

SEVEN MILLION MARK LEFT BEHIND BY 'BONDSMEN'

London's Victory Loan Total Is Now \$4,007,250.

TUESDAY BEST DAY YET

Workers Smash Records and \$50,000 Beyond Previous Daily High Score.

London went over the four-million mark by \$7,250 yesterday in the Victory Loan push. It was a record day and a great moment, when the figure of \$4,007,250 was chalked up on the board amid cheers. The teams turned in a large sum of \$214,850, just \$50,000 and of their best effort so far. The old military organization, headed by Major Frank Spry, came through with \$120,000, making the total \$170,000 to date.

Chairman George H. Reid was the happiest man in London last night, followed closely by J. J. Foot, head of teams committee, and W. A. Marshall, his assistant, who have worked hard and-nail to put the loan over in London.

Seed Coming Up. The seed sown last week is beginning to come up already, declared Mr. Reid, as he slipped The Advertiser's Victory Loan reporter so hard on the back. It almost knocked him over. "Now, he's going, and we're going right," continued Mr. Reid. "The people are bringing their money to get behind the boys to the very end, and while we're making a final clean-up in these, we've simply got to make another clean-up here of every dollar we have. They have just about finished with their share, and we've got to get the industrials were just as optimistic as the salesmen. Organizer Norman Tovell and Secretary M. Kaplanovsky thought that wonderful results had been obtained last week, but the large majority of big factories has not yet been written up.

Salesmen Kept Up. The salesmen are kept up to a high pitch, said Mr. Tovell, "and are stronger every day. The committees around the country could not be beaten, and we are looking for exciting results. The Grand Trunk men have just started. The Grand Trunk men in this division have subscribed nearly \$1,000, the Portin Company \$37,000, London Shoe Company \$20,000, J. J. Ingram employees \$20,000. A letter store has only been partially written up. The last week the working-men of London factories subscribed \$3,000 to the loan. To say that we pleased is putting the case mildly."

ORGANIZATION HERE SECOND TO NONE IN FIGHTING INFLUENZA

Miss Fidler Sure After Visit to States.

Miss Fidler, statistician of the Institute of Public Health, makes a most valuable service in taking charge of the registration of influenza cases. She returned to the city last night after spending the week-end in the States. While away, she made flying visits to St. Paul, Minneapolis and Boston, Ill.

No Better Organization. The Advertiser last night she "I didn't find any place in which organization was more efficient than with the epidemic that right in London. There wasn't any city in which I visited where I thought they were doing such effective work on a broad line. There was one thing, ever, that struck me wherever I went, and that was the large placards that confronted one everywhere advising people how to protect themselves against influenza and warning them to be careful. These placards were posted in street cars, on telegraph poles, in public buildings, at every turn.

Houses Placarded. In one city where I spent some time, the regulations demanded that some of the windows should be open in the street car. In some other places the regulations were being enforced, but in those places where they were not, the windows were closed, and the following London precedent, no followed in London previous to the epidemic, but shutting down of the churches, and so on.

No Relaxing. He declared it is necessary to keep on with every precaution, and other prominent public health men had this same thing last winter in America. The same conditions, but they were not kept up, and the malady was evidently not so serious then."

TRIBUTE PAID TO WOMEN TEACHERS' WORK IN EPIDEMIC

Board of Education Passes Laudatory Resolution.

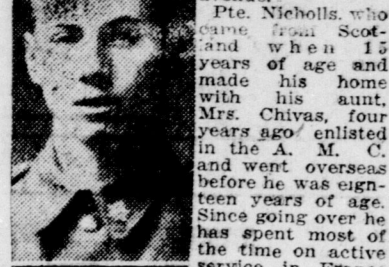

The following resolution was heartily endorsed and unanimously passed by the board of education yesterday: "Moved by W. N. Manning, seconded by W. T. Strong, that this board place on record its appreciation of the public health service rendered by the women teachers of London schools during the prevalence of the influenza now passing out of the city."

PRICES OF METALS MAY BE FIXED FOR ENDING OF THE WAR

Some Stabilization Thought To Be Required.

Imports summary of the iron, steel, metal and machinery markets for the week ending November 7, Canadian Machinery and Manufacturing News, Toronto, makes the following observations: Events that are transpiring in Europe are having their effect on the machine tool and supply trade this week. There is nothing surprising in that. In fact, the trade is right now going through a period of transition. It has been anticipated. There are lines in which it is believed that the passing from war to peace will be a gradual one, and that it will be a gradual one, and that it will be a gradual one, and that it will be a gradual one.

The demand for machine tools for war plants is practically at a standstill. Sales of supplies are better, but are not so brisk as they were. "KINDERGARTEN" TO GO

Board Wants Department To Get Rid of German Word.

By a standing vote the members of the board of education, at the meeting yesterday, passed a resolution of confidence in H. B. Deal, principal of the London Technical and Art School, in the loss of his brother, Dr. Norman H. Deal, and to Arthur M. Murray, a mathematical teacher of the Collegiate, in the loss of his wife.

The following resolution, moved by W. T. Strong, seconded by W. N. Manning, regarding the use of the word "kindergarten" was passed unanimously: "While in some places an agitation is going on to remove German from the course of study in our schools, and the German names of our towns, and we are pledging ourselves not to use anything made in Germany, I move that the department of education be memorialized to change the name kindergarten, as designating one of our school grades, and that it be asked to substitute an English name."

T. Coleridge thought that as the name had been used so long, and it has become associated with so many ideas of childhood, that it was not necessary to change it. He further submitted that it was no more German than sausage. J. Gray thought that as the Canada Food Board recommended sauerkraut it could not be understood in any way. Should Aid Principal.

J. S. Barnard called the attention of the board to the fact that the London Technical and Art School should be brought prominently before the parents of Western Ontario with the view of getting them interested enough to send their children to it. He made it clear that he appreciated the efforts of Principal H. B. Deal in this direction, but he thought that he could be aided by the members of the board of education.

If the parents were to become acquainted with the magnificent educational advantages of the school along the general as well as the technical lines he thought that the children would attend in large numbers. There was some discussion on the advisability of opening the school on Monday next.

