"Absurd and Unfair" is His View of Claim for Western Resources.

### CHARGES STIRRING UP OF SECTIONAL FEELING

"We Will Not Tolerate Being Crown Colonies to Rest of Canada" He Declares.

Ottawa, April 25.—The claim of the Maritime provinces to a proprietary interest in the natural resources of Manitoba, Saskatchewan and Alberta is "absurd and unfair," declared Hon. T. A. Crerar, leader of the Progressive group in the House of Commons tonight. "If this position is correct, the prairie provinces are nothing but crown colonies of the rest of Canada," said Mr. Crerar, "and that is a position they will not tolerate."

### Stop Sale of Beer To American Sick Doctors May be Forbidden if Bill Passes Legislature.

Washington, April 25.—As the first step of the fight in Congress to tighten up the Volstead prohibition enforcement law, a bill designed to prohibit the sale of beer to the sick on a doctor's prescription, was introduced in the House today by Chairman Volstead of the judiciary committee. The measure would not prohibit the use of wine for medicinal purposes, but would make more specific and stringent the regulations on this subject. Frankly declaring that there was no real necessity for beer as a medicine, Mr. Volstead declared that this bill, described as supplemental to the National Prohibition Act, was put forward at this time to meet the situation created by the opinion of former Attorney-General Palmer that beer and wine, under the Volstead Act, could be prescribed for the ailing.

New York, April 25.—Suspension of excavations for office buildings on Washington Heights land occupied by Wilfred Molner, claimant to \$500,000 worth of lots at 194th Street and Broadway, left him tonight with a roof over his head. BRITISH DEBT MUCH REDUCED IN LAST YEAR

Canada is Repaid 20,000,000 Pounds, While Obligations to Others Are Paid.

EXTERNAL DEBT TO BE LOWERED FIRST

Sensational Economies Revealed in Annual Statement of the Chancellor.

London, April 25.—Austen Chamberlain, former Chancellor of the Exchequer, taking the place of the present Chancellor, Sir Robert S. Horne, presented the budget in the House of Commons today. His leading feature, removal of the excess profits duty, was announced some time ago. The chancellor's estimates of revenue and expenditure of a year ago have been borne out with remarkable accuracy, a surplus of £20,000,000, only about £4,000,000 under the estimated surplus, being recorded.

No Tax Reduction

No additional taxation is proposed and there will be no further reduction of taxation in the current year. The chief points are, removal of the surtax on cigars and replacement of the existing fixed duty of seven shillings and an ad valorem duty of 33.3 per cent on sparkling wines by a specific duty of 15 shillings per gallon. These changes have been made because "higher duties proved unremunerative and were injurious to Britain's allies. The corporation profits tax proved to be a disappointment, producing only £650,000, instead of the expected £2,000,000, but the chancellor hoped the tax would justify itself the coming year.

Remarkable Year

The chancellor characterized the past year as one of the most remarkable in Britain's financial history, and declared that the financial results were satisfactory when it was taken into consideration that his last estimate was made when trade was booming and prospects were rosy, and that upon that sunny prospect there descended a winter of unequalled sadness and completeness deep depression which still continued. The House was chiefly interested in details concerning the debt reduction, especially the announcement that the debt of the United States had been reduced by £75,000,000 during the past year and that interest on the debt to the United States must be provided for next year.

Reduce Canada's Debt

The debt to Canada had been reduced by £20,000,000 in the year while all debts to Japan, Spain, Argentina, Uruguay and Holland had been wiped out. He emphasized the importance of reducing the external debt, because it interfered with exchange and trade, and announced as a remarkable achievement that in two years the external debt had been reduced by £203,000,000.

Internal Loans

With regard to the internal debt, Mr. Chamberlain declared that it was impossible yet to fund the floating debt, which had been reduced in the course of the year by £37,000,000 instead of the anticipated £20,000,000, but a start would be made to fund the war debt. A new forty year 3.4 per cent loan would be issued immediately for conversion into war bonds maturing in 1925.

Had an annoying hacking cough. Got no rest at nights. Hacking coughs are very wearing on the system. The constant cough disturbs the rest, and keeps the lungs and bronchial tubes in such a heated and inflamed condition, that unless you get immediate relief, the cough may become settled and serious from its own cause.

WHEN YOU ARE OLD.

When you are old and gray and full of sleep and nodding, by the fire, take down this book, and slowly read and dream of the soft look.

And how many loved your moments of glad grace, And loved your beauty with love false or true; And one man loved the pilgrim soul in you, And loved the sorrows of your changing face.

And bending down beside the glowing bars, Mured, a little sadly, how love's dog And placed upon the mountains overhead, And hid his face amid the crowd of stars.

Will N. J. Governor Protect Sportsmen?

Plea Made to Limit Price of Seats for Dempsey-Carpenter World's Title Bout.

Sports Editor Public Ledger

It has finally been settled. The promoters and principals of the coming world's heavyweight championship battle have decided on New Jersey as the site for the little fracas. Dempsey and Carpenter, who are most vitally interested in the outcome, announced Jersey City as the place, indorsing the statement made in these columns three weeks ago. The promoters, further spurring for time, declare they are still undecided as to whether it shall be Jersey City, Newark or Atlantic City. They are a bit wary of the latter place, claiming that the city by the sea cannot take care of 50,000 or more added guests on July 2. In making this statement they exhibit a woeful ignorance of facts.

Atlantic City Can House and Feed 50,000 Guests at Any Time.

The roads have carried more than that number in a single day. Hotel accommodations, so far as numbers are concerned, are perhaps better at present than in any city in the East. Atlantic City is accustomed to doing things without much bluster, and if the promoters were really serious about having the contest decided there, all would no doubt be forthcoming—standard, hotel accommodations, railroad facilities and quick transportation.

The general public, at least fight fans throughout the country, are not so much concerned about the location of the big bout as they are about the price of seats. The following announcement on Saturday was a regular solar-windup published.

Will Be a Battle of Skill.

A Dempsey-Carpenter bout could be held in any city of the hard-fighting heavyweights of modern times. It will be a matching of artfulness and ringcraft against one of the hardest-hitting heavyweights of modern times. It is sure to be a lesson to the young men of today as to the value of boxing. Carpenter is the ideal type of an athlete, while Dempsey represents a hard-hitting, tearing-in relentless slugger. For that reason the bout has an especial lure. For the same reason every man with red blood in his veins is eager to see it.

John S. Smith, chairman of the New Jersey State Boxing Commission, is the man to get his foot down on the fabulous price. He is a member of the Board of Directors of the National Boxing Association of the United States representing his State. That organization, following the rulings of New York, has fixed the maximum admission to championship contests at \$15, with the exception of contests given for sweet charity's sake. Up to the present the rules have been rigidly lived up to. No higher has ever been charged in New York for championship bouts, excepting charity shows.

Now the promoters say we will so across the river in New Jersey and change wherever we please. The fans will pay it. We will spread the chaff the going rapidly. Get in early ahead that there is an unprecedented demand for seats and the choice reservations are going rapidly. Get in early and avoid the rush!

Is the New Jersey State Boxing Commission going to approve of these Western hold-up methods? Is the commission going to dishonor the pledge made by its chairman to the National Boxing Association of the United States? If not, the local sportsmen of the State should step in and protect the public. Their appeal will be direct to him, it should not be ignored.

It is no secret that the coming bout is stamped with commensuration. First the boxers were to receive a half-million-dollar purse. Then came the \$15 admission limit in New York. The purse was quickly withdrawn and the principals agreed to work on percentage. Presuming an area will be devoted seating 50,000 persons, with the price of \$5 to \$10 per seat, the average will be \$10, which will insure a half-million-dollar gate. Sixty per cent of that sum will give Dempsey and Carpenter \$300,000 to divide, with \$200,000 remaining for the promoters to pay it all.

Financial conditions in this country do not warrant any \$50 seats to see a limited-round boxing bout where price should be no more than \$15, and the Governor of New Jersey should protect the public to the limit.

LATE ARRESTS.

