

THE DIAMOND JUBILEE

Suggestions for Its Celebration by Canadians.

AN ADDRESS TO THE QUEEN

Asking for a Visit from the Duke and Duchess of York.

A New Issue of Postage Stamps Also Talked of as a Fitting Recognition—Rumor that the Solicitor-General is Going to Sign in Connection With the School Question—Keeping Yankee Fishermen Straight—Adulterated Honey Discovers—One Official Reinstated—General News from Ottawa.

Ottawa, Jan. 20.—(Special.)—Bumors have it that Parliament will be asked to pass an address to the Queen inviting the Duke and Duchess of York to visit Canada during the present year.

Representations have been made to the Postmaster-General that it would be fitting for the Government to recognize the Queen's jubilee year by an entirely new issue of postage stamps.

Since the matter was first called to the attention of Mr. Mulock some of the philatelic societies have been moving in the same direction, although doubting these gentlemen are more interested from a personal than from a patriotic standpoint.

On his return to Ottawa, it is said, the Postmaster-General will decide whether or not to recommend his colleagues to make a change in the present stamp issue.

THE PROTECTION FLEET. Capt. Spain, in charge of the fisheries protective service, leaves for the Maritime Provinces tomorrow. He will visit all the vessels of the protection fleet now in winter quarters, and make arrangements for such repairs as may be necessary.

TO CONSULT THE VATICAN. It is reported last week that the object of Solicitor-General Fitzpatrick's visit to Europe had to do with the fisheries appeal. This is a pretty good excuse for his trip across the Atlantic.

YANKEE FISHING LICENSES. An order-in-council has been passed approving of the draft of the licenses to be issued to American fishing vessels this year.

SPURIOUS WHISKEY. The Department of Inland Revenue was notified to-day that Messrs. Hiram Walker & Sons have discovered a firm in Chicago which is putting up an inferior class of whiskey.

PERSONAL AND GENERAL. Mr. Whyte, western superintendent of the C.P.R., is in the city to-day, and had an interview with Mr. Sifton, Minister of the Interior.

MR. REDMOND CAUGHT. Mr. John E. Redmond, M. P. for

HE GETS HIS DIVORCE

Princess of Chimay Admits All the Charges

NOW BROUGHT AGAINST HER

She Wishes the Privilege of Seeing Her Children at Intervals.

This One Favor Her Counsel Asks of the Court—How the Newspaper Reporters Were Excluded in the Interests of the Chimay Family—The Prince, it is said, Will be Given His Decree Without the Introduction of Any Testimony.

New York, Jan. 20.—Auguste Vireit cables The Journal from Charleroi, Belgium: A great crowd of barriers and journalists assembled to-day in the Court of the First Instance here on the occasion of the opening of the Chimay divorce suit.

The proceedings were opened at 9:30 a.m. by the judicial registrar declaring that, as no plea of non receipt had been adduced by either side, the court admitted the demand for a divorce, and the president affirmed.

CLEARED THE COURT ROOM. The public prosecutor called attention to the fact that the public was composed of "professionals in industry," and added that there was ground to fear that their appearance meant a distortion of scandalous narrative to the further ends of the world.

BEGGED FOR FORGIVENESS. Before she eloped the Princess sent a letter to her husband, asking forgiveness, and paying tribute to his gentle and upright character.

DEMANDS A DECREE. Counsel concluded by asking that a decree of divorce should be pronounced without preliminary enquiry, since the facts were proven.

Special Excursions. If you wish a nice trip through Europe and the East, the best and most interesting book which cannot be equalled. S. J. Sharp, 78 Yonge-street.

THE FAMOUS BOSTONIANS. The engagement of the famous Bostonians, beginning to-night, at the Grand Opera House, has excited more than usual interest among music lovers, and the performance of opera connoisseurs, as rendered by this comic opera company, is a fitting climax to the series of musical entertainments recently given here by other organizations.

COOK'S TURKISH BATHS. 204 King W. ave., 75c.

THE QUEBEC FIRE ASSURANCE COMPANY has taken an office on the ground floor, Jordan-street front, in the McKinnon building, and will move in as soon as the fittings are completed.

TRAVEL. The Cook-Davis Traveler's Chair, the only speciality of its kind, is now on hand at 111 Bay-street.

