## BELDING PRESENTS CASE OF THE MARITIMES HERE

### Auditors Make Some Pointed Remarks In Report On Town Finances

#### Report For The Year Is Now Presented

Many Recommendations Made—Annual Assessment Should Be Large Enough To Provide For Years Requirements—Electric Light Rates—Financial Status of Town None Too Good—Auditors Score Tax Defaulters For Lack of Civic Pride—Say Council Underserving of Criticism—Definite Yearly Program and Street Economy Needed.

The Town Clerk placed a copy of the auditors report of the Town of Campbellton in our hands yesterday morning for publication and we present it herewith.

Saint John, N. B., June 14, 1925. The Mayor and Council of the Town of Campbellton, N. B. Gentlemen:

We have completed the annual audit of the books and accounts of your Town and have pleasure in handing you herewith our report upon the results of our examination, together with remarks and comments bearing upon certain conditions; we also present our views and recommendations regarding matters which we deemed of sufficient importance to bring to the notice of your Council at this time.

The audit of cash revenues and expenditures of funds showed that all receipts had been deposited in your Bank Accounts and all disbursements were made by cheques supported by authorization and voucher. Outside of some small adjustments the ledger books accounts were found to be correct.

We carried out a physical count and examination of the sinking fund and find that they are in agreement with the amounts called for by the books; these amounts however are not the correct sums that should be on deposit to make the fund actually adequate to requirements.

\$23,500 Needed Annually. It should be noted that only the proportional amount of the taxes collected has been deposited in sinking fund in the past, whereas the right procedure is to deposit the actual amount per annum that would yield sufficient to liquidate the bonds outstanding when they mature. In the case of your Town's obligations you are now supposed to put aside about \$23,500 annually from 1924 until your various outstanding issues are due.

Electric Light. Your Electric Light Committee recently requested us to suggest means of taking care of the recording of the lighting accounts in your office, under the new hydro system; we were also engaged to recommend methods whereby collections could be properly handled. We have gone into this carefully and in a special report to the Committee, have detailed our recommendations for the proper records and methods to be used to best advantage. We have also submitted a schedule of rates for power and for Commercial and Lighting Service which, though experimental at this time, we regard as the safest initial schedule.

We also believe that it might be an advantage to have a separate bank account for the Light Department.

and a surplus secured if possible. We estimate so that there will be sufficient revenue to ensure a surplus of \$10,000 over current requirements; this plan should continue for some years to reduce the current deficit in the form of permanent overdraft.

\$1,500 Overpaid. On checking up the settlement with

#### SAD FATALITY AT CHARLO LAST WEEK

Young Man Believed Drowned While On Vacation There—Boat Found After Squall

The first drowning accident of the season on the North Shore is believed to have occurred at Charlottetown on Wednesday of last week, following the disappearance of Ernest J. Lewis, of Montreal, who was spending a vacation there, and the discovery, by fishermen, of the sail boat in which Lewis was seen putting out to sea. Details of the incident are meagre. It appears however that the young man started out for a sail on the bay in a boat he had hired, taking with him a dog as his only companion. Shortly after a heavy squall came up and later the capsize boat was found nearly two miles from the shore. No trace of the unfortunate young man or his canine companion was found. For the past week parties have been grappling in the vicinity of the accident in the hope of recovering the body but up until press time the search had proved futile.

The deceased young man, who was 18 years of age, lived with his parents, Mr. and Mrs. John Lewis of Verdun, P. Q. and was in the employ of the C. N. R. there as a railway mail clerk. In the social circles of his home city young Lewis was very popular and highly respected by all who knew him. He was a leader in Boys' Work and was Assistant Scout Master in the 178th Verdun Troop. The young man's parents were notified of the sad occurrence and arrived in Charlottetown on Friday morning. Since then they have been exerting every effort to recover the remains of their loved one.

#### LOCAL SCHOOLS CLOSE NEXT WEEK

Closing Exercises of High School On Monday Evening—Others Close Tuesday Morning

The Closing Exercises of the Campbellton High School will be held in the Assembly Hall of the Grammar School on Monday evening at eight o'clock. Although not yet ready for publication an interesting program is being arranged and all are cordially invited to attend.

The other schools of the town will hold their usual closing exercises in the several departments on Tuesday, June 30th, at 10 a. m. The public is invited to attend these exercises.

#### Town Topics

Tid-bits on the Tip of Everybody's Tongue

Vol. 2 No. 41 CAMPBELLTON JUNE 25, 1925 FREE

#### In Prizes

Prizes that are really more important than the money they represent, for instance: A Ford Sedan, a Shetland Pony, a Cleveland Bicycle.

No wonder there is enormous interest in the Puzzle.

ANNUAL OUTING AND FIELD DAY ON JULY 1ST. The Picnic Grounds at New Mills will be the rendezvous of a happy gathering on Wednesday next. Dominion Day, when the annual picnic of the Sunday School of the R. C. Church is held on the sea-shore there. Various out-door sports will combine to make the event a most enjoyable one and a regular Field Day will be held. Those making arrangements for the outing have made it plain that all those wishing to attend the picnic are cordially invited to come along and bring their friends.

#### THROW IN LOT WITH THE UNITED CHURCH

Winnipeg, June 22—Eighteen Presbyterian churches in the Greater Winnipeg district voted yesterday to enter church union. In most cases the majorities were overwhelming. Of a total of 11,000 votes cast, only 707 were cast against union, according to the announcement last night by the committee of the Manitoba Presbytery, which handled the voting arrangements. The committee was headed by Dr. J. A. Corrie, superintendent of Presbyterian Missions in Manitoba.

### SPEAKS BEFORE ROTARY AT THE CHATEAU RESTIGOUCHE

CHAMPIONS MARITIMES

A. M. BELDING Of St. John, who gave an able address on "Maritime Rights" at the Rotary Club Luncheon, at Chateau Restigouche here, today.

Noted Exponent of Maritime Rights Outlines Need Of The Present In Order That Greater Spirit Of Sympathy May Prevail Throughout Canada and Sectionalism Become Thing Of The Past—Economic Policy Essential—Large Gathering Attend Luncheon—Fine Musical Program.

#### SWEEPSTAKE SET FOR SATURDAY

On Restigouche County Club Golf Course—A Large Entry Is Expected

The Restigouche County Club will hold a Sweepstake on Saturday June 27th, for gentlemen players. This is the first of a series of competitions based on the players handicaps and a large entry is looked forward to. Every one will have a chance to win as there will be a "sealed hole". Those entering this competition will please give their name to Mr. Taylor the Pro. who will give particulars as to the play.

#### 85 WRITING H. S. EXAMS. HERE

2000 Candidates Taking These Examinations Throughout The Province This Year.

Over two thousand candidates are writing the High School entrance examinations which commenced today in New Brunswick at practically every grammar and superior school in the province.

In Campbellton there are 85 candidates writing these examinations. This is considered a very large number for this district.

In Fredericton the number of candidates is larger than usual, one hundred and ninety-eight presenting themselves for examination at the Provincial Normal School this morning, where the examinations are being written in the assembly hall.

Of this number seventy-nine are non-residents of the city, chiefly from the Marysville, Devon and Nashwaak schools. Last year there were one hundred and seventy candidates, of whom sixty-two were non-residents of Fredericton.

