THIRD MEMBER OF FAMILY SLAIN IN SIX WEEKS

Tony Genna Give Name To Police On Death-bed

7 INTERROGATED

Police Believe Latest Crime Result of Discussion In Alcohol Band

CHICAGO, July 9.—The name "Cavalieri" was spoken by the dying Tony Genna and three theories on the motives of his assassin, guided police inquiry into the latest upturn in Chicago gangland. Third member of his family to fall before bullets in six weeks, Tony yielded to entreaties of relatives at his death-bed and violated his gangster's code of silence to give the name. And with this clue the police began gathering suspects.

The interrogation of seven men last night was based on belief that rebellion among dealers and distributors against the Genna control of alcohol had caused the shooting, that an intended victim of an extortion scheme had struck him down, or that the shooting was another act of reprisal for the murder last November of Dean O'Banion, rival gang leader.

BROTHER ALARMED

In the plea of Sam Genna, Tony's brother, for police protection, investigators saw grounds for belief that the entire Genna clan has been named for death.

"Please," begged Sam, "don't send me home. They'll after me. First it's Angelo. Then it's Mike. Now it's Tony and next it'll be me."

A police escort was given Sam, and he was taken to a secret hiding place. Search was made for Pete Genna, fined several days ago, for carrying a gun. Jim, the sixth brother, is supposed to be visiting in Sicily.

BRITISH CABINET IS MUCH TROUBLED

Reconstruction Demanded by Back-benchers—Chamberlain's Retirement Talked.

LONDON, July 9.—Not for many years has a British government been so much troubled as the present Baldwin Ministry. Throughout the week the cabinet has been sitting daily discussing the most urgent and menacing problems such as the coal crisis, the situation in India, the problem in China, the question of relations with Russia, the security pact, and allied debts and the possibility of transport trouble.

The least of these troubles is enough to break a ministry of ordinary strength, but Premier Baldwin is in the comfortable position of enjoying a large majority. The chief of his troubles is coming from his own Tory back-benchers who are asking whether they are going and are demanding some kind of cabinet reconstruction. This might result in the often threatened retirement of Acland-Hood, admitted owner of the still, was held.

Today Is Unique For Judge, With Court Room Deserted

"This is a rare day, indeed, in my experience in the police court," said Magistrate Henderson this morning. This is city court day when civil debt actions hold sway and yet there were no litigants, no lawyers and not even a spectator in court when His Honor took the bench. To cap the good performance, the police criminal sheet was marked "Nil" for the second day in succession. This is such an unusual occurrence that His Honor fell to reviewing his many years in court. He found, however, that he could not remember a single Thursday when this occurred. Thursday is always a busy day for His Honor with a dozen lawyers in court and sometimes over 20 cases of debt to hear, but this week is made memorable by the fact that no one appeared.

There was evidence of skidding for a distance of 50 yards, and then the ditching and violent bring-up of the heavy car. Wheels on the ditch-side were smashed off, mudguards twisted and broken, windshields smashed and other general damage. Evidence of blood was roundabout the car, but nobody in the neighborhood seemed to know who the occupants were, or if there had been any.

OTTAWA, July 8—Improved steamship services and mutual tariff preferences are the features of the "Canada-British West Indies-Bermuda-British Guiana-British Honduras trade agreement," the full text of which was made public here and abroad tonight.

The agreement, which is subject to ratification of the Parliament of Canada, the Colonial Office, and the governments of other contracting parties, is for a period of 12 years, and will come into effect upon proclamation.

Canada under the agreement extends tariff preferences on bananas, cocoa beans, lime juice, limes, arrowroot, coconuts, grapefruit, rum, ginger, cocoa butter, green coffee, ginger and specks, nutmeg, pineapple, sugar, marine sponges, aniseed, and nutmeg. All goods other than tobacco, cigars, cigarettes and spirituous or alcoholic liquors, being produced or manufactured in any of the colonies mentioned, when imported into Canada shall not at any time be subject to a tariff more than 50 per cent. of the duties imposed on similar goods under the general tariff of Canada.

CANADA GETS PREFERENCE

Jamaica, the Bahamas, British Honduras, Barbados, Trinidad and British Guiana give Canada preferences on flour, butter, cheese, hard condensed milk, meats of all kinds, fish, apples, potatoes, boots, cement, prepared cocoa, confectionery, cordage.

The agreement as signed provides for two steamship services. How to make Delicious Strawberry Jam in 15 minutes

New method that never fails

The day of hard work over a hot stove and the guess-work, with its worry—and often with its loss of sugar and fruit—in jam and jelly making, is past and gone. A nationally-known jelly maker has found the way to extract pectin—that substance in fruit which makes the "jelly" or set when boiled with sugar—and then to refine and concentrate it for housewives. So wonderful is this product called Certo (Surejell) that over three million women have adopted its use within three years. With it anybody who will follow a simple recipe can now make jam or jelly with any kind of fruit, without failure, in a few minutes.

