BERRY CROP WILL BE AS GOOD AS LAST YEAR

Only Half the Acreage, But the Yield Will Be Better—Can-ners Pay Good Prices, No Longer Fearing Reciprocity—Strawberry Growing in Neighborhood of Toronto.

Now is the time of the strawberry. For a month or so past the imported berry has been on the tables of those who are able to pay for the luxury of early fruit, but the everyday citizen who is not overburdened with this world's goods has to wait till the domestic vine designs to yield its crop.

Within ten days berries may be expected from Clarkson's and other points in the strawberry district between here and Hamilton, and perhaps even earlier from the south side of the lake.

"Prospects are looking good," said Mr. A. Durie of Clarkson's, "The World yesterday. Last year was an extremely dry year and the strawberry crop did not do well. In consequence only half of the acreage has been put into berries that there was last year, but what there is will be real good. The recent rains did no harm, in fact they helped."

"Crop Looks Promising." "The crop looks very promising for the quantity of vines," said E. D. Smith of Wiltona. "Of course there are not what they usually are, but the acreage is not as great as last year we expect a large crop in this district as last year, when the drought hit it in two. The recent rain has been just what the weather has been ideal. The vines are enough to produce a crop as heavy as last year, that is, of course, unless an unexpected drought intervenes to spoil our expectations."

"We expect to be able to ship berries by the middle of June. Last year the canners were giving 1-1/2 cents a box. That was when we were afraid of reciprocity. Now there is no question of reciprocity they are giving from 8-14 to 1-2 cents. The canners will take about two-thirds of the crop." Clemens Bros., when spoken to about the strawberry crop, said that they would not see that the crop was going to be unusually big. As to prices it would be about the same as last year. Asked about the late rain they said that if the land was high the plants would be benefited, if it was low they might be harmed. "From the last report indications point to a fair crop only," said White & Co. "The rain will probably mean more berries. It is early to say anything about prices."

McBride Bros. expect a fair crop only. Some reports, they said, had been good, others had been poor. Strawberry District Enlarged. The strawberry country of Ontario is gradually being enlarged and it is now found that strawberry grows around Toronto have just as good a market, and are worth as much, if not more, because they happen to be a week or more later in season than the strawberries grown at Clarkson's, Oakville, Hamilton and the Grimsby country.

Banking in Canada—Public Insp. Requiring Room at Banks

There government inspectors of banks, which has been so long in coming, in this country, finds a state of affairs in the United States in the National Bank of New York, one of the biggest banks on the continent. The national banks in the United States have always been subject to some government supervision and inspection under the National Bank Act. This inspection in the past has been at times superficial and inefficient.

In recent years the leading national banks of the country, instead of opposing government inspection, have urged the government to appoint skilled examiners instead of politicians, with the result that public confidence has been built up respecting the merits of the inspection, and the assurance of reliability in banks subject to such inspection.

The City National Bank, in its annual report, urges the government to go further, and secure more active co-operation on the part of the banks. Heretofore, it is stated, the examiners have been principally useful in discovering defalcations and forged paper; they have not always gone thoroughly into the character of the assets and liabilities of the institution. It is, therefore, recommended that congress amend the National Bank Act as to require the directors of every national bank to appoint an auditing committee, which shall submit a detailed statement of the assets and liabilities of the bank at stated intervals, under oath. These statements are not to be published, as are the present quarterly reports, but are to be filed and retained for the information of the board of directors. At the same time, a duplicate or carbon copy of such report, also verified by the oaths of the members of the auditing committee, is to be forwarded to the comptroller of the treasury, to be submitted by him to such bank examiners as may have occasion to examine into the affairs of such bank. Until such legislation is passed the board will be urged by the comptroller to voluntarily appoint such auditing committee by bylaw and submit to him a carbon copy of their reports.

Bank inspection by the federal authorities is a great check on the national banks, because any offence against the national bank law makes the bank official amenable to federal law. This means that if a bank is found to be in violation of the law, the bank officers may be brought before a jury drawn from all over the state. The result is that many men, bank presidents and the like, have been compelled to leave the country, or might easily have escaped conviction if the local courts for more serious offences.

Then again, national banks must carry a certain reserve, part of it in gold, and part in real estate. This means that if a bank is found to be in violation of the law, the bank officers may be brought before a jury drawn from all over the state. The result is that many men, bank presidents and the like, have been compelled to leave the country, or might easily have escaped conviction if the local courts for more serious offences.

Editor World: I do not agree with everything that you urge. I am opposed to the main condition that the bank officers should be held liable for the actions of the bank. I think it is wise to have a law that will increase the capital of the bank, and that the bank officers should be held liable for the actions of the bank. I think it is wise to have a law that will increase the capital of the bank, and that the bank officers should be held liable for the actions of the bank.

Conditions Necessary. The strawberry crop depends on the grower's setting out new beds every year. The vine ought to be one that is prolific in its yield and next it ought to have quality. And to get these two conditions requires experience and judgment. As to the best berries to put out fresh beds, put him out of the market for the next year. To be in the strawberry business, you must at least plant as much every year, you already have, because the rule is largely to set a small crop the first year and a big crop the second, and then to plow in the old bed and have new ones coming on to take its place next year.

DR. EMBREE MAY BE APPOINTED DIRECTOR

Senior Principal of Toronto High Schools Mentioned as Director of Education—His Qualifications for the Position Make Him a Strong Contender.

Indications point strongly to the appointment of Dr. Embree, principal of Jarvis-street Collegiate, as the choice of the board for the position of director of education for the City of Toronto.

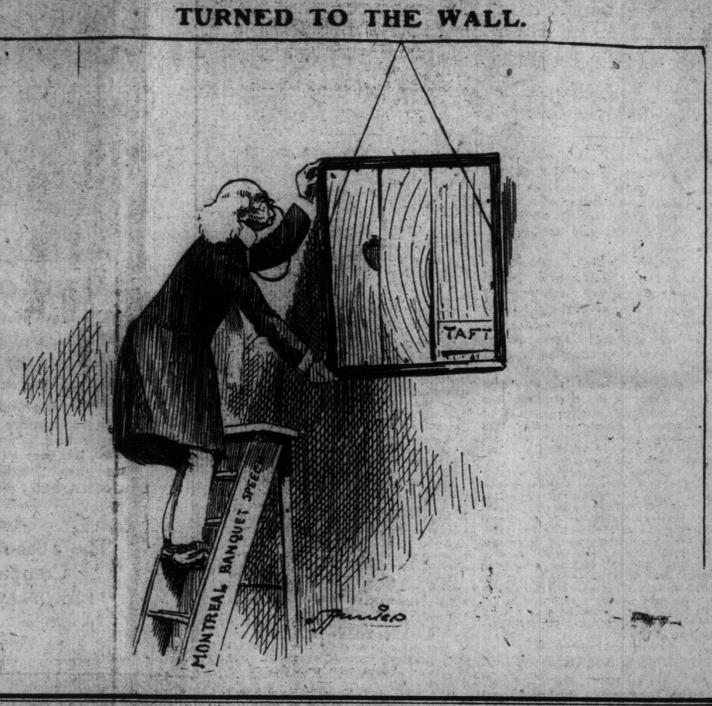

Dr. Embree came to Ontario in his seventeenth year. He had to earn the money to defray his high school and college course, but he graduated at the University of Toronto with first-class honors, taken in each year he won scholarships in classics and general proficiency. In the second year he was at the head of the year, winning first classical and first general proficiency scholarships.

While teaching in the Toronto High School (Jarvis-street Collegiate Institute), he attended the third and fourth year lectures after school hours, and passed the examinations in successive years, graduating with first-class honors in each subject and a medal in the modern language course.

He holds certificates of qualification as an inspector of public schools and as a high school principal and a specialist in the subjects of classics, English, French, German and history. Dr. Embree's experience relating to public school work is very extensive. He taught for five years in a rural public school. To this school came pupils from the surrounding sections, until its normal attendance was nearly doubled, and several of its pupils obtained during this time first-class certificates as public school teachers. He assisted in the preparation of the Ontario readers for high and public schools.

This work was first assigned to him by the Ontario Education Department. Messrs. John E. Bryant, M.A., principal of the Galt Collegiate Institute, and Robert Little, inspector of schools for the County of Halton, the experience of Mr. Little being in public school work only. When it became necessary to expedite the work, Mr. Embree, then principal of the 'Whitby Collegiate Institute, was chosen as his colleague, one reason for the choice being that he had experience in both high and public schools.

He was lecturer for three years on school organization and school management in the faculty of education of the University of Toronto. Most of the students to whom these lectures were given see prospective value in the work. He has been in charge of the Ontario readers for high and public schools. He has been in charge of the Ontario readers for high and public schools. He has been in charge of the Ontario readers for high and public schools.

NEW SATURDAY LINDSAY TRAIN

C. P. R. Will Consult Convenience of People Who Have Summer Homes on Kawartha Lakes.

The C. P. R. has decided to try as an experiment the running of a Saturday train to Lindsay, Hobbsburg and intermediate stations. This service will inaugurate this service on Saturday, June 15. The train will leave Toronto at 1 p.m. This train is for Saturdays only, and has been put on at the special request of many Toronto people who have summer residences in the Kawartha Lakes district. The continuance of the service will depend on the patronage it receives.

One of the concessions in the new timetable east is that the Ottawa train, leaving at 11:30, has a flag stop at Agincourt, and also one coming in the morning. With this arrangement and the local service, people are able to come from Agincourt in the evening, attend theatre or meeting, and return late at night. Never before in twenty years has anybody been able to get in or out of Agincourt late at night or early in the morning.

CONSTANTINOPLE, June 3.—(Can. Press.)—A great fire to-day swept over Constantinople. The Mohammedan section of the city was still burning, but it was hoped that its further advance had been checked. Two thousand houses and several mosques were burned. A wide lane was cleared by the flames from the walls of the old Seraglio palace grounds as far as Little Aya mosque, a distance of three-quarters of a mile. This mosque escaped destruction and the open space about it appears to have stayed the progress of the fire.

