## THE LIFE ASSOCIATION OF SCOTLAND.

Was constituted in 1836 expressly with the view of reducing the expense of Life Assurance to the lowest-possible consistent with security, and has been eminently successful in attaining that object.

Under Class A, Policy Holders of the First Series of participations in profits are at present required to pay only 12s. 6d. per £, of their premiums, and new entrants can keep up their policies till they participate in the profits by payments of so small an amount as to enable many persons to make an adequate assurance provision, who could not do so under the ordinary system. For example:—Policies of £50 (with interest) can be obtained for the following payments for the first year: Age 16, £3 1s. 1d.; Age 20, £4 17s. 5d.; Age 25, £5 11s. 1d.; Age 35, £13 6s.

Class B Scheme (Terrestrial Assurance) is remarkable for simplicity. It obviates the objections hitherto urged against Life Assurance, and meets, to the fullest extent, the wants of the public in the present day.

## "ROYAL" INSURANCE COMPANY.

IT is indispensably necessary that every Company which undertakes to replace the Loss occasioned by FIRE, or to provide by a specific sum, or by an Annuity, the means of subsistence to the Widow and the Orphan, should be able to show its Undoubted Ability to perform these engagements. As ample evidence of the Standing and Position of the "ROYAL" Insurance Company, it may be stated that its

**SUBSCRIBED CAPITAL IS TWO MILLIONS STERLING.**

THE CAPITAL ACTUALLY PAID UP AND ACCUMULATED AMOUNTS TO UPWARDS OF  
**EIGHT HUNDRED THOUSAND POUNDS.**

It cannot be too strongly urged on the attention of the Assurer that **SECURITY** is the First Desideratum in all Insurance Transactions, and that his object is not attained unless the event or contingency against which he wishes to guard is provided for,—from the moment he has paid his Premium,—under all possible circumstances.

It is therefore manifest that the Capital of an Insurance Company should be sufficiently large to meet all possible demands, and that its amount should be distinctly stated, in order that its entire sufficiency to meet all claims may plainly appear.

**REPORT by the AUDITORS to the Annual Meeting in August, 1861.**

"We have, in reply to the summons of your Manager, inspected every Document connected with the Company. We have again passed under examination EVERY VOUCHER, EVERY DEED, and EVERY SECURITY. It is a matter of no light moment to go through all these in the case of a Property representing something like £850,000, and we found everything in the most perfect order, and entirely correct."

### EXTRACTS FROM REPORT FOR YEAR 1860.

THE GENERAL PROGRESS OF THE COMPANY will be found to equal, if not to surpass, any expectation which could have been formed of it.

FIRE PREMIUMS for 1860 equal Total Fire Premiums for the Seven Years—1846 to 1853.

LIFE PREMIUMS for 1860 EXCEED the Entire Life Premiums for the Eight Years ending 1852.

PURCHASE OF ANNUITIES in 1860 LARGELY EXCEEDS the similar receipts for the first TEN YEARS—1845 to 1854.

### INCREASE of FIRE INSURANCE DUTY in the Year 1860 over 1859.

As shown by a Return made to Parliament, and ordered by the House of Commons to be printed, 7th June, 1861.

The following Table exhibits the Increase of Duty paid to Government by the different Insurance Offices, and proves, on the authority of Public Documents, that the Royal Insurance Company is increasing its Fire Business far more rapidly than any other Insurance Office in Great Britain.

The above statement exhibits more clearly and on more conclusive authority than any other that could be produced the high estimation in which the "Royal" is held by the Public.

The Increase of the "ROYAL" is more than double that of any other Company, and more than 30 per cent. of the Entire Increase of all the London Offices combined. The Increase of the "Royal" is also more than 30 per cent. of the Entire Increase of the other 28 Country Offices combined.

## GREAT FIRE IN LONDON, 22nd June, 1861.

Within three days of the announcement of the fire to this Office, measures were taken that the London Branch should be in possession of ample funds to meet every loss. Before the expiration of a week from the date of the fire, immediate payment was ordered to such of the claimants as were enabled to give a statement of their respective claims.

