Missing Toronto Girl Found Dying

CLAIMS HE WAS GAGGED AND ROBBED

Frank L. Barrett of Guelph Found by One of His Employes, Bound and Gagged in Cellar of His Dairy, With Office Safe Rifled.

GUELPH, Ont., Dec. 21.—The most mysterious affair which has come to the notice of the local police for some time, was unearthed shortly before 5 o'clock on Saturday afternoon, and although every effort is being made to unravel the mystery, they are still in the dark.

He went down to the furnace to light a cigarette on Saturday afternoon, and when he turned from the furnace door saw his employer lying face down, and apparently unconscious, on the floor.

Safe Was Rifled. Although the front office was found open and the contents of the safe were strewn over the floor, and Mr. Barrett's hat was found on the floor by the drivers who came in the early morning to deliver the milk, no investigation was made, as Mr. Barrett frequently went away for a day or two, and no suspicion there aroused.

Return of "Milestones." "Milestones," the delightful comedy-drama which made such a great success here last season as it had done in London, New York and other large cities, will begin a return engagement tonight at the Princess Theatre.

Burglars in Toronto

CAPT. SYLVESTER PASSED AWAY SUNDAY

One of the Best Known Mariners in Canada, He Sailed From the Time He Was Thirteen Years Old, and Was Owner as Well as Captain.

Capt. Solomon Sylvester, aged 77 years, died at his residence, 399 Manning avenue, yesterday. The funeral will be held on Tuesday at 2.30 p.m. from his late residence.

On different crafts he worked his way up until 1857 he became master and took command of the schooner Atlantic. He owned and sailed different vessels until 1868, at which time he came off the water and inaugurated a general wharfage and storage business, in partnership with his brother David and James Hickman.

Notwithstanding his long secular duties, Capt. Sylvester found time to devote to church and lodge matters. He held high positions in the Independent Order of Oddfellows and the Sons of Temperance. He was a Presbyterian, and at one time an elder in the West Presbyterian Church.

"NEVER MIND, THANKS, I HAVE SOME CHANGE"

Well-Dressed Stranger Worked the Garden Theatre for Ten Dollars.

Approaching George Stockwell, a ticket seller at the Garden Moving Picture Theatre on College street Saturday night, a well-dressed man successfully pulled off the old short-change game, defrauding the theatre of \$10.

PASSENGERS FOUGHT TO SAVE WRECKAGE

C. N. R. Train Ditched in Manitoba, But Two Hundred Passengers Escaped.

LORETTE, Man., Dec. 21.—(Can. Press).—The C.N.R. train from Duluth and Port Williams was derailed near here today and five coaches and a baggage and dining car overturned into the ditch. The wreckage caught fire but the two hundred passengers escaped through windows, scratched and bruised, and helped extinguish the flames.

MORE FEDERAL TROOPS REVOLT AGAINST HUERTA

Five Hundred Mutineers Carry Off Cannon and Machine Guns.

MEXICO CITY, Dec. 20.—(Can. Press).—The list of federal troops who have revolted was augmented today by a detachment formerly under the command of General Guadalupe de La Llave, in the State of Puebla. The mutineers are said to number 500 men. They took with them two cannon and a few machine guns.

A heavy consignment of oil from the Tampico district has reached San Luis Potosi.

TORONTO DOCTOR WANTS DIVORCE

H. G. Hargrave Files Brief Complaint in Reno After Six Months' Residence.

(Special to The Toronto World).

RENO, Dec. 20.—Henry G. Hargrave, said to be a well-known physician of Toronto, appears as plaintiff in the action for divorce against Juleline Hargrave. The complaint is brief, and grounds upon which he seeks marital relief are based upon allegations that she deserted him against his consent and will, and also he was willing to resume domestic relations she thereafter refused to return to him.

Details of his allegations are not disclosed, as the papers are on the files of the court and not open to inspection. No children or property settlement is mentioned. Mr. Hargrave came here last June, was admitted to practice his profession in this state by the state board of medical examiners at Carson City, but has not been active in it.

Ex-Judge Seeds, formerly of Colorado, will represent his interests at the trial of his case, which probably will occur within the next ten days.

SIX MEN WERE CAUGHT IN SUNDAY POKER GAME

Caught by Plainclothesmen Koster and Scott playing poker in a back room over the Belmont restaurant yesterday afternoon Alex. Maxwell, 134 West Queen street, was charged with keeping a gaming house, and five others, Andrew Menier, 253 Sackville street; Chas. Robinson, Wellesley place; Garnet Norris, 119 Shuter street; Lewis Harris, 711-2 Shuter street; and Joseph Welsh, 259 Jarvis street, were arrested charged with frequenting.

BURGLARS STOLE CUTLERY AND REVOLVERS

Premises of H. S. Howland and Sons Entered on Saturday Morning Thru a Rear Window and Careful Search Made for Money and Valuables.

Forcing a window at the rear, burglars gained an entrance to the office of the H. S. Howland and Sons Company, 133-140 West Front street, early Saturday morning, and carried away a large quantity of cutlery, two revolvers, and other articles of considerable value. The men showed expert knowledge in selecting their loot and evidently were well acquainted with the interior of the office and factory.

TAMPICO SIEGE TO BE RENEWED

Rebels Pressing Forward Upon Strengthened Garrison—Federals Victorious in Two Skirmishes.

MEXICO CITY, Dec. 21.—(Can. Press).—The rebels are crowding close on Tampico, and a formal attack may be expected soon. The report received by the government last night, that the assault had begun, was not questioned, as it was assumed at the palace that this was the rebel plan, but it has developed that the officer who made the report had become confused over a minor engagement at a point some miles from Tampico.

The war office has utilized the time since the last attack to strengthen the garrison at Tampico, and professes confidence in its ability to resist the rebels.

Forces under Gen. Panfilo Natera are slowly advancing on Zacatecas, capital of the State of Zacatecas, and between Sahillo and San Luis Potosi, along the main line of the National Railway, rebels have again appeared in large numbers. This region has been comparatively free from rebels for several days.

OTHERS IN PLOT TO ROB LOUVRE?

Three Arrests Made at Paris—Perugia Said to Have Implicated Accomplices.

PARIS, Dec. 21.—(Can. Press).—At the moment the "Mona Lisa" was officially restored to France, Magistrate Drioux, who has had the case under his charge since the painting disappeared from the Louvre, ordered the arrest of Vincenzo Lancelotti, Michele Lancelotti and Mme. Clamagrand, friends and neighbors in Paris of Vincenzo Perugia, on information telegraphed from Florence by the French police official, Vignol.

STARVED AND FROZEN

Strong Smell of Stale Beer from the clothes on the body lends additional weight to Mr. Lindala's statement. According to Dr. Bond, who examined the body, the smell of stale beer would last for weeks.

After the girl's death in the Dew home, County Constable James McMullin was summoned to investigate, but to ensure the matter being properly handled city detectives were detached. Police official last night were very cautious in giving their views on the case. County Constable McMullin being particularly anxious that nothing of the discovery should appear in the press.

Will Be Inquest. The body was first taken to Myers' undertaking rooms on North Yonge street and later removed to the city morgue, where an inquest will be opened this afternoon by Dr. Crawford.

LOST GIRL DIED OF EXPOSURE AND HUNGER

Annie Yakinen Found at Point of Death in Field Facing on Eglinton Avenue—Odor of Beer on Her Clothing Suggests White Slavery.

Unconscious from hunger and exposure, and almost lifeless, Annie Yakinen, the Finnish girl who has been missing from her place of employment at Amesley Hall, Victoria College, since Dec. 4, was found by John Dew near a corn stook in his field at the south west corner of Forest Hill road and Eglinton avenue yesterday morning about 11 o'clock. The girl died in Mr. Dew's home a few minutes after she had been taken in.

Attracted to the spot by the moans of the dying girl, Mr. Dew at first attempted to elicit from her some information as to how she got there; falling in this he carried her to his home, summoned Dr. Bond of Yonge street, but in spite of all the restoratives administered, she died before the arrival of the doctor.

MISSING THREE WEEKS

The deepest mystery surrounds the disappearance of the girl. Three weeks ago, in company with Marda Dumon, a Finnish domestic, of 67 Howland street, she visited a picture show, after which the girls parted at the corner of Spadina and Bloor. Since that time Miss Yakinen has not been seen, although a reward of \$500 was offered for her discovery.

In the minds of the police officials there is no doubt but what she was abducted by unknown persons and kept somewhere for the past three weeks. With every policeman in the city and county on the lookout for her, it would be, they say, impossible for her to wander around the outskirts, unable to speak English, without attracting attention.

STARVED AND FROZEN

Strong smell of stale beer from the clothes on the body lends additional weight to Mr. Lindala's statement. According to Dr. Bond, who examined the body, the smell of stale beer would last for weeks.

After the girl's death in the Dew home, County Constable James McMullin was summoned to investigate, but to ensure the matter being properly handled city detectives were detached. Police official last night were very cautious in giving their views on the case.

ASSISTANT BISHOP PREACHED AT GRACE CHURCH MEDICATION

New Parish on College Heights Will Be Served by a Beautiful Stone Edifice—Many Anglican Churchmen Took Part in Opening Service Yesterday.

