Passed the Committee of Ontario Legislature With But Few Amendments.

TORONTO MEMBERS PROTEST. Street Railway, Telegraph and Telephone Assessment—The Printing Contract.

The Ontario Government monopolized the whole of yesterday with their proposals to increase the revenues of the province. Clause by clause was discussed in committee of the House, and numerous as were the criticisms of the Opposition, Hon. Mr. Harcourt and his colleagues justified and explained the special provisions.

Member for South Perth. The speaker having announced that he had received the official return of the South Perth election, Mr. Nelson Monteth was introduced to the House by Mr. Whitney.

On motion of the Attorney-General, it was resolved that for the remainder of the present session the Government shall have precedence over all other bills, save the printing contract, and also that the House sit on Saturday night from 11 o'clock to 12 o'clock.

Money Voted. This item, and the others making up the \$105,200, carried; also \$182,566 for hospitals and charities; and a number of items for the purchase of land, for the purchase of municipal buildings, and for provincial public institutions.

Exhibition of Minerals. Mr. Marter will on Monday next inquire of the Minister of the Interior, whether any arrangements have been made or will be made for a mineral exhibit from Ontario in the mining section of the Greater London Exposition to be held from May to October, this year, at Earl's Court, London, England.

Natural Gas Companies. In reference to the section respecting natural gas companies Mr. Auld (Essex) and Mr. Foy (North York) were opposed to the bill.

Landlord and Tenant. Mr. Patullo moved for an order of the House for a return giving information under the provisions of the Landlord and Tenant Act, 1887, in relation to the printing contract.

Regulation of Charges. Mr. Wardell (South Westw.) in reference to the regulation of charges of natural gas companies, moved for an order of the House that the House do not pass any bill which shall give any company the right to fix its prices.

Express Companies. Mr. Germain has introduced a bill to amend the provisions of the express companies act, 1880, and to give effect to the provisions of the express companies act, 1880, and to give effect to the provisions of the express companies act, 1880.

Interference With Municipal Taxation. Mr. Wardell objected to the exemption of street railway, telegraph and telephone companies from municipal taxation.

THE LIBERAL TARIFF ANALYZED.

Just how far the Laurier tariff is protectionist and how far it is free trade is no longer a matter of controversy. When the tariff was first introduced it was impossible to measure it accurately and assign it its proper place. Now, however, it has been in operation a sufficiently long time to enable us to measure it with accuracy, even to a millimetre.

RIVALRY, TROUGH FRIENDS.

The Montreal Star estimates that a substantial preference to colonial goods in the British market would probably give Canada and Australia together a population of 60,000,000 people within twenty-five years. The World has made an estimate of the same kind, but it was hardly as optimistic as that of our contemporary.

ALASKAN MODUS VIVENDI.

Proposals Have Been Made by British to the United States. London, March 23.—In the House of Commons to-day Mr. James Francis Hogan, anti-Frenchite, asked whether a modus vivendi had been arrived at in the matter of the Alaskan boundary.

The New Legislature Got Together Yesterday for Business. Fredericton, N.B., March 23.—The New Brunswick Legislature was opened this afternoon with a long speech from the throne.

At the Public Library.

The new books at the Public Library are: Strasburger, A Text Book of Botany; Walker, Discussions in Education; Pantheon, Pure Economics; Life of Christ as set forth by the Four Evangelists; Teichert, Christian Martyrdom in the Middle Ages; The Book of the Master; Monier-Williams, English Shaking; Schuchel, Handbook of Metallurgy; Slater, Book Plates and Their Value; Burton, Literary Likings; Fleming, How to Study Shakespeare; Phillips, Voice and Violin; Green, Raiders and Rebels in South Africa; Temple, A Bird's-eye View of Picturesque India; Craik, The Story of Old Fort London; Woolsey, America's Foreign Policy; Duke of Grafton, Autobiography; An Political Correspondence; Bourget, Trois Petites Filles; Scott, Labor and the Angel; Maudock, The Lost Laird; Cox, Comedy and Chemistry; Harrison, A Triple Entanglement; Garland, The Spirit of Sweetwater; Lyall, Neil Macleod; Miles, With Fire and Drum.

