### The Prayer Meeting and the Class Meeting.

These meetings we believe can be considered the thermometers by which the wa mth and hey have been in the past. And there are many ministers; our missionary membership 28,699; the class meeting neglected, the interence may sately be drawn that a comparatively small amount of religious life is in the church; and toat had arrived at its culminating point, and would the members need much more of the quickening the approaching General Conference will have ineviably descend when its then giant mines influence of the Holy Spirit. It is an ominous should cease to think. But he promise is, "in sign of the religious state of church members stead of the fathers shall be thy children, whom when they have so little relish for these means th u mayest make princes in all the earth." The of grace that they will not find time to attend modere itself to the altered conditions of the noble fathers named, and their co:leagues no them to participate in the spiritual unction and church with respect to social standing, wealth. less noble, have long since gone to rest, still has profit of united social prayer and christian fel-

These means of grace must be ranked among christian truth and the salvation of universal being members of the church, can be habi us ly absent from the prayer meeting, where they shoud join in concert for God's blesing on themselves, on the church and the world, and where they should unitedly rise to greater nearness of access to God, is unaccountable, except whenever we find heartiness and regularity in prayerfully improved, when it is looked forwed to with expectation and pleasure, there is sure to be corresponding christian vigor and activity. Then class meetings prove seasons of refreshence and character; gene at edification is the result; and they who thus use such means are not only built up in Christ, but also are prepared with renewed strength and zeal to work for Christ, and be a blessing to others. We would earnestly and kindly call upon all who are in communion with the Methodist church to join in the stated prayer meeting, and be prehave the needful opportunities. Let not worldly cares, nor family concerns, nor the visits of friends, nor indifference, nor excuses hinder. Assemble at the prayer meeting; crowd the altar of prayer; unite in breathings of supplication to the God of all grace for the descentior the Spirit upon your families, your congregations, and the unsaved around you; and while your own hearts will be warmed and quickened, you will realize answers to prayer in the prosperity of the church, and the conversion of souls. God certainly heareth the prayers of his people.

The class meeting if properly improved is one of the best ordinances of the church. Here brethren and sisters in Christ meet who are blended together in a special fellowship within the larger fellowship of the church. The opportunity afforded of a closer religious acquaintance, of knowing each other's christian experience, each other's trials and temptations, each other's habits of prayerfulness, each other's spiritual conflicts and victories, and each other's exercises of faith and piety, naturally elicits strong sympathy and felt oneness in Christ, and cannot fail to subserve the benefit of one and of clergy and laity are filled with grief and consternation. Some have been hoping for a resternation: but there are no signs whatever of this.

Can present netter than I can, my congregation would be dissatisfied with me afterward; and if he should preach worse, I don't think he's fit to preach at all."

It was one of those occasions seldom with greating in population, we also improved. The fluence; Pugwash has also improved.
