Laurier and Foster Clash In an Exciting Half Hour Tim Retraction is Made

Member for North Toronto's Allusion to Premier Sharing in Party Spoils Draws Retort That, by Inference, is Deemed Offensive.

MR. SPEAKER HEDGES ON ENFORCING RULES

House of Commons, Saturday—At 2 p.m. it looks like an all night struggle. Both sides are anxious no fight is out.

OTTAWA, April 2.—(Special)—For half an hour to-night there was bedlam let loose in the house of commons.

It was the most exciting scene in years, with Sir Wilfrid Laurier and Mr. Foster trying to get a hearing simultaneously amid a perfect uproar of cheers and counter cheers, the opposing belligerents shaking their fists across the floor and the partisans of each yelling and jeering till the voice of even Mr. Speaker could not be heard above the din.

In the end Mr. Foster got his way, and the prime minister withdrew an uncomplimentary remark, observing that, after all, he is the man who must set the example, and Mr. Speaker hastily declined to order Sir Wilfrid to make a retraction.

Mr. Foster started the fireworks in the afternoon, when, continuing the debate on Judge Doherty's resolution to investigate the spending departments of the government a la marine enquiry, he reported that "What is the government going to do with men who took the people's money? Didn't Justice Casels tell the government that the men who bribe are more culpable than the men who accept bribes?"

Judge Casels reported that Holliday had \$6000 of the people's money. Will the government prosecute him, or Drouet, who was found to have \$6000, and who was given his rake-off, in order to get that money back? The government doesn't seem to be getting on much of a justice about it. What are the greatest minister of justice that has been and the talented solicitor-general doing in this matter?

"Is it because Sir Wilfrid had got his share of the money for party advantage? If not, why is he so modest, he who is the trustee of the people's rights?" Sir Wilfrid had just begun at the evening session his reply. His first words were in the way of a compliment to Judge Doherty of Montreal, who, he said, had presented the issue in "this able and dignified style," but he could not say the same of Mr. Foster, who had "shown us the narrow side of his nature in all its naked deformity."

The Explosion. He had never heard of a man who would suggest to him that he had profited by wrongdoing. (Loud cheers and counter cheers.) No man was so ready as Mr. Foster to make insinuations.

"Let me say," continued the prime minister, "that I never manipulated other people's money and that I never manipulated trust funds."

This brought a tremendous outburst of applause from the government benches, and Mr. Foster to his feet. "The rules of order demand that no man should say an offensive thing of another," he said. "My honorable friend commenced by putting a statement in my mouth which I never made, in anger he refused to allow me to correct him. He preferred to make an argument from a false statement rather than take the true statement."

"Did you share in the funds?" asked Col. Talbot. "Let him get upon any platform in this country and make that statement and I will shout Mr. Foster out," Mr. Foster, who remained standing amid cries of "Order" from every side, with Mr. Casels and Dr. Clark making frantic efforts to rule on the point. Foster stood firm as a rock, while more than half the house tried to hoot him down. Mr. Speaker two or three times endeavored to rule on the point of order, but the North Toronto man insisted that he should state the rule, which was to the effect that "no member shall be allowed to say any disagreeable thing of another."

Hurled Back. "The right hon. gentleman," he went on, "insinuates that I manipulated trust funds. I throw back the insinuation in his teeth. For a full minute his subsequent remarks could not be heard, but he stood shaking his fist across the floor of the house in the direction of the prime minister, while Sir Wilfrid Laurier and Mr. Speaker alike tried to get a hearing."

Sir Wilfrid broke in before Mr. Speaker had the opportunity to give his ruling on the point raised by Mr. Foster. Mr. Foster had said that no member should be allowed to say anything disagreeable of another. Was Mr. Speaker willing to be judged by that standard?

"Order," cried the opposition, and Mr. Speaker calmed the excited house. He appealed to both sides. He did not think there was any point in order. "The point is," declared Mr. Foster, "that the prime minister made the insinuation that I manipulated trust funds. I demand a retraction."

Sir Wilfrid sprang to his feet, but Mr. Foster held the floor and declined to make any way to retract that statement. He is anxious to make the rules, in common decency, he asserted.

And a cry of "Let the prime minister take his medicine," and "Take it

One Thousand Agents Will Lose Their Jobs

NEW YORK, April 2.—As the result of the limitation placed upon new business of life insurance companies by the insurance law, the New York Life Insurance Company, which is announced to-day, will on May 31 discharge 1000 of its agents in various parts of the country.

The dismissal order will affect agents who devote only a part of their time to the company. Edward R. Perkins, second vice-president of the New York Life Insurance Company, said to-night that in the last two years more than 5000 life insurance agents have lost their positions.

"Three years ago we had forty-six offices in this city; now we have only ten," he said.

CONCOCTED WIERD YARNS TO COVER UP THEFTS

Montreal Girl Confesses That Sensational "Attacks" on Herself Were Faked.

MONTREAL, April 2.—(Special)—Corinne D'Amour, the cashier who reported the other evening that she had been kidnapped and robbed, and also, in February last, that she had been knocked senseless and robbed, confessed this afternoon to Detective Carpenter that the two stories were a falsehood invented by herself to cover up the crime of robbing her employers out of cash to the amount of about \$150, more or less.

Miss D'Amour, who is very well connected, and of a very delicate and somewhat nervous temperament, held out all right before the questions of a dozen newspaper men, but when taken before the chief detective she wilted. When once she reached this state of mind the poor girl appeared to be much relieved and went to work to relate her strange story with all the sang froid imaginable. She said she had had a mania for expensive candies and for theatre-going, and as she generally treated a girl friend the bills began to exceed her weekly income. Her employer will not prosecute.

