## Government Offers \$20,000,000 for Provincial Roads

### RESOLUTION BEFORE HOUSE OF COMMONS TO AID GOOD ROADS

Government Proposes Paying Twenty Million Dollars to Provinces of Canada.  
**NOT A HIGHWAY**  
Grant Will Be Solely for Improvement of Roads Already in Existence.

Ottawa, March 21.—Towards the close of a somewhat dull day in the house Hon. J. D. Reid moved the resolution for the payment within the next five years of twenty million dollars to the various provinces for the encouragement of the construction of good roads. According to the terms of the resolution each province will receive eighty thousand dollars every year, plus a further payment based upon populations as determined by the latest federal census of each province. The payments shall be subject to the following conditions:

(A) Any highway for which aid is granted shall be constructed or improved, as the case may be, in accordance with the terms of an agreement to be made by the minister with the government of the province, which agreement shall contain such provisions as to cost, description, specifications or otherwise as the governor-in-council may approve; (B) The aid to be given in any case shall be 40 per cent of the amount which, in the opinion of the minister, is the actual, necessary and reasonable cost of the construction or improvement of such highway, as the case may be.

**Various Benefits.**  
Dr. Reid in continuing the resolution entered into a detailed explanation of the various benefits which would result from the construction of good highways throughout the Dominion. The resolution was still in committee when the house rose. Previous to consideration of the highway bill a number of resolutions and bills of minor importance were dealt with. A bill based upon a resolution extending for a period of ten years, the provision of the railway act providing federal assistance in connection with level crossings, was introduced.

**Removing Level Crossings.**  
A desultory discussion followed on the resolution moved by Hon. Dr. Reid to extend for a period of ten years the provision in the railway act which empowers government assistance with regard to railway level crossings. Dr. Reid explained that the provision in the act expires in April, and requires extension. Mr. Cockburn remarked that the amount was not very large. He asked how the money was expended, and whether the vote would apply to rail as well as to steel lines.

Dr. Reid replied that the vote was applicable to such lines as came under the jurisdiction of the railway commission. The procedure was as follows: Complaint was made to the railway commission that a certain level crossing should be removed. If the railway commission found the complaint justified, an order for removal was made and the cost assessed to the railway company, the municipal body and the Dominion government, in such proportions as the railway commission thought fit.

Dr. Reid held that there was no doubt that, by assisting in the removal of level crossings, the vote had in the past saved many lives.

**Resolution Carries.**  
Mr. Vien protested against the annual payment of \$20,000 for protection of railway crossings. He believed that if the government would pursue a policy of thrift in this regard the amount could be carried by the municipalities. In so far as the municipalities were concerned, he thought it

### TRIPLE ALLIANCE TO DEFER STRIKE

#### British Railwaymen, Miners and Transport Workers Decide to Continue Status Quo Pending Further Negotiations With Government.

London, March 21.—The triple alliance—the railway men, miners and transport workers—met at a conference tonight, reviewed the whole position of the mine, railway and transport workers, and passed a resolution recommending that the railwaymen continue at war pending further negotiations with the government, with a view to removing the deadlock. This action is interpreted to mean that there will be no strike before next Wednesday.

One hundred and fifty delegates, representing the miners of the United Kingdom, met this morning to discuss the interim report of the coal commission of which Justice Sir John Sankey is chairman, issued last night, and decide as to whether there would be a strike or peace in the mining industry. The conference met without any recommendation from the executive officers of the unions before them.

**Will Devote Itself to Making Canada More Widely Known in France.**  
Cable by Leon Trepanier.  
Paris, March 21.—The Comité France-Amérique, an institution engaged in promoting good relations between France and the North American continent, announces the formation of a Canadian section which will devote itself to making Canada more widely known in France. A Canadian commission has already been formed. This commission includes some of the best names of industrial, intellectual and social France.

Dr. Robertson, who has been in England and Scotland during the past fortnight, has had very encouraging conferences with authorities of the United Kingdom with respect to several matters which he has taken up on behalf of the department of agriculture. It is anticipated that he will shortly return to Paris for the purpose of attending the meetings of the British Empire Economic Commission of which he is a member.

**THE POLITICAL WINDS ARE BLOWING.**  
The political breezes are blowing, oh, so softly, but very significantly, at Ottawa; and anything in the way of a new premier might happen between sunset and sunrise. Even more significant: the rough winds that prevail in Queen's Park may force things at Ottawa. There's a sound of a going in the Sudbury trees.

### SOLDIER FARMERS BECOME DISGUSTED WITH LOAN SCHEME

#### Government Sell Veteran Abilities Below Par, Says Secretary Jarvis.

Comrades Mullen, well known rancher of Manitoba, and Jacobs, founder of Matheson, Ont. branch, were the sponsors last night at the regular meeting of the West Toronto G. W. V. A. of a resolution protesting against the changes in the returned soldiers' land settlement scheme calling upon the returned man to pay down one-tenth on any loan advanced by the government in this connection. The resolution also urged the need of practical farming demonstrations for would-be returned soldier farmers.

The resolution was occasioned through an address delivered by W. Jarvis, field secretary of the G.W.V.A. advisory committee of the reparation committee. In the course of which he had pointed to the many things accomplished by the committee and to the great work the government was doing for the returned soldier.

The order of the parade will be as follows: Mounted Police, detachment of R. C. D. band, veterans of the 58th battalion, veterans of the 2nd C. M. R. band, veterans with disabled veterans, band of 58th battalion, 58th battalion, 6th Mississauga Horse Mounted Detachment R. C. D.

**BRITISH STEAMER ABANDONED ON FIRE**  
London, March 21.—The British steamer Penn Lee, which sailed from Charleston, S.C., Feb. 5, crept into Abaco, Bahamas, Feb. 21 with a cracked and later at Fayal with steering gear disabled, is reported to have been abandoned at sea on fire. After having left Fayal to complete her voyage, the Penn Lee caught fire and was taken in tow by the American steamer Julia Luckenbach. Except for the fact that the crew of the Penn Lee was saved and that the Penn Lee was abandoned no details have been received.

