FIERCE FIGHT FOR THE FORTS OF BREST-LITOVSK

Strongly Protected Town on the Bug River

Trotsky Said to Have Deposited 'Red Napoleon' as Leader of Army—Two Currents of Opinion in Poland on Peace.

London, Aug. 27.—The Poles and Russians are fighting fiercely for the forts of Brest-Litovsk, the strongly fortified town on the Bug River, 127 miles east of Warsaw, says the Russian Soviet official statement of Thursday, received here by wireless today.

In the Lemberg sector, it adds, violent fighting is continuing with fluctuating results. At Danzig. London, Aug. 27.—The situation at Danzig shows marked improvement and munitions are being unloaded according to the Danzig correspondent of the London Times. It is asserted that there will be no more difficulty over the unloading and despatch of munitions to Poland.

London, Aug. 27.—Following a meeting of the council of action of the labor party yesterday, a telegram was sent to Lloyd George, Hon. A. J. Balfour and M. Kameneff, head of the Bolshevik commission in London. It said that the council, having urged the Russian government to withdraw its objection to the civil militia clause from its demands on Poland, noted with satisfaction the Soviet's latest decision, which removed all difficulties to peace between Russia and Poland. It added that the council of action urges both the British and Russian governments to publish the full terms on which they are willing to make peace.

Warsaw, Aug. 27.—Bolshevik reaction against the Polish armistice along the front east of Warsaw is not expected, at least for the present by General Weygand, according to the Warsaw correspondent of the London Times.

General Weygand is quoted as saying that the Poles should not advance too far eastward, but should content themselves with a line that can be easily held, so they may be able to resist any effort on the part of Soviet Russia to bring overwhelming forces against them in the future.

"If peace is not concluded before winter, the Poles should establish themselves in positions that would enable them to resist victoriously a possible offensive. They should not go too far, however, but should choose a strong line and build up an adequate defense behind it so as to be prepared for any eventuality."

Russian Report. London, Aug. 27.—The next meeting of the Bolshevik-Polish peace conference will decide whether the negotiations shall proceed, says a despatch from Minsk to the Daily Herald, dated last Tuesday. "The Bolshevik military situation is distinctly more favorable," the despatch adds, "and this may be reflected in the attitude of the Polish delegation, which is believed to be sharply divided with a small majority for peace. It is believed the Bolshevik cavalry which was nearly cut off in the vicinity of Mlawa is now out of danger. This raid, which was aimed at cutting the Polish communications through the Danzig corridor, reached Prussian Strasburg and succeeded momentarily in crossing the Vistula at Vlodavak and cutting the railroad."

The Poles, believing the Russians surrounded, demanded their surrender, but the Russians replied with a counter-attack, and even took 1,000 prisoners. They are now nearing the Russian line, which is straightened and consolidated behind Bielskoyk, Krasnopol, and Cholm.

'Red' Napoleon Reported Outcast. Warsaw, Aug. 27.—General Tuchatschewski, known as the 'Soviet Napoleon,' has been relieved of his post as commander-in-chief of the Bolshevik army on the Polish front because of his failure of taking Warsaw, according to information given to the press here. Leon Trotsky, Bolshevik minister of war and marine, has personally taken command of the army. It is reported by Bolshevik officers, who have been taken prisoner.

Soviet Brigade Surrendered. Warsaw, Aug. 27.—A Bolshevik brigade of 4,000, which crossed the Dniester River before Horodenska, and reached the Serech River, was surrounded and surrendered to the re-inforced Polish forces that are clearing out that region south of the Dniester and the left bank of the Bug on the Galician front.

Peace or Finish Fight. London, Aug. 27.—There are two main currents of opinion in Poland—one for a fight to a finish against Bolshevism, the other for immediate peace and recognition at home, telegraphs the Warsaw correspondent of the London Times.

The popular impression in Warsaw is backed by France, the latter by England, but the Entente mission, including France, are all in favor of peaceful policy. Delegates Hungry. Warsaw, Aug. 27.—The Polish peace delegates at Minsk are hungry. An urgent appeal has been received by the ministry of foreign affairs asking that gates. As an application that the Minsk conference may continue indefinitely, preparations are being made to send there five young women stenographers, who have been asked for by the delegates.

FAMOUS FRENCH GENERAL WHO HAS TAKEN COMMAND OF THE POLISH ARMIES

General Weygand, who was assistant to Marshal Foch in the world war, has taken over the command of all Polish troops and already his work is being felt in the setback given to the Red armistice. The general took up the offer on condition that he be allowed to run the campaign in his own way. He has transferred Polish troops from Galicia to the Warsaw front and General Weygand went to Poland at the head of 500 French officers.

Halifax Pilots Bring in Reports of Big Sharks Off Harbor. Halifax, N. S., Aug. 27.—Pilot schooners on the cruising station at the mouth of Halifax harbor report that the waters there are infested with sharks. One of the vessels, in today from the station reports having harpooned seven of the fish, the largest ten feet long. They are 'blue fish,' they say, and add that while the fish are not actually of the shark variety, they are as voracious and ready enough to kill and eat a man."

PARISMEN TODAY IN TUSSLE ON CANAL NEAR BRUSSELS. More Than 40 Craft in Preliminary Olympic Rowing Races—Finals on Sunday.

