# Two Special Attractions THIS WEEK

### 27 inch White Japan Taffeta Silk at 33c.

We had to purchase a large quantity of this line, in order to get it to sell at such a low figure. It's a lovely quality—just the thing for the popular White Silk Waists and ladies' and children's dresses. It washes as well as white cotton and the wearing quality everyone knows is the best. While the quantity is large, the low price at which it is marked will move it quickly, so the earlier you come for it the better. See it in the west window.

### White Embroidered Waist Patterns at \$1.19

There are 36 of these, and every one a beauty. The pattern includes, beside the embroidery front and cuffs, 21/4 yards of plain material for the waist, 42 inches wide. You know how scarce these Embroidered White Goods are this season, and what a great demand there is for them, and when you see these Pattern Waists in our east window, you'll wonder how we can offer such beautiful goods for so low a price.

THE ROUTINE BUSINESS

THE question of house numbering came up again at the Council meeting tast evening, but the aldermen very wisely decided to leave the whole question over until another meeting, when more information on the matter will be presented before the Council. This is a matter where it pays to go slowly and the aldermen want of solone. There were present Ald. Such a motion to the matter will be presented before the Council. Ald. Austin was just in doubt as to whether this man could operate here in competition with a local man in the same business who paid taxes. It would hardly be fair.

Ald. Edmondson said the only thing Mr. Hess could do was to go on with the work on his own responsibility.

Mr. Hess said he would be willing to pay taxes.

Ald. Scullard did not think the Council could legally take any action in the matter.

A LIBERAL WARNING.

The results of the revelations recently made in the Dominion House in reference to the North Atlantic Trading Company contract, have shown that not only in Toronto are the Liberal members becoming dissatisfied with their leadership. Sir Wilfrid Laurier is by no means the idol that he once was, and some of his strongest supporters see dangers ahead as the result of his government, and now feel that it is high time to speak out and try to pre-

ment, and now feel that it is high time to speak out and try to prevent a probable downfall.

When the Trading Company contract came up for discussion a few days higo Mr. Bourassa closed the debate from the Liberal beaches by some strong censure of the Government and sage advise to his leader. After Eleclaring that Sir Wilfield Laurier had made a great mistake in forming an alliance with Mr. Sifton, Mr. Bourassa warned the Premier of the dangers ahead of him. He said:

"A few years ago, when the term of office of the Liberal Government, in Toronto was coming to a close, sound advice was given by some of their best friends to the members of the Ross Government. That advice was that the barnacles upon this party ship should be treated withlian iron hand. Sir, there are teady ago the benefit of the Liberals, not only in Quebee, but throughout the Dominion, who feel that if the present Minister of the Interior (Mr. Oliver) had risen in this house, and stated that the good faith of this government had been ablased by the great man from the west (Mr. Struck) and the semian of the last time that it will be shown that a great mistake when this man was put into the government, that a great mistake when this man was put into the government, that a great mistake when this man was put into the government, that a great mistake was made in bringing (the previous for the fide in the government, that a great mistake was made in the great man find that it will be shown that a great mistake was made when this man was put into the government, that a great mistake was made when this man was put into the government, that a great mistake was made in bringing (the previous for the fide in the government, that a great mistake was made in the great man firm that it will be shown that a great mistake was made when this man was put into the government, that a great mistake was made when this man was put into the government, that a great mistake was made when this man was put into the government, that a great mistake was made when this ma when this man was put into the government, that a great mistake was made in bringing (the premier) the piece so popular, and all lovers of the divine art should attend the Grand to-morrow night. him to terms dictated by the hon; member for Brandon (Mr. Sifton). They Stand Alone.

Standing out in bold relief, all alone, and as a conspicuous example of open, frank and honest dealing with the sick and affilicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or fetrer mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of incredients compared.

or impure blood, as scrofulous and skin affections. Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients composing it—printed in platin English. This frank and open publicity places these medicines in a class all by themselves, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither—being of known composition.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most-strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

A glance at the printed formula on each bettle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native, American forest plants. These are best and safest for the ture of most lingering, chronic diseases. Dr. R. V. Pierce can be consulted FREE, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasam Pellets cure constipation. They are days, sugarocated grannies. One little 'Pellet' is a gentle laxative, two s mild exharite. All dealers in medicines sell them.

