40 KILLED AND 80 INJURED IN TWO ZEPPELIN RAIDS ON ENGLAND British Steamer Torpedoed With a Loss of 22 Lives FRENCH DEFEAT GERMANS IN BATTLE ON FECHT RIVER, IN VOSGES British Take Line of German Trenches Near Hoooge and Ypres

Forty Persons Killed in Two Zeppelin Raids

Eighty Others Were Injured According to Latest Official Estimates.
MANY FIRES RESULTED
Total Casualties in Tuesday Night's Attack Were Fifty-Six.

LONDON, June 16, 11.15 p.m.—The following official statement regarding the Zeppelin raid was issued tonight:
"Further enquiries show that the casualties in connection with the visit of a Zeppelin to the northeast coast Tuesday night amount to 40 killed and 80 injured."
"It is now possible to state more exactly the casualties resulting from an airship raid on another portion of the northeast coast on the night of June 6. The number of deaths there was 24, comprising five men, all civilians, 13 women and six children. There were also 40 cases of more or less serious injuries."
"The principal fires were in drapery establishments, a lumber yard and a terrace of small houses."
"A statement issued earlier in the day placed the number of dead in the Tuesday night's raid at 15 and the injured at a like number. It was also stated that a number of fires had broken out but had been extinguished."
"The casualties in the two raids, as officially admitted, are: Killed 40, injured 80, a total of 120."
"The admiral's statement on the day following the Zeppelin raid of June 6, was that only five persons were killed and 40 injured."
"Series of Raids."
"A series of aerial raids by both sides has been reported during the past 16 days, starting with the German attack on the municipal area of London, May 31, in which four persons were killed."
"A wireless from Karlsruhe, Baden, today says that 19 persons were killed and 14 seriously wounded while many others were slightly injured during the attack made upon that city early yesterday morning by a fleet of French aeroplanes."
"An Amsterdam despatch says: British aviators attacked the German military aerodrome at Gronroede, near Ghent, Belgium today in an effort to destroy the Zeppelins anchored there."

Are Big Events Getting Nearer?

The war must be taking on new aspects. But it is hard to tell from the despatches what is transpiring. The British censor has drawn a close veil over everything.
The events on the Dardanelles stage are not being disclosed, and surprising news may come almost any day.
Nor can we get any line as to what Holland is doing, though it is not unlikely that Holland is coming into the fight at a very early day, and that Kitchener's army will come in behind it, and the two forces attack the German lines in Belgium.
Sir Edward Grey is supposed to be near the capitals of Bulgaria, Rumania, Greece, and Serbia, and that some concerted action is planned in that quarter.
The torpedoing of vessels around the British Isles, the Zeppelin raids on England, the fight for trenches in Flanders and France, would seem to be minor matters to the greater things that are masked for the moment. Nor are the marches and counter-marches between Austria and Russia of much account at the moment. It is not likely that Italy will do much in Austrian territory for some time.
But we may be near something big in Holland, in the Dardanelles and in the Balkan states.

Bernstorff Agent Talks Knowingly of Affairs at Washington.

LONDON, June 16, 6.47 p.m.—A peaceful settlement of the questions which have arisen between the United States and Germany is predicted by Dr. Anton Meyer-Gerhard, who is on his way from the German embassy at Washington to Berlin to explain the situation to the German Government. An interview accredited to Dr. Meyer-Gerhard is published by the Frankfurter Zeitung and forwarded to London by the Amsterdam correspondent of Reuters' Telegram Co.
The interview was obtained yesterday at Christiania, Norway, when the S.S. United States, on which Dr. Meyer-Gerhard was a passenger, touched at that port.
"The conflicting views existing between Berlin and Washington regarding the Lusitania affair rest on a misunderstanding and will be settled peacefully," Dr. Meyer-Gerhard is quoted as saying. "The British Indian minister, Lord Curzon, and Secretary Bryan are of old origin and arose from quite different causes than the Lusitania affair. The breach was rendered inevitable by the independent procedure of the president, who rejected the counsel of his responsible minister, and drafted the latest American note to Germany according to his own ideas."
As President Wilson framed this reply to Germany, without even consulting Mr. Bryan, the latter had no other course but to request that he be released from office.

BRITISH HEADQUARTERS IN FRANCE, June 16.—King Albert of the Belgians, who has not had many afternoons off during the last eleven months, took one off to see a show—a gymnastic one, known as the "The King's Job in what remains of his kingdom as has many a desk-ridden business man who cannot be induced to go to the mountains or to the seashore. Whether living in their own houses or refugees whose houses in the fighting zones have been demolished by the enemy, the people in the rear of the British front have not had many afternoons off either. The women, the old, the crippled, and every child who could hold a peg, has taken the place of the able-bodied men away at the war. With the crops all in and the wheat stacks in the fields, the strange picturesque mortals from somewhere beyond the Arabian Nights bays and outbuildings, were going to give an exhibition of horsemanship. Everybody was invited, and there was no admission fee. It was like a picnic, but the men, who had been recruited from a New England village, with a chance to see a heroic king, and he really was as tall as the people had said.

GERMAN TRENCHES CAPTURED BY BRITISH NEAR HOOGE

Failed to Hold Mile of Trenches at Festubert After Occupying Them Last Night—Germans Explode Five Mines Without Doing Damage to British Trenches.

LONDON, June 16.—(8.30 p.m.)—Sir John French, commander-in-chief of the British forces in France, reports that the British troops captured and then lost a line of German trenches at Festubert, but that the British have occupied the German positions to the north of Hoooge for a distance of 1000 yards. The report says:
"Last week there was no change in the situation. The enemy exploded five mines on different parts of our front, but none of these caused any damage to our trenches, and only one caused any casualties."
"Yesterday evening we captured the German front line trenches east of Festubert on a mile front, but failed to hold them during the night against strong counter-attacks."
"Early this morning, in the neighborhood of Ypres, we successfully attacked the enemy's positions north of Hoooge, to the east of Ypres. We occupied the whole of his first-line trenches on a front of 1000 yards, and also parts of his second line."
"By noon today 137 prisoners had passed to our rear. The German counter-attack has been repulsed with heavy losses."

Trenches Carried at Festubert Fall Again into German Hands—French Continue Successful Fighting North of Arras and Advance Along Fecht River.

