## Annual Meeting Of Newcastle Red Cross

All Officers Re-Elected with  
Exception of Treasures—Re-  
ports Show Much Good  
Work Done

The annual business meeting of the Newcastle Red Cross society was held in the Council Chamber, of the County Court House on Tuesday afternoon of last week.

The following officers were elected for the coming year.

President—Mrs Josephine Sargeant  
Secretary—Miss Bessie Crocker.  
Treas.—Miss Helen Stables.

The Report of the officers were:

### PRESIDENT'S REPORT

At this the closing of the Fourth year of our Red Cross work, and the third of mine as Pres. I should like to give a sketch of the work of the past year leaving all particulars to the secretary and Treasurer.

We held our annual Business Meeting on Oct. 9th when the Society returned all the officers and convenors Donations for Xmas Stockings \$40 from Mrs. Riley and \$10 from Mr. Parker came in too late for Red Cross Stockings so went to help fill those sent by the Women's Institute British Red Cross Needs was brought to our notice and Food Sale and Tea at Mrs. Sinclair's enabled us to contribute liberally.

The W. C. T. U. generously gave Cook Books to be sold for the benefit of the Red Cross.

In Nov. we were indebted to Mr. Richards for a Benefit night at the Opera House assisted by local talent and we have been able to keep up our amount for Prisoners of War besides a large contribution of surgical hospital supplies with much needed clothing for Halifax Needs at the time of the explosion early in the year it was suggested that the Red Cross might secure the Council Chamber for our meetings and after the usual red tape preliminaries we received the desired permission and held our first meeting in the new room on March 5th where I think we have done more work though there is room and to spare for more workers every Tuesday afternoon There was a very successful Tea and Utility Sale during March and in that month we also had the offer of help from the Girls Efficiency Clubs organized by Miss Flewelling and were forewarned of the War Charities Act which compels us to be more particular and business like in our methods of work but also protects us and ensures that all our money and work goes in the right direction and we were further encouraged by being served with tea and refreshments at our monthly meeting by Mrs Tracy Gould and Mr. Williston, which we all appreciated very much.

In April we accepted gratefully the offer of St. Mary's Choir to repeat their concert which was most successful and acknowledged with thanks to those who assisted also Mrs. McKeen's concert later assisted by local talent, both of these entertainments I unfortunately missed.

Our next discussion rose from the enforcing of the Conservator Food Law and rather upset our plans for regular teas through the summer months though through the courtesy of Mrs. Malthy I offering her house two small but successful teas were held in June.

Our house to house collections for France's Day was successful beyond our hopes and gave even the most pessimistic member of the Society hope that our own working funds would be replenished as the needs arose though at our August meeting with repeated appeals and bills to pay we were rather worried over finances, especially the money to provide for Xmas Stockings.

On Sept. 3rd Mrs. Park kindly offered her house and grounds for a Tea and garden fair or fete, the executive committee immediately organized the arrangements and the fair was held the following Tuesday and proved even more successful than the effort for France's Day so that on Tuesday the 17th material for 150 stockings was bought and cut out; and with hard work on the part of the buyers; Mrs Doyle and Mrs Park the latter acting for Miss Davidson who was unable to help; the stockings were filled and packed on Thursday and Friday; Mr. Wm Stables kindly helping in collecting the heavy boxes for us and so getting them off even before the date set as necessary.

At our next meeting we arranged

## Why Canada must borrow money to carry on

Because Canada has put her hand  
to the plow and will not turn back:—

—our country is in the war on the  
side of liberty and justice and will stay  
in it till complete victory is won and  
the unspeakable Hun is smashed and  
beaten to the ground;

—a nation at war must make tremendous  
expenditures in cash to keep  
up her armies and supply them with  
munitions, food and clothing;

—Canada must finance many millions  
of dollars of export trade in food,  
munitions and supplies which Britain  
and our allies must have on credit;

—for these purposes Canada must

borrow hundreds of millions of  
dollars—

And, this money must be borrowed  
from the people of Canada:—

Therefore, Canada will presently  
come to her people for a new Victory  
Loan to carry on.

Canadians will loan the money by  
again buying Victory Bonds.

The national safety, the national  
honor and the national well-being  
require that each and every Canadian  
shall do his duty by lending to the  
nation every cent he can spare for this  
purpose.

Be ready when the call comes to see your  
country through in its great war work

Issued by Canada's Victory Loan Committee  
in co-operation with the Minister of Finance  
of the Dominion of Canada

to serve dinner and supper at the Agricultural Exhibition in the Park; the money thus earned to start us on our next year's work and at the monthly Oct meeting the surplus money from the Xmas Stocking Fund was voted to the Central Council for comforts to our wounded men. The most appeal for the British Red Cross meets us at the beginning of the year and the increasing prices of all materials makes our work a little more difficult; but we have no more better news from overseas to

cheer us that I feel confident we shall do even better work in the future than in the past; and I appeal to each and every member of the Newcastle branch of the R.C.S. to do more than ever to bring more members, more workers and more money

JOSEPHINE SARGEANT  
President  
SECRETARY'S REPORT

Madam Pres. and Members of the Newcastle N. B. Branch of the R. C. S. I have much pleasure in sub-

mitting the following annual report for year ending Sept. 30th 1918 for your kind consideration.

The report that I have to bring to you this year is a most favorable one showing increased efforts on the part of our members, which the particulars will show our Active Membership for the year was 46 associate 5, while our Life Membership totals 71 an increase of 28 members this year.

The donations in money from the society shows a marked increase.

To the British Red Cross we sent \$325.00, \$225.00 more than last year From the House to House collection for France Day we were able to send \$439.55, an increase of \$151.00. The Central Council asked for increased efforts this year and altho the increase from our Society was small \$20 more than last year, a total of \$770.00 still we have every reason to be proud of this amount when the increased price of working materials is taken into consideration.

## Spanish Influenza Grips New Brunswick

Dread Disease Making Rapid  
Progress In All Parts of the  
Province—Many Cases  
Here

The epidemic of 'Spanish' Influenza which is sweeping the country has made such headway in the Province that a Proclamation was issued last week forbidding all public gatherings and closing schools, churches etc and that the step was not made a moment too soon is apparent by the rapid spread of the disease.

