THE FIRE DEPARTMENT.

One or two of the aldermen are displaying a tendency to interfere with that direct control of the fire department now vested in Chief Kerr.

If the board of safety, and, later, the council, decide that Chief Kerr's order shall be cancelled, the resignation of the chief can be the only sensible result.

By resolution of the council, absolute control of the actual working of the fire department was placed in Chief Kerr's hands; in the interests of discipline, and if that efficiency now characterizing the department is to be retained, the council must endorse the acts of its official.

Yet it should not be inferred that, because Chief Kerr has been given this authority, he may exercise it in an unfair manner or according to his own personal feelings.

BOY FOUND ASLEEP

AT MATTAWAMKEAG. Johnny Green Was on His Way to Visit Former Employer at Hoyt.

A boy about thirteen or fourteen years of age was discovered asleep in the Maine Central depot at Mattawamkeag by the night agent about 2 o'clock Sunday morning.

On being awakened and questioned he said his name was Johnny Green, that he belonged to St. John and was on his way home. The agent, moved to pity by the lad's dejected appearance, gave him some lunch and fixed him up as best he could in the waiting room, and then communicated with the authorities here to learn if such a boy was missing.

Nothing could be learned at the Mattawamkeag depot as to the boy's former employer at Hoyt, and after a search of the files of the Mattawamkeag office, the name of the boy was ascertained to be Johnny Green, who had been employed at Hoyt for some time.

Johnny continued his journey on a freight train during the day.

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Compound for years and never found any medicine to compare with it. I had ulcers and falling of the uterus, and doctors did me no good. I suffered dreadfully until I began taking your Compound. It has also helped other women to whom I have recommended it."—Mrs. HENRY CLARK, Glanford Station, Ontario.

Gardiner, Me.—"I was a great sufferer from a female disease. The doctor said I would have to go to the hospital for an operation, but Lydia E. Pinkham's Compound completely cured me in three months."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 38, Gardiner, Maine.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Compound a trial. It is surely the best medicine for all the many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a little to try it, and the result is worth millions to many suffering women.

SEAMEN'S INSTITUTE.

At the Seamen's Institute last evening, A. W. Morrell, Evangelist of Boston, delivered a very inspiring address, taking as his theme, "The Voyage of Life." His discourse was very pleasing and listened to by the large number present with rapt interest.

He illustrated his lecture by drawing a charcoal sketch of a ship in a great storm and the lift boat coming to the rescue. Mrs. A. Thompson presided at the piano, and Miss M. Thompson rendered violin selections.

Songs were effectively rendered by Mr. J. N. Rogers and Rev. Mr. McDonald assisted in the service.

REGARDING THE TONGUE.

"Some remarkable facts regarding the tongue have been recently presented by the eminent surgeon, Dr. E. Souchon, of New Orleans. The doctor, after stating that the tongue, in shape, and the skin are the only organs of special sense which perform other functions, remarks that the tongue is the only organ except the heart which presents a base, a body, and an apex; is the only organ which can protrude out of the cavity in which it is contained, and that no other organ can assume such a variety of shapes or is so movable. Its papillae, though similar to those of other mucous membranes, are larger and more specially developed, and those in the anterior two-thirds differ from those in the posterior third. The tongue presents a dual structure in accordance with its dual functions, motor and sensory, varies in color more than any other organ, and is more solid than any other viscus. It is the only organ presenting the three kinds of nerve, namely, a nerve of special sense, one of ordinary sensation, and one of motion.

ELOQUENT SERMON HEARD IN THE CATHEDRAL.

In the Cathedral at eleven o'clock mass yesterday, Rev. Father Woods, S. J., who conducted the priestly retreat at Memramcook last week, delivered an excellent and eloquent sermon on the admirable of the unjust steward. He pointed out the practical lesson to be taken from the Gospel, showing how many persons of the present time were unlike the just steward, who was commended by God for his guidance and wisdom. These persons like the unjust steward are prudent and wise in the ways of the world, but in their zeal they forget the will of God, and are wanting in reverence for their master.

The sermon was an interesting one, and was listened to with great attention by the large congregation present.

BLERIOT TRIUMPHS IN PLANE CROSSES THE CHANNEL

DOVER, July 25.—This sleepy seaport town experienced the keenest thrill known in a generation when at sunrise this morning a white-winged bird-like machine with loudly humming motor swept out from the haze obscuring the sea toward the distant French coast and, circling twice above the high chalky cliffs of Dover, alighted on English soil.

The wind was blowing about twenty miles an hour and the sea was choppy. The aviator was swathed in a single garment of drilling, impervious to the wind, which covered him from the top of his head to his feet, only his face showing. He wore also a cork life- belt.