Special Cable to The Toronto World.
LONDON, June 16.—One thousand yards of German trenches north of Hoooge and east of Ypres were captured by British troops from the Germans early this morning. The British failed to hold the mile of trenches carried last night east of Festubert against strong German counter-attacks.
Such was the report received here tonight from Sir John French on the operations of the British expeditionary force in Flanders.
Sir John adds that parts of the second line of German trenches at Hoooge were also occupied. A German counter-attack was repulsed here with heavy losses, and 137 prisoners passed to the rear by noon today.
"The German version of the fighting says that in consequence of the Russian defeat the British and French attacked the German line at many points, and that two attacks by four British divisions between the Estaires, La Bassée road and the La Bassée Canal failed, the British assaults being repulsed by Westphalian troops and divisions of the guards after desperate hand-to-hand fighting. The Germans also affirm that the British sustained heavy losses and left several machine guns and bomb-throwers in the hands of the Germans. The enemy admits that the British troops succeeded in forcing back the German positions near Ypres, and says that the battle continues in that sector."
French Win Victory in Vosges.
The French gained an important victory in the Vosges in their advance along both banks of the Fecht River. They captured Braunkopf, on the north bank, particularly the German prisoners, including four officers and capturing a large quantity of war material, including many rifles and 800,000 cartridges.
German aeroplanes operating singly dropped bombs on Nancy, St. Die and Belfort. Several civilians suffered from the attack at Nancy.
Germans Omit Victory.
The German account of the fighting in Alsace is that the French failed in an attempt to break the German lines between the Fecht and Lauch valleys and that fighting there continues only to the northwest of Metzeral and Hilsenrath; otherwise the attacks were repulsed.
Gains at Divers Points.
Three hundred Germans were taken prisoner by the French in making gains at divers points north of Arras today, particularly east of Lomme, southwest and south of Souchez, and in the Labyrinth. The French also extended the gains at the Quenneverre farm by advancing to the northwest of the trenches already captured. This was done after several German counter-attacks were repulsed. About 100 prisoners, including two officers, were taken.

AUSTRIANS CAN'T STOP ITALIANS

Enemy is Making Huge Efforts to Stem the Great Advance.
BIG TERRITORY TAKEN
In Four Weeks Italy Has Occupied the Eastern Frontier.

Special Cable to The Toronto World.
LONDON, June 16.—Col. Barone, a military critic who writes with authority, says a vigorous Italian offensive is necessary if the country is to cooperate, as intended, in the definite and complete success of the allies, which Italy's intervention more than ever has assured. He comments on current rumors that Italy has undertaken with Germany to discontinue her offensive as soon as she has secured sufficient territory to satisfy national aspirations, and that until this occurs Germany will refrain from attacking her. He protests that such rumors not only outrage all ideas of morality, but are so absurd from a political-military viewpoint as to scarcely be worth time discussing.
Last night's bulletin confirms those which have gone before in indicating the chief spheres of Austrian resistance at Carnia, which exemplifies the value of the initial success of the war in giving our allies a new defensive frontier, and between Gradiska and Gorizia the enemy is making great efforts to check the pace of the Italian advance.
It is noteworthy that after scarcely four weeks our allies have occupied nearly all territory on the eastern frontier which Austria at the last moment offered to cede as compensation for the continuance of Italian neutrality.

SASKATCHEWAN CROPS UNDAUNAGED BY FROST

No Danger Apprehended Until Shot Blade Stage is Reached.

SASKATOON, Sask., June 16.—There were several degrees of frost again last night, which touched tender garden plants, but enquired up to noon shows no injury to the big field crops. Dean Rutherford of the university says the crops are safe from damage by frost until they reach the shot blade, when it is hoped the danger from frost will be passed.

Forces to Be Raised to Hundred and Fifty-Five Thousand Men.

LONDON, June 16.—Gen. Hughes stated here today that the total strength of Canada's forces when the fourth contingent is raised will be some 155,000 men. Seventy-three thousand Canadian soldiers, he said, are already overseas. Instructions for the recruiting of 35,000 men of the fourth contingent, he said, will be issued within a few days.

CHICAGO RAILWAY MEN TO ARBITRATE DISPUTE

Strike in Transportation Services Averted by Conference With Aldermen.

CHICAGO, June 16.—Normal service on the Chicago elevated and surface lines was resumed today, as the result of an agreement reached after an all-night session of a railway and labor representatives and a council committee, headed by Mayor Thompson had agreed on arbitration. It was agreed that as to wages there should be no arbitration downward, and that "trippers" men who work only during the rush hours of traffic, would be eliminated. Every point of difference between the men and the employers is to be arbitrated.

BRITAIN WILL NOT COMPEL MEN TO MAKE MUNITIONS

Lloyd George Reaches Agreement With Labor Leaders Whereby Government Can Prohibit Strikes or Lockouts in Controlled Factories.

LONDON, June 17.—(2.54 a.m.)—The government appears to have abandoned, at least for the present, any idea of resorting to compulsion in the organization of industries for the production of munitions of war. David Lloyd George, the minister of munitions, who the first broached the idea of compulsion in public, was vigorously attacked by Radicals and Laborites inside and outside of parliament, who strongly opposed compulsion either in recruiting for the army or for industrial purposes, arguing that such methods would produce in Great Britain the alleged evils seen in Mr. Lloyd George's conferences with the trade union leaders have resulted in an agreement upon a bill which will be introduced in the house of commons next week and passed with all possible speed. This bill will give the government power to prohibit strikes or lockouts prejudicial to the national interest in controlled factories, and provide that all questions of wages and conditions of employment be settled by a specially appointed tribunal. The bill contains no provisions for compulsion or even compulsory registration of the male population, but will enable the opening of rolls of volunteers who are prepared to work in any factory controlled by the government for a period of six months. In all such controlled establishments producing munitions of war, restrictive rules and the practices of the trades unions will be suspended and the profits of the employers limited.
It was announced in parliament yesterday on behalf of the government that it was intended to impose a special tax on war profits, and that a measure with this object in view was being considered. Such a measure has long been expected as it has been realized that the government could not demand sacrifices from the workers without giving similar demands to firms providing war materials. As far as is known the employers generally are not offering open resistance to this plan which probably will form part of the first budget of the new chancellor of the exchequer, Reginald McKenna.
Terror Taxation.
This budget, according to The Times, promises to be the most terrific instrument of taxation in British fiscal history.
"Members of parliament," The Times adds, "are steeling their nerves to face not merely a surtax on war profits, but an increase in the income tax which was not dreamed of a year ago. These sensations will probably mature in the early autumn."

RUSSIANS OPPOSE GIGANTIC FORCES

Nearly Three Million Men Estimated to Be Pressing Muscovites.

LONDON, June 16, 8.05 p.m.—Reuters' Petrograd correspondent says the Russian military critics estimate the total Austro-German forces operating against the Russians are not less than 15 German and 25 Austrian army corps (about 2,800,000 men). It is asserted that 14 or 15 German army corps (650,000 to 600,000 men) are operating on the Lubaczowka-Wizna front in Galicia, in addition to the Austrian troops, while it is believed probable that the German and Austrian army corps (280,000 men) in the Baltic provinces.
The correspondent adds that the Reich says it anticipates that the Austro-Germans will attempt a direct advance from the west upon Lemberg, combined with wide sweeping movement to the northeast in the direction of Rawa.

SINKING OF BRITISH SHIP COST LIVES OF 22 MEN

Torpedo Blew Up Strathairn's Boiler Off Scilly Islands—Submarine Made No Attempt To Rescue Drowning Men.

