Vol. XXXIX. No. 49.

WOLFVILLE, NOVA SCOTIA, FRIDAY, AUGUST 27, 1920.

\$1.50, payable in advance.

## The Citizens' Meeting

### Turned Down School Extension

The result of the public meeting on Monday evening must have been a real disappointment to any citizen interested in the progress of our public school. Last week THE ACADIAN pointed out that the purchase of the property under consideration was the most natural and practically the only direction in which our school-grounds could be extended. That there is need of extension both as regards land and buildings must be admitted. Inspector Robinson stated at the meeting that unless more adequate accommodation were provided the provincial grant would be withheld. The only explanation for the decision reached on Monday evening is that the majority of the citizens failed to realize their responsibility in the matter and depended upon others to put through what was very generally regarded as a most reasonable proposition. On the other hand private interests were arrayed against public interests and brought about the defeat of the plan to increase the efficiency of our public schools and advance the best interests of the town. Those who advocated progress in the conduct of our educational affairs certainly had the best of the argument, but when the ballots were counted it was found that while twenty-nine persons had voted in favor thirty had recorded their objection. The advancement of our public schools in this direction is thus blocked. The need, however, of more accommodation is still a problem that must shortly be faced and overcome.

### RECENT EDUCATIONAL LEGISLATION

In Nova Scotia the Provincial School grant has been increased, allowing the same amount to men and women teachers according to the license held, as follows: Class D, \$70; Class C, \$105; Class B, \$140; Class A, \$175; Academic, \$210; and University, \$245. High Schools, \$245 for the year.

The municipal school fund to each school section shall be apportioned at the rate of \$120 for each qualified teacher employed and a small sum in addition for each "rural school library and school garden kept up to the standard of form and efficiency prescribed by the council".

No pupils can legally be admitted to public school without (a) a physician's certificate of successful vaccination; (b) a physician's certificate that by reason of the child's health, vaccination is inadvisable; (c) the declaration of conscientious objection on the part of parent or custodian; (d) a physician's certificate that the child has had small pox.

### BASEBALL NOTES

The Yarmouth baseball team, champions of the South Shore league, defeated the Middleton team on the latter's grounds, on Wednesday afternoon, by the score of 9-3. The Middleton team protested the game as three of the Yarmouth players were not eligible to play in the championship series. It is expected that Yarmouth will forfeit the game.

The Berwick team defeated the Annapolis players at Berwick on Wednesday, the score being 15-11.

A total of 236 returned soldiers have settled on farms throughout Nova Scotia, of whom all but 48 are located along the Dominion Atlantic Railway. There remain 161 to be settled.

## Social Service Meeting

### Successful Gathering at Berwick

A very important meeting was held on the Camp Meeting Grove on Wednesday, 29th inst. It was a representative gathering of all the Social Service Councils of Kings County. The meeting was called to order at or near one o'clock p.m. Rev. Owen Chipman was elected chairman, Rev. H. R. Grant, Social Service Secretary for Nova Scotia, explained the reason of the gathering. Every County in the Province was to be organized to promote the work of temperance people on the Referendum of October 25th, when Nova Scotia is to give a law-making vote on a real prohibition of the liquor traffic. A large nomination committee headed by Mr. E. B. Newcombe, of Kentville, was appointed and these nominated a general committee of representatives of every Ward in the County. Those present agreeing to act and absent workers to be informed of their election to this holy work. The desire of the convention and the determination as voiced by several speakers was that Kings County should roll up a splendid majority for prohibition.

### MONDAY'S EAST BOUND FREIGHT LEFT RAILS.

Monday's East Bound Freight left the rails between Beaver Bank and Windsor Junction. Six cars loaded with lumber left the track and were quite badly damaged, their contents being strewn about in such a way as to prevent clearing of the track until early Tuesday morning. It was necessary to transfer passengers on the Bluenose train from Yarmouth and both east and west bound afternoon passenger trains.

### CHANGE IN COURSES AT COLLEGE OF AGRICULTURE

Beginning with November of this year, two Regular Courses will be offered at the Nova Scotia College of Agriculture. The first will be very similar to the one heretofore given, except that practical training will receive more time, while there will be less of the more purely scientific studies. This course will extend over two years, and will be known as the Farmer's Course. All boys and young men who have had a reasonable amount of farm experience will be admitted, irrespective of school standing.

The other will be known as the Four Year's Course, although for the present at least, only the first two years will be given at Truro. The remaining two years may be taken at any Canadian or American Agricultural College which offers a four years course leading to the B. S. A. degree. This course will require more of the purely scientific studies, and only those who have University Matriculation standing in general education will be admitted to it. This arrangement of Course is also being put in force at Guelph and MacDonald Colleges this year.

Lachute, Que., 25th Sept. 1908. Minard's Liniment Co., Limited.

Gentlemen,—Ever since coming home from the Boer war I have been bothered with running fever sores on my legs. I tried many salves and liniments; also doctored continuously for the blood, but got no permanent relief, till last winter when my mother got me to try MINARD'S LINIMENT. The effect of which was almost magical. After two bottles the sores completely disappeared and I have worked every working day since.

Yours gratefully,

JOHN WALSH.

## Educational Conference

### Interesting Meeting of Educationists

The Provincial Education Association for Nova Scotia met in College Hall, Wolfville, Tuesday, August 24th at 10.30 a. m. The President Dr. A. H. MacKay gave the opening address welcoming the delegates and expressing gratitude to the college authorities for placing their buildings at the disposal of the association.

Dr. MacKay's address dealt with the problem of the small school section. While we deplore the fact, the small section seems to be a fixture and cannot be done away with in Nova Scotia.

Dr. Brunt followed in a short history of the Beginnings of Five Schools in Nova Scotia. Owing to the absence of Professor DeWolfe of the Normal College, his place on the program was taken by Principal H. H. Blois, who read a carefully thought out paper on Elementary Economics as a High School subject.

Tuesday afternoon a paper prepared by Miss Elizabeth Nutt on Art in the Public Schools was read. A discussion led by Dr. Sloan of the Normal College followed.

