North Toronto Man Killed by Radial Car --- Postoffice Site Expropriation Starts Monday --- More Revelations in Graft Charges --- Toronto Woman Asphyxiated

TO EXPROPRIATE SITE FOR NEW POSTOFFICE

Exchequer Court Will Sit in Toronto, Commencing on Monday, to Take Evidence Regarding Value of Land and Buildings to Be Taken Over by the Government.

The exchequer court, with Hon. Walter Cassels presiding, will convene in Toronto on Monday to begin proceedings for the expropriation of Adelaide street property to be used as the site for the new postoffice.

Several property owners have already been examined as to the value of their holdings, and it is the function of the court to determine the prices at which the properties will be taken over.

Altho nothing definite has been announced, it is generally understood that the new edifice will take in the entire block bounded by Victoria, Lombard, Church and Adelaide streets.

Several months ago, owners of property received notice to vacate, and as no date was given as to when the government would require the properties, there has been much inconvenience and loss to landlords.

The longest lease in the block is held by Smith, McKenzie & Hall, insurance brokers, on the old Union Life Building, Adelaide street. The largest and most valuable piece of property which will be expropriated is the building and site owned by the Dorecourt Land, Building & Savings Co., at the corner of Victoria and Adelaide streets, estimated worth \$4600 a foot. The southeast corner of Victoria and Lombard, which will also be taken in, belongs to Mrs. Eno, a recent purchaser, while the remainder of the Lombard street property, east of the postoffice, belongs to the Warden-King Company. Two other Adelaide street properties are owned by Marshall & Phippen and Jax, Macpherson.

FELL FROM ENGINE CAB.

While riding in the cab of a shunting engine in the King street C.P.R. freight yards at 9 o'clock last night, G. W. Stember, 71 Fleet street, West Toronto, a C.P.R. yardman, fell to the tracks, sustaining several severe body bruises. He was conveyed to the Western Hospital in Harry Ellis' private ambulance.

SECOND PAYMENT OF \$500 NOW RECORDED

MONTREAL, Jan. 23.—(Special.)—The Daily Mail tomorrow morning will continue the revelations of alleged graft paid to legislators of the Quebec house for the promotion of the legislation of the Montreal Fair Association. The paper reports the payment of a second five hundred dollars to J. O. Mousseau, member of the assembly, and chairman of the private bills committee.

The scene moves to Quebec after the house is in session, and the records of the dictaphone. The Daily Mail says, show that Mr. Mousseau called on Mr. Hyland at the Chateau Frontenac and told him that the chief thing was, first to pay the law officers of the legislative assembly to speed the draft of the proposed law along to the house. Thereupon Mr. Hyland said, "Well, here, I give you five hundred dollars."

"It is very good of you, very good," Mr. Mousseau replied. "I must play clean with you."

Named Price Too High. Mr. Hyland then asked how much he ought to pay to the Hon. Mr. Bernard, the legislative councillor, now accused in the case. Mr. Hyland hinted at one thousand dollars.

"Oh, no," said Mr. Mousseau, "not so much as that. The upper house is not so important as ours. We do all the work you know. Give Bernard five hundred dollars and let him think he will get more."

Mousseau claimed that he could control fifteen or twenty votes in the private bills committee, but he said it would be necessary to get in addition three members of the opposition on their side. Hon. Mr. Bernard called on Mr. Hyland the next day, and The Mail will tell his story on Monday.

It is not upon the evidence of probability.

SIR JAMES' DOCTORS REPORT IMPROVEMENT

Patient Had Fairly Satisfactory Day and There is Slow But Definite Progress.

9:40 p.m.—Sir James Whitney has had a fairly satisfactory day. There is definite improvement, but it is slow.

Dr. Clarke, Dr. McPhedran.

The above is the most encouraging bulletin that has yet been issued since the condition of Premier Whitney became critical. Last night's bulletin completed a period of more than 24 hours in which no setback has been reported. It is understood that Sir James is taking nourishment in increasing quantities and that he is gradually gaining strength. Dr. Clarke stated yesterday that it was not unusual for a man who had undergone a period of illness of the duration of the premier's to recover.

EX-MAYOR OF OTTAWA IS NOW AN ALDERMAN

J. A. Ellis, M.L.A., Had Little Trouble Defeating Ex-Controller Hinchey.

OTTAWA, Jan. 23.—(Can. Press.)—Ex-Mayor J. A. Ellis, M.L.A. for West Ottawa, was today elected alderman for central ward by a majority of 997 over ex-Controller E. H. Hinchey.

Mr. Ellis was defeated at the regular municipal elections on Jan. 5 by Taylor McVitt, former city solicitor. A vacancy was created for him in the ward by one of the aldermen-elect refusing to serve.

The municipal situation in Ottawa is acute just now, the problem of a pure water supply facing the people. Ellis favors spending \$8,000,000 in going to the Gatineau hills for water.

WHISKEY ON THE TABLE WOMAN DEAD ON FLOOR

Police Believe Mrs. Elizabeth Campbell Suicided—Gas Turned Full On.

Stretched across the floor in her room at 24 Ross street, Mrs. Elizabeth Campbell, 68 years of age, was found dead at 12:30 yesterday afternoon by Nathan Herzenbond, the owner of the house. The gas was found turned on at the jet, and on the table were two empty whiskey bottles. The police believe the woman suicided. The body was taken to the morgue, but an inquest is unlikely.

NORTH TORONTO MAN KILLED BY YORK RADIAL STREET CAR TRAVELING AT GREAT SPEED

George James Died Instantly, His Horse Was Killed and His Wagon Knocked to Splinters When Car Struck Him at York Mills After Failing to Stop for Passengers.

Resident in North Yonge street were horrified last night by the addition of another fatal accident to the long list already to the credit of high-speed radial cars. George James, 174 Wornum avenue, was the victim, and even the cutter he was driving was shattered to splinters no bigger than a hockey stick. The horse, which was thrown some yards down the street, expired a few minutes after the impact. James, who was a fish pedlar, had stabled his horse opposite Birrell's Hotel, and was just driving out to go south on Yonge, when the car swept down on him. Eye-witnesses state that the speed of the car was alarming, and that some passengers were waiting to board the car at Fulton Postoffice, which is a regular stop, but it did not pull up, evidently sweeping down the hill, so as to make the next grade with ease.

As the news of the accident traveled south and north last night, groups of people visited the scene of the accident, commenting freely on the dangerous conditions which exist there.

ANTI-NAVY BILL FREE WHEAT IS NOT PART OF CONSPIRACY NOT OPPOSED IN ONTARIO

Lesperance Denied in House That He was in League With Liberals or Wished to Worry Pelletier—Government May Avoid Direct Vote.

(Special to The Toronto World.)—OTTAWA, Jan. 23.—Sir Rodolphe Forget is here, and there have been conferences with members of the government, in which Mr. Lesperance participated, but the indications are that the latter will introduce his bill to repeal the Laurier Naval Service Act of 1910 on Monday next, and will move its second reading on Thursday, when public bills and orders have precedence.

This afternoon, when the orders of the day were called, Mr. Lesperance rose to a question of privilege. He read from The Montreal Gazette and Ottawa Citizen to prove that the government papers were charging him with ulterior motives.

"They say I am negotiating with the Liberals, and that I am introducing this bill in order to embarrass the postmaster-general. I have had no negotiations with the opposition, and I have no desire to embarrass the government. The motives which prompt me to introduce this bill are honorable, and they will be disclosed in the house when I move the second reading of the bill."

Side-Tracking Likely. It is reported today that Mr. Lesperance would find it difficult to move the second reading, and that government members would take all the time Thursday debating bills which stand ahead of his on the order paper, and that the same policy may be pursued a week from Thursday, after which public bills introduced by private members are not likely to be reached.

It seems unlikely, however, that the government would countenance such palpable obstruction, because by discharging his bill from the order paper and moving a resolution upon the motion to go into supply, the member for Montmagny could force a debate and also a vote.

The government is more likely upon the second reading to move the adjournment of the debate, and thus prevent a direct vote upon the merits of the bill.

Hats Prevail in All Weathers. No matter the climatic conditions, the custom of wearing a hat is general. It is a custom that requires the utmost attention, too, for a man's appearance may be marred by his headwear. The sale of hats is patronized by a store where only experts in hats are in attendance. Dineen's, 140 Yonge street, all all hat requirements efficiently, and offer values not elsewhere. At present hats valued up to \$3.50 are clearing at \$1.95. This is the big hat day at this house for the basement sale of \$1 hats takes place from 6 to 10. When in doubt, "bet your hat" on Dineen's.

Last Appearance in "Maggie Pepper." Local patrons of the theatre will today have their last opportunity of seeing Rose Stahl in her famous characterization of "Maggie Pepper," as this is her last season in the noted Klein play.

MASTERMAN SOON TO SUCCEED JOHN BURNS?

Labor Paper Says Former Idol of Cause is to Be Ousted.

LONDON, Jan. 24.—(Can. Press.)—The Daily Herald, a Labor newspaper, claims to have authority to state that Charles Frederick Gurney Masterman, financial secretary to the treasury, will be promoted to the cabinet, succeeding John Burns as president of the local government board.

