## FIREMEN DEFEAT C. N. R. FRIDAY

C. F. D. Win First Week's Honors in Baseball League C. F. D. 8—C. N. R. 5.

Playing almost perfect ball the firemen defeated the C. N. R. Friday night by a score of 8-5. The game was replete with thrills for the boys have got their muscles loosened up and are determined to show the town and any outside team that they can play ball. All that is needed now is a little more support financial and otherwise from the people for a ball team must have funds in order to keep it going and loud voices to cheer them on to victory.

The game started off with the Firemen securing two runs in the first inning, in the second inning the C. N. R. did some scoring which evened the runs up. This seemed to be the moment that both teams had been waiting for, for they started in to play real baseball and treated the rooters to as good an exhibition of baseball as could be shown by any amateur teams in the country. For two innings not a score was chalked up although at times the bases were full and it seemed certain that a run would be made but the pitching done by each pitcher was excellent so the men on bases remained there till three men were struck out.

Around the fifth inning the C. F. D. found Comeau's weak spot and batted him out of the box but not before they had notched five runs. McCluskey came in for Comeau and held the C. F. D. to five runs. At the end of the sixth inning it grew too dark to continue so the game ended with the C. F. D. on the long end of the score which was 8-5.

## NEWSPAPER MEN RETURNING HOME

Left Sunday Evening, June 13th, Via Canadian Pacific Railway.

Vancouver, B. C., June 13—Full of enthusiasm for the Pacific Coast, the big party of weekly newspapermen of Canada, which have been visiting here in convention, left for their homes over the Canadian Pacific Railway last night. The party came in from Victoria last night. They will put in a day at Lake Louise and another at Banff. They also will visit the Canadian Pacific far at Strathmore, Alberta.

him out of the box but not before they had notched five runs. McCluskey came in for Comeau and held the C. F. D. to five runs. At the end of the sixth inning it grew too dark to continue so the game ended with the C. F. D. on the long end of the score which was 8-5.

The line-up was as follows:—McCluskey, 1st b. Boulay, 3rd b. Cyr, r.f. Payne, l.f. McKee, 2nd b. Dickie, p. Dobson, s.s. Duncan, c. Walker, c.f. Comeau, p.

## SUBURBAN SERVICE CTION TO BATHURST

Electric Service Will Be Installed About June 26—Car Accommodates 60 People.

On the change of time table, June 26th, an extra train is to be added to those arriving and departing from Campbellton. This train will be known as the suburban between Campbellton and Bathurst. The hour of arrival and departure has not as yet been definitely settled, but it is expected train will leave Campbellton about 6:25 p.m. and arrive at 11:55 a.m.

This train is to be an electric motor service. The car will contain the electric motor, a baggage compartment and a compartment for passengers sufficient to accommodate from 50 to 60 passengers. The power will be supplied by electric storage batteries, these batteries being charged daily at the round house here, the time for filling them being placed at seven hours. These batteries will contain more than enough power for the round trip, being charged with sufficient to run the car 150 miles, which would leave a surplus of 30 miles.

This suburban service will be welcomed by Campbellton citizens as well as all those living between here and Bathurst.

The car for this service is expected to arrive here this week. June 15-2 weeks.

## Special Meeting of Town Council

Mr. R. R. Beebe Appointed Town Engineer—Communication From Councillor Wallace.

A special meeting of the Town Council was held in the Fire Hall yesterday evening. His Worship Mayor McKay presiding. Couns. Wallace, Bissett, Moores, Belle-Isle, St. Onge, and Chamberlain were present.

The minutes of the previous regular and special meeting were read and approved.

The special meeting was called to consider the advisability of purchasing from Mr. A. H. Ingram a lot of land on Lansdowne Street. A communication from Mr. Ingram was read which stated that he would sell the land (app. 35x80) for \$675.00. The Chairman of the Public Property and Streets Committee said that he had interviewed Mr. Ingram and the owners of the O'Leary property and had also conferred with the Town Solicitor who hoped to have the deed completed in good time.

After a great deal of discussion on this subject it was moved that it be held over till the next regular meeting and the communication be placed on file.

The question of appointing a town engineer was then brought up by the Chairman of the Streets Committee who stated that he had about completed the sidewalks up to the level of the town and that it would be necessary to have some competent person appointed to continue this work.

Coun. Bissett moved that R. R. Beebe be appointed to complete the necessary levels.

A lengthy discussion then took place and the Mayor asked that Mr. Beebe be heard.

In a few words Mr. Beebe showed the Council how necessary it was that a qualified engineer should be the one to do the work and briefly outlined the amount of work of this nature which he had done in the United States and Canada and assured the Council that if he was given the appointment of Town Engineer he would give his best in the interests of the town, should the Council think that he had satisfied their requirements he would ask them to give him the appointment permanently.

All the Councillors expressed themselves as being favorable to Mr. Beebe's appointment and the motion to appoint him was unanimously carried.

An offer had been made by R. J. S. Sly to complete the levels but as he did not want to give all his time to the work, his offer was not considered.

Coun. Bissett gave notice that Mr. Hawbick Sumner would be able to act as a school trustee any longer and on a motion being made by Coun.

Bissett, seconded by Coun. Wallace it was decided to appoint Mayor McKay to this position.

Coun. Wallace said that he had sent a communication to the Mayor and one to Coun. Belle-Isle and St. Onge respectively, in reference to certain charges which they had made regarding him at previous council meetings. He asked His Worship to be allowed to hand these letters to the Town Clerk who read them to the Council.

The communications are as follows:—Campbellton, N. B. June 13th, 1921

Norman C. McKay, Esq., Mayor, Campbellton, N. B.

