WOULD PERMIT PENSIONERS OF SLIGHT DISABILITY CHANCE TO ACCEPT SETTLEMENT IN FULL

Commissioners Urge Amendments to Present Laws Whereby a Veteran's Disability at End of Three Years Would Be Considered Permane nt-Over 40,000 Men Affected Under the Proposed Change.

TO HEAR DEPUTATIONS.
Ottawa, April 16. — Canadian
Press.—Suggested amendments to
the pensions act were before the special committee on pensions and re-establishment at its meeting this morning. These were in the form of recommendations from the form of recommendations from the board of pensions commissioners and the committee considered the clauses, some of them rather drastic in their proposals, which the commissioners submitted.

Adjournment was made to Tuesday morning next, when the pensions proposals of the Great War Veterans will be dealt with.

Deputations from the Amputation Club, Toronto, and the Tubercular invalided Soldiers' Welfare League were on hand this morning and will probably be heard. probably be heard.

Ottawa, April 16.-Canadian Press. Several striking changes in the soldier pension laws were recommended to the pension laws were recommended to the special pensions committee of the Commons today in a statement submitted by the board of pensions commissioners. Consideration of the proposed amendments is now under way.

Among the important changes suggested was one whereby a pensioner's disability would be considered permanent after three years had elapsed from the date of the amendments being adopted. The pensions commissioners in their recommendations pointed out

their recommendations pointed out that many disabilities would increase with the ageing of the pensioners, and medical re-examinations, if continued, would continue to increase Canada's Another important suggested amend-

Another important suggested amendment was to the effect that all pensioners of less than 20 per cent disability be given the opinion of accepting a lump sum gratuity in lieu of pensions. The amount of money involved would be between \$8.000,000 and \$12,000,000, and some 40,900 men would be affected by this decision. The gratuity would probaby be paid off within three to five years, and the administration expenses of the board would be materlly reduced by the adoption of such a

plan.

40,922 Men Affected.

In support of this idea a table was submitted estimating the number of men in each class, probable average gratulty, and total sum needed for the pratulty, and total sum needed for the purpose, as follows:
Five to 9 per cent. 8,319 pensioners; average gratuity, \$150; total, \$1,247,850.
Ten to 15 per cent, 22,655 pensioners; average gratuity, \$300; total, \$6,616,500.

A pensioner with disability ranging from 5 to 19 per cent would be entitled to elect to receive a cash gratuity not to exceed \$1,000. This would be a final payment of all his claims.

Amendments would also extend the provision of the act to men in the headquarters staff, permanent force and active militia. It was proposed to make active militia, it was proposed to make the present pensions act applicable to every soldier and sailor, but not to pay pensions unless disability or death were attributable to service.

The commissioners recommended that the act be amended, so that pensions would be awarded on the rank of the pensioner at the time of returning the pensioner at the time of returning home, instead of at the time of incur-ring the disability. This would give justice to a man who might have been given a commission after incurring dis-

ability. Other Changes Suggested. Other Changes Suggested.

Thousands Walk Upstairs When Elevator Men Strike

New York, April 16.-Revival of the lost art of walking upstairs was forced upon thousands of reluctant persons in New York today by a strike of 17.000 union elevator operators. The operators, who voted last night to strike for increased pay and shorter hours, did not show up for work this morning. Rumblings of the impending strike had reached the ears of owners of office buildings, department stores, and apartment houses, however, and an effort was made to maintain a service, but it was not adequate to the demands. The great office buildings in the downtown skyscraper district, some

of which house more than 10,000 persons each work day, were hard hit. Hundreds stormed the elevator entrances, overcrowding the few cars that were operated by engineers, electricians and hastily-gathered volunteers. Many were forced to climb to offices on the tenth, twentieth or

THEODORE VAIL IS DEAD IN BALTIMORE

Head of American Telephone! and Telegraph Company

New York, April 16.—Theodore N. Vail, chairman of the board of directors of the American Telephone and Telegraph Company, died suddenly this morning in Johns Hopkins Hospital, Baltimore. this The late Theodore N. Vail was assoiated with Alexander Graham Bell, the

Canadian inventor, in the early days of the development of the telephone. Mr. Vail was 31 years old when Bell invented the telephone, and, notwithstanding his age, he was filling the responsible position of line superintendent of the United States railway mail service. Still earlier, however, he had been a telegraph operator, and, interested in the possibilities of electrical communi-cation, he had visions that Bell's "toy" would some day be a great factor in American life. The great Canadian in-ventor and his associates had equal faith in Mr. Vail's organizing genius, and he was easily induced to resign his Government post to become the general manager in 1878 of the first American

Bell Telephone Company. The first line from Boston to Providence was ridiculed as "Vail's side show." but some of the persons who indulged in the ridicule at that time lived to see Mr. Vail telephone from New York to San Francisco, in 1915, thirty-

Calgary Newspaper Points **Out Militia Department** Methods.

Calgary, April 17.—The Morning Alertan today carries the following story Details of a deal in cavalry saddles in which the militia department purchased saddles here during the war at about \$70 each outfit, kept them in store, and hen resold them to the Great West Sad outfit, were revealed by investigation today. The saddles, of which there are 700, had been wholesaled out to the second-hand stores of the city at an average of \$14 an outfit, and are being retailed at prices which make the city. retailed at prices which make the out-fits cost \$19 complete. The total loss suffered by the Government in the deal after deducting the \$3,500 they got on resale of the saddles, figures out a something over \$32,000.

