Producers Succeed in Stopping Shipments From Nearby Points.

Toronto's milk supply was curtailed, but not completely cut off, yesterday as a result of the strike of the Pro-

A. J. Reynolds, the secretary of the association, said that aill the farmers want is a fair division of the extra 32 cents per can which the dealers are now getting for the milk. Last year the farmers sold an eight-gallon can for \$1.05, which retailed for \$1.92. Today an eight-gallon can retails for day an eight-gallon can retails for \$2.24, and the farmers receive only \$1.15. The World's wild man did not get home Wednesday night; he put up in the basement of one of the university buildings, and yesterday morning when the caretakers were at work he slipped into the big examination hall. Hearing some students coming he dropped into a seat behind a little desk and pretended to be absorbed in contemplation of the ceiling. A dread came over him at the prospect of all these savages, real wild men, who had rent the Toronto pelice force at times from limb to limb, who had rushed one another in many great "battles of the years " real "bad men" who had turned the town into a pandemonium on divers occasions, and who had the reputation of being very sons of Belial. But not so now; they wore a haunted and hunted ook, they were in fear, and they not only took thei seats as quiet'y as a beggar steals into church, but they cast most deferential looks towards the watchers or guardians who were over them. Papers were given to each sue of them, including the wild man. So influenced was the latter at their sorrowful looks that he could stand it no longer and he exclaimed: 'So at last you are up against it good and hard, and your wild spirits have eked away. Poor tame devils. I m sorry for you." And the wild man commiseratingly broke for the door, knocking over one of the guardians who was trying to ask a fellow watcher at that very moment "how did it get in?" An incident that on any other occasion would have on the Great Northern, is a great incalled for a high old yell was hailed in solemn land sea, water covering the fields and silence. Each man had a corpse for a guest!

There is no more important p lank in The World's platform for Greater Toronto than the one declaring that the administration of the railway transportation for Ontario should be centred in To-ronto and not in Montreal.

Toronto is the heart of Ontario and the railways must be the arteries of Ontario. Any rallway system is defective which fails to keep this always in view.

Up to the present time the traffic in and out of Toronto has been mainly handled by the G.T.R. and the C.P.R.

The bulk of the business done by the G.T.R. system, is Ontario business, and yet the administration of Ontario traffic has been entrusted solely to officials living in the City of Montreal. The C.P.R. has been avowedly a Montreal cor poration and has always aimed to make Montreal the great entrepot for the Northwest, But apant from this, the real managers of the C.P.R., like those of the G.T.R. have resided in Montreal. The result has been that these railway companies have not at all realized the growth of Toronto. They may have known in a general way that this city has largely increased, and that their business from it has grown by cleaps and bounds, but they have not appreciated loc al conditions and they both have steadily viewed Toronto from the standpoint of Montreal.

steadily viewed Toronto from the standpoint of Montreal Never before has such a commercial centre—the metropolis of so great a state—permitted its most important business, to wit, the matter of transportation, to be handled and controlled by citizens of a rival city and residents of another province.

The time has come to recast the whole business—to compel the railways to do justice to Toronto, not only in matters of freight, but also in respect to passenger service.

The first trains leaving Toront o for various parts of the province depart on some lines as early as 7.45 a.m., and upon others not until 9 a.m. The commercial traveler returns to Toronto on Friday afternoon in order to meet his sales-manager on Saturday morning; he can ill-afford to lose every Monday morning on account of the old fashioned, sleep y village train service out of Toronto. A traveler leaving Toronto for Orillia on the first train arrives about 1 o'clock and before he can fairly get the party of the rives about 1 o'clock and before he can fairly get to work, the

Incoming trains run in such a manner that it is almost impossible for the majority of Ontario people to come to Toronto, transact

their business and return home on the same day. The traveler, if he does not pay extra for a sleeper, when he goes from Toronto to Ottawa on the C.P.R. must get out of the train at 4 o'clock in the morning and transfer to another branch. If he goes on the G.T.R. he is hauled almost to Montreal (Coteau there was tires sty hours tion), and then hauled back to Ottawa, thus wasting six hours

It is now impossible for a man to go from Toronto to Mont-real and transact any business without either sleeping two nights on the train or consuming 43 hours. The reason is to be found in the fact that the thru train service is made up for the conventience of the Montreal-Chicago travel. The trains incidentally pass thru Toronto; they also pass thru Port Hope. There is no reason why the thru trains from Chicago to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and return should not be so scheduled that a traveler could go from Toronto to Montreal and traveler could g transact some business and return the same day.

It is characteristic of the ignorance of Toronto on the part of the officials of the C.P.R. and G.T.R., that practically no provision has ever been made for the ordinary commutation service enjoyed by every other city in the world. People have built up their own setevery other city in the world. People have built up their own settlements about Toronto and have gotten along as best they could with a broken backed street car service, but there has been no attempt of the steam railways to establish suburban traffic. It may be as well for Toronto that this is the case, but the failure of the railway companies to provide or project the ordinary service accorded to all other cities, demonstrates how libite they know about Toronto. These big companies give Montreal a much better suburban service.

