to them. Perhaps there is some truth in this; at least, evidence can be brought to bear in support of the supposition./ But it may be, and the pages of history will amply justify the feeling, that down deep in the hearts of the people is a well defined and well grounded fear of placing too much authority in the hands of men of intense individuality. Caesar, the republican demi-god, became Caesar the autocrat. Cromwell the deliverer, developed into Cromwell the dictator, and Rienzi the tribune of the people, became Rienzi the scourge of the people. All three began their work as genuine patriots and each fell a victim to his own overmastering ambition. The lesson which has been wrought

into the very structure of humanity through the lives of these men and other/of similar mould, accounts in a large degree for the fact that the Clays, the Blaines and the Shermans of the American republic have given place to men of immeasurably weaker calibre.

they cannot escape the teachings of history.

There is a small coterie of soldiers of fortune in Dawson who have lived for the past year or two on the hope of hoisting themselves into political office on the wave of popular reform inaugurated by this paper three years ago. These knights of the political road have worked on the supposition that they need but to express their desires to have the same immediately championed by the Nugget. What gave them this impression we are unable to say, but it is necessary only to state that the im-

## CREEK NOTES.

Mrs. L. Del La Pole, of 21 Eldorado, who has been on the sick list for the past two weeks, is again able to be about.

W. H. Tilman, of 7 below Bonanza. started for Clear creek one day last week, and when about 15 miles from home sprained nis ankle so severely that he was obliged to return, and de-clares it was a little' the worst experience he has had for a long time.

Mr. Walter Barnes of the Acme res e flatirons would eventually bring out on top the heap, but he shook mead in sich a mournful way that on the reopening of his place last week.

The people at the Forks and vicinity can now sit quietly in their own homes and listen to sweet music sent over the wires by that prince of good fellows, J. J. Putro, of 17 Eldorado.

On November 2d the Elby will give another of its popular dances to its numerous patrons and friends.

Mr J. D. Hartman is now sole owner of 57 roadhouse, having purchased his former partner's interest. "Jack" is one of the most popular fellows on the creek, and as he has his family with him, we bespeak for him eminent success.

The Mrs. Blodgett, wife of C. D. Blodgett, one of the heavy mine owners of Bonanza, has been visiting her numerous had driv her out into the friends in Dawson during the past week.

Victor Grant, who owns a half interest in a quartz mine on Victoria, fell down a shaft 28 feet deep. The cause of the accident was the breaking of the "Imbibe from this bottle of strength storer. ### A Lively Function.

"Speaking of mothers-in-law," said a man who came to the Klondike in '97, mined a year and then came to Dawson and went into business, first in a small way, but who, by close atten-tion to his affairs, spread out and is now one of the solid men of the town, "it was a prospective mother-in-law that drove me to this country-drove me away from her I loved and still love dearer than my own life; but the old lady was too much for me and, after a tacit understanding with the girl, I quit short oft and came here with the rush three years ago this fall. Have a cigar and sit down and rest your felts!"

It was to o'clock at night and the Stroller had dropped into the store after a short stroll in search of relaxation, after having added three chapters to a book he is writing entitled, "The Chambermaid's Revenge."" The merchant had just put \$350, the profits of the day's business, in his pocket, and was feeling in talkative and communicative mood, but from a wan and pensive air which he could not conceal, it was evident that some weighty thoughts frequently bore down upon his ordinarily blithsome spirits.

When asked what there was so repulsive in the mother of his adored, he said "Well, nothing that an ordinary man

would object to, possibly, but you see 1 am very sensitive. Her daughter and I became engaged on a log that lay in a grove behind the barn; that is, I was sitting on the log and the girl was on my knee and to this day I appear to weigh anything scarcely, but in reality she weighs 155 in the shade and wears a No. 6 shoe. Well, the girl insisted on going to the house at once and telling her mother of oursen yielded and vielded and we went. There is where I was weak and there is where my trouble began. The old woman not only insisted on kissing me, but she took me up in the loft and showed me an old cradle which she said her family had been rocked in for five generations back and said, 'It's your's my son.' All this grated harshly on my sensitive nerves, but it was nothing to what was coming and to what did come as time elapsed. The old lady grew, more familiar day by day, so, without even saying goodby to the girl, I skipped between two days and came north. After I reached here I wrote her a long letter and told her the truth, why I had left her and all about it. That was three years ago and I never got an answer to the letter until 10 days ago, coming and to what did come as time was three years ago and I never got an answer to the letter until IO days ago, and all it said was: 'Ma had a stroke of paralysis two days ago and the doctor says she can never talk any more." That letter settled it with me; I leave for the outside over the ice as soon as the river freezes up. Paralysis is all right at times."

