PARIS IS ROBBED FOR THE PROTECTION OF HER MUNICIPALITIES

Dominion Incorporation of Provincial Railways Renders Municipalities Helpless to Enforce Agreements. Chairman Leitch of the Ontario Railway and Municipal Board has addressed a letter to Premier Whitney, and the Premier gave it to the press yesterday evening, as a statement of the situation where the jurisdiction of the Dominion and the province over railway companies is in collision.

RAILWAYS ARE ENABLED TO CHARGE 3 CENTS A MILE

The point is brought out that the Dominion has no means of enforcing orders affecting agreements between municipalities and railway corporations, and that the provincial control should therefore be preserved intact.

The following is the text of a letter addressed by James Leitch, chairman of the Ontario Railway Board, to Premier Whitney:

I enclose a cutting from The Mail and Empire of the 15th inst., from which it appears that the Dominion Railway Act is to be amended so as to make it clear that no railway operated by electricity shall have the right to run on the highways in Ontario without the consent of the municipality.

This is all right as far as it goes, but if it rests here the provision will be useless to the municipalities. The prohibition against building an electric railway on a highway without the consent of the municipality will not necessarily lead to an agreement with the municipality, wherein the rights of the railway and of the municipality will no doubt be defined.

There is no provision in the Dominion Railway Act for the enforcement of an agreement between a railway and a municipality.

There cannot be, because the enforcement of agreements between railways and municipalities is within the exclusive jurisdiction of the province.

The Ontario Railway and Municipal Board Act, 1908, has the provision, which the Dominion Railway Act has not and cannot have, giving the board power and jurisdiction to construe agreements between railways and municipalities and enforce them to the extent of taking possession of and running the railway.

Municipality Cannot Enforce. With the proposed amendment to the Dominion Railway Act, a municipality will find itself in a position to have an agreement with the railway company which it cannot enforce and which the company may break with impunity.

The only remedy for this is for the Dominion Legislature to provide that agreements between the railways and the municipalities should be subject to the jurisdiction of Ontario Railway and Municipal Board. It may be said, why not leave the enforcement of these agreements to the high courts? The answer to this is that the courts have no machinery to enforce these agreements. They might give damages, but giving damages is not an effective remedy.

The fact is that no electric railway should be declared for the general advantage of the province and taken away from local jurisdiction.

IN A CONFERENCE UPON THIS SUBJECT WITH A PROMINENT DOMINION OFFICIAL SOME TIME AGO, HE AGREED THAT THE SITUATION WAS DIFFICULT AND UNSATISFACTORY. THAT THE DOMINION RAILWAY ACT WAS NOT INTENDED TO APPLY TO ELECTRIC RAILWAYS AT ALL.

THEY HAVE NO MACHINERY FOR THE REGULATION OF ELECTRIC RAILWAYS, AND THAT IT CONTAINS NO POWER OR AUTHORITY, NOR COULD POWER BE GIVEN TO THE DOMINION BOARD OR RAILWAY COMMISSIONERS FOR THE ENFORCEMENT OF AGREEMENTS WITH THE MUNICIPALITIES. HIS OPINION WAS THAT THERE SHOULD BE A CONFERENCE.

Division of Control. It has been suggested that legislation should be procured putting all electric railways under the jurisdiction of the Ontario board, and all steam railways under the jurisdiction of the Dominion board. The reason why, perhaps, all steam railways should be under the jurisdiction of the Dominion board is obvious. The centre of steam roads run from the Atlantic to the Pacific, and being under Dominion jurisdiction, uniformity of regulations and appliances is secured. However, this is a point which would require to be well considered.

I am enclosing you a list of the railways which have been incorporated by the legislature of Ontario and which have been declared for the general advantage of Canada. In this list I marked the electric railways which have been declared by the Dominion parliament for the general advantage of Canada.

PARK INQUIRY TO COLLAPSE

Commissioner Resigns and Judge and Controllers Seem Willing to Quit Probing.

It is probable, now that Park Commissioner Chambers has announced his resignation from office, to take place May 1, that the civic investigation into the parks department will speedily come to an end.

Corporation Counsel Fullerton says his personal view is that the enquiry need not be continued after the specific charges against Caretaker Kimmings of Island Park have been stated, and certain aldermen and others, whose names have been brought into the proceedings, have been given opportunity to clear themselves.

Judge Winchester, when asked whether he should continue in the work of the enquiry, replied: "Well, it will go to a certain extent, but I don't know how far, as it will be for the board of control to decide. I don't see any rate the Kimmings charges will be taken up on Friday if W. D. McPherson, counsel for Mr. Kimmings, is able to appear."