The Certo method is as simple and accurate as "two and two make four." With Certo you boil only one minute, not the indefinite period of the old method. This one minute's boiling saves your precious time, and it also saves the juice, the flavor and the color of the fruit, which was formerly boiled away. Extra sugar is required to transform this juice and flavor into jam and jelly, with the result that you get one-half more from the same amount of fruit at less cost per glass.

Actually you have the same amount of sugar in a glass of jam or jelly, whether made with Certo or by the old, wasteful method, but with Certo, from 2 pounds of berries you now make 5 pounds of jam, against only 3 pounds by the old method. This one-minute boiling also preserves the real color and flavor.

Try this Simple Recipe
Crush thoroughly about 2 quarts berries in single layers, so that each berry is actually crushed or broken up to a pulp. Best results are obtained by running berries through a food chopper. This allows fruit to quickly absorb the sugar during the short boil and prevents fruit rising to the top or overflowing. Measure 4 level cups crushed berries into large kettle, add 7 level cups (3 lbs.) sugar and mix well. Use hottest fire and stir constantly before and while boiling. Bring to a full, rolling boil and boil hard from 1 to 2 minutes, remove from fire and stir in 1/2 bottle (1/2 cup) Certo. Skim and stir repeatedly for just 3 minutes after taking from fire, to cool slightly. Then pour quickly and seal hot.

Use same recipe for Loganberry or Black-berry jam.

The Certo Recipe Booklet with every bottle contains 73 recipes for making the most delicious jams and jellies.

SAINT JOHN, N. B., JULY 9, 1925.

MR. RHODES AND THE STRIKE

Hon. Mr. Rhodes, Premier-elect of Nova Scotia, is reported to be a man who weighs his words, and therefore his pronouncement concerning the Cape Breton strike must be taken as indicating that he has discovered some method which he believes will lead to a settlement.

that goal is to be reached, improvement in Maritime conditions is one of the first requisites.

A GOLF DIVORCE

The Americans lead the way in divorce novelties. Now comes the golf divorce. In Des Moines yesterday Mr. Sanford E. Hinshaw was revealed as a man who was asking for a divorce, and incidentally for a slice of alimony.

MARITIME SYMPTOMS

Comment upon the Nova Scotia elections by Canadian newspapers has been guided largely by their party affiliation. Most of them, of course, conclude that, rightly or wrongly, the result will give strong encouragement to the Conservative party throughout Canada.

NATIONAL HARMONY

His Excellency the Governor-General, in an address at Victoria on June 30, referred rather pointedly to the need for greater national unity and harmony. He was speaking before the Canadian Club, after making a tour of the Western Provinces.

This is interesting, and its truth will be tested during the coming months. At all events, there is no doubt that the Maritime Provinces feel very deeply the fact that their ports have not commanded the amount of Canadian business to which they are entitled, and which they would secure under a sound national policy of transportation.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

Finger Prints

Almost invariably when finger prints are introduced in a court of law they are for the purpose of establishing guilt. That they may also establish innocence was proved dramatically in a New York court room a few days ago.

MANY ARE AT PICNIC

St. Barnabas Church Pleasure-seekers Enjoy Good Programme of Sports.

Fine weather and an enjoyable programme marked the annual picnic of St. Barnabas church at Driftwood yesterday afternoon when there was a large attendance. The grounds were given for the picnic by P. P. Starr. The arrangements were under the direction of the Misses Peacock and Mrs. Albert Peacock.

IN LIGHTER VEIN

"I Thank Thee For That Word." "The climate here is fabulous, isn't it?" "Say, friend," replied the native, "just write that word down for me, will you? I get tired of 'awairin' at this climate in the same old way. 'That's a new one.'"

The Lesser Evil

"Does your wife sing to the baby when he cries?" "Not now. The people in the next flat notified us that they preferred to hear the baby cry."

Practice Makes Perfect

"To increase your physical assets take up golf as a hobby," says a health writer. These sports also increase one's life abilities, we've noticed.

Earthquake Fears

It seems to us that the recurrence of earthquakes in this country within the last year raises a most serious problem of immediate practical importance. Extreme uncertainty is caused by the reluctance of people to live in or invest capital in any section in which there is more than a mere possibility of an earthquake.

Look Under the Rug

Sweep a rug with a broom, dirt remains underneath the rug. Clean a rug with an Electric Cleaner and with proper operation, no dirt is left. Dirt is loosened and forced by suction into the container. Nothing is left to sift through the rug and grind away its fibre.