Special Cable to Toronto World and N. Y. Tribune. (Copyright).  
London, March 21.—The transatlantic flight cables from New York for the past two days have quickly revealed here. Even officials of the air department were surprised to learn this morning that the "Zorze" flying boat had left Newfoundland yesterday. In addition to this, the steamer Montcalm left the Thames today carrying equipment and air kites for the purpose of recording the air movement, temperature and humidity at the Atlantic, for the sake of acquiring invaluable information which will be placed freely at the disposal of all competing aviators.

**DEWART STATEMENT**  
Colonel Mullen, one of the best known cattle ranchers in the Northwest, last night refuted the alleged statement of Hartley Dewart, M.L.A., Southwest Toronto, that the cattlemen at the various yards in the city were acting in combine. "I characterize that statement as absolutely misleading," said the colonel in the course of an address delivered before West Toronto G. W. V. A., at St. Julien Hall.

### TELL THE STORY OF CAMP RIOTS AT KIMMEL PARK

Defending Soldiers Used Ammunition Brought From Front as Souvenirs.  
**TOLD NOT TO FIRE**  
Officer Was Being Fired at by Rioters When His Men Got Out of Control.

Liverpool, March 21.—The high lights brought out today in the enquiry into the Kimmel Park camp riots on March 5, at the coroner's inquest held at Rhyd, were that the defending soldiers had used ammunition brought over with them as souvenirs from France, and that one body of men while attacking the rioters had got momentarily out of control. Rifles had been issued to those loyal soldiers, but no ammunition, and they were expressly told not to use any. Their officer, Lieut. A. Gauthier, a French-Canadian, was, however, for the time, separated from them, and was being fired at from 20 yards by a rascal by a name known to his evidence, he had taken refuge behind a tree, and during this time his men fired at the rioters. This accounted for two of the deaths, those of Young and Taranko, both rioters.

**FIFTY-EIGHTH WILL MARCH DOWN YONGE**  
Daylight Parade From North Toronto at Nine Tomorrow Morning.

Lieut.-Col. Goodwin Gibson announced shortly after noon yesterday that the 58th Battalion and the C.M.R., 718 men with the 40mer, and 275 with the latter, would arrive on two trains at 8:45 and 9 o'clock Sunday morning. The intention was that these two units should be brought in this evening, but because the hour would be a late one, and with deference to the demand of the public for a daylight parade, the civic and military authorities asked Lieut. G. P. R. to hold the trains until Sunday morning.

**BEDOUINS ROBBING IN LOWER EGYPT**

The inquiry was adjourned until next Thursday for a second day, saying that he had fixed on a date this far ahead, because of certain communications now passing between the Canadian government and the British home office.

### RUSHING TO CHECK BOLSHEVIK GUNBOATS

Unless This is Done They Will Have Big Advantage on the Dvina and Vaga.

Archangel March 21.—A small Bolshevik raiding party, making its way over the snow, surprised an allied artillery position in the forests near Vologda.

Following up last Friday's success on the Dvina, when the Americans and Russians repulsed a raid against the allied lines of communication, an American patrol today encountered a Bolshevik patrol in a wood. A number of the Bolsheviks were killed, and the others in the party were made prisoner.

The Bolsheviks have begun a new offensive in the territory between the Vologda Railway and the Onega River. A column of approximately 600 to 800 Bolsheviks on March 18 advanced up the road from the vicinity of Plesetsk and attacked a small French and Russian garrison at the village of Bolshoiya Ozerka on the line of communications between the allied Vologda Railway and Onega sectors and about 15 miles west of Odzorskaya.

From accounts reaching allied headquarters the Russian garrison fought bravely. At last reports the enemy held Bolshoiya Ozerka.

To Check Gunboats. As the winter has been unusually mild in north Russia, it is expected that within a month the thaws will come to make extensive land fighting impracticable. The Bolsheviks have a big advantage when the rivers open. The Dvina and Vaga rivers will be navigable near the fighting front before the Dvina is opened in the north around Archangel. This condition would permit the Bolshevik gunboats, which have spent the winter at Krasnoborsk and other points in the vicinity of Berezniki, before the allied river flotilla can steam southward to meet them.

Efforts are being made, however, to speed up the arrival of the allied fleet in the fighting zone, in order to confine the Bolshevik advantage to the shortest time possible. In the meantime, as long as the present cold weather continues, it is a race against time to move over the snow, before the thaws come, sufficient big guns and ammunition to hold the enemy boats in check until the allied vessels can move southward. In this work the allied transport service is performing a stupendous task in spite of the shortage of hay and oats, which has weakened the horses for the long hauls over the snow and added greatly to the difficulties of the situation.

HAMILTON NEWS.

Hamilton, March 21.—Salvage circulars in the city have been distributed to the homes of the city, has made its appearance. It comes into being as a publicity move to help circulate news of papers, rags, rubbers, etc., the revenue from this source to be diverted to charitable institutions in the city.

Ward clerk raters have formed an association with the object of securing many needed reforms in that section of the city, and also protecting the interests of the city.

Following a brief illness from influenza, Chas. Arthur Monteth, joint proprietor of Monteth's Home, Muskoka, and one of the most widely known hotel men on the continent, died here tonight.

A clerical error resulted in the increases to members of the works department starting ahead of schedule. A solution was advanced this afternoon and will be put into effect by the board of control on Tuesday.

## DRRESS WARM AND KEEP FEET DRY

### Tells Rheumatism Sufferers to Take Salts and Get Rid of Uric Acid.

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions, it is one of the most painful. Those subjected to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure and above all, drink lots of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal activity, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism. Have you a glass of effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

## Absorption Process Makes Faces Young

Success at last has come to scientists who for years have sought some method of removing the outer veil of factitiousness in cases of unsightly complexion, which would be both painless and harmless. The new process is so simple, so inexpensive, the wonder no one has discovered it long ago. It has been applied to the face of a woman who had been so afflicted with the unsightly complexion, showing the youthful, rosy skin beneath. The wax is applied at night, like cold cream, and washed off in the morning. The absorption also cleanses clogged pores, increasing the skin's breathing capacity and preserving tone, color and natural beauty of the new skin.

### VOKES ON CARPET AT SCHOOL INQUIRY

#### Father and Son Hold Spotlight at Board of Education Inquiry.

### CONFLICTING EVIDENCE

#### Sanderson and Cooke Disagree as to Previous Acquaintanceship.

Messrs. Vokes, senior and junior, held the spotlight at the board of education inquiry again yesterday before Mr. Justice Lennox. Thirty-two thousand dollars was the agreement of amount of school board money paid to the Vokes family firms for hardware, according to Shirley Denison, K. C., examining counsel. This was while Miles Vokes was a member of the board of education.