English collars, 4-ply, 25c. Latest styles. Open to-day. Dress bows 10c. 3 for 25c. Dress shirts 11. Treble's, 33 King-street west.

English collars, 4-ply, 25c. Latest styles. Open to-day. Dress bows 10c. 3 for 25c. Dress shirts 11. Treble's, 33 King-street west.

Miss COLUMBIA, with asperity: Waal, Mr. Laryrie, if you really want to propose, don't you think it'd be a little more delicate to come 'n' do it yourself?

GREAT BLAZE AT PETERBORO.

The New Mill of the Consolidated Milling Company Goes Up in Smoke—Loss \$75,000.

Peterboro, Ont., Jan. 20.—One of the largest fires that Peterboro has ever seen occurred here last night, shortly before 10 o'clock, in the fine new mill just finished by the Dickson Company for the Consolidated Milling Company.

BEGGED FOR FORGIVENESS. Before she eloped the Princess sent a letter to her husband, asking forgiveness, and paying tribute to his gentle and upright character.

DEMANDS A DECREE. Counsel concluded by asking that a decree of divorce should be pronounced without preliminary enquiry, since the facts were proven.

OUR RUSSIAN SPECIAL.

Many Arrivals from the East—A New Company Being Formed with Toronto People in It.

Rossland, B.C., Jan. 20.—(Special to The World, via Spokane, Wash.)—There are many arrivals from the east every day. Many come looking for work, but they will have a hard time. There are plenty of vacancies here and arriving at all vacancies, and those without means find them hard to come by.

BEGGED FOR FORGIVENESS. Before she eloped the Princess sent a letter to her husband, asking forgiveness, and paying tribute to his gentle and upright character.

DEMANDS A DECREE. Counsel concluded by asking that a decree of divorce should be pronounced without preliminary enquiry, since the facts were proven.

NO WHAT THEY WANTED.

The Winter of 1896-7 Was Not the Kind Desired by the Fur Trade.

The weather of the past few months has hardly been all that could have been desired by the fur trade, but, notwithstanding this, Dineen reports a satisfactory season's business, and as the season is now pretty nearly over, the firm are stocktaking, and are in the meantime offering some decided bargains.

BEGGED FOR FORGIVENESS. Before she eloped the Princess sent a letter to her husband, asking forgiveness, and paying tribute to his gentle and upright character.

DEMANDS A DECREE. Counsel concluded by asking that a decree of divorce should be pronounced without preliminary enquiry, since the facts were proven.

THE ONTARIO BISHOPS

Said to Have Blocked Reading of the Mandement.

GLOBE EDITORIALS ALSO

Supposed to Have Been Connected With the General Plan.

The Premier and Sir Oliver Mowat said to have been exerting their influence to prevent a coalition of Ontario and Quebec Prelates—Talk of a Revival of the Canadian Institute Which Archbishop Bourget's Thunder Cried—Other Montreal Items.

Montreal, Jan. 20.—(Special.)—Your correspondent is informed that the delay in promulgating the long-talked-of episcopal mandement has been caused by the hesitation, if not the reluctance, of the Ontario bishops to affix their names to the thunder and lightning document in question.

BEGGED FOR FORGIVENESS. Before she eloped the Princess sent a letter to her husband, asking forgiveness, and paying tribute to his gentle and upright character.

DEMANDS A DECREE. Counsel concluded by asking that a decree of divorce should be pronounced without preliminary enquiry, since the facts were proven.

CANADIAN INSTITUTE REVIVAL.

All those who remember the struggle of the Canadian Institute in the famous Quebec case and the society's condemnation by the late Archbishop Bourget will be interested in the fact that the Institute has still its legal existence, the charter not having yet been returned to the archbishop. It is feared the result will be quite as demoralizing to the province as the shaming lights of the Canadian Institute during its palmy days, and it has always been a matter of regret to the English-speaking bishops on the ground that Sir Oliver Mowat always treated them well in Ontario, yet it is said they are their Quebec confederates and that they will sign the end.

BEGGED FOR FORGIVENESS. Before she eloped the Princess sent a letter to her husband, asking forgiveness, and paying tribute to his gentle and upright character.

