MR. CHARLTON FROZEN OUT RESOLUTION INOPPORTUNE

Mover Was Willing to Withdraw, But Seconder H. Bourassa Refused to Accede to Sir Wilfrid's Request—Debate Results in Hard Words for John of Norfolk.

Ottawa, Ont., April 23.—While the dignity of parliament might have been as well conserved by adopting the attitude towards Mr. Charlton's Boer amnesty resolution which was suggested by the Premier, viz., to curtail the debate upon it, and have the motion withdrawn, the opposite course by the House was not without warrant, and, perhaps, proved the more useful in the end. The discussion was a unanimous condemnation of maudlin meddlesomeness. As The World predicted, the resolution was seconded by Mr. Henri Bourassa. Nobody else could have been found to follow Mr. Charlton's lead in the matter. Yet, the combination of the champion of French prerogative in Canada and the exponent of the extreme opposite view, that a British regiment should be stationed at Quebec, to secure British supremacy in that part of the Dominion, was strange enough to challenge comment. It was from a member on his own side of the House, too, that the member for North Norfolk sustained his severest drubbing. The thinly-veiled charge of disloyalty was hurled against him and his seconder by Mr. Oliver of Alberta.

RESOLUTION MODIFIED.

The resolution which Mr Charlton offered in the House to-day upon motion to go into supply was a mild edition of the motion he had given notice of the previous evening, in that he had omitted from it the advice to the British government to **"offer a universal amnesty to all persons in arms against British authority in Cape Colony, Natal, the Orange River Colony, the Transvaal, etc."**

In moving the amended resolution, Mr. Charlton disclaimed any political motive, and declared it was not a pro-Boer motion in that it urged maintenance of British supremacy in South Africa. In this sentiment, he was happy to say, the seconder of the resolution, Mr. Bourassa, joined. The motion was an humble expression of opinion on the part of the House. It might be asserted that it would be considered an act of impertinence to offer such a motion here. [Hear, hear.] Had the House not the right to express humble opinion as to the proper course to be pursued in securing the settlement of this war in South Africa?

The answer was a chorus of "No" from the opposition benches.

To this Mr. Charlton said that if the hon. gentlemen's policy of Imperial defence carried, Canada would surely have a voice in the expenditure of the money.

"That's different," an hon. member remarked.

COULD DO NO HARM.

Mr. Charlton replied that the conditions were exactly the same, seeing that Canada had contributed men and money to prosecute this war in South Africa. The motion, he continued, might be useless, but the spirit manifested in offering it could not be questioned and could not be condemned. The motion might have no weight. [Hear, hear.] But, on the other hand, it might be extremely useful. It might aid the Imperial government in the settlement of this question by showing that in one of the great colonies of the empire the same spirit of bitterness does not exist that probably does exist in Cape Colony and Natal. It might be a counteracting influence to the pressure from the British colonists in those colonies asking for the exacting of vengeance upon the Cape rebels. At all events, the motion, if it did no good, could do no harm. Canada had great interests in this struggle, for she had made sacrifices to maintain and uphold the integrity of the British empire. Therefore, she was in a position to ask that an honorable peace be obtained. There should not be a different settlement with the Transvaal Boers and the Boers of Orange River Colony and the Cape Africanders. The latter were an honarable foe and should not be treated as rebels, to hang in chains. The war was one of British against Dutch for the supremacy in South Africa, and a harsh settlement now would only be delaying the establishment of peace and prosperity in South Africa.

As a parallel, Mr. Charlton cited the liberal policy pursued by Great Britain towards the 60,000 French subjects in Canada after its cession to England by the King of France.

PERTINENT INTERRUPTION.

"Is not England's action in that case the best guarantee in the world that she will deal generously with a conquered foe without any resolution from an outside country?" Dr. Sproule asked.

Mr. Charlton replied that probably that was so. But it didn't follow that it would be wrong to counsel the policy England would be likely to pursue. Other parallels, he said, were the treatment of the Dutch settlers in New York and the treatment of the Southern belligerents by the North after the United States civil war. In the latter case there had been no disfranchisement of a rebel. In the interests of a united South Africa, the same policy should be pursued by Great Britain now. Mercy and magnanimity and amnesty were the power that should be exercised to secure this result.

BACKS UP MR. CHARLTON.

Mr. Bourassa seconded the motion. He did not agree with all Mr. Charlton's remarks, but he went half way to meet Mr. Charlton because he believed his position as a Canadian representative demanded it. He had always taken the position that British supremacy must be brought about in South Africa; and the best way to bring it about was to act according to the best of British traditions, respect to minorities and generosity towards foes. He claimed that Canada was within her rights in offering her advice to Great Britain as to the terms of settlement of hostilities in South Africa. Such an expression of opinion would help the British government. As for the statement that the magnanimity of Britain towards the French in Canada after 1763 was the best guarantee of magnanimity in South Africa, the fact seemed to be lost sight of that, if England had conquered in Canada, she had been conquered in Europe, and the settlement of that treaty was in the nature of give and take.

His opinion as to the injustice of the war had not changed, but when Mr. Charlton offered him his hand in this matter he went half-way to meet him. It was because Chamberlain had the sympathy of the colonies that he was able to force the war in opposition to strong opinion in England. French-Canadians were almost unanimously opposed to the war, and were in a specially advantageous position to be heard on this question, as they were a living testimony that this policy of conciliation is the only one which can secure the acceptance of British institutions by a foreign element.

PREMIER HAS NO DOUBTS.

Sir Wilfrid Laurier had no doubt that the mover and seconder were both actuated by the very best of motives, and he altogether agreed with the terms of the resolution: that the war in South Africa be settled on the principle of British supremacy and generous treatment by the victors to the vanquished, by the British to the Dutch. He did not think any resolution necessary to obtain this generous treatment for the Boers in South Africa.

The Premier continued: "A brave foe always commanded the respect of a brave opponent, and that is enough to show that the Dutch shall receive generous treatment at the hands of their brave foes. Why, it was only a few days ago, that, on the banks of Hart's River, a position had been entrusted to a few men, most of them, I am proud to say, Canadians. They were assaulted for part of the day by an enemy eight times their superior in numbers. Each assault was repulsed; but, after each assault, the thin band of defenders was reduced in numbers; and so reduced were they at last that there was not one man in the force who had not been either killed or wounded. At last, when the position was carried, there was still a man left, standing, proud and defiant. Bruce Carruthers was a name, which, I am proud to say, is honored in the hearts of his countrymen; who, by all the rules of war, might have been killed. But, from the ranks of the enemy, in their sympathy, came the cry, 'Do not kill him! He is too brave a man; he must live!' This, sir, is the lesson of the war, and I have no doubt the victorious British now in South Africa will display the same spirit. I have no doubt they will say the Dutch must live. They have earned it by their gallantry in the field." [Hear! Hear!]

NO TIME TO INTERFERE.

The Premier cited the Home Rule resolution and the resolution of sympathy with Uitlanders, to show that parliament had the undoubted right to pass the resolution before the House, and if he thought it would strengthen the hands of the British government in being merciful he would not hesitate to pass it. But, if the House were to interfere at this moment, it might hinder the peace that all desired to see established. The mover and the seconder knew that negotiations were in progress for a settlement of the terms of peace. Lord Kitchener and Lord Milner met the heroes on the Boer side—Dewet, Delarey and Botha—and there was every reason to believe, tho we were not yet informed officially, that terms of peace had been agreed upon. The Boer delegates had gone back to those in the field to submit to them the terms on which peace might be secured.

"What these terms are, I do not know," said the Premier, "but it is advisable at the present moment, when the conditions are submitted to the Boer commanders, that we should not interfere and excite in them, perhaps, hopes which might clash with what has been done, and prevent the negotiations being brought to a peaceful and satisfactory conclusion. [Hear! Hear!] It might be wired to South Africa, and perhaps induce the Boers to break off negotiations, in order, if possible, to gain better terms."

LEAVE IT ALONE.

Sir Wilfrid reminded Mr. Charlton that a general amnesty was not proclaimed in the United States until years after the war was over, "and," said he, "suppose at this moment terms were agreed upon between Kitchener and the Boer generals, and these terms did not include a general amnesty, but only an amnesty which covered the great mass of the belligerents, but excepted certain individuals, and suppose this resolution were passed and wired to South Africa, might not the Boers say, 'Oh, we have the Canadian people standing behind us, and we must insist on better terms.' I do not know that my hon. friend would then find that by his resolution he was promoting the cause of peace. I think we had better at this moment leave this question in the hands of the brave soldiers who are dealing with it—Lord Kitchener on one side, and Generals Delarey and Dewet on the other. I think we had better leave them to determine the issue, and I humbly believe in my heart that the terms which will be accepted by these brave soldiers will be such as can be accepted by every British soldier the world over. When the terms of peace have been agreed upon, when the country again enjoys the blessing of peace, if it shall be found that the terms were not as generous as in Mr. Charlton's judgment or Mr. Bourassa's, or, perhaps, my own thought they ought to be, we shall not abdicate the right of the Canadian parliament to send its views to the imperial authorities. It will not be too late then, because that is the time when we can speak effectively. But at this moment, when negotiations are pending, it seems to me the argument is overwhelming that we shall perhaps lose all in our attempt to save all."

The Premier concluded by asking Mr. Charlton to withdraw his motion.

POLITICIANS SHOULD BE STILL.

F. D. Monk, in the absence of the opposition leader, followed. He said it struck him from the first that the resolution was extremely untimely and out of place. Peace terms having practically been agreed upon between the leaders in the field, it would be regrettable, whatever prerogatives there might be, to interfere in the negotiations, and, perhaps, imperil the beneficient work. The voice of the politicians should for the moment be silent, and it was better to defer to those who are deliberating in South Africa. No doubt parliament had the sovereign right to express its opinion on this subject, yet it was better for parliament to observe the rule that the conclusion of all treaties belongs to the executive authority, reserving to itself the right of criticism. How trivial and commonplace the remarks in this house in comparison with the negotiations now going on among the armed men on the very battlefields to-day. The British politicians had studiously avoided uttering any opinions on the subject during these negotiations. It was satisfactory to observe that there was practically unanimity in the house as to the wisdom of the course pointed out by the Premier. Again, any resolution that we might pass might embarrass Sir Wilfrid Laurier in England in his forthcoming mission.

Dr. Sproule protested against the too prevalent practice in the house of passing resolutions of advice to the British parliament and government.

Mr. Charlton expressed his willingness to withdraw his resolution, but Mr. Bourassa would not agree, so Mr. Monet took the floor, maintaining that

Compulsory Ousting of Judges Has No Friend in Minister of Justice.

PENSIONS FOR COUNTY COURT JUDGES

4620 Square Miles to Be Added to the Rocky Mountain Park—Census Troubles.

Ottawa, April 23.—Altho for three hours and a half the Commons debated Mr. Charlton's ill-advised resolution on the South African peace negotiations, considerable business was transacted during the sitting of the house.

Mr. Sifton's Yukon Representation Bill was introduced and read a first time. It gives to the Yukon a representative in the House of Commons, the franchise to be the same as in the Northwest Territories.

The bill to extend the Rocky Mountains Park was also read a first time. The park now contains 260 square miles, and will be increased to 4000 square miles.

A bill by Mr. Fitzpatrick to amend the petition of Right Act was introduced. It provides that the government may ask for security for costs from a petitioner; also that when security is offered the petition will be granted, as a matter of course.

A resolution by the Minister of Justice was adopted fixing the salaries of the two police magistrates in the Yukon at $4000 a year and $1800 living allowances. Another resolution passed provides a salary of $5000 to an additional High Court judge of the Yukon. The three judges will constitute a territorial court of appeal to which appeals will be taken from judgments of a single trial judge which are now taken to British Columbia. The appeal from the Territorial Court will be to the Supreme Court of Canada.

The same resolution provides that a judge of a county court resigning at any time because of disability or after 25 years' service, may be granted a pension equal to two-thirds of his salary. If he has served less than five years, the pension shall not exceed one-third of the salary.

The Minister of Justice said there was no intention of introducing legislation looking to the compulsory retirement of judges.

Cost of Census.

In Committee of Supply, on the item of $120,000 for the census, Mr. Fisher had an interesting time explaining the increase in the cost of taking the census of 1901 as compared with 1891, as Mr. Osler figured it out that the census of 1901 cost 20 cents per head, as against about 11 cents in 1891.

There was a general airing of grievances by members on both sides of the House as to the enumeration and pay of enumerators, so that it was 1.10 a.m. when the item went thru and the House adjourned.

ANOTHER BATCH OFF FOR HALIFAX.

Thirty-Five Defenders of the Empire Given a Hearty Send-Off.

A hearty farewell was tendered to the detachment of soldiers who left last evening for Halifax. For fully half an hour before the train departed the soldier lads were surrounded by their friends and sweethearts, and then a final cheer went up from the throng as the train moved out.

Corps. H. A. Cousins and G. Smith were appointed corporals in charge of the men to Halifax. The men who left were as follows: G. H. York, W. G. W. Wilson, R. Mulcahy, R. McMaster, G. O. Patterson, Joseph Humphrey, R. W. Wilson, N. Davy, W. F. O'Brien, J. F. Green, C. Simpson, W. H. Hill, J. E. Bogue, J F. Graham, J. A. Dixon, H. A. Jones, T. Johnston, H. Gledhill, J. J. Connors, J. Rielly, S. Hawkins, C. Chandler, J. Hughes, W. H. Sears, H. Beatty, G. A. Rankin, R. Wilson, G. Price, W. Brown, E. Dunsneath, J. Hannavan, J. Graham, W. J. Wingrove, G. R. Smith, E. Odlum.

Col. Otter will not inspect any more men for the contingent, having received word from Ottawa that the requisite number has been obtained.

Lieut.-Col. Nattrass, A.M.S., will be busy to-day examining the last of those passed by Col. Otter. Those accepted by him yesterday were:

William J. Harris, 17 Lennox-street; James Lawson, Fairbank; Robert S. Hambleton, Farency, Ont.; Chester C. Maclennan, Sutton West; Geo. Riley, Bennington, Ont.; John H. Chapman, Dunsford, Ont.; Jas. COMMERCE AND DEFENCE SHOULD GO HAND IN HAND

Captain Wickham at St. George's Society Banquet Takes Issue With Sir Wilfrid Laurier on the Question of Imperial Defence—Canada Should Subsidize Shipbuilding.

St. George's Day, the day which Englishmen the world over join in celebrating, was fittingly and duly honored last evening, when 150 members of St. George's Society and their guests surrounded the festive board, and in speech, song and story breathed forth their sentiment of love for King and country. The assembly-room of St. George's Hall presented an animated appearance, when, after attentive discussion of the most excellent menu provided by Harry Webb, John Taylor, president of the society, turned the attention of those present to the second, but no less pleasant, portion of the 67th annual gathering in honor of England's patron saint, and proposed "The First Toast of All Britons—The King."

Seated at the guests' table were the representatives of sister societies: G. Kennedy, President St. Andrew's Society; T. D. Delamere, President I. P. B. S.; N. L. Steiner, President German Benevolent Society; Douglas Scott, Caledonian Society; Mayor Howland, Rev. W. Carey Ward, J. Herbert Mason, W. T. Boyd, H. J. Wickham, Samuel Trees, Barlow Cumberland, Major A. D. Robertson. Others present were: Percival Ridout, past president; George Musson, past president; Henry O'Hara, Dr. Norman Allen, Col. Elliott, Joseph Lugsdin, J. C. Lauder, Thomas Davies, George Beardmore, Capt. R. K. Barker, E. Strachan Cox.

"The Day, and All Who Honor It" was proposed by President Taylor, and responded to in fitting terms by Barlow Cumberland. "The English race," said he, "has been in the forefront of all the fight, the glory, the achievement, which has led the way to the glorious position in which our race finds itself to-day."

"We all feel proud that we are Britons," said the 1st vice-president, J. C. Copp, in proposing "The Land We Left and the Land We Live in." In responding, Rev. Carey Ward paid a tribute to British slowness, sticktoitiveness and blundering sureness," and declared that what Canada wants is Canadians, to build up our agricultural and industrial resources; not to have them flock to already overgrown towns.

"The Army, Navy and Active Militia" was proposed by Mr. Copp, and responded to by H. J. Wickham, on behalf of the Navy, and Major Robertson and Capt. Barker on behalf of the Army and Active Militia.

Canada's Duty Toward Navy.

In responding to the toast of "The Navy," H. J. Wickham said

"The health of the navy, which has been proposed, is a subject in which we are all interested. I mean, whether the navy is 'fit' and in a proper condition to transact any business it may be called upon to perform. To begin with, I think I could report favorably as to the zeal for the service which always characterizes both officers and men; a British sailor is referred to as a 'handy man.' He has earned this nickname by his readiness to undertake almost any kind of service, in any climate and under any conditions. You will recollect how Captain Percy Scott saved the situation at Ladysmith. In fact, I think if, unfortunately, the British Navy should be called upon to defend the empire, and fail it would not be to the amount of efficiency in its officers and men that we should have to look for the cause, but, as in the case of the army in South Africa, we should find that officialdom and red tape had choked its proper action.