In Northumberland County, up to Saturday evening no less than 415 cases had been reported to Dr. F. J. Desmond, Chairman of the Board of health and of these nine cases were complicated with pneumonia, and today no less than two deaths are reported in Newcastle from the dread disease.

All citizens should take every precaution to prevent the spread of the disease, and at the first symptoms a physician should be consulted.

The department of public health have issued a set of rules regarding the prevention and care of the disease and which should be read by all persons.

## Blackville Girl Wakes Up Halifax

Miss Belinda Jardine Shoots  
Military Police Officer, While  
Posing as Man

Halifax N. S. Oct. 10—While on his way to duty this morning Provost Sergeant Hunt met a young man walking along Gottingen street wearing khaki and civilian clothes and informed him that he was improperly dressed. The youth told the sergeant to mind his own business and pulled out a revolver and commenced firing. The sergeant grappled with the man but the latter fired point blank at the sergeant a bullet entering his arm. Two other shots were fired in rapid succession but neither hit the sergeant. The man got away but was pursued and caught by military police who were patrolling the streets. He was taken to the police station and he refused to divulge his name or talk at all.

Halifax N. S. Oct. 11—Giving her name as Miss Belinda Jardine hailing from Blackville Northumberland County New Brunswick the mystery woman who attired in a military uniform was arrested yesterday after a pistol encounter with a military police sergeant in which the latter was shot in the arm broke down this morning and confessed to the detectives her real identity. The girl gave her age as 18 years.

It is the same old story of being tired of lonesome country life and anxious to get to the city and the gay life.

Leaving home late at night she took an outgoing train to Lewis Quebec. There she remained for two days. Going to a barber shop she had her hair clipped and late on Monday night boarded a troop train which was coming east. On the train her female attire was discarded and a soldier's uniform was promptly dug up by the troops who also gave her food. Arriving in Halifax shortly after 12 o'clock Wednesday night the girl slipped away from the soldiers. She walked the city for a day and was molested by no one everybody who came in contact with her thinking her a young soldier.

The girl told the detectives today that she had intended remaining in Halifax until a transport came in and then she would try to get to England.

When arraigned today a charge attempted murder was laid against the girl the case going over till this afternoon at the request of the crown prosecutor.

## NORTHUMBERLAND MEN WOUNDED

In the Casualty List for the past week have appeared the names of E. W. Whitefield and E. J. Hartfoot, Newcastle, Stanley Sweeney Ellens-town and George Veno, of Weavertown as having been wounded.

### Could Not Lift Stick of Wood

Would Almost Faint From Severe Pain in Back — Doctors Could Not Get the Kidneys Set Right.

A great many people suffer the results of deranged kidneys and do not understand the cause of trouble or the way to obtain cure. The writer of this letter suffered excruciating pains in the back and in vain his physician tried to cure him. For some reason or other his medicines did not have the desired effect.

Mr. Oita's brother was a merchant selling, among other medicines, Dr. Chase's Kidney-Liver Pills, and he heard his customers telling about how they were cured of kidney derangements by the use of these pills. Mr. Oita putting them to the test, with the splendid results reported in this letter.

Mr. E. C. Oita, Benton, Carleton County, N. B., writes: "I am glad to let you know how much your medicine has done for me. I suffered from my kidneys, which at one time were so bad I could not lift a stick of wood without getting on my knees, and then would almost faint from the pain in my back. I consulted a doctor about it, and he gave me some medicine, but it did not help me. My brother, who is a merchant, and carries all your medicines, advised me to try Dr. Chase's Kidney-Liver Pills. I got one box, and they helped me, so I got another one, and kept on until I had taken five boxes, which cured me. I have had no trouble with my back since, and am never without Dr. Chase's Kidney-Liver Pills in the house. Last summer I also suffered from piles. I used three boxes of your Ointment, and it cured them. I can certainly recommend Dr. Chase's Pills and Ointment."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, 5 for \$1.00, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute or you will certainly be disappointed.

### New Health For Women

The most fateful years in a woman's life are those between forty-five and fifty. Many of the sex enter this period under depressing conditions through overwork or worry about the home or through a condition in which the blood is weak or watery and so they suffer heavily. Among the commonest symptoms are headaches, feverish flushes, palpitation of the heart, dizziness, back-ache, depression and other well recognized disturbances of the health which signalize that the blood requires attention. Woman urgently needs rich red blood all their lives but never more so than in middle-life when the nerves are also weak and overworked.

Every woman can prove the prompt help afforded to her health by renewing and building up the blood. It is a test that any ailing woman can make by taking Dr. Williams' Pink Pills for these pills make rich red blood which in turn stimulates the appetite, strengthens the nerves and restores full robust health. Thousands of women have found in Dr. Williams' Pink Pills new health and strength and with these a new happiness and interest in life.

So if you suffer avert yourself at once of the splendid home treatment which Dr. Williams' Pink Pills so easily afford and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine or may be had by mail at 50 cents a box of six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

### Concert and Sale At Blackville

On the 9th instant there was a very successful sale of fancy articles supper and concert in aid of St. Raphael's church held in Blackville Hall. The sum of \$125.50 was realized. There was a very good attendance in spite of the fact that many in the village including some of those who were to be soloists in the concert were ill. The concert was a credit to the organizer Mrs. McManus of Toronto and her able local assistants. The choruses consisted first of the Medley of Irish Airs second a medley of patriotic airs, and was much enjoyed. T. Ross gave an excellent violin solo; and Miss Lila Underhill; a solo; "I want to Kiss Daddy Good-night." Another chorus was the "Rocky Road to Dublin," very well rendered. A marked feature was the "Maple Leaf Hoop Drill by 14 girls." Miss Underhill gave a fine recitation which was heartily enjoyed, as Simon Driscoll of Douglastown sang the solo; "A Little Bit of Heaven," and as we sang; "My Irish Cinderella;" His singing was very much appreciated. The concert closed with God Save the King. It had to be temporarily shortened because of the illness of several of the soloists. Mrs. McManus proved a very acceptable accompanist; Charles Ross presided. The fine orchestra rendered music during the evening.