For some time, according to cables, John Burns has been losing his influence both with the Asquith Government and Laborites. It is alleged that he has shown a conspicuous lack of energy and interest in the duties of his office, to which a handsome stipend is attached.

FEDERAL GOVERNMENT WAS BUSY BORROWER

Several Large Treasury Bills Come Due in Next Few Months.

(Special to The Toronto World.)—OTTAWA, Jan. 23.—A statement of treasury bills discounted and temporary loans effected by the Dominion Government during the present fiscal year was made today by the minister of finance as follows: August, £25,000,000. Due Feb. 16, 1914, at 4 5-16 per cent. Sept. 17, £500,000; due March 16, 1914, at 4 1-2 per cent. Sept. 17, £500,000; due March 16, 1914, at 3 3-4 per cent. Nov. 1, £170,000; due Nov. 19, 1914, at 4 5-8 per cent. Nov. 1, \$1,250,000 from Bank of Montreal at Ottawa for four days at 5 per cent.

BURIAL OF STRATHCONA NOT MARKED BY POMP

Funeral on Monday Will Be Simple Ceremonial—Ten Pall-Bearers Selected.

LONDON, Saturday, Jan. 24.—(C. A. P.)—Announcement was made last night that the ten pallbearers to act at Lord Strathcona's funeral on Monday will include Lord Lansdowne, Lord Aberdeen, Hon. Lewis Harcourt, Rev. George, Adam Smith, principal of Aberdeen University, Sir William Oster, Sir Thomas Skinner and W. L. Griffith, secretary at the high commissioner's office.

In conformity with the wishes of the family, the funeral will be of a private character as possible, despite the fact that a national tribute is being paid to his memory. The coffin will be borne in an open hearse, which, with the mourners' carriages, will proceed from Grosvenor square to Alsby, by way of Upper Grosvenor street, Park lane, Grosvenor Gardens and Victoria street. The procession to Higngate will be by way of White Hall, Trafalgar square, Charing Cross road, Tottenham Court road and Hampstead road.

TOP HAT AND FUR COAT AMONG GOODS RECOVERED

Owen Sound Man Arrested on Yonge Street Accompanied by Woman.

Charged with shoplifting in practically all the large stores of the city, Edward Watson, who claims Owen Sound as his home, and Eva Robinson, 168 John street, were arrested on Yonge street by Detectives Montgomery and Wallace last night. At the time they were arrested they had a new hat and other articles thought to have been stolen from Eaton's.

C.N.R. TAKES OVER QUEBEC RAILWAY

Obligations of Quebec Power Company Are Assumed as Part of the Deal.

(Special to The Toronto World.)—OTTAWA, Jan. 23.—That the deal which has been under way for some time between Mackenzie and Mann and Sir Rodolphe Forget, whereby the Canadian Northern Railway interests are to secure the control of the Quebec and Saguenay Railway was finally completed today, is the statement made on the best of authority tonight.

It is understood that the C.N.R. will now be enabled to secure and erect extensive terminals at Quebec along the proposed terminals of the C. P. Railway. By the arrangement today it is stated that the C.N.R. has secured a large percentage of the bonds of the Quebec and Saguenay Railway and will assume the obligations of the Quebec Light and Power Company, which has guaranteed the bonds of the Quebec and Saguenay Railway. The Quebec Light and Heat Power Company will thus become a regular public utility stock, standing on its own basis.

It is believed that the account of M. O'Brien, who has been contractor for the Quebec and Saguenay Railway, will be assumed by Mackenzie and Mann, and a double subsidy will be paid by the government for the building of the road.

BURGLAR LEAPED THRU WINDOW TO LIBERTY

Second Storey Worker Surprised While Rifling House on Dowling Avenue, Made His Escape in Sensational Manner—Several Articles of Jewelry Went With Him.

By leaping head foremost thru the opened slide in a second storey storm window, an unknown housebreaker made his escape from the residence of H. H. Cook, 20 Dowling avenue, at 4:45 yesterday afternoon. The thief got away with a valuable gold watch and chain and gold locket.

Mr. Cook, who is an elderly man, walked into his bedroom and was startled to find a young man rifling the drawers in the dresser. He called to him, but at the first sound the man took a running jump and went clean thru an opening, which must have been difficult of entrance at any time. The house-breaker evidently had got in the way he went out. At the side of the residence is a verandah, up which he climbed, and from the roof got thru the bedroom window. The marks of his hands where he hit on the snow on the roof, are plainly visible yet.

Got Clear Away. By the time Mr. Cook had called an officer, the man had made good his escape down Dowling avenue.

Another housebreaking on the same street occurred the previous day, some time during the afternoon, when G. M. Reynold's residence at 133 was entered thru a smashed rear window. Two pairs of opera glasses and two revolvers were stolen.

FRENCH DIPLOMAT WAS MURDERED BY HIS COOK

De Valdrome, Stationed at Tangier, Shot in Presence of Guests.

TANGIER, Morocco, Jan. 23.—(Can. Press.)—Paul Chevalier De Valdrome, the French diplomat agent here, was shot and killed tonight by his cook, a man named Surs, in the presence of guests who had been invited to attend an official dinner in the legation. All the guests had assembled, but the cook refused to serve the dinner, and M. De Valdrome, after vainly expostulating with him, ordered him out of the house. As M. De Valdrome was returning to his guests the cook followed him, and drawing a revolver, shot the diplomat agent twice, one bullet lodging in his back and the other in the neck. M. De Valdrome staggered into the salon and fell dying into the arms of a high official. The murderer was arrested.

SCHOONER A DERELICT BUT CREW ALL SAVED

LONDON, Jan. 23.—(Can. Press.)—The Nova Scotia schooner Tobesco, which left Alicante Dec. 23 for Santa Pola, is reported to have been abandoned at sea according to a message received by wireless telegraph at Flores from the German steamer Lotia, from Shields Jan. 12, for Boston Rouge, which reports that she has saved the schooner's crew. The Tobesco was built in 1908 at Liverpool.

WILSON MAY WIDEN SCOPE OF "BIG BUSINESS" REFORMS

Bills as Drafted May Undergo Considerable Changes—Hearings on Prohibition of Interlocking Directorates and Other Important Provisions Are to Be Held.

WASHINGTON, Jan. 23.—(Can. Press.)—The anti-trust legislative program as outlined in bills made public yesterday, is not the last word in proposed remedial legislation to regulate big business. That the tentative measures submitted may be altered or extended was emphasized today in both branches of congress and the president let it be known that he did not consider the forms of the bills drafted closed.

Pursuant to the purpose of administration leaders to exhaust the subject, it was determined by the house judiciary and senate interstate commerce commission not to introduce at this time the measures relating to interlocking directorate prohibition, disaffiliations of restraint and specification of "cut throat" competition. Hearings on the question are to be held before the bills go to congress.

The interstate commerce commission bill introduced yesterday will be taken up tomorrow by the house interstate and foreign commerce commission, which may set fit to alter the provisions suggested by the judiciary sub-committee and Senator Newlands, chairman of the senate interstate commerce commission. The fifth of the proposed bills, that to authorize federal regulation of railroad securities, probably will not be drawn for several weeks.

SENATE SHOULD AVOID POLITICS

"Be Non-Partisan" Was Sage Advice of Senator Daniel

SHOULDNT OBSTRUCT

Sir Mackenzie Bowell Apparently Fears Rejection of Redistribution Bill.

OTTAWA, Jan. 23.—(Can. Press).—The contents of the speech from the throne and the naval question were again debated by the senate today.

Senator Daniel took issue with Sir George Ross, who on Thursday described the senate as a non-partisan body.

"How can that be when there is an opposition in the senate and Sir George himself is the leader," asked Senator Daniel.

Former Redistribution Bills. Sir Mackenzie took issue with Sir George Ross, who said the senate had thrown out three redistribution bills.

Senator Danville urged that the maritime provinces ports be given justice by the government.

AUTOMOBILE FIRM GOES TO HAMILTON

Willys-Overland Company to Manufacture for Canadian and British Trade.

BRONTE YOUTH IS HURT

Gun Went Off Accidentally and Buried Buckshot in His Shoulder.

(Special to The Toronto World) HAMILTON, Jan. 23.—After negotiations extending since the early part of December, the Willys-Overland Company of Canada has decided to locate a Canadian factory in Hamilton. The purchase of the Schacht motor plant on Cumberland avenue for \$42,500 has already gone thru, and the new company will take possession on February 1, and immediately afterwards will start to distribute its cars for the Canadian and British trade. This welcome announcement, emanating this morning from the office of the city's industrial commissioner, means the addition of another industrial plant to Hamilton's activities. Engineer Sifton receives word from the office of the Hydro-Electric Commission, Toronto, this morning, stating that full consideration would be given to the allegations that over-charging was being done in connection with the beach pumping station. It was explained that there would be no difficulty in the future. While in the act of coupling an air tube beneath a train at the Junction on Thursday morning, Thomas Rhayne, an engineer employed by the G.

CHATHAM MAY TRY LICENSE REDUCTION

Temperance Forces Are Being Marshaled in Support of This Scheme.

TILBURY'S MAYORALTY

Merlin Drover Faces Charge of Ill-Treating Live Stock in Transit.