THE SCHOOL BOARD AMALGAMATION

When the scheme for the reorganization of the School Boards assumes definite shape better provision should be made for allowing the electors to express their views on the broad questions of school policy. All the school boards now enjoying a separate existence, including the High School, Public School and Technical School Boards, and the governing bodies of whatever other educational institutions are under the control, or semi-control of the city, should be united into one body, to be elected in the same way as the City Council is elected. In order that the people may vote on a school policy, and not for this or that individual, the chairman or president of the amalgamated boards should be elected by the people. In the last municipal elections the two Mayor-candidate candidates appealed to the people on certain specific planks in their respective platforms. The electors voted for the policy of their candidate more than for the candidate himself. Similarly when the proposed School Board is elected the same opportunity should be given the electors for voting on a policy instead of voting for men. The electors have hitherto had little opportunity of expressing their views on the financial aspect of the city's educational system. The sum spent for education in Toronto amounts to a very big figure in the aggregate. The public should have a direct voice in fixing the sum that shall be appropriated from year to year for educational purposes. The present system is complicated and does not give the electors an opportunity of stating what sum they wish to spend on education and how they wish it expended.

NIAGARA FALLS POWER

The World has received a communication from a correspondent at the Niagara Falls, who wants to inform him that the Government intends doing to develop the water power on the Canadian side of the river. We are unable to answer his question. All the Government will say about the matter is that they have as yet taken no action either way in regard to the application of the Niagara Falls Power Company to have its option extended for four years. It looks very much as if the Government were on the point of extending the option. It will be an outrage if the development of electrical energy on the Canadian side of the Falls is delayed even for four months, not to speak of four years. The Province of Ontario, unfortunately has no coal, and our manufacturers are thereby handicapped when compared with manufacturers on the other side of the line. There is one reason why the development of Ontario should be supplied with cheap electric power than the people of Buffalo. In the latter city coal is cheap and steam power can be produced considerably lower than at any point in this province. Niagara Falls power is now sold at Buffalo for \$30 per horsepower per annum. That rate is cheaper than steam power made as economically as it is possible to make it. As soon as we get electric power at the same rate on the Canadian side we are on a par with the Americans.

You Want the Best?

Then next time take home a package of

You will never regret it. From all Grocers at 25c, 40c, 50c and 60c. Lead Packages.

As far as power is concerned, their coal in that district would give them no advantage over Canadians.

A COMPREHENSIVE ALLEN LABOR LAW REMANDED

When the Dominion Government comes to consider the enactment of an alien labor law to meet the one that is now in operation against this country it will be necessary to apply a remedy that will meet the case from every point of view. The object of the American law in passing their law was to prevent Canadian workmen from obtaining employment within the United States. The law forbids a Canadian entering the United States under contract to perform any work in that country. If it is known that a Canadian goes into the United States for the purpose of accepting a situation he is "deported," or sent back. The United States authorities will not allow him to enter the country. When the Dominion Government comes to enact reciprocal legislation care should be taken to make this legislation as comprehensive as possible. The necessity for legislation of this kind is much more marked in Canada than it was in the United States. American workmen have invaded our territory much more extensively than Canadians have done in regard to the United States. British Columbia in full of miners who have come into Canada from Montana, Colorado and other mining States, most of them under engagement before reaching the country. Under the Canadian law, which we hope soon to see enacted, all such "deportees" from Great Britain. Further, if it is bad policy to allow American workmen to come into this country to get employment, it is equally bad policy to allow Americans to have the same privileges as Canadians in the present employment of mining locations. If the Americans will not allow a foreigner to own property in their country, why should we allow them to own property in Canada? Why should we go further than this and give them valuable privileges for nothing? Any American citizen can come into British Columbia and claim hundreds or thousands of acres by merely taking out a \$5 license, the same as any Canadian can do. The mineral wealth of British Columbia appears to belong to the Americans just as much as it does to us. It is time our Government devised some legislation to discriminate against foreigners in regard to our natural resources as well as in regard to the labor that rightly belongs to our own people.