Mr. McPherson is at present out of the city. The disposition of the board of control appears to be in favor of allowing the issue to be decided by the judge.

Resignation Promptly Accepted. Mr. Chambers' not wholly unexpected resignation reached the board of control yesterday morning. After motion of Controller Hocken, it was accepted, the understanding being that the commissioner's salary should continue until May 1, when he should remain in the occupation of the residence in Exhibition Park until that date.

Property Commissioner Hocken, who is appointed acting park commissioner until the appointment of a permanent successor, said the controller remarked that C. E. Chambers, secretary of the department, would be practically in charge during the interim.

Controller Hocken, chairman of the special committee appointed to consider the reorganization of the parks department, will call the committee together on Monday. The executive reorganization should now be taken. The members of the committee are: Ald. Chisholm, Hales, Bengough, Yauger, Keeler, and the Controller Spence and Hocken.

Why Mr. Chambers Quits. The commissioner wrote that his action was the result of a serious strain on his health, through continual strain of the proceedings, and the financial loss and embarrassment to him. His physician had advised him to retire.

While admitting that his administration had not been free from errors, the commissioner asserted that he had always "labored to produce the best possible results for the money expended, and that he had endeavored to do his duty to the best of his ability, and that he had organized a creditable park system; the improvement of practically the whole of the city's park land having been undertaken by him. The general efficiency of management was best shown by their condition and the least of maintenance. The executive work had been placed on a sound basis by additional office assistance.

In order that reorganization might not be hampered he asked that his resignation be accepted on May 1, pointing out that there was much important work to be done, including the estimates, on which he would lend his advice as soon as his health would permit.

When the investigation was about to be resumed yesterday morning, T. C. Robinette, K.C., announced Mr. Chambers' resignation, and asked for adjournment till Friday. The judge agreed.

Former Manager of Sovereign Will Not Be Made Scapegoat.

MONTREAL, Jan. 21.—(Special).—When Mr. Stewart was told that the blame of the Sovereign Bank trouble was being placed upon his shoulders, he intimated that the lid was on, in so far as he was concerned, for the present, but later—well, Dominion Day fireworks would perhaps not be a circumstance. He suggested that whenever anything unexpected and nasty happened, a scapegoat was the first thing looked for after the smoke cleared away. In this instance, however, the scapegoat had no desire to bring himself into any unnecessary prominence by flaring up with vituperation, attacks and personal insults against the person who had sought to drive home the blow which had been aimed to knock him out completely and for all time.

ALIEN LABOR ACT APPLIES AGAINST HAWAIIAN HORDES

LEMIEUX'S REPORT IN BRIEF. Canada has Japan's verbal promise and the written consent of the foreign minister that the emigration of laborers and artisans shall cease.

Only students, merchants and tourists from Japan will be permitted to land. Hawaii, being a United States possession, can send no more Japanese coolies, the situation being controlled by the Alien Labor Act.

It is expected that the recent order-in-council, which stipulates that immigrants must come direct from their home countries, will shut off the Hinds. If not, the situation will be met by an amendment to the Alien Labor Act.

Immigration companies are practically suppressed by new demands of the administration.

OTTAWA, Jan. 21.—(Special).—Hon. Rodolphe Lemieux, postmaster-general and minister of labor, announced in his house this morning the result of his mission to Tokyo to confer with the Japanese government with regard to the immigration of laborers from that country to Canada. He read a letter from Baron Hayashi, Japanese foreign minister, giving assurance of the mikado's government that Japan will prohibit the emigration of contract laborers (artisans) included to Canada.

"In this letter," observed Mr. Lemieux, "the minister of foreign affairs gives Canada the official assurance that the imperial government has decided to take efficient means to restrict emigration from Japan. It will be asked at once, 'What are these efficient means and where is the guarantee of that restriction?' My answer is that during the course of our conference a series of most stringent regulations accompanied by instructions addressed to the local governors and to the consuls in Canada were adopted. I can assure the house that the British ambassador and myself are satisfied that these regulations are sufficient for our purpose, and that they will be honestly enforced by the foreign office in Tokyo."

"There is, however, one feature of these regulations which I am authorized to make public. We all know how strongly has been resented in British Columbia the presence in large numbers of Asiatic laborers. As a result of the negotiations all emigration of contract laborers (artisans included) is now prohibited, unless they come at the request of the Dominion Government. This means that hereafter such companies as the Nippon Supply Company of Vancouver will be unable to cooperate with the emigration companies of Japan in sending labor under contract to this country. Of course, bona fide students, merchants and tourists from

TRYING TO GET PETERSON LAKE

But There May Be Objections to Nova Scotia Co.'s Proposal to Buy.

