one of her last year's gowns to a ragged

was returned with the sad but heroic
statement that it was too full behind for
the present style, and wouldn't she take

for having an eye to business, and a short time ago, upon the death of a citizen, a friend went to old Cross-bones and asked him to go to the house and take dimensions for a coffin. The BEAUTIFULLY SITUATED about five miles from the city, and the drive presents a great variety of sceners.

The BEAUTIFUL & SPACIOUS GROUNDS at Maple Hill are admirably adapted for OUT. At a private party recently held in De

troit, a boy thoughtlessly drew a chair away from a corpulent gentleman who was about to seat himself, thereby letting him down on the floor in a very unplearant manner. A merry laugh greeted the unfortunate victim when the "joke" was discovered, which, however, was soon to be a sea of regret for it. discovered, which, however, was soon changed into a murmur of regret, for it was soon found that the gentleman was unable to rise. He was assisted into an adjoining room, where a physician, who was one of the guests, ascertained that the force of the fall had created a rupture, the effect of which will be felt through life.

There is akind of unexpectedness about absent-minded people which is exceedingly pleasing. We may be permitted to mention here the recent performance of a country clergyman who has a habit of a country clergyman who has a habit of forgetting things during his sermons, and, after seating himself, suddenly rising to utter them, with the preliminary remark: "By the way." He had got half way shrough an eloquent prayer when he hesitated, forgot what he was doing, and bestowed himself upon the clerical sofa without closing. But in a moment his memory returned, he jumped up, and pointing his finger at his rather surprised congregation, solemnly observed, "Oh, by the way—Amen!"

Steamer Falmouth from Halifax has brought the crew of schooner Maryland from Port Caledonia, C. B., for New Bedford, with coal, wrecked the third of August on Mary Joseph Reefs, 70 miles east of Halifax. Landing was made by the use of small boats. One of these was being unshipped for this purpose when the cry of fire was heard and the flames came with such force that a panic ensued. At once the passengers made a rush for the boat that was being lowered, crowding it full, when the tackling broke or became unhitched and all were precipitated into the river. The terror-stricken passengers were forced by the flames to jump overboard when Capt. Wood and his crew threw life-preservers calling upon those struggling in the water to seize them and save themselves. The people on shore did all they could to assist in saving life but their means of rescue were very unequal to the terrible extremity.
