BOXING ON THANKSGIVING DAY. McCune Talks About the Duties of the Referee—Bennett's Hand Completely Healed.

"What about the recovery?" was asked McCune when signing the articles for the contest with Jack Bennett, that takes place on Thursday, Thanksgiving Day, in the Mutual-street rink.

"Oh, I'm not particular," was his reply, "except that I want a man to count by seconds and not by minutes, as was done last year. So the appointment was left to the Crescent A.C., and the official will be instructed to count promptly on a man getting down, and this is satisfactory to me."

Bennett's hand has healed rapidly, and Trainer Sullivan says it will be perfectly sound by the holiday, and backers of the McCreary boys, who go to the training quarters that he will enter the ring on Oct. 10 in perfect condition.

Around Scholes, where McCune is training, there is nothing to it but the Detroit, Tuesday, a single pretty swab hit Lou Killy, Lou Scholes and Paddy Lane, and his work shows wonderful improvement since last year. He feels, still, in his clothes around as fast as Bennett, and hits with two hands as hard as ever. There is lots of money to back McCune, though he is not a favorite with the public.

Freid Wyatt of Ottawa is training at Toronto for the 10-round bout with Tom Ryan, that promises to be of the usual high order. Tom Bidwell and Tony Moore, both clever boxers, go to the training quarters that he will enter the ring on Oct. 10 in perfect condition.

A Buffalo evening paper gets inside the guard of two well-known fighters about right in this way: "Before he left Buffalo last night Kid McCoy made his stock bluff about his actions to meet Tommy Ryan, but he didn't sign any articles or say 'yes' when Manager Wilson of the Hawthorne A.C. proposed that he place his signature to an agreement to meet Syracuse Tommy. I don't believe that the Kid is afraid of Ryan and that Tommy is frightened at the mention of McCoy's name. Just now it doesn't look as if they will ever get together."

Canadians Made an Improved Stand and Once-Threatened a Draw.

SCORED 174 IN THE SECOND INNING. McGiveria, Logan and Connell Were Applauded for Their Splendid Batting.

The English cricket match was resumed at Rosedale yesterday in perfect weather. The light was all that could be desired and the sun in the middle of the day was hot. Another large crowd was present. The home team did much better in their second venture, and not only piled up a large score, but almost played a draw, the last wicket only falling ten minutes before time. The Canadians played a splendid second innings and their attempt compares very favorably with the Philadelphia games, the Phillies having sustained a crushing defeat by an innings and 200 odd runs.

On resuming yesterday morning, Townsend was soon out to an easy catch at slip and helped Stoddard to put the Englishmen down. The Englishmen scored 174 in the second inning, not out, was a fine exhibition, with only one change, an easy one to Cooper late Thursday afternoon. The Canadians were thus left 181 to get to a stale season's end.

Canadians Started Well. Saunders and McGiveria started the home batting to the bowling of Woods at the grand stand and Townsend and Stoddard made three boundary hits, two of them to leg and then put up an easy one to short leg. Capt. Logan joined McGiveria and then put up an easy one to short leg. Capt. Logan joined McGiveria and then put up an easy one to short leg.

Cooper came in, but was clean bowled near the end. Logan hit Llewellyn for two, missed an easy leg hit, but sent the next to the boundary. Connell cut his second home boundary, bringing on Townsend to play carefully at first, only getting out at safe balls. Llewellyn replaced Townsend, but the Englishmen mounted up till lunch was called at 1 o'clock.

Logan hit Llewellyn both men played freely. Logan hit Llewellyn for two, missed an easy leg hit, but sent the next to the boundary. Connell cut his second home boundary, bringing on Townsend to play carefully at first, only getting out at safe balls. Llewellyn replaced Townsend, but the Englishmen mounted up till lunch was called at 1 o'clock.

Robson Bowled Grabs. Robson went on at the club house end to bowl grubs. He was very successful and they played very well. Connell and Logan were nearly in the grand stand and cut him beautifully just behind point, which, however, was smartly fielded by third man.

At 1.10 Robsonnet relieved Jessop. Connell bowled his first ball for two, drew a run, but the bowler cut him a lovely one for two. Next over, though, he returned to the conclusion of the previous over, retired for a finely played shot. The partnership had yielded 80. Tucker sent the second ball to the boundary, McGiveria followed and Llewellyn dropped it. Slowly the runs came in. Robsonnet, however, which had been rather long, was a fine one.