LONDON, June 16.—The British steamer Strathairn was torpedoed today off Scilly Islands and sank. Twenty-two members of the crew, including the captain, were drowned. The crew was composed of nine Englishmen and twenty-four Chinamen, and of these only one Englishman and ten of the Chinese were saved. These were landed at Milford Haven.
The torpedo struck the steamer amidships and blew up one of her boilers. Four of the ship's boats were hastily launched, but two of them capsized, while another was smashed against the steamer's side. The other boat with the eleven survivors in it was picked up later and the men taken to Milford Haven.
The survivors say that after the Strathairn was torpedoed the periscopes of a submarine were seen nearby, but that the underwater boat made no attempt to rescue the drowning men. The Strathairn, which was a vessel of 438 tons, was bound from Cardiff for Archangel, Russia, with a cargo of coal.
Lloyd's reports that three Aberdeen trawlers, the Petrel, Explorer, and Japonica, have been sunk by German submarines.
A Reuter despatch from Gothenburg says that the Swedish steamer Torsten, of 1875 tons, from Gothenburg for England, was captured Wednesday morning by a German auxiliary cruiser off the island of Vinga. The Torsten was towed southward, presumably to Swinemunde. The steamer is said to have no contraband aboard.

TECHNICAL SCHOOL HIVE OF INDUSTRY

Trip Thru Mammoth Educational Plant Reveals Some Surprises.

SPLENDID INSTITUTION

Visit Made by Women's Art Association and Purposes Explained.

Speech-making in the history of Toronto is the advent of the new technical school, which was visited yesterday by a large representation of the Women's Art Association, who were privileged to be the first outside organization to enter this wonderful institution. The guests were received by Dr. McKay, principal of the school, and Mrs. McKay, and in their tour of inspection were assisted by E. Howell, of the art department and by Miss Davidson, superintendent of domestic science.

A short address given in the amphitheatre-like lecture hall, Dr. McKay spoke of Toronto as an educational centre unsurpassed on the continent, with a university equal to the greatest in England and with primary and secondary schools all the best of their kind. In presence of these conditions it is often asked why the enormous expense of erecting the new technical school, Dr. McKay felt that he had in a measure to justify the outlay, and he did so on industrial and educational grounds. Half the population of the Province of Ontario are carried on in Toronto and more than one-sixth of the industrial and commercial enterprises of the province are directly maintained by industry. Out of our 500,000 of a population, 200,000 are directly maintained by industry.

The industrial life of Toronto is exceptionally diversified, with all kinds of manufacturing and service industries. The industrial life of Toronto is exceptionally diversified, with all kinds of manufacturing and service industries. The industrial life of Toronto is exceptionally diversified, with all kinds of manufacturing and service industries.

An educational centre the expense of the school they felt in him. The school is in a very healthy state, according to the financial reports, as \$16 has been added to the per capita assets.

The retiring grand master, C. E. Denton of Tillsonburg, was presented with a jewel. The matter of reducing salaries was brought up, but no action was taken because it was thought that the finances were good enough to maintain the present rates. A telegram was received from the high commissioner, J. A. Stewart of St. Catharines, reciprocating the good wishes contained in the Odfellows' message of Tuesday.

A resolution to change from annual to biennial sessions was made by the Odfellows. The resolution was passed by a vote of 10 to 2. The next convention of the order will be held in Hamilton in June, 1917.

A cable was sent to Earl Kitchener giving the assurance of the order as a purely Canadian organization of the Odfellows. The order is in a very healthy state, according to the financial reports, as \$16 has been added to the per capita assets.

The plan for a special week, which was to be held in the city, was approved. The plan for a special week, which was to be held in the city, was approved. The plan for a special week, which was to be held in the city, was approved.

The boy would enter the technical school from the fourth class of the primary school, and after a two years' course of mixed industrial and general subjects would enter upon a two years' application in any definite course.

A journey was made with Dr. McKay as pilot. It was not contemplated to make the entire survey, because that would take two hours and prove very fatiguing, but sufficient was seen to make the visitors marvel and to extol the adjectives in the vocabulary of even the most eloquent.

Shops of All Kinds. On the lower end of a huge concrete block a complete foundry, a blacksmith shop and all kinds of departments for machinery, electricity, decorating and plaster work. Then there is a department in which the making of brick and all kinds of terra-cotta will be taught, and in a large construction room two complete buildings will be erected by the pupils themselves.

A place of surprise for the party was the magnificent auditorium, with the gallery running along three sides and capable of seating 1,000 people. This, it is hoped, will be a nightly scene of recreational and educational activities. Had it not been for the war, the grand organ would have been installed. Some benefactor impressed with what it would be to the city may give it even under existing conditions.

A whole floor will be devoted to the work of domestic science, and the number interested in this branch may be judged by the fact that last year there were fifteen teachers engaged in this work alone. Here the things pertaining to the kitchen, laundry, sewing and all kinds of domestic science will be taught. Part of the equipment is a small but complete house in which housekeeping will be demonstrated.

A Model Kitchen. Then there are lunch-rooms one for the boys and one for the girls, with model kitchens between, where students who live outside the city or others may have luncheon under sanitary and refined conditions at a very low rate. No fewer than 100 rooms are allotted to chemistry in its different phases, and six great rooms with lighting from the ceiling are for the work in art. The gymnasium is one of the places where magnificence overwhelms the great white tiled tank, reminding the spectator of the imperial baths in the days of ancient Greece and Rome. The engineering plant is of a thousand horsepower and all else is on the same substantial scale.

Molding in Plaster. Specimens of molding in plaster are on exhibition, and casts done from life. A head cut out of a solid piece of stone by a stonemason who came to the school attracted great attention. Paintings and drawings and the work in illuminating and different kinds of script were wonderfully well done. To tell anything like what might be told about this latest educational asset of Toronto would take a whole newspaper.

The new school is meant to be the centre of a number of branch schools for which sites valued at \$200,000 have already been purchased. For the public it is something of which to be justly proud, and no one who has his own interest or the interest of the coming generation at heart should miss visiting the institution. Every artisan and craftsman should see it, and the children should be taught to make it their familiar. The two millions or so outlay has brought to Toronto possibilities which are so far-reaching that they are simply beyond calculation. The great stone-building with its

Reason Why City Has Paid What Appears to Be Big Figure

The report of Commissioner Harris in regard to the south and north Toronto railway grade separations has been completed. It shows that the G. T. R. has spent \$1,062,562, and the city \$155,477, for the actual work done. The grade separation fund has paid \$15,000, and the city has paid 24 per cent of other charges, amounting to \$238,257. The land purchase in connection with the work cost \$751,631, of which the city paid \$259,925.

The amount paid to date in connection with the G. T. R. grade separations at North Toronto is \$905,363, of which the city has paid \$272,752, and it is estimated that \$55,000 more will be required to complete the work. Of the property damage the city pays \$278,538, the total being \$600,000. These figures do not include the cost of the Yonge street subway, which will be \$455,000, plus the cost of land \$100,000, and damages \$275,000, to which must be added the cost of removing sewers, etc., amounting to \$35,000.