Committee of Episcopal Church in United States Is Criticized

Report Prepared for Triennial Convention to be Held in New Orleans

NEW YORK, July 9.—(United Press)—Criticism of the laity of the Episcopal Church in the U. S. for indifference to their religious obligations is contained in a report which will be submitted to the Episcopal triennial general convention meeting at New Orleans October 2 to 23. The report is signed by Burton Manfield, well-known corporation lawyer of New Haven; John Stewart, editor of the New York Sun; and Ira W. Stratton, former Mayor of Reading, Pa., and Willard Warner, chairman of the Chattanooga.

In the triennial now closing there has been a failure on the part of the church to meet the requirements of the budget of \$4,261,007 adopted at the Portland Convention in 1922 and the financial problem of the ensuing three years will be one of the serious questions the New Orleans meeting will have to grapple with. Church leaders feel that a deeper interest in the work of the church, particularly in its activities in the mission fields, will result from an awakening among the laity to its world-wide situation. Significance, therefore, attaches to this report of the Commission on Increased Lay Activities.

NEED FOR LAY INTEREST.
"The adequate solution of the problem of maintaining and increasing the active and effective interest of the laity in the work of the church is essential to the continuance of the church itself," the report warns. "No church, not even though it were the admitted repository of the faith once delivered to the Saints, can perpetuate itself beyond a single generation except by the accession of new members. No liturgy, no matter how satisfying its expression and no matter how compelling its appeal, can purify the minds and lift up the hearts of those who never hear its words. No discipline, no matter how powerful it may be in psychology, can mould the lives and strengthen the souls of those who do not come under its influence."

SOUNDS WARNING.
Having made these statements in their preamble, the committee proceeds to sound this warning: "Without the enlistment of the active enthusiasm, without the release of the spiritual seal, and without the employment of the missionary impulses of the laity, the church must inexorably live a stunted and halting life."

The committee also points out, with the exception of the Brotherhood of St. Andrew, the Episcopal Church has notably neglected the active activity. "There can be no denial," says the report, "that the Episcopal Church has not actively and energetically gone about the task of organizing and inspiring and applying the energies of its laymen as a whole for the second, that both by reason, by history and by unanswerable examples of other communions a vast source of beneficent energy has been neglected alike for the enrichment of the spiritual life of the individual layman that serves, and of the corporate church that is so supported."

The report cites action by various provinces and dioceses looking to the consideration of a number of suggestions which outline whereby the interest of the laity in the work of the church may be promoted.

CHEESE OR THISTLES

Allotment holders at Sandgate have requested that a fine crop of thistles growing on W. D. land should be cut down by soldiers. In Scotland they would possibly have obtained the assistance of a few young natives, thus putting the thistles to more practical use. For in Scotland, despite the "Wha daur meddle wi' me?" motto, the national emblem is often devoured by the natives, or by day or trip. 19649-7-10

MARKET ACTIVE IN MONTREAL AGAIN TODAY

Prices Chiefly Steady With Some Showing Slight Degree of Strength

MONTREAL POWER IS THE ONLY EXCEPTION

Renewed Buying of Copper and Rubber Shares Wall Street Feature.

Canadian Press. MONTREAL, July 9.—Trading of the Montreal stock exchange continued on an active scale at the opening this morning, and prices were steady to a shade stronger.

Winnipeg railway was the most prominent in regard to activity, and came out with an overnight gain of 1/4 at 3 1/2. Brazilian sold up 1/4 at 4 1/2. Montreal Power was an exception to the general trend, selling off 1/2 at 198. Shawinigan was up 1/2 at 155 1/2.

The balance of the list was active and firm.

IN WALL STREET NEW YORK, July 9.—Renewed buying of copper and rubber shares, based on favorable trade developments, infused fresh strength into the stock market, at today's opening. At the same time, a broader demand for standard issues, such as Atchison and New York Central among the rails, and United States Steel and American Can among the industrials, gave stability to the upward movement.

TALKING MACHINE CO. LOSES ACTION

Get Adverse Decision in Suit Over Loud Speaker Rights.

PHILADELPHIA, July 9.—Under a decision by the Federal Circuit Court of Appeals, the Victor Talking Machine Company and the Brunswick-Balke-Commler Company lost in litigation over patent rights in an amplifying horn enclosed in a cabinet talking machine. The Court affirmed the Federal District Court of Delaware, which held that the patent owned by the Victor Company was invalid because Eldridge R. Johnson, who claimed to be the inventor, acquired his knowledge for the Brunswick-Balke-Commler Company, which was in violation of the ground that he had abandoned the claim on the company.

BOY SAVES 2 LIVES

Harold Jones Rescues Girls in Difficulty in Bathing in Courtney Bay.

Harold Jones, grandson of John Harrow, engineer of the Saint John County Hospital, was instrumental in saving the lives of two girls who had gone in bathing in Courtney Bay yesterday. One of the girls got beyond her depth and the other went to rescue her. Hearing their cries, young Jones went to their assistance. He succeeded in parting the girls and while one swam to safety he assisted the other to shore. Both felt they would have been drowned had it not been for the timely arrival of the 12-year-old lad.

