

LONDON MEN FORM AN AUTO MANUFACTURING COMPANY

Col. Reid, A. S. Smart, John C. Coote and F. S. Mitchell Are Understood To Be Preparing to Make the Hudson Car Here.

The Hudson automobile will probably be manufactured in London in the near future.

This is a Detroit car, made in both runabout and touring car grades.

For some time negotiations between Messrs. Col. Frank Reid, A. M. Smart, F. G. Mitchell and Jack Coote, and the Hudson Company at Detroit, have been under way, and it is announced that practically all arrangements have been made for the manufacture of these cars in London.

The gentlemen are in Detroit today arranging the details, it is said, and it is confidently expected that when they return the announcement will be made that the deal is closed.

Sufficient real estate for the manufacturing plant has been secured, and the work of preparing the plant will be commenced at once.

Other automobile manufacturers are looking to London, and it is expected that other propositions will be submitted soon.

ENGINEER DARK HAS RESIGNED

HAD ROW WITH HON. MR. BECK

Criticism of the Report of Engineer Glaubitz of Hydro-Electric Commission Is at the Bottom of the Trouble—Water Commissioners Trying to Patch Up Differences.

Mr. Frank R. Dark, the recently-appointed head of the city electrical department, has tendered his resignation. It is now in the hands of Secretary Ellwood, and will be considered at the meeting of the water commissioners tonight, unless the matter is settled in the meantime.

The trouble was due to Mr. Dark's criticism of the use of aluminum wire for the transmission line from the Horton street station to the Springfield plant.

At the meeting of the board on Tuesday last, it was mentioned that aluminum wire would be used for this line. Mr. Dark objected to its use on the ground that it had proved unsatisfactory in other places.

Says It's No Good.

"We took down 60 miles of aluminum wire in Detroit, and scrapped it," he declared. "Our experience with aluminum wire was certainly far from satisfactory. We replaced it with copper wire."

This criticism did not meet with the approval of Hon. Adam Beck, chairman of the hydro-electric commission, who are responsible for the use of aluminum. All the high-tension lines from the Falls to London are aluminum, and Mr. Beck declares that it is wholly satisfactory, and cheaper than copper.

On Wednesday morning, he called Mr. Dark on the telephone, and rebuked him for criticizing the hydro-electric commission's engineer, Mr. Glaubitz. It is stated that the conversation was very sharp, and quite to the point.

Resignation Handed In.

Mr. Dark did not like the situation, and discussed the matter with some friends. His resignation was handed in to Secretary Ellwood, and it will be considered. Efforts are being made to straighten out the difficulty, and the commissioners are hopeful that they will succeed.

The crux of the situation is the interference with the local distribution problem of the hydro-electric commission. Mr. Dark wants a free hand, and does not care to have any interference whatever.

Chairman Speaks.

"I understand his resignation is in the hands of Mr. Ellwood," said Mr. A. T. McMahon, chairman of the commissioners. "I do not think it impossible of settlement. It is not necessary that Mr. Dark come into contact with Mr. Beck to any extent. If the trouble is only that regarding interference with the local distribution, we can easily settle that."

"I think Mr. Dark is a good man, and we do not want to lose him. I am hopeful that the matter can be settled amicably. Mr. Beck would not discuss the situation at all. He was not aware of Mr. Dark's resignation, although he had heard of it."

NEW BREAD LAW

ON JULY FIRST

Bakers Say They May Be Compelled to Make Ten

Ounce Loaves.

A MEETING TO BE HELD

It is Claimed That They Cannot Sell a Pound and a Half Loaf for Five Cents.

Two weeks from today the provisions of the Miller bread bill go into effect, and there is considerable speculation among many citizens as to what the bakers will do.

The bakers say that they do not know yet what they are going to do. They expect to call a meeting shortly to discuss the situation and arrive at some definite line of action. The new law says that only pound-and-a-half and three-pound loaves may be sold, except in the case of a 12-ounce loaf.

One baker told The Advertiser this afternoon that there is only one way that he can see out of the difficulty. The law allows them, it is understood, to sell loaves under 12 ounces, and call them "small loaf."

A Way Out.

"There is nothing," he said, "to prevent us, I think, from putting two 10-ounce loaves together and selling them as one loaf; that is one pound and a quarter. I think we can do this. It will mean a little more work, but that will be more than balanced by the saving of 4 ounces on every loaf, which would otherwise have to be a pound and a half."

"There is absolutely no chance of us selling a pound-and-a-half loaf for five cents," said another baker. "We can't do it and live, with everything at the price it is now. Bakers are paying higher wages all over the country in order to get men. There never has been a greater demand for good bakers than there is now. Flour is not coming down any, and other things are going up. I don't know what we will do yet, but we will have a meeting soon and arrange some way out of the difficulty."

A BRUCEFIELD ACTION.

Toronto, Ont., June 17.—George A. Turner, of Brucefield, sues the Doty engine works to recover \$1,000, alleged due as commission on the sale of the Goderich Engine and Bicycle Company's plant, which belonged to the defendants.

COUNCIL MAY BE ASKED TO STOP THE EXODUS

Local Businessmen May Put a Crimp in Detroit Excursions.

A number of local businessmen are considering asking the council to try and do something to prevent the weekly exodus from London in the shape of excursions to Detroit and other places, and keep the money that is being thus spent here.

"There is more than \$10,000 a week of London money being spent across the line," said one man to The Advertiser. "We are getting nothing back. Detroit people don't hold any excursions to London. There is not a single excursion coming to London and any amount are going out. It is time the council did something. We look to them as the head of the city to deal with matters of this kind. At a small estimate Detroit people secured \$150,000 of London money last season, and it looks as though they will get far more this year."

GOOD HORSES ARE VERY SCARCE NOW

Buyers From the West Have Been Scouring This District.

Horse dealers report an unusual scarcity of good horses.

A large number of buyers from the west have been scouring the whole of Ontario for suitable horses, but have found the supply rather scarce. As a result prices are going up.

"If the west has a food crop this year there will be a horse famine next year," said a dealer today. "It is almost impossible to get good horses. Practically every farmer in this part of the country is working as few horses as he possibly can, and selling the rest. Even with that there is not enough to supply the demand."

THE WEATHER TODAY

79.5 Registered at South London Observatory.

The mercury is pretty high in the thermometer this afternoon, but, at that, it has some half dozen degrees to climb before it reaches the high mark attained yesterday afternoon before the thunderstorm.

At the official observatory in South London 79.5 was registered this afternoon.

Premier's Reverence

Montreal, June 16.—While workers were engaged yesterday afternoon clearing away the wreckage at the Herald building, while an eager crowd stood quietly waiting to see if the remains of any of the victims would be taken out, a cab drove by, and in it was a white-haired gentleman. As he passed he looked at the building, and immediately the high silk hat was lifted from his head. The man was Sir Wilfrid Laurier, Premier of Canada, and he paid his respects to those who had died so tragically while doing their work.

DR. SCOTT DIES OF BLOOD-POISONING

Local Veterinary Succumbs to an Illness of Three Months Duration.

A MOST PECULIAR CASE

Inhaled the Breath of Sick Animal and His Own Illness Followed Immediately After.

Dr. J. L. Scott, veterinary surgeon, died today at his home, 871 Hellmuth avenue, after an illness of about three months with blood poisoning of a most peculiar type.

While attending some horses the doctor, it is believed, inhaled the breath of a sick animal, and blood poisoning developed in his throat.

For some weeks he had been very critically ill and no hope was held out for his recovery.

Deceased was in his 51st year, and was a son of the late Mr. James Scott, of concession 15, London Township, in 1892 he married, in Beaver Dam, Wis., the youngest daughter of the late Honorable Andrew and Mrs. Willard. He graduated from the University of Toronto, and for a time practiced in Enniskillen, from there he went to Wisconsin, and under the Republican administration he received the appointment from Governor Upham of state veterinary.

This position he held for a number of years.

Dr. Scott came to London seven years ago, and had since conducted an office in this city.

Besides his wife, he is survived by his invalid mother, six brothers and two sisters, Mrs. N. Ryan, Lucan, and Mrs. Fred Garrett, Granton, T. W. Scott, until recently manager of the Bank of Hamilton, Blyth; Frank, of the old homestead, London Township; G. Wesley, of this city; Arthur, teacher in Toronto; Albert, of Los Angeles, Cal.; Will, of Cranbrook, B. C.; Mr. Wilson Ryan, manager of the Bank of Hamilton, Wroter, and Mr. Leon Scott, of the Bank of Commerce, Seaford, are nephews.

Dr. Scott was a member of Kilwinning Lodge, No. 64, Chapter R. A. C.; Precceptor, Richard, Cour de Lion, No. 4, of the same order.

The funeral will be held from his late residence, 871 Hellmuth avenue, for Woodland Cemetery on Sunday, June 18, at 3 o'clock. Service will be conducted at 2:30 by Rev. Mr. Hill.

TWO HORSES WERE KILLED BY LIGHTNING

Mr. Ed. Turner, of Lot 13, Concession 9, London Township, Sustains Serious Loss.

Mr. Ed. Turner, lot 13, concession 9, London Township, lost two valuable horses during yesterday afternoon's storm. They were pasturing together in a field and were struck by a bolt of lightning which instantly killed them.

One of the animals was two years old and the other about five. They were valuable animals and were worth probably \$400.

POLICE ARE ON WARPATH AFTER SPEED MERCHANTS

London Gentleman Fined for Exceeding the Limit in an Auto.

At this morning's session of the police court, Guy A. Andrus was fined \$1 for exceeding the speed limit in his auto a few evenings ago.

