Choose League Or Pay Well

American People Are Face to Face With Choice

"NO HALF WAY HOUSE"

Secretary of Navy Says it is League of Naval and Military Expansion

Washington, Feb. 26—Secretary of the Navy Daniels, speaking last night before the National Press Club, declared that the American people today were face to face with making the choice either of a league of nations to safeguard the peace won by valor or entering upon a career of such naval and military expansion as would "enable us single-handed to guarantee American rights and American interests from Halifax to Tierra Del Fuego."

"There is no half way house," said Mr. Daniels. "We must assume our share of responsibility for world justice and world peace in co-operation with other free nations, or we must reject the proposal of a league of nations endorsed by the chosen representatives of fourteen nations representing twelve hundred million people with all the burden of military experience and the danger of militarism which such choice involves. It is a momentous choice to be made in a momentous period of world history."

London Opinion

London, Feb. 26—(By the Associated Press)—Comment on President Wilson's Boston speech takes first place on the editorial pages of this morning's London newspapers. They unite in expressing the hope that the president's appeal for support of the league of nations will meet with a favorable response in the United States.

BOLSHEVIKI B'ATEN

Greeks, French and Roumanians Win Victory Near Odessa

Athens, Feb. 26—Greek troops, operating with detachments of French and Roumanians, have advanced north of Odessa, pursuing Bolsheviki forces along the Dnieper River. After a short fight they have occupied the fort and town of Tiraspol, on the right bank of Dnieper, fifty-three miles from Odessa, according to a Saloniki despatch.

The retreating Bolsheviki have abandoned many dead and wounded and have left guns and munitions in the hands of the Allied forces.

MR. BRIERLEY WILLING TO ACCEPT \$40,000 FROM LORD ATHOLSTAN

Montreal, Feb. 26—James S. Brierley, formerly editor-in-chief of the Montreal Herald, is prepared to compromise on a claim to \$63,987 which he filed with the liquidator of the Herald Company, and to agree to a settlement on payment of \$40,000 to him by Lord Atholstan.

RAISES CANADIANS; HOPES FOR BRITISH FRIENDSHIP OF BRITANNIC EMPIRE AND FRANCE

Toronto, Feb. 26—"I wish to tell you that the name British, and especially the name Canadian, has in France come to mean not only brave men and good men, but sincere friends," said General Fay, in an address to the Canadian and Empire clubs, who jointly entertained the distinguished visitor and the members of the French mission at luncheon yesterday.

SUFFRAGISTS IN BOSTON FINED

Boston, Feb. 26—Fines of \$3 each were imposed in the police court yesterday upon all but two of the women suffragists arrested on Monday after making demonstrations in front of the state house and on the common before and after the passage of the parade escorting President Wilson. One was charged with speaking without a permit and the others with loitering. Three of the women paid their fines. The others refused to pay or to appeal and were sent to jail, where they will remain probably eight days. One woman was discharged as not guilty, and a girl fourteen years old was discharged because the court declined jurisdiction.

QUEBEC WILL GIVE THEM FREE FARMS

Bill Making Provision For Returned Men

IT APPLIES TO ALLIES

Legislation Introduced in Provincial House by Hon. Mr. Taschereau—Turned Over to the Soldiers Without Charge

Quebec, Feb. 26—Hon. L. A. Taschereau, provincial minister of public works and labor, yesterday afternoon placed on the order of the day before the legislature his bill granting free farms to returned soldiers. A lengthy debate on subsidies and farmers' associations delayed the study of this bill. Mr. Taschereau's bill on farm lands to soldiers proposes to grant certain areas of land to soldiers who have been honorably discharged from the service. Men who served either in the army or the navy on any of the battle fronts of the last war will be entitled to apply for these farms. The bill provides to allow returned soldiers of any one of the Allied armies to benefit by this, provided they were residents of Canada previously, so that the Quebec government will offer free farms to soldiers of any part of the world so long as they fought for the Allies.

These farms will be conceded to them without any charge whatever, and further they will be entitled to take on them a valid mortgage to guarantee the subsidies that are to be granted such soldiers taking up farms by the federal commission for the return to civil life of soldiers. The area of each farm will be decided upon by the lieutenant-governor in council and a returned soldier desiring to take such lands for farming may get them by applying to the federal commission.

CITY UNDER SHADOW OF TUESDAY'S TRAGEDY

Funerals of Mr. Johnston and Mr. Osten Will Be Held Tomorrow

The shadow cast over the business and social life of the community by the double drowning in the Kennebecasis yesterday was undispelled today. Messages of condolence and sympathetic remarks were showered upon the wife and immediate family of Robert L. Johnston while telegrams and written communications were sent to Mrs. E. R. Osten, Fredericton.

Mr. Johnston will be buried tomorrow from the home of his mother-in-law, Mrs. Horncastle, 36 Sydney street and interment will be made in the family lot, Fernhill. Rev. G. A. Kuhring will officiate. The body of Mr. Osten will be forwarded by M. N. Powers, undertaker, to Fredericton under the direction of Mr. Gregory of that city, cousin of Mrs. Osten, who arrived late last night to represent the bereaved lady. This funeral will be held also tomorrow.

Intimate conversation with relatives of Mr. Johnston and with those who were last to converse with him and his party in the automobile disaster, said that the trip, as far as the two civilian gentlemen were concerned, was of an impromptu character. Mr. Johnston and his wife had intended attending the local theatricals in the evening and tickets for this were found in his pockets. In the programme at this entertainment a conspicuous omission was a tangletalk show entitled "Swim, Sam, Swim," which Fred C. Macneil, Mr. Johnston's life-long friend and chum, felt utterly unable to attempt in the sad circumstances. The words of the ditty were ironically suggestive of the dangers of the sea.

The spot where the accident occurred is about twenty feet off the long tapering sand bar point, locally known as Sand Point, belonging to the property of L. R. Ross, whose summer place is at Sandy Point. This is a favorite picnicking spot for the summer dwellers thereabouts and is a familiar location to boating parties and others. There is another Sand Point above Grand Bay on the main river, and it was confusing to some yesterday when news reached town that the fatality had occurred on the tributary stream.

It was said this morning by those present when the recovery of the bodies was being made that mute evidence of Mr. Johnston having struggled under water in the wrong direction were apparently swam from the hole instead of towards it.

DAIRY AND POULTRY CLASSES IN ENGLAND FOR SOLDIERS' WIVES

London, Feb. 26—(Canadian Associated Press)—A committee is opening classes in dairy and poultry keeping for women who have married Canadian soldiers and are soon to be migrating to the Dominion. Similar classes have been already established by the Canadian Khaki University here.

MORE OF THE BOYS ARE HOME TODAY

Three special cars came in this morning attached to the Halifax express. They contained soldiers for military district No. 7, who arrived at Halifax yesterday on the S. S. Empress of Britain. The train was late arriving here owing to a derailment in Nova Scotia, which held traffic up for a couple of hours.

In conversation with a "Times" representative this morning several of the men said they were delighted with the treatment they received on the Canadian Pacific Ocean Liner and said that they had a most enjoyable passage across from Liverpool.

The citizens' reception committee was at the train to meet the soldiers with Mayor Hayes and others, including V. A. D.'s under direction of Mrs. G. A. Kuhring. They were heartily welcomed and treated.

When they arrived here all were served with breakfast and then the St. John boys dispersed to their homes, while the other New Brunswick boys went to the discharge depot to await the time for their trains to depart.

The following is a list of the St. John boys in the party:

- Lieut. C. P. Inches, St. John; Sergt. L. Creighton, 87 Queen street; Pte. W. Conway, 80 St. Patrick street; Pte. W. R. Donaldson, 47 Broad street; Spr. C. Frank, 183 Erin street; Pte. C. M. Gates, 315 Brussels street; Pte. T. P. Gongen, 2 Short street; Spr. G. Gray, Fond street; Pte. E. W. Hammond, Cranston avenue; Pte. P. W. Hargrave, 41 Prince street; Pte. W. Henderson, 204 Duke street; Pte. W. F. Joyce, 287 Rowley street; St. John West; Pte. J. J. Kennedy, 26 Richmond street; Pte. L. Lacey, 189 Prince street; Pte. J. Lawrence, 117 St. Cross street; Pte. J. L. Lacey, 189 Prince street; Cpl. W. R. Lingley, 31 Rodney street, St. John West; Pte. K. J. Morton, 175 Main street; Pte. R. V. McCullery, 292 Rodney street, St. John West; T. C. McKinnon, 117 Main street; Pte. F. C. Neil, 48 Brussels street; Pte. A. J. Nesbitt, 66 Kennedy street; G. A. Paine, 292 Brussels street; S. Rowley, 67 Stanley street; J. Shephard, 283 Germain street; C. N. Smith, 86 Coburg street; P. Smith, 203 Brussels street; A. S. Spicer, 30 King street; St. John West; M. Tulippe, 291 St. James street; C. Upham, 727 Main street; A. Yacoub, 154 Douglas street; Pte. J. L. Webb, Randolph street; Pte. N. S. Williams, 26 Brunswick street; Pte. J. C. Wilson, 84 St. James street; Pte. C. R. Colwell, 47 Exmouth street; and Pte. James Sullivan, Mill street.

Among the soldiers who reached St. John on Halifax yesterday was Corporal Boy Macaulay, who has been more than four years of service. He enlisted with the 26th Battalion when that unit was organized here and went overseas with the battalion and then to the front. He was in the famous crater episode in which the 26th received the Victoria Cross and was one of the few members of "A" company who came through unscathed.

At Elze he suffered from shell shock, from the effects of which he was rendered deaf and dumb for several months. After he recovered and until the signing of the armistice he was engaged in the work of controlling traffic to the front lines. Corporal Macaulay is a son of Mr. and Mrs. G. A. Macaulay of Charlotte street, West End, and before enlisting was a member of the C. P. R. staff. Another brother, W. A. Macaulay, went overseas as orderly sergeant with the 115th Battalion, afterwards was transferred to the Canadian records office in London and returned home a fortnight ago.

LIEUT. G. K. SHELLS AND MISS HAZEL JEAN TEED WED.

A wedding of interest was performed in Centennial church this afternoon at 3.30 o'clock, when Rev. H. A. Goodwin united in marriage Miss Hazel Jean Teed, daughter of Mrs. G. A. Teed of 72 Queen street, and Lieut. George Kingsley Shells, son of John Shells of Gagetown. The latter is at present attached to the depot battalion, but was an original member of the 14th 1st Royal of Montreal. The bride wore a becoming costume of white nylon over silk and carried a nosegay of violets and lilies of the valley. She was attended by William Pellowe and Louis Leclerc officiated as ushers. Following the ceremony Lieut. Mr. and Mrs. Shells left on a short provincial trip. They will make their home in St. John.

