## Canada's Great Day for Throngs Sir Wm. Mulock Sets Show in Motion

Crowd of 21,000 Attend on Opening Day and Every Prospect Pleasant—Sir Wm. Grows Eloquent on Canada as a Land of Peace and Plenty—Tells of Garrison Commons Park Negotiations and What Future Should Bring.

Six hundred thousand! That was last year's record. Manager Orr wouldn't be surprised if there were a million this year at the Great Canadian National Exhibition.

Everybody may go with the assurance of seeing a decidedly better show than last year—better in every department, fresher, cleaner, more up to date, bigger, more interesting and almost certain to tempt you back again. Everybody go and take his friend and the million will be easy.

Yesterday was wonderful for a first day. The weather was perfection. Sea and sky and sun and zephyr were in glorious combination to make ideal conditions, and the exhibition committee did the rest.

Salutations to Manager Orr! Congratulations to Honorary President McNaught! Felicitations to Acting President George! Toronto is proud.

Nobody was ever known who had seen all the Toronto fair—not even the energetic motorist. One has only two weeks to do it in. There are people who could not go to the poultry building with their families and their friends, but would need a guide to Society Row. But this is no so remarkable when one considers the 70 or 80 exhibition buildings.

The grand stand a success? Certainly it was a grand success. The celebrated "Ivanhoe" spectacle, with its flaming romances, footlights, and the host of supernumeraries with their intricate old world dress and droll antics, and the quaint costumes of knight and squire, boy and maid, and the wizard of the North himself. The fireworks were finer than ever, and it was a grand success.

There was but a simple incident to mar the general smoothness with which everything ran at the opening day of the fair. It was the sudden taking of fire on the straggling area of the exhibition, near the Wood Guilder, a main building belonging to Baron Rothschild, and valued at about \$100,000.

**ANIMAL ACTS ARE FEATURES OF THE GRAND STAND SHOW**  
Panthers, Leopards, Elephants and Lions Are Put Thru Difficult and Amusing Stunts—Some Great Equestrian Acts Also.

The performance before the grand stand is distinctly of merit. The turns are many, but they are also crisp, and as there are doings in three rings at one and the same time the spectator who complains of dull moments must be hard indeed to please. No act is unduly prolonged, the performers necessarily appearing of them, and their business-like exit is followed by the prompt appearance of another set of entertainers, who are at work almost before the onlookers fairly realize that a change has taken place. It is all very kaleidoscopic.

There is no variation in the evening's performance from that offered in the afternoon, save only that the tiger is added the medieval "Ivanhoe" romance with its pageantry and strongly spectacular effects.

As usual with the grandstand shows, the "animal" acts rank as chief favorites, despite the skill of acrobats, balancers, jugglers, slack and tight rope artists, etc. And it may be said that there is plenty to enthrall even in the respect to the trained evolutions of the animal denizens, such as do specialists by Manager Orr.

For trained precision, leopards and panthers, lions and elephants vie with one another, and they drew from the delighted spectators yesterday many expressions such as "Wonderful" and "How on earth can they be trained to do that!"  
The leopards, panthers and lions perform simultaneously. The representatives of the feline species are the cleverest on their showing. A young lady in gentleman's riding habit directs them to them what they shall do, and their recognition of her bosom is sufficient to spare onlookers an undue number of uncomfortable thrills. The four sleek, cat-like creatures sink about as the brooding mischief, but without further overt demonstration, and show their sagacity in going through their "stunts," one of the nearest of which is an exhibition of balancing on a ball sphere, which is skillfully tossed about the stage by a leopards' dextrous work. The animals do some graceful leaping at command and the familiar "teetering" act, winding up with the spinning of a metal wheel in squirrel fashion.

## ABSENCE OF MR. FIELDING DELAYS CABINET MEETING

By-Elections Expected to Be Brought on in a Month—Disputes With N. S.

Ottawa, Aug. 28.—(Special.)—The much-talked-of cabinet meeting was held this afternoon, and whether it was the absence of Mr. Fielding or not, nothing was done, and the non-arrival of the erstwhile member for Shelburne and Queen's was given out as the cause. Mr. Oliver was the other absentee. The minister of the interior at present visiting European resorts.

Preparatory to the arrival of the minister of finance, who came in tonight, the question of the seven by-elections was discussed and unless Mr. Fielding is anxious to postpone the agony these will be brought on immediately, and may be looked for in about a month.  
The matter of the cutting of American fishing nets on Lake Erie by the skipper of the Canadian cutter, Vigilant, has also been under discussion. The vigilants discovered American nets set in Canadian waters, a habit to which our fishermen are very prone, and these nets were promptly rendered of no avail for fish catching. But a complaint or something very like it had come from Washington, and in deference to our American neighbors it is probable that an enquiry will be made into the matter. There is a real fear of faith in the capacity and judgment of the captain and crew of the Vigilant, however, at headquarters, and it may be taken for granted that very little more will be heard of this affair.  
Several other matters of dispute between Canada and the United States, which are awaiting settlement, were brought up amongst which was deportation. This, however, will be laid aside until Mr. Oliver returns. He is observing closely the whole immigration question at present. It is hinted that his proposals will be radical.

## IGNORE INJUNCTION.

Abitrators Will Take Evidence as to Value of Street Railway.  
Berlin, Aug. 28.—(Special.)—The board of arbitration to fix the value of the Berlin & Waterloo Street Railway Co.'s plant met this morning and decided to take evidence notwithstanding injunction proceedings taken by John Cumming on Monday.  
Judge Jamieson presided and Judge Morgan and J. M. Scully, the other arbitrators were present. Geo. Kapell, Toronto, appeared for the company, and J. A. Seaton acted for the town.  
The solicitor for the company intimated that if the arbitrators gave evidence to claim that it should receive the value of the plant at present and not the actual cost of material. It also expected compensation for the plant as a going concern and for the Waterloo franchise, which the company has received for the April 1st, 1907, at the time that town taking no action to acquire the franchise.  
John M. Campbell, valuator for the company, and assistants, gave evidence during the afternoon. They valued the plant at \$114,000.  
The arbitrators will continue during the entire week.

## PREFER NEW ONTARIO.

Quebec Priests Predict Nipissing Will Become Exclusively French.  
Montreal, Aug. 28.—(Special.)—Rev. Alphonsse Viau, parish priest of St. Julien de Montcaillon, who has been traveling over New Ontario with Rev. Eugene Lapierre of St. Leon, returns here with the opinion that the district of Nipissing will become an exclusively French centre.  
The Rev. Father Lapierre and Rev. Capron, they found that Canadians were very well-to-do, whom they had known decidedly poverty-stricken in this province.  
From this out these two gentlemen will preach the gospel of New Ontario instead of adding their complaints to emigrate to the Canadian or American northwest.

## JURY FINDS FAULT.

Condemns System of Signalling and Despatching on Radial.  
Hamilton, Aug. 28.—(Special.)—The jury which investigated the circumstances of the death of Alfred S. Barnes, the motorman who was fatally injured in a head-on collision near the canal Saturday, brought in the following verdict to-night:  
"We find that Alfred S. Barnes came to his death as the result of a collision between cars, and we condemn the system of signalling and despatching of cars on the radial road and would commend that the obstruction to the motorman's vision at this point be removed."

## Trust Company Wrecked By Dishonest President

One of Philadelphia's Strongest Institutions Closes Its Doors—Death of its Chief Causing Investigation of Its Finances.

Philadelphia, Pa., Aug. 28.—Unable to meet its obligations because of the large amount of money loaned on insufficient security by its president, now dead, the Real Estate Trust Co. of Philadelphia, which, up to last Saturday, was considered one of the strongest financial institutions in the city, closed its doors to-day, and Geo. H. Barle, Jr., a prominent financier, was appointed receiver.

The liabilities of the company are placed at \$10,000,000; against this are quick assets of about \$3,000,000 and collateral of about \$8,000,000, which is not negotiable or readily convertible. The doubtful collateral is held mostly as security for loans of about \$3,000,000 made to Ador Segal, a promoter of this city.  
The man responsible for the failure was Frank K. Hipple, one of Philadelphia's best-known citizens who died suddenly, last Friday morning, in his country home at Bryn Mawr, near here, under circumstances which in the light of to-day's developments, lead to the suspicion that he may have committed suicide.  
The receiver of the company are placed at \$10,000,000; against this are quick assets of about \$3,000,000 and collateral of about \$8,000,000, which is not negotiable or readily convertible. The doubtful collateral is held mostly as security for loans of about \$3,000,000 made to Ador Segal, a promoter of this city.

