

PIONEERS, ENGINEERS AND NEWSPAPERMEN ALL SEE THE SIGNS

Toronto's Old Boys Likely to Have a New Building Next Year—Visiting Scientists Impressed by Canada's Greatness.

Crowds, unprecedented at this stage of good old exhibition time, filled the grounds last evening.

People who have been in regular attendance marveled at the extent of patronage and in the crowded grandstand the question was frequently put: "If it is like this the first week, what is it going to be in the next?"

While the show is a good one it was announced by Manager Orr that there will be a change of program next week, with trained elephants, trained ponies and some other new high-grade features.

While the grand stand performance is the chief attraction in the evening, it was noticed that the "piper" or "midway" or "country" or whatever other word describes that chaotic jumble of sights and sounds, was crowded and doing phenomenal business.

Some uncheduled excitement was provided before the grand stand when the Royal Canadian Dragoons were concluding their spectacular musical ride.

The boys who were working yesterday and making manual efforts to appear unconscious of the public gaze were: Roland Locke of Lansdowne, Edward Drake, King Edward, Ross Elliot and Lawrence Huggill, Boston street, and Wilfrid Clayton and John Lee, Devon-street, youngsters of 12 and 13 years of age.

Another big luncheon crowd marked the Press, Engineers and Pioneers' Day. One of the features was the speech of Herman W. Wapperman, a self-styled, German, delivered in the tongue of the fatherland, but translated by a friendly interpreter.

Every nation tried to build up its wealth by war and get out of it. Wealth was founded upon industry. Every cultured nation tried to pass from agriculture to industry, Canada was happy and engaged in being provided with treasures by nature.

Mr. Williams had received to luncheon. Formerly county editors got a 36 page paper.

Dan McGillicuddy boomed the west in a cheerful speech, and told how wheat grew 500 miles north of the border, member of the Alberta Legislature raised 6000 or 7000 bushels of wheat a year 450 miles north of Edmonton, and sold it to the Hudson Bay Company at \$1 a bushel.

Prof. Miller, president of the Mining Institute, the father of Cobalt, was also called upon, but he was not present. Others present were: Hon. J. Foy, Hon. A. J. Matheson, Senator Jaffray, John D. Brown, Dr. Briggs, Newton McTavish, Oliver Ross, president Toronto Press Club, and the following members of the mining engineers' party: E. A. Ashworth, E. LaCoste, and The Old Brigade.

Following the time-honored custom of Pioneers' Day, the men who knew Toronto when the city was 200,000 was in its knickerbockers, assembled at the old log cabin on the lake front during the morning and there was much renewing of old friendships.

At 12.45 p.m. they formed in parade 400 strong and, headed by the Winnipeg Band, marched to the accompaniment of the "Maple Leaf" to the restaurant behind the grand stand.

Immediately following the band was the big touring car of George H. Goodenow, containing J. P. LeVing, a mischievous Toronto youngster, aged 97 years; John Langstaff of Thornhill, 80, and Eli Crowe, Brampton, who has seen 82 winters.

President William Rennie of the York Pioneers presided at the dinner. Mayor Oliver, the first speaker, spoke of the debt of gratitude which the present generation owed to the founders of York, and declared himself fully in sympathy with the movement to have a new pioneer building erected near the present site for the preservation of the priceless relics which were eloquent of the times that had passed.

Manager Orr said he gave the exhibition management much pleasure to do honor to the men who had endured hardships in heaving the timber and tilling the soil of a new country.

Hon. Thos. Crawford and R. J. Seaton also spoke.

Manuscripting shows. Six small boys in their shirt sleeves, and with aprons, working with saw, chisel, plane and other accessories of a carpenter's bench as their aid, their salvation depended on their efforts, attracted much attention in the applied art building yesterday.

The demonstration in wood-working is under the direction of W. L. Richardson, superintendent of the manual training in the public schools.

The exhibition is given daily from 2.30 p.m. to 5 p.m., by fourth-book pupils, and affords an insight into the workings of a branch of education that has come very much to the fore of late years.

The boys who were working yesterday and making manual efforts to appear unconscious of the public gaze were: Roland Locke of Lansdowne, Edward Drake, King Edward, Ross Elliot and Lawrence Huggill, Boston street, and Wilfrid Clayton and John Lee, Devon-street, youngsters of 12 and 13 years of age.

Another big luncheon crowd marked the Press, Engineers and Pioneers' Day. One of the features was the speech of Herman W. Wapperman, a self-styled, German, delivered in the tongue of the fatherland, but translated by a friendly interpreter.

Every nation tried to build up its wealth by war and get out of it. Wealth was founded upon industry. Every cultured nation tried to pass from agriculture to industry, Canada was happy and engaged in being provided with treasures by nature.

While the show is a good one it was announced by Manager Orr that there will be a change of program next week, with trained elephants, trained ponies and some other new high-grade features.

Store Opens Daily at 8 a.m.

EATON'S DAILY STORE NEWS

Store Closes Saturday at 5 p.m.

Women's Outerwear for Cool Weather

Fur-Lined Coats—Full seven-eighths length, light weight, imported broadcloth shell, in black, blue, brown and green; one style is lined all through with grey and white squirrel and has shawl collar of natural mink. Another is lined with muskrat and has large storm collar and revers of full furred natural sable; all sizes; prices \$50.00 and 52.00

Fall and Winter Coats—Dark heather mixtures of beaver-cloths, chevots and vicunas; fitted and semi-fitted, three-quarter and seven-eighths lengths, in tourist, box and ripple back styles; some are plainly tailored, others smartly trimmed with military and soutache braiding; specially priced at \$5.00, \$6.50, \$8.50 and 10.00

New Fall Suits—An exact copy of a favored New York model; made of all-wool imported panama, in black, green, brown and blue; three-quarter length, semi-fitted coat, prettily trimmed with silk braid; skirt pleated and finished with self fold and silk braid to match coat; a neat, stylish suit and only a few of them at each 15.00

\$52.00

SECOND FLOOR—JAMES STREET

To-Day the Store Closes at 5 p.m

For the past three months—June, July and August—the months of all months in the year when people can, and do, enjoy to the fullest the fresh air and all the beauties of the city and its surrounding pleasant places—this store has closed each Saturday at 1 p.m. Thus over seven thousand of our helpers were benefited, and our thanks, and theirs, are due to you, and all others, who by Saturday forenoon shopping made such a humane course possible.

Now that Fall is here with all its business, we are back to the usual hours—8 a.m. till 5 p.m. every business day.

TO-DAY all the ready-to-wear sections of the store unite in one common object—the clothing of all, the best way, and that means so much that paper talk won't answer—the call to you is **COME AND SEE**.

ON MONDAY the particular subject will be home furnishings, and we'll be in splendid position to satisfy all requirements, from the cooking utensils in the basement to the floor and wall coverings, the window dressing on the third floor and the furniture on the fourth.

VISITORS should make it a point to go through the store from the bottom to the top and use their eyes and ears—no need to buy, but we'd like you to see just what your store is doing in the way of best merchandising, which includes out-of-the-ordinary selection and value.

COME ON MONDAY AND READ THE PRICE TICKETS.

Men's New Fall Overcoats

This is summing up in a few words all the advantages you are to gain by buying Eaton's Overcoats:

- Best material obtainable.
- Best workmanship possible.
- Newest styles in each garment.
- Strongest value in each price.
- Sure fit and satisfaction.

WHAT MORE COULD WE SAY? WHAT MORE DO YOU WANT?

MAIN FLOOR—QUEEN STREET

THE T. EATON CO. LIMITED

Ostrich Plumes Lead the New Hat Fashions

There is no gainsaying the Ostrich Plumes for the dress hats of this Fall and Winter. Paris and London are using them more than ever—not only the plain colors, but plumes that shade from deep tones into light, ostrich bandeaux, "Weeping Willow" ostrich feathers, small "Prince of Wales" feathers with a delicate aigrette or osprey centre, and dozens of other beautiful ostrich combinations.

We have a truly enormous variety of sweeping Ostrich Plumes and Ostrich Feather Millinery Adornments, bought direct by our own buyers. The display on view in the Yonge Street windows but HINTS of the variety.

Here are three VERY special values in plumes we recommend you to see Monday. Quantities very limited, running from three to five dozen of each kind.

Special No. 1—We have five dozen ostrich feathers in black only, bright glossy fibre, 14 1/2 inches in length. While they last the price 1.50

Special No. 2—Ostrich plumes in Duchess style, long, wide flues, excellent quality fibre, well made and curled, 18 inches in length; in white, cream, taupe, brown, pink, cerise, sky and saxe. While they last, each 2.75

Special No. 3—A handsome black plume, 19 inches in length. The fibre is a bright, glossy black, long wide flues, the whole beautifully curled and made; only 36 of them left. Special price 3.50

—Second Floor—Yonge Street.

This Clock Mantel is 3.95

A mantel, an ornament, a reliable time-piece, and a plate rail, all in one; put it up yourself in any room; see the picture, read this description:

39-inch mantel, with square design clock, resting on smaller

shelf; firmly made, handsome weathered oak finish, attached by strong hooks; top shelf for books, statues, ornaments and grooved for plates; under shelf for smaller articles.

Clock—Has one-day weight movement, long brass chain and weight, pull down weight and clock is wound, oak pendulum, exposed dial, with raised brass numbers and hands; we'll guarantee it a good timekeeper; price complete 3.95

MAIN FLOOR—YONGE STREET

Children's Dresses

New Fall Style—Of cashmere serge, in navy, brown, garnet and black; long waist effect, Gibson pleat over shoulder; finished prettily with velvet, mohair braid and buttons; very full pleated skirt; a perfect fitting dress; sizes for 6 years, 3.00; 8 years, 3.25; 10 years, 3.50; 12 years, 3.75; 13 years, 4.00, and 14 years 4.25

White Lawn Dresses—Mother Hubbard style, square yoke trimmed with embroidery and tucking, neck finished with braid and lace; sizes for 6 months to 3 years, each 39

SECOND FLOOR—ALBERT STREET

Women's Waists and Petticoats

Some new goods and others at much reduced prices:

Waists—Of fine wool panama, silk embroidered front in fancy designs, back and front finished with tucking; long sleeves with tucked cuffs; fastened in back; in black, navy or cream, each 1.50

All-over Lace Waists—White only; Japanese silk lining; three-quarter sleeves, cuffs and attached collar of insertion and lace; buttoned back; sizes 32 to 42, Less than half price, each 1.59

Clearance of White Lawn Waists—Several styles; one has all-over embroidery front, another rows of embroidery and valenciennes insertion down front; others have yoke of valenciennes insertion and Gibson pleat over shoulders; three-quarter sleeves, cuffs and attached collar trimmed with lace and insertion; fastened in back; sizes 34 to 42; clearing at, each 97

Sateen Petticoats—Heavy lustrous black, two-piece flounce, finished with three gathered frills, strapping and underpiece; lengths 38, 40 and 42 inches; HALF PRICE, each 50

SECOND FLOOR—CENTRE

Bordered Shadow Suitings

This fabric is practical, handsome, and combines in its weave two of the leading styles of the season.