DIED WELL

Mrs. E. A. Sturdee's Irish setters Glencho Mory O'Callaghan and Glencho Connemara, in addition to winning prizes in their respective classes at the Westminster Kennel Club's show, New York, also won a special for best brace. They were in competition with six brace and one of these was chosen from a kennel of eighteen dogs.

King And Queen Give Party In Honor of Wedding of Princess

London, Feb. 26—(Canadian Press despatch from Reuter's Limited)—The king and queen gave an evening party at St. James' Palace last evening in honor of Princess Patricia and Commander Ramsay. As their Majesties were in mourning for Prince John they did not attend the party in person, but others of royalty were present and by command of the king the court mourning was waived.

Invited guests, considerably over 1,000 attended. The members of the royal family assembled in the Queen Anne drawing room and Prince and Princess Patricia and Commander Ramsay assisted in receiving the visitors. Refreshments were served in the banquet hall and picture gallery, and the whole range of state rooms were thrown open and brilliantly lighted.

Many notable additions to the gifts were exhibited, including a magnificent eight point diamond star from the officers of the guards brigade and an ostrich feather fan from General Louis Botha.

VESSEL AFIRE IN THE BAY; THEN EXPLOSION

Probable Fate of Four-master From Here

Captain Conrad and Crew Reach Yarmouth After 12 Hours in Open Boat—Mr. Chesley Gets Later Word From Lurcher

Yarmouth, N. S., Feb. 26—Captain Conrad and the crew of the four-master schooner George Melville Cochrane, 822 tons, arrived here this morning in an open row boat, having abandoned the vessel forty miles off the coast after a night. They rowed twelve hours to land. The schooner sailed from St. John on Monday afternoon for Buenos Aires with general cargo and no life saving equipment. By midnight she was totally abandoned. Reinhardt Brothers, of Le Havre, are managing owners of the schooner, which was built at Parrsboro in 1918.

Word of the missing schooner reached the city last evening when J. C. Chesley, agent of the Marine & Fisheries Department, received a wire from Yarmouth stating that the vessel had been abandoned. Later he received a wireless message from the C. P. O. S. R. Tyndal, outward bound, notifying him that the schooner had passed a derelict seven miles off the Lurcher Light, in the bay.

This morning Mr. Chesley got in touch with the caretaker of the light and was informed that there was a derelict in sight and was on fire. At 10.15 he received another message that the derelict had exploded and the spars, etc., were floating about, but the hull had disappeared.

The schooner had a large general cargo for Buenos Aires, which included a large number of automobiles, a quantity of steel and 400 drums of carbide. Wm. Thomson & Company are the local agents.

SIR RODOLPHE FORGET'S WILL

No Specific Legacies—All Goes To Trustees, Including Wife and Son

Montreal, Feb. 26—The will of Sir Rodolphe Forget, dated at Montreal Jan. 22, 1919, about a month before his death on last Wednesday, was filed for probate yesterday afternoon at the application of Mitchell, Casgrain & Co., attorneys. He leaves the whole of his estate, without providing for any particular legacy, to fiduciary legatees and trustees, who are Lady Forget and Gilles Forget, Sir Rodolphe's eldest son, and Pierre P. Casgrain, C. M. P., son-in-law.

The trustees are given full powers of administration under the instructions laid down in the will.

THE PULP MILL

At a meeting of Local No. 32, Sulphite Pulp and Paper Workers Union, in Temperance Hall, Fairville, last evening, a committee was appointed to arrange for a smoker, when all officers of organized labor will be invited to be present. Members reported that men were being brought from Miramichi to work in the mill but that the men had said that they were not aware that there was a strike on and that they would not work as strike breakers. In reply to an inquiry made by the company, said this morning that the company was not importing any workers and had no intention of doing so. Owing to the mill being closed for repairs, they had also closed down their coal mines at Miramichi, and some of the men there had come to St. John at their own expense looking for work. As the company had felt under some obligation to them, they had offered them work, more to give them something to do, than because they needed them.

VOTE OF CONFIDENCE ON POLICY FOR MEETING THE COST OF LIVING

Paris, Feb. 26—The French senate yesterday gave the government a vote of confidence by acclamation, following an address by Victor Boret, minister of provisions, during which he outlined the activities of his department relative to meeting the high cost of living throughout the country.

TO OVERTHROW THE SAXON GOVERNMENT

GUARDS GIVEN A ROUSING WELCOME

The Grenadiers Back to London From Battlefields

BUT 12 G. OR AWAYS

Throngs in Metropolis Join in Procession Unexcelled in Many Years—Royalty Takes Part in the Jubilation

London, Feb. 26—The second battalion of the Grenadier Guards received an enthusiastic welcome on its return to London from Germany yesterday. Although no ceremonies had been arranged and the hour of arrival was uncertain, immense crowds assembled at St. Pancras station.

The only indication that something unusual was happening was the presence of musketed bands which played "See the Conquering Heroes Come" as the men left their train. General Fielding, commander of the London district, welcomed the battalion in behalf of the king and then the guards began a triumphal march across London to Chelsea barracks.

Unprecedented scenes were witnessed as the troops proceeded through the crowded streets, thousands of people joining in the march, which eventually assumed such proportions that it resembled a general exodus. Wives, relatives and sweethearts of the guardsmen were in places of honor among the civilian marchers, while many members of the returned battalion could be seen leading their children. The bands played throughout the march, the crowd joining in singing popular airs. Even the London policemen were unable to resist waving their hands. It was the most exultant and happiest procession London has seen for many years.

Queen Mother, Alexandra, outside of Marlborough House; the Duke of Connaught and the Crown Prince and Princess of Sweden, before Clarence House, and King George and Queen Mary, with their children, at the open windows of Buckingham Palace, greeted the warriors as they passed.

Of the original unit that left England in 1914, only twelve men survived to take part in this great homecoming.

REFUSE OFFER OF GOVERNMENT FOR THE TWO RAILWAYS

The Carquet and Gulf Shore and The Kent Northern Lines

Premier Foster has been advised from Ottawa that the owners of the Carquet and Gulf Shore Railway and the Kent Northern Railway have definitely refused the offers made by the dominion government to purchase these lines. In the interest of the people residing in the districts along and adjacent to these lines Premier Foster has been endeavoring to arrange for their purchase and operation as part of the government railway system but this message is taken to indicate that the attitude of the owners still stands in the way of securing the service which is desired and needed.

CALL FOR PAYMENT OF DEBT COUPONS TO DUAL MONARCHY

Paris, Feb. 26—The supreme council of the peace conference has decided, according to a Havas report, to telegraph to Vienna asking that coupons of the Austro-Hungarian debt falling due on March 1, be paid. This action followed a report before the council by Signor Crespi of Italy on behalf of the inter-Allied financial commission, who pointed out that there are funds in Austro-Hungary banks to make the payment, but expressed a fear that such payment might create a kind of precedent which could later be used against the different states of the former Austro-Hungarian empire.

It is reported that the telegram to be sent to Vienna will specify that payments made on the coupons will not affect the apportionment of the Austro-Hungarian debt among the different states which formed the dual monarchy.

SOME BATHE TWICE A MONTH, SOME ONCE, SOME NEVER

Paris, Feb. 26—The Soviet government in Moscow is now regulating the number of baths each person is permitted to take in the various public and private bathing places and has divided the population into three categories, according to French refugees arriving here from Russia. It is said that those in the first category are allowed to bathe twice a month, and those in the second category once a month, while those in the third category, never.

Movement by Spartacans and Radical Socialists

GENERAL STRIKE PROCLAIMED

Fresh Revolt in Mannheim—New German National Force For "Protecting the Frontiers"—More Assassinations by Bolsheviki

Berlin, Feb. 26—(By the Associated Press)—Spartacans and Radical Socialists have launched a movement to overthrow the existing government in Saxony, where the newly elected diet was to assemble yesterday. A general strike has been proclaimed and railway communication with Halle, one of the principal junction points in Saxony, has been broken. The Spartacans are reported to have taken possession of Plauen and other industrial centres.

Independent Socialists in Leipzig have issued a manifesto demanding the retirement of the Weimar government, declaring that it is "an impediment to Socialism and the liberation of the proletariat." The Independent Socialists are reported working feverishly for a proclamation of a Soviet republic in Saxony.

After Radical demonstration at Pirna and Plauen, the Radicals seized the plants of non-Socialist newspapers and ordered the officials of the seized plants to leave. Work has been stopped in many places in Saxony by the seizure of power stations and the interruption of overland transmission of electric power. The break in railway communication at Halle suspends through service between Berlin and Weimar and Munich for the time being, as the only express running have been routed through Halle.

Copenhagen, Feb. 26—A fresh revolt broke out at Mannheim yesterday. Spartacans occupied the post office, telegraph office and the railway station, and communication with the city is interrupted.

Copenhagen, Feb. 26—In the course of a debate in the German national assembly a bill creating a national defence force, Gustave Noske, who is in charge of military affairs in the German cabinet, said the force would be chiefly in process of organizing the frontiers, according to a Berlin despatch received here.

"It would be criminal carelessness," he said, "not to protect our eastern frontier, which is menaced by the Bolsheviki."

More Assassinations. Paris, Feb. 25—The German legation at Libau reports that Bolsheviki have occupied the island of Gessel and assassinated the secretary of the German legation, his wife and a courier. This announcement is made in a Havas despatch from Basel.

Basel, Feb. 26—Seventy-six communists have been arrested on charges of rebellion against the Hungarian republic at Budapest, according to advices from that city. It is reported that during their examination they have admitted that the money necessary to set up an anti-republic government came from Russia and that during the last month the expenses amounted to \$800,000 crowns. It is said they refused to receive the money as the funds are being sent from Russia and that during the last month the expenses amounted to \$800,000 crowns. It is said they refused to receive the money as the funds are being sent from Russia and that during the last month the expenses amounted to \$800,000 crowns.

DEATH IN DEVON AND ONE IN FREDERICTON

Fredricton, Feb. 26—Mrs. Jas. Lyons died this morning at her home in Devon, aged fifty-eight. Three sons survive—Angus de Madam, Willott of Marysville and Walter de Devon; also five daughters—Mrs. Ernest Cochrane of Daoktown, Mrs. Ernest Daley of Devon, Mrs. Amanda Stafford of Marysville, Mrs. Bruce Cameron and Miss Hattie Lyons of Devon.

Egerton T. Chase died here on Tuesday afternoon, aged fifty-eight. He formerly resided at Dumfries and was a guide, sportsman and boat builder.

