COUNTY NEWS.

INTERESTING LETTERS FROM OUR STAFF OF CORRESPONDENTS.

FOREFAIL

SATURDAY, Aug. 13.—A number of our religious enthusiasts and young people attended camp meeting between Delta and Soperton on Sunday.

The rains of last week put farmers back considerably with their harvest.

School opened on Monday with Mr. Watson as pedagogue.

CHANTRY.

FRIDAY, Aug. 12.—Misses Birdall, Mason & Spanders, the evangelist girls, are expected to open camp meeting in Mr. Chan's bush, between this place and Harlem next week.

Miss Jessie Knowlton is camping with friends at Portland.

Wm. Smith, of Harlem, had a valuable horse badly injured with a pitch fork.

F. O. Knowlton, ill with rheumatism, is suffering with a cold, and is very ill.

Mrs. Wilbur and child, Syracuse, and Mr. and Mrs. O. H. Bresse, Stannard, visited friends here last week.

Miss Lillie Blackburn, Athens, is visiting at H. E. Eyre's.

The members of the Y. M. P. B. A. of this vicinity, attended the Prudence Bazaar picnic at Bedford today.

SOPERTON.

SATURDAY, Aug. 13.—It is said that our young cheesemaker and blacksmith went down to the house of a friend in the eastern end of the village on a pleasant Sunday evening not long ago, and were graciously entertained by the young ladies of the house. They all occupying the parlor and having such a good time that the hours sped by so quickly that they had no idea that the length of their visit was extending into the "twelve hours."

The ex-barber is busy, when not engaged in agricultural pursuits, in smoothing down any little unpleasantness that may occur in his neighborhood.

The rain of the past few days has rendered harvesting operations very difficult.

Everything is very quiet around the corners since James attended several matters in dispute in his own peculiar way.

The whet tank is not such an object of interest as it was before it was set up on stilts.

The fishery inspector's business is quite as the extra net set last spring caused a great depletion in the quantity of fish left for summer use.

FRONT OF YONGE.

MONDAY, Aug. 15.—There is some trouble over the will of the late John Eagley, of Lake street. The contention by some of the heirs is that the said J. Eagley was not in his right mind at the time of framing the instrument.

Echo Lodge is a large summer house or hotel not far from Rockport, and run and managed by Mr. and Mrs. O. L. Potter. This is a beautiful spot on the Canadian shore of the river St. Lawrence.

Mr. Peter Andrew and wife, of Mallorytown, visited the residence of his father-in-law, Mr. Alexander Tennant, of Junetown last Saturday.

We are informed that it is not good fishing on the St. Lawrence nor Charleston Lake during wet weather. Now, whether or not this is caused by the fish hiding under rocks and old logs that come out of the creek, or that the sportmen are similarly inclined, is not stated.

James Cain is raising cats for the world's fair. They are as fine a lot of the feline species as ever had a record.

BLUE MOUNTAIN.

FRIDAY, Aug. 12.—A correspondent on Blue Mountain says that the blueberry business is something immense.

It is said that the berries that have grown here within the past 2,000 years would make a mound higher and bluer than the mountain itself.

In searching for berries in the

regions of this remote region, one soon finds himself as good as a hundred miles from anybody and any place.

Many a strange adventure, hair-breadth escape, and thrilling incident have these wild scenes witnessed. Long ere the white man's foot pressed the flowery moss that once carpeted these ancient rocks, then overshadowed with pines, lofty and majestic. Even now, it is no uncommon thing for one to lose his way for an hour, nor is one apt to feel worse for lying out over night; but in such cases, as one stands on a high rock, scanning the interminable ledges and gloomy ravines, twilight rapidly deepening, and the rugged beauty is truly stern and wild, and as he retires to his calico褥 or igneous rock couch, new sensations come creeping slowly on, and he gives up his restless tossing to his diatribe for blueberries in particular.

Recently a party of seven, in pursuit of the blue on the mountain, were caught in a drenching rain for many hours. They found their way finally back to the hospitable farm house where they had left their team, and where four of the ladies were accommodated with a change of clean, dry apparel, and all were refreshed with a comfortable tea.