Sons of Scotland Case.

Argument was yesterday concluded in the Court of Appeal of the Sons of Scotland, to set aside the certificate by which Richardson Faulkner obtained membership in the order, alleging that he is an Irishman and was at the time of admission over the acceptable age.

Ottawa.

cent rebate. The so-called 25 per cent preferential tariff is a sham, a delusion.

Another thing that goes to prove it is the fact that the increase in our imports from Great Britain during the last seven months is only 6 per cent. When we consider the largely increased volume of our trade in all directions we will not be far wrong in attributing the whole of that 6 per cent to the natural increase which we would have experienced in any event.

Believe that the United States and Great Britain, although friends, would ever come to be rivals.

Mr. Choate hit the nail on the head. Mr. Broderick is possessed of an overweening determination to pose as the greatest individual in the world, and he will never cease boasting along this line until he wrecks from John Bull an acknowledgment of his superiority.

Exit of Hotels and Mansions in London Will Be Looked After.

London, March 23.—Mr. Jesse Collings, Parliamentary Secretary of the Home Office, answering a question in the House of Commons to-day, said he understood, in view of the destruction by fire of the "Slater" Hotel, New York, that the possibilities of the exits and fire escapes of London hotels and mansions would be brought before the London county council.

Will Investigate the Death of Coroner

Coroner Lewis, who died last night, was inquired into by the coroner on Wednesday night. The enquiry will be conducted this afternoon at 8 o'clock at Clancy's Hotel, East Queen-street.

A Test Case.

It has been widely remarked that "a test case is one that is brought to see how much the lawyers can make out of it," and that when doctors disagree they can always unite in attributing it to heart failure.

Dr. Ward's Blood and Nerve Pills

Dr. Ward's Blood and Nerve Pills have never failed in any reported case to remove all the symptoms so often wrongly charged to heart trouble. We have space only for one or two records, but can forward them on application. Here are the records:

"I used Dr. Ward's Blood and Nerve Pills for dyspepsia and nothing else; now I weigh 148 lbs. and feel that I have never had an equal as a cure for dyspepsia as I have never troubled." GILBERT ABBAS, London, Ontario.

"I was under treatment for dyspepsia with several doctors, but found no relief, but an hour cured through the use of Dr. Ward's Blood and Nerve Pills." J. F. BATES, Toronto, Ontario.

"Before using Dr. Ward's Blood and Nerve Pills I weighed only 125 lbs. and had no sign of it and have gained twenty pounds in weight." JOHN DUNTON, London, Ontario.

Toronto Junction, March 23.—(Special).—Mr. T. G. Jardine of the Canadian Board of Commissioners was in town this week interviewing manufacturers in regard to the respective displays they will make at the Paris Exposition of 1900.

Another old resident of Toronto Junction passed away to-day in Mrs. Mary Wakefield of St. Clair-avenue, who had reached the age of 80 years. The funeral will take place to Prospect Cemetery on Saturday.

An aged woman on crutches put on the down train at Davenport station this evening. She could not say where she was going or where she came from, and begged to be allowed to sleep in the waiting room over night.

Fire was discovered issuing from a cupboard in the second story of the residence of Mr. Hugh Kyle, 124 Vine-avenue, this morning. The great amount of smoke gave the firemen a lot of trouble, but the flames were confined to the one room by the chemical engine and were soon subdued, with a loss of about \$100.

The youngest son of Mr. Kyle was nearly overcome with smoke and Chief Robinson of the Fire Brigade, who had a nasty fall of the engine on its arrival at the scene, was also injured, and had to be taken to hospital.

RUTS IN A MAN'S BRAIN Made by Sounds—A Clever Lecture on the Physical Effects of Ordinary Things.

Dr. McIlwraith lectured last night in St. James' square Presbyterian Church, under the auspices of the Young People's Association, on "Physical Effects of Ordinary Things. Solomon and other Biblical writers recognized these effects.

The influence of sound was very great; in fact, in cities it was a fact that ruts were worn in a man's brain by recurring and regular noises, such as the trolley car, the street car, the street car, the street car, the street car.