Your Worship:—At the two last Council Meetings, Councillors Belle-Isle and St. Onge have seen fit to make statements and charges against me which force me to demand a public investigation immediately. These charges having been made at public meetings necessitate me requesting a public investigation.

I am sending a copy of this request to both Councillors herein named, so they may have the opportunity of putting the statements and charges they have on paper above their signatures. Expecting this to be dealt with immediately, I remain,

Very sincerely yours,

W. H. WALLACE.

Campbellton, N. B. June 14, 1921. Councillors Belle-Isle & St. Onge, Campbellton, N. B.

Gentlemen:—Herewith find copy of a demand for a public investigation of the statements and charges you gentlemen have made against me in the last two public Council Meetings.

I request that you have these statements and charges formulated and placed in writing above your signatures.

Failing this, I will be obliged to seek recourses from some other course.

Yours truly,

W. H. WALLACE.

After these were read, on motion, the Council Adjourned.

AUTO SMASHED.

A local car was badly smashed Saturday night on Adams' Hill when trying to avoid an oncoming car and a horse and wagon.

While swerving in order to avoid a collision with the wagon the rear wheels of the car slipped, the car going down into the ditch where it turned turtle. Fortunately no one was seriously hurt although one of the occupants was pinned beneath the car for some time.

## TORONTO TO BRITISH COLUMBIA

Impressions of the Trip With the Canadian Weekly Press Association Party.

So many of the readers of the Graphic have asked the editor to write something of the trip from Toronto to Vancouver with the Canadian Weekly Press Association that I shall attempt to do so. But I make the promise with many misgivings. A glance at the itinerary as proposed leads me to believe that the whole time will be pretty well filled and if any writing is to be done, it will of necessity be accomplished by burning the midnight oil. However I will endeavor to do the best possible under the circumstances.

Toronto. Toronto, which has ambition as a future shipping port, is certainly an attractive city to anyone from the Maritime Provinces. Its people are very hospitable and are enough interested in our little province down by the sea to be anxious to keep in touch with its people and affairs. Here I met in with two newspaper friends, Messrs. Miller and Cranston of the Toronto Star, who about two years ago spent a week or so at the Inver Arran and four days on the Restigouche river with Postmaster MacKenzie, Cameron Adams and the writer. Tales of that trip had to be retold and numerous questions answered as to whether that little harbor of salmon pools Tom Maguire was still on his job. Of course I must have lunch, and the Board of Trade restaurant was chosen. Then twenty stores up, in the highest building in the city, we enjoyed a lunch, and a scene I shall always remember—fourteen miles of city, stretched out along the lake shore, church spires glistening in the bright sunshine, the distant American shore like a blue low down upon the horizon, with steamers plying back and forth, enough to inspire one with the magnitude of this fair dominion. Toronto is certainly deserving of the title "The Queen City."

At 4 o'clock the press party were all safely aboard their special train, about one hundred and fifty men and women, all out for a good time, and soon we were hurrying along the lake shore and thence north. One of the first publishers I met was McWilliam, the Leader, Newcastle and then Stratton from Sydney Mines. Also had the pleasure of shaking hands with Mr. Creighton of the Advertising Department of the C. N. R. now of Toronto, but who was well known by all eastern newspaper men while in charge of the department at Montreal. The run until dark was practically due north, getting further into the wilds of Northern Ontario.

Next morning we were in the mining district of Northern Ontario at 10:30 we arrived at Cochrane where all detained, assembled on the station platform and, as it was the King's birthday sang "God Save the King." Our chaplain, who is the Rev. A. H. Moore of St. John's, Que., delivered the prayer for the King and the royal family. We were welcomed by the local Board of Trade.

Again on our way. Nearly all day we passed through a country devoid of settlement except at long intervals, an occasional mine centre and a lumber or pulp mill. Most of this territory was burned over by the fire which swept through and destroyed Mitchell and on through the Cobalt country.

At one point, which is noted for its game and fur bearing animals we passed a lone Indian encampment. The Indian and a young brave standing as straight as a rush by the track as our special thundered by.

Our time aboard the train is most pleasantly spent. We visit from car to car, and are making pleasant acquaintances. We have representatives from as far east as Sydney Mines and New Brunswick is represented by Fred Stevens, Miss Stevens and Miss Brooks of Hartland, Max D. Cormier and wife of Edmundston, Geo. F. McWilliam of Newcastle and the writer. We have a large number of fine singers and entertainers, and there is always something doing, when we are not in the diner. Of the service rendered by the C.N.R. officials I will have more to say later.

Our next stop is Winnipeg. H. B. A.

In common with most eastern travellers who visit the west for the first time I expected to see stretching away as far as the eye could reach treeless prairies. Well I was agreeably surprised upon getting out of my birth at about 6:30 to find that we were travelling through a beautiful country of diversified scenery. Well wooded hills alternated with beautiful farm lands, lakes and rivers. Along the railway and quite near could be seen hundreds of wild ducks placidly feeding on the fringe of the lakes, quite unconscious of our train. We watched them for hours Saturday morning. Approaching Winnipeg the country is more adapted to farming and some beautiful farms are passed. Seeding here seems to be about completed, but as yet the grain shoots have not appeared above ground, and the beautiful black loam of the soil is in evidence.