### How To Prevent And Care Influenza

Timely Hints Issued by N. B. Department of Public Health

(Issued by the Provincial Dept of Public Health)

1. Live as much as possible in the open air, and have houses well ventilated. Admit all sunlight possible.
2. Avoid all in-door assemblies, and travel as infrequently as possible.
3. If the disease appears in the family, put the patient at once to bed, preferably in an upper room, well aired, but so that the patient be not in a draft.
4. Keep patient by himself, permitting only the nursing attendant, the doctor, and the clergyman to see him.
5. Have whoever enters his room to wear a mask of simple gauze over the mouth and nose. The same gauze should not be used for more than two hours, and then burned.
6. Insist upon the patient using a handkerchief to cover coughing or sneezing (paper ones will do); these handkerchiefs should be burned at once after use.
7. Do not permit patient to mingle with his family or the public until all fever is gone, and until all discharges from mouth, nose and throat have dried up.
8. Patient, after recovery, should take particular care to avoid exposure to chills and dampness, as pneumonia is quite frequent under these circumstances and constitutes the gravest danger connected with the disease. Remain in house three or four days after feeling well as this is a critical period after recovery.
9. Call a doctor upon the occurrence of suspicious symptoms as unusual back-ache, head-ache, chills followed by fever, etc., as it is dangerous to depend on house-hold treatment in this disease.
10. Do not be too anxious, that is, do not worry respecting the danger of contracting the disease. Such worry serves no good purpose and sometimes renders one more liable to contract it. Follow the above preventive measures and the

### How The Canadians Captured Cambrai

Vivid Pen Picture of The Advance of Our Boys on Important City

With the Canadian Forces, Oct. 9.—(By J. F. B. Livesay, correspondent of the Canadian Press).—Early this morning the Canadians troops penetrated Cambrai and are now in complete possession of the city. This is fulfilled the legitimate ambition of the Canadian corps, for the achievement of which they have been fighting hard ever since they stormed the Canal du Nord and took Bourlon Wood on Sept. 27. Even if the imperial troops, who yesterday so gallantly advanced south of Cambrai had had the good fortune to capture the city, its fall must still have been attributed to the sledge-hammer strokes of the Canadian corps, before which the defense of the enemy crumbled. The capture of Cambrai fittingly crowns the brilliant record of the corps since August 8.

Cambrai fell on a night attack. We kicked off at half-past one. The morning was pitchy dark, but careful preparations resulted in all the troops getting to their destinations without a hitch. Our third division had the honor of crossing the canal and penetrating into the city.

The element of surprise assisted in overwhelming the enemy defence in the streets. Once the Place d'Armes was reached they spread out over the entire area and by daylight had passed through the city to the southeast, well out on the Avenue de Valenciennes, while on the south, west they had established themselves at the corner of Boulevard de la Liberte and Porté de Paris. Some enemy elements apparently were caught between the city and the imperials further south. Our troops began at once to try and save the city from the fires that broke out at various points.

The Allies have not fired a single shell into Cambrai and these fires must have been of incendiary origin. Meanwhile our third division swept out due east to the line of the Scheldt Canal, securing all bridgeheads as far as Eswards and capturing Morenchies, Ramillies, Blecoure and Cuvillers with many hundreds of prisoners. The victory was complete and glorious.

**It Works! Try It**  
Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing frezone, the other discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of frezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, itching corn and instantly the soreness is relieved, and soon the corn is so softened that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

### BAD SCALD

"Such relief I felt when I applied Zam-Buk to a badly scalded hand!" writes Mrs. A. Rieley, of 416 Timothy St., Montreal. "I was standing near the stove when the kettle boiled over on my hand. I applied some ointment which I had in the house, but it did not ease the burning. The skin peeled off and the pain was so bad that I got no sleep for two nights. Then I commenced using Zam-Buk, and the first application gave me wonderful relief. It seemed to cool the burning so that I was able to sleep, and from then the scald began to heal. Zam-Buk grew new skin over the sore place and before long my hand was quite alright again."

The Premier promptly took the matter up with Brigadier-General A. H. MacDonnell, commanding this military district, and has received the following reply which will be gratifying to all concerned:

St. John, N. B., Oct. 5, 1918  
Hon. W. E. Foster, Premier of New Brunswick, St. John, N.B.  
Dear Mr. Premier: with reference to your favor of the 28th ultimo in connection with the release of men in Category "C," for the purpose of assisting the lumbermen in getting their lumber out during the coming winter season.

I am pleased to advise you that the matter has been taken up with militia headquarters, Ottawa, and they had ruled as follows:

"In order to facilitate productive employment during the winter months, men exempted as farmers should apply to the registrar for permits to engage for the winter in some occupation of national interest, such as lumbering, munition work, etc. Such permits will serve to enable exempted farmers to pursue other useful occupations for the months during which farming operations cannot be carried on."

In connection with the above, it will be necessary for each individual man, who is exempted on the grounds of being a farmer, and who can be spared from his farming duties may engage in the pursuit of lumbering during the winter months, no matter what category the man might happen to be in.

Advertisements to this effect have been placed in all the newspapers in the province, beginning to-day.

I trust this will be satisfactory.  
(Signed) A. H. MACDONNELL,  
Brigadier-General, Commanding M. D. No. 7

and Helena. Her mother and the following brothers and sisters also survive John Wood of Boston; William of St. John; and Edward of Douglstown; Jer (Mrs. John) Lorton Bathurst; Kate (Mrs. Vincent MacKinnon) and Miss Eliza of Newcastle.

**HELEN GRIFFIN**  
The death of Miss Helen Griffin, eldest daughter of Mr. and Mrs. R. D. Griffin occurred at her home in Saugus, Mass.; U.S.A. on September 30th from Spanish Influenza. Deceased was fifteen years of age and was a student at St. Mary's Convent at Newcastle some few years ago. A father and mother and six brothers and sisters are left to mourn. Mrs. Griffin was formerly Miss May Dalton daughter of the late Jas. Dalton of Newcastle.

**FUNERAL OF MRS. E. A. McCURDY**  
The funeral of the late Mrs. E. A. McCurdy; held yesterday afternoon; was largely attended. Services were conducted at the house by Rev. L. H. McLean, pastor of St. James' Presbyterian church; assisted by Rev. J. F. McCurdy; of Redbank; and at the grave by Rev. Mr. McLean. Interment was in Miramichi cemetery. The pall-bearers were: Hon. John P. Burchill; James Ribbison; Dr. R. Nicholson; W. A. Park; J. D. Volkman and James M. Troy. The floral tributes were very beautiful.