POLICE COURT

Raymond Simons was in the police court this morning, charged with being drunk and fighting with John Arsenau in Brussels street last evening at 7 o'clock. Policeman Paul said that while patrolling Brussels street his attention was attracted by a crowd near Brunswick street. He said he found Simons and Arsenau fighting and Simons was very drunk. He arrested both men and took them to the police station. Magistrate Ritchie gave them a severe talking to and imposed a fine of \$8 for drunkenness and \$20 for fighting on Simons, and \$20 for fighting on Arsenau. Unable to pay the fines both were remanded. The case against William Speigand Steve Prokovich, charged with assaulting George Rusanoft, was ended today. Evidence was submitted yesterday afternoon by two Russian girls. The magistrate said there was considerable contradiction in the evidence and as the defendants were always given the benefit of a reasonable doubt, the case was dismissed. M. B. Innes appeared for the complainant and W. M. Ryan for the defendants.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

DISPUTED PICTURE IMPERIAL TONIGHT

For Husbands Only a Great Picture for Ladies and Gentlemen—Nothing to Be Afraid Of

The Mildred Harris feature, "For Husbands Only," a Lois Weber production over which there has been so much difference of official opinion, will be shown to the people of St. John tonight and tomorrow so that they may judge for themselves as to its moral healthfulness. The Imperial has full confidence in the judgment of frank unbiased St. John. If it pronounces against it will be a very valuable "tip" for the management of the theatre to govern future bookings. In the meantime the supreme court allows the exhibition and it is definitely assured the ladies and gentlemen of the city—Imperial's regular and highly valued patrons—that there will be nothing to offend, nothing to cause a blush, nothing but a sweet and exceedingly clever little society story about the swift punishment administered a flirtatious young millionaire by an especially bright and faithful young wife.

WONDERFUL MOTION PICTURE COMING SOON

Complete Information Regarding Its Name, Time to be Shown in, etc., will be in Tomorrow's Papers

The most spectacularly successful picture of the year is coming to St. John soon. It is said to be different from anything ever shown here before. Prices will be high, and the engagement a long one. In both England, Upper Canada and the United States, the name of the picture has become a household word and its St. John advent will doubtless be awaited with great interest. The name of the subject and the theatre where it will be shown will be announced in tomorrow's papers, and not only picture fans, but the general public will have much reason for satisfaction.

AGAIN TONIGHT

The pictures of Sir Wilfrid Laurier's funeral will be shown at the Queen's Theatre again this evening and all day tomorrow.

SHAWINGAN FALLS FIRE, HELP IS SENT FROM OTHER PLACES

Montreal, Feb. 27.—Fire which broke out in the residential section of Shawingang Falls, Que., this morning threatened to get out of control and urgent calls for assistance were dispatched to Grand Mere, Three Rivers and Montreal. Special trains with fire fighting apparatus and men were dispatched to the scene and over the long distance telephone that a high wind was prevailing, which was spreading the flames. With the assistance of the out-of-town fire fighters and a local bucket brigade the fire was put under control after six houses had been destroyed; loss about \$150,000.

TWO POLICEMEN KILLED

Rahway, N. J., Feb. 26.—Patrolman James Lynch and Jacob Kraus were shot dead today while attempting to arrest men suspected of having engaged in a street fight. The policemen were felled by bullets from an automatic revolver as they forced their way into a house where the alleged brawlers had barricaded themselves. Several prisoners were taken and one confessed during the fatal shots.

MRS. FRANCIS S. WALKER. Mrs. Francis S. Walker passed away this morning at her home, 14 Church street, after two weeks' illness following an operation. Besides her husband she is survived by her mother, Mrs. Bryan Cogger of Lowell, Mass., also five brothers and two sisters.

NO TONIC LIKE HOOD'S

Sarsaparilla For a Time Like This. After influenza, the Grip, Whooping Cough, and other prostrating diseases, Hood's Sarsaparilla has remarkable health-helping effect. It expels the poisons that have weakened and depleted the blood, causing pallor, anemia, flabby flesh and lax muscles. It is the standard blood remedy with a successful record of nearly fifty years.

Many people—it is really astonishing how many—need a fine, gentle, easy cathartic in these trying times. We recommend Hood's Pills, used in the best families, and equally effective with delicate women or robust men.

FUNERAL PICTURES PERFECTLY PHOTOGRAPHED

The motion pictures of Sir Wilfrid Laurier's funeral, which were shown at the Queen's Theatre yesterday, drew unusual crowds from all parts of the city. Many people took advantage of the chance in order to avoid the night rush.

The pictures were taken by the Specialty Film Company, and have been most perfectly photographed. First of all we see Parliament buildings draped in mourning, then the topmost floor—a half-dome. This is a most appealing introduction to the red.

The Specialty Film Company were given the privilege of taking scenes inside the Parliament building where the body lay in state; also at the cemetery while the great statesman was being lowered into his final resting place. Those who traveled miles to view Sir Wilfrid's funeral did not see one-quarter of that which is contained in the pictures.

HERE'S A SUGGESTION

(Moncton Transcript) The St. John, N. B., Times wants the legislature to force some of the members in the provincial legislature who were connected with the Valley Railway and allied scandals, to resign from the legislature or that the legislature should discontinue the services of a truly Christian spirit? Why does not the Times suggest that the gentlemen who are connected with these scandals form a little upper house of their own and call in the service of their own. Brother Daggert would be an ornament to the select group.

MISS MARY POWER AND W. McPARTLAND MARRIED

An interesting wedding took place this morning at a quarter after six in the Cathedral, when Rev. A. P. Allen united in marriage Mary Elizabeth, daughter of the late James J. and Mary A. Power, to Walter McPartland, son of James H. McPartland formerly of Houlton, Maine, but now of St. John. After the marriage ceremony Rev. A. P. Allen celebrated high mass. The bride, who looked charming in a traveling suit of navy blue with hat to match, emine furs and carried a beautiful bouquet of Ophelea roses, was given away by her uncle, Sergeant Detective John T. Power. After the wedding Mr. and Mrs. McPartland went to Fredericton on the 7:40 train and will leave this evening for Boston and New York, and will go to Medford, Mass., where they expect to reside for the present.

The bride was very well known in the city, having been employed with K. Pedersen, Ltd., Charlotte street, as head bookkeeper for some time. The groom prior to joining the American army, in which capacity he is now serving, was in business with his father as J. H. McPartland and Sons, Water street. There were no guests invited, but immediate friends attended. A large number of handsome presents were received by both bride and groom. A host of friends wish Mr. and Mrs. McPartland a long and happy married life. It is hoped that in the near future they will return to St. John and make their home here.

SAYS HE WAS BADLY USED BY AUTO DRIVER

James Collins Says Buggy Wrecked and Himself Injured

James Collins, a teamster for H. P. Robertson, fish dealer, 28 Britain street, was run into on the Marsh road by an automobile last evening about half-past nine o'clock, while driving home. Mr. Collins said this morning that he was driving along carefully on his right side of the road, near the car tracks, and when in front of Donald McIntosh's establishment, a car going at a high rate of speed came up behind him, ran into his buggy, cutting off the left rear wheel, frightening the horse so that it ran away, making a total wreck of the carriage.

Mr. Collins said he was thrown out in front of the car, and if the horse had not given a plunge for its freedom, he would have been over. As the car slowed down, Mr. Collins said he made to get in so that he might see who was the driver, but the speed of the car was increased and he was thrown into a ditch, his face bruised and his arm injured. On getting to his feet he said he started to catch his horse, and ran to the Marsh bridge, where some persons had managed to stop it.

They told him that the car had caused so much damage passed there at a high rate of speed. A car from a garage came along and took the injured man to his home.

IN WALL STREET.

New York, Feb. 26.—Stocks moved with an uncertain trend at the opening of today's session, but soon gathered strength on a general advance among leaders. Marine preferred recovered a substantial part of yesterday's loss and oils, motors, coppers, tobaccos, sugars and rubbers rose one to one and a half points.

Baldwin Locomotive strengthened despite the heavy loss in surplus shown by the annual statement. United States Steel was in demand entered. Six events and rallies moved to higher levels under guidance of Southern Pacific and Reading. There was also an active inquiry for Pittsburgh, West Virginia and Columbia Gas.

AGAIN BEREAVED.

This morning the General Public Hospital occurred the death of Gertrude E. Hoyt, only daughter of the late S. E. Hoyt of this city. Her brother, Geo. W. Hoyt, died not long since. She is survived by her mother, George W. Ketchum of this city is an uncle. Very deep sympathy is felt for the bereaved mother, who has thus lost both her children as well as her husband. There will be a service at the home in Spruce street on Friday morning at 11 o'clock, and the body will be taken via Hampton to Lower Norton for burial. The family formerly lived in Lower Norton.

WHEELER MAY COME

From present indications the coming skating championships, under the auspices of the Y. M. C. A., will be a grand success. Joseph McNamara, who is arranging for the big meet, is endeavoring to get Russell Wheeler of Montreal here to participate in some of the feature events. It is expected he expects to receive entries from all parts of the maritime provinces. Nearly every local speed skater has already entered. Six events will be held, the 200, 400 and 800 yards, the one mile, the three mile and a half mile for boys of seventeen years and under.

SOLDIERS APPLY

F. R. FARMS HERE

The agricultural qualifications committee of the soldiers' settlement board continued this morning at a session in the local government rooms, their work of passing on the qualifications of returned soldiers who have applied for aid in securing farms. About twenty-five applications have been received, a number fully up to their expectations to find that the applications will come along in much larger numbers now that the board is at work.

Thomas Caldwell of Florenceville presided and the other members of the board present were Major G. F. Kinnear, Major J. J. Ball of Woodstock, Lieutenant J. G. Robertson of Ottawa, maritime superintendent, and William Kerr, secretary. Major Ashton of Ottawa, member of the Dominion board, is in the city and will confer with the provincial board this afternoon.

After the applications have been passed by the qualifications board they will be sent to the financial qualifications committee who will pass on the financial aspect of the cases. The latter committee has not yet been appointed, the only member appointed so far being Captain J. H. A. L. Fairweather of this city, whose experience as a returned officer and also as a barrister well acquainted with financial matters, will make him a valuable member.

TO CHECK VILLA

This was done to prevent Francisco Villa from carrying out a threat to destroy American properties and kill American employees unless one million dollars were paid him by March.

UTILITIES COMMISSION

The New Brunswick Public Utilities Commission met this morning in the provincial government rooms for their monthly session. The chief matter before them was the application of the Farmers' Telephone Company of Carleton county for permission to increase their rates. The hearing is being continued this afternoon. M. L. Hayward appears for the company; no one is appearing to oppose the application.

PROVINCIAL APPOINTMENT FOR RETURNED SOLDIER

Fredricton, Feb. 26.—The provincial department of agriculture has appointed J. W. McCauly of Lower Millstream, district representative for Carleton, Victoria and Madawaska, effective March 1. He will succeed H. C. Taylor, resigned. He is a returned soldier and prior to enlisting in the C. E. F. had attended the Nova Scotia Agricultural College at Truro for two years. Upon the vacancy occurring the Department of Agriculture applied to the Great War Veterans' Association of St. John for the recommendation of a returned soldier for appointment. Mr. McCauly was recommended.