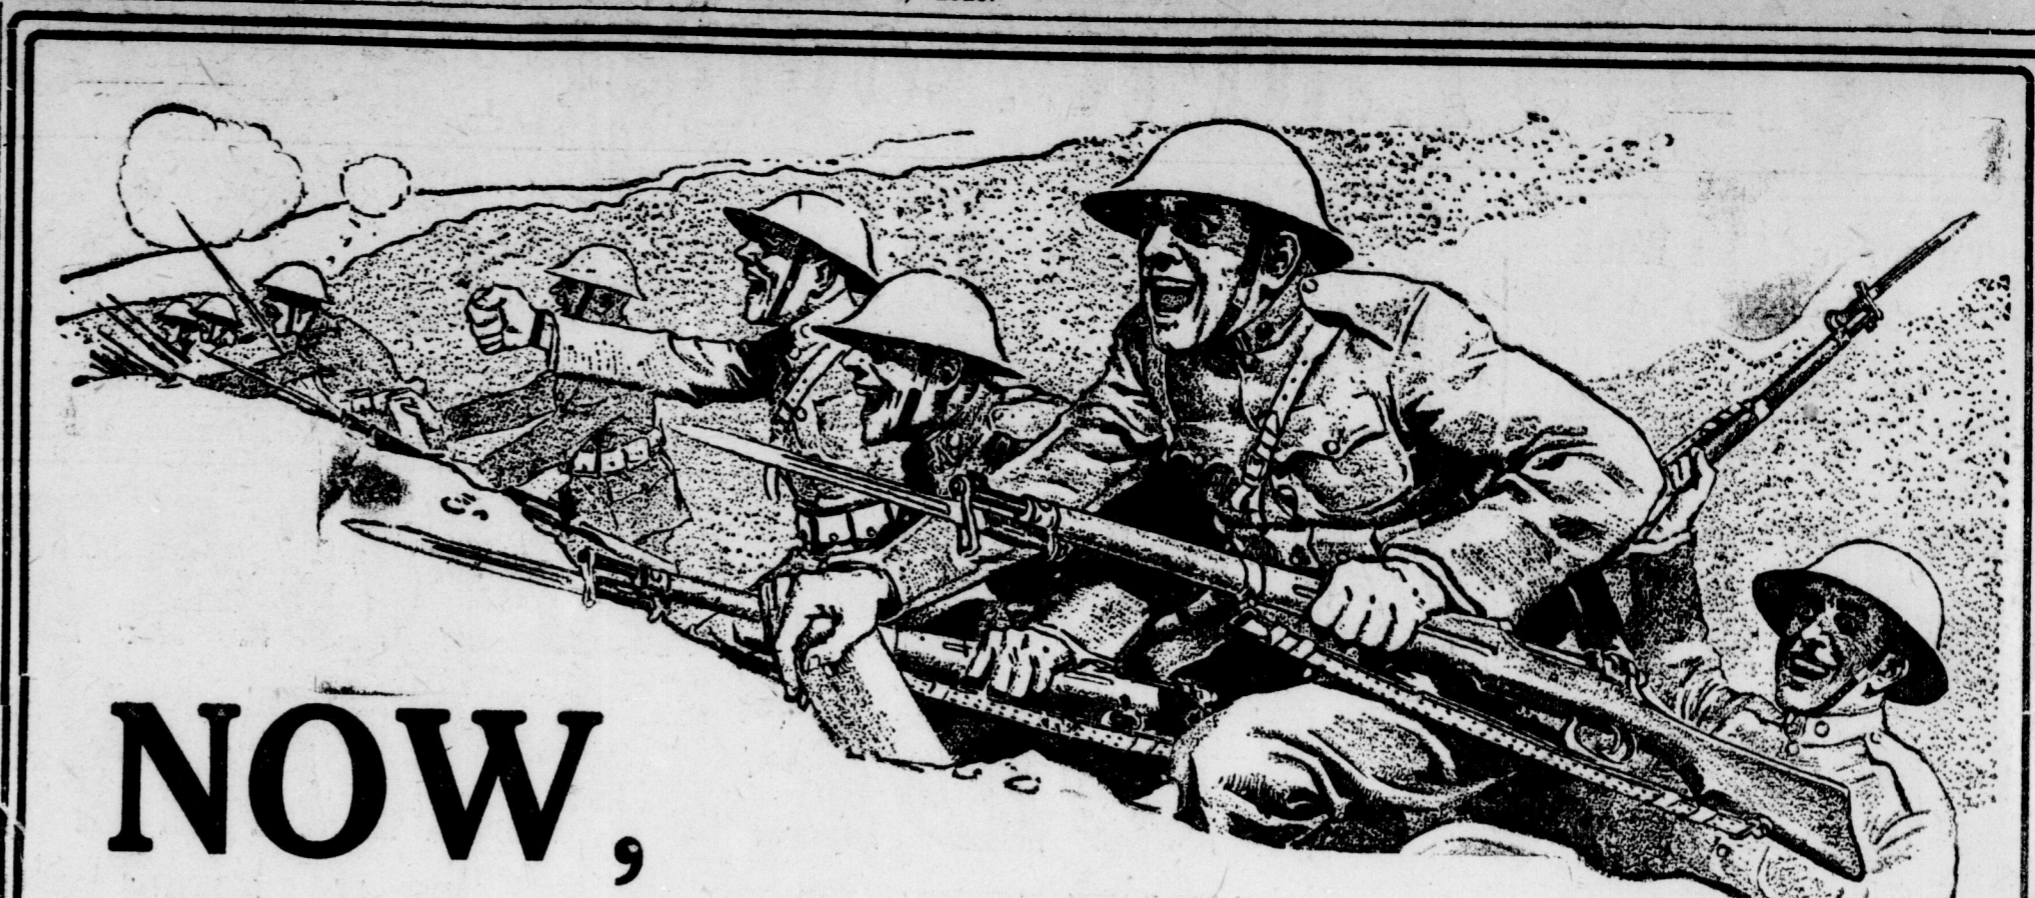

Dr. W. M. Shoebottom thinks the epidemic is abating, but that it will be hard to tell when it is completely over. He was glad that the schools were kept closed this week, and intimated that it would not be easy to say when it would be safe to open the schools. Should Not Open.

Dr. H. H. Black thought that it was more dangerous to open the schools than the schools, but he said that the schools should not open yet. Dr. W. J. Tillman said that even if the schools were opened next week the children should be admitted from homes where there is influenza. He feared that unless this precaution were taken the opening of the schools would cause an outbreak of the epidemic again.

The resignations of Grace Kidner, teacher at Rectory Street School; B. H. Kraybill, caretaker of the Rectory Street School, and Robert Dundas, caretaker of Boyle Memorial School, were read and accepted. The report of the penny bank showed that 2,258 depositors had \$344,06 in the bank at midsummer. The request of one of the teachers for an increase was referred to No. 1 committee.