BONDS - WE RECOMMEND

Chile is one of the most important countries of South America and possesses enormous natural resources, including rich deposits of copper, iron and coal. She has an excellent credit record and the per capita debt of the country is low. The national wealth is estimated at twelve times the national debt. These bonds offer an exceptional opportunity for sound investment at a very attractive rate of interest. Listed on the New York Stock Exchange—Principal and interest payable in dollars in New York—Denominations \$500 and \$1,000—Due 1942. Price 101 1/2 and interest N.Y. yielding 6.82% (Subject to prior sale and change in price.)

An Opportunity to Earn 451% PROFIT ON AN INVESTMENT IN ITALIAN GOVERNMENT 5% BONDS

With an Attractive Interest Yield

AN INVESTMENT made to-day in Italian Government 5% Bonds (Consolidated Loan of 1920) presents an unusual opportunity for profit on any advance in the value of Italian money (Lire). From 1914 to 1920 the principal alone may be realized.

Italian Government 5% Bonds, as a result of the depreciation of the Italian Lira, can now be bought for 135.00 per 1,000-lire Bond; with the Italian monetary unit at its normal exchange value (19.36 cents per lire) these same bonds would have a value of \$193.90 per 1,000-lire Bond.

International bankers believe that the Italian Lira will sell above 18 cents before very long. It is not difficult to realize what this will mean to Italian Government 5% Bonds; each 1,000-lire Bond will have a value of \$193.90—every \$55.90 invested to-day will have earned \$55.90, more than 100% profit. When the lire reaches 15 cents every 1,000-lire Bond will be worth \$150.00—every \$35.00 invested to-day will have earned \$115.00, more than 228% profit.

Italian Government 5% Bonds (Callable at option of Government after 1931) are the best medium through which to purchase Italian lire for maximum profit. These bonds represent to Italians precisely what British Government Consols and Canadian Government Victory Bonds represent to us, i.e., legal investments for Trust Funds and Savings Banks. They constitute a strictly high-grade gilt-edged government investment.

Italian Government 5% Bonds may be sold again instantly as they are listed on the Italian Stock Exchange and traded in throughout the financial centres of the world. They are exempt from all present or future Italian taxation. Interest coupons are payable January and July 1st, and can be cashed in Montreal, New York and London, through this house, banks or other financial institutions; each interest coupon is valid for 5 years from its maturity date, thus permitting conversions at any time exchange rates may be favorable.

Italian Government 5% Bonds will unquestionably come back to normal (\$193.90 per 1,000-lire Bond). The financial history of the world affords numerous instances wherein Government Bonds dropped temporarily in value only to regain their losses during periods of recuperation. The United States were on the verge of bankruptcy after the Civil War; their securities could be bought for a mere fraction of their normal value, yet in a few years the Americans were on their financial feet again and to-day are considered the richest nation in the world.

The aftermath of the Franco-Prussian War is within the memory of living man. The French people were compelled to pay heavy indemnities to Germany; the finances of the country were in a sorry state; French Government Bonds sold down to 7% of their normal value. They appeared hopeless—yet in a few years they had recovered 95% of their normal value, bringing fortunes to those who have bought them for a small part of their normal value.

Even Great Britain once faced what seemed to be financial catastrophe. With Napoleon virtually pounding at her gates, British Bonds sank steadily in value but the victory at Waterloo sent prices sky-rocketing. The Rothschilds, for many generations the richest family in the world, accumulated the major portion of their wealth by investing in British Government Bonds and selling them when Wellington's victory was proclaimed.

These precedents support our contention that (1) The most difficult thing in the world to destroy is national existence; (2) When millions of men and populations of nations lend their collective efforts to the task, nothing is impossible; and (3) That the greatest fortunes were made by investors who in times of pronounced political and financial darkness possessed enough grit and enterprise to enter the markets as purchasers of Government Bonds when they went begging for buyers. History will repeat itself—Italian Government 5% Bonds at their present price, indicate the present a life-time opportunity to reap handsome profits.

The Kingdom of Italy ranks among the first-class military, naval, and commercial powers of the world. With an enterprising population of 41 millions, her industries show a remarkably rapid recovery and expansion since the close of the war. Foreign trade figures, recently made public, record wide improvement in all branches of her economic life.

The expansion of territory as a result of the peace treaties has added considerably to the natural resources of the Italian nation. Her investments abroad reach a large figure, moreover, and she receives a large revenue annually through remittance of her nationals in foreign lands, and this income has been reliably estimated at close to One Hundred Million Dollars annually. Payments from Germany, under the Dawes Plan are further enhancing the Italian Treasury.