Instead of the second day, as promised, the clothes were returned on the eighth day after in a pitiable state of untidiness. The young lady (a girl) was alone with her work on the farm and felt, no doubt, that the parties would be courteous enough to return the articles in as good condition as when loaned. She made no remark, but it was evident that her feelings were hurt.

The vicinity of Gananoque enjoys the distinction of furnishing these unique citizens. Even the big bear, who was on a visit to the summit of Blue Mountain, when he heard of it, shook his head and growled ominously.

THE INDEPENDENT FORESTERS.

High Court Meeting in Barrie - A Forester and a Lawyer - Order - 1000 - Special to the Reporter.

The pretty county town of Simcoe had a regular invasion, but of a very peaceable and welcome nature, on the 9th inst. The High Court of Ontario Independent Order of Foresters held its annual meeting.

Some of the representatives arrived Saturday night, and a number came on Monday, and on Tuesday close on to 400 delegates were present. Hardly a court of the 490 in Ontario was unrepresented.

Complete arrangements for the entertainment of the members of High Court were made by the members of Court Robin Hood, the local court in Barrie. The town was gaily decorated in honor of the event.

The mayor on behalf of the town, and half of the civic authorities presented an address of welcome, which was cordially responded to by Chief Ranger Miller on behalf of the High Court. The complimentary excursion, on the beautiful waters of the Kempenfelt Bay, was tendered by the members of Court Robin Hood, who were greatly enjoyed by the members of the High Court and their friends.

In addition to the members of the High Court, a large number of visiting Foresters from many of the courts in Simcoe, York and Ontario counties were present. Proceedings opened on Tuesday at 10 a. m.

The report of the High Officers for the year ending June 30th shows the order to be in a most satisfactory and prosperous condition, and to have made remarkable progress during the year. The total number of courts in the province is 1,111; of these, 252 were organized during the past year. In Ontario there are 430 courts, 92 of which were instituted during the year just closed; the membership in the province at the present time is over 18,000. The number of deaths during the year amounted to 92. That the number of new courts with a membership of 20 each should be the same as the number of deaths is rather a striking coincidence.

The rate of increase as compared with the death rate, is 31 to 1; that is, for every member removed by death 31 new ones were added during the year. The low death rate and the large infusion of new blood are the best possible guarantees of the permanence of the Order.

The reports show the financial state of the Order to be highly satisfactory, though the number of claims, owing to the prevalence of la grippe, were unusually numerous, calling for the payment of \$246,361.81 to the beneficiaries of deceased Foresters. There were added to the reserve fund \$124,374.74 during the year, which brings it up now to the magnificent total of \$479,710.40. When it is remembered that eleven years ago the Order had a membership of only 396, and a debt of \$4,000, its growth and prosperity are simply phenomenal, and the Supreme Executive, the High Standing Committee, and the membership generally may be pardoned for the pride that they take in their great Order.

The reports of Inspectors Whale and Gibbons showed that a large number of courts had been visited during the year, and much good work done in the way of bringing in new members, and acquainting courts more thoroughly with the unwritten work of the order.

A large number of amendments to the constitution were submitted by subordinate courts. No definite action was taken on many of these at this meeting, as there will be another meeting of the High Court before the Supreme Court, which alone has authority to alter the constitution, meets. Next High Court may recom-

mend to the Supreme Court some changes in the constitution.

The election of officers on the second day of the meeting excited considerable interest. With the exception of the High Chief Ranger, Bro. Rev. A. McGillivray, all the elected officers had keen contests.

The officers elected were duly installed by Supreme Chief Ranger Orontiothekas. The proceedings of the largest and most successful High Court ever held in Ontario closed at 1 a. m. by the singing of "Auld Lang Syne" and "God Save the Queen." The meeting next year will be in Barrie.

Brockville Cheese Board.

Special to the Reporter.