FAKE NEWS PAPERS AND THE POST-OFFICE DEPARTMENT

It is not difficult to locate the cause of the deficit of \$70,000 in the Post-office Department for the last fiscal year. The biggest part of it, at any rate, is attributable to the generosity of the Government in carrying newspapers and periodicals gratuitously through the mails. Owing to the cheapness of paper and the reduction in the cost of typesetting the number of periodicals has largely increased of late, and the circulation of all papers has had an upward tendency. It is an opportunity newspaper publishers should be seized upon to reduce the burden the mails so much as fake papers that exist merely because of the fact that the Postoffice Department undertakes to distribute them all over the Dominion for nothing. If these fake papers were made to pay regular postage rates, and if legitimate newspaper publications were subjected to a moderate rate, the deficit would be wiped out, and the department would be in a position to adopt a 2-cent rate for letters. The same abuse of the mails exists in the United States Postal Department. The United States Postmaster-General in his last report stated that a 1-cent letter rate could be adopted if second-class mail matter were made to pay even one cent per pound postage.

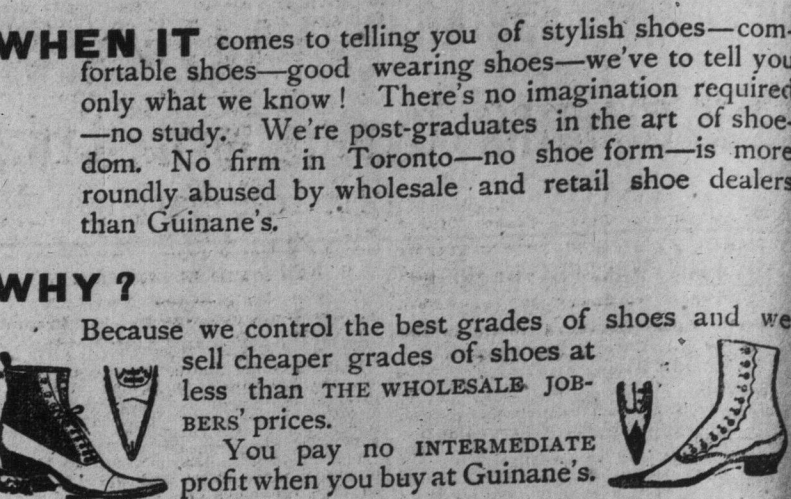

The Navy League in Canada

A large audience was delighted at St. George's Hall, Elm-street, last night by the lecture of Mr. H. J. Wickham, late of the Royal Navy, "The Battles of the British Navy." Lieut.-Col. Denison was chairman and introduced the lecturer with appropriate remarks on the position of the British Navy at the present time and the position of the Canadian Navy. The lecturer, by the aid of time-light views, projected a lifelike portrait of the Queen, which was greeted with prolonged cheers. After this came the representation of the famous victory of Lord Howe. Then followed the sinking of the Royal George. Mr. Wickham admirably described the battle between the Revenge and the Spanish ship, the Battle of Trafalgar, and the famous Battle of the Nile. In the course of his remarks he stated that during the past year the British Navy and the Navy League had brought prominently before the public a pamphlet containing a paper read by Mr. Wickham before the House of Commons in the House of Commons was presented to the audience. Mr. Wickham will lecture in the principal cities and towns of Canada, under the auspices of the Navy League.

Guinane's 210 YONGE STREET.

WHY IS IT? These advertisements are read? It is because we are thoroughly acquainted with our subject—"Leather."

WHEN IT comes to telling you of stylish shoes—comfortable shoes—good wearing shoes—we've to tell you only what we know! There's no imagination required—no study. We're post-graduates in the art of shoedom. No firm in Toronto—no shoe form—is more roundly abused by wholesale and retail shoe dealers than Guinane's.

WHY? Because we control the best grades of shoes and we sell cheaper grades of shoes at less than THE WHOLESALE JOBBERS' prices. You pay no INTERMEDIATE profit when you buy at Guinane's.

TO-MORROW, FRIDAY, WE WILL OFFER:

- Gentlemen's Department: 150 pairs Corlovian Lace Boots, size 6, reg. price \$1.50, Friday, 1.00; 200 pairs Calif Lace Boots, assorted sizes, 6 to 10, reg. price \$2, Friday, 1.50; 150 pairs Corlovian Lace Boots, new style toe, manufactured by George G. IS THIS A CASE OF MURDER?

The Rosseau Sensation is Being Developed.

JAMES COONEY ON TRIAL.

Financed For Burying His Father Without a Permit.

Coraer's Inquest Begun—Cooney Told a Rambling Story and Admitted That He Went and Exhumed the Body to Search the Clothes for Money, But Found None.