If Toronto is to develop and become, as it should become If Toronto is to develop and become, as it should become, the greatest city in Canada, and perhaps the third greatest city of North America, IT MUST TAKE INTO ACCOUNT THE NECESSITY OF INTELLIGENT AND SYMPATHETIC RAILWAY ADMINISTRATION. The matter is too big and too vital to be guessed at by gentlemen sitting in offices three hundred miles away.

Ontario traffic must be under the control of a general manager and supreme authority to be stationed at Toronto. If the C.P.R. and the G-T.R. refuse home rule to Ontario, the people of Ontario may find a remedy.

may find a remedy. Greaer Toronto means greater Ontario. This city is already too great to be ruled from Montreal in her transportation.

Record-Breaking Crowd Will Cheer the League Leaders in Opening Game of Season This Afternoon.

While there will be no flag raising incident to mark the opening of the Eastern League in Toronto this afternoon at Diamond Park between Rochester and Toronto, yet the homecoming will, without doubt, eclipse anything yet seen in Toronto. Yesterday's great finish has stirred the protest to their years souls

will not fail to show their approval this afternoon. It has been estimated by some that 10,000 people will witness the opening this afternoon, and should the day be fine, their prophecy will no doubt come true,

President P. T. Powers of the Eastern League, who will be a guest of the Toronto Bail Club at the opening this afternoon, will arrive in town this morning and be received at the station by Ald. Graham, chairman of the civic by Ald. Graham, chairman of the civil reception committee. Mr. Powers will

in-mediately go to the King Edward, where he will receive baseball men during the forenoon.

Reception at Hall. At 1.15 p.m. he will repair to the city hall, where he will be formally received in the mayor's chamber. The two teams, Rochester and Toronto, will be given a public reception on the steps of the city hall later, and

will then line up for the parade, which will proceed on Queen-street, East to Jarvis, South to King, West to Bay,

North to Queen, West to Dufferin ,and South to the bail grounds.

All the local sporting organizations will be represented in the parade, while in one automobile will be seen Tom Longboat, Eddie Durnan, Ned Hanlan and Lou Scholes. Those who intend taking part in the parade are requested to line up corner of Albert and Teraulay-streets, facing south, at

1.15. The parade will start at 1.30.
The first ball will be pitched by Premier Whitney and Ald. Graham will endeavor to knock it over the centre field fence, while Mayor Coatsworth will be found behind the bat to stop the flying sphere if Ald. Graham should by any mischance happen to miss hitting the premier's curves.

They're Here. Manager Joe Kelley and his winning band arrived in the city last night at 10 o'clock from Buffalo, and will be in fine trim to keep up their winning gait to-day, especially as they will have the benefit of a morning practice, something the team has not had since hey started the season. McGanley and Hurley will likely be the battery this afternoon, and if Mac pitches in form shown opening day at Rochester, a victory should be perch-

ed on his cap to-day. Many new faces will be seen on the Toronto bench from last season, and all are bound to become favorites, in-asmuch as every man is an up-to-date ball player and knows the game from A to Z. It is a long while since Toronto has had such a team as will lineup this afternoon, and it's up to the fans to be there.

Dr. Roberts Reports Deficiencies -Almost a Trolley Fatality.

HAMIL/TON, May 2.—(Special.)—Dr.

Roberts, the medical inspector of the public schools, made a report to the internal management committee of the board of education this evening that he had examined the children in all but four of the schools, and found that 1287 of them had defective teeth, 111 defective visions, 14 defective hearing, 3 defective speech, and 18 defec-tive general health. He recommended better ventiliation for the Victoria-avenue school. The trustees considered that his report justified his appointment. Efforts will be made to show the hospital governors that it is their duty to provide quarters for a dental infirmary for the looking after the school children's teeth. The dentists have volunteered to do the work. An eight-room addition will be made to the Sophia-street school next year to be used for the teachers in training with the Normal school. ### "PUBLIC OPINION."

New Carton Farce Finds the Favor o Princess Audience. "Public Opinion," presented for the

first time in Toronto, was the attraction at the Princess last night. Frankly described as a farce it depends largely on the excellence of the intenpretation, and in this case that is lacking. The same capable company that have made "Mr. Hopkinson" public favorite will undoubtedly give R. C. Carton's new farce equal vogue, Certainly, it goes with remarkable spirit and was accompanied last night by an appreciative and costinuous rip, ple of laughter.
The thread of the story turns upon

the possession of certain letters writ-ten in a weak moment by various men of some social importance to a music hall evening star. Their frantic efforts to recover the compromising documents provide some ludicrous stage situations, of which full advantage is taken. As a pleasant while er away of an idle hour or two, "Public Opinion" bids fair to emulate Mr Canton's previous success along the

same line. Dallas Welford has a part that fits him admirably in Horace Witsey, a lawyer, who finds himself personally interested in the troubles of his distinguished clients, who in turn are carefully differentiated and well sustain each other. Henry Stephenson was particularly good as Traughton, ex-British consul of Hon-duras. Miss Roxane Barton as the music hall star, and Miss Elinor Foster as Lady Diana Calder-Shaw were equally commendable. Altogether "Public Opinion" can hardly fail to secure a full share of popularity. It was attractively stag-

popularity. It was active for the remainder of the week. HOTEL CHANGES.

Hot Breakfast Breads.

Muffins, either plain or made with a mixture of cereals, are among the most popular hot breads. With a good foundation recipe it is possible to give to the family a slightly different hot bread a little taller. every day of one week at least.

