THE GUIDE-ADVOCATE welcomes all items of interest for this column. Call Phone 11, send by mail or drop item in GUIDE-ADVOCATE letter box.

EVERYTHING in clothing.—SWIFT'S. J. PIERPONT MORGAN, the famous financier, died at Rome on Monday last. THERE is already considerable activity in the building line. "KING HATS." The new shapes and shades are here.—A. BROWN & CO. NINETEEN-THIRTEEN will long be remembered in Ontario as the year of the "Big Wind." MISS MITCHELL, of the High School staff, has been confined to the house for several days through illness. THE masons are busy rebuilding the front part of Maxwell's motor works, blown out by Good Friday's hurricane. LADIES' Rubber Coats \$6.00 to \$11.50, fine silk mixtures, imported direct.—SWIFT'S. ESTIMATES of Mr. Morgan's wealth differ by about \$125,000,000. A mere bagatelle and hardly worth mentioning. MRS. SHANNON, probably the oldest member of Trinity Church, was the first to enter the new church on the opening day. TENDERS are asked for the conveyance of a daily mail from Kerwood north, to be received by the Postmaster General up to May 2nd. A 20TH CENTURY suit ready to put on or made to your special measure.—A. BROWN & CO. YOU need a new pair of shoes or rubbers this weather. Call at Dodds & Sons and see their stocks. Everything for everybody. W. T. McCORMICK has sold to George Chambers the vacant property on the south side of Huron street, east of Mrs. Tye's dwelling. BOYS with their bags of marbles in vacant lots are surer signs of spring than the first robin or the impressive words of the calendar. ALL the visiting school teachers and college students have returned to their respective centres to resume the grind until the summer vacation. MEN'S heavy Waterproof Coats with inner cuffs, all sewn seams, \$7.50 to \$12.50.—SWIFT'S. THE License Commissioners for East Lambton will meet at Rogers' Hotel, Watford, on April 19th, to consider applications for licenses for 1913-14. CARPENTERS are in great demand, and cannot begin to attend to the needs of the people who suffered in Good Friday's wind storm. MEN'S PANTS, good quality tweed, well made, \$1.00 per pair.—A. BROWN & CO. THE question of the back yard will very soon become an interesting one. The disappearance of the snow makes unpleasant revelations. FOR all its costs, it would be well for all the farmers to make up their minds now to carry a little wind insurance. It always pays to be on the safe side, financially. School Inspector McDougall attended the meeting of the Ontario Educational Association in Toronto last week. He is director of the trustees' section of the meeting. 40 DOZEN men's linen handkerchiefs, 15c each, regular 25c.—SWIFT'S. PUT some new paper on some of the rooms when you houseclean. If you get the paper from P. Dodds & Son the cost will be small and you are sure to get the latest patterns. REV. CANON & MRS. DAVIS, Sarnia, announce the engagement of their youngest daughter, Kathleen, to C. H. Walters, son of Mr. and Mrs. H. McD. Walters, of Ottawa. Wedding will take place June 4. THERE will be a meeting of the Board of Trade in the Council Chamber on Wednesday evening, April 9th, at 7.30 o'clock. It is expected that some speaker from a distance will address the executive on matters of interest. MRS. ANDREW CARSON, Sarnia, has presented Trinity church with an altar book-stand, of neat design, made of polished brass. It is a handsome addition to the church furnishings. LINEN DEP'T.—Odd Table Naps, large size, 15 and 19 cents each. 27 odd cloths, second savings of 1/2.—SWIFT'S. HAVING the agency for the Rex spraying outfits we are prepared to show the latest designs and improvements in the Rex sprayers. Call and get a booklet on spray outfits and spraying materials.—T. DODDS & SON. REEVE STAPLEFORD was in Ottawa this week. He brought back with him the plans for the armory, which show the exact spot where the building will be placed on the site. We understand that 33 feet will be left at the east side for a bowling green. Tenders for the building will be called for shortly. THE opening services in Trinity Church will be continued next Sunday, when the Rev. Arthur Carlisle, rector of All Saints' Church, Windsor, will preach both morning and evening. Mr. Carlisle is acknowledged to be one of the best speakers among the younger clergy of the diocese. Collections go towards the building fund.

The old Dominion House is being re-roofed. C. B. MATTHEWS & SON shipped a car of flour to Stratford Thursday. ARROW COLLARS and shirts, made by Cluett, Peabody & Co.—A. BROWN & CO. W. W. EDWARDS shipped a couple of cars of mixed stock to Toronto Tuesday. THOMAS H. CLARK has purchased Norman Thorne's property on the east side of John street. JOSEPH THORNER has purchased from Thomas H. Clark his house and lot on the north side of Erie street. WHITE Quilts, scalloped edges—you should see them.—SWIFT'S. THE Daughters of the Empire will meet April 8th at the home of Mrs. W. E. Fitzgerald, Mrs. Lowry assistant hostess. Quotations from our old school readers.—SAC.

It is not often one sees people so anxious to attend church that they will wait in front of the building for the doors to open, but a number did that in Watford last Sunday. MRS. THOMAS SHARP passed peacefully away on Thursday morning. She was recovering nicely from her confinement when it is supposed she caught cold, with the above result. At the time of going to press arrangements had not been made for the funeral. ANDREW ATCHISON died very suddenly on Wednesday afternoon at his home on John street. He was choring around the bath at the time, his wife being down town. She found him dead on her return. It is expected that the funeral will be held on Friday but arrangements had not been completed when we went to press. NEW DRESS SILKS opened this week. One yard wide in black and fancy.—A. BROWN & CO. YEARS AGO Horace Greely said, "Go west, young man." Champ Clark says "Go south, my boy." The western voters say to their senator, "Go east, Colonel," and Doc Cook says to the world, "Go north with me." This pretty well covers the points of the compass and leaves room only for the additional suggestion, "Stay in Ontario and go to work."

THE regular meeting of the Watford Woman's Institute will be held at the home of Mrs. T. Dodds on Wednesday evening, April 9th. Roll call answered by an Easter clipping. There will also be a demonstration of needlework by the members. Any member wishing an institute motto pin may have one by applying to the Secretary at the next meeting. Visitors always welcome. MR. AND MRS. W. S. KELLY received a letter from their daughter, Mrs. M. H. Prior, of Columbus, Ohio, saying they were all safe, as their home is two miles from the flooded part of the city. The west side was under water thirty feet in some places, covering an area of ten miles in length and three miles wide. Wires were still down through city. Trains now running north by way of Chicago.

OUR stock of Linoleums—see the double thick; also mosaic tile for bath room.—SWIFT'S. MR. BUSINESS MAN, have you noticed how the farmer has been using the advertising columns of this paper of late? If he has anything to sell he makes it known in the Want Column. If he has an auction sale he no longer relies upon posters, but pays additional cash to have it announced in the paper. It was not so a few years ago. The lesson is that the farmer reads closely the advertising columns and knows that his fellow-farmers will like to see his advertising pays. Yet some business men are slow to learn. There is not a business in town, no matter how small or of what kind, but would benefit and grow by advertising.