The Mayor was yesterday afternoon served with two writs on behalf of William Andrew Mills and Eliza Winton respectively, charging for an injunction to declare invalid bylaw 2841, which is an assessment of \$18,183.25 made upon the plaintiffs and other property owners for the extension of Gladstone-avenue.

AT THE CITY HALL.

The City Council resumed its session at 10 o'clock this morning. The Mayor presided. The first item on the agenda was the report of the City Engineer.

SCHOOL BOARD \$5000 SHORT.

Trustee Douglas and Secretary Wilkenson yesterday waited upon the City Treasurer, and asked that the City Council rescind its resolution of \$5,000 which was struck off the estimates of the Public School Board for 1897.

TO-DAY'S BUSINESS.

The Legislation Committee meets at 10 o'clock this morning to consider the draft bill respecting legislation recommended by the Mayor in his inaugural message.

GATES FOR BAY-STREET.

Owing to the increase in the volume of traffic at the level crossing at the intersection of Bay-street and Queen-street, the City Engineer has advised himself of the powers contained in the tripartite agreement.

GAVE HIM \$700.

Dr. Marshall's Compensation for Securing the Conversion of Twelve Hundred Wicked Ottawa People.

Richard Bayeroff Met With a Terrible Death at Gravenhurst.

Barrie, Ont., Jan. 20.—A distressing railway accident occurred at Gravenhurst early this morning. Richard Bayeroff, a workman, was working on top of some freight cars while the train was starting, and accidentally fell to the track, the cars passing over him and mangled his body horribly.

BRANKSMAN KILLED.

Parties forming mining companies should use our forms, blank books, etc., especially we have it. Grand & Toy, stationers, Toronto.

A Winter Home in Toronto.

Families contemplating closing their homes for the winter months will find in the new Grand Union, corner Spadina and Front (the most modern hotel in the city, steam heated, baths, electric light, etc.), a perfect home.

Head Almost Blown Off.

Greenwich, Conn., Jan. 20.—Through the careless handling of dynamite yesterday afternoon an explosion resulted which almost destroyed the house of Antonio Catalo. Donato, his son, was instantly killed, his head being partially blown off.

STRATFORD SAYINGS.

Five Years' Peculiar Suffering. Stratford, Ont. "Five years ago I began to suffer from symptoms of kidney trouble, such as acute pain across the small of my back, dizzy spells, pains in my limbs, palpitation of the heart and restlessness at night.

BRITISH HOUSE OF COMMONS

Motion for Amnesty for Irish Political Prisoners

DID NOT MEET WITH FAVOR

Sir Matthew White Ridley Puts His Foot on the Proposal.

Conclusions of the Irish Taxation Commission to be Discussed Separately, in All Probability—Countess Cowley's Divorce Case—Every Set Free Because of the Collapse of the Crown's Case—The Thunderer on the Arbitration Treaty—General News by Cable.

London, Jan. 20.—The business of the House of Commons to-day was the debate on the address in reply to the Speech from the Throne.

Patrik O'Brien, member for Killarney, moved in amendment to reconsider the sentences of the Irish prisoners who had been condemned to imprisonment upon charges of treason.

The amendment was seconded by J. G. Flynn, member for North Cork. Mr. Timothy M. Healy, member for North Louth, supported the amendment moved by Mr. O'Brien, and, in the course of his speech, declared Irish agents in America had provoked the outrages with which the condemned were charged.

Sir M. W. Ridley, Home Secretary, said that he was unable to see any reason for advising that amnesty be granted to the political prisoners referred to in the amendment, much as the Government desired to remedy any Irish grievances.

GENERAL CABLE NEWS

Native Rising in Queensland, South Africa, Growing Serious.

Cape Town, Jan. 20.—The native rising in Queensland and South Africa, which has been going into fortified camps, the three sons of Chief Mankwato, has been revived.

To Compensate Canadians. The Trinity Medics have struck something new—Mrs. Murphy Deaf.

The Medical Society of Trinity Medical College held a mock inquest on Tuesday evening, when there was very full attendance.

Countess Cowley Charges Her Husband With Flagrant Misconduct.

London, Jan. 19.—The trial of the action for divorce brought by Countess Cowley against her husband, Henry Arthur Montagu Cowley, was begun in the Divorce Division of the High Court of Justice this morning.