Oliver W. Vokes, manager of the Vokes Hardware Company, testified that there were no wholesale prices in builders' hardware except in the cheaper grades. The contractors were allowed 15 per cent. on the hardware. This was not shown on the bills rendered. The omission was at the request of the contractors.

Owing to the witness asking the counsel to explain a question, Mr. Justice Lennox said: "You are talking too much and thinking too little."

The witness said that in 1912 he knew very little about the business, but it was shown that he made an affidavit in that year against Hutchinson.

Miles Vokes' account of giving evidence was in marked contrast to the offhand manner of his son. This was emphasized when Mr. Vokes, sr., refused to swear from memory respecting the age of his son. He would swear to Oliver's birthday, June 30, but not the year. The son verified a statement by Mr. Denison that he was 27. This was in connection with Dr. G. J. Steele, school trustee, signing a deed in connection with the purchase of some property from Hutchinson.

Mr. Denison intimated that this signature by Dr. Steele was made as Miles Vokes' nominee because of Vokes junior being a minor.

Points of Law. As the questions respecting the transaction involved points of law Miles Vokes expressed inability to answer them and said the documents would show everything.

Mr. Denison commended Miles Vokes for having a bylaw strengthened by the board of education to ensure the board against loss in the insolvency of contractors. His explanation of supporting contracts of the Hutchinson Company, was that the contractor's son-in-law was understood to be backing him. The Vokes Company would have trusted Hutchinson if the account was bonded by the son-in-law.

Mr. Denison was charged by Mr. Vokes, sr., with asking questions in an unfair way according to press reports. The witness claimed that he had never had a contract with the board of education, and had never received a dollar corruptly. He asked that his lawyer be allowed to address the commission before the inquiry concluded.

W. Cooper, clerk of works to the board of education building department, came under the censure of both Mr. Denison and Mr. Justice Lennox for an evasive style of answering. Some of his declarations, however, went to the other extreme, especially in reference to Mr. Sanderson, sales agent of the Vokes Hardware Company, and Mr. Belfry.

Only Four Times. Cooper testified that he had known Sanderson for many years, while the latter had testified that he had only met Cooper four or five times. He stoutly denied the intimation from Mr. Denison that he, Cooper, had urged Mr. Belfry to try to do something to please Mr. Vokes. This was when Mr. Vokes was chairman and Mr. Belfry was an architect in the school building department.

Cooper said that when he checked off one of the Vokes' accounts it contained so many items of goods which had not been delivered that the account was "very raw." He could not definitely check off their contents for five, as part might be used at the workshop. There were charges of 100 pounds of glue and 600 pounds of glue. Mr. Denison: "It took a lot of glue."

Cooper said he had left one of the hardware accounts in his overcoat.

### Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place!

Instead of the thousands of sickly, anemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists, we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, to wash out the stomach, liver, kidneys and all sorts of bowels the previous day's indigestible waste, sour fermentation and poisons before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion, and who are constipated, are often, are urged to obtain a quarter pound of limestone phosphate at the drug store, which will cost but a trifle but is sufficient to demonstrate the quick and appreciable change in both health and appearance awaiting those who practice internal sanitation.

and could get it if permitted to go upstairs for it. The caretaker was sent for the coat, but the report had vanished. He was reprimanded for carrying public documents in that way, and ordered to search for it.

### JUDGMENT RESERVED IN SPENCE APPEAL

The appellate division yesterday reserved judgment on the appeal brought by Rev. Ben H. The prosecution was under the censorship orders-in-council under the war measures act.

### C. N. E. WILL ALLOW RACING THIS YEAR

#### Directors Decide to Add an Extra Day to Big Fair.

"Victory Year" at the Canadian National Exhibition will be marked by the addition of another day to the big fair. Yesterday afternoon at a meeting of the board of directors it was decided to open the gates on Saturday instead of on Monday, though the formal opening will be on the latter day, August 23th. Exhibitors will be instructed to have their displays ready by Saturday noon, August 23rd, and that in the afternoon gates will be opened to the public, when General Manager John G. G. promises to have all departments of the fair complete except the grand stand performance, where a special program will be substituted. Arrangements have already been made to bring the midway here a day in advance of the usual time.

In the afternoon speed trials will be given before the stand. Some years ago trotting was always a feature in the afternoon, and since the sport was suspended the directors have been constantly urged to resume it. Yesterday they decided to give the Standard Breed Society four days of racing, the opening Saturday, and the following Monday, Tuesday and Wednesday, August 25, 26, 27 and 28. There will be two races of three heats each daily for substantial purses.

### WOMEN FORM BRANCH OF SAVINGS COMMITTEE

#### Lady Hendrie Consents to be Patroness of Central Ontario Division Branch.

The women's branch of the Central Ontario Division of the National War Savings Committee has been formed, and Lady Hendrie has consented to be honorary patroness. The committee consists of Lady Hendrie, honorary chairman; Mrs. H. S. Strachy, chairman; Mrs. D. H. Warren; Mrs. Angus MacMurchy; Mrs. W. J. Hanna; Miss Marie Macdonald; Mrs. Arthur Van Koughnet; Mrs. Peter Rutherford; Mrs. Ewart Wilson; Mrs. Windsor Barker; Mrs. John Walker; Mrs. S. Hawley Allen.

An office to carry on the work has been opened at 67 Victoria street, and Mrs. Putnam has been appointed organizer for the district. The plan of thrift stamps will be explained shortly when Sir Herbert Ames will address a meeting of women in the Masonic Temple. The idea of the work is to create a community interest in saving, to decrease waste, and to help Canada thru the difficulties of the reconstruction period.

### JULIA ARTHUR WILL VISIT TORONTO SOON

#### Famous Canadian Actress to be Present at Allen Theatre on Monday.

Julia Arthur, Canada's greatest stage star, will personally appear at the Allen Theatre next Monday, when Select's tremendous production "The Cavell Case," opens a week's engagement.

Miss Arthur, who was born in Hamilton, was one of the greatest of stage celebrities and in her first motion picture takes the part of Edith Cavell, England's greatest martyr.

