## THREE RUSSIAN FORCES CONVERGE ON LEMBERG U.S. PREPARED FOR WAR WITH MEXICO WITHIN 48 HOURS Canadians' Heroic Deeds at Ypres Vividly Described

### FUGITIVES FROM CZERNOWITZ ARE STRAGGLING INTO VIENNA

**Describe Russian Drums as so Terrible That Nothing Could Live in Advanced Austrian Positions—Say Loss of Town is Temporary.**

VIENNA, June 19, via Berlin to London, June 20.—Austria takes the third evacuation of Czernowitz with great sadness, but with absolute quiet and confidence that the loss of the capital of Bukovina is only temporary. Military circles point out that in view of the overwhelming Russian forces a continued defence of Czernowitz would merely have spelled the city's destruction, and unite in praising the decision of the military authorities to evacuate it. They declare that the Russian occupation is of minimum military importance and a merely local advantage of a temporary nature.

Fugitives reach Vienna. The vanguard of the fugitives from Czernowitz have now begun to stream into Vienna after a week-long journey, in which they were constantly delayed, to allow of the passage of thousands of Russian and Austrian wounded. The fugitives describe the ferocity of the Russian attack and the devastation caused by it and also the final scenes in Czernowitz from which all but about 700 persons had fled. According to these accounts the Russian attack was so terrible that nothing could live in the advanced positions. Wire entanglements and trenches were obliterated. The inhabitants of Czernowitz testified that the situation was serious when the Austrian staff retired upon the city from their advanced posts and swarms of country people, with their possessions in packages and wagons, driving their livestock, came fleeing southward through the city. The scene of awfulness increased at night when the sky was rent with the glare from bursting shells or illuminated by searchlights. The general exodus from Czernowitz by the civilians began at 6 o'clock, June 11, and continued uninterruptedly all day, trainload after trainload of the populace departing as fast as the coaches could be filled.

Students Also Flee. The fugitives included the faculty and students of Czernowitz University, the latter of whom had been pursuing their studies with shells punctuating their recitations and the noise of aeroplanes drowning the lectures. A large majority of the fugitives have gone only a short distance into the hinterland, there to await the anticipated retaking of Czernowitz.

The city was evacuated by the Austrians the night of June 15 after an irretrievable Russian attack had destroyed the bridgehead, rendering further defence of the city all but impossible.

### NOVA SCOTIA ELECTIONS

HALIFAX, June 20.—The Liberals of Nova Scotia won a sweeping victory in the provincial elections held today, carrying thirty-one of forty-three seats in the new house. The campaign was hard fought in every county, the Conservatives being assisted by a number of federal members from Ontario. Some of the Liberal majorities are as high as 700.

Premier Murray and all the members of his government were returned to power. One of the surprises of the campaign was the defeat of Chas. E. Tanner, the Conservative leader, in Pictou.

Halifax elected four Liberals, Bailie, Finn, Faulkner, Connolly and the Conservative member, Hector McInnis, K.C.

### IDENTITY DISCLOSED THRU PRINTED PHOTO

Alfred Lumsdon's Picture Published in World Brings Ready Information From Friends.

As a result of the printing in The Toronto World, Tuesday morning, of a photograph of a soldier sent to this office thru the kindness of Gunner E. M. Beadner, information was given yesterday to the effect that the soldier's name is Alfred Lumsdon, driver, 348209, Ammunition Column, France. Driver Lumsdon, according to the informant, who spoke from the office of John Wright, 425 Church street, formerly lived at 838 Ossington avenue and was a plumber employed by Mr. Wright.

Gunner Beadner, serving with the first contingent, found the photograph on the battlefield of France and forwarded it to The World for publication in order to learn the identity of the soldier.

### LONSDALE IS PARDONED BY THE KAISER'S ORDERS

British Prisoner, Under Death Sentence, Given Long Prison Term.

AMSTERDAM, via London, June 21, 2:15 a.m.—The Frankfurter Zeitung says that the German emperor has pardoned William Lonsdale, an English prisoner of war, who recently was sentenced to death by court-martial, the sentence being later commuted to 15 years' imprisonment.

Lonsdale was condemned by court-martial for an attack on a guard at the Doberitz prison camp. The American ambassador to Germany and the American minister at The Hague used their good offices in behalf of Lonsdale.

## WAR SUMMARY

THE DAY'S EVENTS REVIEWED

ACCORDING to the latest advices from Petrograd the Russian left wing is making a rapid advance southwestward in Bukovina, where it has split the army of the Austrian General Pflanzer in two and is in a fair way of destroying it. The Russian centre and part of the left wing are marching on Lemberg by three routes and these forces are making good progress. The southern column is proceeding towards Kolomea and Halicz, an ancient town from which the Province of Galicia derives its name, and the Austrians so far have been unable to check its advance. The second column is approaching Brody by the central avenue of advance and the third column is converging on Vladimir-Volynski. This third drive was temporarily checked by a big concentration of Austrians and Germans, but latest word from the front is to the effect that the Russians have resumed their progress after beating off the enemy. The object of this last named advance is to cut the communications between Kovel and Vladimir-Volynski and to isolate Lemberg.

The Russian forces in Bukovina are also pressing their flank attack northwestward and have reached a point on the Zlota Lipa River line of defence. It is now believed that the Austrians will be unable to make a stand in this region. In the meantime the plan of the Germans appears to be the massing of forces in the vicinity of Kovel for the launching of an offensive southwards at right angles to the line of the present Russian advance. Gen. Brusiloff will doubtless make dispositions to attend to this menace. About 5000 prisoners were taken yesterday by the Russians, bringing the total of their captures to well over 170,000 men.

Altho the Austrian Government endeavors to conceal it, the Russian drive across the Pruth River and into Czernowitz has caused the enemy great consternation. Fugitives from that city have fled clear to Vienna, bearing news of the terrible nature of the Russian artillery fire and of the attacks by overwhelming numbers of Russians. It is said in Austrian military circles, without adequate foundation.

### OFFICERS HELD TO GUNS UNTIL OVERWHELMED

Gen. Morrison Writes of Heroism of Lieuts. Cotton and Matthews.

### REFUSED TO FALL BACK

Gen. Mercer and Gen. Williams Were Last Seen in Dug-Out.

OTTAWA, Ont., June 20.—A letter from Brigadier-General E. W. B. Morrison of the Canadian Field Artillery gives some interesting details of the recent violent attack on the Canadian front. He tells about Gen. Mercer, who was killed, and Gen. Victor Williams, who was taken prisoner. The letter says:

"They went into a dug-out for shelter from the shell fire and that is the last heard of them. The enemy's infantry attacked over the front as soon as the bombardment ceased.

"Young Cotton and Matthews of Ottawa are also missing. Cotton was in charge of two guns that were used for entangling a distant portion of the enemy's line and were dug in close up to the front. As his duty was to fire parallel to the front, his guns were in emplacements that faced down the line. Consequently, his orders were that in case of an attack opposite to him he was to disable the guns and retire with his men. Instead of doing this, when the Germans charged, he ran his two guns out of the emplacements into the open facing the front and fought to the very last. Neither he nor any of his men have been heard of since.

Col. Buller's Heroic End. "Colonel Buller, whom you will remember as one of the aides at government house, was among the killed. He was in command of the Princess Pats and the regiment made a splendid stand. They were forced back a short distance, but Buller called on them to charge along a sunken road or City today by Eliseo Arredondo, Mexican ambassador-designate. In sternest terms the Daily Express, and resents imputations of bad faith and ulterior motives brought against the Washington Government in the Mexican communication, to which it is a reply. Gen. Carranza is informed.