Countess Cowley denied that she had assented to her husband's desertion of her. She had always been willing to act as a wife should, providing she was treated by her husband as a faithful wife should be treated.

Mr. Charrington was called to the stand and testified that he had been aware that Earl Cowley was a frequent caller at his hospital, but he was not aware that his calls were made after he (the witness) had left the house.

Propose to Celebrate. Birmingham People Desire to Mark the Signing of the Treaty.

London, Jan. 20.—A meeting was held in Birmingham to-day to perfect arrangements for a suitable celebration of the signing of the general arbitration treaty between the United States and Great Britain.

President Polk in the White House chair, while in Lowell was Doctor Ayer.

Both were busy for human weal. One to govern and one to heal.

And, as a president's power of will sometimes depends on a liver-pill, Mr. Polk took Ayer's Cathartic Pills for his liver, 80 years ago.

Ayer's Cathartic Pills were designed to supply a model purgative to people who had so long injured themselves with gripping medicines.

Being carefully prepared and their ingredients adjusted to the exact necessities of the bowels and liver, their popularity was instantaneous.

That this popularity has been maintained is well marked in the medal awarded these pills at the World's Fair 1893.

50 Years of Cures.

THE ARBITRATION TREATY. London Times Praises the U. S. Senate May Not Ratify It.

London, Jan. 20.—The Times comments editorially this morning upon the fears expressed by a correspondent in the United States that the general arbitration treaty will, perhaps, be not ratified by the Senate.

The Times finds it difficult to believe that the treaty will be rejected after having found the approval of the executives of both countries, England, however,

WHO WILL BUILD THE ROAD?

Rumors Afloat About Crow's Nest Railway.

ROSSLAND ELECTRIC LINE

Will Soon Connect the Golden City With Spokane, Wash.

Trail Creek and the Slocan District Will Probably be Divided Into Four Counties.

How Smelters are Run—An Interesting Pointer From The Rossland Miner.

Line of Water-The Golden Strip and Other Matters Relating to Mining in Canada.

Citizens of Rossland and other points in Trail Creek and Slocan are bringing forward a scheme which has for its object the division of the district of West Kootenay into four counties. The idea is to have the interests of the rapidly growing region looked after by the quartet of new members who should take their seats in the Local Legislature, and to have the business of the district facilitated.

The proposed counties would consist of the Trail Creek district, with Rossland as its county town; Nelson district, with Nelson as its capital; the Slocan region, with New Denver, Sandon or Kaslo as its capital, and the northerly portion of the district with Revelstoke as its centre. The project is being discussed widely, and Premier Turner has granted the petition of the people.

CROW'S NEST ROAD

May be Built by the British Columbia Government.

All sorts of rumors are floating about regarding the proposed construction of the railway through the Crow's Nest Pass to tap the Kootenay. One day the C.P.R. has the deal in its hands, the next the Dominion Government is to construct the line and then something else is to be done.

The latest story is that the Provincial Government of British Columbia is to build the road. The assertion is that one of the chief objects from Mr. Blair, the Minister of Railways and Canals, had in visiting the coast was to prevail upon the local administration to undertake the project under the guarantee of the Federal Government.

According to this statement the arrangement is that the powers at New Westminster shall build that part of the road lying within the province, the link between the British Columbia boundary and Macleod to be constructed by the Dominion. In this event it is the intention of the Calgary and Edmonton Railway to build the 50-mile link between Macleod and the Great Northern in Montana.

ROSSLAND ELECTRIC R. R.

One of the Latest Projects of the Pacific Province.

A company of eastern capitalists who are interested in Trail Creek has been formed at Rossland to build an electric railway between that place and Spokane, a distance of 180 miles. Application is being made to the Washington Legislature for a charter to build that part of the projected line to the south of the international boundary, and thence the road is to run via Grand Forks, Anacosta, and Greenwood to Rossland. Says a Rossland despatch: The line will be operated entirely by electricity the entire distance from Spokane to the Boundary country. The power will be obtained from the falls of the Kettle River, which is 110 miles from Spokane. From Kettle Falls the route will be along the river to Grand Forks, 29 miles north. At this point it will tap one of the richest parts of the British Columbia gold fields, and it is understood that tracks will be extended to the other camps in this vicinity. At any rate an engineer has been there looking over the ground, and recently he came through to Rossland. He believes he has found a feasible route from Grand Forks to this city. It is not likely that the Rossland branch will be constructed this year, however. The company back of this scheme will endeavor to finish the road into the Boundary country this summer and will then rest until the following year. An eminent New York capitalist who is interested in the proposed railway has prepared a bill to Congress asking permission to cross the Colville reservation.