No new Fire Insurance Company hereafter to be established will meet even with partial encouragement if it have not a full sufficiency, not of Subscribed, but of Paid-up Capital. No prudent Capitalist will embark in such a new enterprise, and yet ignore the possibility that, until an ample Reserve Fund is collected which requires several years to accomplish, his investment, and it may be a large portion of his subscription, might at any moment be required to meet some unexpected loss of an equal or even greater magnitude than the recent one. The amount to the Credit of the Reserve and Profit and Loss Accounts of this Company would be sufficient to pay its Loss sustained by this hitherto unexampled calamity, were it thrice the amount it proves to be.

### LIFE.

The Rapid Progress and position of this Branch will be best shown by the following Statement of the new Life Business effected for the

The ROYAL INSURANCE COMPANY published late in the last year an account of the investigation into the Assets and Liabilities of its Life Department, under a novel form, and in as plain and intelligible a manner as the abstruseness of the subject admitted, together with the entire statements and valuations necessary for that purpose.

From the extensive Notices of this Pamphlet and its accompanying Diagrams, which have appeared in the Periodicals of the day, it has largely attracted the attention of vast numbers of Persons in all parts of the United Kingdom, as well as in other parts of the World. A most satisfactory and conclusive evidence that such is the case, is afforded by the fact that the Sum Assured on New Policies in the six months to 3rd June of the year 1861 is actually 50 per cent. in excess of the Sum Assured in the corresponding months of the year 1860, although the latter amount in itself exceeded the Sum Assured in any like previous period of time.

I.—The Guarantee of an Ample Capital, and Exemption of the Assured from Liability of Partnership.

II.—Moderate Premiums.

III.—Small Charge for Management.

IV.—Prompt Settlement of Claims.

V.—Large Participation of Profits by the Assured amounting to TWO-THIRDS of their net amount, every Five Years, to Policies then two entire years in existence.

VI.—Days of Grace Allowed, with the most liberal interpretation.

THE ROYAL INSURANCE COMPANY,  
NORTH JOHN STREET, LIVERPOOL, and 29, LOMBARD STREET, LONDON, E.C.

THE EXTRAORDINARY SUCCESS OF THE COMPANY  
AND THE  
PERFECT SECURITY its GREAT RESOURCES afford to INSURERS,

Have been commented upon by most of the leading Newspapers both in Great Britain and abroad.

The following are Abstracts of a few of these Notices.

THE "TIMES" MONEY ARTICLE.

At the Annual Meeting of the Royal Insurance Company to-day, the Report for 1860 stated that Premiums in the Fire Department amounted to £262,977, showing an Increase of £34,663 over the preceding year, and of £66,629 over the Premiums for 1858, being an Increase of 34 per Cent. in Two Years. The transactions of the year in the Fire Branch give a Profit of £41,067. In the Life Department the Premiums for the year on New Policies amounted to £15,079, being an Increase of £1,993 over the former year.—AUGUST 3, 1861.

**DAILY NEWS.**—These Tables prove the experience of the Royal to have been HIGHLY SATISFACTORY.—DECEMBER 29, 1860.

**LEEDS MERCURY.**—It will be seen how very much less the mortality of the Royal has been than the mortality for which the Office was prepared.—SEPTEMBER 8, 1860.

**Atlas.**—Of the Reserved Fund the Manager has every reason to be proud, as it enables him to make the fair best that in three days after the overthrow being catastrophe adverted to the Great Fire in London, the Royal was in a position to pay, and did pay, its claims on presentation, thus vindicating its well-earned character for promptitude and liberality in loss settlement. The value to the general and commercial community of such honourable and timely promptitude as the Royal Insurance Company displays to us, cannot be too strongly insisted on.—AUGUST 19, 1861.

**Bristol Mercury and W. Counties Advertiser.**—The increase in the new duty of the Company last year was more than double that of any other Fire Office in the Kingdom, and equalled one-third the increase of all the London Offices put together.—AUGUST 10, 1861.

**Edinburgh Evening News.**—The Royal Insurance Company has in some essential respects distanced all competitors.—AUGUST 10, 1861.