THURSDAY, Aug. 11.—The offerings on board were somewhat smaller than usual to-day, which may be accounted for in the fact that no cheese was sold up very close by many salesmen who disposed of the balance of July make a week ago, and did not feel inclined to let August goods go to-day.

The actual offerings on the bulletin board were 4,800 boxes, but the outside deals which some thirty factories have entered into for 6,500 boxes; of these, fully 4,000 would be colored goods, the balance white.

Before the board business regularly opened, President Singleton and Auctioneer Murphy made short speeches for the good of the order, respecting order and decorum, which is very necessary in every line of business.

A letter of thanks was read from the family of the late F. H. Warrington, of Montreal, in acknowledgment of the resolution of sympathy passed by the board a short time ago.

The Liverpool special cable quoted 46/6 for white and colored goods. When the auctioneer commenced the sale, 9/6 was the first offer for colored goods, which was soon carried to 9/6, and sold to Mr. Bate. This figure was looked upon as an extreme price, and it did not hold long, as 9/6 became the ruling figure for white and colored. A few lots were sold one or two points below that figure. The goods were all sold to-day to Brockville buyers, who had plenty of orders in hand for the entire offering.

Unconformable People.

One of the worst pests with which the newspaper men have to contend is the fellow who is continually wanting somebody "roasted"—the fellow with a grudge against numbers of his fellow men which he would like to have expressed at no cost to himself by getting some newspaper friend or acquaintance to give the object of his wrath a "ripping up the back." In fact, such chaps seem to think that one of the main purposes of a newspaper is to "roast" persons and things.—Athens Express.

CHIASTRY.
 FRIDAY, Aug. 12.—Misses Birdall, Mason & Saunders, the evangelist girls, are expected to open camp meeting in Mr. Chan's bush, between this place and Harlem next week.

Miss Cassie Knowlton is camping with friends at Portland. Wm. Smith, of Harlem, had a valuable horse badly injured with a pitch fork.

F. O. Knowlton, ill with rheumatism, is a trifle better. Miss Addie Knowlton, evangelist, is very ill.

Mr. Wilbur and child, Syracuse, and Mr. and Mrs. O. H. Breese, Stansted, visited friends here last week.

Miss Lillie Blackburn, Athens, is visiting at H. E. Eyle's.

The members of the Y. M. C. B. A. of this vicinity, attended the Prentice Boys picnic at Bedford today.

SOPEFTON.
 SATURDAY, Aug. 13.—It is said that our young blacksmith and blacksmith went down to the house of a friend in the eastern end of the village on a pleasant Sunday evening not long ago, and were graciously entertained by the young ladies of the house. They were all occupying the parlor and having such a good time that the hours sped by so quickly that they had no time to get ready for the night, and extending into the "wee sma' hours." The head of the family demurred to his daughters keeping such late, or rather such early hours, and endeavored to induce the agricultural paragon, in charge of the young men, to get up and get ready to go to bed. Not meeting with that ready response that he considered due to his request, he suddenly arose and in an evening of despatch, appeared in the doorway and gently but firmly bade the young ladies seek their couch and the young men the protection of their ma's.

The ox-barber is busy, when not engaged in agricultural pursuits, in smoothing down any little unpleasantness that may occur in his neighborhood.

The rain of the past few days has rendered harvesting operations very difficult.

Everything is very quiet around the corners since Jabez settled several matters in dispute in his own peculiar way.

The fishery inspector's business is gone, as the extra net set last spring observed the depletion in the quantity of fish left for summer use.

FRONT OF YONGE.
 MONDAY, Aug. 15.—There is some trouble over the will of the late John Egley, of Lake street. The contention of some of the heirs is that the said J. Egley was not in his right mind at the time of framing the instrument.

Echo Lodge is a large summer house or hotel not far from Rockport, and managed by Mr. and Mrs. O. L. Potter. This is a beautiful spot on the Canadian shore of the river St. Lawrence.

Mr. Peter Andrews and wife, of Marlborough, visited the residence of his father-in-law, Mr. Alexander Tennant of Junetown last Saturday.