An eye-witness of the landing thus describes it: "Very early in the morning, a wire- less message was received from Calais that Bleriot intended to make the flight. Then in quick succession came the news that he had left land, that he was flying high, that he was making a wide sweep of the English coast, that he was carrying me thither. I discovered that the wind, which was blowing from the southwest, was carrying me thither. I veered to the southwest to Dover Castle and then saw friends flourishing a flag in a valley suitable for landing. I made two circles while lessening the speed and then diving at the ground came in contact with the ground sooner than I expected. Both the machine and myself were badly shaken.

M. Bleriot's friends took him quickly to the pier, from which small boats depart. In the meantime, the aviator was being taken to the hotel by the pier, from which small boats depart. In the meantime, the aviator was being taken to the hotel by the pier, from which small boats depart.

THOUGHT HE WAS JOKING.

M. Lafontaine, a friend of the aviator's, arrived at the Lord Warden Ho-

use and made the landing gracefully, but even though it touched the land lightly, it was slightly damaged." By his achievement today, Bleriot won the prize of \$5,000 offered by the London Daily Mail for the first flight across the English channel, and stole a march on his rivals, Robert Latham and Count de Lambert, both of whom had hoped to make the attempt today.

Bleriot, who speaks little English, described his remarkable flight very modestly. "It arose at 2 o'clock," he said, "and went to the aeroplane shed. Finding everything in order on the trial spin, decided to make a try. The French torpedo boat destroyer which was in attendance, was signalled and it put out about four miles. Then I rose in the air and pointed directly to Dover. After ten minutes, I was out of sight of land and had left the warship well behind. For a few minutes I could not see either coast nor any boat. I tried to keep an average height of 500 feet. I might easily have gone higher, but it would have served no purpose. This was about the right height, I thought, clear the Dover cliffs, safely.

"The machine dipped toward the water several times, but put on more power. I estimated that the propellers were going from 1,200 to 1,400 revolutions per minute. The first I saw were strips of the English coast; then I observed Deal and Southwold, and then the English coast. I discovered that the wind, which was blowing from the southwest, was carrying me thither. I veered to the southwest to Dover Castle and then saw friends flourishing a flag in a valley suitable for landing. I made two circles while lessening the speed and then diving at the ground came in contact with the ground sooner than I expected. Both the machine and myself were badly shaken.

THOUGHT HE WAS JOKING.

M. Lafontaine, a friend of the aviator's, arrived at the Lord Warden Ho-

tel from Calais at midnight. He de- clined a bedroom with the cryptic re- mark that he had an appointment to meet M. Bleriot at five o'clock. The hotel people thought the mysterious stranger was joking.

M. Lafontaine came to the signal landing, the spot which the newspaper under whose auspices the flight was made, had chosen, on the high grounds back of the city, but M. Lafontaine selected a cup-shaped depression called the Northfall meadow, two miles east of Dover, where the airship would be sheltered from the wind in setting. There he planted the French flag.

The French sailors on the ships in the harbor were the first to notice that Bleriot was approaching. They heard the buzzing of the motor two or three minutes before they could discern the aeroplane. Then what looked like a butterfly glided over their heads as fast as a train of cars and with almost as much noise.

M. Bleriot's friends took him quickly to the pier, from which small boats depart. In the meantime, the aviator was being taken to the hotel by the pier, from which small boats depart. In the meantime, the aviator was being taken to the hotel by the pier, from which small boats depart.

RUSSIAN TERRORIST PROTECTOR OF CZAR

Astounding Charge That Chief of Secret Police Was a Convict and Ally of Assassins Established.

PARIS, July 15.—M. Bourgeois has written his case against General Har- ting, the chief of the Russian political police in Europe, whom he accused of having been sentenced to five years' imprisonment in Paris in 1891 while passing under the name of Michel Landesen.

M. Clemenceau, the premier, declared to M. Jaures, the lobby of the Cham- ber of Deputies that the official inquiry instituted by the French Government into the charges made by M. Bour- zoff proved that General Harting and Landesen were the same person.

M. Clemenceau thanked M. Jaures for having called his attention to the facts of the case. He added that Gen- eral Harting was to have been promot- ed to the rank of colonel of the Legion of Honor on the occasion of the czar's visit to Cherbourg at the end of July. General Harting's name will be erased from the roll of the Legion of Honor. He is believed to be in London at present.