Arrangements are under way by the local council of women to give Miss Arthur a splendid reception during her one day's visit to the Queen City. The famous star, who is informed that the picture was to be shown in Canada, asked that she be permitted to make personal appearances when the film was shown in Toronto, as she felt it a patriotic and moral duty. It is particularly fitting that Miss Arthur, a Canadian by birth, who has gained world-wide fame in her work should be seen as the famous English nurse whom the world will never forget.

### LABOR WOULD TAKE CHARGE OF INDUSTRY

#### District Trades Council Resolve to Capture Means of Production by Constitutional Means.

Definition of the word "foreigner" as used at the large unemployed meeting in Queen's Park last Tuesday by Secretary W. J. Hevey, evoked some real hot discussion at the regular meeting of the Toronto District Trades and Labor Council, which was held in the Pres. Art O'Leary in the evening. The rumour started as soon as Secretary Hevey rose to present the report of the unemployment committee, which had attended the meeting in Queen's Park as the representatives of the council.

Some rabid attacks on the press followed, especially by one delegate, Mr. Hevey, who, who condemned the press for their action in turning down the foreigners, who, the speaker declared had been called "fine body of men" when they came out here.

After much discussion it was decided to take 200 shares of the new cooperative cigar factory, which is being formed by the 170 unemployed cigar-makers in Toronto.

Another motion, which was picked up and passed and copies of which will be sent to all labor organizations in Canada, is the resolution calling on labor to take over the means of production by constitutional means.

The meeting concluded in the request of Canada, which represented some 10,000 Finns in the Dominion, who demanded the repeal of the council 2381 and 2382, which closes down their

# Dangerous to Production, to Labor, and to Industry

Progressive Governments throughout the world are taking measures to increase employment and stimulate industrial activity. It is the only safe policy for Canada. Any immediate radical revision of the tariff downward will be dangerous to labor, to industry, and to agriculture.

With shipping restricted, with exports obstructed, with the United States dumping accumulated war supplies in Canada, with enormous war obligations, and with the necessity for credits to purchase natural and manufactured products for shipment abroad, Canada must maintain domestic production and guard home markets. To do otherwise is to imperil the whole fabric of Canadian industry and the sources of revenue on which the country depends to provide employment, to finance necessary public works, and to meet national obligations.

Unless the factories run on full time there will be less work and lower wages for Canadian Labor. There will be employment for war veterans only at the expense of present workers. Canadian factories cannot operate without orders. They cannot produce to their full capacity if we are swamped with accumulated war supplies from other countries. Even in normal times there is a partial suspension of industry while tariffs are undergoing revision. In such times as these, with the whole world adjusting itself to new conditions, it is imperatively necessary that confidence shall be maintained and home production increased to the utmost.

### SIX SCHOOLS ADOPT PART TIME SYSTEM

Dr. Noble's Proposal for One-Storey Annexes for Crowded Schools Causes Lively Debate.

Six or eight schools are now adopting the part time system, said Dr. Noble at the board of education meeting. He proposed a one-storey, one class, open window sunroom annex for crowded schools.

The proposal earned a lively debate and was sent to the property committee for estimates of cost.

Trustee C. A. B. Brown said the property was first bought by the board for \$67,000, sold by the Ontario government for \$100,000, bought back for \$150,000, and it was good news that it was now valued at \$400,000.

Dr. Caroline Brown, on behalf of the individual members of the board of education, presented to Mrs. G. Martin, nee Miss K. K. Snider, a set of silver and glass tableware as a wedding present.

A letter was read from Fire Chief Smith calling attention to the danger of fire in Hillcrest school. The letter was sent to the property committee.

DIRECTORY PROVES QUEEN CITY'S TITLE

Is an Illuminating Record of Toronto's Strength and Loyalty.

An ever-recurring sign of spring, and the thermometer of the city's progress in business and population, the city directory becomes more interesting than ever, as its bulk increases. Might's directory now shows a much more than a mere list of names, interlarded with advertising. The incoming stranger who goes to it for information is confronted in the first few pages with many hard facts that explain why Toronto is called the Queen City. It is the capital of Ontario, and in eighty-four years its population has grown from 2,900 to 477,171. It is the educational centre of Canada, the wholesale jobbing centre, seat of Canada's largest university, has the largest departmental store in the empire, and a one-night ride from any of the centres of population in central Canada, or the central and eastern States.

And for patriotic effort, where is there another similar record? Might's directory contains the facts: 65,000 men for overseas service, 6,000 of her sons slain in battle, suffered 25,000 casualties paid death claims of \$2,000 on 3577 soldiers' lives, has given for all war purposes about \$30,000,000, incurred civic war obligations of nearly \$12,000,000, and has but not least, made munitions for the allies amounting in value to about \$200,000,000.

After reading that, the stranger knows that Toronto is British to the backbone. Might's directory gives him a few other reasons why he should "stake a claim." It tells him that there are about 1,400 manufacturing plants here, employing 33,000 employees, that the capital invested is about \$250,000,000, and the annual production is approximately \$300,000,000. But what is more to the point, the annual payroll is estimated at \$60,000,000. How is that for Easter hats? Some sun.

But read again, ye citizens of Toronto, here is a case where Might is truly right. "Toronto has within the city limits, and within a few miles' radius of the centre of the city, what is recognized as the finest labor market on the American continent. The workers as a whole are an intelligent class of citizens, and are far above the average in this respect." Let us hustle, however. Customs duties for the last fiscal year ending February 28, 1919, totalled \$22,913,347. Real estate transfers in 1918 numbered 10,021, as against 7,043 in 1916.

All these facts are merely a preliminary count with Might's directory. Just think of something you want to know about Toronto, or someone you want to find, then all you need to do is to look in The Toronto City Directory (Might's Directories Limited).

CITY INSURANCE SAID TO AFFECT PENSION. The G. A. C. is taking up the case of a woman once resident on Gerrard street, but now living at Staten Island, New York, whose son was recently killed at the front, and whose pension, it is alleged, has been reduced from \$40 to \$20 a year. The G. A. C. has been given to understand that the alleged reason for the reduction of the pension lies in the fact that this woman is receiving insurance from the municipality of Toronto, and resents reductions on such principles.

Count Antonowicz Korzybski, of ancient Polish family, with estates outside the ancient city of Warsaw, also a member of the G.W.V.A., has written to W. E. LABOR NEWS

WANT EIGHT HOUR DAY.