A special meeting of shareholders of the Peterson Lake Silver Cobalt Mining Co. will be held to-morrow in the King Edward at 3 o'clock; to pass on the action of the directors in selling 30 acres of the company's property to the Nova Scotia Company for 150,000 fully-paid shares in that organization, and on a proposal to lease out certain portions of land on a royalty basis.

A good deal of surprise is expressed among local shareholders at this news. Peterson Lake is a property 137 acres in extent. Nova Scotia property adjoins the lake, but is a much smaller tract. The same capitalists are behind these two propositions and the Kerr Lake Co. The Nova Scotia property has been worked and a number of shipments of rich ore have been made. Peterson Lake shows as good prospects as Nova Scotia, but no work on the veins has been done by the company, tho the lake level is 30 acres of Peterson Lake with a developed vein shipping silver running thru it.

The proposal before the shareholders is apparently to give the Nova Scotia Co. the pieces of property in which their rich vein runs. Whether this is fair to the minority shareholders will probably bear explanation. If the Nova Scotia Co. is to be worked as a holding company for the benefit of its shareholders, irrespective of the Peterson Lake minority interests, there will be some sharp protests.

On the face of it 150,000 shares in the Nova Scotia does not appear to be a fair equivalent for 30 acres of Peterson Lake with a developed vein shipping silver running thru it.

SIR F. BORDEN'S STATEMENT

Financial News Speculates on His Reputation.

LONDON, Jan. 21.—(C.A.P. Cable).—The Financial News refers to Sir Frederick Borden's reputation, published in The Globe, that he had any connection with the Canada Consolidated Cobalt Company, as follows: "Mr. Borden's account certainly dispels the mystery which surrounds this extraordinary affair. As the facts now stand, it appears Sir Bevan Edwards and Sir Frederick Frankland, who recently signed positions on the London committee, because they were unable to obtain information regarding the company from Canada, were informed by Sir Frederick Borden, who is a director on business. At the interview, however, according to Mr. Borden, they never asked if it was Sir Frederick, or used any language which might have led him to infer they supposed he was. His object was to discover the nature and standing of the company, yet if Mr. Borden's recollection is correct, they never asked to see the company's books, or to hear what account Sir Bevan Edwards and Sir Frederick Frankland have to give of the company, and to what extent they confirm or are at variance with Sir Frederick Borden's statement."

MILK STANDARD WANTED

Local Board of Health Decide to Request It.

A decision to ask the legislature to introduce a measure to provide for the establishing of a milk standard, whereby it will be determined exactly what proportion of butter fat should be contained, was reached by the local board of health yesterday afternoon.

Ald. Foster brought the matter up by proposing that the civic committee of Montreal, Hamilton and Ottawa should be communicated with regarding the regulations in force, but Dr. Shearer deemed such action unnecessary. He said that the bylaw at present merely empowered him to seize milk when it was found to contain injurious matter, but that there was no law prescribed for diluting with water. Analysis of more than 1000 samples showed that milk supplied in Toronto only averaged about 3 per cent. of butter fat, while about 40 per cent. fell below the mark. He thought that 3.7 per cent. should be required, and that the city solicitor should be asked to draw up an application to be sent to the legislature, which the committee agreed to.

NO CALL FOR ARTIZANS.

W. R. Trotter Addresses Labor Congress at Hull.

LONDON, Jan. 21.—(C.A.P. Cable).—W. R. Trotter addressed fraternal greeting on behalf of Canada to the labor congress at Hull. He emphasized the entire absence of demand for skilled artisans in the Dominion and pointed out that emigration agencies who were carrying on a propaganda were unauthorized by the Dominion Government. In every city in Canada there were unemployed. The Salvation Army ought to come into the open at emigration toasts. Mr. Trotter believed the solution of the unemployed question in Great Britain was not to be found in emigration.

IN MEMORIAM.

Queen Victoria—Died Jan. 22, 1901.
Put back the stone. Unseal the sepulchre,
Reeve, or kindly earth, Victoria's form;
Which shined perfected virtue—absolute,
So far as Eve could will, not clay, nor air,
Nor ruddy blood, nor life, could e'er create
The paragon we mourn; for haply it is
What wise men say, that as the cycles whirl,
The Sculptor's hand, incarnates higher types;
Such was our Queen, august, and throned in love;
Such was the mother of our mothers' sons;
Wise Alfred planted, princely Shakespeare
And Good Victoria's sun matured the oak;
Whose branches arch the world. Not
Nor Edward's sword, nor Henry's lance,
Could carve,
So deep a line upon the towering cliffs—old
England—home—
As she, whose orb outshone the centuries,
And stamped her seal on peer and peasant's heart.
Four hundred million mourners guard her
burial;
But chief in honored place, her pall is
borne
By British mothers, bent and grey, whose
tale
Of years are measured by a sad four-
score.
They kept alive the Druid altar's fire,
And taught our infant tongues to bless
the Queen.
—W. H. Taylor.