(Special to The Toronto World) CHATHAM, Jan. 23.—The question of whether local option will be submitted in Chatham or not at the end of the present year is occupying attention in temperance quarters. Ex-Mayor Harry Westman, a temperance worker, has stated that he has evidence of large numbers who opposed local option the last time but would vote for it if it were submitted again. Hotel men claim that they are keeping the law, but the statement has been made that the law is not enforced as strictly as it should be. The latest plan of the temperance forces is to bring on a bylaw is possible reducing the number of licenses. The temperance people of Chatham are not a unit on the best means of procedure, but it is thought that such a move would meet with general approbation. The scheme may be presented to the city council shortly. Dr. Sharpe, mayor of Tilbury, has resigned his position as a result of a movement that was started to unseat him. The mayor resigned before the

DEPUTIES EJECTED BY ARMED GUARDS

Hungarian Parliament Gives Excellent Imitation of Bear-Garden.

BUDAPEST, Jan. 23.—(Can. Press).—Armed guards were called into the lower house of the Hungarian Parliament today to eject unruly members of the opposition during a debate on the press reform law. Ex-Premier Count Julius Andrássy, Count Aladar Zichy and a dozen other deputies were thrown out of the building when they defied a ruling of the president. The uproar was so great that it was impossible to conduct business until the unruly members of the opposition quit the house in a body. As a result of the insults hurled across the floor of the house, Deputy Deasy challenged Count Stephen Tisza, the Hungarian premier, to fight a duel. The press reform law was carried after the tumult had subsided. The bill is designed to protect the government against the attacks of the press, and the opposition claims that it imperils the freedom of the Hungarian people. KINGSTON OLD BOYS' ASSOCIATION. The Kingston Old Boys of Toronto held their annual meeting in the C.O.F. Hall, 22 College street, and elected the following officers for 1914: President, Hon. M. Britton; Col. Sir Henry M. Pellatt; president, John McLeod; first vice-president, James Galloway; second vice-president, Reebah Tandy; treasurer, Dr. Russell Reid; secretary, J. J. Donnell; auditors, Geo. W. Gaden, Geo. B. Sweetman. The association is growing rapidly in membership and financially well off. A committee was appointed to procure a past president's jewel for T. A. Galen, the retiring president.

A CANADIAN COMMISSIONER! The Montreal Star is overdoing the Strathcona worship, and suggests that the only man possible to fill the "wide and spacious vacancy which the saint has left to be filled" is Lord Mountstephen.

They were the twin leaders of that splendid enterprise (C.P.R.). When we look toward our mountains in this city and catch sight of the towers of the Royal Victoria Hospital, we recall that it was built by Lord Mountstephen and Mountstephen.

So it is quite by association of ideas that when we look about for a fitting successor to Strathcona—our eyes fall upon the still vigorous form of his brother-in-arms, Lord Mountstephen.

The World has the highest kind of appreciation for these two great men—the one left being to our mind in many respects the greater Canadian.

But it's time we were breaking away from the Canadian Pacific tradition. Home to be contained why Van Horne or Shaugnessy? The thing that ought henceforth to be represented in London is the virile and throbbing Canada of today.

GRAND OPERA IN CANADA Toronto is becoming recognized as one of the musical centres of the world. Someone in authority said recently that there were more conscientious pianoforte students here than anywhere else.

Still another form of musical enterprise remains, and in this Toronto has to yield precedence to Montreal. Grand opera is unquestionably an exotic, but we have an all-round appreciation for art of every description, and the best will in the world to assist Montreal in acclimatizing such a delicate plant.

SMALL TOWN HOCKEY. Why can't the small Ontario towns that have teams in the O.H.A. learn to play clean, sportsmanlike hockey? Every winter the hockey season is marred by near riots, assaults on the ice and other disgraceful incidents which nearly always arise in matches in which a small town team figures.

Two striking incidents of this occurred the other night; one in the Orillia-Collingwood game, in which the Collingwood team was practically chased out of Orillia by a mob of rowdies, and the other in the Oshawa-Parkdale game, which took place at the Arena.

VETERANS' PARADE. The Veterans of 1866 will meet in Massey Hall at 2.30 on Sunday to attend the memorial service of the late Lord Strathcona.

ABERDEEN ASSOCIATION. The Toronto Branch of the Aberdeen Association will hold its annual meeting on Monday, Jan. 26, at 11 o'clock, in the west wing of the parliament buildings.

The doct's report in Orillia and Oshawa would let the teams which represent these towns understand that these thug tactics will not be permitted by teams bearing their names.

TAKING STOCK OF A CITY

Much of the trouble that came to France in connection with the Dreyfus scandal was due to the men who would rather allow an innocent man to be sacrificed than have the honor of the army attained. But was this not an entirely erroneous attitude for the members of any profession to adopt?

In this matter of the civic survey, a very similar effect is already apparent. As has been said in relation to another investigation into the affairs of a much smaller community than that of Toronto, in every city there are two groups—the element which would suppress knowledge of the city's weaknesses for fear of injuring its reputation, and the element which is willing to face the facts as a means to secure sound civic advance.

INDUSTRIAL TRAINING IN ENGLAND

Altho England has considerable leeway to make up in its educational system, the Dominion Royal Commission on industrial training and technical instruction gathered the impression that during the past ten years a great awakening of endeavor has occurred and that marvelous progress was being made in providing for the further education of boys and girls after the legal age for leaving the elementary schools.

Scotland was fortunate that in John Knox it had a reformation leader who was completely seized with the importance of a national system of education. Altho his advanced ideas were not fully realized it was yet possible to say and truly that no parish in Scotland was without its common school, and to that great fact is due the place in the world that Scotmen have taken.

Nevertheless, the commission found much in England to encourage confidence. "England," it is remarked, "has a long way to make up; but the present direction and pace impressed the commission as full of promise for the stability, growth and well-being of the headquarters of the British Empire."

General interest, especially, is being displayed in industrial education and the work of the preparatory schools is particularly noticed as encouraging the boy to select some distinct branch and to some extent to specialize upon it with a view to following it up at a later stage.

Lloyd George and Churchill

Some Comment on the Controversy Between the Chancellor of the Exchequer and the First Lord of the Admiralty.

The controversy which has arisen between Chancellor of the Exchequer Lloyd George and First Lord of the Admiralty Churchill is of the highest moment to Great Britain and her children the world over. In this article we shall attempt to make a brief examination of the causes which have led up to this controversy, and which make the present position one of crisis.

On the other hand, England for three years past has been in the throes of social unrest. There is hardly a great industry which has not had its prosperity diminished and its existence menaced by a great strike. It is impossible to say that those have been in any sense frivolous. Their causes have been real, and the various settlements which have been effected have only alleviated and not removed the causes. Therefore, they will tend to recur.

The issue is clear enough, and it amounts to an apparent deadlock. As to the outcome, we can only conjecture. In politics compromise may effect a great deal, but there are required two parties to a compromise, and in this instance we do not see that Mr. Churchill can withdraw a hair's breadth from the position which he has taken up, and yet remain true to his trust; since if he wavers he may well be endangering the very existence of that England which Mr. Lloyd George is so burningly anxious to reform.

It is a nutshell, the solution of the difficulty is simply a matter of the even distribution of effort, and the consequent more even distribution of wealth. This is the position which, as guardian of the public purse, and director of the sources of its collection, Mr. Lloyd George has to face.

And we think that in the last event Mr. Lloyd George will remember that he is a patriot before he is a reformer. He has but to bide his time, to be a little slower than he could wish, and in the meantime he may console himself with the thought that all right-minded men are with him in theory, altho grim necessity may from time to time compel them to oppose him in practice.

THE issue is clear enough, and it amounts to an apparent deadlock. As to the outcome, we can only conjecture. Indications Are That Product Will Be Similar to That of Pennsylvania. Two syndicates are drilling for oil south of Calgary and closer to that city in Alberta. They are already dreaming of the day when the place will become the centre of one of the world's greatest oil fields.

Also members of the syndicates will say little about their operations, there has been rumors that oil has been struck in small quantities. QUEBEC vs. ONTARIOS. Seats on sale at Arena, Spalding's, Mooney's and National Sporting Goods.

When two male elephants compete for the companionship of a female, writes H. R. H. the Duke of Montpensier in The Wide World Magazine, they do not forget their dignity so far as to fight for the lady. They simply face each other squarely. Then one of them pulls down a branch from a tree with his trunk and lays it at his feet. The other takes a larger branch, or pulls up a big shrub by the roots, and also lays it at his feet.

Number one then tackles a still bigger branch, and this strange competition goes on, trunk and trunk about, until at last the contestants try to pull down trees wholesale, and the one who falls to prove his force in turn is abandoned by the lady elephant, who has been an interested spectator of the strange duel. She goes off with the possessor of the largest tree, and the vanquished elephant retires shame-faced.

This trial-of-strength species of courtship is very remarkable when contrasted with the ordeal of battle of most other animals, and shows the highly developed intelligence of these enormous creatures.

CHATHAM, Ont., Jan. 23.—(Can. Press.)—In less than ten years practically all the fur-bearing animals in the country will be extinct, if the prediction made by W. P. Conway, a hunter and trapper from Randeau, is correct. Conway brought in over 150 skunk, consisting of 43 coon, 80 muskrat and 40 skunk. In three days he caught 23 coon, 25 muskrat and trap which preserve he has a permit.