Brussels, Aug. 27.—Crews entered for the Olympic regatta began their contests over a two thousand meter course in the Brussels maritime canal here today. With approximately a dozen nations represented and more than forty craft to compete in the five classifications scheduled, the preliminaries will be continued tomorrow, with the finals on Sunday.

The rowing events, though conflicting with some Olympic events being held at Antwerp, were expected to draw big crowds. All regular traffic was barred for the time of the meet. The canal is about 100 yards wide, and there was little chance of crowding the boats.

All of the five scheduled events, which are as follows, were at 8:00 o'clock: Single sculls, double sculls, without coxswains; pair oared boats, with coxswains; four oared boats, with coxswains. All the boats were equipped with outriggers.

In addition to the Olympic medals, the challenge trophy offered by Count Brunette D'Useaux, a stateside of Pellat Athene, which is now held by the Leander club of England, is to be competed for in the eight oared race.

REPORT OF U. S. CONSUL ON OUR SHIPBUILDING. Washington, Aug. 27.—Canadian shipbuilders are urging a direct subsidy for every ton of shipping built in the dominion as a means of saving the industry from ruin, according to a report from Consul Felix Johnson at Kingston, received today at the department of commerce.

Many of the Canadian shipyards have been operated at a loss, the consul reports, and since the announcement by the Canadian government that there will be no further extension of the shipbuilding programme it has been held that if shipbuilding is to continue a force in the industrial life of Canada it must be developed along lines that will insure stability and permanence. The consul said that Canadian shipbuilding practically got its start from the encouragement by the government during the war.

There are three yards in Nova Scotia, four in Quebec, six in Ontario and four in British Columbia, he said, with \$20,000,000 invested in the industry.

As Hiram Sees It

"I just been thinkin," said Mrs. Hiram Hornbeam to the Times reporter, as she sat some sugar in her tea at breakfast, "I consider them sugar refiners was 'They waited till the present season was about over afore they let the price begin to go down. I hope they didn't want to get the people excited in berry-awful way."

"They're always considerate," said the reporter, "but you're right. They've been waiting a long while, and now they're letting the price go down. I hope they didn't want to get the people excited in berry-awful way."

"Oh, it's a good thing," said Hiram. "We've gittin' organized in every country. Them fellows that's tryin' to get us to suit themselves in Ottawa may think they're the last word in politics, but they're only a holler heath. The seed's planted an' a new growth comin' that'll smother 'em out—By Heav'n!"

Greeks Also Attacked by Nationalist Troops—Armenian Ministers Reported Killed. Some British Trade Unions Do Not Want Miners to Quit.

London, Aug. 27.—Hollings yesterday again showed large majorities in Wales in favor of a miners' strike, but in some parts of the country adverse votes were recorded. The indications are, however, that the strike will be voted by the necessary two-thirds majority.

Simultaneous anti-strike movement among other trade unions is growing fast. Campaign is active on both sides and strong efforts at mediation by the moderate labor leaders may be expected immediately the result of the balloting is announced.

Highest during the day. Lowest during the night. Toronto, Aug. 27.—Temperatures: Highest during the day, 82; lowest during the night, 62.

It was decided that each inspector should take care to explain to each prospective candidate the improved conditions, particularly in the surroundings of the profession, which might attract those who might not otherwise consider studying for the profession.

Dr. Carter said after the meeting that it should be recognized by the public that any increase in salaries for teachers, however great, cannot have an immediate effect on the supply of teachers, as it will take some time for them to prepare for the work, and the present scarcity is to be expected for two or three years at least.

Dominion Police In Ottawa Refused To Turn Out For Drill

Dissatisfied With New Regulations Not Pleased With Conditions Since Amalgamation With Royal Mounted and 28 Refuse Orders—Mutiny, Says Commissioner.

Ottawa, Aug. 27.—(Canadian Press).—The members of the Dominion police stationed in this city, recently amalgamated with the R. N. W. M. P., have been very much dissatisfied, it was learned here yesterday, with the new regulations to which they have been subjected since being made a part of the new force, which is now known as the Royal Canadian Mounted Police.

This dissatisfaction came to a head yesterday, when twenty-eight of the men refused absolutely to turn up for drill on Hill for their morning drill. It is said the entire membership of the old Dominion police are going to enter a protest with Commissioner Terry.

Their action in refusing to obey orders constitutes mutiny, and this was pointed out to the men, who were called before the commissioner and informed that some disciplinary action would have to be taken in view of the gravity of their protest.

A committee from the ranks of the Dominion police is being appointed for the purpose of laying their grievances before the commissioner.

PLANE AWAY FROM CAPITAL THIS MORNING. Fredericton, N. B., Aug. 27.—The Canada Air Board resumed its trip to Ottawa at 10:45 o'clock this morning. The plane was to follow the St. John river for some distance and then strike across the Bay of Fundy.

THEATRE MAGNATE HANGS HIMSELF. Boundbrook, N. J., Aug. 27.—Guy Brigg, a wealthy theatrical promoter, committed suicide yesterday by hanging himself in the cellar of his home here. He promoted the "Greenwich Village Folies" and "Whale's" and "The Green" in New York on next Monday night.

