Religion the Foundation of Better Living Conditions

C. W. Fairbanks, Former Vice-President of the United States, in Powerful Address Before the Ecumenical Conference, Traces Close Connection Between the Church and Workshop.

C. W. FAIRBANKS, Former vice-president of the United States, whose address on the Relation of the Church to Commerce was the chief feature at the Methodist Ecumenical Conference yesterday.

PRACTICAL TOPICS UNDER DISCUSSION

Everybody in Canada knows that once upon a time not so very long ago, Theodore Roosevelt was president of the United States, but the circumstances that C. W. Fairbanks was vice-president during the strenuous regime at the White House is not so much a part of household knowledge. However, it is safe to say that Mr. Fairbanks, after his practical yet eloquent address before the Methodist Ecumenical Conference yesterday, proved that his former office of undersecretary to the man at the helm of the republic's affairs was not undeserved.

Wages, hours, housing accommodations and the increased cost of living were the principal topics under discussion at the session with the tentative rule characterizing former sessions not applying.

"Wage earners in the United States have not received adequate wages as compared with the increased cost of living," said Chairman, F. P. Ferriss, M.P. of England, "and I can not but sympathize with some of the underpaid classes."

"Many working at the docks and on the railroads do not receive sufficient wages to keep their wives and families decently. In this connection it is the duty of Christians to set about to improve these conditions, and the employer should be the first to take up the work, and that here in Toronto. Our lifted and ill-kept fellow creatures should receive our first consideration, not only to assist him, but to elevate his family."

He praised the Men's Christian Forward Movement in Toronto, and said England had a similar organization. Praise for Lloyd-George. "The matter of proper remuneration for employes is being worked out in England," said Rev. S. S. Henehew, "and Lloyd-George showed us the way. We got the famous budget and in my opinion, we will make old England a new land."

In the absence of Sir Arthur Henderson, who was prevented from attending the conference, Mr. Essex, M.P., spoke fervently on "The Brotherhood of Man" and explained the duty of all to each other. He said with the missionaries showing China the "light," the Anglo-Saxon race would have to face a new problem—that of dealing with the Chinese as merchantmen. "At this time," he said, "you only know him here as a handyman, but the time is not far distant when you will see him occupying every branch of modern business; and when that time comes you will have to meet it and the only way is thru love."

Revolution in Industry. In his address, Mr. Fairbanks said: "Industry and commerce have developed so rapidly in recent years that they have seemed almost to be revolutionary rather than evolutionary. The marvelous multiplication of inventions, the wonderful adaptation of the forces of nature to execute the will of man in such vast and varied fields of effort—mark our age as the real age of miracles. We are no longer surprised at the achievements of science, the most extraordinary development in the mechanic arts is accepted nowadays as a matter of course; we simply say, 'Very well; what next?' We no longer put any limitation upon genius or upon the possibilities of labor."

Revolution in Industry. "A transformation has been occurring in recent decades in the relation of the peoples of the earth. They do not dwell apart as in the elder days; thru the subtle and titanic power of steam and electricity the continents are brought close together; the ports of the world are in easy touch, and the nations of the earth are in quick communication with each other. "In the ways of industry and commerce there is too great a tendency to lean to the mere materialistic side and disregard the religious. There is no wholesome successful expansion of industry and commerce, except that religion go hand in hand with it. The church must interest itself and with a militant spirit in the great fields where industry is growing with such great rapidity, and where the ledger is more regarded than the Bible of our fathers."

Might of Labor. "The largest factor in industry and commerce is, of course, labor. We find its trophies everywhere thruout our vast and intricate development. Without labor the state and our social system were impossible. Even the church is the rich fruit of labor. The twentieth century's greatest monuments are labor's achievements. Behold our vast

MINISTRY YET UNCOMPLETED

Will Not Be Sworn in Till Tuesday Noon—Col. Sam Hughes Said To Be Slated for Portfolio of Militia.

OTTAWA, Oct. 5.—The Borden cabinet will not be sworn in till noon on Tuesday, Earl Grey afterwards leaving by special train for Montreal to catch his boat. The ministry is yet uncompleted, but while this is so, there are a number of men who are regarded as certain selections. These include: Nova Scotia: R. L. Borden. New Brunswick: Hon. J. D. Hazen. Quebec: Doherty, Perley, Pelletier, Monk. Ontario: Cochrane, Foster, White, Broder, Hughes. Manitoba: Rogers, Roche. British Columbia: Goodhue. Col. Sam Hughes will, it is expected, take the militia portfolio, and W. T. White of Toronto is a certainty as minister of finance. Mr. White is in Ottawa to-day.

There is still some doubt as to Quebec, when the delegation from that province left Ottawa Saturday. The World was informed that Rodolphe Forget would go in without portfolio, instead of Wilfrid Laurier. The portfolios have not been allotted.