"Now, if I am right in this view, I want immediately to place upon the proper shoulders the responsibility for such a state of things. We are a democratic people, and have representative government. Any great measure, whether of reform or otherwise, must have the support of the people; and, unless the British public are fully alive to the requirements of the Royal Navy, their representatives in parliament will not take much trouble about the service, and civilian officials hate to do anything more than they are obliged to.

"However patriotic and zealous the officers and men may be, they will work at a fatal disadvantage unless they are backed by a thoro administrative organization and have for their use the best ships and guns which modern science can supply. It is a most regrettable fact that the British public have been content with their past records and seem to think that they are invincible at sea. This feeling of false security is not confined to the British Islands, but has spread itself to the colonies; so much, indeed, is this the case that **our public men here appear almost to ignore entirely the vital interest which Canada has in the health of the British Navy.**

What Would Happen.

"In order that I may emphasize this point, I wish to direct your attention to the condition of things which would result should Great Britain's naval power be attacked with any degree of success. In the first place, out of total exports amounting to, in round numbers, two hundred millions of dollars a year, Canada has subject to the risk of war upon the ocean about $125,000,000, the other $75,000,000 of exports going to the United States. Then, in the matter of imports, exclusive of goods imported from the United States, we receive by sea about $75,000,000 worth annually. I cite these, of course, in order to give you some idea of the magnitude of Canadian interests which would be immediately imperilled by a naval war.

"But, before going on to consider what Canada should do in the premises, I want to say a few words with regard to our general position as a part of the British empire. First of all, in comparing ourselves with other nations or empires, we must never lose sight of the important fact that ours is a maritime empire, every part of which is separated from the other by the sea, and we depend absolutely for our very existence on being able to cross the sea at all points, both to trade with each other in all parts of the world, or, in case we should be attacked, the absolute command of the sea is necessary before one part of the empire can go to the assistance of another. Next, the people or peoples of the empire are made up of almost every nationality under the sun. The reason they are contented to remain under the British flag is because it is a symbol of good government, justice and civil and religious liberty.

"There are, therefore, good and substantial reasons why the various people who make up the British empire are directly interested in maintaining its security. Take, for example, the people in Canada, where we have about two millions of fellow-citizens of French origin. There is no doubt that, if any disaster should happen to the British empire, the French-Canadians would be great sufferers thereby; and I feel convinced that, just as soon as the French-Canadians realize how necessary it is that they should do their part towards strengthening the empire, they will respond with alacrity. The results of Canada's being annexed to the United States or of her being an independent nation have been fairly well considered. They would be unsatisfactory in every way and more expensive: **so that Canada, as a simple matter of business, finds it decidedly to her advantage to remain a part of the British empire, even tho it should involve our having to shoulder additional responsibility.**

"But the process of national education and evolution is, of necessity, slow. At some time in the future, some form of a common agreement may be reached between the colonies and the Mother Country, whereby an Imperial Defence Force will be maintained out of a common fund, and some representative body will be established to fix the tax for raising this fund and to control its expenditure. But, at the present time, public opinion in the Mother Country and in the colonies is not ripe, because, so far as the Mother Country is concerned, she would have to admit the colonies to a voice in her foreign policy; and, so far as the colonies are concerned, they would have to agree to vest in some representative body the absolute control of such foreign policy. Then, again, there are many questions affecting the trade policies of the various parts which would be affected by any such comprehensive scheme, and, for my own part, I believe it will be some considerable time

SPARKS FLEW HALF A MILE

Fire in Newburgh Destroyed Many Buildings and Extended to the Country.

HUNDREDS OF MEN FIGHT FLAMES.

Total Loss Will Reach Nearly Six Thousand Dollars—Blaze of 1887 Recalled.

Newburgh, April 23.—Another fire, with a gale of wind, not unlike the fire of 1887, has visited this village. The fire started in the roof of Mr. Burgoyne's grist mill, and in a very short time completely demolished the mill, together with three large buildings belonging to E. W. Stickney's Agricultural Works, in which were stored considerable machinery and raw material, as well as nearly all his patterns.

A factory belonging to J. Farley, also a large pile of lumber belonging to Robert Paul, met a similar fate.

The fire, owing to the wind, extended half a mile outside of the village and destroyed the barn and drivehouse of Matthew Gehan, with contents, including a large quantity of pressed hay and hay presses.

Only by the efforts of hundreds of men from Newburgh, Strathcona and the surrounding country was a large amount of valuable property prevented from becoming a prey to the flames.

Stickney's loss was about $5000; insurance $3500. Burgoyne's about $300; supposed to be insured. Farley's loss was about $250; insurance $200. Robert Paul's loss, $100; no insurance.

FIRE IN HUNGERFORD.

Belleville, April 23.—A dwelling in Hungerford, owned by Robert Coulson of Thomasburg, was burned yesterday. Loss on contents covered by insurance. The building was uninsured. Loss not stated.

FIRES NEAR CHATHAM.

Chatham, April 23.—There was a series of disastrous fires in this vicinity to-day and yesterday. John Cooper's Saw and Stave Mills, on the 11th concession of Chatham, and the adjoining village, known as Cooperville, were totally destroyed yesterday. Bush fires were the cause. Messrs. Benoit and Lucier of Big Point, Dover, both lost their residences and contents yesterday. Charles E. Scott, a farmer on the 8th concession of Chatham Township, lost his residence and almost total contents. This afternoon the fine brick residence of William Mills, on the 4th concession of Chatham Township, was entirely destroyed, the fire starting from a chimney. Mr. Mills was attending the Liberal Convention when he heard of his loss.

VILLAGE ALMOST WIPED OUT.

North Augusta, April 23.—About 12.30 to-day fire broke out in the north side of the village, commencing at the residence of Charles Galbraith. The residence of George Davis was next destroyed. From there it cleaned the residences and stables of S. W. Norton. These were on the road to Bellamy Station. Two blacksmith shops, one occupied by Chas. Galbraith and one empty. The fire then took the following on Victoria-street: The brick residence and drivehouse of Dr. Waddell, the frame residence and shoe store of James Langstaff, the brick residence, carriage house and stables of W. S. Cannon, and millinery of Miss Cannon. This house was owned by Wm. Steacy, Athens. The Stone Hotel, nine out-buildings, owned by Mrs. J. B. Davis, were completely destroyed. The general store, owned by T. E. Warren & Company, including Bell Telephone office, was wiped out, also his new out-buildings, barns, drivehouse and residence. The new residence just being erected by Dr. Dunn and his office, including a very valuable library, was consumed. Very little furniture was saved and none of the stocks of Warren, Langstaff & Cannon. A horse of Norton's and three cows of Dr. Dunn's were burned to death. Nearly all had some insurance, except Dr. Waddell, his loss being about $3000. Total loss is estimated at $40,000; insurance about $12,000. The fire cleaned everything north of the creek, except the two churches, three residences and the English Church parsonage. Most of the people have left only the clothes on their backs. L. E. Warren saved his books. They were in a fire-proof safe, and not the least damaged. Fire was supposed to have started by chimney burning out. The wind was raging.

BEEF TO GO STILL HIGHER WHAT CAN A POOR MAN DO?

Scarcity of Cattle, Due to the Export of Stockers, Responsible for the Present Situation—Abstinence From Flesh Diet Would Conduce to Health.

The prediction in yesterday morning's World that 20-cent beef was coming in a few days has set a whole lot of people thinking. The poor man begins to wonder where he comes in by the movement for higher prices; the "corner" dealer figures it out that he is trading at a small profit, and even a loss, and the wholesaler is kept busy looking about him for the wherewith to supply the regular demands.

Is it the beef trust? every one wants to know. Large dealers in Toronto say no. The price is regulated by the law of supply and demand, just as other prices are regulated. The beeves are not to be got anywhere, and the experience of one drover, related at the meeting of the retail butchers on Tuesday night, that he traveled 60 miles and only secured two animals, is oft repeated, with variations.

While there is nothing to indicate that the Beef Trust is operating in Canada, it is certain that United States buyers have been creating a demand by buying up all the animals in sight. Therefore, there being no great supply, it is idle to suggest means by which the parties who are responsible for the high prices may be brought to time.

There is only one way for the man of moderate means to break even with such a game. It is to stop eating beef and shift to a diet of albuminous foods, with occasionally eggs or pork. At this season of the year, authorities say, the body does not require meat in any quantities, and if there were less meat eaten there would be less sickness. Under the circumstances, it would not be a great hardship to practice a little self-denial, both for the stomach's and for the pocket's sake.

The World has obtained the opinion of several gentlemen competent to speak on a subject such as the price of beef and its bearing on the ordinary, every-day citizen.

MR. LEVACK'S OPINION.

Mr. Levack, the prince of the cattle market, was asked why the price of meat was so high. His explanation is covered by the phrase, "Scarcity of cattle." He laughed at the idea of the Beef Trust cornering the supply.

Not only in Canada, but also in the United States, is there a scarcity of cattle. This is shown by the fact that American firms have had men in Canada for six months buying beef cattle. Mr. Levack did not think that possibly these buyers were agents of the trust.

"I expect to see the price of beef go much higher than it is at present," is Mr. Levack's prophecy. The demand for beef is universal, but the supply is limited. The conditions in Canada and the United States cannot improve till grass-fed cattle can be placed on the market, and this will not be for months.

In casting around for the prime cause of the scarcity of beeves, Mr. Levack finds that the farmers are to blame. They have been shipping their stockers to the United States, and have nothing to fall back on. Stockers are shipped because the farmers, more especially in the eastern townships, find it too expensive to winter-feed them, and are more willing to take a cash price than to invest money in the stockers and bring them to market as beeves.

The shortage of feed and its cost are the chief reasons for shipping stockers. The old adage, "A bird in the hand is worth two in the bush," seems to play an important part also.

Mr. Levack sees no brighter outlook than higher prices for beef.

EXPERT MEDICAL OPINION.

The World enquired from several physicians what they would advise in view of the present condition of the meat market, and the almost prohibitive prices at which the choicest cuts are held. There seems to be but one opinion among medical men: they advocate a vegetarian diet as being the most healthful. One physician said the consumption of meat could be reduced one-half; another that the article could be expunged from the bills-of-fare in most households without any loss of stamina or flesh on the part of those who have been accustomed to meat one, two and sometimes three times a day. Here is what they say, these opinions being given as a fair sample of what is being said:

"If increased rates would effect an abstinence from meat by the public, it would be a grand blessing in disguise," said Dr. Norman Allen. "Medical science has proved beyond a doubt that much of the sickness among the people is due to excessive dieting on meat. We have a great deal of chronic rheumatism and Bright's disease in Toronto, and both of these are directly traceable to this. If meat were replaced by albuminous articles, such as peas or beans, the people would have more strength and enjoy better health. A man could endure more physical fatigue for a much longer time on a vegetable diet than on meat. Advanced physicians are now advising abstinence from meat for the promotion of health. Within the past year I have advised some hundreds of patients in this direction, and all are now living as advised, with marked benefit to themselves. A period of abstinence would be a splendid thing, inasmuch as it would show people how much better they would be on a vegetable diet. They could also augment this diet to advantage with eggs and cheese and other dairy products."

Dr. G. Chambers is of opinion that the amount of meat consumed in Toronto could be reduced to one-half of the present quantity without any injury being done the community. Too much meat altogether was consumed, especially by people who had but little physical work or exercise. As a result, gout was very prevalent in the city. It was not the typical gout, but that known as irregular gout, a sort of rheumatism."

DUTY OF LABORING MEN.

Samuel Moore, president of the Trades and Labor Council, regarded the proposed increase as a matter worthy of the consideration of their organization and of every wage-earner. It would doubtless be dealt with at a meeting of their Municipal Committee this evening. Of course, the object of consideration would be to ascertain the direct cause of the proposed increase. If it emanated as a result of any meat trust or combine, then steps will doubtless be taken to induce the public to abstain from eating meat for a certain period, or else do something to put an end to any such combine. On the other hand, if the increase were due to ordinary circumstances, such as the butchers paying their employes higher wages, then they, as laboring men, would have no kick to make. They did not object to pay fair prices for their needs, so long as the wages were good. They did not believe in the hoarding principle and of buying the cheapest things when wages were good. What they advocated was free circulation of money and more for the laboring men to spend—not necessarily to save.

A VEGETARIAN DIET ADVOCATED.

Editor World: Your articles of Monday and Tuesday on the iniquity of trusts cornering the beef and egg market require some modification.

Is it not possible that these vast corporations may unwittingly, if the people take the advice of the public press in abstaining for a month from eggs, and all kinds of meat, confer a lasting benefit upon mankind? The experiment, if rigidly carried out, would prove to the public that a strictly vegetarian diet is conducive to the highest physical, mental and moral sanitary requirements of humanity.

Meat eating had its origin in the lowest depths of savage life, and the habit is but a survival of our evolution from cannibalism. Logically we might as well eat our neighbor as our neighbor's ox.

A meat diet is one of the greatest appetizers for alcoholic beverages; and their attention to food reform they if temperance advocates would turn would accomplish far more to preserve the rising generation from the fate of the drunkard, than they have in the past by their spasmodic efforts to regulate the appetites and passions of the people by legal prohibition.

I unhesitatingly challenge, either the temperance fanatic or the licensed victualler to point out a drunkard who is a strict vegetarian. Vegetarian.

HAMILTON HEARS R. L. BORDEN, K.C., AT ST. GEORGE'S SOCIETY DINNER

Makes An Impression on His First Visit to the City—A. M. Featherston is Suing the R. T. of T. for $5000 for Alleged Wrongful Dismissal.

TO-DAY IN HAMILTON.

Magistrate Jelfs' reception at No. 3 Police Station, 9.30 a.m.
Hamilton Symphony Orchestra, Grand Opera House, 8.15 p.m.
Finance Committee, 8 p.m.

Hamilton, April 23.—When the report of the special committee on the city firemen's insurance came before the Fire and Water Committee this evening, Ald. Wallace and Kingdon opposed its consideration, with so much general business on the order paper. They wanted a special meeting. Ald. Martin suggested the special committee see what the men wanted. It was finally decided to hold a special meeting. The committee considered the request of residents on the Mountain, east of Wentworth-street, for a water service. The Engineer reported that to do so would require the use of the Ferguson-avenue Pumping Station. It was decided to instruct the Engineer to report on the cost of a pumping plant for the service required.

St. George's Society Banquet.

The 59th annual banquet of St. George's Society was held this evening at the Hotel Royal, and was an unqualified success. The diners were many, and the guests included such representative men as R. L. Borden, K.C., M.P., leader of the Conservative party; Dr. G. R. Parkin of Upper Canada College, and J. S. Willison, editor of The Toronto Globe. H. Carscallen, M.L.A., and E. A. Colquhoun, M.L.A., were present, and the various sister societies of the city were well represented.

The speeches were bright and appropriate. It was Mr. Borden's first visit to Hamilton, and he made a splendid impression. A. D. Braithwaite, president of the society, made a fine chairman. The toast list included the following: "The King," "In Memoriam Victoria, the Day We Honor," responded to by Mr. Willison; "Great and Greater Britain," responded to by Mr. Borden; "Canada," responded to by Mr. Parkin; "Woman," responded to by H. N. Kittson, and "Sister Societies." There were several musical selections during the evening.

A Suit for $5000.

A. M. Featherston, for the past four years manager of the insurance department of the Royal Templars of Temperance handed the key of his office to Dominion Secretary Emory yesterday, and later his solicitors, Lees & Co., issued a writ against the Dominion Council of the R. T. of T., claiming $5000 damages for alleged wrongful dismissal. The writ was served on the secretary this morning.

It is alleged that the Toronto faction of the order has been after the head offices of the organization and Mr. Featherston's scalp for over a year. The suit will be interesting.

Is He a Socialist

Some of the prominent members of the local Liberal advisory board are saying hard things about the Dominion government, Hon. A. T. Wood and other members on the board. The trouble has been caused by the delay in the appointment of John Welch to the job of porter in the postoffice. The dissatisfied ones charge that they have been "jollied" along from the first of the year.

James Dixon and W. T. Evans, the secretary of the Liberal Association, deny that Welch has been turned down. Mr. Evans said emphatically that Welch had the support of the whole board, and that they would all resign if he did not get the position.

It is said Senator Wood is opposed to Welch because he was connected with the Socialist Labor party, whose street speakers roasted the officials of the iron mills in which the Senator and his son are interested.

An Alimony Suit.

This morning Gibson & Co. issued a writ for alimony against Murt Egan, proprietor of the Egan Hotel, James-street. No stated amount is asked for by Mrs. Egan. The action is a High Court one.

The couple have been married about two years and have one child, which is in charge of Mrs. Egan. According to the plaintiff, their married life has been very unhappy.

A Herald Tale Nailed.

Manager Waller of the H. G. & B. R. most positively denies the statement of a city paper that the men on the road are dissatisfied with their present pay. He says they are quite satisfied, and, further, that the men themselves say they do not know how such a thing could be said about them. Not one of them has made application for an increase.

Something About Men's Hats.