**Glasgow Examiner.**—If further proof is needed of the extraordinary resources of this Company, we may state that its London branch was provided with sufficient funds to meet every claim caused by the late terrific fire in London, without calling on the shareholders, or trenching on its paid-up capital.—AUGUST 10, 1861.

**Hull and Guardian.**—The report for the year 1860 was of a most gratifying nature, and most satisfactory to the shareholders.—AUGUST 10, 1861.

**Liverpool Mail.**—The Directors are fully justified in anticipating the time when the Company will be placed, with respect to the amount of its new business, at the head of all the Life Assurance institutions in this country. Nor has the progress of the Fire Branch been at all remarkable.—AUGUST 9, 1861.

**London Commercial Record.**—The judicious expansion of the Reserve Fund has been attended with the happiest results. It has ever been our opinion that no Fire Insurance Company can long maintain its ground without having a large positive Capital available any moment for extraordinary contingencies; and this opinion is confirmed by the many failures that have taken place of the companies committed on the unsound basis of a nominal capital.—AUGUST 9, 1861.

**Manchester Examiner and Times.**—In three days after the commencement of the fire, measures were taken to supply the London branch with ample funds to meet all calls that might be made upon them.—AUGUST 17, 1861.

**Waterford Mail.**—An accumulated fund of £200,000, and an annual revenue of £400,000 are features which might command confidence in any Insurance Company that could boast them; but they are not the best features in the character of the Royal Insurance Office.—AUGUST 12, 1861.

**Traveller's Overland News.**—Here we have the security, the power and resources by which, in the case of this Company, it was enabled to liquidate at once its heavy quota of £75,000. This secret is simply the comprehensive prudence that in years of prosperity was not tempted to encourage a mushroom growth of business by bait dividends and speculative bonuses, but held to the con-

mon sense of providing steadily from year to year a reserve fund, and one of such magnitude that we are not astonished to hear that, had the loss been thrice as great as it was, the Company could have met it without trenching on a farthing of their capital. In a business where security is the first and grand desideratum, this single fact is worth a volume of commentary.—AUGUST 10, 1861.

**Calcutta Freeman.**—The Royal Insurance Company is one of the soundest and most secure means of effecting Life Assurance in the world.—DECEMBER 4, 1860.

**Calcutta Englishman.**—The Royal Insurance Company has been noticed by the leading London journals in very favourable terms.

**Indian Field.**—We are of opinion that the methods adopted by the Royal Insurance have been devised upon sound principles, and the success of the Company, as attested by the increase of business, the diminution of expenses, and the falling (unexpected, according to ordinary actuarial computation) in the per centage of claims, may be accounted for by the close adherence to those principles manifest in the proceedings of the Society.—DECEMBER 8, 1860.

**King's Post, Jamaica.**—The Company is in a thriving condition.—AUGUST 23, 1861.

**Montreal Gazette.**—The Royal Insurance Company is an instance of almost unparalleled, and we believe, of most deserved success. Last year it lost heavily in South America; this year still more heavily (to the extent of £70,000 to £75,000 sterling in London. By prudent management it had accumulated funds to meet these heavy losses, and has met them with the utmost promptitude. This is the true test of a Company's stability.—AUGUST 22, 1861.

**Montreal Herald.**—The prudent and cautious management of the Directors has enabled them, after paying a handsome dividend, to increase the Reserve Fund to upwards of £200,000.—AUGUST 22, 1861.

**Hamilton Daily Herald.**—The Royal Insurance Company has distanced, in the increase of its business for the past year, all other Companies in the United Kingdom. Advice received by Mr. Edlinson, Manager of the Hamilton Branch, dated July 4th, state that the "Royal" had already commenced to pay losses incurred by the Great Fire in London, and that the Metropolitan Board was prepared, within four days of the catastrophe, to settle every claim the moment the amount was ascertained. Such promptitude cannot fail to be a most convincing proof of the great advantages to be derived from dealing with a company, whose ample means and high position enable them, without even the slightest temporary inconvenience, to grapple with a calamity almost unprecedented; in the present case payment will be made, without a moment's delay, of claims, the magnitude of which would be sufficient to embarrass weaker institutions, and, in some instances, to extinguish them altogether.—JULY 29, 1861.

