UNITED FARMERS IN CONVENTION

Representative T. W. Caldwell, M. P., Name of Hon. G. F. Smith was Placed Before Convention

The first gun in the impending Federal contest, so far as Carleton-Victoria is concerned, was fired at the U. F. convention held at Andover on Monday, when Judson R. Corey called the mass of nearly five hundred delegates to order and announced that nomination of a United Farmers' candidate to contest this constituency in the impending Federal fight would be the chief business of the meeting. Thomas W. Caldwell, a farmer M. P. in Canada's last parliament, was introduced and at once launched out into a discussion of public matters that he considered of importance. He did not go into any one subject very thoroughly, but just indicated the many matters that would receive due attention from himself and other speakers at a later stage in the campaign. Such matters as the tariff, public debt, merchant marine, excess profit tax, railways and others were lightly touched on. In passing he rather strongly criticized many things connected with these public interests, particularly the discontinuance of the tax on profit and luxuries, and the merchant marine. He stated that he was not there to talk long as there was other work for that meeting but would say in closing that he disliked the life of a politician, and though always fully appreciating the honors conferred and the oft repeated assurance of confidence expressed by the United Farmers he would like to be out of the game. He felt that there were others to be found just as capable, who would possibly be more in their element. The chairman here interpreted the remark that after a time had become somewhat facetious with his duties was a poor time to make a change. An expression that was as well received by the convention that it was evident that there was only one object in view and that was to nominate big, husky, good natured Tom Caldwell to succeed him in the constituency of the U. F. of Carleton-Victoria.

When the chairman called for nominations Caldwell's name was immediately presented. A short pause followed and then George Brooks sprang a surprise by nominating T. W. Caldwell.

This nomination was immediately seconded by another Smith enthusiast and the pyrotechnics began. For a few minutes it was some convention or convulsion, if you like.

Mr. Smith asked to be heard and was greeted with cries of "No, No!" The chairman suggested that all nominations made in good faith should be accorded due consideration and that all should have fair play. Some demurred at introducing any but bona fide members of the United Farmers and one inquisitive individual asked as to just what country Mr. Smith would represent, anyway. By this time Mr. Smith was on the platform and order had been reformed and order had been restored. Mr. Smith was out with all his "war togs" on and, given the old-time conditions, he was there with the old-time spirit and virility to make a killing. But it was no use, the big crowd never at any one time gave evidence of any feeling other than that of sticking squarely to one object. Mr. Smith stated that he was more astonished than ever before in his memory by the fact matters had taken. Immediately he acknowledged that he had been approached by some Victoria friends in connection with his nomination. He expressed dissatisfaction with many features of the U. F. policy claiming that the east was practically ignored and gave this as a reason why he could not accept a nomination from that party as he would have to take issue in the interests of the eastern potato growers. He then called into Mr. Caldwell's record as a representative of the people in Canada's government and in doing so particularly commended the governments record in connection with the merchant marine. He allowed that all governments were at times victimized more or less. He post-pooled the criticism of the public debt and asserted that unquestionably able-minded men had been carrying their time and ability to the conduct of public affairs in Canada. He claimed that the tariff was now at its lowest ebb. A voice in the audience: "Not low enough," to which Mr. Smith answered, "No! It is not." After charging Caldwell with a general lack of duties and challenging him to explain this stand on the increased indemnity Smith switched to a new act and charged Caldwell with a general inattention to the needs of the Canadian condition of the United Farmers. At

ter expressing an appreciation of the evidence of a disposition among some to again repose confidence in himself, he asked the mover of his nomination to withdraw his name from the convention. Eventually Thomas W. Caldwell was declared the unanimous choice of the convention.

Mr. Caldwell in replying to Mr. Smith claimed that he had been always diligent and faithful in his service. In the matter of freight rates on potatoes he stated that all rates had to be paid in American money during last winter on potatoes going to Boston. This meant \$1.16 for every dollar on the whole haulage. There being no facilities at St. John, Canadian shipments went through Boston, where if this business could have been handled at St. John \$2.00 could

T. W. CALDWELL, M. P.

have been paid when the producer was only getting 75 cents. He took up the matter of shipping through St. John with the government and the manager of the merchant marine and made general hints to Montreal and St. John and though ably backed by Hon. Mr. Wignmore got nothing but promises to look into the matter. What more, he asked, could one man do?