It was decided to leave the request of the Y. W. C. A. officials for the use of the swimming pool at Lord Roberts School to No. 2 committee with power. On the motion of W. T. Strong and E. Smith, the request of Mrs. J. B. McNeill, that the domestic science teaching be discontinued in the preparation of food for the "ill" sufferers, was left with Inspector C. H. Edwards. Reports were received from H. B. Deal, principal of the London Technical and Art School, W. H. T. Money, principal of Collegiate Institute, and C. B. Edwards, and the several committees.

The following members were present: Chairman A. A. Langford, J. S. Barnard, Dr. H. H. Black, W. T. Strong, Dr. W. M. Shoebottom, W. N. Manning, Dr. H. H. Black, W. M. Manning, and Dr. W. J. Tillman.

NOW, All Together and Over the Top!

IT WILL TAKE THE UNITED EFFORT OF EVERY MAN, WOMAN AND CHILD in town to surpass the quota set for us in this Victory Loan 1918 drive.

But we'll do it! We cannot afford to let any ward—any section—any individual institution lag behind. The only way to do a thing is to do it. NOW is the time to subscribe—not tomorrow, or the day after—but now—TODAY. When the men at the front get an order to take an enemy trench, they don't say "tomorrow will do." No! They respond to the call of duty—promptly. When we, at home, are given a definite objective to reach—as we are in the Victory Loan Campaign—we must lose no time in getting our individual subscriptions in.

If the Victory Loan workers fail to call on you promptly, look them up. Plan to take all the Bonds you can possibly pay for. The payments are as follows:

Table with 3 columns: Payment Percentage, Date, and Amount. 10 per cent on application, 20 per cent - December 6, 1918, 20 per cent - January 6, 1919, 20 per cent - February 6, 1919, 31.16 per cent - March 6, 1919.

Or, you can arrange with your Employer, or your Bank, to buy your Bonds, on other terms, extending the payments over a year.

See that your factory—your store—your place of business—earns the right to display the Honor Emblem, that signifies a duty well done.

FOUND AT LAST! HERE'S THE SOILLESS, LABORLESS POTATO GROWN RIGHT IN YOUR OWN BIN

No More Planting, Weeding, Hoing or Digging Needed, If Only the Right Kind of Tubers Is Used.

A subscriber to The Advertiser, who has been a lifelong resident of London, has discovered a new kind of labor-saving, self-growing potato, which he is picking in triumph last night. No hoeing, planting, weeding, or digging out of the ground, and the potato bin is ready to receive the potatoes. The householder in whose potato bin the exhibit was found intends to save the original potato for seed. He will cook the inch and a half diameter potatoes, and keep the little vines on which the small potatoes are strung as curios.

VOICE OF THE PEOPLE MAKE THE PENALTY FIT THE CRIME.

When one has given some consideration to what the German Kaiser has done, authorized, commended and rewarded, in his own name, it is not surprising that some people are inclined to think that the Kaiser is a "some problem." Possibly his insane and criminal action might be gratifying to a show of for the benefit of those he has injured; no cruelty such as was done in many lands because he ordered or permitted it except the damage done to his vanity, no women or babies murdered for anything of that nature; and devote the proceeds of the exhibition to the restoration of some title the damage done under his orders. This would be a punishment that might well be inflicted on the criminal that has been guilty of breach in the one great commandment, "thou shalt not be contented." To have a hyena on one side and a crocodile on the other would make three of a kind that would round out the lesson.

MEDICAL SCIENCE HAS 'EDGE ON' DISEASE LIST

For the sake of those who have never seen the weekly report of communicable diseases issued by the medical officer of the city, it is known that there has been the appearance of a veritable checkbook, flanked on the one side with the names of some fifteen diseases, and on the top with such phrases as "Number of cases reported," "Total number of cases isolated," "At home," "At hospital," and "Number of houses quarantined." The figures give some idea of the extent of the epidemic. As of last week, the figures give some idea of the extent of the epidemic. NO OFFICIAL DELEGATE FROM CITY ATTENDING PHONE RATES APPEAL

That London has no cause to worry even though it has no direct representative at the hearing before the board of railway commissioners at Ottawa of the case of the Bell Telephone Company regarding an application for permission to increase its rates, is the opinion of Mayor C. H. Somerville. London, as represented by the Ontario Municipal Association in the matter, is being represented by the mayor. City Clerk S. Baker was rather mys-

ified, however, to read that Toronto had gone ahead and sent a representative to the hearing. Some time ago Mr. Baker wrote the city clerk at Toronto and Hamilton regarding the question of all the municipalities holding a meeting to discuss what action should be taken. Yesterday he had a letter from City Clerk Kent of Hamilton, stating that he had been instructed by the Hamilton council to call a meeting of the representatives of the various municipalities. Apparently the case, as far as London is concerned, will be heard without the city being specially represented. This week the expenditure of a large sum of money, and it is considered advisable to put the city to this expense in the matter. Mayor Somerville thinks that the interest of the city will be well taken care of by the Ontario Municipal Association.

Threw Engine Into Lake As Makeshift For Lost Anchor

GODERICH, Nov. 5.—A new use has been discovered for a gasoline engine. Some fishing boats had a narrow escape from being lost recently when they were caught in a gale. Some were able to make Port Arthur, and one boat was out all night, sailing into the harbor here today, when it was learned that the captain had taken his gasoline engine out of the boat, and putting a line on it, had thrown it overboard as an anchor, ho having lost his original anchor. He also lost his engine as a result.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Look, Mother! Is tongue coated, breath feverish and stomach sour?

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat, or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

EAT LESS MEAT ALMOST BLIND FROM HEADACHES

Take a Glass of Salts to Flush Kidneys If Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat overworks the kidneys; they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delicate and refreshing lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

SETTLEMENT OF IRISH QUESTION POSTPONED

Motion Made by John Dillon in British House Defeated.

LONDON, Nov. 5.—After a discussion lasting all day the House of Commons yesterday rejected by a vote of 196 to 115 a motion made by John Dillon, chairman of the Nationalist party, that the Irish question should be settled without delay. President Wilson's proposal, the motion asked that Great Britain should not enter the peace negotiations until the Irish question was settled. This met with vigorous opposition from Edward Shortt, chief secretary for Ireland, and Andrew Bonar Law, chancellor of the exchequer, who argued that any other supplies would be tantamount to a declaration of war.

WASHINGTON, Nov. 5.—Marshal Foch has been authorized by the United States and the Allies to receive representatives of the German Government and to communicate to them the terms of an armistice. The German Government is so informed in a note handed to the Swiss minister here today by Secretary Lansing.