In the evening a public meeting was held. This was addressed by President Cutten and Dr. E. D. Burton, Senior Professor of Biblical Literature in Chicago University. Dr. Cutten's address dealt with the use and abuse of Mental Tests, and held the close attention of the audience. Dr. Burton's address aroused the enthusiasm of the teachers. He spoke of the necessity of the teacher having a Vision of the Task. To make citizens is the real task. The teacher must have Personality—that indefinite something that makes him or her a leader. Personality is more than Intelligence; more than Technical Skill. It is Character.

Dr. Sloan voiced the thanks of the teachers for the addresses of the evening.

Wednesday the session opened at 10 a.m. Dr. MacKay in the chair. Two addresses were given. Rev. Dr. MacDonald spoke on "The Teacher's Place in Agriculture," and Professor DeWolfe gave his address on Rural Science.

Both were listened to with deep attention. At 2 p.m. the Association was addressed by Dr. Royer on Health Teaching, and by Dr. H. H. Woodbury on Dental Inspection. It was alarming to learn that the death rate in Nova Scotia is far higher than in Ontario, and that of Halifax much higher than that of London. More preventable deaths occur each year in Nova Scotia than were caused by the Halifax explosion. All the citizens of Wolfville should have heard both of these admirable addresses.

Wednesday evening was devoted to the purely business side of the association. Two members were elected to the Advisory Board. For the first time two women are to serve on this important Board. The members of the Executive Council were then elected.

The Teachers' Union held an hour's session. The Union has started on a new lease of life, and promises to make itself felt in all branches of educational work.

The Association then adjourned to the Science building where Dr. Wallace gave an illustrated lecture on The Care of the Feeble Minded. The extensive buildings, and the actual work of the Massachusetts Institution, were made clear by means of lantern slides.

Thursday morning the Association listened to two able addresses on the Subnormal Child, the first by Dr. Eliza Brison, the second by Dr. Wallace. The regular business of the session was closed by the adoption of the report of the Committee on Resolutions.

Thursday afternoon a large audience of townspeople, as well as teachers, heard an interesting address by Dr. Vincent, President of the Rockefeller Foundation. Dr. Vincent began by defining Education as the ability to solve problems. Not mathematical problems, but the problems of Life. Our system of education tends to make us mechanical, and automatic. Life everywhere presents new situations. We must be prepared to face new issues, new problems, and to solve them.

Dr. Vincent is a rapid speaker. He carried his audience with him.

As many of the delegates wished to leave on the express east the Association adjourned at four o'clock.

The registration was considerably over two hundred.

The Wolfville schools will re-open on Monday.

## Sugar Prices Tumble

### Welcome News For Housekeepers

OTTAWA, August 24.—A Government expert on the sugar situation is quoted by The Citizen as stating that while sugar prices are tumbling in the United States, and it is selling in certain places at 17 cents a pound retail, Canadian Wholesalers, jobbers and others maintain their united front to the effect that it isn't going down in Canada. He prophesies that sugar will be around ten cents a pound in the not distant future. He says, of course, the refiners and wholesalers will try to keep up the prices, but economic laws work in such a way as to make it impossible.

The present situation in Canada is that sugar is selling on an average of 26 cents a pound retail. There is no excuse for this, he maintained. The refiners in Canada, it is true, paid 18 or 19 cents a pound for their last lot of raws, but since then the bottom has been knocked out of the boom in the United States and sugar is slumping.

### OUR FOOD SUPPLY DEPENDS ON BIRDS

#### Do we appreciate our birds?

The west is threatened with a grasshopper plague, while in the east the caterpillar is causing havoc among the trees.

Man, by his insatiable slaughter of the birds, has so reduced the balance of nature that the destructive insects are getting the upper hand. Dr. Tolmie, Minister of Agriculture, in introducing his estimates in the House of Commons on May 24, stated that Canada's annual loss from parasites amounted to \$125,000,000, and that in preparation for the expected grasshopper plague alone, there had been purchased 100,000 pounds of arsenic, 2,000 tons of bran and 50,000 gallons of molasses from which to make poisoned bait.

To overcome, or at least to minimize, the caterpillar plague, various methods are being suggested, chiefly that of spraying.

Recently, a woodpecker was noticed at work upon a tree which was being deluged by caterpillars. With the aid of binoculars, it was found that, in one visit to the tree, it secured twenty-four caterpillars. This bird, or another, returned at about quarter-hour intervals, each time disposing of a number of caterpillars.

Birds are the natural enemies of insects and bugs and, without them, we could not successfully combat the pests which destroy our food supplies.

By protecting the birds, we protect ourselves.

### THE MONTREAL GAZETTE ADVANCED TO 5 CENTS

MONTREAL, August 25.—The Montreal Gazette carries today an announcement that the paper will on and after Wednesday, September 1st, 1920, be sold at FIVE CENTS, while the subscription price will be raised to TWELVE DOLLARS a year.

The announcement states that the new price represents an advance to subscribers of about one-third the increased cost of publication and that the average percentage increase in costs has been 170 per cent, in the past six years.

Twenty-nine persons lost their lives on Aug. 20th, when the steamer Superior City sank near White Fish Point in Lake Superior after colliding with the steamer Willie L. King.

