

LIBERALS MAKE CLEAN SWEEP OF CANADA

O. TURGEON, M. P.

FOWLER DEFEATED IN KINGS-ALBERT

McAllister Trims Him to the Extent
of Three Hundred Votes---
Emmerson's Majority.

A HARD CRACK FOR HAZEN

ST. JOHN, N. B., Monday (Mid-
night)—New Brunswick spoke today
in no uncertain voice for Pugsley and
Liberalism.

Out of thirteen seats the Conserva-
tives succeeded in holding only two

These were St. John City, and York
County. Dr. Daniel's majority here
is greatly reduced, being only about
200, while Crockett carried York as
generally expected, by a majority
in the neighborhood of 1,000.

The Liberals gained Kings-Albert,
Queens-Sunbury, and Charlotte, and
retained Westmoreland, Kent, Carle-
ton, Northumberland, Gloucester,
Restigouche and Victoria-Madawaska.

The campaign of personal slander,
against H. R. Emmerson, was re-
flected by the electors of Westmore-
land when they rolled up a majority
of 1,400 for the former minister of
railways. Moncton city gave him a-
bout 1,000.

Fowler was defeated by over 300
in King's Albert and the electors of
this joint constituency regard McAl-
lister's victory as the greatest in Can-
ada.

Todd has a substantial majority
over Ganong in Charlotte.

Dr. Pugsley carries the city and
county of St. John by over seven hun-
dred. He failed to carry his run-
ning mate, but this was owing
to false canvasses made against Pen-
der and to the personal popularity of
Dr. Daniel.

The election in this province is the
beginning of the end of the Hazen
government. Despite all that they
could do, despite all their patronage,
only two Conservatives were elected.

Who was elected by the largest ma-
jority ever given any Can-
didate in Northumber-
land.

Campbellton, N. B., Oct. 26, '08

Honorable Dr. Pugsley,
Minister of Public Works,
St. John, N. B.,

"The slanderers have their answer. Restigouche Lib-
erals send congratulations."

The Morning Graphic,
Campbellton, N. B.

"Accept my sincere thanks for your kind congratula-
tions. It is, indeed a source of gratification to me that
we have won such a splendid victory in New Brunswick,
carrying eleven out of thirteen seats. The people have
given their emphatic verdict against the slander campaign
of our opponents."

MR. JAMES REID, IS AGAIN THE MEMBER FOR RESTIGOUCHE.

After one of the hardest fought
fights in the history of the County of
Restigouche, the Liberal member has
carried the constituency with a sub-
stantial majority.

CHATAM, N. B., Monday.—W. S. Loggie has been re-elected for North- umberland's representative by a ma- jority of over 1,300. The returns are not yet complete, but indicate Mr. Loggie's one of the largest votes ever polled in this county. Today an ex- ceptionally large percentage of elec- tors went to the polls.

Morrison only won out in his home
town, Newcastle, by 16 votes, and
Loggie had a splendid majority of
253 in Chatham. This is more than
100 greater than his majority here
over James Robinson four years ago.

The vote is a tribute to Mr. Log-
gie's personal popularity as well as an
indication of the people's satisfaction
with the present government.

This is the largest majority ever
given to a candidate in the history of
Northumberland. The nearest ap-
proach to it being in 1887, when the
late Peter Mitchell, Independent, won
by 746 votes.

The Liberal committee rooms was
the scene of much enthusiasm as the
returns were being received and an-
nounced.

Up to two o'clock this morning,
March, of Bonaventure, had a ma-
jority of 1178 with three places to
be won.

PORTLAND, MAINE, CHILD, III, Weak and Emaciated, Restored to Health by Vinol.

"Our little daughter, six years of
age, after a severe attack of measles,
which developed into pneumonia, was
left pitifully thin, weak and emaci-
ated. She had no appetite, and her
stomach was so weak it could not
retain food. She lay in this condi-
tion for weeks, and nothing the doc-
tor prescribed did a bit of good, and
we were beginning to think she would
never recover.

"At this time we commenced to give
her Vinol, and the effect was mar-
velous. The doctor was amazed at her
progress and when we told him we
were giving her Vinol, he replied, 'It
is a fine remedy, keep it up.' We did
so, and she recovered, her health and
strength nine months before the doc-
tor thought she could."—J. W. Flagg,
Portland, Me.