### UNITED STATES AWAITS REPLY FROM MEXICO

Peace or War May Be Decided Within a Day or Two.

### NO QUIBLING IN NOTE

Meanwhile, Work of Mobilization is Going Ahead With Rapidity.

WASHINGTON, June 20.—The issue of war or peace with Mexico hung in the balance tonight awaiting General Carranza's decision as to the course he will pursue. Officials here believed that 48 hours might bring a clear understanding of what the immediate future has in store.

A note signed by Secretary of State Lansing, conveying President Wilson's rejection of the demand for withdrawal of American soldiers from Mexico, accompanied by a specific warning that an attack on the troops would lead to the gravest consequences, was telegraphed to Mexico today by Eliseo Arredondo, Mexican ambassador-designate. In plain terms it accuses General Carranza of having brought matters to the verge of war by open hostility toward the United States and failure to safeguard even the lives of Americans in Mexico or on the border from the lawless elements among the countrymen. ## RUSSIANS PURSUE AUSTRIANS ADVANCE TO SERETH RIVER

Drive into Bukovina Cuts Forces Under General Pflanzer in Two—Germans Suffer Reverse in Fighting on Styr Near Pripet Marshes.

Special Cable to The Toronto World. LONDON, June 20.—The Russians have repulsed the Germans who attempted to check their advance in Volynia by launching an offensive north of the Lutsk, Vladimir-Volynski road, the attacks of the enemy breaking down under the fire, according to an official announcement received from Petrograd tonight. Altogether in the fighting in this region and on the Styr, the report today announced that about 5000 prisoners have been taken.

In Bukovina, the Austrians are retreating in disorder with the Russians in pursuit. The Russians have occupied the towns of Zadova, Stroginstz and Gliboka, on the Sereth River line, about 35 miles southwest of Czernowitz.

King George has sent to the Russian Emperor Nicholas his warm congratulations on the Russian victories. Russian semi-official reports that the Austrian General Pflanzer's army has been cut in two and is in precipitate retreat seem to be borne out by the Russian official statement that the Russians have occupied three towns on the Sereth River, and the admission in the Austrian communication that Russian troops have crossed the Sereth.

The fighting on several sectors of the front occupied by the group of

### IRISH SITUATION STILL BAFFLING

London Express Says Open Disloyalty is Being Shown in Ireland.

SOME PAPERS HOPEFUL Section of Unionist Party Accused, However, of Petty-fogging Politics.

LONDON, June 21, 5:52 a.m.—The Irish situation occupies much space in the morning newspapers which express varied opinions regarding the seriousness of the new home rule crisis. The Daily Telegraph expresses the belief that all these difficulties will be adjusted. The Daily Express, however, takes an opposite view, saying: "David Lloyd George's home rule negotiations seem likely to be wrecked. The Unionist members of the cabinet have reached the conclusion that the proposed settlement would be no settlement. During the past few weeks the state of Ireland has been worse than for a long time past. There is open disloyalty and the belief of the Unionist members of the cabinet is that it would be unthinkable to surrender to open disloyalty now."

## RUSSIANS MARCH ON LEMBERG BY THREE PRINCIPAL ROUTES

### CANADA MAY JOIN IN IMPERIAL LAND SCHEME

Sir Rider Haggard Coming to Discuss Plan for Returned Soldiers.

By a Staff Reporter. OTTAWA, Ont., June 20.—Sir Rider Haggard, who has been touring the British dominions with a view to ascertaining the facilities for land settlement which can be placed at the disposal of British ex-soldiers at the conclusion of the war, is expected to arrive at Vancouver on June 29 from Australia and New Zealand.

Sir Rider's visit to Canada is for the purpose of consulting the Dominion Government with a view to possible participation in an empire-wide scheme for land settlement of soldiers.

E. H. Scammell, secretary of the military commission, has gone to Vancouver to meet him. He will be joined by one of the members of the economic and development commission.

### MEXICANS BURN EFFIGY OF PRESIDENT WILSON

Failure to Recognize Huerta Brings U.S. Into Present Trouble.

NEW YORK, June 20.—That the rage of the people of Mexico has vented itself recently in Vera Cruz in the burning of President Wilson in effigy, was declared by several passengers who arrived here on board the steamship Colmanera of the United Fruit Line.

Andrew S. Carrara, a banker of Vera Cruz, Mexico, one of the passengers, said that the resentment against President Wilson is due to the fact that he failed to recognize Huerta as president of Mexico.

### FRENCH VERDUN LOSSES ESTIMATED BY SWISS

Hundred and Sixty-Five Thousand Casualties Sustained in Fighting.

GENEVA, June 6.—The French losses around Verdun in killed and wounded amount to approximately 165,000 to date. These losses have occurred on a front which is not more than thirteen miles in length.

The German losses are placed at 415,000 by the latest estimates.

### GEN. LEONARD WOOD SEEKS ACTIVE SERVICE

He is Chafing Under Present Conditions and Would Fight Mexicans.

WASHINGTON, June 20.—It is reported here that Major-General Leonard Wood, commanding the Department of the East, has requested Secretary Baker that he be given an assignment with the Mexican expedition. Secretary Baker would not discuss the report.

General Wood, the report says, is chafing under the inactivity of his present position at a time when genuine service is in sight.

### 'PEACE' SIGN IS SEEN IN MILITIA ORDERS

New York American Publishes Despatch From Toronto.

NEW YORK, June 20.—The American prints the following despatch from Toronto:

"Unless peace is declared" is a phrase appearing now for the first time in sixty-day leaves of absence granted to Canadian officers. The employment of the term is regarded here as being significant of approaching negotiations for ending the war.

Officers allowed to go on furlough are instructed in written leaves of absence to report back to their commands within sixty days "unless peace is declared meantime."

### NUMBER OF ELIGIBLES IN CANADA IS LARGE

Census Figures of Five Years Ago Afford Interesting Information.

### CANADIAN BORN LEAD

Nearly One and Three-Quarter Million Men of Military Age.

By a Staff Reporter. OTTAWA, June 20.—An article on the number of males between 18 and 45 years of age is contained in the last issue of the census and statistics monthly issued by the census and statistics office of the department of trade and commerce. The table shows that in the census of 1911 there were enumerated 1,720,070 men of available military age, of whom 1,109,885 were Canadian-born, 306,877 British-born and 303,308 foreign-born.

"While these figures represent conditions existing on June 1, 1911," says the monthly, "yet, because of the heavy British immigration in 1912-1914, as well as the known tendency of young countries to maintain a high birth rate, they also well fairly well the numbers from which eligibles for military service may now be expected."

Statistics of Provinces. The statistics of the provinces follow:

Province	Total	Canadian-born
Prince Edward Island	16,888	16,888
New Brunswick	94,493	81,970
New Brunswick	48,716	44,123

### COURT GRANTS DIVORCE TO CANADIAN SOLDIER

Alexander Ebenezer Brown Howell Finds Wife Has Misbehaved.

Canadian Associated Press Cable. LONDON, June 20.—Alexander Ebenezer Brown Howell was granted a divorce today. The petitioner went to Canada in 1913, leaving his wife, who refused to accompany him, in London. He joined the first Canadian Contingent, and on arriving here found that his wife had had a child. The name of the father she refused to disclose.

### GREAT SURPLUS OF CANADIAN OFFICERS

Thirty-Seven Hundred Duly Qualified Are Awaiting Vacancies.

NEW PLAN PROPOSED Many May Be Sent to Front as Non-Commissioned Officers.

By a Staff Reporter. OTTAWA, June 20.—There is at present a surplus of 3700 duly qualified officers for whom there are no places in the various units for overseas service. Some 2000 of them are infantry and artillery officers. About 500 casualties have occurred among officers in the recent heavy fighting at the front, and as this is more than any surplus of Canadian officers in England now, a certain number of the surplus here will be absorbed.