Promptly on time, at 11 o'clock we

And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

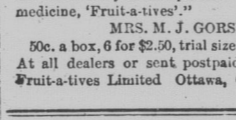

MRS. M. J. GORSE

8228 Union St., Vancouver, B.C. suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused.

Then, I started taking "Fruit-a-tives", and from the outset, I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 113 pounds and now it is 158 pounds. I am free of pain and headaches and the terrible Constipation, and what was me from misery is the splendid fruit medicine, "Fruit-a-tives".

pulled into the Union depot. Here we were met by a staff of photographers and moving picture photographers, who insisted upon taking our pictures. Upon coming into the large public waiting room many reunions were to be witness when friends in the west found friends from the east. I was promptly carried off by Mrs. Anslow's sister and her husband, and after greetings and a promise to see them after lunch and spend the afternoon with them, got aboard autos to see Winnipeg. And believe me this gate to the west is some city. We were driven through its streets to one of its natural parks, a park containing one hundred and twenty acres, left in its natural state, except that excellent roads have been made, and men keep the grass neatly cut and walks in good condition. From this park we were taken through a different section of the city, through great business thoroughfares, of which Portage Ave. seems to be the main artery, through beautiful residential sections to Assiniboine Park where the party were the guests at lunch of the City Council. After luncheon the Mayor formally welcomed us to the city and addresses were made by members of our party in return.

From the park we were again taken by auto through other sections of the city to the new Parliament buildings of Dominion wide fame. But let me say right here this building is worth the trip to inspect. Architecturally it is said to be perfect, and most magnificently finished. It is said that even the new parliament building at Ottawa cannot compare with it. It may have cost a pile of money, but Manitoba has in it something of which she may well be proud. Here my friends were to meet me and I went with them to spend a quiet social afternoon. During the afternoon a boyhood friend who called by phone, and he, Mr. Chas. Falconer is one of the many eastern boys who came west years ago and is making good. He is in the hardware business and conducts two stores.

Well the time passed all too quickly, and the writer was driven to the depot where the train was again boarded and we soon retired to our births.

Our next stop is Saskatoon. H. B. A.

## SHOT IN THE HEART BUT STILL LIVES

Twelve Year Old Boy, Shot Through Heart and Lungs—Amazes Surgeons.

Bloomington, N. J., June 10.—Lawrence Setterfield, twelve years old, one of the most astonishing patients in the history of surgery, has been discharged from Paterson General Hospital as cured. He walked out with five buckshot slugs in his heart and seven more in his lungs.

Lawrence was taken into the hospital on May 1. He has been hit full in the chest with the contents of shotgun shell. Edward Yatman, 11 years old, with whom he had been playing at the time also went to the hospital with twenty slugs in his head. It is expected that he will be blind.

The two boys, who live here, were playing that day in William Yatman's yard and were accidentally shot by William Yatman, Jr., six years old, who pointed a loaded shotgun at them and pulled the trigger.

Officials of the hospital say that young Setterfield was the first person that they knew to recover his health with foreign objects in the heart and lungs.

## The Reason For This Mighty Slaughter.

For thirty years Mr. Moores has served the people of Campbellton and vicinity—thirty years of straightforward, honest dealing, that has given his store an enviable reputation for selling "satisfaction" as well as merchandise. On account of his health he must close out his stock, and rather than sell it in bulk to some outside party, he will distribute his splendid stock into the homes of the people, at prices that will paralyze all competition and hold the public spellbound with amazement and surprise.

The Toronto Sales Co., known from coast to coast as Canada's greatest bargain-givers, have received explicit instructions to sell M. P. Moores' entire stock at whatever it will bring. When this Sale Co. gets possession of a stock they stop at nothing till their objective is attained. The irresistible magnet of shattered prices will have this store in record time. Such reductions as has never been witnessed in Campbellton's history—such reductions as may never again be seen on goods of this calibre. Thousands of people will flock here knowing the standard of goods handled by Mr. Moores. Get here with the early crowds. Hundreds of items, no room to mention. Come—find the right spot.

### AN ARMOURY AND GYMNASIUM.

On another page of this paper we publish the announcement that the headquarters of a howitzer battery will be in Campbellton, this battery will drill in the evenings during the winter months so it will be necessary that they should have a place in which to drill. We do not have that place an armoury, Campbellton so far has had no need of an armoury but now that a battery will be stationed here and the headquarters of the N. B. signallers have been named as being in Campbellton, we need such a building. Every other town in which there is a military organization has an armoury and drill hall; our town could also get one if the proper authorities of this town would work in conjunction with one of the proper authorities of this town, and G. Alder Mowat, O. C. of the Campbellton Signallers, who are doing all they are able to secure such a building. An armoury would not only be a valuable addition to our town but all feel sure that it would be used for some other worthy purpose when the militia are not using it. In the summer the troops will entrain for their respective training camps for a few weeks, during that time and for the rest of the summer the armoury will not likely be in use. Why should we not ask the permission of the Federal government for the use of the building as a temporary gymnasium while the militia are not in immediate need of it? This is a suggestion worth thinking about for our town is in sore need of a gymnasium or recreation hall in which the youth of our community can gather and enjoy good clean exercise and fun. To-day the boys are hanging around on the streets, playing ball on the streets, in general putting in all their spare time on the streets. For two months the school will be closed and more boys will of necessity be found on the streets enjoying themselves as much as they can. This street environment is not a particularly helpful one so why should we not place the boys in better and cleaner surroundings. To you, the men of the town, the boys appeal, give them a gymnasium and tomorrow they will do as much for the boys who will then roam the streets. Men the task is yours, do not start it and then leave it to the women to finish as has been done before, but go through with it all by your-elves then when your object is attained you can take the credit with a clear conscience.

## THE HEAVYWEIGHT CHAMPIONSHIP

Dempsey and Carpenter Meet  
On July 2nd.—Previous Contests.