Sir Charles' Thanks

Sir Charles Tupper desires to thank his many friends in Canada for their kind congratulations on his recovery from his recent illness, and to express his deep appreciation for their hearty sympathy in his sad bereavement.

BARRIE FOR HYDRO POWER

Electricity From Severn River to Be Available in September—Road Bylaw Barely Carries.

The hydro-electric bylaw was carried here to-day, only 42 votes being recorded against it. Another bylaw for the raising by debenture of \$700 for the extension of the Barrie electric light plant for the distribution of hydro power to all parts of the town was also carried, with only 46 negative votes. A third bylaw to expend \$25,000 on permanent roadways carried with a bare majority of only 37.

SHOULD PUPILS WEAR LONG HAIR

Chief Inspector Hughes Says It is Ridiculous for a Cadet Not to Keep It Cut.

"Does the cut of a boy's hair have anything to do with his manliness—even if he is a member of the Toronto public school cadets?" is the question that the parents of Harold Spencer of 80 Westmoreland-avenue, a pupil of Kent school, demand of Chief Inspector James L. Hughes.

Harold Spencer, who is an officer of the cadets of Kent school, while marching with his school past His Royal Highness the Duke of Connaught at the review of the cadets in Queen's Park on Empire Day, riled the chief school inspector by the out of his hair.

The board will deal with the matter to-day and will likely instruct Chief Graesset to supply the board of control with the statistics asked by Controller Church who wants to know how much it will cost the city to lift the salary of the first-class constables \$50 per year. When this information is supplied, Controller Church is pledged to take the matter up with the board of control and to bring it up in council should the board refuse to deal with it.

DRINKING AT NIAGARA CAMP CONTINUES DESPITE ORDERS

Officers Have Liquor in Their Mess Tents and Men Buy it in Town For Consumption in the Camp Grounds—Supervised Canteens Are Considered the Remedy.

NIAGARA-ON-THE-LAKE, June 3.—(By a Staff Reporter.)—They don't sell liquor within the camp lines since the lid was placed on the canteens. But it can be got easily. An officer has all he wishes to consume right in his own mess tent, the non-coms are equally well supplied, and the privates, if they happen to stand in right with the sergeants or officers higher up, can have their thirst appeased with very little difficulty. But they can't buy it. This is the only difference since the new order was issued prohibiting the selling of liquor in camp.

Many consider this order a huge farce, and it seems that those who think this way are right. Temperance reformers are loud in their praise of the valuable good that has been done to the Canadian militia by the prohibition of liquor on the training grounds. But most of these anti-liquorites don't know the conditions in this tented city. True, drunks are not quite as numerous as in the old days, but the temptations are greater. The liquor is a little more difficult to obtain, but it's here.

TURKEY'S CAPITAL SWEEP BY FLAME

Two Thousand Houses and Several Mosques Destroyed in Mohammedan Section—Fire Raged for Hours

CONSTANTINOPLE, June 3.—(Can. Press.)—A great fire to-day swept over Constantinople. The Mohammedan section of the city was still burning, but it was hoped that its further advance had been checked. Two thousand houses and several mosques were burned. A wide lane was cleared by the flames from the walls of the old Seraglio palace grounds as far as Little Aya mosque, a distance of three-quarters of a mile. This mosque escaped destruction and the open space about it appears to have stayed the progress of the fire.

PENSION SCHEME BEFORE BOARD TO-DAY

Police Commissioners Will Endeavor to Arrive at Some Definite Basis This Afternoon—Interpretation of Clauses in Regulations to Be Discussed.

The board of police commissioners will deal with the pension to be allowed to ex-inspector Alfred Cuddy, now chief of the Calgary force, at their meeting this afternoon. The pension has already been passed by the benefit fund committee of the men as half pay on the salary which he was drawing at the close of his service June 1. There is an element who believe that this is unfair and hold that subsection B of section 24, under which the pension is granted, does not bear out such an allowance. Chief Graesset says that the award is made upon a reading of the section supplied by the city solicitor at the time that the pension of ex-Staff Inspector James Stephen was passed, and that this opinion holds that the pension shall be paid upon the salary being drawn at the end of 30 years' service, provided that the pensioner had held the rank then held for the last three years preceding.

What Clause Says. The sub-section reads: "After a service of 25 years, the member shall be entitled to retire, with the consent of the board of police commissioners, and shall receive a half-pay pension for life. Provided that where, after 25 years the service is prolonged, the pension payable for 25 years' service shall in each case be increased by one-ninth of the current salary for each such additional year's service up to but not exceeding 30 years' service in total. Provided further that it shall be optional with the members of the police force to retire at or after the end of 30 years' service by giving three months' notice of such intention. In any case of pension a member shall have served at least three years in any given rank before he shall be eligible to the pension of that rank; and in case he has not served the required three years, the pension shall be that of the rank which he held from which such member was last promoted."

Those dissenting held that this must be taken to mean that a man's pension is determined by the rank which he holds at 25 years' service if he has held that rank for three years at that time, and that when he retires there will be added to that one-ninth of the salary of each succeeding year up to 30 years, and that this is all that any man can get. They do not hesitate to say that if the city solicitor thinks otherwise it is his fault or misfortune and not the fault of the language of the section, which is, they say, easily understood.

Can Bring Suit. Chief Graesset said Saturday morning that if any member of the force has any quarrel with the present basis, a service can be brought, which would be defended to the last ditch by the benefit fund committee and by the board of commissioners. Under the reading of the section the dissenters hold that ex-inspector Cuddy is entitled to only a detective's pension as in April, 1907, which was the time when he had completed 25 years' service he had been an inspector for something less than two years. They believe that, added to this, he is entitled to one-ninth for each of the remaining five years of his service.

Wants Information. The board will deal with the matter to-day and will likely instruct Chief Graesset to supply the board of control with the statistics asked by Controller Church who wants to know how much it will cost the city to lift the salary of the first-class constables \$50 per year. When this information is supplied, Controller Church is pledged to take the matter up with the board of control and to bring it up in council should the board refuse to deal with it.

Finishing for Men

Organ Underwear, Socks, Ties, etc. A special purchase of makes and floor stock to sell a fifty-cent quality. Tuesday, all sizes, in stock, at each. Regularly \$1.50 to \$2.00. Pure Spun Silk Underwear, drawers, in white or shades, summer weight, trimmed, and well made, perfect in every way. Regularly \$3.50 to \$4.00. Cornstarch, 3 bottles 20c.

U.S. SUPPLIES ARRIVE TO CUBA

WASHINGTON, June 3.—(Can. Press.)—The state department to-day authorized the war department to honor the application of the Cuban Government for 5000 rifles and 1,000,000 rounds of ammunition, which are to be used to arm the volunteers and the guards organized by plantation owners and others, in their property against the insurgents. President Gomez wanted the latest type of Springfield rifle, similar to the 10,000 already supplied to the Cuban army. When it was found that such arms could not be sold without express authority from congress, and as it would take some time to secure the necessary legislation, the Cuban government decided to accept Krag-Jorgensen rifles instead.

# RURAL SOLDIERS CITY WATER IS NOW PURE

## ARRIVE AT NIAGARA GARA

Regiments Are Under Strength Because of Scarcity of Farm Labor—Toronto Men Returned Home After Receiving Congratulations of Gen. Cotton on Excellent Behavior

NIAGARA—ON-THE-LAKE, Ont., June 2.—(By Staff Reporter).—Greatly under strength are the rural regiments, which arrived in camp to-day for twelve days training. Not more than 2000 ruralites, consisting principally of recruits, are now under canvas, and fully 2500 were expected by staff headquarters. The late spring is attributed as the cause of the poor showing, the farmers being unable to leave their work. Had the camp opened two weeks later things would have been different.

They are a fairly good looking bunch of lads in the seven regiments which came to-day. According to the officers they are up better than ever before. Most of them are young and have never worn uniforms before. In a week's time it is expected that the rough edges will be ironed off and they will be able to do their work in a fairly good way.

The regiments comprise the 14th and 5th Brigades commanded by Lieut.-Col. Wallace and Lieut.-Col. Cohen.

**City Men Left.**

Before the rural camps the city regiments had returned to their homes every man satisfied looking tanned and healthy. The Queen's Own, Grenadiers and Highlanders all returned to their homes at 2 o'clock. The officers said that Niagara camp was the greatest thing ever done for the city troops. There is little here and such is lacking in the armies at home, where field work and skinning is practically impossible. All the Toronto regiments manoeuvring for couple of hours this morning, following which the tents were dropped and rolled up. Just before the troops started for the march to the dock the following vaudeville order by Brig.-Gen. Cotton was read to the troops:

"I desire to express my appreciation of the work performed by the officers, N.C.O.'s and men of the 4th and 5th Infantry Brigades.

"The interest shown by all has been most gratifying and promises well for enlarged numbers in another year.

"The excellent behavior and discipline has been all that could be desired."

**Lost the Canteen.**

There is considerable talk among the Royal Canadian Engineers, who have been on the grounds six weeks making all the necessary preparations for the coming year. The engineers have lost their canteen. There are only 23 engineers in the detachment; they are attached to the Stanley Barracks. They object to being treated like volunteers. Previous to the opening of camp the men had their own canteen, but when the military soldiers arrived the lid was placed on just the same as in the case of the militia, pursuant to the order of two years ago.

**Larger Signal Corps.**

There is some talk of the government increasing the size of the signal corps attached to the regiments. According to signal officers their department is the most neglected in the militia. At present eight men constitute a company of signallers, and this branch of the work is considered to need reinforcement. In a year or so the corps may number 40 men, similar to infantry company. During the encampment the signallers are scattered all over the training grounds, flashing heliograph and flag messages. Now, as these times are very peaceful, the wonder is, what sort of messages do these men send in these Morse codes. Asked by the World to-day, a corporal said that they carry on ordinary conversations just to improve the transmitting and receiving ability of the men. These talks are generally made in the "grub," passing opinions about certain officers and various other grievances. Of course the times of shaming they send and receive messages relating to the operations.