HAZEN FOR RAILWAYS? ST. JOHN, N.B., Oct. 5.—J. D. Hazen, premier of New Brunswick, left for Ottawa to-night to accept a seat in the Borden cabinet. He said he was not sure what portfolio he would get. It is believed he will be the next minister of railways.

DEATH CAME SUDDENLY TO DR. CHARLES TROW

Was Found Dead in Bed Yesterday Morning—Played Golf on Saturday.

Death came suddenly yesterday morning to Dr. Charles Trow at 43 Wellesley-street, one of the best known physicians in Toronto. Dr. Trow was apparently in good health when he retired on Saturday night, but was found dead in bed in the morning, he having succumbed to an attack of angina pectoris.

An enthusiastic golfer, Dr. Trow, who was about 55 years of age, was on the Rosedale links on Saturday afternoon, playing a round with Thomas Bertram. He was a prominent member of the Rosedale Golf Club and also belonged to the Granite Curling Club. After graduating in medicine at Toronto University in 1885, he spent four years in post graduate work in Europe, specializing in eye, ear and nose affections. He bore a high reputation professionally, being a professor in his particular branch at Toronto University and also on the staff of the General Hospital, while he was chairman of a section of the Academy of Medicine.

Dr. Trow was married two years ago to Miss Helen Matthews, by whom he is survived. He had three brothers, Edward Trow of Toronto, and James and Thomas of Stratford, and a sister, Mrs. Dr. B. E. Hawke of Toronto. Edward Trow left on Saturday for Atlantic City, and has not been reached by telegraph.

Dr. Trow's father was the late James Trow, who represented South Perth in the Dominion house, who held for many years the office of Liberal whip, and who also died very suddenly some years ago. Dr. Trow's mother, Mrs. Mary Trow, passed away about a year ago.

CANADA'S GREAT FUTURE AS MR. FAIRBANKS SEES IT

Former Vice-President of the U. S. Uses Superlatives to Express His Admiration.

Canada has an unparalleled future, according to former vice-president of the United States, Chas. W. Fairbanks, who is in Toronto attending the Ecumenical Conference.

"Why you people have just commenced to build a nation, and judging the future by the past and taking into consideration your marvelous resources, the greatest on earth, I have in my mind's eye the position Canada will occupy among the earth's great nations," he said to a World man at the King Edward.

Mr. Fairbanks, like most other men in the public eye, has a "hobby," and it is Methodism. If one wishes to get the tall Indian going on a subject where he is at his best, just mention Methodism.

Mr. Fairbanks was elected to United States senate from Indiana in 1887, re-elected in 1903, from which he resigned in 1905. He represented the United States on the joint high commission, which met in Quebec in 1898, for the adjustment of Canadian questions, and was chairman of the United States joint high commissioners. He was also present, and was a representative of U.S.A. at the Tercentenary celebration at Quebec in 1908.

STUPIDITY OF DEPUTIES CUT BORDEN MAJORITY

Election Officers Put Counterfolios Into Box Along With Bal.ots.

HALIFAX, Oct. 7.—The result of the recount in Halifax, which ended today before Judge Wallace, is that R. L. Borden's majority in this riding is reduced from 190 to 100. Four deputy returning officers put the numbered counterfolios into the box with the ballots. Three of the rejected boxes gave Borden large majorities, and one was a Liberal majority. Herring Cove was the first box of this kind. It gave the Liberals about thirty majority. Then Sober Island East, Chezzetcook and Dover with Conservative majorities were rejected for a similar reason. The two last mentioned polls made a net loss to the Conservatives of 90. The result is that Mr. Borden's majority is reduced to 100 over Maclean and 136 over Blackadder, while Blackadder has 35 instead of the previous 23 over Crossby. The Conservatives gained twenty-five, exclusive of the polls thrown out. The stupidity and ignorance of the deputy presiding officers is the cause of the trouble. With the counterfolios in the box attached to the ballots it was possible to tell how each elector voted.

Complete Returns for Saskatoon, SASKATOON, Oct. 8.—Final and complete returns for 137 polling subdivisions give McCraney (Liberal), 3388; Maclean (Conservative), 3765; Baumunk (Independent), 674. McCraney led the poll in 12 of the 137 subdivisions. He had a plurality of 158; over Maclean, and a majority of 908 over both opponents. McCraney's majority in 1908 was 1477, two candidates only.

REPORTED ENGAGEMENT IN VICINITY OF OPORTO

Portuguese Royalists, Though Numerous, Are Said to Be Badly Armed.

VIGO, Spain, Oct. 8.—Train passengers from Portugal report an engagement between the Royalist and Republican troops near Suyo Suyo, not far from Oporto. The Royalists, while numerous, they say, are badly armed. All trains from Oporto this morning were crowded with troops on their way to fight the Monarchists. The Portuguese Government, however, is not sure of the loyalty of the regiment.