Vinol cures conditions like this be-
cause in a natural manner it increas-
es the appetite, tones up the digestive
organs, makes rich red blood and also
strengthen every organ in the body.

Vinol is sold in Campbellton by A.
McG. McDonald.

HON. H. R. EMMERSON,
Who was elected for Westmoreland by
over 1,400 of a majority.

Charlo, N. B., Oct. 25, '08.

To the Electors of Restigouche:—

"The battle has been fought and won. Through your
kindness, I have again been chosen to represent the County
of Restigouche.

"As in the past, I will use every effort to promote the
industry and development of our County. Any promise
made on behalf of the Liberal government will be faith-
fully carried out.

"The campaign just closed has been a clean one in ev-
ery respect, and I wish to thank my friends for their as-
sistance in making it such.

"Trusting that my conduct at Ottawa during the next
five years will be such that none will regret that they
support me in this contest, and again assuring you of
my hearty co-operation in anything which pertains to the
advancement of Canada and Restigouche, I remain,
Yours very truly,
JAMES REID."

LITTLE BOY WAS DROWNED AT ST. JOHN

Playing on Old Schooner at Marble Cove When He Fell Overboard.

WAS CARRIED TO SEA

(Special News Service.)

ST. JOHN, N. B., Sunday.—Little John Clark, aged nine, son of George Clark, was drowned on Saturday morning, at Marble Cove, while playing on the old schooner.

The accident was not witnessed by any one and the casualty was not realized for hours. The body was probably carried to sea.

NAVIGATION STILL COMPLETELY TIED UP.

MONTREAL, Que., Sunday.—Navigation is still completely tied up around Montreal, owing to the continuance of the dense fog. The mail steamer Virginia, which should have sailed yesterday, is still tied up at her berth.

LIGHT WAS NOT BURNING FOR DAYS.

MONTREAL, Que., Saturday.—An inquiry into the accident to the Algonquin line steamer, in which that vessel ran into a buoy opposite the city, goes to show that the buoy's light had been out for some days and that the marine dept. had not been notified by the men. The Algonquin may sue the government for the damage, and the vessel is still in the harbor.

LORD STRATHCONA IS IN USUAL HEALTH.

MONTREAL, Que., Saturday.—The Bank of Montreal has word from London that Lord Strathcona is in his usual good health. A sensational stock exchange rumor was circulated around Montreal that Lord Strathcona was dying in London.

ONTARIO TOWN WIPED OUT BY FIRE.

NORTH BAY, Ont., Saturday.—The new town of Matheson, formerly called McDougall's Chutes, Ontario, was wiped out by fire last night. The loss will approximate \$75,000 with no insurance. The cause of the fire is unknown.

SYDNEY RAIL MILL GETS BIG CONTRACT.

LONDON, Saturday.—Ralls have been ordered by the Southern Punjab Railway from the Dominion Iron and Steel Company, of Sydney, N. S. The Yorkshire Post says the exact price quoted has been communicated in confidence to some English firms who tendered and thus the secret is being pretty well preserved, but the price is said to be considerably lower than that at which the same firm is now supplying the same type of rails in the Dominion.

C. P. R. STEAMSHIPS MAY GO TO PACIFIC.

VICTORIA, B. C., Saturday.—In his speech last night at a banquet given by the board of trade, Sir Thomas Shaughnessy announced that the steamships, Empress of Britain and Empress of Ireland, now part of the C. P. R. Atlantic fleet, might shortly be expected at Vancouver, to take part in the Trans-Pacific trade.

MAN KILLED IN ST. JOHN.

Later Despatch Says Deceased Had Been Intoxicated and Roamed on Tracks—Fog Dense.

ST. JOHN, N. B., Sunday.—An unknown man stumbled on the street car tracks Saturday night and was run over by a car. His legs were both broken and crushed to pulp, and later in the evening he died in the hospital. Motorman Smith, who controls the car, states that the man was to come to see the car and it is believed that the deceased was intoxicated at the time of the accident. He gave his name as Hogan, of Pond street, but detectives are unable to secure information regarding him.

TUBERCULOSIS SERUM.