**The City Regiments.**

The city regiments which have just departed had great praise for the way they were treated. "This was not a military grind; it was a military picnic," said one old-timer. "The very good was the opinion of all. Each man was given a pound of meat a day. The officers and sergeants piled the government during the month's manoeuvres with over one hundred tons of meat."

**ELK LAKE LINE**

T. & N. O. Commission Expect to Run Trains by November

Chairman J. L. Englehart of the Timiskaming and Northern Ontario Railway Board, who has just returned after an extended inspection of the company's lines in Northern Ontario, stated to the World yesterday, that the T. & N. O. have now four hundred men working on the construction of the new thirty mile line between Earleton and Elk Lake.

The two summers, working from both ends of the line, have cut the time from Earleton to the lake, and three miles of the line has now been graded. The first run of the new line will be laid the beginning of next week, when a "Y" is to be constructed at the Earleton end. The T. & N. O. expect to see the line completed and run the first train over it on Nov. 1.

**BERLIN SOON TO BE A CITY**

(BERLIN, June 2.—(Special).—One week from to-day Berlin will be a city in reality. The charter is expected this week from the Ontario Government. A general referendum will be held, and will be held, and the ringing of bells will be discontinued to which all the old boys on the continent have been invited will be held on July 17.

Germania Hotel, John and Main streets. First-class table and rooming accommodation. 246

# In Last Seven Months No Trace of Colon Bacilli Has Been Discovered, Says Medical Health Officer

Altho the city hall was closed yesterday in honor of the birthday of King George V., the mayor, several of the controllers and aldermen and a few of the civic officials could not keep away from their favorite spot and were on hand as usual.

Dr. Hastings, M.H.O., marked the King's birthday this year by giving out the statement yesterday morning that never in the history of the city has the drinking water been better than at present. Within the last seven months there has not been any sign of colon bacilli.

A great improvement has also been brought about in the purity of the milk. A year ago eighty per cent of the samples examined were found to be adulterated. This has now been reduced to ten per cent, and the improvement is still going on.

Dr. Hastings expressed the opinion that the new sewage disposal works plant, which is nearing completion, is not adequate in that no provision is made for chlorination or otherwise purifying the discharge into the lake. The well which the board of control have had sunk at the island is now completed, and Mr. Harvey, who is in charge of it, will have his report to a depth of 235 feet in order to ascertain the quality of the water, with a view of establishing a supply independent of the intake.

# NEW STEAMER

For the Toronto and Quebec Service to Be Built by O. and Q. Co.

The Ontario and Quebec Navigation Company, Limited, are to have built another new steamer to be used on the Toronto-Quebec route, and if the plans out, this new steamer will be carried out, this new steamer will be carried out, this new steamer will be carried out.

# ROBBED A POLICEMAN

Gum Shoe Artist Got Away With \$10 in Bills.

Even police inspectors are not immune from the visit of marauders. One of the best known men on the local force, Inspector John Mulhail, 44 Havelock-st., was visited Sunday by one of these gum shoe artists. The only clues left were a few footprints and some scratches on the wall leading to the kitchen window, which was the point of ingress. The thief took \$10 in bills, the burglar crossed the street and entered the home of Frank F. Roper, at 15 Havelock-st. In this case a ladder was used to get to the window into the dining room. Only about \$1 in silver was stolen. As only money was stolen, it will be hard to catch the thieves.

# TO SUPPLANT CHIEF FINCH

Chas. Chase Recommended as Head of Guelph's Fire Department.

GUELPH, June 2.—(Special).—The fire and light committee of the city council have considered the forty and firemen, and the position of chief and firemen, and the report, as it will be sent to-morrow night, will not be a unanimous one.

# WATERLOO CARRIES BYLAW

BERLIN, June 2.—(Special).—Waterloo ratepayers carried a by-law to-day, voting a loan of \$10,000 to Charles Krautsiger, who will build a box factory. The majority for the bylaw was 222.

# Improved Train Service Between Toronto, Sarnia, Port Arthur

Commencing Wednesday, June 2, the Grand Trunk Railway System will inaugurate a Pullman parlor car, and first-class coach service between Toronto and Sarnia, Wharf, leaving Toronto 8 a.m., Hamilton 9:05 a.m., arriving Sarnia, Wharf at 1:45 p.m. Mondays, Wednesdays and Saturdays, making direct connection with the Northern Railway Sarnia 2:30 p.m., on above days for Sault Ste. Marie, Port Arthur and Winnipeg.

# KING'S BIRTHDAY AT KINGSTON

KINGSTON, June 2.—(Special).—The birthday of royalty was celebrated by the citizens to-day. In the morning there was a big military parade, in which the cadets of the Royal Military College, C.I.F.A. and the 14th Prince of Wales Own Regiment took part. In addition there were motor boat races, baseball matches and horse races.

# NO FUNDS FOR TARIFF BOARD

WASHINGTON, June 2.—(Can. Press).—Provision for President Taft's tariff board was eliminated in the reported to the house to-day. The annual appropriation of \$25,000 for the board, but the total appropriation was a little more than \$100,000,000, making heavy reductions in provisions for the Panama Canal, public buildings and other projects.

# SUBURBS WILL USE THE HYDRO

## Preliminary Action Taken by York Township for Lighting of Todmorden and Woodbine Heights.

Woodbine, Heights and the Todmorden district of York Township are to take the lead as suburban customers of the Toronto Hydro-Electric system. Preliminary action was taken by representatives of the city and York Township Council yesterday. Reeve Watson presided. The other members of the council were all present.

W. Handolph Sweeney, for the city, explained the cost of construction to take the lead as suburban customers of the Toronto Hydro-Electric system. Preliminary action was taken by representatives of the city and York Township Council yesterday. Reeve Watson presided. The other members of the council were all present.

# A Joy on hot days

The new housewife can lighten the work of preparing breakfast and start the day in cool comfort if she has an Electric Toaster. Bread toasted in this way is ever so much more delicious, wholesome, healthful. Never chipped or streaked, but nice, crisp, golden, wheaty—always. Made right on the table—eaten hot. Keeps coffee hot, too.

# PORT ARTHUR'S CAR WORKS

PORT ARTHUR, June 2.—(Can. Press).—F. B. McCurdy, M.P., of Halifax, N.S., who is heading the syndicate which is to construct the new car works at Port Arthur, accompanied by F. M. Brown, vice-president of the Nova Scotia Car Works, and J. R. Douglas, formerly a director of the Rhodes-Curry Car Works, of Amherst, N.S., and now a director of the Nova Scotia Car Works at Halifax, are in the city to arrange for the commencement of the construction of a new five million dollar plant.

# WILL STRENGTHEN 'WHITE SQUADRON'

WASHINGTON, June 2.—(Can. Press).—The senate committee on naval affairs to-day reported to the naval committee a bill, provision for two battleships, stricken out by the house.

# NO NEED OF BRIBERY

LOS ANGELES, Cal., June 3.—(Can. Press).—That Clarence S. Darrow, former McNamara lawyer, now on trial for the alleged bribery of jurors for the McNamara brothers to plead guilty had been made before the conclusion of the alleged negotiations for the bribery of Juror George N. Lockwood, was indicated to-day. A special session of the county grand jury for the purpose of further investigation of the alleged corruption of jurors by the McNamara defence was the only important development in the trial of Darrow to-day.

# Make the Blood Rich and You Gain in Weight

Blood is Thin in the Spring and Falls to Nourish the System—Headaches, Sleeplessness, Indigestion Disappear When Blood is Enriched.

Loss of flesh and weight is, after all, the most positive proof that the body is not properly nourished. That the blood is thin and watery is also indicated by the symptoms of nervous exhaustion, such as headaches, sleeplessness, indigestion, irritability and lack of vim and energy.

Spring is the most trying time of the whole year to persons subject to thin, watery blood or anemia. The artificial life of winter, breathing impure air and eating unnatural, highly-seasoned food, leaves the blood thin, watery and vitiated in the spring.

If you know Dr. Chase's Nerve Food you do not need to struggle along for weeks or months in languor and weakness. This food contains in condensed and easily assimilated form the elements which go to form new, rich blood. The nerves are nourished back to vigor, the action of the heart is strengthened, digestion improves and new, firm flesh and tissue is added to the body.

Try Dr. Chase's Nerve Food this spring and you will be delighted with the benefits obtained. By noting your increase in weight each week you can prove that the body is being rounded out to good proportions.

# Enriched Blood, Improved Color

Miss Cynthia Hutchinson, Hanceville, B.C., writes:—"I feel it my duty to tell what a great friend Dr. Chase's Nerve Food has been to me. I would have written sooner, but wanted to be sure I was thoroughly cured. Before using this medicine my nervous system was so completely run down that my friends as well as myself thought I could never get better. All medicines failed to help me.

"A trial of Dr. Chase's Nerve Food benefited me, and I used altogether seven boxes. At the end of a month people scarcely knew me, I had improved so much. The blood was enriched, color improved, new flesh added and I got strong and well. Several of my friends have profited by my experience and received great benefit from this treatment."

# Dr. Chase's Nerve Food

The use of Dr. Chase's Nerve Food brings about that condition of the blood which is the very foundation of good health, and which enables the system to throw off disease.