The charge made by M. Bourzoff last week created a sensation in Paris. That a criminal and convict, an ally of terrorists and assassins, should occupy a responsible and exalted position of chief of the Russian secret police, was a revelation to many. It was believed, such a charge was astounding, and could only be the freak of some mad man.

M. Bourzoff's charges. Speaking of this astounding charge, M. Bourzoff said today: "Let General Harting name any other place or in any country he likes, except Russia. I will meet him there with the friends who know well Michel Landesen, the convict, and will prove in his presence that he and Landesen are one and the same. Let him deny his identity if he can. If he can prove that he is not the man who was sentenced to five years' imprisonment for so long, why does he not say so?"

"I should like to see opinion right with regard to myself. According to some correspondents, the Paris police Acton I have already been expelled from England, Italy, Switzerland, and Belgium, and they call me a re- fugee."

"This is a mistake. I lived openly in St. Petersburg from 1905 to 1907, and left with my papers in perfect order, with the full knowledge of the authorities and with my passport in my pocket."

"I left Russia because of my re- view, 'The Past,' which I now publish here. It is a review of some impor- tance, and when it was printed in Russia the censor put so much 'caviar' on my head-and-butter, winner that its publication became impossi- ble. (Caviar is the printers' ink with which the Russian censorship blots out newspapers and magazines.)"

"After John Fuller, who joined the force on April 26—The fact that a convicted thief has been acting as a policeman in London since the war was revealed at the London sessions yesterday."

"I was nearly expelled from France once. It was during the Dreyfus case. I shall be glad if Gen- eral Harting will meet me and my friends in London. He could perhaps arrange to do so while the members of the Duma are there. I am sure they would be interested in our meeting."

"I have proved, incontrovertibly, I think, that Landesen, who was sentenced to five years' imprisonment in Paris, was in the employ of the Rus- sian police. It was his duty to see his victims on to commit a dynamite outrage, and then to get them ar- rested."

REFERS TO THE LOSS

THE CHURCH SUSTAINED

Rev. W. G. Watson in Centen- ary Pulpit Speaks of Late D. J. McLaughlin

Rev. W. G. Watson of Mount Allison University, who is occupying the pulpit of Centenary church in the ab- sence of the pastor, Dr. Flinders, preached to large congregations at both morning and evening services Sunday.

The subject of the evening discourse was Humility, the text being Matthew 23. "Blessed are the poor in spirit, for theirs is the kingdom of God." Im- mediately before the sermon the preacher announced that the music of the service had been selected with view to the heavy loss the church had sustained in the death of D. J. McLaughlin, who had passed away during the week preceding.

Mr. Watson introduced his remarks by dwelling upon the great change in literature, art and science which the coming of Christ had made. Christ's coming had entirely changed the Mosaic religion. In the text two words, "blessed" and "poor" had meanings entirely different from those borne before Christ's coming. To be poor did not mean to be stricken by poverty. To be poor in spirit meant not to be without spirit, but to possess the feeling of humility—the feeling which the Queen of Sheba had when in Solomon's presence, that which Sir Walter Scott felt when with Wellington, that which Darwin felt toward Gladstone. Humility of this kind was due to a proper appreciation of great- ness. No one but one possessing the true spirit of humility had ever per- formed a great act. It was such humil- ity that Isaiah, Peter and Christ Himself had possessed.

EACH STORY IN HOUSE

COVERED BY MORTGAGE

Principle of Borrowing Money, Even With Cash to Spare, General in Germany.

BERLIN, July 24.—Herr Sydow, chancellor of the imperial exchequer, stated in the Reichstag during the re- cent finance-reform debates that "most German property is mortgaged." Herr Sydow's assertion may sound strange to American ears, but mortgaging prop- erty is a recognized principle of Ger- man business practice.

It is a peculiar fact that German mortgages are only in rare instances ever paid off. Most property that is mortgaged by the buyer who, like the former owner, finds it possible to earn a substantial profit from his rents over and above the fixed inter- est charge.

"Building funds" are a unique fea- ture of German mortgage practice. A man who builds one story of a new house and mortgage it to secure funds to proceed with the second story, so on, story by story, till his house is built—and fully mortgaged. It is easier to dispose of mortgaged than un- mortgaged property in Germany, be- cause the buyer is required to pay less in cash.

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough ap- pears, will prevent the attack.

MONCTON, N. B., July 25.—Robert Cochran, aged and prominent resi- dent of Moncton, passed away this morning, aged eighty-four years, after an illness extending over a year or more. He was one of the best known and most highly respected citizens of Moncton at the time of his death. He was born in St. John in 1825 and removed to Moncton at the age of nineteen, having lived here sixty-five years. In the early history of Moncton Mr. Cochran was employed in ship- building and built several ships. His parents emigrated from Ellinburg, Scotland, to St. John.