THE last of the series of the Presby' terian concerts was given in the Lyceum on Thursday evening by the justly-celebrated Kellogg-Haines Company, and was undoubtedly one of the best entertainments ever given in Watford. There was a fair-sized audience, but not as large as the superiority of the concert deserved. The first part of the program was of a miscellaneous character with variation enough to please all, and the acting in Von Suppe's comedy-drama "Lovely Galetta" showed dramatic talent of a high order in the performers. Concert goers are deeply indebted to the Presbyterian committee for the series of excellent entertainments put before the public the past two winters. TAILORING! TAILORING! — SWIFT'S large stock of Imported Suitings to choose from. WE have received from Dr. A. J. Cameron, Herman, Neb., a pamphlet, showing some views of the wreckage left by the Easter Sunday storm in the city of Omaha, when 143 people lost their lives and more than 600 people were seriously injured. There was no damage done in Herman. The doctor says:—"I drove over the wrecked area Friday afternoon in an auto and even after seeing it, it is almost impossible to believe that such havoc could be wrought. There is a strip through the entire city from two to six blocks wide and four and a half miles long very similar to conditions illustrated in views. There is one part several blocks in area in which there is absolutely no trace of the houses that formerly stood there excepting the cellars and part of the foundations. And this storm took less than two minutes to pass any given point."

## TRINITY CHURCH OPENED

### Three Inspiring Services on Sunday Last. Well Attended Sacred Concert on Monday Evening

The opening of the new Trinity Church was certainly a red letter day with the Anglicans of Watford. The building was taxed to its utmost capacity at every service, and in the evening many were turned away, being unable to gain even foothold in the sacred building. Half an hour before each service commenced, the church was comfortably filled, and the overflow was turned into the school room to be packed in the corners and aisles of the church after the processional.

The services were of a bright and inspiring nature. In the morning the Bishop of the Diocese was met at the door by the rector and representatives of the congregation, who desired him to dedicate the building to the service of God. This ceremony being concluded, morning prayer was read and the Bishop preached. The choir, twenty in number, looked attractive in their new surplices and cassocks, as they walked up the aisle singing the 122nd Psalm, "I was glad when they said unto me, We will go into the house of the Lord." For an offertory anthem they sang "Praise ye the Father," in a faultless manner. The rector, Rev. S. P. Irwin, read the prayers, and Rev. R. S. W. Howard, of Chatham, read the lessons. The Bishop preached from Haggai 2, part of verse 7: "I will fill this house with glory saith the Lord." His Lordship said that glory was the keynote to the bible, a channel for divine grace which strengthens God's people. He urged each to lead a good, true life, as set out in the ten commandments, which were as much law to-day as in the time of Moses; to do the work of Christ; to save children, rescue the perishing, enlighten the heathen; for such was the message of Christ. He asked all to be loyal to Christ, loyal to the church and loyal to one another. In speaking of the new building he said that the services marked a great day in the history of the parish. He congratulated the congregation and rector on the beautiful work completed. He said that the building was the finest in the diocese for size and beauty, and also very commodious. The work reflected credit on the congregation and their rector, and showed their devotion to the cause.

At the afternoon service, the sacred edifice was again crowded to the doors. The Litany was the order of service and the choir rendered the anthem, "Young men and maidens," etc. Besides the before-mentioned clergy, Rev. W. M. Shore, of Warwick, took part in this service. The special preacher was Rev. R. S. W. Howard, rector of Christ Church, Chatham, an old Watford boy. He preached a very interesting and instructive sermon and was listened to with rapt attention. His text was Haggai 2:9: "The glory of this latter house shall be greater than of the former," etc. He pictured the Jews returning from their captivity and how their leader realized that the house of God must be rebuilt and established on a firm foundation. They listened to the call of the prophet as a call from God, as he pointed out the right motive and right spirit to proceed with the work. The house of God, the speaker said, should be a worthy place, and people should not be satisfied with anything less than the best that was in their power to give; it should reflect glory and honor to God. We build for ourselves, houses of comfort and beauty, and the same spirit should influence us in regard to our house of worship, which should be as perfect as the very best house in which any in this parish live; it should be a commodious place where we meet in comfort and peace; but the great motive is that the spirit of God moves us to do something for God's glory, as the people were moved in the time of Haggai. What will do most honor to God's glory will lead us in the ways of blessing and peace. Although the erection of fine early buildings is to be commended, spiritual building should be the chief aim of a christian life. The reverend gentleman mentioned with pleasure and pride that the people of the parish had at last built a house suitable as a place of worship, and congratulated them on the completeness of the work, and said that every man and woman during their lifetime should help to build a house of God.

At the evening service the crush was greater than at the previous services, every foot of space being occupied, and many were turned away unable to get inside the doors. The choir sang for a processional "Children of the Heavenly King," and for the anthem "Now the day is over." The Bishop preached from Phil. 3, pt. 10, "The Power of His Resurrection." The resurrection, he said, was a fact in history containing moral power that caused us to rejoice over the blessings issuing therefrom; it was a fact in history; of no other fact of ancient times was the evidence so abundant, so conclusive; the difference in the accounts of the disciples and apostles only proved their independence of each other, and strengthens rather than weakens the fact. We should rejoice that this great event rests on such clear, conclusive evidence. The reason why christians in all ages lay such emphasis on the resurrection is because it has power to redeem mankind from three tyrannies—uncertainty, failure and death. If Christ had not risen there would have been nothing to distinguish him from other teachers. The crucifixion had

shattered the faith of some of his followers. Easter Sunday transformed all the ideas formed over the overwhelming event of Good Friday. The resurrection is the last, the final fact upon which Christian truth rests; it delivered the world from the tyranny of uncertainty; delivered man from failure; it showed the final victory of good over evil and is a warrant to us that it is worth while to be good; it created a new era of hope to mankind—the hope of life through death—and enabled us to take a larger view of life because it had the power to redeem us from the three tyrannies of uncertainty, failure and death. The speaker concluded by saying that the day (Sunday) was a red letter day in the history of Trinity Church. There was no greater glory than to spread the christian religion, and as only two out of every three persons in the world have yet heard the gospel, he hoped that the congregation would make this parish known as the best missionary center in the diocese. The collections at the three services totalled \$146.00, which amount goes to the building fund. The opening services will be continued next Sunday morning and evening, when Rev. Arthur Carlisle, rector of All Saints church, Windsor, will preach at both services.

On Monday evening the Women's Guild gave a dinner in the spacious school room, which proved quite a success. This room is an ideal place for an entertainment of that nature, being bright, comfortable and convenient. The tables were prettily decorated with Easter lilies, roses, carnations, smilax, etc., and presented a very inviting appearance, and the young ladies who waited on them gave every possible attention to the comfort of the diners. Commencing soon after eight o'clock a fine program of sacred music was given in the church, the rector presiding. Miss Frances Norsworthy, of St. Thomas, and Miss Jessie Steele, of Forest, each sang several solos; the choir gave a couple of anthems; Rev. W. M. Shore gave a short address, and Mr. Bury Binks, the church organist, gave a number of selections on the new pipe organ. The program was high class and somewhat different from anything of the kind ever given here, and the large audience listened attentively and seemed to enjoy every number. The proceeds of the evening amounted to \$160, which with the Sunday collections make a grand total of \$576.

WINDMILL makers are doing a thriving business these days. An average of three windmills a day are unloaded at the G. T. R. freight sheds here. The old knitting factory at Glencoe will be turned into a canning factory. Local capital is interested in this plant, which will be known as The Glencoe Canners, Limited. The factory will put up 127 acres of tomatoes this season.