HOW SMELTERS ARE RUN.

Some Information of Interest to Mining Stock Owners.

Many of our readers are no doubt ignorant of the manner in which smelters are run, and many mining stock owners very likely wonder how "leakages" are avoided. One man recently wrote: "I am at a loss to know how these smelters are managed. Is there a Government inspector there, or who is there to look after the interests of each mine having ore on the smelter? Do they depend on the honesty of the management, or has each mine got to have an inspector there while the ore is being treated? Is there not a chance of a big leakage here? The gold, silver and other metals taken from the ore, where are they kept? When are they sold? Are there proper places to keep them until they are sold? How is this managed?" I fancy an article on this matter would be thankfully received by readers in this part of Canada, where the people know little of mining.

In answer to this letter The Rossland Miner editorially remarked: "Some mines do keep an agent at the smelter, but he is there merely for keeping a check on the quantity of ore delivered. Where the ore is weighed before being shipped there is no need for an agent at the smelter. The smelter agrees to treat ore for a certain price per ton, and to pay New York prices for the gold, silver and copper contained.

When the concentrates at the smelter it is weighed the same as wheat or any other commodity. It then goes to the sampling works, where it is weighed automatically. This sample is then reduced in quantity, also automatically, and a portion of it is ground to a pulp. A small part of this pulp is then assayed to find its metallic contents. The rest of the pulp is sealed up for future reference in case of a dispute as to the value of the ore, with the exception of an assay sample, which is sent to the shipper of the ore. He in turn gets his sample assayed, and it checks out with the smelter returns. There is no room for dispute. If it does not check out with the smelter returns of the pulp is sent to a disinterested assayer selected by both parties as umpire. His certificate of the contents settles the question of value. The pulp from which all these assays are obtained.

Report duty on Fall.

Mr. F. C. Cleague, a well-known pulp manufacturer of Seattle, Wash., was in town yesterday. He says that the pulp manufacturers will make in asking the Dominion Government to put an export duty on pulp manufacturers sent countries which do not allow pulp goods to enter their ports on the same terms as they enter Canada.

Twelve Per Cent. Guaranteed.

For the purpose of putting in an electrical plant to generate power sufficient to operate a twenty-stamp mill, hoists, electrical drills and light the mines, The Colorado Gold Mining & Development Company offer 100,000 shares of treasury stock at 85c per share, on which a dividend at the rate of 1 per cent. per month is guaranteed for five years.

In the Keyes, Keyes Extension and Three Chimneys the Company have three splendid properties from which it is now taking pay ore, and negotiations have just been concluded for the fourth, which gives it four great properties in the Keyesville District, Kern County, California, a county which has produced gold to the value of more than a hundred millions of dollars since its discovery.

This group of mines presents a combination of seven full mining claims, making an aggregate extent of two miles with a full width throughout of 600 feet. The body of ore is enormous in quantity and of high grade. It is free milling, and more than ninety per cent. can be saved.

The Kern River, the second largest river in the State, is about one mile from the mines, and it is the intention of the Company to introduce a system of under-shot wheels in the river, thereby generating sufficient power to operate the dynamo for the electrical plant as above outlined.

When the proposed improvements are completed, the cost of mining and milling will not exceed \$2.50 per ton, and as the average value of the ore is \$40 per ton, it is believed our net earnings will average one thousand dollars a day, which will insure dividends of at least three per cent a month on the par value of the shares, and those most intimately connected with the Company are sufficiently assured of its earning power to guarantee dividends on such an amount of stock as it may be necessary to sell in order to provide for the machinery necessary to enhance the Company's earning power to what is believed will prove thirty-six per cent. per annum.

At the price the shares are now offered, with the present rate of dividend, they net the investor at the rate of fourteen per cent. per annum, and we are justified in saying that shares in THE COLORADO GOLD MINING & DEVELOPMENT COMPANY are by far the best investment offered in the Dominion to-day, combining as they do, perfect safety with a high rate of interest.