#### LOCAL BOY WINS NOTABLE HONORS

Dr. Lawrence Fitzmaurice One Of Three Canadian Boys From McGill Sent To China This Year.

Dr. Lawrence Fitzmaurice, son of Mr. and Mrs. W. R. Fitzmaurice, left last Thursday night for Montreal en route to Peking, China, where he will enter the Peking Union Medical College as an intern for one year.

Dr. Fitzmaurice is a graduate of Campbellton High School and completed his medical course at McGill University this spring, graduating with aggregate honors and coming fourth in a class of 82 students. He also enjoys the distinction of being one of the three Canadian boys from McGill to be sent to the Peking Medical College this year by the Rockefeller Foundation.

The writer joins this promising young man every success in his studies and one that should mean much to his later progress in his chosen profession but we trust that when the year is up, his choice will bring him home again.

#### Co-operation

The speaker also mentioned the fine spirit of sympathy he had witnessed on his trip across Canada last fall in the interests of the Maritimes and de-

(Continued on page 8.)

That an economic policy, based on the various needs of the various Provinces, must be evolved, was the outstanding statement made by A. M. Belding, Editor of the St. John Evening Times Star and noted exponent of Maritime Rights, in an able address on this subject delivered before the Rotary Club at the luncheon hour today in Chateau Restigouche.

A Fine Gathering. The spacious Dining Hall of the Chateau Restigouche was the scene of a large and representative gathering of the business and professional men of Campbellton for the occasion of Mr. Belding's visit. Some sixty Rotarians and guests were present. Good music, consisting largely of spirited Rotary songs, enlivened the luncheon hour and two solos by Mr. Lansdowne Belyea were much enjoyed and heartily applauded. Miss Doiron presided at the piano.

The Only Way. Rotarian A. A. Andrew was the chairman at today's luncheon. He introduced the speaker as all guests took their places about the table and Mr. Belding was given a hearty welcome.

On rising to address the gathering the speaker briefly outlined the problem confronting Canada today, pointing out that the question was a very complex one owing to the Dominion being made up of four different sections each laboring under difficulties peculiar to itself.

Mr. Belding was not backward in declaring that a solution was beyond mere government machinery. It was up to the business men of Canada to work out an answer, apply the remedy to existing conditions, and build up a strong national spirit.

Exodus To U. S. Mr. Belding spoke in plain terms about the increasing emigration to the United States and declared that this must be stopped. The main difficulty however in dealing with this phase of the matter was that in Canada we have nothing to offer those who are leaving us. Not until we find a way to provide opportunities here can we hope to put a stop to this increasing drain of our own people.

Maritime Conference. The speaker referred hopefully to the coming maritime conference which will take place in Montreal on July 15th. He explained that representatives of all Boards of Trade in these three provinces were urged to attend, business men, representatives of our industries and Rotarian and other public-spirited bodies were also invited. He expressed the hope that Campbellton would be represented at this big round-table conference and stated his belief that much good would come of the discussion. At this conference delegates would be chosen to represent the Maritimes at the National Conference being arranged for this fall and at that time we would be able to speak with one voice and not as three individual provinces.

Other Matters. Mr. Belding also outlined the existing difficulties in connection with Maritime industry. He urged the promotion of dairying, the development of manufacturing from our own rich resources for foreign markets and the need of greater enterprise and initiative generally. He expressed much hope in the development of Maritime trade with the West Indies and Central and South America and felt sure that if better steamship facilities can be secured between these southern ports the benefit to industry here would be far-reaching indeed.

The speaker also mentioned the fine spirit of sympathy he had witnessed on his trip across Canada last fall in the interests of the Maritimes and de-

(Continued on page 8.)

ing him every success.

The same good tea for 30 years.

Versatile Ladies' Quintet

### VERSATILE LADIES' QUINTET

Versatility is the keynote of the program to be presented on the opening afternoon and night of the coming Chautauqua by the five young ladies, Misses Armstrong, Hall, Kurtz, Cody and Brewer.

Singers, whistlers, musical saw players, harpists, pianists, readers, are included in the personnel. Group numbers and a feature consisting of community singing of the old familiar songs led by the quintet are also very popular.

All these young women are exceptional artists and have been carefully selected by the Studio Director of the Swarthmore Chautauqua Association for their ability to fit into ensemble work. The blending of their voices is said to be exceptionally fine. Charming folks personally, you will like them on sight and better longer they stay with you.

### MEMBER FOR BONAVENTURE AGAIN DISCUSSES THE GASPE RAILWAY PROBLEM

Hon. Chas. Marcell Brings Up Matter In House And Makes Strong Plea For Some Action—Discloses Some Interesting Facts—Pleads For Progress And Development Of The Coast.

In the House of Commons last week Hon. Chas. Marcell, Federal Member for Bonaventure County made an earnest and eloquent plea for the purchasing of the two Gaspeian railways by the Government. In the course of his remarks he pointed out many of the difficulties under which these railways had been laboring and pointed out the importance of a satisfactory solution as it will affect the industrial development of the Gaspe Coast. Mr. Marcell's speech will be of interest to all readers in the Gaspe Territory and for that reason we reproduce it below:

**Made Some Progress**  
Mr. Speaker, I want to crave the indulgence of the House for a few moments to refer to the interest that prevails in the province of Quebec at the present time with respect to the circulation through the newspapers of news items to the effect that a question which I had the honor to submit to the House during the course of last session had finally been settled. I refer to the inclusion in the Canadian National Railways system of the two Gaspeian railways, the Quebec Oriental and the Atlantic, Quebec and Western.

These news items circulated from the capital have evoked considerable interest among the people whom I have the honor to represent, but I regret to say that as yet the question has not been solved in this satisfactory way. We hope, however, that before long a solution will be found. I am glad to be able to state that since the matter was last discussed in the House considerable headway has been effected.

**Visited Peninsula**  
The Board of Railway Commissioners has visited the Gaspeian peninsula for the purpose of holding an investigation into the matter, and I had the honor in the month of October last of accompanying Mr. Justice McKeown and Mr. Commissioner Lawrence and their staff during the course of that investigation. The commissioners stopped at every station, listened to the representations of the people interested, and gave them encouragement to think that a solution might be brought about under the Railway Act. A few days after the opening of the present session the Prime Minister and three of his colleagues, the Minister of Railways (Mr. Graham), the Minister of Justice (Mr. Lapointe) and the Minister of Health (Mr. Bland), were kind enough to grant an interview with the premier of Quebec, represented by Hon. Mr. Perron. His Lordship Bishop Ross of Gaspe and some of the leading people of that part of the country. The argument made by His Lordship Bishop Ross for the taking over of these railways by the government was that Sir Henry Thornton had come to a decision, based solely upon revenues and expenditures, without taking into account the general considerations which presumably would influence the government. Sir Henry Thornton had in effect made a proposal to the proprietors to take over their railways on certain conditions, which the latter did not think proper to accept. Therefore the deputations asked the Prime Minister and his colleagues if they could not find a solution for this long-standing problem. When these railways were completed in 1911 it was understood that the Laurier administration contemplated taking them over and merging them with the Intercolonial. An effort was made during the Borden regime to have this given effect to. When the late Mr. Cochrane introduced his measure for the inclusion of two hundred miles of branch lines with the Intercolonial railway, practically every line in New Brunswick was taken over, and one or two in Quebec, but these two lines were left on one side.