## PERSONAL.

Miss Lois Johnston returned to Kingsville on Monday. Miss Myrtle Sedwick, Sarnia, spent Sunday in Watford. Mrs. W. J. Travis, Wyoming, visited at Mrs. Tanner's this week. Miss Reta Higgins spent a few days with her cousin, Miss Ola Higgins, Front St. Mrs. And. Carson, Sarnia, spent Sunday with her sister, Mrs. James Hamilton. Mr. James Craig returned Saturday from a visit of several weeks in Michigan. Mr. and Mrs. Wm. Sedwick, Sarnia, spent the week end with Watford relatives. Mrs. Hunt and Mrs. J. B. Dale, Wyoming, were the guests of Mrs. (Dr.) Newell this week. Mrs. Neil McLean, Sarnia, was the guest of her sister, Mrs. Neil Bennett, over Sunday. Mrs. Thomas Howden, Wyoming, spent a few days with Watford relatives this week. Mrs. Nelson Doman, of Alvinston, is spending a couple of weeks with Mrs. F. G. Doman here. Mr. B. H. Parker attended the funeral of his nephew, Frederick Parker, held in Sarnia on Tuesday. Dr. Vern L. Newell, West Branch, Mich., visited his parents, Dr. and Mrs. James Newell, on Sunday. Miss Pearl Moffitt returned home after spending a week with her uncle, Mr. Arthur Higgins, Front St. Mr. and Mrs. Wm. Willoughby and two children, Ithaca, Mich., are visiting relatives in town this week. Miss Florence Johnston returned to London on Monday, to resume her studies in the Normal School. His Lordship the Bishop of Huron and the Rev. R. S. W. Howard were guests at the rectory during their stay here. Mrs. Henry Conn, Sarnia, was the guest of Mrs. Wm. Thompson over Sunday. Mr. Conn was also here on Saturday.

## WARWICK.

Mr. Joseph Keller has rented his farm, lot 14, con. 6, to Mr. Arch. Wiley. Mr. Gordon Newell, Springfield, Ont., paid a flying visit to I. J. Kadey's, 4th line, on Wednesday. Jas. Cooper, 2nd line north, who has been confined to his bed for the past two weeks, is able to be around again. Mrs. (Dr.) Chalmers, Oil Springs, with her son and daughter, visited her sisters, Mrs. Geo. R. Shirley, Brookline, and Mrs. Isaac J. Cowan, Warwick, last week. FOR SALE—A good shed, 30x60, beamed with overlays. JEREMIAH THOMPSON, Lot 23, Con. 5, N. E. R., Warwick, or Arkona P. O. ap4-3t  
Mr. Geo. Cowan, K. C., Vancouver, and Mrs. (Rev.) R. F. Nie and son, Palmerston, spent Easter week with Mr. and Mrs. Isaac J. Cowan, sixth line, Warwick.

The regular monthly meeting of the Women's Institute will be held at the home of Mrs. John Robinson, Egremont Road, on Thursday, April 10th. The roll call will be answered by recipes for serving eggs.

At Port Arthur, on March 27th, Frederick Parker came to a sudden death while shunting cars in the C.P.R. yards. He slipped and fell between the cars while attempting to get from a flat car on an elevated one to join his comrade, Mr. Colridge. Death was instantaneous. In brotherly love Mr. Colridge came with the body to Sarnia, deceased's native town, and the body was laid at rest in the family plot at Lake View Cemetery. Deceased was the son of Charles and Elizabeth Parker, formerly of the main road, Warwick, and nephew of Mr. B. H. Parker, Watford. He was 28 years and 3 months old.

The Knox Literary Society, Warwick, held another debate on Tuesday evening, 18th inst, with a good attendance. The president, Miss Annie Ross, occupied the chair. The subject was "Resolved that the farmer is responsible for the high cost of living." Mr. H. K. Laird, assisted by Miss Gladys Shrapnell, took up the affirmative side. The leader of the negative side, Mr. D. A. Ross, was ably assisted by Miss Grace McKenzie. The judges, Mr. Donald McLeay, Miss Eva Iles and Miss E. Baird, found it a difficult task to decide the winner, but finally decided in favor of the negative. After a reading by Miss Olive Cornish, and a solo by Miss Lillian Ross, the meeting was brought to a close by singing "God Save the King."

Fire destroyed the fine brick residence of Mr. and Mrs. T. A. Woods, lot 27, con. 6, on Tuesday last. About one o'clock in the afternoon the frame kitchen in rear of house was found to be in flames, the fire having caught from the chimney. As there was a brisk breeze blowing from the north, the fire soon spread to the roof of the main building, and in an exceedingly short time the entire structure was a mass of flames and was soon consumed. Willing neighbors came rapidly to the assistance of those in distress and by prompt work succeeded in saving best part of the valuable contents of the building. Mr. Woods' loss will be heavy and is only partly covered by insurance, the Lambton Farmers' Mutual carrying a policy of \$750 on the building and \$500 on contents.

## FREE ADVICE TO SICK WOMEN

Thousands Have Been Helped By Common Sense Suggestions.

Women suffering from any form of female illness are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; thus has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

### NOTE AND COMMENT.

The French suffragettes want no discrimination in favor of their sex. They insist upon the right to be guillotined if they are guilty of anything deserving that punishment and herein they are several blocks in advance of their English sisters.

Despite a tariff which enhances the cost of eggs to the consumer, Canada imported over eleven million dozen eggs during the past ten months, valued at \$2,323,000, compared with \$30,000 worth of exports. A decade ago Canada exported thirteen and a half million dozen. Another industry has dwindled to nothing.

Chief Analyst A. McGill, of Ottawa, has recommended that legislation be passed fixing a standard for a can of tomatoes. This is the outcome of recent tests of canned tomatoes, which showed very great disparity in values. The samples ran all the way from 30 to 46 ounces. About 60 per cent. of the number of samples tested were found to contain less than the required standard of fruit, as exacted under the law under

the State of Ohio, and which he thinks should be a good basis for Canada. He thinks that a gross weight of 36 ounces of fruit should be compulsory, exclusive of juice. Under the existing conditions consumers are paying canned tomato prices for cans one-third of whose contents of water.

A great many farmers to-day are land poor; they have so much land that they cannot properly cultivate it. They would be better off by selling some of it and using the money to put conveniences in the home. If money spent on these things helps keep your boy and girl at home, are you not ahead financially in the end? To have them at home means more help for you, which in turn means more farm produce to sell.

If the bill to regulate the width of tires on wagons, introduced by A. M. Rankin, member for Frontenac, becomes law, narrow tired vehicles cannot be sold or offered for sale for use on a public highway after Dec. 31st, 1915. Three years later, that is at the end of 1918, the bill provides for the abolition entirely of the narrow tired vehicles. This allows for the wearing out of the wagons now in use which do not come up to the specifications of Mr. Rankin's bill, which puts a minimum charge of three on four-wheeled vehicles with a capacity of from one to two tons, a minimum of three and a half inches on those with a capacity of from two to three tons, and a minimum of four and a half inches on vehicles with a capacity of over three tons. Two-wheeled carts, the bill provides, must have tires varying in width from four to five inches, according to capacity.

### Our County

Lambton is rich in the quality of its land, climate is ideal, location one of the choicest in Ontario—bounded on two sides by the waters of Lake Huron and River St. Clair—and is fairly well served with railroads. What more could a hardy and industrious people ask to make them prosperous and contented?

Nearly every village and town in the County has a Board of Trade to look after its business welfare, the Lambton Amalgamated Board guards the combined interests of all, the improvement of the highways is under the care of the Good Roads Association, the advertising of the County is energetically handled by the Lambton Publicity Association, and the education of the Agriculturist is ably attended to by the branch of the Ontario Department of Agriculture at Petrolia. The care of every interest is provided for in some way, and with such an organized guarding of interests, Lambton should in a comparatively short time take a front rank among the richest Counties in the Province.—Petrolia Advertiser.

### Forget It.

It is a good thing to confess one's faults on mistakes. It is a better thing to leave them behind us and press on to higher things. Don't go and blab your shortcomings to everybody. Sit down and tell yourself what an ass or sinner you have been and quit doing what you condemn yourself for. The best kind of repentance was defined by a little girl as "to do so no more." If thou hast done foolishly in lifting up thyself or if thou hast thought evil lay thine hand upon thy mouth. You can't help the crows flying over your head but you can prevent them making nests in your hair. You can't account for evil thoughts any more than you can for the bats that fly into your windows. But get them both on the outside as soon as possible. A house is a bad place for bats and a mind inhabited by evil thoughts is about as good as a house filled with creeping things. "Lay thy hand upon thy mouth."