## At the Wicket Again

### Wolfville Defeats Kentville

These two teams played a well contested match last Saturday which resulted in a victory for Wolfville, the third victory for the home team out of five games played during the past few weeks. Kentville had a strong team including three new members, Messrs. Murphy, Oyer and Grant, but the bowling of Messrs. Robinson and Spittal was so effective that the visiting team was disposed of for only 32 runs, while Wolfville scored 75. The batting and fielding of the home team was excellent and maintained a remarkably uniform level. Koppel again distinguished himself as our "star fielder", making two difficult catches. Waterbury and White also made two very difficult one hand catches. A large contingent of spectators accompanied the players from Kentville and Mr. Anslow, of the Hants Journal, captain of the Windsor eleven was present and kindly acted as umpire. Windsor and Wolfville will probably play a match next week. Windsor played Bridgetown yesterday and will play Kentville on Saturday. The match between the West Indians and the Valley team is being arranged. The following is the score at Saturday's game:

Wolfville	
Saunders, c Grant b Morel	16
Phipps, b Holland	9
Herbin, c Vereker b Brooke	9
Spittal, c Grant b Walker	9
Robinson, c & b Brooke	3
Koppel, c Vereker b Morel	9
G. Bauld, c Grant b Walker	0
White, b Holland	16
Waterbury, b Holland	0
Smith, not out	1
O. Porter, b Morel	0
Extras	3
	75
Kentville	
Grant, b Spittal	0
Murphy, b Robinson	0
Oyer, b Spittal	0
Foster, c Phipps b Spittal	2
Young, b Spittal	2
Morel, b Robinson	2
Holland, c White b Spittal	7
Vereker, c Koppel b Spittal	2
Walker, c Koppel b Spittal	5
Brooke, c Waterbury b Spittal	2
Clarke, not out	2
Extras	5
	32

### WHAT THE COUNTRY NEEDS

More and more we are convinced that what this country most needs is a religion or training that will make a man pay his debts. Shouting does not settle accounts with God or man. Often we want to bounce a fellow right out of church because he went fishing on Sunday, but never say a word to the pious scamp who never pays his debts, and such people are doing the church more harm than any lot of Sunday deserters, for there are more of them in the church. Reader, are we getting close to you? Then lay down this paper and go and pay up and you can read on at ease. And don't you stop paying because the "statute of limitations" excuses the open account which you made for bread and meat. You must pay it in cash or God will make you pay it in fire and brimstone. God knows no such excuse for paying as "homestead exemption." When you raise that excuse to keep from paying your debts you can stop singing. "When I can read my title clear to mansions in the Skies," You've got none up there.

## ... DANCE ...

BY THE SEA!

EVANGELINE BEACH

Friday, August 27

Boston Jazz Band in Attendance

Notes and Comments

The only difference between an evening dress and a bathing suit now-a-days, is \$130.

It would take all the sea water in the world two million years to flow over Niagara.

Six out of every ten immigrants coming to the United States are women and girls.

Porcelain coins to replace small paper money are now being manufactured in Germany.

A polished mirror casts reflections but a polished man doesn't. That's the difference.

The wage bill of British railways is now more than three times what it was before the war.

According to an English scientist, women whose hair prematurely turn gray are usually long-lived.

No one can say the present-day girl doesn't give the mosquito a fair chance, says the Minneapolis Journal.

Sugar will not remain much longer at the present price. The new crop coming in will assuredly bring it down.

To prevent a dish from slipping when placed on the ice put a rubber ring (such as comes on fruit jars) underneath it.

The next war will be fought in the air and under the sea. Marshall Foch told the French Naval Cadets in an address.

Paper suits are arriving from Germany, a country which knows more now about the value of scraps of paper than it did a few years ago.

Spare minutes are the most fruitful for good or evil, for they are as gaps through which temptation finds easiest access to the garden.

From 32 litters of silver black foxes, Mr. George Calbeck, of Summerside, one of the leading fox farmers of Prince Edward Island, secured 156 living pups. The breeding season has been very satisfactory on the island.

Some stiff booze fines were handed out at Windsor, Ont., a few days ago. A woman who was found sipping cocktails in a hotel which was raided was fined \$1,000 and the proprietor of the place was compelled to come across to the tune of \$2,000.

Hon. Arthur Meighn is not only the youngest Premier in the history of Canada but he is the first one in many years who has been blessed with children. His family consists of two boys and a girl. Sir Wilfred Laurier and Sir Robert Borden were childless. Sir John Thompson was the only other premier of Canada whose children were young while he held the office of the first Minister.

Great significance is attached to the fact that China has become a member of the League of Nations. China was not a signatory to the German Peace Treaty, but as she has now ratified the Austrian Peace Treaty she becomes qualified for membership of the League. The Council of the League has just been entrusted with the important duty of examining the Anglo-Japanese Treaty for the purpose of bringing it into conformity with the Covenant.

WHY BEAUTY FADES

A Condition Due Entirely to Poor, Watery Blood.

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes pale, haggard and angular. She not only tires out easily but suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite. This condition will go from bad to worse, if prompt steps are not taken to increase and enrich the blood supply. To make the rich, red blood that brings the glow of health, no other medicine can equal Dr. Williams' Pink Pills. If given a fair trial their use brings rosy cheeks, bright eyes, a good appetite and good spirits. Dr. Williams' Pink Pills have made thousands of pale, languid girls active and strong. On the first sign of poor, thin blood mothers should insist upon their daughters taking a fair course of these pills. They will not only restore health, but will save further doctor bills.

Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

KEEP YOUR TOWN ALIVE

A town is very much like an individual. To be flourishing, it must have energy and enterprise. The people in a town should remember that the individual prosperity depends to a large extent upon the character of the place in which their business is located. Every public measure should be liberally supported by all, especially the business men. At the present day there is as much competition between towns as there is among persons and business enterprises. A man seeking a location will invariably select a town that is up to the times, and is eagerly in favor of every modern improvement. A town in these modern times can't afford to be peopled with old fogies or antediluvian fossils who are continually kicking at every enterprise. To make a flourishing town you must believe in its future and work for it, encouraging every improvement. Make a specific effort to exhibit some evidence of improvement in your own work and character. Help every worthy man, every enterprise, and encourage every good man to locate in your town.

CITY SHADE TREES NEED PROTECTION

Conditions in one City an Index of Almost General Disregard of Municipal Trees

As an illustration of the lack of care and appreciation of shade trees in some cities, a statement by Ald. Rubenstein, of the Administration Commission of Montreal, is enlightening. He says: "Vandalism on all sides is rampant; no care whatever is being taken of the trees already existing; they are being ruthlessly dealt with by all persons, even by the public utility companies, and nothing is done by the authorities to look after them or to replace those that have been cut down or have died through ill-treatment or otherwise." He also requests the said Commission "to state what instructions have been given in this connection, how much has been included in the budget for this purpose, and whether they propose to give attention to this important matter."