He is said to have inherited an estate estimated at \$1,000,000 from his father, the late Benjamin Brigg, an investor largely interested in the Cunard S. S. Co. Brigg had lost considerable money in the stock market and this is not supposed to have been the motive for his suicide.

Ottawa, Ont., Aug. 27.—(By Canadian Press).—The official itinerary of the tariff inquiry commission issued last night covering the four western provinces and Ontario as far east as Windsor, provides for fourteen sittings west of the Great Lakes and three additional sittings at Fort William and Fort Arthur, Sault Ste Marie and Windsor.

Winnipeg and Vancouver will have sittings each. The date of additional eastern sittings will be announced later by Sir Henry Drayton, minister of finance. The first session will be in Winnipeg on September 14.

McNulty, a returned soldier, employed at the Malleable Iron Works, yesterday had his left leg completely severed, when in attempting to cross the railway track ahead of a moving train. He fell and was run over. He will recover.

He thinks the housing situation in Winnipeg will be serious this winter unless drastic action is taken at once.

NEW CROP MAY MEAN A LOWER FLOUR PRICE

Statement of Prominent Montreal Milling Expert Reports from Ontario and West Indicate Large Yield—Average of 75 Bushels of Oats to Acre on One Ontario Farm.

Montreal, Aug. 27.—It was said by a prominent milling expert here yesterday that when the new western crop starts moving, a new price list for flour and other products will be probably issued with a probable downward trend in the cost of bread to the consumer. Great Yield. Naim, Ont., Aug. 27.—All records for oat yield in Middlesex county were smashed yesterday when at the threshing at the farm of Kenneth Rose, on the second concession of East Williams, the crop averaged seventy-five bushels to the acre. The grain is a splendid sample in every respect.

With the exception of barley, crops in general in this section are among the best ever known and the farmers expect a record for the most prosperous season in their history.

Calgary, Aug. 27.—As an instance of the rapid manner in which the 1920 crop in Alberta is being handled, the first car of rye arrived in Calgary yesterday morning from the Taber section. According to George Hill, Dominion government inspector, this was an altogether admirable sample and weight 65½ pounds the bushel. It is said that the Taber rye would run about thirty bushels to the acre.

Bienheim, Ont., Aug. 27.—Reeve John A. Cameron of Harwich township, combed his wheat threshing on Wednesday, and had 8,100 bushels. This is the product of 103 acres, representing a yield of more than thirty bushels to the acre.

St. Catharines, Ont., Aug. 27.—Fruit contained in home made baskets, constructed from old bushel containers, was displayed on the local market yesterday illustrating the shortage of standard fruit baskets which is hampering the growers.

ASSESSED FOR FUNDS FOR THE REPUBLICANS. Charges Made by Governor Cox, Democratic Candidate for U. S. Presidency.

Pittsburg, Aug. 27.—Information to support his charges that a Republican campaign fund exceeding \$150,000,000 was being raised "in a conspiracy to buy the presidency" was presented by Governor Cox of Ohio, Democratic presidential candidate in addressing a public meeting here last night.

His diatribe consisted almost entirely of matter taken from the official bulletin of Fred Wm. Upham, Chicago, treasurer of the Republican National Committee, but his chief exhibit was a typewritten list purporting to show Republican candidates in twenty-seven states and aggregating \$8,145,000.

Names of local subscribers, Governor Cox said, were ordered kept secret. That Senator Upham, a Republican opponent, "was acquainted with the details" of the quota plan and that it was also approved by Will H. Hays, chairman of the Republican National Committee, was charged by the Democratic candidate.

EVIDENCE OF RUSH OF TRAVEL. Train travel is becoming so heavy that the railways are finding it a continual problem to secure sufficient equipment to accommodate the demand. The rush of tourists back to the States is so great that the Boston train will be sent out in two sections tomorrow night, the first leaving on schedule time and the second section about twenty minutes or a half hour later. In the latter section there will be six pullman cars, which are inadequate to handle the large number of people seeking accommodations. It is said that it would be an easy matter to fill ten cars if they were available. C. P. R. officials returning from Montreal report that the same conditions prevail all over the country and they are unable to handle the rush. It is the first time in years that the Boston train had to be sent out in two sections.

The travel to the States on the Eastern Steamship steamers from here to Boston is also reported exceptionally heavy. Travel to the city has fallen off considerably although the steamers are being scheduled between 200 and 300 here on their regular trips. TUGBOAT BUILT IN 56 HOURS. Seattle, Wn., Aug. 27.—The tugboat Scagway, built in fifty-six hours, was launched yesterday by the A. W. Carlson Company. This is believed to constitute a world's record for speed.

Toronto, Aug. 27.—Sir Auckland Geddes, British ambassador at Washington, D. C., arrived in Toronto last evening and will formally open the Canadian National Exhibition here tomorrow. Last evening he had dinner at the York Hotel. During his stay in this city, Sir Auckland will be the guest of the Canadian National Exhibition Association.

In an interview he spoke of the good relations which existed between Great Britain and the United States, and the importance, in the interests of world peace and triumph of democratic principles, that these two great democracies should continue their peaceful relations. He said that, so far as the United States and Great Britain were concerned, there were no interests which conflicted, but that on the contrary, the two nations had much in common.