You might think that it is rather an unusual thing for a merchant to advertise a second spring sale! The W. & D. Dineen Company are doing that, and intend to have this on to-morrow and Saturday. The reason of it is, that the last sale, at Easter time, was so extensive and such a success every way that it almost entirely depleted their large stock of new hats, and, therefore, they have been called upon to make some extra large shipments to replenish it. Naturally these shipments contain some styles red-hot from the manufacturer, and also many new ideas seen for the first time in Toronto. Especially in light grey Alpines and fedoras this sale is exceptional, embracing as it does all the very latest big English and American makers, besides some exclusive styles by Dunlap and Heath, for whom Dineen is sole Canadian agent. In the matter of Derby hats, the range is remarkably large, extending from Dunlap's narrow, sharply-turned brim to Stetson's wide model and flat brim. All the new Broadway and London silks are represented with Dunlap's and Heath's specials. Remember, Friday and Saturday at Dineen's—nothing but good hats at a regular price. See them. See the back page of this paper for further announcement.

MR. CHARLTON FROZEN OUT

Continued From Page. 1.

Canada had the right to advise the home government in the matter.

MAUDLIN SENTIMENT.

Lieut.-Col. Sam Hughes held that Mr. Charlton's resolution was not only inopportune, but was essentially bad. He protested against maudlin sentiment in favor of the Boers, which already had done much to prolong the war. Whatever might be said about the Transvaal Boers, there was not more excuse for rebels in Cape Colony than there would be for an Ottawa bank robber. Yet these rebels had been treated better than their loyal neighbors. From a selfish point of view, it was infinitely better for Cape Colony to have joined the rebels. Col. Hughes said that when he arrived on the train and saw a tattered flag flying from the top of the parliament buildings, he wondered what was going on within. When he learned that a member of the house had proposed an offer of amnesty to rebels still in arms, he thought the tattered appearance of the flag was accounted for.

TREASONABLE ADVICE.

Mr. Oliver, in the course of his remarks, observed that Canada has reason to be proud of her contribution of men, but he was not so sure about her reason to be proud of **her contribution in money.** [Hear, hear.] He was not above giving advice to the British government upon occasion, but he objected to the character of the advice proposed to be given to the British government on this occasion. The motion demanded, in the name of the money we have spent, amnesty for the rebels of Cape Colony, for the men who had added treachery to treason, and murder and treason to treachery, men whose lives were forfeited under the law of every civilized nation. Such advice was beneath contempt. It was of itself and in its nature treasonable. [Hear, hear.] It was absolutely unworthy of any loyal citizen, to say nothing of any loyal representative in a loyal colony of the empire. Britain's leniency had already made her a laughing stock, and it was time to show the world that it does not pay to harm and destroy the property of loyal citizens of the empire. As for the Boers, the only way to secure peace was by fighting the war to a finish. Britain encouraged the continuance of the war by refraining from putting the Cape rebel Kritzinger to death, as he richly deserved. "Under these circumstances," continued Mr. Oliver, "if these hon. members who have moved and seconded this resolution are loyal to the empire"—

"The hon. member has no right to impute any motive," interrupted Mr. Speaker.

"I did not impute; I asked the question," was the response.

"It is out of order," Mr. Speaker said, "to declare that any members of this house are disloyal, or even to express a doubt of their loyalty."

"If I am not allowed to express a doubt as to the loyalty of these hon. members," said the member for Alberta, warmly, "the only thing I can do is to leave it to the members of the house to draw their own conclusions."

OFFENSIVE RESOLUTION.

Mr. Kemp expressed his deep indignation at the action of Mr. Charlton in the matter. He looked upon the resolution as especially offensive to Englishmen, being introduced on St. George's Day. [Hear, hear.] He added that he had watched Mr. Charlton's vagaries from protectionist to free trader and back again, from advocating a policy which would lead to annexation down to his advocacy of stationing a regiment of British soldiers in Quebec. [Hear, hear.]

Mr. Kemp concluded by offering this resolution in amendment:

> "That this parliament regrets that Mr. Kruger, the acting-president, and the generals of the Orange River and Transvaal colonies, who are still leading a small but brave remnant of the Boers, have not seen fit to cease the hostilities in which they took the initiative against the British empire, by invading and annexing British territory. That we point with pride to the great liberty and many privileges enjoyed by the people of this country, as well as the other parts of the empire, under British institutions, by all races and creeds and nationalities, and realizing the magnanimity shown in the past to a defeated foe, we have the utmost confidence that the most generous terms of peace will be extended to the Boers by the statesmen and soldiers of Great Britain."

ANOTHER AMENDMENT.

Mr. Jabel Robinson offered another amendment, which, he said, he thought would fill the bill. It was to the effect that it was not advisable to give advice or instructions to the British people on this occasion, but to rely on their wonted magnanimity and generosity in dealing with the Boers.

This amendment to the amendment was declared out of order.

Mr. Demers, speaking in French, took issue with Mr. Oliver as to the policy of hanging rebels. He said that if any rancor against British existed in Quebec, it was because of the hanging of 12 rebels in 1838.

Leave to withdraw his resolution was not granted to Mr. Charlton, and it was declared lost without even dividing the house.

COMMERCE AND DEFENCE

Continued From Page. 1.

before any arrangement can be reached on these lines.

Fatal Inaction.

"But, in the meantime, **it will,** I think, **be fatal to the empire if we put our hands down by our sides and allow matters to drift.** The course which Canada and the other colonies should pursue appears to me to be obvious. We must organize our local forces upon such lines that they will be able to work togther with the Imperial forces, with Canada in the position of an ally of Great Britain, in case the empire should be attacked. I will confine myself to the naval point of view.

On April 15, in the House of Commons, Sir Wilfrid Laurier, in reply to Mr. Maclean's vigorous condemnation of the inaction of the government on Imperial topics, said:

"'My hon. friend says the government has made a great mistake; that the commercial question and the military question must go together. If that is the view taken by the hon. gentleman, that commerce and war must be considered together, it is a view from which I altogether dissent, and I challenge him or any other gentleman in this House or outside of it, to present a scheme whereby two things so dissimilar as commerce and war can be considered together.'

"Sir Wilfrid goes on to express the opinion that Canada, in the matter of maritime defence, occupies a position different from that of the Mother Country.

Commerce and Defence.

"I venture to think that not only is Sir Wilfrid totally wrong in his view that commerce and war cannot be considered together; but, on the contrary, if we desire to hold our own with the rest of the world, **it is absolutely necessary that they should be considered together.** The foreign nations are setting such an example in this matter that we cannot afford to neglect it. Take Germany, for instance. There the state has for the last few years pursued a policy of fostering its mercantile marine, with the result that, to-day, out of 22 ocean steamships capable of doing 20 knots or upwards, only 9 fly the British flag, while, with the fastest of these, Britain only takes fifth place. This has been the direct result of the Kaiser's policy of state grants of money to shipowners and the shipbuilding industries, with the result that, to-day, according to Admiral Livonius of the German Navy, the Germans are gaining the ascendency in trade in all parts of the world, owing to the increased facilities for transportation.

"What is Canada's position? In 1894, I had occasion to verify the fact that Canada stood fifth amongst the maritime nations. Since then, she has fallen back, and now stands seventh. Italy and France have overtaken and passed her in the race. The moral, therefore, from all this, is that, instead of Canada occupying a different position from the Mother Country in the matter of maritime defence, **her interests are, in fact, identical,** and there is a most pressing necessity for our respective governments taking up this question of the mercantile marine, and, by granting liberal subsidies to the ship-owning interests, create a powerful fleet in the North Atlantic, the vessels of which may be so constructed as to surpass anything afloat in point of speed and be available as fleet auxiliaries in time of war. By insisting upon such a policy, Canada will have extended her magnificent system of Imperial transportation which was commenced by the building of the Canadian Pacific Railway; the shipbuilding industries and the steel-manufacturing industries in the Maritime Provinces will be fostered, and employment given to thousands of Canadian mechanics and laboring men.

In the next place, as to our Canadian militia; this organization should be extended so as to comprise a naval as well as land militia. It will be necessary, in order to make it worth while for Canadian fishermen and seamen to train themselves so as to be properly effective, that we must pay them for their time and trouble. They can be so trained that they will work together with the Royal Naval Reserve in time of war, and in time of peace they would get the preference in manning ships subsidized by Canadian money. This is a policy which, I think, should be pressed upon the Canadian government, and we of the Navy League think it may well be the subject of discussion at the conference of colonial premiers at the coming coronation.

Songs were contributed by Allan C. Fairweather, Oscar Wenborne and J. A. Arlidge, and Ball's Orchestra provided sweet strains during the evening.

A BURNING BLACKSMITH

Changed Food and Put Out the Fire.

Even sturdy blacksmiths sometimes discover that, notwithstanding their daily exercise and resulting good health, if their food is not well selected trouble will follow, but in some cases a change of food to the right sort will quickly relieve the sufferer, for generally such active men have fine constitutions, and can, with a little change of diet, easily rid themselves of the disease.

I. E. Overdorf, Vilas, Penn., a blacksmith, says: "Two months ago I got down so bad with stomach troubles that had to quit my business. About 10 o'clock each morning I was attacked by burning pains in the stomach, so bad I was unable to work.

"Our groceryman insisted upon my changing breakfasts and using Grape-Nut Breakfast Food instead of the ordinary breakfast of meat, potatoes, etc., so I tried it and at once began to mend. The new food agreed with my stomach perfectly and the pains all ceased. I kept getting better and better every day, and now I am able to follow my business better than before in years. I am a thousand times obliged to the makers of Grape-Nuts for the great benefits the food has given."

PLAN TO BEAUTIFY TORONTO

Influential Deputation Expresses Some Important Views to the Board of Control.

COMPREHENSIVE SCHEME ASKED.

City Paying Bills for the Municipal Union—The Zoo Appreciated—City Hall Matters.

The necessity for taking steps to beautify the city on a defined plan was urged before the Board of Control yesterday afternoon by a strong deputation of influential citizens, who asked that $1000 be spent in getting such a plan prepared by experts.

Lieut.-Col. Pellatt introduced the deputation, which included Byron E Walker, Lieut-Col Bruce, Lieut-Col Pellatt, J W Flavelle, W J Gage, R Y Ellis, A E Ames, F Darling, Dr Pepler, James Bain, jr, G A Reid, W A Langton, E Wyly Greer, W R Gregg, C A Reed, C H Mortimer, E Burke, Ald Curry and several others.

These gentlemen represented the Ontario Society of Artists, the Canadian Institute, Public School Art League, Canadian Club, Engineers' Club, Architectural Eighteen Club, Ontario Association of Architects and Toronto Board of Trade.

Now is the Time.

Col. Pellatt expressed his opinion that the present was the time for Toronto to take steps for its beautification, and that advantages would result to the citizens.

On behalf of the Public School Art League, Mr. R. Y. Ellis thought there should be a general scheme adopted for the beautifying of the city, because if the matter was further put off it would be impracticable. American cities possessing such an advantage as Toronto has, with the Island, would have converted it into a veritable fairy-land. He mentioned some of the various beautiful spots in the city and suburbs, all of which were full of possibilities.

Something to Work On.

"We should have a definite plan to work on," said W. A. Langton of the Society of Artists, and he said further that in many of the Old Country cities and towns there was such a plan. The same was the case in many of the most progressive American cities. The importance of the suggestion was in looking to the future. Outlying spots, now obtainable, should be laid out with a view to their possible absorption by the city. It was a matter of regret that the city had not been working along a specific plan for a number of years. He mentioned the opportunities that had been lost in rounding the corners of King and Yonge-streets and Queen and Yonge-streets.

Could Easily Get $1000.

A. E. Ames said it was not a matter of asking for $1000. If that was the case, he had not the slightest doubts that the money could be collected from the deputation without leaving the room. Nor was the beautification of the city merely an aesthetic question. There was the vulgar commercial standpoint to be considered. The more attractive the city was made the more tourists would come here. Toronto had a season extending over five months as a tourist centre, and no other city on the continent had such a long space of time. He appreciated the work that had been done so well by the Parks Committees of late years, but its value would have been enhanced had there been a comprehensive plan. Toronto has great natural resources which are not taken advantage of. A plan should be made as soon as possible, and worked upon in a continuous way.

Extended Over 15 Years.

Byron E. Walker thought that public opinion should be created along defined lines, and that a definite plan should be formed. The object was not to commit the city to the expenditure of a large sum of money, but rather to get a first-class idea as to what could be accomplished. The beautification of the city could be worked upon moderate lines, and with a comprehensive plan Toronto could be made a most attractive place at comparatively small cost. He advocated a plan for building up of roadways, opening squares and park improvement. The work could be extended over 10 or 15 years.

Lack of Playgrounds.

J. W. Flavelle said that as the city grows the lack of playgrounds is a deep felt want. In any plan proposed this feature would have to be considered. He agreed with the representations of the previous speakers.

The Mayor thought the city officials could draw up a plan, but Col. Pellatt thought it would be better to engage the services of an outside expert.

The matter will be seriously considered by the board.

City Pays the Bills.

The board decided that opposition should be made to the act to incorporate the Toronto and Niagara Power Company, now before parliament. Incidental to the matter the Mayor suggested that Barrister Arnoldi, who appeared at Ottawa on behalf of the Canadian Union of Municipalities in regard to telephone legislation, should also go down again on this matter. Ald. McMurrich asked who paid Mr. Arnoldi's expenses, and the Mayor replied that the city did.

"Who authorized it?" asked Ald. McMurrich.

His Worship replied that the Board of Control had done so, but the other controllers said they remembered nothing about it. The bills were put thru the Board of Control and Council under the name of Thomas Caswell, without any details. The details, as found at the Solicitor's Department, are: March 25, expenses of the Mayor, Corporation Counsel Fullerton, Mr. Arnoldi, Mr. Rogers and Ald. Urquhart, $109.60; April 2, expenses of the Mayor, Mr. Fullerton, Mr. Arnoldi and Mr. Rogers, $90; April 10, expenses of the Mayor, Ald. Lynd, Mr. Arnoldi and Mr. Fullerton, $86.25.

Praise for the Zoo.

The Zoo at Riverdale Park seems to have earned some respect from the aldermen, some of whom have never treated it seriously, but the popularity it has achieved has borne fruit, and at a meeting of the Parks and Exhibition Committee yesterday afternoon it was spoken very highly of.

Ald. Fleming suggested that there should be some further improvements to Riverdale Park, and he proposed to purchase a piece of property which would add considerably to the beauty of the park. The Assessment Commissioner and Park Commissioner recommended that the property, which is on the east side of the Don just north of the old Smallpox Hospital, should be obtained at an expenditure of $2000.

The proposal to purchase the property was recommended.

The Park Commissioner reported against the proposal to establish a refreshment booth at Riverdale Park.

VOLODYOVSKI RAN UNPLACED

First Principal at 100 to 7 Won City and Suburban at Epsom—Twenty Horses Ran.

THE SOLICITOR 2 AND BALDOYLE 3.

Only Two of the Seven Favorites in Front on Closing Day at Memphis.

London, April 23.—The papular handicap, the City and Suburban, and the presence of King Edward and his suite attracted a big crowd to Epsom Downs this afternoon. The high-class field in the principal event included winners of the Two Thousand Guineas, the Derby and the St. Leger.

William C. Whitney's Volodyavski, the Derby winner of last year, with Maher up, remained the favorite in the betting to the end, but was not placed. The City and Suburban Handicap, of 2000 sovereigns, for 3-year-olds and upwards, was won by First Principal, 5 years, 109 lbs., The Solicitor was second and Baldoyle was third. Twenty horses started.

Wabun led to the top of the hill, when Porticullis drew to the front, and led until a quarter of a mile from home, where First Principal assumed command, and eventually won by three-quarters of a length. Three lengths separated the second and third horses.

The betting was 100 to 7 against First Principal, 5 to 1 against The Solicititor and 50 to 1 against Baldoyle.

Two Favorites on Closing Day.

Memphis, April 23.—There were seven races on the card on closing day, the last being added. Early and Waring were the only favorites to finish in front. The summary:

Broderick

We make up to your order the highest class of imported and exclusive suitings. The work is done by an excellent staff of cutters.

We make up also a Special $25 Suit, out of several score patterns in tweeds, worsteds and serges.

If you wish, we can put into this $25 Suit the famous "Admiralty" serge, which is guaranteed against any climate, sun, rain, perspiration and fresh or salt water.

The "cut," "style" and "fit" on these suits, as well as the workmanship, is much superior to the average $25 suit. Each suit is finished with care essentially equal to that on our best work.

LAJOIE OUT OF THE GAME

Great French-Canadian Expert Restrained From Playing With American League.

MANY CHAMPIONSHIP CONTESTS.

Torontos Ran Up a Score on the Crescents—Night Owls Play To-Day.

Philadelphia, April 23.—Following up the decision of the Pennsylvania Supreme Court against Napoleon LaJoie of the Philadelphia American League team, John I. Rogers of the Philadelphia National League Club secured a temporary injunction to-day restraining the second baseman from playing with any other organization than the Philadelphia National Club. The injunction, which was granted by Common Pleas Court No. 5, the same tribunal which dismissed the application for an injunction last year, and which was reversed by the Supreme Court on Monday, also restrains the local American League Club from employing LaJoie. Col. Rogers wanted to include Pitchers Frazer and Barnhard, but counsel for the American League objected. The court remarked that when the case was argued originally no testimony was heard on Frazer and Bernhard. It was finally decided to limit the injunction to LaJoie. The court ordered that all three cases come up for action on Monday on a motion of the American League's counsel to dissolve the injunction against LaJoie. The court fixed the amount of security before the injunction should issue at $2500. Col. Rogers secured the necessary bond.