Mr. Caldwell met the matter of increased indemnity squarely and made plain that his stand on the question was consistent.

Short addresses by N. Wallace, John Malcolm and Gordon Shaw closed this most satisfactory U. F. convention.

CAMPAIGN NOW IN FULL SWING

Temperance Workers Entering into Work Enthusiastically—Good Organization

At a meeting held in the Town Hall on Monday night, with Rev. E. A. Trites presiding, organization was accomplished for the conduct of the prohibition campaign in Brighton. Plans were suggested and committees were named to see the suggestions that were adopted are put in motion. Such matters as autos for conveyance on election day, advertising, and meetings are to be looked after in this manner. It was suggested that meetings be held in each school district and that each parish should finance its own campaign work.

L. E. McFarland, Amasa Plummer and A. L. Baily were named as a finance committee. As to meetings the following is the arrangement proposed: Rev. E. A. Trites to talk at Knowltonville and other places; Rev. H. V. Dragon to make a special plea at his regular circuit appointments; Rev. H. C. Mullen to speak on Sunday and week days as may be arranged; Rev. Thomas Pierce to be requested to address at East Brighton audience on this subject.

A. B. Plummer, F. A. Aiton and J. B. McCallum were appointed a committee on arrangements and organization, with Clyde E. Ridout a special

HARTLAND SCHOOL FAIR A SUCCESS

Big Attendance and Fine Lot of Exhibits—Children Very Enthusiastic

Pupils, teachers, parents, trustees and all others who worked to make the undertaking a success are to be congratulated on the very excellent showing of vegetables, seeds, roots, grains, cookery, sewing, fancy work, carpentry, drawings, compositions, flowers, poultry, etc., at the most successful school fair ever held in Hartland. Saturday was fine bringing a large turnout of townspeople, as well as many from outside districts. Notice from the Department at Sussex was very short and although invitations were extended to many other school districts, only Lower Brighton responded. This school had a very fine and quite considerable exhibit and carried off a large number of prizes. Getting the exhibits ready made a big lot of work for pupils and teachers, but the latter must surely have had great satisfaction in the interest of pupils, parents and visitors as well as the very substantial part played by all others who contributed so generously to make up the sum of almost \$30 for special prize lists. The various displays were surprisingly fine and called forth very hearty congratulations from C. C. Macdougall, Dept. Inspector, who furnished 40 per cent of the prize money, the School District paying 60 per cent of the \$35 expended. As a rule there were 1st, 2nd, 3rd and 4th prizes of 25c, 20c, 15c and 10c, besides there was a special list totalling about \$20. The two rooms on the 2nd story were fitted up for the exhibit. Down stairs was a lunch counter the boys doing a lively trade in hot dogs, etc., while the girls ran two booths, serving candy and ice cream. All the counters did a brisk business, making very considerable sums of money.

The visitors took great interest in the new Department fitted up on the 3rd story and also in the fire escapes at the rear of the upper rooms. Only those who were present and took part can realize the amount of knowledge, training and work necessary on the part of teachers and pupils to grow, prepare, tag, arrange, cook, bake, sew or make such an array of fancy work, cooking, bird houses, milk stools, poultry crates, writing, drawings, nature portions, etc. etc. etc. What a training and knowledge the pupils acquire! What an influence and uplift for good, serviceable, trained citizenship with a proper understanding of how to carry on along these lines!

Rev. E. A. Trites and J. E. McCollum aided Mr. Macdougall in judging, while a committee of ladies of the Women's Institute judged the cooking, sewing, fancy work, etc. The children were also provided with a round of races while the judging was going on.