As far as the great bulk of the surplus in Canada is concerned, however, they will be at the summer camps and will get some practical experience in drilling and handling men. There may also be a plan to have them go to the front as non-commissioned officers and receive their promotions to the rank of lieutenant as openings occur.

### WOUNDED EXPERIENCED WORST TRIALS EVER GONE THRU IN WAR.

FOE'S FIRE TERRIBLE German Shells Wiped Out Everything in Sector Won Back.

Canadian Associated Press Cable. LONDON, June 20.—A large number of Canadian rank of lieut. wounded, reached London today. Some had received wounds quite recently, when the Canadians, after having regained their position, were again in the line. In talking to some who have been at the front since the very beginning, one was convinced that Canadians never had such an ordeal as they had during the past fortnight, they either were in the way of removing German artillery fire, or had the terrific experience of winning back the sector from which the explosives had wiped everything. Here, for instance, is the record of Pte. 21715, Jones, belonging to Moose Jaw, who had been thirteen months at the front. The battalion was in the trenches almost continuously, both during the German attacks and later when the Canadians counter-attacked. "When the attack started we were in reserve on the canal bank," he said. "We soon moved up to the dugouts and the railway. This was early in the morning before daylight. The Germans were sending in their shells all the time. The tanks from these got in our lungs, but ours got their also. We moved with all our reinforcements across the fields as the day

### Southern Column Advancing Westward From Czernowitz Reaches Zlota Lipa River in Drive on Halicz—Progress Resumed Towards Vladimir-Volynski.

PETROGRAD, June 20, 1 p.m.—On the northern flank of Gen. Brusiloff's front the Austrian resistance, considerably stiffened by the arrival of a large number of German reinforcements, had succeeded in checking the Russian drive between Lutsk and Kovel, which directed against Vladimir-Volynski, aims at destroying the Austrian communications between Kovel and Lemberg. But in spite of the violent Austro-German counter-attacks, one of which broke thru the Russian lines, the latest reports are to the effect that the Russians have again resumed progress in this sector, after taking the usual toll of prisoners.

On the southern flank the Austrians have been unable to check, even momentarily, the Russian advance toward Kolomea and toward the final Dniester fortifications of Halicz.

Gen. Pflanzer, the Austrian commander, apparently is paying the penalty for having too long delayed his retirement from Czernowitz, and his army, now cut in two, is reported to be in precipitate flight, one part along the Rousnians frontier and the other in the Carpathians.

Turning from Czernowitz, Gen. Leitchitzky's forces are pressing their flank attack further north and have reached a point on the Zlota Lipa, some miles to the northwest of Czernowitz. Russian military circles consider it unlikely that the Austrians will be able to hold the Zlota Lipa line, but will be forced back upon Halicz.

The separate Russian movements are now showing strongly centralized tendencies. There are three converging lines of advance, the common objective of which is Lemberg. The first of these lines is approaching Vladimir-Volynski, the second, Brody, the third Halicz. The capture of any one of these towns would place the Galician capital in a position of grave danger.

The total number of prisoners taken by the Russians is now estimated at 170,000.

RUSSIANS PURSUE ENEMY TO SERETH

Cut Austrian Bukovina Army in Two and Threaten Destruction.

GERMAN PLAN FAILS

Teuton Attempt to Check Advance Overcome Near Vladimir-Volynski.

armies commanded by General Brusilov was heavy by reason of the continuance of desperate counter-attacks by the enemy.

Supported by German troops recently transported to the scene of the combat, the Teutons began an offensive in the vicinity of Kislina, northeast of Kislina, and five miles north of the Lutsk-Vladimir-Volynski road.

The Russians are also successfully confronting the Germans in the fighting on the Stry, north of Kislina and west of Kolkid Village, where they captured 96 officers, 3,317 men and 17 machine guns.

The Austrians are still offering stubborn resistance to the Russian attacks in the regions of Gavoronka and Vlenrivivchki, north of Buczac, on the Stry.

Concerning the operations on the front of General Von Linshagen, who is hearing the heaviest fighting southeast of Kovel, continuous efforts of the Russians against the German line on the Stry and west of Kolkid were unsuccessful, generally speaking.

On the Stry front, the Teutons were repulsed by the Russian forces. The fighting was especially severe between the Lutsk-Volynski road and the Turia River. The Germans say that their troops at various points broke down the resistance of the Russians. That resistance was especially stubborn near Kislina.

KING GEORGE FELICITATES

The Russian official statement of today follows:

"The King of England, the first to learn of our victories, has telegraphed the czar congratulations in the most exceptionally warm and cordial terms.

"On the eastern front: On several occasions of the front occupied by the armies under Gen. Brusilov, the enemy continued to make desperate counter-attacks.

"The enemy offensive begun in the vicinity of the village of Voronchina, northeast of Kislina, seven versts north of the Lutsk-Vladimir-Volynski road, supported by German troops recently transported thither, has broken down under our fire.

"According to reports just received, our troops after a counter-attack in the region from the village of Rogovitch to southeast of the village of Lohatchki, repulsed the enemy and captured sixteen officers, 1,200 men and eight machine guns.

"On the extreme north of our front the enemy is retreating in disorder. We are energetically pursuing him.

"In this direction the clever handling of a Russian attack the clever and front, is particularly mentioned. This battalion, forming part of a crack rifle regiment, not only put the enemy to flight, but recaptured the three guns whose loss was announced in yesterday's communication. Upon the battalion took 300 prisoners and three machine guns.

"Further reports of the fighting in the region of the village of Voronchina, northeast of Kislina, seven versts north of the Lutsk-Vladimir-Volynski road, supported by German troops recently transported thither, has broken down under our fire.

FOUND DROWNED AFTER QUARREL

Strange Circumstances Surround the Death of Joseph Donohue.

TWO MEN ARRESTED

Charles Storin Admitted He Had Fought With Donohue in Restaurant.

Strange circumstances surround the death of Joseph Donohue, better known around the Humber River as "Tommy Atkins," who was found drowned in the Humber River yesterday morning about 10 o'clock, near the west bank of the river and about 200 feet south of the Winota restaurant.

Donohue, a native of Ireland, was a daily habit to go home in his canoe, and when he failed to return to the boathouse at the usual time Monday morning, Mr. Devins notified County Constable Robert Dennis, who with Mr. Devins and Roy Sims obtained a launch and commenced to grapple the river. The body was found in eight feet of water about ten feet from the western bank of the river. The canoe he had used was discovered on the high bank nearby partially filled with water. The first lead to be directed in order to find the body was taken on the body by Coroner Dr. Ricker, Mimico, last night in Norman Craig's undertaking rooms, West Queen street, was adjourned till June 26, when it will be resumed at Devins' boathouse at the Humber.

"Found Blood on Bridge. Investigation by Acting Detective Nicholas of Cowan avenue station and County Constable Dennis led to the finding of a notebook on the ground near the restaurant containing the name of its owner. On the foot bridge adjacent to the restaurant spots of blood were discovered. Enquiries of the proprietor of the restaurant as to how the blood got there elicited the information that there had been a quarrel between a waiter and himself in view of a statement made to the police by William Jenkins, Humber, that he had taken a party of two men and a woman to the Winota the night before, the investigators decided that the proprietor's story was untrue.

Last night, Charles Storin, 1512 West King street, was admitted by Detective Nicholas as a material witness. To the World, Storin admitted that he was at the party at the Winota on the night of Donohue's death. There he had met Donohue.