Nearly everybody requires just such help in the spring as can be best supplied by Dr. Chase's Nerve Food. Because it is more blood, purer blood, richer blood that is necessary to the maintenance of good health and vigor during this time of year. 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not let anyone talk you into accepting a substitute. The genuine bears the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

# NEWCOMER WINS STEEPLECHASE

## Favorites Fare Badly on the Holiday at Montreal—The Summary at Latoria.

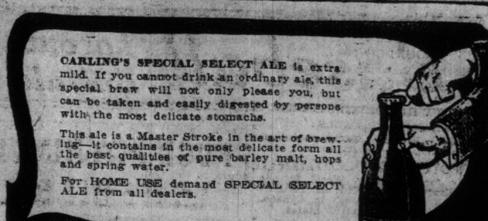

MONTREAL, June 3.—The holiday helped the Blue Bonnets' attendance today, about 500 people witnessing the races. The track was dry, but not dusty and the weather conditions were ideal. The steeplechase was the feature and was won by Newcomer, who was under test again, but then passed high hat, who was carrying more weight and who tired in the last half mile. Lenape fell at the take, jumping into the crowd. The favorite, Light of My Life, was ridden by the regular jockey, George, who refused the tenth and tenth and a half mile, going to the fence and losing a couple of seconds. The favorites failed to come over in the main of the races, Priscilla's victory in the fourth at 10 to 1 being a notable exception. Lock of the Whip, who led the crowd in the second when he spreaded his field and won without ever being let down. Summary: FIRST RACE—Two-year-olds, maidens, six furlongs: 1. King Lonsome, 116 (Turner), 12 to 5, 1 to 1 and 1 to 2. 2. Sheppard, 118 (Schuttenger), 2 to 1, 1 to 1 and 1 to 2. 3. Hamilton, 104 (Ambrose), 18 to 5, 6 to 1 and 1 to 2. 4. Miss Felix, Faneuil Hill, 104 (Lynch), 12 to 1 and 1 to 1. 5. Light of My Life, 110 (Janus), 12 to 1 and 1 to 1. SECOND RACE—Two-year-olds, maidens, six furlongs: 1. King Lonsome, 116 (Turner), 5 to 1, 2 to 1 and 1 to 1. 2. Sheppard, 118 (Schuttenger), 2 to 1, 1 to 1 and 1 to 2. 3. Hamilton, 104 (Ambrose), 18 to 5, 6 to 1 and 1 to 2. 4. Miss Felix, Faneuil Hill, 104 (Lynch), 12 to 1 and 1 to 1. 5. Light of My Life, 110 (Janus), 12 to 1 and 1 to 1. THIRD RACE—Three-year-olds and upward, conditions, six furlongs: 1. Priscilla, 110 (McGarrard), 1 to 15, and out. 2. Acton, 100 (Digging), 10 to 1, 1 to 1 and out. 3. Upright, 97 (Robins), 20 to 1, even and out. 4. Turbine, Joe Stein also ran. FOURTH RACE—Steeplechase, four-year-olds and upward, selling, about 2 miles: 1. Newcomer, 120 (Lynch), 5 to 1, 2 to 1 and 1 to 1. 2. High Hat, 154 (McAfee), 2 to 1, 1 to 1 and 1 to 1. 3. Yvonne, 131 (Noe), 20 to 1, 8 to 1 and 4 to 1. 4. Time 1.15.2.5. Starlet Empress also ran. FIFTH RACE—Three-year-olds and upward, selling, six furlongs: 1. Caprice, 115 (G. Burns), 5 to 2. 2. Carrillon, 107 (Barbara), 10 to 1. 3. Wood Dove, 92 (Dunn), 7 to 1. 4. Time 1.15.2.5. Ridgetail, The Rump, Ala. Marchmont and Jimmy Lane also ran. SIXTH RACE—Three-year-olds and upward, selling, six furlongs: 1. Serinmage, 97 (Ambrose), 5 to 1, even and 1 to 1. 2. Fred Mulholland, 112 (Schuttenger), 5 to 1, 2 to 1 and 1 to 1. 3. Royal Report, 108 (Small), 40 to 1, 10 to 1 and 5 to 1. 4. Time 1.15.2.5. Supervisor, Aplaster, Defy, Onrico, Taboo, Seconka also ran. SEVENTH RACE—Mile and an eighth, two-year-olds and upward, selling: 1. Serinmage, 97 (Ambrose), 5 to 1, even and 1 to 1. 2. Fred Mulholland, 112 (Schuttenger), 5 to 1, 2 to 1 and 1 to 1. 3. Royal Report, 108 (Small), 40 to 1, 10 to 1 and 5 to 1. 4. Time 1.15.2.5. Supervisor, Aplaster, Defy, Onrico, Taboo, Seconka also ran. EIGHTH RACE—Steeplechase, four-year-olds and upward, selling, about 2 miles: 1. Newcomer, 120 (Lynch), 5 to 1, 2 to 1 and 1 to 1. 2. High Hat, 154 (McAfee), 2 to 1, 1 to 1 and 1 to 1. 3. Yvonne, 131 (Noe), 20 to 1, 8 to 1 and 4 to 1. 4. Time 1.15.2.5. Starlet Empress also ran. NINTH RACE—Three-year-olds and upward, selling, six furlongs: 1. Caprice, 115 (G. Burns), 5 to 2. 2. Carrillon, 107 (Barbara), 10 to 1. 3. Wood Dove, 92 (Dunn), 7 to 1. 4. Time 1.15.2.5. Ridgetail, The Rump, Ala. Marchmont and Jimmy Lane also ran. TENTH RACE—Three-year-olds and upward, selling, six furlongs: 1. Serinmage, 97 (Ambrose), 5 to 1, even and 1 to 1. 2. Fred Mulholland, 112 (Schuttenger), 5 to 1, 2 to 1 and 1 to 1. 3. Royal Report, 108 (Small), 40 to 1, 10 to 1 and 5 to 1. 4. Time 1.15.2.5. Supervisor, Aplaster, Defy, Onrico, Taboo, Seconka also ran.

EIGHTH RACE—Steeplechase, four-year-olds and upward, selling, about 2 miles: 1. Newcomer, 120 (Lynch), 5 to 1, 2 to 1 and 1 to 1. 2. High Hat, 154 (McAfee), 2 to 1, 1 to 1 and 1 to 1. 3. Yvonne, 131 (Noe), 20 to 1, 8 to 1 and 4 to 1. 4. Time 1.15.2.5. Starlet Empress also ran. NINTH RACE—Three-year-olds and upward, selling, six furlongs: 1. Caprice, 115 (G. Burns), 5 to 2. 2. Carrillon, 107 (Barbara), 10 to 1. 3. Wood Dove, 92 (Dunn), 7 to 1. 4. Time 1.15.2.5. Ridgetail, The Rump, Ala. Marchmont and Jimmy Lane also ran. TENTH RACE—Three-year-olds and upward, selling, six furlongs: 1. Serinmage, 97 (Ambrose), 5 to 1, even and 1 to 1. 2. Fred Mulholland, 112 (Schuttenger), 5 to 1, 2 to 1 and 1 to 1. 3. Royal Report, 108 (Small), 40 to 1, 10 to 1 and 5 to 1. 4. Time 1.15.2.5. Supervisor, Aplaster, Defy, Onrico, Taboo, Seconka also ran.

Results at Latoria.  
LATORIA, June 3.—To-day's race results are as follows:  
FIRST RACE—Maiden fillies, two-year-olds, 4 1/2 furlongs: 1. Cream, 119 (Hony), \$11.0, \$7.0, \$3.0. 2. Beulah, 112 (Dale), \$17.20, \$22.00. 3. Silk Daz, 119 (Goose), \$3.00. 4. Time 1.15.2.5. Mollie Richards, Cheerful, Old Proverb, Repentant, Mrs. Slade Carr, Daisy Platt, Lady Hannah, Nellie Agnes and Lodona also ran. SECOND RACE—Selling, two-year-olds, five furlongs: 1. Toy, 104 (Steele), \$10.10, \$4, \$3.00. 2. Amber, 104 (Goose), \$1.00, \$4.00. 3. King Stalwart, \$6 (Daniels), \$4.00. 4. Time 1.01.2.5. Piel and Monitor also ran. THIRD RACE—Selling, three-year-olds fillies, six furlongs: 1. Rod and Gun, 104 (McCahay), \$4, \$4.20. 2. Sister Florence, 108 (Goose), \$5.40, \$3.50. 3. Commaner's Touch, 108 (Palm), \$3.50. 4. Time 1.13.4.4. Baycliff, Auto Line, Kitty.

The Toronto World

FOUNDED 1890. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO, 40 WEST RICHMOND STREET. TELEPHONE CALLS: Main 538 - Private Exchange Connecting All Departments. \$3.00.

will pay for The Daily World for one year, delivered in the City of Toronto, by mail to any address in Canada, Great Britain or the United States. \$2.00. will pay for The Sunday World for one year, by mail to any address in Canada, Great Britain or the United States. \$2.00. For sale by all news-vendors and news-boys at five cents per copy.

The Globe then proceeds to deliver a short lecture upon the money question and starts out with this proposition: The dollar is merely a standard of weight for gold, as the ton is a standard of weight for coal, the bushel a standard of weight for wheat, the pound a standard for groceries, and the dram for drugs.

This statement as it stands is open to the objection that a "ton," "bushel" and the like are mere conceptions. What the globe means to say probably is that the gold dollar is a measure. Like the yard stick or the pound weight.

THE CITY AND LOCAL TRANS. PORTATION.

The mayor, at last, has been authorized to secure experts to advise him in the matter of local transportation.

We are building municipal lines; we have to give street car service to the recently annexed areas and to the territories; we are also up against the problem of getting radial lines into the heart of the city; we are up against radial franchises within the city, that were formerly within the city, and which will have to be acquired by the city so as to give us control of all the lines within the city now, or before the Toronto Railway franchise expires next year hence.

We have also the question of tubes before us; also the question of an improved service from the steam railways, with a commutation rate.

We have to find some way of compelling an interchange of traffic between radial lines now within the city and city lines, so as to give the public a single fare service in the city and suburbs. We may also have to get legislation to authorize the city to appropriate sections of the radials above mentioned as being at present or soon to be, within the city limits.

There are also big questions more or less involving local transportation connected with the new station to the north of the city, and perhaps in connection with a proposed central radial terminal somewhere in the city.

The mayor, therefore, ought to be busy in getting his experts, and Council Drayton ought also to be busy in assisting the mayor to this end. What we really want is a local transportation commission of first-class men; but we have to get the work started, and start right away. Public ownership, however, ought to be the basis of these propositions, and The Mail newspaper of yesterday morning has come out in this direction.

There is another thing that might assist in the solution of these questions and that is, the extension of the area of the city, so as to get jurisdiction over the greatest possible number of main thoroughfares in the Township of York. The Waste Land Act, which we get the jurisdiction over a considerable portion of the township, the city will be in a position to dictate terms to what conditions in regard to sewers and improvements land owners must respect before their subdivisions are authorized.