**Guard The Children From Autumn Colds**  
The Fall weather is the most severe season of the year for colds; one day is warm the next is wet and cold and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers best friend in preventing or banishing colds. They act as a gentle laxative keeping the bowels and stomach free and sweet. An occasional dose will prevent cold or if it does come on suddenly the prompt use of the Tablets will quickly cure it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co. Brockville Ont.

**AUTOMOBILE STATISTICS**  
Statistics from the Public Works Department show that since January 1st 1918 ninety-eight dealers in automobiles have been registered. Two hundred and eighty-seven chauffeurs who had not been previously registered, were issued licenses for the year 1918.

**PARISH UNION IS ORGANIZED**  
A largely attended meeting of the citizens of the Blissfield and Ludlow parishes was held in Doaktown Hall on Friday evening 4th inst. Councilor O'Donnell of Ludlow, presided; Henry Swin, secretary; Councilor Parker addressed the meeting.

The meeting was called to hear the report of the committee—Dr. W. T. Ryan, Bolestown; Henry Swin, Doaktown; Councilor Arthur O'Donnell, Carroll's Crossing; Alderman H. H. Stuart, Newcastle; Wordlow Gilks, Gilks; Edward Bowes Moran; and Councilor Thomas Parker, Doaktown—appointed on July 3 at the public meeting held in the same hall, to draw up a constitution for a union of the people of the parishes.

The report was adopted and the following officers elected: President Otto Hildabrand, Doaktown; vice-president Councilor Arthur O'Donnell, Carroll's Crossing; recording secretary Ex-Councilor Henry Swin, Doaktown; financial secretary—treasurer and organizer, Councilor Thomas Parker, Doaktown. Additional members of the executive from Blissfield parish: Alexander Storey, Walter Ward, Daniel Doak, Doaktown; Edward Bowes Moran. Five more from Ludlow parish to be added at the next meeting of the union, at Ludlow in December.

**CATARRH CANNOT BE CURED**  
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Cure is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Cure is what produces such wonderful results in catarrhal conditions. Send for testimonials free.

**Some Prices!**  
The Advocate came into possession this week of a couple of invoices from Messrs D. & J. Ritchie & Co. to a Newcastle citizen dated August 10th and Nov. 27th 1899. Some of the prices charged were:

Butter	17c lb.
Cheese	12c lb.
Barley	4c lb.
Brown Sugar	4c lb.
White Sugar	5c lb.
Beans	55c bush.

These prices make interesting comparison with those charged today.

**Peps**  
What are they?

Peps are handy little tablets which provide the newest, surest and most scientific treatment for coughs, colds and throat and chest troubles. If you have a cough or a cold, why dose your stomach with liquid preparations? Your stomach is not ailing! Peps provide a better way.

You put a "Pep" on your tongue and let it dissolve slowly. As it does so, certain healing essences it contains turn into vapor, and you breathe this medicinal vapor direct to your lungs and air passages. On its way it bathes the delicate membranes thoroughly in its healing ingredients, kills the germs of disease, cures the irritation and inflammation which cause your cough and ends the trouble.

Just as the out-door treatment for consumption—the "breathing" treatment—is now admitted to be the only rational treatment, so the "Peps" treatment for colds and throat and chest troubles is the only rational home treatment.

Another great advantage in Peps is their entire freedom from opium, morphine or other poison, thus making Peps the best and safest remedy for children's coughs and colds.

Peps cure catarrh, coughs, bronchitis, sore throat, tightness or itching across the chest, difficulty in breathing, night cough, hoarseness, asthma, laryngitis, smoker's throat, etc.

All druggists and stores sell Peps at 50c. a box or 3 for \$1.25.

**FREE TRIAL**  
Cut out this article, write across it the name of this paper, and mail it to Peps Co., Dupont Street, Toronto, enclosing 1 cent stamp for return postage. A free trial packet of Peps will be mailed you by return.

**THE GAME LAWS**

The Advocate has received numerous letters from all parts of the County in regard to the new Game Law Regulations and all are of the same accord, that the law is now one of the greatest forces that ever graced a statute Book of any progressive Country.

Just what the Government had in mind when the new amendments were introduced is hard to understand, and we feel sure that had they looked at the ridiculous position in which they have placed themselves, they would never allowed them to pass at all. For instance an American Hunter comes to New Brunswick, he is allowed to shoot two deer and one moose. Under penalty he must not allow this game to remain in the woods. He is not allowed to send it to his home in the United States. He is forbidden to sell it. He must give it away or the only alternative left is that he must remain in Canada and consume to meat himself. Was ever a law so ridiculous!

In the case of a local man, he must take an oath that he will report all infractions of the law that comes within his notice, in other words he must pay \$2.00 to be a game warden, and as few persons would take the position even with remuneration, it is not likely that many will take the trouble to secure a game license if he must first be sworn in as a game warden, while many who take out a license will simply perjure themselves and refuse to furnish any information.

While all laws are supposed to be made for the benefit of the public in general, the Game Law as present constituted seems to have been framed to make law abiding citizens breakers of the law.

Another very objectionable feature of the law from the viewpoint of the local residents, is the section forbidding the sale of meat. In past years it has been possible to secure moose meat at a very low rate and at the present time with the call for beef for the nations overseas the last thing that should be thought of is the making of a law that does not allow the sale of a substitute in all just as palatable and nourishing and at a lower figure.

The receipts for game licenses this year will without doubt fall far below that of any previous year but we have no hesitation in saying that the number of moose taken will be well up to the average and unless the Provincial Government wish to foster a feeling of utter disregard for all laws it will do well to suspend the present game act by an Order-in-council and not wait until the Legislature meets next spring to retract the objectionable amendments.

**OUR ROADS AND STREETS**

We had a conversation a few days ago with one of our prominent business men who had just returned from a motor trip through practically every part of the county. It had been raining, he told us, and the county roads were, therefore, not in the very best of condition, but still he got along all right and did not get stuck a single time—until he came back to Newcastle; when he tried to drive across from the Morrissy Bridge to Pleasant Street his auto got stuck in the mud.