CHAVES, Portugal, Oct. 8.—Republican troops have left for Vinhas, 14 miles west of Braganza, to relieve other Republican troops, whose retreat is said to be cut off by the Monarchists. The roads to the frontier are now open and telegraphic communication has been restored.

The Pretender's Position. VIENNA, Oct. 7.—Dom Miguel Braganza, pretender to the Portuguese throne, announces that he has agreed to accept the program laid out by Capt. Couceiro, leader of the Royalists. Dom Miguel says that the cortes will decide to decide between him and Marshal. He will not proceed to the Portuguese frontier, but will remain neutral to the last moment, altho he has allowed sons to enter the Monarchist ranks under assumed names as volunteers.

"The Republic of Portugal," said Dom Miguel, "has, thru its disregard for all traditions and religious convictions, made itself so hated, especially among the country people, that the prospects for the restoration of the monarchy are not unfavorable."

MADRID, Oct. 8.—The Portuguese prime minister, Joao Chagas, has notified the Portuguese legation here that the government has taken all necessary steps to resist the royalist rising, and that "tranquillity returns thruout the country." The government has reinforced the Braganza karrison.

The premier says that he wishes the press to be informed that the Portuguese Government is not exercising any censorship over telegrams, and is permitting even the most mendacious reports to be transmitted.

Contradictory Reports. LISBON, Oct. 8.—The most contradictory reports are being received here regarding the situation in the north. The monarchists, however, do not appear to be making much headway against the republic. The people are not flocking to their side as they expected, and the republican troops so far have remained loyal. A semi-official note says that the monarchist band at Vinhas fled on the arrival of the republican troops, who pursued them to the frontier. In the engagement several monarchists were killed and two republicans wounded.

News from Galicia says that the monarchists there are in a state of demoralization. Their leaders are unable to persuade them to advance to Portugal.

Baptist Ministers Meet. For the purpose of electing officers for the ensuing year the Baptist Ministers' Association will meet this morning at 10.30 at the Jarvis-street Baptist Church. Mr. Cyril Hayes of Manchester, taking as his subject, "The Book of Job." Mr. S. S. Weston, the retiring president, will preside until his successor is elected.

MOSLEMS OF INDIA ASK BRITISH INTERVENTION

Destroyed Turkish Battery.

ROME, Oct. 7.—A despatch from Brindisi to The Messaggero says that the two Italian destroyers, Artigliere and Fucile, stopped an Austrian mail steamer near St. Jean de Meadeau. Commander Biskaretti went aboard the steamer, his boat carrying a white flag. On the return to the Artigliere the white flag was blown away and Turkish soldiers opened fire from the cliffs. The boat reached the Artigliere in safety, and the Italians returned the fire, not less than 200 shots being fired. The Turkish battery, two encampments and a barracks were destroyed, and a large number of Turks were killed or wounded. The engagement lasted more than half an hour.

CHILDREN WERE SAVED

Catholic Institution Was Burned to the Ground.

WHEELING, W. Va., Oct. 8.—The Catholic Home of the Good Shepherd, at Edgington, near this city, was entirely destroyed by fire that started at 3 o'clock this morning. Of the 250 girl inmates of the home, one awoke and detected the odor of smoke. She aroused one of the forty Sisters of the Good Shepherd in charge of the home, and with the greatest celerity the children were led from the burning building to a nearby hillside. None were injured, but many were in scanty attire. The fire originated in the chapel and spread with great rapidity. The loss will be between \$25,000 and \$30,000.

EARL GREY'S FAREWELL

Special Service Held at All Saints' Church, Ottawa.

OTTAWA, Oct. 8.—Earl Grey attended a farewell service at All Saints' Church to-day, at which the rector, Rural Dean A. W. McKay, officiated, and R. L. Borden and Mrs. Borden were also in attendance. The sermon was one of farewell to his excellency, and the service was unusual as a final send-off to His Majesty's representative. The governor-general chose the hymns, which were Old Hundred and Kipling's Recessional.

A prayer was said at the close and the whole congregation sang the national anthem, which had been ringing on the church bells as the vice-regal party first entered the church. Earl and Countess Grey afterwards drove to the residence of Sir Wilfrid Laurier on a farewell visit.

STRUCK BY UNKNOWN MAN J. WALTER DICK MAY DIE

Dispute Over Rugby Match Led to Serious Encounter on Saturday Night.

J. Walter Dick, 304 Huron-street, 45 in St. Michael's Hospital in a very serious condition and may die as the result of being struck by an unknown man at the corner of Toronto and King-streets Saturday evening at 9 o'clock.

Dick was standing close to the Quebec Bank talking with a man in a blue suit, short and well built, when he said to the man: "Don't go away like that."

"No, I am not going away; I'm right here," came the reply, and at the same moment the man struck Dick in the mouth, sending him to the pavement with great force, and then making his escape along King-street. Dick lost consciousness immediately, and was taken to the hospital, where Dr. Silverthorne performed an operation.