In the meantime it is up to the mayor and the council to make headway in getting the advice of experts.

THE FLOOD OF GOLD.

The increase in the world's output of gold from \$1,900,000,000 for the decade ending with the year 1899 to \$4,007,000,000 for the eleven-year period next ensuing has naturally attracted widespread attention and is considered by many as one of the causes for the increased cost of living. A careful investigation shows, however, that the excess of gold has been absorbed in various ways and there has been no cheapening of the metal or closing of national mints against its free coinage as followed the big gold discoveries of sixty years ago.

New countries, rapidly developing in industrial strength, have taken a great deal of gold; government treasuries and banks throughout the world have strengthened their reserves; the consumption of gold in the arts has largely increased; the great safety valve, however, has been the steady drain of gold by India.

The subject is exhaustively discussed in a review of the production of gold for the twenty-one years ending March 31, 1910, recently issued by George E. Roberts, director of the mint, and published by the United States Government.

The most striking feature of the review is the showing of an increasing absorption of gold by India. That country in its relations with Europe has always had a favorable trade balance which had to be settled in the precious metals, but until recently the principal medium has been silver. Trade balances have been growing larger, as a result of increasing exports and the higher prices received for them, and while India continues to take about the same amount of gold as formerly, it is also taking large sums in gold for the ten-year period, 1890-1899, the net imports of gold into India plus the country's own production was \$130,800,000 for the 11 years, 1900-1910, they aggregated \$432,800,000 for the 1911 fiscal year ended March 31, 1911, they amounted to \$30,457,000, or about one-quarter of the world's production after the industrial consumption was provided for.

The Toronto Globe, however, announces, on the authority of "fashion news," that gold is being introduced

in trimmings of evening gowns." It infers from this that gold must be very cheap and argues that the cheapness of gold has made everything very dear, but this supposed cheapness of gold, as we have seen, does not exist. The cause of high prices is probably due to the concentration of wealth, which is tantamount to an International Money Trust. Such a trust increased the cost of coffee from six cents to fourteen cents by burning up large quantities of coffee, locking up in storage a still greater quantity and by curtailing the crop thereafter.

The dollar is merely a standard of weight for gold, as the ton is a standard of weight for coal, the bushel a standard of weight for wheat, the pound a standard for groceries, and the dram for drugs.

This statement as it stands is open to the objection that a "ton," "bushel" and the like are mere conceptions. What the globe means to say probably is that the gold dollar is a measure. Like the yard stick or the pound weight.

But what does it measure or weigh? The globe evidently thinks it is intended for a measure not of value generally, but of the weight of the metal constituting the coin. We are told: "The dollar is merely a standard of weight in gold containing some twenty-three and a quarter grains."

The government stamp designates, it is true, the weight and fineness of the metal contained in the coin, and to this extent, it is a standard of value in remote countries, where it is treated only as so much bullion. The government stamp in Canada means a great deal more. It implies that the coin is legal tender and must be received at its face value in full payment of all public and private debts.

That we are not being flooded with gold in Canada is apparent from the fact that Canadian banks absorbed \$50,000,000 of the \$1,900,000,000 produced in the decade ending with the year 1899, while they only took \$6,000,000 of the \$4,007,000,000 produced during the 11-year period ending with 1910. Perhaps our supply of gold in Canada is being diverted from the bankers to the motorists.

BRITISH POSTOFFICE REFORMS

For the financial year 1911-12 the British postoffice made a net profit of over \$10,000,000, and the postmaster-general, Mr. Herbert Samuel, estimates the profit for the current year at \$4,000,000. In submitting his annual survey, he announced many reforms and improvements in the public interest, even in the telegraph service, which remains practically stationary on account of the rapid development of the telephone system, now also under the control of the postoffice. From Saturday last, non-urgent telegrams can be sent during the night at one-third ordinary rates or 12 cents for 36 words, to all offices throughout the country. Reply paid telegrams will be available for 12 months instead of 2 as hitherto. The Waste Land Act, which we get the jurisdiction over a considerable portion of the township, the city will be in a position to dictate terms to what conditions in regard to sewers and improvements land owners must respect before their subdivisions are authorized.

THE FORMER PREMIER AND THE PRESIDENT.

Manchester (N.E.) News, Saturday, June 1, 1912. It was probably a purpose deeper than the apparent one, that actuated Sir Wilfrid Laurier in his attack upon President Taft in his speech at Montreal on Wednesday night. The Canadian people, as a large majority, regard Sir Wilfrid as a man of high character and high ability, and his attack upon the venerable president, who has never before had such a severe rebuff, has not passed without comment. The Reform Club has nearly surpassed the Reform Club of the Tories themselves in the vociferousness of its denunciations of the former premier. He did not say that he was a slave, but he said things that, literally, but he said things that amounted to the same thing. He did not assume any such pedantry, but he did not think that expediency required it. He was not a politician, but he was a man of high character and high ability, and his attack upon the venerable president, who has never before had such a severe rebuff, has not passed without comment.

Home Help.

Home help is an invaluable aid to the woman who wishes to keep her ice box in use. It is especially desirable for use in small refrigerators where little is kept, but the ice is on hand for the purpose of preserving butter and milk and keeping bottled waters cool, but it is excellent for all ice boxes.

THIRD CONSERVATION REPORT

Much valuable work has already been done and is in course of being done by the Dominion Commission of Conservation, whose third annual report has just been issued. It embodies the proceedings of the third annual meeting, which are really a review of the work accomplished and an anticipation of that planned for the following year. For the former purpose there are the individual reports of the respective committees on public health; lands, forests, minerals, fisheries, game and fur-bearing animals; waters and

water powers, and press and co-operative organizations. The latter sections embrace special articles by experts on various subjects connected with the commission's operations, discussions and statistical tables.

An important matter in which public attention is invited is the lack of provision made by the governments interested for the collection and presentation in suitable form, of accurate and comprehensive statistics respecting the resources of the country. Those published have been found to be incomplete, and in many cases unreliable, is the remark made by Mr. Patton, who described the work of the committee on fisheries, etc. This was corroborated by the press committee and the suggestion made that the Dominion and provincial authorities should be offered the services of the commission's officials for devising a system for the compilation of more comprehensive statistical information.

It must be evident that before a commission of conservation can fulfill its object properly it must know what it has to conserve in the shape of natural resources. Reasonably accurate knowledge can only be obtained by the institution and regular prosecution of systematic exploration carried forward constantly and methodically. In fact there is need for the formulation of a distinct policy kept steadily in view by the Dominion and provincial governments acting in accord. Now that the commission has brought the deficiency under notice and the hindrance offered to its work, a serious effort should be made to provide a remedy.

At the instance of the commission a law was passed last year holding railways responsible for damages from forest fires caused by their locomotives and requiring them to patrol the dangerous parts of their lines during the dry season. On the public health side suggestions are made for the consolidation of the various services under one comprehensive departmental branch, step making for both economy and efficiency. As regards agriculture in addition to a detailed account of the survey, diagrams are included showing what progress weeds are making against the farmers of each province. The report also announces that peat fuel can now be manufactured at a price competing successfully with the cost of coal. Maps, diagrams and illustrations add to the attractiveness and value of the volume.

General Proficiency.

First-class honors—1, H. O. Hutchison; 2, Miss V. B. Thomson; 3, Miss R. Fairbairn; 4, Miss R. Fairbairn; 5, Miss R. Fairbairn; 6, Miss R. Fairbairn; 7, Miss R. Fairbairn; 8, Miss R. Fairbairn; 9, Miss R. Fairbairn; 10, Miss R. Fairbairn; 11, Miss R. Fairbairn; 12, Miss R. Fairbairn; 13, Miss R. Fairbairn; 14, Miss R. Fairbairn; 15, Miss R. Fairbairn; 16, Miss R. CATTLE TRADE STRONG WITH A LIBERAL SUPPLY

Average Price of Butchers' Cattle Was Higher—Hogs \$8.50.

There were 138 car loads of live stock at the Union Stock Yards, comprising 212 cattle, 104 hogs, 220 sheep and lambs, 120 calves and 22 horses.

The run of cattle was considerably larger than was anticipated, but not too large for the demand, as everything was bought up by the noon hour.

Trade was active and while the top prices for the best butchers' and exporters were no higher, we would venture to say that there was a volume in the history of the Toronto market when the same number of cattle of the same quality sold for as much money.

Mr. Howard bought for Swift & Co. 100 steers, 150 to 160 lbs., each, at \$13.50 to \$14.00 per cwt.

Alexander McIntosh bought a car load of export, distillery fed steers, 120 lbs., average weight, for J. Shamburg & Son, at \$12 per cwt.

The best steers of export quality bought for butchers' purposes sold under the \$10 mark, with a very few reaching \$8; mixed butchers' steers and heifers, \$7 to \$7.50; common and medium, \$6.25 to \$6.50; cow, \$5 to \$5.50; bull, \$4.50 to \$5.00; canner cows, \$3.50 to \$4.00.

Wesley Dunn bought 100 head calves, at an average of \$7 per cwt., or a range of \$4 to \$8. A few new milk fed quality calves brought \$8 to \$8.50.

W. J. Johnston, buyer for Gunns, Limited, quoted selected, fed and watered, at \$15.50 and \$16.50, cow, at country points, and \$16.00 of cars.

Dunn & Levack sold 100, 1215 lbs., each, at \$8 per cwt.; 21, 1120 lbs., at \$7.75; 1170 lbs., at \$7.50; 1220 lbs., at \$7.25; 1170 lbs., at \$7.00; 1220 lbs., at \$6.75; 1170 lbs., at \$6.50; 1220 lbs., at \$6.25; 1170 lbs., at \$6.00; 1220 lbs., at \$5.75; 1170 lbs., at \$5.50; 1220 lbs., at \$5.25; 1170 lbs., at \$5.00; 1220 lbs., at \$4.75; 1170 lbs., at \$4.50; 1220 lbs., at \$4.25; 1170 lbs., at \$4.00; 1220 lbs., at \$3.75; 1170 lbs., at \$3.50; 1220 lbs., at \$3.25; 1170 lbs., at \$3.00; 1220 lbs., at \$2.75; 1170 lbs., at \$2.50; 1220 lbs., at \$2.25; 1170 lbs., at \$2.00; 1220 lbs., at \$1.75; 1170 lbs., at \$1.50; 1220 lbs., at \$1.25; 1170 lbs., at \$1.00; 1220 lbs., at \$0.75; 1170 lbs., at \$0.50; 1220 lbs., at \$0.25; 1170 lbs., at \$0.00.