St. Miques Shut Out Varsity Before Crowd in Arena, 9-0

Varsity Blanked By the Fast Saints

St. Michaels Cinch Group Honors and Are Ready for the Finals—Fast Game.

St. Michaels are ready for the Senior O.H.A. finals. They clinched the Group No. 1 honors last night when they blanked Varsity off their feet and handed the blue and white squad a huge pad of whitewash, the final being 9 to 0 and the score at the interval 6 to 0. It was the biggest crowd of the year, and it was a fine tribute to the Saints as a team that can always be counted on to give the public a good game.

Varsity played their O.H.A. team and saved the intercollegiate team for the game with McGill today. The students could never stop the fast breaking St. Mike forwards, and Murphy and Disette bodied them off their feet every time they got close in. Frank Rankin was an absentee owing to the illness of his mother, and McCamus held down the rover position, while Matthews and Richardson played the boards for the Saints.

The St. Michaels' work was perfect in every detail, and they broke like lightning throughout the hour. Matthews had his wicked shot in on top of Armstrong all night. The combination of the winners was beautiful to watch, and the usual St. Michaels' back-checking was never absent.

Unselfishness with the puck is the key to the St. Michaels' success. They carry it in three men across, and the pass is made at the right angle, with the third man on the job in case of a slip. McCamus was the speediest man on the ice, and he had the Varsity forwards worked to death with his hard checking. Dutchy Richardson, despite the handicap of a badly-bruised hand, was an able team-mate for Lafamme, McCamus and Matthews.

Varsity lost their grip of the situation in the first minute, for the Saints left them trailing right from the beginning. It was fairly clean through, but several Varsity players had a nasty habit of trying to dump a man when the referee had his back turned, but there was no ill-feeling of any kind, and the players kept right down to hockey.

Armstrong did some pretty stopping in the second half, when the Saints kept up a bombardment for the full thirty minutes. St. Mike had the Varsity defence at sea with three and four men tearing in and drawing them over, and shoving the puck to the man at the front of the net. It was Armstrong's work that saved a tally at many of these times.

It was fast for the first five minutes, with the Saints doing the pressing. Lafamme got the first counter by tearing in alone from a face-off near centre, and, seeking round with his defence, put it in the net from the side. It went from end to end, and Disette broke up a Varsity rush, carried it up, gave Richardson a pass at the side, and went thru to take the return right at the goal mouth. It was an easy goal.

The pace never let up, and St. Michaels kept Varsity on the defensive for a spell. After seven minutes the Saints rushed up and drew the defence over, and then handed the puck to Matthews, who the other side of the net, and he beat the goalie to beat. Jerry took the next one himself from right in, in front of the net, and he repeated his feat of getting the Varsity defence over and then passing. It was the prettiest kind of work.

The whole Saint front works keeping in, and the Varsity squad were backed up on their goal. McCamus saw from close in, and Matthews was on the spot to bat it in from Armstrong's stick. There was no further scoring in the first half.

TO TRANSFER THE JERSEY CITY CLUB

Edward Barrow Following the Plan of General McCaffery in Fighting Outlaws.

Following the successful strategic coup pulled off by General McCaffery of the First, whereby he brought a second organized outfit to Toronto, thus stampeding the outlaws to the woods, Edward Barrow proposes to wage the same kind of warfare in Greater New York.

The big town may have a fourth club next season, it will not necessarily be an outlaw clan. President Barrow of the International League is in favor of a proposition to transfer the Jersey City franchise to the greater city, Barrow would like to move the club to either Brooklyn or Queens.

Q. C. IN FINAL WITH ABERDEENS

Too Soft to Finish Up Group Competition—Single Rinks Again Postponed.

Queen City and Aberdeens curbed their way to the final in Ontario Tankard Group 4 yesterday morning, and the ice was too soft for them to clash in the afternoon.

Queen City beat High Park, H. A. Haisley outscoring Dransky by 16 points. R. B. Rice was down one shot to C. F. Turner. The final will be played at Granite this afternoon at 2:30.

SARNIA CURLERS CONTINUE TO WIN.

SARNIA, Jan. 23.—Sarnia won in Group 16, Ontario Tankard finals. Three clubs defeated Grand Rapids, Toledo, Chatham. The games were as follows:

Sarnia—A. Johnston, A. J. Sherratt, W. Nickell, W. A. Costello, R. Kerr, Col. Mackenzie, S. W. Keay, skip, 8; J. B. Phelps, F. Q. W. Kerr, J. C. Barr, M. Hunt, D. E. Duffin, sk., 15; W. A. Watson, sk., 15; M. F. Kerr, sk., 16.

THIRD ROUND POSTPONED.

The last game in the second round of the single rink competition was curbed yesterday afternoon on soft ice at the Granite. The final between Queen City and Aberdeens will be curbed at 2:30 on Monday at the Granite.

CLOSE GAMES IN LONDON FINALS

LONDON, Ont., Jan. 23.—The finals of the last two events in the city bonspiel were not concluded until 6 o'clock this afternoon. The results were:

ST. ANDREWS WERE BEATEN BY U. C. C.

Scotchmen Received Their Second Reverse at Hands of Upper Canada.

Upper Canada, by reason of their 2 to 1 victory over St. Andrews yesterday afternoon at the Arena, have now a clear lead in the race for the honors in their group, and unless St. Andrew's turn the tables on them the next time they look just good enough to grab the title. It was a nip and tuck tussle all the way, and the result was ever in doubt. The grand defence work of the college boys won out for them, altho they left several openings at last, but which the score could have been tied up.

There was no scoring in the second half, and both teams kept the opposing goalkeepers busy. The last half was a battle royal, and the bumps and slaps were much in evidence, as was also the penalties to offset these discrepancies. The Scotchmen were better than their opponents and they utilized this well in making their tally.

Dean and Heintzman were the stars, and they received rounds of applause for their all round work. Hatch and Wright were the best men. Cantley is a terrific player, but in using his body he forgets himself and spends too much time on the fence, naturally. There was quite a lot of unnecessary tripping and fouling on the part of the Scotchmen, which kept Reserve Wagborne busy stamping out. Eight minutes after starting Peters, who had a past record of only one followed thirty seconds later by Heintzman with a hard shot, which was out.

Summary.

1. Upper Canada, Peters, 8.00
2. Upper Canada, Heintzman, 5.00
3. St. Andrews, Wright, 5.00

No score.

Referee: Waghorne.

Intercollegiate Hockey Here Today

Varsity will stage another double-header this afternoon, when their Juniors in the first game at 1:30 meet Brampton in an O.H.A. fixture, and they expect to trim the visitors in quick time. They may find a stumbling block, however, in their path to victory and have the tables turned on themselves. The blue and white will go into the game prepared to win, so that it looks like a real little struggle. The first senior Intercollegiate Union game will be staged at three o'clock, with Varsity and McGill trying conclusions. If the blue and white can gather a team together that are not too tired after their game with Queen's last night, they should have a good run for their money. The east-men have been traveling under a jinx so far this season and they expect to hand him his glory when they tackle the Irishmen. Murphy's pet has been flourishing under something even worse than a jinx, as far as they can see, but if they do not find his vulnerable point soon they may finish the season under his leadership, however, tonight looks like a possible opening and the Dynamite boys and Co. will set out to win. McGill will be out to win, but the battle at Ontario is not for the night, it is on top of the N.H.A. heap, and it should be the fastest and wildest of the season of the game that will be seen in the winter. Woodbine and East Toronto will play

BASKETBALL AT WEST END.

Tonight on the West End Y.M.C.A. floor the public will likely see two fast basketball games, the first between the Beverley Church team and the West senior team. The Beverley team the other night won from the Dovercourt Baracas, thereby taking first place in the Senior Church League. On the team were W. Marshall, who at one time played on the West End seniors, and the noted runner, J. Treasider. The big game will start at 9 o'clock and will be between the fast Hamilton Y.M.C.A. team (champions of Canada) and the West End seniors. This game will no doubt be one long to be remembered by all who see it, in fact it promises to be as good, if not better, than the great contest played against the University of Chicago. Both teams will be in the best of condition for the fray. Mr. J. Malcolm, who is without doubt one of the best officials, will handle the game.

STRATHCONA'S MEMORY HONORED

Board of Trade Expresses Regret at Empire Builder's Death.

HIS LIFE AN EXAMPLE

Canadians Proud to Have Claimed Him as Their Representative.

The board of trade at its meeting yesterday afternoon passed a resolution of condolence regarding the death of Lord Strathcona as follows:

"Resolved that the council of the Board of Trade of the City of Toronto desires to place on record its sense of the great loss sustained in the death of Lord Strathcona, who for half a century has been a conspicuous figure in the commercial and political life of Canada and the empire.

"During his protracted life, with an intensity of purpose and indomitable perseverance, he devoted his time, ability and great wealth, with all the energies of his manhood, to the service of his fellow countrymen, and was a most important factor in the successful welding of scattered provinces into a Dominion, now the central and dominating figure in British colonial empire.