RAIN THREATENS WHAT TO INVEST IN MISSION CAUSE

Showery Weather Is Likely—Longboat Rules Favorite in Greatest of Running Events.

The Odds.

Longboat 8-5
Dorando 2 1/2-1
Maloney 2 1/2-1
Shrubb 3-1
St. Yves 3-1
Hayes 5-1

NEW YORK, April 2.—(Special)—Who will win the Marathon Derby? is the topic of conversation among the local sports on the street to-night, and with six such classy competitors entered the picking of the winner is by no means an easy one.

By good luck The World man ran face to face with Tom Longboat and his manager, Tim O'Rourke, five minutes after hitting dear old Broadway to-night, and in the course of the next half hour he met Hayes' manager and Copeland, manager for St. Yves, the French champion. The former was not saying anything about the race, but the latter was very jubilant, as he thinks his light Frenchman will cop the bacon to-morrow.

Tim O'Rourke also thinks St. Yves is a dangerous man, but still relies on the old reliable Oronodaga Indian. According to Tim Longboat has trained faithfully, but is still about five days short of being right. This, however, is not to be taken as a sign that the Indian beats Dorando, this making three hundred in all, not five hundred as reported in one of the Toronto papers yesterday, and one bet of fifty was made to-night.

Alfie Shrubb, while under the same old flag as Tommy, has bet that Dorando beats Longboat, which would lead one to believe that Dorando and Shrubb will work together.

A slight rain which began at 4 this afternoon and continued till 10 has caused a heavy plunge on Maloney, who has been backing him hard from 4 o'clock, the result being the odds reduced from 7 to 2 1-2 to 1. A record crowd is promised for to-morrow, the advance sale being now forty thousand dollars. The track promises to be fairly fast, the rain this afternoon not hurting it to any extent, altho threatening weather still prevails.

Weatherman Is Hopeful.

NEW YORK, April 2.—Thousands of persons to-night gave a sigh as they noted a light rainfall. The sigh brought forth the probability that the international Marathon Derby, an event which outclasses all professional running events ever held in this country, might be postponed if the rain became heavy and prolonged.

The local forecaster somewhat dis-

THE GERM OF TWO CENTS A MILE.

The third-class car now running on the Grand Trunk, between Toronto and Montreal, is the germ movement towards getting a universal two-cent-a-mile rate in Canada. But the way to make it go is for the people to be loyal to the third-class car now running. Persevere in riding in it, so that the company will be forced to put on more cars or allow of an overflow into better cars. Keep demanding a two-cent ticket, and use it, no matter the kind of car. Glory in the fight.

The Grand Trunk will have to put this third-class car on the trains that will be most convenient for the public, and the Railway Commission will be the judge of this. That's the next move.

Finally, remember this: That while ordinary Canadians have to travel in a hard-seated car, offensively labelled THIRD-CLASS, AMERICANS ARE RIDING ALL OVER THE MAIN LINES OF THE GRAND TRUNK AND CANADIAN PACIFIC ON THEIR FAST EXPRESS TRAINS IN FIRST-CLASS COACHES AT TWO-CENTS A MILE! This rank injustice to Canadians will force the issue: an issue which can have only one ending.

And yet at this moment Canada is the only country that allows its railroads to discriminate against its own citizens! And our so-called parliament has not three men of spunk to resent this injustice. They travel free in the sleepers! What do they care? And they are going to vote a ten million loan to the Grand Trunk Pacific.

Nevertheless, the people will win in spite of the men in parliament who are afraid to make a fight for fair treatment to their own countrymen.

Of all the badges of servitude, that of "THIRD CLASS" now on the Grand Trunk is the most contemptible ever attempted in this country.

But in the meantime, glory in the badge and ride in the penny-a-mile cars. Shame Mr. Hayes into decent treatment, even if parliament is too spineless to resent the insult to Canadians, the glorification of Americans.

Simpson Co. Will Occupy The Rea Store

To Be in Possession on Monday—Consideration is About \$100,000—Rea to Go Up Street.

To-night A. E. Rea & Company, fancy dry goods and millinery, vacated their handsome Yonge-street store in the middle of the great Simpson block, and on Monday morning the Simpson Company will be in possession.

Negotiations were concluded yesterday and it is understood the consideration is in the neighborhood of \$100,000 for the three-story building and the lease of 28 years.

The Rea Company, which secured the property on lease from John Wainman last fall, will also have a profit of over \$50,000 on their investment.

The company will establish in new premises, double the size, in another location on Yonge-street.

Another Yonge-street property deal closed yesterday was the sale of premises 268-266, occupied by Joseph Dean, birds, and Alf. Jury, tailor, to Alf. Britnell, the bookseller, for \$42,000. There is a frontage of 25 feet. Mrs. Jacques and Miss Jones owned the property.

FELL 90 FEET, WILL LIVE

Mrs. Hever of Brownville Lost Nerve When Overtaken by Train on Bridge.

ST. THOMAS, April 2.—Altho she sustained a fall of ninety feet, Mrs. Hever of Brownville, recently no apparently worse injury than a fractured jaw.

Mrs. Hever has been visiting a relative, Mrs. D. Smith, and the two ladies started to-night about 8 o'clock to cross the Pere Marquette Railway bridge near Alma College. The bridge is not open to the public and there is a space of only two feet between the tracks and the edge, which is protected by any railing. While they were on the bridge a train overtook them and they were compelled to take refuge in the narrow margin of safety at the side.