Jessop took Robsonnet's place at 1.45. Robsonnet had a hot chance from Logan of Robson at square-leg, jumping and stopping the ball, and nearly catching it. At 1.46 Tucker drove a ball straight to the boundary. Robsonnet, however, which had been rather long, was a fine one.

Logan did not budge, being thus easily run out. Boyd, who came in, and Logan played a grand innings, but was run out. Llewellyn going on at the club house end and Stoddard at the other. This proved to be a grand day.

Straight Shot at the Stump. Boyd was caught off his glove by slip fielder, but he was not out. The bowler, who followed, after a very evil quarter of an hour, took a wicket. The bowler, who followed, after a very evil quarter of an hour, took a wicket.

Matters were now very interesting, half an hour to play, three wickets to fall and runs to avert a single innings defeat. The fates were unpropitious, however. Logan, who had been in three hours, played a grand innings, but was run out. Llewellyn going on at the club house end and Stoddard at the other. This proved to be a grand day.

At 1.46 Tucker drove a ball straight to the boundary. Robsonnet, however, which had been rather long, was a fine one. Logan did not budge, being thus easily run out. A GRAY THE CHAMPION. Closely Contested Events Marked Varsity's Annual Athletic Games.

BIG CROWD AT THE BLOOR-ST. FIELD. Mitchell of Arts Scored 13 and Was Second, Only Two Points Behind the Med.

With perfect weather, a large crowd and good music by the 48th Band, the annual athletic championship of the University was held yesterday afternoon on the Bloor-street field, and proved to be the most successful up to date. The crowd was larger than last year, and there was an increased attendance of ladies.

There was no procession this year, as formerly, and the games were started punctually at 2.30, and run off in good style. The committee deserves great credit for the way they handled and supervised the different events. Each event was keenly contested, and the entries in all were numerous. At the outset of the program were announced the Meds had carried off the silver cups, with 15 points; Mitchell (Arts) was second, with 13, while Henderson and Peterson tied at 10 points each for third, and Simpson was next with 8.

The time trials for the 100 yards race was good, and the 200 yards race was also good, the 100 yards being only four-fifths of a second faster than the 200 yards. The field events were equally as good, with the exception of the throwing of the 16 lb. hammer, and this was very good, as Hayden and Grant tied on two occasions, the pole vault was interesting, as it was won by half an inch. Summary:

100 yards—B. N. Mitchell (A), 1 Peterson (D), 2 Henderson (Med), 3 Simpson (S), 4 Peterson (D), 5 Henderson (Med), 6 Henderson (Med), 7 Henderson (Med), 8 Henderson (Med), 9 Henderson (Med), 10 Henderson (Med).

a close. The Jamaica Association and  
the City Council have formulated  
proposals to the throne, while the  
members are individually reply-  
ing to the circular of the Governor,  
Sir Hemming, who has invited them  
to their situation and co-operate, de-  
claring that this is quite impossible,  
and refusing their resignation. The  
meetings are being convened  
at the island, with the view of  
forming a general protest. All the  
residents in a widespread passive resis-

Straight Heat—On the Run-

**THIS CRICKETER WAS PERSECUTED.**  
Charles Byers, an Old Marblebone  
Player, Won Slender Suit and  
Recovered \$1000.

New York, Oct. 13.—Charles Byers, an ex-  
pert accountant, at No. 43 Cedar-street,  
who played in the recent international  
cricket match between the New York Crick-  
et Club and Prince Ranjitsingh's English  
eleven, recovered the \$1000 damages from  
the jury in the Supreme Court yesterday, in  
an action brought by him for slander against  
Byers R. Haffenden, a liquor dealer, at No.  
40 Broadway, which was tried before Jus-  
tice McAdams.

**ROCHESTER RE-SIGNS BUCK**  
And Rowdy Ball Will Prevail  
in Eastern League.

Rochester, Oct. 13.—It is announced that  
Manager Al Buckenberger will have charge  
of the Rochester team the coming season.  
At a meeting of the local baseball magnates  
last night, Manager Buckenberger was re-  
hired for another season on his own terms.  
The meeting was held primarily for the  
purpose of settling up the affairs of the  
club for the past season. It is understood  
that the treasurer's report, which was all  
day, left the New Jersey Club, of which  
Buckenberger was a member, and joined the  
New York Cricketer Club, and from that  
time his life was made a burden to him by  
the number of the New Jersey team, who re-  
sented his leaving the club.