CHILD WELFARE IN THE WEST.

(From Women's Section, Office of Director of Public Information.)

Child welfare is occupying a large share of attention in British Columbia and Alberta. Early in December there was held at Vancouver the first annual convention of the Child Welfare Association of British Columbia. The programme included discussions on educational reforms, juvenile delinquency, child mortality and diseases of children. Vol-

untary training was urged in order that children might become helpful factors in the community. The schools of Vancouver were mentioned particularly on account of the special classes for the mentally backward children and the association put itself on record as favoring institutions for the feeble-minded.

The chief diagnosis of the juvenile courts of Seattle, Washington, addressed the association on juvenile delinquency and its dependence on the status of home training. A low class of parental responsibility results in juvenile delinquency. It was recommended that mothers' pensions should be established because motherhood should be recognized as the highest service to the state.

In Alberta the study of child welfare is concerned with the preparation and serving of hot lunches to rural school children. The department of education for the province has issued a booklet containing recipes and practical suggestions whereby the cold lunch will be wholly or partially abolished. It is estimated that more than three-fifths of the school children attending rural schools in Alberta are dependent on cold lunches and that these are eaten at irregular intervals and under conditions not beneficial. The idea of the department of education is that trustees and teachers shall make it possible to serve

at least one hot dish each day at noon; well balanced cold lunches are also suggested to mothers.

Captain Frank C. Howard of Haverhill, Mass. who is well known in St. John and Hampton, is now being sent to the Philippine Isles in the interests of the American militia.

The Best Cough Syrup Is Home-made

Here's an easy way to save \$2. and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home. Into a 16-oz. bottle, pour 2 1/2 ounces of Pinex (10 cent worth); then add plain granulated sugar syrup to fill up the bottle. Or, if desired, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for five times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to break through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost instant relief. Sufferers did for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for the relief of chest ailments.

Avoid disappointment by asking your druggist for "24-cent Pinex"; don't accept anything else. Guaranteed to give absolute relief. If not, your money refunded. The Pinex Co., Toronto, Ont.

AT OTTAWA.

Yesterday's session of the house of commons at Ottawa was largely devoted to eulogies of the great Liberal leader whose empty chair reminded the house and the country of the great loss that has been sustained.

he entitled to pay 8 per cent in 1917 if profits warranted such a distribution, and the average for the two years would be 6 per cent, the maximum allowed by the act.

HON. MR. CARVELL'S LETTER.

The Times prints today a letter from Hon. F. B. Carvell to Premier Foster on matters relating to St. John. There will be a general assent to Mr. Carvell's statement that giving St. John connection with the National Transcontinental Railway at the earliest possible moment is of more importance than the extension of the breaker to Partridge Island, and this is provided for in the estimates, which include the necessary amount to improve the connection between Fredericton and McEwry Junction.

A HOUSING SCHEME.

In 1914 a housing act was adopted in Manitoba, but as yet no practical results of any value have resulted. The following summary of its provisions is given by Canadian Finance.

RECENT DEATHS

Miss Annie McDermott.
Miss Annie McDermott, of 151 Broad street, passed away yesterday after a long illness. Miss McDermott was a daughter of the late Thomas McDermott of Harvey, Albert County. She is survived by a sister, Miss Sarah C. McDermott of this city.

James W. Gregory.
Word was received in this city yesterday of the death in Everett (Mass.) on Sunday, of James W. Gregory, formerly of St. John. Mr. Gregory was well known in St. John and vicinity, and had been stoveword here many years. About two years ago he removed to Everett (Mass.). He had been ill about three months.

Mr. Gregory is survived by two daughters, a son, three sisters and two brothers. The daughters are Mrs. George Smith and Mrs. John Turner, both of Everett, and the son is Arnold Gregory, also of that city. Miss Laura S. Gregory, of St. John; Mrs. Mary G. Watson, of St. Stephen, and Mrs. Warren Moore, of Eureka (Cal.), are the sisters. The brothers are Frederick P. Gregory, of St. John, and Cyrus, of Winnipeg.

Mrs. John McCready Snow.
Moncton, Feb. 25—(Special)—The death of Mrs. Snow, widow of John McCready Snow, occurred this afternoon at Moncton City Hospital. Mrs. Snow was formerly Miss Jane Brundage, and was born in St. John seventy-five years ago. She had been a resident of Moncton for some years. She is survived by one sister, Mrs. Dieude, of New York, who was with her at the time of her death;

also one half-brother, Charles Brundage, of Boston, and one half-sister, Miss

Bertha Brundage, of St. John. Thomas Dieude, associate editor of the New York Sun, and at one time a resident of Moncton, is a nephew of deceased.

Rev. Patrick J. Garrity.
Rev. Patrick J. Garrity, pastor of St. John's Roman Catholic church, Bangor, died in that city Sunday after a short illness. Father Garrity was born in St. Catharines (Ont.), March 17, 1868. He was educated at Holy Cross College and at Three Rivers (Que.). He was well known as a worker among the Canadian

**Bad Luck on Trail
Of Stricken Family**

**Woman Mourning Death of Husband
and Child Loses Others in
City Maze**

Following the death of her husband and one child, the burning of her home and all her worldly possessions, Mrs. Mary Higgins, from Oklahoma, lost three of her four surviving children in Indianapolis, and found two of them only to learn one of the three was missing. The police helped her through her difficult search.

The woman's husband died of influenza. One of the five children died of the same disease. Shortly afterward the family home was burned. Taking her four children, Mrs. Higgins started for her old home in Kentucky. She arrived in Indianapolis about midnight, and, unable to get a train until the next day, went to a rooming house.

In the morning she took a five-year-old child and left the room she had engaged to get something to eat for the family. When she attempted to return she was lost and did not know which way to turn. She appealed to the police, and an automobile was placed at her disposal and two policemen spent the greater part of a day canvassing the rooming houses of the city. Late in the afternoon a man called the police station. He said:

"This is — I operate the Hotel. A woman came here last night with seven children. She went out this morning, leaving three of them, to get something to eat, but has not returned. Now one of the three children is gone. What shall I do?"

Mrs. Higgins was taken to the hotel. She found her fourteen-year-old son and nine-month-old baby, but her seven-year-old daughter was the one who had wandered away looking for her mother. The police found the girl and assigned a man to stay with the family and keep its members together until all were on the train headed for Kentucky.

Paris Strike Off.

Paris, Feb. 26.—The strike of employes of slaughter houses here has been declared off, and the method of splitting measures being taken by the authorities to remedy conditions of which complaint was made.

THE GROCERY MARKET

The following comment on the market situation as regards foodstuffs appeared in Canadian Grocer last week: Coffee continues to form one of the strongest points in the market today, and were primary basis carried through to spot stocks a general advance of about four cents a pound would be made. The War Trade Board of the United States announces the removal of coffee from the export conservation list, effective Feb. 14.

It is understood actual export business on canned goods for January amounted to 218 cars, principally peas, tomatoes and four pound jam, with tomatoes forming a big total. It is further indicated that there is still business in sight for the present month. This heavy movement should tend to clean up stocks pretty well and steady the market.

There are numerous changes this week, and the same are pretty well divided as declines and advances. There has been a better feeling in the market, and business on an improved scale is looked for in the next few weeks.

Among the lines which are higher in price are beans and shorts. Bean advances to \$40.25 per ton for mixed car lots, while a price of \$48-\$46 per ton applies for straight car lots. Shorts, within the same price brackets, are mixed car lots, are higher for straight cars, at \$44.50 to \$41 per ton. Feed oats, 24, and various other mill feeds, are up in price, and for these there is a fair sale.

Marmalade in glass and tin is higher in price, and owing to a stimulated demand for export, there is a firming of the evaporated apple market. Other lines of dried fruits and raisins are also in a firmer position. Cassias and nutmegs are much higher in price, and various grades of coffee have advanced half a cent to one cent per pound. Roll-oats, notwithstanding the easier feeling which developed a week ago, are up again, and the market is much steadier. Wooden pallets and tubs are up, and one line of grapes—Almeria—is much higher.

The declines in this market are important in some respects. Flour is down fifteen cents a barrel for standard grade. This is due to a lower price for the June bags. Pot and parakey are rolling easier at lower quotations, while molasses, in definite accord with the tendencies forecast in Canadian Grocer last week, has declined. Corn flour is down considerably, and some of the cheaper grades of peas are shaded somewhat, although japans are very firm. One line of peas, reduced somewhat, is one quarter, and citrus fruits are down in price. Peanuts are inclined to lower levels.

Cereals carry perhaps more changes than any other class of goods this week. Collected oats are steady and show some slight advances. Cornmeal has dropped, however, and a fifty cent sag in un-sweet meal has been recorded. Barley flour, corn flour and oat flour are all lower, and prices on pearl hominy and hominy grits have been revised downward.

The flour situation is better, and the early resumption of milling activities is looked on with pleasure by the millers. The situation to derive the most direct benefit will be that of mill feeds, which should soon be available in quantities more nearly resembling the requirements of the trade. Bran has advanced 33 per cent this week, and some interests note a 32 advance in shorts, but this is not general.

Live hogs are very strong, but little change has been made in fresh or cured meats this week. Eggs are down again; butter has firmed up slightly.

Winnipeg.

The market in dried fruits continues very firm. An advance of from 2 1/2 to 4c, a pound on prunes has been made within the last week. This advance is the direct result of the shortage of fruit now prevailing. Some advances may soon be made on package teas. The customs report covering tea importations during seven months, from April to October, 1918, shows a decrease of over 20,000,000 pounds of tea imported into Canada compared with the previous year. With tea consumption increasing a shortage would not come as a surprise, and in view of the fact that higher prices can be obtained for tea in Europe, it is felt that present stocks of tea should be protected at least market prices.

With the approach of the Lenten season, more activity in the canned fish

HARDWARE MARKET

(Hardware and Metal, Feb. 22.)

A sharp decline has been recorded this week in the price of wire nails, prices sagging 55c per 100 pounds. It is indicated this is largely on account of competition creeping in, and whether the basis will be maintained is a question just at present. Some sources feel that prices may go still lower and then react, while others seem to think bottom has been reached, and that 25c may be tacked on prices almost immediately.

Lower prices have been named on smooth steel wire as base for kindred lines, the drop amounting to 50c per 100 pounds. Smooth steel wire, hay wire in coils, and oiled and annealed wire are affected. No change has been made in wire base teas.

Light metals show some variation this week in the various markets. Lead has sagged 1/2c per pound, and tin has come in for revision to lower levels also. Zinc is unchanged this week, but lead pipe and lead waste are down 1c per pound in eastern markets and 9c out west.