An agreement has been fixed up between the master plasterers' section of the Builders' Exchange and the Plasterers' Union for an eight hour day at 70 cents per hour. This arrangement will be in force from May 1, 1919, to May 1, 1920. Master masons and the Bricklayers' Union have reached an agreement of 72 cents per hour for an eight hour day. The majority of the carpenters are getting 60 cents an hour but no definite agreement has been made. Custome contractors and the Stonecutters' Union have not as yet reached an agreement for this year but negotiations are under way.

invested \$200 in the Associated Cigarette-makers, Limited, a new industry by the workers for the workers upon a co-operative basis.

That the principle of allowing women to operate boilers was ill-advised was the contention of Charles Green, business manager for the Union of Stationary Engineers, as made at Thursday night's session of the Trades and Labor Council, held at the Labor Temple. While one or two specific cases were cited at the meeting, the principle was the general theme of discussion, being pointed out that women were unfit for the work of managing boilers for physical reasons. Mr. Green contended that women were often extremely warm, that women once inside them on inspection might be liable to collapse as within, and that in a general way women were unsuited to the necessary work involved. John Dennis, a former licensee for boilers, stated to The World that there was nothing in the act to show that women should be permitted to operate boilers, every clause distinctly referring to male operators. He stated that he was in thorough agreement with the union in its contentions. There were perhaps other reasons as cogent as those given by the business manager of the union. One of these was the ever-recurring factor of economic depression, special-ly present at the moment, in the face of which women, unnecessarily engaged at work in the field usually occupied by men would augment the present unemployment situation.

Robert Chalmers, extreme dyed-in-the-wool socialist, and others, held the floor of debate for some time at the regular session of the Trades and Labor Council on Thursday night, and a resolution to have all industries taken over by labor, presumably, the resolution proposed recently by Delegate Peel of the Marine Trades Federation, was passed, also a note ordering the secretary to have copies of the resolution sent broadcast thruout Canada.

A fine send-off was the organization meeting on Thursday night of the new association, which will be henceforth known as the Amalgamated Meat Cutters and Butcher Workmen of North America. More than 400 were present, and it is the proud boast of the union in Toronto that it is 100 per cent. organized in two plants and 75 per cent. in others.

UNPARDONABLE SIN AT ALLEN THEATRE

Is Film Masterpiece Depicting Tragedy of Wronged Womanhood.

"The Unpardonable Sin," which is to be presented at the Allen Theatre for an engagement beginning Monday, March 31, is a moving picture attraction which Toronto people who have followed the development of the screen as a medium for the presentation of really big ideas cannot afford to miss. There have been many unqualified expressions of opinion to the effect that "The Unpardonable Sin" is the greatest photoplay ever produced, and there is no denial of the statement that it ranks with such attractions as "The Birth of a Nation," "Intolerance" and "Hearts of the World," all of which are outstanding successes in the realm of moving pictures. While dealing with subject matter related to the recent world war, the tale is merely one of love and adventure. Blanche Sweet appears as a winsome maid possessed not only of girlish charm but also of the nerve, temper and aggressiveness which is characteristic of the modern American girl. Matt Moore is just a plain, everyday American lad of the type that may be met anywhere in the United States. The obstacles these two surmount in their efforts to penetrate a hostile country in search of two defenceless women upon whom has been perpetrated "the unpardonable sin" provide a screen story that keeps audiences everywhere on the very edges of their seats.

Percy Elliott, no home, was arrested yesterday afternoon by Acting Detective McConnell on a charge of robbery. Elliott is alleged to have taken Oliver Pearce to a room and stolen \$5 from his pocket.

CELTIC MEN EXPLAIN CAUSE OF RIOTS

Russian "Reds" Responsible for Outbreak, But Had Strong Motive.

Altho all the causes and incidents of the Kimmel and Ryti Camp riots in the old land will never be cleared up, the charges and primary reasons has already been brought out nearly unfairly. Five hundred of the "rioters" arrived from the Celtic at Exhibition Camp yesterday morning and their discipline was anything but insubordinate and riotous. Lieut. F. A. Sweet, the officer in charge of the party, said that one could not wish for better discipline and the added that the conducting officer on the Celtic complimented them upon the neatness of their quarters and their appearance while on board. Everything passed off in an orderly manner at the Exhibition. When they detained they lined up on the platform and they handed in all their equipment except clothes and steel helmet, and received pay certificate, discharge papers, transportation warrants and were finally given dental examination. The Toronto men were permitted to go home with their friends and reported back at one o'clock, when they also were discharged. Lieut. Col. Gibson, Capt. Richardson and staff are to be congratulated on their organization. Lieut. F. A. Sweet, who was with the party, directly traced the cause of the riots in Wales to Russian "reds" in the Canadian army. He did not doubt but that these "reds" had been working secretly among the Canadians for weeks pressing their views. One of these Bolsheviks was taken out and shot. From stories told by the men the outbreak was sudden. The first place demolished was the N. A. C. B. station where they claim, only Woodbine cigarettes were sold as they knew the Canadians did not like them. From there they went to headquarters stores where they found plenty of "rod" cigarettes, then they made for the Q. M. stores where they took new outfits. The entire trouble was due to the fact that no system was in vogue for returning the soldiers and that they did not receive food or sufficient food. Their way was also kept back.

STOLEN CAR RUNS AMUCK DOWN QUEEN

A young boy lost control of a stolen motor car, which he was driving west on Queen street last night. The car ran over the sidewalk and, striking a telegraph pole, caused the engine to set the car on fire. The lad jumped out and ran away. The firemen were called and the blaze extinguished with very little damage. The car was taken to Clarence street division, where it will be held until the owner claims it.

IDA RE SOLDIER RECEPTIONS

Two soldiers have written to us, claiming that they are of the opinion that the city should have started, in large public receptions for the first men who returned, and not have waited until this week to make a demonstration.

"The Variety" and "Fit to Fight"

In the variety of current day two letters, apparently from the same pen and couched in the same professional clerical jargon undertake to condemn the exceedingly impressive film picture "Fit to Fight," that is being shown to the students of the university this week in private performances.

OTHER PEOPLE'S OPINIONS

The World will gladly print under this head letters written by our readers, dealing with current topics. As space is limited they must not be longer than 200 words and written on one side of the paper only.