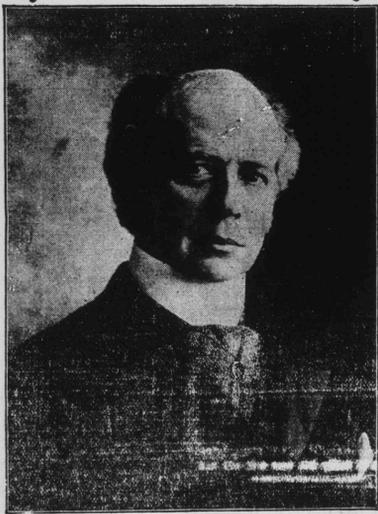

Remarkable Success Claimed for a French Professor's Treatment.

PARIS, Friday.—Prof. Lannelongue, a well known member of the Academy of Medicine, during three years' investigation of tuberculosis, has obtained results which he modestly describes as "satisfactory," but which several of his colleagues in the academy declare mark a noteworthy step in the campaign against consumption. The professor experimented with tubercular animals, treating them with a special serum. The results obtained were so successful that he decided to experiment on man.

"In making researches of this sort," said the doctor, "it is impossible to be too careful, and the results obtained by one man are not enough. It is why I confided my ideas to four other physicians, Drs. Comby, Lenoir, Negry and Kussel, so that they might practice the treatment upon their patients."

The experiments made upon human beings have been with serum of the donkey, and the results have been remarkable. The conclusions reached by the four physicians are favorable.

Had Given Up ALL HOPE OF LIVING.

Heart Trouble Cured by MILBURN'S HEART AND NERVE PILLS

Mrs. Andrew Savoy, Gratton, N.B., writes: "In the year of 1900 I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the best doctors but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world could believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law. One day a friend came to see me, and calling me by name, said, 'Listen, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good.' I was able to say, 'Yes, I feel a good deal better this morning.' He said, 'Well, I will get you another box right away.' I took two boxes and three doses out of the third one, and I was perfectly well and have not been sick since then. I will never be without them in my home for God knows if I had not been for Milburn's Heart and Nerve Pills, I would not have been alive now.' Price 50 cents per box, 3 boxes for \$1.25. The T. Messrs. Hazen, Mayes, Flemming have their answer. Eleven Liberals and two Conservatives. We wonder what Mr. Hazen thinks of this.

Mayor Montgomery's five votes were at Esd River side enough, but they had many more with them. Aspiring politicians should learn not to make themselves ridiculous by making such rash statements.

ONE OF MANY.

"Morrison's majority over Loggie will be unsurpassed in the history of the country. Pugsley's plunder will have little effect to change the issue."

—TRIBUNE, Oct. 8.

Morrison was buried under an avalanche of votes on Monday, from which he will find it difficult to extricate himself.

The Interprovincial bridge from Campbellton to Mission Point will be built, Thomas Malcolm says so.

LIVER COMPLAINT

The chief office of the liver is the secretion of bile, which is the natural regulator of the bowels.

Whenever the liver becomes deranged, and the bile ducts clogged, liver complaint is produced, and is manifested by the presence of constipation, pain under the right shoulder, yellow complexion, yellow eyes, slimy coated tongue and headache, heartburn, jaundice, sour stomach, water brash, catarrh of the stomach, etc.

Liver Complaint may be cured by avoiding the above mentioned causes, keeping the bowels free, and arousing the sluggish liver with this grand liver regulator,

LAXA-LIVER PILLS.

Mr. Geo. Fawcett, Hamilton, Ont., writes: "Having suffered with liver complaint for years and tried all sorts of remedies; I was advised to try Milburn's Laxa-Liver Pills. I took two after taking two vials of them, I feel quite a new man, and can strongly recommend them to anyone." Price 25 cents per vial or \$ for \$1.00, at all dealers or mailed direct by The T. MISSING MAN HAS BEEN FOUND

Sir Arthur Curtis, Discovered in the Wilds of British Columbia.

HIDDEN FOR TEN YEARS

WINNIPEG, Man., Saturday.—After an absence of over ten years, Sir Arthur Curtis has been discovered in the wilds of British Columbia, according to a story brought by T. W. Cole, one of the party with the British baronet when he mysteriously went off with an Indian guide while making his way to the Klondyke.

Despite most diligent search, no tidings of the missing baronet could be found at the time and eventually a skeleton was brought out by Indians which was identified by several persons as being the remains of the missing baronet. Cole asserts that he knew letters he left Vancouver that Curtis would disappear before reaching the Klondyke, on account of family complications in England, which Curtis told him had been the means of driving him to Canada, and making him trek northwards with the party engaged in the horse trade.