P. C. Attenborough swore that he timed Mr. Andrus, and that his machine went at the rate of 30 miles an hour on Dundas street, between William and Maitland.

Another man who was driving his car alongside Mr. Andrus cannot be found. His car was No. 1904 and it is thought this is a Michigan number.

W. R. McGill, of Toronto, located by means of his number, was fined \$10 for driving too fast.

It is said he went up Dundas street for three blocks at the rate of nearly 60 miles an hour in a big touring car.

MUNCEYTOWN INDIAN SENT TO CENTRAL

Chatham, June 17.—Judge Dowlin yesterday sentenced John Pheasant, a Muncie Indian, to one year in Central Prison on one charge of forgery and two charges of false pretence. Pheasant forged a money order on one of his former employers, and also obtained money from two of his employers under false pretences.

Death of West London Girl.

Augusta C. Knauck, daughter of Mr. and Mrs. Philip Knauck, died at her parents' home, 9 Wyatt street, last night, after a brief illness, with spinal meningitis. The funeral was held this afternoon to St. Peter's Cemetery.

SOMEBODY IS A MEDDLER

SAY WATER COMMISSIONERS

Insinuate That a Man Who Is Drawing City Money Has Gone Out of His Way to Advise Engineer Dart—Still Hopeful of a Settlement.

The water commissioners would like to see Mr. Frank R. Dark head of the electrical department. His resignation was handed in to the secretary of the commission last evening, and is awaiting the action of the board.

They will meet tonight and some action will be taken. Mr. Dark has not reported at the city hall today. The commissioners wanted to see him, as the resignation was as much a surprise to them as to the general public.

It was impossible to locate Mr. Dark today, but the commissioners are hopeful that an arrangement will be arrived at and the difficulty settled.

A Little Hasty.

Some of them characterize the action as somewhat hasty, but expect to adjust the trouble when they meet Mr. Dark. He was to have gone to Toronto today to interview Engineer Sothmann, of the hydro-electric commission, on power rates, but decided that in view of all the circumstances it would be better not to go.

The members of the water commission were not anxious to talk about the matter today, declaring that they had nothing to say on the subject whatever. They admitted that the resignation was in Secretary Ellwood's hands, but claimed that everything would be satisfactorily adjusted. They were considerably put out that the resignation became public property, and consider that somebody in the employ of the city, too, has been giving bad advice, and meddling in business with which he has nothing to do.

No Friction Here.

There is nothing in the story that there was friction between Mr. Dark and Engineer Roberts. Since the duties of each have been defined there has been harmony, and the two men apparently worked together to good advantage.

In city hall circles it is taken for granted that Mr. Dark's resignation is final, and that he will return to Detroit, and take up his work with the D. U. R.

SUNDAY CARS TO PORT STANLEY ANNOUNCES THE P. M. RAILWAY

Service Will Be Put in Operation On June 26—Regular Fare of 30 Cents Will Prevail—Three Trains Each Way.

The Pere Marquette will inaugurate a Sunday service to Port Stanley on Sunday, June 26.

On that date the regular summer schedule of the company will be put into effect, and the trains will run daily, including Sunday, to the lakeside at 9:45 a.m., 2:30 p.m. and 8:15 p.m. The return trips will be as follows: 12:30 p.m., 7 p.m. and 10:30 p.m.

The regular summer fare, 30 cents, will apply.

The new orders have been received at the local Pere Marquette offices, and the trainmen have been given their instructions.

Order Issued.

"The new order for the regular summer service has been issued," said Mr. W. H. Hood, travelling passenger agent for the Pere Marquette. "This service includes three trains each way, including Sunday. On that day the regular summer fare, 30 cents, will apply. There will be no excursions on that day whatever. The service is merely the regular service, and has no application whatever to excursions, to which we will have nothing to do on that day."

LONDON REAL ESTATE IMPROVES

TRANSFERS SHOW AN INCREASE

C. P. R. Deals in East London Gave a Boost to Figures for the Month of May—Contrast for the Five Months of 1910 Is Not So Favorable.

Real estate is on the boom this year, thus far, and the returns are much in advance of 1909.

During the month of May there were 119 transfers. The assessed value of the property was \$101,232, and the consideration was \$145,782. The assessment was consequently 69.4 per cent.

In May, 1909, there were 101 transfers. The assessed value of the property was \$78,210, and the consideration was \$105,328. The assessment was 74.2 per cent of the consideration.

For Five Months.

For the first five months of the year there were 418 transfers, the assessed value being \$477,378, and the consideration \$645,714.

For the same period of 1909 there were 475 transfers, the assessment being \$430,164, and the consideration \$603,602.

Among the transfers last month was a considerable property purchased by the C. P. R.

"The value of property in London continues good," said Assessment Commissioner Grant. "The percentage on assessment is not high as last year, owing to the fact that much of the property, particularly some purchased in the north end, was bought above its real value for special purposes. However, there is a healthy, steady tone to the real estate market."

MUTINY ON A BRITISH SHIP

ENGLISH TARS THRASH CHINKS

Seven Mongolian Members of S. S. Highland Monarch Leap Overboard in Philadelphia Harbor and Four of Them Are Drowned.

Philadelphia, June 17.—A mutiny on board the British steamship Highland Monarch, outward bound for Auckland, N. Z., followed by a dash for liberty by a dozen Chinese members of the crew, resulted in the drowning today of four and the narrow escape of three others. The men rescued are in a police station, while the ship is in irons aboard the ship.

The trouble started last night. The Highland Monarch had been lying in the Schuylkill River at Point Breeze, in the extreme southwestern part of the city, for three weeks, loading cargo for New Zealand. As the United States immigration law puts a fine of \$500 on the captain of a steamer for every Chinese member of a crew that escapes, the twenty Chinese members of the crew, for weeks, loading cargo, while the other twenty men in the crew were given liberal shore leave.

Chink Draws Knife.

The confinement grew irksome, and as the ship was to sail today, one of the Mongolians asked First Mate Bowman last night to allow him a few hours on shore. Being refused, the Chinaman drew a knife, and chased the first mate about the ship. The

man was finally tripped by a white member of the crew, and in falling cut himself. He was placed in irons, and an hour later nearly all the Chinamen made a break for liberty. The Englishmen were on the watch, however, and a hand-to-hand fight followed, which resulted in the Chinese being overcome and forced back on the ship.

Assistance was summoned by Capt. Woods, and local police and special watchmen kept an all-night watch. Shortly after 7 o'clock this morning the Highland Monarch got under way, and with the Chinese in the stocks, the steamship was passing through the draw, a dozen Chinamen appeared above deck, and without an instant's hesitation seven of them leaped overboard. Capt. Woods was on the bridge and saw the break for liberty. He tooted the whistle and stopped the ship and ordered a crew to man a boat.

The whistle attracted the attention of the other three just managed to reach the shore, and got away.

LIGHTNING STRUCK COURTHOUSE

FLAG POLE WAS DEMOLISHED

Scene of Great Excitement in the Room Where Judge Elliott Was Holding Court—Flag Torn to Tatters—Deputy Sheriff Had Narrow Escape.

Yesterday afternoon, a few minutes before 5 o'clock, while the thunderstorm was at its height, the flagpole on the courthouse was struck by a bolt of lightning. The Union Jack was crumpled and tattered, a large hole being torn out of the centre, while the flag dropped to half-mast.

Splinters of the pole were scattered all over the courtyard, almost as far as Ridout street.

The loud crash caused considerable excitement in the courtroom, where Judge Elliott was addressing the jury in the case of King against Schier.

Confusion reigned in the room for several minutes, and his honor was forced to discontinue his address.

Above the Courtroom.

The effect of the lightning was probably felt more in the courtroom than any other portion of the building. The flagpole which was struck is situated only a few feet from a skylight, which overlooks the courtroom and is situated directly above the lawyers' desks.

It was those who chanced to be sitting directly under this skylight who felt the greatest effect, and the moment the crash was heard there was a general scattering of the legal fraternity from beneath this dangerous canopy.

Owing to the roll of the thunder and the noise of the rain beating down on the building, Judge Elliott had found it impossible to make the jury hear him, and was forced to stop.

Many Souvenirs.

After the confusion had subsided he continued his address. When it was concluded there was a general rush for the roof and the front of the courthouse. Souvenir hunters reaped a rich reward in the shape of splinters picked up as far away as two hundred feet from the courthouse.

A slight haze was visible in the judge's chambers, but outside of this nothing unusual in the building could be seen to indicate that it had been struck. Those who were in the room state that an odor of sulphur was plainly noticeable.

Deputy Sheriff Cameron was sitting in his office on the ground floor of the building, and states that he saw a flash of light go through the main corridor of the building.

A Narrow Escape.

If this was the bolt traversed by the bolt, Deputy Sheriff Waterworth had a narrow escape, for only a few moments before he was standing in the doorway of the courtroom.

The London street railway had a hard time with the storm. The flood of water caused the motors to burn out. Between 5 and 6 no less than five cars were put out of commission, and had to be towed to the barns for repairs.

The company was greatly inconvenienced at the rush hour by the storm, but by placing all cars in the barns in commission they were enabled to handle the traffic.

Veto Conference Has Been Arranged

London, June 16.—The much-discussed conference between the leaders of the Liberal and Conservative parties, on the veto power of the Lords has been definitely decided on.

Prime Minister Asquith and ex-Prime Minister Balfour preliminarily discussed the question during the past

three days. Lord Loreburn, the lord high chancellor, and Lord Lansdowne, Opposition leader in the House of Lords, were sometimes present.