HYDRO-ELECTRIC POWER FROM THAMES AT SPRINGBANK PARK BY MEANS OF A \$300,000 DAM

Utilities Commission Plans To Undertake Project in About Year's Time-Hydro Shop Profits Would Provide Two-Thirds of Construction Cost.

The dam will add to he scenic beauty of Springbank, and two-thirds of the cost will be defrayed Water Park was voted. The house will two-thirds of the cost will be defrayed by the profits from the hydro shop, estimated at \$16,000 or more a year. The saving to the hydro-electric department through using the power generated at Springbank to regulate the peak of the current from Niagara Falls will be from \$8,000 to \$10,000 a year, according to General Manager E. V. Buchanan, and this amount will take care of another \$100,000 of construction cost, so that the dam can be constructed and paid for in 30 be constructed and paid for in 30 the control and the hydro Shop may make a small grant to the "Made-

year, according to General Manager E. V. Buchanan, and this amount will take care of another \$199,000 of construction cost, so that the dam can be constructed and paid for in 30 years or thereabouts without adding to the tax rate or increasing the water or hydro rates.

Popular sanction will have to be obtained to issue debentures to raise the money, but that's about all the worry the new dam will cost the citizens. Maybe in time, with wet weather increasing from year to year, London won't have to buy any Niagara power at all, and the new dam as proposed will be capable of producing 1,000 horsepower. It will be about seven-eighths of a mile west of the old dam, and will have five feet more of a drop for the water, increasing the head fully one-third from that of the lodd dam. London's hydro consumption is highest in October, November and December, the months when the river will generate most power.

Officially the dam isn't on the records of the public utilities outlides conversed for the Oddfellows' convention, June 14 to 19, and the Hydro Shop may make a small grant to the "Made-cranada" committee. Revive Aquatic Sports.

The erection of the dam will facilitate a revival of aquatic sports on the Thames, and will add to the scenic attractiveness of London. In addition to the dam, the utilities commission is planning the construction of another reservoir in 1921 to supplement the reservoir to be constructed this summer. D. O. Johnson of Brantford and Toronto was awarded the contract. for excavating and building the reservoir to be built at once, his price per yard for the work heing \$5 cents, the city to do the rolling itself. Mr. Johnson could not provide a roller for the work at once, all his steam rollers being in use elsewhere, but rather than lose the contract, he was prepared to invest in another roller, and do all the work at 92½ cents a yard. The commission, according to Mr. Buchanan, can do the rolling at a considerable as \$2 per yard, and most of them were around \$1.50 to \$1.65 per yard.

The commission, on the motion of Mr. Vining, voted in favor of turning Queen's Park over to the Western Fair Association. Mayor Little favored the fair board. Under the new arrangement, if carried out, a part of the fair association for improving Queen's Park, while the association will be charked up for lighting and water supply.

A number of applications from suburban residents for city water connection were refused, although the city mains the control of the fair association for improving gueen's park, while the association was a considerable and the proposal where the parks grants will be turned over to the fair association for improving Queen's Park, while the association was a considered that the privilege would be considered that the privilege would be commission for improving queen's park of the parks grants will be turned over to the fair association was a considerable and the proposal which he sale was a consi make a report on the hydro shop's finances at an early meeting of the com-

NEW McCLARY BUILDING

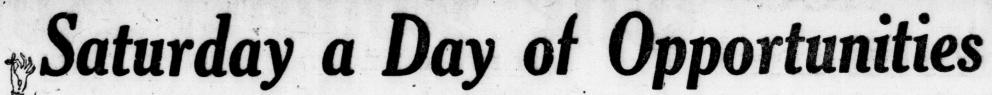

Addition to Foundry Opened With Great Ceremony.

The new three-story building, which has been added to the McClary foundry at Chelsea Green was opened with celebrations last night. Over 1,700 invitations were issued to the employees and the customers of the McClary firm, and the majority of these were accepted; consequently the new building was crowded to capacity.

A feature of the opening was the presence of the branch managers of the McClary Company from all parts of Canada. They are in conference this week in the city, and so were able to witness the opening of another home of the famous McClary products. The celebrations opened with a concert given by the McClary Band, and whispers went round the building that they had never piayed better. Perhaps because of the presence of the branch managers.

The happy evening was concluded with a joily dance. Mr. Roselle Pococke directing the music; then refreshments were served. It was long past the Cinderella hour when the last lights blinked in the new building, and perhaps never was a McClary building opened with joilier celebrations.

MADE-IN-CANADA
NOTES.

Bright and early this morning the young women of Patricia Chapter, I. O. D. E., started the distribution of pennants, price and sales cards in connection with London Advertising Club's Made-in-Canada week, which commences next Monday, The paraphenalia is carried in autos and the stock, although large to begin with, is rapidly diminishing. The larger display cards, in the form of cutout maple leaves, are proving popular with the merchants, and the pennants will dress London up as never before.