The roar of the train unnerved Mrs. Hever, she fell to the ground, all 90 feet below. Fortunately she broke the descent by clutching at a rope. At Amasa Wood hospital, where she was taken, her recovery is expected.

RIOTING IN CAIRO

Troops Called Out to Disperse Mobs Icted by Students.

CAIRO, Egypt, April 2.—The new press law promulgated last week that provides penalty for the spreading of false news or for incitement against the public order, was followed yesterday by rioting demonstrations in the streets of Cairo by a large body of students. Lancers and mounted policemen had to be called out to disperse the mob, which numbered several thousand persons. The troops charged several times and fire was finally to be brought into play to rout the demonstrators. The garrison has been placed under arms and ball cartridges have been served.

PLAN TO PROLONG THE LIVES OF INSURED

Suggestion Is Made That Insurance Companies Have "Risks" Inspected by Physicians Every Few Years.

NEW YORK, April 2.—(Special)—Saying it would be possible to add five, ten or more years to the average lives of policyholders by having them examined medically every five years, Dr. Burnside Foster, editor of The St. Paul (Minn.) Medical Journal, this afternoon before the Association of Life Insurance Presidents, urged the advisability of life insurance companies adopting such a plan.

The suggestion will be considered by the association's life extension committee, which is already busy with the proposal of Prof. Irving Fisher of Yale University, to have the life insurance companies expend money in a campaign of health education.

Dr. Foster claims that the medical examinations he proposes would indicate the beginning of unsuspected diseases, which would thus be discovered in time to effect cures, or to have their progress materially arrested. Such examinations would be free to policyholders and Dr. Foster said that the expense to the companies would be trivial.

"Modern medicine has, above all, two chief aims, the prevention of disease and the recognition of its earliest signs in the individual," said Dr. Foster in to-day's address. "In both of these aims the business of life insurance has an immense interest, since the nearer we approach to their accomplishment the more we add to human longevity."

Prof. Fisher's recent plea for concerted action on the part of life insurance companies to lend their financial aid to the cause of preventive medicine is one which meets with my hearty sympathy and approval.

At Resumable Questions. "Preventive medicine becomes more nearly an exact science all the time, and we are now in a position to prevent, being realized, this is not because of its own inexactness or shortcomings, but because the people have not yet awakened to the fact that the diseases which cause the greatest number of deaths and the greatest amount of suffering are actually preventable, if money enough is spent to prevent them."

"The only way to enlist all the people actively in the crusade against preventable disease is to present a subject as an economic one, which it surely is, and one which appeals directly to their pocketbooks. I am glad that life insurance companies are beginning to be interested in it from this point of view. Its study will prove profitable to them and will afford a most valuable object lesson to the people."

"As far as their policyholders are concerned, life insurance companies have two chief objects in view: First, that every policyholder should be insured; and second, that he shall live as long and pay as many annual premiums as possible. These two conditions are of great importance to the policyholders themselves, because a low death rate means a small cost of insurance and also because nearly everyone wants to live as long as possible. All life insurance companies are careful, some more so than others, to see that their risks are carefully selected, and on the whole I believe that the medical examinations for life insurance in this country are rigorous and honestly made, and that the great majority of accepted applicants are sound at the time their policies are issued. This, of course, is all that should be, but so far as I know, no effort is made by any life insurance company to keep in touch with the physical condition of its policyholders after their policies are issued."

Could Be Forestalled. "Many persons die of kidney disease, of tuberculosis, of cancer, of diabetes, of heart disease and of other diseases every year, and many millions of dollars are paid by the life insurance companies which have issued policies on the lives of these persons, who were sound when the policies were issued and who might have lived much longer had they not been afflicted with these diseases. The early signs of these diseases, if recognized and properly treated in their earliest stages, are the very diseases which frequently are not recognized, and in many cases, the early signs of these diseases before the individual suspects that any evidence of disease is present, and that life insurance companies would save large amounts of money which they now pay to death losses, by inaugurating a plan of systematic re-examination of all their policyholders at regular intervals, say every five years. This, of course, could not be made compulsory on all policyholders, but I believe that the boys' majority, if the reasons for the examination were explained to them, would be very glad to report to the medical examiner at a specified time and submit to the necessary examination."

CITY'S SEPTIC TANKS INFRINGE A PATENT

Legal Firm Says Claim Will Be Made—A Discovery in the Kinrade Case—Notes.

HAMILTON, April 2.—(Special).—A legal firm made a claim to the severest committee this evening that the city installing septic tanks for the annex disposal works had infringed on a patent.

George Martin, the Indian, who fled from Methodist ministers, was sent down for nine months this morning. Edith Zimmerman, a simple-minded girl, was sent to the Mercer Reformatory for six months.

Discover a Bullet. The police while searching in the yard of a vacant house east of the Kinrade home, found a loaded .32 calibre cartridge, which is the kind used by the murderer of Edith Kinrade.

Next June, at the end of the conference year, the following changes will be made in the pastorate of the Hamilton churches: Rev. R. Whiting, Centenary Church, will go to First Church, London, and will be succeeded by Rev. J. V. Smith, Toronto.

The board of works is seeking to interest the business men of the city in a scheme to make a brilliant illumination by means of fancy electric lamps on James and King streets.

The congregation of St. Matthew's Church will endeavor to raise enough money to pay the increase from \$1000 to \$1500 voted at the last vestry meeting to their pastor, Rev. H. Britten.

On the evening of Easter Sunday the wardens of Christ Church Cathedral will ask for a collection of \$2500 to pay off the remaining debt on the church.

Patrick Mulvane, a molder, charged with threatening to "knock the block off" a non-union molder working at the foundry of Burrow, Stewart & Co., was allowed out on \$200 bail this morning.