## Piano Manufacturers Expect Labor Trouble.

Meeting Will Be Held To-day and a Statement May Follow.  
There seems to be something akin to trouble expected by the piano manufacturers.  
A meeting of the big employers is to be held to-day. Just what is expected or feared, one of them, who was spoken to last night, declined to say, but it has evidently to do with the labor situation.  
"It is wages," he was asked. "I'd rather not tell you to-night" was the reply. "To-morrow evening we may be able to give you a statement."  
Whether the expected trouble is confined to one factory, or is extended, could not be ascertained.

## LOWERY'S CLAIM CUT OFF.

Allerged Ribald Paper Refused Use of Mails.  
Ottawa, Aug. 28.—(Special.)—The postoffice department explains that "Lowery's Claim," published at Nelson, B.C., has been refused transmission thru the mails on account of its alleged blasphemous and ribald character.  
Several complaints have been made to the department during the past few months with regard to the nature of this publication, and sometime ago Mr. Lowery was warned that unless he moderated the tone of his paper he would be subject to departmental action. He promised to do better, but in the opinion of the department has gone from bad to worse.  
When attention was called to a recent issue by a prominent Canadian clergyman, the department had no other alternative than to close Lowery out.

## PRESIDENT A SUICIDE.

Philadelphia, Pa., August 28.—Persistent rumors that President Hipple committed suicide were borne out to-night when it was authoritatively stated that he took his life at his home last Friday morning.

Mr. Hipple is said to have taken a dose of laudanum with suicidal intent. While still conscious, he allowed the bath tub with water and later was found apparently drowned.  
Mr. Hipple's family decline to make any statement of the death and his wife declines to be interviewed regarding the suicide theory.  
The liabilities of the company are placed at \$10,000,000; against this are quick assets of about \$3,000,000 and collateral of about \$8,000,000, which is not negotiable or readily convertible. The doubtful collateral is held mostly as security for loans of about \$3,000,000 made to Ador Segal, a promoter of this city.

## MAN ARRESTED FOR MURDER.

Police Find No One Dead.  
Fifteen-Year-Old Girl Supposed to Have Been Strangled and Suspect is Locked Up.  
Ottawa, Aug. 28.—(Special.)—Otto Kaufman, 18 Redpath-avenue, Ottawa, was arrested in Killaloe yesterday by Chief of Police McDermott of Renfrew, under suspicion of being guilty of murder. He was released a short time afterwards, as the charge upon investigation seemed to have no basis of fact whatever.

Killaloe was all excitement over an alleged murder of Miss Hartwick, a 15-year-old German girl, living about five miles from the village. The story was that she had been choked to death Sunday evening, and before Chief McDermott had made his telegram asking for his presence at the village. He caught the first train, and upon arrival found the people all of opinion that a murder had been committed, and that Kaufman was the man guilty. He took the accused in charge, and with Magistrate T. Roush drove out to the farm of Herman Hartwick, the father of the supposed dead girl.  
To his surprise he found the girl there. No marks of violence were apparent on his person, and he was having seen a man at all at the time in question, and refused to answer any questions.

Her stepmother volunteered the information that a stranger had struck Miss Hartwick over the head with a club on Wednesday night last, and that on Sunday evening about dusk as she had been going to the milk house and seen a man on her throat was visible, but he took her hair on the top of her scalp were a few minor scratches.  
The chief released Kaufman.

## CAR MEN SCORE A POINT

QUESTIONS AT ISSUE NOW ARE AS TO WAGES AND HOURS OF WORK.

Hamilton, Aug. 28.—(Special.)—All possibility of a strike of the employees of the electric railways under the control of the Cataract Power Company appears to be passed as the result of the company to-night agreeing to meet the men to-morrow morning and discuss the matters in dispute.  
The company notified the men to-night, after considering the draft of the threefold agreement presented by the men. They will be quite satisfactory to them. This means that the men will be represented by a committee from each of the roads, and that the president of the union may confer with these committees.  
This is an important point in the men's favor, and the company's action is practically a confirmation of the promise made by Hon. J. M. Gibson a few days ago.  
Now that this point is settled the questions at issue are with regard to the wages and the hours. The rate at present is 16 cents an hour for head men, 17 cents for second year, and 18 cents for third year.  
The men will ask for an advance as follows: On first year, 21 cents; second year, and 22 cents, third year. With regard to the hours, the men claim to get at least eight hours a day in about 18 hours in order to make a 10-hour day, and they want a rearrangement so that a man may be able to get his ten hours in at least twelve or thirteen hours.

Unless something unforeseen happens to upset the arrangements, the issue between the company and the men will be settled amicably.  
NO FEAR OF YANKEES.  
Those Going into Northwest Will Become Ultra Canadians.  
Montreal, Aug. 28.—(Special.)—Geo. H. Locks, an expert agriculturist, who has just visited the Canadian West in the interest of The New York Farming, is here to-day and declares that the people who are coming into Canada from the south will be all pro-Yankees.  
"There need be no fear," he adds, "but that Canadians will be able to hold their own, and the newcomers will become ultra-Canadians in sentiment. The other day I talked with an American, who had had settled in Canada, how he was going to vote.  
"I don't care how I vote," he said, "as long as I keep those damned Yankees out."

### YOUR COLUMN

**YOU BET THEY ARE SLOW.**  
Editor World: "Are Canadians slow?" You bet they are slow. The slowest of the things that stare us in the face every day, and that everyone admits there is a demand for. We need more hotel accommodation in this and other cities in Canada. People are being turned away by hundreds every summer, and thousands of dollars are lost every season, all because Canadians are too slow to take advantage of the opportunity that lies at the slightest moment. Why, it's like taking candies from a baby.

We need public swimming baths in this city. Everybody knows it. Will we get them? Perhaps in ten years from now, when the people have had time to "think it over."  
We need a more modern system of street numbering, particularly on business streets, so that people can find whereabouts on a street a certain number is. There is no better system, as far as the writer knows, than that of giving 100 numbers to every block. They have this system across the line, for many years. Everybody knows it is immensely superior to our present system. Will it ever be introduced here? The Lord only knows.

We need a more satisfactory system of displaying the names of streets at street corners. Half the time there are no names on the corners, and the method of printing them on the sidewalk is little use in winter. Buffalo long ago solved this matter by having the names of the streets bulldozed in iron on neat iron lamp-posts on every corner. These lamp-posts are by no means unsightly, but are rather an ornament. Everyone knows we need some sort of system here, and have needed it for years. Let a man—even a resident of the city—try to find a certain street and number on the outskirts of this city after dark, and he might as well be in a howling wilderness. Will anything ever be done to improve things? Yes, sure, when the day is frozen over some August, perhaps they will do something.  
And someone might go on, ad infinitum. Doubtless many other things will suggest themselves to the reader. Give them another prod. P. W. T.

**QUERY FOR THE MAYOR.**  
Editor World: I read in your paper a report of Mayor Coatsworth's speech in which he referred to the Hon. Mr. Morine. Will you tell me who he is? I would like to know his name and where he comes from? Citizen.

**ANSWER TO STUDENT.**  
Editor World: "Student" is herewith informed that the author of the lines "All hush is grass and grass is hush; We're here to-morrow and gone to-day" is Harry Lindley. W. B. Franks.

**NOT AS DEMOCRAT.**  
Hearst Will Not Accept Nomination From Party.  
New York, Aug. 28.—William Randolph Hearst said today in the course of an interview that he would not be a candidate for governor at the next election on the Democratic ticket.  
"I shall run only as the nominee of the Independent League," he said. "Of course I should be glad of all the Democratic votes I could get." Jerome, he declared, is more anxious to satisfy the bosses than he is to serve the people. He also said he did not believe Murphy was supporting him, Murphy's object being to affect the primary voting and to confuse men on Hearst's side.  
"Is there any truth in the report that there is a coolness between you and Mr. Bryan because of the fact that you may be a presidential candidate in 1908?" he was asked.  
"Not the slightest truth," he said.

### HAMILTON HAPPENINGS

#### FEEL SURE OF SETTLEMENT IN CATARACT MORE DURABLE.

General Satisfaction That President Mahon Counseled Peace at Midnight Meeting.