It is woven in quarter-inch shadow stripes, finishing with a twelve-inch deep border of seventeen rows of shadow "bands" graduating from a narrow one at the top to one more than an inch at the bottom, so that when tailored the skirt interprets the newest of styles in a more handsome and exclusive manner than can be had by the usual silk or satin strapping.

This new suiting is 48 inches wide, all pure wool with a firm, wiry worsted yarn, finished with a surface that is as lasting as it is beautiful with its softly glowing shadows and border.

Every woman ambitious for exclusiveness at a moderate outlay should see these Monday. We show them in myrtle, Burgundy, mahogany, Copenhagen, navy and peacock. Price, per yard 1.25

The whole section of Dress Goods is resplendent with new Broadcloths, Venetians, Panamas, Chevots, Serges, etc., in plain effects and chevrons, broadwale diagonals, smooth and rough-surfaced, and all the season's designs and colors. It's a splendid gathering of fabrics of taste and fashion, offering a broad variety at prices always at the saving point.

Fine Black Silks Greatly Price-Lowered—Black Silks, Gros Grain Taffeta, Messaline and Chiffon-finished Taffeta, Paillette de Soie, Armure, Satin de Chene, Louise, Peau de Soie, and Satin Merveillex, staple and guaranteed qualities. Every yard reduced to 67

Main Floor—Yonge Street.

A 17 Jewel, Gold Watch For 13.00

If you know anything of watch movements you'll appreciate this remarkable value: 17 jewel movement for \$13.00.

Made especially for us and we guarantee them absolutely for two years, and the open face 10k gold filled case for twenty years; perfect time-keepers, handsome appearance; men's size, nickel movement, Brequet hair-

spring, exposed winding wheel, double sunk dial, Roman and Arabic numerals, 24-hour system, price 13.00

MAIN FLOOR—YONGE STREET

Basela Toronto 4 Rochester 4

Thirteen Innings and a Tie Hickey Outpitches Barger

Rochester Twirler Ties Score in Ninth by Home Run--Phlye Also Hit into Bleachers--Providence Beats Baltimore.

Toronto failed to win again yesterday, but the result might have been worse, as Rochester only made it a tie in thirteen innings. The contest was good from the viewpoint, with Hickey easily outpitching Barger.

Toronto scored one in the third on Vanoy's walk, Hickey's sacrifice, Wiedly's single and Schafy's single. Rochester again won in the fifth on Barger's scratch hit, a sacrifice and Holly's single. These were done in the eighth, when Rochester tallied two on Loudy's double, a single by Batcher, an error and a fielder's choice. Toronto took them all back and one more in the same round, after Wiedly retired, on a base on balls, Thielman's double and Phlye's home run. Cockman and Whitney followed with hits, but the next two would not do.

Owen Sound Nearly Pulled Out a Win When Galt Tried a Blockading Game--Maitlands vs. Bradford, at Newmarket, To-Day.

ORANGEVILLE, Sept. 4.—(Special.)—History repeated itself here to-day, when Owen Sound went down to defeat before Galt in an intermediate semi-final C. L. A. game by a margin of one run.

Galt had the game won at the end of the third quarter, when they were leading 8 to 3, but made the mistake of trying to play a blockading game, the whole team bunching around the net, and here was where they nearly lost, for this kind of play just suited the light Owen Sound home, as it gave them a chance to get in on the flags, a thing they were not able to do after the first quarter.

Cricquet Quakers Score 224

Galt's Defence Beat Sound in Olympics Play Here To-Day

Phillies and Zingaris Even on First Innings

Cricket Score on First Day 224 to 44 for No Wickets--Play Resumes To-Day.

The touring Quakers of Philadelphia opened up in Toronto yesterday, playing the Galt defence on a fast wicket. The visitors batted first, Clark and Leroy scoring 85 runs before being separated. The third wicket resulted in 43 runs, Clark, Leroy, Mason and Evans having scored the bulk of the runs by a fine display of batting. The fielding was brilliant, many runs being cut off and the batters were careful not to take chances. The game started a little late, as the Philadelphia men were an hour late in arriving from Ottawa.

Wisdom King Wins 2.15 Pace Two Races for Fritz Bingen

Most Successful Speed Trials Brought to a Close Yesterday at the Exhibition.

Charlie Barrett's old campaigner, Wisdom King, the hero of many a hot heat, was a great pacer yesterday, when he marched off with the two heats necessary to win the unfinished 2.15 pace at the Exhibition track. Gracia Pointer, with two heats to her credit from the previous day, was thought to have the best chance, but the unsexed son of Wisdom, with the pole position, was able to stall off the mare and win the two heats, each on her right at his record, 2.15. In the unfinished 2.30 trot, Fritz Bingen took the track at the first turn and was never headed. Owing to the restraining hold his driver Swartz had on him he made a break near the finish of the mile, but he was so far in front that Swartz had him settled before any of the others could get near him, and he won jogging, in 2.28, the slowest time of the race.

Union Stock Yards Horse Exchange West Toronto

Auction Sales of Horses, Carriages and Harness Every Monday and Wednesday.

Two Games To-Day. Rochester will wind up their season here to-day with a double-header, starting at 2 p.m. McEwen and Moffitt will be the Toronto twirlers.

Law Tennis Tourney. Considerable progress was made in the provincial championship tournament yesterday and many interested enthusiasts were present at the Bathurst-street courts to witness the games.

Men's handicap--Beardmore defeated Dr. Bultbee, 6-3; Lefroy defeated White, 6-3; 5-7; 6-4; Reid defeated Martin, 6-3; 7-5; 10-8; Pond defeated White, 6-3; 6-3; 6-3; McEachern defeated Fellows, 6-3; 6-2; Rogers defeated Rook, 6-2; 6-1; Bryan defeated Cooper, 6-3; 6-2; Hodgson defeated McNair, 6-3; 6-2; Men's handicap--Brecken defeated Fellows, 6-2; 6-3; Lantridge defeated Cooper, 6-4; 6-2; N. Rogers defeated Dr. Smith, 6-3; 6-3.

Today's Program. 10.30--Thompson v. Wick (handicap), Rogers v. Baird (handicap), Reid v. McMillan (novice), Mrs. Bultbee v. Miss Wittchell (handicap), S. A. Jones v. Bryan (open), Robertson v. Ward (open).

Other matches will be arranged if time will permit.

Callender Wins Final Again Quot Champion

Nickell of Sarnia is Beaten 61 to 53--Farrell and Weir Also Win.

The Dominion Heather Quoting Club brought their final tournament to a close yesterday, having probably the largest number of players and spectators ever attending a quoting tournament in Canada.

Can't Beat St. Matthews. On St. Matthew's lawn four rinks from Toronto, the former winners, by a score of 31 to 30, C. Hitchman getting second, Anthony Toronto third and F. Claus, B. Hooper getting third and Capt. Robinson the fourth. Mr. Claus and Mr. Errington were the two oldest players in Canada.

Great credit is due to M. Dixon Taylor, president; T. F. Pell, president; W. Mitchell, Jr., vice-president, and Wm. Mitchell, secretary, who have done so much for the club.

Well-contested game between W. Farrell, Woodstock, and B. Hooper, Little York. The latter being defeated by 31 to 28, W. Chester defeating B. Hooper for second, B. Hooper getting third and Capt. Robinson the fourth. Mr. Claus and Mr. Errington were the two oldest players in Canada.

Cricket To-Day. Grace Church play West Toronto in the high school grounds in their final league game yesterday. The team, led by Yeman, Peil, Brown, Whittingham, Chalkhead, McKee, Campbell, Walcott, Atkinson, Grifony, W. Watson.

NEW ZEALAND'S OLD AGE PENSIONS.

New Zealand made its first move towards instituting an old age pension scheme in 1898, when a bill with that end was introduced by the late Right Hon. R. J. Seddon, then premier. It passed in committee, but an act was later in the session passed for the purpose of ascertaining the probable cost of establishing a fund for the carrying out of the scheme. In the following year the pension bill was again introduced and passed the lower house, but was thrown out at the second reading by the upper house. In 1898, however, another bill received parliamentary sanction providing for a pension of \$50 per annum, raised in 1906 to \$130 per annum, or \$2.50 per week, at which figure it now stands.

Pensioners under the New Zealand law must have reached the age of 65 and have resided continuously in the colony for 25 years, but this is not held to be interrupted by occasional absence, not exceeding two years, and there are other provisions meeting the case of sailors whose home is in the state. During the preceding twelve years he must not have been imprisoned for four months or on four occasions for an offence punishable by twelve months' imprisonment, nor during 25 years have been imprisoned for five years for any offence. The pensioner must not have deserted his wife and children during the preceding 15 years and must have lived a sober and reputable life for five years. His yearly income must not exceed \$300, the net value of his accumulated property must not be \$1350 or over and he must not have deprived himself of property or income in order to qualify for a pension.

The annual report of the department was recently presented to the house of representatives and states that although an increase in the number of pensioners is taking place, the percentage of pensioners to the eligible population shows no upward tendency. On 31st March last there was a total of 13,569 pensioners, being an increase of 312 on the number at the end of the previous year. The number of new pensions granted was 1740, and there were 1189 deaths and 239 cancellations, being a net increase of 312. The number in excess of those on the roll on March 31, 1902, is 793. There are 657 Maori pensioners. Of the total number of pensioners, 10,774, or 79 per cent. of the whole, are in receipt of the full pension of £28. There are 1856 more male European pensioners than females. There were at the end of the year 80 European pensioners of the age of 90 and over, of whom eight were 96 and over, whilst two had topped the century.