The lady who can cry with one eye at a funeral and with the other observe the defect in the other lady's bonnet must generally be in a very happy state of mind.

Mr. William Ferguson, who is agent on the G. T. R. at Darlington, has returned to his post after a ten days vacation among his relatives in Caintown.

We were well convinced from the first that Mr. Blake would accept office in the old country that a large estate would be properly and equitably adjusted. The honorable Edward, before leaving Ireland, will in all probability completely reconcile the two great parties in said country which has been the bane of the nation for the last 100 years.

Mr. Samuel Avery, of Junetown, will erect a silo this summer.

We are informed that it is not good fishing on the St. Lawrence near Charleston Lake during wet weather. Now, whether or not this is caused by the fish hiding under rocks and old logs to keep out of the wet, or that the sportmen are similarly inclined, is not stated.

James Cain is raising cats for the world's fair. They are as fine a lot of the feline species as ever had a record.

BLUE MOUNTAIN.
 FRIDAY, Aug. 12.—A correspondent on Blue Mountain says that the blueberry business is something immense, and that the berries that have grown here within the past 2,000 years would make a mound higher and bluer than the mountain itself.

In searching for berries in the recesses of this remote region, one soon finds himself as good as a hundred miles from anybody and any place. Many a strange adventure, hair-breadth escape, and thrilling incident have these wild scenes witnessed, long as the white man's foot pressed the flowery mats that once carpeted these ancient rocks, then overlaid with pines, lofty and majestic. Even now it is no uncommon thing for one to lose his way for an hour, nor is one apt to feel the worse for lying out over night; but in such cases, as one stands on a high rock, scanning the interminable ledges and gloomy ravines, twilight rapidly closing around him, the rugged beauty is truly stern and wild, and as he retires to his calcarous or igneous rocky couch, new sensations come creeping slowly on, and he gives unqualified expression to his dislike for blueberries in particular.

Recently a party of seven, in pursuit of the blue on the mountain, were caught in a drenching rain for many hours. They found their way finally back to the hospitable farm house where they had left their team, and where four of the ladies were accommodated with a change of clean, dry apparel, and all were refreshed with comfortable tea. Instead of the second day, as promised, the clothes were returned on the eighth day after in a pitiable state of uncleanliness. The young lady (a girl) was alone with work on the farm and felt, no doubt, that the parties would be courteous enough to return the articles in as good condition as when loaned. She made no remark, but it was evident that her feelings were hurt.

The vicinity of Ganouque enjoys the distinction of furnishing these unique citizens. Even the big bear, who was on a visit to the summit of Blue Mountain, when he heard of it, shook his head and growled ominously.

THE INDEPENDENT FORESTERS.
 High Court meeting in Barrie. A Free Masonic Lodge, Order No. 1000, held its regular meeting on Monday evening, the 14th inst.

The regular meeting of the Independent Order of Foresters held its annual meeting, some of the representatives arrived Saturday; quite a number came on Monday, and on Tuesday close on to 400 delegates were present. Hardly a court of the 200 in Ontario was unrepresented. Complete arrangements for the entertaining of the members of High Court were made by the members of Court Robin Hood, the local court in Barrie. The town was gallantly decorated in honor of the event. The mayor, on behalf of the civic authorities presented an address of welcome, which was cordially responded to by Chief Ranger Miller on behalf of the High Court.

The complimentary program of the beautiful waters of Kempenfelt Bay, tendered by the members of Court Robin Hood, was greatly enjoyed by the members of the High Court and their friends.

In addition to the members of the High Court, a large number of visiting Foresters from many of the courts in Simcoe, York and Ontario counties were present. Proceedings opened on Tuesday at 10 a. m. in a most satisfactory and prosperous condition, and to have made remarkable progress during the year. The total number of courts in the order is 1,111; of these, 252 were organized during the past year. The total membership is over 39,000. In Ontario there are 430 courts, 92 of which were instituted during the year just closed; the membership in the province at the present time is over 18,000. The number of deaths during the year amounted to 92. That the number of new courts with a membership of 20 each should be the same as the number of deaths is rather a striking coincidence.