New York, June 11.—The third bout for the world's heavyweight championship under go decision rules at a limited number of rounds will be under way when Jack Dempsey and Georges Carpentier square off in the Jersey City ring, July 2. The only previous title contests held under similar conditions were the Willard-Moran 10-round battle at New York, March 25, 1916, and the Willard-Dempsey contest at Toledo, O., July 4, 1919. The first bout went the limit, Willard gaining the popular verdict. At Toledo, Dempsey knocked out his ponderous opponent in the third of the scheduled 12-round bout.

Modern ring history in the heavyweight division is considered to have begun when John L. Sullivan knocked out Paddy Ryan in nine rounds at Mississippi City, Miss., Feb. 7, 1882. Including that contest and the one in which Marvin Hart defeated Jack Root to gain the title relinquished by Jim Jeffries, there have been 24 championship bouts. The longest was that in which John L. Sullivan knocked out Jake Kilrain in 75 rounds at Rensselaer, N. Y., in 1891, the shortest that in which Tommy Burns stopped Bill Squires in one round at Colma, Cal., July 4, 1907.

By the average duration of these championship contests, which is a trifle under 15 rounds, Dempsey and Carpentier, scheduled for only 12 sessions, would seem likely to go the prescribed route. The length of the Sullivan-Kilrain duel however, stretches this average and examination of the records shows that 11 of the 23 battles have stopped short of the 12-round mark, while the most recent championship fight, in New York last December ended with the knockout of Bill Brennan by Dempsey in the twelfth round.

Persons who wager on an official result in the Jersey City bout, can win or lose in two events, a knockout or a disqualification on a foul. To make possible a clean-cut decision, it has been suggested that promoter "Tex" Richard appoint three judges who shall sit at the ringside and announce a verdict after returning to New York following the bout.

A list of the heavyweight championship bouts beginning with Sullivan's defeat of Ryan in 1882 is appended: 1882, February 7.—John L. Sullivan knocked out Paddy Ryan in nine rounds at Mississippi City, Miss. 1889, July 8.—John L. Sullivan knocked out Jake Kilrain in 75 rounds at Rensselaer, N. Y. 1891, March 25.—John L. Sullivan defeated Marvin Hart in 10 rounds at Toledo, O. 1892, February 7.—John L. Sullivan knocked out Billy Mike in three rounds at Benton Harbor, Mich. 1893, September 7.—James J. Corbett knocked out John L. Sullivan in 14 rounds at Carson City, Nev. 1894, January 25.—James J. Corbett defeated Charley Mitchell in three rounds at Jacksonville, Fla. 1897, March 17.—Bob Fitzsimmons stopped James J. Corbett in 14 rounds at Carson City, Nev. 1899, June 9.—James J. Jeffries stopped Bob Fitzsimmons in 11 rounds at Coney Island.

1899, Nov. 3.—James J. Jeffries defeated Tom Sharkey in 25 rounds at Coney Island.

## Sun Dance Lodge at Toronto

Toronto can always count on the C.P.R. to provide a unique and attractive exhibit for the tourists looking for the grandeur of Lake Louise from almost any spot behind the Chateau with a glimpse of the wonderful lake and gigantic glacier and mountains in the rear. The Victoria Glacier which forms the background feeds the lake which is shown by real water, while the towering peaks of Mount Lefroy and Mount Aberdeen are observed in the distance. The frieze of Indian decorations and the magnificent transparencies lend a perfect finish to the whole Sun Dance Lodge effect. The remaining sides of the "Lodge" are of typical white birch interspersed with speckling of real Indian mats made from cedar bark, and there are many reproductions in miniature of the famous Totem poles from Alert Bay. There is also on exhibition a very valuable collection of Indian relics from the West Coast, all of which are original, and many over a hundred years old. They include eating and cooking utensils made of wood and whalebone, bows and arrows, cedars and tomahawks, cedar chests, and moccasins. The illustration effect is perfect comprising eight five hundred feet. The panorama was executed by Mr. Hal Ross Perrier, assisted by Mr. A. Robinson. The decorations by Mr. J. J. Robinson, assisted by Mr. J. J. Robinson. The C.P.R. Exhibit is not only a historical representation, but a beautiful one, and a most successful one.

Performance heads the list of essentials of those who actually drive the car. Ruggedness of chassis that spells dependability; engine power and flexibility that result in quick acceleration, plenty of speed and rare pulling and climbing ability—these are inherent in Oldsmobile "Four."

This touring car brings to the family all the comforts of a very high grade automobile at a cost that the man of average means can comfortably afford. And the moderate investment price is enhanced by the very low cost of operation.

Ask for a demonstration. I will be pleased to take you for a spin.

## THIS MAN DREADED TO SEE NIGHT COME

Was So Restless He Couldn't Sleep And Daylight Was Always Welcome.

"With the exception of a little milk toast, which comprised my diet for more than eight weeks, I could not eat anything," said Capt. Geo. W. Womble, residing at 105 Jennings St., Knoxville, Tenn., a highly respected citizen of that city.

"I am now able," continued Captain Womble, "after taking two bottles of Tanlac, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food, I tried doctor after doctor and all kinds of medicine but nothing that was prescribed for me seemed to do me any good. I had a terrible pain in my breast just over my heart and for weeks and weeks I got no relief."

"I finally got so nervous that I actually dreaded to see night come as I could not sleep and was always restless that I would be unable to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tanlac and advised me to try it."

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman &amp; Chambliss, and when I told him of my condition and how I suffered he advised me to begin taking Tanlac without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tanlac and am giving you this testimonial in the hope that it may induce others to take it. Since taking this medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen year old boy."

## THIS MAN DREADED TO SEE NIGHT COME

Was So Restless He Couldn't Sleep And Daylight Was Always Welcome.

"With the exception of a little milk toast, which comprised my diet for more than eight weeks, I could not eat anything," said Capt. Geo. W. Womble, residing at 105 Jennings St., Knoxville, Tenn., a highly respected citizen of that city.