The two busiest thoroughfares in the Town of Newcastle, and the whole County of Northumberland, are the highway between Sinclair's and the Mill Cove, and Jane Street between Morrissy Bridge and the station. These two important and busy arteries for traffic have, for a long time, been, and are still nearly impassable.

Some time ago it was proposed to the Town Council that the Provincial Authorities be asked to grant some money to help fixing these roads, but so far as we are aware nothing has been done in the matter.

Although the roads are within the town limits, the province should be willing to lend a helping hand to fix them up considering that they are of such importance for the entire county. Several pieces of bad road in outside districts have, this year been put in splendid condition. We mention, for instance, the road at Bushville; the approach to the Morrissy Bridge on the Nelson side; and the road from the Morrissy Cove Bridge for quite

a distance past the pumping station. They have been made into permanent roads of the very best kind, and this shows what can be done when the matter is handled in the proper way, while the people of Newcastle have to wade knee-deep in mud on their most important streets.

Something should be done without any delay whatever to get these streets fixed up. The Provincial Authorities should be communicated with, and if they refuse their help, the Town Council should find ways and means to do the work.

The objection often repeated that the Town has no money to spend on work of this kind is not valid. This is absolutely necessary. The condition of these streets is a disgrace to the Town. To those who say that the Town cannot afford to improve these streets we would reply, that the Town cannot afford not to do so.

We have heard several private citizens state that they would be willing to make substantial contributions for the sale of getting the roads and streets put into shape. It is plainly up to our Civic Authorities to give the matter the proper attention and if means cannot be found in any other way, to call upon the citizens for individual contributions.

We would think it advisable to call in an expert road maker to do the work. The Supervisor of roads for the Parish of Newcastle, Mr. James L. Russell, is a man with long experience in making roads. He has men in his employ who are familiar with the work. Would it not be a good idea for our Civic Farmers to engage, if possible, the services of Mr. Russell and the men working with him to get this work done in the proper way and get it done without delay?

The other day we were stopped on King's Highway in the heart of the Town by two distinguished looking strangers driving a big roadster, they asked us kindly to tell them which way to take to get to Newcastle. They had been bumping over King's Highway in that car-breaking, heart-breaking way, so well known to travellers over that particular piece of road, and it seemed rather hard to convince them that said street was the main thoroughfare of Newcastle, which Town they had heard spoken of as ambitious and progressive.

**Germany Replies To President Wilson**

Willing to Accept Terms Laid Down by President On January 8th.

The following are the full text of the notes between President Wilson and Germany regarding peace.

Department of State, October 8, 1918.

"Sir I have the honor to acknowledge in behalf of the President your note of October 6th enclosing the communication from the German Government to the President, and I am instructed by the President to request you to make the following communication to the Imperial German Chancellor:

"Before making reply to the request of the Imperial German Government, and in order that the reply shall be as candid and straightforward as the momentous matters involved require, the President of the United States deems it necessary to assure himself of the exact meaning of the note of the Imperial Chancellor. Does the Imperial German Government accept the terms laid down by the President in his address to the Congress of the United States on the 8th of January last and in subsequent addresses and that its object in entering into discussions would be only to agree upon the practical details of their application.

"The President feels bound to say with regard to the suggestion of an armistice that he would not feel at liberty to propose a cessation of arms to the governments with which the government of the United States is associated against the Central Powers so long as the armies of these powers are upon their soil. The good faith of any discussion would manifestly depend upon the consent of the Central Powers immediately to withdraw their forces everywhere from invaded territory.

"The President also feels that he is justified in asking whether the Imperial Chancellor is speaking merely for the constituted authorities of the empire who have so far conducted the war. He deems the answer to those questions vital from every point of view.

"Accept, sir, the renewed assurances of my high consideration."

"ROBERT LANSING,"  
Mr. Frederick Oederlin, Charge d'Affaires of Switzerland, ad interim, of German Interests in the United States.

Germany's reply to President Wilson follows: "In reply to the questions of the President of the United States of America the German government hereby declares:

"The German government has accepted the terms laid down by President Wilson in his address of January 8th in his subsequent addresses on the foundation of a permanent peace of justice. Consequently its object in entering into discussions would be only to agree upon practical details of the application of these terms. The German government believes that the governments of the powers associated with the government of the United States also take the position taken by President Wilson in his address.

"The German government in accordance with the Austro-Hungarian government, for the purpose of bringing about an armistice, declares itself ready to comply with the propositions of the president in regard to evacuation. The German government suggests that the president may occasion the meeting of a mixed commission for making the necessary arrangements concerning the evacuation.

The present German government which has undertaken the responsibility for this step towards peace has been formed by conferences and in agreement with the great majority of the Reichstag. The chancellor, supported in all his actions by the will of this majority, speaks in the name of the German government and of the German people.

"Berlin, October 12, 1918.  
(Signed) 'SOLF,'  
State Secretary of foreign office."

The Presidents' reply which was transmitted to Germany yesterday, refused to accept Germany's offer until guarantees were offered and atrocities on land and sea should cease.

**Annual Meeting Of Newcastle Red Cross**

(Continued from page 1)

The Xmas Stockings Appeal was met with a hearty response \$445.62 being the sum realized. With this money the Society was able to send 152 well filled Xmas Stockings each stocking contained Pipe, cigarettes tobacco pencil paper envelopes can talcum chocolates chocolate bar handkerchief.

The balance of the money was sent to Central Council for Comforts for our wounded soldiers.

When our year started in Oct. 1917 had been sent. Several donations came in afterwards, these were turned over by consent of the Society, to the Women's Institute who in turn sent Xmas Stockings to our town boys.

On Dec. a special appeal was made for the Halifax Sufferers and our Branch was not behind in sending them aid. A special meeting was held and in a few days a large shipment consisting of 152 Rolled Bandages 241 Bandages, 631 Sterilized Dressings 360 Unsterilized Dressings 42 Compresses, 200 Gauze Sponges sterilized, 3 1/2 lbs absorbent cotton 1 doz. Finger Bandages, 19-31n Bandages 4 pkgs Adhesive 7 sheets 9 Hos. Shirts 6 Towels besides old linen etc.