Dick had been one of the officials at the Hamilton-Argonaut game in Rosedale during the afternoon, and had been on the touch line. He left the grounds at 7 o'clock and telephoned to his residence saying he would not be home for dinner. Where he spent the intervening two hours is not yet known. At the time he was assaulted it is believed, he was talking about the game, and that the assailant quarreled with him.

The description of a third man was given to the police, but whether this man was in the party is not certain. He also is said to have left the spot immediately.

At an early hour this morning Mr. Dick had not regained consciousness, and was still in a most critical condition. He was connected with the inland revenue department.

Also Advise Boycott of Italian Goods—Leader of Italian Socialists Appeals for Conciliatory Attitude to Avoid Intervention of the Powers.

LUCKNOW, British India, Oct. 7.—The council of Moslems of all India has appealed for the intervention of the British Government in behalf of Turkey. It has advised also a boycott of Italian goods.

Outlined Italian Policy. ROME, Oct. 8.—Premier Giolitti, in a speech at Turin to-day, outlined the policy of the government with reference to Tripoli, which seems to have the support of most of the members of the chamber of deputies and a great majority of the people. Signor Giolitti, leader of the socialists in the chamber, however, writes to The Secolo, giving the view of a section of the Democrats and Socialists, differing from that of the nation at large. Signor Biolatti was the first of his party to be received by the king, when, during the last ministerial crisis, the premier offered him a portfolio.

In his letter to The Secolo he says: "Now that the occupation is accomplished, it must be decided whether Tripoli will be considered conquered territory unconditionally, or whether Italy is ready to compromise—stopping the war, sparing Turkish excessive humiliations and offering her political and material satisfaction, and thus rendering the resumption of good relations between the two nations possible." Signor Giolitti expresses the opinion that it will be necessary for Italy to adopt a "less brutal attitude," so as to remove the impression that violence has been used against Turkey, and that Italy should show a spontaneous conciliatory disposition, thus averting any measure that may be proposed, if not imposed by the powers.

Despatches reaching here from Tripoli indicate great activity among the Italian forces at various points along the coast, in preparation for the landing of troops. It is even reported that the natives are sympathetic in their attitude. The Turkish soldiers in Tripoli are said to be in a demoralized state, and altho some of them are camped in miles from the city and are protected by small forts on the hills, they have not even attempted to molest the invaders.

Turkish Censorship. CONSTANTINOPLE, Oct. 8.—The government has decided to establish a censorship on all press telegrams, particularly dealing with military matters. Coe messages will be prohibited. The Turkish commander at Tripoli reports that the Italian bombardment destroyed numerous houses and killed many inhabitants, including several women and children.

Italians Occupy Tobruk. ROME, Oct. 8.—Official despatches received here to-day announce that "Early this morning the ships of the first Italian squadron entered the roadstead at Tobruk, in Bomba Bay, where they found no Turkish warships. They summoned the garrison to surrender."

FIGHTING IN MOROCCO

Spanish Columns Drive Tribesmen From Their Positions.

MADRID, Oct. 8.—Operations by the Spanish forces against hostile tribes in Morocco have been resumed, according to official despatches from Mallina. Caused by the fire of warships, two columns yesterday advanced ten miles inland in the Kert River region, burning many houses and driving the tribesmen from their positions in spite of determined resistance.

The engagement lasted ten hours and was directed by the Spanish general, General de Luque, in person. Details of the Spanish losses have not yet been received, but they are believed to have been heavy. Colonel Primo de Rivera is among the wounded. The operations continue to-day.

HARBOR'S BIG SCORE

Humboldt Defeated by 37 to 0 on Trinity College Campus.

Harbord walked away from Humboldt at Trinity College grounds Saturday morning by a score of 37 to 0. Harbord was very much faster and heavier. Henry ran and kicked well for Humboldt and Red Cross tackled well. Rankin made big gains for Harbord and the whole half the played extremely well.

Parkdale Practices. Parkdale Canoe Club Junior O.R.F.T. team will practice Monday, Tuesday and Thursday evenings at Exhibition Park in preparation for their opening game with the Alerts in Hamilton.

Ottawa College Were No Match for the Montreal University.

MONTREAL, Oct. 7.—McGill outplayed Ottawa College in their opening game of the Intercollegiate season here this afternoon and won by a score of 2 to 0. The Ottawa back division outplayed and outran Father Staunton's defence, while the red and white forward line was equally victorious in the tackling. The Ottawa team worked together better than the McGill squad and pulled off a couple of trick plays which were not as good as material to work with as have the McGill coaches.