Butchers' cows—12, 1110 lbs., at \$5.50; 11, 1100 lbs., at \$5.25; 12, 1200 lbs., at \$5.00; 11, 1100 lbs., at \$4.75; 12, 1200 lbs., at \$4.50; 11, 1100 lbs., at \$4.25; 12, 1200 lbs., at \$4.00; 11, 1100 lbs., at \$3.75; 12, 1200 lbs., at \$3.50; 11, 1100 lbs., at \$3.25; 12, 1200 lbs., at \$3.00; 11, 1100 lbs., at \$2.75; 12, 1200 lbs., at \$2.50; 11, 1100 lbs., at \$2.25; 12, 1200 lbs., at \$2.00; 11, 1100 lbs., at \$1.75; 12, 1200 lbs., at \$1.50; 11, 1100 lbs., at \$1.25; 12, 1200 lbs., at \$1.00; 11, 1100 lbs., at \$0.75; 12, 1200 lbs., at \$0.50; 11, 1100 lbs., at \$0.25; 12, 1200 lbs., at \$0.00.

Butcher cows—12, 1110 lbs., at \$5.50; 11, 1100 lbs., at \$5.25; 12, 1200 lbs., at \$5.00; 11, 1100 lbs., at \$4.75; 12, 1200 lbs., at \$4.50; 11, 1100 lbs., at \$4.25; 12, 1200 lbs., at \$4.00; 11, 1100 lbs., at \$3.75; 12, 1200 lbs., at \$3.50; 11, 1100 lbs., at \$3.25; 12, 1200 lbs., at \$3.00; 11, 1100 lbs., at \$2.75; 12, 1200 lbs., at \$2.50; 11, 1100 lbs., at \$2.25; 12, 1200 lbs., at \$2.00; 11, 1100 lbs., at \$1.75; 12, 1200 lbs., at \$1.50; 11, 1100 lbs., at \$1.25; 12, 1200 lbs., at \$1.00; 11, 1100 lbs., at \$0.75; 12, 1200 lbs., at \$0.50; 11, 1100 lbs., at \$0.25; 12, 1200 lbs., at \$0.00.

Butcher cows—12, 1110 lbs., at \$5.50; 11, 1100 lbs., at \$5.25; 12, 1200 lbs., at \$5.00; 11, 1100 lbs., at \$4.75; 12, 1200 lbs., at \$4.50; 11, 1100 lbs., at \$4.25; 12, 1200 lbs., at \$4.00; 11, 1100 lbs., at \$3.75; 12, 1200 lbs., at \$3.50; 11, 1100 lbs., at \$3.25; 12, 1200 lbs., at \$3.00; 11, 1100 lbs., at \$2.75; 12, 1200 lbs., at \$2.50; 11, 1100 lbs., at \$2.25; 12, 1200 lbs., at \$2.00; 11, 1100 lbs., at \$1.75; 12, 1200 lbs., at \$1.50; 11, 1100 lbs., at \$1.25; 12, 1200 lbs., at \$1.00; 11, 1100 lbs., at \$0.75; 12, 1200 lbs., at \$0.50; 11, 1100 lbs., at \$0.25; 12, 1200 lbs., at \$0.00.

Butcher cows—12, 1110 lbs., at \$5.50; 11, 1100 lbs., at \$5.25; 12, 1200 lbs., at \$5.00; 11, 1100 lbs., at \$4.75; 12, 1200 lbs., at \$4.50; 11, 1100 lbs., at \$4.25; 12, 1200 lbs., at \$4.00; 11, 1100 lbs., at \$3.75; 12, 1200 lbs., at \$3.50; 11, 1100 lbs., at \$3.25; 12, 1200 lbs., at \$3.00; 11, 1100 lbs., at \$2.75; 12, 1200 lbs., at \$2.50; 11, 1100 lbs., at \$2.25; 12, 1200 lbs., at \$2.00; 11, 1100 lbs., at \$1.75; 12, 1200 lbs., at \$1.50; 11, 1100 lbs., at \$1.25; 12, 1200 lbs., at \$1.00; 11, 1100 lbs., at \$0.75; 12, 1200 lbs., at \$0.50; 11, 1100 lbs., at \$0.25; 12, 1200 lbs., at \$0.00.

Butcher cows—12, 1110 lbs., at \$5.50; 11, 1100 lbs., at \$5.25; 12, 1200 lbs., at \$5.00; 11, 1100 lbs., at \$4.75; 12, 1200 lbs., at \$4.50; 11, 1100 lbs., at \$4.25; 12, 1200 lbs., at \$4.00; 11, 1100 lbs., at \$3.75; 12, 1200 lbs., at \$3.50; 11, 1100 lbs., at \$3.25; 12, 1200 lbs., at \$3.00; 11, 1100 lbs., at \$2.75; 12, 1200 lbs., at \$2.50; 11, 1100 lbs., at \$2.25; 12, 1200 lbs., at \$2.00; 11, 1100 lbs., at \$1.75; 12, 1200 lbs., at \$1.50; 11, 1100 lbs., at \$1.25; 12, 1200 lbs., at \$1.00; 11, 1100 lbs., at \$0.75; 12, 1200 lbs., at \$0.50; 11, 1100 lbs., at \$0.25; 12, 1200 lbs., at \$0.00.

Butcher's cattle, 1000 to 1100 lbs., each, at \$7.50 to \$7.75; steers, 800 to 1000 lbs., at \$7.50 to \$7.75; good cows, 1100 to 1200 lbs., at \$8.25 to \$8.50; medium cows, 1000 to 1100 lbs., at \$7.50 to \$7.75; canner cows, 800 to 1000 lbs., at \$2.50 to \$3.50; bulls, 1200 to 1500 lbs., at \$5.00 to \$5.50.

Alexander Levack bought for Gunns (limited) 300 cattle, as follows: Butcher's steers and heifers, at \$8.50 to \$9.00; cows, at \$7.50 to \$8.00; bulls, at \$5.00 to \$5.50; 20 spring lambs at \$5 each.

Fred Rowntree bought one carload of milkers and springers at \$5 to \$5.50 each; three carloads of good to choice fat cows, 1100 to 1200 lbs., each, at \$8.50 to \$9.00; and one carload of horses at \$10 to \$12.50 each, all for John Rice of St. John's, Nfld.

J. H. Dingle bought 25 butchers' cattle, 800 lbs., each, at \$7.50 to \$8.00; fed and watered; 50 spring lambs, at \$5 to \$5.25 each.

Jas. Halliday bought one load of butchers' cattle, 1050 lbs., each, at \$7.50 per cwt.; 110 sheep at \$5.50 per cwt.; 120 calves, all of which are average quality, at \$5 to \$6 each.

H. P. Kennedy bought for Gordon Dales Company 100 head of fat cows, 1000 lbs., each, at \$7.50 per cwt.; one load of fat cows, 1000 lbs., each, at \$7.50 per cwt.; 100 calves, at \$5 per cwt.; all of which are average quality, at \$5 to \$6 each.

Charles McCurdy bought 71 cattle, 75 lbs., each, at \$6.50 per cwt.; two loads of good butchers, 800 to 1000 lbs., each, at \$7.50 to \$8.00; 2 choice butchers, 1200 lbs., each, at \$7.50.

R. J. Collins bought 20 cattle, 700 lbs., each, at \$7.50; 15 bulls and cows, at \$5.25 to \$5.50; 2 choice butchers, 1200 lbs., each, at \$7.50.

Charles Livingstone bought 11 butchers, 1200 lbs., each, at \$7.50; Wm. Mclelland bought three loads of

Market notes. Jacob Schmitt of Midway was on the market with a choice load of 22 export steers, 1200 lbs., each, which were sold by John W. Keenan, commission salesman, at \$8 per cwt. the top of the market. These cattle were fed by the following farmers: Andrew Schurr, Joe Schurr and Auman Schurr, all in the vicinity of Midway; Coughlin & Co. sold for J. D. Ferguson of Midway one choice load of exporters, 1220 lbs., each, at \$8.

Peter Sullivan of St. Columban was on the market with a choice load of exporters, which sold at \$8; also one extra quality bull, which sold at \$7, the top price paid for bulls, both of which were sold by Coughlin & Co.

G. M. Chesney of Seaford had two choice bulls, weighing 1200 lbs., each, on the market.

C. M. A. PROTEST. The officials of the Canadian Manufacturers' Association are strongly opposed to the rumored action of the G. T. R. in that railway making Boston its Atlantic seaport, and at the next meeting of the executive council the advisability of sending a protest to the Dominion Government will be decided on.

In addition to the opposition of the C. M. A., letters will be addressed to the boards of trade throughout Canada, asking their co-operation in the fight against what is termed "misuse of Canadian money and railway."

## ADVERSE CROP REPORTS SEND WHEAT UP AGAIN

### Calamitous Advice From Experts in Kansas and Nebraska Turn Trend of Chicago Market—Corn and Oats Score Advances

CHICAGO, June 3.—Irreparable damage, said to have been inflicted on thousands of acres of wheat in Kansas and Nebraska, sent the price of the cereal today to a much higher level. It was declared by experts that the rainfall which was supposed to have broken the drought had been altogether insufficient over a large portion of the two states and that the outlook now for such districts would be without avail. The close was firm within a shade of the top figures reached, 13 1/2 to 32c net advance. Corn finished 1/2c to 3/4c up, oats with a gain of 3/4c to 1 1/4c, and provisions dearer by 2 1/2c to 3c.