Touching on the League of Nations he expressed optimism as to the working of the league. It was not expected to function, he said, when the world was at war, but in peace times. He had great hopes of the league operating as an economic war, not by force of arms.

OPEN HIGHER ON WALL STREET. New York, Aug. 27. 10:30.—With scarcely an exception, the movement of prices at the opening of today's stock market was towards higher levels. Rails were less prominent in the advance, yielding to steels, equipments, oils, motors, shippings and tobaccos. Metals were the only issues to maintain reactionary tendencies, Utah Copper losing almost a point. A moderate initial setback in Reading was soon recovered.

New York, Aug. 27.—The "cat step" and the "camel walk," two of the most advanced variations of the modern dances, both were tabooed yesterday in a resolution unanimously adopted by the American National Association of Masters of Dancing in convention here. These much talked of dances had been submitted to the association for official approval.

THE TEMPLARS. The Supreme Temple of Honor and Temperance at its session this morning adopted the new mode of work as exemplified last night, and in future there will be but two departments—the high and the low degrees instead of four. The report of the committee on the state of the order as presented last night by Hon. W. F. Roberts, M. D., was adopted, as was the report of the juniors.

Discussion took place on the matter of a banner for Sweden in recognition of the good work done there in the cause. The matter was finally left in the hands of Hon. David L. Robinson, retiring supreme templar, for disposal.

FIGHT ON THE FLOOR  
OF THE OCEAN!

Of course you've heard of Houdini, the famous handkerchief king, self-liberator, and stunt artist, extraordinary. Probably you've seen his marvellous stunts in vaudeville. He's even more remarkable as a motion picture star. Houdini is on at the Imperial this change in a picture which, we are sure, has never been equalled for real thrills. It's called "The Island." Houdini performs some feats under water that will make you gasp. He is locked into a safe and thrown into the sea, escapes. He battles on the floor of the ocean with a professional diver. And that's not nearly all. "The Island" is not just breath-taking thrills. There's a delightful love story running through it, with pretty Lila Lee as the heroine.

GOING WITH A  
SWING AT THE  
FAIR GROUNDS

Extensive repairs and alterations are being made at the exhibition buildings in preparation for the big event. The exterior of the main building has been newly painted a French gray with green trimmings. Inside, in the centre of the building is a huge bell-shaped dome with colored lighting reaching from the base to the peak in streamers. Electric lights line the base and run upward. At the rear entrance to the main building are the four captured German guns mounted on concrete bases.  
The entries have been coming in very fast the last few days and the managing committee are being hard pressed for space for certain exhibits. This is particularly true of the sheep entries, so many of these having come that it was necessary to provide extra accommodation for the sheep. The work is progressing satisfactorily according to schedule, and this promises to be a banner year for the St. John exhibition.

IRISH REPORTS

Serious Belfast Rioting—  
Lord Mayor of Cork May  
Live Week.

Belfast, Aug. 27—"Belfast could be no worse," was the description given by high police officials last night. At 8 o'clock the riots had extended to Grosvenor road, a long thoroughfare running from the heart of the city to the falls, where two spirit stores were raided. The military was obliged to disperse the rioters.

Rioting of the fiercest nature began at the city and immediately spreading to the suburbs in the evening in Vulcan street and immediate vicinity. Many were injured among the rival factions. Later the trouble extended to Newtownards, thirteen miles from Belfast, in which the shipyard workers.

Early yesterday Sinn Feiners in Ballymacarrett sniped the military who returned the report Francis McCann was shot dead and another man was wounded.

Appeal to France.  
Paris, Aug. 27—George Gavan Duffy, Irish M. P., who is the "Irish Republic" envoy in France, yesterday published a letter he has sent to Premier Millerand warning appealing to France to intervene for the release of Lord Mayor MacSwiney. The letter says that France saved the British Empire by her sacrifices during the war, and "were a suggestion made to the London government it would save the life of an Irish patriot."

Self-determination.  
Montreal, Aug. 27—In connection with the provincial convention of the Self-Determination for Ireland League in Canada in Quebec commencing on Saturday, a meeting of the league was held in Montreal to hold provincial conventions all over Canada at about the same time. That in Nova Scotia a convention is to be held in Toronto next October.

HARBOR RATES  
Harbor and Shipping, a periodical published at Vancouver, commenting on the increase in the wharfage rates at Montreal, says:—  
"The Vancouver cargo rate will have to be increased later on, when the Baltimore pier is completed. The main difference between Montreal and Vancouver is that in Vancouver there are wharves privately owned and not under the control of the harbor commissioner."

London, Aug. 27—Terence MacSwiney, Lord Mayor of Cork, today began the fifteenth day of his hunger strike, in much the same condition as yesterday. He was weak this morning but was conscious and able to speak. It was said he might live another week if his lungs have not been weakened as a result of a previous illness.

Mary MacSwiney, his sister, yesterday sent a reply to the telegram which Lloyd George sent her to cheer. In it she said:—  
"I made no appeal to you for exceptional treatment for my brother. I wanted you to see your responsibility in event of his death. He and his comrades died for a great cause and we are proud of them, but their death lies on you and your government. Self-determination for which you say England went to war, is much Ireland's right as Poland's. We claim it and will have it even if you have decided that my brother is to die."