MEAN ABJECT SURRENDER

Publication of details of the armistice terms still is withheld. They may not be made known until the Germans have accepted or rejected the conditions followed by the Allies in dealing with Bulgaria, Turkey and Austria. Only the details are in doubt, however, and no one questions that acceptance means abject surrender.

PETROGRAD A DESERTED, STARVING CITY; AWFUL CONDITIONS FOR WINTER

New York, Nov. 5.—Norman Armour of Chicago, a secretary attached to the time American embassy at Petrograd, and who accompanied the embassy to Moscow and then to Volodra, reached here yesterday on his way back to Petrograd with reports for the department of state. He came by way of Finland, and said he saw a scene of starvation and death in a public cab. In another minute the horse has dropped dead of starvation, and other supplies were again in an hour, and the people have cut the dead animal to pieces and carried it away for food. The Bolsheviks are more autocratic than the czar and his officers ever dared be, and conditions in Russia this winter will be beyond description.

LEMON JUICE WHITENS SKIN

Girls! Make beauty lotion at home for few cents

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quartet pint of the best bleaching and skin whitening lotion and complexion beautifier, at very, very small cost.

Your grocer has the lemons, and any drug store or toilet counter will supply three ounces of Orchard White for few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, and see how tan, redness, sallowness, sunburn and windburn disappear, and how clear, soft and rosy-white the skin becomes. Yes! it is harmless.

The Best Cough Syrup Is Home-made

Here's an easy way to cure it, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a 16-oz. bottle, pour 2 1/2 ounces of Pinex (30 cents worth); then add plain granulated sugar syrup to fill the bottle. Or, if desired, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for five times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

WHY CAN'T I GET TO SLEEP?

Thousands of people all over the country ask this question, but still continue to toss night after night on a sleepless bed, and it is impossible for them to get a full night's refreshing sleep.

Soon constitutional disturbance, worry or disease has so debilitated and irritated the nervous system that it cannot be quietened except by the pernicious use of opiate and other drugs. You have heart palpitation, and sensation of sinking, a feeling you are going to die, or perhaps you wake up in your sleep feeling as though you were about to choke or smother, and the only way you can get relief is to sit up in bed.

To all who suffer in this way, Milburn's Heart and Nerve Pills offer an instant relief. They bring back the much-needed night's rest by improving the tone of the nerves, strengthening the heart, enriching the blood and making the whole organization act in harmony when you sleep peacefully as a child. Mrs. Jas. Latimer, 38 Lester street, St. John, N. B., writes: "At night I could not sleep. I had to sit up in bed, when you sleep peacefully as a child. Mrs. Jas. An Old Recipe to Darken Hair

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or grey. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Now you can simply sponge or soft brush your hair with it at any drug store for "Weyth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair as it does it so naturally and evenly.

Weyth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

NOTICE

Military Service Act, 1917.

EMPLOYMENT OF MEN IN DEFAULT UNDER THE MILITARY SERVICE ACT.

The following Regulations, recently approved by the Governor General in Council, impose strict obligations upon every employer TO ASSURE HIMSELF THAT EACH OF HIS EMPLOYEES OF MILITARY AGE AND DESCRIPTION IS IN POSSESSION OF DOCUMENTS PROVING THAT HE IS NOT IN ANY WAY IN DEFAULT UNDER THE MILITARY SERVICE ACT.

An employer who is charged with having a defaulter in his employ must be able to prove THAT THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE EMPLOYEE IN QUESTION WERE PRODUCED FOR HIS INSPECTION at the time when the employee was taken into his employment, and that it was reasonably established to his satisfaction that the man was not in default under the Military Service Act. It should be clearly understood that the Canadian Registration Certificates given on June 22, 1918, at the time of general registration, in no way define the status of a man under the Military Service Act.

REGULATIONS.

"106. Every person who employs or retains in his service any man who has deserted or is absent without leave from the Canadian Expeditionary Force, or who is in default in the performance of any obligation or requirement for military service, imposed upon him by the Act or Regulations, or any proclamation thereunder, shall be guilty of an offence punishable by imprisonment not exceeding six months, or by a penalty of not less than One Hundred Dollars, and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he made due inquiry and that THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR THE MILITARY AUTHORITIES TO THE MAN SO EMPLOYED OR RETAINED IN HIS SERVICE WERE PRODUCED FOR HIS INSPECTION, and that it was reasonably established to his satisfaction by such inquiry and papers that the man was not a deserter or absent from the force without leave, or in default in respect of any of the obligations or requirements aforesaid."

"106a. Every person who HARBOURS OR CONCEALS OR IN ANY WAY ASSISTS ANY MAN WHO IS A DESERTER OR ABSENT WITHOUT LEAVE FROM THE CANADIAN EXPEDITIONARY FORCE, or who is in default in the performance of any obligation or requirement for military service imposed upon him by the Act or Regulations, or any proclamation thereunder, shall be guilty of an offence punishable by imprisonment not exceeding six months, or by a penalty of not less than One Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he was not aware and had no reasonable ground to suspect that the man so harboured, concealed, or assisted was a deserter or absent from the force without leave, or in default in respect of any of the obligations or requirements aforesaid."

MILITARY SERVICE BRANCH.

USAGE OF MILITIA ACCELERATED DEATH IS JURORS' FINDING

Crown Attorney, Speaking at Inquest into Death of Pte. Stride at Iona, Declares Militia Act Was Used as Instrument of Torture.

ST. THOMAS, Nov. 5.—The military service act was not conceived in iniquity; it was not brought forth in sin, and I believe I am safe in saying that it was never meant to be used as an instrument of torture, as it was in this case, and, furthermore, it would not have been an instrument of torture, and the ends of justice would have been met just as well, if the authorities placed at London to enforce the military service act had used every precaution, and had exercised "common sense."

These were the closing remarks of Crown Attorney McCrimmon, in summing up to the jury at the inquest into the death of Harland Ross Stride, who died, according to allegations made, through treatment accorded him by the military authorities after he had been arrested as a deserter. The inquest, held in the town hall at Iona, was concluded tonight, and after a deliberation of nearly an hour, the jury brought in a verdict in which they upheld the statements of the crown attorney, and the following copy will clearly show:

The Jury's Finding.
After hearing the evidence as to the happenings attending to the death of Harland Ross Stride, who died while at his father's home in Durbin street, October 12, 1918, we, the jury, find that the said Harland Ross Stride came to his death from pneumonia, tuberculosis, accelerated by the usage received by him at the hands of the military authorities, while in their possession, between October 2 and October 5, 1918."