The only thing that the scrap metal dealers have done this week is to proceed with the assassination of the price list in several of the leading lines. They have succeeded in removing prices at very respectable distances from the points reached during the war period. They have also put up a schedule that will not encourage offerings to come into the market.

Formaldehyde registered a sharp decline this week at Winnipeg, quotations dropping 18c, a pound from high levels established two or three weeks ago. The storm of protest which high prices raised has been instrumental in bringing this about.

Fertilizer list has been issued on thomos bottles this week, but not very change in prices to the trade is not very great. Ice cream freezers register an advance of 10c per unit, and truck hangers are also higher.

Interest centered in convention being held by retail hardware merchants of this week, at Hamilton, and talks by manufacturers, wholesalers and retailers on business conditions were listened to with interest and profit.

THE PAYMENT OF TAXES.

To the Editor of The Times-Star:

Sir—In reading the report of a meeting of our city citizens in a recent issue of your paper I noticed a suggestion that all ratepayers who do not pay their taxes on time should have an extra tax levied on them.

This suggestion is all right coming from a person who is in easy circumstances, who has money enough but does not like to part with it, as it is suggested as a punishment for non-payment. But what about the man who is willing but unable to do so on time? If the law-makers of our city show so little consideration for our less fortunate, though honest fellow citizens, is it any wonder that we have many who cannot pay?

In business, a corporation which have the word of their patrons at heart, which find some of their books who cannot meet their obligations just when they are due, find the method of splitting the account up into smaller amounts, and spreading it over more time, more helpful and Christian-like, rather than to try to make the poor poorer.

Of what advantage is it to any one, except the bank that carries the city's accounts, to have all the money for the year paid in to a month? Why not split the tax bills up into quarters? In that way the poorer man would have a chance to pay his taxes, and so avoid himself of his discount, thus lessening his burden rather than adding to it.

We all know that taxes are more of a burden to the poorer classes, and there must be many who have to handle their money very carefully to get the necessities of life each week. What must the feelings of the man in such a position be toward his "Christian brother" who suggests adding a still greater burden to the load he is carrying rather than trying to make it lighter.

Thanking you, I remain,
Yours truly,
E. A. MASON.

**Consolidation Plan
FOR BOSTON AND MAINE**

Boston, Feb. 26.—Council for the Boston and Maine Railway yesterday presented a plan for consolidation which he said had been worked out by officials of the road. Stockholders of leased lines surrendering their holdings would be given preferred shares in Boston and Maine, with the stipulation that the interest rate should be the same in both cases. The unfunded debt of \$18,000,000 would be cared for by an issue of bonds to be taken up by the government through mortgage proceedings.

Operations of the lines under federal control would be upon the standard rates of the last three years. For a period of five years preferred stockholders would be given 80 per cent of their dividends and holders of the common stock would receive nothing. The next income above the preferred dividend would create a trust fund which would be divided equally between the two groups.

EXPENDITURE IN FRANCE

(A. H. in San Francisco Argonaut.)

The truth of history requires me to say that immeasurably as she has suffered in the war France has found in connection with it certain compensations. The armies of half-a-dozen nations are and have for several years been camped upon her soil, and wherever has any acquaintance with armies knows that they are prodigious spenders of money. The two or three million of Englishmen who have been in France, the better part of four years have literally poured a stream of gold into the strong boxes and stockings of France. Everything that could be produced from soil or workshop has found an eager market—food for men, forage for animals, general supplies for every kind of war. Millions of money have thus been expended in France, and much of it sailed down. Banks of savings were never so richly or universally stocked, and even the commercial banks have increased their capital. The hoardings of the peasant folk aggregate enormous totals—and well they may with eggs at a franc apiece and other commodities and accommodations in proportion. More recently the Americans have come with full purses and spendthrift habits. I was told that the monthly disbursements of the American army in France at the time of our visit—September and October—was at the rate of two hundred million dollars a month.

USE The Want Ad Way

WILSON IN HIS PRINCETON DAYS

Early Showed Qualities Which Have Shaped Career

A Student and Thinker

Author of Profound Articles on Politics While Still an Undergraduate - His Views of the President's Office

There is an old saying that "As the twig is bent, so is the tree inclined." Sometimes men who rise to great positions in the world give early indications of their ability. Sometimes they do not - they suddenly "discover" themselves through some great happening. Those who have taken the trouble to dig into Woodrow Wilson's early history have been able to find in his college career at Princeton many evidences of the abilities and character which distinguish him, but yet no outstanding feature setting him on a pedestal above other students. At Princeton, President Wilson was more of a writer and student than an orator. Indeed, he seems to have given no sign of the platform ability that has made him so notable a public figure today. In his freshman year he was known as Tommy Wilson, and was a member of a society known as the Tar-heels, and of another eating club called the Alligators. In his last year he helped to manage the football team, and at times helped in coaching the fifteen. But otherwise he has been a quiet, studious type. A Good Average. As a student Wilson appears to have done eminently satisfactory but not brilliant work. His general average for his four years of study was 90.3 per cent, and he graduated thirty-eighth out of a class of 106. According to Professor Theodore W. Hunt, who is the only member of the faculty still at Princeton under whom young Wilson studied, it appears that what the future president may have lacked in natural aptitude for his studies he made up for by his faithful, conscientious and laborious manner in which he continually strove to master them. As a student he was a great thinker and was deeply interested in outside matters of current interest, and was always engaged in seeking the fundamental principles. The latter policy of going to the bottom of everything is one of the president's most marked characteristics in his work of the present day. Wilson refused to study foreign languages to any extent while an undergraduate because he feared that in doing so he would unconsciously mar the purity of his English idiom, of which he was then making a close study. Wrote on Political Subjects. But whatever Wilson may have lacked in regard to achievements in oratory while at Princeton, he more than made up for in his writings on political and historical topics. An earnest student of the works of the famous English experts on political government and theory - such as Bagehot, Macaulay and others - soon developed strong views of his own on these topics. The three noteworthy writings which he produced as a student on the allied subjects of history and political government were all written in his senior year at college, and consist of one essay published in the Nassau Literary Magazine, one on the commencement exercises of the class of 1879, and the third, and most deserving of praise, an essay written for the International Review. The thesis on "Our Kinship With England," while particularly interesting at the present time, presents no new points of view worthy of note, though all through this article, as in the other two of his works as an undergraduate, can plainly be marked the constructive mind and policies which have so clearly stood forth in his after life, as first a professor at Princeton, then president of Old Nassau, next Governor of New Jersey, and finally as president of the United States. A Study of Cabinet Government. In taking up the subject of his final work which appeared in the spring of 1879, in the International Review, one is

SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD

If Little Stomach is Sour, Liver Torpid or Bowels Clogged

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a simple, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered. When cross, feverish, restless, see if tongue is coated, then give this delicious "Fruit Laxative." Children love it, and it can not cause injury. No difference what ails your little one - if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

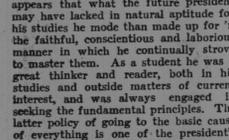

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, and use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will have dissolved and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much, dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft. Look and feel a hundred times better.

at once struck by the clarity of thought and depth of understanding which the college student of twenty-three years of age displayed in writing on the topic, "Cabinet Government of the United States." Although both the subject matter and his treatment of the same were decidedly Wilson's own, it is easy to trace in them the influence of his habitual readings of the London Quarterly. His essay on Cabinet Government in the United States, appearing in the August, 1879, issue of the International Review, begins with reference to the evils existing at that time in the American government and then proceeds to analyze the various causes that have brought these conditions about. Rejecting the often advocated theory that the fault of the American system lay in the universal extension of manly suffrage, Wilson claimed that the real cause "is to be found in the absorption of all power by a legislature which is practically irresponsible for its acts." He then launched forth with a violent attack upon the form of government by "irresponsible standing committees," maintaining that this method of directing the nation's affairs militated against open and above-board government, adding as follows: "Debate is the essential function of a popular representative body. It is to say that the government which seems most thorough in discussion of public interest - whose administration most nearly conforms to the opinion of the governed - is the freest and best. The present system of government by standing committees is a vicious violation of the above principle." A President No Leader. In continuing his arraignment of the present system of government he writes as follows: "Why, then, complain that we have no leaders? The president can seldom make himself recognized as a leader; he is merely the executor of the sovereign legislative will; his cabinet officers are little more than chief clerks, or superintendents, in the executive departments, who advise the president as to matters in most of which he has no power of action independently of the concurrence of the senate." Finally, he emphasizes the need of centralization in the government between the legislative and executive branches, that the president as chief executive should be the leader of his party in every sense of the word, that for truly democratic and representative government it is necessary that all factions engage in free and open debate on all questions of public policy, and closes by declaring that a responsible cabinet

WARNS PASTORS OF FRAUD

Rev. Stone of Chicago Says Name is Used in Fraud in Cleave Game

(New York Times.) The Rev. Dr. John Timothy Stone of Chicago, pastor of the Fourth Presbyterian Church of that city, former moderator of the General Assembly of the Church and one of the best known Presbyterian ministers in this country, has written to ministers in New York warning them that his name is being used and so far successfully, in a plan to defraud. The scheme through which it is known that at least nine New York Presbyterian ministers have each lost \$100 was described as follows: A man who claims to be a physician of the health department, will call upon a minister and inform him that a young man has just been taken ill on the street and an examination shows that he has consumption and will soon die. The sick young man has confided to the Health Department has notified Dr. Stone and has received word that the patient is to be well treated, and that he is sending \$1,000 to send the boy home. Dr. Stone, the voice on the telephone continues, has mentioned the particular minister on whom the scheme is being tried as the person whom he wants to look after his former secretary. Every Presbyterian minister knows

CUTICURA

Heals Pimples With One Cake Soap and One Box Ointment.

Face never free from them for two or three years. Were sore and often became large and hard. Left dark, red blotches that disfigured face. Nothing did much good till tried Cuticura. Helped from first application and now face is healed.

From signed statement of Miss Lorena Kennedy, R. R. 1, Williams-town, Ont., March 7, 1917. Use Cuticura Soap for toilet purposes, assisted by touches of Cuticura Ointment to soothe and heal any tendency to irritation of the skin and scalp. By using these fragrant, super-cleansing emollients for all toilet purposes you may prevent many skin and scalp troubles becoming serious.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Missing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients. What wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound to one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

MEDALS FROM CAPTURED GUNS.

The largest number of guns captured by our troops from the Germans are to be shown in all the towns of England. The most imposing array of them will be in London, in the great road leading from the Admiralty to Buckingham Palace. There, some 600 captured guns will be on view. Many of the guns we have captured in the past have been melted down and made into enduring monuments of our soldiers' heroism. The famous Guards Memorial group, in Waterloo Place, London, is made from Russian guns captured at Sebastopol. The top of the column of Nelson in Trafalgar Square is made of the bronze from French guns, as also is the memorial to the Duke of Wellington, the Achilles Statue, at Hyde Park Corner. Another Wellington Memorial in Phoenix Park, Dublin, is made of guns captured at Waterloo. The statue of Lord Gough in Dublin is made of old Chinese captured guns. Many of the lamp standards on London and Waterloo bridges are made from cannon captured by British troops at Waterloo and in Spain.