### Increased Grain Crop One-Third.

Mr. Peter C. K. St. Thomas, Ont. writes: "I had a third more oats where I used the Homestead Bone Black Fertilizer. This I know because I left the fertilizer off part of the field. Also the grain was a great deal taller where the fertilizer was used, thus giving a greater amount of straw." Homestead Fertilizers are manufactured and sold by the Michigan Carbon Works, Detroit, Michigan, who will send free to any farmer their book on fertilizers with a handsome calendar postage paid. They want agents where they are not now represented. Address, Michigan Carbon Works, Postoffice Drawer 814-A, Detroit, Michigan, asking for terms.

### Co-operative Experiments in Weed Eradication, 1913.

During the season of 1912, the Ontario Agricultural Experimental Union carried on co-operative experiments in the eradication of Perennial Sow Thistle, Twitch Grass, Bladder Campion and Wild Mustard. A number of practical men took part in these experiments and some very interesting and valuable results were obtained. A properly cultivated crop of rape was found to be an excellent means of destroying Perennial Sow Thistle and Twitch Grass. Rape proved more effective in destroying Twitch Grass than did Buckwheat. Thorough and deep cultivation followed by potatoes or corn gave good results in the control of Bladder Campion. Spraying with Iron or Copper Sulphate proved to be a cheap and effective means of destroying Mustard in growing grain without injury to the crop. Those who took part in these experiments profited by the experience. They cleaned the field experimentally upon, demonstrated to their own satisfaction the effectiveness of the method tried and at the same time their results furnished practical information to others.

These co-operative experiments in weed eradication will be continued this year (1913) and it is hoped that a large number of men will take part in them in order that sufficient data may be gathered to warrant definite statements being made regarding the best methods of controlling these pernicious weeds. The experiments are as follows: 1.—The use of rape in the destruction of Perennial Sow Thistle. 2.—A system of intensive cropping and cultivation, using Winter Rye followed by Turnips, Rape or Buckwheat, for eradicating Perennial Sow Thistle. 3.—The use of rape in the destruction of Twitch Grass. 4.—A method for the eradication of Bladder Campion or Cow Bell. 5.—Spraying with Iron Sulphate to destroy Mustard in cereal crops.

Those who are troubled with any of these bad weeds are invited to write to the Director of Co-operative Experiments in Weed Eradication, Ontario Agricultural College, Guelph, Ontario, who will be glad to furnish full information concerning these experiments and to supply application blanks for the same. An experimenter will be supplied with full and detailed instructions for carrying on the experiment selected and with blank forms on which to report the results of the same. All interested in clean farming are asked to co-operate in this work. Address all communications to J. E. Howitt, Botanical Department, Ontario Agricultural College, Guelph, Ontario.

INTERNALLY AND EXTERNALLY IT IS GOOD.—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has curative qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it on hand.

In the poultry quarters, be careful to keep fith from accumulating and keep fowls free from lice. Give the ducks clean water every time you feed them because a duck always drinks while eating.

## The Easy Laxative

In justice to yourself you should try Rexall Orderlies,—your money back if you don't like them. They are a candy confection that really do give easy relief from constipation.

Good health is largely dependent upon the bowels. When they become sluggish the waste material that is thrown off by the system accumulates. This condition generates poisons which circulate throughout the body, tending to create coated tongue, bad breath, headache, dull brain action, nervousness, biliousness and other annoyances.

Avoid harsh cathartics and physic. They give but temporary relief. They often aggravate the real trouble. They are particularly bad for children, delicate or aged persons.

### Rexall Orderlies

Come in tablet form, taste just like candy and are noted for their easy, soothing action upon the bowels. They don't purge, grip, cause nausea, looseness, nor the inconveniences attendant upon the use of purgatives. Their action is so pleasant that the taking of Rexall Orderlies almost becomes a desire instead of a duty.

Children like Rexall Orderlies. They are ideal for aged or delicate persons as well as for the most robust.

They act toward relieving constipation, and also to overcome its cause and to make unnecessary the frequent use of laxatives. They serve to tone and strengthen the nerves and muscles of the bowels and associate organs of glands.

### Make Us Prove It

We guarantee to refund every penny paid us for Rexall Orderlies if they do not give entire satisfaction. We ask no promises and we in no way obligate you. Your mere word is sufficient for us to promptly and cheerfully refund the money.

Doesn't that prove that Rexall Orderlies must be right? You must know we would not dare make such a promise unless we were positively certain that Rexall Orderlies will do all we claim for them. There is no money risk attached to a trial of Rexall Orderlies, and in justice to yourself, you should not hesitate to test them.

Rexall Orderlies come in convenient vest-pocket size tin boxes, 12 tablets, 10¢; 36 tablets, 25¢; 80 tablets, 50¢.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all druggists. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

Do You Know What This Label Means?

It means cement of the highest possible quality. It means cement tested by experts whose authority is final at all our mills. It means cement acknowledged by engineers, architects and hundreds of thousands of farmers to fulfil every requirement of scientifically made Portland cement. It means a cement that is absolutely reliable, whether used for a great bridge or for a concrete watering trough. You can use

with complete confidence that your concrete work will be thoroughly satisfactory. You ought to have this confidence in the cement you use, because you have not the facilities for testing its qualities, such as are at the disposal of the engineers in charge of big contracting jobs. These engineers know that when cement has passed the tests made upon it at Canada Cement mills, it will pass all their tests. And this same cement is sold to you for your site, your foundations, your feeding-floor, your milk-house or your watering-trough. Used according to the directions in our free book, "What the Farmer can do with Concrete," Canada Cement never fails to give satisfactory results. Write for the book. It not only tells you how to mix and place concrete, but will also suggest scores of uses for it on your farm, every one of them valuable to you. In asking for the book you do not incur the slightest obligation.

### Will-Power

Many a man who prides himself on his will-power is failing to use in the really critical issues of life. He will set a high standard for himself in some important detail of every day living, such a rigid punctuality, or scrupulous care in his person or dress, or persistent physical exercise and he will hold himself to that standard, no matter what it costs to do so by an uncompromising effort the will. This is good exercise; it takes character and it makes character. But when it comes to moral self-conquest that man is oftener the veriest weakling. He may know that a certain indulgence is wrong and harmful, yet the idea of summoning against it that iron will of his, on which he rightly prides himself in secular affairs, seems not to occur to him. Will-power is one of God's richest gifts of man. What an awful waste of wealth when we do not use this power for spiritual victories.

### The Advantage of Being Poor

Poverty has its advantages and adversity its uses. If you are poor you can wear out your old clothes. You are excused from calls, you are not troubled with many visitors, bores no not bore you, spongers do not haunt your tables, brass bands do not serenade you. No one thinks of presenting you with a testimonial. No storekeeper irritates you by asking you "Is there anything I can do for you." Begging letter writers don't bother you. Flatterers do not flatter you. You are saved many a debt and many a deception. And lastly, if you have a true friend in the world you are sure to know it in a short space of time.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by the best worm remedy that can be got, Miller's Worm Powders, which are sure death to worms in any shape.

### Tomato Culture

Almost anyone with a garden or farm in a temperate climate can grow tomatoes with greater or less success but there is a great difference between the extent and quality of the crops grown by different persons in the same locality. These differences are due to several causes among which the varieties grown and methods of cultivation practised are perhaps the chief.

According to experiments carried on for years at the Experimental Farm at Ottawa, Earliana, of which there are several strains, is the best early sort but Bonny Best, Chalks' Early Jewel are also good early kinds. Of later varieties Matchless Trophy, Livingston's Globe and Pictorial rank high.

