at the finish. The upset imposed on Hanovia served as an anchor and she was unplaced. Starter Pilot and Gordon Russell, a winner here, served the contention, they racing it out for the place, sky pilot getting the decision. The continued fine weather made the racing attractive for the largest crowd of the meeting, which has shown a steady increase each afternoon. The card was divided between, second choices and outsiders, Waldmaster, which graduated from the maiden class on the opening afternoon, repeated today and earned brackets for the second time at the meeting. He won from Roy Blue from the stable of Grand High Brown, and which was the only other previous winner in the field. Roy Blue is a slow breaker and was unplaced, never being able to get up with the winner. Waldmaster, who only started twice and has won on both occasions, which is a good recommendation for a two-year-old, and he will no doubt carry his name to victory in future events. The runner here this afternoon that Herman P. Conklin would be the racing secretary at Ottawa in place of Sheridan Clark, who has other engagements. G. W. Alexander today claimed Josefina for \$1100. Jockey Matthews was struck in the mouth with a cloud of dirt and forced to cancel his other engagements. A notice has been posted in the secretary's office warning owners and trainers not to harbor jockey H. E. Rickson, who left the employ of E. Lutz without the latter's consent. Trainer C. J. Casey will ship the Great High Brown horses to Woodbine Saturday. **FIRST RACE**—Purse \$600, 2-year-olds, 4 furlongs, selling, 15 min. from Pimlico: 1. **FLIGHT-LIEUT. BRIMER IS NOW PRESUMED DEAD**

C. O. Brimer, 329 Markham street, yesterday received from the British admiralty a letter stating that his son, Flight Sub-Lieut. Charles T. Brimer, who has been reported as missing since Dec. 4 last, is now officially presumed to be dead. Lieut. Brimer was educated at Toronto public schools and at Harbord Collegiate, being only 18 years of age when he enlisted. He received his preliminary training as an airman at Newport News, Virginia, and went to England in June, 1916, where he qualified and received appointment to the naval air service, in which branch he distinguished himself by unusual ability as an all-round aviator. A close friend of his, who flew with him in another aeroplane, has also written, saying that the two were out searching for submarines in the channel. Fog banks arose and when they had passed Brimer's aeroplane could not be seen. After searching for him for some time, his friend returned to land and the authorities sent out patrols of trawlers, destroyers and seaplanes to search for the wrecked plane. All channel shipping was also warned to be on the lookout, but as nothing was ever found it is presumed the plane sank. A letter was also received from his commanding officer, speaking very highly of the young airman.

**A. D. MACKENZIE WINS LAW SOCIETY'S MEDAL**

An amendment to the third year law results at Osgoode Hall states that A. D. McKenzie heads the list in place of David B. Goodman, as formerly announced. Mr. Goodman, therefore, loses the law society's gold medal and Chancellor Van Koughnet's scholarship of \$400 cash, which goes to Mr. McKenzie. He will receive only the law society's silver medal and the Christopher Robinson scholarship of \$100 cash.

In the original announcement McKenzie ranked second to Goodman, but according to the amended results he now ranks first with a lead of five marks. He was awarded an additional seven marks when the examiner in re-reading his paper discovered that one question had been inadvertently overlooked.

The law society's bronze medal and the Biemell prize of \$50 cash, awarded by the Canada Law Book Co., to the student ranking highest in commercial law, was won by Meyer Rotenberg.

The Boston Opera Company has a splendid cast of principals, including Joseph P. Sheehan and Mlle. Nell Gardini.

RECRUIT IN STATES

Will Permit C.E.F. Units to Send Recruiting Sergeants Across Line.

It is understood that the militia department will shortly make an announcement authorizing Canadian military units to send representatives to the United States to recruit British-born subjects and also the subjects of all other allied nations, with the exception of the American-born.