On Thursday shortly after noon, James B. Stewart, the well known railroad contractor, passed peacefully away at his home here, after an illness of about two months, of diabetes. Although not unexpected, his death came as a shock to his numerous friends. The best medical skill was employed, and everything that loving hands could do was done to prolong his life, but all in vain. His age was about 74 years. Mr. Stewart was born in Prince Edward Island, but came to this place when a young man at the time the railroad was being built through here. In early life he married Miss Laville Armstrong, daughter of the late Stillman and Marie Armstrong who preceded him 29 years ago. Seven children were born of this union, six of whom survive, namely, Mrs. L. A. Fenwick, Annie and Esme, Murchie L., Herman F. and Burton R. Stewart. Charles being killed in the war. Besides these he is survived by a sister, Mrs. McDonald, and two brothers, Norman, and Donald, at the Island, and two brothers, Jonathan of Montreal, and John E. of Wapke, both of whom were present at the funeral. Mr. Stewart had followed railroad building practically all his life, and had taken large contracts in many parts, always making good. In 1913 however, he retired on account of ill health, and in 1914 sold out his interest, when his son, Charles, entered the war. Since that time he has engaged in farming, and has been very successful in this line, as he owned one of the finest farms in the country. The funeral, which was one of the largest ever seen here, was held on Saturday afternoon at his late home. Rev. Gordon Pringle of the Colony of Rev. C. O. Howlett: Mr. Pringle spoke with deep feeling of the last days of the deceased, in which his mind seemed to wander back to his boyhood home at P. E. I., and the Sunday School he used to attend, at times quoting passages of scripture he had learned there. A choir composed of Mrs. M. L. Wright, Mrs. E. W. Estabrooks, H. E. Blaklee, C. L. Olmstead and LeBaron Hopkins, sang "Jesus lover of my soul," "The Lord's my Shepherd" and, "Lead Kindly Light." Mr. Hopkins also sang a solo, "One Sweetly Solemn Thought." Mrs. Geo. B. McLaughlin, accompanied. The floral display was unusually beautiful, one piece being a handsome pillow from the family.

The pallbearers were J. W. McNair, Geo. Mayor, John McNair, William Miller, C. R. Inman, and Chas. Beck, a brother contractor, and friend of deceased. J. E. Armstrong, conducted the funeral.

The A. F. & A. M., of which order Mr. Stewart had long been a member marched upwards of 50, to Larlee Creek cemetery, where the remains were tenderly laid to rest. The beautiful Masonic burial service was read by Master Percy Sisson. As the casket was being lowered into the grave the brother Masons sang "Nearer my God to Thee." Among those coming from a distance to attend the funeral were, Mr. and Mrs. Walter Ridley, Miss E. M. Parker, and Miss London, of Woodstock, and Miss Serena True of Jacksonville, friends of the family. Mr. and Mrs. D. J. Bishop of Presque Isle, Mr. and Mrs. Henry Armstrong, Carlson, Mr. and Mrs. M. Armstrong

and sister, Mrs. Beatrice Lamson, Almon, Frank and Thomas Armstrong of Fort Fairfield. Mr. Stewart was honest and upright in all his dealings, and counted his friends in large numbers. He was a kind obliging neighbor, always devoted to his family, taking the place of both mother and father. His place cannot easily be filled. The family have the sincere sympathy of all in their hour of sorrow.

Nowadays the public needs a better service in the winter than in summer, as in the motor season the most of the people travel by automobile.

HARTLAND SCHOOLS PROGRESSING FINELY

Hartland is certainly rousing up to a wonderful interest in educational matters as witness the following: A special school meeting with very large attendance, an annual meeting with the largest attendance in the history of the district, a very successful Arbor Day celebration, a school closing held in Star Theatre, an agitation for a new school house, larger and better school grounds with more and better equipment for work and play, a new department with fire escapes for all upper rooms and probably an other new netting over \$40 with another for the Fair taking about \$30, the addition of the "Children's Encyclopedia or Book of Knowledge" to the library and also the forming of the first Trustee Association in New Brunswick. It may also be added that the trustees, secretary, principal and teachers are holding meetings once or twice a month to study and discuss the various problems and matters continually arising so that each party may become better acquainted with the views and difficulties of the other, to the end that the very best work for

the educational betterment of the district may be done.