If this question were asked of many municipalities, the answers would show the almost utter disregard of one of the greatest blessings of the pedestrian during the sultry period and one of the most important amenities of urban populations.

It is far better to give work which is above the man than to educate the men to be above their work.—Ruskin.

**IT'S UNWISE**

Hymeneal

Thompson-Eadie

The following from a Massachusetts paper, date Aug. 19, will be of interest to the many Wolfville friends of Dr. and Mrs. Thompson. THE ACADIAN extends to them our very best wishes.

Miss Bessie Margaret Eadie, daughter of Mr. and Mrs. Daniel Eadie of 2 Church Hill, Blackinton, was married to Wilmot Haines Thompson, Ph. D., of Wolfville, Nova Scotia, last evening in the Blackinton Union Church. The ceremony was performed at 8 o'clock by Rev. Robert Washburne, pastor of the Methodist Episcopal Church in Williamstown, before several hundred invited guests.

The church had been very prettily decorated for the occasion by friends of the bride. Five small pine trees were placed in back of the altar and two tall pedestals bore large bouquets of pink phlox. Smaller bouquets of pink and white phlox were placed about the church and added much to the generally attractive scheme.

There was an enjoyable recital given as the guests were gathering by Paul F. Padden, organist at the local Methodist Church. Mr. Padden gave the following numbers, "Grand Jeu" by Du Nage; "Romance" by Bonnet; "Cantilene" by Shelley; and "Wedding Song" by Potter. As the wedding procession Mr. Padden played "The Bridal Chorus" from "Lohengrin" and as the recessional he played "The Wedding March" by Mendelssohn.

Miss Ruth Miller of Charleston, West Virginia, attended the bride as her maid of honor and the bridesmaids were Miss Jean Bringan and Miss Evelyn Bringan, cousins of the bride, of Blackinton; Miss Lucille Coker Vaughn of Hartsville, S. C.; and Miss Mary Louise Ashton of this city. The best man was Elbert N. S. Thompson of New Haven, Conn. G. B. Waldrop of Kentucky, D. U. Hill and E. C. Bancroft of Wolfville, Nova Scotia, and T. A. Tully of New Haven, Conn., were the ushers. Little Margaret Holliday Stewart, a niece of the bride, served as flower girl and her brother, Master William Eadie Stewart, was the ring bearer.

The bride's gown was a beautiful costume of white satin trimmed with lace. She wore a long tulle veil caught up with orange blossoms and carried a shower bouquet of bride's roses. All of the bride's attendants were gowned in pink dresses. Miss Miller, the maid of honor, wore a dress of pink georgette. The Miss Bringans, cousins of the bride, wore pink organdie and Miss Vaughn and Ashton wore pink georgette. All wore hats of pink georgette and carried gold baskets filled with pink and white asters and phlox. The little flower girl wore a dress of white organdie and carried a large basket of pink and white flowers, some of which were strewn in the path of the bride. The little ring bearer, Master William Eadie Stewart, wore a white suit and carried the ring on a silver tray.

After the ceremony at the church, there was a reception held at the home of the bride's parents, Mr. and Mrs. Daniel Eadie on Church Hill, Blackinton. In the receiving line with the bride and groom were Mr. and Mrs. Eadie, Miss Miller, the maid of honor, and Elbert N. S. Thompson, brother of the groom. Refreshments were served, the Ladies' Aid of Blackinton catering. During the latter part of the evening, the newly wedded couple left for a wedding trip to points of interest in Canadian cities and upon its conclusion will make their home in Wolfville, Nova Scotia, where a newly furnished apartment now awaits them.

The bride is one of the well known young women of this city. She is a violinist of ability and has frequently participated in local entertainments. She is a graduate of the New England Conservatory in Boston and since her graduation, taught for two years in Acadia Seminary, Wolfville, N. S., and for the last two years she has been at Coker College, Hartsville, S. C.

The groom is a graduate of Yale with the degree of Ph. D., and has been Professor of Classics at Acadia University, Wolfville, N. S., for the last nine years. His home is in New Haven, Conn. He is affiliated with the Masonic fraternity.

The groom's gift to the bride was a platinum pin set with diamonds, and was worn by her last evening. He presented his ushers with silver belt buckles. The bride gave her attendants pretty brooches. There were an unusually large number of bridal gifts displayed in a room adjoining the parlor of the Eadie home.

Guests were present at the wedding from Charleston, W. Va.; New York City; Troy, N. Y.; New Haven, Ct.; Wolfville, N. S.; Hartsville, S. C.; Williamston; Boston.

There are still half a million prisoners of war in Germany and Russia.

 Temperance in Sabbath-schools.—Mr. C. A. Patriquin.

"The World's Christian Temperance Union stands with hands eagerly outstretched to make happier and better the homes of this and every nation."

How wonderfully Francis Willard's prophecy has been fulfilled. Speaking of the world aspect of our great cause she said: "Our emblem holds within itself the colors of all nations, and stands for universal Prohibition—for hearts are near though hands are far, and women's hands and hearts all round the world will be united ere another generation passes out of sight."

In view of this we need not be surprised at the "splendid audacity" of our world prohibition program, with its prophecy of victory by 1925. It is more than a dream a beautiful vision—it is the "substance of things hoped for" that we sincerely believe will be accomplished.

**CHINA DOES NOT WANT BEER FROM OCCIDENT**

It is extremely kind of the brewers of the United States, who are apparently in serious fear lest their trade, like that of the silversmiths of Ephesus, is about to be endangered, to think of conferring the benefits of their activities on this country. But frankly they are not wanted.

Beer, however glorious, is one of the things China can manage to do without, either in large quantities or small. Its manufacture will doubtless employ a certain number of workmen, and the brewers would claim the credit of being the benefactors of mankind, and all that sort of bosh; but the case against their coming to China seems well-nigh irresistible. Rightly or wrongly, the western world is coming to the conclusion that the worship of Bacchus or his minor satellites is not necessary to human salvation. The whole trend of the times is against intoxicants of every kind as beverages, and a two million dollar plant would only be laughed at if it tried to scatter broadcast the idea that it only made beer for medicinal purposes.—Peking, China, Daily News.