Six arrests were made by the police last night. Theodore W. Amburg was arrested on a warrant for obtaining money on false pretences. Archibald Ayles, for lying and writing in the "Daily Mail." A juvenile was brought in for wandering about and not being able to give a satisfactory account of himself. These drunks were also brought in, and one protestant was given shelter.

MARKING THE STOCKINGS.

Here is one suggestion I make in marking hose for the boys in our family that is quick and always ready. Use any little piece of gingham or lawn that could not be used for anything else. A little strip about one inch long sewed on the inside of the hose will save in buying different pairs or markers.

The Valley train due to arrive here from Fredericton at 2:05 p.m. did not reach the city last night till 8:30, due to a breakdown of the engine near Rivadale. The portable telephone brought the conductor in touch with the authorities here, and after a wait of an hour, the engine of the train left her cars at Oak Point and fetched the Fredericton train down to that station, where it was left standing till 4:30, when a light engine arrived from the city and brought it down the remainder of the way. To the related passengers, from two o'clock to six-thirty, a very long time for it to take for a light engine to cover the score of miles between the city and Oak Point.

The Prime Minister in reply reminded the House that it was an easy matter to talk of subsidies to the provinces but difficult to reach a settlement. If a subsidy were given then the whole Dominion was interested. This difficult question had been a traditional subject of debate. As far as the voice of the people could be judged at election times, they had acquiesced in the arrangement of subsidies instead of lands. No government, said Hon. Mr. Meighen, could hand over these resources on the terms which had been put forward.

Ban Asks Fans To Support Gleason

President of American League Appeals for Aid in Rebuilding White Sox. Chicago, April 25.—Ban Johnson, president of the American League and for years an enemy of Charles A. Comiskey in the administration of league affairs, in a statement tonight, reviewing the pennant prospects for the coming season, urged that the public accord Manager "Kid" Gleason its full support in his task of rebuilding Comiskey's team, the Chicago White Sox.

Mr. Johnson declared it to be his conviction the race will prove the most open in the history of the organization. "There has been a change in the leadership of our club," he said, "and a notable realignment in six of the teams."

With the prestige of an American League championship and a world series victory, Cleveland, under the leadership of the peerless Speaker, seems to have much of an advantage over the other contenders for the pennant. The loss of Chapman may ultimately prove a serious handicap.

"New York with its array of batting strength, is conceded high rank, but St. Louis and Washington must not be underestimated when we weigh the fact they will be guided by new, skilled and ambitious managers."

"The numerous victories of Connie Mack's Athletics over the New York and Philadelphia Nationals in the month of spring would encourage one to believe that that down-trodden tribe will claim a place in the sunlight this summer."

Of the same interest will center around Ty Cobb and his Tigers. We know that Detroit's new manager has the skill and daring of leadership, and if patience is not lacking in the handling of men, then his success is assured.

"What Gleason may accomplish with the rejuvenated White Sox is a problem. It is to be hoped the patrons of the sport will accord him loyal and unflinching support in his difficult assignment."

"The statement of all things," the statement concludes, "is a cherished hope that every player, manager, umpire and owner in the American League will enter the championship race this year with the single thought and purpose of making it an ideal contest—pleasing to the public and free from any blemish that might tarnish the good name of our national game."

### Tom Meighan As A Butler Hubby

And How the Ex-Soldier Curbed His Rich Wife of Snobishness—Imperial Feature Delightful.

An excellent pictureization of the popular stage success, "Civilian Clothes," with Tom Meighan in the stellar role, came to the Imperial yesterday and will conclude today. The story deals with an army captain who married a society girl in France, while she was dazzled by his handsome appearance in uniform, and discovered upon his return, after having been reported killed in action, that she was reluctant to own him in his overland civilian clothes. To cure her of her snobish ideas, he became a butler in her household and, after several dramatic developments that fell exactly in with his plans, convinced her that clothes don't make the man.

Mr. Meighan is assisted by an able supporting company headed by Marie the Mansfield, the pretty Polles girl who was also John Barrymore's leading woman in "Dr. Jekyll and Mr. Hyde." Marie Shotwell, Warren Cook and Frank Louie are also in the cast. The picture was produced by Hugh Ford and is a Paramount release. It marks the elevation to stardom of Mr. Meighan, who has played the leading male roles in such conspicuous successes as George Loane Tucker's "The Miracle Man" and Cecil B. DeMille's "Male and Female" and "Why Change Your Wife?"

The imperial departs from its accustomed schedule this week by using the mid-week feature only one day—Wednesday. This is to be Viola Dana's great picture, "Blackmail," from Lucia Chamberlain's gripping narrative in "The Saturday Evening Post." A big cast of splendid stars appear with Miss Dana in this story.

Thursday, Friday and Saturday the greatest of all Chaplin films is slated for the Imperial. This is "The Kid"—a picture sensation throughout the continent and overseas. It is a silent production and will be featured strongly. It is a special scale attraction.

Germany Will Offer 200,000,000 Marks

Economic Pledges in Goods and Participation in German Industries Offered as Security

Berlin, April 25.—The payment by Germany of two hundred billion gold marks for reparations is, roughly, the proposal submitted by Germany for transmission to the Allies, according to sources close to the government. The payments will be spread over a period of from 30 to 42 years, or less, according to Germany's economic recovery.

The Allies, under the decision reached in Paris in January, demanded that Germany pay 200,000,000,000 gold marks or approximately \$56,000,000,000 in payments to be spread over a period of forty-two years.

Germany's experts, in addition, would bear an export duty of 12 per cent to the Allies, for an identical period.

In the German counter proposals submitted in London on March 1, Dr. Walter Simons, the German foreign minister, offered what the Allied experts estimated to amount to approximately \$12,000,000,000, which Germany claimed \$50,000,000,000 had already paid leaving the actual German offer about \$7,500,000,000.

This offer was couched with the conditions that Upper Silesia should remain German and that free commercial privileges throughout the world should be restored to Germany.

Babe Ruth's Salary Record in Baseball

\$50,000 Per Annum Largest Ever Paid — Yankees Will Get It All Back at Gate.

Babe Ruth's stipend will be \$50,000 the coming year. That's the amount the New York Yankees will pay him. Everyone will say, no ball player in the world is worth that amount. How ridiculous! A ball player's worth is reckoned and based on two things—what he can attract to the box office window and what his value is to his team.

Babe Ruth at \$50,000 is the cheapest man on the Yankee team. He is the only player on the team who will surely draw his own salary at the gate. The matter is, Ruth doesn't cost the team a penny in salary, for without him the receipts of the season would fall off fully \$300,000, a sum the Yankees could not command without him. This vast amount is what he attracts by his own presence on the field. Ruth would be cheap at \$100,000 salary just at this time, and no one knows this better than the owners of the Yankee club.

Fans need no better illustration of Ruth's money value than last year's attendance record at ball parks when the Yankees played 2,228,000 paid admissions. Without Ruth they might not have attracted half this number of fans to the game. In the Southland at the present time all attendance records are being shattered by Ruth's presence with the Yankees. At New Orleans so great was the crowd that after 17,000 had paid admission the gates were closed with fully 6,000 more clamoring for admission. At Shreveport, at Baton Rouge, at Lake Charles—in fact every place the Yankees appeared—all records went to smash this year. In he worth \$50,000? He's worth \$150,000 to the team.

Rival baseball magnates say it sets a bad example to pay Ruth so high a wage. That it causes dissatisfaction among the rest of the players who are receiving but a tenth of what Ruth gets. How absurd! Truth of the matter is some dissatisfaction among the rest of the players who are receiving but a tenth of what Ruth gets. How absurd! Truth of the matter is some dissatisfaction among the rest of the players who are receiving but a tenth of what Ruth gets.

Play around with the children. Avoid easy chairs and carpet slippers. Take plenty of exercise of the right sort.