Morgan resigned as auditor owing to pressure of other work and Arthur Dickinson was appointed. Manager Geo. O. Britton reported on the new line to Mainstream, betterments in Hartland, consisting of considerable lead cabling, covered wire cable, moving and replacement of poles along Main street, gain of phones installed over removals, etc. A financial report was made by the secretary, J. S. King, which presented a very encouraging outlook for the future and particularly for the year's business. Mr. Palmer is a brother of Mrs. Birmingham, whom she had not seen for fourteen years. On their return home they made the trip from Fairfield to Brighton in the afternoon. Not too bad for a seven-year-old Ellsabeth.

CLARKE-NIXON

At the home of Mr. and Mrs. Richard Nixon, Lower Brighton, yesterday, their daughter, Lena Isabelle, became the bride of David Lee Clarke of Hartland. The bride entered the parlor in the arm of her father, who gave her in marriage. Both bride and groom were unattended and the ceremony was performed by Rev. A. Hatfield. Mendelssohn's Wedding March was beautifully rendered as the party entered the parlor, and the ceremony was witnessed by a large number of guests, some of whom came from Fort Fairfield, Boston, St. Stephen and other points. The house was prettily decorated in cut flowers, ferns and autumn leaves. After the ceremony the party was served with a delightful buffet luncheon and at four o'clock the happy couple took the express for a tour that will include provincial cities and Montreal. The groom's gift to the bride was a substantial cheque, to the flower girl, who was little Miss Viola Clarke, sweetly dressed in pink satin, a finger ring, and to Miss Julia Birmingham, who played the wedding march, a handsome brooch. The bride was the recipient of many beautiful, useful, ornamental and costly gifts, among them being a considerable amount in cheques.

Upon their return the young couple will make their home in Hartland where their presence will be welcomed by the host of friends that both already have here.

The bride was until her marriage an efficient and obliging operator in the Farmers' Telephone central office. Both have the best wishes of a large circle of friends.

This issue of The Observer is particularly interesting because of the many money-saving offers made by the merchants of the county. The fresh rush for trade is a hopeful sign, an encouraging indication of business revival. The county is still safe; everything is lovely and the goose comes high.

WONDERFUL GAIN IN WEIGHT REPORTED

Young Woman Only Weighed 76 Pounds—Now Weighs Over 100 and is Gaining Every Day

"Before I began taking Tanlac I only weighed 76 pounds, I now weigh over 100 pounds and am gaining every day," said Miss LaRue Davis, of Chattanooga, Tenn.

"I bought my first bottle of Tanlac at Gas City, Ind., and it helped me so much that I continued using it. I have always been very delicate and suffered a great deal from stomach trouble and rheumatism. I rarely ever had any appetite and simply could not relish anything. I fell off until I only weighed 76 pounds and was so thin I looked perfectly awful. This is the condition I was in when I began taking Tanlac."

"Oh, I feel so different now. Even my complexion is improved. My appetite is good and I can hardly get enough to eat. Tanlac is simply grand and I can truthfully say it is the only medicine that ever done me any good."

Tanlac is sold in Hartland by Estey & Curtis Co., and by leading druggists everywhere.

New lot of printed butter wraps just received by The Observer. For sale only to merchants and at current wholesale prices. Mail orders promptly filled.

MAKING HISTORY AT GRAND PRÉ

At Grand Pré, Nova Scotia, the other day, three hundred members of the Acadian National Congress assembled, and kneeling reverently at the statue of Evangeline, the heroine of Longfellow's immortal poem, accepted on behalf of the Acadian race a gift of two acres of the Evangeline Memorial Park from the Dominion Atlantic Railway.

There are in all about fourteen acres in Evangeline Park, and the two acres were presented to the Acadian race on the condition that they would build a church there.

George E. Graham, general manager of the Dominion Atlantic Railway, expressed his pleasure at welcoming the delegates. With regard to the proposed church, the D. A. R. would still further beautify the grounds and would give it perfect setting. The company would open the old post road that had been closed for fifty or sixty years. He asked them to cast their minds forward the next five years when this chapel would be erected, a beautiful sanctuary in the midst of a beautiful country.

Mr. P. J. Venoit, minister of highways for New Brunswick, subscribed \$100 for the erection of the new church and George E. Graham \$100 and the Rev. Father Cormier addressed the people, saying that the church would be erected on the site of the old church of St. Charles. It would be a facsimile of the church of their ancestors.