Miss Eula White in charge of the teams, reported that the idea has caught on well with all the merchants, caught en well with all the merchants, and says that when work is finished tonight there will scarcely be a merchant not displaying the cards and pennants, Mrs. McLean, doing Dundas

NOW IS OPPORTUNE TIME FOR CHURCH, SAYS MR. WISEMAN

An Unexampled Opportunity, British Divine Thinks.

OLD ORDER PASSING

Church Will Not Allow a Godless Civilization To Be

Supremacy of God, worth of man, dignity of fellowship, and nobility—these four things should be given full recognition in the establishing of a new order, Rev. F. Luke Wiseman of England told a congregation at the First Methodist Church on Thursday night, during a deliverance on "What Will the Churches Do Next?"

"The old fabric has gone. There has been a fire. I never thought that withbelt and the suprementation of the Lord's Day should be prevented, He wanted, also, to see the Scriptures included in the school curriculum. It should be prevented, He wanted, also, to see the Scriptures included in the school curriculum. It should be prevented, He wanted, also, to see the Scriptures included in the school curriculum. He stated that the industrial classes lately had handled far more money than ever before, and voiced a question as to whether there was any indication that the same use would be made of wealth in the hands of another class, or whether a more sober use would be

despite the signs of decadence, Money, he said, was power—at least, in one form, that of self-expression.

Everywhere sport had gone one during the war. The houses of amusement were not closed, and the first thing after the war additional ones were built. "Why. England spent £400,000,-000 in strong drink," he said. "All over the world there seems to be a great trize for excitement."

Ask 44-Hour Week and 70 to 10 said Mr. Wiseman the world there seems to be a great craze for excitement."

The London Daily Mail had stated that England was dance mad, but the speaker was of the opinion that Eng-land was not the only place. One Methodist conference had lifted the ban on card-playing and dancing.

Prize-fighting was a subject of some discussion by the speaker. The way the press was handling the news of the fights, and the large sums of money offered for them, was not to their credit. The thing had got out of proportion. He contended that it was degrading for two men to batter each other into insensibility for large sums. His audience seemed to be of the same sentinger for it applicable loady. nent, for it applauded loudly.

At such a time as this, when there were so many disordered nerves rather than wicked hearts, was the church's opportunity. When the world was reel-

archy, a democracy or an oligarchy of the Labor party. Christianity was the foundation of civilization.

All Christian churches united could give such testimony that in the new order there would be recognition of Christianity, Mr. Wiseman thought.

There were indications that in the E. R. Dennis Suggests Plan To There were indications that in the great Socialist party there was a feeling that as there was religion in the individual there must necessarily be a high morality in the new order.

Touching upon the question of a state church, he said: "I'm not for a state church, he said: "I'm not for a state church, we've got it in Britain. Don't you have a state church in Canada." (Applause.) If the government offered to establish the Church of England or the Wesleyan Methodist Church, it should not be accepted, was his advice. In the new order, church people wanted to see that there was national recognition of God. Secularization of the Lord's Day should be prevented. He was very interested in a presside property of the nobility saying good-by to Devonshire House, on the site of which was to be built the edifice of another class.

A people like the Americans, growing constantly, cannot live next door to a region such as Mexico without running over into it."

THE HOUSING PROBLEM.

That housing legislation, enacted by the Union Government, was merely a means of shifting the burden to municipalities, while the generally accepted view, with those who are in any way in touch with the situation.

Now that London has become involved to the extent of half a million dollars it is quite apparent that it is the city which must bear any financial loss, and that the government, while receiving the credit for advancing the

noney, is in reality assuming no risk what

To meet an insistent demand for govern ment aid in improving the housing situation the Dominion Government appropriated \$25,000,000 to be loaned, pro rata to the population, to the various provinces. This was to be loaned at 5 per cent, and the provinces were to re-loan it at the same rate. Ontario's share of this was \$8,753,291, and London's share was \$500,000. This appears extremely generous on the surface, but the fact is that the municipality must furnish debentures as security for every dollar

This means that if one of the persons for whom a house has been erected should default in his payments, the government, which holds the city's bonds, would immediately sell enough of them to meet this deficiency. The sinking fund and interest of these bonds, sold, would great factor in breaking the morale of the enemy have to be met by the general tax rate. In other words, the ratepayer would be paying for

There is every indication that the city will become financially responsible for at least some still grave problems ahead, and the world's finanof the houses which it has erected. They are being built at a time when building prices are France over the occupation of Frankfort and at high tide. The average cost of those erected so far has been in the neighborhood of \$4,000. This means that the purchaser must make stored. In order to put down a revolt of the monthly payments of about \$40 to cover interworkers in the Ruhr Valley the German Govest and principal on his loan, taxes and other ernment sent a strong body of troops into the expenses. (Winnineg Tribune.) On the map of the world is a speck about the size of a ten-cent piece-Greece. It is a beautiful country on the whole, but politically in a strange

condition. They who rule Greece are fixing up the government finances for another fiscal year. The expenlitures as they figure them will be something like \$310,000,000 for the twelve months, which is even higher than Canada's expenditures before the war. The Greek rulers expect to be able to raise less than \$100,000,000 by taxation. Consequently they intend to borrow the remaining \$225,000,000 or thereabouts.

Why not bring the expenditures down to the sum they can raise by taxation? Because that would spoil the military plans of the rulers. They propose that two-thirds of the

And I am glad because I can't forget.

