of America, says that while a passenger from New York on board a ship going around Cape Horn, in the early days of emigration to Cal ifornia, he learned that one of the officers of the vessel had cured himself, during the voyage, of an obstinate disease by the use of

Ayer's Sarsaparilla. Since then Mr. LELAND has recommended AYER'S SARSAPARILLA in many similar

eases, and he has never yet heard of its failure to effect a radical cure. Some years ago one of Mr. LELAND'S farm laborers bruised his leg. Owing to the bad state of his blood, an ugly scrofulous swelling or lump appeared on the injured limb. Horrible itching of the skin, with burning and darting pains through the lump, made life almost intolerable. The leg became enor mously enlarged, and running ulcers formed, discharging great quantities of extremely offensive matter. No treatment was of any avail until the man, by Mr. LELAND's direction, was supplied with AYER'S SARSAPA-RILLA, which allayed the pain and irritation healed the sores, removed the swelling, and completely restored the limb to use Mr. LELAND has personally used

Ayer's Sarsaparilla for Rheumatism, with entire success; and, after careful observation, declares that, in his belief, there is no medicine in the world

equal to it for the cure of Liver Disorders, Gout, the effects of high living, Salt Rheum, Sores, Eruptions, and all the various forms of blood diseases. We have Mr. LELAND'S permission to invite all who may desire further evidence in regard the extraordinary curative powers of AYER'S SARSAPARILLA to see him person-Long Branch, or at the popular Leland Hotel, Broadway, 27th and 28th Streets, New York.

Be sure you're right (well supplied with cash), then go ahead. Remember that "two are company three is none," and don't take your mother-in-law along.

If possible, avoid quarreling before the first twenty-four hours. By some superstitious people a fight before the second sunset is regarded as a bad omen.

Do not make ungentle remarks when you discover that your angel's sunlit locks are not her own. She may reply by asking you why your nose gets sored when it is washed. Don't be afraid to say "my dear" to

battle of life has begun. The usual plan of preventing a gen eral recognition of your new condition, such as refraining from hugging and kissing in public, are of little use, as people have very sharp eyes; but there is a scheme which, though perhaps never tried, will, we are sure, work perfection. The Girl That Everybody Likes.

She is not beautiful—oh, no! Nobody thinks of calling her that. Not one of a dozen can tell whether her eyes are black or blue. If you should ask them to describe her, they would only say; "She is just right," and there it would end. She is a merry-hearted, fun-loving, bewitching maiden, without a spark of pany has made the Royal Baking Powder Comenvy or malice in her whole composition. She enjoys herself, and wants everybody else to do the same. She has always a kind word and a pleasant smile for the oldest man or woman; in fact, I can think of nothing she resembles more than a sunbeam, which brightens everything it comes in contact with. All pay her marked attention, from

rich Mr. Watts, who lives in a mansion on the hill, to negro Sam, the sweep. All look after her with an admiring eye and say to themselves. "She is just the right sort of a girl!" The young men of the town vie with one another as to who shall show her the most attention; but she never encourages them beyond being simply kind and jolly; so no one can call her a flirt; no, indeed, the

SENSATION AT OTTAWA.

(Boston Herald.) OTTAWA, Ont., Dec. 1 .- A sensation has been caused here, both in political and social circles, over the announcement that Major John Tilton, who commanded the Canadian team at Wimbledon last year, and who was recently appointed deputy minister of fisheries, has been guilty of grave irregularities in conducting the affairs of his office. A steamship has come down off the North Cornwall coast guilty of grave irregularities in conducting the affairs of his office. Some 14 months ago, Commander Boulton of the British navy was employed by the British government to make a survey of Georgian Bay. On returning to Ottawa a few days since, Boulton found that Tilton had been drawing his monthly pay in advance, which, although made payable to Maj. Boulton's order, had been changed by Tilton to bearer and appropriated to his own use. An immediate investigation has been ordered by the government, and it is believed that when the accounts of the department, of which Tilton had charge up to the time of his recent promotion, are examined, some interesting revelations will be disclosed in regard to his malfeasance in office.

For months past they had been busily employed in making up a variety of useful and fanor articles, nearly all of which were disposed of at very moderate prices at the sale which took place on Thursday last.

Considering the times there was a very fair attendance. The supper was first class in every respect both as regards variety and quality. Many of those who sat down to the feast provided, referred in the most complimentary terms to the ladies who had given evidence of such culinary skill. The supper and refreshment tables were generously patronized. During the evening instrum ntal must complete the worked next season. Which is sent free to every applicant. Here, too, the blood-thirsty red mite hide during the day, to rally around the fowls at night and terment them past endurance At times the writch ed fowls may be found humped up in a corner, slowly drained of their life blood by these miserable pests .-No flock can thrive when left to suffer from them.

And yet it is remarkably easy to free a house and a flock from them. Remove their hiding places and they seem to abandon the premises, or otherwise the fowls are able to free hemselves from their tormentors .-It is this that makes it peremp'ory to have no doors, no crevices, cleats, 15 0 pathes, or finely ornamental nests and other worse than useless trappings about a poultry house. A 18 8 smooth even interior, covered twice a year with hot lime wash, with p ain perches hinged to the scantlings at 175 the rear, so that they can be raised to the walls at once, is the very best arrangement possible. Then a week-21 7 ly clearing of the house with a can of kerosene oil and a barrel of lime left to air -slack slowly in a corner of the 27 8 shed, will secure perfect freedom from these vermin.