Break three eggs\*in a bowl and beat until very light. Add a half teaspoonful of salt, a teaspoonful of sugar. Mix together a cupful of flour and two scant teaspoonfuls of baking powder. Add to the liquid a half cupful of plain flour, then the mixed fleur and powder and two tablespoonfuls of melted butter. Beat hard, then add as much more flour as may be needed to make a rather tnick drop batter. Beat again, then fill but-tered muffin pans two-thirds full and bake half an hour in a quick oven. This will make from 15 to 18 muffins, accord-

ing to the size and thickness.
Suppose you have made these plain muffins on Monday morning. On Tuesday in place of the first half cupful of flour substitute a scant cupful of cold boiled rice, then proceed exactly as before. On Wednesday add to the beaten eggs and milk two-thirds of a cupful of dates, stoned and cut fine; then follow enter the nimble kitten class, which may the recipe as at first. the recipe as at first.

On Thursday make the plain muffin batter. Instead of pans have the griddle

### THE STORY OF THE WORLD PARTY'S TRIP TO LONDON.

Special accommodations have been secured from the Allan Line for The World party, and the ocean voyage will be a delight to all. Upon arrival at Liverpool special accommodations will be provided for the party on the trip to London via the London and Northwestern Railway.

The World party will stop at the Hotel Cecil during their stay in London. The Cecil has reputation amongst travelers as being the most delightful hotel thruout continental Europe.

Each day of the stay in London will be a continuous round of sight-seeing and amusement. The morning will be devoted to individual shopping expeditions, according to the tastes of each member of the party. After luncheon carriages will take the party to various points of interest, such as the houses of parliament, the Tower of London, St. Paul's Cathedral, Westminster Abbey, St. James' Palace, Hyde Park.

In the evenings dinners will be given at the famous London restaurants, such as Cafe Royal, The Trocadero, Holborn Cafe and others. Following the dinner party each evening, The World party will adjourn to box parties at the principal London theatres. Paris will be visited, and as much accomplished as possible during the time at the disposal of the party.

The World party of Ontario women will be extended every official courtesy during their stay in London.

Are you going?

Johnny Marshall was on hand with his trotting mare, Viola, winner of Class D in Wednesday's matinee. She is good enough to be raised a class the next time she races. Jimmy O'Holloran, with his good wife, were in a road-wagen behind Altonia, and had some merry rides. Altonia still possesses a lot of speed. George Saul had out a pacer which he has named Delmas, and worked him several trips with the hobbles on. Delmas is a bay gelding, by Wildbrino Jr. Fred Davis was educating a four-year-old brown pacing mare by Sir Harry Wilkes (2,15¼).

The Toronto World will give two season tickets, one for a lady and one for a gentleman, to the first person of each sex, who can figure out the Toronto Baseball Club's average as it will appear after the "double-header" is played on Victoria Day, May 24, 1907. In the event of no person figuring the exact percentage, the closest guess will be considered the winner. The games to be played by the Toronto Baseball Team at home and abroad will be as follows:

> Buffalo, April 29, 30, May 1 and 2. At Toronto— With Rochester, May 3, 4, 6 and 7. With Buffalo, May 8, 9, 10 and 11. With Newark, May 13, 14 and 15. With Jersey City, May 16, 17, and 18. With Baltimore, May 20, 21 and 22.

Rochester, April 24, 25, 26 and 27.

With Providence, May 24 (twice). To figure out the percentage of a baseball team in a league race, it is necessary to take the number of games won and add the number of games lost and divide the result into the number; of

Strong Demand for Improvements to Rosedale Ravine Drive-City Hall News.

CITY HALL TO-DAY.

11 a.m.—Board of control.

The request that the north end of the central portion of the city should, be given more attention as regards civic expenditure on park land was made by an influential deputation, headed by ex-Controller Shaw and Ald. Church, that waited on the parks and exhibition committee yesterday.

A petition gotten up within the last wo days, yet signed by over 150 resithe neighborhood, asked that nething be done towards improving that portion of Rosedale-ravine drive adjoining the intersection of Parkroad. The city owns a portion of the side of the ravine extending east from Park-road, on the south side, and also a section of the north side, adjoining the west side of the intersecting thoro-fare. The land thus acquired has, however, been neglected, until its condition has become disgraceful, so Mr. Shaw declared. He thought that the outlay of \$25,000 would go far towards improving the aspect of the drive, as far west as the terminus at Yonge-street.

The new hospice of the British Welcome League was filled. The expressions of gratitude heard on all sides when the weary travelers found a bright, cheerful home awaiting them, must have gladdened the hearts of the construction of the new buildings. At the next meeting of the craft on Tuesday night, it is said, the decision

may be reversed. The increase of 2 1-2 cents an hour was offered in a conference with the boss builders in the Employers' Association yesterday morning. Regarding the lathers' situation, the builders' exchange say they will import men from the east, and an agent

will be despatched this morning to Montreal for that purpose. The contracting lathers say that, all told, only 110, men are needed, and of this number. 40 are already at work. A GOOD MOVE.

The department of agriculture for Ontario has made a wise move during the past session in voting money to encourage the use of spraying machines in the orchards on our many farms in the province. The way the applications for participation are coming in evidences the popularity of any move of this kind to assist the industry. The farmers are quick to see the lidvantage of a good thing, and altho the legislation may savor of paternalism, it has the great sanction of common sense, and so long as there is a wise administrative head of the department, there is nothing to fear.