GOWNS FOR SCHOOL GIRLS. For school girls there is a strangely named little gown, with its own attractiveness in spite of the name. It is the "Fauldery frock," of persey cloth, very demure in gray, more temperamental in fenna, with a waistline belt, long, close sleeves, a turnover collar and cuffs of white linen, the collar finished with a long, thin black ribbon bow. With it the sub-dub wear a very broad darning trimmed hat of fine straw with a ribbon scarf around the crown.

It is safe to bet, or preferably, predict, that the Broadway "flapper" will presently appear in the pantaloony frock.

Man Grabs \$2,400 from Girl, Whose Yells Arouse Lower West Side.

### RAN RIGHT INTO ARMS OF A COP

Culprit Throws Away Money, Which is Found by a Pursuer and Returned.

New York, April 25.—Miss Beaulieu Weiner, 23 years old, of 456 East 171st street, the Bronx, was hunting the \$2,400 weekly payroll of Kluge & Frankland under her arm yesterday afternoon when, just as she stepped inside the doorway of the company's building, at 65 West Third street, she felt a sharp tug and turned in time to see a man running away with the envelope.

Miss Weiner gave a yell which could be heard in Washington Square and started after the thief, Lillian Lippman, who sometimes goes to the East River National Bank, Great Jones street and the Bowery, instead of Miss Weiner, had been thinking that something of the sort might happen any time. When she heard the yell she knew that the crime was being committed, so she jumped from her desk and dashed out into the street, with Kluge, Frankland and fourteen clerks and stenographers right behind her.

She was hitting the chased man to his feet when the crowd came up and gathered about making such a noise that the cop could get no idea of what it was all about. Suddenly a little man pushed his way through the crowd, waving an envelope.

"Here," said the man, "he threw this away several blocks back. I guess he must have stole it from somebody."

The policeman took the envelope, turned it over wonderingly and found that the money was all there. But when he looked up the honest man had disappeared. Nobody knew who he was.

The prisoner was taken to the Mercer street police station and questioned for two hours by Lieut. Bill Funston. He gave his name as Edward Kelly, 34 years old, a clerk, of 741 Monroe street, Brooklyn. He said he lived with his mother. Some time ago he related, he lost his job. According to the police, he said that when he saw Miss Weiner come off of the bank with the fat envelope it was too good to pass up.

Lieut. Funston said Kelly had been arrested before on similar charges.

There were five cars in the line that the federal agents held up. Three of these escaped across the Canadian border. ### PREMIER TELLS COMMONS ABOUT IMPERIAL MEET

Hon. Mr. Meighen Outlines Some of the Work Premiers Will Consider.

### FOREIGN RELATIONS TO BE STUDIED

India and Australia Will Present Special Problems for Study.

Ottawa, Ont., April 25.—On the orders of the day in the House this afternoon Hon. Arthur Meighen made a statement with regard to the prime ministers' conference to take place in London next June. He stated that last October he had concurred in a proposal by the prime ministers of the United Kingdom that the conference should be held not later than June of this year. Since the peace conference there had been no opportunity for personal and direct consultation between the prime ministers on the broad issues of policy in external matters of common concern. Views were exchanged more than a year ago concerning the holding of a conference during 1920, said Mr. Meighen, but it was concluded that this would be impracticable.

**WHAT TO BE DISCUSSED.**  
The proposal was made and accepted last October on the basis that the June meeting would be of a special and preliminary character, having in view the necessity of discussing:

- (1). Preparation for the special constitutional conference contemplated in resolution 9, of the Imperial War Conference of 1917, to be held at a later date, this preparatory discussion to include such questions as the meeting place, date, composition and agenda.
- (2). At the same time it was considered that the June meeting would afford an opportunity for discussing certain other matters of common concern which are of an urgent or important nature, such as:

**GENERAL RELATIONS.**  
(3). A general review of the main features of foreign relations, particularly as they affect the dominions.

(4). The question of the renewal of the Anglo-Japanese Alliance, which is indeed only a part of the general part of the subject of foreign relations, but which is especially urgent since under the terms of the alliance a decision should be reached this year.

(5). Preliminary consideration, preparatory for the proposed constitutional conference, of the working method for arriving at a common understanding as to policy in such external affairs as concern all parts of the empire.

**SOME OTHER SUGGESTIONS.**  
The prime minister went on to say:

the various other subjects had been suggested for inclusion in the agenda of the June meeting. These subjects, in view of their technical character, and of the fact that they were not of the same urgency or importance, would seem to belong to the agenda of the Imperial conference proper whenever its next regular session was held. It was desirable that the meeting of prime ministers in June should not be of a prolonged character, so it seemed unlikely that any considerable attention could be given to such questions. The Canadian Government had already expressed a doubt as to the inclusion of some of these questions.

**ADDITIONAL QUESTIONS.**  
These additional questions, the first two of which were proposed by the governments of Australia and India respectively, and the remainder by the British Government, were as follows:

- (6). Inter-Imperial communication by land, sea and air.
- (7). The position of British Indians in other parts of the empire.
- (8). Naval, military and air defence.
- (9). The recommendations of the overseas settlement conference recently held in London.
- (10). The development of civil aviation.
- (11). The reports of the Imperial Shipping committee, appointed as a result of resolutions 11 and 24 of the Imperial War Conference of 1918.
- (12). The findings of the technical commission appointed to discuss the question of imperial wireless communications.
- (13). The question of German reparations, including the division as between the various parts of the British Empire of any amounts received.
- (14). Imperial statistical bureau.

**MAY BE CHANGED.**  
Mr. Meighen said that the proposed agenda could not be regarded as a hard and fast arrangement. In the view of the Canadian Government more than the first four would be closely discussed. He proposed that the House should devote Wednesday to discussion of the course that Can-

#### LORD SHAUGHNESSY'S PLAN

As a contribution to the discussion on the National Railway question, Lord Shaughnessy's proposal for the solution of the difficulty is interesting at least. As to its practicability, however, that is quite another matter, also is its popularity. The C. P. R. president was quite prepared to be charged with a desire to work through some scheme that would benefit his Company, in making his proposal, and public opinion, as expressed so far, regarding it seems to be that any benefit to be gained by adopting it, would accrue to the C. P. R. in greater measure than to any other interest.

No one is going to dispute the correctness of Lord Shaughnessy's premises at any rate. There can be no question that owing to the disastrous railway building mania of the Laurier Administration, and the follies of Messrs. Mackenzie & Meas, Canada is decidedly overladen with railways which can never be anything else than a dead loss and an incubus to the country for many years yet to come. The cost of operation and maintenance of lines running through undeveloped country, which produces no traffic, must necessarily result in heavy loss, much more prevent anything in the nature of profits being made. This condition of affairs must remain if operation of these lines is continued under present circumstances; until the country is very much more densely populated, and traffic is created, no change in conditions is possible.

Nevertheless, the country is hardly yet prepared to accept Lord Shaughnessy's suggestion that these roads should be turned over to any body of corporation which would operate them in conjunction with the C. P. R. No doubt co-operation with the latter system would result in doing away with a good deal of unnecessary duplication of services, and in some other respects might not doubt be productive of improvements in the way of cheapening the cost of operation; but there would still remain the feeling among a large section of the people that the C. P. R. had "put one over" on the country at large if any such proposal as is now made were agreed to. As far as this phase of the matter is concerned, however, if Lord Shaughnessy's suggestion was actually shown to be a beneficial one for the country, there is a certain large section of the people who would profess to see in it something for the benefit of the C. P. R. at the expense of the Government railroads. However, no government would go the length of asking Parliament to accept Lord Shaughnessy's proposal until the opinion of the electorate had been taken upon it.