Hamilton, Aug. 28.—(Special.)—There is general satisfaction among the public at large, and especially the merchants and manufacturers, to-day at the outcome of the negotiations between the electric railway companies. Since the conference between representatives of the union and General Manager Hawkins at his house last night, at which an understanding was reached, that the company would agree to a settlement from each of the roads, with the president of the union, the men sent a respectful agreement to the company. This morning the electric railway manager Green stated today that he had received the agreement, but it had not been considered by the company waiting the return of Manager Hawkins, who is in Toronto. However, Mr. Green felt confident that a settlement would be arrived at. He refused, however, to discuss the possibility of an increase in wages, and a rearrangement of hours.  
The executive and resident Mahon and Magnus Sinclair, the Canadian representative, have the matter in hand now, and expect a reply from the company shortly.  
Credit to Mahon.  
Much credit is given to President Mahon of Detroit for withholding the men from striking last night. When the meeting was called, more than half of those present were ready to vote for a strike without any negotiation whatever. But after Mr. Mahon, in an eloquent address, counseled delay, and urged the men to take time and consider the company's offer, the men voted almost wholly in favor of delay.  
Mayor Biggar's Denial.  
The statements in The World yesterday morning to the effect that Mayor Biggar of Detroit was a public disfavor by what has been considered premature action in communicating with the militia officers with a view to having troops called out in case of trouble, has had the effect of causing the mayor to make a short denial of the statements to the press to-day. He said:  
"Several of my friends have spoken to me about them, and have asked me why I do not deny them. I wish you would say that I do deny them. They are without foundation. I have never requisitioned the militia, and do not propose to do so unless the occasion demands it."  
It will be seen by this that the mayor denies that he requisitioned the militia, whereas The World accused him of communicating with the militia officers with a view to having troops called out in case of trouble. Nothing was said about requisitioning the militia by the city council.  
Solicitor's Body Home.  
The remains of City Solicitor MacKeigan were brought from Minneapolis, Minn., this morning, and the funeral will take place on Thursday afternoon at 4 o'clock. The city council will hold a special meeting on Thursday afternoon, and will attend the funeral in a body.  
The license commissioners to-day transferred the hotel license of T. E. Fairchild, at the corner of King and Caroline, to James & Goldberg, unconditionally.  
A deputation of the Garment Workers' Union will arrive in the city tomorrow and will be entertained by the aldermen on the mountain.  
The Toronto Daily and Sunday World delivered to any address in Hamilton before 7 a. m. daily, 50c a month; 50c per copy. Hamilton office, Royal Hotel Building, Phone 965.

### LOCAL FRUIT MARKET.

Late Arrival of Commodities is a Complaint That is Made.  
Tuesday's market was fairly heavy, but prices showed a firm tone, generally speaking, and Monday's quotations suffered little if any decline. One feature of the wholesale market which serves to restrict trade somewhat is the late hour in the day at which the fruit train arrives. Instead of coming in the morning at 11 or shortly after, allowing plenty of time for the disposal of the fruit, it is usually a clock before the last of the consignments are unloaded.  
Some very fair shipments of grapes were sold on the market yesterday, but much of the offerings were of the ordinary class and the market was heavy. A basket of California peaches brought from \$1.75 to \$2.00 a basket. Moore's Early from \$2.00 to \$2.50 a basket and Niagara from \$2.00 to \$2.50. Reports from the Niagara district are most optimistic concerning this crop. Tomatoes are unchanged at from 30c to 40c a basket.  
Mr. Belknap sold an especially fine consignment of strawberries at 29c per lb. low St. John peaches sold all the way from 30c to 40c a bush, with the other varieties going at from 25c to 30c.

### WHY THE ICE DIDN'T COME.

It Was Delayed at King City owing to Railway Wreck.  
One-third of the daily supply of ice for city consumers wasn't delivered yesterday, and one-third (or thereabouts) of the aforesaid consumers wanted to know why. Their ice was not as pronounced as it would have been a week ago, but there is still a torridity in the air that made the absence of the fringed chunks of water from Lake Simcoe seriously felt.  
It was all due to the railway accident at King station on the Northern division of the G. T. R. between the city and Aurora, in which two freight trains were concerned. There were seven cars of ice, three each for the Knickerbocker and Belle Ewart Co., and one for the Lake Simcoe Ice Co. Altho the owners were in telegraphic and telephonic communication with the railway authorities all day, nothing was learned as to when the ice could be expected to arrive.  
It requires about 20 carloads of ice a day to supply the demand. The "reserve" supply, stored in the city houses, was almost exhausted during the recent hot spell.  
COLLISION AT KING.  
A freight train, south bound, running at 30 miles an hour, hit an open switch and crashed into a standing train of cars near King station early yesterday. The engine and fireman jumped and the locomotive was derailed and almost buried in a bog along side the track. Five cars were overturned, three of them bottom up.

### How we purchase Diamonds

We have a permanent gem-purchasing office at 2 Fullpenny-street, Amsterdam. All diamonds are bought direct from the cutters—and for "spot cash." Then, too, they reach us, duty free.  
Being "on the ground" all the time, we can take advantage of the slightest price-variation in the market.  
Altogether, no other firm in North America can sell you higher-grade diamonds at so moderate a price. And our stock is one of the three largest on this continent.

## C. C. ROBINSON DEFENDS DISPUTED CLAUSE IN ACT

### Most Municipalities Have Agree- ments as to Expropriation, He Says.

C. C. Robinson was seen by a World reporter, and asked as to his opinion concerning the "volker" in the Railway Act, and the ruling of Justice MacMahon in the Berlin case to the effect that section 202, authorizing municipalities to expropriate street railways, did not apply to existing franchises.

"I am very glad to discuss the matter," said Mr. Robinson, "for I draw the act, and my name has been mentioned in this connection. Moreover, I think that I should comment upon the articles in the World in justice to the Ontario Government.

"You have quoted Judge MacMahon quite correctly, but you should remember that what he said was his construction of that act, and is not the decision of a court. The act passed in 1895 conferred to the municipalities power to expropriate, and, in my opinion, such power was not intended to be limited to the act passed in 1895. The Street Railway Act of 1895 gave the municipalities power to take over street railways."

"Did that not repeal the Street Railway Act of 1895?"

"No; but as a matter of fact, nearly every electric railway has been transferred to the municipalities which permit them to take over the road from the franchise holder. Now, section 230, Highway Act of 1906, provides: 'This act shall not, except where the same is so expressed, be construed to vary or rescind, or to confer upon the board power to vary or rescind, any agreement lawfully entered into between a municipal corporation and a railway or street railway company, or between two or more railway or street railway companies, prior to the passing of this act.'

"Says Few Are Affected.

"So, practically, I do not think that it will affect many roads, even though Judge MacMahon's construction was correct."

"As to roads like the Metropolitan, that had no expropriation agreements, the position of the public as to them is improved by the Railway Act."

"Mr. Robinson claimed that many interests had been heard before the bill was drafted, including the City of Toronto, the counties of Peel and York, the cities of Guelph, Hamilton, etc. We also heard the representatives of all the railways, the labor unions and citizens generally, who take an interest in railway and municipal matters, including W. F. Macleod, M. P. We tried not to modify any contract rights," he concluded, "except in the clause fixing a two-cent fare. That is made universal, except as to the Niagara Falls Park and River Line. This line, by the way, charges ex-

# CANADA'S GREAT FAIR

Continued From Page 1.

Mulock, and it was said that the letters were better delivered when he was postmaster-general than at present, since several invitations had gone astray, among them one to R. L. Borden, M.P. Mr. George deeply regretted the circumstances that he placed him in the chair, and he felt sure he was joined by all the officials of the fair and the citizens generally, in sympathizing with President McGillivray in his serious illness.

The royal toast was then drunk with musical honors and cheers. Donald McGregor sang a patriotic ditty.

"Paying him a fine compliment for his practical efficiency as postmaster-general, President George introduced Sir William Mulock as one always ready to devote his time and energy to the advancement of Toronto. Through it had been possible to purchase the Garrison Common addition to the fair grounds, Sir William Mulock's health was drunk with cheers."

As Others Saw Him.

Sir William Mulock acknowledged the compliments he had received, but said he could not judge the progress of Mr. George's account. He could truthfully say from the bottom of his heart that he could recall no banquets which gave him such satisfaction as these annual banquets of the exhibition. Food of her past, confident of her future, Toronto might appear to Governor Mulock of the fair, at first thought to be ephemeral, but now grown into the permanent Canadian National Exhibition.