(2) Around the statue of Evangeline at Grand Pré.

Hon. D. V. Landry, Moncton, president of the Acadian Congress, formally took possession of the plot and returned thanks to the Dominion Atlantic Railway for the gift. Men and women knelt reverently on the ground, the tears streaming down their faces, murmuring blessings on the day that had restored to them the land of their ancestors. They plucked flowers and leaves and dipped their fingers into the water, all of which were more sacred in their eyes than words could tell. The pilgrimage to Grand Pré took upon itself all the characteristics of a pilgrimage to Holy Land. In the past, said Mr. Landry, the Acadians had been reproached as an inferior people. That reproach was now eliminated. The ambition of the Acadians now was to unite in work that would make not only for the returning of progress but for the advancement of all Canada. These sentiments were the sentiments of the whole race.

Those from rural districts eligible to vote may do so whether their names appear on the lists or not providing they can be vouched for and go on oath at the poll.

Do not be fooled by the anonymous ads of the "wets" who fail to render a reason. They are hard pressed when they have no better argument than the fact that lack of drink drives men to drugs. What gave them this appetite? No stranger argument could be produced against strong drink than the fact that it leaves men with this unnatural

craving which only drugs seem to satisfy.

Banish "booze" and in another generation there will be few dope fiends.

We challenge the liquor traffic to produce any evidence that they have ever helped any business outside of the undertaker's. Moreover they cannot point to a single institution that they erected or maintained in the interests of humanity, such as schools, churches and orphanages, but on the other hand this deadly menace to society has filled our jails, reformatories, asylums and alma houses.

Montreal as an Immigration Centre

The Empress of Britain, one of the big immigrant liners of the Atlantic on the St. Lawrence Route. On her last voyage she brought 800 settlers to Canada, most of them bound for the West.

Montreal is one of Canada's chief immigration centres. While the chief ports of disembarkation are Halifax and St. John in winter and Quebec in summer, a large proportion of the arrivals reaches Montreal on their way west or for redistribution, while many stay off at that city in order to settle in Quebec province.

Evidence of its being a busy immigration centre are seen at the wharves as well as the railway stations. Come with me to the Canadian Pacific Ocean Service dock. The Melita has just come in at an hour when the city has hardly awakened. Soon after the big leviathan ties up at the wharf—and remember that she sailed up a river for eight hundred miles from the open sea—all is bustle and excitement, for the docking of a transatlantic vessel is always an imposing sight. Gang planks are lowered, donkey engines sing their noisy song as they hoist the endless number of trunks from the deep holds, and the passengers land once again on solid mother earth.

Among the hundreds of passengers are scores who may be regarded as newcomers and as prospective settlers in a new land, the third-class passengers having left the ship at Quebec. And among the Montreal arrivals are many who belong to the class of household workers, for whom Canadian homes are waiting. As they have been helped while on board by a C. P. R. major, so on

land there are immigration officials of both sexes, and port chaplains of the churches, priests and sisters from the Roman Catholic Church, T. W. C. A. secretaries, Jewish missionaries and many another ready to render help. The service thus rendered is of the highest value and is greatly appreciated.

With baggage and luggage arranged alphabetically in the long freight shed, it is an easy matter to identify and check the mountains of trunks and bags as they are piled high in the transport wagons for the railway station.

Next let us go to the Windsor Street Station of the Canadian Pacific Railway. It is always a busy centre, but after the arrival of several ocean boats it is doubly thronged, and yet such is the excellent system in vogue that there is no confusion. No one can go astray in finding the right train. The workers one finds at the docks are here also, for they know no union hours. Twenty at a stretch is not unusual under pressure for there is a myriad of services to be given, and given quickly.

Before we see off the trainload of immigrants it will be worth while visiting the wonderful facilities offered these newcomers in this on station and by a railway company. Under the Concourse, there are large rooms, well equipped for the use of the immigrant who may need to re-

main in the city for a few days. The foreigners are in one room, and the English-speaking ones in another; those who are passing through Canada on their way to the United States have special provision made for them, while yet another large apartment is devoted to the Chinese in bond.