In support of the story told by Cole is the fact that within six months of the day Curtis left the party his wife, Lady Curtis, had applied for and received an order from the British consular authorities declaring the missing man dead, and shortly afterwards married Col. Robert M. Brady, an Irishman, with whom she had been intimate for

several years before the disappearance of Curtis, and who is alleged by many to be the real cause of the disappearance of Curtis.

Incidentally, the story brought by Cole from a sketch district was received but a few days before the provincial police had received fresh instructions from the Department of Justice at Ottawa to spare no pains to find the missing son of the British nobility.

Cole says Curtis is now living the life of a trapper and is virtually a hermit, living on what he can catch or trap and trading skins for such necessities of life as tea, tobacco, and flour.

The party with which Curtis went north was organized by Roger Peck, founder of the Legion of Frontiersmen and in "The Frontiersman," written by Peck, he takes full responsibility for having driven Curtis away by abusing him for his share of the work of the party. For some years Peck has been looked upon by many as having been responsible for the death of Curtis, but the story and the proof brought down by Cole, will clear him of the stigma, which has made his life miserable for the past ten years.

ADRIFT IN CANOE THIRTEEN DAYS

Two Indians Lost From a Sealing Schooner Had an Awful Experience.

HAD ONLY THREE BISCUITS!

VICTORIA, B. C., Monday.—A despatch from Ucluelet says the two Indians lost from the sealing schooner Thomas F. Bayard brought by the schooner Markland, Billy and his kluotchman, Louis "E. of Kyquoo, had an awful experience, being adrift in an open canoe for thirteen days with only three sea biscuits as food for ten days.

They had seven biscuits, four of which were washed overboard soon after they were lost from the schooner. No water was in the canoe.

The Indians allotted themselves one inch of biscuit a day and subsisted on this for nine days. Then rain fell and water was caught in the sail.

On the tenth day, when hope was almost gone, they killed a fur seal and cooked the carcass by making a fire in the bottom of the boat. A sprig of water was broken up and burned. The Indians snatched at the cooking meat and ate it partially cooked. They were famished, almost exhausted.

On the fourteenth day after they left the schooner they landed at Bristol Bay, inside False Pass, Unimak Island. While searching for water they came upon some bears and were frightened away. The canoe was overturned by the surf, the woman being caught beneath by her clothing. She was extricated with difficulty and both were washed ashore with the canoe, which was split by the pounding. It was patched with Billy's shirt, and for two days was kept afloat by constant bailing until a landing was made at an abandoned hut where two quarts of flour was found.

Here they lived for eight days. They went on after the supply was exhausted, living on parrotfish and fish left on the beach by animals and ultimately reached an Indian village.

They finally boarded the steamer Dora at Belkofski, and were landed at Unalaska, from where they were brought by the Markland.

Both were in a pitiable condition. Their hands and feet were swollen badly from exposure.

HOMESTEAD REGULATIONS.
 SYNOPSIS OF CANADIAN NORTH WEST.
 Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 28 not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.
 Application for entry must be made in person by the applicant at the Dominion Lands Agency or Sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, brother, daughter or sister of an intending homesteader.
 The homesteader is required to perform the homestead duties upon one of the following plans:
 (1) At least six months' residence upon cultivation of the land in each year for three years.
 (2) A homesteader may, if he so desire, perform the required residence duties by living on farm land solely owned by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.
 (3) If the father (or mother if the father is deceased) of a homesteader has permanent residence on a farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead erected for him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).
 (4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.
 (5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on a farming land owned by himself must notify the Agent for the district of such intention. Six months' notice in writing must be given to the Commissioner of Dominion lands at Ottawa of intention to apply for patent.