## POOR CITY WATER

Several Complaints Have Been R ceived that Drinking Water is not up to Standard.

Considerable complaint has been made recently regarding city water. The taste of the water for the past flew days has been much like thati of water coming from a ciscerni.
There have been several inquiries
made as to the cause. One man
plaimed that the water had not been
filtered properly, but this is incorrect, as the filtering beds are cleaned

rect, as the filtering beds are cleaned out regularly, and while one is being rleaned, all the water is filtered through the other one.

The Planet made inquiry at the pumping house this morning, and was told that the water was in good condition when it left there. It was tested by the superintendent this this morning, and he declared it to be all right. The most reasonable cause advanced for the peculiar taste of the water at the present time is, that some of the hydrants, are badly in need of a thorough cleaning. At any rate, quite a number of complaints are being made, and the authorities should lose no time in locating the cause lose no time in locating the cause and rectifying it. SAD DEATH

A sad death occurred this morning, when Miss Cecelia Lillian Weldon passed away at her mother's home on Wellington St. The deceased, who was about 25 years of age, had been confined to her home here with illness for the past five weeks. She had formerly been a trained nurse in a Toledo hospital for the past four years. She was a bright, winsome young woman, and her death will be deeply mourned by a host of

friends.

The late Miss Weldon was a daughter of the late Thomas Weldon, and she leaves to mourn her loss, besides her mother, one sister and one brother — Mrs. Thomas O'Rourke, of this city, and Eurnie Weldon, off Winnipeg.

When a man has decided to mend his ways he likes to fix a future date for commencement.

**Actuary From New York Testifies** Before Commission.

Declares Industrial Company Like the Union Life Cannot Hope to Pay Dividends Till Years After Organization-Question of Child Insurance -Union Life's Salary List-Advances to H. Symons, K. C.

Toronto, May 12.—When the exam-duation of the Union Life was resumed before the royal commission yesterday morning, Charles J. Harvey, consulting morning, Charles J. Harvey, consulting actuary and director of the company, was on the stand. Harvey, who is an expert on industrial insurance, and consulting actuary to several large American companies, said that he received a small retaining fee from the Union. His voting power in the company was given to Cashier Carrie.

Industrial Insurance.

Mr. Tilley commenced at once to delve into the intricacles of so-called "industrial insurance." Mr. Harvey's evidence on this class of insurance

Industrial life insurance is marked y weekly payments, usually collected y agents, and the insured pays for the

In an ordinary company from 15 to 25 per cent. of the amount of premiums would be necessary to carry on the business. In industrials a hundred per

business. In industrials a number percent, is necessary,

The premium is fixed, and the amount the insured gets for it varies.

The amount is small—\$500 being the maximum.

It was originally intended as a burial fund insurance.
In the Union Life the death rate was 15.8 per cent. of premiums receipts.

Child Insurance.

Child insurance.

Child insurance was then taken up by the Dominion counsel. Witness said that in his opinion it was a splendid idea. It had decreased pauperism. The idea. It had decreased pauperism. The very fact that a man could insure his child for a small sum weekly was a boon to the poor man. The British Parliament had taken up the question, and to-day it was in force in both the old country and the United States. The idea that infants were murdered for insurance was ridiculous.

The financial side of the business was then gone into, and Mr. Harvey thought if the business of an industrial company was to be increased the company would be under financial restraint for many years. The company, if carefully managed, would be

company would be under financial restraint for many years. The company, if carefully managed, would be self-supporting, but the business could never be increased to large proportions. The weekly debit of the Union was at present close on to \$4,000, which was sufficient if the company was satisfed to stay as they were. That was not the case. It was the aim of the directors to build up the greatest industrial insurance business on the continent. insurance business on the continent.

Badge of Merit For Best Shots in Various Regiments.

Ottawa, May 14.—The militia orders issued Saturday provide that in future a badge will be awarded to the best shot in each regiment of cavalry and infantry, and in each company of engineers of the active militia.

The badge, which is to be worn on the left forearm, will be awarded to the man obtaining the highest figure of merit in the class firing of his unit.