**Gaspe Settled First**  
During the war no progress was made in the matter, but when the new administration came into office in 1921 the people of the Gaspe peninsula felt that another effort should be made to secure for themselves some share of the benefits to which they were entitled. It must not be forgotten, Mr. Speaker, that the Gaspe peninsula is the oldest settlement in the Dominion; within a few years four centuries will have elapsed since Jacques Cartier landed at Gaspe. The people of the peninsula have contributed their share

to the upbuilding of Canada, including the construction of the railway system of this country, and they feel that they are entitled to that fair consideration which up to the present has not been extended to them.

**Fair Price Sought**  
I am glad to know that through the breaking down of the discussion between Sir Henry Thornton and the proprietors of these two railways, another attempt is being made to try to bring the parties together through the good offices of Mr. Justice McKeown, who has been asked to express an opinion, as a result of the investigation he made of the lines, on what would be a fair and reasonable amount to be paid. The government takes the position that owing to the financial condition of the country it is out of the question for the Canadian National Railway System to buy the two railways, but that if Sir Henry Thornton was prepared to lease them on terms acceptable to the proprietors and the railway commission, probably the government would raise no objection.

I mention these facts, Mr. Speaker, and I wish to take this opportunity on behalf of my constituents of thanking the premier of Quebec and his colleagues for their active interest in the matter; His Eminence Cardinal Beaudry for the advice he has given us; His Matapedia to Gaspe, and as Sir Wilfrid Laurier said in 1911, that to make these railways pay they should be linked up with the Intercolonial. The Commons representing both sides of the Gaspe peninsula have been able to give these two railways have been able to give them in operation so long, and that it has not been possible long ago to merge them with the Canadian National Railway system.

**Improved Service**  
These two railways with the limited resources at their disposal have given a much improved service during the last two years, and the railway commissions has made a very favorable report on their operating efficiency. But by the mere fact of being isolated, these two railways are unable to give those through rates to the inhabitants that would be possible if they formed part of the Canadian National Railways.

**Some Timely Facts**  
They have to contend against water competition during six months of the year, and under the arrangement made at the time the railway subsidies were voted in 1911, they have carried the mails for the past fourteen years every day year in and year out over a distance of 130 miles along the dreary Gaspe coast without receiving one dollar from the government of Canada for the service. Notwithstanding this the service has been kept up as best it could, but it has never answered the requirements of these two counties and our industries have left us one after the other. The province of Quebec Lumber Association went over to Bathurst. An effort is now being made by Bishop Ross and the clergy of the province of Quebec to open up new agricultural areas in the Gaspe peninsula for the purpose of keeping the people at home. Our young Canadians there are now migrating to the cities and to the United States. We want them to remain on the homesteads, and be agriculturists as their fathers were before them. This Gaspe peninsula will never be peopled by other than those who inhabit that area or their descendants, for immigrants from Europe would never consider taking up land in the Gaspe peninsula. They would rather go into the settled part of Canada or to Western Canada. So we consider that every family leaving this Gaspe peninsula is a loss to Canada, and while we are spending money abroad for the purpose of bringing immigrants into this country, for want of proper facilities, for want of proper communication with the main markets of this country we are allowing these people to go away, and they will never return.

The population of this country in the first ten years I had the honor of representing it, at the time we had all these industries in Bonaventure, increased by some five thousand but in the last decade, after these industries dwindled, and the natural increase was only eight hundred.

**Makes Earnest Plea**  
Now the time has come to bring about a solution of this difficulty. Sir Henry Thornton has expressed his great optimism for the future of the Gaspe Peninsula. He has visited the district himself. He knows the value of its timber limits of 10,000 square miles; he knows the value of its fisheries, he knows the value of its mineral, and he is willing, if an agree-

### NERVES AND FAINTING SPELLS

Sent Woman to Bed. Great Change After Taking Lydia E. Pinkham's Vegetable Compound

Sarnia, Ontario.—"After my girls were born I was a wreck. My nerves were too terrible for words and I simply could not stand or walk without pain. I suffered with fainting spells until I was no longer any good for my household duties and had to take to my bed. The doctor said I should have an operation, but I was not in a fit condition at that time. My neighbor said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' I am sure it will do you good and will save those doctor's bills. So I was advised by my husband to try it after I told him about it. I am very thankful to say that I was soon able to take a few housework for a while as rooms were scarce at that time. My baby is 17 months old now and I have not yet had an operation, thanks to your medicine. I have recommended the Vegetable Compound to a few people I know and have told them the good it has done me. I know I feel and look a different woman these last few months and I certainly would not be without a bottle of your medicine in the house. You can use this letter as you see fit, as I should be only too glad for those suffering as I have to know what it has done for me."—Mrs. ROBERT G. MACGILLIVRAY, R. R. No. 2, Sarnia, Ontario.

A recent canvass of women users of the Vegetable Compound report 98 out of 100 recovered beneficial results. This is a remarkable proof of its merit. O

ment can be brought about with these companies to take over these roads and operate them as part and parcel of the Canadian National system as they were intended to be operated from their very inception, and as was announced here in 1894 in this House when at the request of Sir Hector Langevin and Sir Charles Tupper monies were voted for the building of a branch line of the Intercolonial from Grace Bishop Ross for speaking a freed Laurier said in 1911, that to make these railways pay they should be linked up with the Intercolonial. The Commons representing both sides of the Gaspe peninsula have been able to give these two railways have been able to give them in operation so long, and that it has not been possible long ago to merge them with the Canadian National Railway system.

We are not asking for the construction of new railways, as we are obliged to vote new branch lines for the west; we are merely asking that 200 miles of constructed railway to which the Dominion of Canada and the provinces of Quebec have contributed in land and money subsidies to the extent of four million dollars be so utilized as to give those people free and fair access at reasonable rates to the central markets of the country. Sir Henry Thornton has declared that if he took over these railroads to-morrow he would have cut down the railway rates 25 per cent, which is an admission that the people of Bonaventure and Gaspe have been paying rates on their products for many years past 25 per cent above what is paid on the main line of the Canadian National railway.

I shall say no more, but for all these reasons, Mr. Speaker, I hope that when this report is received from Mr. Justice McKeown, if an agreement can be brought about between Sir Henry Thornton and these two companies, the government of Canada will seize the opportunity for the purpose of bringing about a solution of this long standing trouble.

### ANOTHER BIG HIT On The Chautauqua Program

Petrie's Singing Band

### PETRIE'S SINGING BAND

The Swarthmore Chautauqua Association has chosen for the popular music program Petrie's Singing and Novelty Band. This band can boast of more artists than any band traveling today, for each and every man will appear some time during this program as a soloist. There will be saxophone duos and trios; trombone duos, cornet solos and duos, piano solos and xylophone solos. Can you imagine so many special features in an evening's program? The entire first part of this program will be given by the novelty band, dressed in their natty tuxedos. Second part by this band in their new specially designed band uniform. A special feature of this program is the "Parade of the Wooden Soldiers" as shown in Balieff's "Chauve Souris" a Russian production direct from Paris and London and which has a long run at the Century Roof Theatre, New York City, also Garrick Theatre, Chicago. These wooden soldiers have proven a big sensation every where, in fact, they are one of the biggest "hits" ever seen on the American stage. This act is done by nine young men. The producer and director of this band is Mr. Harbers Petrie, who has spent several successful seasons on Chautauqua circuits. Mr. Petrie knows well how to please a Chautauqua audience as shown by the selection of the personnel and the coaching of his band. Their appearance on the Chautauqua program means plenty of real hand music. It means unusual ensemble singing—splendid timbre, studied tone, quality, real artistry. It means some dead, drier fun that will bring a laugh from the kindergartens on the front row to the grown-ups further back, and all between. A Band, a Glee Club, a Minstrel Troupe, all in one!