SUGAR PRICE DROPS  
Montreal, Aug. 27—Local sugar brokers, who seem to have heavy stocks, were yesterday offering the best granulated sugar to wholesalers at eighteen cents a pound in lots up to 1000 bags, refiners were quoting \$22.80 a hundred for the same grade.  
It was explained that brokers have been holding heavy stocks for higher prices, but in view of the outlook for the decline, they are anxious to unload. It was said that some of the stocks accumulated by brokers had been bought as low as fifteen and sixteen cents.

Announcement was made by sugar refiners yesterday, after a long consultation with representatives of the Board of Commerce, that the price of sugar would be dropped two cents a pound all round, today, and that this would affect all grades of sugar, both granulated and yellow.

Following the announcement from the Board of Commerce, the price of sugar went into effect in St. John today. The wholesale price which yesterday was \$24.10 a hundred pounds, was dropped to \$22.10, and the refiners were selling this morning at twenty-three to twenty-four cents a pound.

Thin People Need Phosphate Most in Hot Weather

Appt. to Take on Good Healthy-Flesh Even on Sweating Days Phosphate is Taken with Meals. Druggists Dispense Bitro-Phosphate because it is Real Organic Phosphate.

Thin men and women; nervous and constantly out of sorts; who want nerve force, energy, and power of endurance, are just the people who will find a helpful friend in Bitro-Phosphate which is undoubtedly just what your nerve, blood and bone cells are begging for. Phosphorus is a very important element of every living cell in your body. Without the necessary supply, nerve force, energy, and power of endurance, ambition vanishes and a wretched feeling of exhausted power supplants that once-indomitable spirit so necessary to success in these strenuous times. Bitro-Phosphate feeds the nerves directly with the phosphorus food elements they crave. As evidence of results in cases of thin, exhausted people, clinical tests in St. Catherine's Hospital, New York, showed that two patients gained in weight, one 28 pounds and the other 27, while organic phosphate was administered, and both patients claim they have not felt so well and strong in the past twelve years.

To The Mother In Every Family

Below are plain directions for effective treatment of a number of simple ailments, for the often occurring cases of which, the average family cannot always afford the Doctor's services or, as when traveling or away for the summer, or living on the farm, are so situated as to be unable to always obtain his services promptly, even if their means permit. For acute painful stomach and bowel attacks (summer complaint) take a teaspoonful dose of PERRY DAVIS' PAIN-KILLER in a glass of warm water, slightly sweetened, following the other directions on the wrapper accompanying each bottle. For sprains, bruises, insect bites and stings, apply the "Pain-killer" freely by hand or with a bandage. For Chills resulting from exposure and cold or damp, take a teaspoonful dose of "PAIN-KILLER" in a glass of warm water or milk slightly sweetened, just before retiring. This water or milk slightly sweetened, just before retiring. This treatment with the other measures given on the directions accompanying each bottle will be found most effective in combating the evil after-effects of chills which otherwise often develop into Colds, Bronchitis, La Grippe and Pneumonia. For children's Croupy and Bronchial attacks. If a child at bed time shows evidence of such attacks coming on, wrap out a flannel cloth in a cupful of hot water to which a teaspoonful of "PAIN-KILLER" has been added, wrap this around the child's throat and place over same another cloth. The warmth and drawing power of the "Painkiller" are remarkably effective in checking the ailment, soothing and inducing sleep, sparing both mother and child a restless night. PERRY DAVIS' "PAIN-KILLER" has been on the market for over seventy-five years. It is used in nearly every country on the globe by thousands of families of every race for the purposes described above. Every family and every traveler will do well to have always on hand a bottle of this reliable household medicinal preparation. Regular size bottles... \$ .50 New large family size (containing more than double the regular size)... \$ 1.00 For sale everywhere.

Why the Present Price of Furs

A FEW years ago "green" muskrat pelts sold for fifty cents. Today they bring from \$4.00 to \$8.00. Add to that the cost of tanning, dyeing, cutting, making, marketing, etc.—all at present-day labor costs,—and you get some idea for the reason of current prices on Hudson Seal (dyed muskrat) garments. Similar facts hold true with every other fur garment today. It is not a matter of prices but of service, style, comfort and beauty, for fur garments are economical.

Our August Fur Sale

offers many exceptional opportunities for a choice selection from a wide variety of prices. Many elaborate garments of luxurious quality, as well as the plain and simple fur pieces, are available here at most economical prices. The lady who would be comfortably and stylishly gowned next Winter will find this Fur Sale a mecca for saving money while yet realizing the height of Fur Fashions.

I view the heaving ocean, that sighs of sailors' graves, and have no foolish notion of splashing in its waves. For men in bathing garments that are old or fat, are silly looking animals, there is no doubt of that.

**WOMAN COMMITS SUICIDE**

Westfield, Mass., Aug. 27—After an all-night search by police and civilians, the body of Mrs. Edward S. Root of this town, prominent in Western Massachusetts fraternal circles, was found at the foot of a high cliff, nearly two miles from a point where she had abandoned her automobile after leaving her home.

Death was due to suicide in the opinion of the authorities, for her head was enveloped in a towel and pillow sack saturated with chloroform and securely fastened with the web of her silk sweater.