"A gate to heaven to all who enter in." Such was the hope expressed by the Rt. Rev. W. H. Beveridge, assistant bishop of Toronto, who formally opened and dedicated the new Grace Church, corner Russell Hill road and Lansdale road, Sunday morning.

The "church on the hill" is as imposing a structure as the former little building which some few years ago was Grace Church on Elm street was unpretentious. Situated on one of the highest spots in the city, it is an edifice overlooking the city, and is an edifice worthy of the efforts of the congregation who brought it into being. A monument of stone to the loyal work which resulted in its erection.

In shape the building is cruciform, with nave, transepts, chancel and side aisles, the chancel containing the sanctuary and choir. The seats are all of oak, and opening off the south aisle near the west end is the baptistry. The present accommodation allows for six hundred people, but the church has been situated so that it can be enlarged to hold two hundred more.

Tower is Planned.

The tower has not yet been built, but it is expected that it will be added in the near future. It is to be twenty-eight feet square, and will rise to a height of ninety-six feet, and thru it the main entrance will be made.

A message was received from His Royal Highness the Duke of Connaught, Governor-General of Canada, congratulating the congregation on the opening of the new church, and expressing the hope that the tower would also soon be completed. The governor-general has taken a great interest in the new building, having on May 23, 1912, turned the first stone in preparation. Actual building operations began in October of the same year and the foundation stone was laid by the bishop of the diocese.

Recognizing it as a waste of energy to have two parishes in the one section of the city it was decided in 1911 to remove from Elm street to the new parish of Grace Church in the northerly part of the city, and the downtown work was entrusted to Holy Trinity Church. In September, 1911, the present rector, the Rev. Jas. S. Broughall, who came from St. Stephen's Church, where his father before him had been rector for many years, was appointed.

Many Take Part.

At the service yesterday morning Prof. Duckworth of Trinity College, gave the morning prayer. Prof. Cosgrove and Canon Gould took the lessons. Provost Macklem of Trinity College, and Rev. E. H. Musson took the Epistle and Gospel. The present taking part were Rev. R. Hiltz, Canon A. J. Broughall, the rector's father, and Canon Gribble.

In the course of the service, the Rev. Jas. S. Broughall, the rector, cordially thanked and congratulated all who by their work had assisted from St. Stephen's Church in the erection of the building in so short a time. A little over a year since the foundations were laid the church had been brought so far towards completion that they were able to meet within its walls and offer the Lord thanks. He hoped before long he would see the completion of the building, which would give the township a churchlike appearance from the outside equal to its splendid interior.

The House of God.

His lordship took as his text: "This is none other but the House of God," Genesis, 28, chap. 17 verse. "What should the House of God stand for? It should be a house of praise, and surely the voice of praise and thanksgiving should be raised especially this day for all that God has done for you and by you, but more than all else it should be a house of prayer set forth for the worship of Almighty God.

"I am afraid many people do not come to church for this, but to hear Mr. So-and-so preach and hear a good sermon, and that is the worship of God. While it should be a house of preaching as well this is not the first object of the house of God. Worshiping is the first object in praise and prayer.

Questioned Motives.

"Altho it is much to say, I am afraid

THE WOES OF MRS. NEWLYWED

"I served cream cheese at dinner last night," complained Mrs. Newlywed. "But now I must throw away what is left."

"Oh, no, you need not do that," cheerfully responded Mrs. Neighbor. "The scraps of the cream cheese may be made useful by mixing them with butter and milk or a little cream. Spread on thin crackers," she continued. "Made into sandwiches they are simply delicious."

the majority of people go to church for other purposes than really worshipping God.

"The house of God should be a house of sacrifice. That is expected of us, and the kind of sacrifice we should bring when we come to worship in the spirit of truth is to offer Him our soul and body.

"The house of God should be a house of prayer to all the people. For the rich and the poor, for the learned and the simple. The charge has been brought against the Church of England that it is the church of the rich man, for the well-to-do. We have only to take the case of this city to prove this untrue. Holy Trinity Church is a notable example of work done by the Church of England among the poor.

The Bishop's Sermon.

Bishop Sweeney presided at the evening service, taking as his text, the house of God and the offices thereof, Nehemiah 13, ch. 14 verse. The inspiration of the work of Nehemiah, who thru the help of God, restored the Temple of Jerusalem to its former splendor was found so in the work of the congregation of the new Grace Church and the magnificent edifice which by the grace of God they had been enabled to erect.

Such a building in the community was a witness of the belief in God of the people and the parish, and it was with a very full heart that he congratulated the rector and congregation with them in the joyousness and happiness of the happy day.

A Cathedral City.

The bishop declared that the need of a church edifice equal to the needs and dignity of that parish but brought out more clearly the need of a cathedral for the diocese of Toronto that would meet the needs of the diocese and come up to the standard of dignity that the Church of England should possess in this city.

CHRISTMAS SERVICES IN MANY CHURCHES

Festival is God's Answer to Yearning of Mankind, Says Dr. Hincks.

Christmas music and sermons predominated in many of the church services yesterday. At Trinity Methodist Church Rev. Dr. Hincks explained last night what was in his view the real meaning of Christmas. The wonderful and almost universally observed anniversary, he said, brought God into close range with human life.

Previous to the first Christmas season God seemed very far away. This was shown in the declarations of the ancient Hebrew philosophers, especially that of the Job.

Christmas was the answer to the yearning of humanity. It brought divinity in close touch with human life. The Christmas nativity was a visible demonstration of the union of the infinite and finite.

The music at Trinity Methodist Church included the cantata, "The Manger Throne" in the morning, and a portion of Handel's "Messiah" at night.

NOVA SCOTIA LOBSTERS.

Dec. 21, 1913.—It is estimated that the annual catch of lobsters in the world is 125,000,000, and of this Nova Scotia supplies 40,000,000, valued at \$2,000,000. The lobster pack that comes from anywhere else than this part of Canada is almost negligible. The catch of cod and other fish by Nova Scotians brings the total annual value of the fisheries to over \$3,000,000. The lobster fishing has been well maintained of late, thanks to the help of the lobster hatcheries, which are placing in the sea millions of small lobsters yearly. It is still possible to catch Nova Scotia lobsters at a few places in the world, for an amateur to watch the lobsters crawling on bottoms of the sheltered cove, and fishing them up, carry them home for supper, confident that they will have fresh boiled lobsters. Nova Scotia has a genuine monopoly of the English trade in the supplying of canned lobsters.

Women will find more news of interest to them in The World's magazine page every morning than in any other paper.

A Few More Replies to Correspondents.

Mrs. T. of Rushmore road: Your communication over the phone, regarding the "Wandering Jew" is very interesting. Many have written or phoned us to the effect that their own plants were blooming, had bloomed, or were in bud. Several mentioned pale blue flowers, borne in clusters, at the ends of the drooping vines. By far the greater number, however, had plants that at least fifty have communicated with us, one way or the other) by far the greater number claim to have vines producing rose-colored blossoms. So that you, Mrs. T., is the first one we have heard of producing white flowers. Keep on hoping for more white flowers this winter.

And now, if you please, come a delightful letter from Pelhamton, Ont., from one of our "Gardeners." It is quite evident that "Wandering Jew" has crept very close to the hearts of many a flower lover, and is being cultivated much more extensively than we had thought. Now that we ourselves have learned something more about this vine, we may state again. Mrs. R. H. P. of the above named town, has quite heartened us by her letter. She writes that she has sent out two small, round, deep purple flowers last week that only lasted a day and a night. Had she not been on the watch for a possible flower, she would certainly have missed seeing them. The little talk of December 9 set her watching, with the above happy result. There are many things we miss by not being observant.

Foxley street Mrs. W. We hope to be able to run in and see that pot of rosy flowers on the "Wanderer" just as soon as we can. Do not think we have forgotten. We are coming. "Grumbler from Grumbler's Corner." This is our own selection of a name. Can't be helped, this "Replying to correspondents," even if we wished it. Do you know it all yourself? Have you never felt the need of asking questions? Or, what is more important, how do you never get the desire to help others? Every single reply in this department helps many more than the single inquirer to whom the answer is primarily intended. Do come down from the clouds. "Grumbler," and tell us your hopes and joys, if you truly have no trifles.

Miss Jennie B. King street West: The small specimen you sent in the other day is not a bit of the "Wandering Jew." It is a shoot from a "Trailing Myrtle" or "Vincos." Notice the leaves, quite unlike those of the "Wandering Jew," which you will remember, issue directly from the stem, and are decidedly sheathed at the base. In this case, also, the blue flowers issue from the axils of the leaves, while those of the "Wanderer" are strictly terminal, and in clusters.

No, we cannot possibly let anyone have the little slip from our musk. Besides, we haven't any; truly, Mrs. G., from Beverley street.

Don't Be A Goop!

A DAILY STORY FOR CHILDREN

OLD DOBIN

By Virginia Vale.