"There were women and children in the restaurant at the time, and Donohue started to quarrel with them. We came to blows. He hit me first, and I hit him back. Soon after that, the party was broken up and I did not see any more of him until a man came running into the restaurant with the news that Donohue was floating in the river. I ran outside, threw off my clothes, and jumped in. I could not see the body, but found the canoe and rowed it down to where another man hauled it upon the bank.

"When arrested at the corner of Roncesvalles avenue and Queen street, Storin admitted to Detective Nicholas that he had fought with Donohue, and showed injured knuckles as proof of the contention.

Roy J. Wilson, 12 Alhambra avenue, who was arrested at the same time, admitted to Detective Nicholas that he had fought with Donohue, and showed injured knuckles as proof of the contention.

"When the two men were taken to the station, they were held in the same cell. They were both charged with assault on Donohue.

## These Grandfather Clocks Are Now Made in America

In Colonial, Sheraton and Early English Designs—to Suit All Types or Periods of House-Furnishing

BEFORE THE WAR they came from Europe. For a year or more none have been forthcoming. Now one of the foremost makers in the United States has achieved the triumph of turning out a grandfather clock as handsome to look at, as efficient in service, as sweet and true in the music of its chimes as the foreign timepiece.

Our artist has sketched two of them, regal specimens in rich mahogany, equipped each with both Westminster and Whittington chimes.

That at the left hand stands eight feet high, suggesting the Colonial style in its massive pillars and substantial base. The gilt and silvered dial is pierced and scrolled. The price is \$400.00.

The clock at the right is about six feet in height. With its rope-turned pillars hinting at Jacobean style, its long bevelled glass door reveals the nickeled tubes, brass weights, chains and pendulum within. The price is \$375.00.

For smaller spaces and lighter, daintier furnishings are clocks of Sheraton and Early English designs. Whatever the demands of your hall or living-room they will be met in the splendid selection.

Every clock is accompanied by our guarantee of perfect satisfaction in every detail. It will be delivered and set up complete in any house within city delivery bounds.—Main Floor, Yonge St.

## Interesting Exhibit of Magnificent Chinese Rugs Superb in Color and Pattern--Widely Varied in Size

Lacquer Furniture, "Chinoiserie" Chintz, Tea-garden Tapestry Wall Papers—The Chinese Influence is Strong in House Decoration, and Here Are the Rugs to Complete the Artistic Scheme. Wonderfully Fine Specimens of Oriental Hand-weaving. Arranged in Special Display on the Fourth Floor.

STARRY PEACH BLOSSOMS, drooping willow branches, fantastic pagodas, fabulous beasts and odd birds—picture these through the silvery dimness of twilight or the yellow haze of early morning and you have some idea of the patterning of the splendid Oriental carpets now on display on the Fourth Floor. As motifs, medallions or border on a great plain field of blue, amber, or apricot, they are in very truth a joyous sight for beauty-loving eyes.

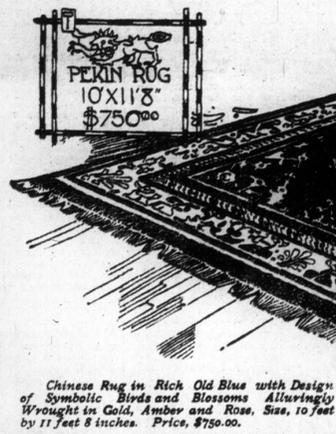

They were woven in Pekin, and constitute, according to the judgment of experts, some exceptionally fine examples of Chinese rug weaving.

In the matter of color the characteristic alliance of blue and amber is the predominating feature, some of the combinations being golden tan and sapphire blue, mellow ivory white and willow blue, and old China blue with gold, old rose and black.

Especially for the room furnished with black lacquer or Chinese Chippendale furniture are these rugs, treasure indeed. But wherever an Oriental floor-covering is in order their use is favored by all clever decorators. In New York they are enjoying a tremendous vogue. Sizes and prices are:

Chinese Rug in Rich Old Blue with Design of Symbolic Birds and Blossoms. Alluringly Wrought in Gold, Amber, Tan, to feet by 11 feet 8 inches. Price, \$750.00.

## Frank Alvah Parsons,

who is President of the New York School of Fine and Applied Art, and a well-known authority on house decoration, writes of the Chinese rug, as follows:

"No one type of rug, outside of the single-tone rug, may be so skillfully, pleasingly and generally used as this type. Its naive simplicity and charm in color, combined with its simple and somewhat abstract design, places it foremost among rug types in the breadth of possibilities in floor-coverings."

## HUGHES WAS FIERY ON WITNESS STAND

Dewart's Queries Respecting Sale of Ammunition Brought Sharp Retorts.

## STILL BACKS ALLISON

Hughes Not Interested in the Price Paid by the British Admiralty.

OTTAWA, Ont., June 20.—The sitting of the Davidson war contracts commission this afternoon was a lively affair. Gen. Hughes was on the witness stand and there were several questions put to him by Mr. Dewart, counsel for the opposition. Sir Charles Davidson held the sitting to the order of three million rounds of condemned small arms ammunition by the militia department to the admiralty. The sale price was \$20 per thousand rounds, but the admiralty paid \$25 for it. The evidence will be all in tomorrow morning, when a date will be set for the summing up.

## Sparks Fly Fast.

Right at the start this afternoon the fireworks began. General Hughes gave evidence on May 17, but in answer to Mr. Dewart he said he could not remember the date.

"I am not trying to remember," he said when pressed by Mr. Dewart, "I am not troubling over trifling things like that." Mr. Dewart read from the evidence on that date to show that General Hughes had said arrangement was made with a member of the Vickers firm.

Mr. Dewart: Was it Sir Trevor

Dawson? Gen. Hughes: I decline to answer.

Mr. Dewart: Have you read the evidence? Gen. Hughes: I haven't read one line of it.

Mr. Dewart: Have you read the letters? Gen. Hughes: I haven't read a line of them and I don't intend to.

Mr. Dewart suggested that as minister of militia he should be interested in these matters. "Not in any such piffle as that," he shot back. "I'm not worrying."

Mr. Dewart said he hoped that Gen. Hughes would not have "an Allison memory."

## Charged Impertinence.

"I don't want any impertinence quartered on Allison," snapped back Gen. Hughes.

Mr. Dewart denied being impertinent.

Gen. Hughes's distend added: "I don't want any insinuations about Allison. He is a clever man than Hartley Dewart ever was."

Mr. Dewart: Who was the member of the Vickers firm that saw you? Gen. Hughes: I decline to answer.

Mr. Dewart: I am not asking his name. Do you realize that this is a secret mission has nothing to do with this inquiry?

Gen. Hughes: He asked me about ammunition for machine guns. The whole conversation did not last a quarter of a minute. I told him to see Gen. Macdonald. The impression I had was that it was for machine gun testing or machine gun practice.

In further examination Gen. Hughes stated that the ammunition was sold to Vickers Limited.

## Hughes' Hot Words.

"Don't you know that ammunition was not sold to Vickers Limited. Don't you know that it was sold to your friend Allison and shipped by him, not to Vickers, but to George A. Searles, to be resold to the admiralty at an advance," asked Mr. Dewart.

"You are deliberately insinuating an untruth regarding Col. Allison," said Gen. Hughes. "Don't talk to me that way," he added.

Mr. Dewart said he thought that he would.

Gen. Hughes told the lawyer that he was "pettifogging." He ordered Mr.

Dewart not to continue putting his questions in the form of a statement.

Mr. Dewart wanted to know when Gen. Hughes first learned Col. Allison was an agent of Vickers.

Gen. Hughes replied that he did not know.

Mr. Dewart: How did you learn that Allison represented Vickers in this transaction? Gen. Hughes: I presume Allison told me.