Mr. Blakeley will give another of his popular organ recitals on Saturday afternoon next (Jan. 21) at 4 o'clock in the Sherbourne-street Methodist Church. Mr. Blakeley's subject will be "Shakespeare in Music," showing the influence of the great dramatist upon musical composition. He will also use an old fashioned spinet by way of illustration, playing on it the incidental music to "The Tempest," composed by Dr. Arne for David Garrick. Incidental music will also be played to "Romeo and Juliet" from the orchestra suite by Massenet, the great French composer. "Henry VIII" by Edward German, composed for Henry Irving. "Palastrini" composed by Verdi in his eightieth year, and "Midsummer Night's Dream" and "The Merry Wives of Windsor," and will also include Mendelssohn's "The Wedding March," and other favorites to be one of special interest.

Louis XV. Design in a Piano.

One of the leading styles of pianos that the old firm of Heintzman & Co., Limited, 115-117 West King-street, Toronto, have on exhibition in their warerooms is that known as Louis XV. design—a piano that reflects in most perfect manner this famed ruler of the seventeenth century. The lines and scrolls are all of the most artistic character, and there is something graceful in every turn. Ask to be shown this particular design of piano.

JURY CENSURES PRESS ADVERTISING "WILD CATS"

In Presentment Say Keep Out Undesirable Immigrants—Judge Delivers Sentences.

The presentment of the grand jury in the court of general sessions, which was made to Judge Winchater yesterday, recommended that, in view of the difficulty of obtaining a copy of the building regulations in regard to the erection of scaffolds, a poster be prepared to put up, wherever construction is being carried on.

The jury went after the newspapers for publishing advertisements of "wild cat" mining companies, and recommended special legislation to keep undesirable immigrants out of the country.

Special attention was called to the need of more street car accommodation in Toronto.

In connection with the accidents on the Grand Trunk Railway crossing at Bay-street, the jury recommended that the derailing of the train be removed several feet further from the tracks, and expressed the opinion that the accidents which have occurred there might have been prevented had this been done before.

Norman and Albert Hopkins and Cyril Elliott, who were charged with conspiracy to defraud the Toronto St. Railway and various insurance companies by means of bogus accidents, were remanded to jail without bail, until the court of appeal hands down its decision in the case.

Arthur Munns, charged with perjury while testifying in the police court on a charge of frequenting a house of ill-fame, was sentenced to three years in Kingston Penitentiary.

His companion, May Dines, cried "My God! my God!" and fell unconscious on the floor when Judge Winchater named the punishment.

"You have been living a most unfortunate life," said his honor to Munns. "You can't get satisfaction from what you have, but in addition you have added the curse of perjury, and this crime is getting altogether too common and must be stopped. I sentence you to three years in the penitentiary."

Albert Stephenson, who stabbed his wife in the breast at the Central in the building on Adelaide-road, where James Rigby was killed by the breaking of a scaffold, was allowed to go on suspension.

Eva Johnston of Newmarket had to be carried from the courtroom when informed that she must spend six months in jail for obtaining \$200 under false pretences from E. B. Osler by representing herself as a sister from a charitable institution.

The sentences were also given: Leon Barash, theft, six months in the Central; Leonard Goodwin, forgery, six months in the Central; Fred Tallman, assault, \$5 or two months in jail; E. Brazier, theft, one month in jail.

BERLIN, Jan. 21.—Five mass meetings of the unemployed, organised by the Socialists, were held to-day. Fully 15,000 men were in attendance. Strong detachments of police, armed with sabres and revolvers, were stationed in the vicinity. The meetings passed off in a most orderly manner.

SEVEN YEARS FOR FORGER.

Toronto Man Gets Heavy Sentence at Hamilton.

HAMILTON, Jan. 21.—Judge Snider this morning sentenced H. T. Wesson, who was arrested here recently in the Merchants' Bank while in the act of cashing a forged cheque for \$450 on the Dineen Co. of Toronto, to seven years in Kingston Penitentiary. The prisoner pleaded guilty to seven separate charges of forgery, three of which had the uttering of forged cheques tucked on them.