It is the early fruit that makes the profit. In growing plants what should be aimed at is the production of a stocky, sturdy plant which will have some fruit set upon it when set in the field. After planting the chief work is cultivation which should be done both ways in the plantation.

In order to protect tomato plants from diseases of which there are several, they should be repeatedly sprayed, even when quite young, with Bordeaux mixture. These and many other points, which cover practically the whole field of tomato culture in the greenhouse as well as in the garden and field, are fully treated in pamphlet No. 10, of the Central Experimental Farm prepared by the Dominion Horticulturist, Mr. W. T. Macoun. This work is for free distribution to all who apply for it to the Publications Branch of the Department of Agriculture at Ottawa.

### FRAIL, SICKLY CHILD

Restored to Health by Vinol-Letter to Mothers.

Anxious mothers often wonder why their children are so pale, thin and nervous and have so little appetite. For the benefit of such mothers in this vicinity we publish the following letter.

J. Edmund Miller, New Haven, Conn., says: "My little daughter, ever since her birth, had been frail and sickly, and was a constant source of worry. Several months ago we commenced to give her Vinol. I immediately noted an improvement in her health and appearance. I gave her three bottles of Vinol, and from the good it has done her I can truly say it will do all you claim."

This child's recovery was due to the combined action of the medicinal elements extracted from cods' livers,—combined with the blood-making and strength-creating properties of tonic iron, which are contained in Vinol.

Vinol will build up and strengthen delicate children, old people and the weak, run-down and debilitated. We return the money in every case where it fails.

### Helpful Agricultural Publications

More than \$2,500,000 is expended annually by the Dominion Department of Agriculture in carrying on work in the interest of the farming community. This large amount of money is divided among several branches to carry on the special duties with which they are entrusted. The experimental Farms seek to solve problems in all phases of agriculture including grain growing, live stock husbandry, horticulture, apiculture, etc.: the Seed Branch works to encourage the use of only good seed; the Live Stock branch endeavors to increase the profits of the stock raiser; the Health of Animals Branch aims to protect our herds and flocks from disease; the Dairy and Cold Storage Branch does much to help the dairymen and fruit growers, while the Tobacco Division endeavors to find out and teach which are the best kinds of tobacco and the best ways of keeping the crop in Canada.

While all of us, unconsciously perhaps, reap benefits from this work, much of it, more especially that of an investigational nature, is useful only to those who learn for themselves the lessons from investigations that are carried on. By the use of reports and bulletins the several branches of the Department give out the results of their work so that all who wish to do so may profit by it. The publications are sent out to all persons who apply for them or to be put on the mailing list. In each case surplus copies are printed to meet the popular demand so as not to deprive any who desire to receive them. During the life of the Department these surpluses have been accumulating until there are available for distribution a greater or less number of useful publications. A list of these including the latest bulletins has been compiled and printed in pamphlet form copies of which are available to those who apply for them to the Publications Branch of the Department of Agriculture at Ottawa.

W. R. Veale, of the Seaforth News, has purchased the Ingersoll Tribune. Mr. Veale has published the Seaforth News for about four years, but found it uphill work running a second paper in a one-paper town. Seaforth has a population of 3,000, and is in the center of a splendid farming community.

After an illness of about two months, David Conboy, a pioneer of Plympton, passed away on Tuesday of last week at the advanced age of 81 years. The deceased and his elder brother, James, who pre-deceased him last January, were widely known farmers and stock raisers. Neither was married and both had succeeded in accumulating a considerable amount of property.

TRIAL IS INEXPENSIVE. To those who suffer from dyspepsia, indigestion, rheumatism or any ailment arising from derangement of the digestive system, a trial of Parmelee's Vegetable Pills is recommended, should the sufferer be unacquainted with them. The trial will be inexpensive and the result will be another customer for this excellent medicine. So effective is their action that many cures can certainly be traced to their use where other pills have proved ineffective.

P. D. McCALLUM,  
License Inspector.

Dated at Forest this 2nd day of April, 1913. ap4-3

The boy who swaggers, like the man who swaggers, has little else that he can do. He is a cheap-jack crying his own paltry wares. It is the empty tin that rattles most. Be honest, be loyal, be kind. Remember that the hardest thing to acquire is the faculty of being unselfish. As a quality it is one of the finest attributes of manliness. Love the sea, the ringing beach, and the open down. Keep clean body and mind."

**REPLENISH YOUR BLOOD IN THE SPRING**

Just now you are feeling "out of sorts"—not your usual self. Quite exhausted at times and cannot devote real energy to your work. Sleep does not rest you and you wake up feeling "all tired out." Perhaps rheumatism is flying through your muscles and joints, or may be your skin is disfigured by rashes, boils or pimples. Headaches, twinges of neuralgia, fits of nervousness, irritability of temper and a disordered stomach often increase your discomfort in the spring.

The cause—winter has left its mark on you. These troubles are signs that your blood is poor and watery, that your nerves are exhausted. You must renew and enrich your blood at once and restore tone to your tired nerves, or there may be a complete breakdown. The most powerful remedy for these spring ailments in men, women and children is Dr. Williams' Pink Pills for Pale People, because these Pills cleanse bad blood and strengthen weak nerves.

New, rich, red blood—your greatest need in spring—is plentifully created by Dr. Williams' Pink Pills, and with this new, pure blood in your veins you quickly regain health and increase your strength. Then your skin becomes clear, your eyes bright, your nerves strong, and you feel better, sleep better, and are able to do your work.

Begin your spring tonic treatment today for the blood and nerves with Dr. Williams' Pink Pills—the Pills that strengthen.

These Pills are sold by most dealers, but do not be persuaded to take "something just the same." If you can't get the genuine Pills from your dealer they will be sent you by mail, postpaid, at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Mr. Maines, of Buffalo, is spending a few days with his brother, Mr. Price Maines.

Mr. Pickard is visiting his sister, Mrs. Jas. Brown.

Mrs. George Cade, Mt. Brydges, was called here last week by the serious illness of her mother, Mrs. Munro.

There was no service in the Presbyterian church last Sunday on account of the church being re-papered.

Mr. Fraser, of Kelvin, was the guest of his daughter, Mrs. "Dr." McLean, during the Easter holidays.

W. R. Dawson & Co. held their spring millinery opening on Friday and Saturday of last week. Inwood Orchestra was in attendance.

Mrs. Wm. McLeay, of Watford, returned to her home on Saturday after spending a week with her sister, Mrs. Joshua Thomas.

The funeral of the late Mrs. Maines was held on Monday last from the family residence, Inwood, and was conducted by the Rev. N. A. Campbell of the Presbyterian church, of which Mrs. Maines was a faithful member for many years. She is survived by her husband and two sisters, Mrs. John Rundle and Mrs. Alex. Johnston, both of Brooke, and a brother who is in the West, who have the sympathy of a large circle of friends. Interment took place in the Alvinston cemetery.

**WYOMING**

The funeral of Mr. P. Carrigan, father of Mr. Philip Carrigan and Mrs. John Murray, of the second line, was conducted in the local Catholic church Monday, after which the remains were taken to Lucan for interment. Mr. Carrigan died on Saturday at the home of Mrs. Murray, following the effects of a paralytic stroke, from which he never rallied.

Mrs. R. S. Prichard had the misfortune to fall recently on an icy sidewalk and break her wrist.

**KYOSHK CASE WILL BE DROPPED BY CROWN**

Young Indian Was Convicted and Then Freed on Murder Charge.