**GRANITES AT HAMILTON.**  
Hamilton, Oct. 13.—(Special)—The Gran-  
ites football team of Kingston arrived here  
this evening on the G.T.R. and were ac-  
companied by about 125 admirers. Their  
match with the Hamilton Tigers to-morrow  
will be a fast one no doubt. Trouble is look-  
ing for a home game at Kingston, where  
Hamilton recently played with the Lam-  
sones fifteen. When he left there was bad  
blood between the two sides. The Gran-  
ites will play the Hamilton Tigers to-morrow  
at 8 p.m. The Granites will play the  
Hamilton Tigers to-morrow at 8 p.m. The  
Granites will play the Hamilton Tigers to-  
morrow at 8 p.m. The Granites will play

# WAGTAIL PUZZLE NO. SIX

Once More America's Cup Contestants  
Are Balked By Fog and  
Calm.

STILL THEY TRY AGAIN TO-DAY  
Numerous Flukes Have Disgusted  
the Public and Now Only  
Few Turn Out.

New York, Oct. 13.—The winds asleep in  
the caves and a coverlet of white fog drawn  
over the bosom of the drowsy ocean today  
lengthened the unprecedented record of  
flukes in a cup contest to six. As on Tues-  
day the yachts did not leave their anchor-  
ages inside of Sandy Hook. It was used  
to make another attempt about such weat-  
her. So, at the hour set for the start,  
the Regatta Committee boat poked out to  
sea through the dense vapor of fog and  
announced to the group of vessels the same  
old monotonous story that there would be  
no race to-day. Everybody is thoroughly  
disgusted. The patience of the public is  
almost exhausted. From 8,000 people who  
went out on the first day, the crowds  
have dwindled until it is safe to say that  
less than 2,000 people were about today.

**SHAMROCK'S GREAT SAIL AREA.**  
The experts estimate that the big club  
topped that the Shamrock showed yesterday  
for the first time contains about 800  
square feet more sail than the same sail  
of the Yankee boat. Add to this the ex-  
cess of her lower sails, and the foreleg  
is capable of spreading something like 1,200  
square feet more of canvas to the wind  
than the Columbia. In light airs, there-  
fore, the Shamrock must have a great ad-

SCHREINER, TARTE ET AL. Great Britain is on the eve of what may develop into the war of the 19th century. No one can foretell to what extent the conflagration may spread.

But what shocks us, as Canadians, more than anything else, in the present crisis, is that the loyalty of the Dominion of Canada to the Mother Country is in the balance. The Cabinet is divided as to whether or not Canada should send a contingent to South Africa.

Mr. Tarte insists that Canadians, if they take part in the South African war at all, must go as Swiss, as paid soldiers, not as loyal Canadians. The very idea of Canadians going as Swiss is revolting.

A FATHOM LETTER. She writes:—"I had for a long time been thinking of trying the Samaria Prescription treatment on my husband for his drinking habits, but I was afraid he would discover that I was giving him medicine, and the thought unnerved me. I hesitated for nearly a week, but one day when he came home very much intoxicated and his week's salary nearly all spent, I threw off all fear and determined to make an effort to save our home from the ruin I saw coming at all hazards. I sent for your Samaria Prescription and put it in my coffee as directed next morning and watched and prayed for the result. At noon I gave him more and also at supper. I never suspected a thing, and I then solely kept right on giving it regularly, as I had discovered that he was getting over his habit, and I could see a bright future ahead of me. I was so happy and contented, and I was so proud of my husband, that I was almost ashamed to tell you of my success. I am now a happy wife and mother, and I am so glad that I have been able to do this for you. I am, as ever, your faithful friend, MRS. J. ABERCROMBIE.

## \$1000 FOR THE MILITIAMEN

Who Will Hold Their Thanksgiving Manoeuvres in the City of Toronto.

## WORKING FOR CHEAPER WATER.

Cab Drivers May Get a Show at the Union Station—New Fire Brigade Rules.

The Board of Control held a three hours' session yesterday afternoon. Nothing of very great importance came up, and harmony prevailed throughout. With the exception of the water rates, very little discussion took place, and the Controller was of one mind. Aid. Woods was the only absentee.