Again, the scheme, as announced in our last farming issue, to encourage the selection of good seed by the prizes to be given by the agricultural societies is a move to the front. The money ties is a move to the front. The money is additional to the big annual grant, BETTER EXPRESS SERVICE and it ought to help the societies to put up a prize list this fall that will be really educative in its effects.

Education always is best accomplished by filling the vacuum with useful means to do things, rather than by restrictive decalog against amusements. The people, generally, are interested in doing things. The recent incentives offered by the department to grow better applies, raise cleaner seeds and to produce grander horses and more useful swine, are the right kinds of means to be employed to the end. It is to be hoped that the minister will prosecute his great work for the farmers in Ontario along lines similar in

Agricultural Editor: Some people seem to think that the farmer is get-ting wealthy from his milking opera-tions. Such is not the case. The cost of labor, building, production of crops, and animals, has gone up very much of late. The farmer must have an expensive equipment in order to produce. He must furnish good milk, up to the standard. He has to take all the risks of milk souring. The milk has often to be teamed considerable distances to the point of delivery. I built a silo last year that cost \$115. A similar one, erected a few years since, cost only \$82.20, so much has building material adversarial adversar

The action of the American Shorthorn Association in their dealings with the Nebraska offenders, who published faise pedigrees, will meet with the just approval of Canadian champions of this breed, and as well indeed with all lovers of pure-bred animals. There is no organization that de-pends upon the honor of the men con-

ducting its work, that presents fewer cases of malpractice than does the Na-tional Records Association. And it is a hopeful sign that it is the case, where the competition for a name in stock circles is so keen and prices for strains so varying in range.

### WHERE DOES THE MONEY GO?

It is yet unanswered by the Toronto milk dealers.

They know they do not want the public to know where it goes.

They would rather abuse the farmers and make the consumer bedieve the farmer is to blame.

They would rather roll that sweet morsel about "RESTRAINT OF
TRADE" under their tongues.

Does the distributor deserve a bigger profit than the producer?

Does the distributor deserve a bigger profit than the producer?
What becomes of the \$2.56 per can? The farmer gets \$1.15 of it.
The farmer gets fair prices for his products. He waits six weeks for his money from the dealers.
Your milk dealer must have his cash and gets a handsome profit for his labor.

The farmer's can costs him \$1.22. He gets \$1.30 for it.

The dealer's can costs him 1.15, with the cost of delivering, icing and depreciation, which we will allow at 50 cents, thus making cost per can at \$1.65, He gets \$2.24, or \$2.56 per can.

## GROWING OF MANGELS AN INCREASED ACREAGE

The Old Style Mangel is Out of the Race This Year-Sugar Mangels-Scotch Views.

With the finish of the seeding of grain and the planting of potatoes on the farm, comes the preparation of the land for roots. Altho there are many acres of turnips planted yearly in Ontario, yet the acreage of mangel-wurtzels are on the increase. Especially among milkmen and swine raisers is this the case. But there is something of a change in the style of mangel being planted in Ontatio. The old-time mangel, the long red, and the yellow intermediate, are giving way in the sales to the grant sugar mangel, a combination of sugar beet and mangel. It combines the productive qualities of the mangel with much of the ways of the sugar sales. much of the sugar of the sugar peet. Larger quantities of seed of these new kinds are being called for this year than for years. Mangels generally follow a grain crop on which the manure has been placed

during the winter, or the preceding fall.
The land should be fairly well worked and with this rich supply of farm-yard manure, a good crop on the land is tolerably certain provided they are looked after and the soil is not too damp. As its well known manufacture and the after and the soil is not too damp. As is well-known, mangels prefer a clay loam. Properly cultivated and thinned the crop has been a paying one and produces a great deal of cheap feed for cows, swine and sheep in the spring.

Mangel sowing is done in drills about 18 inches apart, as soon in the spring as the farmers can get on the land. The amount of seed is very variable, but it is wiser to sow liberally as bad seed, dry weather and washouts often leave dry weather and washouts often leave bad breaks in the rows. From six to ten pounds per acre is the general run. It should be sown about half an inch deep and rolled with a heavy farm roller to keep the land firm. # SPECIAL FARMING & LIVE STOCK EDITION

Butchers Steady at Tuesday's Quo-. tations-All Other Classes Firm.

Receipts of live stock at the City. Market since Tuesday, as reported by the railways, were 104 car loads, composed of 1716 cattle, 1904 hogs, 124 sheep and lambs, with 189 calves. The quality of fat cattle was not as good generally as for several markets past.

Trade was fair with prices for butchers' about steady, but exporters, of which there were a few loads reported, were slow sales at about the same prices as on Tuesday last

Exporters. Prices ranged from \$4,90 to \$5.25, but only one load was reported at the latter ngure, the bulk selling at \$5 to \$5.10 per cwt. Bulls sold at \$3,75 to \$4,25. Butchers.