The inquest began some weeks ago, but was adjourned for further evidence on two occasions. When it resumed this afternoon Major Weekes of London headquarters' staff, was present, and he presented the case on behalf of the military authorities. There were a number of witnesses heard today, the hearing taking up the greater part of the afternoon. The town hall at Iona was packed to the doors with interested listeners.

Used Strong Terms.
Crown Attorney McCrimmon had little use for mild terms in his comment on the actions of the military authorities, and when Major Weekes objected to certain statements made by Dr. Turner at the last hearing, in which he stated that Stride came to his death through the treatment of the military authorities, Mr. McCrimmon indignantly told him, "Sir, I will have none of your nonsense, and I will insist that you are forbidden from making any statement, that that question was an improper one."

The witnesses included Officer Samuel McKewen of the St. Thomas force, who testified that Stride was in the cells at the city hall. Sgt. Young of the military police, had previously sworn that Stride never left the officers' quarters of the city police station. Pte. McDonald of London stated that he had heard Stride coughing, but he could not say that he had been ill-treated in any way. Pte. William Hayes stated that there were several means of making known complaints if a soldier did not receive proper treatment or proper food at the camp. He himself had heard Stride complain since that he was not receiving enough to eat, but no complaint had ever been made to the orderly sergeant, or his superior officers who visit the mess room each day.

Not Made to Work.
Company Quartermaster-Sergt. Smith stated that he had seen Stride, and had taken care to see that he was taken to the mobilization centre for examination. He had not then received his category, and as no men were given any duty until they had received their category, Stride did not receive any fatigue duty during his term of service. He was discharged on the 6th, and he only arrived on October 2, as that he had no time to go through the hardships that he had told his parents and friends of. He never saw him in a latrine room cleaning out, neither did he hear of him being placed on duty at the cook house.

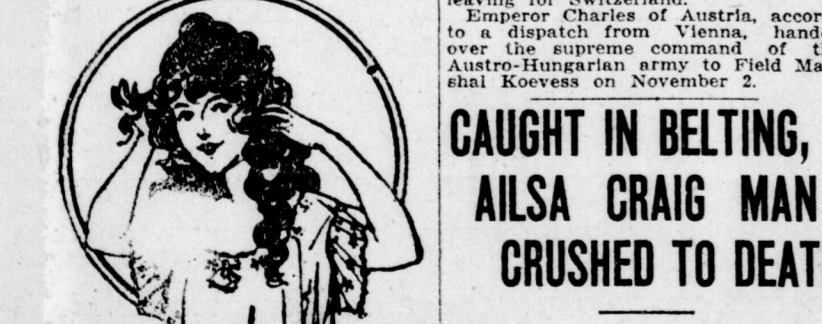

The various corporals who had charge of assigning the duty, and the books for each day's records were produced, showing that Stride had never been entered at any time for fatigue duty. Corp. Glover, in charge of the sanitary department of the W. O. R., stated that Stride had never been under him at any time, and therefore, could not have been employed in the lavatories.

Qualified to Act.
Lieut.-Col. Cannon, assistant director of medical officers for M. D. No. 1, stated that Capt. Brain, the officer in charge of the board who examined

PUTS O. K. ON BILL OF FARE

The Downcast Dyspeptic Takes Stuart's Dyspepsia Tablets After Eating and His Stomach is Now a Twelve-Cylinder Racer.

The old-time grouch is now a sunny Jim. Instead of feeling dull, stupid, irritable and dizzy after eating, he takes a Stuart's Dyspepsia Tablet and is bright, active, good natured and full of pep. He puts his O. K. on the entire bill of fare; everything is good from the soup to the pie and cheese and sets snug and comfortable. Once you learn the remarkable action of Stuart's Dyspepsia Tablets on digesting food, preventing and overcoming gasiness, heartburn, sour rising, hump back, constipation, and the other distresses of indigestion you will eat what you want at any time without the slightest uneasiness. Cheaper to Buy a Good Shampoo than New Hair

Dandruff is the primary cause of falling hair. The decomposable secretion of the scalp and hair glands is almost certain to cause temporary or permanent baldness. Loss of hair may also be ascribed to the use of improper shampoos containing irritating substances, animal oils and alcohol, any of which may produce gradual decay of the hair. Don't use a stale liquid preparation that contains too much alkali (a harmful irritant). The proper, safest and most effective way to make your hair shine is to use a certain of Valzer at any drug store. Dissolve one of the small packets into half glass of fresh water and you will have an abundance of non-injurious liquid that will remove itching of the scalp, killing hair and dandruff, also improve the natural color of the hair. Valzer being in concentrated form never spoils and will keep forever.

CANADA PASSES \$200,000,000 MARK IN LOAN

Ontario Reports \$107,879,150—\$17,230,950 Taken Tuesday.

"HALF-TIME" NOT YET UP This Province Sets Out to Equal All Other Provinces Combined.

TORONTO, Nov. 5.—With "half-time" of the Victory Loan campaign still a day in the future, Canada has already exceeded the two hundred million mark. The exact figures, as officially reported to W. S. Hodgins, chairman of the Dominion business committee, with returns from many of the provinces incomplete, are \$201,023,750. In the same period last year the Dominion had subscribed only \$122,725,100.

The province of Ontario, with returns in from all but a few canvassing districts, reports \$107,879,150, as against \$69,077,950 at this time last year, and of this \$17,230,950 represents today's subscriptions which, out of the province well over the hundred million mark.

Toronto Total \$38,952,000. Included in these subscriptions amounting to \$38,952,000 from the city of Toronto, of which \$7,588,350 are today's returns. At this time last year Toronto had subscribed only \$23,912,000.

G. H. Wood, provincial chairman, this evening handed out the following comments on the campaign in Ontario: "Today's total of \$17,230,950 is, with one exception, the best we have had from the province. This, with the \$48,200 previously reported, makes a grand total up to 11 o'clock tonight of \$107,879,150."

Challenge to Dominion.
"Ontario has issued a challenge to the rest of the Dominion that she will equal the combined total of all the other provinces. As their total tonight is \$39,150,000, we are maintaining our position, but from this out the other provinces will be forging ahead, and in Ontario we must strain every nerve or we won't make good our challenge."

"Of today's total, \$8,403,450 is from canvassing teams, and \$8,737,500 from special subscriptions. With 99 per cent of the time gone the canvassing teams' average for the province is only 37 per cent. Next to Toronto, Essex is doing the best return, with a magnificent total of \$1,353,000, bringing their combined percentage up to 63.4."

"Honor flags have been won today by fourteen places, including the city of St. Marys, the District of Algoma, the Soo being the second city in Ontario to win the flag."