"Canadians are proud to have claimed him as their representative, but in a larger sense he, having been so closely connected with the growth of the empire, may fairly be acclaimed the greatest imperial master builder. It is difficult to rightly estimate the transformation that has been wrought in the ideas, circumstances and problems of the component parts of the empire during his incumbency of the high commissioner's office, that it can safely be asserted that, due largely to his influence in the shaping of events, there has never previously occurred in a similar period such remarkable strides in the path of progress and the increased growth of imperial ideas.

"His whole life has been one great and abiding lesson upon the paramount importance of character, while his princely munificence in various endowments, educational, scientific, and humanitarian, as well as innumerable private benefactions, proclaim him innate goodness.

"In his death the world-wide empire mourns the irreparable loss of one who has commanded the esteem of those who direct its affairs, and occasioned a universal sense of national bereavement, hallowed by the recognition of having had the advantage for such a lengthened period of his useful and honorable career.

"Further resolved that this resolution be inscribed in the minutes, and the secretary be instructed to convey to the Honorable Strathcona, the deep sympathy of the board in this great bereavement, together with a copy of this resolution."

NEW DRYDOCK FOR SAULT IS ASSURED

Contracts Have Been Signed—Work Will Cost Million and Half Dollars.

(Special to The Toronto World)

SALT LAKE CITY, Jan. 23.—At the annual meeting and dinner of the Sault Ste. Marie Board of Trade tonight, Dr. J. Shannon, president of the board, reported the information, received from P. T. Rowland, the local representative of the Sault Ste. Marie Shipbuilding Company, that the new drydock which Sault Ste. Marie has been looking forward for such a long time is now an assured fact, the contracts for same having been signed today.

The operations which with this new drydock will be commenced in the early spring, and will involve an expenditure of a million and a half dollars. Officers elected for the year are: Dr. President, Dr. J. A. Shannon; first vice-president, Maurice Simpson; second vice-president, P. T. Rowland; third vice-president, S. W. Fawcett; fourth vice-president, C. J. Shannon; secretary, T. J. McGillicuddy; Messrs. Reid, Plummer, Farwell, Sheridan, Sheppard, C. N. Smith, Huxley, Darch, McPhail, Fulton and McQuaid were elected to the council.

PRESIDENT GUTHRIE ILL.

President Tom Guthrie of the T. and D., who has been ill for some time, was taken to the General Hospital last night suffering from pneumonia. He is being operated on today, and all lovers of football wish him a speedy recovery and an early return to his duties. Guthrie has handed over the reins of government to First Vice-President J. A. Shannon, who will handle the affairs of the league.

CUT THIS OUT

Famous Specialist's Recipe for Catarrhal Deafness and Headaches.

If you know someone who is troubled with head noises, or who has been cut out of this formula and used the means of curing the same, you will have the means of curing your own. Recent experiments have proved conclusively that catarrhal deafness, head noises, etc., are the direct cause of constitutional disease, and that nature, sprays, inhalers, etc., and sedatives, if ever effect a permanent cure. This being so, much time and money has been spent in vain by a noted specialist in performing a cure which is not effective. The following formula, which has cured thousands of cases of catarrhal deafness, and which was originally formulated and used in the treatment of the deafness which has been cured in the following cases, is given below in understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from your druggist 1 oz. Parment (Double Strength), about 75c worth. Take this home, and add to it 1/2 pint of hot water and 4 oz. of most strained sugar. Stir until dissolved. Take one tablespoonful four times a day. The first dose promptly ends the most distressing head noises, headache, dizziness, cloudy thinking, etc., while the hearing rapidly returns as the system is treated. Loss of smell and sneezing, drooping in the back of the throat are other symptoms which should be the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly all cases of catarrhal deafness, or catarrh of the ear, therefore, there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh of the ear, should give this prescription a trial. There is nothing better.

Important—In ordering Parment always specify that you want Double Strength. If you send for the International Trade Journal, 74 S. Avenue Street, New York, you will receive a special price.

HAWAIIAN ISLANDS TO BE SAFEGUARDED

U. S. Fears Foreign Naval Power Might Control Trade Rates.

WASHINGTON, Jan. 23.—(Can. Press.)

An extensive system of land fortifications for the Hawaiian Islands is proposed in the annual fortifications appropriation bill reported to the house today. The bill would provide \$457,000 to build fortifications as part of the department's plan to establish a strong military post supplemental to the Hawaiian naval base.

Gen. Leonard Wood appeared before the subcommittee and when Rep. Sherrill asked if the Panama Canal defence prompted these plans, Gen. Wood said: "The Panama Canal has been a strong additional reason for doing this, but the defence of the Pacific coast is also a reason—I think the fundamental reason.

Also we do not hold securely these islands, capable of sustaining a population of 500,000 people, and if they should fall into the hands of a strong naval power, thereby placing that power in a position where it would have practically undisputed control of the trade routes, he would be so near to the trade routes that he would virtually cut off our coast on islands sufficiently fertile and large to maintain his force, and to give him a splendid harbor as a place for supply and refuge for his fleet."

FREE WHEAT IS NOT OPPOSED

(Continued From Page 1.)

consideration the proposal to extend the time for filing applications under the Fenian Raid Bounties Act.

Mr. Lesperance, the Conservative member from Montmagny, announced his determination to bring in a bill to repeal the Naval Act, but denied that he had carried on any negotiations with the opposition or was actuated by any hostility toward Quebec members of the cabinet.

Mr. Nesbitt (North Oxford) said that the senate by rejecting the naval bill had made possible the naval holiday now urged by Mr. Churchill. The people of Canada desired naval defence and were anxious to relieve the British taxpayer from the burden of protecting Canada. But they were desirous of entering European politics and the European competition in armaments.

Staple Foods Only. Mr. Nesbitt then undertook to interpret the free food platform announced by Sir Wilfrid Laurier at Hamilton. He said the Liberals favored a tariff upon fancy canned goods and delicacies. They did not favor staple foods admitted free of duty. He contended that the Canadian cheese industry was on the decline in spite of protection. The Oxford farmers sold their milk for shipment to Detroit at \$1.90 per one hundred pounds, while the cheese factories only received \$2.50.

"What the farmer of this country wants," Mr. Nesbitt continued, "is not protection nor education, but lower freight rates and wider markets. If the western farmers do American wheat, why retain it? It may be objected that it will benefit the railway, but in the end it will benefit the farmer who has the west again become prosperous."

Mr. Nesbitt said the Liberal party opposed the tariff on agricultural implements should be greatly lowered or abolished altogether.

Mariners Not Warned. Mr. Lewis (West Huron) gave a graphic description of the terrible shipwrecks upon the Great Lakes last November. He said that in the month of November, eight of them disappeared altogether with all on board. He believed the disaster might have been averted if a hurricane had been sent out on the fatal Sunday and if the port of Goderich had been properly equipped as a port of refuge. The weather bureau had no notice of a storm from the northwest, but that storm was over, and it was a cause of the disaster which had caused the damage, and of that the mariners had no notice.

Mr. Lewis also advocated the establishment of a land line for vessels upon the Great Lakes. The people, he said, appreciated the magnitude of the shipping on our inland waterways which amounted to a tonnage of 100,000,000 per year.

Banks' Stiff Rates. Mr. Lewis then referred to the interest charged by the chartered banks. At the present time it was paying 3 per cent, although the Bank Act fixed the legal rate at 7. He contended that when the banks raised their rates of discount from 5 to 3 per cent, they should increase their rate of interest made to their depositors from 3 to 4 per cent.

The West Huron member also advocated compensation for innocent persons improperly convicted and imprisoned, and suggested that all immigration hereafter from south eastern Europe be forbidden by law.

"Coupon Patriotism." Mr. Sinclair (Guthrie) said the prime minister had no well-defined public interest. The Conservative party, according to Mr. Sinclair, was put in power by the coupon, and was at their beck and call. Their cry was to "leave bad enough alone." The government, he said, gave a fine exhibition of "coupon patriotism." He had been warned by no less an authority than The Toronto World to profit by the lesson of South Bruce and get away from the domination of the railways and the financial junta at Montreal.

Meighen Cautious. Hon. Mr. Meighen (Portage la Prairie) made an elaborate constitutional argument to show that the senate had exceeded its rights in amending the highways bill. He defended that measure as being within the competency of parliament and conceived in the public interest. He declined to declare himself on free wheat and other proposed changes in the tariff by saying that the policy of the government upon these subjects could only be properly made known by the finance minister, the budget speech.

GANG OF CROOKS HELD IN TORONTO

Detective Wallace Recognized Leader as He Walked Street.

ALL HAVE BAD RECORDS

Will Be Taken to Philadelphia to Answer Burglary Charges.

But for the remarkable memory for faces of Detective Wallace of the local office, Toronto, which in past years has been comparatively free of pickpockets, would have in the near future been made the headquarters of a gang of the cleverest international criminals in existence.

While walking along King street a few days ago, Detective Wallace recognized a man who he had seen in a photograph of a gang of pickpockets. O'Keefe, leader of a Chicago gang of pickpockets, O'Keefe has a dozen aliases and has served time in half a dozen American prisons for the crime of which he is postmaster, pickpocketing.