In order to assure investors of the absolute stability of the investment offered, Messrs. Lownsbrough & Co., Bankers, together with the managing director, J. Grant Lyman, personally and jointly guarantee dividends at the rate of one per cent. a month on the par value of the shares for five years.

Every guaranteed certificate will have the guarantee stamped across the face of it and be signed by Messrs. Lownsbrough & Co., and J. Grant Lyman. Only one hundred thousand shares of guaranteed stock will be offered and no guaranteed certificate for less than one hundred shares will be issued, and the Company reserves the right to withdraw it from sale without notice. The price of the shares will be advanced to one dollar on February 1st, 1897. Intending purchasers of mining shares will please note the following features of this enterprise:—

First—The Company is not in the experimental stage, but an established enterprise with an assured earning capacity, extending its operations.

Second—Out proposition is purely a business one, as we buy only such properties as show a profit over our investment and do not buy "prospects."

Third—Every shareholder stands on the same basis, no shares being given away or set aside for an officer or director, except as they are paid for the same as by other shareholders.

Fourth—The payment of the dividends is assured beyond all question.

Subscription books are now open at the office of LOWNSBROUGH & CO., Bankers and Brokers, 22 King Street, East, Toronto, Ont., where J. Grant Lyman, Managing Director, will be pleased to receive your subscription for such number of shares of the above Company as will be agreeable to you: price 85 cents per share, par value \$1.00, full-paid and non-assessable, and subject to no further call. Correspondence invited.

FIRST COME FIRST SERVED

Addison Box 264, Montreal, Ont.

To the Shareholders of the Colorado Gold Mining & Development Co.

The foregoing advertisement is self-explanatory and shows the faith the managing director has in the future of this Company.

The present dividend of 1 per cent. a month on the shares of this Company is guaranteed for a period of five years by Messrs. Lownsbrough & Co., Bankers, and the Managing Director, J. Grant Lyman. The same shares offered by the Company, carrying the same dividend, but not guaranteed by Messrs. Lownsbrough & Co., or J. Grant Lyman, we are offering for 75c.

It goes without saying that the Company, in order to pay dividends on part of its stock, must pay dividends on all, as there is no such thing as "preferred stock," but in personally and jointly guaranteeing these dividends we make assurance a positive fact, and, of course, such stock is worth more money.

The writer of this letter now holds over 250,000 shares of this stock, and the proposed improvements should result in a material increase in my dividends as well as enhance the value of my stock, consequently I feel that I can well afford to guarantee dividends on such an amount of stock as it will be necessary for the Company to sell in order that they may make the improvements outlined.

The benefits that will accrue to the Managing Director every shareholder will participate in in direct proportion to his interest in the Company without incurring the liability that the Managing Director assumes.

In order that there can be no question as to whether my guarantee is good or not, I have arranged for a further guarantee by Messrs. Lownsbrough & Co., Bankers, thus insuring the payment of the dividends without the shadow of a doubt.

Trusting you will appreciate the efforts we are putting forth for the benefit of this Company, I remain, dear sirs,

Very truly yours, J. GRANT LYMAN, Managing Director.

Get In Before The Rise

This is the LAST opportunity to buy Victory-Triumph at 10 cents.

THIS STOCK WILL BE RAISED TO 15 CENTS THIS MONTH.

It is not being put up because there is a large market that will take it at any price, but because the Company will not sell their stock for LESS THAN ITS VALUE.

The chief investors, so far, have been men who know the property and its capacity as a producing mine.

The rise in price is justified by the appearance of the property under development.

BUY NOW and reap the advantage of the PAY ORE already taken out by work done.

The tunnel on the VICTORY-TRIUMPH ledge is being driven TWO FEET A DAY on a chute of ore TEN FEET WIDE. The TRIUMPH shaft on the COPPER LEDGE is in an ore body which is RICH enough and LARGE enough to pay BIG DIVIDENDS as soon as sufficient ground is opened up and shipments begun.

—This mine will be one of the Big Bonanzas of British Columbia.

The development now accomplished represents a big return on the bed rock price of the stock, which is ten cents.

ORDERS RECEIVED BY MELFORD BOULTON 80 Jordan St., Toronto. 246