"I am now able," continued Captain Womble, "after taking two bottles of Tanlac, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food, I tried doctor after doctor and all kinds of medicine but nothing that was prescribed for me seemed to do me any good. I had a terrible pain in my breast just over my heart and for weeks and weeks I got no relief."

"I finally got so nervous that I actually dreaded to see night come as I could not sleep and was always restless that I would be unable to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tanlac and advised me to try it."

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman &amp; Chambliss, and when I told him of my condition and how I suffered he advised me to begin taking Tanlac without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tanlac and am giving you this testimonial in the hope that it may induce others to take it. Since taking this medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen year old boy."

IRISH BULL FIGHTER MADE GOOD IN SPANISH TORREDO

London, June 11.—At a bullfight in Le Linea, a Briton from Gibraltar under the nom de guerre of "don Carlos el Irlandés" (Charlie the Irishman) killed 2 bulls.

The torero was carried in triumph from the ring by Spanish admirers. This is the second time only that a Briton has achieved such a feat in Spain.

**A Promise that has made good**

When KING COLE TEA was in its infancy we associated with it the slogan—"You'll like the flavor." It was a modest statement, yet when you come to think of it, it covers all that you are looking for in the tea of your choice. How well KING COLE has lived up to its promise is proved by the many thousands of users today.

Perfectly packed in bright lead foil and price marked on every package.

"YOU'LL LIKE THE FLAVOR"

**KING COLE TEA**

**ANTHRACITE COAL—1921**

To those who are hoping for lower prices:

We are in the coal business. We believe we know conditions.

We cannot predict future prices. We do not think further reductions are likely. Present mine wage agreements don't expire until March 31, 1922.

There isn't much hope of general reduction in freight rates.

If the proposed Pennsylvania State Tax on anthracite becomes a law, this will mean an additional 15.50 or even 25 cents after next July 1st.

Coal is far cheaper today than it will be next winter if you hold off buying! That is absolutely certain.

You received the same advice in 1919—those who took it suffered no hardship of consequence during the big bituminous coal strike.

We are simply appealing to your common-sense.

You insure your house against fire, don't you? Not because you expect fire, but as a protection in case a fire does occur. The best insurance you can buy now is this insurance—you don't know what's coming next winter.

The Real Estate interests of Montreal recently had a survey made, with a resulting recommendation that coal be bought now, and stored to the limit of facilities.

The Manufacturers' Record of Baltimore says:

"Protect yourself at once for all family and factory coal needs."

We say: "Buy your coal now—take reasonable quantities throughout the spring and summer. In this way, you will avoid an excessive demand (the last fall), and a shortage with high prices next winter. Then, if unusual conditions arise in the winter, who can measure the value of the coal already in your cellar?"

Call us up—we'll work with you.

## ASKS PROVINCE SHARE EXPENSES

Meeting of All School Boards  
Proposed For July by  
Devon.

Fredericton, N. B., June 15.—De-  
manding that the proposed convention  
of school trustees of New Brunswick  
be held not later than the month of  
July in order that the boards through-  
out the province will be in a position  
to take united action regarding the  
new schedule of salaries sent out by  
the New Brunswick Teachers' Assoc-  
iation to go into effect for the school  
of 1921-22, the board of school trust-  
ees of the town of Devon have sent  
communications to every school dis-  
trict throughout the province.

Not only is it proposed that the  
government shall be urged to assume  
their full share of the increased ex-  
penses for the educational service out  
the promoters of the demand for an  
early convention express their inten-  
tion of making it a free and independ-  
ent gathering that will not be pre-  
dominated by government or other in-  
fluences and that every effort shall be  
made to have a frank discussion of  
the provinces' entire educational sit-  
uations as well as the problem of re-  
lations between the teachers and the  
trustees as to salaries. The matter of  
the curriculum, which it has been  
charged is over-crowded, is one of the  
questions proposed for discussion not  
in an academic manner but rather  
from the practical standpoint of the  
parents and the children.

## EDITOR'S MAIL

Campbellton, N. B.,  
June 15th, 1921.

The Editor, "The Graphic,"  
Campbellton, N. B.

Dear Sir—

Your correspondent "Mr. L. A. Gil-  
bert, Principal of the Public Schools  
in Campbellton in your issue of the  
19th inst has adopted quite a challeng-  
ing attitude in dealing with a lengthy  
letter you were good enough to pub-  
lish in your issue of the 2nd inst,  
wherein I made, for argumentative  
reasons only, some allusions to an  
epidemic of measles which sprang up  
in our midst during the month of  
March last and shortly after my ar-  
rival in Campbellton.

This challenge for "facts" certainly  
demands a reply, since my veracity  
and that of others is evidently doubt-  
ed.

I am quite prepared to substantiate  
my statements with "facts" which he  
is so desirous of obtaining, if the  
gentleman will be good enough to meet  
me by appointment at my office. More-  
over, I am not prepared to do so or say  
to gratify his curiosity and appease some  
fancied wrong done the School Board  
management, and certainly do not  
intend to create or throw up a con-  
tinued wordy barrage through your  
columns on the subject. The letter  
can be used to much better advantage  
and the indulgence in squabbles I feel  
sure you would not tolerate.

My letter of the 24th May last was  
written purely in the interests of the  
Red Cross Society to which I belong,  
and to which all thinking people should  
be having such a vital interest as  
health at heart. Mr. Gilbert entirely  
misunderstood my statement re-  
garding the school children; I was not  
attacking the school management, in  
my letter in reference to Civic Hy-  
giene matters, directly, but I know  
absolutely nothing, but rather the  
evident slack methods whereby this  
particular epidemic was not efficiently  
controlled by some manifestly absent  
power or authority based on assump-  
tion and the conversation of others  
who are residents in this community.