#### CANADA AT WASHINGTON

Next to the discussion concerning the purchase of the Grand Trunk, the most important subject that Parliament dealt with last week was the question of the appointment of a Minister Plenipotentiary to Washington. This post, provision for which was made as far back as two years ago, the money being voted at each successive session since, involves a new constitutional departure, one of those steps in the evolutionary growth of the Dominion which have become quite common since the war. It was taken after the fullest consultation and most complete agreement with the British Government, as well as with the practically unanimous consent of the Canadian Parliament. For the reason, however, that it is not easy to select a man qualified for the post and also for the reason that an election was held in the United States, involving a change of Governments at Washington, there has been delay in making an appointment, and this delay unfortunately, has been misunderstood. It has been represented that the British Government was holding the matter up, that Sir Auckland Geddes visited Ottawa to quash the proposal, and that the Prime Minister himself was hostile to such a step. All this was set at rest last week. Mr. Bessieghen declared without qualification that he favored the idea, that such an appointment had become necessary, and he added that it was the intention of his Government to fill the post as soon as a suitable man could be found. The debate was notable for two things; the scholarly discourse of Sir Robert Borden on the constitutional development of the Dominion, and the "We are still a Colony" speech of Mr. Bessieghen. The latter much to the disgust of the autonomists, in his own words, is still living back in Crown Colony days, and views the growth of Canada into a status of equality with the British Commonwealth of Nations as a menace.

#### THE CONTEST

As a result of the circulation contest, in which the names of the prize winners are today announced, the Standard finds itself in the enjoyment of a subscription list which it believes to be unequalled in the Maritime Provinces. This paper has never previously gone after what is known as transient circulation, that which is formed of street or agency sales, believing that the interests of advertisers are best served by catering to home circulation. A paper which is delivered regularly into the home is more carefully read than one picked up on the street; and while there may be, and no doubt are, other publications which enjoy a greater bulk circulation than does the Standard, this paper now holds a position which must be considered as very gratifying indeed in the matter of home delivered circulation. During the contest just ended more than thirty one hundred new subscriptions have been added to our lists, of which number a fairly large proportion are in this city. Those who participated in the contest worked well; and while all could not win prizes, it is felt that the cash commissions compensate in some degree at least for the work done.

#### NO AMERICAN SYMPATHY

Germany is not getting much sympathy from the new American administration. President Harding has quite properly refused to accede to the appeal to him to act as mediator in the reparations sum to be paid. M. Viviani left for France last week after a visit to the American people, carrying with him undoubtedly the goodwill of the republic and the official expressed wish that Germany shall be forced to make all reparations that is within her power. The common sense of the American people has been asserted recently and the pro-German and Sinn Fein effort to cause dissension among the Allies has dimly faded. M. Viviani was given where over he went a magnificent reception and there was no doubt as to the feelings of the mass of the people towards the Allies and towards Germany.

The New York Times, commenting on the mission, says: "Wherever M. Viviani went Americans showed their eager and resolute desire that France shall not be cheated by her old enemy, that Germany shall not be allowed to wiggle out of her bond. M. Viviani must have been greatly cheered to find that, for all the boasts and jubilation of the self-deceived friends of Germany here, the American people stand today as they stood in 1917. Their warm friendship for France is beyond question. He takes back with him a knowledge of our undiminished sympathy with his country, our undiminished distrust of Germany till she brings forth works meet for repentance."

#### A RESERVOIR OF WEALTH

A nine-foot vein of silver ore has been found in the Yukon. What need certainly put itself on the map these days. The famous gold deposits which drew the world's attention to the Yukon twenty years ago were taken as being rather a freak of nature; it was not expected that anything so tremendously worth while would be discovered in the Arctic regions. Now an oil well is spouting fifteen hundred miles down the Mackenzie, and scattered over the inter-drills are probing into the vitals of the earth. Perhaps before many years the half of Canada that was once and for long thought to be of little value will be found to be worth more than the farming belt.

The Labor Gazette brings the cheering news that the cost of the family food budget in Canada averaged \$12.32 per week at the beginning of March, compared with \$14.08 at the beginning of February, and \$15.28 a year before. If the monthly subsistence is not great it is steady. And winter months are those in which the cost level is likely to show the least change. The new season's products of one kind and another will begin to come on the market soon, and the downward movement is liable to show more speed.

Archbishop Bruchesi at Montreal has been "going after" feminine fashions, the "dance evil," moving picture films, and the Y. M. C. A. On the other subjects there will be division of opinion on both sides of the house, but in the matter of feminine dress, the objections will come mainly from the female of the species. Whatever they may be made to answer for, the women cannot blame the men for the way they dress.

#### WHAT OTHERS SAY

**The New British Unionist Leader.**  
 Mr. Chamberlain has some of his father's dash and brilliance, and so would be unlikely to make his father's headstrong mistakes, but he has great industry and admirable skill, he is a ready and capable debater, and above all he has a character which commands universal respect. If he was not nourished on the pure milk of the Conservative word he has assimilated a sufficient stock of the Conservative spirit. He is trusted as a straight, sincere, disinterested man, and these are qualities which happily count heavily in our public life.—Manchester Guardian.

**Pussyfoot's Motive Power.**  
 "Pussyfoot" Johnson told the New York reporters that he had a lot of fun in Canada. "I tried to make more noise than 15,000 Canadians," he said, "but it can't be done. 'But I was a lot of fun, and if I didn't have fun, I'd die.'"  
 "Pussyfoot" seems to be what the boys call a good sport, and he is refreshingly candid. "If I didn't have fun I'd die." There are very human qualities in the man. He must have his fun. Some people seek their fun one way, some another. Mr. Johnson enjoys himself best when he finds himself where the excitement is greatest. There are many like him. Excitement is necessary for their existence. That is why they become agitators and seek to become leaders. But they are not all so honest about it as Mr. Johnson. Many of them disguise their motives. They try to convince others—and themselves as well as doubt—that they are influenced only by their love for their fellow-men and their desire for the public good. Mr. Johnson admits that he must have fun or die.—Woodstock Sentinel-Review.

**"M. C. L." and Wages in U. S.**  
 A graphic and concise exhibition is given in the New York Evening Post of the relationship between the movement of wages and the cost of living based upon the authentic data of the United States Bureau of Labor Statistics and of the National Industrial Conference Board. In this the figures prevailing in the fall of 1918 are taken as par, in both wages of artisans and the cost of living, also of artisans and their families. The figures show, of course, a general parallel between the two movements, though with some significant divergences. Thus the maximum increase in cost of living, attained last summer, was 100 per cent. The maximum increase in wages, attained last fall, was 127 per cent. Thus while the two increases began substantially together, that in wages lasted longer and was higher than that in cost of living.—Harvey's Weekly.

##### THE CALL OF THE ROAD.

I ken a road, a bonnie road,  
 An' the like o' it's unc' few—  
 Where the fairies dance to the Pipes  
 An' the sun in the mornin' dew;  
 Where the violet raises her modest  
 head  
 In the lush-green grasses, as by a  
 tread.  
 Ah! 'Twas built for me an' you.

I ken a path, a winding path  
 Through the forest, green an' gay  
 Where "Jacks-in-the-pulpit" all in a  
 row  
 May preach for you sika day;  
 There are emerald mosses, an' lichens  
 fine,  
 Feathery ferns an' columbine;  
 Ah! 'Tis grand in the month of May.

I ken a path, a bonnie path,  
 Through a wavin' field o' grain,  
 Turning from green to mellow gold,  
 With scented sweet by the summer's rain;  
 It fills the soul with a keen delight,  
 And a grateful heart's refrain.

I ken a road, a bonnie road,  
 That stretches along by the heathery  
 hills  
 An' the sea where gowans hide;  
 Where the laverocks soar, and sweetly  
 sing,  
 An' the ray-hued togwolves and blue-  
 bells ring.  
 A message. Come ower wi' the  
 tide.

I ken a path, a narrow path,  
 A break to the hills o' mine.  
 Sometimes it's smooth, an' sometimes  
 rough,  
 Yet we'll reach there just the same;  
 For the beacon light shines bright  
 and clear  
 As we journey on frae year to year—  
 Ah! to hear the "Welcome Home."  
 —Jean Knox.

**Four Captured Yesterday for Robbing Summer Homes—Twenty-Three This Month.**

Loot of an estimated value in excess of \$400 was recovered by the police department yesterday, when a raid on a basement at 64 Braselton street, (Harrison's Alley), William Donaldson, aged twenty; Louise Jackson, aged thirty; Lottie Robinson, aged twenty-nine, and Mary White, aged sixty-one, were arrested by Sergeant Detective Power, Detective Donahue, Sergeant Spiney and Policeman Lewis.