The Canadian units will be permitted to open recruiting offices in the United States cities, but the Canadian soldiers carrying on this work across the border will have to be dressed in military uniform according to the rules of the new medical standard, which were placed before a conference of certain units and recruits who are able to take the drill or perform the duties of certain units and are in apparent general health may be accepted by the C.E.F., even if they have some form of venereal disease, hernia or heart trouble. These men will be assigned to units in the States and will be sent to the front by active infantry overseas, to guard duty in Canada.

Call warrant officers, N.C.O.'s and men serving in Canada in the C.E.F., either recruits on enlistment or serving soldiers who have been sent to Canada sick or wounded, from this date on are to be classified within five categories. These five new categories are:

- Men fit for general military service.
Men fit for service abroad, but not for general service.
Men fit for service in Canada only.
Men temporarily unfit.
Men unfit for service in the first three categories and awaiting discharge or reclassification.

It is said that a similar category is now being used in England.

Arrangements have been made for the 25th B. Battalion and the 24th Grey County Battalion to be sent to Canada to recruit further east about the last week in May.

Ontario has approved the list of 13 officers of the 25th Battalion submitted a few days ago to the War Office. The list consists of 13 officers, including Col. George C. Boyce and Lieut. Col. W. W. Head (major) in the 25th will both go with the unit.

Authority has been received for the 25th Battalion to go to the front with their units, but without extra pay to the public.

Yesterday the recruiting hours at the Toronto mobilization centre at the armory were closed back to the former day-time schedule. Fifty-seven recruits were accepted for enlistment in the 25th Battalion. Seventeen units shared the recruits as follows: Regt. Depot, 25th B. Co., 18th Highlanders C.D.F., C.A.S.C., Mounted Rifles, Signallers, Amn. Column, A.M.C., Special Service Co., No. 2 R.E. Draft and No. 2 Forestry, each three; No. 7th Bty., No. 14 R.E. Draft and No. 6 Forestry, each two.

"TICK-TICK" AROUSED CUSTOMER'S SUSPICIONS

But Policemen Only Found an Energetic Telegraph Student at Work.

In these days of war's alarms every untoward sound heard by patriotic people is a sinister sign of enemy activity, so it is not strange that a Toronto citizen, when he entered a local store to purchase some of the necessities of this war-torn life, heard the staccato tick-tick of a telegraph instrument should jump to the conclusion that there was an enemy in our midst, sending messages toward the attainment of its dream of world conquest by sending to the Potsdam peace intelligence concerning the movement of Canada's troops, and call in the aid of the police to investigate and apprehend the enemy alien.

In answer to his request, two policemen were dispatched to the store, and called to the store. Entering, they saw a stoop-shouldered young man seated before a telegraphic instrument, right forefinger working the sender, in his left hand a book which he was diligently reading while spelling out the Morse code with his right. Questioned by the policemen as to the meaning of the instrument before him, he explained that he was a telegraphic student, and displayed his Morse code book and other documentary evidence in support of his contention.

This was another German spy story exploded.

MAKES STEADY PROGRESS.

Encouraging Reports Submitted at Meeting of Toronto East Epworth League.

The Toronto East Epworth League, comprising 22 churches, held an enthusiastic rally at the Central Methodist Church, Bloor street, last night. The different reports showed that the league had made steady progress and that the missionary fundings had considerably increased during the year.

Rev. R. E. S. Taylor, lately returned from China, gave an interesting account of his missionary life. He spoke the needs of doctors and nurses, illustrating with the fact that in his section they had a \$25,000 hospital with only one doctor and one nurse.

H. R. Adams was elected president for the ensuing year, Mrs. B. D. Patterson, secretary, and Jos. Kent, treasurer.

The fresh minds and new viewpoints which the government's colleagues from overseas had brought to bear on the problems with which they had been long engrossed, said Mr. Lloyd George, had been an immense help to all of them. So far as the government was concerned they could state with confidence that the experiment had been a complete success.

