THE SECRETARY.

FIFTIETH ANNUAL REPORT.

The Managers of the House of Industry herewith present their Report for the last twelve months, thus completing the semi-centennial of the Institution. This Report will not be found to differ very materially from Reports that have heretofore been published by them, or from Reports of similar Houses for the relief of the Poor. The public may expect to find a repetition of the figures shewing the money expended, and the persons relieved, and may, if so disposed, bestow more than a cursory glance at the management of an Institution which is kept up mainly by its taxes and its generosity. The House is in receipt of so munificent a grant from the city of Toronto as to leave no doubt but that the people's representatives in the City Council are well satisfied with the application of the money which has been received from them. The ascending scale of the grants from times past to the present will, we hope, be not disturbed in the direction of the line taken by the City Fathers; and we need scarcely say that an expression so gratifying of increasing confidence, will be taken by the managers of the House as a compensation for their efforts, and as a stimulus to increased activity in the future.

PRIVATE ASSISTANCE.

While this House looks largely to the public money for support, it must be borne in mind that individual citizens are not altogether unmindful of its claims upon their generosity. Considering the various calls on the people, and the fact that the claims of this House rest on the good work it is striving to do in its own way, the responses to its appeals are fairly well met. There

are some two dozen charitable institutions in this city, but with the exception of the Toronto General Hospital there is no one more generally regarded as what might be called a "State Institution" than the House of Industry. The public will appreciate the difficulty of collecting for an institution which does not appeal to race or creed, and which while endeavouring to provide for all classes, is on that account not within the special charge of any class. The managers do not complain of its private subscription list, though it might be extended, and they accept with thanks, donations, cheerfully given they believe, and always thankfully received.

The managers in this connection have to record with satisfaction the many persons who by their wills and otherwise have considered this House a desirable medium for dispensing their charity. In this year we have to acknowledge \$1,000 from the estate of the late Mr. E. H. Rutherford. Mr. John Macdonald has sent us a munificent contribution, and the Toronto Savings Bank have continued the good practice of bestowing a portion of their Charitable Trust Fund upon this House. An inspection of the list of contributors will convince any one that the charity of our subscribers is well evinced by the handsome sums given by many for the relief of the poor.

WORK OF THE HOUSE.

The number of inmates in the House gives no idea of the work done by it. The great work is the out-door relief, and the temporary assistance to that class known heretofore as the tramp. The inmates are chiefly old and infirm people. The retired pensioner takes kindly to our Institution, and the managers feel that they have discovered the method of taking care of those who in their time were the guardians of the Empire.

The OUTDOOR RELIEF is managed by a reference to the reports of visitors who have certain sections as their territory. The city is divided into 34 districts, and every case of poverty is referred in the first instance to these visitors. Their report goes to the extent of relief in bread, wood, or coal; and where there is sickness in the family, of a small allowance of groceries. The reports in printed forms, come up for consideration every Tuesday and Friday before a committee appointed for that purpose, who consider the case and learn, if necessary, further particulars from the persons applying. This process of reporting and considering continues during the whole year, but as may be expected, it is chiefly confined to the winter months. Some idea can be had of the work done in this way, when we state that it is not unusual for the Committee (three of the managers) to dispense relief to 70 or 80 families in one day, and to sit here from 9.30 in the morning to 5.30 in the evening for that purpose.

This method of VISITING is the best that occurs to the managers, though they are quite certain that imposition will last as long as charity lasts. They have acted in the belief that it is better to be imposed upon at times than to refuse relief to a person who may really be an impostor. The rule is to give the applicant the benefit of the doubt. In the beginning of the season the Secretary, at the instance of the Board, issued the following circular:

"The duly appointed Visitors of the House shall have power to grant relief to applicants in their respective Districts to the extent only of 600 lbs. of coal, or quarter cord of wood, and a weekly allowance of bread in the proportion of 2 lbs. for each adult or child belonging to the family of such applicant, on their being satisfied that immediate relief is necessary; also, in cases of sickness, the usual allowance of groceries."

"Immediately on visiting a case, it shall be the duty of the Visitor to mail to the Superintendent of the House the usual detailed report, together with his reasons for granting such relief; and stating the quantity of fuel and bread to be allowed."

Your managers' suggestion of last year, as to the more speedy distribution of relief by delivering bread at several points in the city has hitherto proved impracticable. They hope, however, to overcome all obstacles, and will make another effort in this direction.

TRAMPS.

The other class who are a heavy drain on the resources of the House are those casual poor who seek shelter for the night and a meal in the morning. These number in the winter months on an average about 70 every night, and it was found desirable at one time to limit the number of nights in succession during which they could claim relief. Four nights were thought long enough, and afterwards a rule was made that cases for a longer period should be reserved to the Weekly Committee. This also has been found impracticable, as there is not a committee for every day in the week, and the result is, that the admission of tramps is and must necessarily be left to the judgment of the Superintendent.

Those unfortunates who have no home, many of whom are professional beggars, are a great problem in every city in America. The labour test that appeared to work well elsewhere, was put in force here in the early part of this year, but was subsequently abandoned. The report of the Committee who looked into this is brief, but it is founded on good reasons.

They "recommended temporary discontinuance of the test owing to difficulty in disposing of the wood, and other causes."