A pensioner at Russell is supposed to be of the age of 104, whilst another at Otaki is believed to be 107. The total number of claims lodged since the act came into force up till March last was 38,598, of which number pensioners had been established in 25,617 cases. The gross payments by way of pensions last year amounted to \$325,199, being approximately \$10,000 short of the amount appropriated for the purpose, and \$11,015 in excess of the gross amount disbursed during the previous year. After deducting \$163, the amount of over payments refunded, the amount disbursed was \$235,036. The cost of administration for the year was \$765. The net value of property owned by pensioners is \$584,457. Of the persons to whom the pensions were granted last year 790 were English, 264 Irish, 325 Scotch, 23 New Zealand born, 13 Welsh, and 20 Maori. Of the total number of male pensioners now on the roll there are 3553 laborers, 1071 miners, 463 farmers, 284 gardeners, 276 carpenters, 240 gum diggers, and 107 boatmen. The females include 5151, whose occupation is termed domestic duties, whilst there are 158 nurses, 58 handresses, 41 charwomen, 35 needlewomen, 28 dressmakers, 17 cooks, and 13 washerwomen.

DAYLIGHT SAVING.

When Mr. Wright introduced his daylight saving bill into the British House of Commons, its proposed object was so novel and curious that, to begin with, it evoked more ridicule than appreciation. But its author persevered, and his insistence was rewarded by its ultimate reference to a committee which sat assiduously for some weeks, and finally reported favorably, the modifying the scheme in detail. As it now stands, the bill proposes that on a certain day in early summer all clocks will be moved forward one hour, thus taking advantage of the morning hours and saving an hour's additional daylight in the afternoons for recreative purposes.

Inspired by this bill, a large English firm of fruit importers and steamship owners employing 800 typical indoor and outdoor workers in various cities resolved to experiment along its lines, and on July 6 issued a notice advancing the regular hours of work by half an hour, the limited period being due to the exigencies of the railway service. The experiment worked to the entire satisfaction of all concerned, and both

employers and employed are enthusiastic about its success.

Not only this, but, as a director of the firm observed, one especially interesting result has been the better and quicker work done. "The prospect of getting away half an hour earlier," he said, "seems to have acted as a direct incentive to work. I may say that since the new rule was introduced not a single man has arrived late at the office." This practical proof of the value of daylight saving thus afforded will assist Mr. Willett's bill to become law, for there are some other difficulties yet to be surmounted. As it is, the bill has passed the committee stage, and its consideration will be resumed during the approaching autumn session.

THE GOVERNMENT AND THE ELECTRIC COMPANIES.

By passing an order in council authorizing the hydro-electric commission to sign the contract for the construction of the public transmission line the provincial government has crossed the Rubicon and burned its boats. This effectually disposes of the inspired and canned paragraphs that have been traveling round and finding their way even into British periodicals insinuating that the government was not sincere in the prosecution of its power policy, but was only awaiting a convenient opportunity and a plausible excuse to escape from it and to leave the field to the tender mercies of the electric ring. No doubt the parties who have no scruples about breaking faith with the people and ignoring their obligations as trustees of a public service found it impossible to believe that the government were determined to fulfill their pledge to secure cheap Niagara power for the citizens. They are wiser to-day and will be sorer that they did not play the game.

The power policy more than anything else the provincial government has done was accountable for the sweeping verdict of approval given it at the last general election. Now that the original estimates and representations of the hydro-electric commission have been more than justified and there is every prospect that Niagara power will be even cheaper than the citizens were first invited to believe, there is no reason why they should alter their determination and many reasons why they should continue their support. From the beginning the government was willing to include the Electric Development Company in the scheme—that it is now excluded is simply because it was not prepared to deliver power to the public transmission line at the price stated by one of its competitors. Then it will be remembered that the Electric Light Company ascertained that it was obtaining power on the basis of the flat rate less by half than the rate estimated by the commission, and that it was absolutely impossible for the city to do business except at prices far higher than those now charged by the company to its customers.

The good faith of these representations can hardly stand the test of the strenuous efforts now made to defeat the public power policy. If the government and the people have undertaken an impossible task, what has the electric ring to fear that its emissaries and more than friends should undertake to pull its chestnuts out of the fire and deny the credit of the province in British financial circles? If there is to be a showing up over the matter of Niagara power, it is not the government nor the people of Ontario that will dread investigation. In fact nothing would serve the public better than a thorough enquiry into the electric companies, their exact position, interrelations and financial manoeuvring and the government should undertake it without delay.

THE NOVA SCOTIAN.

"Reader" is informed that the publication he asks about, "The Nova Scotian," is published every other month at the offices of the Bank of Nova Scotia, West King-street.

MUNRO ESTATE BUILDING LOTS.

To-day's World contains the advertisement of the offer of 45 acres of the Munro estate as building lots. There will be a rush for this desirable locality—just outside the city, but reached by the East Queen-street cars. This is the last of the cheap land to be had in the bugaloo district to the east—no desirable on account of its nearness to the lake. Scores and scores of houses are now in course of erection between Queen-street and the Kingston-road, and this properly extends from these two thoroughfares. The Munro estate is beautifully wooded. Investors and builders will find an office on the ground where all information can be had.

WAS MULAI HAFID DEFEATED?

Native Reports Say Uauperp's Army Was Dis-cerated.

TANGIERS, Sept. 4.

Native reports insist upon the magnitude of the defeat inflicted upon the forces of Mulai Hafid by Moutou on Aug. 30, at a point three hours outside Morocco City. A brother of Glaoui, one of Mulai Hafid's lieutenants, is reported to have been killed. Hafid's army is said to have been dispersed and Morocco City is at the mercy of Moutou.

This instrument is being purchased constantly by people of the nicest musical judgment and the most minute comparison with all other prominent makes will invite you to visit the BELL PIANO WAREHOUSES 146 Yonge Street.

MARINE ENQUIRY ADJOURNED

To Give Business Firm Time to Produce Books.

MONTREAL, Sept. 4.—The marine inquiry was suspended till Tuesday in order that certain books may be produced. Nothing of note was said to-day until Mr. Radian, of the wholesale grocery firm of Hudson, Orsall & Co., said his firm had sold \$15,000 worth of groceries to the Arctic in 1904. Asked if those prices charged were excessive, he said they were not, but when asked to produce the books, could not do so. It further appeared that the books of the firm, containing details of the transactions, had not been examined by W. Duff, the chartered accountant employed by the commission, or been audited. Judge Cassels ordered this to be done.

GIRLS' ESCAPEE

Ends Disastrously—Two Thorold Maidens Injured in Runaway.

ST. CATHARINES, Sept. 4.—As the result of an escapee two Thorold girls, Alice Dundas and Lena Crick, had an experience last night and are in a precarious condition.

JAPANESE CITY FIRESWEPT.

Four Thousand Homes Destroyed—Widespread Suffering.

TOKIO, Sept. 4.—Despatches from the City of Nigata in the Ichigo Province, 18 miles northwest of this city, tell of a fire in which 4000 houses were destroyed by the flames.

GLASSES THAT FIT.

Shamrock Plug Tobacco Never Varies

If you buy a plug of Shamrock Tobacco today, a year from now, or five years hence, there will be no variation in quality.

Every leaf is opened out and carefully examined, leaf by leaf.

No matter how good the flavor of the leaf may be, if it's the least bit off color it's rejected.

So positive are we that a trial pound of Shamrock Plug Tobacco will convince you it's the best you've ever smoked, that we authorize your dealer to refund your money if it doesn't.

SHAMROCK Plug is always just right.

POLITICAL INTELLIGENCE

Yesterday's Nominations.

North Wellington Conservatives—W. J. Macdonald, or second ballot over Mr. Kingston of Mt. Forest.

North Grey Liberals—Wm. P. Telford, M.P., unanimously.

The Central Liberal executive has decided to ask John C. Eaton to contest South Toronto and Cawthra-McLeod West Toronto in the ministerial interest. If Mr. Eaton will not accept the contest will be left to Claude Macdonell, M.P., and J. G. O'Donoghue, the Labor candidate, as it was not deemed wise to endorse any but straight Liberals.

The last federal parliament was dissolved on Sept. 29 and the elections were held on Nov. 5. If, as is expected, the next contest is to take place around the first day of November, the announcement of dissolution will not be expected for three weeks yet.

It is understood that the Toronto Reform Association has not given up hope of having Sir Wilfrid Laurier speak in Toronto during the campaign. The prime minister might visit Toronto all day, Sept. 24 and again on Sept. 25, and it is hoped that he may yet consent to give a meeting.

AT OSGOOD HALL.

Writs Issued.

The Canadian Gas Power and Launches, Limited, have begun proceedings against J. A. White of 407 Beveridge-street, \$334.76 upon certain promissory notes.

Copeland and Fairbairn allege that they sold house No. 32 Madison-avenue, owned by George A. Grahan, a Toronto hotelkeeper. They are now suing Graham for \$500 commission on the sale, which exceeded \$10,000.

For alleged false impressions and malicious prosecution, Joseph Shapiro and Morris Levinsky have issued writs claiming \$10,000 damages against Gertrude Sobay, Elias Pullin, Max Cohen, Hyman Meir, Jacob Meir, Abraham Andrews, Joseph Gurofsky and the Crown Bank.

Settling the Toronto has been the defendant in an action brought by Emma Heaton to recover damages for injuries sustained thru the alleged negligence of Soiman. The damages are not fixed.

Judgments Signed.

C. Miller was given judgment against Frank Hilton for \$242.75 and costs. The claim was on a promissory note.

Canadian Newspaper Co. for \$26.75 and \$21.02 costs upon the application of the executors of R. G. McLean. The account was for work done and moneys advanced under agreement.

Court of Appeal.

Mr. Frank Hoising, K.C., on behalf of the City of Oshawa, moved before Mr. Justice Oiler for leave to appeal to the court of appeal from the divisional court, allowing an appeal from the City of Oshawa, Ontario, for \$25.53 and \$23.67 costs, by default, on certain promissory notes.

Mr. Bryan's Review.

The attendance at the fall fair has been larger than a year ago, and the vendors are generally gratifying. The same house generally has better buyings as lighter is a good many cases. The outlook for the fall fair is not so bright as it was last year. The sugar market is comparatively limited. In merchandise values there have been no noteworthy changes. The sugar market is weak at the decline of last week, and it is deemed not improbable that some further revision of prices may shortly be noted.

Record of Extravagance.

The fifty-first congress was commonly called the Billion Dollar Congress, the appropriations made by that congress during two years, amounting for the first time to a billion dollars, or five hundred million dollars a year.

ST. PAUL, Minn., Sept. 2.—William J. Bryan and Gov. John A. Johnson clasped hands at the Union Station here yesterday morning at 7:30 o'clock and they were together virtually from that early hour in the morning until the Democratic presidential candidate departed from St. Paul at 10:30 o'clock at night.