Torontos Ran Up a Score.

It was another raw day at Baseball Park yesterday and particularly cold for the Crescents, whose fielding was off color and much worse than the eleven errors in the score would indicate. The Torontos put up an earnest article of ball all thru and ran bases at will. Cinnamon backstopped well for the amateur champions, but his throwing was wild, tho strong. In the absence of Scott and Armstrong, Hickey pitched the nine innings. The Night Owls take their turn to-day and the Cadets to-morrow. Score:

Lajoie Leaves the Game.

Baltimore, April 23.—To-day, while the second half of the eighth innings of the Philadelphia-Baltimore American League game was being played, Manager Mack of the Athletics received a telegram from Philadelphia announcing the court had issued a temporary injunction restraining Second Baseman LaJoie from playing for five days. While Mr. Mack was not advised to take LaJoie out of the game, he decided to do so pending a conference with counsel.

Senior League Opening.

The Senior League schedule has the teams opening at Old U.C.C. Saturday, May 3, the first games being as follows:

2 o'clock—Crescents v. Cadets.

4 o'clock—Night Owls v. Park Nine.

TORONTOS WON AT BRISTOL 15 TO 3.

Mr. Hough's Picked Team Improved in the Second Half.

Bristol, April 23.—(Telegram Cable.)—This city has the lacrosse fever just now and the visit of the touring Canadian team this afternoon is certain to increase the interest in the sport here and in this section of England. The Torontos met Mr. S. G. Hough's selected team this afternoon, the match starting at 5 o'clock, English time. Most of the players on Mr. Hough's team played with Essex in the first match, in which the Canadians participated.

The sky was bright and clear during the match, but a strong wind was blowing most of the time. One thousand six hundred spectators were on the grounds and a great majority were almost totally unacquainted with the points of the game, but as in the other matches of the tour these strangers to the sport became greatly fascinated.

The grounds on which this afternoon's contest took place were perfect in every way except that they were slightly narrow.

It was easy traveling for the Torontos from the start, outclassing their opponents on all sides. At half-time the score was eight to nothing in Toronto's favor.

The playing of Mr. Hough's team improved in the second half and three goals were tallied in their favor. The Torontos did not cease their activity in the least, but kept on scoring, adding seven goals to the number credited to them in the first half.

The final result of the match was 15 to 3 in favor of the expert stick-handlers from Canada.

The visitors in their match with the Duke of Argyle's twelve at Lord's on Saturday will have the distinguished honor of playing before His Majesty King Edward, the Prince and Princess of Wales and other members of the royal family. The contest is sure to be witnessed by a great crowd, as the presence of the King will be an additional attraction.

Toronto Canoe Club.

A musicale for the T.C.C. members and their lady friends will be held on Friday next. On Saturday a smoker for the members and their gentlemen friends is the closing of the spring program of the T.C.C. The members on Friday's program embrace some of the best musical talent in the city. Saturday's smoker will be like all T.C.C. smokers, a treat. The tickets are in great demand, and as the issue is limited it is not unlikely many will be obliged to miss the entertainment. Champion Stewart and Sergt. Williams are slated for broadswords and bayonet bouts, Messrs. Art. Goode and partner and Currie and partner for boxing, Messrs. Colby and Brown, wrestling. The program also bears the names of Harry Fay, humorist; the Kidner Male Quartet. It is also possible some fencing bouts may be arranged.

It is natural to want the best—Taddy's Orbit Cut Tobacco.

Play On the King's Plate.

The Toronto Turf Club reports that the bulk of the play on the King's Plate last week was on Seagram's Oneiros and Elcho. Hendrie's Maple Sugar and Dandy Dick have also been played heavily, along with Moral, Opuntia and Cardigan. Caller Herrin has not been played, and it begins to look as tho she were being held for the Stanley Produce Stake. Following are the latest quotations:

Oneiros 2, Fly in Amber 12, Elcho 8, Eastern Prince 8, Beautiful Dreamer 20, Stake Winner 20, Bessemer 100, Maple Sugar 4, Scotland Yet 20, Dandy Dick 4, Lyddite 30, Doonside 30, Moral 100, Wideawake 30, Pick Time 15, Reddy 200, St. Rosanna 200, Fernie Tickle 50, Opuntia 20, Parisian Lady 8, Quarter Penny 50, Court K. 200, Revelstoke 40, Miss Hanover 40, Barrie 40, Ojibwa 60, Kalihari 200, Marston Moor 200, Onondaga 100, Golden Way 300, Caller Herrin 30, Cardigan 30, Plethorus 100, Miscreant 500, Saucy Sally 100, Lady Bevis 20, Bobs 40, Anticosti 500, Fernie 25, Castletown 500.

Must Not Interfere With Players.

Washington, April 23.—The Supreme Court of the District of Columbia to-day issued a restraining order returnable May 3, against the National League, stopping that organization from interfering with four of the players of the Washington Club of the American League. These players are Delehanty, Wolverton and Townsend. This action was taken on proceedings instituted by counsel for the Washington American League Club.

Do Not Delay.—When, through debilitated digestive organs, poison finds its way into the blood, the prime consideration is to get the poison out as rapidly and as thoroughly as possible. Delay may mean disaster. Parmelee's Vegetable Pills will be found a most valuable and effective medicine to assail the intruder with. They never fail. They go at once to the seat of the trouble and work a permanent cure.

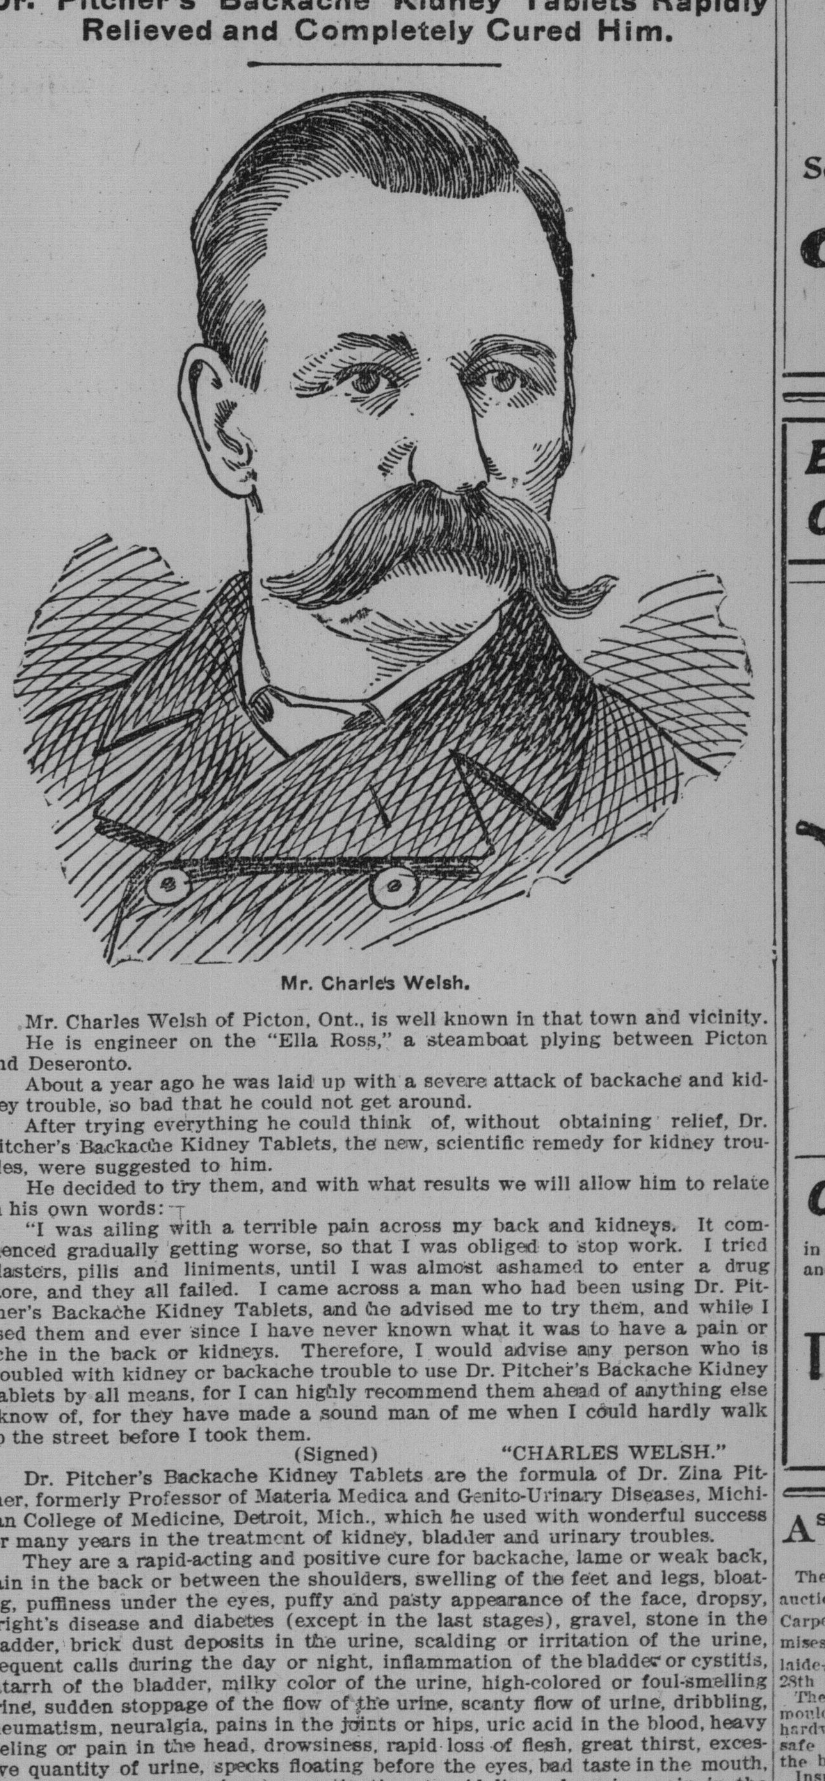
A Picton Engineer's Terrible Kidney Pain

Mr. Charles Welsh, Engineer on the Steamer "Ella Ross," Was a Sufferer from Intense Pain in His Back and Kidneys.

He Tried Plasters, Pills and Liniments, But They Failed to Help Him.

Dr. Pitcher's Backache Kidney Tablets Rapidly Relieved and Completely Cured Him.



Mr. Charles Welsh.

Mr. Charles Welsh of Picton, Ont., is well known in that town and vicinity.

He is engineer on the "Ella Ross," a steamboat plying between Picton and Deseronto.

About a year ago he was laid up with a severe attack of backache and kidney trouble, so bad that he could not get around.

After trying everything he could think of, without obtaining relief, Dr. Pitcher's Backache Kidney Tablets, the new, scientific remedy for kidney troubles, were suggested to him.

He decided to try them, and with what results we will allow him to relate in his own words:

"I was ailing with a terrible pain across my back and kidneys. It commenced gradually getting worse, so that I was obliged to stop work. I tried plasters, pills and liniments, until I was almost ashamed to enter a drug store, and they all failed. I came across a man who had been using Dr. Pitcher's Backache Kidney Tablets, and he advised me to try them, and while I used them and ever since I have never known what it was to have a pain or ache in the back or kidneys. Therefore, I would advise any person who is troubled with kidney or backache trouble to use Dr. Pitcher's Backache Kidney Tablets by all means, for I can highly recommend them ahead of anything else I know of, for they have made a sound man of me when I could hardly walk up the street before I took them.

(Signed) "CHARLES WELSH."

Dr. Pitcher's Backache Kidney Tablets are the formula of Dr. Zina Pitcher, formerly Professor of Materia Medica and Genito-Urinary Diseases, Michigan College of Medicine, Detroit, Mich., which he used with wonderful success for many years in the treatment of kidney, bladder and urinary troubles.

They are a rapid-acting and positive cure for backache, lame or weak back, pain in the back or between the shoulders, swelling of the feet and legs, bloating, puffiness under the eyes, puffy and pasty appearance of the face, dropsy, Bright's disease and diabetes (except in the last stages), gravel, stone in the bladder, brick dust deposits in the urine, scalding or irritation of the urine, frequent calls during the day or night, inflammation of the bladder or cystitis, catarrh of the bladder, milky color of the urine, high-colored or foul-smelling urine, sudden stoppage of the flow of the urine, scanty flow of urine, dribbling, rheumatism, neuralgia, pains in the joints or hips, uric acid in the blood, heavy feeling or pain in the head, drowsiness, rapid loss of flesh, great thirst, excessive quantity of urine, specks floating before the eyes, bad taste in the mouth, (especially in the mornings), constipation, torpid liver, dragging pain in the loins, sense of weight or pressure in the region of the bladder, kidney troubles of old people, bed-wetting of children, kidney troubles of women, and all symptomatic indications of kidney derangement.

SHAKE THEM ALL UP.

The electors of Ontario have to choose new representatives to serve them in the legislature;

or, to put it another way, they have to pass judgment on the record of the Ross government in the conduct of the affairs of this Province;

or, still another way, are they satisfied with the Liberal rule that we have had and are having now?

And, do they desire a change, and a new administration, starting fresh, with a turnover all round, a shaking up of a fossilized system, a regeneration of officials that have moss growing on their backs and boots?

Is there to be any punishment of unjust stewards? If a government has proved unreliable, if it has sacrificed the public interest, if it has preferred the interest of corporations and individuals to that of the people, there is only one thing to do, and that is, make a change.

The trouble in Canada is: we do not make enough of changes; we do not turn out of office enough; we do not "fire" those who have been found out.

The present government have been proved unfaithful to the people's interests. They ought to go. If Mr. Whitney comes in and does not do what the people want, let him go on short notice. But the great thing is to keep putting the bad and incompetent out. Changes in government invariably bring some kind of improvement. The aspiring have generally something new to introduce, some abuse to remove. Let there be plenty of these changes, and the people will find themselves in possession of their own—the right to rule themselves. They are under "bosses" today. Get rid of the professional "bosses" and keep turning them out, one after the other. Turn things upside down; get new men in; put every man on his mettle. Ontario has need of a great big shaking-up.

HOME OWNING OR RENTING.

In a contribution to The Chicago Record, F. Spencer Baldwin, Ph. D., takes up the question as to which is financially better for city workers, home ownership or renting. Dr. Baldwin maintains that, in most cases, it is cheaper to own than to rent. The cases in which the reverse is true, he declares, are exceptional. It is his belief, as a result of extended investigation, that the rents which city workers are obliged to pay are, ordinarily, far in excess of a fair return upon the value of the property. Witnesses before investigating committees in Eastern cities have cited instances where the rents represented an annual earning of 100 per cent. on the assessed value of the property. The Boston tenement-house census of 1891 showed that the average return to the owners of 646 tenements found to be in bad sanitary condition was 12½ per cent. upon the assessed valuation.

It is held by economists that 20 per cent. of the wages of the head of the family should be the maximum outlay for rent in cities. There are no trustworthy statistics upon this question, but Dr. Baldwin believes that, on an average, the proportion of wages paid for rent is far in excess of 20 per cent.

Notwithstanding the manifest advantages accruing from home ownership, the statistics of Carroll D. Wright, United States Commissioner of Labor, show that, of the families occupying homes in cities having 100,000 or more inhabitants, 78 per cent. are tenants and only 22 per cent. are owners. Dr. Baldwin believes that it is possible nowadays for almost any wage-earner to become a home-owner thru the opportunities now offered for buying on the instalment plan, and thus, in time, relieve himself of the heavy drain represented by rent payments.

To this discussion of the question from the financial standpoint, The Record appends the following comment upon the moral effect of home ownership:

"No careful observer of social conditions will challenge the statement that the ownership of homes by those who live in them conduces to the public welfare, by raising the standard of character and citizenship. The social advantages of home ownership and the beneficial influence upon the individual are matters of general acknowledgment."

WHY STAY PALE.

A pity to see pale girls stay pale and dull when it is so easy to get Scott's Emulsion.

One of the best things Scott's Emulsion does is to give rich blood to pale girls.

The result of regular doses of Scott's Emulsion is an increase not only in the red color of the blood and in the appetite but in the good looks and bright manners which are the real charm of perfect health.

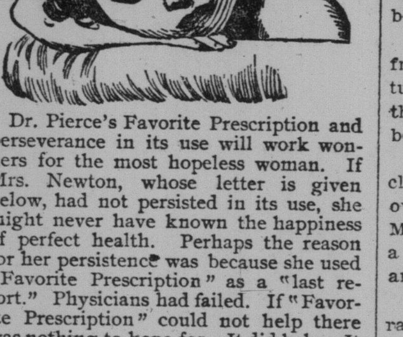
SCOTT & BOWNE, Chemists, Toronto.



Dr. Pierce's Favorite Prescription and perseverance in its use will work wonders for the most hopeless woman. If Mrs. Newton, whose letter is given below, had not persisted in its use, she might never have known the happiness of perfect health. Perhaps the reason for her persistence was because she used "Favorite Prescription" as a "last resort." Physicians had failed. If "Favorite Prescription" could not help there was nothing to hope for. It did help. It always helps and almost always cures. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It imparts strength and elasticity to the organs of maternity and makes the baby's advent practically painless.