Mr. Dewart: You had nothing more than the word of Allison for this? Gen. Hughes: I would accept Col. Allison's word before I would accept your oath.

## Price Immaterial.

Mr. Dewart got into the question of price, \$20 paid to the Canadian Government and \$25 paid by the admiralty.

Gen. Hughes: I heard about that \$25 racket before I left England. I heard about it when I was over there.

Mr. Dewart: Did you enquire about it then? Gen. Hughes: No, why should I? We had sold the ammunition at a good price to Vickers. It was their property, and we had no further control over it. It made no difference to us what they sold it for, they might have sold it for \$100 a thousand for all that I cared.

Mr. Dewart seemed to think this showed indifference on the part of the minister of militia. The minister replied that he did not think so, that he had, moreover, many more important matters requiring his attention.

Mr. Dewart: You have done business direct with the war office? Gen. Hughes: Yes.

Mr. Dewart: Do you think it necessary for the admiralty to employ an intermediary? Gen. Hughes: Yes.

## Deal With Vickers.

Gen. Hughes: That is their business. I refer to the documents in connection with the sale. Mr. Dewart said "The first communication came from your friend Allison on September 8, 1915." But it was stated by General Hughes that he had had the conversation with the representative of Vickers early in 1915.

Mr. Dewart: Did you know that your friend Allison was the agent of Vickers?

Gen. Hughes: He was not at that time. I understood that the Canadian Vickers was the agent.

General Hughes was making a suggestion regarding the correspondence when Mr. Dewart interposed, "I am not asking your advice about that. We found that out without your assistance. Do you realize that it was not sold to Vickers?"

General Hughes insisted that it had been sold to Vickers.

Mr. Dewart volunteered information and General Hughes retorted, "I don't require a child like you to tell me."

Gen. Hughes further remarked "We were getting rid of rotten ammunition at a fair price."

## Both Given Rebuke.

Sir Charles Davidson: This examination might be conducted with less acerbity on either side.

This warning, however, did not stop the militants and after further passages, Mr. Dewart said "I trust I'm showing myself more of a man than you today."

General Hughes: Any insinuations against Allison and you will take what you get.

When Mr. Dewart retorted later that some people in the Dominion thought this matter important, Gen. Hughes retorted in characteristic fashion, "I don't care what some people think. I don't care a continental."

At the conclusion of his cross examination the minister expressed regret to Sir Charles that there had been some "scraping," but said it had not been his fault.

## LIKE A BUTTON.

During a lesson on elementary composition a little girl read the following as her effort:

Once a Penny and a Dollar met in a man's pocket. The Dollar turned up its nose at the Penny, and said scornfully "Why, I am worth one hundred of you."

"Yes," said the Penny, "but even at that I am a good bit better than you are. I go every Sunday to church and Sunday school both, and you never get to either one."

Allies Agree on Policy During Period of Reconstruction.

## TO DENY FOE FAVORS

Will Collaborate to Secure Complete Industrial Independence.

PARIS, June 20.—In announcing the decisions arrived at during the economic conference of the allies last week, it is stated that during the reconstruction period the allies have declared their purpose to carry on joint action in restoring industry, agriculture, and merchant fleets.

All treaties with the enemy being abrogated, the allies agree that favored-nation treatment shall not be accorded to enemy powers during a number of years to be agreed upon by the allies after hostilities cease. They further declare in favor of the allied nations dealing among themselves as far as possible in their natural resources.

The allies further agree upon joint collaboration after the war to secure complete independence from enemy countries relative to raw products and manufactured goods essential to the development of their economic activities. These measures, it is set forth, should also include the independence of the allies in financial, commercial, and maritime organization. In execution of this resolution they will adopt the "means most appropriate, according to the nature of the goods and following the principles which govern their political economy." They will accept subventions and advances to encourage enterprises and research, scientific and technical.

Besides subventions and advances to certain industries, the allies will consider tariff changes and prohibitions, temporary or permanent. The mutual exchange of goods among the allies will be encouraged by rapid transit, reduced freight rates, and common arrangements concerning postal and telegraphic communication.

Technically trained delegates will meet to frame joint measures for the allies regarding patents and trade marks. They agree to adopt an identical practice as far as possible in the regulation of the inventions, trade marks, and copyright of literary and artistic works created in enemy countries during the war.

The agreement closes with the declaration that the delegates recommend that their governments give immediate effect to the policies as agreed upon.

Mrs. Newlywed did so, and about a week later received the following reply:

"Dear Missy: To make the muffins you'll spoke about, take as much corn meal flour eggs molasses sugar salt and butter as you think you need 'cording to the number of persons you think you're going to have stir them all together and bake in a hot oven."

To Put On Flesh And Increase Weight

Most people eat from four to five pounds of food, solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many lightly and keep gaining all the time. It's all about the quality of the food.

Most thin people stay thin because their powers of assimilation are defective. They absorb but a small amount of the food they eat to maintain life and a certain amount of health and strength. Stuffing won't make them gain a single "ray" there. They need a food that will stay in the intestines until they have drawn from it every last drop of nutriment.

For such a condition it is best to recommend eating a Sargol tablet with every meal. Sargol is not, as some have heard, a patented drug, but is simply a careful combination of six of the most effective and powerful nutrients known in nature. It is absolutely harmless, yet has been wonderfully effective and a safety tablet eaten with each meal often, according to reports, has increased the weight of a thin man or woman from three to five pounds a week. Sargol is sold by all good druggists everywhere on a positive guarantee of weight increase or money back. If you find a druggist who is unable to supply you send \$1.00 money order or registered letter to Nelson B. Gerry, Frank P. Torres, 71 St. Antoine St., Montreal, and complete the form for treatment will be sent you postpaid, in plain wrapper.

The workroom has obtained some very nice butercloth for soldiers' underwear and will keep a small supply of underwear and shirts to insure orders being filled promptly.

Soldiers' Comforts Committee, convener Mrs. Arthur Vankoughnet, reported the ship's shipment of comforts from 94 Bay street, for soldiers in the trenches elsewhere. To be 2,030 pairs socks, 78 gauze undergarments, 14 suits gauze underwear, 36 service shirts, 36 suits underwear, 197 towels, 60 handkerchiefs, 12 pairs of socks, 15 dozen bandages, 152 compresses, 441 linen squares, 18 packages paper, some candles, cards, shoe laces, writing pads and envelopes, jars ointment as well, gum, chocolate, sugar, tea, coffee, sweets, soap, and in money \$10.

Among out-of-town contributions were \$55.50 proceeds of a concert given by the Boy Scouts of Oakville; \$63 from the Woodstock Women's Patriotic and Red Cross League; \$10 (monthly) from the Oakville Women's Patriotic League. Through the kindness of Mr. E. A. Purkis \$5.50 was added to the proceeds of the Belgian Day at the Hunt Club, making that total \$376.50. Total received to date, \$298,830. SUMMIT OF ISIDORO CAPTURED BY ITALIANS

Advance Continues in Tyrol Despite Austrian Resistance.

FOE'S ATTACKS FAIL

Teuton Troops Lose Fierce Struggle on Sette Comuni Plateau.

ROME, June 19, via London, 7.58 p. m.—Heavy attacks are being delivered by the Austrians between Magna Boschi and Boscon in the Trentino. The war office announced tonight that all the assaults had been repelled, and that the Italian line remained unshaken. Progress for the Italians to the east of Asiago and north of the Franzella valley is claimed. The official statement says: "The battle continues fiercely on the Sette Comuni plateau."

To the southwest of Asiago the enemy is reported to be attacking our positions. To the northeast our counter-offensive is making good progress.