It was that the proposal was adopted. The terms of the conference or its members have not been announced.

The first meeting will be held on the 22nd of June.

REVOLT ON THE BEACH

London, June 16.—The reproach of wearing the ugliest bathing suits of any women in the world may be lifted from the Englishwomen this summer if the latest modes in these garments are adopted, as they seem likely to be. The Englishwoman has clung to her hideous bathing dress obstinately in the face of the exquisite costumes for the sea which she viewed with disapproval while taking her holiday on the continent, and in spite of dainty American models imported to tempt her from the style of suit she considered the proper thing. She has worn the shapeless single garment with bloomer-like trousers and a loose blouse effect above the waist, which never by any chance fits at all. The handsomest woman in England must look plain in this garment, especially when it is completed by an oilskin cap drawn down over the ears. Of course a woman shows herself very little to the public in this guise, if there are no huts on wheels which

are drawn into the water, she hurries to the water's edge wrapped in a huge cloak, and when she emerges from her dip her maid or a friend is waiting with the garment to cover her up again. If there are bathing machines, as the wheeled huts are called, she is wheeled into the water and out again, so she is not seen except by those also taking a secretive dip, and as her best friend would not recognize her thus disguised, she is quite safe. Two years ago there was a revolt against this established form of bathing suit. At least half a dozen women appeared at every watering place wearing pretty bathing suits. Their lot was not easy. Crowds assembled at the water's edge to watch them, and amazement passed all bounds when it was discovered they were wearing stockings. Last year a few more ventured to look smart when they went into the water, and this year the prospects are bright. All the stores are stocked with pretty bathing suits in serge, alpaca and silk, and many are being sold.

CANADIAN FORESTERS GATHER AT MONTREAL

Largest Number of Applications and Initiations Reported.

Montreal, June 17.—The formal opening of the thirty-first annual session of the High Court of the Canadian Order of Foresters took place here yesterday afternoon, when the high chief ranger, J. A. Stewart, of Perth, Ont., extended a welcome to the delegates present, and reports of an unusually successful year were presented.

The report of Mr. Stewart showed that on the 1st of January, 1909, the order had a membership of 70,759, and there were initiated during the year 7,369 new members, being an increase of 712 over the previous year. During last year 1,855 members lapsed and 459 died, leaving the net membership at the close of the year 73,985.

The increase in the insurance reserve of the order during the year amounted to \$170,387 75. On Jan. 1, 1909, the amount on hand in this branch was \$2,728,940 54, and at the close of the year \$3,002,308 29. The amount paid in death claims was \$463,976 66.

The sick and funeral benefit branch is also in a flourishing condition. During the year no less a sum than \$144,321 20, covering 5,950 claims, was paid in this branch. The amount to the credit of this fund at the close of the year was \$170,732 82.

Mr. George Faulkner, high secretary, presented a report, which showed that a large amount of business had been done by the order during the year.

The amount of insurance premiums received during the year was \$618,017 62, which, with the large sum of \$12,329 79, derived from interest on investments, made the total receipts in this branch \$737,347 41. There were 459 death claims paid, amounting to \$463,976 66, leaving the sum of \$273,367 75 to carry to the reserve fund, which at the close of the year was \$3,002,308 29.

The sick and funeral benefit branch of the order also showed a marked advance. The amount of fees received was \$165,592 50, and interest \$6,695 82, making the total receipts in this branch \$172,288 32. There were 5,950 claims paid, amounting to \$144,321 20, leaving \$28,967 12 to carry to the reserve, which at the close of the year amounted to \$170,732 82.

Nearly 75,000 Members. There were 73,985 members in good standing at the close of the year, carrying \$74,161,000 insurance. There were issued from the high secretary's office 7,339 membership certificates and 7,334 membership certificates, or a total of 14,673, and, in addition, there were endorsements made on 1,512 insurance certificates. The statement of Mr. Stewart Elliott, high treasurer, showed that the income in the several funds were: Insurance, \$737,347 41; sick and funeral benefit fund, \$172,288 32; and general fund, \$82,712 01. Total income, \$1,002,347 74. The total expenditure in these funds was \$704,345 65. The surplus income over expenditure amounted to \$298,002 29.

The total assets of the order amounted to \$2,235,037 57, and its liabilities \$25,136 72. Assets over liabilities, \$3,209,900 85.

Dr. U. M. Stanley, chairman of the medical board, reported that the average death rate since its inauguration had been 5.17 per 1,000 of membership. During the year 8,316 applications had come before the medical board, 930 more than for the previous year, and the largest number for one year in the history of the order. Of the applicants, 8,280 were accepted, and 536 rejected.

Mr. W. G. Strong, superintendent of organization, reported that there were 7,369 initiations during the year, an increase of 772 over the previous year. At the end of 1909 there were 1,065 courts in the order, with a total membership of 73,985. Of these, 515 courts were in Ontario, 178 in Quebec, 58 in Nova Scotia, 70 in New Brunswick, 13 in Prince Edward Island, 110 in Manitoba, 65 in Saskatchewan, 38 in Alberta, and 16 in British Columbia.

Among those in attendance are the following: Messrs. J. A. Stewart, high chief ranger, Perth, Ont.; D. Allan, high vice-chief ranger, Grimsby, Ont.; George Faulkner, high secretary, Brantford, Ont.; Robt. Elliott, high treasurer, Brantford, Ont.; Dr. U. M. ESCAPE WHITE PLAGUE

The Jewish Race Practically Immune From Tuberculosis.

London, June 16.—The people of Britain, especially town workers, can do a great deal toward stamping out tuberculosis by copying the Jewish prescriptions with regard to food, says Dr. Allison, a prominent English physician and an authority on food values. In a lecture Dr. Allison set up the example of the Hebrews, a race which is, he said, practically immune from consumption.

The Jewish people, he maintained, through centuries of oppression, has survived because it was the best-fed race on earth. Jewish mothers were greatly to be commended for bringing up their children on fatty foods.

Prof. R. A. Sampson does not agree with Dr. Allison on this point. In the *Fortnightly Review* he makes this plea for a fruitarian diet:

"Perfect fruit alone can meet the demands of the human system, perfect fruit alone can stimulate the intellect, perfect fruit alone can calm the passions, perfect fruit alone can control the feverish activity of the arterial pulsations, which otherwise, engendered

LONDON, FRIDAY, JUNE 17.

CHURCH DISPUTATION.

A Catholic correspondent in yesterday's issue certainly countered effectively on some of the assailants of his church. The Montreal clergyman who accused the Catholic bishops and clergy of burning Bibles has never seen them do it, and is not likely that he will respond to the challenge to produce his proofs. The conflicting opinions expressed at a recent church synod also gave the writer an opinion, of which he took full advantage. Some of the delegates found fault with the Roman Catholic Church for teaching religion in the schools. Others extolled it on the same ground, and argued that its example ought to be followed in the public schools. Others alleged that religion was excluded from the public schools because of the Roman Catholic Church, and others were disposed to place the blame on the jealousy of other Protestant denominations. The discussion over the accession oath is another very excusable temptation to a Roman Catholic controversialist. Men who boast of the superior tolerance of Protestantism belie their professions by protesting against the exclusion of the intolerant and insulting clauses of the Royal Declaration. A bogus Catholic oath, reeking with denunciations of heretics, has been also paraded in some pulpits and some prints.

Our correspondent will note, however, that no conference, or assembly, or synod, or presbytery, in Canada, has countenanced the agitation for the retention of the offensive passages in the accession oath. Only yesterday the Anglican Bishop of Kingston squelched a motion to protest against the proposed alteration. The Anglican Bishop of Huron took the same course a few days ago. The General Assembly of the Presbyterian Church refused to discuss the question. Many leading Protestants in Great Britain, notably the Bishop of Carlisle, are urging the amendment of the oath, and the amendment will be made by a Protestant parliament. When all is said and done, we are living in a tolerant age, a tolerant country, and a tolerant Empire. The mass of Protestants and Roman Catholics dwell together in unity, in Canada, at least. Their attitude to each other is not at all reflected or affected by the language of a few extremists. The politicians of this community, or this Province, or this country, have never found it profitable to trade in religious prejudice. There are bigots in all churches, but their churches must not be judged by them. Christians will find enough work in fighting the awful forces of evil in the world without fighting one another. Clergymen, in particular, should refrain from language offensive to persons of another creed. Assailing a man's religion does not convert him; it merely confirms him in his beliefs—and in his prejudices, if he has any. And it stirs up an amount of feeling wholly disproportionate to the cause.

COLONIZING ENGLAND.

Slowly but surely the people of England are regaining the land stolen from the commonality in the bad old times. The small holdings act is helping the English to colonize England. Through this beneficent measure, which has been in operation only two years, some 60,000 acres have been secured for 6,000 small holders who have been or are soon to be placed on the land. So far 26,883 men have applied for "leave to toil" on English soil. Of these 15,191 have been approved, and 216,863 acres will be acquired for them under the terms of the act.

It is significant that only two per cent of the applicants last year wished to purchase land. The others preferred to lease it and put their little capital into the work of cultivation. This is important, in view of the land policies of the two great parties. The Unionists say they are prepared to do in England what has been done in Ireland—help farmers to buy the land by means of a public loan, repayable in instalments. The Liberals contend that the scheme would require so much capital that it would endanger the public credit, and that it would enable the landlords to unload their land at fancy prices which would hang like a millstone round the neck of the new proprietary. The small holdings act, on the other hand, authorizes the county councils of England and Wales to purchase small farms, using powers of expropriation if the landlords will not voluntarily sell, and to sell or act, a Liberal measure, authorizes the lease to be permanent, so long as the lessee pays his rent, and he is to be reimbursed for improvements if he

abandons his land. This is the system which is being worked out successfully, in spite of the opposition of some of the county councils under landlord influence.