Once upon a time there was an old horse named Dobin. He lived on a farm where there were a lot of children. Dobin was all white except a big black spot on his forehead. He was so kind and gentle that the little children could go into his stall in the barn and feed him sugar and apples.

Dobin liked sugar best, and could smell it as soon as the children came into the barn. He would turn his head and make a funny noise, which was his way of saying,

"I am glad to see you; did you bring me some sugar?"

When the children gave him the sugar he would rub his soft nose against their hands, and they would pat him and tell him how much they loved him.

It was a great treat when the children were allowed to ride on his back and go down the lane to the brook. Then they would all get off his back and he would wade in and drink all the water he wanted.

Every summer he was given a birthday party and all the little boys and girls who lived near were invited. Dobin had a table all his own, and it was spread with everything he liked best. There were big apples, nice carrots, sweet hay, and, best of all, as much sugar as he could eat. The children sat at the table and after they had eaten, played games and had a merry time.

Last of all was the ride on Dobin's back. This was the best fun of the day. The children took turns, two at a time, and rode around as long as they wanted.

When they had all had their turns they picked a lot of wild flowers and made Dobin a wreath to put around his neck. They were very proud of their hands and danced around him, singing all the time. After that it was time to go home, so they said:

"And all the little riders would say it was just the best party, and want Dobin to have another soon."

The Christmas Tree

Children who are old enough to appreciate the fun, enjoy a Christmas tree more than any part of the Christmas festivities. And the more they are allowed to share in the decorating the better. A small tree placed on a table can be made quite as attractive as a large one, and makes a pretty decoration for a room.

I would suggest covering a table—the dining table is the best size—with a white cloth, setting a pretty little tree in the centre, and then decorating tree and table. The decorations mean a great deal. At a kindergarten closing on Thursday morning there was a woful lack of enthusiasm over the tree. The reason was it had arrived too late for the teachers to do more than hang the little gifts. These were beautiful little things made by the children, but unfortunately they were all green and brown, with not a sign of the brilliant red and gold that the Christmas tree demands. It is not at all necessary to buy a lot of decorations for your tree. Home-made articles can be made very attractive and do not cost more fun. No matter how busy mother may be with the final housewifely duties, she just loves to stop to help "make things" for the tree. Cranberry strings may be made by the children, and pop corn. The pop corn strings can be made to sparkle by the addition of red and white string paint it rapidly with a brush dipped in a sticky syrup, and as fast as this is done have some one sit over it ground rock candy.

Animal biscuits make a good decoration. To make them stand up straight put the strings thru the biscuit twice, running it along at the back. If you wish more elaborate designs, of course, fables make the tree very pretty. I do not mean the use of candles; there is always danger of fire where these are used with flimsy decorations. If all the presents, tied with red ribbon, are arranged at the base of the tree, they supply a bit of color, and make a pretty picture when the family come downstairs on Christmas morning. The Christmas tree has performed its duty, then, in helping decorate the house, and the presents, tied with red ribbon, make a pretty way of distributing the presents. It is never intended to make an excuse for a night party where much excitement and overindulgence in the use of "sars" have caused many a parent worry and expense.

In place of the Christmas tree here is a suggestion found in a December magazine. Have each member of the family choose a color. Let the respective presents be wrapped in white paper and tied with ribbon of the chosen color. Then have the parcels hidden anywhere about the house, and let each family member one join in the hunt and see what fun it will be!

The plans given do away with that lamentable habit some families adopt of letting "the kids" open their presents about 5 a.m., and the adults look over languidly what they have not already examined the night before.

Christmas was meant for the family, so see to it that your family, at any rate, enter into its spirit together.

Honey—Our Purest Sweet.

HONEY, the sweet juice of flowers prepared for our tables by the honey bee, is the purest and most delicate sweet ever known.

The working bees extract it from the flowers and carry it to the waiting comb in the hive. Its fine flavor is not always the same, for it is usually delectable. In the west great stretches of blooming sage brush furnish to millions of bees, and this sage honey is highly esteemed for medicinal, as well as table purposes. It has a wild, sharp tang, very different from the dark colored, cloyingly sweet honey made from the buck-wheat-fed bees of farther south.

In Xenophon we read of the intoxication of his soldiers, in the retreat of The Ten Thousand, from eating wild honey, and this was made, probably, from rhododendron flowers, for history tells of similar experiences.

But there is nothing harmful or poisonous in the delightful honey that our bees make, and children who are given it, in the place of candy and injurious sweet cakes, grow rosy and healthy.

We think clover honey is the most tempting, but remember that roses come at the same time as clover blooms, and perhaps these perfect flowers have something to do with the perfection of clover honey. Cuban honey has a very strong flavor of orange flowers and a little of this is being imported now for epicures.

Honey candies or crystallizes when it becomes chilled, and if heated returns to syrup again, but the comb hardens and may be taken out when the honey is cool. Kept in a temperature around 70, honey will never sugar.

Yankee Honey Cakes: One pint of honey will keep as long as you can keep the key to the cook book hidden. One pint of butter, half a pound of powdered sugar, half a pound of butter, the juice of one lemon, one nutmeg grated. Put these ingredients in a mixing bowl and place in a pan of warm water until the butter is soft and the mass slightly warm. Then beat with a cake spoon, and when well mixed add enough flour to make a dough that will roll out in a paste half an inch thick. Cut in rounds and bake in an oven with good bottom heat.

It is said the Normandy peasant children love honey ginger bread and comb shyly to the garden of Masterlinck, where the writer of "The Blue Bird" and his artist wife welcome and feed them this lovely sweet.

Miss Grace Aspinwall secured the recipe from Madame Masterlinck. Blend a cup of honey with two well-beaten eggs, add a half-cup of softened butter, a pinch of salt, one teaspoon of cinnamon and one of ginger. Mix one cup of sour milk with two-thirds of a teaspoon of soda and add with fresh milk, says Miss Aspinwall.

Apples, sweetened with honey and baked, and then served with rice, are a very fine breakfast dish well liked and often met with in France.

HEIR TO HUGE FORTUNE IMPRISONED FOR LIBEL

Son of German Plutocrat Assaulted Character of Director of Firm.

MUELSHEIMAN, DEB. RUIHR, Germany, Dec. 20.—(Can. Press).—August Thyssen, Jr., a son of the great mine owner and manufacturer of the same name and heir to one of the greatest fortunes in the world, was today sentenced to a month in jail for libelling the director of his father's firm. The elder August Thyssen employs nearly 20,000 workmen and is the owner of great stretches of mining property and iron works.

Father and son have been estranged for a long time owing to the spendthrift character of the son who two years ago was brought up in the bankruptcy court in Berlin and was said to owe \$4,000,000. He was today sentenced to a month in jail for libelling the director of his father's firm. He renounced his rights of inheritance. He cannot inherit owing to the existence of a deed establishing his rights.

Chic Blouses With Suits Still Popular

By Madge Marvel

WOMEN have stopped worrying over the cry that the separate blouse has had its day and is doomed to oblivion. It has become a wolf-calls-to-wolf-precursor hearing, its echoes have scarcely died away before new and alluring models of the blouse, we were told had passed, are placed on exhibition.

The fact is that while the one-piece gown is the generally accepted garment for dress occasions, and while many of the plainer frocks are in this style for wear under the separate coat of fur or cloth, lots of women prefer the suit to the coat. And the separate blouse, in some form or other, is a necessary adjunct of the suit.

Fascinating in fabric and novel in style are the blouses of the season, and in price—whatever you wish to pay, from ten dollars to ten times ten. They are soft and frilly and feminine, and the old-time "shirt waist," which we are learning each day to forget, seems absurd as the originator of the family, about as the vesting cruet, which leads us to throw one sheer fabric over another with delightful effect.

One model, illustrative of this, has a foundation of silk mull, over which is a silk shadow lace. There is the delicate vest of palest pink chiffon, apparently fastened with tiny rhinestone buttons and with a bow of quarter-inch black velvet at the lower closing of the surplice.

Over the shoulders a width of old blue chiffon is drawn, the hemstitched edge forming a straight outline for the inner vest of pink. It meets just below the black velvet bow at the bust line and finishes with the correct bagginess at the waist line. The sleeves are long and have a band of the blue chiffon and a ruffled cuff of lace.

Many of the most expensive blouses are of cotton embroidered in beads. One of these, the most expensive woman of my acquaintance has bought it. It is of having no well defined neck of it. Later it became the motif of a three-piece costume.

This blouse was of blue chiffon with a motif of blue and white on an undertone of green. It was cut in the style of the blouse, in front, and the exquisite bead embroidery which was wrought about the neck, down the fronts and half way around the sleeves.

Mr. Wijit on "CAUTION"

By W. Bob Holland

"IF there is any one fool worse than another," remarked Mr. Wijit, "the fool woman who carries her purse in a reticule or satchel which she suspends from her belt is the worst. She sets a premium on dishonesty and yet, when her pocketbook disappears, she lets out an awful wail about it."

"That's so," assented Mr. Wijit. "However," continued Mr. Wijit, "I taught one of those fool women a lesson the other day. I hope she remembers it. My wife and I were in a crowded car with side seats. Standing in front of us was a woman with a satchel attached to her belt. She was reading a paper and was holding it so that she could see nothing else."

