TEMPERANCE COLUMN.

By the Women's Christian Temperance Union of St John.

The following is the plan and work and the resolutions adopted by the Dominion W. C. T. U. at Quebec:

1. Recommend that our provincial unions take immediate steps to urge upon their local societies the necessity of doing whatever they can in the way of literature distribution, public meetings, etc., to influence the electorate to keep the question of prohibition to the front in the approaching lominion elections; further, that every effort be made to commit the candidates to a declaration of principles

Liondon, Nov. 28.—The Times tomor-row will publish the following de-spatch from its correspondent at Cara-cas, Venezuela, under date of Nov. 2. That the department of purity and purity in literature, art and fashion, be combined.

3. Following the suggestion of the World's Union, we would recommend that the department of systematic liv-

4. That the name of department of the World's W. C. T. U. Missionary society be altered so as to read World's W. C. T. U. Missionary work. 5. That the Evangelistic, Training School and Institutes be added to our

6. That in the absence of 'Y' unions. and where there is an opening for such work, the 'W's' take up the departwork, the ws take in the the ment of kitchen-garden, full directions for which will be found in the Dominion leaflet on this subject, prepared

7. That the flower mission department be called the Flower, Fruit and Delicacy Mi. don.

S. That provincial seperintendents of narcotics, wherever practicable, wait upon conferences, synods, assemblies, and all gatherings of influential bodies, and ask their sympathy and

co-operation in our efforts towards the complete extermination of the habit-9. The provincial superintendents urge upon county and local superintendents of narcotics to interview

tobacco in its various forms, and ask also that the superintendents urge the distribution of anti-tobacco literature through the young 'people's Christian societies, Sunday day schools, and in the general literature distributions of the unions. 10. That provincial superintendents urge upon county and local superintendents the necessity of some effec-

tive movement towards checking the use of opium and other deadly narcotics, by interviewing local physicians, requesting the exercise of more care in the prescription of opiates. Further ,that Societies of Christian Endeavor and Epworth Leagues, and superintendents, asked to give at least one meeting a year to the discussion of the alarming vils arising from the increasing use of these dangerous drugs.

11. That attention be again called to the recommendation of No. 18 of last year's plan of work, which is as fol-

"That provincial and local unions be urged to see that the leastet, The Teacher's Opportunity, by Mrs. C. A. Cole (address Miss Jennie Duty, 180 Arlington avenue, Cleveland, Ohio), also Mrs. Hunt's School Physiology Journal (23 Truell street, Boston), be placed in the hands of teachers for their own use."

12. That the leading topic for the day of prayer be Sabbath Observance, and that special petition be made for the success of Mr. Charlton's Sabba ervance bill; that the Dom C. T. U. unite with the Lord's Day alliance in bringing all possible pressure to bear upon the members of the house of commons and the senate to give the bill their support; that the name of the department be changed to Lord's

Day Observance. 13. That we call the attention of the dominion literature committee to the need of literature in the French and German languages for the success prosecution of our work among these

nationalities. 14. That county and local unions prove their loyalty to the dominion literature department by purchasing their supplies of leaflets, etc., there-

15. Feeling the great need of a juvenile temperance paper of our own, providing the managers of the Northern Messenger agree to make a greater specialty of temperance in said paper, recommend that it be adopted as the organ of the juvenile department

I reckon I can fix it all right. Dar, of the Dominion W. C. E. U. 16. That we urge upon all officers of local, county and provincial unions the duty of subscribing for our official organ, The Woman's Journal, and the world's organ, the Union Signal, bespot fur suah !" lieving that a white ribboner without these sources of information as to the progress of our cause is as helple

ULSTER CLOTHS Mr. Gibson's Lumbering Operatio s - The Cotton Mill-A Home Market for

MARYSVILLE.

Last Three Years.

modate the People Employed

There.

Some three and a half years ago the Sun published in a special supplement an illustrated description of Marys-ville, showing how within a little over 17. That whereas, it is impossible to follow and keep in mind the figures contained in the treasurers' statement, that in future, where such work can be secured gratuitously, said statement be printed for distribution to dethirty years a town had been built up by the genius of one man, giving em-ployment in lumber mills, cotton mill, brickyard, and in other ways to a large and growing population, and affording to the farmers thereabouts a egates in convention.

18. That provincial superintendents splendid home market for their pro-

be urged to send a synopsis of their report to the dominion superintend-During the present week the writer of that article spent part of a day in ent within two days after the close of Marysville, and was very forcibly impressed by the further development that has occurred since 1892. The their provincial convention.

19. Your committee would call attention to the failure of some dominenergy and success that have marked the steadily extending business operaion superintendents to comply with tions of Alex. Gibson were never more marked than at present, and today there are not houses enough in the town to accommodate all the people in recommendation 25 of last year's plan of work, in which it was decided that the reports must be from provinces,

his employ. Since 1892 there have been a large number of brick tenement houses built by Mr. Gibson and this summer some wooden houses have been erected by other persons. Three places of wor-ship have been erected in the town since then, so that now the Methodists, Baptists, F. C. Baptists, Re-formed Baptists and Church of England people all have places for re-ligious services. In many other lines voltionary outbreak is of no importthere has been improvement.

ance. No British ultimatum has yet been received, and many of the influ-Marysville is essentially a busy town. The personality of Mr. Gibson has imential Venezuelans urge an amicable setitement. The government is afraid that the tendering of an apology pressed itself upon the place and the people, and the result appears in the would be equivanient to recognizing the right of England to the disputed territory. Otherwise it is ready to give satisfaction. A considerable party favors a direct settlement of the frontier question without reference to the Unied States." universal air of business activity. Everybody appears to have something to do, and to be doing it with cheerful

The number of persons employed in the cotton mill has been increased since 1892, and now nearly six hundred are down at Gibson, and several in Fred-ericton, going back and forth by train (From the Westminster Gazette.)
Thomas Turner of Mill Hill road,
Norwich, has recently unearthed a very interesting national picture. It represents the pretender (son of King James II.) and his council as embled it Coursercy for the purpose of the first to the propie of Great Britain and Ireland asserting his rights to the crown. From a description of the picture in the Eastern Daily Press, we learn that the pretender is represented ericton, going back and forth by train morning and evening. On the train morning and evening. On the train morning and evening. On the train morning and evening of the train morning and evening. On the train morning and evening of the train morning and evening. On the train morning and evening on the train morning and evening. On the train morning and evening of the train morning and evening. On the train morning and evening on the train morning and evening. On the train morning and evening of the train morning and evening of the train morning and evening. On the train morning and evening of the train morning and evening at six o'clock a whole car was filled with operatives returning home from work. Thus the jumple of Mr. Gibson's enterprise are not confined to the work people of his own town. The products of his confined to the work people of his own town. The products of his confined to the work people of his own town. The products of his confined to the work people of his own town. The products of his confined to the work people of his own town. A Notable Development in the There are also about a score of mer employed in the brickyard in summer. There are also carpenters and other Still More Houses Needed to Accom-

Altogether, probably a thousand per sons are employed by Mr. Gibson at the town of Marysville in summer. the town of Marysville in summer.

This flourishing town, and its population of vigorous work people, affords a most valuable home market for the farmers. The amount of meats, butter, eggs, hay, oats, vegetables and produce of all kinds consumed there in a year must be large, and such a market must be of great waken to the ket must be of great value to the thrifty farmers of the Nashwaak valley, and to some extent those else-where in York, Northumberland and Carleton counties who are able to avail themselves of it. As already stated, there are not now enough houses in the town to accommodate all the peo-ple who work there.

Quite a number of men were leaving for the woods the day the Sun man was at Marysville, and Alex. Gibson, jr., who has an eye on the lumbering operations generally, was busy out of doors, while in the office Alfred Rowley was paying off those who had been at work in the mills. Mr. Rowley showed the Sun man the simple and comprehensive method by which he ing contracts and operations, and like everything else in business operations at Marysville it combines accuracy with the utmost simplicity and clearness. Mr. Rowley, who is the head beatless. bookkeeper, has been with Mr. Gibson nearly thirty years. There is a "ticker" in the office, and telegrams are received direct. The stores and ware with general merchandise of all kinds There is an excellent hotel at Marysville, kept by E. A. Harris. The school building, with four teachers besides Principal Day, has now about 300 pupils in attendance. Mr. Day has taught in Marysville since Nov. 1873. Over at the cotton mill offices the Sun man renewed acquaintance with James Gibson, C. H. Hatt, Fred S. Williams, F. M. Merritt and F. More-

ouse, and had a look through that veritable hive of industry. Mr. Gibson now has sole control of he Canada Eastern railway. The ex-Black Brook or Loggieville, and the loop line to Nelson have added greatly to the service afforded by this line, and there will soon, no doubt, be a

branch to Stanley.

The Marysville folk are greatly in-The Marysville folk are greatly in-terested in Loggieville as a summer resort, and it is understood that Mr. Chison will build a house there next year. The charming village and coun-ting and the facilities for beating on the beautiful Miramichi are bound to make the place more and more attrac-tive as a resort as it becomes more widely known.

Speaking of Marysville, the town is still free from liquor saloons, and the learn that the pretender is represented ery, and as fast as a market can be as seated at a table holding in his left hand the privy signet. On his left is the notorious Simon Fraser, Lord Lovat, also seated, and holding in his Rowley some interesting facts relative hand the declaration about to be sign
to Mr. Gibson's lumbering operations. community is a most orderly and in-community is a most orderly and in-dustrious one. The corner loafer, to use a slang phrase, is not in it. A re-use a slang phrase, is not in it. A re-ciety last year succeeded by strategy in obtaining satisfactory data respect-in obtaining satisfactory data respectham having opened out there and found business even better than he He does excellent work, and showed the Sun man some fine views of portions of Marysville. town has a skating rink, which is also used by the ourlers. There will be more buildings erected in the town next summer, and the outlook for the future of Marysville is as full of promise as the present is of substantia prosperity and cheerfulness.

BOSTON INCENDIARISM.

Two Large Barns Belonging to the Boston and Albany Destroy d.

Boston, Nov. 28.-Two large barns belonging to the Boston and Albany railroad, in the Brighton stock yards, were destroyed by fire today. The fire threatened surrounding property, but the arrival of apparatus called by second alarm prevented it spreading. The fire was undoubtedly of incendiary origin, as it is the fifth that has oc curred in the yards and vicinity within the past three months. Two large barns were destroyed on Independence day, and nearly all the fires have occurred on Sunday or a holiday. It has hitherto been believed that previous fires were caused by sparks from a locomotive, but today's fire was a long distance from the main line of

A large quantity of hay, owned by A. W. Munro, the lessee of the build-ing, was burned. The total loss is \$15,000, and is covered by insurance.

NEW WOMAN TOOK HIS TURKEY. Rochester Man's Thanksgiving Dinner Carried Off on a Bicycle.

Rochester, N. Y., Nov. 25.-Charles . Whippert of this city reported to the police today that he had been robbed of his Thanksgiving turkey by bicycle woman who wore bloom tan leggings, a Derby hat and had red hair. Mr. Whippert received from a relative in Omaha. Neb., a sixteen pound turkey. He hung it on a pearch in the rear of his residence in Chili avenue. The Whippert family heard footsteps on the porch at dusk last evening. Whippert investigated and saw a young woman turning the corner of the house with the turkey under her arm. He chased the intruder to the street, where a blcycle stood waiting for her. The woman vaulted on the wheel and pedaled off in the dark. Whippert mounted bleycle and started in pursuit. He of the city and then lost track of her.

Killed at Marash.

London, Nov. 28 .- A despatch to the Daily News from Beyrouth, dated Nov. 17th, confirms the grave state of affairs existing in Syria and Palestine and the repeated anger in which the American mission has been placed by the riotous demands of the Mussul-

The despatch adds that the whole of Syria and Palestine are flooded with soldiers and states that in the country of Jaffia and Jerusalem there are 60,-000 troops all raised within the past

The Daily News correspondent adds: "The troops arriving here bear the significant green flag of the prophet instead of the Turkish flag. Jerusalem is crowded with soldiers and troops are being stationed in the Tower of David, Pilate's palace, and in the wilderness outside the Damascus gate. The ostensible purpose of the troops

Constantinople, Nov. 27, via Sofia surances which the Turkish minister for foreign affairs, Tewfik Pasha, gave the ambassadors of Great Britain, Russia, Austria and Italy yesterday that the Firmans allowing the pas-sage through the Dardanelles of four houses of Mr. Gibson are well stocked guard ships wiuld be immediately issued by the porte, the necessary docu-Consequently a serious condition of affairs is now again perplexing the mbassadors and threatens to cause the adoption of strong measures on part of the powers. The ambassadors have been in communication with the palace, as well as with their

respective governments.

It seems probable that the ambas sadors have already determined not to wait beyond a certain time for the Firmans, and therefore it may soon coming. A portion of the British fleet, which has been at anchor in Salonica bay for some time, is understood to have left those waters for Smyrnia trance to the Dardanelles. That the porte anticipates trouble is evident from the fact that all the forts are now fully manned and supplied with ammunition and have been placed in the highest state of efficiency compatible with the circumstances. Search lights are kept in good order and are working nightly over the waters. It is stated that the system of submarine mines and torpedoes has been practically completed, so far as the resources of the government will allow

and about the Bosphorus and Darda-nelles, with the object, is is understood, of enabling a Russian fleet to force the passage of the Dardanelles uld such a step turn out to be ne-

have obtained complets soundings English merchant steamers which have repeatedly passed the Dar-danelles, and it is suspected in some quarters that the British naval reserve officers may have been engaged all the information necessary for the

As to the system of mines and torpedoes about the Dardanells, they do not cause much apprehension among the foreign officers here.

Trustworthy information which reached here from Marash today confirms the worst reports concerning the massacre which is said to have occurred there recently. It appears that the outbreak occurred on Nov. 18th, sulmans apparently at a given signal and acting in a deliberate manner began the work of massacreing the Armenians, who, anticipating trouble, had done everything possible to 1.illed is estimated at several hundred women and children. buildings belonging to the America mission there and the theological sem the rioters, who looted the seminar previous to setting fire to that building. The Mussulmans killed two stu dents belonging to the seminary. is understood that all the American nissionaries, five in number, are safe but whether they left Marash before the disturbances broke out or whether they are under the prototion of the Turkish authorities is not known, a to obtain any news from Marash. In ation of the news that a massacre had occurred at Marash.

Most startling reports are still current here regarding the preparations for trouble being made by Russia in her Black sea ports and along the frontier of Asiatic Turkey. The Russian officials here claim that there is nothing alarming in all this, that it urs every year at this time, and that it seems nothing more than the work of shifting troops and preparing troops for their winter quarters. But the steamer people coming from Black seas assert that in their experi ence they have never seen so my tivity displayed at this or any other time of the year in Russian naval and

The porte today made another report to the ambassadors on the situa storing order in the disturbed districts that the reforms insisted upon by the Ashanti.

powers were being effected as promptly as possible under the circumstances.
The anxiety caused by the absence of direct news from Syria increases. It is reported, however, that large numbers of Turkish troops have been drafted there and war seems imminent. The soldiers are said to be bearing the green flag of Mohammedamism instead of the regular Turkish flags, donating, it is claimed, that although the authorities assert that this mustering of men is for the purpose of putting wholesale onstaught upon the Christians of Syria may be anticipated. Jerusalem is said to be crowded with Turk-

present situation. The American mission at Beyrout is said to have been repeatedly placed under the protection of the police

ish troops, and Palestine is reported to be overrun with the soldiers of the sultan. This is considered to be one

there in view of the riotous demon-strations of the Mussulmans.

Costaki Amthoponios Effendi, form-erly governor of the Island of Crete, has been appointed Turkish ambassador to Great Britain in succession of the late Rusten Pasha.

Turkham Pasha has been appointed Turkish ambassador to Germany in succession to Tewfik Pasha, recalled to be appointed minister of foreign affairs. It is reported today that the extra gunboats of the powers detaincommenced to arrive at the entrance to the Dardenelles and are now await-

ing permission to pass the straits.

London, Nov. 29.—The correspondent of the Daily News at Constantinople says that the embassies there have learned that in the massacre at Marash on Nov. 18th a thousand persons were killed. The Christian quarters

HOW THE KING CAME HOME.

"Oh, why are you waiting children,
And why are you watching the way?"
"We are watching because the folks have
said
The king comes home today,
The king with is prancing charger,
In his shining golden crown.
Oh, the bells will ring, the glad birds sing
When the king comes back to town."

"Run home to your mothers, children,
In the land is pain and woe,
And the king, beyond the forest,
Fights with the Paynim foe."
"But," said the little children,
The fight will soon be past,
We fain would wait, though the hour is

SEARCHING FOR MINERALS.

Applications have been made by the undermentioned persons for mining licenses, to search for minerals under For license to search—Silas C. Mc-Mann, in Queens county, beginning at the S. W. angle of Application No. for license to search on Long's Creek, east of Salmon river; thence running by the magnet east 7-8 of a mile, south 21-2 miles, west 21-2 miles, north 21-2 miles, and thence east 15-8 miles to the beginning. Excepting the surface coal on granted lands.

For prospecting license—Isaac N. Wilbur, in Albert county, on lot 6, granted to James McKinlay and Robert Rankin, also on grant of lot 1 to said Robt. Rankin, and 25 acre lot granted to G. Duke of Fife, Mr. Hare warmly thank-ed the company for their hearty greeting and said in part: "It would be affectation for me not tobe aware that in the whole of a life devoted to the stage have kept one aim and endeavor before me-the art that I love. about to try my fortune in, to me, a new world; to discover whether in the eyes of the citizens of the great contiment of America I am worthy of the place I have so long had the honor to hold in your regard. If I succeed, then I have judged your good opinion, of me, to be my solace; if I fall, I feel that I leave true friends behind me, who will not grudge me their welcome

CALAIS POST OFFICE.

The Postmaster Short in His Accounts and Leaves Town.

St. Stephen, Nov. 26.-Calais is considerably stirred over a difficulty in the post office. W. B. Kerr has been postmaster for about two years and he is short in his accounts to the extent of about twenty-one hundred dollars, as nearly as the amount can be learned on the street. This amount has been paid to the government by his bondsmen and one of them, H. M. Bates, is today in charge of the ofwas known in August last that there was a shortage, which it is reported the bondsmen then offered to make good, but they were later aswas of a temporary nature and had cargo New Brunswick and western been satisfactorily adjusted. The amount since then has apparently increased and the matter assumed a more serious aspect. Last evening the bondsmen, who are A. J. Murchie, Geo. M. Hanson, Henry B. Eaton and H. M. Bates, were in consultation with postmaster, and during the night the latter disappeared from his home. His friends were anxious concerning allayed. Mr. Kerr is a popular young man and was lately married, is a prominent democrat and has the sympathy of very many friends in his pre-sent unfortunate position. There are many speculations as to the cause of the shortage, but they cannot be definitely stated.

When recently asked the value of his London real estate the Duke of Westminster replied that he could not form an estimate of its value, but that he would not take twelve million pounds sterling for his holdings in

MARINE MATTERS.

Str. Thames, ashore on Peters' ledges, Sydney, will probably be a total wreck. She is being stripped.

The last ship to leave Chatham this season was the John Gill. She was towed out Nov. 24th by the tug St. Andrew. The 'John Gill was loaded by J. B' Snowball.

Word has been received that the schra Word has been received that the schra G. G. King, R. N. B., and Graville, which ly damaged.

The Windsor bet. Transfer.

Lake, Anticosti. The vessel is said to be insured.

Reports from Tortugas states that sch. Beatrice McLean, Capt. Gerard, from Mobile for St Domingo City, is the three-masted schooner before reported stranded Nov. 20 on Southwest Reef. She lies in a bad position and is badly damaged. She will probably be a total wreck. Cargo being saved. Ship Lillian L. Robbins, Capt. Robbins, from New York for Shanghal (before reported, has been towed into Saigon in a disabled condition. Her bulwarks and stanchions are damaged, fore and main masts sprung and has lost yards, sails and rigging. Salvage claimed, fl.500; amount to be settled by arbitration.

Word was received here on Nov. 27th of the loss of the sch. Beatrice McLean, Capt. Gerard, from Mobile for San Domingo City, at Tortugas. The Beatrice McLean, and was cowned by Geo. F. Baird, M. P., Hugh McLean of Salmon River and others. It is understood that there is about \$6,000 insurance on the vessel and freight.

DONALDSON LINE COMING.

S.S. Concordia Sails from Glasgov Dec. 4th Direct for St. John-Otthers May Follow.

The winter port, outlook is steadily brightening. The Donaldson line of steamers, which plies between Mont real and Glasgow in summer, will send steamer and perhaps several to St. John this winter. tave had this port in mind heretofore, and now they will give the busine

The s.s. Concordia will sail from Glasgow on Dec. 4th direct for St. John, with general cargo for this city and the west. On her return she will take probably four or five hundred standards of deals for W. Malcolm Mackay at 45s., and the balance of

goods, the latter coming over the C. P. R. Negotiations are now on for the coming of another steamship of this line in January, and while nothing is definitely settled it is possible that there will be monthly sailings through

the winter. Schofield & Co. (ltd.) are the agents of the company here, and the fact that. Mr. Schofield was able to point to the extensive terminal facilities now completed or under way at this port, with the assurance of close connections and quick despatch, was an important facinducing the company to send

the Concordia here. The following is a list of the Donaldson steamships: Alcides 1881 1872 1881 1894 1893 Amarynthia Colina Concordia Hestia

Manager Campbell and Others Inspec the West Side Harbor Front.

The Accommodation Will be Good - The C.P.R. Will Cooperate With the City.

(From Daily Sun Nov. 28th.) among those who came in on Montreal express yesterday. In coming the afternoon and had a look over the warehouses, wharves, etc.

Campbell said he was well satisfied with the way matters were running along. When the track to connect with the C. P. R. was laid and the new warehouse erected the facilities for the prompt handling of cargo would be all that was required. The Lake Superior had a good inward cargo and he expected she would sail from here on the afternoon of December 11th with a full cargo. He did not look for the steamer before Tuesday, although she might reach port Monday after-noon or evening. Mr. Campbell, who is a very busy man arranging many little details, will go to Montreal Satur day, returning on Monday.

oughly competent to express an opinion regarding harbor accommodation, as his business has brought him to Portland, Me., Halifax, Montreal and Quebec during the steamship season | ded the hypochlorites of sodium and at these ports. He informed a Sun 1eporter that when the new warehouse was erected the facilities for handling freight and passengers would be the equal of any of the places mentioned. Mr. Lambkin is of the opinion that St. John has a great future before it.

afternoon at 4 o'clock to consider the railway facilities at Carleton.

could get it into the lungs. The fluid being of a hydro-chloric reaction, and The meteor had hit the chalk cliff, literally tearing through it a hole 100 feet wide from the top to the water's edge. The exposed portions of the fisintroduce enough when the stomach was empty I could load the blood with heat and friction. There in Little river sure had been melted by the intense stood the lost starlet, anchored deep in the bed of the river, leaving bare room for the water to pass on the southwest side, and projecting twenty feet above the level of the water. The exposed portion was still lurid with the heat of its rapid transit through the air, and the water was boiling Navigation beyond this point will be impossible until the Little river cuts new channel to the south

JAPANESE TRADE INVASION. The Yankees of the Orient are Cutting

Prices to the Bone. San Francisco, Nov. 24.-The Daily Report last evening published a story to the effect that Japan is about to invade the United States with the agents of her factories, whose ability to produce articles of necessity mor cheaply than the rest of the world can no longer be ignored.

A few weeks ago, the paper says, the agent of a powerful manufacturing and commission house, whose headquarters are in Kobe and Hiogo, arrived here and offered such inducements to San Francisco merchants, that they were ompelled to place large orders

Investigation reveals the fact that an unprecedented cut in almost every ine of staple goods has been made by the oriental salesman. Buttons by the great gross are to be delivered, free, at a fraction less than the actual cost per gross of the American ar ticle. Bicycles, guaranteed equal to the best high grade, are listed at \$12. Japanese matches are to be laid down at a price which is destined to close every match factory in the United States. Sashes, doors, blinds and all kinds of wooden ware can be deliver-ed, duty paid, at 30 to 50 per cent. less wholesale prices of local manufacturers.

After placing huge orders in this city, the agent left for the east, where agencies will be established in New York, Chicago, St. Louis and else where, for the purpose of underselling American and European manufactur

The traffic returns on the Canadian Pacific railway for the week ended November 21, 1895, amounted to \$502, 000; for the corresponding week of las year the returns were \$460,000

LURLINE.

I had been appointed to the position of manager of the Judin's Trust Mincompany. Before going to the mines I was called to San Francisco to confer with the directorate. I was comparatively young at the time and I inclined to the pleasures of the world, For the purposes of my narrative I In this tin lies the essence of the think I may say, without being accused of vanity, that I was possessed of a rather presentable person, and, moreover, of the power of making myself agreeable. The result was that I at once became a prime favorite with my employers, who showed me many soc-

ial attentions. This was particularly the case with the president of the company, a stout, jovial, high living person, whose hospitality to me extended even beyond his own establishment-in fact, so far on one occasion as an invitation to a supper party at the house of a pretty grass widow, whose name was a German one, common enough—so common indeed that at the time it made no impression upon me, and I soon quite overlooked it, as my genial employer's continually addressing her as Lurline led, in the freedom of her bohemianism to my also calling her by that name, with the more ceremonious prefix of "madame" added, however.

I do not wish to be misconstrued concerning Mdm. Lurline. Notwithstanding what I have chosen to call "bohemianism," she was on visiting terms with the wife and family of the president, and, so far as I have ever known, she was a woman of unerhaps. She was bright and extremely handsome, and we were soon on terms of friendly intimacy. We sang German songs together, and were ev-en quite sentimental in a very inno-

I noticed from her establishment that she was very well to do-there was no vulgar ostentation, but the house was elegantly appointed, there were well trained servants and a tasteful equipage, to say nothing of her toilets and jewels. Madame seemed to enjoy to the past, and of course I never dreamed of doing so. But, as pleasure was not my only pursuit, I was obliged that she never by any chance referred after a few days to go to other occupations and so made my adieus and took my departure for the mountains

and the mines. agreeable one. It was, in fact, about it came to me. "Lurline!" That was as abominable a spot as could be hit the name of my pretty grass widow. The scene of my duties was a disupon-a dismal, uncomfortable camp, dependant upon one company; hot in summer, cold in winter, without flowers or grass or trees; a background of rock ribbed mountains, a foreground of sandy desert—the only beauty being in the wild blaze of colors in the sunset sky. The great bare hills, however, contained wonderful treasure, and large monthly dividends attested to

the prosperity of the place.

It was in the old "high pressure" days, and our salaries were commen-surate with the profits of the company. We worked like horses and were paid like princes. "Come easy, go easy"-the old adage was here verifool," I said to myself. I wanted to fied. Every one was lavish. Everything that money could procure was that I was sorry for him. In fact, it everything for the man, but nothing for the soul. We were all pro-fligate in our spending. All? Well, yet, what was there to say? No no. The old assayer, Hermann Smitt, So I was silent. was the sole exception; he was a perfect miser. There was no excuse for the meanness of the man, for he recelain pipe. His only diversion was music. He had an old wooden flute, wrapped here and there with finen where it had cracked through age and hard usage. It must be admitted that he was a master of this instrument. When the mill was shut down for repairs, he could be heard playing at night in the darkness of his room, improvising the most exquisite music. The soft, clear notes flowing out into silence like the voices of angels, enough to quite carry one away, and-bah! to think of its being only old Smitt, after all.

Every pay day a check for \$490 was made out to the order of Mrs. Hermann Smitt; the remaining \$10 he drew in coin. I say "every pay day"—that is inaccurate. Sometimes large checks were drawn in the favor of well known life insurance companies. From this it was evident that he regarded their policies as a good form of investment. could draw the mental picture of his fat economical old spouse quietly depositing the remittances in some solid German savings bank, and eventually of the twain returning, by some cheap line, to their fatherland, there to live in great comfort upon half the in-terest of their hoard, to be courted and envied-perhaps hated-by neighbors and relatives. I also wondered if some day some fat headed son or nephew would not spend it all in a tithe of the getting upon flaxen haired madchens and long necked bottles.

did not care except that I know I did calling for the presence of the acid not regard Smitt as a credit to the and the salt at the same time. hment. I did think of dismissing him, but he was so thoroughly competent in his art that it would have been as irrational as it would ed chemists had before this have been unjust. He worked hard known to die by accidentally in and well, and, as I have said, it was this poisonous gas. The corner exnone of my business what he did with amined the old man's effects, which

his earnings. As time passed I grew used to him, even rather partial, for one day in a moment of weakness, seeing that he looked very tired and worn, I employed a boy to help him with his work. At first he did not want him, but when I explained that the company would his wages he gratefully accepted the lad. As may be imagined, the old rap. What's the use? It only can annoy, and your peace of mind the lad. As may be imagined, the old fellow had no companions, so he took wonderfully to the flow instructing wonderfully to the boy, instructing him not only in the mechanical part of his work, but taking especial trouble to teach him chemistry. He would scold as he lectured, but I fancy he and his pupil understood and liked each other all the better for that.