**During Hot Weather**

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevents stomach and bowel troubles, or if the trouble comes suddenly—as it generally does, the Tablets will bring baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

**AN AWFUL MARRIAGE**

One of the small papers published an item lately which was a weird mix-up of an account of a wedding and an auction notice. The most interesting part of the item follows:

"William Smith, the only son of Mr. and Mrs. Josiah Smith, and Miss Lucy Anderson, were disposed of at public auction at my farm, one mile east in the presence of 75 guests, including two mules and twelve head of cattle.

"The Rev. Mr. Jackson tied the nuptial knot for the parties, averaging 1250 pounds on the hoof. The beautiful home of the bride was decorated with one sulky rake, one feed grinder, and two sets of work harness, nearly new, and just before the ceremony was pronounced Mendelssohn's wedding march was rendered by one milch cow, five years old, one jersey cow, and one sheep, who, carrying a bunch of bride's roses in her hand, was very beautiful. She wore one light spring wagon, 2 crates of apples, three racks of hay, and grindstone of mouseline de soie and trimmed with about one hundred bushels of spuds. The bridal couple left yesterday on an extended trip.

**"Your Teeth"**

By REA PROCTOR MCGEE, M.D.  
 D.D.S., Pittsburgh, Pa.  
**LOCAL ANAESTHETICS**

The local anaesthetic is a medicine that temporarily takes away the sensation of feeling from one part of the body, leaving the rest of the body with its normal sensation. We use the word "local" to differentiate this type of an anaesthetic from the "general" anaesthetic, which takes away the sensation from the entire body by putting the patient to sleep.

The first local anaesthetic was cocaine. It was used with varying success, but with a great deal of danger, for a number of years. The desirability of a local anaesthetic and the danger of cocaine poisoning finally resulted in a series of experiments to find out the exact chemical contents of cocaine. This, fortunately, was discovered and today we have a substance called Novocaine—or, to use the proper government word, Procaine. This Procaine is what we call a synthetic product. A synthetic is a chemical imitation of a natural drug. Procaine contains all of the elements of cocaine, except the poison, and in addition, it is much more uniform in its strength. The results from its use have been truly remarkable. By using Procaine, the dentist is able to take away the sensation from any part of the face or jaws that he may desire.

Formerly the local anaesthetic was injected with a hypodermic syringe around the exact spot where the operation was to be performed. But nowadays the injection is made any point upon the main branch of the nerve that supplies the area to be operated upon, and the entire nerve branch is temporarily desensitized so that pain is absent. The use of the local anaesthetic in nerve blocking, as this method is called, was almost entirely developed by investigators in America. Fortunately, we are now able to manufacture in this country all of the synthetic drugs that are necessary, so that we never again will be caught with a local anaesthetic famine, as we were at the beginning of the war.

**ROOSEVELT ON BOYS**

One day Roosevelt expressed himself on the subject of sons.

"Some of the most splendid fellows I know have boys that if they were mine I'd want to choke them—pretty boys who know all of the latest tango steps and the small talk and the latest thing in socks and ties—tame cats, mollycoddies, and their fathers real men, and their mothers most excellent women! Throwbacks, I suppose. I'd feel disgraced beyond redemption had I such boys.

"Mine, thank God, have been good boys, a bit mischievous at times, all of them, but every boy is. Honestly, if I had to make my choice I'd rather have a boy that I'd have to go to the Police Station and bail out for beating a cab-driver or a policeman than one of the mollycoddle type. He might worry me, but he wouldn't disgrace me."

**NOTE PUZZLED SAVAGE**

Writing is very puzzling to savages. In South America, on one occasion, a native was sent by a missionary to a friend with a note and four loaves of bread. The native ate one on the way and was amazed to find that the note discovered the theft. On the next occasion that he was sent with four loaves he sat on the note while eating one of them.

**FUNDAMENTAL CAUSES**

While there are many causes which enter into the prevailing unrest, the abnormal craze for automobiling and attending the movies are probably deep at the bottom of the trouble, says an exchange. When people go in debt or mortgage their homes to buy a car for pleasure, they are storing up trouble for a lot of unhealthy restlessness.

When they buy a car under such conditions it means that they take up all their spare time running about in it. They have no time for gardening, no time for reading and self-improvement.

They want shorter hours at their work and still more pay. The movies are another prime factor in the general unrest, and if the automobile, the aeroplane and the moving picture continue to develop during the next ten years as they have in the last ten years, people will cease almost entirely to read. The time which many people formerly gave to the latest novel, they now give to the latest film. The automobile is a powerful influence in this direction also.

Five dollars is the charge for the shortest taxi ride in Berlin.

**BRANDRAM'S** Genuine B.B. White Lead is free from gritty particles—it falls from the stirring paddle in a stream of velvety smoothness. It breaks up so easily and mixes so readily with linseed oil that the labor preliminary to a painting job is greatly reduced when this splendid white lead is used.

**Brandram's Genuine B-B White Lead**

There is a right way and a wrong way of painting. Before you paint anything be sure you are using the right kind of paint and giving your surface the correct preparation.

The new equipment which we have recently installed has put us to considerable expense, and we should be greatly obliged if those who are owing us would kindly make payment as soon as possible.

### Editorial Notes

The 12,000,000 war orphans of Europe," says The Boston Transcript, "are the only ones who really know what war is."

Up to Tuesday the Poles had captured 63,000 prisoners, 200 guns and 1,000 machine guns. They are rapidly driving back the Soviet troops and the Red army is in danger of annihilation.

Sugar prices are tumbling in the United States, but according to an Ottawa report, Canadian refiners, wholesalers and other dealers "maintain a united front" against a decline in Canada. That is the kind of thing which the people of this country will not tolerate much longer.

The unusually dry season makes possible a shortage of the water supply such as existed last summer in most of the towns of Nova Scotia. In order to make such a contingency beyond the region of doubt householders and all persons using the town water should observe reasonable economy while the supply is abundant. All waste should at least be avoided.