Nomination Meeting at  
Caracquet, June 25

Bathurst, June 23.—A meeting of the supporters of the Liberal government was held in the party headquarters here Friday evening. The meeting was called to order at 8.30 o'clock with C. T. Richard, President of the county executive in the chair. Donald Fraser was elected to act as secretary of the meeting.

Mr. Richard in a brief speech, outlined the object of the meeting, which was to select delegates to represent the party at the Liberal convention being held in Caracquet on June 25. He also gave a report on the work done by the headquarters staff up to the present time. The meeting then proceeded with the election of delegates.

The following were selected to attend the convention at Caracquet:

Town of Bathurst: W. G. Fenwick, John T. Leger, James Connolly, James P. Whalen, F. O. Landry; Alternates: Thomas Palmer, Jack Lorden, Arthur MacKenzie, Don-Cormier and Frank Doucet.

West Bathurst: H. A. Melanson, Charles Picot, Edwin Baldwin, Achille Canty. Alternates: William F. Hachey, George Auben, Joseph P. Berpin. East Bathurst: Peter Boucher, Arthur Beaulieu, Lawrence Roy. Alternates: Thomas Bourgeois and Frank Boucher.

South Bathurst: Bert Branch. Alternates: James Lavigne and Edmond Duguay.

Tete-a-gouche: James Callahan, Amos Henry, George W. Willett. St. John's: Thomas Henry Willett. It was agreed that the delegates from each division of the parish carry on the work of organization in their respective divisions with power to add to their number. Following this the meeting adjourned.

## HELD FOR ROBBERY OF CHATHAM MAN

Henry Warren Assaulted and Robbed  
By Montreal Thugs.

Montreal, June 20.—Charged with holding up and robbing Henry Warren of Chatham, N. B., early this morning, William Martin, alias Weir, of Glasgow, Scotland, and James Miller, of Vancouver, B. C., were arraigned this afternoon and voluntarily statement set for June 23.

Evidence given at the enquiry was to the effect that Warren, who arrived in Montreal Thursday night, met the two accused, who offered to find him a place to sleep. Warren declared that he was led into a trap, struck by one of the men and robbed of \$6.

The men ran away but were captured by a constable who was passing the scene.

## WILL TRY TO SEND SPECIAL PROGRAM TO SOUTH AFRICA

KDKA Will Broadcast on Prince of Wales' Birthday

Pittsburg, June 23.—Station KDKA Pittsburg will attempt to transmit a special radio program to station JEB at Johannesburg, South Africa, June 22. It is announced by C. W. Horne, superintendent of the Westinghouse Electric and Manufacturing Company's radio operations. The program is to be a part of the celebration of the 51st birthday of the Prince of Wales. The programme will begin at ten-thirty eastern standard time. If the signals go through, Mr. Horne said, it is expected that the Prince will reply at about 11 p. m.

The birthday of the Prince is June 23. According to South African time KDKA will be transmitting at 5.30 a. m. June 23.

## ANNUAL CONVENTION OF MEDICAL SOCIETY VERY SUCCESSFUL

Doctors Well Pleased With Results of 45th Annual Meeting—Scientific Papers of High Order And Entertainment Superb—Dr. A. Sormany New President—Over Fifty Physicians Attended—Local Doctors Speak—Big Public Meeting Ends Assembly.

The forty-fifth annual convention of control of venereal disease. The New Brunswick Medical Society speaker is here at the request of the convention held on Thursday of last Canadian Social Hygiene Council. He week after one of the most enjoyable said that venereal disease control was and successful meetings in its history. Only one phase of social hygiene considerations. Sound health, the speaking societies were arranged and Dr. er said, was the birthright of every J. R. Nugent, the secretary, voted man, and to insure and maintain the good health of an individual or of a community, knowledge of the social diseases and the rigid application of that delivered by Dr. Frank H. Lahey, preventive measures were required, F. A. C. S., Boston, on Diseases of the he said.

The feature address of the day was delivered by Dr. Frank H. Lahey, preventive measures were required, F. A. C. S., Boston, on Diseases of the he said. The papers and discussions during the morning and afternoon business session were of a high order and elicited much laudatory comment.

Dr. A. Sormany, of Shediac, was chosen the new president of the association and Moncton as the next meeting place, at this morning's session.

**Big Public Meeting**  
A largely attended public meeting here Thursday was addressed by Dr. R. E. Woodhouse, of Ottawa, Dr. Beaudoin, of Montreal, and others. Special stress was laid by the speakers on public health work.

The visiting doctors who numbered about 60, were guests of the local Rotary Club at luncheon at the Chateau Bastogne at noon. The delegates from the more severe forms of social diseases was shortened by one third, the doctor declared and intimated for the which the local committee prepared and carried out its part of the program.

**Morning Session**  
At Thursday morning's session officers were lectured, and the treasurer's report, omitted at the Wednesday session, was read and handed over to an auditing committee.

Under deferred business the matter of subordinate medical societies was again brought up, and Dr. Abramson acting as chairman of the committee on the matter, read a series of suggestions and recommendations drawn up by the committee and along which lines the organization of such societies could be effected.

**To Meet in Moncton**  
The suggestions included dividing the province into districts, each of which would have a hospital as a central nucleus and in each of these districts as formed a local society would be formed. The report stressed the necessity of frequent meetings.

Moncton was approved and selected as next year's meeting place.

**Officers Elected**  
Dr. A. Sormany, of Shediac, was unanimously elected president for the ensuing year.

Dr. L. M. Curran, M. L. A., Saint John, was made first vice-president, and Dr. L. B. McKenzie, Loggieville, second vice-president. Dr. John R. Nugent, Saint John, was re-elected secretary and treasurer, and additional members of the executive committee were elected as follows: Dr. Dunlop, Saint John; Dr. Lyons, Moncton, and Dr. J. J. McPherson, Campbellton.

**Local Societies**  
The meeting then returned to the question of local medical societies. The first clause in the report of the local societies' committee named yesterday stating that a district with the hospital and staff should constitute the nucleus of such societies was approved by the convention. The second clause read that the executive of the main provincial association in use throughout England for over-should have power to form or organize these sectional branches, with the modern buildings, in each case, and a further assistance their erection is borne by the city.

**Immediate Action**  
Dr. G. C. Vanwart said a few forcible words on the necessity of immediate action being taken on the question.

Dr. G. G. Melvin, chief medical health officer of New Brunswick, assured the assembly that his department would aid in carrying out the clauses suggested in the report and would clause read that the executive of the main provincial association in use throughout England for over-should have power to form or organize these sectional branches, with the modern buildings, in each case, and a further assistance their erection is borne by the city.

**To Make Selection**  
Dr. Woodhouse described the various housing systems in use in the different countries which he visited on his European lecture tour this year. He dealt with the organization of health bureaus on the other side and the sources of revenue to finance such bodies. The care of tuberculosis patients, venereal diseases and mental hygiene were touched upon and the legal entanglements connected with the handling of mental cases.