Prime picked lots of butchers' ranged from \$5 to \$5.25, and one or two were reported at \$5.30, but the cattle quoted at \$5.25 and \$5.30 were really exporters bought for butchers' purposes, and there were few of them. Loads of good, \$4.60 to \$4.60; good cows, \$4.25 to \$4.60; good cows, \$4.25 to \$4.60; medium cows, \$3.50 to \$3.85; common cows, \$2.75 to \$3.25 per cwt.

Feeders and Stockers.

H. Murby reports only a fair demand this week for this line, the bulk of the demand being for good stockers, 800 ths. and up to 1000 lbs. The demand for short-keeps was limited, a few loads selling from \$4.75 to \$4.90 per cwt., with a few as high as \$5, but they had to be choice. The light, mediam and common stockers are still very hard to sell, and the price has got to be made very inducing in order to make a sale. Several of this class had to be sacrificed at the close of the market. The stocker buyers are shying clear of this class. This is chiefly on account of the high cost of keeping them lying around the vards waiting for chance customers, and shippers are taking big chances in shipping them in unless they get them very low in the country and can take a bad price here, as in nearly every case the shipper has to look to the stocker buyers for a customer for this stuff. Prices ranged as follows: Steers, 1100 to 1200 lbs., \$4.60 to \$4.75; steers, 1000 to 1050 lbs., \$4.25 to \$4.50; steers, 800 to 900 lbs., \$3.90 to \$4; stockers, 400 to 500 lbs., \$3 to \$3.50, common stockers seeds and Thursday. The trade was much at 8% c to 9c per 15.

### N. Y.COLLEGE OF AGRICULTUR

Governor Hughes Tells of Good Done by the State for the Farmer. The new buildings of the New York

State College of Agriculture were dedicated last week at Ithaca, N. Y. This college is in connection with Cornell University. Among many things the speaker said:
"In 1904 the legislature passed an act

thru the state an appropriation of \$100,

products it was second only to California. The value of its farm property is exceeded only in the case of three states. The state has no more important duty than to husband its agricultural interests. Government Aid.

"Much has been done in recent years to improve the condition of the farmer. The rural free delivery has brought him into closer contact with his fellow citizens and with the forces which make

for progress in the state.
"The improvement of the roads of the state will greatly facilitate his access to markets. While he has the advantages markets. While he has the advantages of these external improvements, he has the opportunity of forming part in the important and efficient organization of the State Cross form. advancement of his interests. The state department of agriculture has a most important functions; and among its othe activities is now addressing itself to the very serious problem of farm labor. Its efforts have also facilitated the sale of abandoned farms."

Repatriation of Italy. ROME, May 2.—The government today presented a bill to parliament, providing for stricter emigration regulations. Messina is added to Genoa, Naples and Palermo as ports from which emigrants may leave Italy. The epatriation of emigrants returning om America will only be allowed on steamers authorized by the Italian Government. Steamers violating this rule will, on arrival in Italian waters, be fined \$20 for each returning emi-

grant over the first twenty. \$3,000,000 For Famine Relief. ST. PETERSBURG, May 2.-The council of the empire to-day adopted unanimously the recruiting bill and the bil! appropriating \$3.000,000 for famine relief, passed by the lower house April

### THE FARMER'S WIFE

Is very careful about her churn. She scalds it thoroughly after using and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn-absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

them in the best possible condition for

healing.
The "All-Healing Salve" is a superior dressing for all open, running, or sup-purating, Sores or Ulcers. For healing open wounds, cuts and scratches it is

unsurpassed. If your medicine dealer does not have "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will eceive it by return post.

In treating all open sores, or ulcers, oils carbuncles and other swellings, it important that Dr. Pierce's Golden ledical Discovery be taken persistently purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when it is no longer fed by foul blood. "Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frenger distress in stomach, constipated regular bowels, sour or bitter rising after eating and poor appetite, of them, indicate that you are suffering from biliousness, torpid, or lazy liver with the usual accompanying indication, or dyspepsia and its attend-

The best agents known to medical science for the cure of the above symp-toms and conditions, as attested by the writings of leading teachers and practiners of all the schools of medical practice, have been skillfully and haroutly combined in Dr. Pierce's Easy to take as candy.

> Cures Woman's Weaknesses. We refer to that boon to weak, nerv-

us, suffering women known as Dr. Pierce's Favorite Prescription Dr. John Fyfe one of the Editoral staff of THE ECLECTIC MEDICAL RE-VIEW says of Unicorn root (Helonias Dioica) which is one of the chief ingre-

dients of the "Favorite Prescription" "A remedy which invariably acts as a uter-ine invigorator \* \* \* makes for normal ac-tivity of the entire reproductive system." He continues "in Helonias we have a medicainvity of the entire reproductive system, "ife continues" in Helonias we have a medicament which more fully answers the above purposes than any other dray with which I am acquainted. In the treatment of diseases perculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorproot). Pain or aching in the back, with Jeucorrhea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhea (surpressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and anemic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading in-gredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root another prominent ingredient of "Favorite Prescrip-tion," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the womb. In all catarrhal conditions \* \* \* and general enfeeblement, it is useful."

Dr. Pierce's Favorite Prescription faithfully represents the above named ingredients and cures the diseases for which they are recommended.

Requiring Particulars of Cockburn Bill.

The application by G. R. R. Cockburn to the master-in-chambers for particulars of certain paragraphs in the statement of claim with reference to the bill rendered by Frank Arnoldi, K.C., has been granted.