RUDYARD KIPLING'S ADDRESS ON THE DOCTOR'S LIFE

(By Rudyard Kipling)
 (Rudyard Kipling delivered a striking and characteristic address on doctors in London on Oct. 1, at the opening of the Middlesex Hospital School.)
 It may not have escaped professional observation that there are only two classes of mankind—doctors and patients. I have had a delicacy in confessing that I belong to the patient class ever since a doctor told me that patients were phenomenal liars where their own symptoms were concerned. But I should say that the average patient looks on the average doctor very much as the non-combatant looks on the troops who are fighting in his behalf. The more there are between his dearly-beloved body and the unkind enemy, the better the non-combatant is pleased. Medical students are trained men who in due time will be drafted into the permanently mobilized army which is always fighting, always under fire, against death. It is a little unfortunate that death, as the senior practitioner, is bound to win in the long run.
 But the non-combatants—the patients—conside themselves with the idea that it is, or will be, the business of the doctors to make the best terms they can with death on our behalf, to say how his attacks should be long, or delayed or diverted, and when he insists on driving the attack home, to see that he does so according to the rules of civilized warfare.
 Every human being, every savan human being—is agreed that this long drawn fight for life is one of the most important things in the world. It follows, therefore, that those who control this fight and those who will reinforce the army must be among the most important people in the world. Certainly the world will treat them on that basis.
 The doctor's Obligations
 It long ago decided that you have no working hours that anybody is bound to respect, and that nothing except extreme bodily illness will excuse you for refusing to help the man who thinks he may need your help at any hour of the day or night. Nobody will care whether you are in your beds or your baths, or on a holiday or at a church, or in a theatre. The little vitality you have accumulated in your leisure will be dragged out of you again. In all times of flood, fire, famine, plague, pestilence, battle, murder and sudden death it will be required of you that you report for duty at once, and that you stay on duty until your strength—which ever may be the longer period. These are some of your obligations, and I do not think they will grow any lighter.
 Have you heard of any recent legislation to limit your output, any bill for an eight-hour day for doctors? Do you know of any change in public opinion that will allow you not to attend a patient when you know that man never means to pay? Have you heard of any outcry against the people who could perfectly well afford to pay, but who prefer to cudge round the hospitals and get advice and glass eyes and cork legs for nothing? I have not. It is required of you at all moments to save others. It is nowhere laid down that you must save yourselves.
 That is to say, you belong to the privileged classes. You and kings are about the only people whose explanation policemen will accept if you exceed the speed limit with your motor cars. On presentation of your visiting card you can pass through the most urbiest crowd unmolested and even with applause. If you wave a yellow flag over a centre of population you can turn it into a desert.
 If you choose to fly a Red Cross flag over a desert you can turn it into a centre of population toward which, I have seen, men will crawl on their hands and knees. You can forbid a ship to enter a port. If you think it necessary to the success of an operation you can stop a 26,000 ton liner with her mails in mid-ocean till the operation is concluded. You can tie up the traffic of a port without notice. You can order whole quarters of a city to be pulled down or burned, and you can count on armed co-operation to see that your prescriptions are efficiently carried out.
 Orders Seldom Disputed
 We poor patients do not often dispute your orders unless we are frightened by the long continuance of an epidemic. In that case, if we are uncivilized, we say that you have poisoned the drinking water for your own purposes, and we throw stones at you. If we are civilized, we do something else; but civilized people can throw stones, too.
 You have been exposed, and you always will be exposed, to the contempt of the gifted amateur, the gentleman who knows by intuition every thing that has cost you years of study. You have been, and always will be, the object of the scorn of those persons who consider their own undisciplined emotion more important than the world's most bitter agonies—the people who would hamper you with their amateur research because they fear that it may be accomplished by a little pain and suffering. Such people have been against you from the beginning, ever since the earliest Egyptians erected images in honor of cats and dogs on the banks of the Nile. But your work goes on and will go on. You remain now perhaps the only class that dares tell the world that man can get no more out of a machine than he puts into it, and that if the fathers eat forbidden fruit the teeth of the children will be affected.
 Your training shows you daily and directly that things are what they are, and their consequences what they will be, and that people deceive nobody but themselves when they pretend otherwise. Better still, you can prove that you have learned. If a patient chooses to disregard your warning, you will not have to wait a generation to convince him; you know he will be glad in a few hours or weeks to call you, and you will find your careless friend with an eruption on his side, or visions in his head, precisely as you warned him would be the case if he continued in his errors. Have you considered what a tremendous privilege that is?
 In a day when few things are called by their right names, when it is against the spirit of the time even to hint that an act may entail consequences, you are going to join a profession in which it not only pays to tell the truth, but in which you will be paid for telling it. Realizing these things, as I have had good reason to do, I do not think I need talk about the high ideals and the lofty ethics of a profession which exacts from its followers the largest responsibility, and the highest death-rate for its practitioners, of any profession in the world. I will only wish for your future what all men desire—enough work to do, and the strength enough to do the work.