Somebody was to blame for these  
youngsters being at large when affect-  
ed with the disease, even for a short  
time; the fountain head thus would be  
the parents or guardians who were  
negligent.

Mr. Gilbert maintains the School  
Board regulations are carried out to  
the letter in this respect, and children  
bearing disease of any kind are  
promptly sent home for treatment  
"when discovered" (he is noted), and  
I am pleased to hear this is so. How-  
ever these regulations do not neces-  
sarily stop the cause and effect of  
"contagion," and obviously the only  
thing to do to prevent epidemics of  
any kind becoming a menace to a  
community, is to close a public school  
and quarantine afflicted households un-  
til such time as the evil is effectively  
under control. I am speaking from  
a general standpoint and not of Camp-  
bellton in particular.

I hope this will make my attitude  
entirely clear and there will be no  
ill feeling in connection with the mat-  
ter from Mr. Gilbert or anybody else.  
Before closing I would like to cor-  
rect myself a little. On Saturday  
last I was fortunate in having quite  
a long conversation with one of your  
past Health Officers and who acted  
for a number of years on the Pro-

## A Municipal Home for Restigouche Co.

Councillor Wallace, in Norton, Advo-  
cates a Home for Restigouche  
County.

Quite recently Councillor W. H. Wal-  
lace made a flying visit to Sussex  
and Norton in connection with an in-  
teresting gathering of the friends of  
the Kings County Municipal Home  
there. In view of the need of a sim-  
ilar institution for our own county of  
Restigouche our readers will be glad to  
read the following account:—

May 19.—This afternoon was an ex-  
citing one, and history was made at  
the Municipal Home, when a handsome  
organ donated by F. W. Wallace of  
Sussex, was dedicated to that in-  
stitute for the benefit of its inmates.  
A large number of citizens from Sus-  
sex and Norton and also a representa-  
tive of the municipality of Restigouche  
County and Town Council, of Camp-  
bellton, Alderman W. H. Wallace, a  
former prominent and well known re-  
sident of Sussex, now one of Camp-  
bellton's solid business men.

At two o'clock the assemblage was  
called to order with F. W. Wallace in  
the chair, who in a brief address ex-  
plained the object of the gathering.  
The chairman stated he knew that  
at religious services held by all creeds  
it was felt that music formed an in-  
teresting part, and he hoped that his  
humble gift of the organ would be ac-  
cepted for the Honor and Glory of  
God, and for those who carried his  
message to God's children within the  
four walls of the Municipal Home. He  
regretted the absence of Mayor Mc-  
Kenna, Alderman Arthur Keith, J. P.  
Atherton, Sec'y. of the Municipal  
Board, and also Warden Thomas  
Gilliland, Father O'Brien, who ex-  
pected to be present but were unavoidably  
detained.

The ceremony of dedicating the or-  
gan was then carried out.  
Capt. Love read in prayer, Rev. A.  
V. Morash read the scripture lesson.  
Canon Sheehan gave the "dedication"  
prayer, with all present reciting the  
Lord's Prayer. "Blest be the Ties  
that Bind" was sung, after which Rev.  
George Sears pronounced the benedic-  
tion.

This concluded the dedicatory cere-  
monies, and the meeting, at the sug-  
gestion of the chairman, was turned  
into what he termed a "free and easy."  
Entertaining refreshments were made  
by Rev. Canon Sheehan, Rev. A. V.  
Morash of Sussex, Alderman Wallace  
of Campbellton, Rev. George Sears of  
Norton, and others, all of whom eulog-  
ized the spirit that prompted the donor  
of the organ to remember the Muni-  
cipal Home, the way he had, not only  
on this occasion, but for the many  
happy events which he had tendered  
the inmates of the institution in the  
years gone past. All spoke of the

incial Board of Health. He tells me  
that all Health matters are in the  
hands of the Provincial Board in New  
Brunswick. How this is somewhat  
different to other provinces where I  
have lived in Canada. I therefore  
made a slip, quite unintentionally, in  
my letter in reference to Civic Hy-  
giene matters, as more by-laws being cre-  
ated to control what I termed the  
"Muck Heap." My informant emphat-  
ically states the Civic authorities do  
not control the situation, so we shall  
have to approach the Provincial Board  
in this respect, and we will be interest-  
ed to know that through your publishing  
my last letter quite a number of peo-  
ple have spoken to me on the subject  
under review and declared that good  
would come of it. I don't think this  
was just idle flattery to please any  
particular vanity; these people were  
sincere, and saw mostly old residents  
and have had young children die on  
their hands from one cause or another  
and know what this means to them.  
I have made this letter somewhat lon-  
ger than I expected, but it's a big  
subject and worthy of lots of print-  
er's ink and patience.

Yours faithfully,  
R. T. PRINCE.

## CONTINENTAL TOUR APPROACHES END

Charlie Burkman Gets Hikers'  
Prize—Behan's Reach  
Vancouver.

Halifax, N. S., June 13.—W. H.  
Dennis, proprietor of the Halifax  
Herald and Evening Mail, promoter  
of the transcontinental hike, which  
entered its final stage at Vancouver  
on Saturday afternoon with the arrival  
of Jack and Clifford Behan, father and  
son, 136 days out from Halifax, stated  
that the first prize of \$1,000 would be  
awarded to Charles Burkman, last re-  
ported at Kamloops, B. C., 145 days  
out from Halifax, provided he makes  
Vancouver by June 30 and can show he  
walked the entire distance.