Boylike, the assistant was delighted with the experiments which were a part of his education and pursued them with the vigor of a Dalton or a Cavendish. Not confining himself to the textbooks, he roamed freely into a field of original research, which led to many noisome odors and some small explosions. His master lectured him and ordered him to linger in the beaten oaths, but he commanded in vain One day, in passing through the laboratory, I found Smitt diliating in an admonitory way upon a tin of cyanide

of potassium. "See, you, my dunder headed friend," he said, "I show you this that you shall know what it is better to avoid. most deadly poison known to man. In your way you may discover something worse. It is probable, if you insist upon running wild. But I warn you of this. If you take a piece of this white chemical and pour over it some diluted sulphuric acid—a thing which you may do some time-you will learn something. It will be that which ro distinguished chemist on earth knows
-the mystery of the hereafter. You will generate hydrocyanic acid, and, my idiotic young friend, you will be dead. You will probably notice a de-

lightful aromatic odor, as of peach blossoms, but, believe me, you will not live to enjoy it. So look you, my fool boy, and leave this in alone." I smiled at the old man's caution and realized the wit of it, for the chemical he referred to was in constant use in both the assay office and the mill, and just such a thing would necessarily fall handily in the

way of the boy's methodless experiments. Time passed, and the pupil assistan fitted himself into a useful place. Smitt kept on in the even tenor of his way. Many monthly checks had been sent to his wife and several the insurance companies. The life morality. Too much so the little camp was going on about as sual, although I was hard pressed with work, planning improvements and changes as the increasing depth of the mine required, making ports and statements and working out

> One day while thus busily engaged a messenger from the telegraph office came in with a despatch. Hastily 1eceipting for it, I tore off the cover and read: Send money immediately. Creditors

threaten. Cannot exist upon your pal-try allowances. LURLINE. jewels. Madame seemed to enjoy to perfection—so perfectly, in fact, to perfection—so perfectly, in fact, "What in the duse is this!" I ex-

ed the message over to the assayer. I was very much embarrassed at my blunder, and for awhile I did not think of the contents of the despatch. Then the name of my pretty rass widow. "Smitt," too, was the surname, now that I reflected. Was it possible that my brilliant hostess, my luxurious entertainer, my sentimental friend, was the spouse of the nigardly old fellow whose miserly habits were despised by

every one? And-I saw it all in a flash-the poor old man was slaving that she might spend. Looking back, the recollection was not pleasant. It seemed, now, that there had been a bitter feeling'-, vbgk there had been a bitter flavor in those elegant repasts, the wine was corked -aye, there were even false notes in the sweet German songs. "Poor old shake him by the hand and tell him seemed as if there were a thousand

yet, what was there to say? Nothing. The following morning, when I went to the office at the usual hour, the metillurgist was in a fine state of celved a large salary, even for those fidgets and profanity. Smitt had not days—no less than \$500 monthly. The only luxury he seemed to permit himself was tobacco, of which he smoked the cheapest grades in his huge portried the doors leading into the assay to fill at a rapid rate. The pumps celain pipe. His only diversion was office—they were locked; knocks had were set to work, and the crew were not been responded to. The metallur- bailing for thirty hours. In spite of gist was angry, but somehow my anx- their exertions the water gradually

iety was at once aroused. I rushed to one of the doors of the laboratory and gave it a hearty kick, which broke the lock and threw it open. A pungent aroma assailed my

nostrils. "Back for your lives!" I cried to those who were standing behind me, and hastening around to another door, communicating with the open air from the same apartment, I kicked that open also. After waiting a few moments to allow the air to circulate, I covered my nose and mouth with a wet sponge and entered the apartment.

There, as I feared, I found Smitt lying upon his back-dead. He was dressed in his usual working clothes. His daily preparations had all been made. The assays had been fluxed and were in their crucibles ready for the fires to fuse them. The laboratory table carried its usual supply of beakers, wash bottles, flasks and evaporating dishes. A tin of cylde of potassium also lay there upon its side, as if it had been carelessly upset, and a quantity of pieces of the salt lay sca tered upon the floor. Smitt's clutched a portion of a broken bottle, which had evidently contained sulphuric acid. It looked as if this bottle had been accidentally broken and its contents spilled upon the deadly renadchens and long necked bottles. agent. THE WEEKLY SUN, \$1.00 a year.

THE CURFEW QUESTION.

To the Editor of The Sun: Sir-In view of the events said to have occurred recently in this city, the reference to the desirability of the return to the custom of Curfew, so far as would relate to children of tender age, made at the meeting of the W. C. T. U., seems extremely appropriate.

From the number of young children

one sees at almost any hour of the evening wandering aimlessly about the streets, or standing near the corners. there certainly appears to be a very great laxity on the part of parents in this respect. Practically they are doing all in their power to ruin their children. The boys run loose and if not G. Fenn, who will complete his five actually on the street, are gathered together in some resort where the principal amusements are bad language and lewd stories, and where they rapidly imbibe the vile and filthy habits of the worst models, while the girls stroll to and fro seeking to attract attention, and playing with moral fire, ignorant to a great extent of the results of the course they are pursuing, become useless to themselves and a Rights and duties have intimate re-

lation one with another, and when parupon the regiment. . . . We have no in the name of morality and for self-desire to take away from the 48th preservation, let the state step in and commission in the imperial army; but against any parent or guardian, the it is only fair to ourselves to place state quickly takes a hand and has it corrected; much more should this be the course when the damage is to the congratulate themselves has belonged moral character, and to the detriment of the real and lasting welfare of the CITIZEN X. state.

> CAPT. ALEX. M'KINNON DEAD. He Once Commanded Ships in the Old Black Ball Line of Liverpool Packets.

Provincetown, Nov. 21.—Capt. Alexander McKinnon died today, aged 79

years. He was born in Antigonish, C. B., in 1816, came to this place when 14 years of age and took to the sea for a profession. For a number of years on April 26th, 1893, Lieut. George W. he commanded ships in the old Black Kenny (son of T. E. Kenny, M. P. for Ball line of Liverpool packets, from New York, and at one time command-Halifax), of the 78th (Pictou, Colchesed the well known old-time line of ter, and Hants) battalion, was gazetted that name, carrying on one passage second lieutenant in the Royal Innisover 700 passengers. During the war of the rebellion he

killing Fusiliers, now stationed in Burmah; both these gentlemen having tain in the transport business, carrying troops and supplies to southern He leaves a widow and three daughters.

> HE FEELS LIKE A NEW MAN, TODAY.

Says the Worcester, Mass., Spy of Nov. 26th: "The Bubb Comedy company closed a weekly engagement at Dresser Opera house Saturday night and disbanded here Monday. They played to full houses here. The cause of disbanding appears to be a little dissatisfaction or misunderstanding between some of the leading actors and the managers. E. M. Crane, wife and children, have signed with the Waite Comedy company, and as two of the best plays were Mr. Crane's own pieces, written especially for the Elmore sisters, it made it impossible for the Bubb company to fill their places and go to Fall River, where they were billed to play next week. Mr. Bubb left town last Friday, leaving some of the salaries unpaid, so that quite a number of the company are stranded here without money."

DIED IN VICTORIA.

(Victoria, B. C., Colonist, Nov. 17.) William McKay, who is affection-ately known to very many of the younger generation of Victoria as "Father McKay," passed from the scenes of a busy life yesterday afternoon, death coming to him suddenly as he took his usual afternoon walk. The deceased gentleman was a native of Nova Scotia, where he was born 82 years ago, and came to British Col bia in company with Hon. J. H. Turner in the early sixties; during his long residence here he was known to very many for his acts of charity and benevolence and for his temperate and blameless life. He preferred the quiet of home to public life, and during his many years' residence held but one public trust, having been chosen as school trustee several years ago by the government of the late Premier Robson. The funeral took place on Tuesday afternoon from the residence of Sheriff J. E. McMillan, with whom Mr. McKay had made his home for thirty years past, and from the Metropolitan Methodist church.

A DAUGHTER'S USEFULNESS. Mr. Grumpps-I'd just like to know what good all these cooking school

lessons are doing our daughter. Mrs. G.-Everything she cooks she brings home: Yes, and none of the family will

touch 'em, and the things are just thrown away. No, they are not. She gives them to Huh! What good does that do?

We are getting rid of the tramps. An insane man in Indiana, who be-ieves that Grover Cleveland is God,

THE HISTORICAL SOCIETY.

An Old City Bank Note-The Officers Elected for the Year.

The annual meeting of the New Brunswick Historical society took place Nov. 26th. Among those present were Rev. W. O. Raymond, in the chair; George A. Henderson, James Hannay, W. P. Dole, Col. Cunard, W. G. Macdonald, C. Ward and S. D.

Scott. The donations received included a five shilling note of the City Bank of St. John, of the issue dated July, 1836, probably the first issue, as the bank was incorporated in that year. The note bears the signature of John V. Thurgar, president, and Thos. Jones, cashier. It is in perfect condition, which is accounted for by the fact that it was only a few weeks in circulation, if indeed it ever changed hands more than twice. G. Sydney Smith, by whom the note was pre sented to the seciety, explains that it was a birthday present, and has been kept among other possessions of the former owner, who long since passed away. The date of presentation, August, 1836, was only a month after the issue of the note by the bank. The City Bank did not have a long career. It was merged into the Bank of New Brunswick, which assumed its liabili-

Another interesting contribution to the society acknowledged last evening was a copy of diaries kept by John Quincy Adams and his son, Charles Francis Adams, during a tour in Nova Scotia and New Brunswick in 1840. John Quincy Adams, was then ex-president of the United States, and a member of congress. His son, who was afterwards leader of the Free Soil party, minister to Great Britain and one of the Geneva arbitrators, was at the time of this visit a prominen lawyer in Massachusetts. He and his father kept separate diaries during their tour. Edward L. Pierce, in this city last summer, had some conversation with Mr. Dole and other was in the government service as cap- members of the Historical society. As between Mr. Dole and Mr. Pierce the suggested to Charles latter Adams, jr., grandson of John Quincy, that a copy of the journal would be welcomed by the New Brunswick society. Mr. Adams thereupon caused a typewritten copy to be prepared and forwarded.

These papers will probably form the topic of discussion at the next month-

The following officers were elected ding secretary, Jonas Howe; tary, Clare Ward; librarian, Col. Cunard; treasurer, H. H. Pickett; council, James Hannay, W. P. Dole, Hurd Peters, W. G. MacFarlane, Rev. W. O. Raymond, W. K. Crawford, who has given many years faithful service as treasurer of the society desired to retire from office. A resolution expressing the appreciation of the society for his work in its interests was placed on the records.

At a meting of the council of the society, Rev. F. W. Wightman and Rev. John de Soyres were elected to

CHRISTIAN ENDEAVORERS

Completion of all Business of the Big Boston Convention.

Boston, Nov. 26.-The completion of all business relating to the great Christsian Endeavor convention held here in July was observed tonight by a banquet at Hotel Brunswick, at which the now famous committee 1893 sat down and on rising dissolved. President Francis E. Clarke, D. D., and Secretary John Wills Baer were the guests. The hotel management gave the banquet complimentary to the committee, which has made the hotel its headquarters. On this occasion the committee, sub-chairman and treasurer made their reports, that of the latter being of great interest. the total receipts were \$32,782.78, with contributions in labor and material nearly one thousand more. The expenditure was \$22,286.60, leaving a balance of \$10,466.13. Hon. S. B. Caven, the chairman, was presented with bound volumes of the proceedings of the convention, and photographs of the committee. Each member was was presented with a Christian Endeavor badge.

A SUNBURY MAN IN LYNN.

The following is taken from the Daily Evening Item of Lynn, Mass., of Nov. 4th: "William G. Falkins, engineer at the C. M. Howard shoe factory, 80 Brookline street, having recently m ed into his own house on Superior street, the shop crew concluded to remove any chilliness that might be lingering around the premises, and last Friday evening invaded his domicile, 50 strong, and presented him a hand-some parlor suite. The gift was from the establishment of Titus & Buckley, and John H. Kane made the remarks accompanying its bestowal, the recipient returning grateful acknowledg-ments. An erchestra furnished pleasing music. There were singing, readings and games. Ice cream and cake e served, and everything passed off were served, and everything as happily as the most earnest promoter of the event could wish." Mr. Falkins is a native of Blissville,

ibury Ce., and a brother-in-law of Elijah Davis of Fredericton Junction

THE WEEKLY SUN.

ST. JOHN, N. B., DECEMBER 4, 1895

THE TARIFF AND THE CENSUS.

It is hardly worth while to discuss

over and over again the question of

the census and of the want of increase in the New Brunswick population reported in the return of 1891. The essential fact is that whereas the census return reported no increase there was really an increase of 15,000 to 20,000 or perhaps more in the province. The enumeration proceeded on a different basis from that of 1881. While it is not possible to say exactly what the apparent loss is from this change of basis, we have the estimate of the chief statistical officer that it amounts to five per cent. This would mean 16,000 in New Brunswick. In 1882 Mr. Anglin claimed that the enumeration of absent members of the families in the previous year had swelled the return of 1881 by 300,000, or seven per cent. This, applied to New Brunswick, would mean that the population was 22,000 less than the return of 1881 showed. The census of 1891 did not include persons who had taken up ment residence abroad. Therefore when the return of 1891 indicated the same population as was returned in the pervious census the real gain, according to Mr. Johnson, would be 16,000; or, according to Mr. Anglin, 22,000. Mr. Johnson is sometimes described as a tory official at Ottawa, Mr. Anglin, who is now a grit official at Toronto, was when he made his statement a grit member of the house of commons. We may not care to accept the view of either, but they are both clever statisticians and their judgment should be a help to us.

It is true, however, that there is

little gain in population in the older rural settlements in this province. The growth of population in most of these districts practically ceased some years ago. Unless the conditions of farming greatly change we need not look for a different state of affairs in the future. The introduction of machinery makes it possible for the farmer with less work to cultivate a far larger area, and do it better, than he formerly could with the same force. Development of dairy farming, the this year closed on Sunday with the consumption of crops on the land, the production of more beef, pork and other products that are not primary, would tend to higher cultivation and denser settlement. The national policy has not taken men from the farm unless it has made Canadian artisans of them. The national policy has preserved to the farmer the home market for beef, pork, lard and other products, which are offered us from the United States. It has given the farmer for extra home customers the hands employed in factories, shops and mines, which free trade would close. It has not deprived the farmer of a single customer who would have been price of \$10.50 per ton, or \$168,000 for here under free trade. It has the season. The attendants employkept thousands in the country and ed were 5,000 at \$15 each, making a caused no man to leave. The population of New Brunswick in 1891 was from 10,000 to 25,000 greater than in mained the population would have been less than it is now by many thousands .The men and girls in the cotton factories, the sugar works, the brush works, the nail works, the coal mines, the iron and steel works, and scores of other industries would have

after 1878. They would still have been nanufacturing and producing for Canadian consumers, but they would be employed in a foreign land.

OTHER STEAMSHIPS.

It appears that in addition to fortnightly sailings of the Beaver line ships St. John may have monthly sailings of the fine ships of the Donaldson line. It is at least certain that there will be one sailing in December and probably another in January. The ships of this line will not come here as tramps seeking lumber, but propose to handle more or less western freight both ways. The Furness line steamer from London, now in port, will discharge part of her cargo at Sand Point for the Canadian Pacific and the west, and will receive western goods. So before Christmas steamships will have arrived at the city wharves in Carleton from London, Liverpool and Glasgow, and goods will have been received from and forwarded to those three great British ports. The advantages of St. John as a Canadian winter port will be fairly tested before spring. It is needless to say that Is the most vigorous paper in the Mariit will be a great advantage to the place if everything is done to give the ships good accommodations, quick discharge and supplies at right prices.

IN CUBA.

and the vague conwar reports at flicting Cuban certain emerges some information that a serious battle has been fought and that a Spanish army of some 10,000 has met with a severe check, if not a thorough defeat. This first important action between the insurgents and the army of Spain shows that the Cubans have good fighting material in their ranks. On this occasion they had the advantage of position, as they were lodged on the hills, and were attacked from the valley. But even the conflict in the open country did not afford the troops of Spain much cause of congratulation, and in the end the national army was driven from the field, leaving the dead and allowing a quantity of ammunition to fall into the hands of the enemy. This reverse is a serious one, but it is not unlikely to be followed by Spanish successes, as the insurgents must be greatly out-numbered, while 12,000 additional soldiers are now on the way from Spain to the scene of action.

CONCERNING STANDARDS.

Sir William Hingston, ex-mayor of Montreal and perhaps the most eminent physician of that city, is the liberal conservative candidate for Montreal Centre. He has been one of the most devoted members of his profession, and has done great service to his fidence in the visitors and in their fellow citizens, and especially to the poor, by his efforts to suppress epidemics and to improve the sanitary condition of the town. It is a significant fact that while Sir William Hing- their generation than the children of ston is a candidate of whom als poli tical opponents have nothing but praise, the opposition candidate, Mr. McShane, is a man who is described by his own party journals as a discredit to Canadian public life. The Montreal Witness, which is a sufficiently strong liberal journal, says that Mr. McShane does not appear to know the difference between right and wrong, and is so bad that even Mr. Mercier could not stand him. Mr. Laurier has expressed a strong desire that Mr. McShane might be sent to Ottawa to help him settle the Manitoba school question. But the Witness, which supports Mr. Laurier himself, says that "Mr. McShane is one of the politicians who not only discredit their party but lower its moral standing." It is thus that Mr. Laurier continues the good work of elevating the standard of public life in this country.

THE CATTLE TRADE.

Montreal shipments of cattle for sailing of the Lake Huron with 111 cattle and 1100 sheep. During the season 96,564 cattle, 215,508 sheep and 12,-486 horses have been shipped from Montreal to British ports. This is an increase over last year of 8,960 head of cattle, 75,745 sheep and 6,845 horses. The Montreal Gazette learns that the average price paid to farmers for the cattle shipped was \$60, whereas last year it was only \$55. The farmers will be discussed while the Newfoundwould threfore receive \$5,793,840 this land premier is in this country. year for cattle as compared with \$5,-808,220 in 1894. It is stated that the quantity of hay shipped to feed the cattle was 16,000 tons at an average total of \$75,000 for the season. The insurance on the cattle amounted to \$96,564, and the amount paid out for 1881. If the Mackenzie tariff had re- freight was \$965,640. It is believed that the farmers received \$1,077,040 for sheep sold, while the insurance was \$54,000 and the freight \$239,450. The largest shippers, Gordon and Ironsides, sent away 33,907 cattle and 15,-192 sheep. The stock shipped by this firm was from the northwest and re- valuable substitute for the fine organbeen today engaged in the United presented a value of more than \$2,-States had not the tariff been changed 000,000.

THE HAMPTON PROSECUTIONS (From Daily Sun Nov. 27th.)

The interest felt in the recent and

pending prosecutions at Hampton is not confined to the people of that village. At this stage it is not convenient to discuss the question of the guild or innocence of the Scott act witness charged with perjury. But the circumstances of the arrest of the detective and the subsequent arrest of the justices as they were about to resume the adjourned hearing of the Scott act case have made a strong and somewhat unpleasant impression on the public mind. Possibly the emergency was so grave as to call for this interference. If so, since the detective has been com mitted, and since it has been decided that he may safely be allowed out on bail, the higher courts will perhaps now be thought equal to any further require ments in this connection. A report has been printed to the effect that the provincial authorities will be asked to hold an enquiry into the conduct of the two justices who are engaged in the hearing of the Kings county Scott act cases. The report may have nothing in it. Perhaps it would have at tracted no attention had not an enquiry been made into the judicial conduct of a Chatham magistrate who has made convictions in a large number d Scott act cases. The convictions of the Chatham magistrate seem to have stood the test of appeals to the supreme court. Nor have the appeals from Kings county decisions of lat been singularly successful. It is claim ed by many that the Canada Temper ance act is not well enforced, and no doubt its enforcement is attended with great difficulties. This being so, it is not surprising that people who would like to see the law thoroughly operative should view with concern any official or administrative movement calculated to weaken the judicial forces available for carrying out the act. If there has been perjury on the part of a witness he ought to be punished, and those who seek to enforce the liquor law should be the last to shield a false witness. But there should be ample opportunity for the decent and orderly trial of both perjury cases and liquor cases. In the meantime if there is to be further provincial enquiry into the conduct of justices and magistrates, is there any reason why it should be confined to those who make the most Scott act convictions? Some of the business men of Char lottetown have hit upon a way to bring the Hunter and Crosslev meetings before the public. They have con tributed their contract space in the daily papers to be used for displa advertisements of the meetings. Som doubt had been thrown by anonymou correspondents on the motives of the evangelists. The merchants took this striking way of testifying to their con-

The Sussex Co-operative Farme gives a terse and true explanation of the fact that the farmers of the maritime provinces are not given to sheep raising, though the county is well suited to sheep. The reason is that "we cannot get a breed of sheep that can fight the dogs." The farmer says: "To restock our pastures we require stringent dog law, like that of Maine, and an energetic municipal enforcement of it. Who among our legislators will be the first to afford the long suffering sheep protection from their enemy? The plaudits of many farmers await this man." This is good, prac-

work. The originator of this happy

thought furnishes one of the excep-

tions to the general truth that the

children of this world are wiser in

The valued Globe thinks that if the Globe has political or personal reasons for taking a gloomy view of the transfer of population, the Sun may have business reasons for taking a cheerful view. Let us suppose this to be so. Then how does it happen that while the Sun accepts the official export returns of settlers' effects as of equal authenticity with the return of similar imports, the Globe makes a great cry about the export and tries to throw doubt on the import statement?

It is definitely stated that when Sir William Whiteway comes to Canada he will not come to talk confederation, but to discuss custom house questions. Nevertheless it may be taken for granted that the subject of union eral things have happened in New foundland and some things in Canada and Great Britain since Sir William's colleagues were here on their union

Those who have been crying out for the issue of the Cardwell writs need cry out no longer. The election will take place before Christmas. As parliament is called for the day after New Year's it may be assumed that the other by-elections will not be far

behind Cardwell. General Master Workman Sovereign has resigned his position as chief of the Knights of Labor. His lurid ora tory has probably not been found a izing power and administrative capa-

LIBERAL MEETING.

Davies Explains the Policy of the Party on the Manitoba School Question.

Almherst, Nov. 28.—The liberals held

a meeting tonight in the Opera house umder the auspices of the Young Men's Liberal club. W. T. Pipes, Q ex-premier of Nova Scotia, presid ed. Among others present were Hon. L. H. Davies, liberal leader of the maritime provinces in the house of ommons; Premier Fielding, Attorney General Longley, Hon. H. R. En minister of public works of New Brunswick, and H. J. Logan, a lib eral candidate. The usual old stories were rehearsed. Mr. Davies, the speaker of the evening, urged as a reason that the liberals should be supporte that such men as Mowat, Greenway, Blair, Fieldling and Longley were con trolling the provincial parliaments. On nitoba school question he sa that the liberals wanted a commission to investigate into matters before at tempting legislation in favor of the minority in Manitoba, He was sev eral times interrupted by questions from the audience.

THE APPLE TRADE.

Sackville as a distributing centre for Nova Scotia apples makes quite a good showing. Between three and four thousand barrels have been landed by schooners at the wharf this fall. J. H. Goodwin, J. A. McQueen, Ernes Black of Amherst and others have a ceived most of their Nova Scotia apples by this port. An increase in price of nearly a dollar in the last few weeks is a very satisfactory marke to those who bought in the early season, whatever it may be to those who sold early. One dealer is counting on settling from two to five hundred dolars out of the advance.-Post.

THE AGRICULTURAL SOCIETY.

The first meeting of the newly elect. ed directors of the St. John Agricul-ural society was held Thursday afternoon. There were present S. T. Gold-ing, J. B. Hamm, Thos. Clark, James Shaw, E. LeRoi Willis, Dr. D. E. Berryman, S. S. Hall, Wm. Shaw, M. P. P. Robt. McLean, Ald. A. L. Law, A. Fairweather, W. D. McEvoy, W. Mullin, W. L. Walsh, R. R. Patchell and Dr. Frink.

S. T. Golding was re-elected president, and the following vice-presidents chosen: S. S. Hall, 1st; A. L. Law, 2nd; J. B. Hamm, 545; James Shaw, 4th, and Robt. McLean, 5th. The following were appointed the executive committee, with the president and secretary: Geo. Ketchum, E. LeRoi Willis, W. D. McEvoy, and James Shaw.

Mr. Hall said he had received a unication from Mr. Daniel of the old firm of Kirk & Daniel relative to the importation of seed potatoes by the society for the use of the mem-Several gentlemen spoke of the advisability of such a move.

Mr. Fairweather told the directors that he had good results from the oats he imported. He bought three bushels of Clydesdale oats from Mr. Henderson of New York. Two bushels of them were sowed in three-quarters of ar acre on his farm at Rothesay. The yield was thirty-six bushels, which he would sell to any parties desirous of etting good oats for seed. Next year he proposed sowing six acres of oats. Mr. Shaw, M. P. P., said he imported some of these dats a few years ago and the results were very satisfac-

tory. The following were appointed to consider the matter of importing seeds for the use of the members of the society S. S. Hall, James Shaw, Robt. Mc Lean, A. C. Fairweather and Thos. Clark. They are to report in January.

CIRCUIT COURT.

St. John circuit court opened at 11 o'clock on the 26th ult, Judge Tuck presiding. The grand jurors Charles McLauchlan, foreman; Arthur Everitt, Henry Maher, Henry McCullough, James Ready, John M. Taylor, George H. Waterbury, Samuel Crothers, Hugh S. Gregory, Alexander A. Watson, Joseph A. Magilton, Wm. Young, Frank H. Flewelling, Joshua E. Cowan, Alfred A. Mabee, Robert Marshall, David Lynch, James C. Robertson, C. E. L. Jarvis, Alfred C. Blair, Charles W. Hutchings, John F. Morrison. William E. Raymond and

Michael Gallagher. The petit jurors are: Charles E. Uriah Drake, Richard scammell, Whiteside, R. Duncan Smith, James Morgan, Henry W. deForest, Thomas C. Carle, Thomas H. Bullock, Enoch B. Colwell, Charles F. Tilley, John Walsh, Richard Sullivan, John W. Matthinson, William J. Phillips, Edward Sears, G. Clowes Carman, J. Sidney Kaye, M. Douglas Austin, Richard Rowe, Albert W. Vanwart and George R. Cochrane.

His honor charged the grand jury in two cases. The first was that against James Howe for attempting to murder the Birch girl and for attempting to commit suicide. His or briefly referred to the evidence

citizens might well be proud.

Later in the day the grand jury found true bills in both cases. Soli-citor General White is attending to the criminal business on behalf of the

LUMBER BY THE BEAVER LINE

(From Daily Sun. Nov. 27th.) J. W. Todd of the big Liverpool lumber firm of Watson & Todd is in the city. He has been here several days and is a guest at the Royal. He has called upon the large lumber manuacturers in the city and vicinity and has nurchased a considerable quanof deals for shipment to Livernool. The firm have never cone business with the St. John manufacturers Their importations have been chiefly from St. Lawrence ports. As his concern have always shipped lumber by the steamers of the Beaver line, Mr. Todd came down here from Montreal for the purpose of purchasing deals for shipment by the Reaver line hoats to Liverpool. Mr. Todd refused to tell a Sun reporter last night how much lumber he thought of sending across the Atlantic by the Beaver line steamers.

The Sun man asked Mr. Todd number of questions relative to the English lumber market. He said the supply of lumber there now as not nearly up to the quantity on hand at this time last fall. The demand was on the increase, and stocks being light, he could not see why the price should not go up.

SHEEP IMPORTATION PROHIBITED. London, Nov 28—The board of agriculture has is ued an order forbidding the importation of sheep from the United States and Canada unless the animals are slaughtered at their port of landing. This order goes into effect on January 1st, due to the arrival during recent months of many cargoes of sheep which have been infected with scab.

NOT SO BRIGHT AT PORTLAND.

(Portland Press.) The work of loading and discharging the steamers is progressing well, and extra trains are run over the Grand Trunk to accommodate the freight that must be brought down to load even one of the great boats. What troubles the railroad men a little, and the steamboat managers a great deal, is the fact that the freights from England here are so hard to get, even at low rates. The balance of trade seems to be in favor of this side of the water, although Canada is profiting the most largely by it. Some heavy shipments from England to Canada is said to be certain in the near future. As it is, cars that come here with a full load from the west or Canada go back empty, much to the delight of the tramps who are still travelling, taking advantage of the pleasant weather, but not to the profit of the railroads. The work of loading and discharging the

OUTLOOK IN CHICAGO or briefly referred to the evidence, which, if the jury believed, would warrant a true bill.

The other case, that against Wells, the judge characterized as a nasty one. The man who was charged was well known to people in business, and while he would not advert to the kind of business, yet it was sad to see a charge of this character against a citizen of the age of Wells. The evidence very clearly showed that Wells, who had been watched, was found in bed with the two girls, whose testimony would be before the jury, and there would be no difficulty in finding a true bill.

Neither of these cases were serious ones and his honor was glad to observe that in a seaport town there was such an absence of crime of a henious character. Persons and property were safe, a fact of which the citizens might well be proud. (Chicago Times-Herald.)

have possibly the same effect on wheat this next year as it had on the coarse grains early in 1895.