The rate of increase as compared with the death rate, is 31 to 1, that is, for every member removed by death 31 new ones were added during the year. The low death rate and the large infusion of new blood are the most possible guarantees of the permanence of the Order.

The reports show the financial state of the Order to be highly satisfactory, though the number of claims, owing to the prevalence of influenza, were unusually numerous, calling for the payment of \$246,361.81 to the beneficiaries of deceased Foresters. There was added to the reserve fund \$124,374.74 during the year, which brings it up now to the magnificent total of \$479,710.40. When it is remembered that eleven years ago the Order had a membership of only 396, and a debt of \$4,000, its growth and prosperity are simply phenomenal, and the Supreme Executive, the High Standing Committee, and the membership generally may be pardoned for the pride that they take in their great Order.

The reports of Inspectors White and Gibbons showed that a large number of courts had been visited during the year, and much good work done in the way of bringing in new members, and acquainting courts more thoroughly with the unwritten work of the order.

A large number of amendments to the constitution were submitted by subordinate courts. No definite action was taken on many of these at this meeting, as there will be another meeting of the High Court before the Supreme Court, which alone has authority to alter the constitution, meets. Next High Court may recom-

Every member of the board is expected to be present.

In the census bulletin No. 12, Smith's Falls is said to have 91 manufacturing establishments. The Smith's Falls Record says the statistics of the Dominion is the most good-natured, easy going, delicious liar it knows of. Smith's Falls has had half of 91 manufacturing establishments in it. The bulletin shows that the manufacturing establishments increased from 33 in 1881 to 91 in 1891. The Record says in place of an increase there has been a decrease.

We had a glowing account written up of the exploits of a couple of bearded youths who, having obtained the consent of their mamma, decided to spend a week or ten days in the wild and woolly region between Charleston and Poole's Resort on the St. Lawrence. Sufficient to say that after three days rowing, the last of which was against a head wind and the disability of blistered hands, they reached the rendezvous. It would be interesting to the novel reader to peruse their hair-breadth escapes. The quantity of game seen but not slaughtered was said to be something immense. The fourth day's sun had secretly risen when a sudden feeling of homesickness is said to have overtaken the breast of the oldest of the party and he hastily scrawled an earnest appeal to his ma, to send pa out for them with a wagon, as they felt more like coming home overland than by the tortuous course of the river and lake. Fearing that his appeal was not put forcibly enough, he had first sent a card, he had written another, the same day, and the two reached the paternal home by the same mail. Pa happened to be busy that morning selling a new top buggy to an extra new customer and could not go to be solicited by the letter. The next mail brought another and more pathetic appeal for succor, at which the old man's heart softened and that evening the projected reached the arms of his mother, and there was great rejoicing, not only at the wanderer's return, but at the boy's good fortune in getting back where he could bathe his blistered fingers with L.L.L.

"The Jews are having a hard time of it among the islands," said a gentleman who spends much time among the islands. "The Americans will not associate with them and will not stay at the same hotel with them. The result is that quite a number of the river resorts are shut to the Hebrews, while the hotels are almost impossible to enter. I know of one hotel where the Hebrews are refused to enter. One hotel that has accepted them is now a sufferer. Nearly every one of the mammoth buildings at the many resorts are crowded, but the one the Hebrews have been permitted to enter is tabbooed and is losing money every day."

A quaint spot.

St. Helena, the quaint little island opposite Central Park, again shows signs of a quiet life. The owner, Sir William Sillman, Osgoode, bought this island some years ago and fashioned it in imitation of the famous St. Helena, where Napoleon Bonaparte passed the days of his captivity. The little island is built with cannon, and the British flag floats proudly over it. Many people passing this peculiar place wonder why the British flag should be allowed to wave over an American soil. Mr. Sillman is, however, a staunch American, but merely keeps the British flag moving over his diminutive island to make all in harmony with the custom. It seems many will be content to see Mr. Sillman and his family again ennobled in their summer home.—Whig.