In Oct the W. C. T. U. gave donation to the value of \$100. Two Life Members and one hundred Cook Books. Our different committees show the same interest at the end of the fourth year they did when going into office. Mrs. McMaster Com. of Cutting Com. with a staff of competent workers is ever busy with the scissors preparing work which is handed over to the work committee Mrs. Sinclair with Mrs. B. F. Maltby an able assistant who give the work out to be made receive the finished articles and turn them over to the packing Committee Mrs. J. Robinson convenor. From this Dept the following articles have been shipped to Prov. Headquarters—291 Pns. Pyjamas 231 shirts; 130 sheets; 464 Towels 343; Pillow Slips; 17 Hos Shirts; 15 prs Slippers; 28 Surgeons Gowns; 11 Dressing Gowns; 2 Ties; 12 pkgs Gun wipes; 1 Floor Wipe 1 box Puzzles.

The Knitting Com. with Mrs. Davidson as convenor has sent in 1233 prs Sox, 4 Scarves; 4 Pres. Wristlets; 5 Trench Caps; 1 pr. Red Socks. This indeed is a wonderful showing when one considers the big advance in the price of yarn and the difficulty in purchasing the same.

The Surgical Com. were asked at the first of the year to discontinue making surgical dressings so the showing in work is much smaller this year. 140 T. Bandages; 36 Surgical Bandages; 2 Eye Bandages was the shipment sent. However; this committee showed their willingness to help and in March gave a ten and sale which realized \$209.65; \$90. of this was voted by the committee to fill the bags; the balance given to the hands of the society. 41 Kit Bags were sent; 312 each

with brush; comb; tooth brush; dental cream; lead pencil; writing tablet; envelopes; cake soap; wash cloth; shaving brush and paste. At Xmas the surgical-com. sent a box of cheer to Miss Aileen Croaghan. The Buying Com. with Mrs Doyle conv. Miss Davidson assisting purchased goods for the year to the value of \$159.49.

Under the War Charities Act of 1917 the entertainment com. with Mrs. C. Sargeant; have been careful about taking up Benefit Concerts but considerable money has been raised through the kindness of local parties and this com. made each concert a success by their untiring efforts.

A great many donations have been received which have been acknowledged each month.

The two prisoners of war adopted the 2nd year of war have been looked after by the society.

Respectfully submitted;  
BESSIE CROCKER; Sec'y

**Interesting Address On Victory Loan**

Mr. Frank Stockdale Tells Why the Next Victory Loan Must "Go Over The Top"

One of the most interesting and instructive addresses that has been given in Newcastle for some time was heard at the Council Chamber on Wednesday evening, when Mr. Frank Stockdale an American business expert, gave a most valuable talk to a number of the business men of the town. His subject was Salesmanship, and while he dealt with that subject generally to some extent, the main portion of his remarks had reference to salesmanship as it has to do with selling Victory Bonds.

Victory Bonds, as he pointed out are commodities which are not offered for sale every day, and some special inducements have to be offered to the purchasing public as to why they should buy them. He gave three reasons; The first was that a Victory Bond is one of the best investments of the day, and if a man only wanted to benefit himself with out regard to any other consideration he cannot do better than buy these bonds. Secondly; the purchaser of a bond is helping to buy prosperity, not only for himself, but for the country generally. Enormous sums of money will yet have to be spent in Canada, and as the whole of the money raised by the sale of bonds will be spent here, the larger the quantity of bonds sold, the more money there will be to spend. This money will be divided up among the farmers, the merchants, the manu facturers and every other producing class, who in turn will be able to employ more labor, and therefore circulate more money.

The third reason why the public should buy Victory Bonds is to show their patriotism, in view of the enormous sacrifices which have been, and are still being, made by the boys at the front. The least that people, who stay at home, can do is to show their gratitude to these boys by finding the money to keep the country going and helping Canada to "carry on" until the war is over. Any man, said Mr. Stockdale "who either has not got self-interest enough to buy Victory Bonds for his own benefit, or who has not got sufficient interest in his country to try to continue and increase its prosperity, or who is not patriotic enough to back up the boys for the work they have been doing, should be sold a piece of "No Man's Land," as that is the only place left in which to put a man of that sort."

## CITY AFTER CITY FALLS IN ALLIES VICTORIOUS ADVANCE

Northern France Almost Entirely Cleared of Enemy Who Now Seeing Defeat Near Seeks to Obtain Peace

Tuesday

Over a front of twenty miles between Cambrai and St. Quentin the British American and French troops started a mighty drive on Tuesday which in its initial stage has thrown the enemy back from highly prized tactical positions to a depth of from two to five miles. Numerous towns have been captured and seemingly all the great defensive positions of the enemy in this region have been obliterated. Large numbers of prisoners have been captured. In addition terrible casualties were inflicted on the enemy.

Northeast of Berry-au-Bac the French have driven their line to the junction of the Aisne and Sappe rivers placing the Germans' front around Laon and eastward in greater jeopardy. In Champagne General Gouraud's forces have increased their gains all the way eastward to the region of the Argonne Forest while on the eastern side of the forest the Americans have improved their battle front along the Aisne valley.

In Macedonia the Italians and Serbs are still forcing the enemy through Albania and in Serbia while in Palestine the British have driven the Turks more than thirty miles north of Damascus.

A despatch from Athens dated Sunday says: "The governor of Smyrna has sent to Mytilene three delegates a Greek an Englishman and a Turk, to enter into peace parleys."

Wednesday

The city of Cambrai has been captured by the British. There and elsewhere 8,000 prisoners were taken in yesterday's fighting.

The Anglo-American attack was resumed this morning on the entire front south of Cambrai. Field Marshal Haig reported today. Rapid progress was being made.

Last night additional progress was made east of Sequehart and towards Bohain and Marets.

South of Cambrai the British captured Foreville and reached the western outskirts of Waincourt.

(By the Associated Press)—Heavy fighting continued throughout the night on the Cambrai-St. Quentin front and the British and Americans continued their progress of Tuesday under a heavy protective fire from the British artillery. The defeated enemy was almost smothered under the great deluge of steel and explosives.

A large number of guns have been captured by the British and Americans in addition to the great batches of prisoners which continue to arrive at the cages. The American troops alone captured two complete filled batteries and a battery of heavy artillery.

German reinforcements have arrived, but as these troops have been engaged several times recently their presence merely adds to the confusion in the enemy ranks.