The Nugget's presidential election has called forth a number of communications on imperialism, expansion and other deep and intricate questions, all of which the Stroller has read with more or less wonder and amusement. He has been convinced that all the writers are serious in what they say, but their dissertations on such deep questions were the means of bringing to,

the Stroller's mind a story: Carbuncle Jackson had been arrested for stealing a razorback' hog which was lame; otherwise Carbuncle would never have 'done' caught it. When brought to trial and a jury was being selected the name of January Jeems appeared on the list. The court, in order to con-

In about five minutes she was ready. Thar was determination in her eyes and hope in her heart as she bounded forward. I had posted her, as was my duty toward the weak and helpless, of the benefits of gettin in the fust blow, and as she reached the door she seemed to kick forward with both feet to once, and at the same time she got in right and left hand hooks, as the sinful call em. The husband who had driv her went down with a crash, and ugh the open door I saw her kneel an his prostrate body and lam and alt and swat and wallip him with a artiness that was cheerful to behold. en assured that victory had perched n her banner and she was entitled to the gate receipts, I mounted my in and driv on. Jest a few con-blin words and half a pint of restora-live had turned the tables and made at boss of the roost, and I felt myself uraged to go onward in the cause sufferin humanity.

I was within four miles of the town Boomerang when I heard a voice will by the roadside and discovered mother human bein in distress. He ras a man of years and guileless look, and his raiment was torn and tattered. ome time he wept and could not be morted, but by and by, when the rden had passed from his heart, he burden had passed from his heart, he j bid me of sickness and sorrer and man's inhumanity. In my soul I pitied him and gave him to drink from my bottle and to eat of my luncheon, and as he ate and drank I talked to him in my cheerful way. I was still ministerin to his physical and menatl wants when he suddenly grabbed me by my venerable chin whiskers and rolled me on my back and whooped in exulta-tion. I had bin betrayed into the hands of an enemy. The old cuss had ands of an enemy. The old cuss had up a job to hornswaggle me and to his wurldly wealth.

While I am a weary pilgrim, wanin about to speak words of consolaand keepin my heart tender to-and keepin my heart tender to-al all mankind, I know when to forth my strength ag'in deception wickedness. In his joyful enthu-m the old deceiver was pulling my iskers with one hand and tryin chug between the organith the other between the eyes with the other m I gin him a flipflop which ded me on top. Then, as I encom-ded his windpipe with much hearti-a, I bade him observe that-"He who seeketh his naybur's de-e-31.7 14

Such is the Opinion of Attorneys Who Have Read It.

They Belleye It Would Be Overrid-Act.

It is understood and agreed between the parties, that the employers shall have the power to discharge the said laborer at any time without cause; and in such event it shall be optional with the said employers to retain the wages of the said laborer until the washup in the spring of 1901.

That is the first material clause in the contract recently gotten out in blank form, and intended to be signed with these questions. I maintain that by the miner who works for the parties in whose interest the contract is drawn, This one sided instrument further sets forth that the same conditions shall for legislation on industrial and ecoprevail in case the said laborer or miner nomic questions. In other words the for any reason whatsover quits the employment during the time previous to trusts and combines? Did they not the washup in the spring of 1901. Also, that in case of sickness or injury point, but which was afterward set from any cause whatever, the employer is immuned from all blame or liability, and should he be laid off, or become sick, or for any other cause cease from working during the time the contract goods manufactured and passing from is in force, he agrees to pay the generous employer for his board and lodgings, during such time of non-employment, at the rate of \$2.50 per day.

That the contract, like nearly all such agreements, is gotten up wholly in the interests of the employer and without reference to those of the employe, is plain to be seen. Whether or upon those who, through careless neglect of such matters, or by reason of equally large question.

It is the general opinion of legally learned minds that were a test case to come before the courts it would result several places.

that the contract is in direct opposition which the country has never had to deal to the master and servant act, and that it would be overridden by such act, it in its various clauses.

