POOR WAY TO ECONOMIZE.

Mistakes Often Made by Women Who Try to Save Money

"It is most difficult to economize, and the most difficult part of it is to know in what direction to practice economy," said the wise woman.

"The woman who practices this sort of economy will find that the deprivation impoverishes herself and her children mentally and physically."

Value of Old Newspapers.

"Dear me," sighed the perplexed housewife, "I don't know what to do with the stacks and stacks of old newspapers which accumulate at our house."

"Well, don't throw them away," counseled her friend, "for they are of more value than you would think at first glance."

"In the first place," she continued, "old newspapers dipped in cold water will clean windows almost as well as hot water, soap and cloths, and will not injure the hands one-half as much."

"After the cooking is over I make our girl crush some old newspapers in her hands and rub the top and sides of the range. This removes the grease quickly and keeps the range in excellent condition if done often."

"Every morning we rub our hair brushes with a piece of newspaper. This removes the dust and keeps the brushes clean and healthy. Also, it conduces to their long life and utility."

"Tearing old newspapers into shreds of a given length is an employment which I find amuses my children greatly, and keeps them out of mischief."

"As a substitute for paper felt under carpets the old newspapers come in handy, and on many occasions I have a covering of them on the floors as one wishes, by simply saving up for a few weeks."

"These are only a few of the uses to which I put our old newspapers. It would require a big book to tell of all the things I do with them, and of the many dollars I manage to save every year by simply pressing them into service wherever available."

Teach a Child to Think. Froebel's "Mother Play" book is full of the richest suggestions as to how the every day life of the nursery can be made to yield up its treasures of oil and wine, goodness and truth, for both baby and mother.

These are only a few of the uses to which I put our old newspapers. It would require a big book to tell of all the things I do with them, and of the many dollars I manage to save every year by simply pressing them into service wherever available."

She must learn that to try to work against these laws written in the whole being of the child is but "kicking against the bricks." She will learn that just as there is seed time and harvest, and the work of the one period cannot be done except in that period, so the child cannot be made to take on certain states of mind and heart. To take up certain studies when he has not yet reached the time in which such mental or heart nourishment is demanded is but to block the wheels to a true, logical, orderly development of all the faculties. She will learn that a child's interests cannot be ignored and other interests foreign to his present stage of growth substituted for his own.

She will study books like Lancelotti's "Growth of the Brain," or Warner's "The Study of the Child," to find a true physical basis for education, and then strive to gain a clearer, larger view of all these psychological questions which bear on mental development. To this will be added a true knowledge of those principles which make for a better understanding of the child as a spiritual being. It is not hard to do all this if you will look at life from the child's standpoint, giving him your own vivid, instructive sympathy. Woman's Home Companion.

Fairweather NEW HATS

Spring Styles for Ladies and Men

Every day sees new and fashionable lines tumbling into our receiving rooms. The fashion centres of the world have combined to give us the best stock in the world and you the most for your money.

EDUCATIONAL COMMITTEE

Short Report on School Board Matters—New Schemes to Get Money from the Children.

Educational committee report The regular meeting of the Educational Committee was held on Tuesday, March 25th.

Your committee, after noting what appeared in the press in reference to the School Board withholding payment of their water rates, a legitimate municipal debt; in relation to the action of the City Council in refusing at first to grant the salary increase to the teachers, is of the opinion that such conduct on behalf of the Public School Board is of such a nature as to arouse the criticism of this committee, as such conduct resembles the attitude that arises between those who belong to the kindergarten class, and our Public School Trustees are endeavoring to frame rules to govern the infant in his or her advancement in social and moral education.

We have recently been informed from a reliable source that there is another scheme advanced in the schools by teachers issuing collection cards to their pupils for the purpose of raising funds to donate to a scheme invented by whom we know not at present. At any rate, we believe that such financial gifts of this nature has a tendency to place parents and children in a compromising position when all children are not in a position to contribute financially to these would-be voluntary donations.

In connection with the above it may be said that some of your committee made mention of this to some of the Public School Trustees. In return they informed your committee that they, the trustees, did not approve of such actions on the part of the teachers.

Respectfully submitted, Jos. Papmore, Chairman; W. R. Ward, Secretary.

LEGISLATIVE COMMITTEE Immigration Matters—The Conciliation Act—A Public Meeting—Prison-Made Goods.