A note in her purse explained that she intended to end her life. She had been suffering from melancholia.

Mrs. Root was marshal of the Massachusetts Rebekah Assembly and active in the affairs of the local Rebekah lodge.

John Drummond, who was a native of St. George, N. B., died at his home in the district organization.

**FIND BLASTS INSUFFICIENTLY COVERED**

Coroner F. L. Kenney conducted the inquest last evening into the death of Michael MacDonald, who was killed by the new C. P. R. bridge on Saturday.

William Nicholson in his evidence said that the cause of the flying rock was the fact that short holes had been drilled.

Charles Hill, W. A. Cameron, Dr. J. M. Barry, F. G. Rutley and Francis Nicke gave evidence.

The verdict was as follows: "We, the undersigned jury, empaneled to inquire into the cause of the death of Michael MacDonald, find that he came to his death on the morning of Saturday August 21, while at work for the Foundation Company, Ltd., at the veritable Falls bridge, rock cutting in the city of St. John.

"We find that his death was due to a compound fracture of the skull caused by being struck on the head by a piece of rock hurled by a blast insufficiently covered.

"We further find that the method of covering blasts used by this company does not afford sufficient protection to insure safety.

The board has seventeen other cases in which they will prosecute. J. R. Campbell, K. C. acted for the board.

A case against Victor Piesant, charged with being drunk and accosting girls in the street, was resumed and after corroborating his evidence he was allowed to go on the more serious charge and fined \$8 on the drunkenness charge.

FINELY DRESSED BODY OF WOMAN GIVEN UP BY SEA

Name of New York Merchant Written in Slipper

Suicide, Says Examiner — Victim of Drowning Apparently 40 Years Old — Body Wedged in Rocks off Staten Island.

New York, Aug. 26.—The waters have given up another mysterious tragedy when the turning tides tossed the body of a woman, believed, onto the rocks under the guns of Fort Wadsworth, Staten Island.

Plainly a woman of refinement and evidently from a single where her means were ample, the harbor's latest castaway was lying in the island's morgue, unidentified, and with the police seeking to tear away the mystery with only a name and a number in one of her dancing slippers—both the marks of the maker—to aid them in their quest.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got cured of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a car-timer, no trouble. I have nothing to sell, but will give full information about how operation, if you write to me, Eugene M. Pullen, Carpenter, 1988 G. Marcellus avenue, Manassas, N. C. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

MRS. DOOLEY'S ADVICE TO WORKING GIRLS

"I wish all girls who work and suffer from functions profited by my advice and take Lydia E. Pinkham's Vegetable Compound. I was married when I came home from work at night. I would just wear out with pains which I took Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I can work again morning until night and I don't suffer any more, and I wish all girls who suffer as I did would try Lydia E. Pinkham's Vegetable Compound. Write to Mrs. H. ## GREAT RUSH TO COUNTRY FROM ENGLISH CITIES

(A. P. Correspondence.)

London, Aug. 27.—Never has there been such an exodus from the larger cities of England to seaside and village for the vacation period as this year. Railroads and coastwise steamship companies have been unable to cope with the traffic and lack of living facilities at the more popular resorts have forced thousands to sleep on the sands until they can arrange to get back home.

August, partly because of custom and partly because this month is the warmest of the cool English summer, is the great holiday time of the country.

This year the government decided to raise railroad fares to 75 per cent above the prewar level in order to recoup some of the loss incurred in operation by the government. This increase was made in face of a solid press campaign against it and was announced to become effective August 6. Consequently thousands who had planned their vacations later changed their plans to avoid the fare increase. The decision to go early came too late to arrange for accommodations at resorts and thousands left home with the idea of taking a chance on getting rooms.

## N. S. ODDFELLOWS

### Initiation Fee Increase — Memorial Home Project.

Amherst, N. S., Aug. 27.—(By Canadian Press)—At the annual session of the Grand Lodge of the Independent Order of Oddfellows yesterday the question of the Grand Lodge meeting bi-annually instead of annually came up and it was decided to continue to meet annually. The next session will be held in Waterville, N. S. The fee for admission into the order has been increased and it will be divided between the grand and subordinate lodge funds. The proposed Oddfellows memorial home fund will receive a portion of the increase.

A committee appointed to revise the degree ritual reported together with the manuscript for a new ritual. This will be taken up by the grand committee of management and published.

A special committee to take up the raising of funds for the establishment of a memorial home for aged Oddfellows, their widows and orphans reported a large amount raised. A big campaign is about to be launched for funds for this lasting memorial to the members of the order who fell in the war.

## TWO THOUSAND WELCOME KING

Renfrew, Aug. 26.—Two thousand citizens of Renfrew and the surrounding district gave welcome to Hon. W. L. Mackenzie King here this evening. Many could not gain admittance to the armory. He made a strong appeal to both Labor and Farmers to enter politics but put to enter a class because, he said, if one class gained ground, jealousy would be engendered in another class, which would prove disastrous to both. He invited both parties to join forces with the Liberals, who, he said, were real democrats and ready to put into effect the lessons which the war had taught. He advocated tariff reform, and described as dishonest people who talked free trade at this stage of Canada's history. He advocated reduction of duties on necessities of life.