It was a pleasure to see the strong and able men of Canada, irrespective of politics—and he did not know what it was to judge the progress of Mr. George's account. He could truthfully say from the bottom of his heart that he could recall no banquets which gave him such satisfaction as these annual banquets of the exhibition. Food of her past, confident of her future, Toronto might appear to Governor Mulock of the fair, at first thought to be ephemeral, but now grown into the permanent Canadian National Exhibition.

He welcomed those from abroad, from whatever point, and was pleased to think that they would be able to report that the half had not been sold, and that Canada held her place among the foremost of peaceful and progressive nations. The exhibition had strong part to play in connection with Canada's national life, and it was for these reasons he felt such enduring satisfaction in these annual banquets.

The party adjourned to the dairy building shortly after 2 o'clock, where Mr. Gordon presided over the banquet. Mrs. Clark, Capt. Douglas Young, A. D. C.; Sir Henry Pellatt; A. C. Pratt; M. L. A.; J. A. Paterson, R. C. C.; City and County officials and citizens awaited the opening ceremonies.

Sir William Mulock, with the honorary and the acting president, entered the white box prepared for him, which was draped in tri-color, and contained the fateful push-button. The band played "The Maple Leaf" as he appeared, and as soon as the address was clear Mr. George read the address to Sir William.

The address reminded Sir William that, as a resident of Toronto for many years, and as one of its prominent and public-spirited citizens, he had every opportunity to judge the progress of the city and of the share which in the exhibition had had in the promotion by the Dominion of the fair. He had conferred not only upon Canada, but upon the empire, benefits that would be ever valued. In educational matters he had ever taken a deep interest.

"Thus, sir," continued the address, "the directors have honored me by having me so eminently fitted as yourself to preside at the opening ceremonies of an institution whose main aims are national development and education."

It was most gratifying to the directors to know that the exhibition had prospered in every particular, and that the prospects were that all records would be eclipsed.

## DESERTS HUSBAND.

**"Tired of Life, Going Away to Find Situation," Writes Bride.**

Detroit, Aug. 28.—William M. Caudeville, a young Englishman, who came to Toronto two years ago, and was employed on the Grand Trunk, married a Miss Hopwood a short time ago, and six weeks ago came to Detroit with his bride.

He was not as successful in getting permanent work as he had hoped to do. Two weeks ago, during his absence from their rooms, his wife disappeared. He looked for granted that she was on a visit that she had contemplated, but now finds that she has not been at her friends.

He has just found a note which she left, which had escaped his notice, in which she says: "I am tired of this life and am going away to find a situation. He is unable to locate her."

## FOR APPROVAL OF BOARD.

Ottawa, Aug. 28.—(Special.)—The city to-day forwarded to the Ontario railway and municipal board the by-law authorizing the issue of debentures to the amount of \$50,000 for extensions to the service of the municipal lighting system.

The approval of the newly created body is solicited before the measure, which has had two readings—is advanced to the final stage.

The municipal plan has been somewhat handicapped on account of lack of extensions necessary for business, and the step now being taken is expected to overcome the difficulty.

Contrary to popular belief feather pillows are improved by a sunbath now and then. They need the sun as well as air, and should be placed in the sun regularly every few months.

## Land of Peace and Plenty.

Sir William once more deprecated the complimentary personal tone adopted, and declared with tones of moving sincerity that he was in a very happy mood of destruction in the land of Canada was still receiving thousands and hundreds of thousands who were turning their backs on Europe. Adopting an authoritative interrogatory tone, he enquired what other country could combine the advantages of Canada? The lieutenant-governor did not reply, and no one else seemed inclined to rob him of precedence, so Sir William proceeded to illustrate the advantage of living in a country without a parallel which could organize an exhibition similarly unrivalled.

"Show me your castles," asked the man from Europe; "show me your engines pouring out death and destruction." Sir William would take such a traveler to the homes of the masses of the people and exclaim:

"These are our castles." He did not say he would point to our street cars and automobiles as engines of destruction, but indicated the granaries of the farmer as objects for the traveler's study.

"These are our strength," he declared, taking a higher strain. "Thank God we have no battleships and no engines of destruction in the land of Canada."

## Garrison Common to the City for the Purpose of a Public Park.

"I was assured if the request was granted the grounds would be beautified and made a source of pleasure to all the citizens. I carried that pledge to my colleagues, and it was the understanding that the land was to be used for public purposes. I have no doubt the promise will be implemented, but lest it be forgotten, I have thought it would be well to remind those who have short memories so that a commitment might be made in bringing about that desirable end."

Major Coatsworth pricked his ears.

"I was assured if the request was granted the grounds would be beautified and made a source of pleasure to all the citizens. I carried that pledge to my colleagues, and it was the understanding that the land was to be used for public purposes. I have no doubt the promise will be implemented, but lest it be forgotten, I have thought it would be well to remind those who have short memories so that a commitment might be made in bringing about that desirable end."

Major Coatsworth was still very attentive as Sir William proceeded. He suggested that the development of the park should be one of gradual growth. There should be no mistakes. Advice should be got as to the general scheme, so that there should be no patchwork, and each year's work would then fit into the plan.

"When completed we would have a landscape and a piece of park not to be surpassed in beauty in Canada, or perhaps in the world."

Don't Need the Soldiers.

"This Canada is in fact the only country in the world worth living in. It is not burdened by some military debt handed down by ancestors," as continued, reverting to the previous speaker. "Our energy would be devoted to developing the country. Our six and a half millions are united in this common object. War and peace do not postulate preparation for war leads to war. This is the last spot on God's earth to which man may come and not pay tribute for the mistakes of his ancestors."

Sir William then turned to the matter in hand and with a dramatic gesture and a playful sentence or two "touched the button." The horns at the machinery building immediately raised their clamor, the whistles sounded, the band played the National Anthem, everybody cheered and the exhibition of 1906 was in full swing.

## EXHIBITS WORTH SEEING.

**A Remarkable Exhibit.**

Unique and interesting is the display of the Cambridge Society of Canada, Limited, at the west entrance to the main building. The exhibit consists of library, books, furniture, pictures, etc. all the work of the society. It is one of the best exhibits of the kind ever seen in this country before. The place of honor is held by a superb copy of the Coronation Prayerbook of King Edward VIII, proclaimed by connoisseurs the highest achievement in typographical art since the days of William Caxton. It is impossible to describe in detail the other magnificent works, including editions bound in gold and leather, and a collection of Guy de Maupassant, Gustave Flaubert, Benjamin Disraeli, Voltaire, etc. The world is not so lucky as to have a citizen who had no idea that such workmanship was possible, and the lover of the "book beautiful" will look with great pleasure on this masterpiece.

Some of the volumes are valued at \$100. Of course, every grade of their publications is shown, from the cheapest to the highest priced. A large number of the binding designs are copies from originals now in the British Museum, and include the works of etching, steel engraving, and the skill of Italy, France, Germany, etc. Some very old manuscripts are included, and are especially interesting.

The whole exhibit is highly creditable to the company, and the features of the books are abundantly demonstrated by the librarians in charge, Mr. F. A. Culbertson and Mr. F. B. Goodman.

## The Poor Cohens.

The Cohen family have had a great deal to stand for, but this is the limit. "Speller" on the midway is continually shouting "Ice cream Cohen; eat it while you walk."

Christie, Brown & Co.'s Exhibit.

One of the first exhibits to the Canadian National Exhibition, as it is now called, when it was established, nearly 30 years ago, was the firm of Christie, Brown & Co. Since then they have had a long and successful career, representing the skill of Italy, France, Germany, etc. Some very old manuscripts are included, and are especially interesting.

The whole exhibit is highly creditable to the company, and the features of the books are abundantly demonstrated by the librarians in charge, Mr. F. A. Culbertson and Mr. F. B. Goodman.

## Filled With Loyalty.

Chaplain John Nunn and his fellow-clergy are occupying their old position in Machinery Hall, and are working one of the most interesting and attractive displays yet shown by this concern.

Many new features mark this year's exhibition, notably a Dominion coal car equipped with three tons, which is easily moved by the light pressure of one hand, thus demonstrating the wonderful power-saving qualities of the Chapman Ball Bearing. A fuller description will be given in a later issue.

## Things to Be Remembered.

A child was repeating the Lord's Prayer at his parents' knee. When he had got as far as "Give us this day our daily bread," said he, "Let Him give us tea, too!"