Wallace trailed him to 188 John street, and yesterday Sergeant Mackie and Detective Wallace and Montgomery, raided the house and arrested O'Keefe, Allen, alias Smith, Algero and Williams; Lillie O'Keefe and Annie Johnston. Allan has done time in Joliet, St. Louis and Columbus. The leader of the gang was a noted pickpocket and burglar, and was professional pickpocket, but he was not yet they had "pulled" nothing in Toronto.

All are wanted in Philadelphia for operations alleged to have been carried on in the last year, and will go back with a police official today.

The quartet form part of a gang, who headquarters in Chicago, travel throughout the states in the union, and from Montreal as far west as Winnipeg. All have police records. According to Inspector Kennedy it was the intention of the gang to visit the headquarters to this city, and carry on their main operations here. The inspector states they have finished working in Montreal, and intended leaving for the Ottawa races in a few days.

SECOND PAYMENT OF \$500 NOW RECORDED

(Continued From Page 1.)

Professional detectives alone—however convincing and credible that may be—that The Mail depends to substantiate its charges. From the inception of the case the operations have been carried on under the personal observation of the highest repute and of unquestioned integrity. This gentleman has no political affiliations of any kind whatsoever. He has never been identified in any manner with any political party or movement. He has and has had no other interest to serve than that of the public welfare. He has been awarded the passage of money alluded to in the charges made by The Mail, and his evidence, The Mail believes, will go a long way towards supporting and substantiating the other evidence adduced.

Other Evidence. In addition to this, The Mail will bring to the support of its case documentary evidence in the form of letters, telegrams, etc., sent by some of the accused, hotel records, and a mass of other corroborative "exhibits" such as shall leave no room for doubt as to the truth of the charges.

The investigation had its inception abouted just prior to the passage of the legislature, concerning alleged bills, inimical to the public before that body, which were to be brought into effect, but which were found confirmation in the acts or attempted acts of the law-makers in Quebec.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder Bothers You, Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that irritate the urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jud Salts; take a tablespoonful in glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from pure potassium and lemon juice, a salt-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and you will wonder why it is that because of your kidney trouble and

GEORGE JAMES WAS KILLED BY CAR

Struck by Radial at York Mills and Died Instantly.

RESIDENTS INDIGNANT

Will Ask Railway Board to Hold a Thoro Investigation.

(Continued From Page 1.)

The stable of the York Mills Hotel is situated on the west side of Yonge opposite the hotel and just at the side of the car tracks, and no sign can be seen from the street without crossing the tracks. As the cars always travel pretty fast coming down the hill, the danger is that a car driving out on the street might strike the horse of an approaching car, and so far as the morning on the cars are concerned, a rig might drive out suddenly when they least expected one to appear.

Passenger's Story.
From statements made by a man in the neighborhood to a passenger on the car after the accident, James' horse was standing across the tracks, the car came over the hill, and after being backed into the shed came out again suddenly right in front of the car, the horse being hit so squarely that it was projected down the track in front of the car while James was thrown to the side of the track as the rig was smashed up.

W. J. Lawrence, florist, of Roselawn avenue, North Toronto, who also has a business place at Richmond Hill, was a passenger on the car, which he boarded at Richmond Hill at 8:06.

Heard the Whistle.
"The first thing I heard as we started down the hill was the car whistle blowing, and then the crash came, with the noise of splintering glass."

"Was the car going very fast?"
"Just the usual speed, I think," replied Mr. Lawrence.

James was found and he alleged he saw James lying at the side of the car tracks, and the horse lying farther down the road. The accident occurred about 8:25. Mr. Lawrence did not notice anyone waiting at Fulton P.O.

Altho carrying on business as a fish pedlar, James was an old country jockey, and took part in a steeplechase at Elliott's farm in the fall. He stayed at 174 Woburn avenue during the summer, and in the city in the winter. He is survived by a married daughter, Mrs. Coffat, who stays next door to 174 Woburn avenue.

Bond's House, Yonge Street. When the accident happened and attended to the unfortunate man. The world learned that James was pulling a horse-drawn carriage, and that the back of the cutter in which James was driving, sending the man and horse a distance of thirty-five yards, and the main of the cutter were hurled hither and yon for a distance of 50 yards up the hill.

Boys Shouting. Just as the horse was being out two boys shouted to Mr. James, telling of his danger, but he evidently did not hear. The doctor thought that death must have been instantaneous.

Sixty Pills. The facts were verified by David Birrell, proprietor of the hotel, and for yards up the hill the remains of the horse were seen. He stated that the motorist wanted to go on to his home, and he was not until Dr. Bond arrived. Previous to Dr. Bond's arrival, Dr. McCormack of Edinboro had been summoned and he arrived soon after. The horse had its legs broken and died a few minutes after the accident.

Last Hospital Closed. West Toronto is now without a hospital of any description. At noon yesterday the Walker Hospital on St. John's road, which about six months ago succeeded in being closed, and the same address, closed its doors, and the last patient, Mr. Edwards of 31 St. Clair avenue square, who had been confined to bed there with an injured leg for two weeks, was taken home in a motor ambulance. During its brief existence the Walker Hospital had been exceedingly generous in its treatment of patients and had won a good name among the medical profession in the western part of the city.

Collegiate at Home. The annual meeting of the Humber-Side Collegiate Institute Literary Society was held last night in the auditorium of the school, which was highly decorated with palms and bunting. The guests were received by the masters' wives, after which dancing took place in the assembly hall. During the intermission a charming musical program was rendered by graduates of the school.

Double Deceit. The Double Deceit Social Club held their third annual dance last night in the Artistic Street Masonic Temple. About 75 couples were present, and enjoyed the hospitality of the club.

Earlscourt. A graduates' "At Home" will be held at Oakwood High School, St. Clair avenue, on Wednesday, Feb. 11, commencing at 8 o'clock. Active preparations are being made to make the affair a great success.

St. Chad's A.Y.P.A. will hold a grand social in the basement hall of the church on Thursday next, Jan. 29, when St. Edmund's A.Y.P.A. will be the guests. The proceedings will commence at 8 o'clock. Rev. H. Smart is expected to be present.

Flags Half-mast. On all the public schools in the Earlscourt district the flags are flown at half-mast on account of the death of Lord Strathcona.

Another Theatre. James Manchester is making application for a license to erect a large picture theatre at the corner of Elmwood avenue and St. Clair avenue. The frontage will be fifty-three feet with a depth of one hundred and thirty feet, and the building will be a three-story one of the most modern design.

Accident to Skater in Ward Seven Results in Internal Injuries.

SIMPSON ON POVERTY

Says City Should Get at the Cause of Present Unemployment.

A good turnout of citizens greeted Controller James Simpson at the meeting of the Ward Seven Ratepayers' Association in the Annette Street School last night. The subjects discussed were those which have often been brought up at the meeting before, with the exception of the problem of the unemployed. Transportation with regard to West Toronto was discussed.

"There is one obstacle which stands in the way of all these proposed lines," said Mr. Simpson, referring to the Annette Street extension, the Bloor-to-Quebec, and the Dundas extension routes. "The obstacle is that nothing should be done in regard to the construction of any of these lines until the pending negotiations for the purchase of the railway are concluded. The suburban company should be ordered to extend their street car line west, and if it is not commenced within six months the city should build the line themselves. There should be no discrimination in the payment of the citizens on the outskirts of the city."

I do not believe we are really giving the citizens a square deal by submitting both one proposition, and I think there should be two or three alternatives on the subject, and the incapacity to separate personalities from principles makes it wrong to submit a referendum at a general election."

He touched on the sewerage situation. The reason that the work is being held up is because of the great difficulty in the construction of the two large trunk sewers, and when these are completed, Ward Seven will have an excellent sewerage system.

Sewer Mix-Up. One of these sewers is a six-foot one, and it empties into a three-foot sewer. Why is this? Controller Simpson promised to find out such in the case, and if so, he would know why such an anomaly exists.

Kelele street, Oakmount, Pacific and several other streets were quoted as having complete local sewers, but such was found not to be the case. A number of citizens had complaints as to the conditions of the sewers in their neighborhood.

With regard to the unemployed, Mr. Simpson believed that the council should get to the root of the matter and find out the reason for the poverty. The installation of the employment bureau has been a temporary relief, but the same conditions will exist again.

At the close of his address, Controller Simpson answered several questions relating to civic works asked him by ratepayers present, and a vote of thanks was tendered him.

Hit by Bob-Sleigh. While skating on an open space near Park road yesterday afternoon the 13-year-old son of Mr. and Mrs. George Edmunds of Bertha avenue, Swansea, was struck by a bob-sleigh on which some of his companions were coasting down a nearby incline, and seriously injured. A Kayler of Annette street was summoned, and the lad was removed in Speers' ambulance to the Hospital for Sick Children, where it was found that he had sustained severe internal injuries. He is now being treated to recover.

Lakeview Lodge, I.O.O.F., held their monthly meeting last night in St. James' church, on the corner of Dundas and Bay streets. In the Sandy Row Volunteer lodge rooms at Edinboro avenue and Oiler avenue the District of Toronto held its convocation and elected officers for the ensuing year.

JOHN HODGINS, AURORA, KILLED BY FALLING LIMB OF A TREE

His Skull Was Fractured When He Was Struck by Heavy Timber and He Died at His Home a Few Hours Later.