In one instance a gentleman moving from a car thoroughfare woke up every morning at the time of the first car and could not get to sleep again. These city sounds were especially pernicious to the sick. In one case a patient irritated at night by a sleighing party "scourge" went past; shortly after the students came home from the theatre; when the cat came out, resulting in the recovery of the sick man being retarded for several days.

It should never be subjected to noise liable to shock, the continued talking to them by mothers being more or less harmful.

IN THE GRAND JURY'S OPINION Many Cases to Be Heard at the Sessions Should Have Been Otherwise Dealt With.

The Sessions grand jury yesterday afternoon in one case after another, in the opinion of the grand jury, should have been otherwise dealt with.

They thought many of the cases at the recent sessions might well have been disposed of by the magistrate who heard the preliminary investigation.

During the trial of the Central Prison everything was found satisfactory. More attention, however, was deemed advisable for the education reformer there is plenty of room for more prisoners and the jail might well be kept there. In the girls' department an elevator would be useful.

The jury in the trip took in the new City Hall and their opinion it is one of the finest buildings on the continent. The inadequate heating at the jail was again referred to. There was considerable complaint at the Asylum, some of the inmates being obliged to sleep on "shaks" down.

In connection with the General Hospital jury heartyly agreed in Dr. O'Reilly's report commending to start a proper home for nurses.

The Sick Children's Hospital also came in for good notice and praise. Judge McDougall, in reply, thanked the jury for their very full presentation. He said that something more ought to be done to aid prisoners after their release from the jail.

TWO RAILWAY PROJECTS. For Which Government Aid is Being Sought at Ottawa in Algoma Interests.

Ottawa, March 23.—The Minister of Railways was to-day waited on by a delegation respecting two important railway schemes in connection with the development of the Algoma mining district. The delegates represent the Bruce Mines and Algoma Railway, the Worthington and Ontario Railway Company and the Rock Lake Mining Company, all of Algoma.

HE MURDERED HIS CHILDREN

The Kansas Man was a Dreamer and Had One of His Worst Spells That Night.

MAKES A SIGNED CONFESSION

Rather See His Children Dead Than Leave Them With His Wife's Relations.

McPherson, Kansas, March 23.—John Moore, the Hutchinson murderer, to-day made a signed statement of his horrible crime. Moore, under oath, claims that he was with a hatchet and knife, and then buried the house over their heads. He and his wife had quarrelled and he claims they were about to separate. In the statement Moore says: "I had been feeling pretty bad for the past two or three days. My children were all in bed asleep. I turned the lamp down and went to bed. I then had one of my worst spells and the next thing I remember after this was in trying to get out of the house. I have a recollection of going through a struggle like dream that I half remember. All the recollection I have about this is that I rather see my children dead than to leave them in the hands of my wife's people. It was like a dream to me that I did something to the children, but I do not recollect using the knife or hatchet."

SOME OF THE FRENCH OPERAS Are Objected to by the Archbishop of Montreal and Mr. Murphy Has Notice.

Montreal, March 23.—(Special).—The Archbishop of Montreal is not a friend of French operas, or at least some of them. For weeks past Mr. and Mrs. Frank Murphy, the lessees of Her Majesty's Theatre, have announced French operas, and yesterday His Grace wrote to Mr. Murphy that if he did not omit "Brease Gilette de Normandie," "Les Femmes de Jeune et la Nuit" from his repertoire, a pastoral would be issued forbidding the faithful to attend Mr. Murphy's theatre. Mr. Murphy's letter is under consideration.

THE FOUR-ARMED LANNY PARTY Which the Touaregs Attacked.

Paris, March 23.—Official advices received here from Biskra, a garrison town situated 214 miles southeast of Algiers, say the Four-Armed Lanny expedition arrived at Agades months ago, and that therefore the European expedition announced from Algiers yesterday as having been brought by a party of Touaregs recently, while the expedition was on its way to Ain, in the Sahara, cannot have been the Four-Armed Lanny expedition.

LEATHERLAND IS FOUND In the Bay Dead Yesterday—An Inquest Will Be Held—Wandered Away.