About the Pool Rooms.

Editor World: It is with deep regret we note in the columns of your paper to the effect that one of our judges on the bench said that the pool-room was only one step removed from the police court.

FAMOUS FILM ACTRESS WILL APPEAR AT ALLEN

Miss Julia Arthur, born in Canada, who represents Edith Cavell, will give services to Red Cross.

Further this association has been the means of supplying billiard tables to the various military hospitals, and the G. W. V. A. also donated large funds to various patriotic purposes.

The average citizen finds the billiard parlors a great comfort, where they can play a scientific game and enjoy themselves in a honest, healthy manner.

It might do the judge a great deal of good to converse with a few of these one-stoppers from the police court, and find out who is the nearest. We trust that you will give this matter the same publicity that the other statement received, as a great many of the large billiard operators operate billiard rooms very keenly about this unjust stigma placed against the billiard game.

Blue haze from the after-dinner fogs of a full brigade of men. And the misty light on flood of flags to welcome them, home again. We stood to the Hun, in mud and rain. When the odds were one to ten.

Blue haze, bedimming the battle-flags. Writ high on the Armory wall. Here are the men who saw the flag rise. But their comrades lie in their six-foot claims. By the poplars, gaunt and tall. —J. E. Middleton.

"THERE'S TOO BLAME MUCH OVERTOOR"

THE DAY AT OTTAWA

By TOM KING

Ottawa, March 21.—Today was a comfortable day in the house of commons. The bill in possession of the House, H. C. 21, had been expected that Mr. J. D. Reid would move the second reading of his bill to amend and consolidate the railway act, but he was unable to do so, because the bill had not been printed.

Resolution at Annual Meeting Holds Sum Offered is Inadequate.

LONDON, March 21.—At the annual meeting of the Grand Trunk Railway today, Alfred W. Smithers, the chairman, said the Canadian government had offered for the property an annuity of £740,000 for the end of eight years over and above the fixed charges. The company's offer, the chairman added, was to accept an annuity of £297,000 immediately, plus what an arbitrator might give over and above that amount, or an immediate annual payment of £1,183,000 without arbitration.

—now revel in the others

You've revelled in the great poem "In Flanders Fields" when you've read it, when you've heard it sung and recited. Didn't know, probably, that the author, Lieut.-Col. John McCrae, had written considerable other verse, a good deal of it quite as notable. This has been compiled and is just published under the title

"IN FLANDERS FIELDS"

Besides Col. McCrae's verse there is a generous biography written by Sir Andrew Macphail, showing the human qualities of the great Canadian who now sleeps where "the poppies grow."

IN FLANDERS FIELDS is beautifully printed on better-than-usual paper, is nicely bound, with gilt top, and contains several characteristic illustrations.

would be much more equitable to make the railway pay the whole cost. The resolution was then carried, and a bill based upon it introduced and given first reading.

Hon. Dr. Reid then introduced a resolution providing for a change in the method of compensation of employees who were injured, or their dependents in the case of employee's death, while engaged in the operation of the Intercolonial Railway.

The minister of interior replied that it was proposed to reclaim about twelve hundred acres. This was more or less in the nature of an experiment. Representations had been made to the department, he said, on the advisability of draining Lake Manitoba.

The resolution to have "a more exact definition of dry lobster meat" was discussed at length in committee. The purpose is to have four sizes of cans, three, six, nine, and twelve ounces each.

Hon. A. K. Maclean argued that twelve ounces was a better weight than fourteen, because it was just 1/2 of a pound. He asked that the resolution be passed, and the bill upon which it was based could be discussed in committee and if unsatisfactory need not be carried.

HOCKEY O.H.A. Ruling

NO HARM WAS DONE WOODSTOCK TEAM

University Schools Absolved From Any Part in Occurrence at Arena.

A special meeting of the O.H.A. Executive Committee was held at the King Edward Hotel yesterday afternoon to consider the Woodstock complaint that certain articles of clothing and skates had been tampered with previous to the U.T.S. game last Saturday night at the Arena.

After hearing the evidence and the arguments on behalf of the Woodstock Club, the committee reached the following decision: "In the matter of the investigation into the complaint made by the Woodstock Hockey Club that the clothing and skates of the Woodstock team had been tampered with in the dressing-room at the Toronto Arena previous to the playing of the match on Saturday night, March 15, the committee finds as follows:

(1) There was no evidence that the skates had been tampered with, and this part of the complaint was not proved. (2) The evidence showed that five skates had been smeared with kerosene and kerosene had been smeared on the toe of the skates. It was admitted that the dressing room was on Friday morning and Saturday night, during which time the skates were being used. It is pointed out that every reasonable precaution was taken to prevent any tampering with the skates, and that the kerosene was in the possession of the Woodstock Club.

(3) We greatly deplore that such an occurrence should have taken place, but in view of the fact that the Woodstock team and that every latitude was afforded to the Woodstock team by the O.H.A. officials to procure new clothing, necessary going on the ice, and that the result of the tampering was that the game was postponed, it is the opinion of the committee that no action should be taken by the executive, and the game should stand as played. The Woodstock management having one of their players partially absolved their opponents, the University of Toronto Schools team for any suspicion of tampering with the skates.

Patricias to Make Last Effort Tonight

University Schools and the Regina Patricias will come together again tonight at the arena for a contest which is expected to be the final one for the O.H.A. provincial trophy. The Patricias are to make their last effort on the ice at the arena, and it is expected that the game will be a very close one.

FIFTY ARGONAUTS ARE ALREADY BACK DATES FOR CANADA

St. Thomas City Council Turns Over Pinafore Park for Tournament.

St. Thomas, March 21.—This being the centre of Ontario's most active trapshooting club, likely accounted for the fact that the members have shown in coming days, that the St. Thomas Gun Club in keeping step with the times of the day, has arranged to hold a tournament at Pinafore Park, and it would not be surprising to see city parks thrown open in a similar movement at Chatham, Ridgeway, Leamington, Kingsville, Windsor, Rodney, Essex, Dutton, Galt, Kitchener, Innesburg, Brantford, and Port Stanley.