It is stated that A. Zimmerman, who recently purchased the Lindaberry farm at Spencerville, Ontario, has been found to have hidden in the house many years ago. He has declined to divulge the amount of his find.

UNREST IN INDIA NEED CAUSE NO ALARM

Sir Andrew Fraser Heard in an Eloquent Address on the Real Conditions Existing There.

Sir Andrew Fraser, K.C.S.I., is by all odds the biggest man that the missionary congress has brought to Toronto.

India is a country with the capacity for development and greatness and this great Scot has many of the qualities that have ranked Nicholson and Lawrence and Roberts among the greatest of the British Empire.

The unrest in India was very limited, he said. He had already declared that he had no idea it was so serious as it was reported to be in London. Although he has deprecated the alarm entertained in some quarters concerning the stability of British rule, the unrest in India is not so serious as it is reported to be.

It was reasonable and the government was dealing with it in a sympathetic and polished way of the complete and had received from Chairman John Mackay, and told the story of the Yankee running down the pier to catch a steamer, leaving the few feet of interval and landing on the slippery deck, falling full length on his back.

He had been brought into close contact with native gentlemen of the first. At Jubbulpore he met Khan Bahadur Anand Hossain, C.I.E., an ex-official commissioner to the Khan Bahadur and he also learned another thing from him. Every morning at 4 o'clock the old gentleman rose, and spent the hour in the worship of God.

LAURIER AND FOSTER

Continued From Page 1.

"Sir Wilfrid rose, but the turmoil would not subside.

Mr. Borden then for the first time took part in the affair. His rising commanded instant silence.

"Perhaps I misunderstood the right hon. gentleman," began Mr. Borden. "I hope I did, but I certainly unreservedly wish to suggest in the plainest possible way that the member for North Toronto manipulated trust funds. I am bound to accept his statements as to what he intended to say. They meant either that or they meant nothing, and if he is prepared to say that he did not mean that, I am bound to accept his statement; but if he did, it would be in the interest of good order if the right hon. gentleman would retract."

Sir Wilfrid said he was an old member of the house and he was not aware that he had ever said an offensive word of anyone. He had tried to be fair, but he was human after all, and if any honorable member would call his face that because he did not take a certain action it was because he was afraid of consequences, and that he shared in the proceeds, he would be expected not to retract.

Mr. Foster explained what he said was that Sir Wilfrid had shared in the proceeds for his party.

"I do not accept that explanation," said Sir Wilfrid. "What I said was, that I never manipulated any trust funds."

Addressing Mr. Speaker, Mr. Foster said: "Is there any doubt in your mind that it is that sentence which was directed to me and meant to charge me with manipulating trust funds? I say he must either withdraw or admit that his words had reference to me."

Sir Wilfrid repeated that what he had in mind was retaliation for the remark of Mr. Foster in the afternoon.

Speaker Marcell contended that the words in themselves might not be offensive. The offence might have been conveyed by inference, but that was a matter which every member would have to judge for himself. He would not declare one way or another.

"I have to take the words as they are actually spoken," said the speaker, who further explained that Mr. Foster's version of the incident of the afternoon was the correct one. "Better let the debate proceed," he observed.

Prime minister arose, but Mr. Foster was not satisfied.

"Take it back," he called to the leader of the house.

"Taking it back won't make it any less true," said Col. Talbot, above the din.

The prime minister read Foster's words. "And now," he said, "I will pass to the subject which is before the house."

Mr. Foster injected the speaker had ruled that the remarks by inference applied to him.

"To whom else could they apply?" asked Mr. Foster, amid wild cheering of the government supporters.

Mr. Speaker said he failed to see where the remark was directed. Mr. Foster directly. There was more than one member in the house.

"Does the speaker," asked Mr. Foster, "think the government is doing one else? He meant to cut me. I demand that the right honorable gentleman prove himself equal to the occasion and withdraw the charge."

Mr. Borden said it was not necessary for the prime minister to say to whom he applied the remark, because he had admitted that he was in the position of a minister of the crown. He had said that.

Premier Pleads Guilty.

"I never said under false pretences," declared Sir Wilfrid, "that the opposition was all attention for the expected retraction. But Sir Wilfrid merely added, 'I have never made any accusation and I never intended to do so.' I cannot back up. I applied the words to the honorable member from North Toronto, and now, Mr. Speaker, that I have placed myself under your ruling, I shall proceed."

But this would not do. Calls were renewed from the opposition benches for the full enforcement of the speaker's decision.

The speaker could only repeat what he had said, that offensive words were unparliamentary and they must be taken back. The question was, "Were they offensive?"

More shouts, "Sit down," from the government side, and counter demonstrations of encouragement were heard as Mr. Foster arose and stood facing the prime minister.

"The right honorable gentleman," exclaimed Mr. Foster, "has said that the words were offensive and that they were addressed to me. The prime minister should give an example to the house," he began deliberately. Then in quickened tones he declared that he never made insinuation. When I have charges to make I will make them, he added, thumping his desk, "as I do now. And I shall obey the rule of the chair. And I withdraw every word I said."

A cheer went up from the opposition side that could be heard at the main entrance, and Mr. Foster smiled.

Sir Wilfrid regarded him thus for an instant and then went on: "But the honorable member for North Toronto must not try to attack people in this house. He has his own reputation to look after."

"And I am able to look after it," Mr. Foster returned.

for a vote of censure. He denied that it was the right of amendment to look into the administration. That was the duty of the administration itself.

What a feast it would have been for these fussy old gentlemen if they could just have got to the inside of the interior department, when, with the aid of subservient officials, the Burrowses and the Adamsons were made rich."