## Gourelay Pianos

### IN ART CASES

It is not fitting that Gourelay Pianos, representing the highest type of Canadian piano building, should be manufactured in art cases, designed and decorated in the pure style of the different art periods of the seventeenth, eighteenth and nineteenth centuries.

Of the periods so represented there is perhaps none more frequently admired than the **SHERATON**. We are showing among others an **ART GOURELAY** in this design (see drawing below) at the Exhibition this year, and cordially invite your most critical inspection.

The quality of ALL Gourelay pianos is of the highest. They mark an achievement higher and better than that hitherto regarded as the best.

## ANIMAL ACTS ARE FEATURES

They are well worth a trip to the fair grounds to see. Coming to the merrily human element, there is a plethora of cleverness, and it is most diversified. Perhaps, Cottrell and Powell, in their equestrian act caused most comment. For those who have long waited in vain for something new to be sprung in feats a la horserack, this act will be welcomed with open arms. The dramatic personae are blonde, lady in blue, a gentleman in street attire, and a span of horses that have nothing to do but amble around at a placid gait. But what this pair contrive to do in the way of gymnastic mix-ups and complications is a real marvel. It is all carried out in matter-of-fact way, and the action is continuous. The spectator hardly knows whether to be afraid or applaud, but he is impressed.

The chariot races, which come near the end of the program, stand out as a bright, particular feature. With four horses drawing each chariot, and with the drivers seemingly straining every nerve to win, some of the most brilliant spectacles. Decidedly, it created a sensation yesterday.

The Kita Sansas Japanese troupe have as a feature a slide down a tight wire, which gives a sensation for a second or two. They have as stock in the trade barrel juggling with the pedal extremities, hand juggling, pole balancing, etc., and are clever in each and all of their turns.

Uses His Head.

The feat of descending 16 steps on one's head is on the surface of it a difficult one, yet it is successfully performed by one of the four Putty Brothers, who combine in some novel head balancing work. There are a couple slack wire artists, and the old favorite, "Jim" Hardy, who blossoms out in the garb of sailor and proceeds to tread the straight, narrow and narrow path of a tight wire in a sack. He also wheels across, rests on a chair, and sprouts over the cable while the onlookers hold their breath. Another feature is the Abdullah Ben Hamad type. He is a Arab, who mix comedy with the serious side of acrobatics. Also gymnastically inclined are the four Dunbars. There are no less than three truck-house turns, in which sliding doors and panels are used to the limit. The humor is not too subtle, and makes for merriment, especially with the children.

A Sea-Sick Parrot.

A lady went to a bird fancier for a parrot. She complained that the last bird he had sold her used very bad language. "Well, madam," said he, "there is a bird that I can rely on; it was brought from abroad quite lately, and the whole voyage it was in the ladies' cabin, and never heard the sailors talk at all." The lady took the parrot. A week after she brought it back to the shop, visibly angry. "Surely," said the bird, "I never want to see a parrot again."

BEAT THE BISON TWICE

Baltimore Outscores Jersey City—Providence and Newark Split. Up Double-Header.

Toronto beat Buffalo two games yesterday, but partially explains why Stallings tried to sneak a victory on Monday. Baltimore beat Jersey City, but the Bisons still lead the Skeeters by a margin of 2000, to the three figures show the same percentage.

Toronto 8, Buffalo 2. In the first game Mitchell and Kissinger were the opposing twirlers. After the initial inning Mitchell had the bestman at his mercy. It was quite different with Kissinger. Toronto went right after him from the first, and scoring on a total of 16 safe bluffs, aided by six misdeeds of Buffalo, scored eight runs.

Another Double Header To-Day. Toronto and Buffalo will play another double-header to-day at Diamond Park, at 2 and 4 p.m. McCarthy and McCaffrey will likely do the twirling for the locals, and Brockert and Greene for the visitors.

# To Merchants and Buyers

## We have much pleasure in inviting you to visit our Warehouse during our annual Sorting and Exhibition Sale

Which will be held concurrently with the Canadian National Exhibition and for which our buyers and department managers have made special preparation by securing many lines of **SCARCE AND SEASONABLE GOODS.**

We have specials in each department, as advertised in our booklet "Sorting Suggestions," but sales on Monday and Tuesday so materially decreased them that we now fear they will not hold out until the Exhibition closes. We, therefore, strongly urge an early visit to our Warehouse to inspect the lines referred to.

## CORNER BAY AND WELLINGTON STREETS —TORONTO—

### CUBAN VISITOR TELLS OF PROSPECTS IN CUBA

Says so-called Revolution is Newspaper Sensation—Enormous Profits in Fruit Growing—Island as a Winter Resort—Developments Under Way.

Fresh from the island of Cuba, and looking somewhat tanned, but vigorous, Mr. Edward A. Kummel was seen by a world reporter yesterday. He has spent several years in the tropics, and two of them in Cuba, and as he is an enterprising citizen of that country, his views on conditions down there will naturally be read with interest. Mr. Kummel, about eighteen months ago, purchased from the Canada-Cuba Land Co. one thousand acres of land, and organized the Ocean Beach Fruit Co., which is now doing an immense business in the cultivation of fruit of every description.

The subject of the "revolution" in Cuba was the first subject to engage Mr. Kummel's attention. "I guess I know the latest conditions down there," said Mr. Kummel. "I get four or five letters a week from there, and I am quite disgusted with the false notoriety this revolution has given in the papers. Out of four letters I have received this week, one is from my wife, who is in Havana, one from an Englishman, who shares my office and also has a large plantation there, and two others are from my independent, who is managing my plantation of one thousand acres right in this supposed revolutionary district. The men folks do not mention it at all, and my wife merely says that there are rumors of revolution in the air. These letters were written after the newspaper notoriety had commenced up here. To me, who am posted on conditions down there, the telegrams are so contradictory, misplacing details and towns, that the whole thing is very ridiculous and laughable.

**Facts About the Uprising.** "The facts, as I know them, are that the negro politicians have taken to the roads with a following of a handful of men, one of whom has already been killed, and the other will probably be killed this week, as he is retreating as rapidly as the government forces catch up to him. I have spent down there this year some \$20,000 in this supposed disturbed district, and also have a family in Havana, and were I as anxious, or did I for a moment think my property or my family were in any danger, I would not be here, but would be taking the first boat back. As it is, I have no intention of going back for some time yet. I will make a prediction, and it is that the entire generation will be over this week. There has been neither destruction of property nor loss of life, nor have there even been battles fought, unless one or two skirmishes, such as you would

last winter at my home in Havana, the thermometer did not get below 50 all winter, and not an evening passed that we did not spend out on our front porch. My wife, who by the way is a Canadian, has not suffered from rheumatism whatever since going to Cuba—an ailment to which she was very subject when living in my home town of Milwaukee.

**Not a Poor Man's Country.** "While one cannot exaggerate the opportunities and the future of Cuba, I do want to say, however, that it is not a poor man's country. No one should go there without capital, as all conditions and customs are strange, and, like everything else, one must pay for his experience. While in these American colonies Spanish is not absolutely necessary in order to do business, the knowledge of the tongue is a great help and should be acquired. Then, again, the seasons and climate offer problems which have to be learned, and which cost money to be learned, hence repeat, no one should go there without capital to carry him for a time. But young men with a certain amount of capital, backed by the necessary practical experience, cannot do better than go to Cuba. To illustrate, I may quote from my own experience.

I went to Cuba four years ago, spending the summer traveling over the island, came north and attempted to organize a company on some options of land that I had secured, but found that Wisconsin capitalists were uncertain as to the stability of the country. Hence I failed, but was offered the management of a large Mexican plantation on a two-year contract. At the expiration of that period I again returned to Cuba with \$1000 in my pocket. Again I spent six months in investigating, using my capital for that purpose. Then I came north and found no difficulty in financing my company, as the intervening years had established among northern investors confidence in the future. Now what I have done, can be done by any active and enterprising young man. Others of my friends have embarked in agriculture on their own resources, preferring to do so than to organize companies. In either field, I consider the opportunities are great.

**Van Horne a Pioneer.** "No one," said Mr. Kummel, "has done more for the island of Cuba than Sir William Van Horne, nor has any one shown more foresight and invested more money in the island. He has not only built the railroad, but he has induced enormous capital to invest in all kinds of enterprises, spends a great deal of his time there, and I have yet to see the interview with him in which he does not recommend the investment of capital in Cuba.