Charged With Breaking.

The four were charged in the police court in the afternoon with breaking and entering, and stealing from the summer homes of J. Fraser Gregory, F. E. Williams, A. M. Bowen and the Misses Murray, all of Millidgeville. They were also charged with receiving stolen goods, knowing them to be stolen.

Donaldson is the only St. Johner of the four, the Robinson and White women are from Yarmouth, Nova Scotia, and the Jackson woman from the U. S. A.

In remanding the accused Magistrate Ritchie remarked that the present state of affairs in St. John was deplorable, three women, a man and a boy had appeared before him on the first day of the week, charged with theft, and 23 had been charged with stealing since the beginning of April.

Congratulations.

The authorities are to be congratulated on the rounding up of so many thieves. The Braselton street arrests followed a number of other articles, but were being effected Donaldson made good his escape by jumping out of a window in the rear of his house, but was captured later while hiding in a vacant house nearby.

The goods recovered filled two trunks and a number of suitcases and grips, they included silverware, most of which was stolen from the Rowan house, blankets, puffs and quilts, curtains, tablecloths, silk waist and a number of other articles. Gregory identified some of the goods as his. There were also some towels marked C.G.B. in the lot, whilst other articles led to a doctor who believes the women had been engaged in shoplifting as well.

**IN THE EDITOR'S MAIL**

To the Editor of The Standard:—Referring to the article appearing in the Saint John Standard under date of April 23rd, regarding the "new Secretary of Public Utility," I beg to state that I was appointed secretary to the N. B. Board of Commissioners of Public Utilities at its inauguration in 1917, 1918, at a salary so small that some could have been expected to devote all his time to the one office, and in 1919 I was appointed to the Customs Department, with the full knowledge of the then Minister, the Hon. Dr. Bell; that I held the position in the Public Utilities, and with the distinct understanding that I was to continue to hold it. As I have always been treated with the utmost courtesy by the Customs Department, I know beyond all doubt that had it decided that I could no longer hold both positions, I should have been courteously informed of this decision and asked to resign one position or the other, and not that it would have requested that I should be dismissed from the Public Utilities. You must know, Mr. Editor, that it is only the present Government of New Brunswick that employ the method I shall use—both—methods in its treatment of its officials, and it is quite in keeping with its methods that I received my only notification of dismissal through the medium of the press.

I cannot allow such a reflection upon the courtesy of the Department of Customs to pass without notice, and I trust that you will make this correction public.

I am, sir, yours truly,  
HARVEY F. ROBINSON,

**HOW TO KEEP CLEAN WHILE HOUSECLEANING**

No matter how carefully the housewife plans her daily, weekly, and semi-annual housecleaning, it cannot be done easily and quietly without suitable cleaning tools and materials. They are kept together in one place, time, bother, and nerve strength are saved. If they are given good care, money is saved.

The ideal arrangement is to have a complete set stored in orderly fashion in a convenient, well-ventilated closet. Whether a few or many kinds are needed, it is economical to buy well-made, durable tools and keep them in good condition and grouped together. If possible, it is well to have on each floor a supply of some of the things most constantly used.

As far as possible, cleaning tools should be put away clean and ready for use. Brooms, brushes, and mops should be hung by strings or screw-eyes fastened to the handles, so that the weight does not rest on the straws, bristles, or strings. Carpet sweepers should also be set so that the weight does not come on the brushes. The hair and lint which accumulate in brushes, especially in carpet sweepers, may be taken out with an old buttonhook, a coarse comb, or old scissors. Corn brooms may be washed in hot soapuds, but care must be taken not to let the water run at their own expense. Carried.

**Mother's Long Trek With Children Ends**

Halted When Wheel Comes off Baby Carriage and Then Mayor Buys Tickets.

Elizabeth, N. J., April 25.—Mrs. Mary Ellen and her two children, ten and three years old, respectively, who started to walk from Newark to Washburn, Ind., ended their stroll here today, having covered about ten miles. They were taken under the wing of Mayor Mravang when, on their arrival at the city limits of Elizabeth, in which Mrs. Allen pushed three-year-old Robert, came off. The mayor persuaded her to permit him to provide railway tickets and cash enough to defray other expenses.

When they arrived here, Mrs. Allen had seventy-five cents. She was worn out from the walk, as also was Elizabeth, the little daughter. Robert, who had enjoyed a long sleep during this ride in the perambulator, was the only one of the party in good spirits.

A large bank in New York loans radium to hospitals without cost.

**Church Has Clinic For Prayer Cures**

Newcastle, Pa., Clergyman "Lays on Hands" and is Gaining Reputation.

Newcastle, Pa., April 25.—Through the results obtained in a number of cases, thousands of persons in the Shenango valley are becoming convinced of the assertion of Dr. W. Thomas Reynolds, rector of Trinity Episcopal church, that it is possible to heal the sick, enable the lame to walk and the blind to see through prayer and the laying on of hands. The prayer circle and healing clinic was established in Trinity church more than a year ago, its fame spreading through Western Pennsylvania and Eastern Ohio.

Doctor Reynolds says, "It is but the revival of the power that has always been in the Christian church since its inception nearly 2,000 years ago."

**Seek Bandits Who Rob Girls' Stockings**

Police Tell of New Methods of Highwaymen to Secure Cash and Jewels.

Uniontown, Pa., April 25.—Now that the "motor ring" of thieves has virtually been broken up by the arrest of about a score of young men from different sections of the country, the authorities are turning their attention to the auto bandits who are working an entirely new trick to outfit their victims and get money and valuable jewelry.

In the majority of instances a black jack is brought into play where a bluff fails to work. About a dozen men and women so far have been robbed of all their valuables.

The highway men usually drive up to an auto as it is speeding along and inquire relative to the direction to a nearby town.

As they are receiving this information they produce either a revolver or blackjack and demand the money and jewelry in the party. And to show that they aren't oversteering any bets the stockings of the women in the party invariably are searched, while the male members of the party are lying unconscious on the floor of the car or peering into the muzzles of a dangerous-looking weapon.

The highwaymen are described as being well dressed. They first were reported from the vicinity of Connelisville.

A Sure Sign.

"Ma's going to get her new dress all right."

"What makes you think so?"

"A book agent just delivered another set of books pa signed up for."

**Civil Servants' Bonus To Remain Reduced**

Ottawa, April 25.—Despite the protests of many civil servants the government has decided to adhere to its first decision and cut the cost-of-living bonus for 1921-22 by 25 per cent. An order-in-council was passed at a meeting of the cabinet Saturday making the regulations for the bonus that are practically identical with those effective during the preceding fiscal year with the important difference of 25 per cent. in the amounts authorized for each class.

**Rumors City May Lose An Industry**

Persistently Reported That Maritime Nail Works May Move to Montreal.

Rumors were persistent about the city yesterday that because of labor troubles St. John was about to lose one of its leading and best known industries in the Maritime Nail Works. An official of the company was queried by The Standard on the report, but he was reticent to give out any information bearing on the matter. It was admitted by the official that the company has very recently secured in Montreal a structure, with a beautiful water power at its door, for emergency purposes. The work of dismantling the plant here and moving the machinery to Montreal would not be a difficult task was also admitted.

"If you should move, would you take your present staff of employees with you?" he was asked.

"You can take it from me," he said, "that wherever the Maritime Nail operates it will stand by its present employees. They are proving a most capable, efficient lot of workers, and are turning out first-class work. They have stood by us against outside opposition and I imagine they will stand by us in the event of a move."