The mystery surrounding the disappearance of Samuel Leatherland from his home at 17 Toronto-street was cleared away yesterday afternoon by the finding of the body in the bay at the foot of George-street. The body was recovered by Capt. John Goldthorpe and his men, who were instructed to make a search.

The relatives in making enquiries, found traces on the icebergs of a man they called Wallace Leatherland, who was thought to be the man who had wandered away from the wharf. They communicated with Messrs. Goldthorpe and McGrath, and these two men, who were on duty at the time, decided to go to the surface and carried over to the Morgue. Coroner Greig was notified and after making enquiries, decided not to hold an inquest.

The deceased was 50 years old and for 30 years was employed as caretaker of the Consumers' Gas Company offices at 17 Toronto-street, until succeeded by his son, Wallace Leatherland. He leaves two sons, Samuel Leatherland of Schomberg, Ont., and Wallace Leatherland, who was thought to be the man who had wandered away from the wharf. Mr. Leatherland, the deceased, was a regular attendant at Berkeley-street Methodist Church, where he would take place to-morrow afternoon from 17 Toronto-street to St. James' Cemetery.

The relatives of the deceased say that he must have wandered down to the waterfront after leaving the home of W. P. Kearns, at King-street, at 9:30 on Sunday night. Leatherland's gold watch and 95 cents in silver was found in the pockets of the clothing.

MRS. GULLFORD'S TRIAL. The Alleged Murderess is Improving in Health and Controls Her Nerve Well.

Bridgeport, Conn., March 23.—At the close of the third day of the trial of Nancy A. Gullford, the midwife charged with murder in the second degree, in causing the death of Emma Gill, the state is still engaged in endeavoring to prove the fact that the particular charge alleged has been committed.

The witnesses introduced by the state today testified chiefly to the disposition of the various packages, containing the dismembered body of Emma Gill, after the fact were found, and the subsequent identification of the body as that of the Southwold, Algoma mining district. The evidence regarding her health rapidly and throughout the day seemed to have her nerves under good control.

Lectured on Thackeray. An instructive and well-delivered lecture was given last night in St. Philip's Church, by Provost Welch of Trinity College, which was illustrated by extracts from Thackeray's works. A large number of persons were present, and the chair was occupied by Rev. Canon Sazon.

A HUNDRED REASONS Can be given why Stuart's Dyspepsia Tablets are the best and most effective cure for every form of indigestion.

They are in the tablet form, which retains their good qualities indefinitely, while liquid preparations become stale and useless with age. They are convenient, can be carried in the pocket and taken when needed. They are pleasant to take.

After each meal, dissolve one or two of them in the mouth, and, mingling with the food, they will soothe the stomach, give absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisonous products of fermentation. Stuart's Dyspepsia Tablets is the only remedy designed especially for the cure of stomach troubles and nothing else.

One disease, one remedy; the successful physician of to-day is the specialist. The successful medicine is the medicine prepared especially for the disease. Stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure. Of the 100,000,000 of people who are afflicted with indigestion and dyspepsia, it is a waste of good material.

Over six thousand men and women in the State of Michigan alone have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

It is sold by all druggists, at 50c per package.

**LOCAL LIVE STOCK.**

The run of live stock at the Cattle Market for large for Thursday, 24th, consisted of 1100 cattle, 200 sheep and yearling lambs, 1100 hogs and 40 calves.

The quality of fat cattle was fairly good, but still a large percentage of them would have paid for feeding a month longer.

Trade was not nearly as brisk as we have seen it during the past few weeks, many of the drovers as well as buyers waiting for the market.

Prices remained about the same, in most of the different classes, on Thursday.

Export Choice loads of heavy exporters sold at \$4.75 to \$5.00, and light exporters at \$4.50 to \$4.75.

Loads of good butchers' and exporters' mixed, sold at \$4.40 to \$4.75 per cwt.

Stocks—Cattle—Equal in quality to the best exporters, but not as fat, sold at \$4.50 per cwt.

Exports of good butchers' cattle sold at \$4.20 to \$4.50, with medium at \$3.75 to \$4.00 per cwt.