The game was not apparently a rough one, but there was a number of casualties. Allan Johnston, the McGill captain, got kicked on the head in breaking up a scrum and was carried off. His injury is not dangerous, but the blow was a nasty one and will take some time to heal. Ross, a new recruit, who was playing inside wing for McGill, twisted his knee in a scrum and was carried off. He is expected to be out for some time.

McGill Murray, Billington, Ross, Lee, Paske, Oliver, Rogers, Brice, Riesen, Johnson, Watson, Bignall, Lewis, Lawry.

WORKWORTH, Oct. 7.—(Special.)—An Italian, who was working in a sewer along the line of the Trent Canal near Campbellford, was buried by the sides of the sewer, which was ten feet deep, camping in. Help was at hand and he was taken out in a few minutes, but sand and dirt had entered his lungs and he died shortly after being liberated.

GALT, Oct. 7.—In a hot match this afternoon Galt defeated Guelph Junior Rugby, 12 to 6.

Toronto Hunt Loses To Buffalo Poloists

Visitors Spring Surprise and Win Third Match for the Averill Cup.

In the international polo match at the Woodbine Saturday afternoon for the Averill Cup, Buffalo sprung a surprise on Toronto and took the trophy home with them. Toronto had won the cup twice before and another win would have made the cup theirs for keeps, but Buffalo was too fast for them.

The teams: Toronto (3): D. L. McCarthy, No. 1; Major Straubenzie, No. 2; Major Bickford, Toronto, 3rd min. Buffalo (4): Coleman Curtis, No. 1; Dr. Goodyear, No. 2; E. P. Patterson, No. 3; C. Goodyear, No. 4.

First period—1, Major Straubenzie, Toronto, 14 minutes; 2, Major Bickford, Toronto, 3rd min. Second period—3, E. P. Patterson, Buffalo, 1/2 min.; 4, C. Goodyear, Buffalo, 2nd min. Third period—5, E. P. Patterson, Buffalo, 1 min.; 6, Major Straubenzie, Toronto, 3rd min. Fourth period—7, C. Goodyear, Buffalo, 2nd min.; 8, C. Goodyear, Buffalo, 3rd min. Fifth period—9, C. Curtis, Buffalo, 2nd min. Sixth period—10, Major Bickford, Toronto, 3rd min. Seventh period—11, McCarthy, Toronto, 3rd min. Eighth period—12, C. Curtis, Buffalo, 1 min. Ninth period—13, C. Curtis, Buffalo, 1/2 min.; 14, Glenn, Buffalo, 3rd min. Final score: Buffalo 9, Toronto 5.

TO REORGANIZE CHURCH

ROME, Oct. 8.—An important reorganization of the Catholic Church in England has been decided on and a papal bull will shortly be issued dividing England into three ecclesiastical provinces, with arch-dioceses seen at Liverpool, Birmingham and Westminster. Two new dioceses will also be formed, one out of a portion of Liverpool and the other out of the actual diocese of Northampton, with its see in Cambridge. Thus the great See of Westminster will be considerably reduced in dignity, as, instead of having fourteen suffragan sees, as now, it will have only four.

KNOCKED DOWN CYCLIST MOTORIST IS ARRESTED

Arthur McBride Accused of Negligence—Trolley Car Wrecks Another Machine

While riding his bicycle along Bloor-street, near Clifton-street, on Saturday evening, William Dunford, 25 years of age, was struck by Arthur McBride's motor car and while no bones were broken, he was badly shaken

The car was driven by the owner, who was later arrested on a charge of drunkenness

McBride said that Dunford turned to the car tracks to pass a wagon and that he had turned his motor towards the middle of the road just a second before and that Dunford had not noticed his action

Four men were riding on the motor car when it was struck by the trolley car at 6:15, when they attempted to cross Bloor-street at the corner of Lippincott-street in front of an eastbound trolley

The trolley car was travelling north and was stopped at the intersection of Bloor-street and Lippincott-street

The street car was in charge of Conductor H. Peers and Conductor George Hood, had its fender broken and was slightly damaged in the front

Dominion Wide Campaign For Establishment of Civil Marriage Rights Begins in Toronto

A vigorous campaign to overthrow the N. Temere decree and to make the marriage the civil action has been started. Mass meetings are being planned for literature setting forth the situation in plain unimpeachable language, is to be distributed amongst all ministers in the Dominion and to the newspaper editors

This was the unanimous action of the Evangelical Alliance, which had a special meeting to consider the matter from an unbiased standpoint

It is expected that a petition consisting of millions of names will shortly be forwarded to Premier Borden at Ottawa requesting him to bring the matter before the house of commons and use his influence there and side the N. Temere decree for all time

The petition will also be sent to the premiers of each province with a request that the matter be laid out in the provincial legislatures. As Prince Edward Island and British Columbia control their own marriage laws, a petition will be sent to them as well as to the other provinces

The petition will also be sent to the premiers of each province with a request that the matter be laid out in the provincial legislatures