The Brock avenue subway cost \$144,929, the city paying \$15,898. Time Has Arrived. The question of establishing a municipal ice house came up before the board of health yesterday afternoon, when Ald. Yeomans stated that a number of people in the city were compelled to eat frozen food because they could not afford to throw it away or buy ice in the warm weather. Ald. Risk said that his borough was producing ice at 60 cents per ton for operating expenses, but as Dr. Hastings explained, the cost of a practical icebox could not be a little expense, no action was taken, although the doctor thinks the time for considering such a proposition has arrived.

Assessment Too Low. The report made some time ago by the board of control regarding the assessment on properties recently purchased by the city has been prepared by the assessment committee, which shows that the city has paid as high as 100 per cent over the assessment for some of the property. The commissioner points out that the discrepancies are due to a conservative assessment and that the prices paid were justified by reason of other property transfers in the different districts.

Particulars regarding the different purchases are given, one of the most notable being the sale by Frederick Nichols of the New York assessed at \$7000, for which he was paid \$25,200. J. A. Macdonald of Rochester has applied for the position of fire commissioner, and his name will be considered next week when the controllers again take up the question. Controller Foster is retiring, Acting Chief Smith the position.

The civic treasury board will discuss the trouble over the city sewerage disposal plant on Friday, when reports will be received from the various officials interested.

Arrangements made for the stocking of the waters around Toronto with fish, and the parks commission is to be asked to stock the waters in the parks are available for this purpose.

Two High Power Pumps. Two electrically driven pumps, each with a capacity of 7,500,000 gallons per day, to be installed at the high level pumping station are proposed by Commissioner Harris.

Mayor Church, who is still anxious that the city should have an advisory board for the city, has stated that he will move that the 140 policies be paid for by the city and that legislation be asked for raising the rates.

City Solicitor Johnston and Commissioner Harris report that it would be illegal for the city to retain contractors from employing alien enemies.

Mayor Church suggests that the city arbitration board be composed of representatives of the city and of contractors from employing alien enemies.

Controller Thompson has moved to have the taxes collected in four instalments next year, and wants the books prepared so as to provide for this.

On Friday it will be 100 years since the battle of Waterloo was fought, and to celebrate the day all city flags will be flown.

TELLS NEW SOLDIERS OF REAL CONDITIONS

Maj.-Gen. Hughes, Accompanied by Wounded Canadians, Passed Thru Toronto Yesterday.

Major-General Sam Hughes arrived in Toronto yesterday on his way to inspect the London military camp. The general had two Canadians with him who are invalided back from the front. They were Capt. Danereau of Toronto and Major Kinloch of Brandon, Man.

The general said he was staking them around to the various camps to give the men some idea of the actual conditions on the front. He said that Canada will have 177,000 men under arms soon, and the 35,000 required at present are nearly all secured.

HONORED THE MEMORY OF DR. J. B. WILLMOTT

Dean of Dental College Buried Yesterday—Tribute Paid by Many Friends.

Tribute was paid the late Dr. J. Branson Willmott, Dean of the Royal College of Dental Surgeons, who was buried yesterday afternoon in Mount Pleasant. Toronto's leading professional men, who were associates of Dr. Willmott, paid their last respects to the father of professional dentistry in Ontario. Rev. J. W. Aikens of Metropolitan Church, who was a lifelong friend of Dean Willmott, conducted the funeral service and spoke of the close connection which he had maintained with the church since its inception over 35 years ago.

In the capacities of church treasurer for several years and member of the trustees and quarterly official, he showed untiring interest in the activities of church life. As a representative of four general conferences, and at many annual conferences, Dr. Willmott was a staunch supporter of his denomination, besides being interested in church union.

As an educationalist, Dr. Willmott had the honor of founding the dental college, and of being instrumental in bringing it to its present standard. Rev. William Briggs, who was an intimate friend of Dr. Willmott's for many years, spoke feelingly of his life and character. Many beautiful floral tributes from friends throughout Canada attested the regard of those who knew him. A widow and one son, Dr. W. E. Willmott, mourn the loss of a loving husband and father. The pall-bearers were: President R. A. Falconer, Dr. R. A. Reeve, Dr. W. E. Cummer, Edward Gurney, F. Roper and Dr. D. Clarke of Hamilton.

Third Transfer Was, However, Refused by Ontario License Board.

Albert P. Griggs, M.L.A., Spoke in Reference to Character Only.

The Ontario License Board yesterday granted two transfers of hotel permission to a third applicant: Anderson Hotel, Ridgeway, and licenses in East Kent, and refused Samuel Hart to John Johnston, Central Hotel, Bothwell; J. E. Blackall to Ernest Thompson, London. They refused Walter Dislets of Asela, Sudbury district, permission to transfer to Joseph Meullaux.

According to Albert P. Griggs, M.L.A., the Ontario License Board he was inquired in the newspapers in his communication to the license board Monday when he supported the Rev. William Briggs' motion in the order that the Windsor Hotel, London, proprietor James McAvoy, sell out within three months.

Mr. Griggs said yesterday he merely testified to the good character of McAvoy, and not to the necessity of a hotel license.

Ancient and Modern Military Centres. It is often said that history repeats itself. One of the most striking examples of this well-known saying is the fact that the scene of the great military activities of over one hundred years ago, when Canada was won for England by the spectacular and daring exploits of General Wolfe at Quebec, on the Plains of Abraham, is only 17 miles from Valcartier, Canada's great military camp, where 35,000 Canadian troops were trained and equipped for overseas service. Both these places are conveniently reached by the Canadian Northern Railway. Leave Toronto 10.20 a.m., arrive Quebec 6.30 a.m. Valcartier 8.30 a.m. Parlor, dining and standard sleeping cars.

CASE WAS DISMISSED. Judge Winchester, in the criminal court yesterday morning, dismissed the charge of criminal negligence against Ramon Durke, Durke collided with a rig on Gerrard street bridge on May 11, while driving a motor car.

WILL OF THOS. WHEATLEY. In the surrogate court yesterday the will of Thomas Wheatley was proved. The estate is valued at \$2565 and is to be divided among his 4 children. Edward Wheatley, Mrs. A. E. Moylan, Mrs. G

The garden party at Casa Loma will take place Saturday afternoon, under the auspices of the Q. O. R. Chapter, I. O. O. E., Entertainment on an elaborate scale will be provided, and music rendered by the regiment's band.

As a result of a sale of home-made dainties, held at Winchester Street School, the sum of \$72.25 was raised for the fund for sending a nurse to the front.

Large cash donations and splendid supply of tobacco, cigars, toilet articles, soap and jams was the result of a shower held in aid of the University Base Hospital, given at the home of Mrs. Rathbone, 15 Laxton avenue.