Throughout Tuesday and last night the British had complete control of the air. Roads, barracks, masked troops and batteries behind the German lines all were targets for the busy British bombing airplanes.

French troops attacking last night south and east of St. Quentin captured the German defences between Harly and Neuville-St. Amand and drove past the latter town on the north.

Attempts by the Germans to recapture the position gained yesterday by the French north of the Arnes were repulsed with heavy losses to the enemy.

Thursday

German troops today are counter-attacking very heavily on the Sappe River front in the Champagne and the French have not been able to make very much progress.

General J. M. C. Malletero the military critic for the Temps has written a letter from the front saying that the German high command is hoping to save their.

"An armistice even with the obligation to evacuate invaded territory and Alsace-Lorraine" he continues "would allow the German command to withdraw its armies in security to a distance sufficient to give time to reform the ranks in preparation for the moment when Berlin will denounce the Allies' conditions as possible."

The German armies are in full flight before the British American and French forces on the front between Cambrai and St. Quentin. North of Cambrai the Canadians have deeply penetrated the German line. Out in the open east of what once was the old Hindenburg line cavalry are hunting the retreating foe in what actually amounts to a rout.

In fighting twenty-three German

divisions—more than a quarter of a million—have been severely handled. The maximum depth of the advance is between eight and ten miles. The Germans are declared to be fleeing to the east of Lo Cateau.

Behind them the Germans are leaving the country devastated; burning towns and villages as they flee.

Strong resistance also is being imposed by the Germans against further advance by the French and Americans in Champagne and east of the Argonne Forest. Along the Sappe river the fighting is furious but the French have been able to make further crossings of the stream. St. Etienne has changed hands several times in bitter combat.

West of the Argonne Forest the Americans have driven their line forward to the region of Comoy on the Aire river; where they have effected a junction with the French troops; and seemingly the Argonne Forest soon will be in allied hands. On the eastern side of the Meuse the Americans have advanced and taken several small villages and also straightened out their line which was being enfiladed by the German guns from the east.

Further progress was made by the British last night towards the northern part of the present battlefront to the east of Cambrai. Fighting is going on southeast of Cambrai on both sides of Cauchy; Field Marshal Haig reported today. The British are now within two miles of Le Cateau. Sallaumines and Noyelles have been captured.

Between Lens and the Scarpe the British also are advancing and are in touch with the Germans to the west of the line of Vitry-en-Artois; Aschry-Equarchin and Rouvroy.

French troops advancing east of the St. Quentin-Leclateau railroad have captured Etaves Wood and Bocquiaux village and further south have taken Marcy and reached Fontaine Notre Dame as well as Fossefontaine; it is officially announced.

Le Cateau; the important junction point twelve miles southeast of Cambrai; was in British possession Thursday night.

The German retreat which is over a front of about 35 miles; from the south of Douai to the region east of St. Quentin; has left in the hands of the Allies; in addition to the towns taken; valuable lines of communication and strategic positions of high importance.

The Americans continue slowly to advance up the eastern side of the Meuse; while west of the river; in conjunction with the operations of the French they have all but obliterated the great Argonne forest as an enemy defence position. To the west of the forest in the Aisne Valley and still further westward; the French also have made further gains.

Both in the Macedonia theatre and in Palestine the Allied forces are pressing the enemy hard. Albania is fast being cleared of the Austro-Hungarian troops; while in Serbia the enemy is nearing Nish; harassed by the Serbian. At last accounts General Allenby is still driving the Ottoman troops northward in Palestine.

The American transport S.S. Otranto struck the rocks Sunday night south of Milgo Bay; Islay Island; an uninhabited section where the coast line in many places rises straight out of the water of the rocky peaks many feet above after she had been jammed by the Kashmir.

Two hundred and ninety-five American soldiers from the transport Otranto and 236 of the crew have been accounted for; but the fate of nearly 500 more of the ship's company; who were aboard the stricken transport when she drifted ashore is still unrevealed. In the hope of succoring those who succeeded in fighting their way ashore through the raging surf; a party of eight; including physicians; left an Irish port for a point further north; whence they embarked on Islay Island carrying clothing; medical and other supplies furnished by the American Red Cross. It will be a day or two perhaps before news is received of the outcome of the mission.

Friday

French troops today; crossed the Aisne east of Ceully; southeast of Laon; and drove the enemy northward. The French have gained ground north of Berry-au-Bac; and have taken prisoners.

In the Champagne sector the Germans have begun a retreat toward the Aisne river. French forces have crossed the Aisne at Termes; which they hold; and have occupied the station at Grand-Prie; whose numerous prisoners were taken.

Italian troops have reached post-

tions south of Courtecon; on the Chemin Des Dames; which the French hold as far as the Height of Cerny-en-Laonnois.

In the Champagne the French have gained a footing at several points on the north bank of the River Sappe between St. Etienne and Boul-sur-Sappe; as well as at Warnerville; Vandevre and St. Masmes.

Further to the east we are pushing the enemy; who is in retreat. French infantry have captured Semide; Mont St. Martin; Corbon and Bietres.

American forces struck the German lines just east of the Argonne Forest today. They captured the villages of Sommerance; Cheviez and Marcy. The ridge of Deme Marie was stormed after hard fighting. More than one thousand prisoners were taken during the day. These include one colonel and two battalions.

In the afternoon the American troops were in Marcy and Cheviers having taken the Lafolle Farm and the Richard Farm and advancing on the Negremont Woods; they have also captured Sommerance and had advanced north of the village.

The Germans are fighting east from their old battle positions from Douai to Le Fere and northward from La Fere to the Meuse River. From the south of Douai to the east of Laon the enemy everywhere is giving ground eastward. The famous Chemin Des Dames is being evacuated while in Champagne and along the Meuse River farther eastward the French and American troops are pushing further forward northward their lines in the great converging movement which is fast driving the enemy from Belgium and the greater portion of invaded France toward his own borders.

Douai now is completely outflanked while between Cambrai and St. Quentin the British and Americans are still chasing the enemy. To the south of St. Quentin the French over a wide front have crossed the Oise River; and are forcing the Germans to give up the great St. Gobain Forest; the bastion at the bend of the line where it turns eastward; and also the stronghold of Laon; the keystone of the entire southern line.