The Minnesota Democrats are setting great store by the cordiality that marked the meeting of their national and state standard-bearers. It is known that ever since Gov. Johnson declined to permit the Minnesota delegation at the Denver convention to withdraw his name from the list of presidential candidates, he has endeavored to give their names, but who related a story that interested him much of the alleged methods employed by the National Starch Company in crushing out competition. They asserted to him that the concern they represent is now owned by the Standard Oil Company from the headquarters of that company at No. 26 Broadway, New York.

FIRE DROVE THREE SHOTS.

Italian Committee for Trial for Attempt to Kill.

ENJO'S NATURAL HEALTH-GIVING FRUIT SALT. REFRESHING INVIGORATING

MILK COMMISSION MOOTED. Would Have Full Charge of Distribution of Lactated Fluid.

There is a movement on foot in Toronto for the appointment of a milk commission to deal with the distribution of the supplies of such of the dealers as would like to be employed.

One of the most important subjects to be considered will be how to deal with bribery and other irregularities in elections.

Plains are not completed, but medical men are discussing the question of whether the cow milk is delivered to the customer.

One gentleman, who is endeavoring to interest the medical fraternity in the program, made the statement the other day that the formation of the commission would result in an increase in the price of milk of at least five cents a quart.

Do You Hear Well?

We agree to make you hear ordinary conversation, providing you can still hear thunder.

We wish you to see a new electrically sensitized hearing device called the Electrophone, that instantly causes even the deafest people to hear clearly.

The very best result we can promise you as a reward for using the Electrophone is the complete, lasting restoration of your hearing.

Next to that in importance is the certainty that the moment you apply this marvelous little instrument to nature, the result is your deaf ear is excited just as well ears are, and after a while most people find their hearing has become as good as ever.

Remember, the Electrophone will not only give you relief, but you will find that it will do much more. The Electrophone gradually restores the natural hearing.

The Brand Electrophone Limited, 334 Spadina Ave., Toronto. Free demonstration daily during Exhibition. Call and see us in the Manufacturers' Annex. Open every evening during Exhibition.

PASTOR RUSSELL'S SERMON

PUT IN BAY, Sept. 4.—The convention of Bible students, which opened here Aug. 29, was a pronounced success. It opened with a program covering nine days' sessions and thirty-two addresses. The attendance seemed not to be pleasure-seekers, but rather those who have found the pearl of price, of great value.

We report the discourse of Pastor C. T. Russell of Pittsburg, delivered in the afternoon from the text, "And Jesus said unto them, come ye yourselves apart into a desert place and rest a while." Mark vi. 31.

The speaker said: "On only two other occasions have I addressed larger audiences than the one before me. One of these was in the City of Glasgow on the occasion of my last visit there, when it was estimated that 4500 were present, and over 100 turned away; but my audiences are usually mixed ones and never before have I had the extreme pleasure of addressing so large a concourse of people consecrated to God—Bible students. As the things of the world go this is a very astounding assemblage, because we have come together not for worldly pleasure or recreation, but in strict accordance with the words of our text. We have turned aside from the busy scenes of daily life and strife to fellowship with the Lord and with each other—to build one another up in the most holy faith—to encourage one another, to lift up the hands that hang down, and to strengthen the feeble knees, and to bid those of fearful hearts to be strong in the Lord and in the power of His might. While we trust a physical refreshment will result from this turning aside we specially hope for spiritual refreshment and the rest of soul which began when first we found the Lord and which has been increasing ever since as we sought to know and to obey Him more fully.

We are trusting to His promise that He is both able and willing to cause "all things to work together for good to those that love Him"—to the called ones according to His purpose—we have come here with this confidence and I am sure that many of us already feel well repaid. Indeed, it is always so with those who have given their hearts fully, completely to the Lord, and who are seeking to know and to do His will. They can realize the Father's smiles and the gracious promises which are to be fulfilled in Christ Jesus, and with these are sets to the trials and difficulties of life they are privileged in all conditions, as the Apostle says: "Tribulation worketh patience; and patience experience, and experience hope, and hope maketh not ashamed, because the love of God is shed abroad in our hearts." (Rom. v., 3-5.) Is it any wonder then, dear friends, that as I look into your faces and see them beaming with the heavenly light that I ask you divine? It is no wonder. The wonder on the contrary would be if any other condition should obtain. If you like myself, I am sure you have come hoping, praying that the Lord will pour out a blessing such as we shall not be able to contain—a blessing

FREE UNTIL CURED

No man need be weak, no man need suffer from the loss of that vitary which makes life worth living. He can be made strong, magnetic, forcible, and lighthearted, confident of his power both in business and society; free from spells of despondency, nervousness, lassitude and brain wanderings. I have a certain cure for Nervous Debility, Varicocele, Rheumatism, Lame Back, Stomach, Liver and Kidney Complaints, in my world-famed Dr. Sanden Electric Belt with Electric Suspensory, and I will give it absolutely free until a cure that my Belt will cure, and I have confidence enough in mankind to wait for the only case who has a remedy that will stand such a crucial test. For 40 years I have been curing thousands every year, and have made a tremendous success doing business on this basis. NOT ONE PENNY IN ADVANCE OR ON DEPOSIT, and if I fail to cure you nothing whatever. All I ask is that you pay me the usual price of the Belt when cured—in some cases not over \$5.00. I will leave you to be the judge, and will take your word for results, or for cash I give full wholesale discount. Forty years' continuous success has brought forth many imitators. Beware of them. You can try the original, the standard of the world, free until cured, then pay for it. Call or send for one today, also my two illustrated books giving full information free, sealed by mail.

COST OF BUILDING RAILROAD IN WEST

C. M. and St. P. Spending \$190,000 Per Mile on Line—Largest Sum Ever Paid, it is Claimed.

SPOKANE, Wash., Sept. 5.—Eleven million, four hundred thousand dollars, or \$190,000 a mile, is the cost of building the line of the Chicago, Milwaukee & St. Paul Railroad from Tart, Mont., west to St. Joe, Ida., 89 miles. G. P. O'Neil, right-of-way agent, who gave out the foregoing, added that it is the largest amount ever paid by any railroad company in the world for the construction of a line of similar length. In this piece of road there are 35 tunnels, the longest being more than 3000 feet thru solid rock. The company expects that within five years after the completion of the Idaho and Washington to the Sound, the traffic will be so large it will be necessary to double track the line in order to handle the volume of business. The line will bisect the Palouse and part of the Big Bend wheat belts, which sell more than 40,000,000 bushels of grain to market in 1907.

"HELLO" SYSTEMS OF ONTARIO FARMERS

Institute Members Will Attend Convention of Independent Telephone Association.

Secretary F. Page Wilson stated to The World yesterday that the members of the Farmers' Institutes which will meet here next week have accepted an invitation to attend the afternoon session of the convention of the Canadian Independent Telephone Association at the city hall next Wednesday.

Dr. Demers, Levis, Que., who will preside, will have an interesting account to give of the National Telephone Company's progress. This largest independent company in Canada is putting in a system in the City of Quebec.

Secretary Wilson's report will show that the independent telephone movement is making rapid progress in Canada, while in the United States the independent companies have now over-lapped the Bell, and have four million phones in operation against three million of the latter. Also that there are now nearly 350 independent telephone companies in Canada, the movement is spreading rapidly now, especially in rural Ontario. It is also gaining ground in the towns and cities generally which its system and Chatham is like to have one in the near future. There is an automatic change in operation at Peterboro and others are to be established at Brantford and Lindsay.

What Bovril Really Is.
As a bottle of choice perfume contains the essence and aroma of the flowers, so a bottle of "Bovril" contains the essence and aroma of prime roast beef. Bovril is beef and beef only, and owing to the method of preparation, its nutritive qualities of the meat are preserved in such a form that they are easily digested and very quickly assimilated, even when the digestive functions are only beginning to be impaired. A cup of Bovril is relished at all seasons and it is difficult to find anything more appetizing or nutritious than a dairy Bovril. Bovril is also excellent spread on buttered toast.

MUST PAY MONEY BACK.

Grand Trunk Will Also Have to Restore Train Service.

OTTAWA, Sept. 4.—The board of railway commissioners has dealt with a grievance of long standing in the Village of Onemee, Victoria County, Ont., and has ordered the Grand Trunk Railway to restore the station service which was formerly given to the village, or else return the \$2000 which was voted by the municipality for the road when it was built many years ago.

The commission has also been investigating the case of the Belleville and North Hastings Railway, now a branch of the Grand Trunk, which was liberally subsidized at the time of its construction, but on which no train service has been operated for a long time past. The grievance was ventilated in parliament last session, and as a result of the commission's efforts it is said that a train service will shortly be restored.

The natural history building has some new attractions, including a 118 lb. tarpon from the Florida coast, finely mounted. This is said to be the first specimen shown at the fair. The aquarium tanks show the scavenger fish or German carp, eels, sunfish, dog fish, perch and some trout. The colorful lights behind the tanks give a pretty effect. Some of the fish are slightly bruised from their first wild attempts to escape to the small tanks. Some of them actually leaped out of the tanks on the floor. Visitors who think the marks are due to disease will take notice.

The insect cases and collections of butterflies in this building are beautifully arranged.

The display of Ontario minerals in the agricultural building is perhaps rightly belongs to that section, but the scientific side also. The parliament cases are well set out, and some fine slabs of silver and a huge boulder of native silver from the O'Brien mine testify to the wealth of Cobalt.

The lion cubs born in Prof. Grass's troop are doing very nicely in spite of the disadvantages in their under the way of nomenclature. They were named Sir Louis after the lieutenant-governor of Quebec, who opened the exhibition; Oliver, after the mayor, and Doctor Orr, and H. P. Wood, after the deli loc. Lion cubs do not always survive and odds are being laid on the longevity of these. H. J. P. Good is the strong favorite.

CURZON'S
LONDON MADE
'SUITS TO MEASURE ALL OVER THE GLOBE'

It is worth your consideration—the perfection of fit, style and finish at the minimum of cost. For years past we have made tailoring our special study, until to-day it is no exaggeration to say that our House boasts the finest equipment and organization in the Tailoring World. We have specialised in the art of fitting clients residing over-seas, and, moreover, not only in fitting, but also in producing the real American fashions. There is no need to pay exorbitant prices for your tailoring requirements. The merit of our clients' money where we fail to give absolute satisfaction. No other Tailoring House on either side of the Atlantic dare offer such an unqualified guarantee. Whether you desire your clothes tailored in latest New York style or latest London fashions, and address same to us as below, asking for our latest assortment of patterns, together with latest fashion-plates, instructions for accurate self-measurement, tape measure, all free and carriage paid. We dispatch your order within seven days from receipt, and if you do not approve, return the goods, and we will refund your money.