Remains of a Well Dressed Man Found Floating Off Glen Cove, L. I.

NEW YORK, July 24.—A headless body of a well-dressed man, found floating in the Sound tonight off Glen Cove, L. I., adds another count to the long list of unsolved and gruesome murder mysteries with which the police of New York have been con- fronted this summer.

The head had been cleanly severed from the body with some sharp instru- ment, close to the shoulders. There was no clue to the man's identity be- yond a newspaper clipping so stained and muddied that it could not be read.

TORTURED BY SOLDIERS FOR DEFENDING WOMAN

FOR DEFENDING WOMAN

Two German Officers Brutally Treated by Prefect of Police in Paraguay.

BERLIN, July 24.—Herr von Plessen and Herr Kriess, two former officers in the German army, have been sub- jected to cruel treatment in Paraguay. They were visiting San Bernardino, when they became involved in a dis- pute with the local prefect of police, Captain Arce, who insulted a woman in a restaurant there. When the two Germans went to her rescue Arce had them arrested and ordered the soldiers under his command to shoot them on the spot.

The soldiers refused, but consented to bind the two Germans and place them in an instrument of torture, a kind of rack known as a reppo. Arce again ordered the soldiers to shoot the men, but they again refused.

Arce thereupon seized a rifle belong- ing to one of the soldiers and took aim at Herr von Plessen. Fortunately the rifle was not loaded. Arce then be- lieved both Germans with the butt-end of the rifle, striking them on the head and shoulders while they were being tortured on the rack.

Subsequently the members of the German colony at San Bernardino lib- erated their countrymen. The German government demanded an apology and compensation, both of which were granted in full measure by the govern- ment of Paraguay.

STRIKE LEADER UNDER ARREST

Graham Charged With Intimidation HEAD OF LODGE Report to the Effect That Other Strikers Will be Arrested

GLACE BAY, N. S., July 25.—Eviction notices were served Saturday on a number of U. M. W. who are tenants of the Dominion Coal Company. This and the arrest of Allan Graham, president of the largest U. M. W. local in the province on the charge of intimidation and the rumor that a number of strikers rest on the same charge are to follow shortly leads to the belief that the company is adopting more retaliatory course than has hitherto been their policy. The general opinion in Glace Bay is that from now on they are going to "carry war" into Africa. Beyond a statement that only strikers whose houses are needed to accommodate men brought into the coal fields had been notified to vacate and that a reasonable time would be given them to move, nothing more was given out by the company tonight. It is likely that several days will elapse before any steps are taken to dispossess any persons notified to quit who do not get out of their own accord. U. M. W. says that they have anticipated this contingency and are prepared to lodge all parties in tents who need this shelter. The arrest of Allan Graham is the first one made on an intimidation charge so far. Graham was arrested by Officer Nicholson of the Coal Company forces and was released on bail. The report is current tonight that the company have been quietly securing evidence of intimidation for some time and that a number of prominent U. M. W. may be arrested in a few days. The charge against Graham is that he prevented a Frenchman named Berthelme from going to work by threatening bodily injury to him. The output on Saturday will probably be less than on Friday, when the ten thousand ton mark was passed. Owing to heavy wind and rain, storm work on the banks were not able to get usual production from source and there is usually small colliery production on Saturdays. Mr. William Hawker left by Saturday evening's Montreal train on a trip which will probably be extended to the Pacific coast.

BOARD FAVORS CANADIAN UNION

American Interference Not Wanted CONCILIATION BOARD Report on Sydney Mines Situation Forwarded to Ottawa

OTTAWA, July 25.—The report of the board of conciliation and investigation which dealt with the dispute between the Nova Scotia Steel and Coal Company and the members of the local union of United Mine Workers Union at Sydney Mines, has been received by the Minister of Labor. The main question at issue was the recognition of the International Union and the majority of the board, named by Judge Chipman, chairman, and McGillivray, the company's representative on the board report in favor of the company's position that there should be no official recognition of the union, which having its headquarters and head officials in a foreign country should not be given an influence and authority in Canada that might constitute a serious menace to industrial peace and stability in this country. Their report is in accordance with the report of the boards in connection with the Springhill and Glace Bay mines. They strongly favor having Canadian labor interests subject only to the control of Canadian labor organizations. The subjects in dispute were as follows: (1) an increase of wages consequent upon the introduction of closed lights (safety lamps) in lieu of open lights, and (2) that since the Company recognize the Provincial Workmen's Association they should also recognize the Union of the United Mine Workers of America, and should grant no preference to one class of their employees. The Board points out that while the application in the present matter was before the department, the company adjusted with the Provincial workers, Association an increase of wages to the extent of 2 cents per ton in the following proportion: Machine runners 1-2 cents, short fingers 1-2 cents, short fingers 1-2 cent, loaders 1 cent. "The demand made by the employees," adds the board, "asks for an increase of 2 cents for shot firers and the machine runners and 2 cents for loaders, equivalent to 9 cents per ton." On the question of closed lights the board states: "The board, with a due regard to all the contentions and cir-