All of these conditions will be reflected in a steadily improving rate for the Italian Lira, which investment in turn enhances the value of Italian Government 5% Bonds. These Bonds, at their present price, are a genuine investment bargain. We urge immediate action, otherwise when a great opportunity to-day may be diminished to-morrow by the rise of the lire. The status of the Great Standard in Great Britain cannot do otherwise than exert a favorable effect on the currencies of other countries and this is particularly true of Italy for economic reasons too exhaustive to discuss here. In view of this fact, therefore, the only safe procedure is to BUY TO-DAY!

Table of Present Prices and Future Values. Columns: Denominations, Present Price, Future Value (at 10 cents, 15 cents, 19.36 cents). Rows: 1,000 Lire, 2,000 Lire, 5,000 Lire, 10,000 Lire, 50,000 Lire, 100,000 Lire.

THE ABOVE price includes every expense. Sales are confirmed by registered mail immediately upon receipt of order with remittance. As quotations are subject to market fluctuations, orders should be placed with the least possible delay. The order form below is for your convenience. We take particular pride in the service we extend to investors. Our interest does not cease after a sale, for it is our constant aim to keep in touch with our clients informing them as to developments affecting the value of their holdings and advising them what action we recommend. While expensive to ourselves, the value of this service to our clients is incalculable.

Tax-Exempt Interest Income

Each bond of 10,000 lire yields an income of 500 lire per annum. At the present rate of the lire, holders of Italian Government 5% bonds, receive interest at a rate of over 5% per annum. With the lire rising to 18 cents (or \$180 per 1,000 lire) the holder of 10,000 lire Italian Government 5% Bonds will receive \$50 in Canadian money for each 500 lire yearly interest income, being equivalent to over 14% interest return for his investment of \$350.00.

With the lire quoted at 15 cents (or \$150 per 1,000 lire) every 500 lire will be worth \$75.00 in Canadian currency; this return represents an interest rate of OVER 21% on the original \$350.00.

With the lire at par (19.36 cents or \$193.90 per 1,000 lire) the ANNUAL INTEREST in Canadian currency will be \$96.95 for every 500 lire interest. This return is equivalent to an interest rate of OVER 27 1/2% on the original investment of \$350.00.

The investor can follow the trend of the lire through the financial columns of the press. He is thus constantly informed on the behaviour of his bonds. As remarked elsewhere, the investor does not have to cash his interest coupons as soon as they fall due. Each interest coupon is valid for five years after redemption date. This enables the holder to dispose of them at any time during that period.

The most important fact to remember, however, is that the PRINCIPAL INCREASES IN VALUE AS WELL AS THE INTEREST coupons, as the lire rises. It is obvious that these high grade, attractive, gilt-edged bonds of the Italian Government will not be available at present prices for long. You must act quickly.

VETERAN SPITBALLER LEADS TWIRLERS IN AMERICAN LEAGUE

CLEVELAND LET COVELESKIE GO LAST SEASON

Mackmen Win and Lose - Yankees Stop Losing Streak

NEW YORK, July 9.—The veteran spitballer, Stanley Coveleskie, a Cleveland cast-off traded to Washington late last season, today is the leading twirler in the American League with 11 victories out of 12 starts. Coveleskie pitched his latest triumph for the world champions yesterday by a 10 to 2 victory over the White Sox, which gives the Senators a grip of the lead of the American League by two and one-half games.

Athletics Break Even
The Athletics broke even with Cleveland. The Indians took the first game, 14 to 8, pounding four Philadelphia pitchers for 19 hits. In the second encounter, Eddie Roushel checked the Cleveland batting and the Mackmen won 7 to 5.

Ruth Gets Homer
The Yankees losing streak which had stretched to four games, stopped with victory over the Browns in a loose game. Ruth's seventh homer of the season with one in the third helped the Huguenot to a 6 to 4 win. Each club used three pitchers.

Only Game Played
The Cardinals came out on the long end of a 5 to 4 score with the Braves, in the only National League contest played, showers, the other clubs to remain idle. Mails held Boston scores until the ninth inning, when the hitters helped stage a rally. Foster H. Edwards, recruit from Dartmouth College, has been released by the Braves to the Worcester club.

TO EXPECTANT MOTHERS
Letter From Mrs. Ayars Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Spring Valley, Sask.—"I took the Vegetable Compound before my last confinement, when I got to feeling so badly that I could not sleep nights my back ached so across my hips, and I was so hard to do my usual work. I never had such an easy confinement and this is my sixth baby. I read about Lydia E. Pinkham's Vegetable Compound and wrote you for one of your books. We have no druggists in our town, but I saw your medicine in a catalog. I am a farmer's wife, so have all kinds of work to do inside and outside the house. My baby is a nice healthy girl, who weighed nine pounds at birth. I am feeling fine after putting in a large quantity of your medicine. It is as good as she can be. Yours is the best medicine for women, and I have told about it and even written to my friends about it."—Mrs. ANNIE E. AYARS, Spring Valley, Sask.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and give up the entire system so that work in every respect is made easy. All druggists sell this medicine. Give it a trial.