A military eucure will be given by the Sunshine Club tomorrow afternoon, in the Pavlova, Cowan avenue, to help swell the funds of the Red Cross.

DR. PATTERSON TO LECTURE

Rev. William Patterson, D.D., is to deliver a lecture in Cooke's Presbyterian Church, Queen and Mutual streets, tomorrow (Friday) evening, at 8 o'clock.

Dr. Patterson is well known on both sides of the Atlantic as an able and powerful pulpit and platform orator, and no doubt many will avail themselves of the chance to hear this distinguished Irishman.

Admission charge will be 15 cents, and the proceeds will go to renovate the school-room.

WHAT HAS BECOME OF HOSPITAL FUND

Statement of Mrs. A. E. Gooderham Sets the Matter Clear.

GIFT FROM WOMEN

Money Used for Ambulances and Providing Special "Nurses' Blocks."

Owing to the fact that there seems to be a misunderstanding in some quarters regarding the Hospital Ship Fund, despite the publicity given the subject at the time of collection, Mrs. A. E. Gooderham, president of the L.O.D.E., asks that a further statement be made with the object of enlightening any who may be still interested and in doubt.

The first intention was to ask for a collection of \$100,000 for the purpose of presenting a Hospital Ship to England as a present from the women of Canada and a testimony of universal good will towards the motherland.

The generosity of the Canadian people made the collection of \$322,000. On enquiry, it was found that the Hospital Ship was not a necessity, and at a representative meeting it was decided to use the fund for hospital supplies for soldiers and sailors.

Following this \$100,000 was sent to the war office thru the medium of H.R.H. the Duchess of Connaught, honorary president of the Hospital Ship Committee.

With this sum the British Government bought by the hospital supplies for soldiers and sailors. These motors are now familiar to those who work in the vicinity of the hospitals, and are all marked Canadian Women's Ambulance.

The remaining \$182,000 was sent to be used under the direction of admiralty, by whom it was decided to erect two, what are known as "Nurses' Blocks" or nurses' quarters, and Haslar Hospital, near Spithead, to set aside a special wing to be known as the Canadian Women's Wing, to which the worst surgical cases are now sent.

It is the intention of the admiralty to erect a special wing at the hospital at Chatham in which a tablet will set forth that it is the gift of the Canadian women. To the hospital at Haslar the hospital supplies are sent from Canada.

These nurses' blocks relieve the hospitals and leave many beds for the comfort and use of the sick and wounded, and it is the wish of the admiralty to erect a permanent memorial to the generosity and good will of the people of Canada towards the motherland.

Katie Robinson, a domestic employed by T. O'Rourke at his hotel on Eastern avenue, was arrested by Detective Crowe last evening, charged with the theft of clothing and a small sum of money from her employer.

SPECIAL OPEN AIR ROOM FOR SCHOOLS

Dr. Caroline Brown Will Move That One Be Erected During Building Operations.

At tonight's meeting of the board of education a motion will be introduced by Dr. Caroline Brown providing that all school buildings which are erected in the future, and all present buildings that are enlarged must have at least one room constructed on the open-air principle.

Trustee Voke will bring in a motion which has as its object that tenders for school contracts must give the names of their sureties on their contracts, and that the sureties will not be required to sign as bondsmen until after the contract has been awarded to the successful tenderer.

SGT. PERCY IVES GETS HONOR FOR GALLANTRY

Since Battle of Langemarck, However, He Has Been Missing.

Sergeant Percy Ives of the Royal Grenadiers has been awarded a distinguished conduct medal for his gallant conduct in the engagement at St. Julien on April 23, but has not been heard from since the battle of Langemarck. The last news received about the gallant sergeant of the Grenadiers was that he went in charge of a party of ten men which was carrying ammunition to a trench on the morning of April 23.

When the German charged the trench only two men escaped, and neither Sgt. Ives nor the other Grenadiers were heard of since. Ives was the first Canadian to receive this honor. A letter received by Col. Henry Brock of the Grenadiers from Col. Rennie gave the news of the honor conferred on Ives.

SAVAGE TELEGRAPH

Drums, Talking Flags and Signal Smoke of the Savages as Useful as Wireless in Present Struggle.

Despite secret codes, the absolutely public nature of the wireless for use in communication across the vast distances from England and France, to the west coast and Russia on the east, has rendered it well nigh as impracticable as the original aborigine's visible or aural telegraph.

Lack of direct, secret communication seriously affected the co-operation of the wings of the Allies' fighting machine, until with the customary British aggressiveness, a direct submarine cable has been laid and in it, brief dashes from Peterhead, Scotland, to the White Sea, on the Arctic shore of Russia.

And what about water? It is now possible to communicate in a minute with the Russian forces at the front. The British and the German concerted attacks on all sides of Germany, thus preventing her shifting troops back and forth as alternating attacks present on either side.

What is the "Spring Drive" planned by the Allies, and it destroys Germany's greatest trump card in the game of war.

When England and her Allies in the eastern arena are ready for that smashing, grinding, battering blow upon the German front, Russia will receive "dash" to open the ball in the German rear, and then Germany will begin to realize her utter helplessness to cope with her indomitable foe, for still with aeroplanes, scouts reporting the shifting of her troops and the two Allied fronts acting in concert, her lines must inevitably break. That will be the beginning of the end.

When will come that German ring of steel the Union Jack should break to the breeze from every home in Canada. That none may be unprepared, the World has provided complete flag outfits for every home. These outfits are practically without cost, except for the small expense amount to cover assembling and distribution. Get your Union Jack today—show your patriotism—hang it out with every report of victory from our soldiers across the sea.

Answers to Correspondents

As this department will be discontinued after Saturday until about the middle of September, I thought we had better finish up the most pressing of the queries that have been pouring in from every side.

Now, first of all, there are several queries regarding the pest that is destroying the snowball trees, not only throughout this and other cities, but also in country homes.

My own tree is very sick indeed in spite of all I have been trying to do. The leaves are covered with small black lice and thousands of ants run up and down that tree. The leaves are twisted and distorted out of all semblance of their former lovely shapes.

Usually the trouble starts so insidiously that before one knows what is happening the tree is infested and really spoiled for this year.

Bordeaux mixture, paris green, whale oil soap solution and various other remedies have all been advised as the best thing for this really dreadful pest, but until this year I have always been very successfully upon my garden hose.

Clematis: Several lovely clematis which are willing down and the leaves turning black. The trouble lies at the root of the plant. A small hump-backed, brownish black very tight-clinging bug is gnawing at the stems of the vines, just a half inch or so above where they spring from the root.

What to do is this: Scrape the earth away from the stems until the bulbous roots are exposed and search for the villain. You will find him without much difficulty. The difficulty you will have, however, is to scrape him off without further injuring the vine. But this must be done unless you wish to watch the total destruction of your vine.

Sweet Williams, Eglantine: Gather the seeds from your choicest specimens as they seed in July. The seeds are now possible to communicate in a minute with the Russian forces at the front.