The imperial war cabinet was unanimous that the proceedings had been of such service, not only to its members, but to the empire, that it ought not to be allowed to fall into desuetude. Accordingly at the last session it was agreed that meetings should be held annually, or oftener, when necessary.

The imperial war cabinet would consist of the British premier and such of his colleagues as dealt

BREAD PICTURES AROUSE INTEREST

Many Bakers Already Evidence Desire to Win World Prize.

JUDGING NEXT WEEK

Loaves Will Be Passed Upon Same Day They Are Received.

That interest has been aroused in the Topical Review motion pictures showing the process of making bread, being presented next week at Loew's Yonge Street Theatre, is proven in the number of contestants who are sending in loaves of bread to The Toronto Daily World office, where they will be judged and prizes awarded.

Many loaves of bread have been received, and The World asks the contestants not to send in any more until next week when the exhibit will be displayed and the prizes awarded. The bread, which after examination at the exhibit is given to charitable institutions, must be inspected while it is fresh, and The World therefore asks the women and girls who are entering the contest to bake their bread next week.

Prizes of \$25, \$15 and \$10 will be awarded to the bakers of the first three best loaves of bread, respectively. The winners will be announced in a later issue of the paper.

The motion pictures showing all of the processes through which the bread is made are clear, and place the subject before the spectator in such a way that no information is lacking. Many who have just taken another advance in themselves worthy of the trouble of baking a loaf of bread, besides the honor of being the best bread-maker in the city, and have accordingly taken pains in this form of culinary art.

A pamphlet explaining the process more fully will be given every woman attending the theatre who the bread-making pictures are shown.

CORNWALL BREAD GOES UP.

Special to The Toronto World. Cornwall, May 17.—The price of bread has just taken another advance in Cornwall, and now the ordinary single loaves sell at 12 cents, while fancy bread sells at 13 cents, or two for 25 cents. This is an increase of two and three cents respectively on the single loaf.

ANOTHER DROP IN FLOUR.

Winnipeg, May 17.—Millers announced that the price of flour, reduced for a barrel, is now \$1.40. This is a decline of \$1.10 in two days.

EGGS FORTY CENTS.

Special to The Toronto World. Brantford, May 17.—Prices for eggs here have risen to forty cents for the action of Toronto commission house men who are buying up all the available eggs in this district at this price, for cold storage. Local men, to secure supplies, must now go over the forty-cent mark.

EMPIRE'S CAUSE IS STRENGTHENED

Lloyd George Refers Glowingly to Imperial War Cabinet.

TO MEET ANNUALLY

Conferences Will Be Held Even More Frequently if Advisable.

London, May 17.—(Via Reuter's Ottawa agency)—In the house of commons today Premier Lloyd George said he desired to report to the house a very important decision which had been achieved as a consequence of the recent meetings of the imperial war cabinet.

It was desirable, he said, that the house should officially and finally be made acquainted with an event which constituted a landmark in the constitutional history of the British Empire. The house would remember that in December last the government had invited the prime ministers or leading statesmen of the overseas dominions and India to attend sittings both of the cabinet and the imperial war conference.

The former body had held fourteen sittings and the British cabinet came, for the time being, the imperial war cabinet. While it was in session the overseas members had access to all the information at the disposal of the government and had occupied a status of absolute equality with the members of the British Government.

It had prolonged discussions on all the vital aspects of British imperial policy and came to important decisions which would enable us to prosecute the war with increased unity and vigor and would be of the utmost value in negotiations for peace came to be discussed.

Annual Meetings.

The fresh minds and new viewpoints which the government's colleagues from overseas had brought to bear on the problems with which they had been long engrossed, said Mr. Lloyd George, had been an immense help to all of them. So far as the government was concerned they could state with confidence that the experiment had been a complete success.

The imperial war cabinet was unanimous that the proceedings had been of such service, not only to its members, but to the empire, that it ought not to be allowed to fall into desuetude. Accordingly at the last session it was agreed that meetings should be held annually, or oftener, when necessary.