## OWES \$1,700,000

Philadelphia, Aug. 26.—In the United States district court, Judge Dickinson has appointed General Manager Wood receiver for the Bethlehem Motors Corporation. The company owes \$1,700,000 to New York, Boston and Philadelphia banks, much of which is unsecured. The stock, which sold as high as 45 at one time, was down to six today.

## OUTBREAK IN AFGHANISTAN

London, Aug. 26.—A despatch to the London Times from Simla, British India, dated Thursday, says the northern Afghan garrison at Maimansal Sharif has mutinied owing to Bolshevik influence. The troops are demanding the establishment of soldiers' councils on the Russian plan.

A score or more of children from the different local orphanages were the guests of Mayor Schofield yesterday afternoon at the small traveling show that is exhibiting on the Shamrock grounds. The kiddies were delighted with their outing.

## TRADES COUNCIL DRAWING.

The drawings for the Trades and Labor garden party were made last evening with the following results: No. 1955, Fred Garnett, a ton of coal; No. 207, P. Gacey, one-half barrel of flour; 2017, William O'Brien, a ham, donated by G. B. Taylor. The prizes may be obtained by the winners applying at the Humphreys' office, 222 Prince William street.

## Making Electricity a better servant

HERE, in one sentence, are expressed the business—the purpose—and the ideals of the Benjamin Electric Manufacturing Co. and each and every product of its factories.

Electricity has been lavish in the opportunities it has presented to catch and return the spark of practical inventive genius.

Here, in Canada, is an institution—a big institution—that has been built on wonderful ideas—ideas prompted by the thought of "Making Electricity a Better Servant", and the development of those ideas into actual articles of usefulness.

The Benjamin institution has brought into being and developed into necessities many electrical devices that make this giant of energy easier and safer to control and more convenient to use.

It will pay you, when buying Electrical Goods to ask, first of all, "Is This a Benjamin product?"

the 'happier' he must be if he is a soul whom money consoles, for he has a rain check in the form of an insurance policy and when he gets home he can cash it. The more it rains the more cash he gets. He can insure himself against rainfall at a premium of so much per inch or fraction thereof, and if he is able to estimate in dollars and cents the worth of the fun he counted on having if the sun should be cash that too.

No Yankee brain conceived this new-fangled idea in insurance. It comes from Merric England. Henry W. Ives, insurance broker of 5 Nauyas street, went to England and found the papers full of "rain insurance." Business firms were taking group policies for their employees as an inducement to contentment and an advertisement for themselves.

The circulation of a magazine of a magazine was announced in type: "Five pounds for you if it rains. Five pounds is what you get if your holiday turns out wet." The free policy protecting the holder against rain at any report for one week was to be awarded to the reader who sent in the best estimated amount of the first line of which must end with "sun". We can prevent rain from falling, but we can't prevent it from coming.

Rain insurance is not new. For some time a British company has been issuing policies of any sum per day or per week, based on the amount of the premium, for managers of enterprises whose success depended upon fair weather.

Henry W. Ives & Co. began issuing such policies in this country last spring, extending them to cover losses to cotton crops, contractors and county fairs. Now they have added vacation rain insurance. The rates are based on the probabilities of precipitation in any given part of the United States or Canada as they are shown by records of the United States Weather Bureau for the last ten years.

"There are two kinds of policies," Mr. Ives said yesterday. "Suppose a business man is going to the Thousand Islands for fifteen days. He figures that his expenses, with loss of pleasure in case of rain, comes to \$100 a day. We give him a policy insuring him against an inch or half an inch, or a fifth of an inch, or any amount of rainfall in any twenty-four hour period. If the specified amount of water comes out of the clouds within the specified period we pay the man \$100. The second form of policy carries insurance for each week or two weeks or any other period in which to we'll say an inch and a half in the aggregate.

"The rates are governed by the hours, the time of the year, geographical position and the amount of rain against which protection is desired. For a period of twelve hours the rate ranges from 15 to 20 per cent of the amount of the policy. For a twenty-four hour period it is about 60 per cent of the amount which takes out a policy protecting him against one hour period in the vicinity of New York.

will pay a premium of about 14 per cent. The company does not insure against damage, but against rain. #### GIRL ROBBED AS "WARNING."

Men, Held for Taking \$5,500, Told Woman to Get Insurance.

(New York Times)

Believing a fake robbery of his friend's jewels would make her realize the advisability of taking out burglary insurance, according to his story, Donovan L. Shaw, a lieutenant in the air service during the war, devised a plot in which one of his friends would remove the young woman's valuables, by force, if necessary. The alleged carefully laid plans were carried out successfully last Monday night. As a result Shaw and Harry E. Diamond, a salesman, were arrested and held in \$5,000 bail each on charges of robbery. The jewels and money, amounting to \$5,500, according to the police, have been recovered.

The victim of the alleged fake holdup was Miss Susan Duval, who told Detectives Foley and Sherry of the West 100th street station she had been going out with the former lieutenant for several months. On Monday night, she said, she and Shaw returned to her home at 85 West ninety-fifth street. They saw a stranger in the vestibule of the house as they were entering. Soon after she said, the stranger followed them in through the door, which Shaw had left ajar. The intruder, aiming a "revolver," demanded that Shaw and Miss Duval hold up their hands.