**Cook's Cotton Koot Compound.** "The great Urtine Tonic, and the great Urtine Compound, which women can use with safety, is a most valuable preparation of strength. No. 1, 1 1/2, No. 2, 10 degrees stronger. No. 3, 15 degrees stronger. Sold by all druggists, or sent by mail, 25 cents per box, 50 cents per dozen. Free pamphlet. ### CHARGED 192 P.C. INTEREST

And Got Wages Assigned for 10 Years—Loan Agent's Bargain.

William Kehr, loan agent, was in court yesterday, charged with fraud by R. W. Palmer, 179 University. Palmer, who claimed he borrowed \$35 in August, 1905, and agreed to pay \$6.25 a month for a year to liquidate the debt. The paper he signed had the words, "being computed at the interest rate per annum of 192 per cent." Palmer said this was filled in after he signed the paper. His attention had been drawn to it.

In addition to a chattel mortgage, Palmer had also assigned his wages for ten years to come. "You can reduce the interest to 12 per cent. under the Dominion Act," said the crown attorney. "Will you be content to take 12 per cent. from the time the money was borrowed?" asked the magistrate. "I don't see why I should; the Dominion Act did not come into force till July 15."

**Cadets Doing Well at Ottawa.** This is the first occasion on which School Cadets from Western Ontario have entered the Dominion Rifle Association matches at Ottawa.

**Island Would Import U. S. Products Direct.** Copenhagen, Denmark, Aug. 28.—Telegrams from Reykjavik, Iceland, intimate that the Icelanders are planning to bring about the direct importation of American goods, instead of by way of British ports, as heretofore. The imports from America, especially petroleum, wheat, sugar and tobacco, have largely increased during recent years.

**Three Warships for \$103.** Washington, Aug. 28.—Three Spanish ships captured by Admiral Dewey in Manila Bay, May 1, 1898, were sold by the navy department yesterday for \$103.

**Not Caused by Fat.** Dr. R. J. Elliot, who attended Wm. Spottiswood in police court yesterday, said that the wound over his eye was too severe to have been done by Fat Maher's fist; it was likely an iron bar that had caused it, and cases for the defence will be heard to-day.

## PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. Sold by all druggists, or sent by mail, 25 cents per box, 50 cents per dozen. Free pamphlet. Address: Dr. R. J. Chase & Co., Toronto.

### SAYS HE WAS SWINDLED.

Paid \$5000 for Cobalt Claim and Cannot Find Minerals.

A Cobalt mine case was partially ventilated in police court yesterday, when Charles E. White of New York charged Charles R. Parsons, Joseph Montgomery, Herman Thompson and Emanuel Whitford with fraud in having sold him, for \$5000 cash, a lot in Coleman Township (south half of northeast quarter of porth half of lot 3, concession 4), which he says is not worth nearly that amount.

J. W. Curry, K. C., is counsel for White, and Jos. F. McLaughlin, White's agent, who bought the property, on the witness stand, said that the men accused told him the claim was rich in silver, assaying 170 ounces to the ton. It was two months before he realized there was a swindle, he said, and over \$500 had been spent in development work.

**SCOUNDREL, BUT NOT LIABLE**

**Bogus Count Who Robbed and Deceived Yankee Girl Escapes Law.**

Hamburg, Aug. 28.—Ewald Konrad, alias Baron Santos Von Dobrowski, Donnermarck, who was alleged to have deserted his American wife at Paris, taking with him \$8000 worth of jewels and some money belonging to her, was discharged yesterday, the court holding that he was not culpable under German law.

**ICELAND WOULD IMPORT U. S. PRODUCTS DIRECT**

Copenhagen, Denmark, Aug. 28.—Telegrams from Reykjavik, Iceland, intimate that the Icelanders are planning to bring about the direct importation of American goods, instead of by way of British ports, as heretofore. The imports from America, especially petroleum, wheat, sugar and tobacco, have largely increased during recent years.

**THREE WARSHIPS FOR \$103.**

Washington, Aug. 28.—Three Spanish ships captured by Admiral Dewey in Manila Bay, May 1, 1898, were sold by the navy department yesterday for \$103.

### ELECTRIC BULB KILLS.

Incandescent Light Brings Death to One and Shock to Another.

New York, Aug. 28.—Wm. Hoch, a Newark saloon-keeper, was killed by electricity in his barroom by a shock from an incandescent lamp last night. Hoch mounted a chair to reach the switch of an electric light over the bar. As his hand came into contact with the button he doubled up, pitched forward across the bar, and rolled to the floor dead.

**SLAYS FATHER WITH AX.**

**Spokane Youth Then Removes Body to Ally in Wheelbarrow.** Spokane, Wash., Aug. 28.—James F. Spokane, a pioneer merchant of this city, and senior member of the Spokane-Paine Company, was killed last night by his 17-year-old son, Sidney. The body was found to-day behind a pile of rocks in an alley near his home. Investigation proved that he was murdered in his room soon after midnight, the body then being placed in a wheelbarrow and carried to the alley.

**\$1.50 Niagara Falls and Return—\$1.50.**

Steamers of the Niagara Navigation Co. leave from the foot of Yonge street, six times daily, with the exception of Sunday. During fair time, Niagara Falls and return \$1.50; Buffalo \$2. Tickets good for two days. Consult agents.

**COAL IS DEARER.**

Coal "went up" 50 cents a ton yesterday, making the price \$15.50. Dealers declare it is the usual autumn increase.

**Go to New York at Low Rates.** \$11.25 round trip from Suspension Bridge or Buffalo to New York via New York Central on Aug. 29; \$10 via West Shore. Tickets good five days for return. Full information may be had by enquiring from L. Drago, Canadian passenger agent, 69 1/2 Yonge street, Toronto.

CUBA--THE LAND OF SUNSHINE

CANADA-CUBA LAND AND FRUIT COMPANY, Limited

TO THE CAPITALIST.

Absolute security. Land that will in two years be worth five times the present price.

TO THE MERCHANT.

If your business or health fails a plantation will give you a handsome return. No laborious work in a climate of perpetual June.

TO THE WORKINGMAN.

An easy way of procuring a home. A future that cannot be obtained elsewhere. Don't fail to write or call. Every information freely given.

The heat in Cuba is never so oppressive as it has been the past week in Toronto.

Visitors to the Exhibition should call and see us, when all information will be cheerfully given and literature supplied.

If the United States assumes the government of Cuba, in six months' time not a foot of fruit land will be sold for less than \$200 per acre.

We Have Already Sold Over Forty Square Miles of Our Estate in Small Tracts and Have the Largest Number of Settlers of any Canadian Colony in Cuba.

Upwards of 200 people intend to leave for our property during September to make their home amongst numbers, who are already on their Plantations and who give most encouraging reports. It is necessary to purchase now to have your Plantation ready for this winter's crop.

This Company will undertake to have your plantation cleared, plowed and planted at the mere cost of trees and labor, thus ensuring you a permanent home for the future. No investment is more profitable or so sure as an orange plantation. Trees bear for over one hundred years. Good returns can be made by growing all kinds of vegetables and small fruits (between the rows of orange and other trees), which can be shipped to Havana, New York and Canada during winter months, when everything commands the highest prices.

Bear in mind all citrus fruit land must be a light sandy loam soil; this is the experience of all citrus fruit growers; so many inexperienced judge the light soil of Cuba false. We undertake to locate for all our purchasers and will get them expert-reports on their location and give them the privilege of exchanging the same into any part of our property so set apart and not already sold. We give you every acre free from swamp or rock. Any low lands are not charged for. You can't get any better or fairer contract than this.

THE BEST PRACTICAL ORANGE AND OTHER FRUIT GROWERS, WHO HAVE PURCHASED FROM OUR COMPANY, SELECT THE LIGHTEST OF OUR LANDS AND CLAIM THEM TO BE THE FINEST LAND TO BE FOUND IN CUBA FOR ALL CITRUS FRUITS.

ADDRESS ALL COMMUNICATIONS TO:

GEO. F. DAVIS, MANAGING DIRECTOR

MODERN TRAVEL

Comfort is Now Obtainable Away From Home—A Fine Hotel.

The progress of travel in the last ten years has been enormous. Time was when he, who left his home either for business or pleasure, expected a good deal of discomfort and hardship, and usually he was not disappointed. In those days the first-class hotel is the soubriest of sorrows, a caravanserie of delights, and those persons described by the poets of antiquity, "the travelling public," have a better time while away than when at home.

SAVED FROM BURNING BOAT.

Crew of 21 of Big Ore Carrier Saved in Lake Huron.