After Mr. Borden, seven or eight Quebec members spoke and then Mr. Fugatey took the floor after midnight.

OBITUARY.

At Kingston—Norman Clark, a life-long resident and veteran of 1887; aged 91.

Rev. Joel Briggs, dropped dead at her home, 25 Melville-street, yesterday morning. Mrs. Briggs was born in Halifax County 75 years ago. She had lived in Toronto for the past 28 years.

Mrs. Smellie, who died at her home, 25 Broadbalt-street, at the advanced age of 82 years, had been a resident of Toronto for over 50 years, and was an active worker for over 30 years in the cause of temperance.

HARRISTON Lawn Bowling Club.

The annual meeting of the Harriston Lawn Bowling Club was held in the council chamber to-night, with a good attendance of the members present.

Mr. Meighen, who had resumed the debate in the afternoon, contended that failure to detect irregularities was a crime against the constitution. It was mere byplay for the minister of marine to say that the government was not in a position to detect irregularities.

It was a pure accident that brought about the marine enquiry, said Mr. Foster. The civil service had been called for an increase in salary commensurate with the increased cost of living.

The demand was fair and the basis of salary should be the cost of living, and not the cost of the government.

Then followed the Cassels commission. It was to go no further than the reflections of the civil service commissioners and only to touch one department.

It was a pure accident that brought about the marine enquiry, said Mr. Foster. The civil service had been called for an increase in salary commensurate with the increased cost of living.

When a certain gentleman who was supplying broken stone to the government at Sorel, at fancy prices, declared, "and I had to get all my stone from the Ontario government," the trouble was shut for fear somebody would be scolded by the escaping steam."

Now, the honorable gentleman, had the shamelessness to boast that they didn't wait for charges, that they had caused an investigation to be made and had dismissed all the black sheep.

A TRAITOR'S PUNISHMENT.

Lieut. Ulmo's Easy Life as a Prisoner on Devils Island.

The first man, a Paris contemporary observes, lost the earthly paradise by a fault, and man to-day has found it by a crime. Ex-Lieut. Ulmo, who was condemned as a traitor and who is now on Devils Island, is the person referred to, and if our contemporary is not misinformed the assertion is not very wide of the mark.

After breakfast Ulmo walks about his little domain, feeds his fowls, and gives instructions to his cook. Near-by every day a launch brings fresh meat from Ile Royale, and to guard against stormy weather and the non-arrival of the launch, the lieutenant has, we are assured, a well-stocked larder with eggs, butter, preserves, and character in abundance.

This is One of Dr. McLaughlin's Men of Might

Men Who Have Regained the Vigor of Youth, Who Have Attained the Highest Standard of Physical Manhood.

I can take a man who is thin, puny and unenriched in appearance and pour this electric life into his body every night for a few months, with the proper exercise to draw it into the muscles and tissues, and I can add twenty-five pounds to his weight, double his strength and vitality, and restore him to health and strength, as I have often done.

Do you want to feel like that? Then wear this grand life-giving appliance for two years. It puts steam in your run-down body, drives away pain, renews youth.

Every man and woman who comes into my office gets a practical illustration of my method of cure, and goes away convinced that the claims I have made for it are true.

PAY ME WHEN CURED

ST. ANDREW BROTHERHOOD DOING A GREAT SERVICE

Inspiring Addresses by Huber Carleton and Canon Cody at Anglican Luncheon.

A magnificent gathering was the assemblage of men of the Church of England brought together at the luncheon held yesterday under the auspices of the Brotherhood of St. Andrew.

We must not think of the brotherhood as founded on Andrew, the apostle, the preacher or the teacher, but on St. Andrew before he became all these, the simple layman.

Speaking of the work of the junior department, Mr. Carleton said: "We do not believe that the boy is a perpetual war with law and order. He deprecates that method which would under the boy by amusing him on the week day and then seek to whitewash a little religion onto the outside of him on Sunday."

The actual accomplishments of the brotherhood were that it had brought the clergy and laity more closely together; it had provided a band of thousands of earnest workers; it had banished coldness and formalism from the church; it had brought it about that the church, especially in the United States, was pre-occupied for its ministrations to the mansions of sorrow, the jails and prisons; it had brought mid-day services. When in Cincinnati he had found a theatre which had been occupied the week before by a play called "The Devil," crowded to the roof by a mid-day Lenten service.

"Canon Cody was greeted with tumultuous enthusiasm. "This laymen's congress," he said, "marks an epoch in the whole missionary life of the land. It is a refreshing and inspiring thing to see all the churches joining in this great work. But we must not forget that the responsibility for doing work rests on individuals."

"The church is not a club. Some men treat it as such. They pay their money and expect to be served. The church is an organization for service, ordained by God to bring men to God. Gentlemen of the laity, if you claim your rights, be willing to bear your responsibilities."

Some Advice to the "Stage Struck."

By Janet Priest of "School Days."

These dear, dear kiddies who write to me about going on the stage are for the most part alike in one statement. They all express themselves as perfectly willing to "start at the bottom, and climb to the top." I think they get it from various writers about the stage, and from so-called "self-made men," who say that "is the plan to follow."

Very well. Granted that, as Longfellow says, you are "up and doing, and get all about it, aim high, and work, work, work! Hitch your wagon to the furthest old star in sight. You'll never get any further than you aim, but if your goal is low, so will be your achievement. "Do your darndest" all the time, and when rewards come, be thankful, never discouraged over seeming failure. There can't be real failure so long as the world keeps on moving, because there is always another day coming, in which any miracle can happen. Keep young, young with the youth of hope, trust and work. That's why "School Days" is so successful, because it radiates youth and the miracle of the future.