The increasing number of tramps at the office of the Mayor rendered it desirable to have a daily report of such cases sent to him. This has been attended to, and the Superintendent's experience on this point is, that parties present themselves at the City Hall in the hopes of getting more than they would

get through the regular visitor of the House. It seems that those who present themselves in that way are not persons who are easily visited, and it may be reported generally that the Mayor's suggestion has worked well.

INCREASED PER CAPITA SUPPORT.

The Government Grant from the Legislature being based on the number of inmates, it is apparent from the foregoing account of out-door and "casual poor" relief, that the House does not get as much as it should in recognition of the relief it affords. A Committee was appointed last year to press this point on the Ontario Government, but they were not able to bring the matter before the Attorney-General, and the difficulty of making a new application of the principle of *per capita* relief stood in the way. The managers will take steps at the approaching session, to have this matter again brought under the consideration of the Government.

INFIRMARY.

In April last, on account of a communication from the Mayor based upon a letter of Dr. Canniff, a special Committee was appointed to consider the project of an Infirmary. The Report of the Committee is as follows:

REPORT.

The Committee appointed by the Board to consider the communication from the Mayor respecting the establishment of an Infirmary in connection with the House, beg to report:

1. That having given the subject its careful consideration it has arrived at the conclusion that the establishment of an Infirmary for the poor of the city is a pressing necessity.
2. That its establishment in connection with the House of Industry would be at once more economical and efficient, than its establishment as a separate Institution.
3. That the establishment of a free Dispensary in connection with the Infirmary would be most desirable.

4. That the Board should undertake the establishment and management of both the Infirmary and Dispensary, provided the Corporation would give such financial assistance as would enable it to accomplish such desirable objects without trenching upon its present resources.

5. That a Committee of the Board be appointed to confer with the Mayor or any Committee of the City Council which may be appointed for the purpose, to ascertain if such an understanding can be arrived at as would warrant the Board in taking further steps in the matter.

6. That in the event of its adoption by the Board a copy of the Committee's Report be forwarded to his Worship the Mayor in answer to his communication.

All of which is respectfully submitted,

JAMES FLEMING,
Chairman.

House of Industry, }
Toronto, 27th April, 1886. }

Two difficulties stand in the way of this project. First, is the lack of funds, and, second, the absence probably of authority to carry on such a work on the part of the managers without an amendment to their charter. This leads us to refer for a moment to the ACT INCORPORATING THE HOUSE OF INDUSTRY, passed in the year 1851, having in view chiefly two things—namely,—

To provide for the destitute poor of the city, and to promote and encourage habits of honest industry in the young. As regards the project of advancing the young in Industrial pursuits, no opportunity has recently been afforded the Managers for working out that part of the Act; and now in Toronto that field is largely or entirely occupied by Institutions like the Boys' Home, the Girls' Home, and many other places of similar design. Industrial Schools are also established by recent legislation. At one time, however, this Industrial work was actively promoted and encouraged, and it would no doubt be revived, should occasion require.

The managers have been advised that while the House was doing a commendable work, it had to some extent, owing to the growth of the city and lack of opportunity, drifted into work not so obviously contemplated by the Act.

A committee therefore was appointed to enquire and state what amendments, if any, were necessary and desirable, and the report of this committee is now under consideration. A clause with full power in respect of the Infirmary has been inserted in their report.

BUILDING IMPROVEMENTS, &C.

The managers cannot do better than quote the language of the Government Inspector on this point, Mr. Christie says :

The building was in a satisfactory state of cleanliness and order. Since my last visit bath-rooms and closets have been fitted up in each of the dormitories, and, while this somewhat contracts the capacity of the institution, the improvement made will manifestly be of great advantage. Other improvements of a minor character have also been made, all of which combine to put the House in a good and healthful condition.

The following rules in regard to the inmates may be referred to :

RULES AS TO CLOSING THE HOUSE.

22. The Superintendent shall see that all resident inmates of the House are within doors at or before nine o'clock for the night, and that they shall be in bed not later than 9.30.

23. Persons applying for shelter in the Casual Ward shall be admitted as late as nine o'clock, but provision shall be made by the Superintendent for the admission of applicants for the first time at a later hour.

The House is under the usual obligation to the Consumer's Gas Company for 1,500 bushels of Coke, and they also desire to express their acknowledgment to Messrs. S. Davis & Sons for sending to the Secretary the proceeds of an entertainment.

The Annual Tea, which has now become a feature of the House, and a donation of Xmas Cards and other presents

form a pleasing variety to the routine life of those whose lot it is to be within its walls.

The Managers wish to express their appreciation of the city papers who send representatives to the Monthly Meetings, and hope that the list of newspapers furnished gratuitously to the House will be doubled, or at least increased in the future. The list at present comprises "The Christian Guardian."

The Managers desire to remind the public that very trifling articles, whether for use in the way of reading or for wearing apparel, would be greatly prized by those inmates whose altered fortunes in many cases make them feel keenly the loss of such articles. The Superintendent will be glad to send for anything given in this way.

The thanks of the Managers are due to Mr. and Mrs. North for their care and supervision of the Institution, and also to Miss North for her kindness and assistance in the Management of the House.

The Institution has within the last year suffered loss in the death of two of its most active workers, Mr. Jacques as Trustee, and Mr. Francis Rush, one of the Visitors.

The comparative relief in this and last year is shown in the figures below. The Reports of the Medical Officer, the Superintendent, and the Treasurer, will be laid on the table for your inspection.

All of which is respectfully submitted.