**Business Slump In West Indies**

J. Willard Smith Found Conditions at Low Pitch in Places Visited.

With a capacity list, mails and general cargo the S. S. Chaudiere arrived yesterday afternoon from Bermuda, West Indies and Demerara. She brought a total of 134 passengers: 168 first, four second, and twenty-third. Among those on board were Mrs. D. W. Ledingham and her daughter Misses Eleanor and Mary, Mr. and Mrs. E. S. Stedman, Mr. and Mrs. O. Magee, Mr. and Mrs. J. Willard Smith and their daughter, Jean, Mr. and Mrs. J. W. Davidson of St. John, and J. L. Stewart, of the Chatham World, Mrs. Kilman Shives and A. K. Shives, Campbellton.

Business At Low Ebb.

While on his travels J. Willard Smith gave special study to business conditions and reports them exceedingly bad. There is a tremendous slump, he says, in the sugar and molasses market on the islands, which constitute 90 per cent of their trade, and with the shortage of their crops because of drought the past year, general business interests are particularly hard hit.

Travelling salesmen visiting the various centres of business, says Mr. Smith, are unable to get any orders. The same is true of travellers from England, travelling that country the past twenty years who never had an opportunity of opening his sample case as there was nothing doing. One merchant informed Mr. Smith that he wouldn't take goods if they were given to him. Because of all this there is considerable unemployment, and, all together, conditions are most discouraging.

Hotels Now Empty.

When the tourist season was on Mr. Smith said the resorts were well patronized and the tourists were well tapped. With the greater number of tourists there last winter the resort centres thrived. The hotels are now almost empty, and the big source of revenue for the past six months being cut off adds another burden to general unsatisfactory conditions.

It was the prevailing opinion in the places visited by Mr. Smith that the business depression there would last another year, and merchants are making their plans accordingly.

Mr. Smith returns home feeling well satisfied with New Brunswick as a place in which to do business and make one's home.

**CARE OF CLOTHES PAYS WEARER**

Why do some people look so trim and neat, while others who very likely spend more money on their clothes, look badly groomed and shabby?

The whole thing depends upon the daily care of one's clothes. To begin with, they should never be put away dusty or dirty. Hats should be brushed with a soft brush; if there are bows, a small piece of tissue paper should be tucked under them; feathers just ruffled near a gentle heat or put into a warm cupboard for a short time.

Coats and skirts should always be well brushed and shaken and any spots removed at once before being put away.

A little chest of drawers, covered with cretonne or a range of small boxes can be used for keeping lace, ribbon, gloves, and so on.

Skirts keep their shape well when hung up in a press which grips the sides of the calico lining are very useful for vests; a tightly fitting lid is needed, and four little runners will keep the box from scratching the floor and will enable you to move it easily about.

**Hotels Now Empty**

When the tourist season was on Mr. Smith said the resorts were well patronized and the tourists were well tapped. With the greater number of tourists there last winter the resort centres thrived. The hotels are now almost empty, and the big source of revenue for the past six months being cut off adds another burden to general unsatisfactory conditions.

It was the prevailing opinion in the places visited by Mr. Smith that the business depression there would last another year, and merchants are making their plans accordingly.

Mr. Smith returns home feeling well satisfied with New Brunswick as a place in which to do business and make one's home.

Miss Perry, of the National Y. W. Miss Perry is accompanied by Miss Bertha Gregory, the Red Cross nurse at the port, who will take charge of the Red Cross nursery now being equipped by the society at Quebec.

## Baptist Young People Rally

### Large Attendance at Main St. Church Heard Interesting Addresses Last Evening.

The rally of the Baptist Young People of the city and Parish held last evening in the Main street Baptist church, was very largely attended and the inspiring messages of Rev. Dr. A. A. White and Rev. W. C. Machum were listened to with the closest attention. Tabernacle church carried off the banner for the largest percentage of attendance but was closely pressed by Charlotte and Main streets. Mr. Hunter Parsons presided and the music was furnished by the choir of the Main street church.

Dr. White was leaving the city at nine o'clock he was called on by the chairman after the opening prayer by Rev. C. T. Clark of Fairville. Dr. White took as his subject the four fold programme of the Baptist Young People of the United States and Canada and the equipment which the master workman must have. The first requisite was a knowledge of what the task was and the motto of the organization must be taken to heart by all, "we study to serve." In these days of hurry it was very difficult to young people to study and in proof of this assertion he cited the experience of the city of Deaver where a survey brought out the fact that the young people were reading the trashiest of literature and this was a very poor preparation for leadership in the future. It would not do to back and say things were not right when we knew they were not, the thing to do was to learn the conditions and face them.

The second aim was to cultivate industry and to establish the habit of study and prayer. The aim to enlist an army of 1,000,000 young people pledged to spend a half hour every day in reading the Bible, pray and if this could not be accomplished then the outlook for the future was indeed dark.

The third aim was the bringing of the young people to a realization of the fact that they are only God's stewards and to get at least 1,000,000 who would pledge themselves to give a tenth of their income, as a minimum to the work of the Lord.

The fourth aim was to awaken in the minds of the young a consciousness that not only their money but their lives as well belonged to God, and as a definite aim there had been set before them the obtaining of 5,000 decisions by the first of July 1922 to serve either in the home or foreign fields and he was glad to say 1,000 had already been obtained.

In closing Dr. White said the work would not be done until the young men were looking for hard things to do, and there lay the challenge to the re-blooded youth of today, and urged each one present to look for the place where he or she could make the most of their lives for God and bend to the task.

Rev. W. C. Machum. The next number on the programme was a review of the New Testament by Master James B. Fretwell and this was followed by the duet of Messrs. Field and Smith of German street church. The calling of the roll followed this and while the committee were making up their report showing who won the banner for the best attendance, Rev. W. C. Machum, Maritime Secretary of Young People's Work, gave a brief address.

Mr. Machum outlined some of the needs in the home and foreign fields. At home there was at the present time 45 vacant pastorates and there was need for many young men to devote themselves to the work of the ministry to fill up the vacancies. On the foreign field the Baptists had in India alone 4,500,000 souls to give the gospel of and to do this they had a staff of 39 missionaries.

His address was followed by a solo by Miss Ethel Parke after which the secretary announced that the Tabernacle society had won the banner with a percentage attendance of 32. Charlotte Street second with 31 and Main Street third with 26, and it was handed over to the Tabernacle president to hold until the next rally, which will be in the fall. The singing of a hymn and the benediction brought the rally to a close.

## RECIPES

### Apple Omelet.

Peel, core and slice two apples. Melt a tablespoon of butter and steam the apples in this until tender, about five minutes. Add half a cup of milk, a tablespoon of flour, the yolks of two eggs beaten well, the stiffly beaten whites and a little salt. Turn into a well-buttered pan, cook and fold.

### Popovers.

Beat one egg, add half a cup of milk, half a cup of flour and a little salt. Bake in popovers. This makes six. Boil half a cup of maple syrup with a little water and add a tablespoon of cream, thicken a very little with dissolved flour, and pour hot over the popovers.

### Saute of Vegetables.

Scrape enough carrots to make two cups and cut them in dice. Boil until tender and drain. Add a can of peas, a piece of butter, salt and pepper. Turn into a frying pan and add a tablespoon of browned butter in it. Stir until a golden brown and serve.

### Steak with Vinegar Sauce.

Broil the steak and remove to a hot platter. Turn into the pan a tablespoon of vinegar and add pepper and salt. Let this come to a hard boil and serve poured over the steak.

### Shrimps on Toast.

Dice one pint of fresh or canned shrimps. Cook for three minutes in two tablespoons of salt, a little cayenne pepper or paprika, one teaspoonful of lemon juice and cook for one minute more. Immediately add one tablespoon of butter, one dessert spoonful of flour and one-half cup of rich milk or cream. When this begins to thicken, add one egg slightly beaten and three tablespoons of grape juice. Serve hot on toasted crackers or toasted bread points.

### Dainty Cakes.

Roll into some pastry dough some finely chopped raisins and nuts, cut the dough in fancy shapes and bake. Sprinkle some dough with currants, cut out in diamond shape, some red sugar over the top and bake, or add some spices and sugar to the dough, cut in small rounds and bake. Any kind of preserves, jam, mince meat or apple sauce may be converted in a few minutes into a small tart, made by laying preserves, jam, mince meat or apple sauce in the center of the dough, folding over and securely pressing the edges.