Professionals as a rule are very bearish on both corn and oats. They argue that there is no doubt about the supplies; that they exceed anything ever known before. With a corn crop of 1,200,000,000 bush winding up under 30c they believe that a crop of 2,200,000,000 bush will lose anybody's money who buys it. There is the same feeling in regard to oats, except that there is the opinion that their supply is relatively the largest of any. The bearishness of the professionals on the coarse grains is only increased by the present reluctance of the country to soil. That attitude, it is urged, simply leaves the farmer in debt to his banker, so that by spring, with nothing sensational in sight, the liquidation will be faster and more urgent. Floor traders here and in other markets are a good deal more confident over short sales of corn and oats, notwithstanding the prices are the lowest on record, than over short sales of wheat.

The prospect of any important advance in hog products appears just as remote as any appreciable rally in the coarse grains. Provisions are low; supplies are not burdensome; the consumption is large. But with such a corn supply at such prices there is every reason for a general resort to hog raising. The trade confidently expects 3c hogs and a long run of them. With that price at the yards, product on the floor will hardly rally much.

CARLETON CO.

Benton, Nov. 22.-The semi-annual public examination of the advanced grades of the school here, taught by Henry Harvey Stuart, was held today. The pupils present were examined on most of the branches taught during the term, and acquitted themselves in a way that reflected credit Rev. Mr. Smithers of Waterford gave on their teacher. Among the visitors were Messrs. George Murray and Wm. Spear, trustees, and Rev. Harry Harrison. At the close of the exercises, Mr. Speer pronounced himself well pleased with the management of the school and progress of the pupils. Rev. Mr. Harrison also addressed the school, giving words of commendation and encouragement to the pupils and highly commending the work of the

Tonight in the Methodist church Rev. Mr. Fitzpatrick of Kincardine, Victoria Co., lectured to a fair sized audience on Evolution of the Earth, Man and Religion. His lecture was an excellent exposition of this subject. He was heard with the greatest attention, and will be we'comed whenever he returns to Renton.

Woodstock, Nov. 26.-A special meeting of the town council was held last evening to deal with the question of sewers and other matters. The mayor thought that the time had come when the work should be stopped.

Coun. Leighton, on behalf of the spe-D. M. Loggie, Hon. J. B. Snowball and cial committee, said that the committee would be in a position to report next Monday night. Wm. Gregory was going to look into the case, and he would send a recommendation to the council before next Monday. The

Coun. Gallagher, on behalf of the same committee, submitted a report on the condition of the lights sent to him snow storm set in. by Mr. Brown, electrician of the St. John railway, who came up here last week. Mr. Brown said that the system was in a very bad state and the tamps in a disgraceful condition. It would be necessary to have globes for will put in three more shingle machinall the lamps, and hoods for the single es for next summer's work. He lamps. He claimed that it was impossible for the lamps to be run by every Tom, Dick and Harry. He which gives employment to a number would recommend that one man be in of men, hauling the cedar. charge of the lights all the time, as constant changes were detrimental to

WALTER BAKER & CO., Limited, DORCHESTER, MASS.

FRED MOORE'S CASE.

Falls shall seek incorporation at the next sitting of the local legislature of this province, and that the ncessary be at once taken for that. This resolution was then put to the

meeting and carried unanimously. Short addresses were made by P. G. hams, W. C. Burpee, the Rev. A. F. Moore Pursued His Operations, it is Alleged, Loods and others. After a few remarks at Solieitation of Bank Officers. rom the chair the meeting adjourned. Several of those present, who were formerly opposed to incorporation, dreading an increase of taxes, with-drew their objections in order to encourage the introduction of some pub-

ic works, especially those proposed by this company. As a sequel to the for going meeting, your correspondent gave notice of a public meeting to be held on the 21st inst. for the purpose of taking into the following effect. There seems to consideration the advisability of carry- be a misunderstanding in regard to ing out the terms of the above resolu- the report of the case, wherein it was In pursuance of said notice a meeting was held in R. B. Sirois' store and Charles McCluskey was elected chairman. He explained the purpose of the meeting and urged the meeting to take immediate action in the premises, so that the town may be benefitted by the water power that nature has supplied them with. H. W. Taylor was appointed secretary to the eting. The following resolution was moved by L. W. Wilson, seconded by

James F. McCluskey, and carried unanimously: Whereas, a proposition has been made by the directors of the Grand Falls Water Power and Boom company to use said power and to rent or lease certain lands and privileges for the purpose of facilitating the work of establishing a pulp mill and other machinery; and whereas, the said lands are not at present a revenue producing property or factor to the town, it would therefore be for the best interests of the inhabitants of said town of Grand Falls to make such bargain, contract or agreement with said company as would make these lands a source of benefit and development for said town; but before we are in a position to enter into any legitimate bargain or contract with this or any other company it will be necessary for this town to

Therefore resolved, that in the opinion of this meeting the town of Grand Falls should be incorporated, and that the necessary steps should be immedi-ately taken to secure legislation to that effect at the next meeting of the legislature of this province.

Moved by P. G. Fraser, seconded by Rev. A. F. Loods, and carried, that a at Sackville, and is suing for the amount of an account for professional the Monitor, is twenty-two feet wide, the interest of incorporation. Moved ount of an account for professional services rendered. The defence set up is that the plaintiff is not a duly registered physician of this province and therefore cannot recover. By consent of the attorneys a verdict was entered to the attorneys a verdict was entered to the defendant for \$26.50, with leave to the Monitor, is twenty-two feet wide, with two wings, one on each side, of the interest of incorporation. Movel by James Watson, seconded by Wilson, seconded by Wilson and Cluskey, sr., and others, that the following gentlemen constitute said the following gentlemen constitute said the estimates of cost, etc., will be ready this week.

Contractor W. H. Butler's hands and the estimates of cost, etc., will be ready this week.

Frederiction, Nov. 28.—John Palmer, ham, F. B. Chouinard, M. D., and P.

Moved, seconded and carried, that a vote of thanks be tendered R. B. Sirois for the use of his store wherein to hold the meeting. Moved, and carried, by P. G. Fraser, seconded by L. H. Wilson, that the committee be empowere to add to their number at any tim they may think proper. Short speeches were made by Chairman McCluskey, J. R. Graham, James Watson, Rev. A Loods and P. G. Fraser, all in favor of incorporation.

THEODORE DURANT.

A Decision on the Motion for a New Trial to be Given This Week.

San Francisco, Nov. 27.-Theodore Durant appeared in court today to be sentenced for the murder of Blanche mont. When the court was called the prisoner's attorney began reading from a pile of affidavits upon which he based a motion for a new trial. The affidavits included every article published by San Francisco papers concerning the crime and relating to the trial. No exception noted during the

trial was overlooked. The alleged hostility of the press and people of the city to Durant dwellt upon, and contention made that the jury was unduly influenced by the popular opinion which had pronounced the prisoner guilty. When the prisoner's affidavits are read the district attorney will present affidavits, and then the motion will be argued. A decision on the motion is not expected until next week.

BALFOUR SENT TO PRISON.

Nov. 28.—Sentences were pronounced in the Queen's bench division of the high court of justice today on Jabez S. Balfour, George Edward Brock and Morrell Theobald, convicted of fraud in connection with the Land Allotment company and the House and Land Investment Trust companies, forming part of the Liberator group of institutions. Mr. Balfour was sentenced to fourteen years penal servitude, seven years on each count. Brock and Theobald were sentenced to nine and fourteen months respectively. All the other indictments against Balfour have

Woodstock Legal Gentleman's Statement of His Affairs.

(Special to the Sun.) Woodstock, Nov. 27.-Your corres-

pondent interviewed a prominent legal gentleman in connection with the Fred Moore litigation case. Referring to the report of matters as far as they have got into the papers, this gentle man made a short statement to about be a misunderstanding in regard to stated that George Moore's signing of a judgment was the cause of the People's Bank filing a bill, whereas it was manifestly their intention to file a bill before that occurred. As Moore has for some time been aware that his business was not prosperous and he was intending to discontinue operating, but on being urged by the bank he prosecuted his business during the past year, and advances made to him were at the solicitation of the bank officers, who wished him to continue his business. The profits to the bank in connection with his dealings were large, amounting to probably \$30,000 or \$40,000. It is not a fact that Mr. Moore ever reported that his two sons were in partnership with him He had reported that his son Miles was, and he did business under the name of Fred Moore & Son. George Moore never had anything to do with the firm's business. All notes were made by Fred Moore and endorsed by Miles Moore. George's name did not appear on them in any way. The crisis was brought on by an attempt to make George Moore become a party to Fred Moore's renewals, while would not agree to It is true that the driving business was carried on by Fred Moore and George Moore. profits of that business were paid into the bank to the credit of Fred Moore & Son's lumber business, so that the bank must have known that the lumbering operations were being augmented and sustained largely by the profits derived from the driving business The bank kept two separate accounts made on the driving account to supplement the lumbering account, and they were perfectly well aware that other. It would therefore be reason-Moore & Son's liability. On the 28th of February last, Fred and Miles Moore being indebted to George in the sum of \$16,000 as his share in the driving business, executed a warrant of attorney to confer judgment in his avor, and it is under the act passed on the 7th of March that the bank are now claiming to set aside that warrant of attorney as being a preference prior to the 7th of March, it was quite legitimate to give preference to any creditor, and it was before that date this judgment was given. Although nominally judgment is being entered up for a larger amount, in reality the judgment is \$5,500.

amount claimed as unpaid on that The claim that Mr. Wilson entered into a colorable arrangement for the purchase of property to satisfy Geo. Moore's demand is unfounded in part. He bought a block for \$8,600, which was a fair and reasonable value for the property, from Fred Moore, and Fred Moore had a perfect right to apply that money to satisfy a business

Mr. Moore has made what to them seems a reasonable proposition to the bank, namely, after reserving sufficient to pay debts due him outside sign to the bank all other assets and property he is possessed of, which at their cost would exceed his indebtedness to the bank by at least \$10,000 or \$12,000, although they might not bring nearly as large an amount as that. He also is willing to remain with the bank working for them in the management of the property. under their direction and supervision, until their debt shall be paid in full, or that it shall become plain that it was imthe bank shall have full authority to dispose of all property. The prop tion is now under consideration by the bank. Fred and Miles Moore propose to satisfy the balance of George Moore's claim by mortgaging their homes to him. Geo. Moore has offered to allow the bank the use of his ing winter. The bank wished, so this gentleman told the Sun, that their claim should be settled to the exclusion of all others.

SAVED FIVE HOURS

London, Nov. 28.—The Chronicle says that the experiment inaugurated by the Hamburg-American line of steam thips by Fuerst Bismarck to stop at Plymouth last evening, instead Southampton as heretofore, as the Enuglish port of clearance, resulted in the saving of five hours in the transit of American mails to London.

BANQUET TO HALL CAINE.

Speech of This Distinguished Man of Letters.

He Talks About the Copyright Question and the Mission Which Brought Him to Canada.

Ottawa, Nov. 25.—The dinner to Hall Caine by his friends in Ottawa tonight was a decided success. There were about 100 invited guests. Sir Charles Hibbert Tupper occupied the chair, and on his right were seated the guest of the evening and Hon. George E. Foster, and on his left Hon. T. M. Daly and Mayor Borthwick. Sir James Grant rougled one of the vice-chairs, and J . E. H. Bronson the other menu was in accordance with the high standard of the Russell house.

The toast of the Queen was proposed by the chair, and duly honored, after ch Mayor Borthwick proposed the Governor General, which was received by the singing of He's a Jolly Good Fellow. After the reading of a batch of letters of regret from many who were not able to be present came the toast of the evening by Sir Hibbert

In referring to Mr. Caine Sir Charles Tupper said that his presiding at the banquet was an accident. It was a nt accident for him, since both he and Mr. Caine were the victi misrepresentations in the press. They knew Mr. Caine's latest grievance, if they had forgotten his. Some time ago it was said in the press that they were at daggers drawn. They were both said to be in a bad state of temper, and tonight they could both be seen sitting side by side, which was a fittions. Sir Charles then went on to say that Mr. Caine acted as a great diplomat in dealing with the question of copyright. He said this much advisedly. It was said that when Mr. Caine was coming to Canada it was to measure strength with those on this side of the Atlantic in respect to copyright, but since his arrival they had all learned to love him. After touching on Mr. Caine's works as an author, Sir Charles concluded by proposing the was re-

health of Mr. Caine, which was re-ceived with immense cheers.

In responding to the toast of the evening, Mr. Caine, after referring to the welcome he had received as a man of letters, said: "The mission which brought me to your hospitable continent three months ago, was, if I nay say so, foreign to my calling, opposed my previous experience. I knew that it must disturb me in the pursuit of the work I am best fitted to do, and interrupt the progress of the particular book I had in hand. But I also knew that the first men in my profession, from Dr. Johnson to Carlyle, had allowed themselves, as occasion quired, to put their hands to the same plough of copyright legislation, and I felt that this moment of a misunder-standing between Canada and the mother country was one that made a special appeal to an author, who felt ters, but a lover of his country, desiring the peace and honor of his nation more. And then, if it becomes me to say so, I brought to the consideration of the question of Canadian convright the perception of one fact that perhaps more clear to me than to some of my brother authors, thanks to my birthright as a son of a little selfgoverning nation living under the protection of the crown, that the differ-ence between Canada and England future—Canada as an independent nawas not mainly the material matter of the rights of English authors against the rights of Canadian publishers, but chiefly a matter of sentiment, of fundamental national feeling involving the large and weighty question of Canada's right to legislate for every interest that touched the welfare of her people. I thought there was a point at which this sentiment collided with the material issue, and perhaps imperial legislation, and so I out as the delegate of my broth er authors, not to contest a constitutional question with your statesmen, but to ask the Canadian people in general, and the interested classes in particular, whether, in the exercise their right to govern themselves, they had any desire to injure us. When I put the issue in that spirit I had only one response. Wherever I went in the dominion, from the cabinet of your genial and fair-minded prime min and your accomplished minister of justice, down to the humblest office of a country printer, I had but one reply, does not want to wrong the English author, or yet the author of injures you we will tear it up and

"Gentlemen. I want to tell you, and also the public outside, that the hetter legislation which Canada promised to authors is under way. The much disputed Copyright Act of 1889 will never again be offered to your parliament or sent to England for imperial sanction. Instead of that there will Le an amended act to be called the Copyright Act of 1896. What provisions the act wil make is a matter to be made known to your government when the time arives. But I am betraying no cabinet secret when I say that the conference with the ministers of justice and agriculture, which my colleague, Mr. Daldy, and myself, together with the Canadian Coypright association and Canadian publishers, were permitted to hold in Ottawa today a draft measure, which forms an ment between myself as the delegate of English authors and the interested parties in Canada, was sub-mitted and recommended to the ministers, and we have every reason to hope that, in the wisdom of your government, it will be regarded as a probable general basis for forthcoming

"By the agreement the time within which a copyright holder can publish in Canada and so secure an absolute and untrammeled copyright is extended from 30 to 60 days, with a possible extension of 30 days more at the discretion of the authorities. Also by this agreement the licenses to be granted not fulfilled the conditions of Canadian copyright law is limited to one and this single license is only to be issued with the copyright holder's knowledge or sanotion. Further,

the copyright holder who has an indepudent chance of securing copy-right for himself within a period of 60 days is to be allowed second chance of securing it after it has been challenged and before it can be disposed of by license. And finally the royalties of the author are to be secured to him by a regulation of the revenue to stamp an edition of a book on the issue of a license.

"This is the ground of the draft bill which the Canadian Copyright association has joined with me in recom-mending to your ministers, and on its general principle I have to say, first, to Canadian authors, that a bill framed on these lines will not put them in a position of isolation among the authors of the world; and next, to the authors of England and America and of all the countries having a copyright treaty with England, that that treaty will secure to authors the control of their property and put them all alike on an equal footing, and therefore it will not, I think, disturb the operation of the Berne convention so far as Can ada is concerned, on the understanding between Great Britain and the United States. Beyond this I must allow that the arrangement is a com-

"There have had to be concess on both sides. The people who are sticklers for principle will condemn us all round, and there are always folks enough to holla for the moon when

they only want green che "Gentlemen, if anything I have done, if anything my distinguished colleague has done during our visit to Canada has contributed in any measure to the making of a sentiment that shall in the fullness of fime and the wisdom your ministers work itself out into amended legislation, the good result has been due not more to a conciliatory spirit on our side than to a spirit of justice and even generosity on yours determination to do the right thing, as far as your restricted condition allowed, by a small but influential class in England. And this spirit will I trust and believe, live and increase in Canada when Mr. Daldy and I have had to leave you, and you have for-gotten with what kindly warmth, with what a sentiment of hope and expectation, you are speeding your parting guests. "Gentlemen, if it is not ungracious to

say so at this gental board, it was not

my fault that I came to Canada, but

it will be my fault if I do not carry home from it a vivid and unfading memory of a great and beautiful coun-I cannot easily tell you how Canada has impressed me. It has impressed me from the point of natural grandeur as the most wonderful country I have seen on this continent. mighty forests, its great inland seas, its vast oceanic planes—I can never forget them. But Canada has impress ed me yet more as a commonwealth, as the youngest among the nations. In this regard it is difficult for any exercise of the imagination to be fantastic, to be overstrained, to outdo in dreams what the future may bring forth in fact. Your great cities that are yet to spring up out of the desert, mighty railways that are to link ocean to ocean, your future ships that are to bridge the sea, your future tele-graphs that are to abridge the land, your material science that is to conquer even the frozen territory that frowns on you from the north, nothing can affect the imaginative mind more profoundly than those near-and imminent possibilities. But it is of Canada in relation to England that I think oftenest when I allow myself to make visions of your future. Gentlemen, if you ask me as a matter of romance which tion, fighting its own hard fight and winning its own place as a separate state among the states of the world. or Canada as the newer England, the greater England beyond the seas, the oung son of an old sire-I cannot hesitate for a moment: I see Canada in the time to come, if you can forgive the figure, as Joseph, the son of Jacob, being sent out to the strange land, becoming master there, and if the days of dearth should ever befall, feeding with his corn the sons of his father from the old country. It is a great future that is before Canada, and I rejoice that no little thing, no narrow interest, no interest of class whether high or low, is to be allowed by you or by yourselves to strain the relation

between us," Hon. George Foster and Mr. Bronson replied to the toasts of the Dominion and Provincial Parliaments, were proposed by Principal McCahe, and Rev. Mr. Herridge proposed the toast of Canadian liter Dr. Dawson, B. Sulte and John Francis Waters replied. Other toasts lowed, including "Our United Em-

pire," by Mr. Foster. MRS. PERCY LEAR'S SUIT.

In reference to a paragraph appear ing in the issue of the Sun of Oct. 8th mes et D'un Perroquet, publised in last, announcing a suit by Mrs. Percy 1846-47. His chief work of fiction, La Lear, sub named "Elizabeth Frances Byron," against F. I. Tremaine, bar- his best known productions of modrister, of Halifax, in which it was stated that Mr. Tremaine had collected ed in 1852, after having been interdicted by M. Leon Faucher, and reproducnection with her divorce proceedings ed in Verdi's opera La Traivata, atand had paid her only \$175, the Sun tracted still more attention. is requested to state that Mr. Tre-maine's answer has been filed in the Ides de Madame Aubray was produced suit, in which he alleges payment of in Paris early in 1867. His Visit to De about \$700 to Mrs. Lear (or Byron) or to Percy Lear for her, covering payment of her expenses at the Gold payment of her expenses at the Gold A year later he published a pamph-Cure Institute in Halifax, and her let entitled L'Homme Femmes. It rebills in that city; her expenses to Bos ton, where she now is, and cash to her. Mr. Tremaine brings Lear several hundreds of dollars in his debt in the transaction, and claims to have largely overpaid both Lear and his wife.

MAKING IT SIMPLE.

(From the London Telegraph.) "My good woman," said the learned "you must give an answer in the fewest possible words of which you are capable to the plain and simple rank of commander of the Legion of question whether you were crossing Honor. His drama Joseph Balsamo, the street with the baby on your arm and the omnibus was coming down on the opposite side and the cab on the left and the brougham was trying to pass the omnibus, you saw the plain tiff between the brougham and the cab, or whether and when you saw him at all, and whether or not near the brougham, cab and omnibus, or either, or any two, and which of them respectively, or how it was.'

SIR JULIAN ON MORGAN.

The British Minister Takes the Ala bama Senator to Task.

Re Behring Sea Claims, For His Mistake Views of British Navigation Laws.

Washington, Nov. 25.—The British embassy received today from the for-eign office the full correspondence respecting claims for compensation on account of British vessels seized in Behring sea by United States cruisers. Brief cable extracts from the report have appeared, but the full corre dence is full of interest after it brings out the spirit with which Sir Julian Panncefote, the British ambassador answered the criticisms of Senator

On March 25 Sir Julian Pauncefote wrote an elaborate answer to Senator Morgan's criticisms on the Behring After answering one after another of the senator's statements, he

"But of all the unfounded objections which have been urged against the claims, that which seems to have made the greatest impression on the public mind is the statement that most of the vessels on behalf of which the claims were made were in fact owned by persons whom Senator Morgan stigma-tized in the senate as 'Recalcitrant and rascally Americans who hired selves out to the British flag to rob the government of the United States and to violate its laws and dis-

honor the country." "These vituperative epithets are quite unmerited, and I will proceed to show that the objection in question is not well founded in fact and apparently is based on a mistaken view of the British navigation laws. By British law, no alien can hold any share in a registered British vessel, under pen-alty of forfeiture of the vessel to the crown. The owner of the vessel may mortgage her to an alien, but he does ot thereby part with his property in

After quoting the British shipping aws, Sir Julian proceeds:
"Why should an American citizen be called a 'rascal?' What law has he violated by advancing money for the prosecution of a lawful Canadian in-dustry carried on by Canadians in Canadian vessels? In what respect has the United States government been robbed,' considering that it has no property in the fur seal, as was solemnly adjudged and declared by the tribunal of arbitration at Paris?

"These are questions which, I sub mit, can only be responsibly answered in a sense absolutely fatal to Senator Morgan's contention. Moreover, the principal alleged transgressor referred denied that he is an American citizen. "The British flag and the law of foreign nations have been violated on the high seas and it appears to me essing the indemnity to the private individuals who were the victims of the great wrong so committed, any inquiry into the sources of the capital invested in the lawful industry pursued by the vessels at the time of seizure is out of place and inad-

DEATH OF DUMAS.

The Noted French Author Passes Away at a Good Old Age.

M. Dumas died peacefully at 7.45 o'clock this evening, surrounded by his family. While his physicians and friends had become convinced his case was hopeless and his death was only a question of time, it was not expected that the end would come so soon. A bulletin issued at 6 o'clock stated that the slight improvement in the condition of the patient which was minifested yesterday was found to be maintained today. Soon after this M. Dumas fell asleep and awoke again at 6.30 o'clock. He feebly uttered a few words to those about his bedside and

President Faure Eugenie have made frequent inquiries regarding the condition of the distin guished patient since his serious illness was first made known.

then sank and died ...

M. Alexandre Dumas, the younger son of the late M. Alexandre Davy Dumas, the well known novelist and dramatic writer, was born in Paris July 28, 1824. He was educated in the College Bourbon and at the age of 17 he published his first work, a collection of poems entitled, Les Peches de Jeunesse. Naturally this work did not attract much attention. After completing his education he travelled with his father in Africa, on his return wrote Les Adventures de Quatre Fem-Dame aux Camelias, became one of

Hoces and La Princesse Georges we

brought out in 1871. peated the thesis of his novel L'Affaire Clemenceau. This play under a different name was brought out again a the Renaissance theatre by Madame Sarah Bernhardt in September, 1894. It was also produced in America, where it attracted general attention. The fine collection of paintings belonging to M. Dumas was sold in 1892 and brought more than \$100,000.

M. Dumas was installed a memb of the French academy February 11, 1875, and has been promoted to the based on his father's romance of Cagliestro was represented for the first time at the Odeon, March 18, 1878. He published La Princesse de Bagdad in 1881; Denise in 1885, and Francillon in 1887. Unlike his father he was distin-guished by slow and careful work. His sister, Madame Petel, appa possessed some of the literary abilities for which the Dumas family has been distinguished. She has written a num-

ber of romances, none of which, however, obtained a wide reputation.

M. Alexandre Dumas was married
June 26, 1895, to Mme. Regnier de
Labruvere, a civil ceremony only being obtained a wide reputation. performed. He has been very ill during the past few weeks and the an-nouncement of his death was not unexpected.

SHARK STOPS A STEAMSHIP. Nobody Believed the Yarn Until It

Was Officially Confirmed. In a series of shark stories recently published in a London weekly one cf he yarn spinners tells this "rouser": "I believe the record shark," said Billings, "is an old twenty-footer, which they hemmed in the harbor at Maur tius with lighters, and yhich the ebb tide left stranded on the mud?"
"Bables, bables, all of 'em," Musgrove, "to this shark. Did you ever see a shark big enough to stop a P and O. steamer of eight thousand

No one took it up; the silence quite oppressive. "Well, this one," said he, "was basking near the top of the water when the Himalaya came steaming and she positively cut half way through the shark, and the carcass of the tig fish proved so great an obstruc-tion that the skipper had to stop the engines and back off." Offers to bet all sorts of things from new hats to dozens of wine that no shark ever foaled could have kept in

one piece after being struck by huge steamer, and further that whole story came out of an overworked brain, were showered upon Australian, who subsequently produced a typewritten letter, of which the following is a true copy: ,
Peninsular and Oriental Steam Navi-

gation Company, 192 Leadenhall street E. C. 4th October, 1895. Dear sir-We have to acknowledge the receipt of your letter of the 2nd in the Himalaya, and in reply theret: beg to say that we have lo ship's log, and the incident you refer

to took place on the 6th ultimo, and is recorded in the log as follows "8.34 a. m .- Shark foul of stem. "9.04-All clear, Proceeded A somewhat similar incident occur-

red in the case of the Victoria in April last. We are, yours faithfully. J. D. BAINES, For the Managing Directors.

KENT CO. BRIDGES. Sir-On Sept. 26th, 1895, the bridge

on the post road near Lestock Wheton's, and about four miles from Harcourt railway station, was destroyed by fire. From that day to this nothing has been done by the public works department of New Brunswick wards rebuilding the bridge, or even naking a roadway for the public. The people living in the vicin ity made a bridge or tramway over the brook at their own expense. Another temporary structure has since heen kent in repair by these same During the recent election campaign that pseudo-candidate, E. J. Sayre had the road supervisor on the spot to examine the work, and as a cons quence the public were assured that the bridge would soon be re-built-but the government must be supported. In fact throughout this country the electhe roads and bridges were to be kept up and maintained the government must be supported. This county returned three supporters of the Blair-Emmerson administration and the oads in the parishes of Harcourt and Welsford were never in a worse state. In the meantime a bridge require mmediate re-huilding on a great road over which her majesty's mails pass wice each day.

MORE ANON. Kent county, Nov. 22, 1895.

THE HEROINE OF "ANNIE LAURIE.

Frank Pope Humphrey in McClure's

Magazine for Decembe Most people suppose "Annie Laurie" o be a creation of the songwriter's ancy, or perhaps some Scotch peasant girl, like Highland Mary, and most of he heroines of Robert Burns. In eith

er case they are mistaken. Annie Laurie was "born in the purple." so to speak, at Maxwelton house, in the beautiful glen of the Cairn-Glencairn. Her home was in the heart of the most pastorally lovely of Scottish shires-that of Dumfries. Her birth is thus set down by her father, n what is called the "Barjorg MS." "At the pleasure of Almighty God, ny daughter Anna Laurie was borne upon the 16th day of December, 168 rears, about six o'clock in the morning, and was baptized by Mr. George,

minister of Glencairn. Her father was Sir Robert Laurie, first baronet, and her mother was Jean Riddell. Maxwelton house was originally the

castle of the earls of Glencairn. ought in 1611 by Stephen Laurie the founder of the Laurie family Stephen was a Dumfries merchant. The castle was a turreted building. In it Annie Laurie was born.

CANADIANS WERE THERE.

Never a brilliant British engage ent but some plucky young Cana dians are to the front. In the Chital honor fell upon two Canadian graduates of Kingston Military college-Captain George Mowat Duff and Captain Herbert Nanton: and they have now, it is announced, been selected by General Lowe and Colone Leitch, of the Royal Engineers, out of forty-five officers who accor the Chitral expedition, to take charge of the fortified forts of Chakdara and Malakand, on the English frontier Captain Nanton is the son of an old Torontonian, Captain Duff is the sor of Lieutenant-Colonel Duff of Kingand a nephew of Sir Olive

Children Cry for Pitcher's Castoria.

MONCTON.

The I. C. R. Employes' Relief and Insurance Association.

Farewell to Rev. W. W. and Mrs. Weeks-More Church Additions.

Moncton, Nov. 27.—Secretary Power of the Intercolonial Railway Employes Relief and Insurance association reports only one death in the month ended, 25th November, Edgar F. Brown operator, Painsec, insured for \$250. There are three cases of total dis ability, John Brodie, carpenter, Halifax, insured for \$250; Robert S. Jarvis, retired member, Monoton, insured for 500; and Celestin Charest, fireman, Causapscal, insured for \$1,000. The as sessments for all purposes amounted to \$1.80 in class A, \$1.10 in class B, and 75 cents in class C. The total number sured is 3,550.