The commissioners are convinced that a judicious extension of small holdings will do much to keep in the country a number of men who might otherwise be tempted to leave it by offering them a career of independence and a prospect of rising above the position of mere farm laborers. Meanwhile the small holder is paying his rent promptly and cultivating the land in a satisfactory manner.

THE ROBILIN-BORDEN NAVAL PROGRAMME.

We are told again by one of Mr. Borden's newspaper friends that the naval policy of the Laurier Government was "made in Quebec." We are told also that its advantages, in the shape of huge expenditures, are going to Quebec and the east, "the happy hunting ground of the grafters." This is foolish and mischievous chatter. The Government's policy was framed over a year ago by both political parties, as represented in the House of Commons. Mr. Borden was then for the immediate establishment of a Canadian navy—made in Canada and manned by Canadians. As late as October last he was of the same opinion. Three months later he discovered that this project should not have been undertaken by the Government without "a reference to the country," whatever that may mean. If our contemporary can furnish a reasonable explanation of this change of front, it will do more than Mr. Borden has done.

Stigmatizing the Government's policy as "made in Quebec" is a transparent attempt to arouse anti-Quebec prejudice. The reference to the millions that are to be spent in Quebec and the east is an attempt to create a sectional as well as a racial issue. Because Mr. Roblin has dictated to Mr. Borden in this matter, it is absurd to pretend that Mr. Borden's policy is a western one. Mr. Roblin today is the most discredited man in Canadian public life. He has no moral or legal right to sit in the Legislature of Manitoba. Our contemporary insults the east by its allusion to grafters, and it insults the west by representing Mr. Roblin as the spokesman of the west. There is no east or west in this question at all. The Government has framed a policy which responds to a national sentiment. This sentiment knows no geographical boundaries. But a broad national view is beyond some myopic politicians and journalists.

This is Canada's growing weather.

Ontario's crops are in fine shape, and nobody will be nervous or jumpy about them two months' hence.

Lightning struck the flagpole of the county yesterday. Will the hint be thrown away on the county council?

It will be noticed that Mr. Foster has been considerably spared the hard work of stumping with Mr. Borden in the vacation season.

The Ottawa Free Press speaks of "Kent's categorical imperative." Serves the eminent Kantian of the Free Press right for talking over the linotype's head.

"Old Citizens" letter will be published if he will forward his name, in confidence. This is the invariable rule of every well-regulated newspaper office.

An important letter from Mr. Dearness, on the University question, was badly "piled" in these columns the other day. It is reproduced on this page, and should be read anew.

If the Federal Government's naval policy was "made in Quebec" there are many ungrateful people there. The Nationalists and the Conservatives in that province are assailing the Government's policy unmercifully.

The Glauibites and the Sothmanns are the electrical experts of whom the public hears the most. The foreigners have left us behind in technical education. Ontario was asleep long after she should have been awake.

The Liberals and Unionists will confer on the veto question. The peers demolished a pillar of the constitution when they rejected the budget, and it looks as though they were now willing to surrender something to save the remnant.

"The great flag-waving act, that of proving that the Borden 'policy' was more imperial than the programme of the Laurier Government, will be reserved for Toronto. That much is sure.—Ottawa Free Press, Tuesday.

A true prophet, Mr. Borden did his flag-waving at Toronto the very next day.

THE MONTREAL DISASTER: THE EDITOR'S IMPRESSIONS.

(Montreal Herald.)
 The lesson of the disaster is the terrible destructive power of the weight of water contained in one of these great tanks. Necessarily, in this climate, it has to be inclosed. When it falls, therefore, it falls with the full force of its tens of tons. Putting aside the question of whether, and how, it can be securely supported, the thing to be borne in mind is what will happen if it falls. There was every reason to suppose the Herald's tank was secure. During nearly five years there was nothing whatever to suggest the contrary. In no other establishment in the city was there less doubt on the score of security. And yet, when the weak spot appeared it was a matter of seconds until the destruction was wrought. On the highest floor they had no warning at all. Men and girls in the path of the thunderbolt were crushed through the floor or swept in after it. Men on the floor below were carried down through three stories and thrown into a lane, where they lay covered with timber, bricks and machinery. They were all active, powerful, quick-witted fellows, and a second's notice would have been

enough if they could have had it. Two men working at their linotype machines on the edge of the abyss had no other warning than the topple of their machines, which fell as they sprang to safety. So rapid was the movement that no hint of all this going on above them warned the printers on the floor below, nor the pressmen on one floor below that again. On the editorial floor, and to those who were a little distance away, the impressions were fairly definite. There was a noise as if a glass partition had fallen. Then there was a crash, as if a press had stopped suddenly, with resulting violence. And then there was a rip-rip-rip, a sag in the ceiling, a sinking of beams, stanchions and partitions, a roar, a rush of dust, and then a great silence. From roof to cellar the water bullet crashed its way in a few seconds. And so it would be, we venture to think, with almost any other tank falling through the floors of almost any other building in Montreal. Plainly, this kind of fire protection is too much of a menace. Factors of safety are all very well, but when it turns out that something unknown, a weak spot in the wall, a flaw in the steel, a high wind, the influence of machinery, any one of many possible things, wipes out the safety factor, see what happens. Yesterday people were telling each other how many tanks had fallen these last few months. Who is to say which one will not fall in the next few months? The special protection water tank is a legacy from the old days of bad government in Montreal, when it was considered hopeless to get a water pressure sufficient for fire-fighting. In the present mood the hopelessness might disappear. Let the water tanks be pulled down and a proper water system take their place.

DR. KOCH'S ISOLATION.

(London News.)
 Dr. Koch, the great bacteriologist whose death is announced, was an occasion spent eighteen months on an island in the middle of the Victoria Nyanza, with an army medical sergeant as his only white companion. The outside world was entirely cut off from them, save for the primitive native boat made out of a tree trunk, which was used to convey them to the mainland. Their home was a straw hut, similar to that used by the natives. Only three white folk visited him during his sojourn—a German Government official and two doctors from Vienna.

GERMANY'S ADVANTAGE OVER ENGLAND.

(London News.)
 The German landlord is still a feudal baron. He does not clear the people off his land in order that rabbits and partridges may be bred upon it. Land is put to use in Germany, not to sport; and the scientific cultivation of forests, so far from being a menace to the people near them, is a great help in every way. German landlordism has robbed the town worker by increasing the price of his food, but it has not adopted the policy of English landlordism and deliberately depopulated the fields.

VIEWS OF IMMIGRATION.

(Toronto Mail and Empire.)
 The London view of our immigration rules is based upon a wrong theory. The rules are not made, as the London critics think, to injure British industry, but, on the contrary, to help them. When Canada names the kind of immigrants needed, and adds that those for whom there is no demand ought to have a little money with which to keep them free from the necessity of appealing for charity until they get work, she is doing a service to the immigrating classes. If she were to invite the wrong classes to come she would be guilty of cruelty.

CORRESPONDENCE.

A Lesson From the Maritime Provinces.

To the Editor of The Advertiser:

Between the Maritime Provinces and the western portions of Canada there is much more intercourse than between the former and our own Province of Ontario. It is always a matter of surprise to a resident of either scouring in the other for a month or two, to find how little the people of the Maritimes and of Ontario know of each other. Were there more intercommunication it would doubtless be of advantage to both communities.

A special correspondent from Ontario is giving his impressions of the Maritimes to the readers of a Toronto paper. Fairly well-used opportunities afforded by summer school work in Nova Scotia qualify me to review the correspondent's statements, and I wish to endorse particularly what he writes about the Maritime universities.

It should be borne in mind, that in Ontario, west of a line drawn from Toronto to Georgian Bay, there are more people and more wealth than in the three Maritime Provinces put together. In the said part of Ontario there is only one university—the Western—while in the Maritimes there are no less than six universities.

The correspondent, probably a Toronto man, writes as follows:

"One goes down to the Maritime Provinces prejudiced against these small universities, convinced that they should unite to form one great institution. But he is apt to see and hear things that cause him to change his mind. Doubtless for special work, for giving the really brilliant man a chance, the big university, with its costly equipment and to adequate staff, is necessary. But from the side of the immediate community, it is a question if these colleges, scattered all over the country, do not do more to raise the general level of intelligence than the big universities. They teach

more people. They render the cost much less. There are hundreds of men and women in the Maritime Provinces who had the advantages of a four-years' college course at no greater outlay of money than is required by the average man for one year at Toronto or McGill. The professor gets into closer touch with his pupils. As to the quality of educational development fostered by these 'one-horse universities,' it is perhaps significant that the continent has been getting its university presidents from the Maritime Provinces."

Our own Province of Ontario has had four college presidents from Nova Scotia alone. It was remarked that a Dr. Goldwin Smith's funeral the most notable figure was another Nova Scotian, now president of one of the most important universities in the United States.

Great Britain and the continental countries of Europe appear to be learning that centralization is not the best policy for either the university or the people. The lesson for Ontario from both kinds of experience is that university opportunities of the right kind should be extended.

J. DEARNESS.

CURED OF CONSTIPATION

Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N.S., writes:

"For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, and I have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills.

That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial.

They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."

For over half a century Dr. Morse's Indian Root Pills have been curing constipation and clogged, inactive kidneys, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25¢ a box.