### Chop-Suey Recipe.

Chop-suey may be made the day after one had a pork roast or the roast may be made for the purpose. Cut the roast, into square small pieces, or as much of it as required. Add to it a cup of celery cut in dice, one finely minced green pepper, a couple of onions also minced fine, a cup of shredded cabbage, salt, pepper and a teaspoonful of Worcester sauce, and mix a cup and a half of the gravy of the roast, making it into a thickened sauce; place the mixture in a pan and heat to the boiling point, then reduce the heat and cook slowly until the vegetables are well cooked. Serve on a bed of noodles.

### Deviled Kidneys.

When the kidneys have been parboiled drain from the water and slice, make a marinade of the three tablespoons of olive oil and one of vinegar or lemon juice, a teaspoonful of mustard, salt to taste and red pepper. Into this dressing dip the kidneys and broil the slices; if preferred the slices may be first dipped in the dressing, then in breadcrumbs and fried. Make a butter sauce of melted butter, a little lemon juice and minced parsley, or, if preferred, the fried or broiled slices may be served with the olive oil dressing.

### French Artichokes.

Remove all the outer leaves and cut off the top of the leaves. Cut the top of the bud and then place the artichokes in boiling water and cook until tender, which may require nearly an hour. Drain off the water and remove the thorns; serve hot with melted butter. If one wishes to serve the artichoke cold, use French dressing for serving instead of butter.

### Peach Mousse.

Soak 1 teaspoonful gelatine in 2 tablespoons cold water. Add 1 cup hot water to dissolve. Add to 1 cup strained peach pulp with 2 teaspoons lemon juice and 2 cup powdered sugar. When mixture begins to boil, add 2 cups cream, beaten until stiff. Pour into a mold, seal and pack in equal parts of ice and salt. Other fresh fruits may be substituted for peaches.

### Planked Fish.

In planking—and there is no better way of developing the distinctive flavor of any of the delicate white-fleshed fish—the plank itself is of first importance. It must be of hardwood—hickory, cherry, live-oak, cedar or ash, well seasoned and sawed about an inch and a half thick, rounded or tapered at one end and like an ironing-board. This plank is to be cut to the length of the fish. It is best to get one tongue and grooved, the ends with wire attachments to hold the fish in place. These can be purchased now at any of the hardware or department stores, and so reasonably that even the housekeeper of small means can afford to keep a plank on hand.

### For Precious Clippings.

Every woman interested in her home appears or later forms the habit of clipping recipes, hints and articles of a varied nature which she intends some time to enter in a scrapbook. One often they are mislaid before that time arrives. A letter file, book-like box with index, is excellent, either for permanent or temporary filing. If filed alphabetically, the clipped articles are easily found when wanted.

## MUNICIPAL CHAPTER I. O. D. E.'S MEETING

The Municipal Chapter of the I. O. D. E. held a meeting at the Board of Trade rooms Monday afternoon with Mrs. J. Boyce Travers, Regent, presiding. All the chapters have agreed to unite in the production of a grand pageant to be given in the near future at the Imperial Theatre, and arrangements for that event were completed yesterday. Each chapter will take charge of one tableau for the occasion and will be responsible for everything pertaining to it.

A full report of the annual convention of the I. O. D. E. recently held at Fredericton was given. Routine business took up the remainder of the session.

### FASHION EDITOR SAYS.

That mosquitoire gloves are to continue their vogue next fall.

That black crepes in Vionnet styles continue to be featured in interesting variations of the utmost simplicity.

That bronze and gray lace dresses and white and cream lace over dark foundations are seen at smart New York afternoon and evening functions.

That capes with deep fitted shoulder yokes hugging the figure to the elbow are made of every material, including wool jersey, says New York.

That a New York paper announces the meekest man to be the woeer, who persuaded his future mother-in-law to buy the engagement ring, and then stole it, pawned it, and fled!

That black and white, and navy and gray continue to be favored combinations here, and tan dresses are getting to be almost as numerous as gray ones, says New York.

That Paris is showing an amusing accessory to carry with dance frocks, who persuaded his future mother-in-law to buy the engagement ring, and then stole it, pawned it, and fled!

That panels are much in advance of all French types, but instead of the slip panels from the waistline, there are panels draped from the shoulder at the back or from the collar over the front of the frock.

That even if fashion does pull the hair away from the ears, one of them still will be modestly draped by the trailing trimmings of this season's hats.

Everything with rice and baking the whole thing into an hour.

There are two things to keep in mind about left-overs. One is that meats that have been cooked cannot stand prolonged second cooking, so must be little more than well heated, never baked or boiled for a long time.

The other little secret is the judicious use of onion for a little added taste and meat will blend the flavors into one.

Scalloped Scallops. One pint scallops, one cup soft bread crumbs, two tablespoons butter, salt and pepper, three-quarters of a cup of milk.

Wash the scallops and cut in small pieces. Cover with water and bring quickly to boiling point. Drain. Mix scallops and bread crumbs with salt and pepper, butter and milk. Put mixture into a buttered baking dish and bake half an hour in a moderate oven.

Buttered dried bread crumbs may be sprinkled over the top to make a crispy crust.

Fish Balls. Place a half cup of the fish in cold water on the back of the stove. When the water is hot, pour off, and add more cold water until the fish is fresh enough. Drain, pick it up.

Boil and mash a few potatoes, mix fish and potatoes together while potatoes are hot, taking two-thirds potatoes and one-third fish and blending in a level teaspoonful of butter.

Make two balls and fry in plenty of hot lard. Be sure to have the lard hot before putting in the balls.

If you prefer, these balls may be sauted, putting just enough fat in a spider to keep them from sticking. If you cook them this way it is a good idea to fry about four slices of fat salt pork first, cook the balls in the fat and serve garnished with the pork.

## AS A WOMAN THINKETH

By HELEN ROWLAND  
(Copyright, 1920, by The Wheeler Syndicate, Inc.)  
Why Men Marry

HE said:  
"It's awfully good of you to let me see you."  
"This is the kind of day, when I love to break away from the office—May, with a touch of June in it! Utterly demoralizing!"  
"Makes me wish I'd been born rich—instead of honest."  
"So that I could hop a train, and get away, somewhere, about a million miles from telephones, and briefs, and postmen, and ledgers, and stenogs and office routine."  
"And just lie out under a tree, and fish, and do the 'primitive,' in a flannel shirt."  
"I'd cook my dinner over a wood-fire."  
"That's the life, isn't it?"  
SHE thought:  
"Wouldn't he look fascinating in a flannel shirt! I love the way his forehead curls over his forehead! I wonder if he'll like this new sachet I'm using."  
HE said:  
"Neither have I. Never could bear to meet celebrity—they're always so commonplace!"  
"Rather keep the distance that leads enchantment—and use my imagination on them."  
"All opera singers are fat and stupid; all writers are mercenary and never talk anything but money, and all poets and musicians are ingrowing egotists, with bad manners and sensitive souls!"  
"What do you think?"  
SHE thought:  
"I wonder if he'll take me out in his car, Sunday? And what shall I wear if he does? I think I look rather well in this blue thing. His teeth are really beautiful! I wish I had my vanity-case—my nose feels shiny!"

### GREEN IN YOUR ROOM.

There is no time of the year when it seems so absolutely essential to happiness to have something growing and green in our rooms as in the early Spring. Later on, when Summer is in full swing, the windows are out of doors that we do not crave the indoors greenery so greatly. And in the Winter, of course, we simply stifle our desire for summery things, saying, "If we have to. But in the Spring, especially if we are city-bound, we crave something growing.

### STYLE HINTS.

Many new afternoon frocks show little change in silhouette, which is straight as to line, with modest round décolletage, varied with the simple Florentine line, very short sleeves and low waistline, accentuated with sashes or similar contrivances.

The all black suit with frilly white blouse, or blouse with Peter Pan collar, the black and white suit or dress, and the hat which was either all black, all white or a combination of the two, is an outstanding note of the spring styles.