In addition, special prizes, yet to be  
determined, would be awarded the  
Behans and Frank and Jennie Dill,  
the husband and wife hikers, last re-  
ported at Harrison Mills, B. C., 150  
days out from Halifax. The Behans  
and Dills entered the race knowing  
that Burkman would be awarded  
\$1,000 if he reached the coast before  
June 30. This prize was offered when  
Sid Carr, Burkman's partner left him  
to finish the hike alone between Hal-  
ifax and St. John.

Evening mail specials, received from  
Vancouver today state that Behan's  
this morning declared the letter ad-  
dressed to the mayor of Vancouver,  
given them on their departure by  
Mayor J. S. Parker, of Halifax. They  
report the keenest interest in the hike  
throughout the west on the part of  
the citizens of Maritime Province peo-  
ple living beyond the Great Lakes.

## METHODIST CHURCH BOARD REPORT

Officers Appointed For the Com-  
ing Year—Substantial In-  
crease in Finances.

The Fourth Meeting of the Quar-  
terly Official Board of the Methodist  
Church, held last week, summarized  
the work of the church year. All de-  
partments were reported and all  
showed a healthy progress.  
The Sunday School and Young Peo-  
ple's Societies were especially encour-  
aging while the membership of the  
Church after allowing for deaths and  
removals received substantial increase.  
Enlarged expenses were met by a  
corresponding addition in income  
which was reported as probably a re-  
cord in the church's history, viz—  
\$5779.

Mr. John T. Reid was re-elected  
Superintendent of the Sunday School.  
Mr. T. W. Foulkes, delegate to Confer-  
ence at Saskatoon, Mr. H. B. An-  
drews, Recording Steward.

THE UNDESIRABLE SCRUB BULL.  
That invariably defective animal,  
the scrub bull, is being gradually  
eliminated. The Live Stock Branch  
at Ottawa, by its policy of loaning  
pure-bred bulls to specially organized  
associations in newly settled districts  
and in backward sections of the old  
provinces, is doing much towards  
achieving this end. In the seven  
years following the inauguration of  
this policy in 1913, 2,331 bulls, pur-  
chased for \$388,396, an average of  
\$144.85 per head, had been so loaned.  
Of these, British Columbia has had  
119, Alberta 497, Saskatchewan 539,  
Manitoba 220, Ontario 218, Quebec  
759, New Brunswick 64, Nova Scotia  
79 and Prince Edward Island 38. Re-  
turns substantiate the statement that  
where these bulls have been used  
there has been a considerable im-  
provement in the stock marketed, and  
that in many districts to which bulls  
were loaned five or six years ago, far-  
mers have felt warranted in buying  
pure-bred animals of their own. As  
a result, department-loaned sires are  
released and sent to more needy dis-  
tricts. This is particularly notice-  
able in Quebec, where the number  
loaned decreased from 200 in 1916 to  
62 in 1919, while in Alberta and Sas-  
katchewan the loanings had increased.

It is interesting to note as evidence of  
the economy practised in carrying out  
the policy that in one year 425 bulls  
whose usefulness had become impaired  
were sold for an average of 67 per  
cent of their original cost.

## WESTERN VIEWS OF HON. P. J. VENIOT

Interesting Reference Made to Public Career of N. B. Minister.

(Vancouver Adly Province, May 25) —All this trouble about Mr. Veniot of New Brunswick might never have happened in the outside civil service had been under the commission a few years earlier. When the Borden government took office, Peter John Veniot was collector of customs at the port of Bathurst, (N. B.) Sir Wilfrid Laurier, advised by Mr. Blair, had appointed him to the post in 1900, after Mr. Veniot had served six years as a Liberal member of the legislature, supporting the Blair, Mitchell and Emerson ministries. It was probably true that during the eleven years in the collector's office Mr. Veniot did not forget his party or refrain from political activities. But if Mr. Hazen on taking office at Ottawa, had left him alone he would probably have been a strictly non-partisan and remained so while his opponents were in control of the department of customs.

Having been turned loose in 1911, Mr. Veniot began to be a candidate again in 1912 against the Flemming ministry. He was not elected and the government was sustained. In 1917 he was again in the field and in the meantime had done great service as political and campaign organizer. This time he was elected, and the Liberal party was successful in the province. Correspondence read in the House of Commons the other day gives the opinion of the volunteer intermediary that Mr. Veniot is easily the leader among the French-speaking public men of New Brunswick and suggests that he is no superior in Canada. This discovery seems to have been made four years ago by the Liberal premier in the province who gave the members for Gloucester a prominent place in his new ministry. It is intimated that Mr. Veniot is the brain of the Borden administration, but that is an invidious and gratuitous reflection on his colleagues. At least it is true, that whereas all four Liberal candidates in Gloucester were defeated by sweeping majorities in 1912, Veniot and his three colleagues deprived their opponents of their deposits in the war election.

The change in Gloucester alone would give the new government all its

## APPARATUS TO IDENTIFY CRIMINALS

Prof. Ottolenghi Says It Is Possible to Identify Criminals by Telephone or Wireless.

Paris, June 5.—Identification of criminals by telephone and wireless will be a simple matter if apparatus demonstrated today by Professor Ottolenghi stands up under tests.

Professor Ottolenghi, who is the director of the Italian scientific police school, showed adaptation of the 'herophone' to an international gathering of detectives, police chiefs and bankers' agents in session at Malmison near Paris today. With this instrument transmission of photographs or thumbprints by telephone or wireless is possible, Professor Ottolenghi asserts.

In a few months, the professor said, it will be possible to send thumbprints from Paris to New York by wireless, rendering the identification of immigrant criminals in either country simple. By the same invention it is now possible, he said, to 'telephone' a check accompanied by the payee's identification marks, from London to Paris.

majority. Every French constituency was carried against the Conservative government, as they were against the federal government later in the year. Mr. Veniot had more to do with than any other politician. Nor was it because he opposed Canadian participation in the war. Two of his sons were at the front, and I believe they made good records.