Have you planted your garden yet? Not too late to plant many kinds of Vegetables.

What a pleasure it is to be able to go out into your own garden and gather vegetables for a salad or an appetizing addition to the dinner!

To get the best results you should know how to plant and cultivate, what is as soon as what about water?

"Making Money From the Soil" how to grow 40 different kinds of garden vegetables, besides giving information on over a thousand subjects relating to farming, gardening, home building, care of live stock, poultry, domestic animals.

LUSITANIA'S SPEED HAD BEEN REDUCED

Canard Company Economizing on Coal Because Traffic Had Declined

PROBE NEARING END

Main Points Have Been Brought Out, Says Baron Mersey.

LONDON, June 16.—Baron Mersey, president of the court of enquiry, in the sinking of the Lusitania, today stated that the investigation would soon be ended. The baron in his mind was quite satisfied as to the most important questions—the speed of the vessel at the time she was attacked, and the absence of British destroyers as an escort. He believed the court had before it all the evidence it was likely to obtain relative to the alleged shortage of officers and the loss of boats at the time of the catastrophe.

ONE BOAT DRILL

Only one boat drill today was held on the Lusitania, because of the fact that there was only one boat drill during the voyage. On that occasion some members of the crew, in lifeboats, swung out a lifeboat and jumped in. This drill lasted only a few minutes.

SPEED REDUCED

Alfred A. Booth, chairman of the board of the Cunard Steamship Co., was asked by Sir Edward Carson why it was that the Lusitania was economizing by using only 10 of her 26 boilers at the time she was torpedoed.

NO WIRELESS INSTRUCTIONS

The witness said the Cunard Company was unable to give any wireless instructions to the vessel by wireless except through the admiralty, and therefore had given no wireless instructions to Captain Turner. General instructions given previously covered the closing of the water-tight compartments, the swinging out of boats on entering the danger zone, and an order not to slow down to take on a pilot or to lie off Liverpool for the tide. It was left to Captain Turner's discretion to arrange the time of the vessel's arrival.

ENGAGE WITH RUSSIANS IN REAR GUARD FIGHT

Teutonic Allies Display Activity From San River to Bessarabian Frontier.

Berlin, June 16, via London, 9.50 p.m.—Special despatches from the Austrian headquarters report that the Teutonic allies are pushing the Russians vigorously from the San River to the Bessarabia frontier. The latest operations are said to have resulted in bringing Gen. Mackensen's forces in contact with Gen. Linsingen and Gen. Pflaumer.

Heavy fighting is proceeding along the whole line in Galicia, but the maximum apparently has not yet been reached. The Russians are bringing all their available forces, consisting partly of fresh recruits, to resist the advance of the German allies.

Artillery recruits are wanted for the 9th Battery C.F.A., according to a statement made by the recruiting officers last night. Men who are physically fit are asked to call at the armories to enlist in this corps. The battery is being rapidly brought up to strength, and with a few days more recruiting the complement of the unit will be completed.

who ought to be there, no matter how great their wealth or how high their station. It is more than a party question.

But if he is prepared to do his duty without fear or favor, he should rise above party and should command the undivided support of the entire commonwealth.

He need have no fear of his personal and political future from a coalition government in this emergency. When his great work is accomplished, and especially after the war is over, he can appeal with confidence to a re-generated Manitoba.

Today opportunity beckons to the premier of Manitoba. Will he get in the Asquith class or be among the petty provincial premiers whose names are forgotten?

Manitoba is in a precarious condition. Judging from the tenor of press comment in Britain, part of the trouble in the administration of the armistice and in the provision of munitions has come from obstinate adherence to the war office to its accustomed red tape methods.

Mr. Lloyd George, the new minister of munitions, has undertaken to reform war office methods. In his speech at Liverpool he said: "We want rifles, we want guns, we want shells, fuses, chemicals and explosives. There is one thing we want less of than usual, and that is red tape. It takes such a long time to unwind, and we can't spare the time."

In the action of the Kaministiquia Power Company for the recovery of \$3333.33 from the Superior Rolling Mills on a contract for the supply of power, Mr. Justice Britton, in a judgment given out yesterday at Osage House, finds for the plaintiffs for the full amount.

The contract which fixed the price of power at 25¢ per h.p. per annum contained a clause to the effect that if power was not furnished to the defendants through their fault reasonable damage should be due to the plaintiffs. The defendants contended that the contract for real damages could not be shown, but Justice Britton holds that they should be bound by the contract and awards for the plaintiffs.

Mr. Justice Lennox had refused to quash a bylaw of the Town of St. Mary's, by which for the license year commencing May, 1915, billiard and pool rooms were limited to one per block. The application to quash the bylaw was made by C. T. Stewart, who pointed out that the town has a population of 4000 and alleges that the bylaw creates a monopoly. He states that the nearest pool rooms to St. Mary's are in London, and that farmers come from miles around to play pool in St. Mary's. His lordship says that it is not pretended that the license is not sufficient for the requirements of the town or that the bylaw was not passed in good faith.

The master in chambers made an order on the winding-up proceedings in connection with the Toronto Bowling Club, appointing N. L. Martin liquidator. He will furnish security of \$6000. George Milligan, the petitioner and a creditor of the club, will conduct the liquidation.

On the application of James Donald Taylor an interim injunction has been granted by Mr. Justice Lennox, restraining Thomas James Woods from dealing with the business or the assets of the Arlington Hotel. The parties are partners in the hotel, and the plaintiff claims that the business is not being conducted as it should, also that the assets and lease of the hotel cost \$22,500 and that the defendant has not paid any capital into the partnership. The license is in the defendant's name. An accounting appointment of a receiver was ordered.

BRANTFORD SOLDIER IS DECORATED FOR VALOR

Private Bloxham of Winnipeg Rifles Has Been Awarded Medal.

BRANTFORD, June 16.—A letter has been received from J. C. Bloxham of this city, stating that his son, Pte. Charles Bloxham, who joined the Winnipeg Rifles, forming part of the C.E.F., has received the distinguished conduct medal for "some small service rendered at Ypres."

The Winnipeg Regiment was the one that held the trenches all day on the first occasion of the use of asphyxiating gas, and it is thought that it was in this connection that he was honored.

LUSITANIA WAS SUNK BY SUBMARINE U-21. Commander Decorated by Kaiser for His Feat.

LONDON, June 16.—The German submarine U-21 sank the Lusitania, according to the British, Denmark, corresponding. "It has been learned here that the Lusitania was destroyed by the German submarine U-21, by the Kaiser, on the morning of the torpedoing of the Lusitania." The Star's correspondent.

Great Girls These. The gift of a motor ambulance, fully equipped and ready for service at the front, to the Canadian Red Cross Society, has been a subject of "great attention," says a news despatch. And well it might, it is truly a wonderful gift for the operators to make, and one that should be noted by every woman in Canada. There is a hard working class of girls in the city, and many of them are in the front lines, and many of them are in the front lines, and many of them are in the front lines.