What had the most bullish effect on the wheat market was the prediction that in consequence of the alleged damage in the west, the next crop report from the government would show a radical falling off in the figures telling the condition of the crop. First news regarding the inadequacy of the rains came from Kansas, and soon had quotations moving rapidly upward. Advice, however, which arrived later from Nebraska, proved even more sensational to speculators. The showers reported were lighter and the damage Corn Strong After Early Weakness.

In the corn pit many long holdings were let go early by weak owners. Fine weather furnished the incentive. Then the market began to harden in sympathy with the wheat strength, and smaller shorts covering quietly at times. The fall decline and sold more deliberately on the later bulges.

Active shipping demand upheld oats at a sharp advance. The rise was due, grain, the market being held previously weak owing to favorable crop reports from nearly every direction. Provisions worked higher all around on account of heavy buying in which a big packing concern was decidedly conspicuous.

**Northwest Receipts.**  
Receipts of wheat at northwest primary points, with usual comparisons, are as follows:

City	To-day	Week Ago	Year Ago
Chicago	112	112	112
Winnipeg	540	483	97
Duluth	173	259	31
Minneapolis	173	259	31

**European Markets.**  
The Liverpool market closed today 1/4 higher to 3/4 lower on wheat, and corn 1/4 to 3/4 lower. Berlin closed 1/4 lower on wheat, and Antwerp unchanged.

**United States Visible.**  
A comparison of the visible grain supplies in the United States to-day and on the corresponding dates of last year is as follows:

Year	June 1, 1911	June 1, 1912
Wheat	1,882,000	2,833,000
Corn	5,770,000	6,850,000
Oats	6,720,000	6,850,000

**Canadian Visible Supply.**  
The Canadian visible wheat supply this week is 12,920,000 bushels, a decrease for the week of 3,079,000 bushels. Oats, 1,871,000 bushels, a decrease of 1,057,000 bushels.

**World's Shipments.**  
The weekly world's shipments of grain, with usual comparisons, follow:

Commodity	Last Week	Week Ago	Year Ago
Wheat	1,948,000	1,838,000	1,838,000
Corn	5,190,000	5,271,000	5,283,000

**Primarys.**  
Receipts: 333,000, 588,000, 634,000  
Shipments: 404,000, 563,000, 670,000  
Corn: 1,668,000, 638,000, 1,172,000  
Shipments: 298,000, 338,000, 700,000  
Oats: 143,000, 143,000, 143,000  
Shipments: 143,000, 143,000, 143,000

**On Passage Statement.**  
On passage last week 56,192,000 bushels, against 60,000,000 last week and 58,570,000 last year. Decrease, 3,808,000 bushels. Corn, 28,000,000 bushels, against 28,000,000 last week and 28,000,000 last year. Increase, 5,000,000 bushels.

**Crop Reports.**  
Le Count wires from Great Bend, Kan. says: "Lent here all fields show damage; soil very dry, and wheat deterring rapidly from drought. High winds, south; weather hot, unfavorable, and no signs of rain."

**Le Count wires from Kansas:** Motored from Wichita to-day to Kismet. Wheat heading and looking fine; will make full crop. From Kismet west to Greensburg in bad condition; all fields show damage, and in many localities 90 per cent gone. From Greensburg here crop looks better and will last longer, but needs rain badly. Many thousands acres seen to-day turning white, simply drying on the ground. Rain falling was too light generally; not much benefit, and conditions in Kansas are serious.

**ST. LAWRENCE MARKET.**  
Receipts of farm produce were confined to five loads of hay, which sold at unchanged prices. Five loads sold at 85 to 83 per ton.

**Wheat, fall, bushel**..... \$1.05 to \$1.05  
**Red clover, No. 1, bushel**..... 1.00 to 1.00  
**Alfalfa, No. 1, bushel**..... 1.00 to 1.00  
**Timothy, No. 1, cwt.**..... 17.50 to 18.50  
**Timothy, No. 2, cwt.**..... 15.50 to 16.50  
**Alfalfa, No. 1, bushel**..... 11.00 to 12.00  
**Alfalfa, No. 2, bushel**..... 9.50 to 10.50

## CHICAGO GOSSIP

### Record Good for Traders

J. P. Bickell & Co. had the following: "Wheat—There was a natural market in wheat to-day, and it was a strong one. Buying based on renewal of adverse crop reports from Kansas and Nebraska. The trade was on something of a strain when the rains came in late in the week, and the break was more violent than the conditions warranted. The map was cleared yesterday. It was clear again to-day. Kansas City weather forecast was clear and warmer for Kansas. Inside of an hour western wheat shippers covering the rains were instructed to delay shipping, both Kansas and Nebraska, still in danger. The harvest possibilities not only lowered, but it is feared that further reduced without good general rains in the west. It is an established fact that the rains were a decided disappointment, and the loss of a calamity for Illinois, Indiana and Ohio. There has been some talk of permanent injury done to winter wheat by the dry weather. Northwest spring crop is as fine as can be seen."

Erickson Perkins & Co. (J. G. Beaty) wired the following: "Wheat—No further precipitation having occurred Sunday, and higher temperatures prevailing, a further crop report from Kansas was of a very bullish character. The wheat crop prospects in that state, easily led of any other crop in the world, are reported to have been current to-day regarding crop conditions west of the river, and that the importation of wheat from the west is being held in consideration; besides which, it must be noted that the price of wheat has had a sharp decline, largely due to the lack of outside buying power, which has caused a notable increase in the price of wheat. The fact that fifty per cent of the total world's shipments came from this country (comprising wheat, rye, and barley) and that such shipments are now running so much smaller than last year, and especially as compared with a year ago, is another element which should be considered, for it is quite possible that Europe might have to draw on this country for supplies in the near future."

## MAKING FOR BOOM AT "HIGH GRADE" CAMP

### Strenuous Efforts to Arouse Enthusiasm in New California Gold Region—Note of Warning.

Western mining papers are filled with glowing accounts of a big rush of prospectors and mining men into High Grade, a new camp in Northern California, where rich strikes were reported to have been made last fall. The trek into the region began late in the winter, before the snow was off the ground, and the whole country seems now to have been blanketed. The Western States have long been making anxious for a boom in gold mining. Not that gold mining as an industry is not doing well, for in fact it is doing exceedingly well. Gold mining, however, is fast losing its luring appeal. No one is going to a regularly established business. This does not satisfy the west. No one becomes a prospector to work in a factory, and the restlessness of the west is not much interested in the established and the routine. Regarding the High Grade camp W. H. Storm, State Mineralogist of California, has sounded a note of warning. He mentions the fact that the ground was started when the ground was comfortable, and that the ground was well-known, and that the ground was another—and is as good for purpose of capitalization. As to the district itself there is much to be said. Two years ago the district was a quiet one. It was operated by Mr. Almeron Del Mar, a large landholder in the district. This has now been overlooked by the newcomers who have organized a new mining district and rechristened the camp. As the Hoag district in Modoc County, California, failed to attract attention, but as High Grade, near Reno, Nevada, it is having fame thrust upon it.

## NIPISING DIVIDEND.

The Nipissing Mining Company has declared a regular quarterly dividend of 5 per cent. The books will close on June 15, and the dividend is payable on or after June 15, 1912. The amount of the dividend is \$1,648,480, which is the largest ever reported for any equal period.

## UPS AND DOWNS IN SILVER MARKET

The silver market in May was somewhat irritable in price, with continued fluctuations of a full cent ounce in sympathy with proportionate fluctuations in the London market. From the opening price of 64 1/2c there was a gradual decline to 60 1/2c on June 1st, but thereafter the market advanced to 61 1/2c on the 15th. From this time on prices ranged between 61 1/2c and 62 1/2c.

## BUILDING ROAD FROM MINES TO THE TOWN

(By a Staff Reporter.)  
PORCUPINE, June 1.—A roadway road from South Porcupine north to the Miller Porcupine Gold Mines property is under construction, and when completed will serve the northern portion of the town. The road is being built by the Miller Porcupine Gold Mines property, and will be a great benefit to the town. The road is being built by the Miller Porcupine Gold Mines property, and will be a great benefit to the town.

## CLERICALS GAIN IN BELGIAN ELECTIONS

(By a Staff Reporter.)  
BRUSSELS, June 2.—More complete returns from the parliamentary elections emphasized the victory of the Clericals—the government party—whose majority in the chamber of deputies is increased from six to fourteen or sixteen. Efforts will be made to cover the surface of the Pearl Lake road between the two sections with crushed stone. Streets in South Porcupine are being graded up with deep ditches made for drainage. A top dressing of crushed stone from the Foley-O'Brien dumps is being spread over the soluble clay. Recent rains made thoroughness impassable for men or teams. Efforts will be made to cover the surface of the Pearl Lake road between the two sections with crushed stone.

**OSLER & CO. PULL OUT OF PORCUPINE.**  
PORCUPINE, June 1.—The brokerage house of Osler & Co., with offices at South Porcupine, is pulling from the camp temporarily. The stocks become more active. Trading in stocks at this point has been gradually decreasing. It now very few sales are made, and the decision to close all their operations, came only after a thorough test for summer's business. Summer vacation time, which always has been a quiet time, is also near at hand. The local office closed last night.

**Archbishop Assails Catholic Liberalism**  
MONTREAL, June 2.—(Can. Press)—Catholic Liberalism, political and social radicalism in general, and certain political tendencies in Canada are all severely condemned in a circular letter to his clergy by Bishop Archaibald of Joliette. He says in part: "The ideas of Catholic Liberalism were comprised in the political program of a political party in this country a good while since, or at least, it was the program of many leading members of that party, yet, thanks to the breadth of view possessed by its leaders later on, these dangerous doctrines were put aside."

**OSLER & CO. PULL OUT OF PORCUPINE.**

# Political Ambiguity Puts Check on Wall Street Enthusiasm

## Warning Note For Canada From Wall St.

A special investigation of conditions in Canada this year has been made by representatives of Dow, Jones & Co., financial journalists of New York, publishers of the Wall-street Journal, and of the Dow Jones news service. Their report pays special attention to speculation in real estate through the Dominion, and they say frankly that the boom is much overdone. An expert from the report follows the high-priced specialties, especially American Tobacco, which added 15 points to its rise of last week in anticipation of a large bonus or scrip dividend, which is said to be imprudent. Other tobacco issues and special securities also in the dividend class and a few whose intrinsic value is not so well defined rose from 2 to 5 points, but the movement in the actual leaders was circumscribed and frequently unsteady. Copper shares were active and fairly strong on the steady demand for the metal at the new high price.