St. John The Baptists Down Trojans and Close in on League Leaders

Along The Sport Trail

By RAY HANSEN

"FICKLE FANDOM" is an old and true saying. Today some of the leading critics of fistiana are lauding Shade as the greatest welterweight in the world and calling him the uncrowned champion, and only a few days ago they conceded that Mickey Walker was the greatest boxer at his weight of modern times. Because he went out of his class and fought Harry Greb the middleweight champion and lost a decision after one of the most gruelling battles in years are now prone to relegate him to the scrap heap. This is not fair. Walker put up a battle, which will go down on the annals as one of the greatest in years and showed both ability and gameness. He was pitted against a seasoned boxer, one who, when in good condition, has no peer. Because he was outpointed and Shade leaves a clever, although inexperienced, opponent he is ousted from his pedestal and another is proclaimed the idol. Perhaps Shade is a better man than Walker but it will be time enough to concede that when he wins the right to such recognition by defeating the title holder.

THE GAME in the City Amateur League tonight between the Water Dept. nine and St. John the Baptists is certainly creating widespread interest among fans. It is expected a record crowd will be in attendance.

WASHINGTON FANS are so confident that the world's series will be staged there again this year that the management of the club is being deluged with applications for seats for the big classic. This looks to be a case of counting their chickens before they are hatched. The recent series between the champions and the Athletics, which resulted so disastrously for the latter, is responsible for the attitude of the fans. It is estimated that over 40,000 applications have been received. At the present time it looks as if the Senators would repeat, but as the season is only half over many things could happen. A couple of their stars could be incapacitated, pitchers could develop sore arms or the team may fall into a batting slump. The fans had better wait for a while and make sure their favorites will be out in front when the curtain is rung down.

THERE IS NO denying that boxing fans were disappointed when they learned that the proposed bout between Fildes and Quill was postponed. Considerable interest had been worked up, but the postponement is apt to cool the ardor of the fans.

MANAGER HUGGINS is certainly bent on reconstructing the Yankees. He has released Walter Witt, his veteran outfielder, and has sent Walter Beall to St. Paul on an optional agreement and Elmer Duggan, a left-handed pitcher, to the Hartford Club. The outright release of Witt comes as a surprise. Up to this year he has been the regular center fielder, but was supplanted by the sensational young player, Earl Combs. In two of the world's series he was the Yankees' lead off man and in 1922, it will be recalled, he drove out a single which won the American league pennant for his team. He was always fast on bases and a clever bunter. It is hard to understand why the other clubs in the major leagues all waived on him. Beall is a good pitcher, but developed a wild streak, and is being sent back to the minors for more experience.

Race Between Beresford and Walter Hoover Still Uncertain

HENLEY ON THAMES, July 9—A race between Jack Beresford, winner of the Diamond Sculls, and Walter Hoover of Philadelphia, for the Philadelphia Gold Challenge Cup, which Beresford won at the Paris Olympics last year, is still uncertain. The meeting between the two oarsmen last night, at which the whole question was discussed thoroughly, is considered to have been unproductive of a definite date for the contest, as Hoover received a cable message from the cup committee yesterday, asking him to remain in England, as it was thought Beresford would re-

Malden, Mass., Team Will Play Here

THOMAS MULLET, manager of the Alerts' professional baseball team, announced this morning that he has completed negotiations with the Malden, Mass., team to play three games here over the week-end. The first game will be played on the East End grounds on Friday evening, and the other two on Saturday afternoon and evening.

The United States team played three games in Halifax and administered overwhelming defeats to the home clubs. They also played in Moncton, and from all accounts had little difficulty winning. They are reputed to be a fast, clever and hard-hitting club.

NEW RIDING STAR

Godby, an Australian Youth Shows Promise on English Race Tracks.

That prolific nursery of apprentice jockeys in England at Treadwell House, Epsom, which Stanley Woolton, like his father before him, is managing so cleverly, believes it has found another boy for whose services there will soon be a great demand. This is the little Australian rider, K. Godby, who is now a very long ago landed in England. Godby had already ridden one winner before his departure from the Antipodes, and scored his first success in England at the recent Epsom meeting. At Leves he added two more brackets, and while he had an easy journey on the race track, he has not been so lucky in the Amateur Handicap. He was opposed in a very close finish to G. Barber and J. McCormack, both of whom had had a fair amount of experience, and although hard pressed, he could not finish the distance. The match race between Jimmy O'Neill, Jr., and Lady Belle was won by the latter in two straight heats. Charles Padlock and Loren Murchison, the 100-metre dash in 10:11 seconds.