The stranger ordered the pair into a clothes closet, bound their hands and legs, and locked the door. Shaw later said to have unfastened the cords and freed the woman. She notified the police. A water pistol which Shaw concealed in court had been used by Diamond was found in the apartment, proving, according to the former lieutenant, that the robbery was only a joke.

FANS ARE SORRY FOR CLEVELAND

Tragic Death of Ray Chapman Throws Veil of Sadness Over Baseball.

(New York Times) The tragic death of Ray Chapman has thrown a veil of sadness over the major league baseball from which the sport will not entirely emerge during the remainder of the season.

That the sympathy of the entire baseball world goes out to the family and to the Cleveland Club in its great loss has been clearly proved. The city which the dead player had so well represented on the diamond over a stretch of years paid him the honors usually accorded upon the death of a public official and mourned as few big cities mourn the passing of a representative citizen.

The note of bitterness which for a time threatened to develop from the unfortunate accident is happily passing. The tendency of some to put the blame on Carl Mays, because of certain difficulties in other years, has been offset by the sound words of cooler heads, who never doubted that the affair was accidental.

Meanwhile the Cleveland players are facing the task of recovering the pennant that seemed all but won. The blow which took Chapman Saturday during the closing weeks of the campaign and the followers of the sport are hoping that the shock may not result in the complete elimination of the Indians before September can rally the depressed forces again.

**The Gamest of all Game Birds**

Partridge in the east, willow grouse in the west—but correctly known as the ruffed grouse—this bird is found throughout the breadth of Canada. Three or four sub-species are found in various parts of the country—the Canada ruffed grouse in the east and Manitoba, as well as in the thickly-wooded sections of Kewatin and British Columbia, the grey ruffed grouse in the drier wooded portions of the interior and the Oregon ruffed or willow grouse of the Pacific coast.

The ruffed grouse has many enemies—feathered, furred and human—yet it survives and is one of Canada's most splendid offerings to the sportsman. Grouse should always be shot on the wing and their wariness and cunning make it necessary to select ammunition that is fast and patterns well.

**DOMINION Shot Shells**

with No. 6 or 7 shot, in all gauges, are considered by many sportsmen the best loads for grouse. Cannon, Royal and Sovereign Shells are dependable under all conditions, water-proofed, steel reinforced and positive as to pattern.

Many sportsmen prefer the 22 rifle for grouse when the cover is thick. In such cases Dominion 22's—short, long or long rite, smokeless or "lesmok"—are undoubtedly the best. Look for the "D" on all boxes.

Our new game book, "The Call of Canada," with illustrations of Canadian game birds and animals reproduced in full colors, contains valuable information that every sportsman should have a copy of this beautiful book in his library.

TOO LONG TIME FROM ELECTION TO INAUGURATION

St. Louis, Aug. 27.—The long period between the election of the President of the United States and his inauguration is "a serious evil, fraught with much danger," according to the report of a special committee on the change in date of the presidential inauguration, presented today to the convention of the American Bar Association, in session here.

The reports recommend that the period be shortened, and that the short term of the old Congress be eliminated. It, however, does not suggest any other date for the inauguration, explaining that March 4, has been recognized by constitutional amendment as the date of inauguration. It adds:

"The committee, however, is of the opinion that it is the duty of this association representing the great body of lawyers of the country to call attention of Congress to those provisions of the law and of the Constitution which are fraught with serious danger and which are liable to bring humiliation and disaster to the republic."

It states that the period between election and inauguration is "liable to leave the administration in hands which have been discredited by a popular vote and want of confidence and that such a situation greatly weakens the prestige of government both at home and abroad."

THE LIGHT OPERA are familiar to nearly all lovers of the better class of comic music-story for which English authors are deservedly popular. It has been years since "San Toy" was heard here but who does not recall the exquisite jingles of Yen How and His Six Little Wives, Rhoda and Her Pagoda, Same Game and the delightful ensemble and curtain choruses? F. Stuart-Whyte, the English impresario, now so familiar here by reason of his pantomime extravaganzas, has clothed the coming production most radiantly with Oriental costumes, scenery and accessories. His leading people are talented and carefully-selected and the chorus intelligent and pretty. The company's instrumentalists will augment the theatre orchestra.

Complaint of Elder Dempster Line Does Not Reflect on the Port's Accommodation, Says Commissioner.

The board of trade has brought to the attention of the city a complaint from the Elder Dempster Co., who say that they are dissatisfied with the slipping accommodation at St. John last winter. The board asked the city to look into the matter and give the company assurance that this matter would be attended to as the company proposed looking elsewhere for accommodation. Commissioner Bullock referred to the records of Elder Dempster liners arriving here last winter and found that of the four which the company brought to the port, one was berthed on the same date it arrived and the other three received accommodation the following day. He said that if there was any delay here it was due entirely to the arrival or dispatch of cargoes by rail.

Our selections include what we regard as the most desirable of each type of floor covering, every rug in our entire vast stocks being personally and critically chosen for its individual merit.

Congoleum Art Rugs, which we recommend, are always in the lead in popularity because of their design and the ease with which they are kept clean.