"It was urged in support of the motion," says the master in a lengthy judgment, "that some time prior to the 4th of March, plaintiff had asked defendant for \$5000 and plaintiff's subsequent letter of March 8 states that such demand was made for that sum on Feb. 13, only 'in consideration for defendant and for the purpose of immediate settlement, which plaintiff expected as a matter of common gratitude.' "On the other hand it was urged

"(1) Denying employment of plain-tiff in respect of anything else than the criminal charge, and
"(2) Denying that services for which he is liable were worth \$7500 or any greater sum than he is advised to pay

into court on that account. "Reference was made to the case of re Johnson, where the solicitor charged a lump sum (of \$3000, as appears by the bill filed with the taxing officer), to cover the services rendered by him in negotiations out of court ex tending over seven months. Of this no details were given, and the taxing

officer allowed it as \$3200.
"It was replied that that case was entirely different, as the proceeding was on a taxation and not, as here, by action. It was contended that defendant was entitled to know how the sum of \$7500 was arrived at, especially when it at first had been stated at sked to disclose his evidence. Had the services of the plaintiff been rendered in a criminal action he would have been obliged to deliver a detailed bill before he could take any steps to recover from the defendant either

on taxation or by action.
Should Have Made Bargain. "It was open to the plaintiff to have made some definite bargain before un-dertaking the defendant's case. This s the course usually taken in criminal natters, and such a bargain would not come under the judgment in such eases as re McBrady and O'Connor-Here the plaintiff is avowed by suing on a quantum meruit, and on that basis he estimates his services at \$7500. "In view of the foregoing consider-ations, and of the fact that plaintiff has increased his original claim from \$5000 to \$7500. I think the defendant entitled to some particulars of such substantial claim and to know why has been so largely increased. The only question is whether he is entitled o all he has asked.

in Regulations to Hit Outside Companies.

A deputation of fire insurance agents waited on Hon. J. J. Foy yesterday

They desired some changes in the regulations governing their companies which would be of advantage to those

of purely Canadian character. It was suggested by the attorneygeneral that the requests be submitted in writing for fuller consideration. One point desired was that compan-ies not registered or licensed should when granted permits to do business in Ontario, have the fact made pub-lic. In case of violation of the act detections would then be easy. Another proposal was to tax the premiums collected in the province by foreign companies which have no

offices in Ontario. The following gentlemen were in attendance from the companies mentioned: H. M. Blackburn, Sun; D. Weissmiller, London Mutual; A. M. M. Kirkpatrick, Home; John B. ### SUNDAY IN QUEBEC. Better Observed Than in Ontario, Says Rev. Dr. Shearer.

Rev. Dr. Shearer has returned from a two weeks' tour of Quebec. He says that the Sabbath is observed much better there than in Ontario.

He noticed two things in particular to which this would apply, viz., the street cars didn't start running until moon on Sundays, so that all the citizens, almost all of whom were churchgoers, enjoyed quietness on the streets and, almost all the business houses closed their blinds, which was not true in Toronto as a general rule.

The Lond's Day Alliance is taking steps to have the owners of the steamer Frank J. Heckory prosecutod for breach of the Lord's Day Act. Rev. Dr. Shearer says the big vessel arrived last Sunday morning at Depot Harbor, and immediately over 100 men were set to work unloading the cargo. The boat contained 276, 000 bushels of grain, which was all oaded on cars and these made up into trains.

The vessel laid up at the dock all day Monday. The matter will be placed in hands of the crown attorney.

(NO PERSONAL LIABILITY)

Head Office: Room 45, Central Chambers, - Ottawa, Ont.

OFFICERS AND DIRECTORS: Lt.-Col. S. Maynard Rogers, President and Managing Director.

Robert Stewart, M.P., Vice-President. Sir Frederick Borden, K.C.M.G., M.P., Ottawa. Col. Sam Hughes, M.P., Lindsay, Ont. Dr. Robert Reddick, Winchester, Ont.

Charles W. Dimick, Boston, Mass., and John G. Forgie, Barrister, Pembroke, Ont., Directors. D. Smiley Sawyer, Ottawa, Ont., Secretary-Treasurer.

Dr. Reddick and his associates, Messrs. Hummel, Knott and Flynn, are the men who made Larder Lake famous, being the original discoverers of gold in the Larker Lake region, and after carefully prospecting, selected, staked and recorded what are universally acknowledged seven of the very best claims in this region. All of this work was done before the first fall of snow so that in purchasing this property we know that we have the best that could be procured in the Larder Lake region.

The claims all have a number of large quartz veins, showing values in Gold, Silver and Copper. Assays ranging from \$8.40 in silver, and \$122.00 to \$1,868.00 in gold have been recorded.

It is acknowledged on all hands that our property is the heaviest mineralized in the country. A gang of men have been at work since the 15th of February putting up the necessary buildings and taking in supplies, machinery, etc., and actual

development will commence shortly. To intending purchasers we would advise this as a good investment and

would be pleased to receive a call from any who desire further information.
We are offering \$200,000 of the Treasury Stock at par value, \$1 per share. For Prospectus and full information write the company.