FLOUR PRICES LOWER; BREAD HOLDS FIRM

"The government should set a fair price on wheat for the next three years," said an Ontario farmer to a reporter of The World last night when asked about the holding of wheat by the farmers. He said that much of the storing of wheat in the west was due to the inability of the railways to supply cars to transport it. He did not know, however, whether setting a price on wheat for the next three years would induce the farmer to go light on wheat crops in order to realize larger profits by sowing other crops that would be subject to prices created by a large demand.

While during the past two days there has been a drop in the price of flour amounting to \$1.25 a barrel, there has been no reduction in the price of bread, and the rumor is prevalent that it may be increased two or three cents.

Information could be obtained from the bakers regarding the possible price of bread next week, but it is claimed that 15-cent bread does not give the baker a profit.

Kiwans Club to Cultivate Thirty Acres of Farm Land

The seriousness of the food problem through the war and the shortage of labor on Ontario farms was borne home to the members of the Kiwanis Club by J. W. Woods of the board of the weekly club luncheon held in the Carls-Rite Hotel yesterday noon.

Mr. Woods outlined the work of the War Production Club, and the Kiwanis Club decided to accept an offer of 30 acres of land on the Longwood farm which will be tilled by the members with the assistance of their staffs.

An automobile service by which 20 returned soldiers are taken out for a daily trip from the College Street Convalescent Home to the Longwood farm, part of the work of the Kiwanis Club.

At a full meeting the management decided to secure 10 or 15 acres of land adjacent to the city, which will be cultivated by the members of the club. This land will be planted with potatoes and beans.

CITY REDUCES PRICES.

Special to The Toronto World. Chatham, May 17.—A marked reduction in the price of potatoes and butter is expected on the local market Saturday as a result of the activities of the recently appointed civic purchasing board, which will occupy a stall in the market to offer the ratepayers these commodities at the wholesale prices. Several carloads of potatoes have been secured, which are large quantities of butter will be on sale. The board is composed of ex-Mayor Stone, A. J. Gurnea, representing the "wet" element, and Ald. C. Clements, chairman.

He was ordained 50 years ago and had many charges in the diocese. He was born in England, was a director of music and a composer, six of his tunes being adopted by the Anglican Church for use in England. In 1866 he came to Canada as organist for Hon. The biplane was badly damaged, but fortunately the aviators escaped with only a slight shaking up.

ONTARIO BABY MADE STRONG

Mrs. Jarvis Says Dr. Cassell's Tablets Cured Her Delicate Child When Nothing Else Could.

Mrs. Jarvis, Box 298, Pennington, P.O., Ontario, writes: "It is a pleasure to tell you what Dr. Cassell's Tablets have done for my baby. When only five months old he fell ill, and though I had medical advice for him he got worse. I tried several special foods, but none of them would stay on his stomach, and he became so thin that he seemed just skin and bone. He weighed 10 lbs. and we never thought he could live. But changing to Dr. Cassell's Tablets I got some relief. In an hour he was eating a bonny boy now, quite cured, and weighs 25 lbs. at twelve months old."

Charged with perjury, Reginald Barker, the chief witness at the trial of Dr. J. M. Johnson, was arrested yesterday afternoon after giving evidence before Judge Coatsworth in the criminal sessions at the instigation of T. H. Robinson, K.C., the defending counsel. Dr. Johnson was charged with performing an illegal operation upon Margaret Barker, who the witness at one time said was his wife but on cross-examination he admitted that such was not the case.

BREAD FOR PRISONERS.

The arrangements for the supply of bread from Berna to prisoners of war in Germany have never been changed, nor is it in the least likely that they will be changed. Bread for prisoners must be baked and shipped from the nearest neutral countries, which are Holland and Switzerland. It is only upon parcels—whether of food or comforts or clothing, sent by friends or charitable organizations—that restrictions have been placed, requiring them to be transmitted thru a central authorized agency like the Red Cross Society or the Prisoners of War Society for bread are quite unaffected by the regulations relating to parcels.