Sarnia, April 2.—R. V. Lesueur, attorney for Stephen Kyoshk, has been notified by the Government that the crown has decided to stop all further proceedings against the young Indian. The notification came from the attorney-general, and Kyoshk and his wife, as well as the many friends who believed him innocent, are highly elated at the good news.

The case was to have been tried some time this month, but as no new evidence was secured by the prosecution, it was decided to drop all proceedings.

It was thought likely in legal circles such a course would be taken, and the decision of the Government was not altogether a surprise.

"FEEBLE STOMACH" Causes Digestive Weakness and Poisons the Entire System.

"No one can have suffered more than I did with stomach trouble," writes Phil E. Pascalar, well known at St. Andrews Corners. "My doctor told me my indigestion and sleeplessness were due to poisons in the blood. Certainly my condition was desperate, and it seemed from the despondent feelings that swept over me that I would lose my reason. I happened to read about Dr. Hamilton's Pills and bought five boxes from the druggist. Such body-cleansing pills I never used; they were mild and yet quite strong enough to drive all the humors out of the blood. My stomach gained strength rapidly with Dr. Hamilton's Pills and I improved so much that in eight weeks I could eat and digest all ordinary food. Depression and weariness passed away and I am, thanks to Dr. Hamilton's Pills, enjoying robust good health."

**Heroes All** An Episode of Ranch Life

By **CLARISSA MACKIE**

Red Spider postoffice stizzled in the hot sun. As the three riders from Twin Star ranch rattled up to the porch of the building a girl opened the door and came out with a package of letters in her hand.

Without a glance at the three riders she stepped to the edge of the porch, mounted a buckskin pony and whirled off in a cloud of dust.

"Gee!" exclaimed Jink Prole admiringly. "How's that for slick riding?"

"Beats my Red Spider girl I ever see," remarked Tony Goff. "See, she's turning up the Star trail. You can get my mail, Jink. I've got to mope along home."

He turned his horse and was away after the flying form of the buckskin pony.

"Me, too," painted Jink Prole, close behind him, and so Mason Pepper was left to fetch the mail and perhaps learn who the interesting stranger was. When he came out of the office his eyes were twinkling with mirth. He stuffed the mail into his pockets and was soon pounding along in the rear of his companions.

Out of the town, with the Star trail blazed straight ahead, they slackened speed to allow Mason Pepper to come up with them. Not one of them lost sight of the slender young figure riding ahead so fearlessly. Trim and erect she sat in her saddle, her snowy shirt waist and riding skirt showing white against the pale brown of her pony.

"Did you ask Dan Cox who she was?" demanded Jink Prole curiously.

Pepper nodded his head. "I did."

"Well, what did he say? She can't be a new schoolmarm, for it ain't time for schoolmarns yet."

"She ain't exactly a schoolmarm," hesitated Pepper. "Boys, what do you think of a girl that don't scarcely know one end of a horse from t'other getting on and riding that buckskin devil of Burnham's?"

"What?" thundered the two in unison.

"She ain't never rode a horse before and has got to Red Spider and so far back alive!" added Tony Goff incredulously.

"Nary, ain't it?" inquired Mr. Pepper calmly.

"Crazy, you mean. Fellows, I guess I'll hitch up a little close. That girl may need help before she gets back. You know that pony of Burnham's lays down and rolls whenever he takes a notion." With a wave of the hand he dashed ahead and was soon chattering at the heels of the buckskin pony.

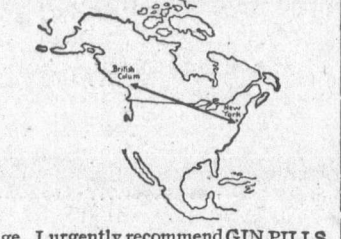

Just as Tony Goff's mount had nosed up to the pony's flank the buckskin began to live up to his evil reputation. With an angry squeal he shot forward and, leaving the trail, fairly flew over the parched grass of the plain. There was nothing but the dead level of the plain ahead—no watercourses, no dangerous precipices. The greatest danger was threatened by the horse himself, whose favorite trick was to throw his rider off and, falling in that, to lie down and crush the life out of him.

**HE CAME TO CANADA AND FOUND A CURE**

New York Engineer Praises Canada's GIN PILLS.

You never can tell when you are going to have a kidney attack. It may be during a visit, on a journey—any time. It is wise always to have GIN PILLS with you, at hand. They are handy to slip into your travelling bag. Splendid for Kidney and Bladder Troubles, Rheumatism and Lumbago.

"I bought some of your GIN PILLS at Victoria, B. C., last September. Your remedy I find, at 60 years of age, to give perfect relief from the Kidney and Bladder Troubles incident to one of my

age. I urgently recommend GIN PILLS to friends as being the one thing that does me good." E. G. WOODFORD. It is worth a trip across the Continent to find GIN PILLS and to be cured of Kidney and Bladder Trouble. But don't wait till you are sixty, before you learn by experience the great good GIN PILLS will do you. If you have the first signs, swollen joints or ankles, pain in the back, black specks floating in front of the eyes, take GIN PILLS at once. They will free you of these symptoms of Kidney and Bladder Trouble. 50c. a box—6 for \$2.50. Sample free by writing National Drug and Chemical Co. of Canada, Limited, Toronto. 153

Safety depended upon the agility of the rider, and not many of Burnham's men cared to take the risk.

Once out in the middle of the plain the buckskin pony stopped suddenly, settled back on his haunches and swung around as if on a pivot until horse and rider faced the three pursuers. The girl's face was quite pale, and she looked at the men with a direct, fearless gaze that brought them to a standstill, with apologetic grins.

"Is it a game, or what is it?" she asked sharply.

"Is what a game?" fenced Tony Goff, the red creeping through the browne of his cheek.

"Your chasing me this way. I don't like it, even if it is a custom of the country."

"We were only looking after you right and proper, miss," assured Tony vehemently. "Mason, you don't know that hoss you're on is a man killer. Old Burnham hadn't ought to let you ride him."

"You are mistaken. I didn't ask Mr. Burnham if I could ride the pony," she returned pleasantly.

"You mean you just walked up to him and threw a saddle on and rid off?"

Tony was gaping now.

"The girl nodded. "I'm not a bit afraid of him," she said, confidently, pulling the buckskin's mane playfully. This playfulness was rewarded by a vicious lunge and a flash of the pony's agile heels. The girl clung to the pommel of the saddle, with suddenly frightened eyes.

"You don't really believe—that—he'll do—any—harm?"

The words were jerked out of her lips by the frenzied dancing of the pony as he snapp'd first at one horse and then another of the three which had pursued him.

"You better change with me, miss," suggested Tony eagerly. "This beast I've got is a regular old rocking chair and just the thing for a lady that don't know much about hosses."

"Who—told—you—that?" asked the girl, still jerkily.

"Dan Cox at the postoffice he told Mason Pepper here—I forgot to introduce my friends. This is Mr. Jink Prole, and this is Mr. Pepper, all from the Twin Star ranch."

"And who are you?" asked the girl with a smile as she acknowledged the

greetings of Tony's companions.

"I'm Tony Goff," said that gentleman suavely, "and I wish you'd change hosses with me."

"Oh, I shall get back to Burnham's all right," said the girl carelessly. "See, he's quiet now. I shall be glad of you gentlemen's company if you care to escort me home."

She started back toward the trail, and the three came into line behind her. There was anxiety visibly written on the faces of the men.

"What did the postmaster tell you about me, Mr. Pepper?" asked the girl, flashing a glance at Mason.

Mason Pepper hesitated, but Tony Goff replied for him. "He told Mason that you was not accustomed to hosses," he explained gently.

"Oh!" said the girl softly. There was silence for awhile after that, with no sound save the swish of hoofs through the grass. Then, all at once, without warning, the devil in the buckskin pony seemed to break loose. With a repetition of that shrill squeal he dashed once more into the plain and proceeded to try to remove the girl from his back by every trick known to his clever brain.