RAILWAY SUPERINTENDENT CURED OF CATARRH

Morrisky's "No. 28" Prescription Cured Obstinate Case

PETITOGODIAI, N.B., May 10, 1911.—"I had been troubled for quite a number of years with a very annoying case of Catarrh of the head. It kept me sneezing, coughing and spitting nearly all the time, and my work—running to and fro in the trains—aggravated the trouble more or less according to exposure to all kinds of weather

The car dust also added to the irritation. Your No. 28 Catarrh Cure for Intestine and External Use was recommended to me, and I decided to give it a trial. I used three boxes and am entirely relieved, and I feel so much better that I wanted you to know it was your medicine that fixed me up

You have a fine remedy indeed in your No. 28 Catarrh Cure. Everyone who has Catarrh ought to know about it and should use it"

A. H. Robinson, Superintendent of the G. N. Railway, Petitiongodi, N.B.

The above prescription is known as the "No. 28" Catarrh Cure, and is sold by all drug stores

W. TORONTO MEN HAD INTERESTING MEETING

Discussed Many Questions of Outstanding Interest—County Happenings.

NORTH TORONTO, Oct. 8.—(Special.)—One of the best attended meetings in the history of the North Toronto Educational Association was held on Saturday night, the annual election of officers and the presence of some of the most distinguished men serving to arouse a good deal of interest.

T. W. Banton, the president, was unanimously re-elected to that position. Mr. Adamson succeeds Mr. Brockway as vice-president, and John Sims as secretary.

In accepting re-election he referred in a few well-chosen words to the purpose and aims of the association. He maintained that a great deal of good had been done during the past year, and on behalf of the association and citizens, commended the safeguarding of the interests of the municipality in every question up for discussion.

Dealing with the report about to be presented to council by Engineer James the feasibility of a local electric railway line and the advisability of while they were in a way familiar with the gist of it, nothing much was said about it as later after council have taken it up, the whole question will become public property and amenable to discussion.

With relation to the Eglinton power line and their suggested appeal, they argued upon council the advisability of interesting other municipalities in the matter.

The Davison plan for the construction of public schools are said to be greatly overcrowded, and difficulty is experienced in keeping all the classes up to a high standard.

The heavy rains of the last two or three days have greatly impeded the work of excavating in the sewers, and it is now a moral certainty that the work will not be completed in anything like the time at first suggested.

WEST TORONTO, Oct. 8.—(Special.)—The third annual athletic meet of the West Toronto Athletic Association was held yesterday afternoon at the Lambton grounds, with a large crowd of spectators and supporters present to witness the event.

The following churches were represented: St. John's Anglican, Victoria Park Baptist, Davenport Methodist, and the High Park Methodist church.

Running hop, step and jump—1, Lynde, Victoria; 2, McCullough, Highland; 3, Crang, Davenport. 200 yards dash—1, McCullough, Victoria; 2, McCullough, Highland; 3, Crang, Davenport.

Shot put (16 lbs.)—1, McLennan, St. John's; 2, Patrick, Indian-road; 3, Sheppard, Victoria. One-mile race—1, McCullough, Victoria; 2, Dillstone, St. John's; 3, Miles, Davenport.

The pre-convention service, which was held recently in connection with the Presbyterian Church in Fairbank, was conducted by the Rev. F. S. Sinclair of North Broadview Church, assisted by Rev. D. Strachan of Rosedale,

WEXFORD. Anniversary Services Were Fine—Social Tea to-night.

WEXFORD, Oct. 8.—(Special.)—In Zion Presbyterian Church here to-day Rev. Mr. Andrews of East Queen-street Church preached the anniversary sermon before a large audience that taxed the capacity of the sacred edifice.

The choir of the church, headed by Miss G. Watson of East Toronto, gave a delightful program of songs.

WOODBRIDGE. The regular meeting of N. Clarke was held at the Orange Hall on Tuesday night, Oct. 10.

WOODBRIDGE. The first day of Woodbridge Fair will, as usual, be school children's day, when a program of sports will be carried out.

Hollinger Makes a Sharp Spurt—Market Strong at Week-end Des

Hollinger Moves Up 75 Points And Whole Mining List Responds

Porcupines Show Buoyant Undertone Under Leadership of Big Issues—Sentiment Favorable to Market

World Office, Saturday Evening, Oct. 7. Interest in the mining exchanges today shifted largely from the cheaper Porcupines into the big issues, with Hollinger the feature in this respect. Hollinger opened up 25 points above the previous close and the opening quotation was also the low price for the day. The advance was carried on with no resistance on any account, but profit-taking on any weight being encountered. The top figure reached was \$12.50, an advance of 75 points for the day.

The movement in Hollinger was reflected throughout the list, which displayed marked buoyancy in some instances. Some Extension sold again at 75, the record for this movement, and only lost half a point when profit-taking came into play. The shares were firm on the whole. The market was strong at the close and the prevailing sentiment among traders was that the list was in prime shape for a continuation of the upward movement.