Yesterday morning, after heavy artillery preparations, strong columns of the enemy made renewed attacks on the front between Monte Magna Boschi and Boscon, but each time they were turned back with a heavy loss. This was followed by an intense bombardment by a large number of hostile batteries of all calibres, in spite of which we remained firm on the line between Magna Boschi and Boscon.

To the north of the Franzella valley the enemy tried yesterday to relieve our pressure by counter-attacks, which were everywhere defeated, thus enabling our troops to continue their slow but sure advance. The best results were attained on the right wing, where the Alpini group, which had already distinguished itself on the preceding day, carried the summit of Mount Isidoro, taking 100 prisoners and two machine guns.

BRITISH AIRMEN ATTACK TURK POST EAST OF SUEZ

Much Damage Caused to Enemy's Camps and Troops by Eleven Machines.

LONDON, June 20.—The official press bureau reports: "A large enemy aerodrome near El Arish, on

the Mediterranean, 10 miles east of the Suez Canal, enemy camps and troops were bombed by eleven British aeroplanes on Sunday. A hostile plane was about to descend and his aeroplane was destroyed by a down-sweeping raid. Seventy-seven bombs were dropped. Five and probably more enemy aeroplanes were destroyed.

Three British aeroplanes were lost.

"Everybody in this country must do his part that freedom may be well and truly won, and that we may have a happy and lasting peace in this fair land of ours. As chief magistrate of this city, I call upon you to help Col. Haggarty, who has not only offered his services, but has given his own money for the cause. Rally around him. I am assured that when he has his full complement of men, he will leave this city with a better 'tation' than the message of Mayor Church to the enthusiastic crowd in front of the city hall last night. An interesting program of music by Miss Mae Skilling, Perth Avenue School Prize Choir, attracted great attention. Rev. Logan Giegie, Major Bennett, Newton Wylie, Thomas McMillenn, Sergeant Arthur and Captain Colburn also spoke. J. O. McCarthy was chairman. Seven recruits were sent up to be attested.

Canadian Order of Foresters

37th Annual Meeting of the High Court—Over Five Hundred Delegates Present

The 37th Annual Meeting of the Canadian Order of Foresters convened on Tuesday afternoon, the 20th of June, in the Masonic Hall, in the City of London, Ont., at 2 p.m. Delegates are in attendance from all parts of the Dominion, every province being represented.

The following officers of High Court were present at the opening session: J. A. Stewart, High Chief Ranger, Perth, Ont., in the chair; J. A. Brodeur, High Vice-Chief Ranger, Montreal, Que.; Robert Elliot, High Secretary, Brantford, Ont.; Dr. U. M. Stanley, Chairman of the Medical Board, Brantford, Ont.; W. G. Strong, Superintendent of Organization, Brantford, Ont.; W. L. Roberts, First High Auditor, Brantford, Ont.; J. F. Hoag, Second High Auditor, Toronto, Ont.; W. A. Hollinrake, High Court Solicitor, Brantford, Ont.; and A. P. Galpin, London, Ont.; F. H. Davidson, Winnipeg, Man.; A. E. Coffin, Truro, N.S.; A. E. Wright, Toronto, Ont.; Dr. E. W. Moles, Norwich, Ont., members of the executive committee.

In addition to the above, D. Creighton, Dist. H.C.R., Brantford, Man.; John Murray, East Dist. H.C.R., Hamilton, Man., and D. E. McKinnon, District High Secretary, Winnipeg, Man., representatives from the District High Court for Manitoba, were present.

The annual reports of the different officers of this Order are of a very satisfactory nature, showing that steady progress which has been its experience since its inception in 1879, was continued in the year 1915. The Order continues to expand its activities to the Dominion of Canada, and notwithstanding the tremendous handicap imposed on the work of the society as a result of the war, the year just closed shows splendid progress.

The increase in the Insurance Fund during the year amounted to \$465,500.31. This is the largest sum added to the fund in any one year in the history of the Order. The standing of the Insurance Fund at the end of the year, after the payment of 592 Death Claims, amounting to \$522,179.88, showed funds on hand of \$5,295,542.32, the amount at the present time being \$5,983,757.50. The yearly revenues derived from the investments of the Order now constitute a very substantial amount of the annual income. Interest earned on investments of insurance funds during 1915 amounted to \$251,435.51; and paid 4248 per cent of the total Death Claims on the Order.

In respect to the matter of investments, it is interesting to know that the Order continues to take very active part in the purchase of Government Bonds and Municipal and School Debentures in the Dominion of Canada. During the last two years, with an exceptional market in such direction from the investors' point of view, the Executive Committee has been able to take very extensive advantage of the situation. The Order purchased \$300,000.00 of the War Bonds issued by the Dominion Government in the Fall of 1915.

The Sick and Funeral Benefit Fund shows a larger net increase than that experienced in any previous year in the Order's history, the increase for the year being \$55,398.91. Interest earned on investments of Sick and Funeral Benefit Funds (these investments being of a similar nature to those made of the Insurance Fund) amounted to \$22,746.91, and after the payment of 7,472 Sick and Funeral Benefit Claims amounting to \$191,924.85, the amount standing at the credit of this fund was \$458,683.58; the fund at the present time standing at \$452,688.91.

The General Fund is also in a satisfactory condition. Many special charges, connected with the war and the arrangement for carrying on listed members hereafter referred to,

have been arranged without any inconvenience to this fund. In respect to membership, substantial progress was also made, membership at the end of the year 1915 standing at 21,844.

IMMIGRATION PLAN OUTLINED TO BOARD

Lionel Curtis, Advocates Active Steps Before Special Provincial Committee.

SCHEME FAVORED

War's Aftermath, Speaker Declared Will Present Problem to Canada.

Lionel Curtis, 467 Jarvis street, appeared before the provincial committee for the organization of resources at the parliament buildings yesterday and expressed his views on what the Dominion and Provincial Governments should do to prepare for the flood of immigration which he anticipates will pour into Canada after the war.

"For some years," he says, "the country was flooded with immigrants from Britain, whom, owing partly to the presence of negro labor and partly to want of adequate preparation, it was unable to absorb. A serious condition of unemployment was the result. Thousands left South Africa impoverished and embittered against the country."

Provincial Loans to Farmers

British Columbia now has an agricultural credit commission. The commission is empowered to make loans to farmers upon the security of their holdings.

The system seems to be pretty closely modeled upon that which obtains in some of the Australian states. The province borrows money and lends it to the settler without endeavoring to make any money out of the transaction.

British Columbia begins on rather a small scale, the agricultural credit commission having only one million dollars with which to commence business.

While the practice of bounting industries is not new, one there is a decided difference of opinion whether the method of a fixed assessment is really of the nature of a bonus or not.

Women Might Help Recruiting

A good deal of our success, if not all of it, depends upon whether we are really in earnest about winning the war.

Do our young men and our mature men, our women and our politicians think of this fact? Do they realize that in these days even more emphatically than in the first days of the war are needed all the self-sacrifice, all the devotion, all the patriotism, all the energy, the determination, and the will to see the struggle thru to a triumph?

In England they have had to resort to conscription to get the last man out. In Canada we have them in thousands, but they stand aside as the world were not in agony for their help.

Why do they not get into the game? Surely they do not judge it from the point of view of dollars and cents or material interests or anything of that sort?

The good sports, the athletic men, have gone because they have not the game spirit and will not let their own men lose. But if there is not the sporting spirit in a man can he not be approached from some other angle?

The men at the front think the girls at home could do a great deal, if they would resolve not to go out with any eligible young man who is khaki. Are our young women thoughtful enough to understand the responsibility that rests upon them?

There is another way in which women in Canada might help as they have done in England. They might take part in the work of the munition factories and in other places of employment and set free the men who are at work.