The whole-hearted way in which the United States threw itself into the world struggle was a great factor in breaking the morale of the enemy, and had a corresponding heartening effect upon the Allies. These questions may be debated hereafter as a matter of history. At present it is very undesirable that representative men should say anything calculated to estrange in peace powers which worked so harmoniously in war. There are which worked so harmoniously in war. There are cial situation is such as to demand the earnest co-operation of all great nations.

The Path to Health

For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands-doubt and skepticism have been swept away as by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructor which acts directly and favorably upon the feminine organization and is a specific for that purpose.

Cy Williams's Home Run in Ninth Won Game For Brooklyns — Maranville and Fletcher in Duel At New York.

CINCINNATI, April 15. - Vaughn's vildness and the ragged flelding of the Cubs enabled the world's champions to win their second game of the season today, although they made only four hits. Bases on balls and errors were responsible for all of the Cincinnati runs. Ring was hit hard by Hollocher and Barber, but the rest of the Cubs could do nothing with him, and his support was very fast. A one-handed fumping catch by Duncan of a hard liner from Trombly's bat closed the game in the ninth inning.

PLUMBING BYLAW **FULLY DISCUSSED**

There is a movement in the city to exhume a carcase, known as the plumbing bylaw. Having once again brought t into the light of day it was found to be so decomposed that a renovation was necessary, and even amputation n some instances. But, in the minds of the some of the plumbers who are endeavoring to foist this costly thing on the citizens of London, this city has all at once become a very un-

healthy place to live, and to alter these insantary conditions, it is supposed that we need a plumbing inspector and a raviged bylaw. As I said before this old carcase of a bylaw has been dug up and revised and found so impracticable and obsolète, so I of red tape, that it was rescinded by our council, and now everyone con-cerned is falling over themselves to frame this "humpty-dumpty" together again. Mind you, Mr. Editor, all this paring down and remodeling will not alter the cost to the citizens, while we as citizens encourage these unnecessary appendages. Everyone is aware that in the winter the ice cold air, drawing up a solid stack, has an action upon the metals that compose the stack so when the hot water is turned into the pipes an opposite action takes place. The bathrooms installed during the past seven years are upon the whole a benefit to the public and a credit to the trade. You may add all you wish to them in the way of ventilation, but you will only get a bath from a bathtub at any time, and a good wash from a basin at its best. An automobile that has a self-starter, electric lights, a mahogany dash board and plush seats is no more to anyone than the butcher's box car when both are stalled. They both need the service of a mechanic, but the box car of the butcher is fixed more easily on account of its simplicity. So if is with your plumbing; the less appendages the better and the less cost. Taxes are high enough at present without adding these things. Who Shall be the U.S. PRESIDENTIAL CANDIDATES?

The Literary Digest Is Asking

ELEVEN MILLION VOTERS

TO NAME THEIR CHOICES FOR BOTH GREAT PARTIES

The Greatest Poll Ever Taken in the History of the United States

INDIVIDUAL BALLOTS have been sent by mail to Eleven Million Voters throughout the United States-almost two-thirds of the total Presidential vote of 18,529,902 cast in the last national election, in 1916.

Every ballot is malled in an envelope, addressed with pen and ink, and delivered through the United States Postoffice personally to the voter addressed. Return postage on the ballot is prepaid, and the voter has only to, check or write the name of his or her Party and first and second choices for Presidential candidates, with no other mark of identification, and then drop

this Secret Ballot in the nearest letter-box or Postoffice. Thus every vote cast is absolutely the free, uninfluenced, secret choice of the voter, unknown to anyone but the voter himself or herself.

The eleven million ballots have been mailed to ALL CLASSES OF VOTERS in all States and all communities in the Nation with complete impartiality. They include businessmen, merchants, farmers, manufacturers, railroad employees, bankers, clerks, builders, contractors, superintendents, managers, carpenters, plasterers, plumbers, painters, mechanics, printers, miners, steel workers, workers in every trade and branch of industry, both union and non union, professional men and women of all classes, including lawyers, doctors, clergymen, authors, actors, newspapermen, dentists, engineers, educators. architects, musicians, etc.; in short, all the classes of men and women who make up the voting population in all parts of the country.

This Great National Poll, Therefore, Will Be the

REAL VOICE OF THE PEOPLE

That Political Leaders and Conventions Will Heed

No propaganda of any kind as to party, candidate, or issues is connected with this great popular Presidential Primary. THE LITERARY DIGEST has no political axe to grind, and the absolutely impartial and non-partisan nature of the poll is guaranteed and protected in the most complete manner. It is the duty of all men and women to have their own opinions on the problems that now face their country and to express those opinions in the choice of their President in the approaching conventions and national election. This unofficial Presidential Primary, the greatest and most representative ever conducted in the history of America, will serve as a vehicle for the unhampered expression of popular opinion, and will have a very large influence on the nominating conventions of both great parties.

WATCH THIS POLL IN

BEGINNING IN THE ISSUE OF APRIL 17TH, the returns from this national poll will be recorded, summarized and analyzed, State by State, through successive numbers up to the actual meeting of the great conventions in Chicago and San Francisco. These reports will have unique and decisive interest for political leaders, the press, and citizens of the whole country, and will be awaited eagerly. DIGEST readers, of course, will get them first, and in the most complete detail.