Common butchers' cattle sold at \$3.45 to \$3.75, with inferior at \$3.00 to \$3.45 per cwt.

Superior rough cows and bulls sold at \$2.85 to \$3.10 per cwt.

Stocks—Hogs—Butchers' still continue in good demand, selling the way from \$3.25 to \$3.50, with a few very choice well bred steers going at \$4 per cwt.

Stocks—Horses—Fairly good, selling from 1000 to 1150 lbs. each, scarce, selling at \$4.15 to \$4.30 per cwt.

Stocks—Sheep—A few heifers for stock purposes sold at \$3 per cwt.

Stocks—Inferior stock bulls sold at \$2.50 per cwt.

Feeding Bulls—Bulls suitable for the London market, selling at \$2.25 per cwt.

Calves—About 40 calves sold at \$2 to \$3 each, but the bulk went at \$1.50 to \$2 each.

Sheep—About 200 sheep and lambs sold at \$3.50 to \$3.75 per cwt.

Hillman & Lunness bought a load of sheep, 184 lbs. each, at \$3.75 per cwt.

W. H. Dean bought 17 exporters, 1250 lbs. each, at \$4.85 per cwt.

George Rountree bought 11 butchers and exporters, mixed, 1118 lbs. each, at \$4.50 per cwt.

**CANADIAN STOCKS HEAVY.**

Continued from Page 10.

the efforts to ward off a possible crisis. They do not imply any genuine infirmity in the market as a whole.

Messrs. Henry Clow & Co., New York, advised Kerr & Morson as follows to-day: "The market shows considerable strength, though the lifting up of call money naturally influences liquidation. This seems to be about the only factor against stocks at the moment."

Consols rose 1/8 in London. In London American rails were dull and irregular. St. Paul advanced a clear point, other issues keeping stationary or fluctuating within a narrow range.

French exchange on London 25 1/2. Bullion went into Bank of England on balance to £10,000.

The weekly statement of the Bank of England, issued to-day, shows the following changes: Total reserves decreased £91,000, circulation increased £200,000; bullion decreased £200,000; deposits decreased £1,404,000; other deposits decreased £221,000; public deposits increased £1,079,000; notes reserved decreased £200,000; government securities increased £27,000. The proportion of the Bank of England's reserve to liability is 41.40 per cent. Last week it was 43.25 per cent. The Bank of England rate of discount remains unchanged at 3 per cent.

Money Markets. On the local market call loans are at 4 1/2 to 5 per cent. In New York call loans to-day were 4 to 5 per cent, closing loan being 4 1/2 per cent. The London market discount rate is 3 per cent, and the open market rate is 2 1/2 to 3 per cent.

Foreign Exchange. Aemilins Jarvis & Co., 23 West King Street, Toronto, stock and exchange brokers, report local market to-day as follows: Counter—St. Banks—N. Y. Funds—100 to 102 1/2 pre Stg. 60 days—9 to 8 1/2 to 13-16 do. demand—10 1/2 to 11-16 1/2 to 12-16 1/2.

**The Omaha & Grant Smelting Co.**  
E. W. NASH, Treas.

Fac-Simile of Return from Shipments to smelter.

**DEVELOPMENT.** Consists of about 1200 feet of Tunnels carried on under thoroughly experienced and capable management. No. 1 Tunnel has been run in 265 feet, in course of which bodies of concentrating ore from 8 to 10 feet in width and 110 feet in length have been encountered, as well as a chute of high-grade ore, yielding 140 oz. silver to the ton and 62% lead. In this tunnel alone, and with present development work, it is estimated there is sufficient ore in sight to yield 25% of the total capital of the Company.

At a distance of 500 feet below No. 1 Tunnel a second tunnel has been run, with a view of tapping at depth the valuable bodies of ore which are shown to exist on the surface and in No. 1 Tunnel. This tunnel had been run in 580 feet, passing through several chutes of concentrating ore, when a chute of ore was met, from four to twenty inches in width; into this chute of ore the tunnel had at date of last report been driven twenty feet, strength, width and value of the vein still continuing. Thorough development of the ore bodies, which are shown to exist between the surface and tunnels Nos. 1 and 2, should produce many times the total capital of the Company, apart entirely from the many other valuable and partly developed leads, which are found upon several claims belonging to the Company.