cumstances appearing from the evidence, is of the opinion that it cannot conscientiously recommend and decide otherwise than that the company has met the men at least half way in the offer it has made for the convenience and loss occasioned by the installation of safety lamps in the collieries in question. "In respect to the question of recognition of the International Union the board says: "The growing sentiment in this country is strongly in favor of managing our industrial and commercial interests without being subject to the dictation or control of our neighbors across the line, and now would seem to be an opportune time for a movement to be made for the establishment of a labor union for Canada alone, which shall be incorporated on the lines best calculated to create harmony and peace, and the prevention of strikes, so suicidal and detrimental to both employer and employees, and the province of Nova Scotia as well." In the meantime the two societies get together and endeavor to work out the problems before them in a spirit of loyalty to the country in which they live, and are earning their daily bread. Mr. McDougall in his minority report finds that the evidence produced in the inquiry shows that under the changed

conditions of lighting the men cannot earn as much money as formerly, and he believes the increases should have been as follows: Machine runners, 1 cent; shot firers, 1 cent; loaders, 2 cents. On the question of the recognition of the United Mine Workers, Union, Mr. McDougall says: "The matter has assumed such a character in Nova Scotia that I feel the board cannot do otherwise than recommend the company to give recognition to this union, as far as a committee to wait upon them and arrange meetings to adjust any trouble or grievance that may arise between the men, and the company, and also that a pit committee from the local should be given the power to make visits to the mine for the purpose of examination as provided for in the coal mines regulation act, and many other matters that become necessary for the protection of life and property." PICNIC COMMITTEES IN SESSION YESTERDAY A meeting of the various committees in charge of the Cathedral Sunday school picnic was held yesterday af-

ternoon to make further arrangements for the outing. The picnic will be held on Tuesday, the 2nd of August, on the Bishop's grounds at Torriburn. The boys of the parish will assemble at St. Michael's Hall, and the girls at Saint Joseph's school, and headed by the City Cornet Band, they will march in procession to the depot, where the first picnic train will leave for the grounds at 10 o'clock. All sorts of games and amusements will be provided for the picnicers on the grounds. The St. Peter's Church picnic will be held at Torriburn on the following Tuesday, the 10th of the month. The congregation of the Church of the Assumption, Rev. J. J. O'Donovan, pastor, will hold their annual picnic on Wednesday, July 27th, at Seaside Park. There will be the usual sports and fireworks and a band. Active committees are now at work completing the arrangements for these picnics, and everything possible will be done to assure their success. The Seamen's Mission Society acknowledges the following contributions to the building fund: Hon. S. H. Blake, of Toronto, \$10; Joseph W. Steinstine, \$10; John McDonald Co., Ltd., \$5.

AIRSHIP CUTS ALL SORTS OF CIRCLES

Navigator Aloft 20 Minutes WRIGHT ALONE First Official Test Will be Undertaken Monday

WASHINGTON, D. C., July 24.—Cutting all sorts of circles in the air, Orville Wright today again demonstrated the ability of the Wright brothers' airplane to fly. The aerial navigator remained aloft a little over twenty minutes and then, at a signal from his brother Wilbur, made a swift and safe landing. With this flight the preliminaries to the official trials may be said to have been concluded. It is the general understanding that Lieut. Frank P. Lahm, of the United States signal service would go up with Mr. Wright and, in consequence, a large and anxious crowd awaited the start. But after a few moments spent in trying out the motor and propellers, Orville stepped into the machine unaccompanied. This was a disappointment to the on-lookers, who had primed themselves for a flight which would mark the first attempt to carry a passenger since the accident last fall, when Lieut. Selfridge lost his life. The ship got away to some two thousand feet and kept close to the ground for about 200 yards, but skilful manipulation on the part of the aviator caused it to rise gradually to a height of 100 feet. Some very sharp turns were made, and in one of these the craft curved considerably, causing the spectators to gasp, but Orville soon righted it. As but three days remain in which to conduct the official tests, the Wrights, in all probability, will undertake the first one Monday.