**Housing Problem**  
Concentration on large centrally located clinics for taking care of these diseases is in vogue in Great Britain and seems to be the only successful method, he said.

From a sanitary standpoint the housing problem was an important item in public health matters and reports were correlated a synopsis of the best health measures available.

**Money Voted**  
The third clause dealing with frequent meetings, at least once in three months, was also approved. The fourth clause called for the election of at least three delegates from each local society to the parent provincial society.

**Social Hygiene**  
The morning session closed with an address by L. A. Paguegnat, M. D., of Rowley, of Saint John, who enumerated some of the clinical aspects of

new growths of the pituitary gland and a surgical case report of this small but important body was dealt with by Dr. L. de V. Chipman, of Saint John. His remarks were illustrated by reference to a specimen.

**Dr. Lahey Speaks**  
The president introduced Dr. Frank H. Lahey, F. A. C. S., of Boston whose appearance was loudly applauded. The lecturer explained that diagnosis of biliary tract disease was at the same time an easy and a very difficult one. Sometimes the clinical symptoms were of such a nature that the condition was easily determined and at other times the seat of trouble in the biliary tract was difficult to localize. Jaundice was not in his experience always present as a symptom or sign and the appearance of this sign depended upon the situation of the stone or other disturbing factor in the tract.

**New Vanderberg Test**

The newly worked out Vanderberg test for gall bladder and liver malfunction were dealt with by Dr. Lahey and their scientific value and the technical aspect of the reaction explained. The speaker then enumerated various aids to diagnosis in these cases and dwelt upon the treatment and management of such conditions. The discussion was of a highly technical nature and the undivided attention of the meeting was at all times evident.

**Describes Treatment**

The surgical treatment was described and the treatment preparatory to operation was explained in detail. Then the secondary complications were noted and their prevention and management discussed. Operation when a diagnosis of stone in the gall bladder has been made, was always necessary, the doctor said. Purely medical treatment would not alleviate the condition and the gall bladder will not function again until the block was removed, he said.

**Cancer of Pancreas**

Cancer of the pancreas, due to its close proximity to the gall bladder, was responsible for an ever-increasing number of cases of jaundice and bile supply disorders, Dr. Lahey said. The advisability and urgent need of drainage after gall bladder operation was dwelt upon at great length and the speaker maintained that this was the only safe procedure and that not to do it was only increasing the risk and paving the way for future trouble. The lecture was illustrated by lantern slides.

**Express Thanks**

Dr. L. G. Pinault thanked the distinguished visitor for his instructive address and expressed the pleasure of the New Brunswick Medical Society at having Dr. Lahey here for that day's session.

**Closing Address**

Dr. R. J. Collins of River Glade, N. B., who is connected with the sanatorium there, discoursed upon the complications resulting from tuberculosis of the digestive tract and he outlined of the condition in question.

(Continued on page 6.)

## MACMILLAN WELL STARTED ON TRIP

Intrepid Explorer Hopes to  
Reach Sydney, N. S., Where  
He Will Obtain Fuel Oil For  
Voyage to Arctic, on Thursday.

Monnegan Island, Maine, June 23.—Commander Donald B. MacMillan today was well started on the first leg of his ninth expedition to the Arctic. Sailing yesterday from this port on board the 115-ton Auxiliary schooner Bowdoin, MacMillan hoped to reach Sydney, N. S., where fuel oil will be obtained for the voyage north, on Thursday.

The expedition includes, in addition to the Bowdoin, the steamer Peary, which will act as tender, and three amphibian naval planes, by means of which the explorer hopes to discover great areas of land in the vicinity of the North Pole.

Before leaving here Commander MacMillan said he looked forward to flying from Cape Thomas Hubbard, Axelheberg Island, out over the Polar Sea in search of land he believes to exist there. With a flying radius of 250 miles, he said the planes will be able to cover a vast territory and to settle the question whether the areas about the pole are land or water. Dr. Gilbert Groveron president of the National Geographical Society, who is sponsoring and financing the expedition, is a guest on board the Bowdoin and will accompany MacMillan as far as Sydney.

The explorer made his formal start for the Arctic from Wicasset Saturday when official farewells were said. The stop at Monnegan Island is always a part of MacMillan's voyage north. His ship is made ready for the expeditions here and he has many friends on the island.

A vote of thanks and appreciation was extended the visiting surgeon.

**Dr. Pinault**

Dr. Pinault delivered an interesting address on uterine inversion and illustrated the various steps resulting in such a condition by reference to specially prepared diagrams. This paper by Dr. Pinault was of a high order and it was regrettable that the lateness of the hour necessitated a more or less synopsized presentation of the subject, but in the limited time at his disposal the speaker gave a remarkably clear outline of the condition in question.

CAMPBELLTON, N. B., June 25, 1925.

### DEDICATION OF MISSION CHURCH

Ceremony Will Take Place Sunday, June 28th, at 9.30 a. m.

The solemn dedication of the Church at The Mission will take place on Sunday June 28th, 1925. The program will be as follows:— 9.30 a. m. Procession and Solemn High Mass of the Dedication. Sermon in French by Rev. J. Levesque of Val D'Amours. After Mass the Mosaic speaker, John Sark, in full attire will address the congregation. At 2 p. m. Solemn Blessing of the new Stations of the Cross with a short instruction in English at each Station.

No meals will be served in St. Ann's Hall on that day, but pilgrims and visitors will have free access thereto and get souvenirs and religious articles.

Arrangements have been made for a special train from New Carlisle to Mission Station as per the following schedule:—

Outward	Return
Leave	Arrive
4.30 a. m. New Carlisle	8.20 p. m.
5.15 St. Siméon	7.45
5.30 Bonaventure	8.00
5.50 Caplin	7.25
5.55 Black Opeps	7.00
6.10 New Richmond	6.45
6.35 Cascapedia	6.20
7.00 Maria	5.55
7.25 Carleton	5.30
7.40 St. Omer	5.15
7.55 Nouvelle	5.00
8.20 Escuminac	4.30
9.20 a. m. Chaleurs Bay	3.30 p. m.
Mills Siding	Leave

Fares will be one way first class with a minimum of \$1.00. From Gaspe and points to New Carlisle, pilgrims will come to New Carlisle by regular train on Saturday. One way single first class fares will also rule on this division. The Matapedia Auto Bus will leave Matapedia at 8 a. m. instead of 9 and then again at 11 a. m.

### W. M. S. HOLDS ITS ANNUAL MEETING

The Mianachi Presbyterian of the Women's Missionary Society is holding its annual meeting this week in St. Luke's Church, Bathurst, N. B. The sessions which opened Tuesday morning were concluded last evening. Delegates will be in attendance representing the auxiliaries, 25 mission bands, 6 young women's missionary societies, besides the several C. G. I. T. groups throughout the bounds. The speakers on the programme in addition to members of the Presbyterian include Rev. J. C. Mortimer of Tabusintac, Mrs. G. E. Forbes, president of the Maritimes W. M. S. and Mrs. A. E. Armstrong of Chatham is president of the Presbyterian. Mrs. Osborne Nicholson of Newcastle, secretary, and Miss A. B. Cameron of Dalhousie treasurer. Several Campbellton people attended yesterday's session.