**Hamilton Times.**—The advantages offered by this great Company cannot fail to be appreciated by all who take the trouble to make themselves familiar with them.—JANUARY 22, 1861.

**Toronto Globe.**—We hope that the business will as largely increase as the enterprise displayed richly merits.—MAY 29, 1861.

**Canadian Freeman (Toronto).**—The steadily increasing importance of the Royal market, and its as one of the most reliable and safe Companies in which to insure against loss by fire.—AUGUST 8, 1861.

**Toronto Leader.**—The increase in the business of this Company is one of the best standards by which to judge of its popularity and soundness.—AUGUST 14, 1861.

Ice from fire - A platina crucible is made  
and maintained hot, over a large spirit lamp.  
Some sulphurous acid is poured into it - This  
acid, though at common temperature one of  
the most volatile of known bodies, possesses the  
singular property of remaining fixed in the  
red-hot crucible, and not a drop of it evapo-  
-rates; in fact, it is not in contact with the  
crucible, but has an atmosphere <sup>of its own</sup> interposed  
a few drops of water are now added to the  
sulphurous acid in the red-hot crucible.  
The diluted acid gets into immediate contact  
with the heated metal, instantly flashes  
off, and such is the rapidity of and energy  
of the evaporation, that the water remains  
behind, and is frozen into a lump of ice  
in a hot crucible, from which, seeing it  
the moment before it again melts, it may  
be thrown out, "a piece of natural magic" -  
and as much like a miracle, as any operation  
of the forces of nature could produce -

## LOVELL'S SERIES OF SCHOOL BOOKS.

HAVING long felt the necessity existing for a SERIES OF EDUCATIONAL WORKS, prepared and expressly adapted for our COLONIAL SCHOOLS, the Publisher was induced to attempt the supply of this want. His efforts thus far have been crowned with success; his books having been most generally welcomed in the Schools, and most favorably noticed by the Press, of British North America.

LOVELL'S GENERAL GEOGRAPHY has met with entire success, having been already introduced into almost every School throughout British North America. The General Geography, however, being considered too far advanced for *young beginners*, a new and elementary work has been prepared, entitled, EASY LESSONS IN GENERAL GEOGRAPHY. The "Easy Lessons" are written in an easy and gradual style, and are considered by eminent judges the best yet issued for young students.

He takes great pleasure in calling attention to the following list of the SCHOOL BOOKS already issued by him; and to which he will add, from time to time, such new works as may be of use to the youth of the Provinces.

A ready way to arrive at the probable duration of a life, is  $\frac{1}{2}$  <sup>add</sup> 80. to the age, divide the sum by 2, and then deduct the age - example: suppose the age is 50, then add 80, which equals 130, divided by 2, equals 65, subtract 50, which leaves 15 - the probable duration

Consume the best of your judgement in what these herbs contain - a mixture in water 2 or 3 drops in 5 drachms white wine 2 or 3 drachms of tartar. If an ounce powdered, being by a cut the best small amount, put into a vessel, over a gentle fire, with a small quantity of water, held over a gentle fire, stir frequently with a wooden spatula, when brought smelted, add the powder, and mix well together - mix thoroughly, and if of the use and add the acetic party and flower - the camphor must be dissolved by heating it in a mortar with the addition of a little spirit of wine - the camphor must then be added, and the composition to be made in a white glass, with the fire - with a 1/2 pint of water.

In all cases where a Letter is not specially directed to be sent by any particular route, the rate of Postage first mentioned is chargeable. It must also be understood, that the rates given in the above Table for places to which the route is through the United Kingdom, are rates "via Halifax," or "via Canadian packet," by which routes all such correspondence will be sent, if not specially addressed "via United States," or "via New York," in which case an additional rate of two pence sterling, or four cents currency, is to be added to the amount given in the Table.

It is advisable that all Letters should be prepaid, and by Postage Stamps.

Printed Books, Periodicals, Publications, or Pamphlets under 48 ounces in weight, can be forwarded by Post in New Brunswick, at the rate of one cent an ounce.

Pamphlets, Periodicals, and Books, to pass at the above rates, must be sent without a cover, or in a cover open at the sides or ends.