AMERICAN ATTITUDE TOWARD COMMERCE

Subject Discussed by Secretary of Commerce and Labor

CHICAGO, July 24.—Secretary of Commerce and Labor Chas. Nagel and Benjamin F. Winchell, president of the Chicago, Rock Island and Pacific Railroad, were the principal speakers at the dinner tonight, which was the conclusion of the convention of the National Traveler's Association. Mr. Nagel discussed the attitude of the government toward commerce, saying in part: "It goes without saying that the tremendous undeveloped resources of this country have up to this time almost compelled us to look to and depend upon our domestic trade. It is equally clear that we are rapidly moving beyond the initial stage of development and that we are forced to compete for supremacy in foreign markets. "The demand for a downward revision of the tariff is based primarily upon the recognition of the fact that our infant industries have reached the stage of maturity, but also upon a desire for a (mainly intelligent) reciprocity for a fair and intelligent reciprocity with foreign countries."

FULTON McDUGALL IS TRANSFERRED TO THE WEST

MONCTON, July 24.—Fulton McDougall, formerly manager of the Royal Bank of Canada here, leaves shortly for Montreal thence to the West to occupy a position in one of the western provinces in connection with the Royal Bank. His transfer from Moncton is in the line of a promotion. Although men searched the river yesterday and today, no trace was found of the body of Charles Kinlo, the eleven year old lad who was drowned in the Petitcodiac river ten days ago.

THEIR MAJESTIES GUESTS OF AMBASSADOR REID

SILSOE, England, July 25.—The Royal Standard floats over Ambassador Reid's residence at West Park, and the precincts were the centre of attraction today of country people for miles around. The King and Queen with the American Ambassador and Mrs. Reid and several of the other guests, attended services at Silsoe church this morning and received an ovation.

Europe's youngest king and the girl who will become his wife, King Manuel of Portugal, who is now 29 years old and who is to take a trip to England this coming fall to arrange for his marriage with Princess Alexandra, the 18 year old daughter of the Duke of Fife. CHEERING CROWDS ALMOST MOB PERIOT, THE SUCCESSFUL FRENCH AVIATOR

FLOOD DOES NOT MAKE MONEY ON THIS SALE Costs Him \$50 or 30 Days in Jail

Hero Worship More Trying Than Flight Across the Channel—£1,000 Prize Presented at Luncheon—Legion of Honor Decorations for Other Flyers

LONDON, July 25.—Louis Bleriot, the Frenchman who made history yesterday by flying across the English channel from Les Barques to Dover, a distance of 21 miles, in less than half an hour, and his famous little monoplane both reached London this morning, the former to receive the monetary fruits of his achievement in the shape of a check for one thousand pounds (£1,000) and the latter to be placed on exhibition to the financial advantage of both a London hospital and the enterprising proprietor of the only American department store here. The famous aviator is finding hero worship much more trying to endure than flight across the Channel. He is being mobbed by the enormous crowds and the police had come to his protection so eager were the enthusiasts to greet him at close quarters.

ALD. POTTS MAKES A FEW OBSERVATIONS

And Adds to Warmth of Fire Dept. Discussion Says Chief Kerr is Over-ridden by His Foreman—"A D—D Imposition to Pay Him \$1,500."

"It was a damned imposition that the city of St. John should have to pay John Kerr, a lawyer, \$1500 a year to sit in his office while the fire department is running all over the city after him," Ald. Potts' contribution to the rather warm discussion which has arisen over the question of the most suitable location for Frank Shannon, a volunteer member of the city's fire department, was made this morning at the meeting of the city council. The trouble arose over Mr. Shannon's transfer from No. 4 to No. 3 station. The alderman said that the chief should not allow himself to be over-ruled in this way. He further said that the city ought to have a practical fireman in the position of chief who would give his whole time to the work and live in one of the fire stations.

THE LOVELY EVELYN DID NOT IMPRESS THE PORTER

Later Tells of Attention Mrs. Thaw Attracted on I.C.R. Express—Hair Gray But Not Worrying.

Evelyn Nesbit Thaw did not make a very favorable impression on the porter of the Pullman car in which she travelled from Montreal to Campbellton. The dusky wielder of the clothes brush who was in town today tells of the future of the crossable chorus girl made on the train where she was quickly recognized. Her general appearance, he said, is about the same as the descriptions given at the time of the trial with the exception of the fact that her hair is now half grey.

He did not think it was turned grey by worry, however, as she did not look as if she were a person that would worry about anything. Mrs. Thaw was unaccompanied except by her maid and seemed much annoyed at the attention she attracted. Her berth was reserved for her under the name of Mrs. Sullivan.