Tom Eck Wants Entries For Big Chicago Meet

Sporting Editor World: I am enclosing an entry blank for the three-day athletic meet in the Coliseum, Chicago, April 10, 11, 12. This will likely be the biggest indoor athletic meet ever held in America. I am promoting and managing the meet, and thus, you see, I am not a dead one yet. If there are any first-class 300-yard runners in Toronto, I would like to see them. Best regards to all my old friends in Toronto, including yours truly. Bill Presnail says HAVE NEW MOVEMENT TO UNITE IRELAND

Brantford, March 21.—The swell of the River Liffey at Dublin is one of the finest sights of Ireland, declared Rev. T. D. Healy in Montreal, in addressing the Kiwanis Club today on St. Patrick's Day. He declared that the rise of the Liffey, which he expressed the hope that the new movement to unite Ireland, in which labor, agriculture and even the Sinn Feiners, would bring about a settlement of the old problem. He declared that the British rule of today was not to be compared with that of history, for Ireland's land and people were not to be found in any country. Rev. George Adams of Montreal gave a talk on Lloyd George's "The Road to Peace" at the Protestant Congregational Church on "With Harry Lauder in the Trenches."

CORN SELLS AT RECORD PRICE

Increase in Value of Rye, and Argentine Labor Troubles Responsible.

Chicago, March 21.—Highest prices yet known for May delivery of corn were reached today in the corn market here. In the value of rye was also responsible and so, too, was fresh news from Argentina. The close was \$1.37 1/2 for May, with May 1919 at \$1.37 1/2 and July \$1.37 1/2 to \$1.37 1/2. Provisions finished 1/2 to 3/4c advance.

ON CHICAGO MARKET

Wheat, Harcourt and Company 307 Royal Bank Building, received the following at the close of the Chicago market yesterday: The early corn market was steady on a very much reduced volume. Interest has been transferred to wheat and barley.

The fact that oats not only did not follow the upward march, together with the fact that they appear so cheap comparatively (figuring on a feeding basis) has been the cause of the very active investment buying of the past week. The interest in the market has greatly increased and a marked improvement in buying by outside interests has been noted.

PRICES GO LOWER

Bradstreet's approximate index of commodity prices as of March 1 decreased 2.3 per cent. from February 1. The latter period in turn showing a gain of 4.1 per cent. from January 1. Compared with the peak point in July, 1918, price levels are 10 per cent. lower, and the decline from March 1, 1919, is 4.5 per cent. From March 1, 1917, a gain of 21.8 per cent. is shown, and compared with August 1, 1914, a gain of 98 per cent. is noted. Of 100 products, eighteen gained in price during February, while thirty-four declined and fifty-four remained unchanged.

WINNIPEG GRAIN MARKET. Winnipeg, March 21.—Oats closed 1/4c higher for May and July. Barley closed 1/4c higher for May and 1/2c higher for July. Flour closed unchanged for May and lower for July.

DRYGOODS BUSINESS IN TORONTO STILL QUIET

Many Country Merchants Are Overstocked—Normal Trade in Groceries. Toronto reports to Bradstreet's that the drygoods trade in a wholesale way continues dull, and business so far this year does not measure up to 1918. The attitude of merchants in the country, in adopting a very conservative policy in the matter of purchases, has made itself felt in wholesale circles.

them, prices would be higher. In this way, the majority of merchants carried heavy stocks. Consequently, at the present time, they are not particularly anxious to buy heavily for the future, and are only purchasing for immediate requirements. Wholesale dealers state, however, that there is no evidence of pessimism in the country, and on the whole the retail trade seems well satisfied with business. Depression is being felt in a wholesale way more than in retail lines. Collections, while still a little slow, show some improvement over the preceding week.

MONTREAL PRODUCE MARKET. Montreal, March 21.—The grain market was very quiet, with car lots of extra No. 3 Ontario barley quoted at \$1.18, No. 3 barley at \$1.15, sample grades at \$1.06, and No. 3 Canadian western at \$1.15. No. 2 Canadian western oats at 87c, No. 3 C.W. and extra No. 1 feed at 85c, No. 1 feed at 80c, No. 2 feed at 77c, Ontario No. 2 white at 78c, and No. 3 white at 76c per bushel, ex-store.

LIVERPOOL COTTON. Liverpool, March 21.—Cotton futures closed steady: March, 16.87; April, 15.97; May, 14.48; June, 14.21; July, 13.35; August, 13.57; September, 13.41.

SEEK TO EXPEL CHARLES BY INDIRECT MEANS. Berne, March 21.—The request of former Emperor Charles that he be permitted to live in Switzerland, it is said, was made with the knowledge and consent of the Vienna government, which considers that his removal from Austria would be in the interests of the German-Austrian republic, and the former ruler's security.

RUSSIAN PRESS SNEERS AT LEAGUE OF NATIONS. By W. E. Playfair. Vladivostok, March 21.—The Russian press comment on the league of nations is satirical, pointing to the results of allied occupation of Siberia as an object lesson. The allies, it is pointed out, had decided to restore order and good government to Russia, and sent detachments of troops with no good results, owing to the impossibility of an agreement over the methods to be followed. The real result is loss of allied prestige in Russia.

FARMERS

For Forty Years We Have Been Allies

Do you remember what farming was like in Canada forty years ago? We remember very well what manufacturing was like, what there was of it. The farmers were struggling on farms and getting low prices for their produce. The few manufacturers were also struggling, for the most part unsuccessfully. For forty years we have worked together. Have we not both prospered? We buy from you most of what you grow. You buy from us most of what we make. That has been and is the basis of our alliance.

The manufacturing establishments in Canada employ nearly 700,000 people. Their wage-roll is about \$700,000,000 a year. Moreover, they buy annually nearly \$2,000,000,000 worth of raw material, mostly in Canada. Around these factories are congregated a hundred other forms of business. All these are your customers, and statistics show that this home market is four times as valuable to you as your entire foreign market. Decrease its buying powers, and your sales lessen and your prices drop.

How A Minority Seek to Sever Our Alliance

The Prairie Grain Growers are urging the Government to throw down the tariff wall between Canada and the United States because they want to save a little money (mainly on freight rates) by buying from the United States manufacturers just south of them. They, who constitute about 20 per cent. of the agricultural population of Canada, ask all the other farmers, who constitute the remaining 80 per cent., to change the policy which they have supported for forty years.