About opportunity, make a grab for it, when it comes near enough to you or you can reach it by pursuing. Many boys and girls write to me to ask what sort of an opportunity or an engagement to consider. Consider the first one offered you after you yourself have considered carefully what you intend to do. And "always be on the job."

I have enjoyed my week's work for the World and hope I have been of service. But after all, every day depends on oneself. Always remember that.

BETTER THAN SPANKING.

Spanking does not cure children of bad-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 85, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her in this way. Don't blame the child, the chances are it can't help it. This people troubled with urine difficulties by day or night.

DEMENTED WOMAN CREATED A SCENE IN CATHEDRAL.

A young woman, demented, created a scene in St. James' Cathedral yesterday noon at the commencement of the Lenten service. Well dressed and carrying a hand bag she walked swiftly up the centre aisle past the choir stalls, straight up to the altar, and before Canon Walsh could give out the words of the opening hymn, proceeded in a shrill voice to address the congregation. She was quickly removed to the vestry.

THEOLOGY.

What is the relation to our modern life? Is it a fact, a science or a religion? Mr. Lazenby's last Lent lecture will be on the meaning of theology. This course has increased in interest with each lecture and has shown that Mr. Lazenby is a most clever speaker with the power of knowledge and experience within him. Toronto is fortunate to have a speaker who is both an occultist and an orator. This lecture will be given next Tuesday evening at 8 o'clock at 594 Jarvis-street.

SEPARATE SCHOOL BILLS AWAIT COURT DECISION

McGarry and Racine Withdraw Their Measures From the House Pending Constitutional Clearing

Good progress was made with the order paper by the legislature yesterday. T. W. McGarry (S. Renfrew) spoke regarding his bill to amend the Separate School Act. The requests contained in the bill were not made by a small minority, but in a spirit of justice and fair play. This bill provided that the minority should have a share of public utility and bonus taxes. Those in the minority had determined to support separate schools, and if equal justice was not met out to them, they would have to go down into their own pockets.

"Please read to me!" you asked as a child. "Please play for me!" you ask as a grown-up.

BUT how much wider was your reading, how much more extensive your familiarity with the masterpieces of literature and the current popular writings of the day, and above all,

How much greater was your enjoyment and satisfaction when, at last, you were able to do your own reading!

The same is true of music, only in a much greater degree.

You are able to do your own playing on

The Gourlay-Angelus

The Piano anyone can Play Artistically

Of course, no one wants to play all the available music. No single individual would be interested in every composition. Musical tastes are too varied, even in the different members of the same household. The point is, that with this tremendous repertoire—classic, popular, operatic, dance, sacred—every conceivable taste, every changing mood even, can be amply satisfied through the Gourlay-Angelus.

And above all, you will enjoy the intense satisfaction of doing your own playing in your own way.

You can now have this wonderful instrument on very easy terms or we will make you a liberal allowance on your present piano and take it in exchange. But whether or not you are ready to purchase you should make it a point to hear this instrument at your own opportunity. Come in today and play it yourself. No obligation.

Why Tired Feelings in the Spring?

This question comes to mind when you are scarcely able to drag yourself about to attend to the necessary work of the day and for an answer you must look to the conditions of the blood.

Winter life is artificial, and in the spring the blood is almost sure to be thin and watery. The result is a starved condition of the nervous system and derangements of the vital organs.

The heart's action is weak, digestion impaired, the filtering process is carried on by the liver and kidneys in an inefficient way, the excretory organs are slow in removing poisons and hence the pains and aches, the sleeplessness and irritability, the depressed spirits and tired, languid feelings of spring.

Restorative treatment, such as Dr. A. W. Chase's Nerve Food, is necessary not only for comfort and happiness but also because in this run-down condition you stand an easy prey for all sorts of germ diseases.

In the spring the very air is filled with germs which lurk in myriads wherever winter refuse has been left to thaw and ferment and the only resistance against disease germs is good, red blood, such as is formed by

Dr. A. W. Chase's Nerve Food

**BONDS ARE FIRM
MONEY STILL EASY**

Local Houses Still Report Demand Greater Than Supply—Market is Broader.

Municipal bond brokers in the city report during the past week an insufficient supply of these securities to meet the demand. The market at the present time in municipal bonds is said to be fairly broad, and with a continuance of the present state of the money market it is likely to broaden further, and by some of the most optimistic of the brokers an early strengthening in prices is predicted. The reduction of the Bank of England rate, while, no doubt, creating a favorable sentiment, will hardly affect conditions to a noticeable extent. Corporation, Industrial and Railroad bonds are still in good demand, and bond houses that had a somewhat extensive range of offerings in these securities a short time ago find their lists at present in a decidedly depleted condition.

The following purchases are reported this week by the various houses:

The City of Berlin, Ont., sold to W. C. Brent \$44,163.74 5 per cent., 5, 10, 20 and 30-year bonds, issued for local improvements, roadways and machinery.

The same firm has also bought \$9000 Town of Liverpool, Nova Scotia, 4 1/2 per cent. bonds, due Jan. 1, 1917.

Also \$20,000 rural municipality of Richmond, B.C., 5 per cent. bonds, interest payable half yearly, Jan. 1 and July 1, due Jan. 1, 1918.

And \$35,000 Magiath, Alta., school district No. 929, 5 per cent. bonds, maturing in 20 annual instalments of \$166.66 each with interest in addition.

This firm has also purchased \$35,000 Macleod, Alta., school district No. 47, 5 per cent. bonds, maturing in 20 annual instalments of \$166.66 cash, with interest in addition.