Firmness was shown by some of the other Porcupines, but price changes elsewhere in the list were small. The market was strong at the close and the prevailing sentiment among traders was that the list was in prime shape for a continuation of the upward movement.

Crown Charter was a strong spot, the stock moving up another point to 1-2 under buying of the most responsible nature. This issue has run into an excellent demand of late founded, doubtless, on the recent taking over of conditional holdings in Porcupine and the favorable developments in the camp.

Firmness was shown by some of the other Porcupines, but price changes elsewhere in the list were small. The market was strong at the close and the prevailing sentiment among traders was that the list was in prime shape for a continuation of the upward movement.

REAL ESTATE BOOMS IN PORCUPINE CAMP

Mining and Town Lots Command Ready Sale at Substantial Prices.

Porcupine, Oct. 8.—(From Our Man Up North)—Business picks up rapidly in Porcupine.

In the different townsite building continues at a strong pace, lots are held at good figures. Several sales were made this week in the McGregor Townsite to the west of Porterville, and plans for putting up buildings, are already under way.

In the sections where big building is on now lots sell for sums up in four figures. This confidence of high order is shown, since men pay several thousands dollars for lots with the improvements yet to be made.

Mining lots are also being snapped up after and brokers have had many enquiries this week for the lower priced claims. The movement appears to be in a slow but sure manner. If claims have showings the prices offered are of a substantial character.

It looks like another buying race for Porcupine in both mining and town site, and the character of the buyer business movement on a high standard. Mr. in the camp see the tendency towards higher prices and are warning their friends to get in before the snow flies.

Chas. Fox.

THE SLUMP IN REAL ESTATE

In a summary of the new developments for the week in this Porcupine Bulletin, Messrs. Warren, Gzowski & Co. say concerning the Real Estate:

There have been many enquiries for shares having been made. Every effort has been made to arrive at the reason for this slump without some definite answer, but in view of the property, but nothing definite is known about it. A large amount of stock was sent to the market, but the market had no support given the shares. It looked like a downward effort to force it as low as possible.

There is no news at present justifying recovery, and considering there are only 300 shares issued, the whole property is selling on this basis for \$45,000. This would be a low price for the claims alone, had no development been done upon them. It is not likely that barren claims in the immediate vicinity with the same acreage could be bought for this amount in cash.

HIVE OF INDUSTRY IS THE BIG DOME MINE

New Mill to Be Gradually Increased in Capacity—Phenomenally Rich Ore.

W. S. Tarbell, editor of The Denver Mining Investor, whose description of the Dome Mine at Porcupine early in the year attracted much attention, has recently visited that property again.

"There is no question of the confidence of important capitalists who are identified with the Dome Mines Co. in the great value of their property," says Mr. Tarbell. "It is plainly to be seen on every hand—in the hundreds of men busy at work, both in putting up permanent buildings, and in the expenditure of hundreds of thousands of dollars in milling equipment.

"I was on the Dome just a week ago, and saw there a veritable hive of industry. The new buildings are fire-proof. The solidity of these buildings and the expense that has been incurred in constructing them indicate that the mine management expect to carry on business for several decades.

"Concrete foundations have been laid for a building for 100,000 tons per day, the first unit of which will have a capacity of 200 tons per day. It is expected that after milling operations are well under way, the mill will be increased gradually to a capacity of 1,000 tons per day."

"Mining men have only one goal to the Dome and see it to be satisfied that there is ore enough in the 'big dome' lead alone to keep such a mill working night and day for a quarter of a century."

"The Dome has one vein 700 ft. wide, and the ore there has been sampled, showing an average of \$10 to \$12 per ton. When the mill is brought up to a capacity of 1,000 tons per day, it will mean that the Dome will have a big dividend paying power, and this will undoubtedly be largely increased by the ore from the golden sidewalk vein, which is seven feet wide, and phenomenally rich."

"I have spent much time on the Dome and Extension. In fact, it is hard to get away from these properties, as they are of such absorbing interest to a mining man, and the possibilities are almost unlimited. I have no doubt that from the Little Dome, which is about 1,500 feet in on the Dome Extension from the Dome line, right along west to where the main shaft of the Dome Extension is being sunk by the side of a 22 feet lead, and thence further west across the Dome line to a point where the section was first uncovered, is one and the same great body of ore."

"On the Little Dome, which is at the farthest eastern extremity, I have seen such ore as rich as that appearing in the golden sidewalk."

Wheat Veers Sharply Down Again On General Bearish Statistics

News Against Holders and Market Proves Vulnerable to Liquidation—Corn and Oats Also Lower.

CHICAGO, Oct. 7.—Prospects of brighter weather caused the entire grain list to veer in a downward direction. At the close wheat was 4 to 10c under last night, corn 4 to 5c, and oats 4 to 5c. Hog products showed a net advance of 2 1/2 to 3c.