FRENCH CHAMBER WILDLY ELATED OVER TRIUMPHS

Clemenceau Says It Will Be Impossible for Enemies to Harm World. A TRIBUTE TO BRITAIN Without Allies France Would Have Been Submerged.

PARIS, Nov. 5.—M. Clemenceau, the premier, was awarded a wonderful ovation in the Chamber of Deputies today as he read to the deputies the terms of the armistice with Austria-Hungary. He also said terms had been submitted to Germany.

"The terms to Germany," said the premier, "are what President Wilson himself recommended to us for the security of our troops, the maintenance of our military supremacy, and the disarmament of the enemy, insofar as that is necessary to prevent a resumption of hostilities."

The premier declared that peace might not be so near as some might think, but that he could, however, assure the chamber that "the peoples henceforth was fixed." There was prolonged cheering when the premier announced that the Allies had obtained the use of all means of transport in Austria-Hungary.

"Father of Victory," M. Clemenceau was hailed as the "father of victory" as he mounted the tribune to announce the terms of the Austrian armistice. The deputies all stood up. The ovation lasted several minutes.

During an address following the reading of the armistice terms there was intermittent cheering, especially when the premier spoke of the approach of full victory, the defeat of Austria-Hungary and the complete glory of France. The usual socialist interruptions occurred, but the premier, unperturbed, defiantly smothered the taunts of the opposition.

The chamber passed a resolution providing that the speech of M. Clemenceau should be posted throughout France.

"What I have done," said M. Clemenceau, "is France that has done it. I have only one more use I could of the instruments France has given me."

GREAT MASSACRE OF RUSSIAN BOURGEOIS PLANNED FOR NOV. 10
NEW YORK, Nov. 5.—The American-Russian Chamber of Commerce today appealed to civic and religious organizations throughout the country to protest against the massacre in Russia of all the members of the bourgeois which, according to cable dispatches last week, the Bolshevik intend to carry out on November 10.

The chamber has received information indicating that the Bolshevik plan a massacre on a greater scale than previous advice have indicated. The appeal urges that the Government of the United States be asked to unite with the governments of the Allied nations to warn Germany and the Bolshevik Government that all participants in any massacre will be held responsible with their lives.

New One-Cent Coin of Smaller Size Coming

OTTAWA, Nov. 5.—The minister of finance is considering the design for a new one-cent copper coin. The present one-cent piece, while of excellent design, is of so large size as to make it inconvenient to carry more than two or three in the pocket. The new coin will be slightly larger and slightly thicker than a ten-cent piece, so as to be easily distinguishable to the touch. It will take some time to have the die made, and the coins issued for circulation.

Since September 12, when the St. Michel salient operations began, the Americans claim to have downed 431 German machines. Of this number it has been confirmed that 278 have been destroyed.

BOOSTERS' NIGHT' BIGGEST MEETING YET AT INGERSOLL
INGERSOLL, Nov. 5.—The greatest public meeting in Ingersoll's history was held tonight in the Mason Arena at which several thousand persons gathered. It was a Victory Bond gathering, brought out by the employees of the John Morrow Screw and Nut Company Limited. "Boosters' night" it was termed, and when the final results have been announced they will doubtless show that the Victory Loan figures have been very materially "boosted."

Thousands lined the streets to witness a parade that was the most novel and peculiar ever held here. At the rink J. A. Coulter presided, and a fine program was furnished including selections by C. Leroy Kenney, entertainer of Toronto. With this exception, the program was provided by the Morrow employees. A number of addresses were given.

IS WELL ADVERTISED.
THORNDALE, Nov. 5.—The Victory Loan campaign is being well advertised in the village and it is expected, will result very successfully.

Refused To Sign Armistice and Left Task to Another.

CAUGHT IN BELTING, AILSA CRAIG MAN CRUSHED TO DEATH

COPENHAGEN, Nov. 5.—Emperor Charles, under the conditions of the armistice offered by the Allies so harsh and considered so dishonorable that he would not sign them, says a Vienna dispatch to the Berlin Tageblatt.

The emperor declared he no longer wished to exercise his authority as commander of the army. The conditions were finally signed by Field Marshal Arz von Straussenburg, the chief of staff.

The dispatch denies rumors that Emperor Charles had abandoned and was leaving for Switzerland.

Emperor Charles of Austria, according to a dispatch from Vienna, handed over the supreme command of the Austro-Hungarian army to Field Marshal Koerber on November 2.

John Sturgess, Flax Mill Employee, Instantly Killed.
AILSA CRAIG, Nov. 5.—Leaving his wife and four small children, the youngest only 4 days old, John Sturgess, aged 28 years, an employee of the local branch of the British Flax Company, was instantly killed tonight.

Sturgess was operating the breaking machine in the flax mill and his clothing caught in the belt. He was carried to the ceiling and crushed to death. His skull was fractured, and two arms and a leg broken.

Coroner Dr. Anderson decided an inquest was unnecessary. The funeral will take place from Stephenson's undertaking rooms on Wednesday. Interment will be made at Clendenny's Cemetery. Services will be conducted by Rev. J. Wheelan of the Anglican Church.

THREE GENERATIONS OF WOMEN

For three generations women of this country have used and recommended to their children and children's children the use of that famous old root and herb remedy, Lydia E. Pinkham's Vegetable Compound, until today it is recognized everywhere as the standard remedy for women's ills. It contains no narcotics or harmful drugs; is made from roots and herbs of the field under the most sanitary condition, and any woman suffering from such ailments should be sure to give it a trial.

The Advertiser's Daily Short Story (Copyright, 1918, by the McClure Newspaper Syndicate.) THE NAME OF ROBERTS. By Lincoln Rothblum.

"Well, I declare," ejaculated dainty Madeleine Sommers as a pretty frown marred the smooth whiteness of her forehead. "The most disagreeable letter from Ralph, mother, and tell me if it's ever heard of."

"Dear Sir—The company without mechanic, as there is no one else in the company qualified to do such work. So we will have to pocket your disappointment and wait for a more favorable opportunity. Love from your brother, 'Ralph'."

"Ralph is right," Mrs. Sommers answered soothingly as she industriously continued to knit the sweater which was gradually and surprisingly assuming the form of a sweater, "and if he is indeed here it would be unparliamentary to have him with us."

"But, mother, can't you understand that I wanted to bring home for the military ball? It won't seem like a real dance unless Ralph is with us. Oh, I just hate Liebknecht. It's an ugly old name, anyway."

accepted fact to find the lieutenant there. "I thought you might like to go morning this morning," he explained, "and perhaps after dinner you may care to visit the camp."

Madeleine decided that daylight did not detract from the man's personality. "Delightful," she answered, and a delightful ride it was. Out on the country road speed did not lessen his careful driving.