East of Rheims; the Sappe River has been crossed by the French at numerous places. West of the Argonne Forest the enemy is in full retreat.

Saturday

British forces last night continued their advance in the direction of Douai. The villages of Hamel; Brebieres and Cuiency have been captured.

Further north the British have pushed to the east of Hemm-Listard northwest of Douai and they are in the environs of Enney.

The enemy Friday began an attempt to slow up the Anglo-American advance on the main battlefront. All the bridges across the River Selle from Leclateau southward were blown up and the Germans seem to have been digging in furiously along the line of the high ground some two thousand to four thousand yards east of the river.

Continued progress was made Friday night by the French troops along the entire Champagne front; the war office announces today. The French have penetrated the important railway town of Vouziers. This morning the French were holding the general line of the Retourne and the road from Favires to Vouziers.

Cavalry joined in the pursuit of the Germans by the French army today; being the first to enter Lauenville. The advance on the eastern part of the battlefront was much accelerated; the French and American troops at some points gaining about seven miles. The Americans; notwithstanding a heavy bombardment of the region with mustard gas shells; took Macaure.

French troops advanced to the river Retroume over most of its length; and took Savigny-sur-Aisne; only two and a half miles south of Vouziers; which is in flames Vouziers and Guise; as well as all of the villages south of Laon; are in flames.

Sunday

Laon, the last of the group of natural obstacles forming the keystone of the German defence in France, has been taken without a fight.

The Germans stronghold of La Fere, together with a great part of the St. Gobain Massif of which La Fere was a northerly outpost at the Oise, had been captured by the French. The La Fere-Laon Railway line has been crossed on the high ground between Dantzy and Versagny, about 2 1/2 miles east of La Fere. The northern and eastern sections of La Fere are burning.

Notable progress has been made by the Italians and French along the line to the east, where the French have reached Amfortaine, which is fifteen miles north of Rheims.

Nich, the capital of Serbia has been occupied by Entente forces.

Monday

French troops have captured the town of Roulers; in Belgian Flanders and also 2,500 prisoners.

Mrs. James Donavan has returned from a visit to her daughter Mrs. Ernest Ryan, Fredericton.

Mr. James McCabe spent Thanks giving with his parents Mr. and Mrs. Andrew McCabe.

France  
Sept 9th; 1918

Dear Brother:  
Just a few lines to let you know I am well; hoping you are the same.

Well Charlie we had some hard fighting this time; I think it was the hardest battle I have been in yet; I suppose you have heard of it through the papers.

I sent you some German post cards of the battle three weeks ago; but I did not get anything off them this time for I was d—m lucky to get out alive myself - for there was a lot of hard fighting. We started at the break of day and went about two miles without much trouble and then the Germans had a lot of machine guns playing on a hill and we started to go over the hill we were fighting hand to hand for a while. You know we can't take ground without losing some men. I never thought my time had come till then. They were firing point blank at us with the big guns. You would see the huns laying all over the field and some of our boys too but more huns were killed than our boys and that I saw myself with my own eyes. It was a hard sight to see the men laying on the field wounded and you could not help them only give them a drink of water. You know a man has to be hard hearted out here. I am glad I am here and not coming today for I know all about it now more than I want to know. I have been here two years now and I have seen some hard times of it but a man is lucky to be living. War is H—ll all right there is no getting around that but I think another year will end it all right and I won't be sorry. Take it from me the Germans did not want to give up there ground, so that made hard fighting and we were bound to get it. and we did get it after a while and we put a lot of them to the ground that will never get up again. The only way a German is good is when he is dead.

Well Charlie I guess I had better stop for I will be telling you too much.  
Harry Weaver is well and Nat Campbell is here again but I did not have time to see him yet.  
Well this is good old September I would like to be home to get a deer. Now I guess I will close hoping to hear from you soon.  
Goodbye from loving brother

I received your kind and loving letters today and was more

than pleased to hear that you are all well and getting along fine. Say father tell mother that it is hard to get leave to Canada; oh; anyway I think this war will soon be over now things are going good on our side; better than it ever has been and I will be home on the double.  
Say father; this outfit I am with in a good one also bomb proof; so tell Mother to not worry for I will be back home sure and tell her I will get my picture taken if I burst all the machines in the country; and send her one; I am sure I could send her any picture and tell her it was mine and I don't think she would know me anyway.  
How is everybody around Nesom? Do you know I would like to be there right now

I got a letter from Clarence Dolan not long ago he told me he expected to go to France shortly so now I will have to close wishing you all the best of luck love and success goodbye from your big con.

Dear Mother  
Am sorry I don't write more often. But my time is not all mine. My Battery is in the lines and have been for some time. The weather is very nice here now but very warm.

As I sit here writing there is a number of airplanes going over head. It sure does sound good to hear those boys fly over knowing they are our boys a large number of them too. They do some damage over in Germany.  
Well mother hoping this will find you all in the best of health as I am. As time goes scarce so I will close.

You will pardon me for not writing sooner I have written Sadie twice but her letters were returned to me; has she left Lawrence?  
Well mother I have had some experience since you last heard from me.

See some severe fighting too but did not receive a scratch.  
We are not fighting now we're at a rest camp and believe me it feels good to get a rest that is away from the guns.  
Mother you've been enquiring about a pair of gloves you set. I have received them o k Thanks very handy.  
You said you were sending another parcel but have not received it as yet.  
The weather is very nice here now very warm though.

Well mother I have very little news to write that is if I were allowed to write everything. You know our letters are limited that is information one has to be very careful. I will close now hoping to hear from you soon and tell Tom and Leslie to write.  
Give my love to all.

**BEAVER FLOUR**

MILLED OF BLENDED WHEAT

"Beaver" Flour equals any of the "special pastry flours" because it is, in itself, a special pastry flour—being the choicest Ontario fall wheat, blended with western spring wheat to give it strength.

This is why Pies, Cakes, Cookies, Tarts, Doughnuts, Buns and Fancy Pastry—when made with "Beaver" Flour—are so light, so flaky, so uniformly good. This is also why the Bread and Rolls—made with "Beaver" Flour—have a delicate, nutlike flavour that is totally lacking in western spring wheat flours. Just try "Beaver" Flour for anything you are baking—and see what happy results you get, every time.