EASTMAN WAS INJURED WHILE RACING HORSE

Lady Belle Captured Event From Jimmy O'Neill, Jr.

About 800 fans journeyed to Moose-park last evening to witness Eldridge Eastman pitting his speed against a local pacer, Patchen King, but history repeated itself and, like many a time before, the runner was not to see whether or not he could outrun a horse.

Gun Mis-fired
After the usual delays, Eastman stepped up to his mark, and Patchen King was taken down the track and harned a short distance behind the runner. Beth McLeod, who was officiating as starter, pulled the trigger, but the gun mis-fired. Both horse and man started, but pulled up. Another start was arranged and a new gun procured. This time it went off and both got away. They had only gone about 10 or 15 yards when Eastman pulled up lame. He claimed he had either been fouled by the wheel of the bike or had been struck by a stone shot from the hoof of the horse. As he was unable to continue, the race was awarded to the horse, who ran the distance in 9:3 seconds under a tight rein.

Great Burst of Speed

Those who witnessed the race were surprised at the burst of speed shown by the race horse, which has the reputation of being one of the fastest and most consistent scorers in these parts. With a few yards to get under way the horse looked to be able to get the distance under eight seconds. Although many fans felt that Eastman would have been beaten they keenly regretted that he was unfortunately injured and could not finish the distance.

Issue Warning To Amateur Ball Teams

FINAL WARNING that drastic punishment will be meted out to recognized amateur baseball teams in the province if they play unregistered teams and without sanctions was uttered today by W. E. Sterling, vice-president of the M. P. B. of the A. A. U. of C. Mr. Sterling said that recently a team from Malden, Mass., had played in Moncton and it had been found that some of them were not amateurs. This game, he said, was arranged by two newspapermen, the players being picked. Further, that an unregistered Moncton team went to Chatham for the holiday and played there. Such practices, Mr. Sterling said, must stop, and the next team found guilty of an infraction of this rule could expect the full penalty.

BUNKER MURPHY SETTLED DOWN AFTER BAD START

Saint Johns Defeat the Royals in North End Fixture

The Saint John the Baptists moved into a commanding position in the City League race last evening on the South End diamond when they easily downed the Trojans, 11 to 5. "Bunker" Murphy was on the mound for the Saints and was on a rocky start settled down and was well-nigh unhittable for the remaining stages. "Bunker" had one bad inning, the third, when the Trojans showed four runs over the plate and took the lead by 5 to 3 but the Trojans appeared unable to stand such prosperity and the Baptists soon countered into the lead again not to be headed.

Leslie Kerr went the route for the losers and was bumped hard at opportune times. Kerr was unable to control his curving six bases on balls and hitting two men in addition to having three wild pitches. Fitzgerald and Murphy had three hits each for the Saints while Merryweather and W. Fraser got two each for the Trojans. There was a big crowd present. These two teams met again on Saturday afternoon on the South End in a postponed game.

Geo. W. Vierra's Hawaiians A MUSICAL NOVELTY THAT IS MUSICAL

The Chautauque program will present a distinct novelty this year in Vierra's Hawaiian Singers and Players. The popularity of the haunting Hawaiian melody was never greater than now. Mr. George W. Vierra has the deserved reputation of producing the best Hawaiian Companies now in America. His brother, Mr. Joseph Vierra will also be in the company to appear here. Their sweet, mellow voices blend like a perfect instrument, while their instrumentalizations possess aesthetic charms of tone color and human qualities that excite the most subtle emotions. The dreamy, languorous melodies float out to audiences and inspire the best that is in human nature. The programs have been carefully selected and rare enjoyment is in store for those who hear this company at Chautauque.

Each number on the program kept the audience spellbound. "Their singing is almost marvelous." "Charmed their audience with weird, wailing harmonious music." "It was with a glad hand that we welcomed them back for the third time."

These are a few of the press comments that have been called forth by the appearance of this company in other towns. It is predicted that this town will be ready to add its commendation to that which the Hawaiian Company has already received. They will appear on the last night at Chautauque.

THINK CITY'S LANCASTER TAX BILL TOO LARGE

Common Council Will Pay Under Protest to Save Discount

MAYOR SEES WEAPON IN WATER CHARGES

Contracts Awarded—Labor Council Suggests School Board Appointee.