There was a large gathering of the memebers and others in the First Bap-tist church this evening to say farewell to Rev. W. Weeks and Mrs. Weeks who leave tomorrow for their future nome in Brockville, Ontario. During the evening the retiring pastor was presented with the following address: To Rev. W. W. Weeks:

The undersigned, acting on behalf of the First Moncton Baptist church expressing as we believe and as we eel assured you know, the sentiments of every member of the church, beg express our hearty appreciation of the work you have done as our pastor, and sincere regret that in the providence of God you are called upon to sever your connection with us; this regret being strengthened by the mowledge that the separation is caused by the failing health of your esteemed

wife. The first Sunday spent with us you made friends by your genial manner and clear and forcible presentation of the truths. The impressions then made have broadened and deepened during the two years of your pastorate, and now as you are leaving us we feel that we can truthfully pay you the highest compliment that any minister of the gospel may receive: that you have not shunned to declare unto us the whole counsel of God.

Tast words are always sad, yet we cannot but believe that while your last Sunday in Moncton must have been trying, both mentally and physically (the work of preaching three sermons, baptizing sixty-nine persons and giving the right hand of fellowship to seventy-five being a task rare ly accomplished in one day by one man), your heart rejoiced greatly to see these lost ones coming into the

We trust that Mrs. Weeks' health may soon be completely restored and that you and all the members of your family may be greatly blessed in your new sphere of usefulness. And God in His goodness grant that, wherever your lot and ours may be cast, and no natter how widely our paths in this world may diverge, in the days we may all meet at Jesus' feet and with Him forever sing the song of Moses and

the Lamb. We remain, dear brother, sincerely

JAS. DOYLE J. J. WALLACE, S. C. WILBUR, H. H. AYER, C. A. STEEVES, A. E. WALL.

Moneton, N. B., Nov. 27th, 1895. Mr. Weeks made a very appropriate reply, and some time was spent at the Paris, Nov. 27.—Alexandre Dumas is tors were given to understand that if close in handshaking, Mr. Weeks and keeper. Miss Ella Buntain acted as family being followed by the bes

> wishes of all classes. About thirty more converts were im mersed in the First Baptist church last evening, making about one hundred with those baptized on Sunday. The estate of the late T. A, Kinnea harrister, of Sackville, has been pro bated at \$17,425, of which \$9,725 is and \$7,700 personal.

SUSSEX FIRE.

The Establishment of Huestis & White Damaged to the Extent of Twenty Thousand Do lars.

Sussex. Nov. 26 .- At exactly six o'-

clock this evening, and while rain was

coming down quite freely and a stiff gale was blowing, coming apparently from every point of the compass, an alarm of fire was sounded from firemen's gong, and soon it was discovered that their services were needed in the large three story brick building located near the Exchange hotel, in the busines part of the town, own-White and occupied by ed by Geo. ite, general merchants. und to be in the upper The fire wa ding, which contained and other goods of an beds, beddir inflammable kind. It was here the firemen, assisted by many willing hands, had their engine at work, ouring large quantities of water upon the burning property and for long time it was considered their well directed efforts would be unsuccessful, and many in adjoining buildings and stores moved their effects to places of safety, but pluck and endurance did their work, and by 9.50 o'clock the flames were subdued. How the fire had its origin it is difficult to ascertain, but the supposition seems to be from a defective flue. The store was well stocked with all kinds of most valuable goods, the firm's importa-tions from Great Britain having only been recently received, and to form an estimate of the loss at present would be impossible. Some put the loss as high as twenty thousand dollars. It is said the firm had a considerable amount of insurance, but not nearly nough to cover their loss. The Presbyterians and their friends

were just sitting down to their tea in Oddfellows' hall when the alarm of fire was given, and soon the hall was cleared, leaving the well filled tables. This proved well, as the hungry fire nen and all who assisted were generously directed by H. A. White to go o the hall and refresh themselves. Sussex. Nov. 27.-I have little to add to my last night's telegram in the matter of the fire in the store of Huestis & White. The opinion seems to be that the statement of \$20,000 as being the amount of their probable loss

far above the mark. Today matters are being righted and business will go on as usual. The firemen are being very much praised (and justly so) for their gallant exertions in subduing this fire, which but for their efforts, the best business part of the place would now be in ashes. number of persons are in possession of goods today not rightly obtained and others would have been had these persons not been stopped on the spot. The tall chimney belonging to the factory and grist mill of Ross & Mc-Pherson, was blown down during last night's gale, fortunately falling on an open space, doing no damage.

The proprietors of the Aberdeen

skating rink are having it put in order and improved and hope to have acter this winter.

Warden J. A. Moore of Waterford was on a business visit to Sussex today, looking hale and hearty.

P. E. ISLAND.

Victoria, Nov. 22.—Thanksgiving day was duly observed here. In the afternoon the wind increased to a gale, accompanied by heavy snow squalls. The tide was unusually high swept over the bridge with great force. There were a number of loaded schoon rs at the wharves, and the captains and crews had a busy time of it securding their vessels, the heavy seas washing completely over times. One partially laden schooner owned in Charlottetown, ran inside the bar for shelter, where she anchored The violence of the storm, however, caused her to drag her anchor, and she was blown ashore near Wesley Myers' residence. Fortunately the spot on which she grounded is a soft bottom, but she is driven high up, and will be gotten off with dimenty. A Thanksgiving service was held in the Methodist church under the auspices of the Woman's Missionary society. The bitter and stormy night cut down the attendance to seventy or eighty. The programme was an excellent one and was well renderd. The church

was handsomely decorated. Some damage was done to the spire of the Methodist church by the gale. The wind got under some zinc rooming and tore quite a quantity loose.

Charlottetown, Nov. 22.—Crossley and Hunter are conducting special services in the Methodist church, and the city is getting aroused to interest in eternal things. The services every night are well attended and the after meetings are full of power and spiritual life. Quite a large number have already decided upon a Christian life, and under the powerful addresses of the evangelists and the sweet singing of Mr. Crossley, many a hard

heart is melted Thanksgiving lay was generally observed and nearly all the stores were closed. The ladies of the Upper Prince street Methodist church held tea and fancy sale, at which about \$90 was taken. The missionary meeting in Zion church was quite ful and the parlor social in behalf of the P. E. I. hospital was very

patronized. The performance in the theatre was well attended, but was pronounced (as a performance) a sell and a failure.

The wedding bells have been ringing quite frequently this week, and several of these happy events have to be chronicled. On Wednesday night at the residence of Mrs. (Rev.) James Donald, daughter of James McDonald, of Chatham, N. B., and niece of Mrs. Allan, was married to Hedley V Runtain, Peake Bros. & Co.'s head bookaid and James A. Allan supported the groom. The bride was elegantly attired in a suit of cream cashmere, trimmed to match. lace ribbons, and a bridal veil covering her up. The bridesmaid was also

very preftily dressed in cream crepon, trimmed with lace, and both carried bouquets of flowers. The Rev. T. F. Fullerton tied the nuptial knot. The same night (Wednesday) and other marrigae took place at the residence of John K. McLeod, Springton, when his only daughter, Miss Bessie, was united in wedlock to Murdoch Mc Lean of the well known firm of Mc-Lean Bros. of North Wiltshire. Miss Sadie Nicolson of Dundas was the bridesmaid, and A. B. McLeod stood nobly by the groom. The uncle of the bride, Rev. G. W. McKenzie, B. A., of St. Peters, assisted by the Rev. Malcolm Campbell, performed the ceremony. The happy couple left on Thursday for a wedding tour to New

York, Boston and other cities of the states John Mc Auley, a brakeman of the P. E. I. railway had a narrow escape from death Tuesday vening. While the train was standing at Kingston station he was hurrying along the platform and came into collision with another person, and was pushed over the edge of the platform and fell beneath the moving express. John Anderson, with great presence of mind, quickly pushed Mr. McAuley aside, and thus saved him from an awful

death. The gale of Thursday blew down several chimneys and fences around town. The ferry boat was unable to cross during the day, and thus very few persons from the Southfort side spent Thanksgiving day in the city.

R. B. McKay of Lockeport, who has been painting and adjusting iron bridges throughout Nova Scotia, was found dead in bed Saturday morning at Valley Station, near Truro. He was a fine, healthy looking man, about 50 years of age, and was a highly valued and efficient mechanic. He had been in charge of the Lockeport iron foundry for a time, and was up to Friday night working at the Vernon bridge close to Truro. He leaves a widow and three children at Lockeport

J. A. Marshall, a native of New Glasgow, but for the past 21 years resident in Phoenix, and a member of the state legislature, was in town for a few hours on the 21st on his way home to visit his parents. Mr. and Mrs. Andrew Marshall of Fraser's Mountain, Pictou Co., who will shortly celebrate their golden wedding. Mr. Marshall is another of Nova Scotia's sons who has achieved success in the far west. He is a cousin of Mrs. W. T. Archibald of this town,-Truro News.

Three Classes of Poachers-Shooting Pheasants at Night With a Lightly Loaded Gun -All Sorts of Tricks Employed to Evade the Watchful Keepers.

Poachers (the English variety) are chiefly known to Americans from novels, who are inclined to sympathize with them as being unable, through want, to resist the temptation of stealing the money they see roaming about in the shape of game, to enable them their starving families. support This is a mistaken idea. Such cases are rare and when met with are in-variably dealt with leniently. As a general rule, poachers are a class of take to poaching as a lucrative, enjoyable profession, and don't need sym-nathy. Owing to England's limited were it not for exacting game laws there would not be a head of game left in the land. America is beginning to feel the desirability of protective laws for her own game, which, under the existing lack of protection, is being effectively wiped out.

There are, roughly speaking, three classes of poachers in England—the night poacher, the rural poacher and the town poacher. The night poacher is a man who declines all honest work Stevenson found McCrie, attempted to of any kind. He is invariably a drunken, cowardly ruffian, spending produced "Jane Eyre." It was is if all the money he makes on hims self and drink, keeping his wife and children When not poaching he is thieving ducks or chickens, or roaming the country to gather information M. Flaubert, and we have no doubt future expeditions. The stormy, windy night is the opportunity that makes this poaching thief successful, and, as a rule, he will not go out on any other. He sneaks along under shelter of walls and hedges on such nights as stealthily as a cat. If he thinks he has been seen and recog-nized by any watcher, he will shoot to kill, but fight he won't unless the

odds are all on his side. The rural poacher, says the Philadelphia Times, generally lives in a vil- Scott was, from infancy. True, a very friendliness for our side, was really lage near the preserves and operates by day. He acts in accordance with his knowledge of what the keepers are doing, knownig that no keeper can two places at once. He as frequently as not encourages the keeper to suspect and watch him, so as to enable an accomplice to take his chance in another part of the preserve. The ruse has often proved very successful. He will also take service under a farmer for a short time, to give him the right to walk over the farm, thus enabling him to set his snares for pheasants and other game, the from Entered His Back and Came Out Thrugh His Ribs.

The Such a man often clears \$10 to \$20 a day, with little chance of being caught. The poachers from the large towns are more skilful in their methods than the country thieves, and are much harder to convict their visits to any one neighborhood being few and fan between, and generally at times most unexpected. These men, the terrors of keepers, visit estates, here and there. They drive out in partiess of vivors of ix, well armed and eaulipsed for the wholesale slaughter of pheasants just before shooting parties are formed, at which time they know the woods and preserves are crammed with birds. Their arrangements are so skilfully and systematically carried out that they commit great slaughter with an immum chance of being caught.

The long tending house the recent stabbing of the Long and well-bear they are considered the control of the woods and phouse the recent stabbing of the property was about 25 feet before shooting parties are formed, at which time they know the woods and preserves are crammed with birds. Pheasants are easily obtained when.

The long tending house the recent stabbing of the busic inter ocean. The busic holes of the wind in the property was about 25 feet before shooting parties are formed, at which time they know the woods and preserves are crammed with birds. Their arrangements are so skilfully and systematically carried out that and with the control of the wood to the wood and the property was about 25 feet benefit and the property was about 25 feet benefit where the control of the woods and preserves are crammed with birds. Their arrangements are easily obtained when.

Pheasants are easi either going to or leaving work, or

minimum chance of being caught.

Pheasants are easily obtained when rosting; poachers know exactly the kind of trees in which the bords roost and therefore make for the mat once. They use a short-barreled gun, which takes two pieces and fits in the pocket, a small charge of large shot and half a charge of powder, which picks them off one after the other. In doing this they work against the wind—the stormier the night, provided it be not pitch dark, the better—for by this means the pheasants to windward do not hear them, and the small report from the lightly-loaded gun makes it scarcely likely to be heard by the keeper. Great care is taken not to disturb the cock pheasants, who would begin to call, which would at once be a signal to the keepers that something begin to call, which would at once be a signal to the keepers that something was wrong. A poacher never fires unless he is quite sure of his bird,

occasion, when chasing a poacher along a furroy of a plowed field, the man depressed his gun, which was sloped over his shoulders, and fired, blowing the brim off the keeper's hat. The keeper at once drove his head between the poacher's legs, upsetting him, and then sat on him until as-

sistance came in response to his which the ideal reformed poacher, as a keeper, can poach invariably proves too strong a temptation to enable him to carry into effect the excellent resonabits, it is "good-by" to game, for he and his old associations will play

general havoc with everything. A friend of mine, a very worthy fellow, tried to reform just such a character by making him keeper. He was only good in one respect, viz., to himself, by keeping all he could get never again likely to be repeated.

poacher earns even more money catching hares and rabbits than he The experiment was bitterly regretted and never again likely to be repeated. A poacher earns even more money

does among pheasants and partridges With the former dogs and 'nets alone are used, and as the dogs have been specially trained to work stlently is no noise to attract the attention of the keepers.

HOW DO THEY DO IT? The Clever Men and Women Who Tell Good Stories.

(From the London News) If abundant instruction would make us into novelists, the people of England ought to be a nation of Fieldings. To produce some such results is, perhaps, hardly the aim of the author of "How to Write Fiction," originally a set of letters to a lady, who improved immensely under her tutor. We have no belief at all in this kind of education The novelist, like the poet, is sorn, no teach a man to be a story teller. If he wrote like an angel, and yet had by no means needy dare-devils, who not the inborn power of telling a story, take to poaching as a lucrative, enjoy-"very nicely written," and nobody would read it. If Heaven made him a story teller, no delinquencies of style, were they as striking and common as Scott's, will prevent people from read-ing him. Who taught Miss Braddon? "Ut Nemo"—why nobody! as the schoolboy translated Horace's "Qui fit Maccenas?"—who made Maccenas? "made" Miss Bronte ? Nobody but her Maker. George Lewes, nimsel as unreadable (pua novelist) as Mr.

> lecture Lord Roberts.
>
> Nobody, as far as we are aware, instructed Mr. Kipling. M. Guy de Maupasant alone went to a private tutor, that Flaubert should have improved under his pupil. However, he really fell off. Miss Auston was a mere chit when she wrote "Pride and Prejudice." She had never heard any dulk pe dantic twaddle about "a science of man nature," any more than the Maid of Orleans had attended the Staff college. She was born with humor, taste, insight and genius-qualities which

a private in the volunteers were to

dull little manuals cannot bestow. The story teller is a story teller, as stupid man, by collecting grimy anecdotes and retailing them in an affected jargon, may get other stupid penman to praise him, but "as for reading him, it is impossible and cannot be done." bet attached in New York. When Fielding took up his quill he had no model or master, only a competent classical education—and genius. Yet Fielding remains the king of his art, undethroned by all the pretenders who babble a popular science and cheap Darwinism over the water.

A CAT WITH TWO TAILS.

a signal to the keepers that something was wrong. A poacher never fires unless he is quite sure of his bird, which is an easy matter, as pheasants invariably sit within twenty feet of the ground on branches at right angles to the stem, at which distance a very light charge will always kill. As a rule, haif a dozen men go out together on such occasions, the idea being for each to choose a bird; then after a pause all fire at the same instant, which, even if heard, would sound like only one shot; but with little probability of being so on a rough, stormy night. If, after gathering up the dead birds, there is no warning whistle from the lookout, the operations are repeated again and again until quantities of birds have been secured. A good story is told of the pluck and determination of a very old, small, but active keeper. On one occasion, when chasing a poacher along a furroy of a plowed field, the

SALISBURY'S THREAT.

Vancouver, B. C., Nov. 22.-Chinese advices just received include the following: An excellent story comes from Pekin. A leading member of the foreign council, evidently "Great" Wong, the principle, "set a thief to catch a thief," reformed poachers make good keepers. This is a fallacy. "Once a poacher always a poacher," is the more correct version. The ease with which the distribution on the principle, "said to owe his position to his anti-foreign proclivities, found, on assuming office, that it was one thing to abuse the foreigner verbally and another to deal with him practically. Sir Nicholas R. N. O'Connor. The British minister, proved especially disturbing, for he actually pounded the table under the serene mandarin's nose. The latter complained to London about this sledge-hammer diplomlutions he may have made. When a poacher-keeper relapses into his old bury replied that Wong had better attend to Sir Nicholas or he (the marquis) would come out and do the pounding himself.

HER FIRST THOUGHT.

SPORTING MATTERS.

Martin Julian Sends Out a Reply on Behalf of Fitzsimmons,

In Which Corbett is Handled in Pretty Lively Fashion.

Bicycle Riders Expelled From the L.A.W. and Some Valuable Prizes Forfeited.

THE RING. Martin Julien Replies to Corbett. Philadelphia, Nov. 27.-A letter from Martin Julian, manager for Robt. Fitzsimmons, was received in this city tonight. It is dated Houston, Tex., and

is in part as follows:

There recently appeared in the New York World an interview with Jas... J. Corbett, in which the ex-champion made a cowardly attack upon Fitzsimmons and myself. I desire to answer this article most fully. Mr. Corbett on looking back over the line finds that he is the youngest champion that ever retired. But he falls to say why he retired, giving only as his rea sons that there is no money in the business for him. He falls to say that he is quitting the business because he finds it impossible to train again for a fight owing to the condition of his Miss Bronte after she had mind and physical exertion. He also says that there is no more money in pugilism. There is not for him, cause he knows there are three men in the field today, prominently among whom is Fitzsimmons, who can lick him to a stand still in a fair and

square fight. He goes on to say that Fitzsimmons never intended to fight, and giving his reasons he claims that our last \$5,000, which is part of our stake of \$10,000 was put up with a proviso that we would refund it one month after the fight. This statement I say is a falsehood. That money was put up by John Keenan of New York and was put up with a positive understanding that it would stay. We have since learned that Keenan, although he professed our enemy. He was working right into the hands of the Corbett-Brady-Vendig-Dwyer combination, who were

In the same article Corbett refers to Fitz as shallow brained. While I don't like to discuss the mental capacity of the two men. I must say it is a well known fact that Corbett's memory has failed him on several occasions, which proves that his brain has become weak within the past five or six months, the cause of which I don't know, but leave to the public to judge for itself.

The gall that faker Corbett display-

Should Stewart fail to drag Corbett from the hole which he has so cowardly crawled into, then Fitz will be only too pleased to fight Maher or any oth-er man living. To further show how willing we are for a fight, I will leave Corbett. I'll sign articles blindfolded. If Corbett wants to prove that he is not a coward he will accept Stuart's latest offer for a fight near El Paso for a purse of \$20,000, in which he agrees to divide the purse between the two men should he fail to the fight off on the day selected with out interference of any kind. That is the fairest proposition ever made, and I don't think Corbett will ever accept, because he is too faint hearted

M. Murphy of Brooklyn, and L. B. Cabanne of St. Louis, which has resulted in their permanent expulsion for life from all racing under L. A. W.

Springfield, Mass., Nov. 27.-The sus pension of Cabanne, Titus and Mur-phy by the L. A. W. deprives Cabanne of hearly \$300 worth of diamonds, which he won in second and third prizes during the Springfield Bicycle club's last tournament. Titus won only a fourth prize and Murphy none prizes have been withheld sub ject to the racing board's decision.

CLEVELAND'S MESSAGE.

He Will Commend the Present Tariff as Best Suited for the Paople.

Washington, Nov. 27.-There are reasons for the belief that in his forth coming message to congress President Cleveland will strictly adhere to his previous utterances in regard to the tariff and finance questions. It is be-lieved that the president will commend the present tariff as a stop in the direction of lightening the burd-ns of the people, and that although it of anemones.

has thus far failed to bring in a sufficient amount of revenue to satisfy the needs of the government it may con-fidently be expected to do so under normal conditions of business. It is believed that he will point out the increasing receipts from customs and internal revenue unmistakably show a gradual though sure return to business prosperity, and that in the near

future the receipts from those source

will even more than meet all legiti-

mate expenses. It is therefore not thought that he will recommend the imposition of any additional internal revenue taxation, either by increasing the duties now existing, or by adding the new subjects. There has been considerable documents and ratent medicines, but such information as obtainable makes it more than probable that he has not considered any of these questions in that connection. That he will recommend legislation retiring the green backs by the issue of low rate bonds seems to be almost certain, and it is not unlikely that he will ask congress as an alternative to authorize the secretary of the treasury to issue low rate bonds in his discretion within certain limits, to protect the gold reserve.

SALE OF CANADIAN HORSES.

(London Canada Gazette, Nov. 14th.) At the Great Northern Repository, lalington, last week, T. Maughan of fered fifty-three Canadian horses. Thirty-five guineas each were paid for a good-looking black mare and a rarely good-looking black mare and a rarely good-looking bay gelding, the latter being five and the former str years old. The average price of the remainder was 20 guineas, several at small sums assisting very much in keeping down what would have been a very good record.

At Alafidge's sale last week the chief feature was the auction of eleven troops and an almost an and an almost an and an almost considered any error of the chief feature was the auction of eleven troops and an almost considered and an almada. At the Great Northern Repository

town, died on Friday last. Like the lives of all those who pass much of their time on the ocean, his life has been one of more than ordinary adventure and interest. Born at Port Medway in 1830, he soon followed the inclination of his people and became the selection of a referee to Stuart and a seaman. As captain and as mate he served in the employ of such old Halifax firms as Salter, Twining Co. and Daniel Cronan; also sailing the ships of the Cunard and Black Ball lines. He also sailed out of this port, and those who knew him as a seaeman will tell you that he thoroughly understood every feature of his work. About thirty years ago he began work as rigger for the shipping of this port, and till disabled by illness was engaged in that occupation It is needless to tell the people of the South Shore that he was this trade also, for wherever a Lockeport vessel sailed she carried with her the reputation of Daniel Cronin. His death means also the loss of a respected citizen. As long as this growing generation remembers its childhood, as long as the now old people remember the town of Lockeport, Uncle Dan will be missed—missed for kindness of heart, his frankness of speech and for his general worth in Mrs. Frank Churchill, was born to largely attended and respectfully regarded by all, the shipping in the port displaying their flags at half-mast. Rev. Fr. LeDuchesneau conducted services at the residence and at the grave. Of a family of seven but one beside Daniel was buried ashore.

MISS WILLARD'S SHARP RETORT. Boston W. C. T. U. Objected to Fraternizing With Catholics.

Boston, Nov. 25.-A communication was read at the annual meeting of the W. C. T. U. today from Miss Frances Willard, in reply to the protest of the Boston union against the res tion adopted by the national body, inviting Catholic and Hebrew women to send fraternal delegates to the W. C. T II. convention.

Miss Willard, after referring to the fact that the resolution was adopted by a practically unanimous vote in the national convention, says that, as a with whiskey than patriot, she is proud to fraternize with dianapolis Journal. a temperance society of Catholics "that will hiss a Catholic senator who defends the Tammany ring and appland a Protestant police commis er who denounces that bulwark of municipal brutality."

A WELL AUTHENTICATED CASE OF A HAUNTED HOUSE.

(Elizabeth Stuart Phelps, in McClure's Magazine for December.)

The other grandfather was not distinguished as a scholar; he was but porative of their own fu- ing stories of his connection with how he sent the sharpest carving-knife in the house, concealed in a basket of food, to a hidden fugitive slave who had vowed never to be taken alive, and whose master had come north in search of him. It was a fine thing that throbbing humanity, which could in those days burst the reformer out of the evangelical husk, and I learned

my lesson from it. From his own lips, too, I heard the accounts of that extraordinary case of house-possession of which (like Wes-ley) this innocent and unimaginative mtry minister, who had no more faith in "spooks" than he had in Universalists, was made the astonished

Night upon night I have crept gaspmy head under the clothes, after an evening spent in listening to this au-thentic and fantastic family tale. How the candlesticks walked out into air from the mantel-piece, and back again; how the chairs of sceptical visitors collected from all parts of the country to study what one had hardly then begun to call the "phe ena" at the parsonage at Stratford, Connecticut, hopped after the guests when they crossed the room; how the dishes at the table leaped, and the silver forks were bent hands; and cold turnips dropped from the solid ceiling; and ghastly images were found, composed of underclothing proved to have been locked at the time how the mysterious agents, purport-ing by alphabetical raps upon bedhead or on table to be in torments of the nether world, being asked what their host could do to relieve them, demanded a piece of squash pie.

From the old mans' own calm hands, within a year or two of his death, I received a legacy of the written jour-nal of these phenomena, as recorded by the victim from day to day, during the seven months that this mysterious misfortune dwelt within his house.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Rider Haggard has determined to invest the profits of his work as

owned a factory on the

myself of a new shuttle, and I thought

I would invent that shuttle before sun

set, and I refused all food and drink until I had completed that shuttle. By

sundown I had completed it. The next day, Monday, I showed to my work-

men and friends this new shuttle

success. I put that shuttle into play. I enlarged my business, but, sir, that

Sunday's work cost me \$30,000. From

that day everything went wrong. I failed in business and I lost my mill."

Oh, my friends, keep the Lord's day. You may think it old fogy advice, but

I give it to you now: "Remember the Sabbath day and keep it holy. Six

days shalt thou labor and do all thy

work, but the seventh day is the Sab

tath of the Lord thy God. In it thou

shalt not do any work." A man said

lacy, and so he said, "I shall raise a

Sunday crop." And he plowed the field on the Sabbath, and then he put in the seed on the Sabbath, and he cul-

tured the ground on the Sabbath.

When the harvest was ripe, he reaped

it on the Sabbath, and he carried it in-

to the mow on the Sabbath, and then

he stood out defiant to his Christian

neighbors and said, "There, that is my

Sunday crop, and it is all garnered."

After awhile a storm came up, and a

great darkness, and the lightnings of

his Sunday crop.

There is another safeguard that

want to present. I have saved it until the last because I want it to be more

emphatic. The great safeguard for

every young man is the Christian re-ligion. Nothing can take the place of

it. You may have gracefulness enough to put to the blush Lord Chesterfield,

you may have foreign languages drop-

ping from your 'tongue, you may dis-cuss laws and literature, you may

have a pen of unequaled polish and

power.you may have so much business

tact that you can get the largest sal-

in a banking house, you may be as sharp as Herod and as strong as Sam-

son with as long locks as those which

hung Absalom, and yet you have no

safety against temptation. Some of you look forward to life with great

despondency. I know it. I see it in your faces from time to time. You

say, "All the occupations and profes-

sions are full, and there's no change for me." O young man, cheer up. 1

will tell you how you can make your

God and his righteousness, and all

other things will be added. I know you

ter. You will not drink the brimming

cup of life and then pour the dregs on

God's altar. To a generous Savious

you will not act ike that; you have not

the heart to act like that. That is

not manly. That is not honorable. That is not brave. Your great want is

Love of Home - Industrious Habits-A High Ideal of Life - Respect for the Sabbath - The Christian Religion - A Turning Point.

Washington, Nov. 24.-In his sermon to-day Rev. Dr. Talmage, preaching to the usual crowded audience, took up a subject of universal interest to young men. His text was selected from II Samuel xvili, 29, "Is the young man

The heart of David, the father, was wrapped up in his boy Absalom. He was a splendid boy, judged by the rules of worldly criticism. From the crown of his head to the sole of his there was not a single blemish The Bible says that he had such a luxuriant shock of hair that whe once a year it was shorn what was off weighed over three pot But, notwithstanding all his brifliancy of appearance, he was a bad boy and broke his father's heart. He was plotting to gain the throne of Israel. He had marshaled an army to overthrow his father's government. The day of battle had come. The conflict was be gun. David, the father, sat between the gates of the palace waiting for the tidings of the conflict. Oh, how rapidly his heart beat with emotion! Two great questions were to be decided— the safety of his boy and the contin-uance of the throne of Israel. After a servant, standing on the top of the house, looks off and sees some one running. He is coming with great speed, and the man on top of the house announces the coming of the messenger, and the father watches and waits and as soon as the messenger from the field of battle comes withing hailing distance the father cries out.

Is it a question in regard to the esablishment of his throne? Does he say: "Have the armies of Israel been victorious? Am I to continue in my imperial authority? Have I over-thrown my enemies?" Oh, no! There is one question that springs from his heart to the lip and springs from the lip into the ear of the besweated and imperial authority? Have I over bedusted messenger flying from the battlefield—the question, "Is the young man Absalom safe?" When it was told to David, the king, that, though his armies had been victorious, his son had been slain, the father turned his back upon the congratulations of the nation and went up the stairs of his palace, his heart breaking as he wen wringing his hands sometimes and the again pressing them against his temples as though he would press them in crying: "O Absalom, my son, my son! Would to God I had died for thee, O

Absalom, my son, my son!"