The same thing should be true here. Some of the women's organizations ought to lead the way in this matter. The women of Canada collectively have done a great deal, but if some definite society like the Daughters of the Empire would show the way and set the pace more would follow.

Do Canadian women think it a disgrace to help the great cause in this way? If they will not do this, they may at least exert great moral pressure upon the young men who ought to be in the ranks, and who for some reason or other remain at home and take their ease.

Progress in Oshawa

Oshawa has made such a reputation for itself as a live manufacturing place, and so many important industries have sprung up there in recent years in addition to the old established ones that have long been the backbone of this centre, that it is not surprising to hear of still further developments and expansion.

On next Saturday the citizens have a proposal to vote upon, which will undoubtedly be carried and will add immeasurably to the importance of Oshawa. The proposal is in connection with the anticipated extension of the McLaughlin motor plant, already a gigantic industry, by which the assessment on the new additions would be included in a fixed assessment on the plant of \$175,000 for ten years.

While the practice of bounting industries is not new, one there is a decided difference of opinion whether the method of a fixed assessment is really of the nature of a bonus or not. It is evidently quite a different thing from the granting of a sum of money or the guaranteeing of bonds.

Not only this, but in the increased population and the increased business which comes with increased population, there comes also an increase of assessment on the general property of the municipality, out of which there is an immediate return which must be considered as of more importance than the immediate assessment of the industrial buildings, all which are the cause of the general advance.

SIR SAM HUGHES IN TORONTO TODAY

Arranging for the Sending of Troops to Camp Borden. Recruiting Drops Only Thirty-Three Men Are Accepted at the Depot.

Recruiting yesterday was not up to the figures of Monday, in fact, leaving out of consideration the thirty men that the Engineers put forth, yesterday was little better than half as good as Monday. On Monday 92 men were attested, including the 50 from the Engineers, while yesterday only 64 appeared before the medical officers, and of this number 25 only were attested.

The 204th Battalion and 70th Battery tied for first place yesterday with five men each, while the 193rd Battalion obtained four recruits. The 193rd added two, while the 191st, 201st and 202nd Battalions each added one man to their number.

The battalions now recruiting are at the following strengths: 170th Mississauga 878, 193rd 848, 201st Toronto 848, 202nd 848, 204th Beavers 1052, 205th Irish-Canadians 821, 206th 871, 207th 871.

The Royal Canadian Dragoons are recruiting for fifty men. This is an opportunity for men desiring to serve in the cavalry. Those desiring information regarding this branch of the service should see Major Nordheimer at Stanley Barracks.

On his return from visiting Camp Borden, Sir Sam Hughes said that he was surprised at the speed with which the northern camp was being prepared, and that it was being ready to receive troops as rapidly as the authorities desired to send them.

Regarding the possible date of the northern camp, it is expected that the 20th Battalion would start moving north, but it is not known whether it will be received on this matter, but that it would probably be settled in the course of a day or so.

PARIS SOLDIER IS DEAD

Both these were English-born and had no relatives in this country.

Christopher Burgin, porter at the Belmont Hotel, has received word from England that papers were found on two dead officers giving his name as their father. It is thought that they were his two sons who enlisted as privates but were promoted.

1400 SICK CAPTIVES ARE NURSED BY SWISS

LONDON.—The work of bringing back to health and activity the hundreds of sick and wounded war prisoners who are not so hopelessly wounded as to be eligible for repatriation is described in despatches from Switzerland. This was the inland country, where the French captives are being nursed back to health. They are still prisoners, of course, and will remain so until the end of the war, but their chance for recovery in Switzerland are far greater than in the necessarily uncomfortable quarters in France and Germany.

York County and Suburbs

COUNTY POLICE SYSTEM MATTER OF CONTENTION

Special Committee of Council Will Deal With the Matter. One of the matters which will engage the attention of a special committee appointed by the York County Council, now in session, will be the report of Judge Winchester and Reeve Fugaley of Richmond Hill, relative to their findings before the county board of audit on the old charge of undue energy on the part of county constables in the prosecution of motorists speeding on the county roads.

MANY MERCHANTS USING NEW DEPT

Passenger Traffic and Express Service is Rapidly Growing. The readiness with which the traveling public are adopting the new service is gratifying to the management of the road and to have already more than justified them in the venture. Not alone the passenger traffic but the express service is growing rapidly, while many of the firms in the northern part of the city are already shipping and using the new depot, expressing their pleasure at the modern facilities provided and the general convenience of the location. The short cut into the city, coupled with the lower rates, is proving a great attraction to Agincourt and the nearby eastern towns and villages, and they all claim that the new service is a big saving of time and money.

TO PROTEST AGAINST REMOVAL OF PUPILS

Parents of Children Attending Earlscourt School Form Deputation. A deputation by the parents of children attending Earlscourt Public School, Dufferin street north, will appear before the board of education at their next meeting, to protest against the proposed removal of pupils to the Earlscourt Road School. "We will not allow our children, living north of St. Clair avenue, who are already attending Earlscourt School, to be sent to Regal road," said H. Parfrey, president of the E. I. A. board of education. "The removal of the pupils to the Earlscourt Road School will mean the removal of the pupils to a school which is a long distance from their homes, and it is a great hardship on the parents to have to send their children to a school so far from home. We will demand that the nine-room annex to Earlscourt School be erected, for which the money was appropriated some time ago," he said.

ATTACHMENT HOLDS GOLF BAG UPRIGHT

A convenient support which can be easily attached to any golf bag is now ready as well as the golf bag do not. The device is inconspicuous and opens and closes automatically. It consists of an extensible rod to which are hinged two metal legs that normally are folded up against the rod through the operation of springs. The support is quickly attached to a bag by means of plates fastened to the top and bottom of the receptacle, striking plates which project slightly below the lower end of the container serve to open up the legs when the player rests the bag on the ground. When opened, they hold the bag in a position to keep the clubs and their holder from falling over. The attachment saves stooping over the bag, and keeps them out of the dirt or moisture. It can be quickly detached.

PLENTY OF TIME.

A man stood waiting for a suburban car. A newsboy asked: "Paper, mister?" The man muttered a "No" and the boy went away. Two minutes later the boy approached again and asked: "Paper?" The man said: "No, mister." "I told you I don't want a paper," the boy replied. "This time the man replied with a roaring, thundering 'No.' The boy departed.

TO COMMENCE LOCAL IMPROVEMENTS SOON

The first local improvements in York Township authorized by council will shortly commence, the township engineer being instructed to call for tenders for concrete sidewalks on Desmond avenue, Oakwood, and Beresford avenue, Runnymede. Discussion of the matter will take place at the meeting of the York Township Council on Monday next.

YORK COUNTY UNIT REACHES ISLINGTON

Lawn Social and Patriotic Meeting Held Near Old Mill. The 220th York County Battalion reached Islington yesterday on their county trek, marching from New Toronto. A model camp was soon established at the old mill, where dinner was served. A lawn social was held at the Methodist Church, where the troops tasted dainties served by the women. An open-air patriotic meeting was held, and the whole affair was presided over by Major Pink, Lieut. Jamieson and Lieut. Griffin. Moving pictures, military and humorous, were shown.

He is the Galt boy and the son of Mrs. Martha Hobson, 83 West Main street. Pte. Charles McGenty of Hespeler is reported badly wounded in the arm in a fight.

HUGHES AGAIN URGED TO DEFINE ATTITUDE

New York Tribune Calls for Concession to Colonel Roosevelt.