"I called my wife's attention to the ease with which a pickpocket could open the satchel and get the purse. My wife was skeptical. 'Why, I could get the purse myself,' I asserted. 'Do it,' suggested my wife. 'I spoke to the man at my right, told him what I intended to do, so that there would be no trouble if I were detected, then I slowly twisted the handle of the reticule. It dropped open. There was the purse all right, all right. I gently lifted the purse and as gently closed the reticule again. No one had seen me except my wife and the stranger to whom I had spoken.

"Then I touched the woman's arm and said: 'I beg pardon, but is this your purse?' She gave a start and grabbed the purse. 'Did I drop it?' she asked. 'How careless of me.'

"This was my cue to give a little advice, which I replied. 'I took it from your reticule. I merely wanted to show you how foolish it is to carry a purse that way.'

THE FIRST TOOTH

By Michelson

SEVEN wonders of the world? Pshaw! What are the pyramids of Egypt and the Colossus of Rhodes and the Jupiter of Ephesus and the rest to this Eighth Wonder? What were the hanging gardens of Babylon to this first gleaming toothlet of Babydum? Mind you—the first tooth of the FIRST BABY. The first baby is more important than the First Man—even than the First Woman. Proclaim the newest wonder! Call in the family and old mammy the cook. It really IS remarkable—astounding. A real tooth. An adorable, magical, precocious, prophetic tooth. A tooth to make you sit up.

Mr. Man, the proud father, knows it. He has seen babies before, mostly babies of an amazing stupidity—with meaningless faces. And

he has seen teeth before. But never before an epoch-making tooth like this. Her Ladyship the mother knew from the first that it was a superior baby. Grandma has had a vast experience, and when SHE says a tooth so soon and so perfect never happened before, there is no going back of the returns. No one in the family—not even old mammy on the outskirts of the family—ever heard of anything so thrilling, so staggeringly eventful. As for old Grandpa, fancy his feelings. The joyous smile with which he contemplates this FIRST tooth reveals HIS LAST.

Care of the Feet Promotes a Sunny Temper

By Maggie Teyte

HURTING feet cannot support a smiling face unless their owner is made of martyrs' stuff. It is amazing how many women go through life wondering why they have wrinkles and a drawn look in their faces and never think of doing anything for their feet. But complain about them and try to bear the pain with fortitude. Foolishness is the better word. The wise woman takes as good care of her feet as she does of her hands or her complexion. Strange, isn't it, when we work our feet harder than any other member of our body. We are learning wisdom in the matter of shoe comfort, but we have lots more to learn.

I remember reading the report of a lecture given by that wonderful little woman, Kate Barnard, of Oklahoma, who is affectionately called "Oklahoma Kate" by thousands who love her, in which she said that flat feet was the cause of crime in more cases than the law mind would believe. That statement should be a warning to us all. There is nothing physical that I know of that brings out the worst side of one as swiftly and surely as

aching feet. They are enough to turn an angel into a demon and make a hard-groomed old woman of a fresh "bud." The first thing to do when one's feet begin to growl and rebel at weight or activity is to treat them sanely and kindly—humor them, so to speak. The foot bath is the most important part of the toilet. Every night one's feet should be given a warm or hot bath. A little borax or plain baking soda added to the water is advisable, and the salt bath is perhaps the "most soothing" of all. Don't begrudge the time taken to bathe your feet. They repay all care. Sit calmly and read while your feet are soaking. Keep the water at an even temperature and gently rub the soles until all the callous is removed, or at least softened. Take a bath brush and scrub them. Pumice stone is an excellent means of removing hard corns or callous spots. If the feet are particularly tender the pumice needs to be carefully used. But for these feet the salt bath is necessary. One teaspoon of salt to a quart of hot water is the proportion. Dry the feet tenderly. Wipe between the toes with a soft towel. If the feet are dry they should be rubbed with olive oil. It is excellent—and carefully massaged. Then rub more vigorously with witch hazel and alcohol. Lastly dust with talcum powder. In the morning a sponge in cool water is all that

is necessary, but be sure to dry the feet thoroughly. The nails should be trimmed to match the shape of the toes. Corns need constant treatment. If they are very deep seated it is well to consult a chiropodist. Never under any circumstances make a corn bleed. It is as dangerous as it is painful. A bit of lemon bound on a corn every night for three nights will often soften it so it can be peeled out. Then apply some healing salve. Soft corns sometimes need a poultice, and one of slippery elm is excellent. Then paint with collodion until it is healed. If you keep the skin at the base of the nail gently loosened as you do on your finger nails you will avoid ingrowing nails. Fallen arches should be at once attended by a reliable foot specialist who will prescribe the correct shoes. It is expensive and painful to experiment. The pain from this ailment too common malady has caused many a nervous breakdown and seriously affected many minds. As for stockings, be sure they are long enough and as free from seams as possible. And there is no economy in cheap shoes. They are the most important part of one's wardrobe. Buy a cheap hat, if you must economize, but buy good shoes and be sure they fit. The idea of a number six foot masquerading in a number four shoe is no longer tolerated by worth-while persons.

Secrets of Health and Happiness

Your Eyebrows Speak the Widest-Known Language

By Dr. Leonard Koene Hirschberg

A. B., M. A., M. D. (Johns Hopkins)

(Copyright, 1912, by L. K. Hirschberg.)

IF the eyes are homes of silent prayer, the eyebrows are really the Morse code and semaphore signals of the field. The arched eyebrow conveys more signs and information than a whole stream of mast-high flags wig-wagging on an Admiral's flagship. The eyebrow vibrating in a frown, or straightened like a sea gull in a storm, may mean volumes. Every hair, every little "white cap" dotting its waves, points with either pride or indignation. The eyes may be windows of the soul, but the eyebrows are the blinds and shutters. When joy or sorrow, pleasure or pain, make themselves felt, it is often the little movements of posture of the eyebrows which most prevail in their impressions upon others. Joy is distinguished in a whole-hearted upward movement of the eyebrow. When grief broods over the soul, the downward droop of the brow makes this plainly apparent.

DR. L. K. HIRSCHBERG

A beautiful girl with a heavy, characterful eyebrow is indeed abundantly dowered by good fairies. Dark, heavy lashes give a clinging, languishing, appealing impulse that makes every youth yearn to be the proud defender of their owner. Gloom, ferocity, anger, bravery, impulsiveness, affection, coldness, animation, vivacity, health, vigor, strength and intelligence can all be observed in eyebrows. As Important as Teeth. Look upon a girl or man with absent or almost invisible eyebrows. Note, without prejudice, the impression you have. The Tartars, Chinese, and some other Eastern nations shave their eyebrows. Instead of enhancing the brightness of their eyes or living-up a look of intelligence upon their faces, the absent, white eyebrow gives them a stupid, weak, effeminate, cold look. Beautiful women and professional actors, actresses and the others who depend upon magnetism and their public appearance with which to charm people, are wise in their day and generation. They pay faithful attention to their eyebrows and take as much care of them as they do of their teeth. The health of the eyebrows and the skin beneath them is really more important, if possible, than the care of the scalp, teeth, cheeks and finger nails combined. Dandruff, eczema, ringworm and baldness are as likely to make their vicious assaults

upon the eyebrows as anywhere else. If you have ignored your eyebrows hitherto, it is high time you take "time by the clock" and look after them. To Restore Vitality. To stimulate the growth as well as to stamp out all danger of the dandruff germ and other microbial mischief makers, the eyebrows should receive a nightly application of crude petroleum, or petroleum jelly. A trace of resorcin—much less than a grain to the ounce—with a trace of American Beauty, or carnation, oil will restore physical vitality as well as the light of love to the wilting eyebrows. Moreover, these unguents are useful and harmless and can be lightly placed upon the eyebrow brush, the newest of My Lady's toilet accessories.

DAILY HEALTH HINT

A "cold pack" is one of the best of all the druggists' treatments for sleeplessness, fevers, delirium, worry and other nervous disorders. The bed should be protected with thick newspapers, oil-cloth, inoleum or a rubber sheet. Then an ordinary linen sheet is wrung out in cold water and wrapped around the sufferer in bed. A blanket or two may be thrown lightly over him. Wet pack every three hours, if necessary. It is as good as any medicine known. Only one wet sheet a night is necessary for insomnia.

Answers to Health Questions

George H.—Will you please tell me how to avoid chilly sensations? Heavy furs and coats do not help me at all. Evidently there are several things wrong. Your blood needs more motion to it and perhaps some iron. You must obtain eight hours' sleep at night with the windows open and plenty of cover. Then you will require less covering when you are active and out of doors the day. Breathe deeply, more briskly and do not bundle up your neck and face too much. Aggressive mobility upon the part of your muscles and lungs are better warmth makers than furs.