Detroit, Mich., Aug. 28.—Twenty-one persons, including the captain's wife and two little children, were rescued early to-day from the burning steamer Charles A. Eddy by the Detroit and Cleveland line steamer City of Mackinac, off Port Sanilac in Lake Huron.

The Eddy, which was owned by the Gilchrist Transportation Company of Cleveland, was bound down with a cargo of ore. Fire broke out early to-day while the steamer was off Port Sanilac and was soon beyond control. Captain Simpson of the City of Mackinac, crowded to its capacity with passengers, steamed to the windward of the burning freighter and amid great excitement among the hundreds of passengers and in a heavy sea took off her crew over the rail.

NEW C. F. R. FLYER.

"Overseas Limited"—25 Hours, Quebec to Vancouver.

The Canadian Pacific Railway announces that their latest departure, the overseas mail, carrying the Imperial mail, will leave Quebec on arrival of the Empress of Ireland, Friday, Aug. 31. This train connects the Atlantic and Pacific fleets of the C.P.R., reducing the passage of mails between Liverpool and Hongkong to thirty days, and is, by far the longest through connection in the world.

First-class sleeping car passengers for Winnipeg and west, who have secured accommodation on the overseas mail, will require to leave Toronto by regular train sufficiently far ahead to permit of their connecting with the mail at North Bay. The overseas mail will stop only at Winnipeg, Brandon, Brantford, Moose Jaw, Swift Current, Medicine Hat, Calgary, Laggan, Revelstoke, Kamloops and North Bend.

"ALBERTA GIANT" DEAD.

Calgary, Alta., Aug. 28.—James Riddell, an old-timer, and brother of Lieut. Riddell of the Strathcona Horse, died to-day. The deceased was the giant of Alberta, and stood six feet ten. His death was unexpected. He was doing business on Saturday.

LABOR DAY.

To Montreal and return \$10; good returning from Montreal Tuesday, Sept. 4th. Steamers leave Toronto daily at 3:30 p.m. Ticket office 2 East King-street.

PAINTING FROM OVER SEA WAS BUNDLED BACK AGAIN

After Having Been Hung at Exhibition, 'Twas Found to Be Too Dangerous to Retain.

The hanging of the pictures in the art gallery at the exhibition is given over to the Ontario Society of Artists. They had no little trouble this year in selecting what they thought were the best pictures and placing aside indifferent pictures.

HIS HIGHEST ENDORSEMENT

Another Merchant Tailor Gives Best Possible Testimonial to Semi-Ready.

Yet another merchant tailor has given the highest possible endorsement to the superiority of Semi-Ready wardrobe. Mr. X. Gourlay, for 19 years a merchant tailor in St. Henri, Montreal, has converted his establishment at 2321 Notre Dame-street into a Semi-Ready Wardrobe.

Another Semi-Ready Wardrobe will be opened on St. Lawrence, Main-street, Montreal, with the St. James-street store opening the week following, and the new Wardrobe on St. Catherine West, near Peel, this will make four Semi-Ready Wardrobes in Montreal.

Ed Mack has his West Queen-street Wardrobe open at No. 472, and the handsome new store at 31 Yonge-street will be open in a few days.

In all Canada there are now 69 Semi-Ready Wardrobes, a gain of 14 since the beginning of the year.

LABOR DAY.

Richelieu & Ontario Navigation Co. Saturday to Monday Outgoing to 1000 Islands, Prescott; tickets extended to return up to Monday, Sept. 24. Tickets to Charlotte Gott return Tuesday, Sept. 4th. To Montreal and return \$10; good returning from Montreal Tuesday, Sept. 4th. Steamers leave Toronto daily at 3:30 p.m. Ticket office 2 East King-street.

WHERE YOU ARE INVITED.

The obligations placed upon women married or single-to have their own savings account are just as vital as in the case of men, perhaps more so. Women are invited to make use of the savings department in connection with the Women's Room—the Crown point of Canada—at West King-street. Visitors to Toronto are asked to comply. There are always souvenir books for them to carry home.

ANTI-ALCOHOL HIS FAD.

London Advertiser's Comment on Sir Victor Horsley's Remarks.

(Canadian Associated Press Cable.) London, Aug. 28.—The truth is, says The Morning Advertiser, that while there is no disputing Sir Victor Horsley's skill and ability in his profession, he, like many other clever men, has a fad. That fad is a dislike to alcohol.

SPAIN'S MARRIAGE LAW REFORM

Civil Formalities Restored and Religious Declaration Not Required.

Madrid, Aug. 28.—A royal decree published to-day restores the civil marriage formalities and suppresses the obligation on the part of parties desiring to get married to declare their religious faith. This is directly opposed to the papal nuncio's claim, and it is expected will arouse a political struggle when parliament reassembles.

FALLS FROM TRAIN.

Windsor, Aug. 28.—Edward Whalen, aged 40 years, a resident of Brantford, Ont., fell from a Grand Trunk passenger train near Chatham late last night and sustained serious injuries.

SAID "PARASITE," NOT "PART"

Ottawa, Aug. 28.—The governor-general's secretary asks to correct the report of his excellency's speech at Quebec in a Montreal newspaper, saying that "Canada revolts from being part of empire." What his excellency said was that Canada "revolts from being a parasite of the empire."

WHITE BASS BY THOUSANDS.

St. Catharines, Aug. 28.—The largest school of white bass seen in the Welland Canal for years came up Saturday, and since the fishermen have been catching them in thousands between here and Port Dalhousie.

Big Fire at St. Paul.

St. Paul, Minn., Aug. 28.—The loss caused by fire which early this morning destroyed the plant of the Heins Pickle Company, the large factory of the American Can Company, and a three story frame tenement building, will reach fully \$355,000.

Justice MacLaren has given permission for the quashing of the Owen Sound local option bylaw by Judge Mac-bee to be argued before the court of appeal.

Mutiny at the Jail.

There was a mutiny at the jail last week, led by Slabsey McGuire and Colwell, Garrison and nine men were put in solitary confinement. Yesterday five of them declared their willingness to go back to work on the flats.

EXHIBITION NOTICE A LARGE ASSORTMENT OF Trunks, Bags, Suit Cases, Etc. FOR IMMEDIATE SALE.

Trunk and Leather Goods Co.

131 Yonge Street, Toronto. Phone Main 3730. Repairs prompt.

Not being able to get the returns from the G. T. R., we cannot give a detailed statement of the receipts. There was in the neighborhood of 78 car loads of live stock at the city market to-day.

Trade for the few lots of prime cattle was fairly good, but slow and draggy for the common to medium cattle, with prices easy at quotations given below. It will be seen that there were few fat cattle sold over \$4 per cwt., the bulk of sales ranging from \$3.25 to \$3.50 per cwt.

Few offered and few wanted. Those reported sold for export went at \$4 to \$4.25 per cwt and none at \$4.50 per cwt, let alone \$4.75, as reported in some of the evening papers.

Two lots of picked butchers of prime quality were reported as being sold at \$4.50; and reports select at \$4.25 per cwt. Outside of these all the butchers' cattle were reported as being sold under \$4 per cwt., and several lots of calves reported as being unsold at the close of the market.

Feeders and Stockers. Trade dull and draggy, there being little demand. A few steers, 900 to 1000 lbs. each, sold at \$3.40 to \$3.50 per cwt., good stockers each, \$3.25 to \$3.42 per cwt.; common stockers at \$2.25 to \$3 per cwt.

Milch Cows. About 40 milch cows and springers sold at \$35 to \$50 each. Veal Calves. Deliveries were not large and prices were firm at \$5 to \$6 per cwt., the bulk going at \$5 to \$6 per cwt.

Sheep and Lambs. The market for sheep and springers was fairly strong. Lambs sold from \$6 to \$7 per cwt., with a very few picked ones and weathers at \$8 to \$9 per cwt. The bulk of the lambs sold at \$6 to \$6.50 per cwt. Export sheep at \$4.50 to \$4.75 for ewes and \$3.50 to \$3.75 for wethers.

Hogs. Receipts light, with prices unchanged. Mr. Harris reported select at \$5.65 and lights at \$6.40 per cwt. Representative Sales. McDonald & Maybee sold: 24 butchers, 1000 lbs., at \$4.50; 24 butchers, 1100 lbs., at \$4.50; 24 butchers, 1020 lbs., at \$4.05; 22 butchers, 1080 lbs., at \$3.50; 19 butchers, 1140 lbs., at \$3.55; 16 butchers, 800 lbs., at \$3.45; 24 butchers, 980 lbs., at \$3.35; 8 butchers, 1140 lbs., at \$3.42; 8 butchers, 900 lbs., at \$3.30; 13 butcher cows, 1150 lbs., at \$3.20; 1 milch cow, 542; 1 milch cow, 553; 1 export bull, 1380 lbs., at \$3.20 per cwt.