### UNDERWRITERS' SYNDICATE.

We extend an invitation to investors to join us in taking over the first issue of shares which we have agreed to purchase of the Larder Lake Blue Bell Gold Mines, Limited, at the first ground floor price of 10 cents per share. The Company has just been organized and will be managed by experienced mining men of highest standing. The Company owns 27 well located gold claims, 1,080 acres in all, which have yielded extraordinary gold values, located in the new gold district of Larder Lake, 60 miles north of Cobalt, New Ontario, which will be systematically developed. All investors who join us will share in profits from this ground floor basis, participating in an immediate profit or increase in market value of shares of 500 per cent. Comment regarding the Atchison financing announcement yesterday is generally favorable in influential quarters. The scarcity of stocks at recent concessions in prices is the notable feature, which renders operations for short account unprofitable and adds to confidence of bullish interests. We see no reason why the general upward tendency should not be maintained.

Dann & Robinson to J. Lorne Campbell: Continued strength in Union Parific overshadowed the grain market and stocks closed generally higher. Further advances will depend largely upon the action of U. P. From the tone at the lose we would say the rise will go further to-morrow.

A. M. CAMPBEL Four and a Half Ton Machine Went Down, Defying Efforts of Rescuers for Two Hours.

An exhibition of careless oversight was witnessed on Mutual-street yesterday, when a huge steam roller, weighing something like 4 1-2 tons, became North British and Mercantile embedded in a loog and stayed there for two hours.

The machine was jacked up and a foundation of two-inch planks laid under it before it could be budged. The roller was down more than a foot, Mutual-street is one of the city's 'landmarks,' so old that, when digging operations began on it a couple of weeks ago, in preparation for a new pavement, cords upon cords of logs and ties, laid down in corduroy fash-

Mershall, Spader & Co. wired J. G. side longs, mostly non-professional specu-lators, which caused a reaction, in which a large part of gain was lost. The opening bulge was based on unseasonable weather bulge was based on unseasonable weather and poor seeding prospects in the northwest. Professionals sold on the early bulge, but began to reinstate again on the first decline, and there was also buying by the southwest. There are predictions for frost to-night. While the news coptinues about as bullish as ever, it looks to us as if there will be some further professional profit-taking and liquidation, and that the market will drag a little lower. On any further recession we believe wheat should be bought, but continue to advise profit-taking on hard spots.

taking on hard spots.

Eurois & Stoppani wired to J. L. Mitch-Wheat opened excited and higher, with commission houses trading on both sides of the market. The influences were higher cable reports, of killing frost in sections where wheat jointed, further depredations where wheat jointed, further depredators by the bugs, and adverse reports relative to seeding from the Northwest. Following the opening advance there was a slight recession, but the same proved to be shortlived, and under renewed buying by leading commission houses prices re-acted and established a new high level. Profit-tak established a new high-level. Front-taxing, however, was on such a large scale that the advance was checked, and subsequently prices receded to about the opening figure, where the market closed. The undertone was strong thruout the session, and considering the heavy sales to secure profits the market stood up under the test in such a manner as to be pleasing to those-who anticipate higher prices. The foreign situation continues unfavorable, and we

look for higher prices.

Corn and oats opened higher, but, as was the case with wheat, heavy profit-taking was in evidence. There was some indication that the large longs desired to hold the market in check and sold sufficient to was the demand from commission houses.

Wheat-Liverpool responded to the strength of our market yesterday by an advance of %c, and continental markets with the exception of Antwerp. Receipts at Minneapolis and Duluth were large, but before our opening the Minneapolis curb was 1½c higher. This gave our market was 1½c higher. This gave our market a strong opening, and prices advanced further on continued cold weather, which is forecasted for to-morrow. On the extreme advance a good deal of wheat came out from the big holders, resulting in a break from top prices of 1c in the July, but on the break there was excellent buying. Crop conditions are very buillish and sufficient to break there was excellent buying. Crop-conditions are very bullish, and sufficient to keep prices firm around the present level. For to-morrow we look for some moderate recession in the early trading, which, we think, will be followed by higher

Corn—There is a good export demand and an excellent domestic demand, while stocks are by no means heavy, and will soon be exhausted unless the movement, from the country increases. Corn should sell higher. Oats\_The buying in oats became too nanimous to-day, and the leading bull house held enough to give trailers a chill. We predict that July oats will sell much higher eventually.

And back of it all is a story stranger than most of those you read in books a story in which love and

books—a story in which love and goodness triumph over wrong, even as we are told they can and will in the Book of Books.

John William January, later Charles W. Anderson, is the hero.

Thirteen years ago, when he was 21, he robbed the postoffice at Hennessey, Okla. He got little for his trouble, but he was caught and sentenced to five years in the pentientiary. He was a model prisoner, and his good behavior was winning for him all the behavior was winning for him all the commutation to be got in that way. One afternoon, just eight months be-fore the expiration of his shortened term, he was walking thru the prison yard and saw a guard asleep. A great temptation to escape came over him and seizing the chance, he hiked away

to the wall, scaled it in a jiffy, and was gone.

# LARDER LAKE

Proprietary Goldfields, Limited

Owing to the phenomenal rush for shares in the above company, the first limited amount of stock at our first offering of \$1.00 per share will be exhausted sooner than expected. The price will then be

The advance will take place any day and probably without noticejust as soon as the stock has been introduced by placing a very limited amount at our initial price of \$1.00 per share-most of which

I am not urging anyone to take on Larder Lake Proprietary. The stock is fast selling itself, and in a short time will all be placed in Canada and the United States.