AS SEEN THROUGH A KNOT HOLE

By Homer Croy

THE other night we went to see a popular dance, where the ankles have been executed a modern so-called dance. She was supposed to interpret a story, but we must admit that we did not get much of the plot. We did not learn who the villain was, nor if they got the papers out of the stove before the fire got to them. A few years ago a dancing dress came to the ankles, but the ankles have been out of it now for several seasons. The dress kept shrinking and shrinking until the knees came out and looked around. Soon they were left high and dry, and off came the skirt and out came the dance in tights. Then the lights began to get bunglesome and spe-

Daddy's Goodnight Story

By George Henry Smith

MASTER BEAVER was building a dam across the little brook down in Honeysuckle Valley when he looked up and saw Bre'r Rabbit peeping over the edge of the dam at him. He kept right on working until Bre'r Rabbit said: "Good afternoon, Mister Beaver. What are you doing?" "I am sawing wood," replied Mister Beaver. "What did you think I was doing, building a dam?" "No," said Bre'r Rabbit, "but I had to say something. That question is not any more foolish than the one Mrs. Squirrel just asked me." "What was that?" asked Mister Beaver, stopping his work for a minute and looking up at Bre'r Rabbit. He was not only a very busy fellow, but also very curious. "Why," exclaimed Bre'r Rabbit, "she asked me how many feet a horse had." "I know that," said Mister Beaver. "A horse has its fore feet and its hind feet and that makes six." "Humph!" grunted Bre'r Rabbit. "You are so smart I wish you would give me a conundrum to ask Mrs. Squirrel." "All right," replied Mister Beaver, "how much dirt in a hole three feet square?" "You will have to excuse me a few minutes until I go and figure that out on a leaf." Bre'r Rabbit was gone for some time. He found an oak leaf and took a thorn off a locust tree and scratched figures all over the leaf. After a while he came back and peered over the dam where Mister Beaver was still busy. "I give it up," he said. "All right," said Mister Beaver. "There is no dirt in a hole whether it is three feet square or not." "Ha, ha, ha!" laughed Bre'r Rabbit. He hopped off the dam and scooted away to ask Mrs. Squirrel his new conundrum.

The Basis of the Nation's Wealth

Real Estate is the basis of the Nation's Wealth. It produces that which both man and beast must have to sustain life. With our rapidly increasing population comes the demand for a corresponding increase in the products of the soil, and this demand will never be less than now.

UNION BANK HAD PROSPEROUS YEAR

Quick Assets Are Thirty-Four Per Cent. of the Liabilities. PROFITS FIFTEEN P. C. Eight Hundred Thousand to Credit of Profit and Loss.

The year just closed has been a good one with the Union Bank of Canada. It is shown by the report of the directors, submitted to the shareholders at the annual meeting, held in Winnipeg on Dec. 17.

does, what would The Telegram say about Controller McCarthy? We do not intend to fill several pages in The Telegram with the Controller's limitations and shortcomings, grave as some of them are, but we think the people should know the kind of man who is the Telegram's champion in the city council, and how far Controller Foster's actions are governed by a concern for Controller Foster's interests and how far for those of the city.

THE WATCH DOG'S BONE

"Is it possible to be an honest grafter?" is the question that is troubling the conscience of that respectable watchdog of the treasury, Controller Foster. The article in The Sunday World showing how the controller holds lands assessed at fifty cents a foot—which does not mean that he pays fifty cents a foot

There is a well-grounded belief that good men will not come out for the city council because they are attacked and hounded by the newspapers. No doubt Mr. Foster will rank himself with the good men in their affliction. We believe that his case is not covered by the theory. There is a time when public men in public life get their due. Controller Foster's dues are about falling in, and when people realize just why he is in the council, and what he is in for, they are probably going to vote for a better man.

Working men should go and see Controller Foster's 800 feet of property, on which he pays \$3 a year, and compare it with the land around which is assessed not at 50 cents a foot, but at \$25 and upwards. They will probably conclude that the watchdog of the treasury is demanding a rather large bone for his services.

AT OSGOOD HALL

ANNOUNCEMENTS. December 20, 1913. There will be no sittings of single court Monday, 22nd inst., but single court and judges' chambers will be held on Tuesday, 23rd inst.

Peremptory list for appellate division for Monday, 22nd inst. at 11 a.m.: 1. Re Grand Valley Railway Co. 2 and 3 Brantford v. Grand Valley Railway Co. 4. Campbell v. Cooper. 5. Dick v. Standard Underground Cable Co. 6. Farr v. Wardlaw. 7. Farr v. Wardlaw.

Master's Chambers. Before J. A. C. Cameron, Master. Niebergall v. Canadian Fire Insurance Co.—Langmuir (McCarthy & Co.), for defendants, obtained order on consent dismissing action without costs.

Before George S. Holmsted, K.C., Registrar. Joffert v. Joffert—E. F. Raney, for defendant, obtained order on account dismissing action and counter claim without costs.

Judges' Chambers. Before Middleton, J. Hayes v. Vansickle—J. M. Langstaff, for plaintiff, appealed from order of Holmsted, K.C., of 12th inst. and for leave to set down action on motion for judgment on default of pleading on ground of refusal to answer certain questions on examination for discovery. E. F. Lasker (Hamilton) for defendant Vansickle. Judgment: I think the case falls within the principle of Beedell v. Ryckman, 55 L. R. 570, and that further discovery should not be granted until the right to participate in the Buffalo undertaking is established. Appeal dismissed. Costs to defendant in any event.

Armour v. Slatery—Cook (Ryckman & Co.), for Frank Simpson, obtained order dismissing action without costs.

Wright v. Wright—A. R. Clute, for plaintiff, moved for order for administration and partition. G. W. Kerr for defendant, W. C. Wright. Consent of other defendants filed. Order made.

Trial. Before Middleton, J. G. L. Staunton, Motor Car Co.—G. L. Staunton, K.C., for plaintiff, W. N. Tilley for defendants. Action to recover \$3500 paid on subscription for stock in Schacht Motor Co. a cancellation of subscription and rescission of contract and striking out plaintiff's name as shareholder. Judgment: Plaintiff's real grievance is that he has not obtained and manifestly cannot obtain the stock in the Motor Car Co. The Schacht Co. stock is worthless and the Motor Car Co. stock is, if possible, worth less. Specific performance is out of the question and damages can be nothing more than nominal, as the plaintiff is not injured by failure to receive one worthless thing in exchange for another of no value. This view of the case renders it unnecessary to determine whether there ever was any allegation on the part of the company or on the part of Mantz. The proper solution of the difficulty appears to me to be to dismiss the action without costs. If I should award nominal damages I would not give costs, so that the precise form of judgment is not material.

BOSTON, Dec. 21.—(Can. Press.)—With fair skies and a temperature in the fifties the Sunday before Christmas in this part of New England was more like Easter than a day close to the winter solstice. Whatever the remaining days of the month have in store, the total temperature for the year will stand as a record with something like 1,225 degrees of excess heat. Practically no ice has formed south of Vermont and New Hampshire State line, while the snow is scarce in the Northern Maine woods.

A Stricken Stenographer

"We have a young friend, age twenty-four, who is needing sanatorium treatment. She is a stenographer, and the doctors say she must give it up at once and take treatment. The young girl's parents died of tuberculosis, and also several brothers and sisters, just because they have nursed each other, but this one, I believe, stands a good chance if only she can be looked after now before the disease gets hold too strongly. Would you be good enough to write me and tell me what you can do to save this young girl? She cannot afford to pay anything, as all her money has gone towards her sister's expenses, who is now in the last stages of the dread malady."

"Just because they have nursed each other!"

In the midst of this gay season of goodwill it is chilling to reflect that there are poor, friendless consumptives who cannot hope to see another Christmas. Theirs is an awful plight. While you and I are full of hope and vigor, they are wasted and feeble. While you and I are joyously busy in the expectant Christmas rush, they are coughing, coughing, always coughing!

Surely that is bad enough! But it is not all. Often the tragedy does not stop at one poor soul in an anxious home. For instance, read this letter:

"We have a young friend, age twenty-four, who is needing sanatorium treatment. She is a stenographer, and the doctors say she must give it up at once and take treatment. The young girl's parents died of tuberculosis, and also several brothers and sisters, just because they have nursed each other, but this one, I believe, stands a good chance if only she can be looked after now before the disease gets hold too strongly. Would you be good enough to write me and tell me what you can do to save this young girl? EVELINE WINS AT LONG ODDS

Good Sunday Crowd Attend the Juarez Races—Neylon Lands Two Winners.

JUAREZ, Dec. 21.—There was a good Sunday crowd at the races today. Eveline was the longest shot to land, winning the first race at 15 to 1. First, second and third choices landed the rest. Neylon landed two winners. Summary:

FIRST RACE—Six furlongs:
1. Evelina, 113 (McIntyre), 15 to 1, 6 to 1 and 3 to 1.
2. Mary Emily, 107 (McDonald), 4 to 1, 8 to 5 and 4 to 5.

RUFGY FOOTBALL SHOWS IMPROVEMENT

Ralph C. Ripley Has Interesting Review of Past Season.

HAMILTON, Dec. 20.—Ralph C. Ripley gives a sane review in The Spectator tonight of Rugby football in these parts. He points out that "the game is improved, the players are improved, and we have improved the rules and the attention to our referees and umpires."