Bodies Found Outside The Car

Messrs. Johnston and Osten Had Struggled to Escape

Survivors Tell Story

Lieut. Col. J. L. McAvity and Chauffeur Give Detailed Account of Yesterday's Tragedy

The bodies of Robert L. Johnston and E. R. Osten, who were drowned in the Kennebecasis river yesterday when Colonel McAvity's automobile broke through the ice, were recovered last evening by Diver Howard. Both had escaped from the automobile, but apparently had been unable to reach the opening in the ice.

Soon after word reached the city a party, including John A. McAvity, Major P. D. McAvity, Major Ronald McAvity, Major Gordon M. Johnston, Walter Logan, Captain Redman and about 100 others, with J. McDermott with grappling apparatus, and Diver E. Howard, went to the scene of the tragedy, about a mile and a half from Millidgeville, and about 150 feet offshore and close to the bar.

In less than an hour Diver Howard found Mr. Johnston's body about 20 feet from the automobile, which was standing squarely on its four wheels with three of the four doors open. Mr. Osten's body was about eight feet from the car. The accident, he said, occurred about 160 feet from the shore, and the boat at that point descended rapidly to deep water. It was in the deeper water that Mr. Osten's body was located. Mr. Johnston was clapping his hands in one of his hands, and there was no indication that he had struggled very much, although there was a mark on his face evidently caused by striking against the car.

Both bodies were brought to the city and were placed in Powers' undertaking parlors.

Colonel McAvity Tells of Accident. Colonel McAvity when seen by the telegraph gave the following details of the tragedy: "The party consisted of L. Johnston, E. R. Osten, the chauffeur, Sergeant Harris, and myself. We were driving up the Kennebecasis river on Millidgeville about 12.15 o'clock when we had reached, I think, that part of the river opposite Sand Point. As it was in close proximity to the point before the turn which goes to the side, there is always a tide ripple, and at present there is an up-swell of ice. We were, so far as I can remember, just going through this when the car plunged. For the moment I thought it would not go entirely through the ice but had merely broken the shell, and the car lurched and dove forward and I knew we were sinking. Instantly I tried to open the door of the car on my side but with the force of water against it, it was impossible to work quickly and used all my strength to get the door open, but was unsuccessful. The car, which was filled with water, was by this time filled with water, and had to my surprise another desperate effort I was able to get it open. I am fairly stout and after I got it open—sideways, a heavily clothed and it was with difficulty that I made my way up by swimming. However, with a crash against my forehead I was brought to sudden stop and I realized I had come underneath the ice. Here was an ever predicament, but being a good swimmer and used to the water, I opened my eyes and, knowing that the sun was shining on the ice I looked for a bright spot, saw the light and made for it. It was the opening we had just gone through and when I got my head out of the water I saw Harris lying on the ice, was bleeding and apparently almost dead. I was by this time in a skinned and played-out condition, but

I managed to grasp the edge of the ice and hold my head out of water. Finally after several minutes Harris came to my assistance and although almost completely exhausted, between the two of us I managed to get one of my elbows to the edge of the ice. Then I got onto the ice.

Our thoughts naturally turned to Mr. Johnston and Mr. Osten but there was no sign of them, and we knew that the worst had happened. The only things that came to the surface were two hats and a broken cane. One of the hats was mine. Harris and myself remained about the ice for almost twenty minutes and realizing then more seriously than before that we could do nothing, we made our way back along the river, walking for about a mile. Our clothes were solid ice by this time and almost frozen to our bodies.

Colonel McAvity said that his wife and another lady had been down town in the morning and he had almost decided to take them for the drive. However, while they were doing some shopping, Messrs. Johnston and Osten came along King street, and knowing them as friends and in business with us, as both men wished to see him on business, the drive was proposed, so that business could be combined with pleasure.

Chauffeur's Story. Percy Harris, the chauffeur who was driving the car, when seen at his home, 188 Metcalf street, gave a graphic description of the death struggle in the closed sedan twelve or fifteen feet under water with a roof of ice above them. He said he felt not too bad, but exhibited numerous cuts about his hands and head which were inflicted during his struggle to get out of the car. He was suffering considerably from shock.

"I can hardly tell you what happened, it came so suddenly," he said. "I don't even know exactly how I got out of the car, and it's a mystery how the colonel escaped. To tell you the truth I had given up once, but at that instant I found I was part way out, so I renewed the struggle. I made an effort but the pressure was too great. I jumped up from behind the wheel and started to break the glass in the front door at my right. It was dark and I don't know how I made out. I had held my breath as long as possible during the struggle to get free and now I was about to give in. Suddenly I found I was free and renewed my efforts and made for the hole in the ice."

Here Harris exhibited his lacerated hands and head and a military boot which was cut, as evidence of his struggle. The last he could remember of the interior of the car was that Mr. Johnston had left his seat and was apparently getting into the rear to escape that way.

MONCTON WANTS ONE. Moncton, N. B., Feb. 25.—At a meeting of the board of trade tonight a resolution was adopted asking that a military discharge depot be established in Moncton for the convenience of soldiers who reside in Westmorland, Albert, Kent and adjacent counties.

Fifty Years To Pave The Streets

Road Engineer Says Progress is Too Slow—Wants at Least Two Miles of New Paving Each Year

Several recommendations of the committee of the whole were adopted at the regular weekly session of the common council yesterday afternoon. The mayor, all the commissioners and Common Clerk Wardroper were present. The recommendations follow:

Your committee beg to report that the following bills have been prepared and advertised and they recommend that they be approved and that they be forwarded to the Legislature at the coming session thereof with petitions under the common seal praying that they may become law, that is to say:

Bill—An act in amendment of the Act 8 George 5 Chapter 78 intitled "An act respecting the levying and assessing of rates and taxes in the city of Saint John."

Bill—An act to amend "An act to provide for the government of the city of Saint John by an elective commission."

Referred Back. A resolution providing for granite curbing in Union street, Douglas avenue and other streets was on motion of Commissioner Bullock, seconded by Commissioner Jones, referred back to the committee for further discussion, notwithstanding Commissioner Fisher's desire to have the curbing question disposed of immediately.

Two recommendations by Commissioner Bullock were accepted by the council as follows:

Your commissioner recommends that upon surrender of the lease of lots Nos. 888, 889 and 840 Rodney street, Guys ward, by Mrs. Emma Ross, a renewal lease issue to her of lots Nos. 888 and 889, and also to Dr. Frank H. Neve of lot No. 840 for the term of seven years each from the 1st day of May next, at \$12.00 per annum for each lot.

Your commissioner also recommends that a renewal lease issue to Harding Watters of lot fronting on Spur Cove the 1st day of May 1918, at \$18.75 per annum rental.

A petition was received from the residents of Lansdowne avenue for manholes and better sidewalks. The petition was referred to the commissioners of public works and safety.

The council received notification that W. K. Clawson had been appointed district commissioner. He is a returned soldier. His appointment was referred to the commissioner of finance who will report on Thursday regarding Clawson's salary.

Commissioner Thornton reported on the number and condition of the fire arms in possession of the city. These fire arms were purchased some years ago for range practice. He said there were twenty-five rifles, six target pistols and other accessories. The rifles were in fair condition but needed cleaning. On motion of Commissioner Thornton, seconded by Commissioner Bullock, the former was authorized to dispose of the arms.

Commissioner Jones remarked that he found the annual reports of the chief of police, which covered thirty pages, and other reports rather lengthy. He suggested condensation to save paper.

The annual report of Road Engineer C. N. Hatfield was received. Mr. Hatfield reported new work done on the streets to the amount of \$84,050 and a total expenditure of \$28,062 for repairs. Scavenger work in the city proper including snow removal, sanding, sidewalk, watering streets, labor, teaming, etc., cost \$28,455. In the North End, \$17,922 was expended and on the West Side \$4,971, a total of \$51,248. Bridges and culverts cost \$1,223. The asphalt plant was operated ninety days and cost \$17,268. The average cost per cubic yard at the plant was \$10.817-10.

The total cost of public grounds was \$2,868. The total mileage of pavements is 7,9005, an increase of 7388.

"It's dood for me"

Institute Was Great Success

The Missionary Institute which opened on Monday with a two-day programme and has held its meetings in Centenary hall, concluded its sessions yesterday. Throughout there has been a marked eagerness on the part of the citizens to avail themselves of the opportunities which the institute has afforded for missionary instruction. The interdenominational character of the institute and the special gifts of the leaders have contributed to promote interest and enthusiasm in the movement and it will undoubtedly result in a very decided quickening of missionary interests in St. John.

At yesterday afternoon's session the chair was taken by Rev. Neil McLaughlin and two impressive addresses were given. Rev. R. T. McKim was the first speaker and his subject was the Place of Stewardship in the Work of Missions. Rev. Mr. McKim dealt with his subject under three heads. He spoke of the steward's duty of faithfulness in support of constant prayer and of practical assistance in missionary work.

Rev. H. C. Priest, in telling how best to promote the missionary life of the congregation, said it was not the intention of the institute to form new organizations but to make those already in existence more effective as missionary agents. He showed how the pulpit, the home life, literature and everyday conversations could and should each play their part. In closing, Mr. Priest referred to the wealth of literature which has been issued by the sixty-seven co-

operating mission boards and mentioned specially helpful books by name. After the two addresses the gathering divided into three groups for discussion. Rev. H. E. Stillwell conducted the first group which continued the discussion of "The call of a world task in War Times." The second group dealt with the discussion of mission work in Korea and was led by Rev. A. F. Robb. The third group was conducted by Rev. H. C. Priest in the discussion of the Canadian mission text book, His Dominion.

Following the group discussion tea was served in the school room of the Central Baptist church to the members of the institute who wished to avail themselves of this convenience. The refreshments were served by the Methodist ladies and provided by the Baptist ladies of the city.

In the Evening. Rev. H. C. Fraser was the chairman of the evening session which commenced with devotional exercises. The two addresses were delivered by Rev. A. F. Robb and Rev. H. C. Priest. Rev. Mr. Robb, who is on furlough from mission work in Korea, spoke of that land, the marvellous progress modern missions have made in it, and the tempting opportunities for further work. Rev. H. C. Priest, the secretary of the missionary education movement, spoke from the subject of "The War and the Larger Call to World Evangelization." He spoke of the receptiveness of the non-Christian nations at this time.

Capt. Kenny in Command. Captain Loran Kenny, of Shag Harbor (N. S.), has been appointed to succeed Captain N. A. Withers as commander of the government steamer Aberdeen, which is now at West St. John. The new master has taken charge already.