The act referred to makes provision that when a servant is discharged with- party Grover Cleveland, the greatest out cause, the magistrate before whom the servant makes complaint, may enter a judgment for wages against the dealing with great economical and inmaster. The contract is very sweeping dustrial problems. Nor did prosperity in that it provides that under no cir- return until the return of the Repubcumstances is the employee to have a lican party to power, and with them right to demand damages for any in- th restoration of the McKinley tariff in jury or sickness received or suffered the Dingley bill-result, renewed conduring the time of his employment. fidence in commercial and industrial ubted by att part of the contract could be made to withstand legal attacks, as there are many cases imaginable, many cases of like nature which come before law courts from time to time, wherein it is shown conclusively that injuries sustained by employes in the discharge of their duties are due to the neglect or ignorance of the employer, and in many of such cases damages are awarded the employee. The contract, inasmuch as it makes no exception to any enactment on this point, as in the matter of the master and servant act, is thought to be weak and insufficient to bind the employee to all its terms. "Of course," said one of the attor-"Of course," said one of the attor-neys to whom the contract was shown, "there is no question but what it would often work a hardship on a great many claim owners if called upon in the dead of winter, when they have no means of getting out any gold, to pay means of getting out any gold, to pay out large sums in wages, and if a miner goes to work with the understanding that he wait till spring for his wages, he should abide by that understanding. "This contract, however, makes all its provisions protective of the mine owner, and gives no protection what-ever to the miner employed. "The trouble with the miner in such cases is that he signs agreements and contracts of this nature either without understanding its terms after reading them, or through carelessness. The contract, I consider to be weak from a standpoint of law, and if a test of any of its clauses were to be made I think my opinion would be found to be correct."

small mouse that will not carry a large mountain on its back, "Light and Truth" manfully shoulders the whole load, William Jennings Bryan and all. He is without doubt a Populist, for no one but a Popoulist would be guilty of such an unusual production. He forces me to take up some of the issues, and the parties back of them, for the last 20 years. I will take the Republican party and

endeavor to show some of the thiugs it has done for the country. If he will den By the Master and Servant do as much for the party he represents I will guarantee him respectful consideration.

First, the Republican party has shown its generosity by giving the "bloody sihirt," a respectful burial, and no one but a Demo-Pop would resurrect it. He Second, I accept the statement, "that

since 1880 the issues raised were on economic and industrial questions." Now then, which of the two great parties were the first to deal intelligently it was the Republican party, Did they not in 1888 recommend to congress through their platform the necessity necessity for restrictive legislation on again in 1890 force legislation on this aside by the supreme court declaring that congress had no power to fix legislation on industries as between states, but only on the sale and transfer of one state to another?

Thus we see that the Republican party was the first to oppose trusts and combines and not the Democratic party as he would have us believe.

Now, I ask him did not the Democratic party have complete control of congress in 1892, and what legislation did we have against these oppressive they not have complete control of the senate, and what great restrictive meascombines? Again must the answer be, not any.

What he charges to the McKinley tariff bill exactly fits in, as the result in the puncturing of the contract in of Democratic mis-rule, namely, disaster, bankruptcy, poverty, crime; yea, There is no question in such opinion and a very serious strike, the like of with before-that of 1893. Once more the substitution of the Wilson bill for pecially as it makes no exception to the McKinley bill-result same as before

> Was not the idol of the Democratic friend the trusts had? Look at the futility of that party when it comes to What is the cause of it? Primarily the Democratic party. In the coal mines the owner leases the ground to operators, who in turn are obliged, by the terms of their lease, to mine so many tons of coal anually. These operators put a great deal of machinery on the ground and are at great expense thereby, so that to give up their lease they would be at great financial loss. Competition steps in, forces the market lower and lower on the price of coalresult, margin of profit is so small, the wages of the miner is cut down to meet the competition, as the operator cannot southern states have adopted the plan of hiring out the convicts to the highest bidder, these are taken into the coal mines and worked until they drop. All they get in return is a scant supply of the coarsest food and the cheapest pos-sible clothing. The product of this convict labor is brought into direct competition with the paid labor of the north, hence the result in the present strike; and this itself is the result of the Democratic institutions in the south which make it so. Again equal rights to all. Bah! What a shibboleth for the Democratic party. For shame! Did they and are they not making a great effort to disenfranchise For shame! Did they and are they not making a great effort to disenfranchise the negro, and this is the party that boasts of equal rights! Finally who are seeking to undermine the republic and republican institu-tions? Who are endeavoring to bring about class legislation which must al-ways be subversive of republican insti-tutions and equality of rights. Who, I say, but the Democratic party. Then what is your duty as a man who loves his country and her institutions? What is it, I repeat, but to vote for the party or the man that has made the country what it is, the best on God's green earth. green earth. CALIFORNIA REPUBLICAN.