At the same time, and all through the year, THE LITERARY DIGEST will be gathering carefully and reporting all the facts and opinions on all sides bear-

Ing upon the great problems and issues which are being discussed, and which must be settled by the national election. THE LITERARY DIGEST is wonderfully equipped for this service by a system built up at great expense through many years of careful work, and reaching into thousands of newspaper and periodical offices in all parts of the world. The reader can depend upon THE LITERARY DIGEST with absolute certainty, as it reveals, from week to week, free from all prejudice and partisanship, the real state of the Nation's mind, the real facts affecting all issues, and the progress of all the great problems toward settlement.

Clubs Spend Delightful Evening in Giving "Stunts."

The Y. M. C. A. banqueting hall presented a very fine sight last evening, when 250 of the business and industrial girls of the city gathered there in a large rally arranged by Mrs. John Crawford, industrial secretary of the Y. W. C. A. The long tables were resplendent in bright red and blue

colors, while the Empress Avenue Sun. day School Orchestra, under the direction of Miss Florence Dewey, played delightful musical numbers. Greetings were extended to the girls from the Y. W. C. Mrs. St. Aubyns reached forward and took my hands in hers.

"I am very glad to hear it, dear," she said. "You are far too good for such as Tony. He is utterly untrustworthy."

And then she definitely changed the subject. She would go down and see her son that afternoon, she said. His father might oppose her going, but she didn't care. She would see the specialist whom we had summoned for con

CHAIRMAN OF PENSIONS **BOARD FAVORS ALLOWING** PAYMENT IN LUMP SUM

Committee On Re-establishment At First Meeting Hears of Hardship Cases and Complaints Due To Reduction of Pensions.

OTTAWA, April 15. - (Canadian Press) .- The special House committee on pensions and soldiers' re-establishment held its first afternoon sitting today. Col. John Thompson, chairman of the pensions board, was first called. There were several complaints read of reduction of pensions to parents, in most cases widowed mothers or widows of soldiers. The committee decided to follow last year's plan on communications, and submitted them to a sub-committee before being dealt

The pensions board had submitted a comparative statement, showing the pensions paid in Canada and various other countries.

Col. Thompson made a general statement of the working of the pensions act. He said some amendments were suggested in the interests of pensioners.

there any appreciable reduction.

Over Sixteen Millions.

In 1919 Canada's pension bill was over \$16,500,000, and by March. 1920, the total was \$23,000,000. The estimated total cost of \$33,000,000 was not reached in the last fiscal year.

The percentage of administration cost to total payments was about 6 per cent. There are in all 175,906 people receiving pensions. Col. Thompson stated. Of these 70,950 were disabled soldiers and 41,283 children of disabled men. Dependents of faften soldiers, excluding children, numbered soldiers, excluding children, numbered about 10,000, but these were not all 100 per cent tubercular.

Answering Col. Arthurs, Col. Thompson said when a man had been married subsequent to discharge, there was no pension to either wife or children. Children of a pensioner, married before discharge, were entitled to a pension, though they were born sibsequent to his discharge. Personally he thought this principle should not be changed. There would, under the present law, be no danger of a woman marrying a pensioner in hops of reaping his pension. Witness admitted there

but the man's widow received no pen-sion. Col. Thompson said in his private view state insurance was necessary to cover such cases. There was opposition to asking Col Thompson to express an opinion. It was unfair to a public official. There has been many complaints of the operaion of the act in this regard, Col. Thompson stated. These came up as

The committee decided to leave the pension board recommendations over till a further meeting. One of the other commissioners will then be called at 11 o'clock tomorrow morning.

Sport Has Its Place.

Since the Days of Eve-

EVER SINCE the days of Eve women have been more interested in beauty than anything else in the world. However, in order to dress beautifully (and in good taste), it is not necessary to dress extravagantly. In fact, nothing so well becomes true femininity as simplicity. This spring, particularly, our fashions seem as charming and naive as youth itself.

"There never was a more barefaced attempt to hang on to a valuable concession and get rid of the obligation to take power through the Government and the hydro than runs through the whole of the correspondence between Mr. Carrick and the Government," Mr. Dewart contended.

Ferguson For Leniency.

Hon. G. Howard Ferguson pleaded for leniency for the parties concerned, on the ground that unavoidable obstacles had prevented them from fulfilling the terms of the original agreement. He pointed out that hydropower would not be available until next fall and submitted that by then the parties would be able to carry out the terms of the agreement.

Description of the fact that they had not received increases for, in some cases, five years.

The men whose claims were put forward by the recent deputation and who apparently were losing status under the new classification benefited, however, in the way of bonuses and on automatically increased status in the coming year, and the authorities felt that they were receiving all the compensation that they could ask. An expenditure of approximately \$4,000,900 was involved already in the finereases under the reclassification, and the Government felt that a further demand on public moneys was not justified by the claims which were being discussed.

"The whole matter centres round an improvident agreement," declared Hon. W. E. Raney. He stated that the Government had offered the grantees power at cost, or, as an alternative proposal, had offered to fix a price.

"Ultimatum From Government."

Gen. Hogarth—Is that an ultimatum from the Government?

Mr. Raney—Yes.

Gen. Hogarth—Will there be no departure on the part of the Government from this attitude?