## NORTH SHORE SUMMER CAMP FOR BOYS AND GIRLS TO BE HELD AT ALLAN'S POINT

Every Arrangement Being Made For A Memorable Outing—About Fifty Girls Expected To Attend And As Many Boys—The Camp Officials—Fine Program Of Outdoor Sports.

Members of the local C. G. I. T. and C. S. E. T. Groups and North Shore girls and boys are assured a memorable outing this year when members of these young peoples societies go to camp at Allan's Point, just east of Stewarts beach below Dalhousie during the first part of July. Usually these Summer Camps have been held at Chipman, N. B., but this year a North Shore Camp has been arranged for the convenience of the boys and girls of this district.

### The Dates

The boys will open camp on July 1st, and after a twelve day outing will be followed by the girls of the C. G. I. T. on July 18th who will have a nine-day outing, breaking camp on July 22nd. All arrangements are being carefully attended to by a Central Committee and the present outlook is indicative of a very successful outing girls have already made application but many others are expected to register within the next few days.

The Central Committee which is attending to all details for the girls camp is composed of the following: Miss M. E. Keith, Convenor; Mrs. B. B. Gerrard, Secretary; Mrs. E. V. Forbes, Mrs. Thos. Ellsworth, Mrs. D. E. Richards, Miss Inez McCallum, Miss Greta Sullivan, Mrs. W. S. Godfrey, Mrs. H. B. McDonald, Chairman; Mrs. Geo. Gough, Pt. a la Garde; Mrs. Somers, Mrs. W. W. McNairn and Miss Gladys Duncan.

### Well Organized

The Girls' Summer Camp will be held under the directorship of Miss Eunice Widdon, who is engaged by the National Girl's Work Board. Miss Catherine McMillan, Physical Culture teacher of Mount Allison will be the Sports Officer. The other camp officials are: Miss Grace Firth, Camp Nurse; Mrs. E. V. Forbes, Camp Mother; Mrs. R. B. Gerrard, Camp Business Manager; and Miss McCallum who will teach handicraft, basketry, etc. The Group Leaders are as follows: Miss Helen McMillan, Jaquet River, N. B.; Mrs. R. B. Gerrard, Miramichi; Mrs. E. V. Forbes, Miramichi; Mrs. A. E. Armstrong, Chatham; Mrs. Osborne Nicholson, Newcastle; secretary, and Miss A. B. Cameron of Dalhousie treasurer. Several Campbellton people attended yesterday's session.

### 50 Girls Expected

As near as can be estimated about fifty girls from various North Shore localities will attend the Summer Camp at Allan's Point. All those who have not already registered should lose no time in making application to Miss M. E. Keith, Registrar. The fee is only \$1.00 and the cost of board for the entire period is placed at the nominal amount of \$9.00.

### A Great Outing

Space forbids publication of the camp routine in detail but a glance at the program assures a great outing for both boys and girls. The activities will include swimming, hiking, baseball and numerous other summer-time recreations and the study of nature and the Camp Fire gatherings will all contribute a splendid variety to the program.

## LOCAL SCHOOL WINS PRIZE FLAG

Junior Red Cross Flag Goes To "Edith Cavell Branch" In Roseberry St. School.

The Junior Red Cross Branch of the Red Cross Society presents a flag each year to the school in the County which has done the best Junior Red Cross Work during the period. The Restigouche County flag this year goes to "Edith Cavell Branch" in the Roseberry Street School here, under Miss Doris Buckley. The flag will be presented with a suitable address at the closing exercises on Tuesday next.

The Boys Camp will be held under the directorship of the Rev. W. C. Machum, Boy's Work Secretary for the Maritime Provinces. The Camp Leaders are: Rev. W. W. McNairn, Rev. W. S. Godfrey, and Rev. E. V. Forbes. Dr. L. Gray, a leader in Scout work here will also be in camp and will do some dental work among the youthful campers. There will be two young men in charge of swimming and other sports will all be provided for.

### The Boys' Leaders

The location chosen for the North Shore Summer Camp is an ideal one. Fresh water and all the other essentials are readily accessible. The locality is a most delightful one in summer and with such a competent staff of camp officials all attending to their duties with enthusiasm, there is no doubt but what this outing will be long remembered with pleasure by all those who are fortunate enough to be able to enjoy it.

### Ideal Location

## CHAUTAUQUA OPENS HERE ON JULY 6.

Excellent Program of Wide Variety—Season Tickets To Be Placed On Sale Next Week.

A meeting of the local Chautauqua guarantors was held last week and arrangements are now being made for Chautauqua Week which, this year opens on July 6th, and concludes its run on the 13th, inst.

A careful review of the Chautauqua program reveals the fact that this season's program is of the usual high order which has established such an enviable reputation for Chautauqua entertainment. This year's program is, if anything, more promising than that of last summer. During the run patrons will have an opportunity to enjoy two fine plays, a wealth of vocal and instrumental music of a quality that we all too seldom hear, and several inspiring lectures delivered by speakers of international reputation.

Considering the quality of these entertainments the admission fees are surprisingly low. With the exception of the nights on which the two plays are presented, single admissions are placed at seventy-five cents for adults and twenty-five for children. The Season Tickets are particularly low. These are \$3.00 for adults and \$1.00 for children. As each season ticket entitles the holder to twelve full performances, anyone intending to take in Chautauqua will readily see the advantage of securing a season ticket without delay. These will shortly be placed on sale.

The guarantors who are responsible for bringing Chautauqua to Campbellton should be highly commended for their efforts to provide for people here one week of really good entertainment. Appreciation for their work and the monetary responsibility they have voluntarily assumed will be best expressed by buying a Season Ticket as soon as they are placed on sale.

### CHATHAM GIRLS WILL GO TO AFRICA

An extract from the report of the commencement exercises held recently at the Chatham Public Institute, Dalhousie, Mass., says:—The graduates from the theological course are: Llewellyn F. and Doris Groat of Chatham, N. B.; Florence Frede, Chatham; Edith Richards, Newton Centre; Donald MacQuarrie, Fredericton, N. B.; and Harold Fletcher of Upham, N. B. Miss Groat and Miss Frede will go as missionaries to Africa; Miss Ethel Richards to Japan. Other graduates have not completed their plans as yet.

## Auditor's Report For the Year

(Continued from page 1.)

**Taxes Should Be Collected**  
There must be enforcement of collection of taxes overdue, as well as light and water accounts. There are now arrears of \$49,000.00 on the 1924 taxes or about 40% of the whole warrant; the default of former years is \$40,028.00. This is a rather extraordinary situation and we call to mind another Town where we are the auditors, in which the default amounted to 80% for 1924. It is doubtful if all the tax arrears will yield as much as \$40,000.00 during the present year and this fact must be taken into account when making up the budget; it is uncertain municipal finance to depend largely upon overdue taxes.

### Scores Defaulters

We do not especially criticize officials of Council, the fault lies to a large extent, in the matter of tax arrears, with those taxpayers who, having no civic spirit at all, delay payment until the last possible moment or evade upon the slightest subterfuge, thus forcing your Council to borrow the funds which are withheld. There are in every town those who cannot pay, but surely they do not amount to 40% of the amount of the precept in this case.