"When I consulted you in April, 1899, I was in poor health," writes Mrs. E. H. Newton, of Vanburen, Aroostook Co., Maine. "Had been sick all winter, and, to add to my trouble, was on the road to maternity, which the doctor said would end my days. I was almost discouraged; did not expect any help, but thought the end was only a matter of time, and—oh! my two poor, little, motherless children.

"It was in this condition that I began the use of your valuable medicine. On receipt of your letter of April 6th my hnsband purchased six bottles of 'Favorite Prescription' and 'Golden Medical Discovery.'" and I used it as you directed. When you wrote me words of encouragement on April 27th I had received no benefit from the medicine, but determined as a last resort to give it a fair trial.—I am now taking the thirteenth and last bottle. I have a lovely baby girl three weeks old, that weighed 11½ pounds at birth. My baby and I are enjoying perfect health, thanks to your wonderful medicine, to which I believe I owe my life."

WHAT THE TARIFF CAN DO.

The Deering agricultural implement concern of Chicago is reported to be negotiating with the City of Hamilton for favors in connection with the location of a factory there, for the supply of its machinery to Canadian farmers. It sees what is in the wind—that the Canadian tariff is bound to be increased—and so these enterprising Americans are making a move to hold their Canadian business. One good turn of the Canadian tariff screw would bring the McCormicks and others into Canada, in order to hold their business.

TRADE AND THE FLAG.

An effective cartoon, bearing the subscription "Trade follows the flag," portrays John Bull in the fore-front of battle, carrying the Union Jack amidst the bullets to victory, and followed in the safe distance by Uncle Sam and representatives of other nations, all laden with merchandise for sale in the country which the warrior is opening up.

This pictorial story is, in a way, quite to the point. While her wars are not wars of aggression, Britain, nevertheless, has incidentally borne the greater portion of the labor entailed in extending and protecting the world's commerce. And while she has done this she has pursued the unselfish policy of maintaining the open door, so that other nations have shared with her the trade advantages which she has won at great cost.

To make a new application of an American statesman's phrase Britain holds the horns of the cow while others milk the animal. And this is the nation so thoroly hated the world around!

GRAND TRUNK RAILWAY.

Facts brought out at the half-yearly meeting of the Grand Trunk Railway in London were of a nature encouraging to shareholders, some of the most deferred classes of whom seem to be for the first time getting in sight of dividends.

The capital of the Grand Trunk is represented by the following issues:

Loan capital	£ 2,704,600
Debenture stock issues	21,476,176
Four p.c. guaranteed stock	5,219,793
First preference stock	3,420,000
Second preference stock	2,530,000
Third preference stock	7,168,055
Ordinary stock	22,475,984
	£64,994,609

For years the three classes last named in the list enjoyed no return from their investment, and it is only half a decade since there seemed little prospect of the second preference stockholders receiving anything. These have now reached a 4 per cent. basis, and the time seems not so remote (if the era of prosperity lengthens out) when the third preference shareholders may also be among the lucky ones. To give the third preference shareholders the dividend they desire would require an addition to the revenue surplus of £143,361 a half year. A comparison of the figures of 1896—five years ago—with those of the last half year of 1901 shows an increase in such surplus of £253,056. If this rate of progress is maintained, not only the third preference holders, but even the original stockholders, should come in for some return.

The management is practising economy by a refunding of its bonded indebtedness. The 5 and 6 per cent. bonds are being retired by the issue of securities carrying only 4 per cent., and thus a saving in fixed charges is being secured.

Since 1895 a considerable expenditure from revenue and a capital expenditure of £1,650,000 have been made on the property, and the good results are being felt in the increased receipts.

The most important steps taken include the double-tracking of the road over the entire 840 miles between Montreal and Chicago, excepting only a break of 33 miles between Port Hope and Whitby.

By strengthening the bridges and raising the standard of the track, so that the company's new and powerful locomotives could be used thruout the main lines, the average number of cars per freight train has been increased from 22.1 at the end of December, 1895, to 28.2 at the end of December, 1901. In 1895 the company had no cars of a larger capacity than 20 tons—indeed, the great bulk of the stock consisted of 10-ton cars—while their standard car is now of 30 tons capacity, and they also have a number of 40-ton coal cars. In 1895 their heaviest engine and tender weighed about 47 tons, while the present weight nearly doubles that.

The shareholders seem to have every reason to be highly satisfied with the results obtained by the new management.

FOR FARMERS.

The price of meat is going up to famine prices, so we are told. Perhaps the moral of it is that farmers should not sell their calves, the meat of which seems to be flooding the markets at the present time. How is it that so many calves are even knocked on the head in the first day or two of their existence instead of being raised and fattened and sold at two or three years old? If there is any feed in the country, as there must be, and if pasture is fair, it seems to us that there is a good deal more money for the farmer if he raises his calves instead of selling them as veal. And then there is that other foolish practice of selling our "stockers" to the people across the line or up in the west who feed and sell them when finished to the butcher. Our farmers should do all this themselves. Raise your calves to beeves and feed your own stockers.

Doctor Takes His Life.

Watertown, N. Y., April 23.—Dr. Isaac Davidson, aged 72, a prominent physician of Ogdensburg, committed suicide to-day by jumping from a bridge into the Oswegatchie River. Insanity is the cause assigned.

LOOK WELL AT THE TONGUE.

If Furred and Coated, the Liver Needs Attention.

Paine's Celery Compound

THE POPULAR SPRING MEDICINE CURES EVERY FORM OF LIVER TROUBLE.

A Victory Over an Insidious Disease After the Failures of Physicians.

The liver is the great housekeeper of our health. On its right and proper action depends our enjoyment of life.

One of the commonest indications of a disordered and diseased liver is a nasty tongue—furred and coated. Such a condition is a positive proof that the liver is not working well. Other symptoms are as follows: nauseous taste in the mouth, pains under the shoulder-blades and in the region of the kidneys. Frequently the mental symptoms of liver trouble are more dangerous than the bodily ills. Sufferers experience mental anguish, gloomy forebodings, melancholy and a general feeling of disgust with life.

When these bodily and mental troubles are experienced, your liver tells you it needs immediate help. If the proper medicine is not used at once, sickness and death follow.

Paine's Celery Compound is the one great specific for the cure of liver troubles. It always acts gently and effectively on the root of the evils, driving from the system accumulations of morbid poisons that give rise to your suffering. Soon every organ is infused with new life, the skin is fresh and clear and you enjoy perfect health.

Mrs. G. Durant of Elma, Ont., cured by Paine's Celery Compound after suffering for years from severe liver troubles, writes thus:

"For many years I have been a sufferer from liver troubles, and have doctored with several physicians, but only found relief for a very short time. My husband advised me to try your Paine's Celery Compound. I did so, and found so much relief from the first bottle that I continued, and am now using the third bottle. Your Compound has done more for me than any physician. For months before using the Compound I never had one night of sound sleep; but now I can go to bed and sleep soundly and naturally, and feel like a new creature in the morning."

POLITICAL INTELLIGENCE.

Five Conservative committee rooms have been opened in North Toronto—481 Yonge-street, 4 Yorkville-avenue, 5 Brunswick-avenue, 828 Bathurst-street and 238 Wellesley-street. In South Toronto a committee room has been opened at 357 West Queen-street, and several others will be opened in a day or so. The Central Conservative Committee rooms on King-street are beginning to take on a busy appearance. Yesterday morning over 150 names were handed in for registration.

Next Monday evening Premier Ross will speak at Brampton in the interests of the candidature of John Smith, Peel's present member.

The Liberal convention for Halton will be held next Wednesday at Milton. J. R. Barber is the present member and will again receive the nomination.

G. F. Marter said yesterday that the fact of Dr. E. Herbert Adams entering the field in North Toronto made no difference as far as he was concerned. He still intended to run, and would hold a meeting next Monday night in St. Paul's Hall, to which Dr. Beattie Nesbitt will be invited to be present and speak.

Ald. Thomas Urquhart thus challenges Thomas Crawford to meet him on the platform: "You are, no doubt, already aware that I have been nominated to contest West Toronto for the local legislature in the Liberal interest, and it seems to me that it would be the proper thing for us to arrange for joint meetings during the campaign. I would be glad to meet you personally in the matter to make the arrangement or will appoint someone to represent me who will meet a representative appointed by you at any time you might name. Kindly let me hear from you regarding this as early as possible."

Mr. Crawford replies as follows: "I am in receipt of your letter of the 21st, and I beg to say in reply that my arrangements already planned for the coming campaign conflict with your proposition as to joint meetings. Apart from this, I do not think that such meetings are helpful to the people in arriving at a just decision. If you should attend any of my meetings, I shall give you ample time to present your views."

T. L. Pardo was again nominated by the Liberals of West Kent at Chatham yesterday. Andrew Pattullo was present, and spoke.

The campaign in North York has already developed into a fusilade of typewritten letters between W. C. Widdifield, secretary of the North York Liberal Association, and T. Herbert Lennox, the Conservative candidate. Mr. Widdifield writes lengthily, and his own summing up of the situation expresses what he endeavors to say, viz., the Whitney candidate has not invited opposition at any of his public meetings so far. At two of them, he has positively refused to allow opposition speaking, while at the public meetings held by Mr. Davis in every case opposition has been invited.

Ward 6 Conservatives held an organization meeting in Sampson's Hall last night. It was largely attended and the greatest of confidence for the re-election of Thomas Crawford was exhibited. Speeches were delivered by the candidate, John Laxton, ex-Ald. Bowman, A. J. Keeler, president Ward 5 Conservatives; J. Arthur, William Crealock, J. H. McGhie and others. Mr. Crawford expressed the belief that he would have a larger majority at the coming election than he ever received before.

Next Monday evening, the Ward 5 Liberal-Conservative Association will meet for organization purposes in Euclid-avenue Hall.

Cubs at Hanlan's Point.

There arrived at Hanlan's Point yesterday two cubs from Unionville. They were consigned to Secretary Garwood of the Toronto Ferry Co., who had them placed with the bear which has made its home at the Point for several years. The animals at the Point this year will be in charge of "Duke" Collins.

United Irish League Organizer Sees Disgrace for Leinster.

London, April 23.—Speaking at Shannonbridge, King's County, says a telegram from Dublin to The Times, O'Sullivan, the official organizer of the United Irish League, declared that, as fighting in the Provinces of Munster and Connaught was being proclaimed, Leinster would have to take up the burden of the work. The people of Leinster, said O'Sullivan, would be forever disgraced if, in a few months, they did not compel the exercise of coercion in that Province.

Remodelling Digestive Vigor.

Malt Breakfast Food

DOES THE GOOD WORK.

A breakfast grain food that can remodel impaired digestion is surely worth trying.

Malt Breakfast Food does this good work in a way that cannot be accomplished by any other breakfast food seeking public recognition.

A noted city physician, an authority on scientific dietetics, recently asserted that the majority of prepared grain foods tended to indigestion and stomach derangements, for the reason that these foods contained too great a quantity of insoluble starch and other elements difficult to digest.

Malt Breakfast Food, partially cooked and predigested, is free from insoluble starch and other ingredients that hamper digestion. It has given new digestive vigor to thousands of dyspeptics and banished their troubles. No other grain food is so delicious, appetizing, satisfying and healthful for young and old. Ask your grocer for it.

Parkdale Church School for Girls.

We have pleasure in calling our readers' attention to the advertisement in another column of the Parkdale School for Girls. It is an encouraging feature and promises well for the success of this institution that the Council of Bishop Strachan School have been applied to by many of the influential inhabitants of Parkdale for the establishment there of a school for girls, on similar lines to those of the well-known Bishop Strachan School. The council have also received a very satisfactory list of pupil applicants.

Parkdale is a portion of Toronto not heretofore supplied with a school of this kind, and there is ample room for it, with every promise of its being a success when opened in September next.

Superfluous Hair Permanently Removed.

A WONDERFUL DISCOVERY BY A WOMAN.

While traveling in Mexico, I discovered a drug which removes hair from face, arms, neck or any part of the body, instantly and permanently. I have been offered hundreds of dollars for my secret, but I would rather handle this valuable treatment myself, so will send to anyone afflicted information, without any expense but a postage stamp. Don't judge my treatment by unsuccessful attempts of others. I have treated thousands, who are now thankful for life to me. I suffered for years with this affliction, and now my life's work is to help others from this humiliating trouble. My treatment is easy and accomplished at home, and I will forfeit $100 if it fails to remove hair. Don't suffer longer. Relief is now yours for the asking. Don't send any money; merely write me of your case, and I will personally send you full information that will end that shame and sensitiveness that you must suffer. Everything sent you will be carefully sealed, and your letter strictly held confidential. Address Mme. Doree, 1544 Euclid-avenue, Philadelphia, Pa. ed7

WATERFALLS WILL OPERATE MILLS

And Streams Will Float the Logs for the Pulp to Their Doors.

TEAMING IS TO BE AVOIDED

And Steamers Will Load Paper at the Adjacent Docks for Shipment to Europe.

Those who are acquainted with the property of the Atlantic Pulp and Paper Co., which is at present offering $850,000 of 7 per cent. cumulative preference stock to the public for sale at par, claim that the company will be able to manufacture pulp and paper more economically than any other company in America. The assertion is based on a number of natural advantages which the company may utilize.

Where the Mills Are.

Firstly, the mills will be situated at New Richmond, on the Baie des Chaleurs, and will be within two or three miles of the limits, which contain a practically inexhaustible supply of pulpwood. This circumstance alone gives the company a marked advantage over other companies who have to haul their wood, sometimes, several hundred miles on trains. Besides, the Little Cascapedia River flows from end to end through the centre of the limits, and this, with a large number of tributary streams winding here and there practically does away with the inconveniences and expenses of teaming. At the mills there is a large millpond, capable of holding several million logs.

Secondly, the company have been fortunate in securing a water power on the Little Cascapedia River. Before finally accepting the site the company had the foremost authority on water powers in America, Mr. Geo. F. Hardy of New York, make an examination. The company proposed to build a paper mill with a daily capacity of 54 tons, a ground wood pulp mill with a daily capacity of 50 tons and a sulphite mill with a daily capacity of 40 tons and Mr. Hardy was asked if there was power enough. He said there was, and to spare. The cost of erecting the mills and devoloping the power would be, he said, about $950,000.

For Foreign Markets.

Thirdly, the company's mills are exceptionally favorably situated in regard to transportation facilities Pulp mills are dependent almost entirely upon foreign markets, especially the European and the Eastern States markets. Other Canadian companies, to reach these markets, are forced to make a long and costly railway haul with their product. The Atlantic Pulp and Paper Company can, however, make arrangements with Atlantic steamship lines to run steamers from New Richmond for eight months in the year, if required. During the winter months favorable arrangements can be made with the railway companies to St. John and Halifax.

Large Annual Profits.

The company estimates that it will have an annual profit of over $455,000. Of this amount only $105,000 will be required to pay the dividends on the preferred stock, a portion of which is now being offered for sale. With every two shares of this seven per cent. cumulative preference stock subscribed for, there will be allotted by way of a bonus one share of fully paid common stock. Further information may be obtained from Sutherland & Cameron, brokers, Ottawa, or from the National Trust Compan, Toronto.

THE GLORIOUS TWELFTH.

Annual Parade Will Take Place to Exhibition Grounds.

Arrangements were made at the quarterly meeting of the County Orange Lodge, held last night, for the annual Twelfth of July celebration on the Exhibition Grounds. The parade will form in Queen's Park, and march by way of Grosvenor, Yonge, Queen and Dufferin-streets. The annual church service will be held in the Pavilion on July 6, when Rev. H. C. Dixon, county chaplain, is expected to deliver the sermon.

County Master Harry Lovelock, who presided, read an interesting account of the proceedings of the Provincial Grand Lodge meeting, held at Petrolea. Mr. Lovelock was appointed to represent the County Lodge at the meeting of the Supreme Grand Lodge, in June, at Niagara Falls, Ont. He was also instructed to attend the gathering of the United States Grand Lodge, which meets across the river at the same time.

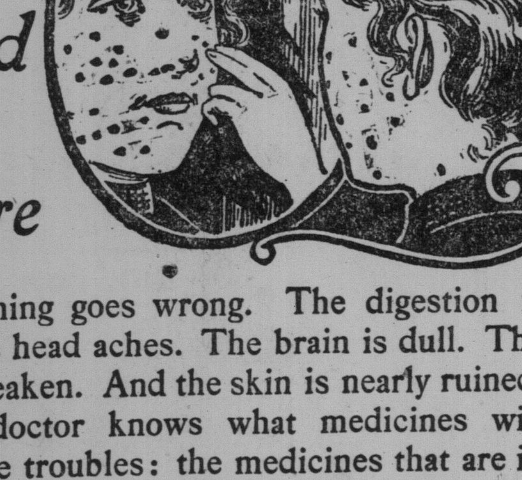
A deputation, representing the brethren of West York, asked the County Lodge to join them at Woodbridge on May 24, when it is proposed to decorate the grave of the late N. Clarke Wallace. The meeting decided to take no action as a body, but a large number of the members signified their intention of taking part in the ceremony.