J. A. Paterson, acting for Mair & McCann, contractors, waited on the board with the request that the city indemnify them for the expense they were put to in improving the old armories for the Toronto Cold Storage Company, who had leased the building from the city for a term of years, but failed to fulfil their obligations, and against whom the city has a bill for rent. Mr. Paterson contended that the city had been greatly benefited by the work and material that had expended upon the place, and thought it would be only right to allow them something.

The Mayor, however, did not look at it in that light, but agreed to refer the matter to the Property Committee, and the City Solicitor for settlement.

**That Lansdowne-avenue Crossing.**  
Aid. J. J. Graham drew the board's attention to the inconvenience people in the West End were put to in not being permitted to cross the G.T.R. and C.P.R. tracks at Lansdowne-avenue. He stated that the difficulty could be remedied if the city would appoint a man to look after the gates at the crossing until the question is settled by the Railway Committee at Ottawa. The companies, he said, were both agreeable to this.

The board will recommend the appointment.

**Thanksgiving Day's Fight.**  
The request of Lieut.-Col. Otter for a grant of \$1000 to help defray the expenses of the Thanksgiving Day manoeuvres was granted without a word of discussion. Lieut.-Col. Delamare was present, and explained the reasons why he wanted \$400 more this year than last was because a Montreal regiment was coming up to participate in the manoeuvres.

The communication from the Canadian Order of Foresters, requesting the city to grant them the same privileges that are enjoyed by other fraternal organizations in the matter of defraying the expenses of the poor at the hospitals, was favourably looked upon and forwarded to Council. The request of the petitioners was that the city pay one-half of the cost of maintaining a patient at the hospital, and they will pay the balance. The cost is 40c per day.

**To Examine Candidates.**  
The appointment of a Board of Examiners to examine into the fitness of candidates who may apply for the position of chief engineer of the new City Hall, was briefly discussed, and it was decided that Messrs. Wickens and George Robb should be appointed and given \$25 each for their services.

**To Reduce Water Rates.**  
The report of the special committee on water rates was given up. Aid. Spence explained to the board that the rates could be reduced by 50 per cent, and the revenue then would be sufficient to cover all expenditure. The rating system, also, he said, needs readjustment.

Aid. Lynd thought that there was no doubt but that the ordinary consumer had been paying an exorbitant price, and that the rates were very unjust. There were many things, however, that the committee should have gone into more fully, and in consequence, the question should be referred back for further consideration.

Aid. Spence wanted to know how the big deficit that would follow could be made up. Aid. Spence said that there was nothing whatever to do with the matter.

**Want More Information.**  
Aid. Lynd: I would like to know from the City Treasurer what effect this reduction would have on his finances. Mr. Condy replied that he had based his calculations upon the present rate for the next six months.

On motion of Aid. Lynd, the matter was referred back to the committee with instructions to get to go into the question of readjusting rates, and also to report more fully and clearly.

**Creating a New Position.**  
The Fire and Light Committee's report said ex-Chief Graham had been appointed superintendent of apparatus and appliances, at a salary of \$1200, but the board did not back it up. Instead, they added a rider to the effect that they did not approve of creating the position, but would leave the matter in abeyance pending the appointment of a new chief.

The Mayor thought that the men in charge of the different engines were competent enough to look after them. He approved, however, of giving the ex-chief some kind of a position in the brigade.

**Notwithstanding the fact that he was a rich man.**  
Cab Drivers Are Sore.  
The Legislation and Reception Committee also met yesterday afternoon. The only question discussed was the grievance of the licensed cab drivers, who have been denied the privilege of a cab at the Station-street. The City Solicitor, who had been previously instructed to look into the matter, gave it as his opinion that as an agreement had been entered into between the city and the railway companies, prohibiting cabs from standing on the street, it would not be legal to grant the request. The Mayor, however, does not seem to take much stock in the agreement, and has forwarded to a draft of a by-law which, if adopted, will give the men what they want.

**Island for Sale.**  
The Assessment Commissioner, City Engineer and Manager Pearson of the Consumers Gas Company met yesterday morning to settle all details in connection with the establishment of a gas plant to spend about \$35,000, and their site will have a frontage of 200 feet, for which they will pay 50 cents per foot rent. The price of gas to residents will for the present be \$1.50 per 100 feet. Council's sanction is all that is now required before beginning operations.