Montreal does a great deal for the new arrivals. A sample is Dorchester House, a fine home for immigrant girls where they are guided in every way and assisted in finding suitable employment. Hundreds take advantage of this excellent institution, which is maintained co-operatively by several Protestant denominations, also working in harmony with the nearby Y. W. C. A.

There is also the Dominion Immigration Hall, adjoining the Windsor Street Station, a four-story building where immigrant arrivals can be kept for a short time free of charge, where delinquents are treated as in a court, where hospital service of a first aid nature is given, and where a goodly number can be accommodated in dormitories and cots.

This is something of what Montreal is doing for the new Canadian, which the Government, the Railways, the Churches and other organizations are sharing, and it is to the credit of Canada's commercial metropolis that, amid the life and commerce of a great centre, it has time and thought for the immigrant.

The East in the West

If we were only visiting the East—my wife and I—we would probably say nothing. First, because there are certain conventions which even we Westerners recall, but more likely because the East would still be showing us that mask of smiling indulgence which it wears for the benefit of the plainman—and we should never have guessed its real forbearance underneath.

But having been brought here, so to speak, by royal command of an Eastern head office, and having been given the inestimable boon of enjoying the most interfering traffic police and the most conscientious criminal police in the world, we are accepted as Easterners! There is no longer any mask. This enables us to speak, as it were, within the family circle, with the mask hanging on a peg behind the door. Eastern universities feel just a little dismayed at the irreverence with which the Western student addresses himself to some of the age-old problems of metaphysics or natural science, and the broadness with which he takes off his coat, makes his rough preliminary measurements, and proceeds to deal with that problem as cheerfully as though nobody had ever tried it before and failed! Undoubtedly this is a little crude, and the boy will probably fail and never have so much courage again. But this way, this Western way, will ultimately do more good than the way of the head shaker and the doubt-doubter who cherishes as holy relics the traditions of other men's failures.

Among back people here in the East there is an attitude of restrained wonder. Well, well! What will the West do next? Three-quarters admiring—and a little bit afraid!

In and railway circles I know high officers with whom, after a conversation at Saturday lunch, I have been invited back to empty offices to be shown colossal sacred books that showed—there was no doubting it—how poor Billy Langley's head for figures had gone wrong again! How Bill, in public addresses before the Railway Commission, solemnly swore that he had shipped—let me see—1,800 bushels of oats, and only made \$250 because, forsooth, the railway rates had gobbled up the rest! Well, the railway rates hadn't done this gobbling, it seemed. There were the books, and there were the pages, and there were the columns, and there were the figures! If Bill's oats had been of the lowest grade, and if they had been shipped on the longest haul at the highest rate and sold for the lowest price in the year, he would have got at least \$522 for his 1,800 bushels instead of the \$250 which he told the world about. And if his oats had been high-grade oats, he would have had nearer \$700. But he said, said the railwaymen, that he got only \$250 and that the railways had taken the rest.

I could have told these Eastern railway officials, even worse examples of this arithmetic, that there is no addition and subtraction right here in the East. But if they wanted Western cases—there was

that farmer mentioned by Bill Langley, who claimed that 6,000 bushels of oats on which he paid 12c a bushel freight rate, would not net him more than 11c after paying for threshing. Well, if his oats had been of the lowest grade, and sold at the lowest price that is 42c, he must still have had 18c a bushel with which to pay the threshing. Of course every Western farmer who has a bushel of grain knows that no thresherman will thresh a bushel. The inference in this case was that once more the railways were getting it.

There was also the case of a Mr. Brown, of the United Farmers of Manitoba who says that the cost of a binder laid down at Pilot Mound, Manitoba, is now \$48 higher than it was last year, and that the railway rates are to blame for \$22 out of the \$48. I happen to know from an implement manufacturer that the entire freight costs of a five-foot binder if shipped in carloads from Hamilton, or Toronto to Pilot Mound in the spring of 1920 was \$12.14; in April, 1921, \$14.40; an actual difference of \$2.26. If carried in carloads to Winnipeg and re-shipped as an individual binder from that point to Pilot Mound the total freight cost in 1920 was \$19.25, and in 1921, \$25.25, a difference of \$6. Mr. Brown's estimate of the increase alone was greater than the entire cost.