Wesson said he had wealthy and respected relatives in Jackson City, Tenn. Last September he went to Toronto, and took over the publication of The White Lyre. Wesson swore that another man, whom he named, supervised the issuing of the forged cheques and received half the profits. He took his sentence coolly.

Central Rod and Gun Club.

The Central Rod and Gun Club held its weekly shoot at the Ontario House grounds, and owing to the strong wind good scores were impossible. The following scores were made: Event No. 1, 10 birds: W. T. Knox 8, W. B. Rogers 9, C. Crewe 8, A. Bunker 8, F. Beatty 8.

In 1899 he was engaged by Sir Thos. Lipton to take charge of Shamrock II, and subsequently of Shamrock III, in the America's Cup contest.

There is nothing "just as good" as Dr. Wood's. Put up in a yellow wrapper; three pine trees the trade mark; the price is 25 cents.

COLD SETTLED ON THE LUNGS

Mrs. Irwin Bennett, Parsboro, N.S., writes: "I feel it my duty to write a few words in praise of Dr. Wood's Norway Pine Syrup. I took a bad cold, which settled on my lungs, and made it almost impossible to breath at times. I coughed constantly and could not sleep at nights. A friend told me how Dr. Wood's Norway Pine Syrup had helped her, so I procured some, and before I had taken one bottle my cough was gone and I could lie down and sleep at night."

ALDERMEN ARE MAD.

Kingston Council Passes Resolution Demanding Retraction by Principal.

KINGSTON, Jan. 21.—Members of the city council are hot over remarks made by Principal W. G. Ellis of the College of Education in an address on "Honourable Citizenship." He is reported to have said men got into council to manage thousands of dollars who could not manage a \$500 grocery.

The poor men in council prevented good men going into the arena. Men were also put on the school board to manage thousands of children who could not run their own families.

A resolution was solemnly passed in council calling on the board of education to demand an explanation and public retraction.

RAILROADS BREAK FAITH.

DENVER, Jan. 21.—Murdo McKenzie, president of the American National Live Stock Association, delivered his annual address at today's session of the annual convention.

He charged that the railroads had broken faith with shippers of live stock by taking selfish advantage of the change in the hours in transit law which, thru the efforts of the American National Live Stock Association, were increased between 24 to 36 hours at the maximum time during which live stock could be kept in water and rest. He said that the railroads, instead of increasing their speed rates, so that the destination was reached more quickly than formerly, as promised, feeding stations which delayed the arrival of shipments at the point of consignment, with consequent great loss to the shippers.

President McKenzie touched on the rate question and stated that he believed the Interstate Commerce Commission should be given authority to decide whether an advance in rates was just, before such advance could be put into effect.

WELL-KNOWN JUNCTION C.P.R. ENGINEER DEAD

Big Attendance at Laymen's Missionary Meeting—East Toronto Gun Club Meets.

TORONTO JUNCTION, Jan. 21.—Martin Doyle, a well-known Junction resident and ex-C.P.R. engineer, died at 11 o'clock this afternoon at his residence, 108 South May-street. Mr. Doyle formerly resided on Hook-avenue and has lived in the town almost continuously since 1884. He is survived by his widow. The funeral will take place on Thursday at 9 a.m. at the Scotch Church, and thence to Mount Hope Cemetery.

Pete Connell, the popular manager of the "Try Me" shoe store, was killed on Thursday at his home on May-street. Fred Connolly of No. 1 fire hall is confined to his home on Carlton-street, with a severe attack of inflammatory rheumatism.

The anniversary social gathering of the Methodist Baptist Church, which was held last night, was a great success. There was a large attendance, and after tea was served addresses on "The Laymen's Missionary Movement" were delivered by Thomas Urquhart and S. J. Moore. F. M. Moffat presided.

Victoria Lodge, A. F. & A. M., held their regular meeting to-night. The district officer was present and addressed the meeting.

Plain Talk From the Doctor

A prominent physician, famous for his success in the treatment of kidney and bladder troubles, stated that to the following prescription is due a great deal of his success:

One ounce fluid extract of dandelion.
One ounce compound salutarin.
Four ounces compound syrup sarsaparilla.
Mix and take a teaspoonful after meals and at bedtime, drinking plenty of water.
This mixture will be especially positively effective in cases arising from weak, clogged or inactive kidneys, and will assist these organs to cleanse the blood of the poisonous waste matter and acids, which, if allowed to remain, cause lameness, back rheumatism and sciatica, and at the same time will restore the kidneys to health. Normal action. The ingredients, which are purely vegetable and entirely harmless, can be procured from any good druggist and mixed at home at very little cost.
This advice will undoubtedly be much appreciated by many readers.
