Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE GRAND TRUNK RAILWAY.

It is worthy of note that some of the greatest monuments of engineering skill on the continent are to be found along the line of the GRAND TRUNK RAILWAY; for example—the Niagara Falls Suspension Bridge, the International Bridge at Buffalo, the Victoria Tubular Bridge at Montreal, and the St. Clair Tunnel, which, passing under the St. Clair River between Sarnia and Port Huron, furnishes unbroken rail communication between the Province of Ontario and the State of Michigan, and is the longest submarine tunnel in the world (length of tunnel 6,026 feet—length of tunnel and approaches 11,553 feet—cost, about \$2,700,000).

Its agencies in all the principal cities are supplied with a large variety of tourist tickets, and will furnish full information as to routes, fares, connections, time tables, &c.

Visitors to the World's Fair should bear the above in mind when purchasing their tickets, and see that they read over the GRAND TRUNK RAILWAY, via Detroit or the great St. Clair Tunnel.

• • MONTREAL • •

THE Commercial Capital of the Dominion, is situated on the south side of the Island of Montreal, on the River St. Lawrence. It was founded in 1642, and has now a population, exclusive of the suburbs, of 216,000. It is the head of the ocean navigation, although 720 miles from the Atlantic, and is the headquarters of the great Canadian Railways. It has factories and works of almost every kind, and three-quarters of the total imports of Canada come to Montreal.

It is called the "City of Churches" from the number of sacred buildings. Those most worthy of the notice of visitors are Notre Dame, on the Place d'Armes; the English Cathedral and St. James Methodist Church, on St. Catherine Street; the Jesuits' Church, on Bleury Street; and St. Peter's Cathedral, on Dominion Square.

Besides the numerous churches, there are many other fine public buildings, among which are the New Board of Trade Building, on St. Sacrament Street; the Y. M. C. A. Building, on Dominion Square; McGill College, with its fine buildings; the City Hall; the Art Gallery; the Depots of the Grand Trunk and Canadian Pacific Railways; the Bank of Montreal.

Although the population of Montreal is largely French, yet the Sons of England have a good hold; no less than nine lodges being in existence, lists of whose officers will be found on other pages of this little book.