My friends, the question which David

King, asked in regard to his son is the question that resounds to-day the hearts of hundreds of parents. Yes, there are a great multitude of young who know that the question of the text is appropriate when asked in regard to them. They know the tempta-tions by which they are surrounded; they see so many who started life with as good resolutions as they have who have fallen in the path, and they are ready to hear me ask the question of my text, "Is the young man Absalom safe?" The fact is that this life is full of peril. He who undertakes it the grace of God and a proper the conflicts which he is going must certainly be defeated. Just look off upon society to-day. Look at the shipwreck of men for whom fair things were promised, tage. Look at those who have dropped from high social position and from great fortune, disgraced for time, disraced for eternity. All who sacrifice their integrity come to overthrow. Take a dishonest dollar and bury it in the center of the earth and keep all the rocks of the mountain on top of it; then cover these rocks with all the diamonds of Golconda, and all the silver of Nevada, and all the gold of California and Australia, and put on top of these all banking and moneyed institutions, and they cannot keep that one dishonest dollar. That one earth will begin to heave and rock and upturn itself until it comes to the res-urrection of damnation. "As the partridge sitteth on eggs and hatcheth them not, so he that getteth riches, and not by right, shall leave them in the midst of his days, and at his end

Now, what are the safeguards young men? The 4rst safeguard or which I want to speak is a love of home. There are those who have no idea of the pleasures that concentrate around that word "home." Perhaps your early abode was shadowed with vice or poverty. Harsh words and petulance and scowling may have detroyed all the sancity of that spat. Love, kindness and self-sacrifice, which built their altars in so many es, were strangers in your father's house. God pity you, young man. You never had a home. But a multinde in this au lience can look back to a spot that they can never forget. It may have been a lowly roof, but you of emotion. You have seen nothing on earth that so stirred your soul. stranger passing along that place nothing remarkable about it, but oh, how much it means to you. Fresco on palace wall does not mean so much to you as those rough rafters. Parks and bowers and trees at fashionable watering place or country seat do not mean so much to you as that brook that ran in front of the plain farm house and singing under the weeping willows .The barred gateway swung open by a porter in full dress does not mean as much to you that swing gate, your sister on one side of it and you on the other. gone fifteen years ago into glory: That scene coming back to you to-day as you swept backward and forward on the gate, singing the songs of your od. But there are those here who have their second dwelling place, it is your adopted home. That also is sacred forever. There you estab-lished the first family altar. There your children were born, In that room lapped the wing of the death angel. Under that roof, when your work is done, you expect to lie down and die. There is only one word in all the language that can conv y your idea of that place, and that word is "home."

THE WEEKLY SUN, \$1.00 a year.

a man who was faithful to his early at the same time to any gross form of wickedness. If you find more en-joyment in the clubroom, in the literary society, in the art salon than you do in these unpretending home pleasures, you are on the road to ruin. Though you may be cut off from your early associates, and though you may be separated from all your kindred where that you can call your own Though it be the fourth story of a third-class boarding house, into room gather books, pictures and a harp. Hang your mother's portrait over the mantel. Bid unholy mirth stand back from that threshold. Consecrate some spot in that room with the knee of prayer. By the memory of other days, a father's counsel, a moth-

er's love and a sister's confiden Another safeguard for these young men is industrious habit. There are a greaf many people trying to make their way through the world with their wits instead of by honest toil. There is a young man who comes from the country to the city. He fails twice before he is as old as his father was when he first saw the spires of the great town. He is seated in his room at a rent of \$2,000 a year, waiting for the banks to declare their dividends and the stocks to run up. After awhile he gets impatient. He tries to improve his penmanship by making copy plates of other merchant's signatures. mind—all is right in business. After awhile he has his estate. Now is the time for him to retire to the country, amid the flocks and the herds, to culture the domestic virtues.

Now the young men who were his schoolmates in boyhood will come, and with their ox teams draw him logs, and with their hard hands will help him to heave up the castle. That is no fancy sketch. It is everyday life. I should not wonder if there were a rotten beam in that palace. I should not wonder if God should smite him with dire sicknesses and pour into his cup a bitter draft that will thrill him with unbearable agony. I should not wonder if that man's children grew up be to him a disgrace and to make his life a shame. I should not wonder if that man died a dishonorable death and were tumbled into a dishonorable grave, and then went into the gnashing of teeth. The way of the ungodly shall

Oh, young man, you must have industry of head or hand or foot or per-ish! Do not have the idea that you can get along in the world by genius. The curse of this country to-day is geniuses—men with large self conceit and nothing else. The man who proposes to make his living by his wits probably has not any. I should rather be an ox, plain and plodding and useful, than to be an eagle, high flying and good for nothing but to pick out the eyes of carcasses. Even in the garden of Eden it was not safe for Adam to be idle, so God made him a horticulturist, and if the married pair had kept busy dressing the vines they would not have been sauntering under the tree, hankering after fruit that ruined them and their posterity! Proof positive of the fact that when people do not attend to their busines get into mischief. "Go to the ant, Thou sluggard. Consider her ways and be wise, which having no overseer or guide, provideth her food in the summer and gathereth her meat in the harvest." Satan is a roaring lion, and you can never destroy him by gun or pistol or sword. The weapons with which you are to beat him back are pen and and pickax and vardstick and the weapon of honest toil. Work, work or

Another safeguard that I want to nt to young men is a high ideal of life. Sometimes soldiers going into battle shoot into the ground instead of into the hearts of their enemies. are apt to take aim too low, and it is very often that the captain, going into conflict with his men, will cry out, "Now, men, aim high!" The fact is that in life a great many men take no aim at all. The artist plans out his entire thought before he puts it upon canvas, before he takes up the crayon or the chisel. An architect thinks out the entire building before the work men begin. Although everything may seem to be unorganized, that archite has in his mind every Corinthian column, every Gothic arch, every Byzan-tine capital. A poet thinks out the entire plot of his poem before he begins to chime the cantos of tinkling thythms. And yet there are a great many men who start the important structure of life without knowing whether it is going to be a rude Tartar's hut or a St. Mark's cathedral and begin to write out the intricate poem of their life without knowing whether it is to be a Homer's sey" or a rhymester's botch. Out of 1000 999 have no life plot. Booted and spurred and caparisoned, they hasten along, and I run out and say: "Hallo man! Whither away?" "Nowhere!" they say. O young man, make every day's duty a filling up of the great life plot. Alas, that there should be on this sea of life so many ships that seem bound for no port! They are swept every whither by wind and wave, up by the mountains and down by the valleys. They sail with no chart. They gaze on no star. They long for no harbor. O young man, have a high ideal and press to it, and it will be a mighty safeguard. There never were grander opportunities op ening before young men than are open ing now. Young men of the strong arm, and of the strong heart, and of the bounding step, I marshal you today for a great achievement.

Another safeguard is a respect for Sabbath. Tell me how a young man spends his Sabbath and I tell you what are his prospects in bus-iness, and I will tell you what are his prospects for the eternal world. God has thrust into our busy life a sacred day when we are to look after our souls. Is it exorbitant, after giving six days to the feeding and clothing of these perishable bodies, that God ald demand one day for the feed ing and clothing of the immortal soul? Our bodies are seven day clocks, and they need to be wound up, and if they are not wound up they run down into the grave. No man can contin break the Sabbath and keep his physical and mental health. aged men, and they will tell you they never knew men who continuously broke the Sabbath who did not fail in mind, body or moral prin ciple. A manufacturer gave th

DAVID AND JONATHAN Everything prospered. I kept the Sab-tath, and everything went on well. But one Sabbath morning I bethought

FOURTH QUARTER, INTERNATIONAL SERIES, DECEMBER 16.

Text of Lesson-I samuel xx, 32-42; Golden Text-There is a Friend That Sticketh Closer Than a Brother-Prov. xvii. 24.

32. "And Jonathan answered Saul, his father, and said unto him, Where fore shall he be slain? What hath he done? After David had slain Goliath and had finished speaking with Saul, it is written that Jonathan, son of Saul, loved David as his own soul and gave him his robe and garments and sword and bow and girdle (chapter xviii.. 1-5), and that Saul also set him over his men of war and would let him go no more home. But when the women sang "Saul has slain his thousands and David his ten thousands (xviii., 7), then Saul became ealon and sought to take David's life. Having rejected the Lord by his disobedience, he became the prey of an evil spirit, but the Lord was with David and prospered him (xviii., 10-16). As Saul's persecutions of David increased, David aid one day to Jonathan, "As the Lord liveth, and as thy soul liveth, there is but a step between me and death" (xx., 3),but Jonathan could not believe that his father meant death to David and so agreed to sound his father (xx., 12) in David's absence, and then let David know. Saul's answer was that David must die (verse 31), hence Jonathan's reply as in this first verse of our lesson.

33. "And Saul cast a javelin at him to smite him, whereby Jonathan ing rejected the Lord by his disobedi

to smite him, whereby Jonathan knew that it was determined of his father to slay David." If there was anger enough in Saul to kill his own son, then it was certainly a poor prospect, humanely speaking, for David. We see in Saul what may become of a man when he rejects God. Saul might have been the Lord's own

representative, honored by God and man, for everything was put up within his reach for his good.

34. "He was grieved for David, because his father had done him shame." cause his father had done him shame."
Therefore he arose from the table and
went away without eating. It is easy
and if our love to Jesus Christ was
and if our love to eJsus Christ was
more like the love of Jonathan to
David we would be more sensitive
concerning the slights put upon our
Saviour and not find pleasure and a
degree of satisfaction in persons and
places and things which dishonor

places and things which dishonor Him. Oh, for a whole heart for Christ! 35. "And it came to pass in the morn-ing that Jonathan went out into the field at the time appointed with David, and a little lad with him." See the and a little lad with him." See the story of this appiontment in verses 18 to 23 and note Jonathan's faithfulness in keeping it. Our comfort is not in our faithfulness in keeping our word, but in the faithfulness of the covenant-keeping God and Saviour. See David's comfort when he came to his dying hour (II. Sam. xxiii., 5). See also I. Cor. i., 9; x., 13; I. Thess. v., 24; II. Thess. iii., 3.

36. "And he said unto his lad, Run, go fetch me the arrows which I shoot.

go fetch me the arrows which I shoot And as the lad run he shot an arrow beyond him." I suppose any lad woul cheerfully go anywhere with the king's son for "any manner of service" (I. Chron. xxviii., 21). Think how cheerfully Samuel ran at the supposed call of Eli three times in succession in one night. Let the question search us, "Am I a ready and cheerful messenger for the King and His Son at all times?" (II. Sam. xv., 15.

37. "Jonathan cried after the lad and said, Is not the arrow beyond thee?" See the significance of this verse in verse 22. How it must have gone to David's heart, for it was even as he feared. He must separate himself even from Jonathan, he must become a stranger and flee for his life because an enemy is on the throne which rightfully belongs to him. But it is all in a part of the foreordained plan for him, and God's way for him to reach the throne in due time. See Eph. ii., 10: Math. xvi., 24. erfully go anywhere with the king's

for him, and God's way for him to reach the throne in due time. See Eph. ii., 10; Math. xvl., 24.

38. "And Jonathan cried after the lad, make speed, haste, stay not." An additional grievous word for David from the heart that loved him as its own life, but it was for David's sake and just because Jonathan loved him so, for it hurt Jonathan as much, if not more, than David. All that God says or does to us is infinite love; the very worst that can come to us is Jove and goodness and mercy, as God sees it, and we must trust Him.

39. "But the lad knew not anything, only Jonathan and David knew the matter." So we go on not knowing. He holds the key of all unknown, and we are glad. When He asked Philip about feeding the 5,000, it was only to prove him, for "He Himself knew what He would do" (John vi., 6). The lad with the loaves knew nothing, but was evidently ready to be used. "Jesus knew from the beginning," and that is enough.

40. "And Jonathan gave his artillery

that is enough.

40. "And Jonathan gave his artillery

(R.V. weapons) unto his lad, and said unto him, Go, carry them to the city." The lad's business was simply to do what he was told; run after the arrows, gather them up, bring them to his master and now take them home. His master knew what he was about, and the lad did not need to know. There are many things which we now do not need to know; we do need to obey not need to know; we do need to obey and have implicit confidence in our master, and in all that He does. Thus in quietness and in confidence we shall find strength (Isa. xxx., I5).

Whatsoever the king does should please all His people (II. Sam. iii., 36).

41. "And they kissed one another and wept with one another, until David exceeded." Their love was wonderful, passing the love of women (II. Sam. i., 26). There was nothing that they would not do for each other if it lay in the power of either to do it. Yet this was but the faintest shadow of the love of Christ to us. Jonathan love cost him much and brought him much service, yet it was steadfast in the end. David never injured Jonathan nor rejected nor wounded his love. The love of Jesus cost Him 33 of years of absence from home and of humiliation and suffering indescribable, and it was all for his enemies. Behold what manner of love (I. John iii., 2, 3). frivolity and sin, he sank lower and lower. He lost his business position; died a dreadful death, not one star of mercy shining on it. I stand before you to-day," said that minister, "to thank God that for 20 years I have been permitted to preach the gospel. I am the other young man."
Oh, you see that was the turning went on! The great roaring world of business life will soon break in upon you, young men. Will the wild wave dash out the impressions of this day

iii., 2, 3).
42. "And Jonathan said to David, Go

42. "And Jonathan said to David, Go in peace." And so they parted, each having the peace of God in the midst of much tribulation. See John xvi., 33; xiv., 27; Math. xxiv. 6. They met again, and Jonathan strengthened David's hand in God and bade him fear not, telling him that he (David) would yet be king of Israel and he would be next to him (chapter xxiii., 17). Such self renouncing is very rare. It is truly Christilke. As next week's lesson will be a Christmas lesson, and the next a review, we will not return to the Old Testament story till July, 1896. What better thought could we carry with us than that which is here shadowed forth, the love of the King's Son who "Loved me and gave Himself and all the benefits of his finished work to each one who accepts Him. He shall be king and we shall reign with Him (Rev. 1., 5, 6; v., 9, 10).

The young man, Benjamin Doane, who was shot a few days ago, had his leg amoutated on Tuesday just above the knee. He is doing as well as can be expected. J. P. A. Sproule, representing John Lovell & Sons of Montreal, related his conver-sion at Fredericton, N. B., five weeks ago under Crossley & Hunter before a large audience in the first Methodist church last night. He spoke very hum-bly and gratefully of what God had done for his soul, and prayed God rather to let him die than go back to his former life of sin. His address created quite a sensation in the congregation and many were visibly.

Victoria, Nov. 28.—Last niight witnessed quite a marked social event in our generally quiet little town. The daughter of Jabez Hudson was united in the holy bonds of matrimony to Allan Ernest McLean of Cornwall, son of the late minister of Hampton Pres-byterian church. The event took place in the Methodist church, which was beautifully and tastefully decorated for the occasion. The spacious edifice was well filled by an expectant audlence, and the ceremony was performed by the pastor, Rev. G. W. Fuller. apt at the time, seven o'clock in the morning, the bridegroom, attended by Mr. Nelson as groomsman, entered

the church, and was immediately fol- what seems to be the lesser of the two

lowed by the bride, leaning on the arm of her father, Miss Mary Cameron of Augustine Cove being the bridesmaid A large number of guests occupied seats in front of church. The bride was charmingly attired in white, with satin trimmings, with vell and orange blossoms and handsome bouquet. The bridesmaid wore blue, with satin trim-mings. A reception followed at the res-idence of the bride's father immediately not evinced more of a patriotic spirit on the conclusion of the ceremony.
A large party assembled outside the residence and conveyed their good wishes in various ways, notably by an immense bonfire. After being treated sumptuously by the hostess, and the bride and groom bowing their respon-

ses, the crowd retired.

in this matter. Mr. Featherston is buying up large quantities of hay in this district for shipment to western Ontario, where shortage exists. He has already contracted for fifty carloads.

Ottawa, Nov. 29.—A proclamation will appear in the Canada Gazette tomorrow summoning parliament for the despatch of business on Thursday, January 2nd.

The department of railways and canals has had referred to it a request from shipping interests centerday morning to learn of the death-of ing in Toronto for a scientific explan-Mrs. Herbert Lewis of York, who was ation of the causes of the low water ing in Toronto for a scientific explan in the great lakes.

The latest reports received at the department of trade and commerce indicate a substantial revival in business in Demarara, which colony has in common with other sugar raising countries, suffered from the prevailadian agent says: "Business has been depressed of late, owing to the dry season, but as the estates will soon be in full operation for the crop season and sugar prices are on the increase ducted the services at the house and the colony looks forward to better times. The disturbance in Cuba has also tended to assist in the improvement of the prices of cane sugar. The agent reports the exports to Canada during the past quarter as fol-lows: Sugar, 155 114 tons; molasses, 9,-

600 gallons; rum, 12,100 gallons. The deputy minister of marine has received a letter from General Laurie, M. P., asking that he be supplied with information in regard to light dues charged in this country. The general also inquires as to the number of lighthouses outside of the dom-inion which the government of Canada supports. The writer will probably be informed that the government maintains seven lighthouses which are not on Canadian territory, although they are stationed at important points on the leading routes of navigation to and from this country. Ottawa, Dec. 1.-The collectors at the leading ports have been instruct-

ed to send daily to the department the returns of entries made. The order applies to St. John, St. Stephen, Halifax, Truro, Yarmouth and Chariottetown. The department of marine has been looking into the matter of the winter

shipment of cattle from St. John. The existing regulations will apply to this winter's trade.

The Indians on the Restigouche river have been granted free licenses for smelt fishing this winter owing to their poverty.

Polling on the question whether or not the Scott act shall be repealed in Westmorland county, New Brunswick, will take place on Monday, January 6th. R. A. Chapman of Moncton is returning officer.

A recent customs decision fixes the purchased the Philatelic collection of J. B. Lewis of Ottawa. The price paid was in the vicinity of \$4,000.

A recent customs decision fixes the value for duty on lead covering or packages containing tea at the following rates: 2c. each for pound packages; 11-4c. each for 1-2 lb. packages; packages themselves to be rated for duty at 30c.

to hold meetings in St. Paul's church themselves of the privilege of com-on behalf of the Church Missionary mencing to fish earlier than December ing the issue of fishing licenses to United States vessels for minimum period at which smelt fishing is allowed, namely, two and a half of 1890 covering this particular proviso. There is no present intention of ed a silver watch to each of the four the government to abolish the license system, which has worked well. Othawa, Dec. 2.-Hon. Messrs. Fos-

ter and Montague open the Cardwell campaign Thursday of this week.

Next week Hon. Messrs. Costigan Foster Haggart and Montague dress meetings in North Ontario, where

the fight is getting red hot. The department of marine has ceived the report of Capt. Smith, ommissioner appointed to inquire into the cause of the collision between the passenger steamer Miramichi and the schooner Osceola last summer, by which three ladies were drowned. The accident was due to the Miramichi not having been kept out of the way of the schooner and not making proper lookout, etc. The court has suspended twelve months.

Commander Spain says the general opinion among United States fisher-men is one of disgust with the purse eine, owing to its destructive methods and huge expense attendant upor fitting the seining vessels. The and liners during the past season have done very well.

HYAMS BROTHERS ACQUITTED.

Toronto, Nov. 30.-The Hymans mur der case, the longest in point of time in the annals of criminal trials in Canada, was brought to a conclusion late yesterday afternoon with a verdict of acquittal for the twins. Since the trial of Birchall, some five years ago, no murder case has agitated Canada to the same extent as this one has, and on the part of the public there has probably never been a stronger feeling of hostility to the prisoners lowance of \$5 was made to each man. The prosecution has cost the provincial government in the neighborhood of \$60,000 for the two trials. Mr. Osler made a mighty effort to convict, but the judge charged in favor of the ac cused and not guilty was the verdict. The counsel for the defence asked for the discharge of his clients, which was granted, and they stepped out of the dock free men. In the passage two yards from their former seats they were met by Detective Cuddy, who served warrants on them charging them with fraud and conspirate at the cost of establishing quarantine to kill and charging Harry P. Hymans against American sheep at ports on individually with forgery. They were the frontier. Such action would have at once taken into custody and trans-

Numerous attempts When ordering the address of your have been made to get her off, but WEEKLY SUN to be changed, send the NAME of the POST OFFICE to Tuesday night, she righted up, and had the tug been there, would in all probability have been got off. She was loaded with cord wood, and bound for Boston.-Annapolis Spectator.

John Galbraith, for many years a well known figure around the busines part of this city, but who for the last fifteen months has been sojou.'ning in London, returned to St. John last week. Being an observant man, he is able to relate very interesting accounts of the sights in London. Galbraith left on Friday for Margate, Provinces today. Strengthening and P. E. Island. He will spend the winter on the island, and will do a little speculating in produce and horses.

The creamery at Musquodoboit, N S., is running most successfully. At present they are manufacturing three days each week, and find a ready sale for their products in the Halifax mar-kets. During the season ending Oct. 31st, '95, the creamery received 807,509 lbs. of milk, for which they paid \$6,-940. Out of this quantity they manufactured 29,440 lbs. of butter and 16,678 lbs. of cheese. The latter has all been disposed of as fast as manufactured.

T. S. McDonnell, the big New York umber dealer, has appointed E. H Eagles of this city to take the place of the late Mr. Cleveland as superin tendent of the South American cargoes being put in the barks Olive Maunt, Barbodian, and Eva Lynch, When the vessels go to sea Mr. Eagles will proceed to New York, where it is expected he will secure a permanent engagement with Mr. McDonnell, as inspector of lumber purchased here for shipment to the River Platte.

Among the passengers on the last mail steamer to Halifax was a Mr. Fell, an English mining expert and an authority on railway matters. His nission to Nova Scotia is to examine the coal fields from Port Hood to Cheticamp, and also the contemplated railway known as the Inverness and Richmond, part of the roadbed of which was constructed some few years ago by Mr. Oakes. He is now in Cape Breton, and is accompanied by Brookfield and Mr. Ross, C. E.

Mr. Verge has been busy lately is-suing smelt licenses, says the Campbellton Enterprise. He informed us there will be about three hundred is-Come to be quite an industry on the Restigouche, the value of shipments made last year being approximately \$30,000. This is double the salmon trade for the past summer, though it must be remembered that very few salmon were caught this year owing to the dead are consumed on buse the salmon was also the dead are consumed on buse the salmon was also the dead are consumed on buse the salmon was also the dead are consumed on buse the salmon was also the dead are consumed on buse the salmon was also the sa salmon were caught this year owing to the water being very low, the fish keeping the deeper channels.

Miss J. H. Wetmore, daughter of the late T. Robert Wetmore, barrister-atto attend the military school. Pending the organization of a militia company here, they will be attached to one of the Spring Hill companies.—

Tuesday morning, November 17th inst., at Cambridge, Mass. The marriage ceremony was performed at St. James Episcopal church, Cambridge, by Rev. Father Convers of Mission tion as "The Wm. Elder Publishing church. The bride was the recipient Co., Ltd.," with a capital stock of \$20,- of many costly and handsome pres-

Gould, Sprague's Mills, Me., charging and loading the Beaver line who paid the Woodstock Dispatch a Turkey and Armenia, through an unsteamers at this port during the win visit recently, says he will run a cirknown country, infested by robbers charging and loading the Beaver line who paid the Woodstock Dispatch a cuit of races next spring, commencing Collins has already arranged for the at Patten, Me., June 25th, then at preparation of the stages, etc, re- Woodstock July 1st, at Caribou July 4th, Presque Isle July 8th, Bristol, C. C., July 12th, Danforth, Me., July 16th. At each of these meetings four stake races will be trotted, which will involve \$1,000 in prizes. Mr. Gould has closed a contract with Mr. Nelson whereby the celebrated stallion Nelson will trot an exhibition mile at

The governors of Acadia college met at Wolfeville last week and considered many matters relating to the welfare of the university and other institutions connected therewith. Hon.

H. R. Emmerson of Dorchester was in the party, which consisted of herappointed to the senate of the uni-versity to fill the vacancy caused by the death of Rev. Dr. Hopper. The attendance at the college is large. The academy is crowded with students. This will be the most success ful year in its history. Miss True, the new preceptress of the seminary, is giving every satisfaction.

The new warehouse on the Corpor ation pier will be completed within three weeks. The old shed now used by the Bay of Fundy company will be torn down today and the contrac tors, D. W. Clark & Son, will continue the warehouse down the wharf. The new structure will be 302 feet long, 70 feet wide and the posts are 12 feet high. In order to make the foundation secure, some 150 piles were driven. A better foundation could not be had. The timber in the bottom is pine, the frame, spruce; the roof, hemlock, and the sides, pine. The roof is the best that could possibly be put on.

Magistrate Moran of St. Martins,

few days ago, gave judgment in the case of Frank Parks against Robert Morrow. It will be remembered that Morrow and Ernest Sweet, young men aged 18 and 21 respectively, compelled young Parks to drink a considerable quantity of liquor. The evidence showed that Parks had been associa The evidence ing by the chaplain, Rev. W. W. Rain-nie, in Calvin church. The members with them before they compelled him of the society turned out in a body and occupied a prominent position in these circumstances and because the building. Rev. Mr. Rainnie preached from Exodus 18: 7: "They istrate allowed the fine of \$10 against asked each other of their welfare. He

Don't even swap your money for a Condition Powder unless you know something about the Powder or the men who make it. Take no chances on strange horses or strange medicine or you may have reason to regret it. Buy where you can go back next day and get back your money if dissatisfied -this is what we offer. But you won't go back; you will be too well satisfied with the results obtained. Manchester's Tonic Condition Powder is the standard Horse Medicine in the appetizing, it clears the system of worms and thoroughly purifies the blood, leaving the horse in the pink of condition and with a skin like velvet. We stake our reputation on it and guarantee results.

OUR JOURNEY AROUND THE WORLD.

This highly instructive illustrated volume is a record of a recent journey around the world by Rev. Francis E. Clark, D. D., president of the United Societies of Christian Endeavor, and his wife. The journey occupied more than a year and covered nearly five

thousand miles by sea and land. The reader is personally conducted through Australia, India, China, Japan, Egypt, Palestine, Turkey and many other lands. We see these countries through American eyes, and obtain a perfectly clear view of them and their people, supplemented by the two hundred and twenty illustrations from photographs, most of which were taken by Dr. Clark him-

Dr. Clark was one of the last Americans to travel through China and Japan before the war between these two countries was begun. In this volume he gives us insight into the daily life of a Chinaman in his own country; his favorite food and odd dishes; pium siends and their ways; the sinsular rites witnessed in the temples the public execution of criminals: the dead are consumed on huge piles of wood (a ceremony Dr. Clark wit-nessed); the Towers of Silence, where the dead are exposed to be devoured by thousands of waiting vultures that constantly sit on the walls; wonder ful native jugglers, fearless snake charmers and fakirs—these are but a few of hundreds of interesting topics

presented.

Their route led across the land that Joseph gave to his father and brethren; past the very fields where the Israelites made bricks without straw, and along the highways where once The story of the discovery of the mummy of the Pharaoh who oppressed the children of Israel is wonderfully in-

teresting. A journey was made of hundreds of miles in an old spring wagon across and hostile natives, the scene of the late horrible massacres of Armenians by Turks and Kurds. Dr. Clark was the last Christian to travel across the countries before these terrible massacres were perpetrated. The story of this perilous trip is full of thrilling interest and exciting adventures.

Mrs. Clark accompanied her husband everywhere. She draws a picture of life in far-off lands "As seen through a Womans Eyes." Her narrative is packed with anecdotes, incidents and personal experiences. Her story of the long journey in the wagon is highly entertaining, its privations

self and seven men. This book contains steel-plate portraits of Dr. Clark and of his wife, from recent photographs; a large map, exhibiting the whole world at a single glance, showing the author's journey from the beginning to the end, and 220 fine illustrations from photographs from life.

This work is published by the old and well-known firm of A. D. Worthington & Co., Hartford, Conn. In a letter to his wife at Yarmouth, received a day or two ago, Capt. Doty of the ship Durham, denies the report of the race between his ship and the Dunfan, from Philadelphia to Japan, and the staking of \$1,000 prize money.

General News From Many Sections of New Brunswick.

CARLETON CO.

Woodstock, Nov. 29.-It is now conclusively proved that the logs floating by today and yesterday are from the woods. It appears the boom at the falls broke. Geo. Dunn of Houlton, the owner of the logs, is here today. He says there were tween 1,500,000 and 2,000,000 logs in the boom, and he thinks one half the number has been carried away. There is no hope of saving any. The ice is now running in the river thick.

Queen has entered an action against the town for trespass in connection with the opening of St. George's street. He has employed L. A. Currey to look after his interests. The mayor will be served with a writ as soon as the sheriff arrives in town. Queen's claim is that the part of St. George's street which was opened by cutting away his lawn was the property of a private party. The amount of claim for damage is not given.

CHARLOTTE CO.