And \$20,000 Clarendon, Alta., school district No. 769, 5 per cent. bonds, interest payable yearly, and maturing in 20 annual instalments of \$666.66 each, with interest in addition.

G. A. Stinson & Company have purchased \$25,000 Fort Frances (Ont.) debentures. These bear interest at 5 per cent. and are payable in 20 annual instalments; \$20,000 are for waterworks and \$5000 for local improvements. Fort Frances assessed valuation is \$1,076,242, and their net debenture debt is only \$35,575. The same firm were also successful in securing the Robson S. D. debentures amounting to \$1200. These bear interest at 4 1/2 per cent., and are payable in 20 instalments, and they have also been awarded the Town of Hatleybury debentures, as follows: \$9000 5 per cent. 20 instalment bonds, issued for sewerage; \$5000 5 per cent. 10 instalment bonds, issued for a fire hall.

The Dominion Securities Corporation, Limited, purchased \$9000, 20 instalment, 5 per cent. bonds of the Town of Erie, Manitoba, issued for town hall. And \$5000, 4 per cent. debentures, due 1920, issued for telephone extension of the same town. The issue of \$5000 is guaranteed by the Government of Manitoba.

The Ontario Securities Corporation, Limited, have purchased \$5000 Township of Hudson, Ont., 5 per cent., 20 instalment bonds, issued for roadways, and \$2000 school properties, 5 per cent., 20 year debentures of the same township.

H. O'Hara & Co. purchased \$1200 Thripin, Sask., school district, 5 per cent., 10-year bonds.

The Road to Gowganda. A survey has been commenced by the department of public works preparatory to constructing a road to Gowganda, for which \$50,000 has been voted by the legislature. In all probability the road will run from Elk Lake to Gowganda.

The Redemption. At the full rehearsal of the "Redemption" last Tuesday evening in was clearly demonstrated that the forces under the baton of Dr. Torrington this season are a most competent body of musicians, equal and in some respects superior to the choruses of former years, and the Good Friday performance promises to be one of more than ordinary excellence. Miss Millett, formerly of Toronto, but now engaged at the First Baptist Church at Franklin, Pa.—one of the highest salaried positions in the United States—will sing the principal soprano solos. The other soloists will be David Ross, baritone; Miss Olive Scholey, contralto; and Edward Strong of New York tenor.

The reserved seat plan opens on Monday morning at the Massey Hall and there will be a limited number of rush tickets on sale the evening of the concert at 25c.

**WELL KNOWN MINING
ENGINEER AND OTISSE**

John Hays Hammond Has Purchased a Large Holding of Otisse.

"In the judgment of mining interests, one of the most important incidents in connection with the development of the Montreal River and Cobalt section of Canada is the fact that John Hays Hammond, the well-known mining engineer, has bought a large lot of shares in the Otisse Mining Co., Ltd. It is pointed out that the world-wide reputation of Mr. Hammond was invested in South Africa, Mexico, and this country through his rare ability to foresee the chance of success of mining propositions.

"Three years ago, when Cobalt was practically an undeveloped country, Mr. Hammond publicly announced that Cobalt would become one of the country's great producers, and the millions of dollars in value of the ore now shipped from that section is referred to as bearing out the accuracy of his judgment. His holding in the now well-known Otisse mines, it is argued, may serve as an indication of what may be expected in the new district, which has been opened up rapidly and brilliantly, and it is claimed, under sound auspices.

The above bulletin came out over the news tickers yesterday. A World reporter asked for information on the above at the office of Messrs. Warren, Gzowski & Co., and saw Mr. Norman Gzowski.

"Is it true that John Hays Hammond has purchased a large holding of Otisse stock?"

"Yes," said Mr. Gzowski, "it is quite true as stated."

"But Mr. Hammond is reputed to be the greatest mining engineer in the world?"

"Yes," said Mr. Gzowski, "that's about right."

"How do you account for him buying Otisse stock?"

"Well, Mr. Ernest A. Wittee, a partner of his in mining investments, and himself an eminent engineer, recently visited the property and made an examination of it. Mr. Wittee is invested in Otisse and now Mr. Hammond has made an investment."

"It is reported he has bought a large block. Can you state what the amount was?"

"I do not care to state the amount, but it is a very important holding."

The Hammond purchase of Otisse stock is regarded by the Cobalt market generally as of very great significance, not only as to the Otisse property itself, but with reference to the whole Montreal River District. It is said the only other Cobalt stock Mr. Hammond ever purchased was Nipissing.

Mr. S. W. Ehrlich of New York, one of the large capitalists, who, with many friends, has been absorbing large quantities of Cobalt issues, arrived in town to-day. At the office of Messrs. Warren, Gzowski & Co. he spoke of the Hammond purchase of Otisse stock. He said:

"I consider the purchase of Otisse stock by Mr. John Hays Hammond as a most significant and important event. Several years ago, at the inception of the Cobalt camp, Mr. J. H. Hammond said the camp would undoubtedly make good, but that at its then undeveloped stage, the prices of the shares were entirely out of proportion to the ore showings. Since then the camp has been good, and the re-entry of such men as Adolph Lewisohn, John Hays Hammond, the large investments made by W. B. Thompson, and numbers of others who are making enquiries, show the benefits of the working out of the engineering plans of B. B. Lawrence, Mr. Weston, Mr. Loring and others.

"The Hammond purchase of Otisse stock is, without doubt, the greatest event that has happened in the Cobalt camp for a long time, and means a redistribution of a lot of plans lying dormant."