John H. Pritchard, Deputy County Master, and chairman of the committee appointed to take steps to remove the debt from the County Orange Hall, presented an encouraging report. It set forth that subscriptions were coming in fast, and that a substantial sum would be paid on the principal about the beginning of next month.

Against the Combine.

Vienna, April 23.—The comment here is generally adverse to the Morgan steamship combine. The Neues Weiner Journal characterizes it as the first world trust, and says: "The interests of the entire world are opposed to America monopolizing the whole shipping traffic of the world, or using international navigation to develop its own export trade and serve its own political ends."

When the Blood is Impure



Everything goes wrong. The digestion is bad. The head aches. The brain is dull. The nerves weaken. And the skin is nearly ruined. Your doctor knows what medicines will cure these troubles: the medicines that are in Ayer's Sarsaparilla. Consult him freely.

"Five years ago I had bunches come out on my head and had a breaking out on my body. I tried different remedies without relief. I then tried Ayer's Sarsaparilla. Before I had taken half a bottle the bunches and the rash were gone, and I felt like a new man."—M. A. WALL, Bentley Creek, Pa.

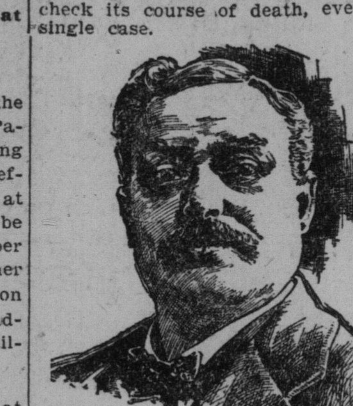
Hope for Consumptives

A positive Cure Found by a Celebrated Michigan Physician.

He Sends Duty Free a Trial Package Free With Full Information How to Quickly Cure Consumption in Your Own Home.

For years, physicians and scientists have sought a positive cure for consumption, the one stubborn disease which has defied the skill of all to check its course of death, even in a single case.



DR. DERK P. YONKERMAN.

At last a cure has been found. Incredible as it may seem, after the centuries of failure, a positive and certain cure for the deadly consumption has at last been discovered. It remained for a great physician of Michigan to find the only known cure for consumption, after almost a life's work spent in experimenting and study.

Doctor Derk P. Yonkerman, the discoverer of this great remedy, sought to cure this dreadful disease by destroying the germ that causes consumption. By destroying the germ in the blood, the cause is removed, and a speedy, permanent cure is soon effected.

Consumption has claimed more lives than any other disease. Smallpox, yellow fever, cholera and other contagious diseases have caused more terror and more panic, but consumption is always with us.

Tuberculozyne, as this great remedy is known, acts directly upon the diseased germs in the blood. It kills all impurities, and Nature soon rebuilds the body to its intended proportion. Tuberculozyne turns the wheezy cough to a full-toned, resonant voice. It transforms the skeleton to the robustness of perfect health.

If you are a sufferer from lung or throat trouble, do not fail to take Tuberculozyne. Consumptives who have returned from the West—come home to die because they thought nothing could be done for them—have taken Tuberculozyne, and are now well and strong.

Tuberculozyne will cure the worst case of consumption. If you are afflicted with lung or throat trouble, do not fail to send at once to Dr. Derk P. Yonkerman, 362 Shakespeare Building, Kalamazoo, Mich., for a free trial package, duty free, and proofs and testimonials. It costs nothing. The Doctor does not ask anyone to take his word or any one else's, as he sends a trial package free, and a few days' use will show you how easily and quickly you can be cured. Dr. Yonkerman will give your case his personal attention. Delay is dangerous. There is no time to lose when the death hand of consumption is tightening its clutch upon you. Write to-day. a.24

FOUL BREATH, CATARRH, HEADACHE

Are Banished by Dr. Agnew's Catarrhal Powder. It relieves in 10 minutes.

F. A. Bottom, druggist, Cookshire, Que., says: "For 20 years I suffered from Catarrh. My breath was very offensive even to myself. I tried everything which promised me a cure. In almost all instances I had to proclaim them no good at all. I was induced to try Dr. Agnew's Catarrhal Powder. I got relief instantly after first application. It cured me and I am free from all effects of it." 49

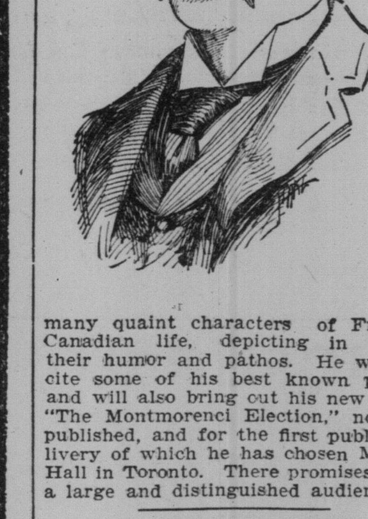
Dr. Drummond To-Night.

Dr. W. H. Drummond will arrive in town this morning for his lecture this evening in Massey Music Hall on "The Habitant and Johnny Courteau." Unlike a great many authors, Dr. Drummond is the best reader of his own poems, and, in addtion, is a magnetic and eloquent lecturer. Standing nearly six feet, of fine athletic build and possessed of a deep mellow voice, he is of the quality to achieve great success on the platform. This evening he will touch in succession upon the



many quaint characters of French-Canadian life, depicting in places their humor and pathos. He will recite some of his best known poems, and will also bring out his new story, "The Montmorenci Election," not yet published, and for the first public delivery of which he has chosen Massey Hall in Toronto. There promises to be a large and distinguished audience.

POLITICAL INTELLIGENCE.

A crowded opera house greeted J. P. Whitney yesterday at Picton. The Conservative Association of Prince Edward County presented him with an address. Ex-Mayor Boulter acted as chairman. Mr. Whitney declared the promises of the Liberal government had all been broken. The re-mount station had come to naught. The Premier's beef industry was so shallow that Mr. Dryden himself had lost faith in it and had started a ranch in North Dakota. The cold storage scheme was a failure.

Ward 2 Conservatives will hold an organization meeting in Victoria Hall next Friday evening.

At Delta yesterday the Liberals of South Leeds nominated C. E. Britton to contest the riding in the local election. Mr. Britton asked ten days in which to definitely decide. The time was granted.

Hon. Mr. Latchford wil speak at Marysville, Wolfe Island, on Saturday.

Every young man 21 years of age and over, who has resided in the province for twelve months and in Toronto for at least three months, is entitled to a vote at the approaching elections. If your name is not on the voters' list, you will have to register. It is important that you get on the list. You vote where you sleep. If you do not register, you cannot vote.

Piles We are so positive that DR. COWAN'S HERBAL OINTMENT will cure you of piles that we ask you to send for a free sample, so that you can test it. SOVEREIGN BANK ORGANIZED

Archibald Campbell, M.P., Presided at Yesterday's Meeting of the Shareholders.

BOARD OF DIRECTORS ELECTED.

There Have Been 15,331 Shares of Stock Subscribed, Representing $1,533,000.

Organization of the new Sovereign Bank of Canada was effected at a meeting of the shareholders yesterday in the temporary office, 14 West King-street. Archibald Campbell, M.P., Toronto Junction, presided and D. M. Stewart, the general manager, acted as secretary. The bylaws governing the bank were approved, and a motion was passed, conveying thanks to the Trust and Guarantee Company for their generous assistance to the provisional directors in connection with the preliminary work. T. P. Coffee made an appropriate reply.

On being called upon, Mr. Stewart reviewed the history of the institution since undertaken a short time ago, and reported that the total subscriptions thus far received amounted to 15,331 shares, or $1,533,000. It was decided, to meet the wishes of the subscribers as far as possible, to make an allotment of $1,300,000, instead of $1,000,000, as at first intended, the authorized capital being $2,000,000. The stock is distributed among 660 persons, or about 19 shares to each person. Mr. Stewart mentioned that the Sovereign was the first bank to get a charter under the amended Bank Act, and in compliance with the requirement deposited $250,000 with the Finance Minister and Receiver-General some five weeks ago. He reported that the Toronto office would be open for business on May 1, and pointed out that his aim would be to secure a safe and sound business for the shareholders, rather than to do a very large business at the risk of incurring losses. He had every expectation that the bank would do very well, but asked the shareholders to be lenient in the matter of looking for heavy dividends from the very outset. They would come, he was certain, in a short time.

The appointment of the bank staff and also of outside agents, was deferred until a later meeting.

Mr. W. Mortimer Clark, K.C., and Hon. G. T. Baird of New Brunswick were appointed scrutineers, and the following directors were elected: H S. Holt, Montreal, president Montreal Light, Heat and Power Company; A. A. Allan, Toronto, A. A. Allan & Co., wholesale furriers etc.; Archibald Campbell, M.P., Toronto Junction, Queen City Flour Mills, President Equity Fire Insurance Co., etc.; James Carruthers, Montreal, James Carruthers & Co., grain exporters; Randolph Macdonald, Toronto, Manning & Macdonald, contractors, director Crown Life Assurance Co.; Hon. Peter McLaren, Senator, Perth, Director Toronto General Trusts Corporation; Hon. D. McMillan, Senator, Alexandria, director Merchants' Fire Insurance Co.; John Pugsley, Toronto, Pugsley, Dingman & Co., and Henry R. Wilson, New York, President Lincoln Trust Company.

CHANGE COURSE OF G.T.R.

From Darlington to Bowmanville and Port Hope to Newtonville.

Ottawa, April 23.—A meeting of the Railway Committee of the Privy Council was held this morning, Hon. A. G. Blair presiding. In regard to the application of the Crow's Nest Southern Railway to cross the British Columbia Southern Railway (C.P.R.), at Elko and at the mouth of Morrissey Creek, Messrs. J. A. Gemmill and G. G. S. Lindsey, Toronto, who appeared for the applicants, announced that an agreement between the two railway companies had been reached. The committee accordingly granted the application, subject to the rules of the agreement.

The Canadian Pacific Railway Company asked for approval of the construction of a branch line along Hubert and Main-streets, Smith's Falls, to the manufactory of the Frost & Wood Company.

The committee intimated that the approval asked for might be granted to the limitation that trains must only be run between 6 and 8 o'clock a.m. and 5 and 7 o'clock p.m. In the meantime, a government engineer will visit Smith's Falls and report as to the suitability of the location.

No one appearing to object, an order was granted approving of proposed changes in the location of the G.T.R. Line from Darlington to Bowmanville, and from Port Hope to Newtonville, in connection with the company's plans for double-tracking.

The G. T. R. also applied for approval of a proposed change in the location of its line, so as to place the City of Brantford on the main line. It transpired, however, that, altho the City of Brantford is favorable to the application, sufficient notice has not yet been given, so the matter was allowed to stand over for the present.

The Woodstock, Thamesville and Ingersoll Electric Railway Company made application for a level crossing over the Grand Trunk Railway on the Ingersoll-road. At present the former railway crosses underneath the latter. The application is opposed by the Grand Trunk, on account of the danger to life involved, but approved by the municipality. The committee took the application into consideration.

East End Items.

An inquest was held at the jail yesterday morning on the body of John Gunshener, aged 37, who died there on Tuesday afternoon. Dr. Duncan presided, and the verdict was death from natural causes.

Mr. John Jordan has resigned his position as organist of St. Matthew's Church to take a similar position at St. John's, Norway.

We are glad to learn that the people of the East End are not all asleep when we learn that a fully signed and certified petition for a brick pavement on Grant-street has been handed to the City Clerk. The man whose good judgment has won the influence of his neighbors to secure such a pavement deserves credit.

No person should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordial in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaint, and there is nothing like being ready with a sure remedy at hand, which oftentimes saves great suffering, and frequently valuable lives. This cordial has gained for itself a widespread reputation for affording prompt relief from all summer complaints.

Description of lot on Ranleigh-avenue, plan 1159.

All and singular that certain parcel or tract of land and premises, situate, lying and being in the Town of North Toronto, in the Township of York, in the County of York, and Province of Ontario, being composed of part of the northerly half of lot number six, in the first concession east of Yonge-street, in the said township, and which said parcel is more particularly described as follows:

Commencing at a point which may be located as follows: Beginning at the northwesterly angle of said lot six, thence southerly along the easterly limit of Yonge-street two hundred and twenty-five feet three inches, thence easterly parallel to the centre line of said lot six, three hundred and sixty-six feet eight inches, thence south sixteen degrees east at right angles to the direction of said centre line two hundred and fifty-two feet to the said point of commencement, thence easterly parallel to said centre line of lot five hundred feet, thence south sixteen degrees east at right angles to the direction of said centre line, one hundred and ninety-one feet, more or less, to a point distant one foot north of the centre line of said lot, thence south seventy-four degrees west parallel to said centre line five hundred feet, thence north sixteen degrees west, one hundred and ninety-one feet, more or less, to the said point of commencement.

To WILLIAM J. DOUGLAS,
Of the Town of North Toronto, in the County of York and Province of Ontario, Treasurer of the said Town of North Toronto:

Town of North Toronto,
County of York,
To wit:

By virtue of the authority given me under chapter 224, sections 173 and 224 of the Revised Statutes of Ontario, 1897, I, John Fisher, of the Town of North Toronto, Mayor of the said town, do hereby authorize and direct you to levy upon the lands described in the return of lands liable to be sold for arrears of taxes made by you in duplicate to me, bearing even date herewith, attested by my official signature, and the seal of the said town, one copy being returned to you with this my warrant attached thereto, to sell the said lands, or so much thereof as may be sufficient to pay the taxes thereon, together with the fees and expenses chargeable under the aforesaid act.

As witness my hand and the seal of the Corporation of the Town of North Toronto, this 21st day of March, one thousand nine hundred and two.

JUDICIAL SALE of the assets of The Shipe Manufacturing Company (Limited.)

Tenders will be received for the assets of the above company by the Master-in-Ordinary up to 11 o'clock on Tuesday, the 29th day of April, A.D. 1902, when such tenders will be opened and considered. The parties tendering or interested in such tenders are to attend at the Chambers of the said Master-in-Ordinary, at Osgoode Hall, Toronto, at the aforesaid time. The highest tender, or any, not necessarily accepted.

The said assets consist of:

Parcel 1.—Two machines, with attachments, for the manufacture of wooden skewers, with or without the right to manufacture skewers under the Canadian patent hereinafter mentioned.

Parcel 2.—The exclusive right to manufacture wooden skewers under Canadian patent number 56414, dated 25th June, 1897, subject to the payment of royalties to one Walter Scott Shipe of from one-quarter of one cent to three cents per thousand, of all skewers manufactured and sold, according to lengths.

Parcel 3.—The exclusive right to manufacture wooden skewers under American patent number 623571, dated 25th April, 1899, subject to the royalties above mentioned.

Parcel 4.—The exclusive right to manufacture wooden skewers under English patent number 10525, dated 27th April, 1897, subject to the royalties above mentioned.

Parcel 5.—Fifty-five shares paid up in The Clarksburg Wood Rim Company, Limited.

Tenders will be received for each parcel separately, or for the whole en bloc, or for the said machines in conjunction with any one or more of the said patent rights. The conditions of sale are the standing conditions of the court.

Terms of sale: A marked cheque in favor of the liquidator for 10 per cent. of the purchase money must accompany each tender; the balance of the purchase money shall be paid into court to the credit of this matter within 15 days after acceptance of tender, without interest.

The machines may be inspected and all particulars as to same, and the said manufacturing rights and royalties, etc., obtained upon application to the liquidator, A. C. Neff, at his office, Freehold Building, Toronto.

Dated at Toronto this 15th day of April, A.D. 1902.

N.B.—Since the Prospectus of the Company was issued (about the First of April), the Company has received two offers for the purchase of its entire output of paper. These offers are entirely unsolicited, and are from parties whose standing is such as to guarantee the performance of any contract they may undertake. One of these offers covers the first year of production, and the other covers the first three years. Either offer, if accepted, would be sufficiently profitable to assure the payment of the full dividend on the Preferred Stock, provide the amount required by the Charter for a Reserve Fund, and leave a balance sufficient to pay a large dividend on the Common Stock, if no unforeseen contingencies should arise. This does not include profits estimated from the sale of sulphite pulp or from the saw mill, which, it seems reasonable to suppose, would be sufficient to cover all unexpected contingencies.

PROSPECTUS

OBJECTS OF THE COMPANY

The Atlantic Pulp and Paper Company, Limited, has been organized in order to take advantage of the unrivalled facilities for the manufacture of pulp and paper at New Richmond, on the Baie des Chaleurs, and by its charter, has powers of the fullest description. It is confidently believed that pulp and paper can be more economically manufactured there than any other place in America.

The essentials to the success of such a concern are:

1. Cheap and unlimited pulp wood;
2. Adequate water power cheaply developed;
3. Pure water for the manufacturer;
4. Cheap labor;
5. Low transportation charges;
6. Efficient management.

It will be seen that the facilities possessed by this Company assure a point of cheapness in the production of paper never attained before, while the situation of the mills on the Atlantic seaboard makes it possible to ship to all foreign ports by water without trans-shipment. As the Company proposes to confine itself almost exclusively to the export trade, it will readily be seen that this gives it further advantage over all other companies.