While cutting timber in the bush near Aurora yesterday morning, John Hodgins, 50 years old, was so badly injured by the falling limb of a tree that he died at his home in Aurora at 11 o'clock. Hodgins was an employee of the Cane factory, and had been cutting heavy timber. In falling, a tree struck another and broke off a large limb, which fell, striking Hodgins on the head. He was at once taken to his home at Aurora by fellow-workmen, but died a few hours later from a fractured skull.

WANTS COUNCIL TO MAKE GOOD

Our Runnymede cannot even get a hearing for better conditions. Our garbage collection was a joke. We were to have it collected at different intervals. Up to the present time it has been collected but once only. There has been a petition before the council for weeks regarding a house water supply, but so far to relate, nothing, absolutely nothing, has been done to relieve the inconveniences of the ratepayers in this district of Runnymede. Let us trust that the time for sliding has passed, and our complete council will take such a hold on the vital, important things pertaining to the betterment of Runnymede, that they will make those anti-

RUSSELL KNIGHT MOTOR

Breaking World's Reliability Record

Has Run 216 Hours—Nine Days and Nights Under Full Power Without Adjustment, Stop or Repair

Now Running Better Than At The Start

In May of 1909, the Dalmer Company of Great Britain submitted two of their Dalmer Knight Engines to the severest test that, up to that time had, ever been undertaken by an internal combustion motor. This run included 132 hours with wide open throttle on the bench, then a run of 2,000 miles on Brooklands track and a further bench test of five hours. The successful completion of this test is now a matter of history.

In December last, in the United States, before the Automobile Club of America, the Moline Automobile Company, of Moline, Illinois, submitted one of their

Moline Knight motors to a test. The marvellous performance of that engine is fresh in the minds of motorists. It established the world's record for reliability and power production. We believe that it is possible in Canada to produce a product that will meet competition with that produced anywhere in the world.

On Wednesday, the 14th of this month, we selected from our stock one of our regular motors which had just been assembled and given its usual short run on the bench, but before it had received its full regular test.

It was to run day and night continuously until such time as it had either broken all records or required adjustment or repair. Every minute of the time it was to be under the technical observation of Professor H. W. Price (Engineering Department, University of Toronto) or his associates. It was to run constantly under wide-open throttle—commencing at a speed of 500 revolutions per minute the first day, and increasing by 100 revolutions per minute each day until the maximum motor speed was reached. The motor is strictly a stock motor in every respect.

Up to date after nine days' constant running, this motor has broken two world's records.

I. RELIABILITY. It has run 216 hours, without a single adjustment, stop or repair.

II. LUBRICATION. It has established a new economy record for lubrication—using less than one-fourth the quantity of oil consumed by one of the finest poppet motors in a recent official test.

To-day (Friday) at 3 p.m. this motor is running at 1,400 revolutions per minute. It is developing 47 1-2 h.p.—almost 75% over its R.A.C. rating of 28 h.p. It has run a total of 216 hours. It has covered a distance equal to 8,500 miles—UP HILL. It has not had a single adjustment, stop or repair. Yet it is running swifter—pulling stronger—working smoother than at the start.

Beauty of line, luxury of appointment, and completeness of equipment are combined in the Russell with a degree of motor-reliability and economy not equalled in any other car.

NEWS FROM THE CITY HALL

CONTROLLERS NOW ARE RESPONSIBLE

Each Will Take Special Interest in One Department of Administration.

CHURCH MAY NOT ACT

Threatened to Resign From Treasury Board in Fit of Petulance.

The nailing of a lie was a bit of sensational procedure in the board of control yesterday. The room was filled with deputations at the time. Controller Church charged that the treasury department had been interfered with last year. His object was to bait Controller McCarthy.

"I demand that the acting city treasurer be sent for and that he be asked if there has been any interference with the treasury department," Controller McCarthy said with the snap of an anger.

Away sped one of the messengers and brought Mr. Patterson before the board.

"Did any member of the treasury board or of the board of control unduly interfere with the treasury department," Controller McCarthy asked Mr. Patterson.

"No," Mr. Patterson promptly answered. "It was on my initiative that every financial transaction was made, and I received every possible assistance in carrying out every transaction."

"I'm not going to be bluffing by Controller McCarthy," Controller Church declared. "I resign from the treasury board," he added.

"I intend that you shall cease stating absolute untruths at this board," Controller McCarthy declared to Controller Church. "Have I directly or indirectly attempted to interfere with you?" he asked of Mr. Patterson.

"No," Mr. Patterson replied. "Has there been any time that you have not had a free hand?" Controller McCarthy further asked.

"No," Mr. Patterson answered. "That ended the dialog. The lie was nailed."

There was another sensation, also enjoyed by the crowd. Controller Simpson offered a motion that each controller specialize in an allotted share in the government activities, with the purpose of more intensive government and the supplying of better information to the city council.

Church in Action.
Off went Controller Church into hysteria. "Unwarrantable interference with heads of departments!" "Destroy the usefulness of the board of control!" were among his exclamations. The heads of departments, Controller O'Neill asserted.

"Nothing of the sort is intended," Controller Simpson went on prodding. "It was a tragedy time and again last year to see the ignorance of some controllers upon department affairs. If Controller Church refuses to take his share in the government we can find a way out, and the council will act quickly."

O'Neill Jumped Over.
"I'm willing to be responsible for the property department," Controller O'Neill declared, and then left Controller Church a lone mutineer.

"Toronto has become too big to be governed in the old way," said Controller Hocken. "The work must be divided. The mayor's office has to be relieved of excessive work. Matters are sent to me which should be attended to much more quickly if turned over to controllers."

Controller Simpson's motion carried, Controllers Church and O'Neill voting against.

Controller McCarthy is to specialize on the works department. Controller O'Neill on the property department and Controller Church is allotted the treasury department. If he refuses to do his duty the council will likely appoint an alderman to inform upon treasury department affairs.

The report of the committee on redistribution of wards was referred back.

To Help Workmen.
Controller Simpson put thru a motion that legislation be asked to authorize the city to buy cheap land outside the city limits for reselling to workmen who want homes of their own.

R. A. Ross & Co. presented an account of \$7000 for valuating the Toronto.

Kidney Trouble Is Hereditary?

But Dodd's Kidney Pills Always Cure It.

Dresden Man Who Inherited Trouble, Finds Speedy Relief and Permanent Cure in Dodd's Kidney Pills.

Dresden, Ont., Jan. 23.—(Special).—Whether kidney disease is hereditary or not is a matter of opinion. Mr. Samuel Burkett, a well known resident of this place, is convinced that he inherited his trouble from his parents. He knows that Dodd's Kidney Pills cured it.

"I inherited my kidney disease from my parents," Mr. Burkett states. "I was treated by a doctor, and tried various medicines, but it was not till about eighteen months ago when I started to use Dodd's Kidney Pills that I got any permanent relief."

"Since then I have not felt any effect of my old trouble, and I feel that anybody troubled with kidney disease will be benefited by the use of Dodd's Kidney Pills if they follow directions closely."

"I hope that others may be helped by Dodd's Kidney Pills. I am well known here, and anybody who wishes more particulars of my cure can have them by writing me and enclosing stamps for reply."

Dodd's Kidney Pills never fail to cure any form of kidney disease.

PLAN TO KEEP TAB ON ASSESSABLE INCOME

Commissioner Forman Will Get Daily Returns of All Mortgages Registered.

WOULD MAKE UP DEFICIT

Ten Millions More in Taxable Incomes Would Help Pay City Bills.

A practical means for additional civic revenues has been inaugurated by Commissioner Forman. He has arranged to get daily returns from the registry office of all mortgages registered. A clerk in his department is compiling data from those returns, which inform the department of the mortgages upon realty in the city.

At present many thousands of blanks are being mailed from the department to citizens, these blanks to be filled in as a sworn statement of assessable income. The returned blanks which show a difference between the sworn statement and the data supplied from the registry office will invite further investigation. Citizens who have contracted the habit of throwing the blanks into the waste-paper basket and have an assessable income will be embarrassed to explain.

It would take less than ten millions of additional assessable income to provide the \$100,000 additional revenue that was placed in last year's estimates, and which did not materialize.

City Not Causing Delay.
Onto Electric Light Company's property. It was approved.

A deputation protested against the assessment for the McCaul street widening south of Anderson street and Controller O'Neill put thru a motion that the property owners pay 25 per cent. and the city 75 per cent.

North Toronto sent a deputation to urge action in the widening of Yonge street. The deputation was assured that the city is not delaying the railroad company in its work there, and that the widening will be commenced at the earliest possible moment.

Controller O'Neill was appointed representative of the board of control on the board of governors of the Western Hospital.

East End Ratepayers' Association complained that contractors on sewer work are not paying the union rate of wages, some workmen receiving only \$1.25 per day. Commissioner Harris will be asked for a report.

Controller Simpson asked for the tabling of the correspondence between the fair wage officer and contractors on the municipal auditor as to rate of wages paid. The request was granted.

Toronto Pays for These.
Commissioner Chisholm reported 86 prisoners in Toronto jails on Jan. 20, who are committed to provincial institutions as follows: 68 to the Central, 15 to the asylum for the insane and 3 to the Mercer.