Look to the Future. Canada can benefit by hearkening to the recommendation recently made by the British Board of Agriculture, in a notice issued to farmers. It strongly urged them to raise as much stock as possible during the war, and gives the following advice: Do not send breeding and immature stock to the butcher simply because prices are attractive now.

Assessment Values. Once more the assessment department has convoluted itself of contumacy, or something worse, in its dealing with the Assessment Act. Under that act the assessor takes a solemn oath, at least described as a solemn oath, which is expected to be a solemn one, and so observed. By that oath he pledges himself to assess whatever real estate comes under his jurisdiction at its actual value. In practice he proceeds as though the oath had never been spoken and the act passed into law. He assesses land at anywhere from forty or fifty per cent of its value, making an average, as he has boasted, of seventy per cent.

When the city needs to buy property that has been thus assessed under the act it would be expected that the price would be nearly about the figure set by the assessor as its value. Nothing of the sort, however, does the city ever get off with.

A report has just been made by the assessment commissioner showing the discrepancies that exist between the values at which the city owns the properties according to his oath and the prices which he has recommended the city to pay the owners. One owner got \$7000 for property assessed at \$3800; another got \$3000 for property assessed at \$1651; another \$10,725 for property the assessor had sworn was only worth \$4800. J. K. Osborne got \$70,000 for property assessed at \$35,348; Fred Nicholls got \$25,200 for property put down on the city books as worth \$7000.

These are only a few of the instances in which the city has to pay double or more than the assessed value of the property on which the owner has to pay taxes. This is what makes the campaign for unearned increment such an arduous one by people who look into the leaks in taxation, and who regard fair play and justice as a first consideration in dealing with the public revenues.

The assessment commissioner defends his violation of the law by saying that he makes a conservative assessment. The act calls for a true assessment, not a conservative one.

French Torpedo Boat Sunk in Collision. Six of Crew Were Drowned, But Others Were Rescued.

CHERBOURG, June 16, via Paris.—The torpedo boat No. 331 sank today after a collision with the British steamer Arley. Six of the warship's crew were drowned. The others were rescued by torpedo boat No. 337.

Five Garibaldis Are Off to Firing Line. Grandsons of Great Patriot Given Enthusiastic Send-Off.

ROME, June 15.—Five grandsons of Garibaldi, the patriot, left for the front today, in addition to General Ricciotti Garibaldi, their father and their mother, a large crowd gathered at the station, wishing the departing soldiers success. Several short addresses were made at the station, and as the train pulled out these were cries of "Long live the patriots!" and "Long live the Garibaldi brothers!"

Count Zeppelin Ill. BERLIN, via The Hague, June 16.—Count Zeppelin, German airship creator, is ill at his home in Stuttgart, and is expected to leave for the hospital to come to Berlin to fill an engagement, and a telegram from Stuttgart said he probably would be confined to his home for several weeks. The nature of his illness was not stated. The count is 67 years of age.

POWER COMPANY IS GIVEN DAMAGES

Kaministiquia Firm Recovers on Contract From Superior Rolling Mills.

FARMERS PLAY POOL Partner in Arlington Hotel Restrained From Dealing With Business.

In the action of the Kaministiquia Power Company for the recovery of \$3333.33 from the Superior Rolling Mills on a contract for the supply of power, Mr. Justice Britton, in a judgment given out yesterday at Osage House, finds for the plaintiffs for the full amount.

The contract which fixed the price of power at 25¢ per h.p. per annum contained a clause to the effect that if power was not furnished to the defendants through their fault reasonable damage should be due to the plaintiffs. The defendants contended that the contract for real damages could not be shown, but Justice Britton holds that they should be bound by the contract and awards for the plaintiffs.

Mr. Justice Lennox had refused to quash a bylaw of the Town of St. Mary's, by which for the license year commencing May, 1915, billiard and pool rooms were limited to one per block. The application to quash the bylaw was made by C. T. Stewart, who pointed out that the town has a population of 4000 and alleges that the bylaw creates a monopoly. He states that the nearest pool rooms to St. Mary's are in London, and that farmers come from miles around to play pool in St. Mary's. His lordship says that it is not pretended that the license is not sufficient for the requirements of the town or that the bylaw was not passed in good faith.

The master in chambers made an order on the winding-up proceedings in connection with the Toronto Bowling Club, appointing N. L. Martin liquidator. He will furnish security of \$6000. George Milligan, the petitioner and a creditor of the club, will conduct the liquidation.

On the application of James Donald Taylor an interim injunction has been granted by Mr. Justice Lennox, restraining Thomas James Woods from dealing with the business or the assets of the Arlington Hotel. The parties are partners in the hotel, and the plaintiff claims that the business is not being conducted as it should, also that the assets and lease of the hotel cost \$22,500 and that the defendant has not paid any capital into the partnership. The license is in the defendant's name. An accounting appointment of a receiver was ordered.

STREET RAILWAY MEN AGREE FOR TWO YEARS

Manager Fleming is Away and Settlement Will Have to Stand Few Days.

Owing to the absence from the city of R. J. Fleming, manager of the Toronto Street Railway, the settling of the new agreement between the union and the company will be delayed for a few days.

The union asked the company for a raise of one-half cent an hour, and in addition there were several other requests made to improve the conditions of the employees which would not in any way affect the company.

Mr. Fleming stated at the recent conference that he did not think the directors would grant an increase in wages, but that they might, within the old agreement for three years.

At the mass meetings of the union, held in the Labor Temple, the men voted to renew the old agreement for two years. Business Agent Gibbons stated that the two-year agreement would be presented to Manager Fleming when he returned to the city.

HEAVY SHELL FIRE Routed Our Army

Bombardier Palmero Chased Local Fighters to Cover Early in Battle.

Third installment of our great serial story, "Felled Again, or the Missing Hit." (Continued from yesterday.)

Jaw Gansel and his pirate band made another raid on the stronghold of General Palmero and his fighters at Point yesterday and again our loyal band was beaten. General Palmero has been looking for a timely shot to help drive off the enemy, but it failed to arrive in time for assault, and the raiders carried three trenches, while Palmero's counter-attack only remained one. It is reported that Gansel, drunk with his three victories, has withdrawn his fighters and will attack new fortresses and return to finally crush the defenders of our strongholds at a later date. This is welcome news, for the Gansel band defeated the Leafs in all three battles.

When the two armies were arrayed for battle it was seen that each general had picked on a Cuban to fire the siege guns. Bombardier Palmero of the enemy had the range better and subdued our brave little army and carried off the honors of the desperate struggle. Gunner Luque quickly got the distance of the foe's trenches and for four sessions held them from attacking. Our band made a sortie in the fourth and dislodged the enemy from one run. Chief of the Gansel Artillery Palmero helped this along with firing high over the second trench. It happened this way.