First he was pawing the air with the girl clinging to his neck with slender, tense arms; again, he arched himself and flung his head between his legs.

The three galloped frantically around the pony, endeavoring to dash in and rescue the girl from her precarious position, but somehow the buckskin pony seemed to be aware of their purpose to cheat him of his victim, and he managed to elude them every time.

Now the buckskin attempted his favorite. He fell to his knees and attempted to roll over, and only the girl's sharp cry "Don't shoot!" held back the threatened discharge of three weapons.

The buckskin rolled over and in some inexplicable manner left the saddle on the ground, but the girl was still on his dusty back when he arose.

Then began a performance that made the brains of the three onlookers reel with shocked surprise. Suddenly the girl sprang to her feet on the bare back of the buckskin pony, and they saw that she wore little soft moccasins instead of shoes. She cried shrilly to the pony, and he dashed away, while she stood swaying gracefully from her position on his back.

She waved her hand to the three cowboys, who followed her course with protruding eyes, and as the pony turned and circled toward them they let out a whoop that brought the warm color to her cheeks. As she passed them she swooped and lifted the large gray hat of Jink Prole from his head and dropped it on her own. Then, with a shrill whistle to the pony, horse and rider came to a graceful standstill poised there. For an instant she bowed, kissed her hand to them and dropped gently to the ground.

The buckskin pony meekly nibbled the grass.

"It's on us, I guess," said Tony Goff sheepishly. "But you was plumb scared for awhile after Pepper here told us what he did about your riding."

"What did I say?" demanded Mr. Pepper, with a burst of virtuous indignation.

The girl's eyes lost their mischievous light, and she smiled sweetly, seriously up into their faces as she lifted her gloved hand to meet their clasp. "All jesting aside, gentlemen, I must always remember how solicitous you have been for my safety. Now let me explain. This is not Mr. Burnham's man killing pony. It's my own Brownie, who shares in my world famous act in the Wild West show. I am the Prairie Rose, at your service!" She bowed low and blushed at their surprised ejaculations.

They escorted her to the very doors of the Burnham ranch, and Tony Goff won a promise to ride with him the next day.

As the three rode slowly home to the Twin Star with the belated mail in their pockets Tony Goff suddenly burst into ecstatic speech.

"Say, Pepper, that was the best joke you ever played on me!"

Whereupon Jink Prole and Mason Pepper winked solemnly at each other.

**ASTHMA NO LONGER DREADED.** The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it to-day and know for yourself.

Two can live as cheaply as one—but they don't.

After corn passes the proper stage at which it should be converted into silage or fodder, it deteriorates very rapidly in quality.

When a man gets so seriously in love that he declares himself ready to lay down his life for his sweetheart, it is really cruel of her to facetiously ask: "On the dead?"

Mother Graves Worm Exterminator will drive worms from the system without injury to the child, because its action while fully effective, is mild.

**BABIES SORES**

Every mother should realize that the skin of her baby is so tender that the secretions of the body often lead to rashes, eruptions, etc., all of which may be removed by Zam-Buk. Scores of restless, crying babies, upon examination, are found to be suffering from some form of skin irritation or "heat." Don't let the little one suffer when Zam-Buk will cure!

Mrs. L. Todd, of 475 Alexander Avenue, Waukegan, Ill., writes: "I have proved the value of Zam-Buk when applied to children's sores. Some nasty sores broke out around my baby's mouth, and despite all the preparations used, they refused to heal. I took him to St. Boniface hospital and he remained there for two weeks. At the end of that time he was no better, and we again took him home. I was then advised to try Zam-Buk and obtained a supply. The effect of the first few applications was very gratifying, and I continued with the use of the balm. A little perseverance resulted in a complete cure."

Mrs. E. Cocker, of Yorkton, Sask., writes: "My little baby girl had a bad running sore all over her little chin. A few applications of Zam-Buk healed the sore in such a perfect manner that no scar was left behind."

Sores of similar cases could not be named. Zam-Buk is absolutely pure—contains no irritating animal fats, no mineral coloring matter, no irritating poisons. It is the ideal balm for babies.

Zam-Buk cures eczema, rashes, ringworm, chapped hands, scurvy, heat rashes, cuts, burns, ulcers, discharging sores, and all skin injuries and diseases. 50c. box, all druggists and stores, or Zam-Buk Co., Toronto, for price. Don't take the risk of using harmful imitations!

### The Critic

My father says the paper that he reads ain't put up right. He finds a lot of fault, he does perusin' it at night. He says there ain't a single thing in it worth while to read, and that it doesn't print the kind of stuff the people need. He tosses it aside and says it's strictly "on the bum." But you ought to hear him holler when the paper doesn't come. He reads about the weddin' and he snorts like all git out. He reads the social doin's with a most derisive shout; He says they make the papers for the wimmen folks alone. He'll read about the parties and he'll fume and fret and grone; He says of information it don't contain a crumb, but you ought to hear him holler when the paper doesn't come. He's always the first to grab it and reads it plumb clean through. He doesn't miss an item, nor a want ad—that is true. He says: "They don't know what we want, them dern newspaper guys; I'm going to take a day sometime, and go and put 'em wise. Sometimes it seems as though they must be deaf and blind and dumb." But you ought to hear him holler when the paper doesn't come.

### What The Farmer's Wife Owes to Herself

In the current issue of Farm and Fireside, appears the following: "The farmer's wife owes it to herself to have as many labor-saving devices as can possibly be afforded. It is no worse for her husband to hoe corn by hand, when he can get a proper tool for \$5, than it is for her to bend over a rubbing-board when a washing machine can be had for the same amount. Every dollar put into helpful household machinery means many dollars saved in doctor's bills. Such things are not expensive, nor do they need replacing often. For example, a food-chopper costs less than a dollar and will last for years; yet how many women still waste time and break their backs over an old chopping-bowl. It does not take \$25 to fit up a kitchen with nearly every little helpful device needed, and every farmer's wife should feel it her duty to have all these strength and time-saving articles within her reach. In the multiplicity of daily tasks, the time for reading and study seems often badly lacking. But it should be found, no matter what else has to go. Ten minutes with a good book will give food for uplifting thought all day. Drudgery ceases to be such if hurrying steps keep time to a noble sentence. A favorite book—in an oilcloth jacket, if the binding be choice—is perfectly safe in the kitchen cupboard, and many a precious minute can be snatched while the potatoes are cooking, or baby is being rocked to sleep. "It seems an extravagant thing to say that the welfare of the nation depends most largely upon the wives and mothers of the farms. But it will be seen to be strictly true. Without the farms the country could not exist; and without brainy, energetic farmers what would become of the farms? "So in summing up the duties women owe to themselves we are stating their obligations in an ethical and economical sense, and find that there is really no selfishness when woman considers herself first."

### Fact and Fancy

Many women are outspoken, few out-talked. Camphor makes furs fade. A girl loves to be called dove-like, but hates to be told that she is pigtoothed. The dahlia is named after its inventor, Professor Dahl, of Stockholm; the wisteria after the Philadelphia Wister family, who introduced it into America. He who courts in jest is apt to find, later on, that he cannot jest in court. Japan has 500 earthquakes a year. The secret of fame is civility to reporters. Before the introduction of child-labor laws, children of three or four years worked in mills and brick-yards from five in the morning till nine at night. A cynic is a man, who, when a lost umbrella is returned to him, declares that this is a reflection on its quality. America spends a hundred times more on drink than on education. A Manayunk bachelor says that the reason why old maids are so anxious to go to heaven is because marriages are made there.

### Spare the Robins

(From the Windsor Record.)