WITHIN SEVEN DAYS SUITS and OVERCOATS to measure from \$5.14 to \$20.

BANDS ARE GOOD.
And Visitors Are Quick to Show Their Appreciation.
Nothing could be more gratifying to the visiting bands than the interest taken by the public in the various performances. Visitors are only beginning to realize what very excellent musical combinations the bands are. In order further to cater to the public interest, The World arranged with the bandmasters to supply a copy of the program of music a day ahead, so that those wishing to hear favorite selections may arrange their time accordingly.

Yesterday was an ideal day for sitting around the band stands and crowds availed themselves of the privileges and basked in the sunshine all day.

The Royal Canadian Regimental Band is fully worthy of its position as representing the Canadian national forces, and sustains the fine record it made at Quebec during the Champlain celebrations. The large body of brass is well tempered with the volume of the reeds and the excellent wood wind.

The Winnipeg City Band, under Mr. Barraclough, is happily representative of the Prairie Province. As in the case of the R. C. R. Band, the musical selections are very attractive numbers on the Winnipeg program. During the performance of the delightful "Re-miniscences of Ireland" yesterday

ONE TON OF COAL SAVED
The average householder uses at least ten tons of coal per season. By buying now a saving of 75 cents per ton is made, or, on ten tons, \$7.50.
WHY NOT EFFECT THIS SAVING?
You must buy coal. Why not do it now? Get it off your mind and in the cellar. Save money, worry and discomfort.

C. P. R. STRIKE BREAKERS.
Trades Congress Calls on Dominion Government to Take Action.
The department of labor of the Dominion government has been officially asked by the executive of the Trades Congress of Canada to appoint a special commissioner to investigate the reputed wholesale importation of strike breakers by the C. P. R.

The application was heard at Ottawa by F. A. Acland, acting deputy minister of labor, on Wednesday. President Veraille, M. P., vice-president James Simpson, J. G. O'Donoghue and James Somerville of the Machinists' Union presented the application.

It was declared that the alien labor law was a fake and a farce as left to private prosecutors. Mr. O'Donoghue pointed out that a precedent was

but without running doctor's bill or falling into the deep ditch of quackery, may safely and economically cure himself without the knowledge of a second party. This is the discovery of **THE NEW FRENCH REMEDY THERAPION**
A complete revolution has been wrought in the department of medical science, whilst thousands have been restored to health and happiness after years previously had been merely dragging out a miserable existence. This is the discovery of **THERAPION No. 1—The Sovereign Remedy** for discharges, suppurating injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2—The Sovereign Remedy for primary and secondary syphilis, eruptions, ulcers, pains and swelling of the joints, and all those complaints which necessarily supposed to cure. This preparation purifies the whole system through the blood and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3—The Sovereign Remedy for debility, nervousness, impaired vitality, sleeplessness, distaste and incapacity for business or pleasure, loss of appetite, indigestion, pains in the back and head, and all disorders resulting from dissipation, early cases, etc., which the faculty so persistently ignores, because so impotent to cure or even relieve.

THERAPION is sold by principal Chemists per packet. In ordering, state which of the three "THERAPIONS" appear on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Home Commissioners, and without which it is a swindle.

ENGINEER WANTS MORE MONEY FOR HIS WORKS

He'll Have No Unexpended Balance, He Says—Board of Works Decisions.

When the sewage disposal question came up before the committee of works yesterday afternoon, a hot discussion commenced. Ald. Stewart and Saunderson from ward one contended that the people there wanted the plant if it was to be set up there, at all, to go south of Eastern-avenue, as it runs now, and that, moreover, as regards property on Queen-street, the land was thought to be too valuable altogether to be used for park purposes, as it would bring in a lot of money if sold for factory sites. A committee will go over the ground next Wednesday. The committee accepted the recommendation of Engineer Rust, that Ten-ten-crescent, running east from Broadview-avenue, between Spadina and Hogarth-avenues, be dedicated as a public street. A block of land at the head of Millbrook-avenue has been taken by the city for arrears of taxes, and will be opened up as a part of Millbrook-avenue. The committee also decided to force the construction of the macadam pavement on Huntley-street from Bloor north to the bridge. The supplementary report of the city engineer to the committee stated that the appropriations for roadways and sidewalks are already overdrawn. The general purposes to the extent of \$465; roadways, \$488, and sidewalks, \$504. "And yet," goes on the report, "the board of control instead of granting an appropriation of \$20,000 for the Lake Shore-road, ordered that this amount be taken from the following appropriations: General purposes, roadways, asphalt repairs and coal for the main pumping station. The board have also provided that \$30,000 for the sea wall on the Lake Shore-road be taken from the unexpended balance. I wish to point out that there will be no unexpended balance in this department, and to carry on the work it will be necessary to ask the council to provide an additional appropriation of \$500 to general purpose, \$500 for roadways, and

\$250 000 sidewalks. It will also be necessary that \$250 000 additional be provided for the protection of railway crossings."

The engineer recommends that the Bell Telephone Company be granted permission to open Howard-street from Rose-avenue to Parliament-street for the purpose of laying underground conduits to carry their wires.

THE COST OF FLOUR.

Some Figures Which May Surprise the Average Reader.

At the annual meeting of the Dominion Millers' Association yesterday the secretary, C. B. Watts, submitted the following showing the cost of providing 100 barrels of flour: Advertising, 25c; insurance, \$3.07; interest on money invested, \$6.64; heating mill, 24c; oil, 28c; office, \$3.46; power, \$3.67; repairs, \$3.27; depreciation on mill, \$2.35; taxes, \$1.07; freighting, 48c; teaming, \$3.93; wages, \$17.96; total, \$44.60.

Stocks of flour are very low throughout, and many of the mills are awaiting the arrival of the new wheat. Contrary to expectations, the flour trade has been very good in spite of the financial stringency. The reason given for this is the fact that more plain bread was eaten.

The new officers are: A. C. McLeod, Stratford, president; H. L. Rice, St. Mary's first vice-president; E. B. Woods, Hamilton, second vice-president; treasurer, C. B. Watts, Toronto; executive, J. D. Fyvie, Lindsay; Geo. E. Goldie, Ayr; J. I. A. Hunt, London; W. Monroe, Thorold; A. Noble, Norval; Hedley Shaw, Toronto.

DIRECTORS GAVE NOTES TO CONCEAL ILLEGALITY

Claim That Sovereign Bank Purchased Its Own Shares and They Only Acted for the General Good.

The defence of the directors of the Sovereign Bank, defendants in the five suits to recover \$178,794 on promissory notes, with interest, entered by Curaminog Stavers, was filed with the master-in-chambers yesterday. It reads: "If any note was ever made and endorsed, as alleged, which the defendant does not admit, but deposes, said making and endorsing were illegal and void, as having been a mere device for concealing and covering up the fact that the said Sovereign Bank had purchased its own stock, and for enabling the bank to continue in the ownership of the stock, and the defendant pleads the provisions of the Bank Act."

Telford accepts. Yields to Pressure and Will Contest North Grey.

OWEN SOUND, Sept. 4.—The Liberals of North Grey met here this afternoon to select a candidate. Eight names, including that of Hon. A. G. Mackay, M.L.A., were put forward, as well as the present representative, W. P. Telford, M.P. The other nominees having declared that they would not enter the field against Mr. Telford that gentleman was unanimously selected.

He referred to the fact that he had intimated that he had no intention of seeking re-election, but great pressure had been brought to bear upon him and he was proud of the honor they had again conferred upon him.

Hon. Mr. MacKay, H. H. Miller, M. P. for South Grey, and Mr. C. W. Hartman of Clarksburg, spoke.

AUDITORS ASSUMED BANK BOOK CORRECT

Further Evidence is Taken in the Leslie Case—Treasurer Showed Auditors Money.

The Leslie enquiry continued in police court yesterday.

William Anderson, 37 years city auditor, said he had received a letter from President George asking for a thorough audit of the exhibition books. He did not reply when asked if a once-a-year audit was sufficient.

"Do you remember your books did not balance by \$1200 when you were examining books in Leslie's office?" asked Crown Attorney Corley. "When you informed Leslie of that?"

"No."

"Nor of Leslie going into the vault and bringing out the cash?"

"No."

"If you or Auditor Hutchins saying that money might have been borrowed just now from anyone?"

"Yes. I remember Leslie bringing in a lot of money."

"While the board was waiting for a report, then the \$1200 came up?"

"Yes."

This was in January last. According to that audit Leslie had \$10,000 the auditors didn't know of. It was taken for granted that the bank book was correct.

S. V. Hutchins was called and the magistrate asked:

"Do you notice there has been something there in front of this figure in the bank pass book—now, either figure could have been put in there but a 'one.' Could it?"

But Mr. DeWart objected to the question, and asked:

"The whole discrepancy lay in the money not being in the bank?"

Witness assented.

The witness had suggested many times that the printed form system of showing what was in the bank should be done away with, he said.

The enquiry continues on Tuesday.

Laurier at Cornwall.

CORNWALL, Sept. 4.—(Special.)—Sir Wilfrid Laurier will address a meeting in the Victoria Rink here on Wednesday evening, Sept. 30, in the interests of Col. Robert Smith, K.C., the Liberal candidate.

New Railway in Perth.

OTTAWA, Sept. 4.—(Special.)—The St. Mary's and Western Ontario Railway Company has filed plans showing the proposed location for a branch line in the Township of Blanchard, Perth County.

WEALTHY CHOCOGGAN KILLED.

BASEL, Switzerland, Sept. 4.—Emmanuel Mandel, multi-millionaire merchant of Chicago, died here today as the result of injuries received in a fall at the railway station. His head struck the flagstones.

GIFT TO THE CITY.

F. G. Osier Will Help Along the Rosedale Valley Park.

Engineer Rust proposed to the board of control yesterday morning that Parks Commissioner Wilson take from his hands the work of constructing the 150 feet of sea wall for which the contract was let on Thursday, which he was too busy. But Mayor Oliver and Controllers Hocken and Harrison opposed it.

The proposal of Ald. Bengough that a "flat iron" railway be constructed on Yonge-street from Walker-avenue to St. Clair-avenue, was reported against by the engineer, who said that he hoped to obtain a grade of only seven per cent. on this hill by cutting off two feet at Farnham-avenue.