The work of laying a new water-pipe on Front street is now in progress. Some years ago a four-inch pipe was laid as far west as the Acadia Dairy. This is now being extended to Elm avenue, preparatory to the improvements which are about to be made in the street. It is to be hoped that the street authorities will be able to complete this work before the end of the season, as the street is one that is much used and is far from a satisfactory condition.

The work on the sidewalks which is to be done this season, should be commenced as soon as possible and completed before the autumn rains begin. Too often this work has been neglected until late in the season with the result that while the grading is yet unsettled heavy rains wash out the material or convert it into mud. The work being done on Linden avenue necessitates cutting down the sidewalks in many places and at others the placing of new material. The work should be completed at once and the sidewalks properly graded, surfaced and rolled.

### CHAUTAQUA IN WOLFVILLE

Last evening a meeting of the guarantors of the first Wolfville Chautauqua was held at the Town Hall, when Mr. Lloyd M. Ballis representing Chautauqua, outlined the program to be presented here on Sept. 20-23 and instructed the various committees in their duties. Thirty-one citizens have assumed the responsibility for the Wolfville Chautauqua and a splendid program is to be given during the three days, particulars of which will be given in a future issue of THE ACADIAN. Lovers of good entertainment in Wolfville and vicinity should make their plans to enjoy the many good things that will be offered.

### AUCTION!

There will be sold by public auction at the premises of Mrs. R. V. Jones,

Wednesday, September 8th, 1920 commencing at 1 o'clock p.m. the following household articles:

Sofas (one walnut); bedroom suits; Brussels carpets; side board; dining table; chairs; lamps (two hanging); desks; large bookcases and one revolving bookcase; study table; study chairs; kitchen furniture; dishes; ladders; etc., etc.

TERMS: Cash.

E. C. BISHOP, Auctioneer.

A Boston writer wonders what the Pilgrim Fathers would say could they see the barefoot dancers performing at the pageants. It would also be interesting to know, he thinks, what the Pilgrim Mothers would say if they saw the Pilgrim Fathers at the dance.

A fire resulting in the loss of four houses and 4,000,000 feet of lumber occurred at Newcastle, N. B., on Saturday. The loss is estimated at \$300,000.

The Empire Steel Merger announces that \$20,000,000 will be spent in developing their mines in Nova Scotia.

Items of Local Interest

Potatoes are selling in Halifax at \$1.50 a bushel. A few weeks ago they were \$4.00.

Rev. Mr. Irving, of Newport, occupied the pulpit of St. Andrew's church on Sunday last.

New residents in Wolfville are Mr. G. Major and family who have taken rooms at the home of Mr. E. J. Delaney.

The Charles Murphy property has not been sold, the statement to that effect in THE ACADIAN last week being an error.

Rev. E. D. Webber, D. D., of Haverhill, Mass., will preach in the Baptist church next Sunday, morning and evening. All will be pleased to welcome our former pastor.

Acadia Seminary and Acadia Collegiate Academy resume work on Wednesday of next week. We understand the attendance promises to be unusually large during the coming year.

Mr. and Mrs. L. W. Sleep announce the engagement of their daughter, Daisy Elizabeth, to Mr. Malcolm Alonzo Sanford, of Boston, Mass., marriage to take place on Wednesday, September 8th.

The Middleton "Outlook" has recently installed an electric motor to take the place of their water motor which has been in service for 15 years. We congratulate them on this forward move.

Mr. Gordon Ralph has sold his farm at Avonport to a Mr. McKinnon, of New Glasgow, who takes possession early in September. Mr. Ralph will buy a smaller place near some one of the Valley towns.

Mrs. Richmond wishes to announce to her friends that she has decided to remain in Wolfville. After a short trip to New Brunswick, she will resume teaching Sept 8th, dividing her time equally between Truro and Wolfville.

Father Daly, Redemption Father, will hold a Mission at Wolfville for three days, commencing Sunday evening at 7.30 o'clock. Mass each day at 9 a.m. and benediction and service at 7.30 p.m. The Kentville Orchestra will assist at the evening services.

Rev. G. W. Miller will exchange pulpits on Sunday with Rev. Mr. Armitage, of Windsor Methodist church. Mr. Armitage will preach at both morning and evening services and also at Grand Pre in the afternoon, and spend a few days next week visiting old friends in Wolfville and Greenwich.

Dr. C. E. A. deWitt reached the finals in the Nova Scotia Tennis Tournament held at Truro last week and won 2nd place, bringing home with him a beautiful silver cup. He did not lose one set throughout the entire tournament until the final play. The Wolfville players speak in the highest terms of the way the Truro people entertained all players and visitors to the tournament. It is to be hoped that in the near future that Wolfville will have four good courts so that the N. S. Tournament can be held in our own town when we would see good tennis matches and at the same time it would be the means of bringing a large number of visitors from all parts of the Province to Wolfville for a week.

CANADIANS TO FLY FROM HALIFAX TO VANCOUVER

Ottawa, August 24.—A trans-Canada flight, half way by seaplane and the other half by airplane, is contemplated by the Canadian Air Board, the effort to be made toward the end of the month, according to a statement issued tonight by Hon. Hugh Guthrie, chairman of the Board. It is felt that the work of the Board has now advanced to such an extent that some practical demonstration should be given of the possibilities of air navigation.

It is proposed to make a start from Halifax and to reach Vancouver, with stops enroute at Seattle, St. Marie, Winnipeg and Calgary and other places. Should the wind and weather conditions prove favorable this trip may be made in between forty or fifty hours including the time of stoppages, but, of course a good deal will depend on weather conditions.

A tragic double drowning accident occurred last Sunday afternoon when Everett Malcolm of Newport, N. S. and Miss Lena Crowell of Halifax, lost their lives in Five Islands Lake near Halifax, while attempting to rescue Rachel Hemsworth, another member of their party who was in difficulties a short distance from the shore. Kenneth Sullivan, who happened to be bathing nearby in the lake, managed to bring Miss Hemsworth safely ashore.

Business Locals

Wanted—At once, a capable maid for general housework. Good references. Convenient house, family of four. Apply to Mrs. Philip Hsley.