Teachers and parents can accommodate a real service to the city and their country by instructing the children to spare the robins.

The robin and its nestlings are perfect gormandizers when it comes to making a meal of bugs and caterpillars—the enemies of mankind. The fledglings eat one and two-fifths times their own weight of worms and insects each day.

No wonder men speak of these little birds as "worth their weight in gold."

No bird is more welcome in the spring and summer than robin red-breast. Robbing the nest, breaking the eggs, and killing the young birds make cruel sport and cause us all to suffer from a lack of economic wisdom that permits heartless destruction of our own songster friends of the thrush family.

### Sarna Farmer Perished in Blizzard

Sarna, March 28.—John Harkins, aged 65, a farmer residing on the Lake Shore road, lost his way in the heavy snowstorm which raged through this district on Wednesday night and his body was found in the snow near the council house on the Indian reserve last evening by Detective Acton.

The old man's horse and buggy, in which he had left home to drive to Sarna, were found tied to the fence of the council house. It was feared at first that Mr. Harkins had been the victim of foul play, but the authorities now believe that he simply lost his way in the storm, and after wandering about helplessly in the dark was overcome by the cold and perished.

No search was made until he did not return home. His son, George, then notified the police, and with the detective started the search which resulted in the body being found.

### A Smile or Two

There is a grave yard in Ireland at the entrance of which is a notice: "Only those living in the parish buried in this graveyard."

Bobby was saying his prayers in a very low voice. "I can't hear you, dear," his mother whispered.

"I wasn't talking to you," replied Bobby, firmly.—Harper's Magazine.

The lady litigant had paid out good money to clerks and bailiffs till she was nervous about it. "Who is that?" she whispered to her lawyer, as a new functionary put in an appearance.

"That? That's the crier," the lawyer replied.

"Goodness! Can't I do my own crying and save the fees?"—Judge.

A North Dakota farmer roused the new farm hand from slumber in the hay mow promptly at 3 a.m.

"You can slip down and cut that little patch of oats before breakfast," he ordered.

"Are they wild oats?" sleepily inquired the hired man.

"Wild? Why, no, they are tame oats."

"Well, if they're tame, maybe I can slip up on them in daylight."

A fat German with big beads of perspiration streaming down his face, was darting in and out among the aisles of a big departmental store.

His excited actions attracted the attention of all the salespeople, and they hardly knew what to make of it. A husky young man of the clothing department walked up and asked:

"Are you looking for something in men's clothing?"

"No, you slob," he roared, "I'm looking for something in vimmin's clothing. I can't find my wife!"

An ideal hubby is one who never breaks any of the promises made before marriage.

An optimist is a man who does not care what happens so long as it does not happen to him. A pessimist is a man who has lived for a long time with an optimist.

The best things in this world can be defined only by a description of their result. No man can tell me what the sunshine is except by pointing out what it does.

A formal visit should last twenty minutes at least, and half an hour is not too long if one is interested. If there is no clock in the room some guess can be made. All first calls should be returned within a month of the time they are made.

BROOK COUNCIL

Alvinston, 22nd March, 1913.

Council met pursuant to adjournment. Members all present. Minutes of previous meeting read, and on motion of Mr. Annett, seconded by Mr. McCabe, were approved.

Mr. John Beattie complained that the Davis Award Drain was out of repair, and water escaping and flowing over his land. Council agreed to inspect locality at an early date.

George Kingston asked for refund of cost of repairing a broken wagon axle, caused by defect in road. Repairs \$5.00. Annett—Sutton, that Mr. Kingston be paid the sum of \$3.00.—Carried.

A deputation from the Brooke and Alvinston Agricultural Society asked for a liberal grant in its aid.

Sutton—McVicar, that a grant of \$125 be made to the Society.

Moved in amendment by Mr. Annett, seconded by Mr. McCabe, that the grant to the Society be \$100.00. Amendment carried.

Walter Brown applied for remuneration for one sheep killed by dogs, valued by Inspector at \$2.00. Mr. Brown be paid the sum of \$6.00.—Carried.

Auditors Shirley and Risk presented their report of the financial transactions of the Township for 1912 showing receipts to be \$112,216.07, and expenditures \$112,185.54, balance \$30.53; assets \$42413.31, liabilities \$46589.02, deficit \$4175.71.

Johnston—Annett, that the auditors' report be accepted, and Clerk instructed to get 300 copies printed for distributed.—Carried.

P. A. McDiarmid and D. B. McNeil asked that the Pray Drain be repaired.

Annett—Johnston, that the Engineer be instructed to examine this drain and if found out of repair to report with a view to enable Council to proceed with the work.—Carried.

Sutton—McCabe, that as the Council have the right to be represented at the meetings of the advisory Board of the Brooke Municipal Telephone System, and as Deputy Reeve Annett is the only member of the Council who is a subscriber, that he be appointed to attend the meetings of the Board and look after the Township's interests in the System, the Clerk to notify the president of the Board of this appointment, and to request him to give Mr. Annett due notice of their meetings.—Carried.

Annett—Sutton, that as there have been some slight irregularities in connection with the attempt to pass the Smith-Patterson Drain by-law, and litigation is in view, that we deem it best to abandon the by-law, and to ask the petitioners to send in a new petition properly signed, if they still wish the work to go on.—Carried.

By-law appointing pathmasters, poundkeepers, fence viewers, sheep and noxious weeds inspectors was introduced and read.

Johnston—Annett, that by-law be read a third time and finally passed.—Carried.

McVicar—Sutton, that as A. S. Code, C.E., is handy to consult on drainage matters and Mr. C. A. Jones is not, that Mr. Jones be relieved of the position of township engineer under the D. & W.

## KERWOOD.

Mr. de Gex states that at present he is sold out of all surplus stock except one grand young bull nearly twelve months old, a beautiful red roan from deep milking cow. Sales have been exceptionally good the past year, five heifers and one young bull going to Calgary, another young bull to British Columbia. We hear a lot nowadays about the high cost of living and the scarcity of beef animals. Unfortunately we have a number of men and some of them under government auspices in their anxiety to boom the dairy breeds tell the people there is no such thing as a dual purpose cow. You cannot have best and milk. The grand old short horns from time immemorial have fully demonstrated the possibility of such a thing. We have the evidence on every side. One of my neighbors had three grade short horn cows last year that averaged seventy-three dollars and forty-three cents for cream delivered at Kerwood factory, not counting the calves worth at least twenty dollars a head and household cream and skinn milk besides. It is indeed hard to pick up a load of steer to feed now without the objectionable taint of dairy blood. I do not know of any better sign of prosperity than eight or ten good big wide-backed roan or red cows with unusually high prices for both sheep and lambs. My experience has been the largest number of sales and the highest average yet. As the short horn stands pre-eminently at the head of cattle so does the majestic Lincoln with his proud carriage lead all breeds of sheep. The finest fatted of the long woolled varieties, yielding a grand carcass of mutton, well streaked with fat and the heaviest fleece of wool, in fact, I have a special market for all wool thirteen inches long and upwards at double the price of unwashed articles. To show the popularity of the Lincoln, fifteen years ago you could count the Lincoln rams in this neighborhood on the fingers of one hand. Today they outnumber all other breeds put together and it is possible to buy a carload of shorn Lincoln two year old rams singly from the breeders. In conclusion I would say that this article is not written disparagingly of any breed but help you have a good thing pass it on and wish the other fellow.

THE Village of Watford has a \$4,450 sidewalk debenture for sale, bearing interest at 5 per cent., payable in 20 equal annual installments of principal and interest. This is an excellent investment for some local person who has money in the bank drawing only three per cent. W. S. Fuller, town clerk, will furnish full particulars. m7-1f