TRIBUTES TO LATE LEADER WHEN HOUSE RESUMES AT OTTAWA

Ottawa, Feb. 25.—The vacant chair of the departed leader on which rested a great laurel wreath, the desk before it crowned with a garden of violets, the feeling and eloquent panegyrics of the leaders in the commons, the fervent and impassioned eulogy of Hon. Rodolphe Lemieux, the poignant reminder of a somewhat listless opener of the debate on the address in reply to the speech from the throne of the vanished hand and the stilled voice, the spoken word of the new man at the helm and the contrast with the old expectancy when Sir Wilfrid rose to strike the keynote at the opening of the session; all these things gave to today's forenoon opening of the session an unaccustomed minor key. They emphasized, too, the great gap left by the passing of the old orator.

The tribute of Sir Thomas White was a noble one, apt in its summing up of Sir Wilfrid's totality of excellencies, generous in its appreciation of his high ideals and unswerving life, and eloquent in its concluding references to this great gentleman, said D. D. MacKenzie, standing in his place beside the vacant desk and speaking simply and with manifest feeling.

"His place can never be filled today," he went on to say. "The seat is empty, the home is empty, and empty are the people's hearts—the people he loved."

Hon. Rodolphe Lemieux, speaking in Sir Wilfrid's mother tongue, voiced the tribute of the French Canadian members to their great compatriot. He concluded with a peroration rising to a high level of oratory.

CHINA SENDS GERMANS TO AUSTRALIA; NOT WANTED THERE

Paris, Feb. 26.—(By the Associated Press)—The German armistice delegates at Spa have protested against the deportation of Germans from China, which country expelled two ship loads of Germans and sent them to Australia in January, and is preparing to send others to the Central Powers direct.

The total number of Germans and Austrians in China when she declared war was not more than 3,000, many of whom were interned after a long delay. The Germans sent to Australia are unwelcome there outside the internment camps, and probably will be deported to Germany before the peace is signed.

Here Is A Most Excellent Marmalade

SLICE two grapefruit and six sweet oranges into small shreds. To each cup of the cut fruit add three cups of cold water. Allow it to stand for 24 hours in a bowl or crock. Turn into a kettle and bring gently to a boil. Set aside for another 24 hours; then measure six cups of pulp into a preserving kettle and simmer gently for an hour. Add six cups of LANTIC "fine" granulated sugar heated in the oven and remove from the fire as soon as the Marmalade jellies. Repeat the cooking till all the pulp has been used.

LANTIC "Fine" granulated is the ideal sugar for Marmalade, as the fine granulation dissolves at once, avoiding long cooking. Too much cooking after the sugar is added, darkens Marmalade and makes it stringy.

Have you a copy of our "Lantic Library" containing three useful booklets on Preserves, Desserts, Cakes and Candies? We will send it to you without charge on receipt of a 2c. stamp to pay postage.

STORKER STORKERSEN WHIRLED AROUND IN THE POLAR EDDIES

Stefan's Plan to Drift Over the Pole Did Not Work—Valuable Deep Sea Findings Anyway.

Ottawa, Feb. 25—The department of the naval service has received today from Fort Yukon, Alaska, a despatch from Storker Storkersen, announcing the safe arrival of his ice exploration party on Nov. 7 last on the north coast of Alaska.

The work carried out by Storkersen was planned by Mr. Stefansson, who intended to command the party personally, but was prevented from doing so by illness which overtook him about three weeks before the expected start.

Storkersen's party when they left the north coast of Alaska at Cross Island, consisted of nine whites and four Eskimos with eight sledges. They started March 15, 1918. After about two weeks of travel northward across the ice Storkersen sent back three of the sledges and four of the men. Two hundred miles from Alaska he sent back three more sledges and all but four of his companions. Their plan then was to camp on the ice and drift with it. They carried practically no provisions, expecting to live on seals and Polar bears. It has been the general belief of geographers and Polar authorities that there was a current running westward and that by using it Storkersen's party would be carried west parallel to the coast of Siberia.

Had the drift been not westward Storkersen would undoubtedly have remained on the ice all winter, but it appears from his despatch today that the ice cake on which they were camped was carried around in what may be considered a large eddy. They commenced their drift at about 73 north latitude and 146 west longitude. The most northerly point reached by them, Storkersen reports to have been 74 north latitude and 152 west longitude, while the most easterly point reached was 144 1/2 west longitude. In addition to valuable deep sea soundings which were taken, although no report of them has been received, this exploration has shown the inaccuracy of the theory previously held as to currents in this part of the Polar Sea and has given additional demonstration of the safety and suitability for Polar exploration of them. Subsisting on the country, Storkersen reports that after seven months without other provisions than those secured by his rifle, his party landed all safe.

The other four members of the party were Gustav Mask, Lorne Knight, Martin Killan and G. Gumar.

OUTLOOK BETTER IN MATTER OF MINERS' STRIKE IN MOTHERLAND

London, Feb. 26—The prospects for the postponing or averting the miners' strike are much improved. The House of Commons yesterday passed the third reading of a bill for a commission of inquiry.

Premier Lloyd George gave a provisional undertaking that, provided the miners' representatives would consent to enter the commission, thus insuring the presence of the mine-owners, the work would be greatly facilitated. Sir John Hankey, who will be president of the commission, said that a report could be issued by March 2 so far as the question of wages and hours was concerned. This concession on the part of the government, it is believed, will be accepted by the miners as justifying their waiting for a report by the commission before beginning their strike, especially as it is understood that the railwaymen's union is in favor of the postponement of the strike.

The triple alliance conference yesterday agreed that no one section of the alliance would take any action to reach any settlement without consultation and agreement with the others, thus establishing a powerful combination of forces in the labor world, as this alliance embraces the miners, railway men and the transport workers.

THE NEW TERMS Paris, Feb. 25—Marshal Foch in discussing the diplomatic situation with a representative of the Havas Agency, said that the new armistice convention will provide for the naval and military disarmament of Germany. He added that there was no doubt that the supreme council would also add to the new agreement clauses concerning financial and territorial questions. In that way, the armistice convention the marshal said, would comprise also the basis for a preliminary peace treaty.

ARMY GIVES HELP ON WAY TO LYONS

Canada's Exhibits for Fair Hampered by Railroad Congestion—Canadians Are Busy

Paris, Feb. 26—Lloyd Harris, the head of the Canadian Trade Mission, has been in Paris partly on business in connection with the Lyons Fair. Canada has been in some danger of losing the chance of exhibiting her wares at the fair through transportation delays. Congestion on French railways is so serious that it was feared that there was little chance of getting the exhibits from Lyons to Paris in time. In the emergency the Canadian army organization was called upon, and the staff proceeded to Lyons, where they expedited the transshipping, and are now accompanying the cars containing the exhibits to Lyons, where they will assist in putting them in place under the direction of Mr. Bruce of the Canadian Pacific Railway, who has undertaken the work of installing the exhibits.

ALMOST BLIND FROM HEADACHES

It is hard to struggle along with a head that aches and pains all the time. Headache seems habitual with many people; indeed, some are seldom, if ever, free from it, suffering continually, and wondering why they can get no relief. In nine cases out of ten, persistent headaches are due to poisoned blood, the blood being rendered impure through some derangement of the stomach, liver or bowels.

The reason Burdock Blood Bitters makes permanent cures of all cases of headache, is because it starts the organs of elimination acting freely, and the poisons and impurities carried off from the system, purified blood circulates in the brain cells, and instead of pains and aches there is revived mentality and bodily vigor.

Mrs. Geo. Monck, Arden, Ont., writes: "I have been troubled a great deal with sick headaches, and at times would almost go blind, and have to go to bed. I tried different kinds of medicine without any benefit until I was advised to use Burdock Blood Bitters. After taking it, I have not been troubled since."

MODIFICATION OF FOOD CONTROL IN BRITAIN

London, Feb. 26—George H. Roberts, food controller, announced yesterday that government control of prices in Great Britain, also of the distribution of imported bacon, hams and lard will be suspended from March 31. This decision does not affect bacon, hams and lard produced in the United Kingdom, concerning which a further announcement will be made later.

The food controller reserves the right to re-impose control if selling prices to the consumer rise above the present level.

Sat Up in Bed To Get Her Breath

Palpitation of the heart, shortage of breath, inability to lie on the left side, feelings as if smothering, oppressed feeling in the chest, dizzy and faint spells, tired, weak, worn out feeling, involuntary twitching of the muscles, sleeplessness, restlessness, etc., all point to the fact that either the heart or nerves, or both, are not what they should be. Any of these conditions should be remedied immediately so as to avoid a complete breakdown of the whole system.

Milburn's Heart and Nerve Pills will bring energy to the weakened constitution, strengthen and regulate the heart, and tone up the tired, overstrained nerves. Mrs. William Steeves, Chemical Road, N. B., writes: "I have been a great sufferer from nerve troubles and palpitation of the heart, which was so bad I had to sit straight up in bed to get my breath. I could not lie on my left side at all. I tried doctor after doctor, also several different remedies, but got no help from them. My mother insisted on me trying Milburn's Heart and Nerve Pills. By the time I had used one box, I was feeling very much better. I am in perfect health and can enjoy a good sound sleep, and can lie on my left side without any trouble. Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont."

THE BEST THIS CITY EVER SAW

Wonderful Contortionist in the New Opera House Programme Full of Good Things

There is a chap at the Opera House in the vaudeville programme for tonight and tomorrow that is a phenomenon in the fact that he has no backbone, or if he has one it is not in evidence. He is called Tuck, of the team of Nip and Tuck, and he could almost tuck himself into the keyhole of a Yale lock and as you know, that would require some bending. He is the best contortionist this town ever saw and you will say so yourself when you see him. Some act this, and you should not miss it.

There is a little lady on the programme also, named Alma Gray, an English girl, who can sing songs well and make you like them. After she is through singing she starts in to dance. We have had some steppers here in asked if we were expecting a parcel from vaudeville programmes but nothing quite like her class for a dainty clog dancer. She received several recalls last night and she deserved them all. Her partner on the piano is some artist also. Ronair and Ward are a smart couple, with a line of clever witticisms that just pull the laughs out of one in quick succession. Bright and breezy from start to finish, a real likeable act the way through and brand new in theme.

Then there are the dog Taxi, and Allen, his partner, in a little touch from high life. A clever little sketch and Taxi proved to be a real actor, not just a trained dog, but a dog with brains. He brought down the house last night and took the applause like a regular actor.

John P. Reed, a funny man in black-face minstrel style, sang a lot of good parodies, told some good stories, danced and made a good sized hit.

It is clean, clever show all the way through and just packed full of enjoyment and a good time.