But could you explain to Eastern railway officials that poor Bill Langley's figures, and poor Mr. Brown's figures must not be mistaken for Western arithmetic! That because a Western farmer was not fooled into thinking that two and two make five, simple because Bill sometimes thinks so. Surely the East has seen just such foolish examples of arithmetic in the strain of fighting elections. There is no higher level of native intelligence anywhere in this world than among the people I come from, the kind that had the courage to march up to a new country and say: "Here! I am going to tame you!" and stick to it, although that country might still send all its forces to try to drive them back. As proof of the fact Langley was defeated in the Saskatchewan elections—rejected along with his arithmetic.

But leave the railways out of it. Among the small Eastern business—the kind with whom my business brings me in frequent contact—I find what I might almost call sublime conceit in supposing that they can see through the charlatan and discover the fraud out West, and as quickly as the West itself, twice as quickly as the West itself. "No," quavers one of these very nice people with perhaps \$1,000 to invest. "I don't think I care to hold any more western school debentures. I see. There is a bit too much demagoguery out there! Too many young lawyers strutting around and flirting with pastor Bolshevism. Not just the O. B. U. strike in Winnipeg, though that was bad enough—but I read of a case, etc., etc., etc." I wonder how many of the well-informed easterners know the amount of buncombe of that kind is talked East and in England, timid people to whom the loss of the interest on

even one debenture would mean some bill unpaid, some comfort done without!

The West is just as sane as the East. It sees through its own demagogues just as quickly and perhaps a little more quickly than the easterner. The western farmer in the last man in the East is the Bolshevism. As I suppose, the basis of this eastern distrust is due to sometimes extravagant attacks on the railways by western orators, the East should remember that one of the surest ways a young lawyer can take for getting into the public eye out West, and winning a good constituency is to quote Scripture and rag the railways. It is always ter for a family lawyer to tell a lady patient she has XXX-ism of the ABC than to tell her the truth that she is really suffering from run-down nerves, nervous eating, late hours, too much coffee, worry over her children, and a host of other things. She would never recover. So these popular and wise young doctors of state flourish the sword of scriptural quotation and choose to have you tremble in awe and stop worrying. Your public ailments are really very simple. You think you have many, but you really have only one railway rate! If he explained the whole combination of economic conditions that cause this or that unpleasant symptom he would put the wise men in his audience to sleep, and the rest would be frightened to death. But the West, which is mostly sane, is not fooled even by his promise to bring low the great. It knows very well when he quotes Scripture to liken the Winnipeg strike to the story of Jesus' baptism, that he had to ask a Methodist preacher to look up the quotation, because the leaves of the office Bible, used for swearing affidavits, are pasted together to keep it from falling open and embarrassing some client in the middle of a perfectly good deal. These youngsters get up and talk about the psychology of the farmer—as though any self-respecting farmer would admit having such orators had ever heard the maternal reproof or sweated behind a binder. The West knows that when his legislators to Parliament and his party in power, responsibilities will select him up. It knows that he knows that nobody understands better than the West the importance of having railways prosperous enough and efficient enough to carry on as leaders in the development of the whole country.

Of course it is foolish to pretend that demagoguery is not dangerous. It is. Fragments of real speeches, traversing wires and cables, have often frightened shut the pockets of people who have never seen a prairie sunrise over the harvest fields. But Westerners are no more given to this vice than anyone else. Free speech is a British heritage and it is up to the intelligent Easterner or old countryman to make enquiries and to suspend judgement before deciding that the West intends to wreck the C. P. R. in order to get calls to build fences.

Look how far you've gone since your crank-case was cleaned—

If you have gone more than 1,000 miles without having your crank-case cleaned, chances are ten to one that your operating expenses are about twice what they should be. Very likely the snug-fitting and rapidly moving parts in your motor are burning and wearing themselves out at an alarmingly rapid rate, too.