Furthermore, to raise the Dominion Government revenue, they would substitute for the tariff, which collected last year about 60 per cent. of that revenue, an increase of income taxes, inheritance taxes, corporation taxes and taxes on unimproved land values. As it is quite obvious that such taxes would affect the farmer but little, this is the inducement they are using to get you to forsake us and follow the free trade prophets no one knows where.

We think this appeal will fail. First, because it seems to be founded on the assumption that the farmers of Canada want to slip out of paying any increased taxes that may be needed for soldiers' pensions, gratuities and

re-establishment. We have found in all our experience that the farmers of Canada are not this class of men. Second, because the argument is unsound. It requires little reflection to see that if our market is thrown open and flooded, many of our manufacturers, caught in the struggle to re-adjust themselves from war to peace conditions, will not be able to keep going. Would this not result in many of our people, unless they were able and willing to take up farming, leaving for the United States? Would not the rest of the population then, which might consist chiefly of farmers, have to pay all the taxes?

The Grain Growers do not represent the entire population of the Prairie Provinces. They do not represent the business population; they do not by any means represent all the farmers. The Prairie Grain Growers' Association are dominated by a group of free traders whose one idea seems to be to get free trade all over the world. Unfortunately for their theories, just at the present time all the rest of the world seems desirous of getting protection.

Tariff Policy of Other Nations

GREAT BRITAIN is shutting out the goods of other countries (except the Dominions). FRANCE and ITALY are shutting out the goods of other countries by import restrictions.

THE DEMOCRATIC PARTY in the United States, which advocates low tariffs, seems to be going out of power, and the Republicans, who always support high tariffs, have now a majority in both Senate and Congress. Do you think that this means that the United States' tariff is going up or down?

In opposing the demands of the Grain Growers, we do not in any sense intend, as they sometimes say, to show hostility to them. They are our customers. Is not our prosperity affected by theirs? Beyond all this, if the farmers do not prosper, neither we nor the country can prosper. Agriculture and industry are the basis of the country's strength.

But we feel that these demands of the Grain Growers aim a deadly blow, not only at industry but at the whole farming community.

What justifies the Grain Growers in demanding that their personal grievances be cured at the expense of the rest of the country? Are they in a desperate position? Have they been losing heavily? Are they suffering from too much adversity or too much success? Are they in any danger comparable to the one great danger in Canada now?

THE DANGER OF UNEMPLOYMENT

the danger which may place thousands in need of shelter, food and clothing? Most Canadians feel strongly that until this danger is avoided, and the country safely restored to a peace basis, the nation should not be disturbed by any tariff controversy at all.

When this danger is passed, and the country knows where it stands, and what other countries of the world are going to do, then the tariff question should be taken up and such a tariff should be framed as will suit, not the manufacturers merely, nor the farmers merely, but the country as a whole, and by adding to the prosperity of the nation, add to the prosperity of each and every class—the only safe path to prosperity for any country or any class in that country.

**U. S. STEEL RISES ON HEAVY BUYING**

**Announcement of New Price Schedules Acts as Potent Tonic on Market.**

New York, March 21.—One popular issue, United States Steel, dominated today's stock market from start to finish. The long existing uncertainty over prices giving a tremendous impetus to the entire industrial group. Other speculative favorites joined in the heavy trading in steers. Rails and metals lagged until the final hour, when they responded to the general buoyancy of that period.

The demand of U. S. Steel was on a scale which has not been seen since the commission house sale having buying orders for 100,000 shares. At an extreme advance of 4 1/2 points to 99 1/2, Steel contributed about forty per cent. to the day's total.

There was a widespread feeling that the outcome of the Washington conference would go far toward restoring confidence in the industrial board pertinently on many lines of industry.

In the excitement created by the heavy trading in steers, little attention was paid to the further vagaries of foreign exchange, the domestic money market and the New York Railway Company, although local traction again weakened. Sales amounted to 1,250,000 shares.

Foreign exchange, including Anglo-French 5's and French municipals, were fractionally lower, and Liberty Fourth 4 1/2's made a new minimum at 92 1/2, the general bond list easing with local utilities. Total sales, par value, aggregated \$12,150,000.

**STEEL PRICE FIXERS KEEP WITHIN LAW**

Washington, March 21.—Preparations for the announcement of a complete scale of new steel prices at the industrial board headquarters late today indicated that a conference between members of the board and Attorney-General Palmer had developed nothing that would interfere with the government's price-stabilization program.

There was no announcement of the result of the meeting, Chairman Peck of the industrial board saying in response to questions that it merely was a "social call." Others familiar with the conference had said earlier that the board wanted the attorney-general's opinion on whether the program would violate the anti-trust law.

**WINNIPEG CATTLE MARKET.**  
Winnipeg, March 21.—Receipts at the Union Stock Yards today were 850 cattle, 87 calves, 601 hogs and 47 sheep. Butcher steers, \$10 to \$15; heifers, \$7 to \$12.50; cows, \$4.50 to \$11.50; bulls, \$8 to \$10; oxen, \$5.50 to \$11; stockers and feeders, \$7 to \$12; veal calves, \$8 to \$14; sheep and lambs, \$10 to \$11.50.  
Hogs—Selects, \$12.25; sows and heaves, \$13 to \$15; stags, \$11 to \$12; lights, \$13.50 to \$16.

**ADVANCE BY KEORNS MINTYRE RAILWAY**

**Cheerful Tone in Mining Market—Davidson and Waspika Are Prominent**

Keor's fresh advance and a rather buoyant tone in the local mining market yesterday morning the trading was somewhat better than in those qualities to which we have previously alluded, but more especially in the case of Davidson and Waspika. A cheerful feeling prevailed at the close of the day, but the news from the mines buying orders provided a solid basis of influence toward the close. The advance in the local market was not surprising in view of the fact that a note of optimism had been published in the current issue of the Ontario gold and silver market. **OPERATIONS RESUMED AT THE TOUGH-OAKS**

Kirkwood Lake, March 21.—Selling evidence of the favorable tone of the economic situation as affecting the gold mining industry is the resumption of operations at the Tough-Oaks Gold Mine. However, the mill will perhaps be pressed into service for another two months or so. In the meantime the Tough-Oaks Gold Mine has this week resumed operations at the rate of close to \$50,000 worth of gold, and ranked among the first five gold mines of the country. Its operation is now under contract to the interests which ousted the former regime, Harry Oakes, president with C. A. Richards in charge of operations.