Your committee beg to report that the amount spent last year for the assistance of immigrants coming to this country was \$444,729.23. The Government has placed in the estimates this season \$400,000 for this same policy. The excuse made by the Government in reply to the protest which was made by the delegation to Ottawa was that assistance would be given only to those who would settle on the vacant land. In reply we would state that it makes not the slightest difference where the immigrant settles, the assistance has the effect of intensifying the competition of the poorest part of the community, while the Government, by its subsidies, its tariff adjustments, is all the time taxing workmen to enrich the rich. Against this iniquity every lover of fair play and justice must cease not to protest till this iniquity is wiped out.

THE CONCILIATION ACT. Under the present Act, when there is any industrial dispute, if one party requests him so to do, the Minister of Labor may open negotiations for conciliation. If both parties join in the request an arbitrator can be appointed who shall give an award. Mr. Puttee, the member of Winnipeg, has introduced an amendment whereby the existence of a dispute will be sufficient reason for the appointment of a conciliator, and on the application of either party an arbitrator is appointed. One of the clauses in this bill provides that in no case shall it be stipulated that any employee shall be compelled to relinquish his membership in any union or labor association.

PUBLIC MEETING. As authorized by the Council, your committee applied to His Worship the Mayor for the use of one of the public halls for a public meeting to call attention to the report of the Assessment Commission. In reply the Mayor will call a meeting to be held in St. Andrew's Hall, on Thursday, the 3rd of April. That this meeting may be a grand success it is important that every union or assembly in the city do its best to co-operate in this movement.

Your committee would suggest that the following resolution be submitted at that meeting: Whereas, the present method of assessment increases the taxation on every improvement that labor can place on the land, thus discriminating against labor and in favor of speculation; And whereas, wherever a city forms there comes to the land a value which is now appropriated by the owner of the land, though he does nothing more than any other citizen to the production of that value; thus he can grow richer year by year, not by producing riches, but by impoverishing his industry;

And whereas, this enables the owners of the valuable lands to subject industry to a continuous burden and tribute merely for the occupation of the land; And whereas, this method of allowing the value produced by the community to go to private individuals, enables the land owner to escape all burden of taxation, and thus industry must be subject to a double burden, one to support government, the other to support the land owner;

And whereas, the attention of the Assessment Commission was called to this injustice and the commission made no suggestion for the rectification of this wrong;

Therefore, this meeting condemns this disregard to the claims of justice and urges that labor and other reform organizations to use every endeavor to keep this matter before the attention of the Legislature till the

present iniquitous method be ended. PRISON-MADE GOODS. Mr. Carcallen, member of Parliament for the city of Hamilton, introduced the second reading of his bill providing that goods made in prison should be so labelled. In reply the Hon. Mr. Stratton said that two-thirds of the brooms in the prison must be sold outside Ontario. But the papers did not make any statement as to the use of the label. Your committee therefore recommend that a communication be forwarded to the Hon. Mr. Stratton inquiring as to this matter.

Strathcona Chambers, corner Queen and Victoria streets, was the scene of a festive gathering Wednesday evening, the occasion being the 5th Annual at Home of Prof. F. R. McLaughlin of the Central Dancing Academy. About 125 couples were present. A large hall was elaborately decorated with flags and bunting, while there could be seen on pedestal large bunches of Easter lilies, ferns, which tended to make the scene one of unusual brilliancy. Songs were sung during the evening by Miss De La Hooke and Miss Eva Weeger, only ten years of age, gave an exhibition of dancing which was greatly appreciated.

Among those present were: Miss Smith, Misses Paul Emery, Robinson, Ryan, Weger, Crawford, Galloway, Wells, Lewis, Sage, Robinson, Collins, Sheppard, Gates, Collins, Cox, Lynde, Thompson, Gerty, Grange, Hubbard, Vance, Robsey, Watson, Braker, Chalmers, Messrs. Paul, Marshall, Bell, Mackenzie, Cunningham, Crowley, Keates, Joyce, Arthur, Ellis, Miller, Miller, McGrah, Robertson, Namara, Thompson, Hudson, Payne, Elliott, Keene, Wilson, Payne, Wilson, Thompson, Bickell, Wyke, Shackleton, Robinson, Hoole, Cosmali, R. Tarlton, Banks, Babe.