Girl Wanted to do general housework in a small family in Wolfville. Good wages. Apply to Mrs. G. S. Bauld.

# MOTORS AND MOTORING: A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

## AUTO TROUBLE IN THE SUMMER

### The Heat is Responsible for a Lot of the trouble

It is no doubt true that more troubles are encountered in summer per mile travelled than at any other time of the year. The heat naturally brings about many that would not otherwise come; then the roads are not always in the best shape; the driver usually increases his speed as the temperature rises and there are factors affecting the oil, the gasoline, the battery, et al.

The tires usually are the source of more unpleasant trouble than anything else. Motorists of experience know that it is necessary to keep tires properly inflated, free from cuts and mounted so that they run true. Attention to inflation is mighty important and if attended to once every two weeks will lead to the maximum mileage. There is no need to use a pressure beyond that specified because it only makes the car ride hard. There is no need of underinflating to compensate for changes in temperature. Keep the treads as though new—that is—free from small cuts. These should be plugged. Go over your tires weekly. Check wheel alignment whenever the treads indicate that an abrasive might have been used. Rapid wear should not be taken for granted if inflation is correct.

### Oil Things Quickly

During the warm weather oil gets thin, due to heat. This applies to engine oil, transmission or axle oil or even grease. In the gear cases you should use a very stiff oil—not grease—though the engine oil may remain the same. The hotter the engine runs the heavier the oil, which accounts for the heavy oil used by air-coolers. The tendency to smoke is increased as the oil thins and as the piston rings, pistons and cylinders wear. Lack of lubrication in summer means a ruined part in a short time because that part will become very hot quickly. Wheel bearings, steering connections, generator bearings, etc., must be plentifully supplied with lubricant. It would be best

if you went over the car by following the lubricating chart supplied by the car manufacturer.

During the summer months the car is on the road quite a lot and the days being long the lamps and starter are not used much. This coupled with the extreme heat of the atmosphere, tends to reduce the volume of electrolyte. This evaporation of battery solution must be compensated for by the addition to such battery cell of distilled water. The solution should be half an inch above the plates. The motorist ought to look to the battery once each summer if he is so to be assured freedom from electrical troubles.

### ALL ROADS SHOULD BE SIGNBOARDED

In a recent article in the Scientific American, A. G. Vestal, a Chicago business man, whose experience during the summer touring may be considered typical of the vast majority of motorists, discusses in an interesting way the important subject of highway marking.

In summing up his experiences Mr. Vestal says: "I must own that, I feel more or less inclined to pass up the traditional classification of roads as 'good', 'fair' and 'poor' and to regroup them according to whether the stranger can follow them with some idea of where he is and whither he is going, or whether he can only speculate on these points. In other words, there are marked roads and there are unmarked roads. Pursuing the matter further among the marked roads there are roads which are intelligently marked and there are roads which are marked but intermittently; there are roads on which the marks are maintained and roads on which they are not."

Rhode Island has sixteen motor vehicles for every mile of road.

Calcutta, India, has 6,587 motor vehicles.

## GOOD ROADS AND GOOD ROADS ASSOCIATIONS

A decade ago the highways and roads in the Dominion were misnomers. There were none worthy of the name. Neither were there any good road associations in existence ten years ago. Today Canada has excellent road systems in each of her provinces. She has a national and four or five provincial good roads associations; the roads the result of the associations, at least to a large extent. Socially good roads have proved a boon to the citizens of Canada. They have opened up the beauties and health-giving qualities of the country to the city dweller and reduced the isolation of country life to the price of a Ford. Previous to the good roads boom those living in the country counted their neighbors in a two-mile circle; today they count their neighbors in a circle of 20 and 30 and even 40 miles. This larger social intercourse, which has been the means of bringing about a broader conception of "our duty to our neighbor," has been made possible by improved roadways. If the good roads movement had done nothing more than this it was worth while.

But there is the economic value of good roads, and possibly it was this side that first appealed to our legislators in spending the large sums of money they have, and are doing in improving the highways of the Dominion. The farmer, that most conservative of mortals in the spending of public money, was almost the first to see the value of good roads in the merchandising of his products and he became one of their strongest advocates. Results have justified his advocacy. Wherever there is a good road system the products of the farm reach the market in better condition and at a cost at least 50 per cent. less than what it did in the old days. This per cent. is saved in time and lessened wear and tear of horses and vehicles. Wherever there are good roads farm values have increased considerably, and trade in general is helped by tourist

traffic to such an extent that in one province it is computed that the new roads built have been repaid by the profits made in catering to the large number of tourists from the United States that are yearly attracted by the excellent highway system.

Canada today can boast of more good road mileage per capita than any country in the world with the exception of England and France. Even the United States, considering the difference in population, is not so well advanced, which is saying much when it is realized that within recent years our neighbors have been doing wonderful work in road building. Such a record is encouraging, but there is much to be done and the good work must go on. As a matter of fact the good roads movement is only just beginning to take a real hold on the imagination of the people. It is for the leaders to carry on until every hamlet in the land has its good roads system.—Canadian Municipal Journal.

At a fancy dress ball the mistress of the house stationed a servant at the door to announce the guests by their costumes. Among those who arrived a little late were two ladies in plain walking garb, to glance at the gay and dazzling scene. "What costumes shall I announce ladies?" asked the servant courteously. "Oh, none—we haven't anything on at all," responded one of the ladies. "Two ladies without anything on at all," bellowed the faithful domestic.

Ask for Minard's and take no other.

## DISCUSS GASOLINE SITUATION

Representatives of the National Automobile Chamber of Commerce, the Society of Automobile Engineers, and the American Petroleum Institute met in conference in New York recently to discuss the gasoline situation. The reports of 50 per cent. gasoline this summer were condemned. All declared that there was no basis for such reports, and that they resulted in attempts at profiteering.

The oil men pointed out that the price of crude oil was the basis for the price of gasoline, and stated that they are now working on formulas which it is hoped will give greater power to gasoline.