INSURANCE CASE

BEFORE THE COURT

Chas. Gaul, of Stratford, Sues the Perth Mutual Company.

In an effort to get through the county court sittings this week, the cases are being divided up, and the non-jury actions are being heard before Judge Macbeth.

About half-past eleven this morning the non-jury case of Charles Gaul, late of Stratford, against the Perth Mutual Fire Insurance Company, was opened before the judge.

The plaintiff claims \$300 fire insurance on a house which was insured in the above company for \$1,500. The fire occurred in October of last year, doing damage to the extent of about \$300.

The defendant company refused to pay the insurance on the ground that on account of false declarations the policy is null and void.

Flock & Flock are acting for the plaintiff, and McPherson & Davidson of Stratford, for the defendants.

MURDERERS MAY BE IN SOUTHERN ONTARIO

Kovitch's Slaying Making Their Way to Detroit, Say Fall's Police.

Niagara Falls, Ont., June 16.—Not a word has been heard of the murderer of the late Kovitch since the brutal murder of the fellow-countryman Kovitch on the evening of the 15th in the car which was at the Niagara Falls Hotel. Chief Inspector Mains is circulating notices, offering a Government reward of one hundred dollars for the men's apprehension. The chief feels confident the men are making their way through Southern Ontario, heading for Detroit. Kovitch was a man of about 35 years of age, five feet seven inches in height, weighs 143 pounds, has dark hair and complexion, round face and a heavy sandy mustache. Both men had on the scene of murder. The coroner's jury viewed the remains of the murdered man and adjourned until Friday.

ANOTHER ADDED TO HERALD MISSING

Man Who Went to Building on Day of Accident Since Ben Lost.

Montreal, June 16.—Up to noon today the number of bodies recovered from the Herald ruins was 25, four of which, two boys and two girls, remain unidentified. Seven were taken out of the debris today, the others having been previously recovered. Those identified today were William Murphy, Frank Jensen, R. Harris, Dorothy Ward and Jennie White. Another name has been added to the missing, Richard McCoy, who went to the Herald the day of the accident and has not been seen since.

C. O. F. ELECTIONS

J. A. Brodeur, of Montreal, Elected High Chief Ranger by Acclamation.

Montreal, June 16.—The Canadian Order of Foresters have elected by acclamation the following officers: High vice-chief ranger, J. A. Brodeur, Montreal; high secretary, George Faulkner, Brantford, Ont.; high treasurer, Robert Elliott, Brantford, Ont.; high auditor, W. L. Roberts, Brantford, Ont. Several offices also to be filled, there being competition.

NOT MUCH OF A CASE

Magistrate Says Little Evidence Against Detroiters at Toronto.

Toronto, June 16.—In the police court this morning, Julius Hottenberger, Charles Preston, A. J. Greenaway and John Atkinson, of Detroit, charged with theft, arising out of the proposed flotation of an automobile company, were all released for one week on the same bail they are now under, namely \$3,000. The magistrate remarked that the evidence so far as disclosed did not reveal any theft, and that the case was one of mere possession of the same. The case was being brought to the police court, M. Campbell, a local broker, lays the charges.

SYNOD AND SCHOOLS

Toronto, June 16.—The Anglican Synod of the Diocese of Toronto in 1908 decided to appoint a field secretary for the Sunday school work. Last year Rev. C. B. Pilcher was appointed to the position, and he is now under \$1,200. Of this amount there is still \$850 owing to him. The synod at its annual meeting this morning decided to assess the various parishes proportionately in order to pay the arrears, and at the time of adjournment were warmly discussing the question of appointing a new secretary to carry on the work, Rev. Mr. Pilcher having resigned to accept another position. A considerable amount of opposition to the new Sunday school lessons developed. This question will be disposed of later.

SENT TO CENTRAL

Toronto, June 16.—Earl Smith, a young Ottawa traveler, charged with three charges of passing worthless checks and was sentenced to nine months in the Central Prison.

Vibrant Nerve Force Supplied to Man

[From "Man's Maladies."]

Without stamina, man is a failure. What is stamina? It is constitutional vigor-health. It is keen, responsive, vibrant nerve force, that gives wonderful inner strength of will, sustains a sound body, supports a sane mind, makes money and keeps friends. Keen, strong, sensitive nerves makes stamina. A man can excel in business, sport, pleasure and social favor. Without it he is apt to be weak, nervous, timid, feeble in motion, with cold hands, cold feet, nervousness, timidity, fear without cause, trembling, melancholy, pain in back of the head, neurasthenia and a general lack of grit, courage and nerve, so that it is impossible to naturally under all circumstances, as a man with stamina should. It should be the aim of every man to correct the condition responsible for failure and unhappiness, for it can be done by the simple fulfillment of nature's law that the nerves receive their nourishment from the blood. The blood is the nerve fluids to recover the daily waste which is constantly taking place. The nerve fluids and body issues undergo constant changes, and unless the supply is equal to the demand, the stream of health ebbs low, and misery prevails. Astonishing strength, nerve force and poise is quickly restored by the following valuable tonic, which anyone can prepare in the privacy of home.

First obtain three ounces of strychnine compound in six-ounce bottle; add one ounce of compound fluid balmwort; shake well and let stand two hours. Add one ounce tincture cadomene compound (not cadomene), and one ounce compound of iron and quinine. Mix. Shake well and take a teaspoonful after each meal and one when retiring.

The above ingredients, except the strychnine, are rare concentrations of purest drugs, and are used for various prescriptions.

GO TO PHILADELPHIA AFTER BIG FORTUNE

Torontonians Hope to Establish Claim for \$130,000,000 Estate.

Toronto, June 16.—One hundred and thirty million dollars! This is what a dozen or so Torontonians claim is coming to them from Philadelphia, and they are after it. Clarence W. Heise, 35 years old, a clerk in the office of the T. R. freight superintendent, is one of the claimants, and left for Philadelphia Tuesday night.

It is a property that was the estate of Col. Jacob Baker, a century ago and comprises one hundred acres in three parcels, mostly in the heart of Philadelphia. One hundred and two years ago the late colonel, who hailed from Hamburg, Germany, leased it for 99 years. The lease expired three years ago, but before it did Edward Grandson, 28 Gladstone avenue, a great-grandson of Col. Baker, was given power of attorney by the eleven heirs whose generation precedes him, and he laid his claim before the United States Government. The matter is now being investigated by a Government official. Quance is a cousin of Clarence W. Heise.

DEAD BEHIND BALES

Aged Wallaceburg Man Meets With a Tragic Death.

Chatham, June 16.—About eight weeks ago Robert Moore, of Wallaceburg, disappeared. His family were much alarmed, but as he had wandered away a few years ago, and had returned again, his relatives were still hopeful that he might be found. Last night a boy, working in the day mill, passed near some bales of flax, and noticed a man's coat. A search revealed the body of Mr. Moore. It is thought that he had left his work at the mill and had gone to sleep and had been unable to get out. Moore was 75 years of age. An inquest will not be held.

RUSH TO GOLDFIELDS

Stories of Big Strike Made on Stewart Creek.

Vancouver, June 16.—Arrivals from Stewart City confirm the stories of a big strike on Bitter Creek, seventeen miles from there. An hour or so after it got out Stewart City was practically deserted. The stampede was the most frenzied in the history of the northland. Waiters dropped their chairs, riders their reins, and started on the journey with whatever they could grab hold of in the way of outfit. The gold reef has been traced twenty miles, and that was not the end of it. The discoverer describes it as a range, not a mountain, of gold. Ore-free milling—samples went \$20 to \$30 a ton. There is said to be enough ore in sight to keep 1,000 stamp mills going for a quarter of a century.

A few sections of land in Matsqui, a few miles east of the Fraser River, on which mine sale rights are reserved, have been discovered, and a rush is being made by residents of the district to apply for the property. There are valuable traces of oil have already been found. Yesterday eight Abbotsford men filed their papers at the mining recorder's office. Since a boring was started at Matsqui, the excitement in regard to the oil deposits has been daily increasing.

TRACKED BY HOUNDS

Used by British Troops in the War Manoeuvres.

London, June 16.—Salisbury Camp was enveloped on Monday night by a mass hunt by bloodhounds. The Territorial camps have attracted a number of undesirable strangers and loafers, who have proved an insufferable nuisance to the military authorities and residents in the district. A few nights since two Territorials were attacked by a gang of roughs near West Down Camp, and were only rescued by the opportune arrival of comrades.

On Monday night another party of undesirable strangers was discovered in a deep ditch on a lonely part of the road between Shrewton and West Down Camp. They were ordered off by some farmers' men, and the local police officers determined to go in pursuit.

Mr. G. A. J. Oliphant, of Shrewton, was asked to bring two of his noted bloodhounds to assist, and he joined the police patrol with Chatter Bellboy and Chatter Envy, two of his smartest young hounds. They were put on at the place where the men had been seen, and incidentally they helped the police to unearth several caches containing provisions, which presumably had been looted from military canteens.

The hounds soon picked up the trail, and worked along the Tilhead road, past Greenlands Bottom, and took a sharp turn across to the village of Orcheston. They ran without a check for about four miles, and led the police to the village inn at Orcheston, where four men were found who admitted having been at the place where the bloodhounds were first put on.

A HEAVY SENTENCE

Montreal, June 16.—For defrauding citizens by forging checks and passing himself off as a doctor, Arthur Edward Richmond was today sent to penitentiary for five years.