F. G. Osier has practically handed over his property on Rosedale valley road to the city for park purposes. He agreed to rent it for five years at \$1 a year for that purpose, and if, at the expiration of that time, the city will give a guarantee that the land will always be so used, he will favorably consider turning it over to the city.

This dedication is conditional upon the city cleaning up the dump there, so the board voted \$500 for the purpose.

The city engineer has recommended that asphalt road ways be constructed on Lappin-avenue, Walfray-avenue, St. Paul-street, Booth-avenue, Doucourt-road, Melbourne-avenue, Gloucester-street, Jones-avenue, Trillier-avenue, Ontario-place, King-street from Berkeley-street to Queen-street, Parliament-street from Queen to Gerard, Queen-street from G.T.R. tracks to Greenwood-avenue; brick pavements on Brock-avenue from Middle-ton-street to Dundas, Spadina-road from Dupont to city limits, Huron-street from Dupont to city limits, Euclid-place; bitulithic on Clarendon-avenue and Lynd-avenue; vitrified block on Van Horn-street, Commercial-street and Britain-street.

N. B. Campbell, 128 John-street, suggests a dedication of the right shoulder by a fall from a street car.

In the Realm of Music

Visit of the Sheffield Chorus.
The forthcoming visit to Canada of the famous Sheffield Chorus, which will be heard here in November next, marks an era in the musical annals of Canada, if not of the whole world. For the transportation of a chorus of two hundred and fifty voices across the Atlantic and their touring of this side is something that has never been attempted before.

Musically, the coming of this chorus will make musicians on this side of the Atlantic acquainted with a body of singers acknowledged by the greatest living conductors—Richter, Nikisch and Weingartner—to be the finest in the world. The programs they will render during their visit are most comprehensive ones, and will include the following works: Digests of the Messiah, Elijah and the Dream of Gerontius; Bach's Motets, Sing Ye and Praise Ye the Lord; Elgar's "Crown Song," "Moonlight" glee (W. Jackson), "Sisters of the Sea"; part songs, "Footsteps of Angels," Holbrook's madrigals, "The Going to My Little Boat" (Edwards), and "You Stole My Love" (McFarren); "Awake, Awake" (Rantock), part song; "Shepherd's Lament," part song; Smart's "Calcutta's G-Snatch Me Quick" (glee); "The Dance," from Sir Edward Elgar's suite, "The Bavarian Highlands"; folk songs, "A Berkshire Tragedy" and "King Arthur Had Two Sons" (Brighton); Sullivan's "O Gladness Light" and others.

Canadian composers will be represented by the following compositions: "An Indian Lullaby," Mr. Vogt, conductor of the Mendelssohn Choir of Toronto; "Coronation Ode," Dr. Ham, and Choral Ballad, "The Sands of Dee," Dr. Harris.

The Sheffield Chorus bring with them twelve principals: Miss Emily Beare, Miss Emily Coward (daughter of the conductor, Dr. Coward); Miss Clara North and Miss Kathleen Frankish, soprano; Miss Gertrude Lonsdale and Miss Ada Burton, contralto; Mr. Henry Brerley and Mr. Arthur Burrows, tenors; and Mr. Robert Charlesworth and Mr. William Peacock, bass, with Mr. Frederick Stanton at the piano and Mr. J. W. Phillips as organist. These artists rank high in English musical life.

Among those who will visit Canada with the choir are the Lord Bishop of Sheffield, E. Willoughby Firth, president of the Sheffield Choir and Director of the great firm of Thomas Firth & Sons; the Lord Mayor of Sheffield, H. P. Marsh, head of the celebrated firm of Marsh, Bros. & Co., Ponds Steel Works; W. S. Bedford, managing director of the firm of C. T. Skelton & Co., Limited, one of the leading manufacturers of spades, shovels, agricultural and mining tools in the old country; Edgar T. Woodhead, one of England's greatest educational experts; H. W. Bedford, master cutler and head of the Bedford cutlery firm; J. H. Lawson, member of firm of Thomas S. Sneath, iron merchant.

AT THE THEATRES

At the Princess.
The actors in Ziegfeld's musical revue, as F. Ziegfeld, Jr., sub-titles his huge theatrical enterprise, "Follies of 1907," are various and picturesque, incorporating as they do every character of importance in the American social, political and financial world which the lay mind may or may not have a secret desire of beholding either in his own skin or by proxy. Such men as Theodore Roosevelt, W. H. Taft, Mark Twain, John D. Rockefeller, Hartman, Caruso, the great tenor, Capt. John Smith, Anthony Comstock, District Attorney James O'Connell, Kaiser Wilhelm, Heinrich Conrad, Andrew Carnegie and others of equal celebrity are represented by proxy in their most conspicuous guises.

The one startling feature of the revue is the poetic dancing of Mlle La Millas, the world's Grecian classic dancer, in a vivid imitation of Maud Allan and her sensation of the English-speaking world "A Vision of Salome." La Millas is only one of many novelties in the performance. Herewith is given a list of the principals who participate in the fun and melody and a few of the choicest musical gems: William J. Montgomery, Florence Moore, Rose Snow, Charles Martus Libby, Nellie Daly, Ermeline Earle, Prava Navarro, Charles and Anna Glocker, James Manley, Irma Croft, Estelle Colbert, Louis Herr, Helen Du Bois, Phil Jaffe, Jack Du Ball, Prince Toki and Fitzsimmons and Gross.

Among the musical numbers are "Peach Blossom," "All Look Alike to Mary," "I Think I Oughtn't to Auto Any More," "I Want to Be a Drummer Boy," "On the Grand Old Sands," "The Gibson Bathing Glee," "Come and Float Me, Freddie," "In the Surf," "The Heart Breaker," "Miss Ginger of Jamaica," "Oh Marie," "Handle Me With Care," "Xixie Dant," and "Bye-Bye, Dear Old Broadway."

At the Grand.
It is something four years now since Charley Grapewin took up the stellar role in "The Awakening of Mr. Pipp," and the announced fact that the present one bids fair to be the greatest in financial returns has yet had, indicates that the many performances he has given of this play have been marked with success, else he would not now be in the position of the top of the list of popular favorites who have won favor in plays of musical flavor. Grapewin and Mr. Pipp are the announced attraction for the Grand next week, opening with a holiday matinee Monday (Labor Day), and neither star nor play needs the aid of fulsome newspaper writers to well know. This season Mr. Grapewin has gathered about him a more than clever company; he has added new and better songs, retaining also the best of the song hits of former years. It is difficult to coin new phrases of encomium for an attraction that has won the best efforts from the most competent critics all up and down the land. Even as good as ever is sufficient to say of it. One thing certain when the final curtain falls on "The Awakening of Mr. Pipp" the play will go down into theatrical history with a record that will have laughter written all over it in bold letters.

CHARLEY GRAPEWIN in "The Awakening of Mr. Pipp" at the Grand.

At the Majestic.
One of the great contemporaries of Daniel O'Connell, the great Irish liberator, said that his greatest power as an orator was his ability to so sway an audience that while at one moment he had them in tears, while picturing the story of his country's wrongs; the next moment he would by some mirth-provoking reference to an objectionable antagonist, have them in roars of laughter. If this estimate of an orator's power be a correct one, it would also seem a just method of showing the worth of a playwright who is supposed to "hold the mirror up to life" in the presentation of mimic nature. That Miss Beulah Poynter has achieved this result in her play "Molly Bawn," which will be the attraction at the Majestic next week, is the verdict of the dramatic critic of The Philadelphia North American, who in recalling the premises of the play said: "If the tears and laughter which quickly followed one another and ending in approving applause as the verdict of the large audience which

At the Star.
The exhibition visitor in visiting Toronto does not seem to be satisfied unless he pays his annual homage to the ever-popular Star Theatre. His latest sensation is called "The Box of Callisto." For many years Immo Fox has been in Europe and in the theatres of the European capitals he has been a welcome sensation. Callisto's Box, as Mr. Fox first displays it, is big enough to hold half a dozen handkerchiefs.

The special extra attraction for the week is Immo Fox, the original comedy conjurer and deceptionsist. His latest sensation is called "The Box of Callisto." For many years Immo Fox has been in Europe and in the theatres of the European capitals he has been a welcome sensation. Callisto's Box, as Mr. Fox first displays it, is big enough to hold half a dozen handkerchiefs.

The ever alert management has been very fortunate in securing the proper booking for the coming week. Miner & Marlon's Dreamland Burlesques are underlined, and the old patron will hail the announcement with a gusto of delight. Light and airy, full of snap and vigor is the theme; the proper place to spend an evening after a strenuous day at the exhibition.

Dave Marlon's name is, and always has been, a guarantee of good faith. Marlon has a style of his own, and his productions in the past have always struck the popular chord. This season he is using a new burlesque, "The Red Moon." The offering is in two acts, and it is full of wit and humor. Of course, the girls are there to make merry and give us a flash of lingerie.

Keeping up-to-date and abreast of the times, the management has imported Miss Louise Rice, the great bare-footed dancer, and Miss Rice will endeavor to show us just how the Salome dance should be done.

The visitor can come to the Star and need not be afraid of extortion, as the prices will remain the same, and the bargain matinees are still in vogue, and one can procure a good seat on the main floor for 25c.

At the Gayety.
With a reputation of being one of the very best burlesque organizations on the road, Louis Robie's Knickerbockers, which will be the attraction of the coming week at the Gayety Theatre, should continue to uphold that reputation. Manager Robie has equipped the company bright and fresh

character songs she presents are capital.

INDIAN BADLY STABBED.
May Result in a Murder Case at Cornwall.
CORNWALL, Sept. 4.—(Special)—Louis Peters, a Cornwall Island Indian, was stabbed here to-day by Mitchell Oak, of the American St. Regis band, but will probably recover, if complications do not set in. The wound is quite large, deep, penetrating the lung, not far from the heart. The men had been drinking and quarrelling on the boat all the way from Prescott, and after they had got ashore here with the returning hop pickers, the fight was resumed. After stabbing Peters, Oak wiped his knife on his coat, and with his mother occupied in a boat. Chief Smyth when he heard of the affair gathered a number of eye-witnesses and took them to County Crown Attorney Dingwall's office. Oak will be brought to Cornwall for trial if arrested. Superintendent James Edwards of the St. Regis band, near Massena, N.Y., across the river from here, was attacked treacherously by an Italian laborer named Garrisella Frana, who slashed him across the face from ear to chin, seven inches, and escaped to the woods.