"Rugby football in Canada for 1913 is over, and you ask, What are the outstanding features of the game during the past season? To my mind, they are:

1. The winning of the Intercollegiate championship for the second consecutive year by McGill University, due in a great measure to the wonderful coaching ability of Frank Shaughnessy.
2. The refusal for the second time by McGill to compete in the Dominion championship final.
3. The development of the greatest team in Canada, the Hamilton Tigers, under Captain Sam Manson and Coach Marriott.
4. The record made by the Hamilton Tigers in scoring 245 points, with 87 touchdowns, in 14 games, with only one defeat registered against them, and that by one point.

"The introduction into Canadian Rugby in the Intercollegiate series, of outside interference.

"The great exhibition of gamesness, as shown by Toronto Varsity, who were forced to play numerous crippled men in each game, and yet under such great disadvantages almost tied the series with McGill.

"The very great weakness of the O. R. F. U. teams, and the continued and unpardonable actions of the "powers that be" in that union, culminating in the attempt for the second time to discredit the champion team of the union, and the endeavor to control the destiny of that once great union (the parent union of Rugby clubs in Canada), against the wishes of the majority of its members."

HOLD SINGLE RINK MEETING TONIGHT

Secretary R. W. Lowden has sent out notices of the meeting of the Canada Life Trophy committee for this evening at the Granite Club. The method of playing off for the single-rink curling championship of the city will be decided at this meeting. It has been proposed to play the competition as a bonspiel, beginning in the morning and continuing right thru till finished. Another suggestion is to play afternoon and evening to complete the series, which would mean three days of play.

GANANOQUE AND GERMANY TO GO AFTER U. S. CUPS

NEW YORK, Dec. 21.—Two more international competitions appear likely to be added to the 1914 schedule of sport, and in both cases United States yachtsmen will appear in the role of cup-defenders. Unofficial announcement from foreign sources stated that challenges will soon be forwarded for both the sander and canoe trophies, which were successfully defended during the past season.

The canoe cup challenge is expected from the Gananoque Motorboat and Canoe Club of Ontario, and Ralph Britton who sailed the challenger in Gravesend Bay last summer, will probably handle the tiller in the new sailing canoe. The sander challenge will come from one of the German yacht clubs, but there appears to be some doubt as to whether the dates for the races will be set for 1914 or a year later.

NEW BAPTIST CHURCH OPENED AT KINGSTON

Recommendation Made for the Position of City Treasurer—Pavement Question.

(Special to The Toronto World.) KINGSTON, Dec. 21.—Today was a red letter day in the history of the First Baptist Church, the occasion being the opening of the handsome new edifice. Two large congregations assembled. Rev. Prof. J. L. Gilmour, McMaster University, Toronto, was the special preacher for the day, the pastor, Rev. Douglas Laing, who has just completed twenty-five years of service in this church, presiding. The church has a seating capacity of 500. A marble baptistry was contributed by John Tolson, and a window in memory of the late D. D. Calvin, father of H. A. Calvin, one of the chief workers in the church, will be placed.

CLUNG TO CHAINS OF BLAZING CAR

Messenger Forced Outside Express Car — Damage of \$75,000 to Goods.

(Special to The Toronto World.) BRANTFORD, Dec. 21.—Brantford's lighting rates under the hydro-electric will be just half the present rate charged by the Western Counties Co. At the city council Monday night the schedule of rates will be submitted by the fire and light committee and will be approved. The present electric light rates are 8 1/2 cents per kilowatt. The new hydro rate will be 3 1/2 cents per kilowatt, or 1 cent per 100 square feet of floor space. For a man with an ordinary house it is estimated, and it has been the experience in other cities, that the cost will be about half as great as under the Cataract system.

HAMILTON HYDRO RATES ARE DOWN

Reduction Has Been Made to Date Back to First of November.

(Special to The Toronto World.) HAMILTON, Dec. 21.—The hydro-electric commission has announced that the reductions in the prices of power, mentioned a short time ago, have been dated back to include November and December accounts of this year. It was thought they might not come into force until the first of the year, and this announcement is very gratifying to the Hamilton officials, as it means the saving of about \$1000.

ST. CATHARINES, Dec. 21.—(Special.)

In ordering the deportation of Gordon Malmsten to England yesterday, Judge Carman advised him to tell any others of his kind in the old country not to come to Canada. Malmsten was arrested on a charge of non-support and desertion. He and his wife had been employed at a Grimby canning factory, but the most of the time was put in by his wife. The man turned up on pay day and secured both pay envelopes and disappeared. Christable neighbors had provided for the woman and placed her in the St. Catharines hospital. The couple will be deported together.

JOHN GALT,
President.

G. H. BALFOUR,
General Manager.

The Directors have pleasure in presenting the Report showing the result of the Bank's business for the year ended 29th November, 1913.

The new Bank Act, as revised, went into force on July 1st. You will notice several changes in the form of our statement. Under Sec. 58 of the new Act, you are required at this meeting to appoint Auditors for the Bank and to vote the amount of their remuneration.

Annual Meeting from December to January in order that the Auditors may have sufficient time in which to complete their work.

Your Directors wish to place on record their appreciation of the excellent advice, helpful guidance and valuable work by the Bank's committee in London, England.

It is with the deepest regret the Directors have to record the death of the Honorary President, the Honorable John Sharples, Mr. Sharples was for many years a Director, and for five years the honored and esteemed president of this Bank. His present standing is largely due to his great interest in its welfare and sound judgment in business matters.

Mr. Wm. Price of Quebec was elected Honorary President and Mr. Geo. H. Thomson has succeeded him as Vice-President.

The vacancy on the Board has been filled by the election of Mr. E. S. Cronyn, Vice-President of the W. R. Brock Company, Limited, a gentleman of long business experience in Toronto. We feel sure the judgment and influence of Mr. Cronyn will be of great advantage to the Bank.

During the past year thirty-one Branches and Agencies of the Bank have been opened in the several Provinces as follows: Ontario 4, Quebec 6, Alberta 2, British Columbia 1, Saskatchewan 10, Manitoba 4.

Three Branches in Ontario which were not giving satisfactory results have been closed.

The total number of Branches and Agencies is now 312.

The usual inspection of Head Office and of all Branches and Agencies of the Bank has been made.

JOHN GALT, President.

The President, Mr. John Galt, moved that the report be adopted and printed for distribution among the Shareholders, and addressed the Meeting as follows:

THE PRESIDENT'S ADDRESS.

In moving the adoption of the Director's Report, I have an opportunity of placing before our Shareholders a review of general conditions in Canada as they present themselves to us. The financial statement will be dealt with later by the General Manager. I shall only say that this statement is satisfactory, as it shows steady progress, and also indicates the conservative policy, which in my judgment is characteristic of the management of the Bank.

The year 1913 has been a trying one both for borrower and lender. There has been a general feeling of uneasiness which has caused financiers to carry an unusually large proportion of their funds in a liquid form. This has curtailed the lending power of all the Banks and has led to the encouragement of new business, but we have been careful to see that our customers have had the money necessary to carry on their legitimate trade, and I do not think we have given any of them reason to complain.

The capital available for investment in new fixed forms such as railways, canals, city and farm buildings, etc., is, of course, limited. Of late years it has been pretty well absorbed. It is clear that when the supply is exhausted or when causes operate to check it, expenditure in fixed forms must be curtailed. This point seems to have been reached, and Canada will have to mark time until confidence is restored and until the other countries, from whom we draw much of our capital, are in a position to again invest their savings and profits. The natural resources of Canada are so vast and so attractive, that the capital necessary for their development will, undoubtedly, be forthcoming when financial conditions become more settled.

The causes underlying the feeling of anxiety to which I have referred were world-wide, and whilst some of them are now remembered, we still feel that caution is advisable and that strictest economy in both public and private affairs is necessary.

Speculation in real estate is over for the present, but the demand for building sites made continues in a country where the population is steadily increasing, and holders of such property should not be apprehensive of this class of investment. That the inability of speculators to turn over

their property has had a little effect on the general business of the country is largely due to the conservative and prudent action of Canadian banks, for they have consistently discouraged and refused to finance speculative land operations.

Crop of 1913.

The statistics which are at our command will be furnished by the superintendents in their reports on the several provinces. I may say, speaking generally, that the crop results have been satisfactory. In the three great wheat-growing provinces, this has been a banner year. Not only has the yield been larger, but the average quality at harvest has never been equalled, and the cost of harvesting has been unusually low owing to the magnificent weather we have enjoyed. This has to some extent, offset the low prices which prevailed. Providence has indeed been kind to us and that, too, at a time when we needed it most. The railways have done splendid work in handling the crop, and we have had few complaints of shortage of cars. We cannot, with our present facilities, expect to take care before the close of navigation, and the need of interior storage for our grain will be urgent for some time to come.

Mixed Farming.

There is a marked increase in the number of live-stock. Farmers are becoming more fully alive to the advantages they derive from this source and are realizing that their borrowing credit is greatly enhanced with their bankers if they can show a good proportion of cattle in their assets, and banks should look with favor on loans for the purchase and handling of live stock.

British Columbia.