PLUMMER PREPARING

Montreal, Que., June 16.—Mr. J. H. Plummer, president of the Dominion Steel and Coal Company, is in the city today, actively engaged in making preparations for the annual meetings of the Dominion Iron and Steel and the Dominion Steel and Coal Corporation, both of which take place tomorrow, the former at 11 o'clock, and the latter at 12 o'clock noon. Both of these meetings will partake largely of a formal character, such as the presentation of reports and the election of directors. Mr. Plummer will announce the result of the exchange of stock of the Dominion Iron and Steel Corporation, and while the actual figure are not forthcoming today, it can be stated on Mr. Plummer's authority that a very large majority of holders of common stock in both companies exchange their holdings. No decision has been as yet reached respecting the location of the new plant, which the steel interests will erect to combat any attempt at monopoly by the Hamilton merger in the matter of small products, such as wire and nails. The matter is now under careful consideration, and an announcement may be forthcoming in a few days. The dispute over the right to the title "Canadian Steel Corporation," which both companies have adopted, is also being considered, a conference having been arranged for today between the steel board and the Hamilton interests.

WILL OWN ALL LINES

Government Ownership of United States Railways Within Ten Years Predicted.

Chicago, June 16.—E. P. Ripley, president of the Santa Fe system, predicted today in an interview with the United Press, that the United States Government will own every line of railway within its domain in less than ten years. He believes that the measure for Government control will be introduced in Congress at the initiative of the Government for the purchase of all the railway systems as an economic necessity. How much money will be required for the purchase, Ripley refuses to estimate, but says that the present capitalization of the railroad systems is not their total value. If the railroads are taken to name their price, Ripley says they will ask more in nearly every case than the capitalization is at present.

JOHN A. STEVENS DEAD

Newport, R. I., June 16.—John Austin Stevens, a well-known New York merchant and a generation ago, and first vice-president of the Sons of Revolution and a writer of historical and financial subjects, died at his home today. He was 82 years old. From 1862 to 1868 he was secretary of the New York chamber of commerce. In addition to founding the Sons of Revolution, Mr. Stevens founded and was the first editor of the Magazine of American History, and was the founder of the Loyal National League.

EAT AND GET THIN

This is turning an old phrase face about, but modern methods of reducing fat have made this revision possible. If you are overfat and also averse to physical exertion and likewise fond of the table and still want to reduce your excess flesh several pounds, do this: Go to your druggist (or write the Marmola Co., 191 Farmer Bldg., Detroit, Mich.) and give him (or send them) one cent. For this modest amount of money the druggist will put you in the way of satisfying your ambition for a nice, trim, slim figure. He will hand you a large case of Marmola Prescription Tablets compounded in accordance with the famous Marmola Prescription, one of which you must take after each meal and at bedtime until you begin to lose your fat at the rate of 12 to 18 ounces a day. That is all. Just go on eating what you like, leave exercising to the athletes, but take your little tablet faithfully and without a doubt that fatty flesh will quickly take unto itself wings, leaving behind it your natural self, neatly clothed in firm flesh and trim muscles.

**FLURRY OVER TELEPHONES
MANAGER BEARD EXPLAINS**

**States That the Bell Company
Take Orders for Blake
Phones.**

The only flurry at the meeting of the board of works last night was occasioned when Ald. Morgan and Manager Beard of the Bell Telephone Company locked horns over the installation of four telephones in the residences of the ward foremen.

Manager Beard quoted a price of \$20 for two kinds of phones—one an unlimited local phone, and a two-party long distance attachment.

Ald. Morgan wanted the \$15 rate for Blake transmitters and accused Manager Beard of forcing upon customers the higher-priced telephones. He thought that the Blake transmitter was good enough, and that the people should be given the benefit of it.

Mr. Beard's explanation, "We do not practice deception at all," said Manager Beard. "We generally quote the \$20 price, as we think it the better value, and more suitable. We are installing the Blake phone all the time. We take orders for them right along, and when a customer wants one, we give it to him."

After some discussion it was decided to place a Blake phone in each of the foremen's homes.

Ald. Tancock reported that he had inspected the Scanlon drain, of which W. McFadden complained, but found it impossible to do anything to assist him out of the trouble.

Underground Wires.
Manager Beard appeared before the committee and asked to be given permission to place phone wires underground on Dundas and Richmond streets. He pointed out that the company was doing a great deal of this work, as it had proved satisfactory.

Ald. Tancock asked Mr. Beard if the company would consent to place the fire alarm wires in a duct with their wires. Mr. Beard answered that the company was perfectly willing, but that the city would have to pay a rental.

Mr. A. M. Hamilton was instructed to purchase bulbs and plants for the parks at a cost not to exceed \$125.

Those present were Ald. Tancock (chairman), Ald. Saunders, Ald. Pockock, Ald. Morgan, Mayor Beattie, Assistant Engineer Wright and Secretary Baker.

**IRA HALIDAY WILL

**That Is He Will Take a Short

Central.**

At the police court this morning Magistrate Love announced that in connection with the charge of being a detective without a license, which Provincial Detective Moore, of Hamilton, laid against a local merchant, he had decided to look into the matter further before giving his decision, and would enlarge the case for another week.

IRA on a Holiday.
Ire Haliday was sent to the Central for six months. He wished to explain, but the magistrate cut him short, and told him he had had every chance and must now take the sentence he knew he would get if he did not stop drinking.

"John Doe," the Toronto man who last week admitted that he gave that name in order to keep his right name out of the papers, looked decidedly improved after a week in jail.

"I guess you are to go on your way if I let you go," said the magistrate. "Will you get out of town if I release you?"

"I only had about a quarter of a drunk on," said I. "I certainly will not stay around if you let me out. I've seen enough of London to satisfy me for some time."

Mary Hennessy, an old woman who was intoxicated, was fined \$2.

The case of Thomas Lismore charged by Architect Nutter with breaking the building bylaws, was adjourned until tomorrow.

Dog Cases.
H. Fontaine, charged with allowing his dog to run without a muzzle, produced a broken collar ring and showed that he had kept the dog as he thought securely tied, and that it had broken its collar and got out. The court allowed him to go.

Sam Left and J. E. Wrighton, charged with allowing dogs to run without muzzles, each paid \$2.

BEAUCHAMP SUCCEEDS

Appointed President of Council in Succession to Wolverhampton.

London, June 16.—The Earl of Beauchamp today was appointed president of the council in succession to Viscount Wolverhampton, who resigned from that office yesterday.

William Lygon, the seventh Earl of Beauchamp, was born in 1872. In 1895 he was elected mayor of Worcester, and from 1899 until 1901 served as governor and commander-in-chief of the colony of New South Wales.

ANGLO-GERMAN ENTENTE.
London, June 16.—Lord Strathcona, wired to the meeting for the promotion of the Anglo-German entente, that he greatly regrets his inability, owing to official engagements, to be present. "Nothing can be nearer my wish than that the relations between England and Germany should be of a most friendly character, and anything that will do this will always have my warmest support," he wired.

Terrible Pains
From His Kidneys.**

Perhaps no other organs work harder than the kidneys to preserve the general health of the body, and most people are troubled with some kind of kidney complaint, but do not suspect it.

There is no way of getting the kidney poisons out of the system except through the kidneys, and no medicine so effective in taking them out as Doan's Kidney Pills.

They help the kidneys to flush off the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and urinary passages.

Doan's Kidney Pills are entirely vegetable, and may be safely taken by old and young.

Mr. Dougald A. Molson, Broad Cove Banks, N.S., writes:—"I was troubled with my kidneys for nine months, and suffered with such terrible pains across the small of my back all the time that I could hardly get around. After taking two boxes of Doan's Kidney Pills I began to feel better, and by the time I had taken three I was completely cured."

**New Bread Bylaw Will Make
More Work for Inspector
McCallum.**

The agitation in some quarters for the appointment of a bread inspector may lead to a reorganization of Inspector McCallum's department, in order to give the inspector more time to do outside work.

The proposal is to give him a clerk to do clerical work for the department. At the present time, a great portion of Inspector McCallum's efforts are taken up in doing the mechanical clerical work of the office. Were a clerk appointed they could relieve him of that duty, and give him plenty of time to attend to the outside work.

Should Have a Clerk.
"Inspector McCallum should have a clerk to do his work," said a gentleman in touch with the department. "If he were allowed sufficient time to do outside work, he would save the city a great deal of money. Tied up as he is, he manages to do a lot of good. If they had a cheap man to do the clerical work, and allow him more scope and freedom, he would do much more."

It is understood that the council will take this matter up very shortly.

The Marriage Bell

MOORE—HUTCHINGS.

The Vancouver Province of June 9 has the following account of the marriage of Capt. Montague Moore, son of Mr. William Moore, a well-known resident of London:

Capt. Montague Moore, of this city, and Miss Ethel Hutchings, of Winnipeg, were married last week at the home of the bride's parents, Mr. and Mrs. E. P. Hutchings, by Rev. Dr. Pitt-John. The ceremony took place before the large wedding cake, surrounded by a chaperon of orange blossoms, and she carried a bouquet of white roses, and wore the groom's gift, a superb and necklet of pearls. She was attended by one bridesmaid, her sister, Miss Hazel Hutchings, who wore an embroidered gown of white Persian silk, the draped overskirt trimmed with a pattern of pink satin ribbon. Her lingerie hat of white mull was garlanded with pink rosebuds, and she carried a bouquet of pink carnations, and wore a gold bracelet, with a buckle clasp, set with pearls, the groom's remembrance. Mr. Shelby Henderson was best man. After the ceremony a reception followed, which was participated in by a large number of friends. The bridal table was centred with a sumptuous wedding cake, surrounded with bridal roses. After the honoring of all guests the bride retired to change her wedding gown for a travelling costume of vieux rose tulle, heavily beaded, and a hat of the same shade, veiled with black lace, and garlanded with pink roses. Capt. and Mrs. Moore left on the west train for Vancouver and will make their home here.