TRANS-CONTINENTAL TRAMP.
Two Journalists Walking From Quebec to Vancouver.
OTTAWA, Sept. 4.—(Special)—Edward N. Clark and Leo Marchand, two old country journalists, who have undertaken to walk from Quebec to Vancouver, arrived in Ottawa from Montreal last night. They had good time between Montreal and the capital, covering an average of over thirty-six miles for five and a half days.

Scene From "Molly Bawn," the Pretty Irish Drama Coming to Majestic.
The opening skit is called "The Joy of Living," a fantasy in one act, introducing the full strength of the company. The scene is laid at West Baden, and abundant opportunities are given for fast but harmless fun.

The afterpiece, or principal burlesque, is a French comedy sketch, the scenes being laid in Paris. It is entitled "Le Cafe Boulevard," and is the work of Edwin Hanford, who is the author also of "The Joy of Living." Miss Darvory plays the part of chief chanteuse. The musical numbers of both pieces are catchy and a tuneful. All of the olio features are new and bright. The specialty artists include Manning and Dixon, for the first time in burlesque, presenting a laughable novelty called "A Smash-up in Chinatown"; the California Trio, two women and one man, all clever instrumentalists; Alice Cheslyn, in a high-class comedy and singing act; Flo Elliott and Ben Neff, character comedians and singers; and Morton, Temple and Morton, expert dancers. The usual matinees will be given.

At Shea's.
The headline act at Shea's Theatre next week is May Boley in an original musical monologue. This will be Miss Boley's first appearance alone at Shea's. She is well remembered as the head of May Boley and Her Polly Girls, and the success of the dainty little musical comedy favorite since she has been appearing alone has been pronounced. She has a charming personality and

FISHERMEN'S REQUEST.
Want Better Facilities for Transport of Fish.
HALIFAX, N.S., Sept. 4.—(Special)—At the annual meeting of the Fishermen's Union for Nova Scotia to-day, resolutions were passed asking the federal and provincial governments to provide better transportation facilities along the coast for fish products, and to pay a bounty of one cent a piece for dog fish, to help remove a nuisance and protect inshore and offshore fishing grounds.

Who Will Get This Bargain?
Admirers of the genuine Chickering piano can secure one at a great bargain by visiting Bell Piano warehouses, 146 Yonge-street. The instrument is not quite new, having been used in the home of a prominent citizen, where it had the most careful treatment. The piano was taken as part payment on an Autoluna player piano, and you can have this beautiful Chickering piano for two hundred and sixty-nine dollars, less than a third of its cost. Take a look at it at Bell Piano warehouses, 146 Yonge-street.

IN AIR A MINUTE.
WASHINGTON, Sept. 4.—Orville Wright made a flight in his aeroplane over Fort Myer, Va., this evening. While making the second circle of the drill grounds, Mr. Wright pulled the lever which controls the planes in the wrong direction and he was compelled to descend in order to avoid running into some wires. The aeroplane was in the air for one minute and fifteen seconds.

PUTNAM'S PAINLESS CORN EXTRACTOR

Market Buoyancy Only Reflection of Camp's Optimism

Buying Orders for Cobalt Exceed Those for Sales

Another Big Day on Mining Exchanges With Further Advances in Securities.

World Office, Friday Evening, Sept. 4. Investment and speculation broadened out further at the mining exchange to-day and the local markets closed up with a snap greater than has been seen at any time since the movement in Cobalts started. Crown Reserve topped the dealings at the local exchange and many of the orders for these shares came from outside points. La Rose was heavily bought from here, but most of this business was transacted on the New York Curb, where 25,000 shares of the stock changed hands. Temiskaming was in excellent demand all day, but profit taking held the price in check. The new find on Temiskaming caused an all round enquiry for Beaver, but these shares are not at present on the market and no transactions were reported. The Beaver adjoining the Temiskaming and the veins from this property are said to have been traced into the Beaver. Several of the minor stocks were in demand, but sentiment here is all round bullish tinge and purchasers had to pay higher prices. Brokers reported a difficulty in filling buying orders for most stocks as clients' orders were put at certain prices, and those seeking to retard advances kept bids slightly above these figures offered in order to hold the volume of trading down. The market closed exceedingly buoyant, with buying orders much in excess of those for sale.

ENQUIRY FOR BEAVER.

Doing on Property Next to Temiskaming Are Kept Secret.

The new find on Temiskaming is having a big influence on sentiment in regard to Beaver stock. Development on the Beaver has been proceeding in a methodical manner for over two years and very little information has been given out as to the workings. It is understood that the main shaft is now down 200 feet, and all that is announced is that several good veins have been struck on the way down. But the important point with local mining men is the knowledge that the big vein on Temiskaming and the ore found this week both lead on to the Beaver, which is immediately adjacent. Numerous enquiries were made for Beaver stock around the street yesterday, but none was on offer.

LA ROSE TO PASS NIP.

Brokers Lay Wagers on Expected La Rose Advance.

Frequent bets of varying amounts were made among mining men yesterday that La Rose will cross the price of Nipissing inside of 90 days. One broker, whose enthusiasm for La Rose has been marked since the stock was first put on the market, went as far as to wager even money that La Rose would sell higher than Nipissing before Oct. 10th next. This broker says that a dividend will be declared by the company before that time and the wide demand for the shares is bound to produce an early and rapid advance in the price.

BODYUANCY A REFLECTION OF CAMP'S ENTHUSIASM

New Discoveries on Old Claims and Rich Finds on New Are Daily Occurrences.

COBALT, Sept. 3.—(From the Man on the Spot).—The buoyancy of the past few days in Cobalt stocks is only a weak reflection of the optimism and enthusiasm that abound in and around Cobalt camp.

New discoveries on the old properties and rich finds in new areas are of daily, almost hourly, occurrence. La Rose shipped 22 cars, or 645 tons, in the month of August. This means a silver production of 278,570 ounces worth, \$123,255. The month's production amounted to 628 tons, 277,138 ounces of silver, worth \$124,905, mined at a cost of \$100,000, a net profit of \$124,905, and it is by reason of this great mine's ability to continue and increase this record that La Rose dividends are assured for years to come.

The shipments last week included two tons from the Princess. Eighty-two hundred ounces of silver were taken out of the two tons. Valuable diamond. The Princess is bound to make a most valuable adjunct to the group known as La Rose Consolidated. The main vein here was found at a depth of 70 feet and carried 2000 ounces of silver to the ton. Last week this vein widened to four inches. In the La Rose vein a new vein was encountered this week, cutting at right-angles the No. 1 vein. It is 2 1/2 inches wide, and carries 4000 ounces of silver to the ton. Drifting will be started at once on the new vein; 12 men are employed here.

At the Big La Rose mine work is being pushed forward. Two strings were encountered in the crosscut that is being run from the main shaft to the Macdonald vein. Each showed cobalt and silver values. Rich ore is being taken out of the slope in the Macdonald vein. Two veins have been found in the Old Discovery shaft that carry good values. They are about 60 feet apart and are being worked below from the main shaft.

On the second or intermediate level, north of the main shaft, some rich nicolite ore is found in the drift running off from the winze. It averages eight inches in width and carries from 3000 to 5000 ounces of silver to the ton. It is in this end of the workings that the nicolite is rich in silver. The vein No. 10 tunnel has been worked since Aug. 11 and 50 sacks of high-grade ore and 13 or 20 tons of screenings have been taken out at that length of time. The screenings carry 350 ounces of silver to the ton. Rich ore is coming out from the shaft. The vein is 10 inches wide and carries 1000 ounces of silver per ton. This vein runs to the 300-foot level from 3 to 12 inches in width and has an average width of eight inches. Over half a million dollars has already been taken out of the vein and only been started from a mining stand-point.

La Rose has already shipped this week 22 cars of high-grade, one 32-ton car of second-grade and other 30-ton car is ready. Ten tons of cobalt ore were shipped from the University mine last month, worth \$1200. Will See Great Mine. The Boston and New York curb brokers are beginning to buy on Sunday to see the La Rose will see a great mine. Temiskaming is another great Cobalt mine and the discovery of a new vein in the new shaft at a depth of 70 feet, which is reported at the time of writing, has created great excitement in Cobalt camp. The width is variously reported as from one to two and a half feet. There is a possibility that it is an extension of their main vein, which is a bonanza at a depth of 250 feet. The prospectors are beginning to come down the river and some wonderful discoveries are reported in the Miller, Mineral and Gowanda Lake districts. The Bonanza this year among the best and a sale has been made of a one-sixth interest in those lots for \$15,000 of real money. Mr. Bonnell is a general prospector who has done good work in this district. Associated with him are several Cobalters, and the proven value of their claims has given great satisfaction.

Prospectors Return. Then west of the Bonnell lots Mann Bros. have staked some claims, and from one of them a vein of silver samples have been brought down. The vein was found in the face of a bluff and was traced up over the top of the hill. It is a vein of silver, 2 to 4 inches and in a few hours seven sacks of pure silver were taken out, all the gangue having leached away, leaving the pure silver. Russell Cryderman has several adjoining claims, on every one of which valuable discoveries have been made. He has also traced an iron deposit for 1200 feet, which has a varying width of from 50 to 800 feet. The ore runs 50 per cent iron. Mr. Cryderman returns to his property next week, with a gang of men to thoroughly explore this iron belt. John Moore is in charge of the development work on the five claims. The Gates, Bonnell, Blackburn, Dr. Barlow, Mann and Cryderman are the more important of the new properties. There has been a rush in following the silver discoveries, and the entire country will soon be staked. Frank Burr Mosure.

COBALT BENEFITED.

Low Silver Prices Close Down Many Mining Properties. Theos. Nevins & Son, in their weekly letter, say: The development work in the Cobalt has progressed more satisfactorily during the present season than during any other open season in the history of the camp. The result is that the list of producing companies has been almost doubled while most of the new properties are expected to appear shortly. There are already more dividend-payers in Cobalt than in any other silver camp. Cobalt has benefited rather than suffered from silver's low market

WRECK NEAR TRENTON. Half Dozen Cars Destroyed and Many Damaged. TRENTON, Sept. 4.—A whole carload of horsehoes were not enough to save a Grand Trunk freight train from being wrecked near here at 2 o'clock this morning. Eight cars were derailed, and of these three were badly smashed and totally destroyed by fire. The wrecked train was a west-bound freight of some forty-five cars, loaded with various merchandise. The mishap occurred just east of the Trenton station. As the train neared Trenton, traveling at a high speed, a split rail caused about seventeen cars to leave the track, several of which went over the north embankment, and immediately caught fire and were soon consumed.