There is also a large arrears account in the Electric Light Department, about \$5,800.00 a part of which is sure to be lost; we are told that there are a number of large bills included in this and that they are as good as gold, but you cannot run your finances on promises or past due accounts, but only upon cash in hand. A part of the fault with your collections arises from the habits and customs into which Citizens and Councils have fallen in dealing with these matters. The officials are loathe to cut off water or electric current or to issue a summons for taxes, so that much free and easy laxity and irresponsibility has developed and has become almost the rule.

### Rates In Arrears

Water, Electricity, Rates, in fact every department are very much in arrears and there are even quite a few ancient charge accounts against citizens for materials etc. which should have been handed your solicitor long ago.

The citizens must realize that the Electric Light Dept., the Water Dept., and every department of their Town are their own enterprises; if in the Light Department there is a real profit made, the proceeds should certainly go toward reducing taxation or to pay Departmental expenses.

In making up the budget for this year it would seem to be eminently necessary to assess at least \$6,000.00 for the street lighting. This would then give a street lighting service at a low rate and all must see that this cannot be done for nothing. The current precept should run above \$150,000.00 if there is to be any reduction or overdraft. The amount levied must be closely collected.

### Larger Assessment

In summing up the financial difficulty we find that whilst losses on taxes have contributed to the situation, yet the chief evil has been the timidity of Councils in past years to assess largely enough to realize sufficient for the needs of the Town, while it was coming in. The accumulation of such a method of finance over the years has to a major extent brought about the position heretofore referred to.

The present year should see this evil corrected by a judicious increase in the levy and a fair distribution of the burden where it will not be unjust or inequitable. The ideal principle of taxation is that the burden must be borne by the financially strong and not fall upon the financially weak. Each would therefore pay according to his or her ability. We think that there may be sources of revenue in your Town that the assessors have not yet touched upon, and that a good-sized sum could be raised without adding to the burden of anyone who is now paying a just and proper tax. We might add that the assessing statute gives very wide powers.

### No Criticism Due

We have made these comments and given our views in a spirit of helpfulness and we trust that they may so prove to your Council or a succeeding one during their labors. In common with your Council and officials we may be criticized but this should not matter to anyone who is fearlessly doing his duty. It seems to us that your Council should not be subject to harrassing and carping criticism unless they are found to be plainly delinquent in their duties, certainly not while engaged in serving their fellow citizens without thanks or remuneration; we sincerely believe that the people should hold up the hands of the Council chosen until they have made plain their abilities or lack of ability.

### Soundness Needed

The present year should no doubt be one of strict economy with expenditures held down below the estimates and also below the amounts collected from taxation and other revenues, for that is after all what counts in balancing a municipal budget. We have the honour to be, Yours very truly, BELYEA & McNEICE, Auditors, Chartered Accountants.

### Annual Convention of Medical Society Very Successful

(Continued from page 3.)  
lined their diagnosis and treatment. The meeting then adjourned, closing the 45th annual convention of the Society.

A large gathering attended the public meeting on the public health problem, called to order that evening by the chairman, Dr. Murray.

Dr. Murray prefaced his introduction of the speakers by a few explanatory remarks on terms "hygiene," "sanitation" and "public health."

Dr. Beaudoin, of Montreal, was the first speaker. He addressed the meeting in French and his subject was a consideration of general hygienic and sanitary measures as they are applied in every-day life. Common-sense precautions and ordinary cleanliness were the first requisites for arriving at sanitary and hygienic conditions, the speaker said. He outlined the work being done along these lines in other parts of Canada and stressed the necessity for child welfare measures in order to ensure a future generation who would be sound in mind and in body.

Dr. Woodhouse, secretary of the Anti-Tuberculosis League of Canada, to whose address Thursday afternoon great interest was given in the clinical session, spoke on the measures in use today in combating the "great white plague," and said he was happy to say that the annual toll exacted of tuberculosis was on the decline in our country and it was all due to the modern methods of suppressing the spread of disease that are now in vogue.

Spending \$3,500,000 a Year  
Dr. Woodhouse said that Canada spent yearly more than \$3,500,000 in caring for tuberculosis patients and this figure indicated that the Canadian people were doing their share in combating the disease.

School inspection along medical lines was an essential cog in any successful educational machinery and a record of the child's condition should be kept at all times during the entire school course, so that a case history is always available for reference, he said. This facilitated the care and treatment of ailing pupils.

The housing problem was dealt with and the lecturer repeated his remarks until their worth was proven by competent and responsible medical research bureaus.

The speakers for the evening were tendered a hearty vote of thanks at the conclusion of the meeting.

The Opening Day  
The feature address of Wednesday's sessions was delivered by Dr. Calixte Dagneau, of Quebec, on the "Clinical Symptoms of Tuberculosis of the Kidney."

In the discussion which followed he early treatment of suspected cases of tuberculosis was stressed and particularly when the kidney was involved. Questions pertaining to the subject were asked by several of the delegates and Dr. Dagneau in his replies confirmed his conviction that early operation was advisable when positive diagnosis was made and if this was contra-indicated, then a general rest cure was best.

Asked whether animal injection tests were to be relied upon in a diagnosis of T. B. kidney, the doctor said that for this condition the tests were of doubtful value.

Dr. Dagneau was loudly applauded for his instructive address and words of appreciation were expressed by Dr. Melvin.

Local Societies  
A motion that the meeting consider ways and means of organizing local subordinate medical societies was introduced, which local societies would be branches of the main provincial body. Dr. L. G. Pinault of Campbellton explained that the system was operating successfully in parts of the province of Quebec and that the local organization was of most benefit in districts having a hospital as a central nucleus. Dr. Melvin further reinforced these remarks. This was referred to a committee for private discussion.

Secretary Explains  
The secretary explained that this local system, as existing in the State of Maine, called for each sectional unit sending delegates to the state convention and believed that the same arrangement could apply in New Brunswick.

Dr. J. H. Allingham, Saint John was in accord with the motion but thought that a permanent secretary was necessary to carry out the project in order to centralize operations.

Dr. Nugent moved that a committee be appointed to discuss the matter in private session. Dr. L. G. Pinault, Campbellton; Dr. Desmond, Newcastle; Dr. Vanwart, Fredericton; Dr. Abramson, Saint John; Dr. Laporte, Edmundston, were appointed on this committee.

237 Names on Register  
The next item of business was the

GUARANTEED RELIEF

Dr. H. L. Abramson, of Saint John, the provincial pathologist, gave a 20-minute explanation of the new Kahn test for syphilis. The principles underlying the test are not new, the doctor said, and quite essentially the same as those underlying the Wasserman test. The method is much simpler and the superior technique employed makes the test of great practical importance since it takes much less time

report of the treasurer, followed by then does the Wasserman and is fully the registrar's statement read by Dr. S. H. McDonald, acting registrar. The new test is a more delicate one and reports were unanimously adopted, therefore it may prove a greater aid in the diagnosis.

The morning session closed with discussion on matters pertaining to reciprocity and registration.

Afternoon Session  
The society entered upon its afternoon session at 2 o'clock.

George A. Lyons, M. D., of Moncton, first read a paper on syphilis as found in general practice. The speaker stressed the wide prevalence of the various forms of this disease and the necessity of strict medical treatment in all suspected cases.

The particular case selected by Dr. Lyons for description was one of a syphilitic growth involving part of the stomach and the difficulties in diagnosis due to its resemblance to gastric ulcer and cancer of the stomach. The X-ray and Wasserman reaction were described as aiding in a diagnosis.