MUST BREAK SILENCE. Republican Nominee Cannot Go on Disregarding "Hyphen" Issue. Special to The Toronto World. NEW YORK, June 19.—Under the caption, "Do They Want Roosevelt's Aid?" The Tribune today pleads editorially with Mr. Hughes, the Republican candidate, to define himself more definitely on the Hyphen. Shortly after the Chicago convention, The Tribune, which has been a staunch Republican organ for more than half a century, declared it would no longer support Mr. Hughes unless he repudiated the German-American alliance and cleared himself of being the choice of the Hyphenates. Since then Mr. Hughes has maintained his reserve, and the Tribune has not known the presidential contest, but a significant in so far as it urges Mr. Hughes to define his attitude on the Hyphen issue. "If it is the duty of those who are advising Mr. Hughes to enlist Theodore Roosevelt's support for the Republican ticket," the difference between Mr. Hughes and Colonel Roosevelt seems to the Tribune imaginary, since it is convinced that the Tribune is in agreement with the president in the matter of the Hyphen. If this is so, could there be any greater difference between the two candidates than the Hyphen issue? The Tribune asks Mr. Hughes to make such a statement if he did not believe in it, but to The Tribune seems incredible that he should not believe it.

**QUALITY ECONOMY**

**Maintenance Cost of Pavements**

Mr. F. W. Sarr, Deputy State Highway Commissioner of New York, in his paper, "The Cost of Maintaining New York State's Highways," read at the Good Roads Congress, Montreal, March 7th, gave the following statistics of the average expenditure for maintenance, repairing and reconstruction per mile per year for each of seven types of roads.

Table with 2 columns: Pavement Type, Per mile. Concrete: 129.00; Bituminous Macadam, Mixing Method: 181.00; Bituminous Macadam, Penetration Method: 510.00; Gravel Roads: 950.00; Concrete Bituminous: 1050.00; Water-Bound Macadam: 1050.00.

These figures demonstrate conclusively that Concrete is by far the most economical and satisfactory of all paving materials. They show how your road money may be invested in permanent improvements instead of being spent in temporary improvements and expensive repairs. Our new booklet, "Concrete Roads," gives the complete story of the best roads.

**BOND ISSUE WILL HELP PACIFIC GREAT EASTERN**

British Columbia Floats Two Million Dollars' Securities in New York.

Special to The Toronto World. VICTORIA, B.C., June 20.—Word has been received by the provincial government that provincial bonds to the amount of \$2,000,000 have been floated in New York at 8 1/2 per cent. These bonds are part of the \$5,000,000 issue recently authorized by the legislature, the proceeds of which are to be advanced by way of loan to the Pacific Great Eastern Railway, Foley, Welch and Stewart, the contractors, who are also the principal owners of the railway, have been rushing in men and supplies to Clinton, and declare they will have the steel laid from Clinton to Port George by November.

**Scotia Directors Meet Nothing Unusual Expected**

W. D. Ross of Toronto, director of the Scotia Bank, is on his way east to attend a meeting of the board in New Glasgow Wednesday. This is a regular meeting, and it is not considered likely that anything will be done along the lines of dividend on the common stock or a stock bonus, as he is understood to have nothing to be worked out in that connection until later on in the year. The common stock has advanced at all since the end of the second quarter of 1914.

**STOCKS REGAINED BULK OF DECLINES**

Trading Element Seemed Less Concerned About Mexican Affairs.

READING MOST ACTIVE  
In Exchange, France Derived Strength and Marks Became Heavier.

NEW YORK, June 20.—Stocks made general tone the not complete recovery from their heaviness of the preceding session. The trading element seemed less concerned about affairs in Mexico, and prices were actually at their best immediately after publication of the department's note to the Mexican Government. Dealings were broader, but small in the aggregate, with a liberal admixture of short covering. Reading was the active feature most of the time, with Mexican Petroleum, Rock Island, Crumley Steel and Mercantile Marine preferred following more or less as named. Rock Island's activity was accompanied by rumors of an approaching agreement on the terms of capital readjustment, but the stock lost ground later on indications of further decline.

Mexicans as a group regained two to three points. Reading almost two points, the prominent motifs were better by two to seven points, and shipping shares 1 1/2 to 3. With the exception of United Fruit, which bore signs of further substantial accumulation, these advances were largely effaced in the realising movement of the final hour.

War shares were variously higher for a time, particularly the equipments, but these were proving unattractive, resulting in copper and zinc shares, and inactive issues as American Tobacco, Sears-Roebuck and Woodmen were largely effaced in the realising movement of the final hour.

War shares were variously higher for a time, particularly the equipments, but these were proving unattractive, resulting in copper and zinc shares, and inactive issues as American Tobacco, Sears-Roebuck and Woodmen were largely effaced in the realising movement of the final hour.

Dealers in exchange accepted the situation as a direct reflection of recent happenings in the foreign war. Sterling was recovering, and another instalment of gold from Canada brought the total receipts of that metal from the Dominion up to slightly over \$6,000,000. Evidently this gold is being deposited in local bank vaults instead of being shipped to the use of the federal reserve, as was recently the case.

Bonds were again under pressure, some notably issues according to slight reversals. Total sales (par value), \$2,890,000.

President Workman Looks to Export Trade

MONTREAL, June 20.—The annual meeting of the Dominion Steel Corporation was held here at noon. President Mark Workman stated, in his first annual report, that a fair foreign market might be expected for some time to come, with a view to the fact that there should be a very much improved domestic demand for the corporation's products.

London Stock Had a Steady Advance

LONDON, June 20.—The London stock market had a steady advance today. The stock market was buoyant, and the price of the gold was up to 148 1/2. The gold market was active, and the price of the gold was up to 148 1/2.

Paris Stock Market Steady

Toronto Stock Market Dull With Easier Prices—Bank Shares Act Quite Favorably.

There was further liquidation of the Toronto Stock Market yesterday and resistance was insufficient to maintain steadiness in the speculative market. A favorable feature of the market was the withdrawal of minimum prices on the bank stocks and the almost entire absence of any sales of these, although favorable bids were made for more than half those listed.

5% DEBENTURES

The prudent investor is careful to select for investment debentures that are protected by guaranteed security. Such are our 5 per cent. debentures. Write for particulars.

5 to 35% Advance on this Oil Stock June 28

To Investors: This Company now controls over 80,000 thirty thousand acres of lands and leases in the real oil and gas fields. These properties have been secured by a well planned and diversified program into many different properties, reaching into twelve different oil counties.

It controls one great lease of about twelve thousand acres of oil in the rich Healdton oil pool on a reported 1000 acre tract. A big boom has started in this property, where a great producer is being moved in and drilling will start at once at our choice location on this property. The company has many different properties, and is determined to put into operation the balance of the property and keep them going until the company's production reaches twenty million barrels per day.

The production of this company—right now—when all is marketed will total about Forty Thousand Dollars per month and may be doubled by new wells now drilling. In a year's time, by drilling the wells, this production is almost sure to be increased five times and may increase fifty times and cause a phenomenal advance on this stock.

We are drilling a very valuable lease in the Red Fork district, where we are working four wells in the middle of over twelve hundred acres. Our chances are good for some big wells on our Ranch Creek lease in Pawnee County, near the center of about fifteen hundred acres.

A MEMORABLE YEAR

Over Eighty Girls and Boys Passed "Entrance" Direct From School.

Yesterday afternoon the beautiful theatre of the Normal School appeared in its gayest attire of patriotic adornment to grace the Model School closing exercises of the memorable year 1916.

The national anthems of the allies and other patriotic songs, under the direction of A. T. Cringan, Mus. B., were sung with the strict attention to tone, time and enunciation which always distinguish the pupils of this popular instructor.

The conferring of diplomas and promotion certificates, together with the awarding of prizes for games, tennis and croquet, was an interesting feature.