KAISER THINKS, OR HOPES, GERMANS WILL REPENT OF OVERTHROW OF MONARCHY

London, Feb. 26—"Germany will soon repent of having overthrown the monarchy," is a statement attributed to the former German Emperor by the Mail's Copenhagen correspondent, reporting a recent conversation the Kaiser had with the German foreign minister, Count Brockdorff-Rantau.

"All that is happening in Germany goes to my heart," continued the erstwhile monarch. "I did not will it. There are still good patriots in Germany who will not allow her to become bankrupt."

SUPREME COURT JUDGMENTS.

Chief Justice McKeown, in the supreme court chambers yesterday, delivered the following judgments: In the case of Blanche Woodworth against Thomas Edgett et al, action to recover damages for assault committed by the defendants in their endeavor to secure the possession of their daughter, sixteen years of age, a verdict was entered for the plaintiff for the sum of \$50. The counter claim was dismissed with costs. In the case of the Bathurst Lumber Company against Harris, an action to recover the sum of \$2,000, to which action the defendant counter-claimed for damages to his interval land, a verdict was entered for the defendant for the sum of \$1,257. In the case of Bosse against Philibert, a verdict was entered for the defendant, but ordered that the verdict be entered without costs of suit.

Under the heading "The Joke That Failed," the Gazette of Mildmay, Ont., says: "Some person with more money than wit nearly managed to get the editor into trouble last week. On Wednesday, after the arrival of the noon train, the agent called up the Gazette and the depot and confiscated the shipment and carried it off to Walkerton. Meanwhile, we suppose the party who hoped to get the booze is feeling very much disappointed. Perhaps he intended it as an act of kindness to the editor, but we would prefer him to show his generosity in other ways."

Delicate Children Vinol is What They Need

More than eight thousand druggists recommend Vinol because it contains in deliciously palatable form the oldest and most famous reconstructive tonics known to medicine. During the last sixteen years it has brought health and happiness to thousands of puny, ailing, anaemic children.

HERE IS PROOF Middletown, Conn. "I used Vinol for my little girl five years old for a run-down, nervous condition. She was thin, irritable all the time and had no appetite. In a week I noticed an improvement and now she has a good appetite, has gained in flesh and strength and is much pleasanter."—Mrs. C. B. Wilkinson. For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol. Manville, R.I. "The whooping cough,—and later the measles left my little boy of eight years with no appetite, thin, frail, delicate and tired all the time. After everything else had failed Vinol gave him a hearty appetite, restored his strength and he is now as well as ever."—Mrs. James H. Hall.

POLISH AND MOROCCAN QUESTIONS TAKEN UP

Britain and United States for the Open Door—Belgian Claims

Paris, Feb. 26.—(By the Associated Press)—The council of the great powers yesterday continued the discussion of Poland, and authorized Marshal Foch to send a series of inquiries to the inter-Allied commission now in Warsaw. Until a reply is received, the question of getting the Polish divisions into Poland by way of Danzig will be deferred.

The council also began a hearing on Morocco, in which France seeks to terminate the present unsatisfactory international supervision.

Arthur J. Balfour for Great Britain and Henry White for the United States spoke in favor of the observance of the "open door" in any readjustment, so that all countries would enjoy equal trade facilities.

The British prime minister, David Lloyd George, will return to Paris on Saturday and remain for three days. Russia will be among the subjects considered during his stay.

The commission to study Belgian claims held its first meeting yesterday and elected Captain Tardieu president.

The commission made a general examination of the scope of its work and ordered the chairman to request the supreme council for additional instructions regarding the purpose and extent of this work.

Canadian Downed The Last Zeppelin

Montrealer Attacked Single-Handed When 19,000 Feet Up

Montreal, Feb. 26.—Now that the many and varied "hush" incidents of the war are coming to light, it will be interesting to learn when he pulled up the nose of the plane and emptied his machine gun into the bottom of the airship, it being some 200 feet above the plane. The plane itself was 19,000 feet in the air.

In about half a minute or so spurts of flame appeared in several parts of the Zeppelin.

The ships had been watching the performance and immediately the admiral saw the flames he sent this signal to all the ships round about:

"Turn to hymn 224, last verse," which is as follows:

"A Happy Band of Pilgrims, Look upward to the skies, Where such a light affliction, Shall win so great a prize."

Later Lieut. Culley was called on by the admiral to stand on the deck of a destroyer while the feet went by with the crews lining the gunwales cheering him.

MORNING NEWS OVER THE WIRES

At a meeting of the Moncton city council last night it was decided to issue bonds for a building for the Children's Aid Society.

When the diet met in Warsaw yesterday M. Trompeynski, the marshal, read a telegram from Stephen Pichon, the French foreign minister, officially recognizing Poland as an independent state. The members arose and loudly cheered.

SIX DIFFERENT TYPES OF "FLU"

Eminent London Physician Suggests World's Medical Congress—Many Prescribed Whiskey

London, Feb. 26.—An eminent London physician expressed the opinion to the Mail and Empire today that after the conclusion of peace there should be a world's medical congress to consider the baffling influenza situation. He declared that six different types of influenza have been recognized during the last two epidemics in Great Britain. The reason why so many British physicians advised the use of whiskey, he said, was because the whole trend of treatment here was to try to stimulate the patient to throw off the disease, and this also is being widely tried in France.

It is thought that during the great epidemic in Germany last year, and especially among German physicians, such treatment was used. It is now definitely known that at times during the early summer the greatest anxiety was felt by the German high command because of the heavy inroads influenza made in the strength of many of the best divisions. It would be, too, of great advantage to the medical world to know the results obtained by the German medical staff, but at present such information is unobtainable. If a world's medical congress is called next summer it is certain that eminent German medical men will be asked to attend.

FOR HUSBANDS ONLY

FEATURING MILDRED HARRIS

A Perfectly Innocent Photoplay Though Teaching a Great Lesson

THIS PICTURE HAS FOR SOME REASON OR ANOTHER STIRRED UP A LOT OF CONTROVERSY. Like many other pictures viewed by the N. B. Board of Censors it was finally condemned. The film owners sharply disagreed with the Censors in this special instance regardless of any concurrence of opinion on other cancellations, so an appeal from the judgement of the Board was made to the Supreme Court of New Brunswick through Government channels. The Supreme Court (Judge Crocker) set aside the decision of the Censors and allows the exhibition of the picture. If it were indecent or vulgar the Imperial would not show it, for after all it is the exhibitor who suffers from bad pictures.

The Most Exacting Lady Will Like It

WHAT THE TITLE REALLY MEANS: The title of this Lois Weber production is rather startling but is also misleading. The picture is not to be seen by "husbands only" but by anybody or everybody, for it is a lovely presentation. The strange name given it refers to a private pantomime held by one of the characters in the play for his married male friends only so that he might get a delicious "revenge" upon a clever little wife who humiliated him.

ESTIMATE IN FOR THE ST. JOHN CONNECTION WITH THROUGH LINE

Hon. Mr. Carvell Says it is of More Importance Than Breakwater Work

LETTER TO HON. W. E. FOSTER

Agrees Breakwater Extension Necessary and is in Favor of it for Next Year—Keeping in Mind One Object, Providing for Unemployment Where it is Most Likely to Occur

In reply to a personal letter from Hon. W. E. Foster, in which the provincial premier set forth strongly the need for the extension of the Negro Head breakwater to Partridge Island, Hon. F. B. Carvell, dominion minister of public works, has written to Hon. Mr. Foster as follows:

"In reply to yours of recent date, re the construction of the breakwater in St. John, I feel it my duty to write you very frankly about the matter, and I only wish I were in a position to comply with the request of the citizens and start the work during the coming year. "When the estimates are brought down, the people of St. John will see that they are being as well treated as any other portion of Canada, but I could not, in view of the arrangement made with my colleagues, ask for this particular expenditure during the coming year. "No person, however, realizes its importance more than I do. In fact, I do consider it until the breakwater is constructed and, if I were minister of public works another year, I should certainly ask that an appropriation be made for this work.

"In the preparation of estimates for public works during the coming year in all departments, we have tried to keep in view the one and only object of providing for unemployment where unemployment is most likely to occur, and have totally disregarded the desires and even requirements of individual communities. If I could just get the people of Canada to appreciate this for one moment, everything would be perfectly clear for the remainder of the year.

"I quite realize local feelings and prejudices, and am not at all surprised that these strong representations are being made not only from St. John but from practically every city, town and hamlet in Canada, and I want to assure you it is a most unpleasant task to be compelled to refuse these applications. I am satisfied, however, that in time the public will realize the true situation. "I have, as you know, insisted upon a reasonable estimate for the improvement of the railway from McEgway to Fredericton, which, in my view, is of more importance to the city of St. John than the construction of the breakwater. "I hope I have made this matter clear, but, from some of the letters I am receiving, it seems as though greater publicity will be necessary before everybody really understands the situation. I have decided to address the House of Commons during the present week, when I intend setting forth in the most public manner possible the true situation, especially from the financial standpoint. It may not be pleasant, but I think it is necessary."

Premier Announces Resignation of Speaker

Hon. Mr. Currie Submits it—Asks That Legislature Defer Consideration of Friel Report Until he Can be in House

In reply to an inquiry regarding the plans for the opening of the legislature next week, Premier Foster announced this morning that he had received from Hon. William Currie the latter's resignation from the office of speaker of the house. Hon. Mr. Currie has written to the premier informing him that he still is confined to the Moncton hospital, where he is undergoing treatment. He is improving but will not be able to be present at the opening of the house; he hopes to reach Fredericton by the middle of the session and asks that consideration of the Friel report be deferred until he is present.

Hon. Mr. Currie's resignation will necessitate the election of a new speaker before the house begins business. The procedure followed under the circumstances involves a formal notice from the lieutenant-governor to the clerk of the house. When the legislature convenes the clerk will announce the vacancy and call upon the members to elect a speaker. When the election has taken place and the new speaker is in the chair, notice will be sent to the lieutenant-governor and he will appear before the house to deliver the speech from the throne. Since the house last met the veteran clerk, Henry B. Rainsford, who occupied that office for thirty-three years, passed away. His place has been filled by the appointment of George Y. Dibble, assistant clerk, who last year was acting clerk. John M. Keefe of Grand Falls, who served as acting clerk assistant last year, has been appointed clerk assistant.

Y. M. C. A. AUXILIARY
The women's auxiliary of the Y. M. C. A. held its monthly meeting yesterday afternoon, Mrs. H. Colby Smith in the chair. Plans for a Mother's Day gathering were decided upon. At this function the mothers of the boys belonging to the Y. M. C. A. will be entertained, as a companion affair to the Father and Son banquet. Mrs. Eustace Barnes was appointed convener of this committee. Tea was served with the president as hostess and Mrs. Stevenson, a much valued worker, was made the recipient of a potted plant in bloom.