Mr. Raney—The Government will be ready to concede something to get the municipalities out of difficulty.

Mr. Raney, seconded by Premier Drury, submitted an amendment to Mr. Dewart's motion," declaring that the matter was one for settlement by the Government after consultation with the hydro.

"The grantees hold that they have the right to get power anywhere," declared Premier Drury. "The Government intends to hold them to hydro.

They have already suggested that the case be tested in the courts. We will exhaust every means in our power to effect a settlement."

Cynthia Grey's Mail-Box

Dear Miss Grey.—I am coming to your Mail-Box for a little help, and stope to not bother you too much. I am a constant reader of The Advertiser and take great interest in your bage. Last summer or autumn I remember of seeing where a Roman Catholic Mother wanted to place her kirl in a home in the country for the vacation. I would first he ever received a reply, I am a young widow, not much bast the thirties, and have three kiddles. The eldest, a girl, is 12. Now! I would like to hear from a refined Roman Catholic mother who would be willing to take my eldest girl for a time. She is a big girl and able to help with a baby or do some light work about the house, I would prefer some one in London or not far off. We were not left with many of the luxuries which this world affords some people, so I find it pretty hard to make life very comfortable. Hoping, Miss Grey, that my letter is not too long and that I will see it in print. I will then forward you my address and name. Regularly Called.

The opinion of the justice department and other solicitors, said the minister of rallways, was that the meeting had been regularly called. Had it not been for two mistakes in the schedule of the act, the Government would have proceeded to the carrying out of the agreement, as it was passed last session.

Amendments to the food and drugs at precipitated a discussion at the evening sitting. Isaac Pedlow of South Renfrew, was in strong opposition to certain of the clauses which introduced amendments to them.

He reminded the House that during the dis-cussion of the Grand Trunk bill last November the Government had voted down Mr. Fielding's amendment, which urged the Government to make exhausturged the Government to make exhaustive inquiry through experts into the real assets of the rallway. If the advice of the Opposition had been heeded the present bill would not have been necessary. At that time the Government had rejected his suggestion that before the bill was read a third time it should be resubmitted to the House in committee. The Opposition could not support the present bill as it stands because the effect was to commit Parliament to registering approval of an because the effect was to commit Par-ifiament to registering approval of an action already taken by the Govern-ment. This denied to Parliament its rights are a deliberative and legislative assembly. He suggested that the word-ing of the bill be changed to make it simply a measure to correct the two minor errors and leave open to the full-est discussion the general provisions of the agreement.

He had been reading for about two hours and must have controlled. read. He had been reading for about two hours and must have covered one or two hundred pages. In view of the great number of letters which the Opposition desired to examine, he suggested that the Government should not press second reading immediately.

Dr. Reid asked whether the Opposition would be willing to go on with the bill tomorrow. If so, Mr. King might adjourn the debate.

Mr. King accordingly did this, and he House rose for the dinner hour.

They were arrested after having broken into the home of Ernest Borthwick, Nassagaweya Township. When taken into custody they had several stolen articles in their possession, including a gold watch and a check.

The youthful cuiprits had apparently been learning the highway robbery game to perfection, as they were armed with loaded revolvers and had

a complete kit of burglars' tools. When brought before Magistrate Watt this morning Holmes claimed he came from Buffalo, N.Y., and Sands said his home was in Montreal.

Both lads pleaded gullty to burglary and carrying loaded weapons, but were remanded to the county jail for a week to give the police a chance to look up their relatives. It seems evident that the pair have been committing similar crimes in other places, as a check made out on a Toronto firm was found on one of them.

TUESDAY, the 20th, A BIG PARADE

Starting the week with a display of the fine spirit of co-operation existing between the various business interests of London, a great parade will assemble on the Market Square on Tuesday afternoon at 4:30, and will start promptly at 5 p.m. Route will be announced later.

There will be many beautiful large floats, representing different manufactures of London, besides some retail stores and other lines of business endeavor. Some will be humorous-all will be worth seeing

-each will demonstrate, in its own particular way, the excellence of some Canadian product or service.

A prize will be given for the best manufacturer's float, the best retailer's float, and the best decorated auto of Canadian make. Scores of gaily-decorated autos will be in line, besides bands and other

Floats, to compete, must be in place on the Market Square by 4:30, otherwise the entry will not be eligible for a prize.

Thursday, 22nd-Costume Carnival Plan to Enter Win a Prize

A costume contest has been arranged for one evening towards the end of the week, and many prizes will be awarded for the most original and handsome costumes, representing the Made-in-Canada spirit or some nationally-advertised article. Look over the newspapers and magazines and plan a clever costume representing some well-known advertised figure, and win a prize.

The costume carnival will be held down-town, and will be a gay Mardi Gras event, at which all-young and old-are entitled to enjoy themselves to the limit.

There will be scores of good prizes for costumes, and they will be well worth winning. The prize list will be published later. Plan costume now, as hundreds of others are doing.

Big Contest All Week HUNDREDS OF

In every store participating in the big Made-in-Canada Week you will find the windows displaying the red, white and blue pennant of the London Advertising Club, and the goods will be labeled with green maple-leaf price tickets.

On Monday next, and all through the week, these stores will each have a supply of printed lists of questions for the women of London to answer. Go to the store you deal with and get one of these questionnaires. Take it home, and answer it to the best of your ability, then turn it in to The Advertiser or Free Press office.