1. **WOOD SUPPLY.**—No paper mill in Canada has greater advantages in point of situation. Many companies do not own their own limits, being entirely dependent on outside purchases, and subject to fluctuations of supply and price. Other companies owning limits have to transport their wood from great distances by water or rail. Thus we find mills at Merriton and Niagara Falls are bringing their pulpwood from Central Quebec. Some prosperous paper companies even buy their pulp in the manufactured state. The mills of the Atlantic Pulp and Paper Company, Limited, will be built about two miles from the limits, where there will also be a very large mill-pond capable of holding several million logs. The Little Cascapedia River flows from end to end through the center of the limits, and the large number of tributary streams does away with the greater part of the hauling usually entailed in getting out pulp wood, thereby greatly decreasing the cost.

2. **WATER POWER.**—Mr. George F. Hardy of New York, the foremost American authority on this subject, has made a thorough examination of the water power that can be developed on the Little Cascapedia River at a point immediately adjoining the proposed mill site, and his report shows that sufficient power can be developed to run mills of even greater capacity.

This report can be seen at the office of the undersigned, or at any office of the National Trust Company, Limited.

3. **WATER SUPPLY.**—Pure and clean water is one of the most important factors in connection with pulp and paper-making. The bed of the Little Cascapedia River is rocky, and owing to its crystal-like clearness and purity the water in the river is suitable for making the finest grades of paper without the expense of filtering, which is almost invariably required at other mills.

4. **COST OF LABOR.**—The labor employed in the mills and woods cost less than probably any other American mill, as far as known, as competent men in this section of the country, on account of the cheapness of living, ask very low wages.

5. **TRANSPORTATION CHARGES.**—The shipping facilities of this Company are certainly unequalled by any similar enterprise in Canada, the situation of the mills on the Baie des Chaleurs giving every possible advantage for export trade, which is probably the most profitable field. Arrangements can be made with Atlantic steamship lines to run steamers from New Richmond for eight months in the year, as required. During the winter months favorable winter rates have been arranged with the Railway Companies to St. John and Halifax, New Richmond being on the line of the Atlantic and Lake Superior Railway, which will be connected with the mills by a siding.

6. **MANAGEMENT.**—The Company has been fortunate in securing the services of Mr. Wm. M. McIntyre, formerly Mechanical Superintendent with the Laurentide Pulp Company, Limited, who will act as Manager of the construction and operation of the mills. Mr. McIntyre has had over twenty years' experience in pulp and paper-making, and is regarded as an authority on the manufacture of pulp and paper.

PROPERTIES

The properties and limits acquired by the Company contain about three hundred and two square miles, or one hundred and ninety-three thousand two hundred acres, more or less. The wood is principally spruce, and there is also a large quantity of cedar, pine, birch, balsam, balm of Gilead, and poplar. The Company has reports on this property made by five different expert Rangers, acting independently. Copies of these may be seen at any office of the National Trust Company, Limited, or at the office of the undersigned.

The following is an extract from one of the reports:

"I have been working in the lumber woods for twenty years or more, and have traveled and examined limits in the State of Maine, New Brunswick, and Quebec, and worked in Wisconsin and Minnesota, and I am sure this is the best pulp limit I have ever seen or traveled over."

On the basis of any one of these reports a conservative estimate shows that there is sufficient pulpwood now on the limits to supply the proposed mills for more than 65 years. As spruce wood will replace itself in from twenty-four to thirty years, it will be seen that there is sufficient wood on the limits to afford a perpetual supply to a mill double the capacity of that now contemplated.

The freehold property consists of twenty acres where the saw mill, dwellings, and office are situated, and 356½ acres on the bank of the Little Cascapedia River, where it is proposed to build the Pulp and Paper Mills.

THE PULP AND PAPER MILLS

It is proposed to erect—

A Paper Mill with a daily capacity of 54 tons.
A Ground Wood Pulp Mill with a daily capacity of 50 tons, and
A Sulphite Pulp Mill with a daily capacity of 40 tons.

Mr. George F. Hardy has estimated the cost of erecting the Pulp and Paper Mills and of developing the water power at $950,000. The balance from the sale of the Preferred Stock will be sufficient to complete the payments for the limits, water power, saw mill, etc., provide working capital, and leave a substantial balance for contingencies.

THE SAW MILL

There is on the property a saw mill, equipped with the latest improved machinery, capable of turning out from 35,000 to 40,000 superficial feet of sawn lumber in ten hours, and is equipped with all necessary power, gearing, shafting, etc., for the installation of another saw, which would double the capacity.

MARKETS

The markets will be chiefly foreign, including the Eastern States and Great Britain. In view of the expected advances in the price of paper in the Eastern States it is probable that the greater part of the output will be marketed there. Situated as the mills will be on the seaboard, paper can be laid down in Liverpool and New York, duty paid, at such a price as to defy competition.

Freight quotations can be seen at the offices of the National Trust Company, or the undersigned.

ESTIMATE OF BUSINESS AND PROFITS

Estimating the cost of pulp wood at $2.25 a cord, careful estimates made for the Company show that the ground wood pulp should not cost over $5.89 a ton, and sulphite pulp not over $16.00 a ton. The actual cost of newspaper from pulp, estimated at these prices, should not be over $16.94 a ton. This is after making all necessary allowance for depreciation and renewal of plant, and all charges of management and selling.

The following estimate of the annual output of the mills has been prepared by Mr. Wm. M. McIntyre, a practical pulp and paper manufacturer, and is believed to be conservative and well within the mark, and includes allowances for salaries and contingencies:

16,902 tons of newspaper at $37.00 a ton f.o.b. at mills	$625,374.00	
8,294½ tons of sulphite pulp at $30.00 a ton f.o.b. at mills	248,835.00	
		$874,209.00
Cost of producing same:		
16,902 tons of newspaper, at $16.94 a ton	286,319.88	
8294½ tons of sulphite pulp at $16 a ton	286,319.88	
		419,031.88
Showing a profit of		$455,177.12
7 per cent on $1,500,000 Preference Stock		105,000.00
Available for Reserve Fund and further Dividends		$350,177.12

The ground wood pulp and the balance of sulphite pulp will be consumed in the paper mill of the Company.

The estimated profits from the operation of the saw mill are not included in these figures, but owing to the enormous quantities of cedar on the limits, substantial profits should be made from the manufacture of railway ties, shingles, etc. The Laurentide Pulp Company, Limited, in its annual report, June 30th, 1900, stated that the Company's saw mill added to the year's profits an amount equal to its entire cost, although it was operated for only three months of the year, and estimated that the future profits from this source would cover the interest on the entire bond issue of the Company.

ISSUE OF STOCK

For the acquiring of the said property, equipment of the pulp and paper mills, the development of the water power, building the railway siding to the mills, and the furnishing of sufficient working capital, the present issue of Preference Stock is made. The whole of the Seven Per Cent. Cumulative Preference Stock has been authorized to be issued on the following terms:

For every two shares of Seven per cent. Cumulative Preference Stock subscribed and paid for, there will be allotted by way of bonus one share of fully paid Common Stock.

The Seven Per Cent. Preferred Stock is Cumulative, carries yearly dividends, and has priority over the Common Stock as to both divide and assets.

After the payment of the dividend on the Preferred Stock, and before any payment of dividend on the Common Stock, a further sum of one per cent. must be applied to a Reserve Fund, under the charter. This fund will be for the further assuring of the dividends on the Preferred Stock.

Application will be made in due course for the listing of the shares of the Company on the Toronto and Montreal Stock Exchanges.

Applications for Preferred Shares should be forwarded to the NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, or Winnipeg; or to SUTHERLAND & CAMERON, Brokers, Ottawa, Canada.

Checks, drafts, etc., are to be made payable to the NATIONAL TRUST COMPANY, Limited.

If the whole amount applied for be not allotted, the surplus paid on deposit will be appropriated towards the sum due on allotment. Where no allotment be made, the deposit will be returned in full.

Further information and Forms of Application can be obtained at the offices of SUTHERLAND & CAMERON, 48 SPARKS STREET, OTTAWA, CANADA, or the NATIONAL TRUST COMPANY, LIMITED, TORONTO, MONTREAL, and WINNIPEG.

We offer the Preferred Stock for sale on the above terms.

STOCK MARKETS QUIETER

The Reaction on Wall Street Continued Generally Thruout Yesterday.

Canadian Stocks Moderately Steady, With Declines in Some Issues—C.P.R. Continues Easier—Market Quotations and Gossip.

World Office.
Wednesday Evening, April 23.

The local market has no immediate appearance of recovering from its present condition, but good judges are advising purchases at present levels for profit showing at no distant date. There are rumors of a tightening in loanable funds, but one of the principal of local brokerage houses stated that all the money they required could be obtained with reasonable effort. The quieting down in stocks is generally viewed favorably, and brokers are well satisfied to secure a rest from the unusual labors they were called upon to exercise for some weeks past. There is no pressure among holders to get out of the market, altho a very large majority must have good profits even at to-day's prices, and the buying is still sufficiently good to prevent any serious decline on the listed issues.

* * *

Most of the sales to-day represent a slight falling off in prices from yesterday, C.P.R. being the principal loser. This stock opened this morning at 124⅛, nearly two points below yesterday, but later made a gradual recovery to the close at 125. There is stated to be a good demand for loaning in this stock at New York, and applications have been made to Toronto houses for this purpose. Any revival in buying is more than likely, in consequence, to see a sharp recovery from to-day's figures. Twin City opened easier, but closed at 122¾, a slight advance from yesterday. General Electric was firm at the opening, with sales as high as 227⅝, but closed easier at 226¼. Richelieu sold fractionally lower at 113½, and threatened opposition is a bearish factor in the stock. Toronto Railway was about steady at 119¾ to 120. Steel and coal stocks were a trifle easier. Dominion Steel was only dealt in for 50 shares, and brought 67⅜ to 67½. The pref[illegible] was weak, and sold from 98½ to [illegible]. Dominion Coal was quiet and steady [illegible] 137½ to 137⅝. Nova Scotia Steel opened nearly a point higher at 109⅞, sold later at 110½, but closed quiet at 109. Sao Paulo lacks demand just now, and lost two points from yesterday, with a closing morning sale at 99. Cable brought 158, Niagara Navigation 145, and Northwest Land preferred 91. Northern Navigation declined 1½ from the opening, selling at the finish at 164½.

* * *

In the mining shares War Eagle was active, but lower, with sales at 25 to 23. Centre Star sold for 40 and Cariboo-McKinney at 27.

* * *

Bank stocks were quiet at about unchanged prices. Ontario brought 135, Dominion 245 and Hamilton 232.

* * *

Trading was less active in Montreal today, with prices generally easier. C.P.R. was fairly active, but variations were almost within a point. The low price was 124½ and the high 125¾. The closing sale was made at 125⅛. Twin City was steady at the opening, but fell off a point at the close, to 122¼. Steel and coal stocks were comparatively quiet. Dominion Steel sold from 67¼ to 68, the preferred 99 to 98 and the bonds at 94½ to 93¾. Dominion Coal brought 137¾ to 138½. N. S. Steel 110 to 111½. Toronto Railway 120 to 121½ and Richelieu 113 to 112.

* * *

On the Standard Exchange White Bear sold at 4 to 4¼, Centre Star at 40 and C.P.R. 124½ to 125¼.

* * *

New York stocks were irregular again to-day, with an easier tone. The market is in a good condition to be susceptible to favorable crop news, and this, with the short interest that has already been created, might cause a quick rally before the end of the week. The decline in prices saw, as is usually the case, a dropping off in the total sales.

Joseph: On any further decline stocks are a purchase. There is a large and increasing short interest in the general market. Crop news is improving. The leaders have not let go of the market. Pennsylvania, New York Central and Southern Railway common will do to "have and to hold." Sugar should be bought on any further recession for a turn. Locomotive preferred will soon go over par. Detroit Southern and Wisconsin Central will advance.

New York Tribune: The result of yesterday's business doubtless improved the speculative position of the market, as many accounts carried on borrowed money was transferred to stronger hands, especially in the case of the so-called high priced issues that have recently displayed so much activity.

On Wall Street.

Messrs. Ladenburg, Thalmann & Co. wired J. J. Dixon at the close of the market to-day:

The volume of business was smaller today owing to the inactivity of the midday market. Prices were highly irregular, but the tone was in the main heavy. It seemed evident that those who were responsible for the advances had taken advantage of the public buying and unloaded. Reading had an upward spurt, which soon played itself out, and the stock was weak in the afternoon. Sugar was steady all day, and had a quick rise towards the close, but in the last hour did not hold all of the advance. There was considerable liquidation on orders from the west, where rumors of the illness of one of the leading operators were in circulation. The situation seems to be that the market was bulled before events warranted such advances, and a good reaction would be logical, and, taking a broad view, not to be deplored. London did less, the arbitrage business amounting to only about 40,000 shares, of which it was estimated that 30,000 were sales. Foreign exchange rates are getting perilously near the export point, but sterling exchange in Paris is still too high to admit of shipments to that point.

J. G. Beaty, 21 Melinda-street, received the following from McIntyre & Marshall at the close of the market to-day:

The continued irregularity in the stock market to-day from start to finish reflected the mixed views of trading element on the immediate future course of prices and the shifting position of Gates' following and other large operators from the shares of railroads coming more directly under the sentimental influence of damaging reports on winter wheat to the specialties, in which bull speculation can be carried on if the crop conditions should become worse from a continuance of drought. In this latter respect T. C. I., C. F. I., Copper, Reading, B.R.T. and Wisconsin Central and other specialties similar to them were freely bought, while Atchison, Mo. Pacific, St. Paul and the shares of the Southwestern roads were being liquidated. The violent five point recovery in Sugar during the last hour was on renewed inside buying and the driving in of the heavy short interest which was created in the stock on the break late yesterday. The Gates' people were generally credited with again being the largest sellers of their railroad list, and simultaneously with being very heavy buyers of wheat and corn, especially of the July options, and inaugurating a bull campaign in both of these articles. The sale of the Granger stocks were replaced in some instances by Reading, C.F.I., T. C.I. and some of the low-priced specialties. In addition to the continuance of drought further injuring the wheat crop we have the added bearish factor of probable gold exports in the near future, as foreign exchange has advanced sharply to the gold shipping point, with demand sterling closing to-night at 4.88. It is quite apparent that bull speculation is going into the stocks which are not directly affected by bad crop and weather news, and that these stocks are to be taken in hand and put up any material break or development of bearish sentiment sufficient to spoil the market, while some of the pools and leading bull interests are liquidating in other stocks. Weather predictions are for generally clear and frosty weather to-night and to-morrow in the winter wheat states.

Messrs. Laidlaw & Co. wired J. A. MacKellar at the close of the market to-day, as follows:

The uncertain tone of the stock market yesterday and to-day was a distinct disappointment to people who had witheld their speculative orders until a bull movement was on foot. While the reaction among the more conservative element is regarded as a sign of health rather than weakness, there is little question that the confidence of the general public is somewhat shaken. The ease with which prices have yielded to bearish influences has been rather mysterious, but this was to-day explained by the theory that a certain large speculative interest had seen rare possibilities for profit in grain, and had for the time being shifted its market position on stocks. Reports from the winter wheat crop have been rather unfavorable, and these have been used to the limit in the effort to depress prices. Coming as they did at a time when brokers were carrying large lines of weakly margined accounts, these reports rendered the market particularly vulnerable to bearish attacks. The result has been a considerable reduction in the number of weak accounts, and also, it is believed, in the creation of a large general short interest. It is too early to cry disaster to growing crops, and any favorable developments from this quarter within the next two weeks would probably result in an even more pronounced upward movement than has recently been witnessed. For the time being, however, news from the winter wheat region will most likely be the chief governing factor in the making of prices. It is well to remember also that later in the season the spring wheat and corn crops are also to be reckoned with. Sales, 1,153,000 shares.

British Columbia Mines.

Grand Forks, B.C., April 22.—There is a deal on for the consolidation of the Dominion Copper Co. and the Snowshoe Gold and Copper Mines, Limited, whose properties are situated in the Phoenix Camp. The control in the former company is held by Senator Cox, Robert Jaffray and Mackenzie & Mann, all of Toronto. The property includes the Brooklyn and Stemwinder mines. James Breen, the smelter man, undertook to do a large amount of development work last year in return for a controlling interest in the stock. It was stipulated that he should build a smelter for the treatment of ores. After Breen had spent over $100,000 of his own money, so it is said, he had a disagreement with the Toronto capitalists, and withdrew, receiving an equivalent in stock, but not the control for the development work he had directed. The group is commonly regarded as one of the most promising in the boundary, and one already on a basis to ship a large tonnage daily. The Snowshoe group is nearly a mile distant. It is on a shipping basis, and could easily ship 600 tons daily. Besides the underground workings, the ore can be quarried from huge open cuts in the surface. The failure of the management hitherto to ship except for experimental purposes is ascribed to the fact that it had been decided to wait until the mine owned its own smelter. The company has a capital of £250,000, and the control of majority of the shares is held by the British Columbia, Rossland and Slocan Syndicate, the vendor, which spent over £250,000 in development work. The Earl of Chesterfield is chairman, G. S. Waterloo deputy chairman and the managing director A. J. McMillan, the latter of Rossland.