The Canada North-West Land Company (Limited) (INCORPORATED IN CANADA) RETURN OF COMMON STOCK CAPITAL. Notice is hereby given that in conformity with the Company's Act and under authority of a resolution of the Directors, a pari passu return of \$4.00 per share of the Capital of the Company outstanding on or after the fifteenth day of October, 1908, will be paid to the holders of such shares of record on the closing of the books at the close of business on the 31st day of August, 1908, upon the presentation for endorsement of their certificates of such Common Stock.

ENGINEER SCALDED. Locomotive Blows Out a Tube at Smith's Falls. OTTAWA, Sept. 4.—(Special).—The Transcontinental train service is demoralized completely as a result of the strike and washouts in the belt this morning. Engine failures are becoming more frequent. Faulty boiler work was the cause of engine No. 1681 blowing out a tube this morning at Smith's Falls and severely scalding Engineer Dunk McLean, who jumped along with the fireman, said James Somerville to-night.

WORLD'S NEW BUILDING. The World Newspaper Company have been granted a permit to erect a building on the north side of Richmond street, to the west of the Simpson building. Exhibition Visitors. You can learn to dance a Water, two-step and three-step before going home if you give one hour of your time. Prof. J. P. Davis, corner Wilton and Mutual-street, Church-street cars.

APHYLIATED. Samuel Foster, aged 46, a furnace repairer, boarding at 16 Mutual-street, was accidentally asphyxiated in his room during Thursday night. He was intoxicated when he retired. Gas had been in the room on the house on Saturday last, and Foster had asked to have his jet fixed for use.

CANADA PERMANENT MORTGAGE CORPORATION

NEW YORK CLOSES STRONG BEFORE THE HOLIDAYS

Wall Street Given Another Upward Movement—Toronto Market Dull But Somewhat Imitative.

World Office, Friday Evening, Sept. 4. Mackay was quite easily obtainable at New York to-day at a point...

Wall Street Eastern. Stock Exchanges close 3 p.m. to-day, not to reopen until Tuesday morning.

President Shagnessy of Canadian Pacific states there will be no immediate issue of \$50,000,000 new stock to be authorized by shareholders at annual meeting.

The Herald says its interests identified with property asset in financial plan in fight for Southern Pacific, but development program may call for raising \$50,000,000 next year.

Steel car building companies are expected within a week to close orders for 12,000 cars, and the Pullman shops, it is reported, will be rebuilt on large scale for manufacture of steel palace cars.

Joseph says: Corn promises to yield 2,625,000,000 bushels. Money is a drug. There is decided improvement in the steel trade. Beans average long beans.

If substantial support is not extended to leading active issues, sharp closing prices may be expected. There may be witnessed some sharp breaks in the stock market to-day.

Earnings for the fourth week of August made public to-day by different railroads compared with those for the month and for the two months of the fiscal year, and with figures for the same period a year ago, show that relatively the railroads are just about holding their own.

There seemed to be an enquiry for the steel stocks, especially the preferred, and some bullish developments are expected. London sold moderately in this market to-day, probably even slightly reflected in financial circles.

Domestic Failures. Dun's Mercantile Agency reports the number of failures in the Dominion during the past week, in provinces, as compared with those of previous weeks, and corresponding week of last year, as follows:

Table with columns for Province (Ont., Que., N.B., P.E.I., B.C., Total) and Failures (Sept. 4, Aug. 27, Aug. 20, Aug. 13, Aug. 6, July 31, July 24, July 17).

The withdrawal of aggressive support by leading inside interests has placed the market temporarily in the hands of the professionals, who are for the most part bearish.

Foreign Exchange. Glazebrook & Cronyn, James Building.

Save Something Weekly. The Sterling Bank of Canada. HEAD OFFICE: Corner King and Bay Streets.

(Tel. Main 7317), to-day report exchange rates as follows: Between Banks. Buyers, Sellers, Counter.

Price of Silver. Bar silver in London, 23 1/2 per oz. Bar silver in New York, 23 1/2 per oz. Mexican dollars, 45c.

Money Markets. Bank of England discount rate, 2 1/2 per cent. London open market rate, 1/2 to 3/4 per cent. Short and three months' bills, 1 1/4 to 1 1/2 per cent. New York call money, highest 1/2 per cent, lowest 1 per cent, last loan 1 1/4 per cent. Call money at Toronto, 5 to 6 per cent.

Toronto Stocks. Bell Telephone, Can. Gen. Elec., Can. Dairy, etc.

We shall be pleased to furnish on application particulars of our list of attractive issues now on our list, to yield from 7 to 12 per cent.

DOMINION SECURITIES CORPORATION LIMITED. 26 KING STREET TORONTO.

EDWARD CRONYN & CO. Members of Toronto Stock Exchange. Safe Investments Recommended.

of railroad earnings also are not such as to encourage outside buying of the common stocks, especially on top of such a rise as the market has had.

The fact that the activity in the market has been confined to so few issues is pointed out as proving that it has been manipulated rather than outside buying that has caused the rise in the leading stocks.

The Boston and Maine management has already decided to replace the seven per cent. dividend on a six per cent. basis. The leading stocks, like Southern Pacific, Union Pacific and Reading, may be bought for turns in the event of any sharp break of a point or so, but otherwise we would prefer to look on for a time.

Usual Dividend on Coal. The Dominion Coal Company declared the regular quarterly dividend of 1 per cent. on its common stock, payable Oct. 1.

On Wall Street. Marshall, Spader & Co. wired J. G. Beatty, 14 West King-street, as follows: That feature of the market which has all along been the most prominent, namely, the light supply of stocks on the decline, is again very noticeable to-day.

The crop news was favorable in the main, the dry weather is needed in the western country. The week's movement of money, showing a loss in cash held by the banks in excess of \$1,000,000 on Friday, is the first evidence of demand for funds for crop-moving purposes in any volume, and slightly reflected in financial circles.

There are signs of uneasiness in Paris over the Morocco affair, which is being slightly reflected in the immediate circles, but apart from some stringency in Japan and Brazil, there is no promise of a change in the world's money markets.

American stocks showed considerable firmness, especially in the industrial, and British public having evidently come to the conclusion that there will be very little disturbance in the future of industrial conditions, and that the great corporations will have an indefinite season of recuperation from government attacks which they have been strengthened by the Vermont election. All American securities have shown strength throughout the week.

There seemed to be an enquiry for the steel stocks, especially the preferred, and some bullish developments are expected. London sold moderately in this market to-day, probably even slightly reflected in financial circles.

Domestic Failures. Dun's Mercantile Agency reports the number of failures in the Dominion during the past week, in provinces, as compared with those of previous weeks, and corresponding week of last year, as follows:

Table with columns for Province (Ont., Que., N.B., P.E.I., B.C., Total) and Failures (Sept. 4, Aug. 27, Aug. 20, Aug. 13, Aug. 6, July 31, July 24, July 17).

The withdrawal of aggressive support by leading inside interests has placed the market temporarily in the hands of the professionals, who are for the most part bearish.

BEVERAGES AT THE FAIR NEARLY NON-ALCOHOLIC

Object of the Brewers is to Eliminate Intoxicant as Much as Possible.

Some of the brewers who have light temperance drinks on sale at the exhibition object to the statement that they are brewing a special brand of beer that comes pretty close to the intoxicating article, to sell which a license must be obtained.

is an intoxicating drink, and a license is required for the sale of it.

The Star beer produced by the O'Keefe Company and sold at their exhibit in the manufacturers' building, contains less than one and a quarter per cent. of alcohol.

It has been the aim of this company, said Vice-President Hawke to the Toronto, not to get as close to the provisions of the act as possible, but to produce a beverage containing the least possible percentage of alcohol.

CANADA'S MOST FAMOUS AND POPULAR BEVERAGE. HOLLIDAY'S NOTED NUT-BROWN EAST KENT ALE. IT is invigorating and has been highly recommended as a help to invalids. IT has the "Hoppy" flavor and is brewed in the Good Old English way. ALWAYS PURE.

here the tax rate within the next ten years if annexation does not materialize. This is probably a high estimate, but the tendency is all upward, and with the unsatisfactory condition of the pumping plant and other causes, annexation to the city is now regarded as the only logical course.

ELLESMEERE. A Memorable Event Was the Barn Burning at Billy Munro's.

ELLESMEERE, Sept. 4.—The annual dance of the Heather Football Club, Agincourt, was held last night in the fine new barn of William Munro "Burnside Farm," one mile west of the village.

DOVERCOURT. So Rapid is Growth That Three-Year-Old Church is Now Too Small.

DOVERCOURT, Sept. 4.—John Wanless, Jr., representing Dovercourt Presbyterian Church, has received permission from the presbytery to borrow for the purchase of a new church property.

POPULAR OFFICIAL PASSES AWAY. County Engineer McDougall Dies After Lingering Illness.

The death of James McDougall, C.E., one of the best-known and respected residents of this city, took place at his late residence, 123 McKensie-crescent, at a late hour on Tuesday night.

Deceased had been for more than 15 years actively associated with the engineering department of York County in an advisory and constructive capacity and many of the finest bridges in this county were built under his immediate supervision.

The late Mr. McDougall was the youngest son of William McDougall of Cobourg and after passing through the public and high schools of his native town attended Toronto University, from which he graduated in 1880 with honors.

A man of fine executive ability, unimpeachable integrity and withal of a kindly and courteous nature, he was for years the loved and trusted friend and official adviser of the C.P.R. in construction work.

He is survived by a brother, George, in Chicago, and David in Bowmanville.

Among those present were: George S. Henry, W. J. Hill, Ex-Controller of the City, and George High, Fisher, T. Scott and Robert Johnston.

FIRST STEP TOWARDS UNION. Looks Much as If It Would Forestall the Railway Board.

The city engineer has recommended that the request of the York Township Council be allowed to connect township drains on certain streets with the city sewerage system.

The tariff report will be considered on Wednesday afternoon, Sept. 16, and the nominations for officers be received. The election of officers will take place on Thursday morning, Sept. 17.

County Criminal Court List. Four cases come up before Judge Morson, sitting in criminal court, this morning.

Two Barns Burned. A disastrous fire occurred at the farm of Mr. Farris, about three miles from here to-day at a threshing, when a spark from the engine set fire to the barn containing all this season's crop.