"If the money we're spent on roads durin' the last twenty years had been spent as it should be, we wouldn't be in this fix. The trouble is with us, just us ourselves. We're too careless and easy-goin'. We vote money but we're too blessed-lazy to keep on the job and see that it is spent right."—Solomon Baker in "The Wisdom of Solomon."

**CANNING NOTES**

Miss Annie M. Eaton, eldest daughter of the late Levi W. Eaton, Canning, passed away on Sunday morning. She leaves one sister, Mrs. W. H. Baxter, and one brother, N. W. Eaton, of Canning. The late Miss Eaton was one of the leading workers in the Methodist church of Canning and foremost in temperance work.

Mrs. Todd Begg, was the hostess at a small but delightful tea, in honor of her sister, Miss Keith and her guest, Miss Ethel Davis, of Sussex.

Mrs. Jane T. Ray, was the hostess at a delightful tea on Wednesday afternoon, in honor of her sister, Mrs. Harris of Bear River.

Mr. and Mrs. H. T. Forsythe of Wollaston, are the guests of Mrs. Spurr Woodworth.

Miss Freda Woodworth, has accepted a position on the staff of the school, at Spryfield.

Miss Alice Huston has accepted a position with Mr. Lloyd Ward, during the absence of Miss Marion Spicer.

It is proposed to establish a white-fish canning industry in northern Alberta. It is said there is no finer fish in fresh water than the whitefish of the far north rivers and lakes.

**ARE YOU NERVOUS?**

Do You Jump at the Least Noise? Take VITAL TABLETS

One whose nerves are unstrung, becomes irritable and cross, and no one can sympathize with you. Why don't you try Vital Tablets, you will be surprised at the results. They make the nerves strong and healthy. You will be a different person in a few weeks. Vital Tablets are a wonderful tonic. They build up the entire system. Indigestion and all its horrors will eventually leave you if you persist using Vital Tablets. Go to your druggist and get a box to-day. Price 50c or 6 boxes for \$2.50, or by mail. The Scobell Drug Co., Montreal.

"Crime has not been cured, unrest has not been settled, and drinking has not been stopped by national prohibition," says The Indianapolis News, "but there is less crime, more money in the banks, and less poverty than before. Nobody supposed that prohibition would completely prohibit at the start. The liquor business dies hard and the enforcement officials must continue their efforts. Some people still get the booze they desire, but where one drinks now scores are leaving it alone."

**THE VALUE OF ADVERTISING OF AND FOR LIVE STOCK.**

(Experimental Farm Note.)

To the well known, established, breeders of live stock any advice on the value of advertising is superfluous for in the large majority of cases it has been by proper advertising of high class goods that they have built up their business. The purpose of this article is to call the attention of the smaller breeders, the beginners in the business, to the possibilities in advertising any live stock which they may have for sale. For example every year at the Central Experimental Farm, Ottawa, there is a deluge of enquiries as to the possibility of purchasing young animals of the various classes of live stock. Needless to say the Farm is unable to fill all wants for obvious reasons such as being sold out of the particular class of stock wanted; not having animals of the age or sex wanted; and not keeping representatives of the breed wanted. In an endeavor to assist our correspondents to locate the animals they wished to purchase it has often been found and sometimes too late that breeders right in their own vicinity had animals of the class of stock wanted for sale, but as they had not been advertised for sale nor had the intending purchaser advertised his wants, both parties missed a chance to do business which would have benefited both.

From the above it would seem that a more extended scheme of advertising on the part of breeders who are either in need of or wish to dispose of stock would be profitable for all parties concerned. This advertising need not be very expensive. A small notice in the proper column of the local paper or in one of the farm papers which is popular in the district would serve the desired purpose quite adequately. If the number and quality of the animals warrant it, a larger advertisement with an illustration would be in order.

Advertising is of course of particular value in disposing of breeding stock or animals not in fit condition for sale on the regular market. The writer has in mind one particular class of stock namely, aged pure bred dairy bulls of good quality and known to be breeding good stock. Many of these find their way to the butchers every year when it would be much to the advantage of the breed as well as to the farmers disposing of them and luckily enough to get them, if they were kept for further years of service. A little timely advertising would in many cases accomplish this end.

Lastly advertising must be more or less reasonable. The greatest demand for dairy cattle and swine breeding stock is usually in the late winter and early spring, while sheep are more in demand in late summer and fall. Plan the advertising to meet the seasonal requirements and it can then be done most economically.

GEORGE W. MUIR, Animal Husbandman.

**A NARROW ESCAPE**

Middleton Outlook.—On Tuesday a serious accident was narrowly averted at a railway crossing about a mile east of Lawrencetown station. Dr. Cullen of Wolfville was motoring westward with three passengers in the car when at the crossing he met another auto coming down the hill. He was obliged to stop and his car stalled. The morning express from Halifax was approaching and before the car could be started was almost at the crossing. When the locomotive driver saw the danger he stopped the train, but had not Dr. Cullen got the auto started when he did there would have been a crash. The other occupants of the car jumped out. An auto came to grief at this crossing a few weeks ago.

Baku, the great Russian oil city, has had "spouters" greater than any ever tapped in America. The famous Dvagh well, when first tapped spouted one million eight hundred thousand gallons a day. It took three months to cap it, and the amount of oil wasted during that time is estimated to have been five thousand tons.

Note.—Newspapers will not be paid for this advertisement if they insert it without authority from the Department. (H.Q. 3361-1-22).

**BIG SLUMP IN SUGAR MARKET**

The Retail Price in Detroit is 17 Cents Per Pound

TORONTO, August 21.—A Toronto man, who was in Detroit yesterday stated here today that sugar was selling at 17 cents a pound in the retail stores there. This price compares with 23 cents up to 26 cents a pound locally and canners in Hamilton were yesterday paying twenty-one cents wholesale.

A further surprising piece of information supplied by the visitor from Detroit was that he had been told by a grocer in Detroit that the reason the bottom had fallen out of the sugar market there, was that there had been large importations from Canada.

A Toronto Telegram expert claims that the socks a man wears indicate his character. What awful characters some of our young men must have.