It is understood that the negotiations are now in an advanced stage. If an amalgamation of the two companies is effected, a smelter for the treatment of the ore of both mines will be erected at some point in the Kettle River Valley.

New Fairview Corporation.

A prominent official of the new Fairview Corporation writes Messrs. Thompson & Heron, 16 West King-street, as follows:

"The hoisting works have been remodelled, and now we have as nearly an automatic arrangement as it is possible to have. For the past two weeks we have been making the shaft deeper, in order to put in a very large pocket for the third level, which is now 33 feet wide. While doing this we have kept the mill running on the dump ore. The sumpt will be finished in a few days, and then we will use the mine ore entirely. The cyanide works are now nearly completed, and will be running within a month. As we have over 200 tons of concentrates on hand now, and are increasing the quantity daily, it cannot be ready too soon.

"It will be three months before the additional 20 stamps are ready to run, but we will be doing about 80 tons per day with the present mill, so we will have no reason to feel badly.

"We put in five Wilfley tables above our vanners, and they are doing excellent work. We are saving very close, the tailings running from 20c to 40c only to the ton of ore. The galena streak on the Wilfleys is going about $500 to the ton. This we will send to the smelter, as we can get more out of it that way, but the lighter concentrates we will treat ourselves by cyanide, thus saving the transportation charges.

"You are perfectly safe in advising your best friends to buy up any cheap shares floating around."

GRAIN MARKETS HIGHER

Unfavorable Crop Report Rallies Wheat Over 2c in U.S. Markets.

Corn and Oats Strong at Chicago—Liverpool Cables Higher—Grain, Produce and Cattle Markets—Notes and Gossip.

World Office.
Wednesday Evening, April 23.

Liverpool wheat futures are quoted ¾d to ⅞d higher to-day, and corn futures ⅜d higher. Cheese advanced another 1s per cwt. at Liverpool to-day.

American wheat markets were strong today, generally closing at over a 2c advance. At Chicago May wheat advanced 2⅛c from yesterday; May corn advanced 2⅛c and May oats 1⅜c.

A Chicago despatch says: The bulls have killed the Kansas wheat crop and are now working on Indiana, claiming a crop deterioration of 25 per cent.

The report of the State Statistician of Indiana makes wheat 25 per cent. under the average in condition and 22 per cent. under the average in area.

Northwest receipts 98 cars, 82 week ago, 209 year ago. At Chicago: Wheat, 26, 0, 45; corn, 63, 1, 60; oats, 75, 12, 105.

All the foreign crop reports are favorable. Parts of Russia have had good rains. In most sections wheat wintered well and there is abundance of moisture. The Azof ports are doing considerable shipping. In France the only complaints are from the few sections where spring seeding has been delayed by wet weather. A majority of the reports are favorable.

A Chicago corn specialist estimates that the acreage this year will be increased 10 per cent. Every bottom land will be plowed to a lower extent than for years, he says, as it is dry enough to allow of plowing all low lands. This of itself will give an increased area. The land which has been in wheat and abandoned will go largely into corn. If there is any loss in the acreage of oats it will also go into corn. As to the oats area, he thinks it will also show a large increase.

Chicago Gossip.

John J. Dixon had the following from Chicago at the close of the market to-day:

Wheat—Wheat has shown great strength from the opening. Liverpool cables were firmer than expected and there was dry weather reported in Kansas and Nebraska by weather bureau. As weather is the factor local talent is unanimous in the belief in higher values. The only offerings of note have been by the Northwest. Kansas crop is now estimated as one-third of that of last year and Indiana is practically put at about a half crop by the bulls. Europe seems indifferent to values here, because of the fine prospects there. Sentiment and weather will control prices in the near future and opinions based on these features are mere guess work.

Corn—Has been strong from opening. Harris-Gates have bought heavily and it was mainly thru such buying that market made the rapid advance in price. Receipts were light. Cash demand poor.

Oats—Were strong on dry weather west and in sympathy with strength in corn. Shorts bought freely.

Provisions—Have ruled slightly firmer today, more in sympathy with the strength in coarse grains than from other causes. Receipts of hogs were moderately large and prices somewhat easier.

J. G. Beaty, 21 Melinda-street, had the following from McIntyre & Marshall at the close of the market to-day:

Wheat—There was a big bull market in wheat to-day, strong at all times and gaining in strength at the close, which is 2¼c to 2¾c higher than yesterday's last prices. The buying came from all sides, New York being a liberal buyer, the selling mostly by longs taking profits. News was of a decidedly bullish character. Cables higher, no additional rains in the southwest and only light showers in other sections; crop reports, both government and state, told of deteriorating and small receipts here and in the northwest and also higher outside markets all contributed to the advance. We continue to advise purchase of wheat on all easy spots.

Corn—Strength of wheat and heavy buying by Gates people and Armour Company caused a strong and higher market in corn to-day. Commission houses were on both sides and the local crowd bought. There was considerable liquidation and the market became easier at times, but renewed buying on small declines generally caused additional gains. Some large lines were accumulated, especially in July. The close was strong, with an advance of about 2½c. The southwestern markets were even stronger than this.

Oats—Were very strong, with other grains, and on possible injury to the new crop from lack of moisture. There was a good cash demand, and this had considerable effect on prices of futures. Trade, while not large, was of the very best character, receiving and commission house buying, with scalpers best sellers. The close is about 1½c higher.

Provisions—Hog products strong to-day, but not very active considering the big grain advance. Good buying by the local crowd, mostly covering; packers moderate sellers.

PRETTY APRIL WEDDINGS.

Daughter of Ex-Ald. Score Becomes Mrs. J. E. Potts.

Elm-street Methodist Church was in gala attire yesterday afternoon on the occasion of the marriage of Miss Margaret Score, daughter of ex-Ald. R. J. Score, and J. E. Potts of the Canadian Customs. At 2 o'clock, as the wedding party entered the church, Miss Jessie Perry played the Wedding March. The bride, who was given away by her father, was attired in a handsome gown of white crepe de chine, over white taffeta, silk-trimmed, with pearls, and having a beautiful berthe of rose point lace. She carried a shower bouquet of pink orchids and lilies of the valley. Misses Ida Boone and Bessie Potts were pretty maids of honor, and little Clarissa Shillington of Ottawa was flower girl. The groom was assisted by F. Lottridge Score, brother of the bride, while Master Andrew H. Score, nephew of the bride, acted as page. Allan Fisher, Thomas Fahey, Percy Edwards and Dr. Millichamp were ushers. In the presence of a large number of friends, the ceremony was performed by Rev. Dr. Potts, father of the groom, assisted by Rev. Joseph Odery. After the ceremony, the newly-wedded couple were tendered a reception at the home of the bride's parents, 170 University-avenue, which was also prettily decorated with flowers. Among the guests present were: Mr. and Mrs. Torrance, Montreal; Mrs. Bredin, Kingston; Mr. Palmer, Montreal; Hon. Mr. Rogerson, St. John's, Nfld.; Mr. and Mrs. Allan Potts, St. John's, Nfld.; Mr. and Mrs. Charles Achland, London, England, and Mr. R. Taylor Shillington, Ottawa. At the conclusion of the wedding feast, Mr. and Mrs. Potts left on a honeymoon trip to New York. They were the recipients of a number of beautiful presents.

McKinnon—Sampson.

W. A. McKinnon of Ottawa, son of D. J. McKinnon, Liberal candidate in Lincoln, was married yesterday afternoon to Miss Bertha Sampson, daughter of Mrs. Julia E. Sampson of 526 Bathurst-street. Rev. Mr. Muir of Grimsby officiated. The honeymoon will be spent in England. On their return they will take up residence in Ottawa.

Watson—Williams.

The marriage was celebrated last week in Grennell, Ohio, of John P. Watson, son of Mrs. Robert Watson of Sullivan-street, this city, and an old Toronto boy, and Miss Aree Williams.

GOT IN ON GROUND FLOOR.

Cattle Buyers Trespassed on Market to Look Over Offerings.

Complaints have been made recently that men have been getting into the Western Cattle Market before the opening, and looking over the cattle, thus becoming thoroly posted ahead of time. In this way they have been able to place bids so that the regular dealers, coming in at regular hours, have had to pay a fraction higher than they ordinarily would. The police yesterday afternoon brought into court Joseph Zedgeman, David McDonald, James Collins, George Rountree, Joseph Wilson and R. Reynolds, on a charge of trespass. They were remanded for a week. The Civic Property Committee to-day is going to consider the matter.

Abolish Meat Duties.

Washington, April 23.—Representative McDermott of New Jersey to-day introduced a bill abolishing all duties upon meat and poultry imported from foreign countries.

GREAT HATS

We're going to have another great spring hat opening for men. Our last one was so successful that we were forced to make many new shipments, and to keep up to our record we're putting this sale on for to-morrow and Saturday. We are selling nothing but new hats, but they're all reasonably priced—cheaper for the quality than in most other stores on the continent. See these hats—nothing but new hats. Remember that.

Every Hat in This Sale is a Good Hat—None Better

Derby Hats, $2 to $5

Our Derby Hat at $2, $2.50 and $3 cannot be duplicated on the continent.

Alpine Hats, $2 to $5

Our $2.50 Alpines are the best yet.

Silk Hats, $5 to $8

Wages Go Up in Buffalo.

Buffalo, April 23.—An agreement has been reached between the Mason Contractors' Association and the Bricklayers' Union, whereby the bricklayers are to receive 50 cents an hour. The bricklayers have been getting 45 cents an hour under a contract which expires July 1. Stonemasons have been receiving 40 cents an hour, and their demand for 45 cents has been granted. They have signed an agreement for a year at that figure.

Leyds is No Oracle.

London, April 23.—Belgian papers, says the Brussels correspondent of The Times, no longer accept Leyds as a South African oracle. The statement made by him that the Boer chiefs know that the British terms will not be accepted by the commandoes is regarded as untrustworthy.

C.P.R. Prosecutes Junction Citizens For Jumping Their New Wire Fence.

SPECIAL MEETING OF COUNCIL

Will Be Held To-Night in Electric Light Matter—Railway Employes Demand Increase.

Toronto Junction, April 23.—The C.P.R. have put up new wire fences along their line here, the old ones having been destroyed by people climbing over them. Two nights ago citizens ran the constable, sent up from Montreal, and to-night there are five constables to see that people do not break the fences down. Stuart Scott of Perth-avenue is in the cells for having climbed the fence. There is no effort being made to stop citizens crossing the tracks or walking on them; but climbing the wire fence will certainly result in arrest.

The Shamrock Lacrosse team, first and second, commenced practice for the season in the town park last night.

Councillor Ryding, chairman of the Board of Works, will pilot the Mayor and Council to all parts of the town where improvements are required, to-morrow.

H. E. Snell, Newton Raybould, Tom Gilbert and Charles Henderson will leave for the Northwest on Tuesday.

C. C. Going, Town Solicitor, is confined to his bed with inflammatory rheumatism.

The Town Council will hold a special meeting to-morrow night to discuss the electric light question and the lowering of the grade on St. Clair-avenue.

Thomas White of Woodbridge was yesterday fined $1 and costs by Magistrate Cruickshank for riding a bicycle on the sidewalk. Woodbridge has a bicycle bylaw different from most villages. The citizens may ride on the sidewalk, provided they dismount when meeting or overtaking pedestrians. Thomas White did not dismount; but passed the village constable, and two commercial travelers, and brushed against two ladies in his endeavor to monopolize the walk.

Division Court will be held here on Friday.

The W.C.T.U. of York County will hold their semi-annual meeting here on Friday.

North Toronto.

Royal Scarlet Chapter, West York, L.O.L., elected the following officers at their last meeting: W C in C, William J Douglas; E C in C, P Ellis; C chaplain, H McCrae; county treasurer, Wilfrid R Tomlinson; sir herald knight-at-arms, W Douglas; T H, J W Atkinson; O H, W J Moses. Two of the brethren were exalted to the degree of scarlet companions.

Councillor Armstrong presided at a meeting of the Board of Works on Monday evening. Tenders were received for street watering for the summer, and R. Bailey's tender at $3.15 per day was accepted. An informal discussion took place on the removal of the York Township Council to Toronto, Reeve Duncan and Councillor Sylvester representing the township. Reeve Duncan intimated that the May meeting would probably be the last in the present quarters.

F. Boulden, St. Clement's painstaking and popular choirmaster, entertained the other members of the choir on Monday evening.

Mrs. Eckis Stevenson of Salt Lake City Tells How Operations For Ovarian Troubles May Be Avoided.

MRS. ECKIS STEVENSON.

"DEAR MRS. PINKHAM:—I suffered with inflammation of the ovaries and womb for over six years, enduring aches and pains which none can dream of but those who have had the same experience. Hundreds of dollars went to the doctor and the druggist. I was simply a walking medicine chest and a physical wreck. My sister residing in Ohio wrote me that she had been cured of womb trouble by using **Lydia E. Pinkham's Vegetable Compound,** and advised me to try it. I then discontinued all other medicines and gave your Vegetable Compound a thorough trial. Within four weeks nearly all pain had left me; I rarely had headaches, and my nerves were in a much better condition, and I was cured in three months, and this avoided a terrible surgical operation."—MRS. ECKIS STEVENSON, 250 So. State St., Salt Lake City, Utah.—*$5000 forfeit if above testimonial is not genuine.*

Remember every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass.

THE CARE OF YOUR CLOTHES.

How an Ordinary Suit Can Be So Cared For So as to Give Double the Amount of Wear.

"Fountain, My Valet," is a household name in almost every home in Toronto where there are one or more good dressers, for Toronto gentlemen nave learned the value of having their clothing well and carefully cared for.

For nine years Mr. W. Fountain of 30 Adelaide-street west has made a business of keeping gentlemen's clothing in a fit and proper condition. He was the pioneer in the business in Canada, and his work has been so systematized and perfected that it has been copied throughout the Dominion and in several American cities, some imitators being so enterprising as to even adopt his trade park, "My Valet."

In Toronto Mr. Fountain's customers include many of the leading citizens, several of whom have patronized him from the day he first hung out his sign. Of course, Mr. Fountain, like all successful business men, has imitators—persons who profess a willingness to do the work for less money. Gentlemen, however, who have patronized these imitators have frequently done so with disastrous results. Garments have been ruined and contracts, on which first payments have been made, have never been completed. Mr. Fountain's prices are reasonable, and as low as is consistent with the excellent service he gives.

Mr. Fountain's plan is this: For a stipulated price per quarter he looks after a gentleman's wardrobe, pressing, cleaning and repairing each garment as occasion requires. Once a week he calls at the home of his customers, gets all clothing requiring attention, and returning them promptly. In this way a suit or overcoat will give double the wear that it ordinarily would.

That Mr. Fountain's business is a thriving one is shown by the fact of his recently having had to put on a new wagon, which, by the way, is one of the handsomest in the city, and was much admired at the recent Horse Show.

A new departure in connection with this business is a ladies' department, in which ladies' clothing is cared for. Garments are cleaned, pressed and altered, skirts re-bound and all kinds of repairs made.

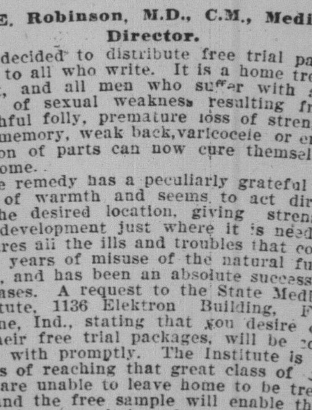
As in the past, Mr. Fountain will make a specialty of renting dress suits. He has a large number of them, all in first-class condition and ready to deliver at a moment's notice. You can use the 'phone. The number is Main 3074.

The steamer Canada cleared for Detroit yesterday from the foot of Bay-street, where she has been lying all winter. This summer she will ply from Owen Sound to a park four miles distant from that port. The Canada plied last year between Toronto and Youngstown for the Toronto Navigation Company.

Sent Free to Men.

Free Trial Packages of This New Discovery Mailed to Every Man Sending Name and Address—Quickly Restores Strength and Vigor.

Free trial packages of a most remarkable remedy are being mailed to all who will write the State Medical Institute. They cured so many men who had battled for years against the mental and physical suffering of lost manhood that the Institute



A. E. Robinson, M.D., C.M., Medical Director.

has decided to distribute free trial packages to all who write. It is a home treatment, and all men who suffer with any form of sexual weakness resulting from youthful folly, premature loss of strength and memory, weak back, varicocele or emaciation of parts can now cure themselves at home.

The remedy has a peculiarly grateful effect of warmth and seems to act direct to the desired location, giving strength and development just where it is needed. It cures all the ills and troubles that come from years of misuse of the natural functions, and has been an absolute success in all cases. A request to the State Medical Institute, 1136 Elektron Building, Fort Wayne, Ind., stating that you desire one of their free trial packages, will be complied with promptly. The Institute is desirous of reaching that great class of men who are unable to leave home to be treated, and the free sample will enable them to see how easy it is to be cured of sexual weakness when the proper remedies are employed. The Institute makes no restrictions. Any man who writes will be sent a free sample, carefully sealed, in a plain package, so that its recipient need have no fear of embarrassment or publicity. Readers are requested to write without delay.