"I'll have my company first with rifles," he suggested, "you'll like that." As they proceeded down the company road speed did not lessen his careful driving.

"Hello, sis," Ralph called out, sliding his arm through hers as he saluted the officer. "Where did you meet Lieut. Roberts?"

"Lieut. Roberts?" Madeleine exclaimed in a dazed manner. "Certainly not your Lieut. Roberts?"

"And don't you like his Lieut. Roberts?" the lieutenant smilingly and wonderingly asked. "What do you mean? I couldn't come home on a furlough," Ralph explained, "she wrote me she hated even the name of Roberts."

"Hush, Ralph," Madeleine whispered, holding up a warning finger against her pretty mouth. "And then Ralph did a very unwhimsical thing. He admitted his superior officer and deliberately winked. And although it is not on record, it is very possible that he made an abody game of him."

"Do you think," the lieutenant asked, as his eyes eloquently pleaded his cause, "that Mrs. Roberts sounds like a very big name?"

Madeleine's laugh surprised her throat for joy. "On the contrary," she answered, "I believe I shall find it very much to my liking."

The lieutenant glanced down the company street and saw his men standing rigidly at attention, their spottish rifles glistening in the midday sun. "Sergeant," he called out, trying hard to conceal the happiness in his voice, "there'll be no drill today. Dismiss the company."

The first thing a married woman reads in a newspaper is the Death Notices. The first thing an old maid reads is the Marriage Notices.

There may be ideal husbands and ideal wives in this world. But, somehow or other, they are never married to each other.

We like to hear an old-fashioned woman begin to apologize for her poor cooking before we sit down to her table. We know that we are going to get a real meal.

Every man gets a heap of comfort out of the proverb about the race is not always to the swift. And the truest and easiest-going man is that it is so blamed hard to get him started.

For every man who is trying to get a corner on Knowledge there are a dozen who are trying to get a corner on Ignorance.

All we know about politics is that while a politician may sometimes conceal his hatchet, he never thrusts it away.

The officer watched the pretty girl admiringly. The opening notes of the next number startled him from his gaze and with a guilty look of having been caught he led her into the hall. And she glided smoothly over the polished floor. Madeleine uttered a silent prayer of gratitude that the lieutenant could dance so well, while it must be admitted that the lieutenant was trying to keep excellent rhythm with the ax.

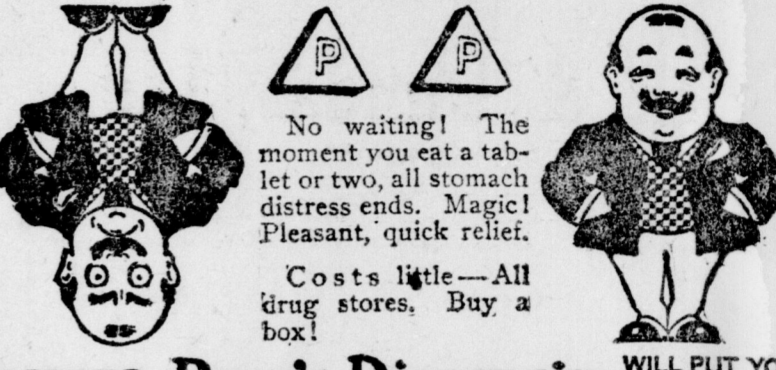

opinionist, who was not always certain if he was playing or losing or three-four time. Madeleine proudered around on tiptoe, her eyes shining with excitement.

The closing strain of "Good Night, Ladies," regrettably ordered them to the dining room, and when he had escorted her to her hotel he asked permission to see her again. "Certainly," she answered, "I'll be glad to see you from the church near by sounded twice she flew into the waiting section of the car.

The Daily Tragedy of BELGIUM

May this country never know the bitter agony Belgium passes through EVERY DAY.

May WE never live to see our people rationed on a bowl of soup and two pieces of bread a day.

Our children emaciated by slow starvation and falling easy victims to consumption, rickets and all the diseases fostered by mal-nutrition.

It's the little children that suffer most fearfully. The daily ration provided by United States loans to the Belgian Government is so pitifully inadequate for a growing child; it no more than momentarily stays the gnawing hunger.

There is hope for Belgium and her future generation only if YOU and the thousands who in the past contributed so generously to Belgian Relief, will help again. The brave souls who are attempting to administer the needed help to Belgium's children must have the necessary funds to carry on.

Mr. Hoover in his appeal of July 8th, 1918, for help for Belgium's children says, "This transmission of money is absolutely safeguarded by virtue of an agreement between the belligerent Governments, the C.R.B., and the Neutral (Spanish and Dutch) protecting Ministers in Brussels."

Don't wait for someone to come and ask you for a contribution. Send it in. Be generous. Be quick.

Make cheques payable and send contributions to Belgian Relief Fund

The Reasons Why—

THIS is what war-time conditions have done in the case of the telephone business: Increased the cost of new telephone construction from 50 to 100 per cent or more—

Doubled the price of steel, copper wire, platinum and lead—

Increased the cost of all labor that goes into telephone plant and equipment—

Made higher wages necessary for telephone employees—

Increased the traffic so that a larger number of employees is necessary—

Drawn to the colors a large proportion of skilled male employees, making ordinary upkeep both difficult and expensive.

Made it necessary to give the subscriber more service to take care of his thriving business—

And made it necessary also for us to get some increase in rates to cope with mounting costs.

We are therefore asking for what is necessary. We can see no other solution.

"Sporotrichosis," the Odd Skin Disease of Rural Places

By DR. LEONARD KEENE HIRSHBERG, A. B., M. A., M. D., (Johns Hopkins University.)

A rare malady, sporotrichosis, affects the skin of persons who live particularly in rural districts. It resembles lupus, but its diagnosis is made by the characteristic laboratory of making a bacteriological test, is easy.

Dr. J. S. Eisenstein, of the department of dermatology, Northwestern University, Chicago, recently described a typical example of sporotrichosis in a robust young man. On the patient's right arm were several eruptions, varying in size from a quarter to a half dollar. A dense yellow or blackish crust over an ulcerated surface seems to be the characteristic of sporotrichosis. These crusts spread to the right leg and ankle.

Toronto Lady Makes Affidavit

MRS. BURNETT has sent in this letter from a generous desire to serve others by giving them the benefit of her experience. Her sufferings resulted from a greatly rundown nervous system, and because she was a long time in finding a cure, she feels that she can now point others to the way of health. This letter came entirely unsolicited, and in order that strangers might fully realize the sincerity of Mrs. Burnett's statement we had her verify her letter before a Commissioner.