**They Blocked Traffic.**  
Mr. F. C. Snider has written to City Engineer Rust, complaining of a car block on Yonge-street at the railway crossing. He says they use the switch for a freight siding, forcing all vehicles coming south to cross to the wrong side, and thus run the risk of accidents. The communication was referred to the Board of Works.

**Notes.**  
The acting chief of the fire brigade has prepared a new set of rules, which he has submitted to the foremen of all the halls, with instructions to fully carry them out. The men will be compelled to put in an hour and a half's drill daily, consisting of either physical or apparatus drill.

## ROOSTER BITE KILLED HER.

**Four-year-old Child Died from Lockjaw Due to a Wound From the Bird's Beak.**  
New York, Oct. 13.—Rosie Wunsch, a 4-year-old daughter of Ludwig Wunsch, a pocketbook maker of 407 Melrose-street, Williamsburg, died on Sunday of lockjaw, produced, it is believed, by the pecking of a rooster, and Coroner Delap delayed the funeral a day until an investigation was made. On the afternoon of Sept. 16 the child went to an open lot near her home to play, taking with her a slice of bread and butter, which she was eating.

A rooster belonging to Mrs. Schober, 428 Melrose-street, picked up the bread crumbs as they fell from the girl's hand. Presently the rooster went in front of her, and she, believing that the bird meant to steal her bread, held it up over her head. The rooster flew at her, and bit its sharp beak pecked her face four times, twice on each cheek. The girl ran away crying, and was met on the way by her 8-year-old sister Lena, who took her home. Mrs. Wunsch discovered that one of the wounds was very deep, but after bathing and dressing the injuries gave the matter no serious thought until on the night of Sept. 20 when the child became ill and went into convulsions. Dr. R. W. Glau-bit of 383 Evergreen-street was summoned. He found the child's jaws firmly set and diagnosed the case as tetanus. When the girl died on Sunday night the doctor wrote on the death certificate that her illness had been superinduced by the bite of a rooster. Her physician, Dr. Charles Newman, made an examination of the body.

The marks left by the rooster were plainly visible, and had never healed. In his report to the coroner, Dr. Newman gave it as his opinion that when the rooster pecked the child's face she was probably some poisonous or decayed matter in its beak. The child was buried yesterday in the Holy Trinity Cemetery.

The rooster is said to be still alive and running at large.

**WORKERS AND THE TRUST.**  
President Mulholland Outlines the Situation for Next Year in the Manufacture of Bicycles.

Two hundred members of Bicycle Workers' Local Union, No. 25, gathered Thursday in Kelly's Hall, Toronto Junction, and were addressed before the annual election of officers by President Mulholland of the International Union. Mr. Mulholland claimed that the new bicycle trust would prove an advantage to both employer and workers. The union label, he said, would secure a prominent part during the coming year in the bicycle industry. Fifty per cent of the manufacturers are now in the trust, but the union expects no trouble in getting the city, and the combination, if the independent firms adopt the label they will probably be able to hold their own. He should the trust take the same action he could not say what would be the result.

**Methodist Mission Funds.**  
The treasurers of the Methodist Missionary Society report that the total revenue this year was \$296,000, an increase of \$20,000 over the income of the previous year. The Toronto, Hamilton and London Conferences added largely to the increase, while the conferences fell back. The legacy grants were increased by \$5400. Of the amount received, the domestic missions received \$88,400, Indian missions \$88,000, French missions \$6900, Chinese missions in British Columbia \$1400, Japan missions \$20,000, West China missions \$800, special grants, repairs, etc., \$8800; total expenditure \$253,000, surplus \$8600.

**Independent Forestry.**  
The Supreme Chief Ranger, Dr. Oronhyata, is leaving for his duties in the western part of Ontario prior to proceeding to Chicago to attend the High Court of Forestry. **Traveler in Custody.**  
John Wilmore, a traveler, living at 147 Simcoe-street, was taken into custody yesterday afternoon by Detective Birch on a charge of theft. It is alleged that he obtained a gold watch from Mary Ann Hazel of 56 Ryegate-street to get repaired, and then failed to return it.

**PERSONAL.**  
Mrs. E. J. Birrick has returned from England, and with Mrs. J. Sidney Barwick will be at home to her friends on the first and third Thursdays of each month as usual.