Very smart grey or tan twill cloth or tulle, the dress models embroidered in floss and metal thread, the more tailored ones braided and button trimmed.

Nothing is smarter for the "jeune fille" evening frock than the fall skirt in the Gown effect, such as that favored by Lanvin, the skirt almost entirely covered with bands and rosettes of ribbon or rows of overlapping petals, or simpler groups of tucks.

Jade is used over and over again for buttons, for cabochons, for buckles, for chains, for girdles, for whatever there is a possibility of excuse this stone is dragged in, for it is the favorite color of the season.

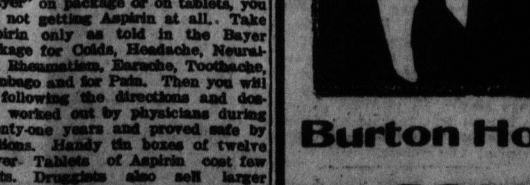

In Turkestan a wife can be bought for a box of matches.

That Bryn Mawr College, Pa. will open this summer for the instruction of women workers in industry, at the cost to the student of \$200, which will pay for tuition, board and accommodations in one of the college dormitories.

That a New Yorker declares "the minut was the dance of flirtation, the waltz was the dance of sentiment, the turkey trot was the dance of intelligence, and the toddle is the dance of the intellect—marking the sentimental progress of man."

### ASPIRIN

Only "Bayer" is Genuine

Warning! Unless you see the name "Bayer" on package or on tablets, you are not getting Aspirin at all. The Aspirin you get is sold in the Bayer package for Colds, Headache, Neuritis, Rheumatism, Earache, Toothache, Lumbago and for Pain. Then you will be following the directions and dosage worked out by physicians during twenty-one years and proved safe by millions. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacturers of Monocarbonyl Chloride, Berlin, Germany.

More and more fancy are the straps on evening slippers and pumps and the younger set who dance a great deal favor the evening slipper with the ankle strap which keeps it from slipping off the heel and is much more comfortable.

## A FEW FACTS ABOUT SHOES.

Well-stitching and well-cared for shoes often reduce an otherwise shabby costume.

Expensive shoes are seldom extravagant if the money is paid for quality and fit and comfort.

If you wear two pairs alternately, they will last longer than if worn consecutively.

Shoe-trees are necessary to preserve the shape and if used while cleaning white shoes, the shoes will not shrink.

Keep shoes free from dust. Brush well and polish often. This preserves the leather as well as improves the appearance.

Rubbers will protect the leather and sewing threads on rainy days.

Watch the heels of your shoes. If they are allowed to get run down, it spoils the shape and appearance of the shoes as well as being very injurious to your health and disposition.

### HELPFUL HINTS.

Mix ginger cookies with cold coffee instead of water. It will improve them greatly.

When making "thickening" for sauce, gravies, etc., use half flour and half cornstarch.

For New Cabbage. Boil a young cabbage head in salt water for 15 minutes. Remove heart and fill center with a stuffing made from the cabbage heart, mixed with chopped beef or mutton, a chopped fried onion, seasoning, bread-crumbs, boiled rice and cooked chopped celery. Tie cabbage with string and stew one hour in good stock. Serve with rich gravy or puree.

Rye Muffins—Mix a cup of rye flour, three teaspoons of baking powder, a cup of milk, a tablespoon of molasses, one egg, half a cup of white flour and two tablespoons of shortening. Bake in muffin tins in a moderate oven.

Luncheon. Tomato Flip—Drain a can of tomatoes and place the whole tomatoes in a hot frying pan with a little butter or bacon drippings. Fry brown and add about three-quarters of a cup of milk in which a level tablespoon of flour has been dissolved. Boil up once, season and serve.

Always remove the skin and bone from fish while it is still warm. They come away easily then.

If boiling water be poured over remains that are to be stoned, the fruit will plump out and the stones will come away quite easily.

When brown stock is needed for some dish and none is handy, dissolve a little meat extract in water and use instead.

"Let me show you our new correspondence paper for ladies," said the stationer. "We consider this the greatest novelty of the season."  
"It's very pretty," said Mrs. Barlow, "but why is it specially for ladies?"  
"It has the letter 'P'—postscript—engraved at the top of the inner sheet," said the stationer.—Pearson's Weekly.

### NOT HIS SORT.

The other day a little fellow of middle-class parents and dressed accordingly, was having a merry romp on the esplanade, rolling around on the concrete walk regardless of his clothes entirely. During a pause in his play his mother said to him, pointing to two boys in immaculate white suits: "Look, dear, wouldn't you like to be nice and clean like those children there?"  
"Huh!" replied the youngster scornfully, "they're not children; they're pets."

### Plenty of Action.

Slapstick Director—Can't you suggest a novel from which we could adapt a comedy?  
Comedian—My memory isn't very accurate, but isn't there a book called "Alice Threw the Looking-glass?"

White wool skirts with black box coats or dark blue or black silk sweaters with the embroidered collar and cuffs of a net blouse turning over those of the coat or sweater are favored sports wear at spring resorts.

## St. David's Church Fireside Club

### Annual Meeting Held and Banquet Enjoyed—Officers Elected—Theatre Party.

The annual meeting of the St. David's Church Fireside Club was held in the church Sunday school rooms last evening and took the part of a banquet. About thirty members and guests enjoyed an excellent repast which was served by the ladies of the church.

At a business meeting held, J. Britain was elected president; Ronald Shaw, vice-president; Kenneth Nelson, secretary-treasurer.

The secretary reported that meetings had been held weekly during the past term and the average attendance had been good. He also reported the club would take over the support of a college student in India, formerly carried by the Young Ladies' Society.

After all had done full justice to the good things provided by the efficient lady caterers, the toast to the King was proposed and responded to by the singing of the National Anthem.

The toast to The Church was proposed and responded to by Rev. J. A. MacKegan in a brief address.

The toast to The Fireside Club was proposed by Mr. Girvan, and responded to by Mr. Robb.

The toast to The Ladies was proposed by Ronald Shaw, and was responded to by Mrs. D. G. Malcolm.

Short addresses were delivered by Major J. T. MacGowan, J. Britain and Malcolm MacGowan, the retiring president.

A very happy time was brought to a close with the singing of Auld Lang Syne and on the invitation of Major J. T. MacGowan the party formed into a theatre party and attended the performance at the Imperial.

Tokio, April 22.—The United States  
 Shipping Board's steamer Watanabe, which  
 sailed April 10 from Victoria, B. C.,  
 for Yokohama, has developed engine  
 trouble. The high pressure starboard  
 turbine of the vessel has been dam  
 aged and the steamer is running on  
 low pressure, making only 12 knots  
 an hour. She is due here late tomor  
 row, two days behind her schedule.

 right spar projecting about 6 feet out

 merged wreckage.

April 12, lat 41° 14', lon 49° 43', what  
 appeared to be a spar buoy, covered  
 with marine growth, projecting about  
 2 feet out of water.

April 11, lat 33° 60', lon 68° 57', a  
 whistling buoy, with superstructure  
 about 12 feet high on top, whistle  
 blowing faintly.

April 9, lat 47° 45', lon 8° 30', strack  
 what was probably a submerged ob  
 ject.

April 8, lat 49° 55', lon 7° 44', several  
 floating nets and six buoys, probably  
 of the St. John's fishery.

April 7, lat 50° 30', lon 0° 40' W, a  
 mine; lat 50° 23' N, lon 1° 30' W, a mine;  
 lat 49° N, lon 1° 20' W, a mine attached  
 to wreckage.

April 15, about 3 miles northwest  
 of North Ridge, Eng., in (approximately)  
 lat 53° 39' N, lon 0° 43' 20' E, a sub  
 merged object.

The following information was re  
 ceived from the U. S. Consul-General,  
 London, under date of April 18, 1921.  
 The wreck of the Greek steamer  
 Kallion lies about 2 miles west of  
 West Hinder Light vessel, in (approx  
 imately) lat 51° 22' N, lon 23° 23' E.