"There are more prisoners held in Toronto jail under commitment than in all the rest of the jails in the province," Controller McCarthy said. "Toronto has to pay for the keep of those 86 prisoners, also they should be in provincial institutions long ago."

He put thru a motion that Governor Chambers be asked to appear before the board next Wednesday and explain why so many prisoners under commitment are held in the jail.

Tax Law Amendments.
Commissioner Forman recommended applying for amendments to the Assessment Act as follows: 1. To repeal the clause which provides that the assessed value of improvements to land shall be the increased value which the improvements give to the land. 2. Lessees of the University of Toronto property who are not attached to the university shall pay taxes on the land as well as the building. 3. Those assessed for income from business or investments must pay the tax for the year so assessed, under all circumstances.

FAVORS GRANTED TO CITY ALDERMAN

J. T. V. May Erected House With Insufficient Yard Space on Crawford St.

MORE OUTSIDE WORK

Employes of Architect's Department Freely Admit Making Extra Money.

That Mr. Sykes, chief plan inspector of the city architect's department, worked at nights to go over the plans of the Harris building Company so that the work could be finished before the frost came in 1912, and that the chief evidence brought out at the enquiry before Judge Denton yesterday, was also admitted by Ald. May that he had a house erected on Crawford street with yard area which did not comply with the by-law.

Wm. Leach, president and general manager of the Leach Construction Company, admitted that the excavating for the Harris building was started before the plans were passed.

Pay Was Not Too Much.
Sykes stated that he did the work in question to help out the department, which was overcrowded with work at that time. He also thought that he was helping the Harris people and himself. When questioned as to the money paid, Sykes considered it a small payment for the amount of work done, and said that he would not do it again for that amount.

Sykes also admitted having drawn plans for other people, including L. S. Levee, at that time chairman of the board of education.

TAYLOR PAYS PENALTY FOR HIS AWFUL CRIME

Murderer of Charlie Dawson Executed at Brantford—Met Death Stochastically.

BRANTFORD, Jan. 23.—(Can. Press).—James Taylor, who murdered the boy, Charlie Dawson, was executed a few minutes after 8 o'clock this morning.

Taylor, who had dressed in his ordinary street clothes and a pair of bedroom slippers, rose and stood quietly while the executioner fastened his hands behind his back with a strap. He was then led back into the narrow hallway, which is used as a gallows and placed on the trap. He walked with firm step and head slightly bowed, and from the time he left his cell he didn't speak a word to any person. As the hangman adjusted the black cap and noose over the condemned man's head, Adjutant Hargrove stood close by repeating the 23rd psalm, and when he reached the phrase, "Ye, the I walk thru the valley of the shadow of death," the hangman pulled the lever and the body disappeared from view. Death was instantaneous.

By previous arrangement the body will be handed over to an aunt of Taylor's late wife and a step-brother of Taylor's, and will be interred in one of the local cemeteries, instead of in the jail-yard, as is customary in cases of hanging.

WANT CHECK PUT UPON IMMIGRATION

Parade of Unemployed, Postponed Till Next Week, Will Be Protest.

OVER FIVE THOUSAND

Have Registered With the Social Service Commission—Work for Many.

The unemployed men of Toronto did not hold the demonstration parade yesterday afternoon, as was proposed, it was considered by the committee that it would be better to wait until next week so that more elaborate preparations could be made and so that the necessary permit can be secured from the chief of police. A route of parade must be made, and it is thought necessary that every man available should turn out.

It is understood that the demonstration to be held next week is to be in reality a form of protest against the continuance this year of activity in bringing immigrants by the shiploads to Canada.

Many Have Registered.

Secretary Dickie of the Social Service Commission reports that he has placed at work one-half the number of unemployed registered at the civic employment bureau. There are now 5,000 unemployed men registered.

The city has provided work for a large number of them. Nearly two hundred are employed at grading in city parks, and the works department is increasing the number of workmen on civic works every day. Private citizens and corporations are also helping to place the men in positions, many of which have been permanent.

It has been proposed to request representatives of the city council, the Canadian Manufacturers' Association, the board of trade, and other influential bodies to meet a deputation of the unemployed after the demonstration parade, to be held early next week.

One suggestion is that the manufacturers be asked to place their employees on shorter hours days and to employ more men. As the number of unemployed men could be given some relief until the hard times are over.

SEEKING TO INFLUENCE THE SCHMIDT JURORS

Judge Gives Warning Following Receipt of Anonymous Letters.

NEW YORK, Jan. 23.—(Can. Press).—Because some men had been writing anonymously to the jurors in the case of Justice Vernon M. Davis of the supreme court, before whom Hans Schmidt, a former pilot, charged with the murder of Anna Ammiller, is on trial, today earnestly cautioned the jurymen against receiving newspaper articles or communications relative to the case.

Justice Davis took this action after one of the jurors had handed him a letter postmarked Brooklyn, signed "A Citizen" which, in the opinion of the judge, was an attempt to influence the jury. The jurymen were asked by him to turn over any other communications they may receive.

Profit-Raising Factor in the Prices of Active Stocks.

BANK STOCKS STRONG

Toronto Market Has Dignified Day With Many Issues Dealt In.

It was but natural to expect that after the sharp rise in securities on Thursday some profit taking would take place in yesterday's Toronto stock market.

The significant feature of yesterday's market was the further strength in the investment section of the exchange.

BIGGEST OF U. S. BANKS WILL FALL INTO LINE

Rumor of Merger With Another Chicago Bank Set at Rest.

NEW YORK, Jan. 23.—(Can. Press).—That the National City Bank, the largest institution of its kind in the country, will in all probability enter the federal reserve system to be created by the new currency law, was learned from officials of the bank today.

It is probable that no official statement will be made until the return of Frank A. Vanderlip, president of the City Bank, who is now in Paris conferring with James Stillman, the chairman of the board of directors.

INCREASED PRICES OF MINING SHARES

General Tendency on the Standard Exchange is for an Upward Movement.

Further strength was shown in mining shares yesterday on the Standard Stock Exchange with the higher-priced particularly prominent.

In the Porcupine, Dome Mines was the feature, and it looks as if the manipulation efforts will this time be rewarded.

BEARS FAILED TO DEPRESS STOCKS

Steady Buying Demand Kept Prices Up at New York.

EXPORTS DECREASED

But Showing Was Fairly Good—Cash Gain by Banks.

NEW YORK, Jan. 23.—Toward the close of today's market prices were up to the highest level yet reached on the present movement.

Prior to the final upturn the course of the market was less sure. Profit-taking at times caused reactions.

United States Steel was helped by the higher prices for some steel products.

Another large cash gain was indicated by known movements of currency for the week.

MONTREAL TREND WAS REACTIONARY

C. P. R.'s Weakness Acted as Check on Upturn—Bank Shares Strong.

MONTREAL, Jan. 23.—Local stocks acted somewhat disappointingly today in view of strength at New York.

Weakness in C.P.R. which declined more than two points below the closing level of the previous day, was an outstanding feature of heaviness against the general buoyancy of the New York market.

Sympathetically with C. P. R. an easier tone was displayed by some purely local leaders.

A mixture of gains and losses were shown by other stocks, but changes for the most part were unimportant.

FURTHER STRENGTH SHOWN BY WHEAT

Heavy Export Demand and Lack of Snow Protection Chief Influences.

CHICAGO, Jan. 23.—Wheat showed buoyancy today, notwithstanding evidence of free realizing sales on each fractional advance. Liberal export demand had much to do with soaring prices higher. There was a steady close at a gain of 1/4 to 3/4, compared with last night. Corn finished 1/4 to 1/2 up, and oats 1/4 to 1/2 up, but protons 1/2 to 3/4 down.

Export sales of wheat here, amounting to 700,000 bushels, were brought to light. Other purchases intended for Europe cropped out in Nebraska. At the same time, virtually all cable advices were on the side of buyers. World shipments promised to be small, offerings from Argentina were meagre, and there was a continuance of unusual cold in France. Australian advices told of speculative demand based on unexpected shortness of yield, and on liberal sales to Japan.

More activity was displayed during the last hour in the wheat pit than for any similar period before in three months. In addition to the bullish news relating to the export situation, there was high authority for statements that outside of Michigan and northern Indiana the entire winter crop region was completely unprotected by snow.

Corn for Shipment.
In the corn crowd, experience ranged from a condition of dullness early in the week to a good deal of figures. There was a material improvement in the shipping demand. Predictions of cold weather cut a good deal of figures in the volume of business.

Hedging sales by packers reached a heavier total than on previous days this season in provisions. Eastern and local speculative demand formed only a partial offset.

STATE CABLE IS DOMINION'S NEED

Empire Press Union Makes Strong Plea for Public Ownership.

LONDON, Jan. 23.—(C. A. P.)—The Empire Press Union has sent the Dominion Commission a memorandum submitting that a state-owned cable under the control of the governments of the British dominions is required by the higher necessities of the empire, pointing out that France and Germany have subsidized the maintenance of Atlantic cables for many years, although they have no colonial possessions in North America. The union contends that the developments of wireless telegraphy cannot be regarded as a reason against the state enterprise.