On Albuminuria  
Dr. J. J. McPherson, of Campbellton, gave a 20-minute talk on disturbances of the kidney producing an albuminuria in the case of young people and he described very recent and modern methods of treatment based upon simple mechanical laws. Discussion followed the reading of this interesting treatise and its relation to life insurance tests was dwelt upon. He said that recent research had shown that albumen in the urine was not always an indication of severe kidney disorder.

President Speaks  
At this juncture the scientific discussion was interrupted for a time from during which the president, Dr. Geo. M. L. A., complimented those who had charge of the program. Several others endorsed these sentiments.

Doctors Registered  
Among the doctors registered for the convention were the following: E. J. Veniot, Bathurst; J. F. Teed, Dorchester; N. Doucet, Tracadie; H. Lunan, Campbellton; J. G. Langis, Bathurst; L. G. Pinault, Campbellton; H. L. Logan, Salisbury; Hanley Kirkland, Saint John; W. W. Fleck, Dalhousie; C. E. Dumont, Campbellton; J. J. McPherson, Campbellton; J. R. Nugent, Saint John; George M. Fleming, Petitoctid; H. L. Abramson, Saint John; L. M. Cullen, Saint John; V. J. Connors, Harcourt; D. W. Ross, Fredericton; D. Murray, Campbellton; F. X. Comeau, Caraquet; M. A. Oulton, Shediac; J. B. Hamilton, Doaktown; Stanley Bridges, Saint John; F. T. Dunlop, Saint John; J. H. Allingham, Saint John; U. D. Davison, Fairville; George Lyons, Moncton; H. L. Logan, Salisbury; J. E. Paulin, Tracadie; E. German, Campbellton; George G. Melvin, Fredericton; William Warwick, Saint John; W. Coffin, Bathurst; F. J. Desmond, Newcastle; Alphonse Sormany, Shediac; Albert Sormany, Edmundston; Honoré Cyr, Campbellton; R. Lelles, Jacques River; A. M. Marsh, Petitoctid; S. H. McDonald, Saint John; R. J. Collins, River Glade; G. G. Vanwart, Fredericton; P. H. Laporte, Edmundston; G. A. B. Addy, Saint John; William Murray, Albert; J. Alex Bell, Newcastle; J. B. McKenzie, Loggieville; R. MacLean, Matapeia; L. de V. Chipman, Saint John; A. St. Laurent, Dalhousie; A. R. Myers, Moncton, and L. D. Desmores, Bathurst.

The concluding paper was read by Dr. H. L. Logan, of Salisbury. In his experience with typhoid fever the use of wine of Hippocampus was beneficial results and the speaker said he was using this remedy a great deal and found that patients responded admirably.

The Banquet  
A highly successful banquet closed the programme of Wednesday evening. Dr. Fleming, retiring president, expressed appreciation of the hospitality of the people of Campbellton and voiced the opinion that Campbellton was an ideal place for the convention.

Dr. Dagneau, of Quebec, made a witty speech. Dr. H. L. Abramson, Saint John, declared Campbellton one of the most favored spots in Canada as regards natural beauty. Dr. G. G. Melvin, chief medical health officer, and Dr. Desmond, district medical health officer, also spoke in congratulatory vein, as did Dr. L. Murray, who complimented Dr. Pinault and the Campbellton committee on the efficient way in which the program had been carried out.

Historic Battle Ground  
Dr. Pinault entertained the members with an historical sketch of the Baie Des Chaleurs country, reminding his hearers that the last battle of the Seven Years war between England and France took place across the river from Campbellton. Dr. L. M. Cullen charged of the program. Several others endorsed these sentiments.

Doctors Registered  
Among the doctors registered for the convention were the following: E. J. Veniot, Bathurst; J. F. Teed, Dorchester; N. Doucet, Tracadie; H. Lunan, Campbellton; J. G. Langis, Bathurst; L. G. Pinault, Campbellton; H. L. Logan, Salisbury; Hanley Kirkland, Saint John; W. W. Fleck, Dalhousie; C. E. Dumont, Campbellton; J. J. McPherson, Campbellton; J. R. Nugent, Saint John; George M. Fleming, Petitoctid; H. L. Abramson, Saint John; L. M. Cullen, Saint John; V. J. Connors, Harcourt; D. W. Ross, Fredericton; D. Murray, Campbellton; F. X. Comeau, Caraquet; M. A. Oulton, Shediac; J. B. Hamilton, Doaktown; Stanley Bridges, Saint John; F. T. Dunlop, Saint John; J. H. Allingham, Saint John; U. D. Davison, Fairville; George Lyons, Moncton; H. L. Logan, Salisbury; J. E. Paulin, Tracadie; E. German, Campbellton; George G. Melvin, Fredericton; William Warwick, Saint John; W. Coffin, Bathurst; F. J. Desmond, Newcastle; Alphonse Sormany, Shediac; Albert Sormany, Edmundston; Honoré Cyr, Campbellton; R. Lelles, Jacques River; A. M. Marsh, Petitoctid; S. H. McDonald, Saint John; R. J. Collins, River Glade; G. G. Vanwart, Fredericton; P. H. Laporte, Edmundston; G. A. B. Addy, Saint John; William Murray, Albert; J. Alex Bell, Newcastle; J. B. McKenzie, Loggieville; R. MacLean, Matapeia; L. de V. Chipman, Saint John; A. St. Laurent, Dalhousie; A. R. Myers, Moncton, and L. D. Desmores, Bathurst.

A vote of thanks was extended the speaker for his interesting address and, in seconding the vote of thanks, Dr. Pinault said:

Adly moved the vote of thanks. Dr. H. L. Abramson, of Saint John, the provincial pathologist, gave a 20-minute explanation of the new Kahn test for syphilis. The principles underlying the test are not new, the doctor said, and quite essentially the same as those underlying the Wasserman test. The method is much simpler and the superior technique employed makes the test of great practical importance since it takes much less time

A FEATURE EVENT  
ON THE  
CHAUTAUQUA PROGRAM

Scene from "Smilin' Thru"

## SMILIN' THRU—with Grace Halsey Mills

Grace Halsey Mills

"Smilin' Thru" a delightful com-  
edy of Allan Langdon Martin, to be  
given at this year's Chautauqua was  
the country by Jane  
Court, the well-known actress.  
proved a distinct success in New York  
and throughout the country. The  
story is one of great human interest,  
full of beauty, pathos, hope, and un-  
folding a romance that never fails to

touch the hearts of old and young.  
In this story of love, understanding,  
forgiveness, there is also a rare spiri-  
tual message that makes the play  
far more than a mere evening's en-  
tertainment. Grace Halsey Mills  
will play the leading role, supported  
by an unusually strong cast, including  
among others such prominent New  
York actors as Dallas Anderson, Er-  
skine Sanford and Edward Forbes.

Dallas Anderson played with  
Maude Adams. He was her last  
"Little Minister" in Barrie's famous  
play by that name. He has been  
playing in London since then. He  
is an exceedingly able and interesting  
actor. Erskine Sanford was long a  
member of the Theatre Guild, having  
made a great success in some of the  
most important Guild productions.  
He has been playing in the repertory  
company of the Theatre Guild since  
1914.

Before that she was long a  
member of the Theatre Guild, having  
made a great success in some of the  
most important Guild productions.  
He has been playing in the repertory  
company of the Theatre Guild since  
1914.