## Stocks Move in Perfumery Manner in New York Market

NEW YORK, June 3.—Prices ebbed and flowed slightly in the stock market to-day, except in some of the high-priced specialties, especially American Tobacco, which added 15 points to its rise of last week in anticipation of a large bonus or scrip dividend, which is said to be imprudent. Other tobacco issues and special securities also in the dividend class and a few whose intrinsic value is not so well defined rose from 2 to 5 points, but the movement in the actual leaders was circumscribed and frequently unsteady. Copper shares were active and fairly strong on the steady demand for the metal at the new high price.

## They Hope For Renewal of Steel Bounty

During the twelve months ending March 31, the steel department of the Dominion Steel Corporation showed net earnings of \$61,295.67, as compared with \$1,102,916 for the previous ten months. The net result after payment of interest, allowing for depreciation and sinking funds, and the payment of the dividend on preferred stock, showed a surplus for the common stock of about 1-1/2 per cent.

## London Money in Copper Project

LONDON, June 3.—Widespread interest is being aroused in the South American Copper Syndicate, Ltd., which acquired a few years ago at break-up price the valuable group of Quebrada Copper mines at Cerro de Pasopasa, representing about 40 square miles of freehold, containing four distinct mines, each having direct rail-way communication to the seaports, 25 miles distance. Steadily increasing shipments of high grade ore have been taking place for several years, and high dividends paid. Since Jan. 1, 1912, the output and profits are more than double 1911 returns.

## Stock Market Holiday

In honor of His Majesty's birthday, the Toronto and Montreal Stock Exchanges, together with the various mining exchanges, were closed yesterday.

## Child Succumbs to Burns

BERLIN, Ont., June 3.—Margaret Ferrier, aged 6, granddaughter of Mrs. Reinhardt, who was burned to death as the result of gas explosion yesterday, also died at noon to-day.

## Traders Bank of Canada

Dividend No. 65. Notice is hereby given that a dividend of two per cent. upon the Paid-up Capital Stock of the Bank has been declared for the current quarter, being at the rate of eight per cent. per annum, and that the same will be payable at the Bank and its Branches on and after the 2nd day of July next. The transfer books will be closed from the 15th to the 30th June, both days inclusive.

## Wall Street Now Concedes Taft is Done

NEW YORK, June 3.—Wall-street now concedes that Taft is done as a presidential possibility and Wall-street is rejoiced that with him goes Mr. Wickersham, who is regarded as one having a greater knowledge of law and its intricacies than any other man in the country. Not only are odds offered that Roosevelt is nominated, but wagers are offered even that Roosevelt gets the nomination on the Republican ticket.

## Wall St. Comment

Erickson Perkins & Co. had the following: Seeing that stocks would not go down, traders tried several times to get them up. They met with considerable long stock and gave up the attempt. In the last half hour another preceding movement was under way. The bulk of the business was done by professional. We do not share the opinion of some that large interests are keeping prices down in order to accumulate stocks. We had a varied collection of railroad reports to-day, some good and others poor. We are getting too near the Republican convention to permit of much rise in stocks. Trade for small profits until we get a clearer vision of the future. The government is beginning to get active in corporate prosecutions. This will not help stocks.

## Big Merger of Oil Concerns in Britain

Negotiations have been practically completed for the consolidation of various important oil interests in Galicia, according to a cable despatch from London. The announcement adds interest to the following paragraphs from The Yorkshire Post of May 15: "Following the important amalgamation of British oil companies in Roumania with a capital of £1,750,000, of which over £950,000 will be available for working capital, and the proposed fusion of interests between the Oilfields Finance Co. and the General Oil Finance Co., other interesting amalgamations or absorptions are being negotiated in the oil producing world. The sharp advance in 'Ural Caspian' shares recently is due to the rumor that the Shell is to take over the company's assets, and as it already has a large holding, this report certainly bears the stamp of probability. Another proposed combine is in connection with several Galician oil interests, including the Premier Oil & Pipe Co., the Alpha Petroleum Co., the Amalgamated Oil & Pipe Line and the Central Canadian Oil Co. In addition to several foreign interests. It is stated that the Finance Bank will be represented on the directors of this new company. The issued capital of the four English companies above mentioned totals £2,085,000, and as other interests are expected to join, the combine will obviously be a rather big affair. Galician oil properties have not been very popular in the London market on account of their very doubtful life and indications that the oil bearing stratum does not go down to a very low depth. The advantages of the spreading of risks by the combination of interests under such circumstances is obvious."

## Market Retarded By Uncertainties of Politics

As to the future course of the market, in view of present political uncertainties, there is little basis upon which to carry a little further upward movement at this time. Should the political atmosphere clear and appear more hopeful, then stocks may be bought with greater confidence. However, tendencies prove unfavorable and the rising tide of radicalism prove more unsettling, then securities are likely to be offered more freely with a depressing effect.

## Quiet Trading At Firm Prices in London Market

LONDON, June 3.—Money and discount rates were steady. The Bank of England bought the £4,250,000 South African gold offered in the open market. The stock market was quiet, with a firm undertone, but the absence of investment buying checked the advance. Rio Tinto improved on Paribuying and mining and diamond shares closed firm, but weakness was shown in the home rail section, when the fall of a small broker was announced.

## British Consols

Consols, for money	June 1	June 3
Consols, for account	77 1/2	77 1/2

## U. S. Railroads Show Small Gain in Earnings

Gross earnings of all United States railroads reporting to Dun's Agency to date for the first three weeks of May aggregate \$2,938,380, an increase as compared with the same weeks last year of 18.7 per cent. computed with the corresponding period a year ago of 4.2 per cent. and in March of 2.2 per cent. Loss during the first three weeks of May as compared with the same weeks of last year is 1.4 per cent. The following table is given for the first three weeks of May, 1912, as compared with the same weeks of 1911.

May, 3 weeks	\$2,938,380	Gain	18.7
April, 3 weeks	2,788,907	Gain	1.6
March, 3 weeks	2,882,882	Gain	1.4

## Shut Out the Rector

Split in Parish of St. Hilary's, Fairbank, Causes Some Excitement. Considerable excitement has been caused at Fairbank by the appointment of Rev. Mr. Lawrence as rector, to take the place of Rev. George Scott of St. Hilary's. Locks have been put on and taken off the church doors by both factions. The wardens forcibly prevented the new rector from entering the church Sunday. The following service in the church at the rear of the church and offered prayer for the souls of the departed. The service was held at 10 o'clock. The new rector, Mr. Lawrence, was not present. The service was held at 10 o'clock. The new rector, Mr. Lawrence, was not present. The service was held at 10 o'clock. The new rector, Mr. Lawrence, was not present.

## Message from the King

Major Collins, president of the Army and Navy Veterans of Toronto, received a cablegram from King George V. today. The message was in reply to the one sent to the King on his birthday, congratulating him on his birthday. The message was in reply to the one sent to the King on his birthday, congratulating him on his birthday. The message was in reply to the one sent to the King on his birthday, congratulating him on his birthday.

## Thunder Bay Prison Farm

PORT WILLIAM, Ont., June 3.—(Can. Press)—The intention of making a preliminary inspection preparatory to beginning actual work on the erection of the Thunder Bay and Rainy River district prison farm buildings for the construction of which \$20,000 was appropriated two years ago by the provincial government. Dr. Bruce Smith, the provincial inspector of prisons, accompanied by J. R. Elliott and L. A. Law, officials of the public works department, arrived here this morning. They inspected the proposed prison site situated about six miles west of Port William in Palopone Township, consisting of 400 acres.

## Bank Clearings Make Poor Record Across Border

Bank Clearings this week at all leading cities in the United States aggregate \$4,185,907, a decrease of 2.9 per cent. as compared with the same week last year and of 1.7 per cent. computed with the corresponding week in 1910. New York City reports a clearing of 2.8 per cent. from the total of a year ago and of 2.2 per cent. from 1910, but much of this loss is accounted for by the decrease in stock market operations, sales of stock during the past week showing a contraction of about 1,000,000 shares compared with the same week last year. The following table is given for the corresponding period two years ago. Only six of the cities outside of New York City reported a gain over 1910. Average daily bank clearances for the year to date are compared below for three years.

1912	1911	1910	
May	\$404,000,000	\$385,810,000	\$405,250,000
April	400,000,000	400,000,000	400,000,000
1st quarter	1,200,000,000	1,175,000,000	1,200,000,000

## Cotton Report to-day Will be Unfavorable

Erickson Perkins & Co. had the following: Prices were nearly stationary to-day. Evening up of speculative accounts has been in progress for some time with the result that the market will go over the top. The market is now in a very nervous condition. Judging by private reports the figures on cotton to be published tomorrow will show a decrease in the neighborhood of 80 per cent. While slightly under the 1910 average, there is no hope for a marked improvement in the July report. Speculation in both spot markets and future markets continues the most bullish feeling to expect the next move to be downward.

## Shut Out the Rector

Split in Parish of St. Hilary's, Fairbank, Causes Some Excitement. Considerable excitement has been caused at Fairbank by the appointment of Rev. Mr. Lawrence as rector, to take the place of Rev. ## Shut Out the Rector

Split in Parish of St. Hilary's, Fairbank, Causes Some Excitement. Considerable excitement has been caused at Fairbank by the appointment of Rev. Mr. Lawrence as rector, to take the place of Rev. George Scott of St. Hilary's. Locks have been put on and taken off the church doors by both factions. The wardens forcibly prevented the new rector from entering the church Sunday. The following service in the church at the rear of the church and offered prayer for the souls of the departed. The service was held at 10 o'clock. The new rector, Mr. Lawrence, was not present. The service was held at 10 o'clock. The new rector, Mr. Lawrence, was not present.

## Message from the King