Mace's Bay, Nov. 26.—The time-hon-ored basket social, of which was said long since it could never be a succes again, put in an appearance here last riday evening and completely re-emed its lost character. The entertainment, for which Mrs. Sarah A. Mawhinney kindly gave the use of her house, was got up by the Baptist congregation to augment a little further the building fund of their new church, and to their great satisfaction realized the snug sum of \$53.50, to which has been added by kind friends who did not participate in the social, enough to make the handsome total of \$61. The committee wish to thank George F. Smith of Musquash for so kindly filling the office of auctioneer; indeed the financial success of the affair was in a large measure due to the tenacity with which he held on to the baskets until they commanded a good price The ladies also upon whom fell usy work" of the evening must not be forgotten when the question of thanks is being considered.

Grand Manan, Nov. 27 .- Northern Temple of Honor and Temperance has surrendered its charter. This temple has been an instrument of much good in temperance work on this island, and it is a regrettable thing that with its fairly large membership it could not have been kept But the fact of its membershi being scattered well over the island militated against its continuance. When occasion requires it all its memers or ex-members will rally around the banner again and do as good and faithful work as of yore. Temperance matters are very quiet here just now. There is very little tippling done on the island now. The L. O. G. T. is also in a moribund condition, and it is a time of peace in the temperance cause

Leavitt Newton and family have Newton has as fine a house as any the island.

The Boston schooner Augusta Herrick arrived in ballast on the 25th inst Capt. Colman Ingalls of Grand Manan will command and run her in the smoked herring trade for Capt. Irvin Ingalls. She is ninety-four tons

The sch. Mary E. Whorf of Digby, Capt. C. B. Anderson, arrived on the 25th inst. from Boston with twelve hundred sacks salt for Newton Bros. Isaac Newton will put a gang of men at Grand Harbor for the winter's business the first of December.

NORTHUMBERLAND CO. Chatham, Nov. 28.-A few smelt fishermen set their nets while the river was frozen and made some fair

Quite a serous accident befell James Hackett, the undertaker, about noor today. He was shingling on the roof of the new shop he is building in the burnt district, and while in the act of putting a bunch of shingles from one stage to the other he slipped and fell to the ground, a distance of about eighteen feet. When picked up he was unconscious, and did not recover con sciousness until affter he was taken home. Dr. McDonald stitched up a large scalp wound and rendered other istance to the injured man, who suffers considerably from the injuries

his back received in the fall. YORK CO.

Fredericton, Nov. 29.-The inquiry before Referee Coy into the assets and liabilities of the estate of the late George Hatt was concluded today The total partnership debts amount to about \$43,000. The assets consist of \$2,211 personal, and real estate of the value of \$4,000 or \$5,000. After the sale of real estate the proceeds will be divided equally among the creditors.

The following additional claims have been proved: Fred S. Williams, \$6,-162.75; Hall & Fairweather, \$2,163.91; Peoples' Bank of N. B., \$2,750; A. F. Randolph & Sons, \$1,763.42; R. A. Estey, \$57.71; Christie Brown & Co. \$101.58: Merritt Bros. & Co., \$120.50; Rankine & Sons, \$82.63; T. Murphy Bell Cigar Co., \$691.50; Dr. Coulthard, \$61.50; Norcross, Mellin Co., \$23.52; J. C. Wilson & Co., \$43.82; Royal Baking Powder Co., \$64.55; Gilbert Bent & Co., \$402.23; A. N. La-Forest, \$202.45; C. H. Hatt, \$12,000. J. J. Weddall deposed that under the preference secured by the trust deed of G. & D. Hatt he has received \$1,-250. He paid preference claim of W. B. Coulthard, \$475, and he had now in his hands to apply to his own pre-ference claim \$300.05, making the total payment on his own account \$1,-The total amount received by Weddall under the trust deed was \$5,-242.49. He received \$2,135.55 on ac-

count of the estate of George Hatt, sr., realized on personal property, cut of which something less than \$200 had been paid for legal and funeral expenses. He has just sold all the uncollected debts due the late firm of George Hatt & Sons for \$80, \$40 of which belongs to the estate of George Hatt, deceased, making in all \$2,011.05 to be paid into court.

Dean Partridge and son leave Wed-

nesday next for Bermuda for the benefit of his health. Alfred Gettis, a young lad hailing rom Woodstock, employed by James E. Fraser, ransacked his home yesterday and stole a lot of valuable jewbelonging to Mrs. Fraser. Gettis left town at once, and has not yet

been discovered. The Sun correspondent called on Bishop Kingdon this evening, who kindly showed the original letter of nendation to Rev. Father Macrea from Bishop Cameron of Anti-gonish. The letter is written throughout by the same hand, signature and all, and has the official seal of Bishop Cameron attached, so that if one part is a forgery the whole is false. This might be true of the handwriting, but to forge the seal would be imposs The letter has not an erasure or alteration of any kind, and contains words "Immo religione allisque virtu-tum meritis," which the Casket says were purposely omitted by Bishop

Fredericton, N.B., Dec. 1.-The river is full of running ice all day here and will probably close up tonight. Yes-terday Randolph & Sons received a telegram from up river stating the ooms had broken in the Aroostook river and about two million of lumber nad gone adrift. As yet none of this

lumber has reached here. Forty-three new members were re-ceived into fellowship in the Baptist church this morning, and this evening the rite of baptism was administered to twelve others.

WESTMORLAND CO.

Dorchester, Nov. 29.-This morning Richard Cluney was brought into court and withdrew his former plea of not guilty and pleaded guilty, and

vas remanded. The case of Chas. Fawcett v. Benamin Toombs was then struck off the new docket, no person appearing for either party.

In the Queen v. Wm. Armstrong, in whose case the jury disagreed, was bound over in the sum of \$500 to appear at the next term of the court. The case of Jacob VanBuskirk v. Jane McNaughton, administrator of Peter McNaughton, was then taken up. It appears by the evidence that Peter McNaughton leased the Park hotel in Moncton from the plaintiff some few years ago, and that in addition to paying rent for it he was 10 make some repairs on it and pay for them himself. He did not make the repairs and the plaintiff went ahead and got the work done. In the meantime Mr. McNaughton was burned to death in the hote!, and the plaintiff is now suing Mr. McNaughton's administrator for the recovery of the cost of the repairs. The defence set up is that there was no such arrangement. The evidence is all in and Mr. Grant. the counsel for the defense, has sun med up the evidence to the pjury. R. B. Smith for plaintiff and Grant & Sweeney for the defendant. This case

will be concluded in the morning.

Moncton, Dec. 1.—The truly patriotic soul of the editor of the St. John Globe could have been further saddened by an object lesson in the Moncton custom house a few days ago. A man named Robert Stevenson of Millstream, Kent county, having been deceived by the stories in the into their new cottage. Mr. grit press concerning Canada's des- Some Startling Facts Concerning the Action perate condition, decided to remove to the United States and better his condition. He located in the vicinity of Boston, but soon discovered that all is not gold that glitters. After spending a good deal of his substance, being unable to find remunerative employment, he made up his mind that Canada was good enough for him and decided to return. Among the settlers' effects entered by him was a which he had purchased in Boston, finding he could buy there, pay freight and still have a cheaper horse than he could get at home. Mr. Stevenson will be quite content to remain in New Brunswick for the balance of his days.

Rev. John Read of the Wesley Me-

morial church, has received a call from the congregation of Centenary hurch, St. Jonn The wife of Roderick McDonald, at employe of the I. C. R. electrical de-partment, on Friday last gave birth

to a son weighing twenty-four pounds The weight is vouched for by reputable parties and the proud parents received many congratulations.

have

Sussex, Nov. 29.—The Sussex quadrille party met in Oddfellows' last evening and a very pleasant time was spent. The attendance was quite Quite a number of invited large. guests from outside were present. E. A. Charters, who has been on a business trip to Montreal and other important points in Upper Canada,

has returned home again. It is rumored that an interesting vent is soon to take place here, in which one of our most popular young barristers is to be a principal. H. E. Goold, florist, has been unusu

ally busy this fall filling orders for nearly all the important places in the province and Nova Scotia. Today he sent a large lot of flowers to Am-

perst. N. S. Centreville, Nov. 25.—After a linger ing illness Miss Lottie Folkins, aged 19 years, passed quietly to rest Saturday, Nov. 23rd. During her illness she was patient and resigned, showing that she had experienced the saving grace of the Saviour. The funeral, which took place on Monday, was largely attended. On the casket, which was a very beautiful one, were two wreaths. One of them was arranged in the form of the badges of the Sons of Temperance, a triangle representing the colors of the order, red, white and blue, enclosing a star The other, in the form of a crescent, was presented by the Epworth League of the Berwick Methodist church, of which the deceased was a member, Rev. Thos. and Mrs. Pierce also presented some flowers. E. Hallet directed the funeral procession. The mem bers of Centreville division, of which she was a member, attended it re-

galia, trimmed with crape, and read the burial service of the order at the grave, and the members of the divisions at Carsonville and Head of Millstream attended in regalia. The other services were conducted by Rev.

Thos. Pierce. The church was draped with black, principally the work of Mrs. Thos. Pierce. Sussex, Nov. 30.—Owing to the ab-

sence of quantities of goods taken away from the premises of Huestis & White on the night of the fire, whether honestly or otherwise, the appraisers will probably be unable to complete their arduous task as satisfactorily as they could wish. Persons having goods in their possession will act wisely by having then returned without delay. Information has already been laid before the stipendiary magistrate and proceedings will likely be begun at an early date, which may result unpleasantly to some concerned. It is stated here today as a fact that

Charles T. White has bought up the extensive mills and lumber privileges belonging to George J. Vaughan of Point Wolfe and will begin operations there at once. It is further stated that Mr. and Mrs. Vaughan will take up their residence in Sussex.

Ross & McPherson, whose tall chimney belonging to their factory was blown down by Tuesday night's gale, have begun to rebuild it.

KENT CO. Richibueto, Nov. 27.-R. A. Chapman, inspecor of fisheries, was in town last evening by request of George V. McInerney, M. P., to hear a matters affecting the smelt fishermen in con-nection with the fishing licenses. It has been customary to grant licenses without naming any place for the fishermen to operate their nets. The first one to get his net in a place could hold it. This fact has given the fishermen a lot of trouble an anxiety in watching for places every season, besides the loss of nets by the ice breaking up and often endangering their Some fishermen have occupied the same spot for years, and having good work desired to hold it. This class of fishermen had a petition drawn up this year, asking for stationary places, while others opposed Chapman, after hearing both sides of the question, decided to allow the petitioners a stationary license; also if those holding the same desir ed to remove their nets at any time o another place they could do so by taking out another license and not nterfering with other fishermen. The decision only affects the Richibucto river and not the bays and small streams.

A heavy rain has been in progress for the last thirty-six hours. The ditches are as full of water as at any time during the spring freshet.

Richibucto, Nov. 26.-The gale on Thanksgiving day was unusually severe up the country, some fifteen miles above here. Two unoccupied houses were completely wrecked, the roof of one being carried fifty yards. Three barns were also blown and a large quantity of hay that they contained was lost.

Edward Barnett was married yesterday morning to Mary, eldest daughter of Paul Legoff. Father Bannon performed the ceremony. There were four wedding amongst the Acadians north of here yesterday. schooners Maggie Roach and

Matilda have returned to port for the winter. Their last cargoes were a load of hay from P. E. Island to Chatham. ooner Frederick William sailed on Saturday for Charlottetown

WORK OF A SINGLE DAY.

of the Heart.

Do people recognize the immense transacted by the heart in a single day? It equals that of lifting one hundred and fifty pounds to a hundred feet. height of twenty-three And yet, knowingly, or through ignorance, nine out of ten people abuse this hardest worked organ of the body. There is nothing remarkable in the fact that heart failure and apoplexy are among the most prevalent disases of the day. Happily a remedy is found in Dr. Agnew's Cure for the Heart, which gives relief instantly. This medicine should be kept in every house, so that on the slightest indi-cation of heart trouble it may be It has saved, by its prompt and efficient work, the lives of thou-

Old Orchard, Me., has a woman painter of a new kind. She paints houses, and barns, and fences, and does it for a living, and makes a very good living at it. She gets the san wages as men in the trade, which is reasonable evidence that she does the work at least every bit as well.

Two ladies have just got divorces at Toledo, O., both on the ground of their husbands' cruelty. One was Mrs. Orrin S. Whitten, and the other Mrs. Lillian Phelps. Mrs. Whitten is Mrs. Phelp's grandmother.

A cormorant was shot near Hancosk, Mich., a few days ago. It is thought it was blown down from the Hudson Bay country in one of the recent severe snow storms.

A postage stamp has been issued in Rome as a protest against the Italian celebration. On a gold background is the head of Leo. XIII., above it the words "XX. Settembre, 1985," and below it "Evviva Leone XIII., Evviva litalia." The stamp is simply a curiosity, as the Pope has no post office.

Murphy has been given up as an Angli-ized corruption of his name by an Irist clergyman, who has taken up again the true form, O.Morcroe. "For this relief, much thanks."-

Shakespeare. Don't mention it. Mr. Shakespeare PRUSSIAN OIL will always give you relief. Try it again.

LUMBER AND LIME.

The outlook for the lumber trade continues favorable. There has not been such general interest in the business in this province for some years, and it is to be hoped the thing will not be overdone. The running of regular steamers to Liverpool will make some change in the trade, placing small parcels regularly on that market. The advance in lumber generally abroad is to some extent offset by higher freights. The shingle market continues very firm.

The Ivanhoe Preceptory of Knights

emplar was instituted in the Masonic

hall, Moncton, on Tuesday 26th ult.the 6th inst., by R. E. Sir Knight James B. Nixon and R. E. Sir Knight Robert Marshall, K. C. T., provincial prior. The officers were duly installed as follows: H. B. Fleming, presiding precep tor; Geo. Ackman, constable; Geo. M. Jarvis, marshal; G. R. Sangster, chamlain: Edward Tweedie, treasurer J. E. Masters, sub-marshal L. B. Ar chibald, registrar; J. B. Sangster, E. S. White, standard bearers; W. A. Davis, sword bearer; A. Y. Clarke, almoner; W. A. Metzler, capt. of guard; F. C. Barker, organist; J. Jonyce guard. The other fratres of the new preceptory, which starts under most auspicious circumstances, are: John L. Harris, Chris. P. Harris, T. V. Cooke, A. Y. Clarke, F. N. Hall, James

Barnes, L. T. Joudry, Frank L. Thompson, F. C. Barker, Fred. W. Givan, George W. Willett, E. W. Givan, J. S. Benedict, S. E. Wilson, Alfred Bishop, R. A. Borden. After the preceptory had concluded its organization about fortyfive members of the order sat down to a splendid supper. The occasion was one long to be remembered, and from it will surely date a new era of prosperity in Masonry in the prosperous city of Moncton.

The marine board of examiners has granted a mate's certificate for foreign trade to T. H. Dyas of Parrsboro, and a master's coasting certificate to J. M. Newcomb of Canning, N. S.

Sch. D. J. Sawler, Capt. Kelly, from Randolph, Me., for New York with lumber, passed City Island on the 26th and reports was in collision early in the morning off Pennfield Reef with an unknown two masted schooner, coal laden, bound east, carrying away a flying jibboom. Damage to the unknown could not be ascertained, as she proceeded east.

ing away a flying jibboom. Damage to the unknown could not be ascertained, as she proceeded east.

Ship Savona, Capt. Stalling, from Syaney, N. S. W., June 11, for Liverpool, now overdue, has been reinsured at 60 guineas.

Sch. Kate Walker, Capt. Genn, from Bangor for Perth Amboy, is the vessel which was in collision with sch. D. J. Sayer o the 26th, off Penfield reef. The Walker was towed into Cook's Point the next day, badly damaged and waterlogged.

A despatch from North Sydney states the str. Forest Holme, from Quebec for Liverlool, before reported ashore in the harbor got off uninjured and is coaling at Sydney, preparatory to proceeding on her voyage.

reparatory to proceeding on her voyage.

The new Dominion liner built at Belfa

preparatory to proceeding on her voyage. The new Dominion liner built at Belfast has been named the Canada. She will make her first trip to Portland, Me., next February. She is larger and finer than the Labrador and will exceed her in tonnage by about 500 tons.

The disaster to ship Lillian L. Robbins from New York for Shanghai, before reported towed into Saigon in a disabled condition, occurred Nov. 2, near Shanghai. She was towed 350 miles and anchored, waiting for orders at Cape St James.

Ship Belle O'Brien, from San Francisco for Queenstown, before reported supposed foundered, was all right until 60 miles from Queenstown, when she stood west for sea room and became disabled in a heavy sea. When the sailors left her she had nine feet of water in the hold and ther covering was carried away.

Sch. Etta M. Smith, from Boston for Sydney, arrived at Hall's Harbor on the 22nd, damaged, having experienced severe gales, with high seas, during which her sails were stove, sails split and vessel strained, causing her to leak badly. She will repair and

stove, salis spilit and vessel strained, causing her to leak badly. She will repair and proceed to Bear River, where she loads for Cuba.

Ship Alexander Yeats, Capt. Bramner, from Singapore, which arrived at London on the 27th, reports that while coming up Lower Hope in tow had her mizzen rigging chain plates and davit carried, away, and bulwarks and a boat damaged by collision with a foreign bart.

Sch. Waterside, Capt. Pye, owned by Ernest Lynds of Hopewell, cleared from Hillsboro on Wednesday, 20th, to lead with coal at the Joggins. She arrived at the Joggins at midnight, Wednesday, and anchored off the pier. Soon after the storm burst upon them and the vessel parted both cables, when they put sall on her and stood across the bay to beach her at Rockport. They got her on at Peck's Cove, but there was danger of her getting on the rocks, and they made sall again to beach her in some better place. The next morning she ran ashore on the Westcock marsh, where she now lies high and dry. Capt. Pye, who has been at sea fifty-three years, described the gale as one of the worst he has ever experienced. The seas made a clean breach over her in crossing the bay as well as coming from Rockport, and the vessel as well as the orew were in great peril. The main mast and mizzen mast are sprung; her mainsail was split and foretopsail was carried away. She is also leaking. She lies in an easy position at present, and is considered safe till spring tides.

Bark Artisan, for Manila and New York, was being remetaled at Newcastle, N.S.W., on Nov. 9.

Sch. Viola, 109 tons, built at Londonderry, N. S., in 7882, has been sold at Barbados for intercolonian trade for \$1,400.

Ship Monrovia was being remetled at Cork Nov. 2.

She will load there for Pensacola and Rio Janeiro.

The little steel steamer Egerton, 112 tons, of Pictou to Capt. James Leitch of Belize, Honduras. It is reported that before going to Belieze the vessel will come to New York to undergo a thorough overhauling at the dry dock and shipbuilding yards of Hugh Ramsay at

and partners painters water.
Sch. Exception, Capt. Barteaux, from New York for Demerara, has put into St. Thomas leaky and with loss of sails.
Bark Wildwood, from Junin, before reportleaky and with loss of sails.

Bark Wildwood, from Junin, before reported grounded on the lower end of Marcus Hook bar, floated during the night and arrived at Philadelphia on the 28th.

Sch. Eltie ,ashore at Rye eBach, was hauled off by two tugs on Saturday morning and towed to Portsmouth and will be beached to see how badly she is trained.

S.S. Turret Crown, Capt. Taylor, arrived on Saturday night from Montreal via Sydney. Pilot Rodgers joined her at Sydney. The Turret Crown is a great carrier, having been built specially to carry coal. It is estimated that she will take about 800 standards of deals away from here.

Ship Belle O'Brien, Capt. Colley, from Saz Francisco for Queenstown, which was abaffed doned Nov. 18 by part of her crew, who subsequently landed in a small boat at Kerry Head, Ireland, has been reinsured at 90 guineas premium. The captain, his wife and 14 of the crew remained on the vessel, which was making water fast.

A letter from Capt. Kennedy of the ship Creedmoor, dated at St. Helena, states he a very hard time in getting around the Cape of Good Hope. Day after day the gales continued, and Capt. Kennedy was forced to run his vessel a long way to the eastward in order to save her. Capt. Kennedy was 27 days in getting around the cape, so fierce were the gales. For a time the Creedmoor was in company with the St. John ship Highlands and also with the American ship Vigilant.

ST. JOHN A. A. CLUB. The annual meeting of the St. John A. A. club was held on Nov. 29th at the office of the president, A. O. Skinner. The financial state was deemed highly satisfactory, over four hundred dollars of bills of 1894 being paid off. There is a balance on hand of \$20.39. The following officers were \$20.39. elected: R. L. Johnston, president; W. P. Robinson, 1st vice-president: C. E. Macmichael, 2nd vice-president; F. B. Ellis, secretary; R. W. Frith, treasurer; committee of management, J. G. Harrison, W. S. Barker, Frank Fairweather, Percy A. Clarke, Percy B. Holman; delegates to hockey league, F. Fairweather, H. Skinner, J. G. Harrison.

PICTOU CHARCOAL IRON CO.

At a meeting of the Pictou Charcoal Iron company, held at New Glasgow Thursday, it was decided to extend the works by adding plant for the manufacture of blooms, billets and bar iron, for which the company have a ready market. They expect to have the work in operation early in January. The extra funds required have been supplied by the members of the company themselves. The buildings are already up and the work will be rapidly pushed. The company have been supplying the Nova Scotia Steel company with about 60 tons of ore per day.-Halifax Chronicle.

CIRCUIT COURT.

The Queen v. James Howe was the

first case before the court Friday morning. The prisoner was defended

vice he pleaded guilty on the charge

that he would ask leave to enter a

nolle prosequi on the other counts.
Mr. Morrell then read a number of

vious good character and the almost

facts imposed a sentence of three

A. W. Macrae for the prisoner mov-

The Morgan and Sullivan girls, the

father and mother of the Sullivan girl and the mother of the Morgan girl

were examined. The case was then

in the asylum, saying he did not care

to express an opinion as to that. His

Honor Judge Tuck, after referring to the evidence, called attention to mat-ters that had developed during the

trial. A great deal had latterly been publicly said relative to education

and the reading of the Scriptures in

the public schools; yet, in his opinion,

the proper place for female instruc-

tion relative to morality and all that

that implied was the fireside, the

mother's knee. There ought to be thrown around the youth, and espe-

cially female youth, from early in-

dawned—such an atmosphere of purity

immorality and allied evils-to such

as that now under consideration. He regretted to say the evidence show-

ed a lamentable degeneracy in the home teaching of these girls in that

respect. His honor here commented upon the action of the girls at the

time of the assault and their apparent

willingness to acquiesce in the prisoner's request. No outcry was raised, no alarm, nothing in fact in the nature

of a protest save a mild remonstrance.

Referring to their home life, what was the evidence? It was that, while the

Morgan girl was baptized and while

church, while they doubtless paid the

tithes, etc., and observed the rules of

the church, while they would raise an

outcry were any rule of the church

offended or were their daughters to

attend a dance or play a simple gam

of cards, yet they allowed them to

receive presents from the prisoner and to remain out of their charge in the

evening. The jury, without his call-ing their attention to it, would have

noticed the manner in which these

young girls, and also Wells' daugh-

ters, had come upon the stand and had

shamefacedness he regretted to see.

NOVA SCOTIA.

Joseph D. Murphy May Become Intercolonial Railway Station Master at Halifax.

Amherst Visited by a Twenty Thousand Dollar Fire Sunday Morning.

AMHERST.

Amherst, Nov. 26.—Godfrey, aged 15, son of Godfrey Syddel, postmaster at Port Elgin, this morning met a watery grave at that place. With two other boys he was sculling across the river when he lost his balance and fell into the water, carrying only an oar with him. The other boys were unable to render any assistance. The body was recovered shortly afterwards.

Amherst, N. S., Dec. 1.- Amherst was scourged by fire early this mor-ning, two buildings and contents being completely destroyed, incurring a loss of about \$20,000. At three o'clock fire was discovered in the rear end of Taylor's 1ry goods store. Although the firemen were on the spot immediately, the fire spread with alarming rapidity, and every fear existed that the whole block, consisting of seven stores, besides warehouses, barns, Sentinel Gazette and Press offices, were doomed. The offices of the Sentinel, which were over Taylor's, soon yielded to the fiery elements also the adjoining shop and offices owned by Dr. C. A. Black, the latter by Mrs. John Mitchell, dress making, and Rufus woods, picture tramer, the shop be-

low being unoccupied. Mrs. Ripley, dressmaker, over Taylor's store, lost all her stock; no insurance. The immense conflagration feared was only prevented by the heroic work of the firemen and the fact that the fall of snow had covered the tops of the buildings, putting out the immense quantities of sparks that fell on them. Amherst's water supply service proved admirable. There was

not the slightest scarcity. The fire was supposed to have originated in the upper floor. The losses and insurance are: A. D. Taylor, loss, \$15,000; insurance \$9,000; in the British American and Alliance \$1,500 each; in the Northern, Phoenix (Hartford), Norwich Union, and Queen, \$1,000 each, and Quebec, \$2,000; Sentinel newspaper and building owned by B. W. Baker, loss \$4,000; insurance, \$6,000 on stock; none on building. Dr. C. A. Black, loss \$1,500; insur-

ance, \$1,000. Mrs. Mitchell,

maker, loss, \$100; Rufus Woods, loss, \$200; no insurance. Other losses were sustained by the removal of goods. BRIDGETOWN.

Bridgetown, Nov. 21.-Miss Bessie Elderkin, who returned last week from a trip to the southern states, has been suddenly called away to Wolfville to see her sister Annie, who has been stricken with paralysis. Miss Grace Healy has charge of the book

Miss Alice Potter of Yarmouth is conducting a dancing school in town this winter, and is also prepared to give instruction in violin music. John E. Sancton, who has carried on for many years a flourishing jew-

ellry business, has taken his son, J. Herbert Sancton, into partnership. A young son of Hennigar Tupper had one of his arms badly broken yes-

latter boy promptly did, completely severing all the fingers.

The marriage of Avard H. Milner and Maggie F. McLeod took place at St. John's church, Mochelle, last evening at half-past seven in the presmarried on Wednesday evening by ence of a large number of guests and friends. The Rev. Henry D. deBlais, rural dean, performed the ceremony. Miss Gussie Williams was the brides maid and Frank L. Milner, barrster, of Brdgetown, brother of the groom, acted as right hand man. The church was gaily decorated for the occasion, and the bride, dressed in white crepon, looked perfectly lovely. Mrs. Benjamin G. Fairn played the wedding march, and after the ceremony, the bridal party, accompanied by about fifty friends, repaired to the residence of William A. McLeod, the father of the bride, and enjoyed luncheon. The bride was the recipient of a large number of beautiful and costly presents, abundantly proving the high esteem in which she is held by the com-

munity at large. Alton Withers and Miss Blanche Eaton of Granville, Mr. Mackay and Miss Parker of Granville Ferry, and David Misner and Mrs. Neaves, relict of the late Joseph Neaves, were also

HALIFAX.

They discussed the scheme of the rearrangement of congregastrengthen weak congregations and relieve home missions and augmentation is estimated that forty per cent. of the is estimated that forty per cent. or described in the saved by judicious grouping of the Salem, Mass.

In 1860 Mr. Frothingham came to the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the Third that the saved by judicious grouping of the third that the saved by judicious grouping of the third that the saved by judicious grouping of the third that the saved by judicious grouping of the third that the saved by judicious grouping of the third that the saved by judicious grouping of the saved by judicious grouping of the saved by judicious grouping of the third that the saved by judicious grouping of the third that the saved by judicious grouping of the saved by judicious grouping be saved by judicious grouping of fields. Among the ministers and elders present from New Brunswick at the meeting were Rev. Jas. Ross, St. John; Rev. W. W. Rainnie, St. John; Rev. Aitken, Newcastle; Rev. Joseph Mc-Coy, Chatham; Rev. W. Hamilton, Richibucto; Judge Forbes, St. John.

Corporal John Cumisky of the King's ent saved a boy from drowning by jumping in the surf after him at Point Pheasant last summer. A dip-loma of honor from the Royal Humane society was awarded him yesterday. It was presented before the battalion in full dress on barracks square by Col. Stone, who congratulated him for

his bravery. A writ has been issued in the supreme court against the Boston and Nova Scotia Coal Co., Mabou, at the instance of Alexander C. Ross, who

nore in charge of that hotel. E. A. Secton has retired from the cigar business in the Halifax hotel. A. Hobrecker, wholesale tobacco dealer, loses \$700 in this connection. In the meantime the proprietors of the hotel have assumed the business. Secton was to have paid them \$1,000 rental. F. E. Slayter of Boston, son of Dr. Slayter, the cholera hero of old times, has been in the city for some days se-curing possession of his mortgage se-curities, which were in the hands of the defunct firm of Farouhar & Forrest. The amount was \$62,000, which he was successful in obtaining, but Slayter says he is \$700 short in interest

due him by the firm. The decision given here today in the natter of the collision of the steamer Miramichi and schooner Osceola on August 14, 1895, on the Miramichi river, adjudges that Capt. Degrace of the steamer was not on deck when he should be, that he left the steamer in incompetent hands, and that he did not stop after the accident to ascertain if assistance was required. The cap-tain's certificate was suspended for twelve months. The decision exonerates the deck hand Tait and the steamship company. The lives of three young women, passengers on the steamer, were lost in the collision be-

tween the steamer and the schooner. Halifax, Nov. 29.—W. H. Wheatley, Barrington street, commission produce merchant ,has suddenly left the city, and the sheriff has charge of what he could find in the Wheatley

The landing of stranded cattlemen Halifax. Five of the eight cattlemen John City and were sent to the Poors' Asylum for the time being, disappeared from the institution yesterday and this port. their whereabouts is unknown. The other three were tendered to the agent of the Furness line, but he refused them, and proceedings for damages will be begun against the company. Rev. W. J. Ancient has been appointed diocesan secretary to succeed J. O. Ruggles, who died some time ago

There were a number of clerical ap-Halifax, N. S., Dev. 1.-The Intercolonial railway station mastership of Halifax has been vacant for about two years. D. Story has been acting station master. Rumor is current tonight and which is generally believed is that Joseph D. Murphy will receive the apointment. Mr. Murphy was captain of the old Union Engine ompany and is an influential member of the C. M. B. A. He occupies a responsible position with the whole-sale grocery firm of John Tobin & Co. His honor in consideration of these The other strong candidate for the position is H. B. Dustan, at present

in charge of the deep water terminus. The Prince Rupert left for St. John at 10 o'clock this morning. She went down the harbor at a rapid rate and was much admired by the few who saw her. Francis McRae.