R. H. & J. DOWLER LONDON and ST. THOMAS

CANUCK FOR POLE

C. S. Wright, of Toronto, To Go With Scott Into Antarctic.

Toronto, June 17.—Mr. C. S. Wright, son of Mr. Alfred Wright, of 60 Crescent road, has the distinction of being one of the physicians on Captain Captain Scott's Antarctic expedition, which has set sail from England for the South Pole.

Mr. Wright is an old Toronto boy, who has been working for the last two years in Cambridge under Professor Sir J. J. Thomson, in the famous Cavendish laboratory. He was educated at Upper Canada College (head boy 1904) and the University of Toronto, where he took first-class honors each year, and finally won the 1851 Exhibition scholarship. He is the second son of Mr. Alfred Wright, Canadian manager of the London and Lancashire Fire Insurance Company.

The work of the physicians, Dr. Simpson and Dr. Wright, will comprise the usual meteorological and magnetic work, and in addition a survey of the currents and conditions in the upper atmosphere will be attempted by sending up specially constructed balloons carrying instruments for registering the temperature and height. Work on ocean currents, atmospheric electricity, radioactivity of the sea and air, salinity of sea water, and analysis of the atmosphere will also be undertaken.

Another point to which Mr. Wright intends to devote considerable attention is the investigation of the crystal structure of ice from the point of view of its are and past history. Should any simple relation be found connecting the crystal structure and the age of ice, considerable light would

at once be thrown upon the origin of the great ice barrier that vast floating sheet, 200 feet high, 200 miles long, and of unknown width, which has so long puzzled the mind of the geologist.

It is interesting to note that another of the members of the expedition, Dr. W. A. R. Mitchell, has also been in the Antarctic, having been with Sir Ernest Shackleton, Lieut. Scott's predecessor in the search for the South Pole.

A JOINT FUNERAL

Hungarian Victims of Falls Fire To Be Buried Together.

Niagara Falls, June 17.—The twelve Austrians who were roasted alive in the fire at Fallsview yesterday morning, will be buried today at 11 a.m. in Drummond Hill Cemetery.

The funeral will take place from Morse's Morgue, Main street, Niagara Falls South. Rev. Father O'Neill, of the Church of Our Lady of Peace, will conduct low mass.

The condition of the husband, wife and child at the General Hospital remains the same, although little hope is held out for the recovery of the woman, who is in a very serious condition, being severely burned about the head and body. The child also suffers terribly agony, its hands and face being badly burned by the flames. The rest of the survivors have been taken into the home view.

There was no inquest evidence last night. If the man or woman at the hospital recover, an inquest may then be held.

Chief Mains is of the opinion that the fire originated from a lighted match being dropped, no notice being

taken of it by the foreigners who had been celebrating.

The foreigners will be buried at the expense of the township of Stamford.

SOVEREIGN BANK SUED

Shareholders Deny Being Owners of Stock.

Toronto, June 17.—William K. McNaught, Charles B. McNaught and George B. Shaw, all of Toronto, have each issued a writ against the Sovereign Bank.

The writs are in the name of the plaintiffs, who claim to be the owners of the stock of the bank, and are in the name of the defendant bank, contrary to law, by means of which any such shares have been made to stand on the register of shareholders of the bank, in the name of the plaintiff, are null and void, and should be cancelled; and that the name of the plaintiff has been and is wrongfully entered upon the register as holding such shares; and that the plaintiff was not and is not liable or responsible in any way or to any extent in respect of said shares; and that the plaintiff's name should be forthwith removed from the register of shareholders in respect to the said shares.

BISHOP MILLS AGAINST AN OATH PROTEST

Kingston, June 16.—Bishop Mills today expressed the conviction that the Diocese of Ontario would show wisdom in leaving alone any proposed protest against changes in the coronation oath, and though several strong speeches were made in favor of a protest to King George and the British Government, the bishop's wish was acceded to and the motions withdrawn.

A VERDICT FOR \$400 GIVEN THE PLAINTIFF

Keyser Against Schier Was Concluded at County Court Yesterday.

The jury returned a verdict of \$400 in favor of the plaintiff in the case of Keyser against Schier. The amount asked was \$500 for breach of contract in non-delivery of apples, for which, it is alleged an agreement had been entered into.

On July 29, 1909, Philip Keyser, an apple dealer, of Strathroy, and Manfred Schier, an apple dealer, of Arden, entered into an agreement for the shipment from Theford by the defendant to the plaintiff of 1,000 barrels of apples at \$2 a barrel, to be paid for and inspected by the plaintiff before leaving the depot. On Oct. 18 the plaintiff demanded the apples, but the defendant refused. By reason of this the plaintiff claims that he was forced to buy apples at 50 cents a barrel more to fill contracts, thereby losing considerable money.

The defence claimed that the plaintiff failed to carry out the terms of the contract in not depositing \$500 to the defendant's credit, and that the plaintiff was not ready to inspect the apples or make payment on them at the time of shipment. The defendant entered a counter claim for \$500 for loss in having to resell.

Duncan C. Ross, of Ross & Bixell, of Strathroy, appeared for the plaintiff, and Mr. Johnston, McKay, Dods & Grant, of Toronto, for the defendant.

ENGLISHMEN MAY HOLD ANOTHER BIG PICNIC

A Mass Meeting To Be Called to Consider Question of an Outing.

A mass meeting of the Englishmen of the city will be called in a few days to consider the question of holding an Englishmen's picnic. It is likely that the picnic will be held in the city this year, and an effort will be made to get Englishmen from surrounding cities and towns to come here and join in the celebration.

The matter was brought up at a meeting of St. George's Society last night, and talked over with representatives from the Sons of England, and it was unanimously decided to call the mass meeting.

The St. Thomas Englishmen meet this evening to discuss picnic arrangements, and an effort will be made to get them to come to London.

A New Idea in Medicine

Which Accounts for the Enormous Success of DR. A. W. CHASE'S NERVE FOOD.

To tear down the diseased tissues was the old principle of medicine. To cure by building up new, healthful tissues is the new method.

Dr. A. W. Chase's Nerve Food is a splendid illustration of the new method, for it cures by increasing the quantity and quality of the blood, by creating new nerve force, and by overcoming weakness and disease with new vigor, new energy and new vitality.

The time to begin using Dr. A. W. Chase's Nerve Food is when strength fails you and you find yourself out of sorts and losing health and vigor.

It is easy then to get back to normal condition by using this great restorative treatment. The blood is enriched, the nerves revitalized, new firm flesh and tissue is formed, and you feel the snap of new vigor as it is being instilled into your system.

Don't wait for nervous prostration or paralysis, but keep the system at high water mark. Dr. A. W. Chase's Nerve Food. Fifty cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

BOUQUETS AND KISSES.

Mr. George Naylor, president of the association, presided. On taking the platform Mr. Borden and Mr. Doherty were presented with fine bouquets by three dainty little tots named Ruth Tooten, Essie Sutherland and Mildred Gregg. They were suitably rewarded.

Mr. Naylor introduced the celebrities to the audience. He then extolled the glories of Ingersoll, referring to the ten miles of sidewalk, and the fine maple trees of the town. Reference was also made to the new hospital.

Those on the Platform.

On the platform with the leaders were Dr. A. B. Wilford, Woodstock; Geo. W. Neely, M. P. P., East Middlesex; M. G. Naylor, Woodstock; R. E. Rugg, Woodstock; Jas. J. Wallace, Mayor Scarff, D. W. Karn, T. Drew Smith, Chas. F. Hamlin, Woodstock; Jas. Sinclair, Ingersoll; J. H. Fisher, P. P., Paris; Dr. Reaume, Windsor; Dr. Coleridge, Ingersoll; Dr. Canfield, Ingersoll; Major Thomas Beattie, M. P., London; Hume Elliott, London; L. B. C. Livingstone, Tillsonburg; Sam. Barker, M. P., Hamilton; Peter Elson, M. P., East Middlesex; Rev. Canon Hinks, Rev. R. J. Perkins, Rev. Father Ford, Rev. A. Bright, Rev. C. J. MacLean, S. R. Lee, Ottaville; John Pollock, Woodstock; Dr. McLeay, Ingersoll; D. Quinn, Kintore; C. W. Riley, Ingersoll, and others.

Addresses of Welcome.

Addresses of welcome were read to Dr. Borden by Dr. Coleridge, James Sinclair, and Dr. MacKay, mayor of Ingersoll. All expressed pleasure at welcoming the distinguished visitors.

Mr. Borden responded in a happy mood to the addresses of welcome, and expressed his pleasure at the presence of so many ladies. When the Conservative party won the sympathy of the ladies the day was won, he declared.

Entering seriously into his subject, he stated that it was not his intention of criticising the rank and file of Liberalism, as they were just as honest, just as patriotic, just as sincere as the Conservatives, but he was going to criticize the men who were leading, or rather misleading, the party, as he put them. They had departed from the high ideals of Hon. Alex. Mackenzie and earlier Liberal leaders, and had disgraced the great party by the mismanagement and bad government. He confessed that he had hoped to carry the country at the last general election. The Conservatives had had a good policy, and a good platform. However, by the use of the power in the Government's hands they had been defeated. There was this coming, however, that since the election the Government had, in whole or in part, adopted four planks of their platform, chief among which was civil service reform.