Trade conditions in British Columbia have not been as bright during the year as we could wish. Conditions in the lumber trade have been unsatisfactory, and coal strikes on Vancouver Island, which have lasted for months, have thrown a great many men out of employment.

The fishing industry has had a good year, and the recent revision of the United States tariff, by which fish now enter that country free, will be of advantage to the trade.

The mining industry has yielded satisfactory returns. A very large increase in the production of copper has taken place over the preceding year.

The fruit crop for 1913 has been a record one, the value of shipments from the Okanagan district alone being in the neighborhood of \$1,400,000.

Railroad expansion has been active and about 2300 miles was under construction during the year.

Stringent money conditions have checked many municipal undertakings and this, together with the closing down of lumber camps and completion of railroad work, will add to the number of unemployed during the coming winter.

Large harbor improvements have been undertaken at Victoria which have improved conditions to some extent.

In eastern Canada, trade conditions have been good, and the crop results have been most gratifying.

Province of Ontario.

Crops have been of a good average and we have again to report a prosperous year.

Province of Quebec.

Along both shores of the St. Lawrence and in the eastern townships, conditions were favorable, and abundant crops were harvested in increased volume of deposits.

Dealing with the figures in the Profit and Loss Account and in the Balance Sheet, I am pleased to say that after making ample provision for all necessary reserves, the net profit shows an increase of almost 1 per cent. over those of 1912, being slightly over 15 per cent. on the paid-up capital.

In the opinion of the Directors this result has been deemed sufficiently satisfactory to justify the declaration of a bonus of 1 per cent. in addition to the regular dividend of 8 per cent. (3 per cent. quarterly). This bonus will be paid on the 1st March next to shareholders of record as on February 14th, 1914.

Owing to the prevailing monetary conditions, prices of securities generally have declined during the year, and it has been considered advisable to

set aside the sum of \$125,000 out of Profits to a Special Reserve Account, to meet the depreciation in market values of stocks, bonds and debentures, owned by the Bank as an investment.

\$100,000 has been added to Ret. Account, which now stands at \$3,400,000.

\$50,000 has been written off Bank Premises.

The usual contribution of \$10,000 has been made to the Officers' Pension Fund.

\$20,579.93 is carried to the new Profit and Loss Account, as against \$75,483.10 carried forward from 1912.

Some changes will be observed in the classification of figures in the Balance Sheet; these were necessary to comply with the provisions under the revised Bank Act.

Deposits have increased by \$5,952,000, which, considering financial conditions, is looked upon as very satisfactory. They now amount to \$64,505,388.18.

Our immediately available assets are \$25,000,000, or 34.55 per cent. to liabilities to the public.

Current loans in Canada have increased by \$1,750,000, and now amount to \$48,758,968.

Loans and Discounts outside of Canada total \$1,640,472.84 against \$779,000 last year.

Real Estate and other Bank Property has been reduced by \$150,000. Property and buildings acquired for the use of the Bank are now at once charged to Bank Premises.

Mortgages on Real Estate sold by the Bank are larger by \$47,000 than a year ago, and overdue debts show an increase of \$46,000.

In agricultural districts it is difficult to impress upon the farmer the necessity of attending promptly to his paper as its maturity, especially when weather conditions are favorable to plowing and other agricultural pursuits. Bank Premises have increased \$200,000. It is found necessary to erect a number of buildings every year for our own occupation, when suitable premises cannot be leased, every effort being made to provide comfortable accommodation for members of the staff at country branches.

The total assets of the Bank are now over \$80,000,000, as against \$68,400,000 in 1912, showing a substantial expansion in the growth of the institution during the year.

Progress of the Bank.

The total number of Branches and Agencies is now 312, as follows: Alberta, 4; British Columbia, 10; Manitoba, 4; Saskatchewan, 10; Ontario, 4; Quebec, 6; Maritime Provinces, 2; London, Eng., 1.

Since the closing of the year, we have opened a West End Branch in London, Eng., in the Haymarket, corner of Foston street, and at Smithers, B.C., in the Victoria street.

In connection with the very satisfactory manner in which the railway companies have carried out the grain from the Western Provinces this year, it may be interesting for you to know that up to December 1st the following quantities of grain had passed Winnipeg for the Great Lakes, Lake Superior, 39,000,000 bushels wheat, 32,500,000 bushels oats, 3,500,000 bushels barley, and 6,500,000 bushels fax.

Before sitting down to this report I desire to bear testimony to the efficiency and loyalty of the staff, not only of the Executive Office, but of the whole staff of the Bank, to whose energy and ability so much of the success which has attended the operations of the past year is due.

Mr. Geo. H. Thomson, the Vice-President, seconded the adoption of the Report, which was carried.

Auditors.

Messrs. T. Harry Webb, C.A.; E. S. Read, C.A.; and C. R. Hogan, C.A., were elected Auditors of the Bank. The ballot was unanimous, and these gentlemen were declared elected.

It was moved by Hon. W. H. Monaghan, P.C., seconded by Mr. E. H. Riley of Calgary, that the thanks of the Shareholders be tendered to the Honorary President, Vice-President and the Directors of the Bank for their valuable services during the year.

Mr. G. H. Balfour, General Manager; Mr. E. O. Denison of Minnedosa, and Mr. H. J. Pugh of Virden, replied orally on behalf of the whole staff of the Bank.

The Scrutineers reported the following gentlemen elected as Directors for the ensuing year: Messrs. Wm. Price, John Geo. R. H. Riley, Geo. H. Thomson, E. L. Dewey, F. E. Kenaston, W. R. Allan, M. Bull, Hon. Samuel Barker, P.C., M.P.; E. E. A. Duvernay, K.C.; Stephen Isaac, Lt.-Col. John Carson, F. W. Heubach, B. B. Cronyn, Wm. Shaw. The meeting then adjourned.

At a subsequent meeting of the newly-elected board, Mr. Wm. Price was elected Honorary President; Mr. John Galt, President; Mr. R. T. Riley and Mr. Geo. H. Thomson, Vice-Presidents.

BROKE BOTH ARMS.

QUELPE, Dec. 21.—(Special)—One arm broken at the wrist, and the other at the shoulder were the injuries received by Mrs. Davison, wife of Principal Davison of the Collegiate Institute, yesterday afternoon by a fall on the stairs of their residence.

NO STATE-WIDE PROBE OF GRAFT

Whitman Snubbed by Governor Glynn, Who Imputes Political Motives.

ALBANY, Dec. 21.—(Can. Press)—District Attorney Whitman's request that he be appointed a special deputy attorney-general that he might make a state-wide graft investigation will not be granted by Gov. Glynn. The governor, in a statement which criticizes Mr. Whitman sharply and questions his motives in seeking the appointment, made this declaration tonight.

"In addition to taking the ground that there is no warrant for such action, and that it would be a severe reflection on the district attorneys of other counties, the governor said plainly that in his opinion, Mr. Whitman's appeal was inspired by political motives.

"I would have precisely as much justification, no more, no less," the governor said, "for sending the district attorney of Erie County, or the district attorney of Onondaga County into New York to supplant Mr. Whitman's appeal, made this declaration tonight."

"If Mr. Whitman thinks that playing politics in this way will embarrass me, he has reckoned without his host."

Regina Golf Club Course a Flat Prairie

Charley (Chick) Evans, former champion golfer of America, speaking of the rapid growth of golf in Canada, declared the Regina course, one of the best in the Dominion. He said: "The Regina course, which is a flat prairie, is a real and a half mile from the heart of the town and street cars run almost to the club house. About 2500 members are present last year in perfecting the transportation service, so that problem is not really an insuperable one. CANADA TO TAKE DUTY OFF WHEAT?

Chicago So Believes—Timely Snowfall Another Check to Advance.

CHICAGO, Dec. 20.—Snow west and southwest, giving needed protection to the winter crop, acted as a check today on bullish sentiment regarding wheat.

The market closed weak, 1-8c to 3/4c under last night. Corn showed a loss of 1-8c, oats finished 1-8c off to a like advance, and provisions from 10c decline to a gain of a shade.

Some of the larger longs were able to repress a rising tendency in wheat, as they were selling on the hard spots, but there was also substantial support in the form of resting orders that commission houses play on the declines.

More than 4,000,000 bushels excess this week in receipts here over shipments pulled down the corn market notwithstanding temporary strength, due to the forecast of a heavy crop.

Provisions advanced weaker as the supply of hogs at the leading western points showed an increase of 30 per cent compared with a year ago.

ROOSEVELT AGAIN CENTRE OF STORM

Assertion of Monroe Doctrine's Vitality Disputed by Eminent Chilean Diplomat.

TEDDY LOST TEMPER

And Now South American Embassies at Washington Are Agog.

WASHINGTON, Dec. 21.—(Can. Press.)—Members of the diplomatic corps, especially representatives from the South American countries, were greatly interested in a report reaching Washington today that former President Roosevelt and Dr. Marchal Martínez, at one time intimate friends, had clashed in Santiago de Chile on account of divergent views on the Monroe doctrine. The Chilean, who is reported to have strongly dissented from the Roosevelt view that the much-discussed doctrine is still a vital issue. The reported debate attracted unusual interest here because both of the prepared speeches were reviewed before delivery by the Chilean foreign office. Dr. Martínez, it was said, was the spokesman of the Chilean government at the state reception given the American visitor recently at the University of Santiago because of his warm friendship for the United States. He is one of the oldest and most eminent Chilean diplomats and made many lasting friendships during his tenure as minister here many years ago.