Dilecto Nobis in Christo Revdo. Francisco McRae, Diocesis Nostrate Presbytero. Salutem in Domino Sempiternam:

Tibi qui ex hac Diocesi, honestas ob causas Nobis cognitas ad tempus discendendi veniam postulas, licentiam ut ab eadem per annos duos abesse possis per praesentes in Domino concediums, et impertimur; testantes te nulla prorsus ecclesisastica censura allove Canonico impedimento, quod sciamus, esse irretitum; immo religione allisque virtutum meritis esse commendatum. Quamobre omnes locorem ordinarios, ad quos tibi in itinere divertere, vel apud quos manere contigerit, enixe in Domino rogamus ut te ad Sacrum Missae Sacrificium celebrandum admittant, humaniter excipiant, in cunctis tueantur. Datum Antigonishiae, die decimo mensis Aprilis, A. D. 1895. JOHANNES CAMERON. (L.S.) Episcopus Antigonishensis.

The following is the translation of the above:

the above:
To our beloved in Christ. Rev. Francis McRae, a priest of our diocese, greeting, in the Lord forever:
To thee, who for honorable reasons made known to us, has asked leave of absence from this diocese: We, by these presents, concede and grant the same for a period of two years, testifying that thou art not hindered by any ecclesiastical censure or canonical impediment, so far as we know; nay indeed that thou are approved for plety and other meritorious virtues.

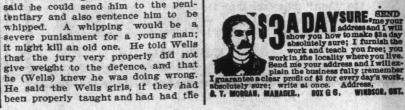

Wherefore, we earnestly beseech in the Lord all ordinaries of places to which thou mayest happen to go, or where thou mayest remain, to admit thee to celebrate the holy sacrifice, the mass, to receive thee kindly and protect thee in everything.

JOHN CAMERON,
Bishop of Antigonish.

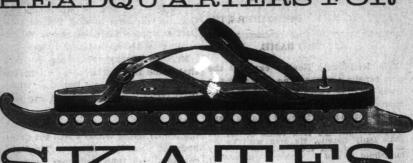

Given at Antigonish, April 10, 1895.

D. POTTINGER,

At Chubb's Corner on Saturday W. A. Lockhart sold eight shares of the Pender Nail company, par value \$100 per share at ninety-nine cents on the dollar. The last dividend declared was ten per cent. and six months have been earned on the stock sold.

The schr. Three Cheers, of Pleasant Vale, N. S., stranded at New London harbor Thursday and is likely to be a total wreck. She was loaded with oats and potatoes, valued at \$1,200, by John Wedlock of Stanley Bridge. The cargo was washed out of her by the force of the waves. She was launched last April and cost about \$4,500.-Charlottetown Guardian

Professor Downing lectured last evening in the university extension course. His subject was Tele-graphs and Telephones. The lecturer explained the action of the phone and gave much valuable information concerning it. He also gave a brief history of telegraphy, explained the instruments in use in telegraph offices relay, sounder key, etc., and referred to the codes which are in vogue in many offices. Professor Downing also spoke of cables, told how they were laid, how breaks were discovered and other information concerning cables and telegraphy in genNOT THE SAME.

The Richibucto Review explains the grit census argument as it was made three or four years age. The Review

then proceeds:

There was no man who more resolutely and persistently sought to withstand this line of argument than the then editor of the St. John Daily Gazette. He even went so far as to declare that the ceusus was grossly inaccurate and utterly unreliable. Now we have the same writer as editor of the Telegraph deliberately setting up the line of argument the formerly condemned, and assuming that the statistics of population are entirely resiliable and accurate. All this certainly preves nothing as to the correctness of the official senumeration. But does appear to prove the statistics of population are entirely re-liable and accurate. All this certainly proves nothing as to the correctness of the official enumeration. But does appear to prove something as to the official enumeration of the content of the training as to the official of the writer referred to. Several of the Tolograph's rec-ent editerials on census matters bear a re-remarkable similarity to those which it con-tained on the same subject three or four years ago, when another hand was at the oditorial helm. Common prudence should have suggested that Mr. Hannay should not reproduce too closely the line of argument adopted by what he called "the silly Tele-graph" of 1891-2.

Where reasons has the Review for as-

What reason has the Review for assuming that the Mr. Hannay of the Gazette is the editor of the Telehas taken place. The Telegraph contends that there has been no increase of population and that the national policy is to blame for it. Now Mr. Hannay showed that other causes were at work to prevent the more rapid increase of population. He said: Our people are largely themselves to blame. They have allowed to live, and even have nourished a reptile newspaper, which has for its sole aim the destruction of New Brunswick as a British province. They have permitted their chief city to be represented by a traitor, who sneers at every enterprise and strives to drive the sons and daughters of New Brunswick abroad.

The Telegraph is supporting Mr. Ellis and Mr. Weldon as candidates, who if elected would do great service for St. John at Ottawa. Its editor cannot be the same who wrote this: The grit enemies of our city mustered in throng force yesterday to protest against a recount of the inhabitants of St. John which . would show that the population of the city had not declined. Mr. C. W. Weldon was there. There, too, was the traitor Ellis, St. John's ancient enemy, whose whole life has been spent in running down St. John, and who has done the city more tarm than even the great fire.

When the following appeared from the same gifted pen the present opposition candidate for the city and county was regarded as the controlling spirit in the Telegraph company:

What is McCready but a hireling and a contemptible sample of the breed ready to eat crow in public for a financial consideration? What is the lawyer who controls the Telegraph but a hireling, ready to lie in the services of any master for a \$50 fee? It was in connection with this same census returns that Mr. Hannay, whose far-seeing eye took in the probable attitude of the Telegraph in the

latter part of 1894, wrote: The Globe and Telegraph cannot conceal their delight that the census shows the population of St. John te have decreased. They two papers may always be relied on to do St. John as much injury as they can

If any further proof were needed that the loyal liberal conservative Mr. Hannay is not the editor who is supporting the candidature of Mr. Ellis, we have it in these words of his own: A man who after denouncing John V.
Ellis as an annexationist . . accepting
him as the liberal candiate, and calling on

all good liberals te aid in electing him, has traits of character which might make him a valuable addition te a circus, but which are not needed in an editor.

MR. M'GILLIVRAY'S POSITION.

The liberal conservative candidate in North Ontario has declined to state whether or not he will support the government measure relating to the Manitoba schools. Mr. McGillivray takes the ground that he cannot properly be asked to say what position he will take on a bill which he has not seen and concerning which he can have no adequate knowledge. Not only is Mr. McGillivray ignorant of the contents of the government measure, but he does not yet know that there will be a measure, because, as he says, Manitoba has not yet given an answer to the conciliatory message sent from Ottawa last summer. Mr. McGillivray is well known to be an opponent of the separate school system. But living in the province of plied to beef and pork products. It is Ontario, where there is a separate school law, he has learned at home that regard must be paid to constitutional requirements. The Mowat government has not only retained a separate school act in the great Protestant province of Ontario, but has declared that the repeal of the system would be a violation of the Canadian constitution. We do not suppose that Mr. McGillivray would propose to change the constitution of Canada, cr to violate its provisions in order to abolish separate schools in Ontario. It is not certain that the separate school system in Ontario has stronger constitutional support than had low, there is a large home market for the old system of Manitoba. Some affirm that an act abolishing separate | killed half a dozen swine in a year schools would be unconstitutional, and so invalid, but the question has never been judicially decided and there is legal authority for the view that in the event of the repeal of the Ontario system the minority would have no better resource than by way of appeal to the governor general in council. Mr. McGillivray will probably take the view that any rights guaranteed to the minority in Manitoba, Ontario or Quebec must be respected. He would be expected to oppose any legislation that was not in his opinion demanded on this ground, or was premature, or required more than the minimum of the last census or the one before it.

interference. No doubt if elected he will not be a party to the imposition of inferior schools on Manitoba and that he will hold himself free to support or oppose the government bill ac cording to its character or scope.

Mr. McGillivray recognizes the fact that while the Manitoba issue is not a party question, the old issues on which the parties remain separated are still before the country. As he aspires to public life he concerns himself with the public issues which affect the great body of Canadian citizens. Manitoba ontains less than four per cent. of the people of Canada. Only a small percentage of the districts in Manitoba have a sufficient Roman Catholic population to be in the least affected by the school question. The tariff issue, subjects of national development, the relation of the dominion to the rest of the empire, the record of the administration, the record, the public character, the capacity and the policy of the leaders who would be called upon to rule this country in the event of a change of government, are the real questions which the elector The Gazette proved that should decide. The government should there had been no such decline in be willing to stand or fall on these population as the Telegraph declares issues. Mr. McGillivray is quite right in refusing to drop these questions and contest an Ontario constituency on an issue which circumstances have thrust upon the ministry of the day, and which is hardly large enough to be even a provincial campaign issue.

THE CENSUS AND AGRICULTURE.

The Telegraph seems to contend that the national policy caused the farms of New Brunswick to produce a smaller crop in 1891 than in 1881. Now, it is true that while the New Brunswick yield of hay, barley, pease and beans was larger in 1891 than in 1881, the Telegraph is right in saying that there was a decrease in the production of oats, potatoes, wheat and rye. Moreover, it is true enough that the number of sheep, swine, oxen and horses and milch cows increased.

There is some difficulty in connecting by any law of cause and effect the that is, those that are able to distinfarm yield of a particular year with the national policy. If it is shown high priced grades of goods, such as that the general and continuous tentency is downward, the cause might well be commercial or economic. The low yield of a particular year might be a question of rainfall. If the census were taken next spring it would show a large increase in grain crops over 1890, but it would hardly be fair to claim the credit for the national policy.

The statistics of live stock are more to the point, for though the fallure or success of the hay crop has something to do with the number of cattle, the variation from year to year is not nearly so large as that of the crops. If it is found that in the course of a decade the number of cattle, sheep and swine has seriously. decreased, there would probably be some general commercial reason. It About five hundred pere present would lead one to inquire whether all. something had not happened to the Daug meat markets, or whether dairy pro-

ducts and wool were saleable. Now, it seems to be true that from 1881 to 1891 there was a decrease in the number of New Brunswick live stock. On the other hand, if a census were taken this year it would be found that a considerable increase has taken place since 1891. The enquirer would also discover that the dairy produc of the province has greatly increased, that the local production of beef is much larger than about the time of the last census, and that an enormous development has taken place in pork

raising. The impetus given to the dairy industry by government interference is one of the causes of this improvement. The national policy, as developed within the last six years, is another. The principal of protection was not until very recently fully apnot long since the meat shops in this city were stocked with Chicago fresh beef, brought here in cold storage. For a time home grown beef had no chance at all. The greater part of the pork supply also came from the have been exchanged between the two western states. Pork produced in New Brunswick was hardly a commodity in supplying the lumber woods or in provisioning ships. But immediately after the tariff was so adjusted as to give beef and pork of home produce an advantage in the Canadian market the demand increased. The consequence is that while the farmer's price is sometimes high and sometimes native meat. Farmers who formerly now butcher a score, and dealers who bought hog carcasses by the hundred weight now handle them by the car load. Perhaps it would not be incorrect to say that there are several operators in New Brunswick, any one of whom purchases and cuts up for packing or smoking, more pork than was handled a few years ago by the three largest establishments in the

province. If we could have a census of the live stock now owned in the province, and of the beef, pork and dairy

BOSTON LETTER.

Provincial Dry Goods Clerks, Keep Away From the Hub!

Seven-Eighths of the Members of the American Knights of Labor Have Left the Order.

No Particular Change in the Lumber Marke Last Week-The Fish Market Affected by Thanksgiving - Lates Quotations.

(From Our Own Correspondent.) Boston, Nov. 30.-Bostonians and the people of New England generally have just got through celebrating Thanks giving, and it may be said that the holiday trade has begun in earnest While business men say that trade has not improved as rapidly as they expected, yet the volume of business is larger than at this time last year. The shoe and leather trade is dull, and as Boston is the centre of the trade, it consequently has considerable effect. The putlook for working people is about the same. the big dry goods stores recently discharged half a hundred people each, notwithstanding the approach of the ousy season, and many of the number were provincialists.

Among the number of those

from a Winter street dry goods firm, employing over 500 people, was a young man with a wife and children, who had been the e half a dozen years. When he left he was receiving \$12 per week, which would be equivalent to \$7 or \$8 in a St. John use. The young man, by the way, is a New Brunswicker, and although he never resided in St. John, he has a brother there in business. It is surprising why so many young men enter the dry goods trade 'n large retail houses here. Every once while a St. John :lerk leaves a position there and comes up to accept, perhaps, \$2 more per week, which he imagines will make him that much icher at the end of the week, while in reality he is at least \$2 worse off. The majority of salesmen get as low as \$6, and perhaps if they have luck they will get up as high as the \$10 young cattle declined, though that of list, but it will be only after two years or more of service. The salesien who receive wages above \$12 are those who are known as "specialists," guish the difference between low and silk, lace and other costly material, and the men who in addition to this qualification are adept sellers. retail dry goods stores paid ruinous wages and probably al-ways will. When a reduction in the number of employes is found necessary, very little discrimination is used. An employe that has been on the pay roll for years is as liable to be cut off with a two days' notice as the one who has just entered the store. writer is one of those who came from New Brunswick to go into the retail dry goods business, and after serving over a year left it of his own av

> way is hopelessly closed. The Clarendon Maritime Province club of this city held its third annual ball on Wednesday evening, J. A. McPherson, president of the club and his wife, led the grand march,

In this city at least, it is one of the

Merritt of this city. Miss Mabel C. Kinney was bridesmaid and a number of guests from Nova

Scotia were present. William E. Reeves of Hands Acros the Sea company, and his wife, have been heard from again. Mrs. Reeves was arrested the other night at Hartford at the instance of her husband E. P. Day, an actor, was also locked

up. Reeves will sue for divorce.

The most celebrated church dispute ever known of in this state has been in existence at the North Avenue Baptist church at Cambridge. months there have been two factions of equal strength in the church, At the church meetings, men have raved and women have fainted, several meetings ending in a uproar. Scurrilou postal cards and all sorts of epithets factions. Finally the pastor was arrested, charged with sending such currilous and obscene postal cards. Ie was declared insane by the United States district court and or-dered to the asylum. The church is

now without a pastor, but is hopeless-

ly divided.

The news that the Canadian Knights of Labor have decided to cut loose from the American body has been long expected and is a move in the right direction. Since the present clique which controls the order in this country has been in power, the Canadians have been repeatedly turned down. In fact, district assemblies all over this country have abandoned the order as rats desert a sinking ship, and it is only a question of a year or two before the present organization is overthrown. After Powderly's defeat for the office of general master workman and the election of the present fanatic, over seven-eights of the mem-bership have left the order. The seceders have former a new order of the Knights of Labor and will doubtless work in harmony with the Canadian The Knights of Labor was once a power in this country, and would today had it not fallen under the control of schemers.

There is no particular change in the lumber situation this week. The firmthe amount of daily sales continues large. Those mills in the east that are still running have all the orders they can handle at present, and there is avery prospect that the demand for spruce will continue for some weeks onger before the market is merged into the usual winter lethargy. Spruce matched boards are slightly higher. Large lumber is becoming easier and is meeting with a better sale. Shingles remain quiet, with little improvement to record. Hemlock is strong, and the demand for both rough and planed boards is till good. Pine is little called for just now, but pine clapboards are improving in demand. Prices remain about the same. The week's quotation at first hands are as follows:

Spruce-Provincial cargoes, 2x8 and up, \$12.50 to 13; random do, \$12; matched boards, 6, 7 and 9 in, clipped, \$13.75 to 14; boards, 8 in up, stock v. dth, \$14; No 1 floor boards, air dried, clipped, \$19 to 20; laths, \$1.75 to 1.90; shinles, \$1.40; capbeards, clear, \$25 to 28; car spruce, frames, 10 in and under ordered, \$14 to 14.69; yard orders, \$13.25 to 13.50; 12 inch frames, \$15; 11 inch frames, \$17 to 19; laths, 1 1-3 in, \$2 to 2.10; 1 5-8 in, \$2.15 to 2.25; shingles, \$1.40 to 1.50; 4 foot extra clapboards \$32; clear, \$30; second clear, \$24 to 25.

Pine-Eastern pine, coarse No 2, \$16 to 17; refuse, \$13; outs, \$9 to 9.50; rough edge pine, box boards, etc. \$9 to 12; pine sap clapboards, \$45; clear sap, \$35 to 40; matched boards, \$19 to 22. Hemlock, etc-Planed and hemlock boards, eastern, \$11.75 to 12; random, \$11 to 11.50; rough cargo hem-lock, \$9 to 10; planed do, \$10 to 10.50; extra cedar shingles, \$2.65 to 3; clears,

\$2.25 to 2.50; second clears, \$1.75 to 2; extra No 1, \$1.50; No 1, \$1.25. The fish market is quiet, the retail trade having experienced an "off" week, owing to the usual Thanksgiv ing trade in meats and fowl. In the wholesale market mackerel are still very firm. Pickled herring are selling r and the stock is getting lower Fresh fish are slightly firmer, owing to ght arrivals. Lobsters continue firm and the sardine outlook is about the

same. Wholesalers prices are: Fresh fish—Market cod, \$2 to 2.50 per 100 lbs; large cod, \$3 to 3.50; steak cod, \$5 to 5.50; haddlock, \$3 to 3.50; large hake, \$1.50 to 2; small, \$1 to 1.25; polock, \$1 to 1.25; steak pollock, \$1.50 to 1.75; mackerel, none; hallibut, white 10 to 12c per lb; gray, 9 to 10c; chicken do, 12 to 15c; Oregon salmon, 14 to 15c; eastern frozen salmon, 18c; striped bass, 15c; native smelts, 12 to 14c; pro-Mincial, 8 to 10c; fresh herring, \$1 to 1.25 per 100; live lobsters, 12c; boiled do, 14c.

Salt fish-Large shore mackerel, \$29 Daughters of the Maritime Provinces, held its annual meeting in this city

1.90; lower graides, \$1.60 to 1.70; Alaska salmon, \$1.20 to 2.50.

E CROWD CAN

Saturday, every eye was turned towards Oak Hall. Saturday, storekeepers and citizens watched the outcome of the sale of Bankrupt Stock. Saturday, the greatest Clothing Sale ever held in St. John opened with a rush and a crush. Saturday, from seven o'clock in the morning until eleven o'clock at night the store was crammed jammed full of eager buyers. Saturday the effect of fair dealing in the past, coupled with the fact that we had bought the stock and sold it at the right prices was proved by the hearty way in which the crowds besieged this store and carried off the goods Saturday was a great big red letter day at the Oak Hall.

SCOVIL BROTHERS & CO.

OAK HALL,

KING STREET, CORNER GERMAIN. ST. JOHN.

Kilpatrick, Doherty, Batherson and Keltie Fined Fifty Dollars Each.

There are Four Cases Against W. T. Scribn Yet to be Disposed of.

Hampton, Nov. 29 .- Justices Henry Piers and John McLaughlan held court today at the residence of the first named gentleman and disposed of four of the Scott act cases adjourned over from the 18th inst. Very little interest was manifested in the proceedings, the only persons present in addition to the two justices being the inspector, C. W. Weyman, F. A. McCully, the attorney; R. prosecuting attorney; R. LeB. Tweedie, who appears for some of the defendants, and a Sun reporter. The court was held in the dining room of Squire Piers' boarding house.

Ten o'clock was the hour appointed for the hearing, but it was long past that hour when Mr. McCully and Inspector Weyman, who had been in consultation outside, put in an appear-

Mr McCully, after wishing thonors good morning, handed Mr. Weyman a paper, which ne asked him to read over to the justices.

Weyman did as directed. It turned out to be a deposition, and the inspector was sworn by Mr. McLaughlan as to the truth of its contents. The deposition set forth that E. E. Peck of Hopewell was a material witness in for it. He seemed ready and willing these cases and that he might not to give it to me as soon as I asked voluntarily attend and give evidence. was afraid that an effort might be made to take Peck forcibly away from the court. On a former occasion he was prevented by force from being sworn in the case against Patrick Doherty. Peck, it was added, was suspicious of an organized effort or conspiracy to keep him away from the court.

Mr. Tweedle wanted to inquire of Mr. Weyman the source of his information. He asked the right to examine

him as to the deposition.

Mr. McCully said this was done for the court's information. They wanted a warrant issued. He protested against Mr. Weyman being examined

Mr. Tweedle declared the thing a farce. Peck was out on bail, and could come here if he wanted to do McCully, he said, was using the justices for the purpose of harassing the defendants. He demanded to be allowed to ask Inspector Weyman concerning the source of his information. Why was Peck not here? No one could touch him now.

Justice McLaughlan said Mr. Wey-

man had made the affidavit. Tweedie was present to defend some of the accused parties. This was an abuse of the administration of the

Mr. McCully said there was no case before the court. It had not yet open-He therefore moved for the trial the case against John Kilpatrick on the information of Inspector Wey-

Mr. Tweedle insisted that he had a right to examine Weyman. If court ordered him to take his seat he rould sit down, otherwise he would

Justice McLaughlan said Mr. Weyman was not before the court. The first case had been called just this

Mr. Tweedie repeated his demand for the right to examine Mr. Weyman with regard to the deposition to which he had just sworn in open court. Justice McLaughlan-The court was

not open then. Mr Tweedie-I contend that this of August last. Was in delay on the part of the prosecution; that it is not made bona fide but for some ulterior motive on behalf of the prosecution. I appear here in six that the witness Peck is at 11berty. I utterly disclaim any intention tried and disposed of. I claim that the affidavit just sworn to is a mere subterfuge to obtain delay.

Mr. Weyman, who had left the court before, now returned aca moment companied by Detective Peck. Mr. Tweedie—I wish your honors to enter on the minutes the fact that

Peck now appears, having come down the stairs of one of your honor's house. Mr. McCully-This rather does away with some of your mighty arguments. The prosecution submitted that as was no case before the court in which Mr. Weyman was a witness rainst any of the accused parties Mr. Tweedle was not entitled to crossexamine on a deposition to obtain a witness taken before the opening of

Mr. Tweedie still insisted that it was only right to allow him to do so. Justice McLaughlan said any one had a right to come in and ask for a warrant without being examined.

Tweedie-Then you refuse to allow me to cross-examine Mr. Wey-The court-Yes, we do. You cannot

do this when the deposition is made before the court opens. Mr. McCully moved for trial in the case of John Kilpatrick of Upham on information of C. W. Weyman, laid

on November 13th, charging that between the first and thirteenth days of November instant he did unlawfully keep ilquor for sale. Mr. Tweedle asked what it was intended to do in the Scribner cases

Mr. McCully-One case at a time. We intend to go on with them. We will try the whole lot, but only one Mr. Tweedie repeated his inquiry,

and the court said the Kilpatrick case on now. Mr. McCully said he appeared for

Mr. Tweedie said he appeared for the accused, Scribner. He contended that the court had no jurisdiction to go on with the matter, as no court was held on the date of last adjourn-

After further argument it was decided to adjourn the Scribner cases till Friday next at 10 a. m., Mr. Scribner being too ill to appear in court. Here Mr. Tweedie and the inspector had quite a war of words, and the court had to interfere.

Mr. Tweedie then retired from the The first Kilpatrick case was then

called on. The charge was as stated

Mr. McCully put Detective Peck or the stand. His evidence was substan tially as follows: I live at Hopewell Cape, Albert county. Am a detective olding membership in the McKenzie National Detective Agency, who do business in the United States and Canada. Have of late been working as such detective in Kings county. Know a man called John Kilpatrick who lives in Upham, in this county. Was at his house on Saturday, the 9th day of November, inst. Saw in his house at that time a room in which there were a counter, shelves, bottles, a large jug and small glass tumblers, such as are used in bar rooms. I asked the accused, Kilpatrick, if he had any Scotch whiskey, and he replied

that he had not, that he had only rye whiskey at the time. He poured from a large jug sitting on the counter a quantity of liquor into a bottle, a part of which I can produce. (Bote produced about half full of liquor.) I swear that I got the bottle and its contents from John Kilpatrick at the date mentioned. I paid him therefor 45 cents. He was behind the counter in the room mentioned, waiting on

I paid for it. Mr. McCully here examined the witness as to how he came to get the liquor. The reply was: I was not sick, nor did I tell Kilpatrick that I was. I gave him no reasons for wanting the liquor. Did not have to coax him for it. I have no interest in this or any other case. It makes no difference to me financially whether a con-

Mr. McCully said this closed the case for the prosecution. No defence being offered, the court convicted Kilpatrick of the offence and fined him \$50 and costs or eighty days' jail.

viction is secured or not.

Another case against John Kilpatrick, charged with selling liquor on the 9th, was then taken up.

Detective Peck was again His deposition was the same as that in the other case. He added, how-ever, that three separate sales of liquor were made by Kilpatrick in the resence of witness, who paid for the liquor, Morrison stating that he was

a little short. The prosecuting attorney said this was all the evidence he had to offer. As no defence was offered, another fine of \$50, with costs, was marked opposite Kilpatrick's name. In default of payment he will be sent to jail for eighty days.

The case against Robert Keltie of Sussex, charged with selling liquor on the 12th of September last was then called.

E. E. Peck being put upon the stand stated: I know a man named Robert Keltie, who lives in Sussex. Was in his place of business on Thursday, the 12th ult. Asked him if he had any ale and he replied that he had. accused produced a bottle, which he said contained good ale. I purchased the bottle from him and paid for it. Think it was 20 cents I gave him for the ale. I drank some of it and believe it was ale. Cannot speak as to the intoxicating qualities of ale. Did not drink enough of it for that. Kelit a few nights before.

The court struck a fine of \$50 and costs or eighty days' imprisonment.

The case against Patrick Doherty of Sussex for selling liquor on August

13th was the next one tried. deposition is made for the purpose of which had the appearance of a bar olis, Bulgaria: who appeared to be working in the needs of the missionaries.' of interfering with him in any way, hotel as clerk. Heard this man spo-shape or form, and am anxious to have ken to as James Hannah. I paid within their own homes necessarily the time by my watch when this oc- needs is a sure sign that they because I went there in my official; the Canada Temperance act was being violated in the Queen hotel. The liquor was taken up to my room. From what I saw and observed on this occasion Doherty was acting as proprietor and was in occupation of

The court imposed a penaly of \$50. and costs or eighty days' jail.

Doherty was fined \$50 the other day same justices for selling liquor. Mary Jane Batherson, also of Sussex, had a fine of \$50 marked opposite to her name for the same offence.

W. T. Scribner. Inspector Weyman says he has secured 50 convictions since January last. There have been no appeals.

KIDNEY TROUBLE.

The Bane of Millions of Lives, Can be Cured

The diseases that we so dread do not come upon us at one step. They are a matter of growth. The sad news is only too common of friends who have died of Bright's disease, diabetes and kindred complaints. It is known that in the system of thousands exist the seeds that in a short time will develop into these dread maladies. Disease of the kidneys in its mildest form never stands still. The warning is worth heeding that efforts should be promptly taken to eradicate the slightest symptoms of kidney disease, and in South American Kidney Cure is found a sure and safe remedy for every form of kidney Whether chronic, incipient trouble or in some of the distressing phases so well known, it proves an effective, and, what is pleasing to know, a

ready and quick Cure. "Nothing but the 'BLENHEIM,' for I have proved what satisfaction it gives." This voices the general sentigives.' The ment all over the country. "BLENHEIM" Serge is the ideal textile for gentlemen's suits. Fast in color, beautiful in finish, giving long wear. Name stamped on goods.

The Powers Will Not Accept the Sultan's Refusal

Of Their Demand for the Passage of Additional Warships.

Letter From an American Resident in Constantinople on the Situation.