I am anxious, however, that my Canadian following get what they want at the first price. Hence this Canadian advertisement to give you notice that the ground-floor opportunity will not last much

My following has consistently made money by acting on my advice. Thousands will testify to that.

I have never advised the purchase of a stock without it materially

advancing in market value within a reasonable time. My method after placing a stock with the public is to see that it is listed on the Exchanges. In every such case the result has been a legitimate market at an advanced price.

Larder Lake Proprietary will shortly be listed on the Exchanges and

placed on the New York and Boston curbs. I predict that very soon indeed it will stand at several dollars a share. I furthermore know that after the stamp mill materializes results, and it should be running within six weeks, that they will be of a sensational nature and I know that the stock will then surely see \$10 a share. A bold prediction, I hear some say, but those who shortly accept my invitation to take the trip to Larder on the special train I'm going to run from New York, Boston and Toronto will think my prediction conservative enough when they are on the ground and see what I and my engineers have been investi-

gating and verifying for six months past. The facts about the Larder Lake Goldfields, and the Proprietary

Company in particular, are far too great to present here. Full particulars, however, may be secured on request by calling personally, or by mail, telegraph or 'phone.

Again I say, I am not urging the purchase of this stock, for it is selling itself even faster than we can take care of the orders from Canada and the United States—two days behind now—but I am anxious that my Canadian following get into this, by far the best thing I have ever recommended, at our first offering price.

### PULPIT FOR THE PEOPLE ADVOCATED FOR BOND ST.

Broad Policy Might Result in a Revival of Interest and

The resignation of Rev. J. B. Silcox from the pastorate of Bond-street Congregational Church revives the "downtown church problem."

According to Mr. Silcox, the trouble has been that the wardens are judging. results from a business point of view—
that of receipts. That there has been,
as the pastor says, an improvement
along spiritual lines, is not regarded
in his favor. He complains that the congregation, ever since the days of Dr. Wild, have been fed on sensation-

alism, and insist on it now.
Says a church member:
"Bond-street Church has prided itself on being the church of the stranger. It is in a district which has many boarding houses, and the evening attendance is drawn largely from those who live there. Their interest may be deep, but the support they can accord is not sufficient.

sufficient.

"The church has undoubtedly a great work to do. Bond-street Church, from inception, has been essentially a people's church; it may be that it would be desirable if it became a church for the times with a policy broad enough to permit pulpit discussion of subjects that have to do with the bodily comforts and conveniences of the people, as well as their spiritual concerns. The church of the Nazarene, you know was established not to take men to heaven, but to bring heaven to earth and to the homes and hearts of the people." homes and hearts of the people."
"Bond-street, in any event, needs a

man of great social qualities, who can adapt himself to the circumstances of the people; a man of strong convictions, who is not afraid to speak his sentiments and stand by the consestand by the consequences; an eloquent man, who will stand by the old landmarks; and yet be lentent in his views of other people's opinions. It requires a warm hearted, brotherly man, who can sympathize with human woe and suffering."

As to a Successor.

As to a Successor.

Mr. Silcox leaves July 15. So far, no possible successor has been seriously discussed, but the name of Rev. J. M. Wilkinson has been mentioned. Altho absent from the city for ten or twelve years, he is still in the prime of life, and his popularity while in the ministry would bespeak him a successful renewal of his labors. He took charge of Agnes-street Methodist Church when it was brought into the union. With a debt of upwards of \$20.00 and a membership of less than 100. Dr. Potts and Dr. Briggs, the president and chairman of the Toronto district and conference, selected Mr. Wilkinson for the position, and everyone knows the to the public. Henry Swan, the registered owner of the property, stated he had for years traveled from Bathurst-street to Yonge-street without any the position, and everyone knows the result in three short years—reducing son as pastor, but the law of the con-ference, like that of the Medes and came his auditorium experience acting on the advice of the late Har Massey, he undertook a "people's mis sicn" in the old Shaftesbury Hall where he preached every Sunday night to upwards of 2000 people. A promi nent feature of the service was the con-gregational singing, led by an efficient hestra under Mr. Thomas Claxton who, until lately, was a deacon in Bond-street Church. ### REVIVAL OF BICYCLING. Many Riders Return to the Wheel.

With all apologies to automobiles, horses, trolley cars, and what few air ships and balloons may be floundering in the vicinity, it may be said in view a revival of bicycling this summer. Since a half dozen years ago, when everyone from the family infant to the aged grandpa looked upon the bike as the real and only true pleasure whicle there has been a gradual de-cline of bicycling, but the sporting world is now predicting a renewal of

the same: Bicycle dealers tell of a sudden rush of business during the rast few weeks and one tells of an almost exclusive demand for ladies wheels. A rush to the repair department of old and dustvered machines, which have been attic exile for many moons, is now related.

While the decline of bicycling was probably due largely to the advent o dealers now point out that the revival of the sport is but the outcome of the desire for pleasure touring created by the increasing use of the automobile For the past few years the bike has been used principally as a means of getting about the town quickly, and here has been little use of the machines as pleasure vehicles:
Some of the more enthusiastic yelists predict a revival of the

icyclist clubs, which were so numerous a ralf dozen years ago.