Mrs. Emily J. McKay, wife of Robert D. McKay, died on Saturday at the home of her daughter, Mrs. S. G. Meyers, 144 Waterloo street, in her 72nd year. The Assyrian Colony in Erin street was the scene of a lively fight on Saturday afternoon. William Ramsey and Henry King disagreed somewhat over certain affairs, and after a heated argument the rivals came to blows. A large number of spectators looked on with great interest. Officers Coombs and Hynes were summoned to quell the disturbance, but when they had arrived, the antagonism had left the two men, and they were once more uniting the bonds of friendship which had hitherto prevailed.

AUTO STRIKES TROLLEY; ONE DEAD AND THREE HURT

NEW HAVEN, Conn., July 25.—Going down a steep hill at rapid speed, yesterday, a trolley car struck an automobile owned and driven by Charles C. Buckingham, who met instant death. Mr. Buckingham's wife and two nieces were injured. Mr. Buckingham was a prominent piano manufacturer of New Haven. He was driving his car and was going down the hill when he attempted to avoid a puddle in the road. The machine skidded toward the trolley car track and before Mr. Buckingham could bring his car into the middle of the road again it was struck a glancing blow by the trolley car going in the same direction. The automobile was turned completely over and Mr. Buckingham was dashed head foremost on a stone wall bordering the street. His skull was crushed.

40,000 TROOPS NOT ENOUGH FOR SPAIN'S WAR WITH MOORS; WILL FORM NEW BRIGADE

MADRID, July 25.—Fighting between the Spanish forces under General Marina and Moorish tribesmen was resumed outside of Melilla at 9 o'clock last night.

General Linars, Minister of War, in an interview today announced that the mobilization of Spanish troops bringing General Marina's effective force up to 40,000 men, but on account of the extent of territory on the Moroccan coast to be covered, he considered it doubtful whether that number would suffice, and consequently the formation of new brigades would continue.

General Orogos Division and the Gibraltar Brigade will leave here today for the Rif coast.

General Linars declared that General Marina enjoyed the full confidence of the Government and that he could remain in command and be given every man he asked for.

The Madrid newspapers have been notified that hereafter they will not be allowed to print special dispatches from the seat of war until their accuracy has been confirmed by the General Staff. Foreign correspondents are forbidden to telegraph any except official news.

The Government denies that it intends to suspend the constitutional guarantee in Catalonia and other provinces.

300 MARRIAGES ILLEGAL

Owing to Legal Flaw All Must be Performed Again.

BRUSSELS, July 24.—A curious discovery, affecting hundreds of marriages, has just been made here. For some time past an official named Ruffin has had charge of the municipal marriage department, and has conducted the civil marriage of about 300 couples.

Ruffin is not a Belgian, and that the marriages he conducted are therefore null and void. Ruffin's father was a German, who neglected to become formally naturalized in Belgium.

The marriages will have to be celebrated anew in order to make them legal and regular.

The Windsor Tribune says:—The Board of the Payson Memorial Hospital assembled in the office of the Registrar last Friday afternoon for the purpose of presenting a diploma to Miss Helen G. S. Brown, who has completed her three years' course in the training school. Miss Clara Harris, Bedford, who completed her course last April, and Miss Brown, both entered the training school of the P. M. H. in its initial year, and have faithfully served its interest during their stay. Both were popular with the patients and the medical staff, and well deserve the best wishes of all who are interested in the welfare of the graduates of our splendid hospital.

One of the biggest moonlight excursions held for some time will go up river on the 2nd of August to the Upper Falls of the United Baptist Y. P. New Brunswick League. The St. Mary Queen has been chartered for the occasion and it is hoped to have the Carleton Cornet Band in attendance. Some local songsters will attend. C. R. Wason, R. H. Parsons and W. E. Campbell are the committee in charge.

Five North End young men had probably the most thrilling experience of their lives on the river Saturday night, when in a motor boat they left Kennebocasset Island for home. Hardly had they got fairly under way when dense fog was encountered and after a series of groundings the supply of gasoline gave out, leaving them practically helpless. Two of the party using improvised poles—a broom and piece of flooring—succeeded in grounding the boat, and upon examining the surrounding district a well-made vacant camp was found which proved a welcome refuge against the rain which was beginning to fall. When dawn appeared they found themselves near Drury Cove on the Kennebocasset, and with the aid of said hand power the launch was propelled to Millerville. Upon reaching their respective homes anxious hearts were gladdened after a night of fear and uneasiness.

ROT ENOUGH FOR YOU?