GUILTY OF RECEIVING.

Abraham Bornstein yesterday pleaded guilty in the country criminal sessions to receiving pool tables and accessories, the property of James McManus, the goods known by him to have been stolen. Bornstein removed these goods in June, 1915, while they were under distraint by the bailiff for overdue rent, and later fled the country. After an absence of two years he came back and gave himself up. He will be sentenced on May 30.

GERMAN TORPEDO BOAT SUNK.

N. C. O.'S DO BAYONET WORK.

An evening of bayonet-fighting work was put in at the Pearl Street Armory last night by the N.C.O.'s of the 19th Regiment. Lieut. G. C. Williams, M. C., and a staff of expert bayonet-fighting teachers from Exhibition Camp were the instructors.

WOMEN HEAR LECTURE OF SINGLE TAX LEADER

"Single tax is the only gateway to economic freedom," was one of the many pithy statements made last night by James F. Morton, organizer for the New York State Single Tax League, before the Political Educational League in the Queen Mary Tea Rooms. This marked the first meeting of the league, and it proved a decided success, as evidenced by the large number of women present as well as a sprinkling of men.

In a powerful speech Mr. Morton urged greater democracy, especially in the matter of taxation. He characterized the present method of taxation as pernicious and dishonest. He showed how property values were increased not by the owner, but by the whole city, the people erected schools, built roads, gave fire protection, constructed a water system, which all went to the benefit of the property owner, but the property owner who benefited.

The speaker also discussed the new social democracy that is bound to accrue from the war, and told the audience that race and caste prejudices must be blotted out; that the conscience of individuals must be more respected; that the complete separation of church and state must be an essential part of the new democracy.

WHAT DYSPEPTICS SHOULD EAT

"With a physician's advice, indigestion and practically all forms of stomach trouble are nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or food which you may like, in moderate amount, taking immediately afterwards a teaspoonful of getting rid of acidity in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. It has been proved that indigestion and stomach trouble is doubtless the best food corrective and antacid in the world. It is a natural food of the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I maintain that I cannot see the sense of doing an inflamed and irritated stomach with drugs instead of getting rid of the cause of all the trouble. Get a little bicarbonate of soda from your druggist, eat what you want at your next meal, take some of the bicarbonate as directed above, and see if I'm not right."

What Every Woman Should Know

Dr. Ferdinand King, New York physician and author, tells physicians that they should prescribe more organic iron—Dissolved Iron—for their patients—Says anemia—iron deficiency—is the greatest curse to the health, strength, vitality and beauty of the modern American woman—Special warning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises us of only dissolved iron.

New York Professor is Strong Believer in Draft System

A professor of practical theology arrived in Toronto from New York yesterday, with his 18-year-old son who intends to enlist and go overseas. Both father and son bear the same name, Hugh Black, and the father, who is a graduate of Glasgow University, came to New York from Scotland eleven years ago to take the chair of practical theology at the Union Theological Seminary. Prof. Black is also the author of many books dealing with philosophy and theology.

When interviewed by a reporter for The World at the Queen's Hotel last night, Prof. Black said that he had been won over to strongly approving the draft system of military service. Not, however, on account of the failure of the volunteer method but because of its too great success. Men rushed to the colors who were not the best fitted for military service but who were splendidly trained for rendering great service along other equally necessary lines. By the draft system the nation decided where the man could best serve and it was the only real democratic method.

Returned Soldier Appointed Governor of Brant County Jail

Sergt. Charles Jones of Brantford has been appointed governor of the Brant County Jail, to succeed the late J. Brown, according to the announcement of Provincial Secretary W. D. McPherson yesterday. Sergt. Jones enlisted in the 12th Battalion on September 22, 1914, and returned to Canada November 20, 1915, after sustaining shrapnel wounds in the head and shoulders. Before the outbreak of war he was employed as a carpenter by the Massey-Harris Company in Brantford.