The city council this morning decided to pay the Lancaster tax bills under protest, in order to obtain the cash discount. Mayor Potts suggested that if the parish continued to increase the taxes the city could get square by increasing the water rates in the parish. It was decided to proceed with the extension of the water system in Loch Lomond road and to change the new sewer in Rodney street from terra cotta to cement to timber. Commissioner Wigmore reported that the extension of the Loch Lomond road in conjunction with the sewerage system to be installed there, would cost about \$4,500 and that the 10 per cent. revenue required was available. He moved the work be undertaken and said for bond issue. Carried. Commissioner Wigmore reported that it had been found that it would be better to carry the timber sewer from the Mill Pond, West End, to Rodney street, up Rodney, instead of using terra cotta or cement pipe. He was given authority to purchase the necessary timber. He said the timber sewer would cost about \$800 less than cement.

CONTRACTS AWARDED.

On motion of Commissioner Wigmore, the following tender for terra cotta pipe, from James Robertson & Co., was accepted: 225 feet of 18 inch, at \$1.03 a foot; 100 feet of 18 inch, at \$1.44 a foot, and 900 feet of 20 inch, at \$1.84 a foot.

On motion of Commissioner Frink, the tender of the Carville Co. of \$27,854.10 for 145 tons of asphalt for the paving of St. James street, was accepted.

Pyke Brothers asked permission to install an electric-lighted poster sign on the roof of the Charlotte street building occupied by Louis Green. Commissioner Frink said that in April the Imperial Tobacco Co. asked permission to install a sign there, but had not done so. He moved the permission be granted on plans being filed with the city engineer, fastenings approved of, and an indemnity bond of \$5,000 be filed.

Commissioner Bullock thought the frame should be fireproof. Commissioner Wigmore said that in the past a poster sign being placed on the roof of any building.

The application was laid on the table for information as to the type of sign.

FOR SCHOOL BOARD

The Saint John Trades and Labor Council submitted the name of James T. Sharpe as representative of labor on the Board of School Trustees. This was laid on the table. Commissioner Bullock was given authority to pool the estimates for the ferry department. Commissioner Bullock moved that the Lancaster tax bills, \$1,817.50 and \$2,875.50 be paid under protest, in order to secure the cash discount. He said that last year the bills were more than \$900 less than this year and in 1917 the total bill was \$2,197. Commissioner Wigmore said it would be interesting to know how much land the city had disposed of since 1917. Mayor Potts remarked that the city was selling water to Lancaster and if the taxes kept going up the water rates might be raised.

NO SIGN OF WRECK, REPORTS DOLLARD

Fiona, Which Struck Trinity Ledges on Voyage From Here, Disappears. The wreck of the steamer Fiona, which struck on Trinity Ledges last night and sank while en route from this port to Newfoundland with a cargo of potatoes loaded up the Saint John river, has been completely demolished by the sea, according to information received at the local Marine and Fisheries Department from Captain Bayers of the C. G. S. Dollard. For some time after the vessel sank her masts could be seen about two feet out of water at dead low tide. Shipping interests in the vicinity of Yarmouth notified the Marine Department that the wreck was menacing the Dollard and sent with orders to destroy the wreck, but Captain Bayers has reported that a two-day search failed to reveal the wreck although several pieces of the vessel's hull were found in the vicinity. He felt certain that the sea had demolished the Fiona. Trinity Ledges are about 30 miles from Yarmouth.

WEST SIDE HAS COUNCIL PLACE

Board of Trade Executive Provides for Two Members From There.

Subjects for Maritime Conference Discussed—A. L. Foster Joins Council.

At a meeting of the council of the Board of Trade this morning the first fruits of the election were taken to consolidate all local improvement efforts was seen in the adoption of a resolution providing that the representatives of the West Side organization will take a place at once, filling the vacancy caused by the resignation of F. M. Ross, who has moved to Montreal. The resolution provides that the president of the West Side Association shall be one of the representatives of that organization, and the other shall be elected by the Progressive Association.

CONFERENCE DISCUSSED.

The Maritime Conference at Moncton was discussed and the opinion was expressed that formal resolutions should not be placed before the meeting for adoption, but that the problems of the Maritimes should be discussed and referred to special committees to whip into shape for presentation at the national conference in the fall. Among the matters which the Saint John Board suggest to be taken up are transportation, which would include all forms of transportation, including freight, handicrafts, development of natural resources, immigration, as it was felt that the Maritimes were not getting their fair share of the immigration coming to the country, although they were paying their share of the cost of procuring settlers, and a re-adjustment of the economic base of relations with the Dominion. It was felt that as a result of Ontario and Quebec having been granted large concessions to their territory the Maritimes should be given better treatment in the way of subsidies, that some steps should be taken to safeguard their fair share of representatives in Parliament.

JOINS COUNCIL.

A. L. Foster, chairman of the membership and finance committee, was appointed to the council to fill the vacancy caused by the resignation of E. A. Schofield, and he was warmly welcomed to the meeting. The report of the Imperial Shipping Committee in regard to marine insurance rates was handed to the chairman of the port committee, H. C. Schofield, for study and report. In the absence of the president and vice-presidents the chair was occupied by A. P. Patterson.