Roused Colonel's Ire.
In his address at the Roosevelt reception Dr. Martínez dealt with the Monroe doctrine, characterizing it as a dead issue and arguing that the conditions which gave rise to its promulgation by President Monroe in 1823 have almost entirely disappeared. This statement is said to have aroused the ire of Col. Roosevelt, who reacted with some heat, holding that the Monroe doctrine still was a vital principle of the foreign policy of the United States. He is said, too, to have suggested to the Chilean diplomat, incidentally, that he was ill advised on such an occasion to inaugurate a controversy.

ST. ANNE'S BUSINESS MEN.

The Rev. Mr. Skey has invited the ladies of the referendum committee to take charge and address the Business Men's League of St. Anne's Church next Sunday.

DISEASE MERELY FALSE EXPERIENCE

Professor Henry of Boston Addressed Massey Hall Audience on Christian Science.

"Christian Science is not hypnotism," declared Professor Hermann S. Herling of Boston, Mass., speaking in Massey Hall yesterday afternoon. "It is not magnetism; it is not mental suggestion. Its healing is only possible in proportion to our spirituality and depends upon clear discernment and correct application of its principle."

"Matter is energy, and the miracles performed by Jesus are illustrations of the truth that all existence is wholly mental. Like God, who procreated it, the real universe is infinite and spiritual. Disease is an untrue experience of the human mind and is destroyed when truth is brought to bear on consciousness."

"All disorders," declared Professor Herling, "are mental and death can be corrected by truth. Not the thought of Christian Science, but spiritual truth, is healing."
The speaker lamented the fact that the teaching in the public schools produced in many cases a consciousness so biased towards materialism that it was rendered almost impossible for the child to grasp the nature of spiritual existence and spiritual power.

GIRL MALTREATED AND FATHER SLAIN

Brutal Crime at Fort Plain, N. Y., Rouses Whole Countryside.

FORT PLAIN, N. Y., Dec. 21.—(Can. Press.)—A crime that has aroused the countryside was discovered early this morning, when Helen Barrett, 20 years old, succumbed in freeing herself from gag and ropes at her home, six miles west of Fort Plain, where, after she was attacked last night, her father was murdered by a man or men in search of money. The victim was John Barrett, 60 years of age. He was clubbed and shot thru the head. His money, a considerable sum, he had hidden behind a wall panel and it was untouched.

Helen Barrett was stunned by a blow of a club while reading, between 9 and 10 o'clock. She was gagged and bound and thrown into a small ante-room. Her father was slain when he came to her aid. The daughter did not know who committed the crime, and the authorities have had to work without a clue.

The sheriff, deputies and an assistant district attorney made fruitless efforts all day today to strike a trail, bloodhounds being put on the scent as one expedient, without result. The state is investigating highways in the vicinity of the Barrett home and many foreigners are employed on the work.

PHILADELPHIA, Dec. 20.—(Can. Press.)—John Gribbel of this city who recently purchased the Glenriddell manuscript copies the works of Robert Burns for the purpose of restoring them to Scotland today received a letter from Lord Rosebery, former premier of England, saying that the prospect of a restoration of the manuscript has put every Burns centre in a ferment.

Mr. Gribbel wrote to Lord Rosebery asking him to select a place in Scotland where the Burns treasures may be permanently placed. In his reply, Lord Rosebery said: "I am sure that all Scotland shares with me the joy with which we have learned of your noble act and princely benefaction. You have repaired the effects of the scandalous sale, and you are restoring to my country one of her most precious titles deeds."

Lord Rosebery added that the disposition of the manuscripts will require some consideration.

MORIARITY WAS ACQUITTED.

TOMS RIVER, N. J., Dec. 20.—(Can. Press.)—Joseph Moriarity, also known as Wm. Leahan, was acquitted by a jury today on the charge of murdering Mrs. Caroline Turner, wife of a gardener on the estate of George Gould at Lakewood.

The jury was out an hour and ten minutes. Its verdict caused an uproar in the courtroom which could not be quelled for five minutes.

Decide NOW for Good Roads—Don't wait until Summer

YOU can't build roads in winter—but what you can do is to decide which roads shall be started next spring. Get an early start so that the roads will be ready for use in summer. If you wait till spring before deciding what to do you will find when late summer and early fall come around, that your roads are still unfinished—and that is the time you need them most.

Outline your road needs now, make investigations into the cost and type of construction, influence public opinion for highways that mean greater economy to every person in your community.

Start right now—get action on the improvement of your bad roads—begin the construction as soon as spring opens, and by next summer you will have roads over which you can haul a full load in less time than you could formerly haul only half a load.

Good Roads (not a makeshift of filling up ruts and mud-holes), besides marking the economic progress of a community, are an important factor in reducing the cost of living and improving the general prosperity. Insist on "good roads"—roads that will stay good for years to come, that kind is cheapest.

Investigate Concrete Roads

THEY are not only the "best good roads," but they are cheapest at the end of ten, fifteen or twenty years. Their first cost is comparatively the same as that of any good road, but their maintenance cost minimizes the original expenditure because the upkeep is practically nothing. This makes concrete the "economy road," and being free from ruts, holes, mud and dust, easy of traction, and open to traffic the year round, makes concrete the "road to satisfaction."

PANAMANS ARE BITTER AGAINST COLOMBIANS

Strong Demand Made for Expulsion of Detractors of Country.

PANAMA, Dec. 21.—(Can. Press.)—The anti-Colombian sentiment has grown to such an extent that an open letter has been addressed to President Porras, demanding the expulsion from the republic of the country's detractors and the dismissal of all Colombians holding government positions in Panama. A further demand is made that the police corps shall be composed exclusively of Panamanians. At the present time about one-third of the teaching staff of the public schools is composed of Colombians, and there is a large sprinkling of them in the police department. The leaders of the anti-Colombian movement express the opinion that if

TENDERS

TENDERS addressed to the undersigned at Ottawa, and endorsed on the envelope "Tender for Old Buildings at Oshawa," will be received up to noon of the TWELFTH DAY OF JANUARY, 1914, for the purchase of the TWO buildings contiguous to the breakwater in Oshawa Harbour, namely, the elevator standing at the shore end of the breakwater, and the smallest of the coal sheds standing directly behind the elevator in a line northward from the elevator. These buildings are offered for sale on the following conditions:

The purchaser is to take down the buildings and remove the material and fittings from the Government Reserve, within a reasonable time after the offer is accepted. The time required for removal to be specified by the tenderer, and accepted by the Department. The material and fittings to become the property of the successful tenderer when removed from the Government Reserve.

The buildings are to be taken down by the Contractor at their own risk and expense, and the Department is not to be held liable for any accident that may occur in connection with the removal of the buildings or material.

The ground occupied by each building is to be levelled off and left in good condition by the Contractor.

A separate price is to be made for each building and the Department is not to be bound to accept the whole or any part of a tender. The Department further reserves the right to refuse the highest or any tender.

The purchase price to be paid in cash as soon as the successful tenderer is notified of the acceptance of his offer.

Each tender must be accompanied by an accepted cheque on a chartered Canadian Bank equal to 10 per cent. of the whole amount of the offer. Cheques accompanying tenders which are accepted will be forfeited if the successful tenderer declines to forward the purchase price when his offer is accepted or fails to remove the buildings in accordance with this notice. Cheques accompanying unsuccessful tenders will be returned.

Newspapers copying this advertisement without authority from the Department will not be paid for same.

C. STANTON,
Acting Deputy Minister,
Department of Marine and Fisheries,
—52655, Ottawa, 10th December, 1913.

SEALED TENDERS

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Bridge structure and approaches at North Timiskaming, P.Q.," will be received at this office until 4:00 p.m., on Monday, January 13, 1914, for the construction of the substructure and approaches of a highway, Bridge No. 10, North Timiskaming, County of Pontiac, P.Q.

Plans, specification and form of contract can be seen and forms obtained at this Department and at the offices of the District Engineers, Confederation Life Building, Toronto, Post Office, Montreal, and on application to the Postmaster at North Timiskaming, P.Q.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, indicating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 per cent.) of the amount of the offer, which will be forfeited if the person tendering declines to enter into a contract, when called upon, or fails to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESBOCHERS,
Secretary,
Department of Public Works,
Ottawa, December 19, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—52655.

SYNOPSIS OF DOMINION LAND REGULATIONS.

ANY PERSON who is the sole head of a family, or any male over 18 years of age, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Notice: Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 30 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may reserve a quarter-section alongside his homestead, 160x160 per acre.

Notice: Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent), and cultivate fifty acres extra.

A homesteader who has exhausted his homestead rights and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Lot size must be six months in each of three years, cultivate fifty acres and purchase house worth \$200.

W. W. COVY,
Deputy of the Minister of the Interior,