To The Omaha & Grant Smelting Company of Omaha, Neb., a fac simile of the returns of one of them is presented herewith, which give an average yield of 107.6 oz. of silver and 56.4% of lead to the ton, or an average value of \$61.00 per ton, after deducting cost of freight, duty and smelter charges for treatment, which is a greater average yield than that of the famous Payne mine, which has paid its shareholders in dividends over one million dollars, of which \$500,000 have been paid since April, 1898, shares in which are quoted on Montreal Stock Exchange at \$4.00.

**SHIPMENTS.** The Trusts and Guarantee Company, Limited, of Toronto have been appointed to act as agents for the issue of the treasury stock, and all certificates issued will be countersigned by them. All profits of the mine—thus effectually disposing of the stock in the Company is deposited with them under deed of trust for one year, or until dividends have been paid out of the profits of the mine—thus effectually disposing of any possibility of owners' interest or stock conflicting or competing with the treasury stock now offered for sale.

In offering for sale the treasury stock of The Ontario and Slocan Mines Development Company, Limited, the Directors do so with every feeling of confidence in the property, and that the careful expenditure of the funds entrusted to them by the public, for which their names and position in the business world is a sufficient guarantee, should prove the Canadian Group to be of equal value as producers and dividend payers with any of the celebrated mines in the famous Slocan District.

We are instructed by the Directors of The Company to sell 300,000 shares of treasury stock at 25c per share. You are not asked to purchase stock in The Ontario and Slocan Mines Development Co., Limited, upon RESULT OF ASSAYS OF SELECTED SAMPLES but upon ACTUAL RETURNS FROM SHIPMENTS TO THE SMELTER.

Later Market Recovered About Half the Loss Before the Close — Corn Futures Also Declined and Rallied—Local Live Stock, Grain and Produce—Notes and Gossip.

Thursday Evening, March 23. Liverpool's wheat market became flat today and futures fell, closing 3/4 to 3/8 lower than yesterday's final figures. Paris wheat rose 5 to 20 centimes to-day, and Paris flour was irregular.

Chicago wheat futures to-day showed weakness in sympathy with Liverpool. There was also bearish news in the shape of reported rains in California. The May and July options declined about a cent, but later recovered about half the loss.

Liverpool maize futures to-day declined 1/4 cent. Chicago corn declined 1/8 cent and then recovered nearly all the loss.

Exports from New York to-day: Flour 3030 barrels and 7540 sacks; wheat, 231,000 bushels.

Receipts of wheat at Minneapolis and Duluth to-day 426 cars, as against 321 cars the corresponding day of last year.

The Cincinnati Price Current says: Little freighting the past week over the wheat area. Weather not advancing growth much, but not unfavorable. General prospects practically unchanged. Moisture ample. Small interior grain movement.

The annual report of the Montreal Gas Company shows increase in earnings, the gross being \$28,028.95 more than the previous year, and net \$19,861.06 more.

**On Wall Street to-day.**  
On Wall-street to-day the general market was strong again during almost the entire session, though activity was as a rule confined to some of the specialties. Burlington was advanced sharply on more bond refunding reports, which were later denied. Towards noon Delaware & Lackawanna, as one of the coalers, was advanced sharply. Sugar was less active than usual of late. Jersey Central and Reading were bought a little in sympathy with D. & E. People's Gas was up sharply in the afternoon on buying led by Worsner. Southern Pacific was quiet on the publication of a statement showing a decrease of \$2770 in net earnings for February. The close was strong at near the best prices for the day, with talk of easier money.

The Brooklyn Rapid Transit Co. announces that it has acquired control of the Brooklyn Union Elevated Railway Co., with its 20 miles of tracks. The structure of the elevated road is in the city and will enable the latter to relieve the congestion of traffic. The elevated will be electrically equipped and used for the fast handling of through traffic to the suburbs.