Private Graham opened the assault by slinging a base hit to the enemy's right and then Demmitt carried the I.R.O. by sacrificing himself for his comrade. Corporal Parent of the French brigade picked off a hit at short range to the left of blockhouse No. 2. Parent surprised the foe by stealing to the middle post and delayed Gansel's bombardier Palmero was so flustered that when he directed his guns in this direction his aim was poor and Graham rushed in to capture a run while the shells were towards his centre. Parent tried to capture another post, but was in such a hurry that he went out of cover (over the post entirely) and died bravely.

Several misses were the result of Gunner Luque's return fire. Priest dashed to the first trench on four wide shots and Wingo, the bombardier, for his side. Stevenson boomed out a trench of the home base on Bombardeir Palmero was soon sent to cover. Clemens waited until the shells went over his head and trotted to the first cover. He made a daring effort to get into the second line of trenches, and he so captured the attention of the Gansel forces that Stevenson dashed in to grab a run before Clemens could be snuffed out.

Long Range Gunner Smith drove a shell into the next engagement that allowed him a run under the rules of base-ball war. This was all that the foe was able to take away from our fighters, but their defence was not over the third shot, the locals failed to advance.

Four misses gave Graham a chance to gain ground in the sixth inning. Demmitt dropped a bomb in the centre of the fight and dished out a hit to No. 2. Both brave fighters were lost. Parent and O'Hara died without much fight. The Gansel forces were going again in the waning minutes of the fight, but two gallant hits went for nothing.

ZIMMERMAN SPIKED BY E. FITZPATRICK

At Chicago—Batting Cheney hard in the fifth inning, Boston won its first victory of the season over Chicago, 4 to 3, yesterday. Smith was banded from the game and Evers from the field for arguing with the umpires and only in the game most of the Boston substitutes, who day and Tuesday, voluntarily left. Zimmerman was spikied when Fitzpatrick slid into second and had to retire. Score: Boston, 4; Chicago, 3.

At St. Louis—Meadows, by pitching hitless ball for five innings, helped St. Louis win from Brooklyn, 4 to 3, here. Score: St. Louis, 4; Brooklyn, 3.

At Cincinnati—New York finished its first series of the season here yesterday by noting out the locals in a 12-inning struggle, 5 to 2. A single by Doyle with one out by Burns and successive singles by Fletcher and Robertson, combined with an error by Leach, allowed the visitors to tally two runs in the 12th inning. Score: New York, 5; Cincinnati, 2.

At Philadelphia—Barry's three-bagger, on which Cobb threw the ball back to the mound, was the key to Philadelphia's victory over Detroit in the eighth inning yesterday, the final score being 3 to 2. Score: Philadelphia, 3; Detroit, 2.

At Boston—The Red Sox scored four runs off Morton in the fourth inning yesterday, enough to defeat Cleveland, 4 to 2. Two sevens, two singles and Hobbitt's double produced the scores. Jack's son was struck on the head by one of Shore's inchoats in the first inning and retired, but the injury is not serious. Score: Boston, 4; Cleveland, 2.

At Toronto—The Red Sox scored four runs off Morton in the fourth inning yesterday, enough to defeat Cleveland, 4 to 2. Two sevens, two singles and Hobbitt's double produced the scores. Jack's son was struck on the head by one of Shore's inchoats in the first inning and retired, but the injury is not serious. Score: Boston, 4; Cleveland, 2.

Best Three-Year-Olds in the Hamilton Derby

HAMILTON, June 16.—The Hamilton Derby, which will be run on the opening day of the Hamilton Jockey Club's first summer meeting, June 25, promises to attract unusual attention this year, as it will bring together several of the best three-year-olds in Kentucky and the east. Royal II, the winner of the Latonia Derby last Saturday, will be coming on for the Hamilton classic, while Dornick, who was defeated in the Latonia race by W. W. Brock, is expected to challenge Hamilton to try conclusions with the English colt once more. The Hallebeck three-year-old, the Finn, winner of the Withers Stake at Belmont Park recently, will also be a starter. The meeting of these three in themselves is sufficient to arouse interest, and the race is bound to produce a stirring contest. In fact it will no doubt prove the three-year-old event of the year in Canada. Comonada, who is at present racing on the Canadian tracks, is also being pointed for the derby, and on his recent form he certainly has an excellent chance.

The racing at Hamilton will be marked by more class than has been seen up to the present at any of the Canadian meetings, and there is every indication of it being the most successful from a racing standpoint of any gathering this season.

The stabling accommodation has been taxed to its utmost, in fact every stall available within a mile of the track has been leased for the coming meeting.

FEW GOOD CATTLE OFFERED FOR SALE

Buyers Displayed No Undue Anxiety and Market Was Slow.

HOGS FROM THE WEST

Nine Hundred Arrived and Helped to Steady the Market.

Receipts of live stock at the Union Stock Yards on Wednesday were 43 cars, comprising 432 cattle, 1337 hogs, 418 sheep and lambs, 104 calves and 2 horses.

Few good cattle were offered, but there was no undue anxiety displayed by the buyers, as the market was very quiet.

For the best grades, of which there were few, values were \$7.10 to ten cents higher than on Tuesday for the best butchers' steers and heifers.

Feeders, stockers and springers are said to be about the same quotations as on Tuesday.

Receipts of sheep and lambs being light caused values to be a little firmer, a few select spring lambs selling at 140 per lb.

Veal calves sold at steady but very firm prices.

Nine hundred northwest hogs being on sale helped to steady the market for the 1500 porkers brought from Ontario.

Butchers' Cattle. Choice heavy steers, \$8.25 to \$8.40; choice butchers' steers and heifers, \$9.20 to \$9.35; good butchers, \$8 to \$8.25; common, \$7.50 to \$7.80; choice cows, \$7.25 to \$7.50; good cows, \$6.50 to \$7.15; medium cows, \$6.25 to \$6.50; canners, \$4.50 to \$5; good bulls, \$7.25 to \$7.50; medium bulls, \$6.50 to \$6.75.

Stockers and Feeders. Good choice, \$9 to \$9.25; medium, \$8.75 to \$9; lb. steers at \$6.75 to \$7.25; stockers, \$5.50 to \$6; lb. sold at \$5.85 to \$6.25.

Milkers and Springers. Choice milkers sold at from \$7.50 to \$9 each, \$7.75 to \$8.50; native, \$6 to \$7; common at \$4.50 to \$5 each, and slow sale, \$4.25 to \$4.50.

Choice calves, \$9 to \$10.50; good at \$7.75 to \$8.75; medium at \$7 to \$7.75; common calves at \$5 to \$5.75.

Hogs. Hogs, weighed off cars, sold at \$9.60. Representative Sales. Dunn and Leveck sold nine carsloads: Butchers, 1,150 lbs., at \$8.35; 7, 1100 lbs., at \$8; 5, 980 lbs., at \$7.90; stockers, 2, 700 lbs., at \$6; 7, 690 lbs., at \$6.25.