The citizens, however, had the right to expect that the Government of the country should be carried on honestly—that it was not the intention of the electors of the country that the Government should make millions, or provide funds for party victories. The Liberals had not kept their promises of honest administration, he claimed, and he referred to the Imperial Realty Company, Ottawa, from whom the Government rented offices. The sum of \$9,000 was paid to this company for lighting, when the city of Ottawa could light it for \$5,000; a clear steal of \$4,000 a year, declared Mr. Borden.

LEADER BORDEN AT INGERSOLL

Chief Speaker at Oxford County Conservative Picnic.

Refers to Quebec Bridge Collapse, Sawdust Wharf, and the Navy Question.

ATTACKS GOVERNMENT

[By Our Own Reporter.] Ingersoll, June 16.—The Borden picnic here today was a quiet and altogether respectable affair.

Mr. Borden was at his best. He was a trifle husky, perhaps, but he delivered a good Borden speech of the record of the Laurier Government. The piece de resistance in today's offering was on the celebrated sawdust wharf, which was the breakfast food of South Oxford Conservatives, served in real hot sauce. This was heralded as the big part of the day's proceedings just as the Quebec bridge was the feature of the Campbellford meeting, and the naval question the strong food for the Toronto Conservatives. However, it did not line up to expectations, as it has been taken up scores of times. Mr. Borden spoke at some length, and was given a good hearing. There was a unanimity about the gathering that made it very plain that there were no disturbing elements present. At no time was there much enthusiasm, but the remarks of the speakers were listened to attentively.

The New Lieutenant.

Quite the feature of the day, outside of Mr. Borden's appearance, was the presence of ex-Judge Doherty, of Montreal, Mr. Borden's new lieutenant. Mr. Doherty delivered a scholarly speech dealing with the alleged failure of the Government to make a thorough house-cleaning following the civil service commission, and with the expenditures on the construction of the Transcontinental Railway. He has a good flow of language, is possessed of a strongly judicial mind, and considerable wit. While not yet accustomed to picnic oratory, Mr. Doherty delivered a good strong speech, one which would have been heard to better advantage in a hall or rink. He was introduced as the "wittiest French-Canadian in the Dominion," a reputation that is apparently somewhat heavy to bear.

Speeches were also made by Hon. Dr. Reaume, Dr. Coleridge (Ingersoll), Geo. Sinclair (Ingersoll), and others. A civic welcome was extended to Mr. R. L. Borden by Mayor Mackay, on behalf of the citizens.

Parade to the Park.

Mr. Borden, accompanied by ex-Judge Doherty, Organizer Carstairs, and others, reached Ingersoll shortly before noon, and were met by Dr. Coleridge and a deputation of local Conservatives. He attended for a brief space the annual meeting of the South Oxford Conservative Association, and was afterwards entertained at lunch. At 1:30 preparations were made for the parade to the park.

At 2 o'clock the procession moved, with the Citizens' Band leading, Mr. Borden and a number of leading Conservatives in carriages were taken to Victoria Park, where the exercises were held. On arriving there a somewhat disappointing audience greeted the Conservative leader. The attendance was not more than 500, and of these a considerable number came from Woodstock and outside places.

Bouquets and Kisses.

Mr. George Naylor, president of the association, presided. On taking the platform Mr. Borden and Mr. Doherty were presented with fine bouquets by three dainty little tots named Ruth Tooten, Essie Sutherland and Mildred Gregg. They were suitably rewarded.

with, and Mr. Borden recited the incidents of the purchase of this property.

This sounds like comic opera," said Mr. Borden, when there was the suspicion of a smile among the audience, "but it is a serious business. The Government paid \$5,000 for a wharf that was refused at \$500, and which has never been used. The money was turned over to party heeled, and no value whatever was received. The transaction was so flagrant that the public account committee, Liberal and Conservative alike, roundly condemned the deal. It was not Laurier's money nor Pugsley's money that was spent, but the electors'." They had the right to at least common honesty in the administration of affairs."

These questions were small, of course, but they were more readily understood than the larger matters continued Mr. Borden. The Quebec bridge was an example of the latter. He declared that \$6,000,000 of Canadian money was lying at the bottom of the River St. Lawrence, a silent testimonial to the incompetence and negligence of the Government. They had erred in not providing competent engineers, and also in awarding the tender to firms of ordinary standing.

The Naval Question.

The naval question was touched upon at some length. The type of vessel purchased by the Government was not effective, he declared, and sized up badly beside the Dreadnoughts of Australia and New Zealand. The question of effective and immediate aid had not been settled as yet. It should have been before this large expenditure was gone on with.

"If Canada is of the empire in peace, she must be of the empire in war," declared the speaker. "We must either haul down the flag on our ships in time of war, or fly the flag of neutrality, if the war does not meet with the Government's ideas of it. That, I say, is wrong. We are with the empire in peace; we must be with the empire in war."

The people of Canada, he declared, would not support a policy that would divide the navies of the empire. The empire at present was a vast disorganization. It was not organized for defence. It was not organized for trade. One of the problems for imperial statesmen was that of so welding the parts that it would be organized in peace and war, in prosperity and in calamity, in trade and commerce.

Mr. Borden, in his concluding remarks dealt with the necessity for higher citizenship, and careful consideration of the great public questions.

Government as Spender.

Ex-Judge Doherty, M. P., St. Anne's, followed. He dealt largely with the Montreal, followed. He dealt largely with the investigation of the spending departments of the Government.

"I asked for the appointment of a commission to inquire into these departments," declared ex-Judge Doherty. "The condition of affairs had been characterized by the term, 'Augean stables,' and I asked the Government to clean them out. Did they do it? All the answer I got was, 'To the pure all things are pure.' Why did the Government not go and do the work? Why did they not clean out the departments and make them pure and clean, as they should be?"

The great expenditure on the Transcontinental was another source of worry to Mr. Doherty, and he declared that the Government deliberately refused to give the Opposition any information regarding these expenditures.

C. O. F. ELECTIONS.

Montreal, Que., June 16.—Canadian Order of Foresters tonight re-elected Mr. J. A. Stewart, of Perth, high chief ranger, and decided to meet next year at Toronto. Rev. W. J. West, of Bluevale, Ont., was elected high chaplain, and Mr. Wm. Walker, Montreal, high registrar.

ITALIAN MURDERED AT FOOTE'S BAY

Parry Sound, June 16.—Raphael Donnell was shot and killed at Foote's Bay, Ont., this morning by Joe Pisani. Pisani is still at large. Provincial Constable Connor has left Parry Sound to arrest Pisani, but up to the present time nothing further has been heard. Both men are Italians.

A Vocal Recital.

A very fine vocal recital was given in the hall of the Conservatory of Music Thursday evening by the vocal pupils from Miss Belle Brown's class, assisted by the Misses McConnell, Smith, Sophia Weissman and Renee, piano pupils of Miss Francis, and the Misses Harriet Manning and Cathleen Braithwaite, pupils of Miss Anthistle, gave readings. The audience was most appreciative. The following vocal pupils took part: The Misses Gladys Shaw, Devina Scott, Hattie Smythe, Bertha Blackwell, Edith Greer, Edna Calhoun, Lulu McLeod, Duchess Ferguson, Florence Phipps, Emma Graham, Stella McConnell, May Mason, Messrs. George Templar, Charles Coles and Will Yealland.

Presentation to Miss Maguire.

At a special meeting of the Mothers' Club of the Simcoe street school yesterday afternoon Miss Maguire, who is retiring from the kindergarten staff, and leaves shortly for Toronto, where she has accepted a similar position, was presented with a beautifully engraved gold-headed umbrella and an address. The address was read by Mrs. Lambert, secretary of the club, and Mrs. Stanley Goldsmith made the presentation. Miss Maguire was also presented by the teachers with a handsome brass kettle and lamp. Miss Maguire replied suitably, thanking the members of the club and the teachers for their kindness. Before the gathering closed ice cream and cakes were served.

LONDON HORSES

AGAIN TO THE FRONT

Win High Honors at Closing Night of St. Thomas Horse Show.

St. Thomas, June 17.—The St. Thomas Horse Show wound up last night what was probably the most successful exhibition ever held here. London horses again made a fine showing.

The special feature was for hunters for best performances over six jumps for teams of two jumping abreast, Sir Frederick and Sir Thomas, ridden by Mrs. Beck and Miss Clouston, taking first place.

The results were: Thoroughbred 8-year-old colts—1, Major, Belmont; 2, King and Queen, K. L. Wilks, Galt; 3, King and Queen, R. Thayer, Dunboyne.

Thoroughbred 8-year-old colts—1, Bonnie Chateau, Alex. Balore, Springfield; 2, Prince Orloff, J. H. McCance, St. Thomas.

Three-year-olds for carriage purposes—1, Nellie, Jack Martin, Sparta; 2, Queen Anne, I. W. MacPherson, St. Thomas; 3, Lady Subordon, Thos. Oliver, Shedd.

Fair of horses in harness—1, Lord and Lady Nortolk, Mrs. Adam Beck; 2, Black Prince and All Ablaze, Miss K. L. Wilks, Galt; 3, King and Queen, R. Thayer, Dunboyne.

Thoroughbred 8-year-old colts—1, Bonnie Chateau, Alex. Balore, Springfield; 2, Prince Orloff, J. H. McCance, St. Thomas.

Three-year-olds for carriage purposes—1, Nellie, Jack Martin, Sparta; 2, Queen Anne, I. W. MacPherson, St. Thomas; 3, Lady Subordon, Thos. Oliver, Shedd.