That Awful Question Heard Again as the Mercury Climbs Over the 80 Degree Mark.

The temperature today shows a tendency to soar to the eighty mark. At noon seventy-six degrees were noted at the observatory, while the mercury was still on the rise. The day is one of the warmest of the summer and the heat is intense. As early as nine o'clock this morning sixty-nine degrees were marked, and since that time the temperature has been steady on the rise.

At a number of places in the city a still higher temperature was registered. Eighty-five degrees were marked on King street about one o'clock.

DR. WILSON TELLS HOW HE GAVE FAIRVILLE ITS NAME

Term Was First Applied to Church Which He Built There—Unexpected Meeting With Parishioner of 50 Years Ago

At the service in the Fairville Methodist Church, yesterday morning, Rev. Dr. Wilson, who was supplying for the day, told how Fairville got its name from a church founded there half a century ago. At the close of the service he was surprised to meet a lady who attended the first service at which he preached in Fairville at that time.

At the close of the sermon the preacher said he was glad indeed to be present, as fifty years ago he came to Fairville a young man as assistant to Rev. J. B. Botsford, then in charge of the Carleton Methodist church, Westfield, Pleasant, Lepreau, Musquash, Fairville and South Bay. While working on this circuit Dr. Wilson started to build a church, and wanted to locate it. Robert Fair, at this time, being one of the prominent men of the place, and also conspicuous in connection with the Methodist work, the Doctor called the location of his new church Fairville, after this gentleman. The following year the post office authorities recognized it by placing a post office at Fairville. Previous to this it was all known as the Parish of Lancaster, from Carleton to Musquash.

At the close of the morning service an elderly lady went to Dr. Wilson and shaking his hand said: "I am glad to see you here this morning to hear you preach as I was present in Robert Fair's lot when you preached the first time here fifty years ago." Dr. Wilson preached in the Portland street church at last evening's service.

WANTS JUSTICE BUT FAILS TO GIVE HIS ADDRESS

Anonymous Letter Writer Hints at Liquor Violations—Driscoll Case Tomorrow.

When a Star reporter dropped into the office of Inspector Jones this morning he found him anxiously reading a letter which he had received through the mail and in which was enclosed a clipping from this paper on Saturday, announcing the fact that several persons on the Marsh Road had been reported for selling liquor to intoxicated men. The writer of the letter declares that he has knowledge of some coachmen having been in certain bars after five o'clock the evening of the 15th. However, he overlooked the important fact to communicate either his own name or the names of the alleged offenders. The correspondent says: "All I want is justice and in the name of God, give us a show."

The conviction against Timothy Driscoll, in the police court for selling liquor during prohibited hours, will be heard on appeal before Judge Forbes at 11 o'clock tomorrow morning.

POST SEASON SERIES TO DECIDE CHAMPIONSHIP

Best Out of Nine Games Will Prove Superiority of Marathons and St. Peters—Wednesday's Game.

At a conference today between representatives of the St. Peter's and Marathons, complete plans will be formulated for the series of base ball matches for the championship of St. John. Nine games will constitute the series, and the team taking five captures the championship.

Enthusiasm is at a high pitch in both the Saints and Greeks camps over the coming series. Both aggregations are confident of demonstrating their superiority and play will surely wax warm. The fans are also showing general activity in the series and better crowds will doubtless greet the teams on their appearance on the diamond.

The arrangements will include the introduction of the double umpiring and scoring system. The names of the officials will be announced shortly.

The Marathons-St. Peter's series will open on Saturday next. Matches will take place on each Saturday afternoon, while a double header will be played on Labor Day.

Considerable interest is being manifested over the line-up of the teams for the championship series. While both teams will be strengthened, there will be no material change from the make-up of the aggregations during the present season.

The Marathons and St. Peter's will start vigorous practice this evening. About fifteen players will appear out on each team.

In other directions the base ball pot is also boiling merrily. Two picked teams under the guidance of Managers McBride and Tilly will meet on Wednesday afternoon.

CANTON MEMBERS COMING

Members of Canton Halifax No. 1, I. O. O. F., of Halifax, are planning an excursion to St. John during the meeting of the Oddfellows Grand Lodge here in August. It is the intention to leave Halifax on the evening train of Wednesday, August 10th, arriving here Thursday morning and to remain here until 11:30 o'clock on Thursday night. Very low fares are offered by the railway for this excursion and it is expected that quite a number of the members of the Canton will participate in the trip. Canton Le Tour, of St. John, has also received information to the effect that a number of members from Worcester, Mass., will come here about the same time, so that altogether things will be pretty lively in St. John during the second week in August.