George B. Alderson bought for the Harris Abattoir Co.: 283 lambs at \$6 to \$6.75 per cwt.; 130 ewes at \$4.75 per cwt.; 750 calves at \$6.50 to \$7 per cwt.

Wesley Dunn bought 1000 lambs at \$6.75 per cwt.; 130 ewes at \$4.75 per cwt.; 750 calves at \$6.50 to \$7 per cwt.

James Ryan bought 7 milch cows at \$35 to \$50 each.

George Dunn bought one load fat cows, 1050 to 1300 lbs. each, at \$3 to \$3.50 per cwt.

William McClelland bought 7 choice hogs, 1075 lbs. each, at \$4.50 per cwt.

E. Puddy bought for Puddy Bros., Abattoir Co.: 230 lambs of choice quality at \$6.75 to \$7 per cwt.; 25 calves at \$6.75 per cwt.; 130 hogs at \$6.25 per cwt., at country points f.o.b. cars.

OPEN DOOR AT THE CITY HALL THAT VISITORS MAY VIEW IT

Commissioner Harris Draws Controllers' Attention to a Desirable Innovation. The city hall should be open on holidays and at any time the city can show it to its visitors. It cost enough to be used as an advertisement, instead of fooling outsiders who go to see it and leave with bad impressions because it is locked. Even on ordinary days there is a foolish system of locking doors at unreasonable hours in case someone might want to go thru the corridors. If the employees can't be induced to keep the hall open when the ordinary workman of Toronto might have a chance to see it and show his visitors thru it without losing half a cent, the city could drop these employees and get some men who are willing to do the work. There would be lots of desirable applicants.

Welcome To Visitors

We have decided for business reasons to keep our entire display at the store this year instead of at the Exhibition, and have made unusual preparations to make things interesting to visitors.

The best showing of handsewn furs. The most exclusive styles in ladies' fall hats. The latest fall shapes in hats for gentlemen.

Our showing of furs is really distinctive, backed by a reputation of forty years for fair and square dealing. We know all about furs from actual life-long experience, and allow no one to give you a greater equivalent for your money.

Come or send for a copy of our new fur catalogue.

WORKING WEEK OF 48 HOURS GARMENT WORKERS DESIRE IT

General Movement Likely to Be Inaugurated—Proposal to Shift Headquarters.

The real work of the United Garment Workers' convention will begin to-day, when committees appointed yesterday bring in their findings for discussion.

In all branches of the trade in Canada 48 hours a week is the limit, while in the States the least they are working is 54 hours.

Among the numerous resolutions received yesterday afternoon was a most important one from Chicago, which furnishes some lively contention.

Another bit of business which demands instant attention on account of imminent appeals coming from many quarters is the increase of the "per capita" tax.

Regarding the strike at Utica, N.Y., the executive was instructed to secure \$5000 immediately to carry it on, and to levy an assessment of 25 cents each on the entire membership.

The Utica situation as explained by Secretary Landers is this: The Robert-Wicks Clothing Company was a union label house, working 48 hours a week.

At the morning session yesterday, President T. A. Rickett presented his report urging that the special committee continue its work with a view towards merging the Journeymen Tailors' Union with the United Garment Workers.

Every suit and overcoat in the new Sem-ready Wardrobe at 42 Queen West is of this season's style.

DEFY CANADIAN OFFICERS.

American Gas Drillers, on Rampage, Finally Arrested and Fined.

Cayuga, Aug. 28.—The Village of Selkirk was thrown into quite a furry of excitement when Hugh Atkins and Harry Fleck, American citizens and gas drillers, who had been temporarily laid off work, while under the influence of liquor broke into the Dominion Gas Co. office, smashing everything in sight.

Warrants were issued for their arrest, but they openly defied arrest by giving the officers of the law a severe thrashing and stating that they would not subject themselves to Canadian law.

The authorities telephoned to Cayuga, a distance of thirteen miles, for assistance, and six constables drove to Selkirk, but before they arrived the two men came forward and quietly gave themselves up.

They were brought before Judge Duggles here, where they each fined \$25 and costs and damages, amounting in all to the about \$148, which they paid.

What Doctors Say About the Nerves

Avoid fatigue, hurry, worry and excess. Seek fresh air, rest and the best means of increasing the nerve force of the body, or in other words, use Dr. Chase's Nerve Food.

These are the instructions the best physicians will give you as the most effective treatment to overcome diseases of the nerves, for if they do not recommend Dr. Chase's Nerve Food in so many words they give you a prescription containing practically the same ingredient.

Dr. Chase's Nerve Food is an up-to-date scientific preparation composed of the most powerful nerve restoratives known to science. It is found to prove effective as a treatment for weak nerves, because it supplies the elements of Nature which also necessary for the formation of new nerve force.

It is only by this building up process that you can ever hope to entirely cure sleeplessness, headache, neuralgia, nervous dyspepsia, irritability, brain fog, and the discouragement and despondency which tell of exhausted nerves.

PREVENT INFECTION.

First Thing to Be Done in Fight Against Tuberculosis.

In the course of a comprehensive lecture delivered last night in the lecture hall of the L. C. Smith & Bros. Association on the tuberculosis question, Dr. McPhedran, president of the Canadian Medical Association, on the tuberculosis question, presented some startling facts.

Speaking of the increasing prevalence of tuberculosis among the poorer classes, he emphasized the absolute necessity for the most stringent attention to the prevention of infection from the cure of tuberculosis.

Dr. McPhedran asserted that perfectly pure food and drink would cure, prevent the spread of and would ultimately banish tuberculosis.

In conclusion, Dr. McPhedran emphasized the advisability of maintaining in every town and city the means to supply pure food and drink and physician's assistance to affected persons of the community.

Telephone System Monopoly Fought in Two Provinces

BELL COMPANY FORBIDS TRANSMISSION OF CALLS RIVAL COMPANIES AT WAR PEOPLE REAP THE BENEFIT

Use of Its Lines to Supplement an Independent Service Declared by It to Violate Contract.

Levis, Que., Aug. 28.—(Special.)—The Bell Telephone Co. has a fight on in this province. The Bellechasse Co. is an independent company, with headquarters in this town.

The independent company has a working agreement with the Bell Telephone Co., in which the only restriction placed is that the subscriber "shall not extend the use of the instrument to other individuals, except his servant upon his business."

But Dr. Demiers, the secretary of the Bellechasse Co., has got into difficulty with the Bell Company. In explaining his position he says: "The manager of the Bell Co. installed in our office by Bell employees. It is close to one of our instruments with our Levis exchange."

"I beg to draw your attention to the repeated and continuous violation by your company of the terms of its contract No. 355 with this company."

"I am informed that our instrument is frequently used by your employees for the purpose of transmission of various messages for outside parties created to work on their system. I think you will agree there can be no question that such a practice constitutes a direct violation of the contract which I trust that I have the honor to draw the attention of your officers to the same to ensure an immediate cessation of this practice."

Citizens here think that it is intolerable for the Bell Co. to assume to forbid subscribers to use a telephone except on such business as it chooses to allow, although the subscribers are free to use their instruments for any purpose they see fit.

It is true that a man may go into a Bell Telephone office and by paying the proper toll use his phone on any business, but in the case of the Bell Co. the toll is a large part of the cost.

On Sunday, Sept. 2, the sector, Rev. George Orman, will complete three years of service. Dr. John Potts has consented to preach at the evening service.

On Sunday evening, Sept. 3, the presiding Bishop Fallows will preach and hold a confirmation.

Remember that mosquito bites, cramps and sudden sickness find quick relief with Folio's Nervine. Good to rub on as a liniment, unexcelled for curing internal pain, and sold everywhere for 25c.

Victor--The Simpson Shoe for Men--\$3.50

Do you watch the leather market at all? We do. Rather! We are wondering what's going to happen when the Victor shoe is the only real 3.50 shoe on the market. Other 3.50 shoe makers are either raising prices or lowering quality. We do neither. We hold firm to our standard--"A \$5.00 Shoe for \$3.50."

All the popular sizes, widths and styles. This store only.
