It was inaugurated by Sidney Smith, at that time the CURATE of SALISBURY PLAIN, who had migrated to London, and whose masterly command of wit, and whose delightful companionship is proverbial throughout Europe. FRANCIS HORNER, whose purity of character and masterly intellect is so well-known among the learned, MALTHEUS expounded Political Economy and Physical Science became clear and interesting by PLATFAIR's celebrated contributions. SIR JAMES MACKINTOSH illustrated alike philosophy and literature and politics. FRANCIS LORD JEFFREY afterwards became editor, and the inexhaustible downpour of Radical opinions from such writers as Ricardo, Hallam, McCulloch, proved too much for WALTER SCOTT, who started the "Quarterly." Its criticisms upon Byron Moore and Wordsworth are well-known, and commemorated in "English Bards and Scotch Reviewers," etc. It was afterwards edited by Prof. W. Trees and animals, landscapes and scenes from human life, combine to form a most beautiful and varied series of artistic drawings; the text which they illustrate has been newly written for the occasion; and together they present a Picture of Switzerland, such as no work has hitherto equalled, and certainly none surpasses.

The names of the artists alone are a sufficient guarantee of its excellence as a Work of Art; and the engraving has been entrusted to the far-famed atelier of A. Closy. It is evident that no pains have been spared to render the whole as perfect and beautiful as possible.—*Preface*.