This statement will come as a message of hope to many thousands of women who are suffering somewhat as Mrs. Burnett did. There is every reason to expect equally good results in your own case, because Dr. Chase's Nerve Food cures in Nature's way by forming new tissues and building up the exhausted system.

"Katie! Katie! Katie! Where are you? Don't you hear the baby crying? My mother-in-law's voice, impatient, imperative, sounded outside my door. I sat up in bed, cast one look at the crib where Richard Graham Junior was exercising his lungs to the limit, and waited apprehensively but determinedly for the shout of wills which I knew I must begin with my mother-in-law's entrance.

"Margaret! Her tone was dramatic in its incredulous, horrified astonishment, as she paused just inside the door, and looked at me with a stare. I was calling for Katie, because I thought the baby must be alone. I was called by letting Richard, 2nd, cry this way?"

COUNTY IS URGED TO GREATER EFFORTS TO PUT LOAN "OVER" TO PUT LOAN "OVER"

Middlesex Must Raise \$200,000 Each Day.

EXECUTIVE SENDS LETTER

Township Councils Are Asked To Do Everything To Keep Up Good Name.

The County of Middlesex is falling way behind in the Victory Loan race, and now occupies the cellar position.

The County of Middlesex is falling way behind in the Victory Loan race, and now occupies the cellar position.

The situation is looked upon as serious by headquarters, as shown by the following letter sent out Tuesday to the township councils which were instrumental in appointing the canvassers for the loan.

"Under Way a Week. The campaign has been under way for over a week. The county's share of the Dominion wide effort is \$2,750,000. Of this amount to date there has been subscribed the sum of \$493,950, whereas to reach the above objective the sum of \$1,069,335 should have been offered."

"The situation is a serious one, so much so that this very worthy county makes absolutely the poorest showing of any county in the province of Ontario. This we feel is largely due to the apathy of many of the canvassers who are practically all nominees of the municipal councils, and it behoves the councils, therefore, to interest themselves actively in seeing that the canvassers are doing their full duty. Many of them imagine that the work can be undertaken and completed in a few days' time, whereas under the canvassing plan and in accordance with the agreement made with the Victory Loan organization the canvassers undertook to work for the full period of the three weeks' campaign."

"It would be a lasting disgrace if the county of Middlesex failed to do its full duty in the Dominion-wide effort, for we would ask you, therefore, to make this matter a personal one, and direct all possible energy on the situation, so that the remaining period might be a full measure of success may be obtained, and the county realize through your own and the canvassers' efforts the full amount asked for."

For the county executive committee, (Signed) "L. H. AMPHER, Chairman."

CORP. A. LANDERYOU LISTED WOUNDED

Corp. Arthur Landeryou, 434728, of Theford, has been wounded according to word recently received from the Western Ontario Battalion, and his wife and child reside in Theford.

Accounts were opened up at a local bank for the prize winners. This was done mainly to start people thinking. Some people who won prizes last year had never heard of the money added to their bank account which they most likely would not have had if someone had started the stone rolling.

It is expected that next year the association will be bigger and better than ever. The exhibition which was held on the 16th and 17th of October had to be postponed because of the Spanish influenza epidemic. Those present at the meeting were: E. B. Hamilton (chairman), G. L. Spry (secretary), Ald. S. R. Maness, Charles Gilbert, Dr. Frank Bryant, Sergt. J. C. Dace, T. P. Elliott and J. Tamm.

PATRIOTIC FARMERS ASKED TO DONATE SURPLUS APPLES

Soldiers' Families To Get Vegetables Too.

58 BAGS PICKED TUESDAY

Soldiers' Aid Commission Organizes Foraging Trips—Cars Are Needed.

That every bit of food grown by the farmers of the country should be gathered in to feed the people during the winter is admitted by all, but few know how bountiful the harvest has been this year, and especially in the case of the apple crop. In the district surrounding London there are whole orchards waiting to be stripped of their load of fruit.

It is with the intention of saving as much as possible of the surplus crop that the committee of the Soldiers' Aid Commission, under the leadership of Mrs. S. F. Lawson, has started a party of foraging to collect surplus apples and distribute them to the families of the soldiers. The committee feels very optimistic regarding the results, as a number of farmers have already signified their willingness to bring in potatoes, turnips, pumpkins and other vegetables that they have in hand in larger quantities than usual.

Opened in earnest, the campaign was when seven automobiles loaded with soldiers left the city for Westminster Township to take advantage of the kind offer of the farmers to collect surplus apples. Those who kindly made it possible to carry out the project were Mrs. S. F. Lawson, Mrs. H. E. Wheeler, W. W. Gammage, Rev. H. B. Ashby, Charles Jones and Mrs. Ray Lawson and 21 soldiers from the Central Convalescent Hospital, No. 1 District, Dwyer, Curling Heights and other hospitals.

These trips into the surrounding country will continue for the next few days until the committee feels that there are no apples going to waste that might be used to supply the quantity has been obtained to supply the family of every soldier in London with at least a small amount.

Will Also Take Vegetables. It is also proposed to send out any surplus of vegetables that the farmers have in hand, but are unable to bring into the city themselves. It is expected that farmers will generally help in the movement, and that at least one load into the market storage.

The committee wishes to make it clear that the purpose of the foraging is to take care of the families of the men who are still overseas, and it is felt that if the scheme is carried out with a ready response will be met with.

Any one who is willing to give a few hours to this worthy object is requested to telephone Mr. Lance, secretary of the commission at 955, so that he can arrange to have the necessary number of men on hand to lift the cars. The cars are to be used to carry the produce to the market storage at the Bank Building this afternoon, at 2 o'clock sharp, and car owners are asked to offer the use of their cars to the different farms.

The farms that were visited yesterday were those of David Jackson, 5th of James Bradish, 8th concession, Westminister Township, and a few farms have been secured, but more are being sought. Citizens are requested to offer their cars to the different farms.

The young soldier enlisted in the 14th Battalion at Forest and since then his family has removed to this city.

TIDINGS OF SOLDIER RECEIVED AT LAST

Pte. George Sturgeon, 84521, is in No. 4 General Hospital, Canada, suffering from a gunshot wound in the wrist. This information was received from the hospital by his father, Andrew Sturgeon, 199 Hyman street, London.

Sturgeon and other members of the family had suffered considerable anxiety over the fact that since last March had any word been received from Pte. Sturgeon. A letter to the office of the adjutant - general at Ottawa brought the above news.

The young soldier enlisted in the 14th Battalion at Forest and since then his family has removed to this city.