## Study Your Health

BY EATING OUR Health Brown Bread

We have never yet told the full history of this bread and how we came to manufacture it as at present. One of the city's leading physicians, who does not wish his name used in an ad., but who has made a life study of proper diet, and bread being one of the chief articles of food, had carefully studied out just what was best in a whole wheat flour, and we have worked together in having a proper mixture of wheats and having it ground on the old stone system for our exclusive use, and we are constantly studying any improvement we can add to it. We have been successful in making some discoveries of great dietetic value, but dare not make them public, as other manufacturers would at once take advantage of our information—we prefer giving it direct to the people ourselves. So sample loaf.

DOWN ON TRIAL BY JURY. President of the Incorporated Law Society of England Denounced the System.

London, Oct. 13.—An exceedingly interesting address was delivered yesterday by President Manly of the Incorporated Law Society at the annual meeting of the organization at Dover. The main feature of the speech was an attack on the system of trial by jury. Mr. Manly regards the jury as useless and incompetent to try civil cases and a hindrance rather than an aid to the administration of justice.

**Decision Left to Unfit Men.**  
"Who among us," he said, "has a complicated dispute with a neighbor on any subject would in these days willingly agree to refer it to five or six unknown men, called haphazard, without reference to fitness or capacity to deal with the facts or to knowledge of the subject to which the dispute relates?"

**Either Invertebrate or Wrong.**  
The speaker argued further that a jury is useless, because, wherever a complicated question has to be determined, the verdict is not that of the jury but the decision of the judge, who in his charge impresses his opinion on the jury. When the opinions of judge and jury differ, Mr. Manly declares, the jury is probably wrong.

This sensational attack is likely to rouse a spirited controversy, for only lately Lord High Chancellor the Earl of Halsbury expressed a diametrically opposite view, maintaining that juries generally were more often right than judges.

**Joseph and Minnie.**  
When Edith Bond opened up his hotel at Teravale and Queen-street yesterday morning he missed about \$25 from the cash register and two bottles of whiskey. Joseph Davis, a porter, was arrested on suspicion, and he pleaded guilty in the Police Court. Minnie Fleming was also arrested and charged with receiving the money. She pleaded to be tried by a jury, and the two prisoners were committed till Monday.

**Before the Magistrate.**  
Six months in the Central Prison was the sentence imposed yesterday on John Joseph Fitzgerald, a vag, who was sent to the same institution for 3 months.

For being drunk, Andrew McTaggart was fined \$10 and costs.

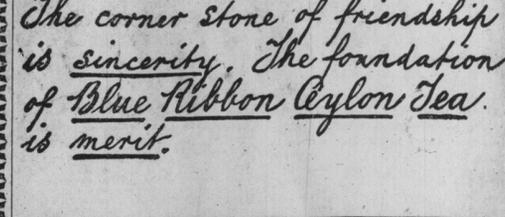

Mark Nolan was let go on suspended sentence, after being convicted of stealing an electric battery from Geo. Hyslop & Co. On a charge of stealing a set of harness, George Conroy was remanded for a week.

The evidence against Chas. Hamilton and Lotie O'Connell charged with theft, was very weak, and both were acquitted.

Daniel O'Connor was sent down for 2 months for assaulting his wife.

**Decision on November 15.**  
The decision in the West Huron election case will not be handed down till the 15th of November. The court will then give its answer to the request for a fifth adjournment, owing to the absence of Linklater.

## HOME TREATMENT FOR NEURALGIA.

OUR invention, the Dr. Sanden Electric Belt, with attachment for males, is a 20th-century treatment for all weaknesses of men which result from youthful indiscretions or later excesses. It embodies the best efforts of 30 years' experience. It cures because Electricity is strength or nerve force and it saturates the system with nerve energy. 6000 young and old men were restored to strength during 1893 by the use of the Dr. Sanden Electric Belt. It is known in every part of the globe. The application is commonsense. Two plates—positive pole—cover the small of the back over weak spot; one plate in front and the attachment for men constitute the negative pole. The current, then, in flowing from back to front, crosses or goes through the Kidneys, Liver, Stomach, Bladder, Prostate Gland and all weakened organs, giving quick and permanent results. There is no stimulation, no just temporary benefit. Electricity builds up solidly, substantially and surely. You wear the Belt at night. Currents instantly felt, though controlled by a little regulator screw. Drop in and