Boston, Nov. 20 .- The following reliable letter from an American resident in Constantinople was received

here today: "The most pressing question, next to that of the safety of the people who survive is the provision of aid for the families of those who have been slaughtered. Aid must come on a great scale or thousands will die. The powers will have control in some way before the money comes in, so that reme. George Morrison was present at lief work on a large scale will be pos the time. Morrison drank some liquor sible. The position here is critical in on that occasion from the same jug. | the extreme. The Turks coming in from Asiatic Turkey, flushed with massacre and pillage, are telling of their deeds among the rabble, and a loot of our bazaars and a slaughter of our missionaries is possible at any

The sultan is fighting for his life. and is not yet convinced that he is going to be punished for his crimes. When the powers are ready to move on him, he may order any wild act of revenge in the way of general massacre in order to get out in a cloud of smoke and glory. The powers are acting in the greatest sincerity that he may not have time to do this. When the fleets are ready to come in they will put themselves in communication with the porte and demand the surrender of the sultan's person, and I think the porte will dethrone him But it will be an anxious time until this is accomplished.

Constantinople, Nov. 28, via Sofia, Bulgaria, Nov. 29 .- The porte today is sued the following official account of the recent outbreak at Marash and elsewhere: An Armenian of Marash recently

set fire to his own house, situated in the Mussulman quarters, in order to provoke a tumult and revolution. The Armenians of Reban, in spite of the advice given them, attacked the soldiers, who were obliged to fire in return. The rioters fled to Fernes and Zeitoun after burning their houses. On the 12th the Armenians of Erzaroum, seeing some soldiers running to

sued, during which five Armenians were killed and six wounded. Boston, Nov. 29.-Information relating to Zeitoun is very meagre. The

arrest a number of smugglers, want-

ing: Erzeroun is about 250 miles north of Marash. The city and its villages, containing from 12,000 to 15,000, are Armenians. They are independent of the government, pay no taxes, and secure in their mountain homes defy the power of the sultan. They are, however, in their way, tie told me that he got pretty full on Many go to church every morning lefore daylight, and pray for hours, so that the floor of the church becomes wet with their tears. Some are so conscientious that they would not

tread on an ant. Boston, Nov. 29.—The following Detective Peck said: I know Patrick cablegram was received today by the Doherty. Know the Queen hotel, Rev. Judson Smith, D. D., secretary Sussex. Was there on the 13th day of the American board, from Con-

room, but I will not swear that I was "Missionaries at Harpoot, Bitlis, and in it on the 13th. I asked for some Marash are protected by soldiers, Lut intoxicating liquor. Asked Doherty the streets are unsafe for any Chrisfor it. He said I could get it. The tians. Confidence is weak. It is diffiliquor was handed to me by a man cult to send money for the personal

Doherty himself for the liquor, not means the cessation of all their work, just at the time that it was handed and in view of all that has occurred, to me, but later on. I drank a part a fear of personal injury now from of the liquor in the hotel and took the the protection given by the Turkish remainder of it away with me. It was source. The inability to send money intoxicating liquor. Made a minute of to the missionaries for their personal curred. It was 19.44 o'clock. Did this soon reduced to want and to possibly death by starvation. There are twen capacity to ascertain whether or not ty-five missionaries in the three places

named. The course of events shows that the centres of attack are those where the educational institutions of the American board are located. Revolutionary sentiments are not encouraged in these institutions. Hence the dispositions shown in some Turkish and American quarters to hold these institutions, their teachers, and their students responsible for the present situation in Turkey is utterly unfounded. A Christian education is furnished, akin to that which is furnished in There are four cases in all against the leading colleges for the young men

and women Special anxiety is felt for the welfare and safety of Rev. Crosley Whee-ler, D. D., and wife. Mr. Wheeler is pounds of first quality cheese. a confined invalid, over seventy years of age, and it is believed he is still in Harpoot, although one despatch has announced the arrival in Constanti-

nople of himself and wife. Dr. Wheeler was born in Hampden, Maine, in 1823. He graduated from Bowdoin college in 1847; from Bangor Theological Seminary in 1851. He was pastor of the Congregational church in Warren, Maine, for four years. He embarked for the foreign field in 1857. He was elected president of Euphrates college in Harpoot, Eastern Turkey, at its foundation in 1878 and held that position until two years ago, when Mrs. Susan A. Whe eeler was born in Woolwich, Maine, in 1827. She united with the Free Baptist church in Wool-wich in 1847. She attended school in Wiscasset, Maine. She was married to Rev. C. H. Wheeler in 1857, and accompanied him to the mission field

the same year. Dr. Wheeler is the author of a well known missionary volume entitled Ten Years on the Euphrates. The American board also received a letter from Rev. H. O. Dwight, missionary in Constantinople, in which he said that "Judge Terrell had labored to his utmost through all of these trying times to do everything possible to keep the Turks defending the missions. The United States minister deserves large credit for the safety of all. He

GETTING VERY SERIOUS. has used the most violent forms of expression that diplomacy permits in order to convince the porte of his

earnestness, and has not left a thing undone that could be help to the safety of the misionary bands. He has had leave of absence in his hands for five months, but had said often sender must accompany the notice. that he cannot bear to leave while his fellow-citizens here are in danger."

London, Nov. 30 .- The correspondent of the Daily News at Constantinople says all the powers are united in their determination not to accept the sultan's refusal of their demands for the passage of additional guard ships. The synod of the Greek church has declined to issue a declaration of contentment with the Turkish administration.

The Speaker's correspondent at Control of Speaker's correspondent nople says all the powers are united

The Speaker's correspondent at Constantinople thinks that 10,000 persons have been killed in a dozen different towns within a week and that it is probably an under estimate, while the work of destruction still contin-

All the massacres are the deliberate work of the palace government, this correspondent affirms, and the simple object is to exterminate the Chris-

The Chronicle's Constantinople correspondent says: Palace friends reports that the sultan is drinking heavily during the past few days, which does not tend to improve his mental condition. He shows signs of yielding to the demand for additional despatch boats.

The Vienna correspondent of Daily Telegraph says that an acute financial crisis has arisen in Turkey that threatens to paralyze trade and husbandry and to increase outlawry, caused by the mobilization of troops and the sources of income are so completely exhausted that an issue of paper currency is under considera-

Rome, Nov. 29.-A despatch received here from Constantinople adds to the sum of knowledge of the disorder and bloodshed with which Turkey is burdened. It is reported there fresh massacres have occurred in Aintab, about sixty miles east of Aleppo. A condition of panic, it is said, tinues throughout the Vilayette of Haleb in with Aintab is situated. At Tifflis in the Russian trans-cacuasus it is understood from Ezeroum, that the Turkish government has appointed a commission, including some es-teemed Armenians, to attend to the restitution of property to Armenians who have been robbed in the course of recent disorders. The government, it is reported ,has also agreed to assist needy Armenians with bread and

money. Rome, Nov. 29.—The pope, during the course of his allocution today at the secret consistory where the new cardinals were created, dwelt upon the gravity of the situation in Turkey, and added that the holy see was not indifferent to the distress of the Armenians, but desired to see the various provinces of the Ottoman em-American board gives out the follow- pire governed upon principles of equality and equity.

A WORD TO MOTHERS.

Many a mother will be awakened during the long nights of the next fev months by the racking cough that dis-turbs the rest of her little ones. For the thoughtless little people will expose themselves and catch cold. Many a grateful mother, remember ing past experience, will have a bottle of Hawker's balsam on hand, and a small dose of this soothing and healing preparation, which all children like to take, will give relief both to the suffering child and anxious parent. All mothers are strongly urged to this remedy at hand. A single trial of it will convince them that what so many have said in its praise is well deserved. It will cure coughs and colds, is an instant relief for hoarseness, and is something the family cannot afford to be without. It soothes, heals, cures. Public speakers and singers find it a constant friend. It is sold in 25 ct. and 50 ct. bottles, by all druggists and dealers, and is manufactured only by the Hawker Medicine Co. (Ltd.), St. John, N. B. and New York city.

DAIRYING IN GLOUCESTER CO

The dairying industry has becom of vast importance to the farmers generally of Gloucester county, says a Transcript correspondent. Within the past three years two cheese factories have been built and operated most successfully. The first is situated about two miles from Bathurst village, at the entrance of the trotting park. It is a central farming district and favorably commands the milk of over 200 cows, which, it is said, is necessary to make the business pay. This factory is owned by the Bathurst Cheese Manufacturing company, who have suspended their operations (ver a month ago. The balance of their cheese was shipped during the past week. Over 300,000 pounds of were consumed this season, resulting in an output of over thirty thousand this quantity about ten thousand pounds were sent over to England, the balance proportionately being shipped to Quebec, St. John and Halifax. The factory of the Beresford Cheese Manufacturing Co. is about 13 miles from Bathurst in that parish of Beresford, and has sent out nearly the same quantity of cheese to the local markets.

Catarrh and Hay Fever Relieved in Ten to Sixty Minutes. One short puff of breath through the blower, supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses this powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly and permanently cures catarrh, hay fever, colds, headache, sore throat, tonsilitis and deafness. 60 cents Sold by druggists. Sample bottle and blower sent on receipt of 10c. in stamps or silver. S. G. Detchon, 44 Church street, Toronto.

Marcel Herwegh, the son of George Herwegh, "The Iron Lark," who in 1848 was a leader in the republican movement in Germany, is going to publish his father's correspondence with Lassaille, the socalist.

(For additional births, marriages and deaths see page sixteen.)

Miss Hegan has resigned her position as matron of the General Public hospital to accept the position of night superintendent of the Polyclinic hospital, New York. A special meeting of the hospital commissioners was held on Saturday afternoon to consider the question of the appointment of a sucessor to Miss Hegan. There are three applications for the position, all graduates of the hospital, but the opinion prevailed that the notice of Miss Hegan's resignation was too short to allow the question of a successor be fully and carefully considered, and the appointment was postponed until the regular meeting Friday afternoon.

THE PAIN LEFT QUICKLY.

eumatism of Seven Year's Standing Cured in a Few Days. I have been a victim of rheumatism for seven years, being confined to bed for months at a time, unable to turn myself. I have been treated by many physicians in this part of the country none of whom benefited me. I had no faith in rheumatic cures advertis ed, but my wife induced me to get a botlte of South American Rheumati Cure from Mr. Taylor, druggist, Owen Sound. At the time I was suffering agonizing pain, but inside of

twelve hours after I took the first dose the pain left me. I continued until I took three bottles, and I consider I am completely cured. (Signed.) J. D. M'LEOD, Leith P. O., Ont.

CHURCH MISSIONARIES.

A Mass Meeting of Sunday School Children at St. John's Church in the Afternoon.

(From The Daily Sun of the 2nd.) Stock, delegates of the Canadian Church Misionary society, arrived in the city on Saturday.
Sunday morning Mr. Stock preached

at St. James's, while his colleague, Mr. Grubb, occupied the pulpit at In the evening Mr. Stock gave an address in St. Luke's church, At most of these services offertories were taken for missionary purposes. A peculiar interest attached to the services held at St. John's church, from the use (for the first time) of the new memorial pulpit and reading desk, presented by Mrs. G. S. Smith and C. Bostwick, the former in memory of her husband, and the latter for 'is was not a good by by any means. He daughter Elizabeth, who died in the used to make trouble in Sunday school. year 1890. Both pulpit and desk were erected by Messrs. Hogemann & Co. of New York, and are splendid speci-

mens of are work in wrought brass.

The services in Trinity church yesited the vessel and after wishing him a. m., the litary with an address on Salvation, its Necessity, by the rector at 4.15 p. m., and evening prayer and sermon by the rector on God at to him in his heart, what did you do

Rev. P. Grubb, one of the English delegates now visiting Canada in the interest of the Church Missionary society, who occupied the pulpit in the Bible and read parts of it. As he read morning, preached from St. John's some of the texts that he had learned gospel iii., 16: "For God so loved the when a boy at Sunday school came world that he gave his only begotten back to him and he said: "What a son, that whosoever beliveth in Him, should not perish, but have everlast- and asked God to forgive him and to ing life." After emphasising the central idea of his text, that the infinity of God's love for the world made posrible the infinity of His sacrifice in rible the infinity of his sacrince in giving His only begotten Son to die for us, the preacher said the great subject that ought to occupy the attention in the season of Advent was the second coming of our Lord, which was only delayed because we had not kept bothering them they would thou will join in sincere regret and sympatime. This did not have any carting hypocrite on board and said that if he kept bothering them they would throw will join in sincere regret and sympamade the world ready for his return. him overboard. This did not deter him, however. He went right on and We had failed to carry out his command to evangelize the world. There were still as many cannibals as there | nine praying sailors on board the ship. were people in England; there were eight hundred millions who yet worshipped idols. In forcing home the missionary idea to Canadians, Rev. missionary idea to Canadians, Rev. across a good clergyman who asked Mr. Grubb reminded them that the him if he would not like to become Church Missionary society was doing a teacher. Edmund hesitated because far more than they themselves were he did not have a good education, but doing in the Northwest, and appealing he said he would like to go out as especially to churchmen in this city of loyalists, he urged them to be loyal to God's cause and to get the imperial idea of the universal reign of Christ in their hearts. This was the thought that prompted the Church Missionary society in getting the Anglo-Saxon race under the British flag to unite evangelize the world. He pointed to the great work Australia was now doing under the banners of the society as an incentive to Canadians to fall into line, and presented the cause of foreign missions, particularly in China, in a forcible and intelligent manner. He concluded a special appeal to Canada to furnish missionaries as well as missionary support by quoting from the epistle for St. Andrew's field. day the words, "And how shall they Mr. Stock next spoke of India. hear without a preacher? And how showing the vastness of the country shall they preach except they be and the density of its population. A

A children's missionary service was of His coming to earth to save sinheld in the afternoon in St. John's ners. The church society said to the (Stone) church. It was largely atpeople of Canada, send out some good tended by the young people connected with the various Church of England Sunday schools of St. John. The seropened with the hymn, Jesus going to speak this (Monday) evening Shall Reign, after which Rev. J. de Soyres offered prayer. A portion of the evening prayer was said, the music being appropriate to the occasion.

The address, which was delivered by Eugene Stock, was an interesting and sisters and brothers prayed. At and plain talk. Mr.Stock began with the mission school the boy learned the statement that he wanted the boys the true God. One day he went home and girls to take home with them and kneeling down in the room at a They were as follows: distance from the image, began to Luke xiv, 17th verse: pray. His father asked him why he two texts. They were as follows: "Come, for all things are now ready." did not pray to the image and received Second, St. Luke xii, 40th verse: "Be the reply that it could not hear pray-

therefore ready also." two texts after him, which was done must pray to the god of his foreseveral times. Then he asked them to tell him what word occurred in both texts and received the answer the word ready. That, he said, was right. He liked the word ready. He liked to see boys and girls and teachers ready. They would not have liked it if when they arrived at the church they had found it locked and had been told that the doors would not be thrown open for half an hour. They would have been disappointed if they had found it not ready. He supposed there was a time when St. John had no churches. Some good men met together and decided upon the erection of a church. They gave of their means sufficient to pay the cost of building it and arrangements were made for its construction. First, the site was selected, then the foundation was prepared and the edifice was built. The preacher showed how step by step the work went on till at last the church was ready. Then it was consecrated and give to Him. the clergymen announced to the public its readiness and asked them if Stock the four things he wished them they were ready. It was a great thing to do and then the texts given at the to know that God was ready and that opening of the address. God grant, he His Son, Jesus Christ, was ready. Was Christ not ready to come down on earth to be born of Mary? Was He not ready to be born here, nursed the doxology, and the benediction prohere, to grow up here, to learn to be a carpenter here, to work as a car-penter here, ready to leave the car-penter shop and go forth to teach the people, to heal the sick and cleanse unclean. Then he was ready to have his hands tied behind his back be taken before the high priests to be beaten and spat upon, tortured and ill-treated. He was ready in the insult to God to offer up such a prayer and in-treated. It was taken before the and not be possessed with a mission-early morning to be taken before the and not be possessed with a mission-Roman general, Pontius Pilate, and ary spirit. To pray "Thy will be done Roman general, Pontius Pilate, and

party after the ceremony, and Mr. and Mrs. Merritt left for an extended visit through the south and west.

The Canadian Order Decides to Cut Loose From the United States.

KN GHTS OF LABOR.

Montreal, Nov. 29.-At a meeting last night of district 19, Knights of Labor, it was decided to cut loose from the United States order and with other lodges form an independent Canadian branch. It appears the action was unanimous and had been decided upon for some time. The Can-adians have not been at all satisfied with the manner in which the heads in the United States transacted business, and the contemptuous manner in which Canadian delegates were treated at the last convention was the last straw which broke the camel's

Toronto, Nov. 29.-Considerable excitement was caused in labor circles here by the report from Montreal that the Knights of Labor had decided to secede from the general assembly and form a purely Canadian order. action on the part of the Canadian knights was unexpected, the complaints against the general assembly having all come from Ontario men.

It is now a foregone conclusion that the Ontario knights will also secede from the general assembly, and it is evident they will join Quebec and form a Canadian order. Already several nominations have been suggested for the offices which such action will leave open, D. A. Carr being mentioned as being likely to receive the position of grand master workman of

the Canadian order. The chief complaint against the general assembly has been the man ner in which the offices were held, many claiming that several applications were illegally made.

THE APPLE MARKET.

London, Nov. 25.-American apples are scarce in London, and the few being offered for sale are disposed of at an advance of two shillings a barrel. In Liverpool, Boston Baldwins fetched 12s 4d to 13s, today. Canadian greenings brought 13s to 14s 9d; Bald-Constantinople, Dec. 1.—It is stated wins, 13s to 17s 6d, and Kings, 20s to

FAMOUS FREDERICTON HORSE.

(Yarmouth Times.) A character well known in Yarmouth county died Wednesday in the shape of the old horse Sambo, who was chloroformed by his owner, Herbert Nichols. Sambo was raised in Fredericton, N. B., and was being trained for the track, but his feet were against him and he was sold to Capt. Robbins Raymond, who brought him to this but was for several years owned by Hood, R. H. Trefrey and Fred Peterwon a front rank and became the acthe county. We believe he never was beaten in this county. Years rolled on and he was sold out of the county and, when twenty years of age, won believe, 2.41, and made quite o for-

tunate pot of money for his owner. He was sold to Windsor and was won in a raffle by Herbert Nichols and brought back to Yarmouth to enjoy a quiet and peaceful old age. He was only used latterly as an occasional express horse for the Queen hotel, taking a few trunks to or from the rall-way station. Most of his time was spent in a little field back of the hotel, where he would look over the fence and gaze up to Main street hour after twenty-four years old, and his own mode of ruling, and is convinced that, having no further use for him, and not caring to have him sold where he might be overworked or ill-used, yes-terday had him chloroformed. His grave is close by the trotting park, where showler horses and speedier horses now in remown for Yarmouth, but it is doubtful if ever again one will for so many years uphold Yarmouth's flame against all-comers as ronestly as poor old Sambo, who always did his duty, whether drawing a hearse, a sulky, or a baggage wagon.

BEFORE A COMMITTEE OF THE HOUSE.

To the Editor of The Sun:
Sir—Early last summer a violent attack
was made by members of the liberal party
in Fredericton on Mr. Gibson of Marysville,
the railway bridge at that place having been
made the cause of war. The tempest had

ters received by him from Mr. Gray or anybody else. I knew of course that what Mr.
Gray had written to me would not be evidence in a court of law where individual
rights were in question, but I did think that
the declarations of a well known and disinterested man as to rates of freight on timber were quite admissible before a committee of the house.
While Mr. Davies was carrying on his
argument his face and action showed all
the scenic passion of the county advocate.
The chairman decided that the evidence was
inadmissable.
At this moment A. H. Gilmor, M. P.

The chairman decided that the evidence was inadmissable.

At this moment A. H. Gilmor, M. P., whom I had known many years, rose and said Mr. Jack must know himself the facts regarding this matter of freights from the facts own knowledge. To this I repiled by saying that I did, and accordingly gave the facts. Here the matter ended. Mr. Davies, who had meanwhile worked himself into a state of excitement over this trifle, allowed a species of discontented calm to settle on his face, which seemed to indicate that the bridge scandal of which he was in pursuit might after all be no scandal at all. All the while that this tempest in a teapot had been going on Hon. Mr. Foster stood at the head of the table seldom opening his mouth, but when he did every word that he uttered had its effect, his very calmness marking still more strongly the contrast which existed between the excited P. E. I. advocate and the statesman.

FAIRVILLE PRESBYTERIANS.

The Presbterians of Fairville for the first time have a building in which to hold divine service. It was opened on Sunday, Rev.W.W. Rainnie preaching the dedicatory sermon. Until a few months ago the Presbyterian people of this village attended service in Carleton or came to the city. Of course this arrangement was very inconvenient for them, especially in cold and stormy weather, and as a result many persons could not attend church nearly as often as they wished. Now all this difficulty has been done away with. They have a neat, comfortable hall in which they will meet every Sunday. It will hold about 400 persons and will answer their needs admirably for a time, but it is the intention of the Fairville people to build a church as soon as possible, probably next year. In case they do the building they now occupy will be used for a school room. Rev. J. R. Macdonald is pastor. He is an earnest, hard working man, and will no doubt build up a strong church.

The members of the new church feel very much indebted to the congregations of the Presbyterian churches in the city. From them they secured the reading desk and chairs, Bible lamps and carpet for the platform.

Venison is now selling for two cents a pound in Michigamme, Mich., but judging from the wholesale slaughter of deer now going on in the forests of that section there will not be any venison at all in the markets of Michigamme next year.

The Amherst News learns that R. Barry Smith, barrister, of Monoton, is about to remove to Sackville.

For Week Ending December 8.

PORT OF ST. JOHN.

Arrived.

NOTICE TO MARINERS. Tompkinsville, SI, Nov 25.—The following notice has been issued by the Lighthouse Board:

A third class spar buoy, red and black Board:

A third class spar buoy, red and black horizontal stripes, was placed on the 18th inst at Newport Harbor, RI, to mark the rock recently struck by schr Augusta E Herrick. The buoy is in 15 feet of water, on the SW side of and close to the rock, which has seven feet of water on it at law water, and is situated 350 feet SE½E from the SW corner of Old Colony south wharf.

Magnetic bearings, taken from chart No. 113 of the U S Coast and Geodetic Survey—Rhode Island Lighthouse, NW½W; Fort Adams fog signal, WSW½W; Lime Rock Lighthouse, SSW½W.

Halifax, Nov 25.—A despatch to the Marine and Fisheries department says the Blonde Rock automatic whistling buoy off Seal Island went adrift and was towed into Shelburne today. It will be replaced without delay.

New York, Nov 29—Capt Deakin of tug Mutual reports that Buoy No 2. Coney Island Channel is broken off close to the water's edge and is dangerous to navigation.

Patrons of the I. C. R. between St. John and Hampton, who patronize the train leaving the city at 10.10 p. m. standard, complain of delays. On a recent occasion the train was held between three and four hours for a thea-trical troupe, at another time forty minutes for a football team, and sometimes a train goes out so heavy that the engine cannot haul it over the grade in one section and so a delay is caused both to the passengers and to the down train which crosses this one at Nauwigewauk. It is urged that the train should not be overloaded at any time, and that when it is held over at any time due notice should be given.

toria, P. E. I., Wednesday evening, when A. E. McLean of Cornwall, son of the late Rev. A. McLean of Hampton, P. E. I., was united to one of Victoria's fairest daughters, Miss Carrie Hudson, daughter of Jabez Hudson. of the firm of Hudson & McQuarrie. The ceremony was performed at 7 o'clock in the Methodist church, Rev. G. W. Fisher officiating. A large number of people witnessed the happy event. The wedding march was beautifully rendered by Miss Bertle Lea. The bride, who carried in her hand a magnificent bouquet, was given away by her father. She was attended by Miss Mary Cameron of Augustine Cove, the groomsman being Frank Nelson of Cornwall.-Guardian.

Chas. Fawcett of Sackville shipped one car of hay to Sydney; J. A. Mc-Queen 1 car to Halifax; Jas. Patter-son 2 cars to Halifax; J. L. Black 1

McJUNKIN—At Weymouth Bridge, N. S., on Nov. 27th, Chas. McJunkin, after a severe illness.

aged 76 years.
WOOSTER—At Calais, Maine, November 22,
James E. Wooster, aged 66 years and 7 James E. months.

The death occurred at an early hour of Brooklyn, N. Y., who has been livinspector and represented the firm of Flint, Eddy & Co. of New York. A short time ago he inspected lumber at Warner's mil, but more recently at Cushing's and Stetson's mills. On Monday he attended to his duties as ing in St. John for the past few Monday he attended to his duties as usual, but was taken with a sudden attack of pleurisy on Tuesday, from the effects of which he expired Wednesday morning. He boarded at Mr. Burns's, near the Suspension bridge, and was atended by Dr. Doherty of Fairville. Mr. Cleveland was about 32 years of age and leaves a wife and several children in Brooklyn. His comparatively sudden death produced a deep feeling of regret among many here who knew him.

The public heard with surprise and egret on Nov.28 of the death of John T. Raymond, the Mill street grocer. eceased was a brother of W. E. Ray mond of the Royal hotel, and of Geo. Raymond of Hempton. His death was due to an accident he met with about a week ago. He fell backward from his express wagon and pulled a flicting some internal injuries. Mr. Raymond abut twenty-five years ago was steward of the Royal hotel, when it was on Prince William street. About 1880 he took charge of the Loch Lo-mond house and managed it for three years, then moving to Woodstock, where he spent two or three years. From there he went to Montana, re-turning here about six years ago and opened the store on Mill street. His wife, who survives him, with a son and two daughters, was a daughter of the late Dr. Ruddock of St. Martins. Mr. Raymond was a member of the Foresters. He has many warm friends A happy marriage took place at Vicwho will regret to hear of his sad death, and will extend their sympathy to the bereaved family.

A pretty wedding was solemnized or Nov. 27th in the presence of a number of the nearest relatives of the contracting parents, at the residence of Royalty. P. E. Island, says the Guardian, when her only daughter, Bessie, was united in marriage to Adelber S. Cairns of the firm of Cairns Bros., Charlottetown. The ceremony was performed by the Rev. Mr. Hamlyn. Miss Mary H. Evans was the brides-maid, while Lewis Whear supported the groom.

A special session of the Ch. of Eng. synod will be held at Trinity church schoolhouse on Tuesday, January 21, to consider the canons for the amalgamated Diocesan synod and Church so-

THE OUNCE AND THE STITCH.

The ounce of prevention that is worth a pound of cure; the stitch in time that saves nine—we all know the wise old saws which recommend them. Yet the baby, sitting alone on the floor, watches with interest, but with-out fear, the burning coals that have fallen out of the grate, and are just kindling a fire which may destroy the house—and its own silly little life. The baby has never heard of the ounce of prevention, nor of the stitch in time. And that mighty lot of peoplewe won't call babies—that have no practical knowledge of the ounce and the stitch; what shall be said of them? people who begin to shed their grey hair before cutting their wisdom hair before cutting their wisdom teeth? And the principle is so plain and apparently so obvious, too! are persons ever caught in the rain without umbrellas? Visitors from a without umbrellas? Visitors from a rainless country might be pardoned; but those accustomed to the climate of England? What of them?

"Up to the spring of 1892," says Mr. William Underwood, "my health had always been good. In fact, I was a strong man. At that time a change came upon me that I couldn't account for. My vigor and ambition seemed to be fading away; I felt languid, low, and indisposed to any kind of labour or exertion. At the pit of my stomach there was a heavy, sinking sensation, and after eating I would be seized with a dreadful pain in my chest, which would continue for over an hour. I had, indeed, so much pain, that I could scarcely hobble about. I kept on with my work, but it was with great difficulty. In this condition on November 27th of a Mr. Cleveland August, a lady friend from Birmingham called at my house, and I told her about my trouble. She listened

> me. I got a bottle, and after taking it for a few days, all pain left me; my appetite returned, and strength and ambition returned with it. Since that time I have enjoyed the best of health. My ailment was nipped in the bud by the remedy the lady induced me to use .- (Signed) William Underwood, Rosemary Farm, Castle Heding ham. March 30, 1893."

> We beg to congratulate Mr. Underwood. He is a lucky man. Although he may not have fully realised his condition, he was, nevertheless, on the di-rect road to an illness which might have laid him up for years, if it did not sooner have a fatal ending. For when the bud of indigestion develops into the ripe fruit of chronic dyspepsia, it runs into rheumatism, gout, kidney and heart troubles, and may easily set up bronchitis, pneumonia, or consumption. Thousands and thousand die every month in England of the maladies last named, who at first had nothing worse than what is care-lessly called "a little touch of indiges-tion." This little touch of indigestion is like the burning coals on the floor, the secret leak in the ship's bottom, the first stitches that give way in the seam, the unheeded crumbling of the foundation wall. Then the days of agony; the nights of sleeplessness and fear; the hopeless appeals to friends and physicians; the gradually but certain wasting away, until the end is reached, and pain and life vanish together.

Old proverbs are like gold leaf; they are hammered from the wisdom of ages—the experience of generations. The ounce of prevention and the stitch in time! Prevent chronic and dangerous consequences; put out the burning coals on the floor; arrest the beginnings of evil; cease to trifle with serious things. On the appearance of the earliest symptoms of disease nearly always of the digestion-take Mother Seigel's Curative Syrup and be thankful (as Mr. Underwood was), when you find the poison fruitage nipped in the bud.