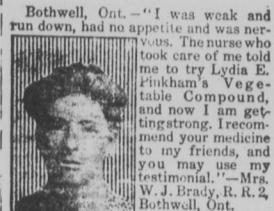

It is possible that Mr. Veniot might have gone back into politics if he had not been dismissed from office. But the fact that he allowed every election to pass without becoming a candidate would indicate that he was content to be a collector of customs the rest of his effective life. As a matter of party politics it would seem in this case, as in most others, better to leave the enemy in the civil service rather than throw him again into the political arena.

Peter John Veniot comes of no French-Canadian stock. I am not sure that he should be called Acadian. Louisburg was outside of Acadia at the time when his ancestors settled at that for early in the seventeenth century. They came from Brittany. What became of the family when Louisburg was taken by the British for the last time is not disclosed. A century afterwards one of them, a sea captain named Stephen Veniot, sailed his vessel out of Richibucto in Kent County. He may have been known to William John Bowser and Bonar Law, who grew up in a village close by. Captain Veniot had independent ideas about the education of his family. There were schools in the neighborhood with French and Catholic teachers. There was St. Joseph College, Catholic and

## OF INTEREST TO WOMEN

This is a Short Letter, But It Proves the Reliability of Lydia E. Pinkham's Vegetable Compound.

Bothwell, Ont. — "I was weak and run down, had no appetite and was nervous. The nurse who took care of me told me to try Lydia E. Pinkham's Vegetable Compound, and now I am getting strong. I recommend my medicine to my friends, and you may use my testimonial." — Mrs. W. J. Brady, R. R. 2, Bothwell, Ont.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming women's ills is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which usually testify to its strengthening, non-narcotic and harmless nature. If you want special advice write Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read, and answered by women only.

bi-lingual, founded so that ambitious French parents might give their children education under the auspices of the church and obtain for them a knowledge of good, grammatical French.

Captain Veniot passed these opportunities by or else his son took his own head for it. Young Peter John went to the centre of Presbyterianism and of sound academic training, Pictou Academy. There he remained until he was 19 and ready for the university. There he learned perfect English, as he is spoken by the McKays and McClellans. No better English can be heard in the north of Scotland than that which Peter John Veniot brought back to New Brunswick with him from that nursery of college presidents.

The youth did not adjure the faith of his fathers and go to Queens College to study for the kirk. He went elsewhere and learned to be a printer.

## THE HOME THAT WINS.

Right into the hands of every father, the Boy Scout Movement puts an insurance policy for his boy's future. Scouting is not something outside the home to turn your boy over to, and forget about. Scouting is the most active force ever let loose in the world for welding father and son together into a winning team for home and country.

Every father does not realize that the average New Brunswick boy is awake 5,000 hours a year. You put him in school for 900 of these hours and everlastingly keep after him to make good. You place him in Church and Sunday School for perhaps another 100 hours and let him know you are looking for results. You keep him around home and under your watchful eye for probably 1,500 of his waking hours and then turn him loose for his play—3,000 hours a year and that's the end of it. Why? Because you are past the play age or think you are.

Yet right here, in these hours he is away from home and other wholesome influence is where your boy forms his character and needs you most. Scouting gives you, as a father, a complete playtime programme through which you can win your son for life. Scouting wins, and the home that "puts in" Scouting wins too.

Scouting is the manliest programme ever devised for a boy. As associate members of the Boy Scouts Association fathers unite with their boys in scouting. They become pals with their sons and "home Scoutmasters" backing up the regular scout leaders. The home with scouting in it wins. If scouting is not in your home a letter addressed to The Provincial Headquarters of the Boy Scouts Association, 24 Ritchie Building, St. John, will bring back a reply telling you how you can help to put it there.

## EDITOR'S MAIL

Cape Cove, Gaspe Co.,  
June 6, 1921.

To "Editor's Column,"  
"Campbellton Graphic."

Dear Sir—  
I would like to draw the attention of the many readers of your interesting paper to the candid facts, I have observed, concerning the Q. O. Ry. and the A. Q. & W. Ry. which runs from Matapédia to Gaspe.

Many, perhaps, are blind to the real truth of the convenient means of conveyance on these railways, considering the difficulties they have to contend with.

These roads are fast being developed in a congenial and up to date style. During the summer months the passenger train carries an extra parlor coach, which cannot be surpassed for comfort, cleanliness, and convenience on any of the Canadian Government Rlys.

The manager of this railway, Mr. J. S. Gordon is capable and enthusiastic as may seem by the strenuous effort made in keeping the road open during the past winter to accommodate the Gaspe coast.

During many of the bad snow storms which blocked the trains on the A. Q. & W. Ry., Mr. J. S. Gordon, manager, was present himself, lending a helping hand and encouraging his men to what some believed, struggling against the inevitable.

Mr. J. S. Gordon can indeed, be complimented on his management of the railways.

Another noticeable fact is the quick despatch of the trains leaving Matapédia after the arrival of the Ocean Limited, which shows the promptness with which the trains are conducted.

Tourists will soon be crowding to the different summer resorts on our coast. The train leaving Matapédia in the morning after the arrival of the Ocean Limited, takes them to their destination the same evening.

We trust that the many inhabitants of our beautiful coast will realize that much of the convenience they enjoy was won through the toil of our railway men.

Congratulations to the manager, Mr. J. S. Gordon, and staff.

"Honour to whom honour is due."

I am,  
Yours truly,  
LEONIE J. A. MACNEILL,