The "figure of merit" will be arrived at by dividing the total of the points obtained by the number of the content.

Why They Declare Dividends.

"Why, then, do the company deviled invived and invived and invited and people will not put up their money unless they can see something coming back."

"In time the company would pay enormous profits, I suppose?" asked counsel.

"Yes. In many companies the share-holders have been satisfied without any dividends, such as the Colonial in New Jersey, which to day after the early struggles of organization, was paying handsome profits.

Mr. Harvey addited the tent of the counsel.

The examination of Mr. Harvey was continued in the afternoon by Mr. Til-

Mr. Tilley put in a statement showing the business done by the Union Life as follows: 1902, 524 policies issued and no lapses; 1903, 27,742 policies issued and 16,525 remained; 1904, 28,620 policies issued and 17,197 remained; 1905, 36,659 policies issued and 23,582 remained.

ed.

When asked what he thought of the statement, the witness said that the tapse rate compared with other com-

panies was very low.

Mr. Harvey, in explaining the effect
of a large lapse ratio, which he claimed
was a heavy loss to any company, said that on the average premium, which was 8 cents per week, six weeks would be used up in paying the medical examination fee, which was 50 cents. There was no medical examination on infantile life up to 10 years of age. The loss on lapsed policies would be about 33.441-2. The Union Life was entirely a non-participating company. Cross-examined by Mr. Hellmuth, the witness could not exactly say what the life of a policy was in the Union Life. The average policy took a year to become self-supporting.

W. H. Carrie, bookkeeper of the Union Life, was the next witness.

The salary list of the Union Life, as admitted by Mr. Carrie, was as follows: For 1902 Evans received \$510, Symons \$190, Dr. Millichamp \$460. For 1903 Evans \$1540 Symons \$190, Dr. Millichamp \$460. on the average premium, which

For 1904, Evans \$6.225.86 Symons \$4,270, Dr. Millichamp \$2,197.75. For 1905, Evans \$5,560, Symons \$530, Dr. Millichamp \$3,160 and W. K. Carrie \$1,500.

From the National Agency Mr. Evans received for 1902, \$1,740; 1903, \$874; 1904, \$256.64; 1905, \$175. Mr. Symons received for 1902, \$1,085; 1903, \$1,580; 1904, \$1,835; 1905, \$2,875. Dr. Millichamp received for 1902, \$499.92; 1903, \$833.20; 1904, \$371.54; 1905, \$170. Dr. Hughes received for 1902, \$1,310; 1903, \$70; 1904, \$525; 1905, \$1,664.

Dr. Hughes has now a new contract which gives him \$3,000 per annum.

Advances to Symons.

Mr. Carrie then gave the various amounts which have been advanced by the National Agency Co, to Harry Symons during the past three years. The total amount was \$2,093.06, made up of small-ttems, and two items, \$1,650 and \$1,123, which witness said were advances to Symons in connection with Electrical Development securities. The nature of these loans he could never find out.

# A PLEASING STRIDE

Some women walk heavily and clumsily, while others have the pace of an "ambling nymph." An unpleasing carriage may be due to many causes, but chiefly to awkward shoes.

This is why Dolly Vardens give "A Pleasing Stride." Their narrow construction and newly devised steel arch support hold the foot at every point with gentle corset-like firmness. You can't walk pleasingly in loose harness.

Their Free Flat Tread guarantees that every step will come down "sure and firm set" instead of uncertain and wobbly.

Their Dead Level Ball and Heel Balance throws the body into vertical athletic erectness, instead of stooping it or leaning it forward or backward. Their Harmless High Heels and narrowness give

fascination to the stepping foot when viewed from the back.

Their Aristocratic Arch gives the steps smartness

when viewed from the side or at right angles.

Their New Steel Arch Support and Dead Level.
Ball and Heel Balance strengthen the ankles by properly exercising the ankle muscles. Strong ankles are essential to pleasing gaits.

Being fatigue reducing the wearer don't tire; walks

more and becomes more expert.

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that atone is worth many times its cost. Many who have used it, hoping only for a short relief from suff-ring, have been happly surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggatt, of Yum Yum, Tennessee, U.