It will be collected from there with the others turned in, and will be judged by a competent, impartial board of judges, who will award prizes for the best sets of answers-neatness to count. Write in ink, and sign name and address very plainly.

There will be over two hundred prizes for this event, so everyone has a good chance. The results will be made known at a huge mass meeting to be held early the following week, announcement of time and place to be made in a day or two.

HAMILTON, April 14.—A rumor that the Sawyer-Massey Company had sold its business to the Linderman Steel Company of Detroit was denied here today by H. W. Hutchison, vice-presi-dent of the Sawyer-Massey Company. "No member of the board knows anything of any negotiations for the sale of the company to anybody," Mr. Hutchison said.

WINDSOR, April 15.—A mass meeting to discuss plans to combat the high cost of living in the border cities has been called by the directors and members of the recently-formed coperative society here. George Kæn of Brantford, prominent in the co-operative movement, will be the principal speaker.

Hutchison said.

Asked as to the reason for the advance in the company's stock on the market, Mr. Hutchison replied that it was possible that Robert Parmer of Detroit, the president, was endeavoring to secure control. Directors of the Sawyer-Massey Company say that Mr. Hutchison and Mr. Linderman of the Linderman Steel Company, are friends.

TAX ON ALL DOGS IN COUNTRY SECTIONS. IS SUGGESTION MADE

[Special to The Advertiser.] [Special to The Advertiser.]
TORONTO, April 15.—The suggestion
was made today in the agricultural
committee at the Legislature that all
dogs should be taxed. At present only
dogs running at large in the country
districts are liable to tax. The members suggested that the dog kept on
farms, and not allowed out on public
property should be taxed. They will
come up for further discussion.

It vis suggested that rewards be
offered for the capture of stray dogs.
L. W. Oke of East Lambeth, said that

a \$2 reward was offered, and that many dogs had been caught.

A. P. Mewhinney of West Bruce, thought that there might be a tendency to get that there might be a tendency to get selfish, in discussing the dog question. "It is not for us to pass laws that are merely satisfactory to us personally," he said. "A thing might not please us individually, but so long as it is in the best interest of the province it should have our support." This sentiment was acceptable to the committee, which will seek all sides of the question under discussion.

internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation, and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milik)—is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advt.

at under-pinning. While western Unionist members are endeavoring to discount the growth of the farmer movement by organizing for the purpose of obstensibly urging the Government to do things for the west which the Government has no intention of doing, Hon. Robert Rogers, former minister of public works in the Borden cabinet, has been lobbying among the Conservative members of the administration and urging the holding of a convention, the preliminaries of which will be decided upon at a conference. It is understood that the proposal of the ex-minister, which contemplates the resuscitation of the Liberal-Conservative party, so called under the policy of Macdonald and Cartier, met with considerable favor, and that a very considerable number of the present at the conference.

Condition of Forces. The situation simply goes to indicate the present disintegrated condition of the Government forces. The very idea of separate caucusing must be according to the condition of the caucusing must be according to the caucusing must be according to the caucus of the caucus tion of the Government forces. The very idea of separate caucusing must appear ridiculous to the student of Canadian politics, and when to this is added preparation for a convention by another section of the so-called party, the effect is almost tragic. Sir Robert Borden, it is stated, is expected back in about three weeks. In the meantime, while he plays golf in Vermont, the forces which he is supposed to lead are drifting into hopeless dissension without actually realizing it.

On the outskirts has been hovering Sir William MacKenzie who still apparently dictates much of the Government's railway policy. He is here his private car, and is no less active though probably a little less open his operation than Mr. Rogers. Sir William and his associates have done well under the Conservative regime, and do not relish the prospect of the return to power of a Liberal, or even of a farmer government, so that his efforts will no doubt be lent toward reorganization.

Regaled With Correspondence.
Today Hon. Dr. Reid regaled the
House with a mass of correspondence
regarding the Grand Trunk acquisition
proposal, which was, to say the least,
highly edifying and interesting.
Under the guise of an effort to rectify
a couple of insignificant errors in the
original schedules, by which three and
a half miles of line somewhere in United
States was left out of the system to
be acquired, and another small line in
Outario was roughly described. Dr.
Reld brought down a bill whose main
purpose really is to ratify an agreement which, in the opinion of Sir
Charles Russell, one of the most emihent counsel in Great Britain, was highly
irregular. It would appear that the
meeting of shareholders of the Grand
Trunk, called in February to ratify
the agreement, was wrongly called,
and, as a consequence, there are grave
doubts as to the validity of the transaction.

The Government desires that Parliament cover up the blunder by placing
its stamp of approval upon it, though

WALL STREET.
New York, April 16—Wall Street, 10:30 a.m., New York time.—Stocks were irregular within narrow limits at the opening of today's trading, probably as a result of yesterday's flurry in the money market. Several of the steels, equipments, oils and specialties were lower, but these were offset by further confident buying of Vanadium and Republic Steels and Consolidated Textiles, all at new high records.

Motors and practically all the Liberty bonds and Victory notes made new low records.

In Detroit United was the chief feature in the early trading on the local stock exchange this morning. Detroit, after closing last night at 105½, advanced this morning at 107½ in light trading, Drompton, which has been the feature of the local market for the last few days, opened fractionally stronger than last night's close at 88½.