Wheat traders in particular gave attention to the official forecast indicating a period of more settled atmospheric conditions ahead. It was therefore felt that relief was at hand to avert the unsettled weather being so anxiously watched. Reports, however, were larger than a year ago, and there were arrivals here which for the week exceeded shipments by nearly 200,000 bushels. Altogether the market had an easy tone and finished within 4c of the lowest point of the day.

Between the opening and the close, December ranged from 87 1/2 to 89 1/2, and in the end was 8 1/2 to 1/4 down at 97 1/2.

Some important commission houses selling at a depressing effect on corn. Part of the unloading was thought to be for eastern account. Sounds of price of provisions. When the long struck, pork had been lifted 1 1/2 to 2c, lard 5 to 7 1/2c and ribs 2 1/2 to 3c.

A RECORD YEAR.
Steel Trust Surpasses Previous Top Figures for Production.
Because the U. S. Steel Corporation has only been operating for 85 per cent. to 75 per cent. capacity, the fact has been lost sight of that its output of finished steel this year gives promise of breaking all previous records.

ON WALL STREET.
Epkeston Perkins & Co. (J. G. Bealy) writes: Stocks were very irregular, showing weakness at the opening, with U. S. Steel under pressure. Some 50,000 shares Steel were taken around 10 and 11-14, and this was followed by a slow recovery, with final quotations not far from yesterday. It was apparent that an effort was made to break Steel, but support was forthcoming and the market showed a better tone after this.

NEW YORK BANK STATEMENT.
NEW YORK, Oct. 7.—The statement of clearing house banks for the week shows that the banks hold \$15,242,550 reserve in excess of legal requirements.

LONDON MARKET NARROW.
LONDON, Oct. 7.—Money was easy and discount rates very steady to-day. The stock market was dull and narrow, the approach of the settlement and the continental political situation causing hesitation and a slightly easier tendency in most departments.

Concerning One of the Best Stocks of Men's Overcoats in America

An overcoat, especially a winter overcoat, is perhaps the most important item of a man's dress, and costs most money, too, hence your careful buying and our careful buying.

Men's clothes for 1911 and 1912 have been a much more difficult proposition to the store buyer than heretofore, because the well-dressed American man, after scoffing at the Englishman's clothes for ten years, has taken to wearing them. The American manufacturer has also taken to making them on English lines, with a few added originalities of his own. Then the English manufacturers do funny stunts of their own and send them out here in an endeavor to please the Canadian market. So the question is, what kind of a winter overcoat are you going to buy? Our stock includes the following:—

- 1—English Overcoats.
- 2—American Overcoats.
- 3—Anglicized American Overcoats.
- 4—Americanized English Overcoats.
- 5—Overcoats made especially for our climate in England or America—or

We will make an overcoat to your measurement from Canadian, English, Scotch, Irish or American cloth in any style you like.

All these coats are alike in one respect—they are the best of their kind, and the return for your money will be satisfactory to you. Is that the kind of coat you want? If so, here are five examples:—

- No. 1**—Black English Melton, black velvet collar, single-breasted and of average length; sizes 36 to 44. **10.00**
- No. 2**—A Young Man's Coat, grey and black, diagonal woven ulstering, velvet collar, long lapels, single-breasted; sizes 34 to 44 **16.00**
- No. 3**—A Motoring Coat, heavy Irish ulstering in a green and brown mixture, double-breasted, box pleated, stitched seams, strap sleeves **19.50**
- No. 4**—Warm English Ulster, double-breasted, box pleated back, drawn at waist, with belt; heavy brown ulstering, but not very heavy **28.00**
- No. 5**—A Perfect English Ulster, a pattern of tailoring, fine English fawn nap ulstering; lined with warm tweed of fine quality; a coat worth seeing **38.00**

As much attention has been paid to the selection of our Boys' Overcoats as to the Men's. Here are three:

- No. 1**—A Chesterfield, grey serge, with black stripe, raised seams, velvet collar; sizes 28 to 33 **9.00**
- No. 2**—A Winter Ulster, of English tan colored tweed; a beautifully tailored coat; sizes 29 to 35. Prices **7.25 to 8.75**
- No. 3**—A Double-breasted Reefer, Scotch tweed, will stand rough wear; sizes 26 to 32. Tuesday **5.50**

The Hats That Go With the Coats

It would certainly cause quite a flutter on Yonge Street to appear in one of those heavy English Ulsters we have been talking about, and a straw hat.

What we want to impress upon you is the fact that in our Hat Department are to be found suitable hats. By suitable we mean headgear that looks in place, not out of place.

Some of the Rough-Finished Soft Hats at \$1.00 are models of style and cheapness, the "Christy" and the "King," with the hall marks of the genuine, are priced on Tuesday at **2.00**