Dirty oil, filled with grit, mineral particles and road dust, cannot lubricate. Your crank-case should be thoroughly cleaned and refilled with fresh lubricating oil at least every 1,000 miles—more often if your car gets hard usage.

Imperial Polarine Crank-Case Service Dealers are particularly equipped to deliver 100% cleaning service. Imperial Flushing Oil, the scientific cleaning agent employed by them, gives unsurpassed results which are not possible with kerosene (coal oil) or similar things that are altogether unsuited for crank-case cleaning.

This is economy year. Clean oil and a clean engine will save you a lot of money. To-day, Drive round to one of the addresses listed at the left, or to any dealer who displays the Blue Imperial Crank-Case Service Sign. Prompt reliable crank-case cleaning is assured.

STEPHEN EDWARD GEE
On September 18 a wave of sadness
swept over the community of Upper
Wicklow when Stephen E. Gee passed
from this stage of action to eternity's
shore.
Mr. Gee had been under the doc-
tor's care yet was not confined to
the bed for any great length of time.
In fact of late he had felt much bet-
ter, and had taken a trip to Wood-
stock, where he was seized with an
illness. As speedily as possible he
was removed to his home at Wicklow
where he gradually grew worse until
the end came.
The late Mr. Gee has been a life
long resident of Wicklow and will be
much missed by those who knew him.
They will remember him as a good
citizen and neighbor, with a high ideal
of right. He was a member of the
order of Knights of Pythias. Al-
though never belonged to any church
he was a firm believer in Primitive
Baptist principles. While never giv-
ing any public expression of faith in
Christ, near the close of life he gave
evidence that he had grasped the
great promise of Eternal Life.
Deceased was 56 years of age and
is survived by his wife, one son, Pearl
C. Gee, at home, two daughters: Mrs.
Ruby L. Lunn and Mrs. Inez F. Smith;
two brothers: Hartley and Charles
Gee; four sisters: Mrs. Benjamin
Lunn, Mrs. Dora Farley (California),
Mrs. Russel Boyer, Victoria, Mrs. Up-
ton Squires, Wicklow, and many other
friends. Funeral service was at
the home of deceased, and very large
attendance. The body was in charge
of Knights of Pythias. Weather be-
ing fine the body was taken from the
house to the lawn, a convenient place
for the large crowd that gathered.
The members of Victory Lodge No.
36, carried out a very beautiful and
solemn service over the remains of a
departed brother. At the close of the
K. of P. Service Rev. A. Hatfield came
forward and spoke to the people for
a short time, taking for his text Job
30:23. At the grave a very imposing
service was again carried out by the
lodge, and the body tenderly laid in
its last resting place by hands of the
brotherhood in the Pomphrey ceme-
tery at Wicklow.—A. H.

CARLETON COUNTY COURT

Carleton County Court met on Tuesday at 11 a.m. Judge Carleton presiding. There were four criminal cases on the docket but the grand jury

found only one true, the case of King vs. James and Ben Whorton charged with stealing from the United Farmers store at Bath. It seems that Ben Whorton was gathering up goods in the store in bags, when he was surprised by manager Golder. There was no evidence against him only his own admission made on the promise of Mr. Golder to plead for him.

The case was a most distressing one as Ben Whorton is a returned soldier and the father of six children; he served the full time of the war. There was no evidence to connect James Whorton only that he waited at the top of a hill for his brother.

R. L. Simms, clerk of court, prosecuted and advised the jury that there was little evidence against James, and it was their privilege to recommend mercy.

They found Ben Whorton guilty of an attempt to steal, with a recommendation of mercy and His Honor allowed him to go on bail with suspended sentence. Fred C. Squires was counsel for the Whortons.

Asked why he was so intent to ask for mercy, R. L. Simms, Clerk of the Peace, gives the following statement: Ben Whorton was induced to convict himself on the promise of Oscar Golder, the United Farmers' manager, "that he would plead for him in court." It was my duty to see that the covenant was kept and as representing the prosecution ask for mercy.

The three cases thrown out were the King vs. George Elliott for assault on a little girl; the King vs. Henry Sargefield of Knowlsville on an information laid in behalf of an imbecile girl; and the King vs. Buchanan for obtaining money under false pretence.