TORONTO STOCK SALES. Toronto, April 14.—Morning sal Atlantic Sugar, 100 at 90; Brazilian, the market, like that of the preceding session, would be governed largely by money conditions. Call loans opened at 10 per cent, the highest initial rate in almost six weeks. The supply was said to be small, pointing to higher rates later. With the first signs of renewed stringency, stocks began to react, standard shares, as well as specialties, forfeiting the greater part of their 2 to 6 point gains. Speculative sentiment was also further affected by further weakness of Liberty bonds, the 3½'s making a sheer decline of 1 per cent.

1:30 p.m.—Stocks rallied again during the dull mid-session, in spite of call money's advance to 12 per cent. Lead.

Oats—May, \$7c; July, \$9c.
Chicago, April 16.—Corn prices darted higher again today, and once more surmounted prices records for the season. Bulls urged that it must be remembered that contracts for future delivery could only be filled for corn at nominal markets, and not by corn on the farms. Opening prices, which ranged higher, were followed by a slight setback in some cases, but then by a rally.
Oats reflecetd the actio nof corn. After opening ½c to ½c up, the market sagged a little, and then resumed its tendency to climb.

may be that house. List it today and save delay. Surely you can see that the service of a high-class realty firm with four expert salesmen, with four automo-

biles and an advertising man that is unsurpassed in Canada, with a reputation

behind them that is second to none, are assets that you who have property to

sell cannot afford to be without. Then by all means accept those services by listing your house today. Mr. Gordon McKay of South London, whose address

we will give you on application at this office, if you desire to confirm this state-

ment, will tell you that we have sold two houses for him in the past few months,

both of which were sold by us in less than 36 hours after being placed on our list. Now, if you are like Mr. McKay, willing to sell at the right price, we can do as

well for you. We don't try to sell property beyond its value. But we can show

the purchaser where he is getting value if your price is not unreasonable. Don't

WOOL IN A \$75 SUIT Farmers of Indiana Proven

scoured wool to produce a pound of cloth. Not To Be "Gougers."

LAFAYETTE, Ind., April 16.—The Indiana farmer receives \$5.85 for the wool in an average suit of clothes large enough for a man weighing 175 pounds, according to Claude Harper, Purdue University sheep specialist. Mr. Harper has issued a statement declaring farmers are not profiteering in the sale of clothing.

"A man who weighs 175 pounds re

"Cloth.

"Therefore, considering waste in manufacturfing, it requires about 62 ounces of scoured wool for an average suit of clothes. Most of the Indiana scoured wool is selling in Boston from \$1.25 to \$1.44 per pound. This wool scours around 50 per cent of grease and dirt. At \$1.44 per scoured pound, this makes wool worth 9 cents per ounce. As 62 ounces are required for the entire suit, then the cost of wool in the suit is \$5.85."

GIRL SWEARS THAT STEPMOTHER BURNED SISTER WITH IRONS

Quebec Woman On Trial For Murder.

QUEBEC, April 15.—Telling a tale so cruel that it would appear incredible if it were not given by a child and under oath, Marie Jeanne Gagnon, a girl of about 14, today testified for the prosecution in the trial of murder of her stepmother, Marie Anne Houde Gagnon, who is charged with killing through cruelty, the 10-year-old daughter of her husband, Telesphone Gagnon, of St. Philomene, Lotbinier County. Marie Jeanne Gagnon stated today that the accused repeatedly lashed the dead girl with whips, brands and other weapons. She said that the woman often tied the girl to a table or other piece of furniture, flogged her with the handle of a broom, axe or a hos, and that on many occasions she gagged the girl and burned her all over the body with a red-hot poker she had set in the fire box of the stove before applying it to the charred flesh of the girl. Witness also charred fiesh of the girl. Whites also said that on many occasions, the woman posted the other children at the doors, and windows of the house, while she was thus mistreating the girl, so that the children would tell when some-

SHOT BY CONSTABLE

TRYING TO ESCAPE Toronto, April 15.—John Heatley, alias Murphy, made what turned out to be a very painful mistake early this morning, when he walked into the .oom of C. P. R. Constable John Bickford and asked for another man. Bickford arrested him. On the way to the ford arrested him. On the way to the police station Heatley broke away, and was shot in the thigh by the constable. He is now in the hospital.

We Announce--SATURDAY

HOBBERLIN'CUSTOM **TAILORING**

For Men Who Must Have True Value in Their Spring Suits

SATURDAY, we especially announce Mr. J. T. Burley, Hobberlin representative, direct from the house (the largest and best custom tailoring establishment in Canada), who is with us until 10 p.m. on Saturday.

Every man in London and vicinity should call at our shop on Saturday and see a truly fine range of models and some of the finest pure wool suitings ever produced from the best English and Scotch mills.

Included in the lot are many pure-wool, fast-color blue serges and browns and greens. Then the hairline and fine pinstripe suitings are positively convincing as to who buys Hobberlin garments. For you men who know real garments and cloths, you will be easily convinced that our story is of interest and value to you, NOW, at the commencement of spring buying.

We cordially invite you, but remember, we do not insist on your buying a suit. It is service we sell with every tailored garment. The prices range from