No Water, Mills Close. CORNWALL, April 2.—(Special).—The annual spring station show under the auspices of the Cornwall Agricultural Society will be held Saturday, April 24. The water has been let out of the Cornwall canal, and in consequence the various mills have been obliged to close down, and the Street Railway Company has been compelled to fall back on their auxiliary steam plant. To-night the cotton mills closed down for two weeks to permit of repairs.

**LARGE MONEY BYLAWS
TO BE VOTED ON IN JUNE**

Total Well Over the Million Mark, Including \$700,000 For Sea Wall.

Bylaws calling for an expenditure of \$1,165,000 will be voted upon by the ratepayers on June 5. The amounts are: Sea wall, \$700,000; electric pumps, \$275,000 and new water mains, \$190,000. The board of control set the date yesterday, when it was decided to defer the bylaws for the new fire stations, police stations and Island improvements until next January.

The electric pumps are required to utilize the power delivered by the hydro-electric commission, while the water mains are needed for the new districts. A deputation of doctors who desired to get an assurance that physicians would be allowed to follow their patients into the hospitals, were assured that the city wouldn't make the grants of \$50,000 each to the hospitals until these terms were agreed to.

J. L. Ross, Havelock-street, who wanted the city to buy a lot adjoining Dufferin Park, was informed that the city wouldn't spend another cent on parks this year.

Chief Thompson secured the board's consent to raising the salaries of four fire station caretakers from \$325 to \$400 and to putting the storekeeper in a class with fireclass firemen.

Not Pellatt Avenue. Walmer-road in Bracondale will not have its name changed to Pellatt-avenue after all. Six of the eight residents objected. The works committee also rejected the proposal to exchange the name Russell Hill Drive also Bracondale, to O'Brien-avenue; Lyonde Crescent in East Toronto it will continue, also the residents would prefer Hazel-avenue.

F. COCHRANE, Minister Lands, Forests and Mines, Toronto, March 23rd, 1909.

Fifteen Years' Experience

After having been engaged in the mining markets for upwards of fifteen years, we feel confident that the proposition which we are now putting before our clients is the most conservative which has ever come before our notice.

We have been besieged with applications to float mining companies, but have hitherto steadily refused to associate the name of our firm with most of these enterprises.

Our reasons for so doing have been largely on account of the inflated capitalization required by most of these companies and the small amount of territory owned by them in which to return to the investor such a measure of interest as he is justly entitled to.

After the fullest and most careful enquiry in regard to the MONTREAL RIVER CONSOLIDATED LIMITED, we have satisfied ourselves that not only are the company's properties such as will ultimately make producing mines, but that the original investors will get an equal and undivided interest in the full development of these properties with the original shareholders, who have placed their own money in the company after the most mature and careful thought. Now let us explain:

THE MONTREAL RIVER CONSOLIDATED, LIMITED, owns no less than ten 40-acre properties in the heart of the rich Montreal River silver district, TOTALING IN ALL NO LESS THAN 400 ACRES.

Large as the territory is owned by this company, a stranger feature, perhaps, is the SMALL CAPITALIZATION, namely, \$500,000, which has been placed against these valuable properties.

Again, let us draw your attention to the honorable provision which has been made to develop the properties in the interests of the shareholders. Of this total capital of 500,000 shares, there have been left in the treasury 300,000 shares, with which to provide funds for the thorough development of each of the company's TEN CLAIMS.

Think this over. There are only 200,000 shares in the hands of the original investors in the company. Every dollar of indebtedness for

work on the various properties has been paid for, and the holders of this stock are prepared to retain them solely as an investment, in the firm belief that a few months will demonstrate them to be worth many times their par value of one dollar a share.

The offering which we are now making, and of which we have secured the exclusive control, is that of 60,000 SHARES, PAR VALUE ONE DOLLAR.

The proceeds of this sale are to be put into the funds of the company for development purposes, and active work will proceed on the properties at once.

To effect a quick sale of this block, the stock will be disposed of at FIFTY CENTS A SHARE.

Those who are looking to make big money in the ONTARIO SILVER FIELDS will seldom experience such an opportunity to get in on the ground floor; an opportunity, we might say, which places them practically on a parity with the original prospectors, who went through so many hardships to locate and prove the properties which the company owns.

Among the many veins indicating high mineral enrichment are seven from which native silver has been taken. Several other calcite veins of good width have silver assays at the surface.

One great vein of calcite on M. R. 700 is nearly three feet in width. Silver has been found in paying quantities on surrounding properties, including Lucky Godfrey and the Devlin and Enright. The properties are right in the mineral zone, and have a number of notable contacts.

In view of the tremendous investment possibilities to buyers of this stock, we strongly urge their immediate purchase.

Applications for the shares will be filled as received until the issue is exhausted. We do not anticipate that this will be of long duration, and would, therefore, advise that orders for the shares be forwarded to us at once, either by telegraph, telephone or mail.

CONSERVATIVE BROKERS

WE recommend the purchase of Temiskaming Mining Stock at 35c per share. We never let up. You know the result. We were asked for our opinion yesterday and we replied—using the language of the Vice-President—the last strike is a wonder.

WATCH TEMISKAMING

A client called on us yesterday, pulled out 1000 shares of Temiskaming that cost him 41 cents per share, less 24 cents per share dividends; was sorry he did not purchase the mine.

STILL CONSERVATIVE

But we add to our list: La Rose, Hargraves and Chambers-Ferland. We have such information regarding these mines to warrant us recommending the purchase of the stock. Don't delay and be sorry later.

HELP! HELP!

We can help you by advancing 65 per cent. to 70 per cent. of the market value on all orders of Chambers-Ferland purchased through us at the rate of 6 per cent.

BLACKBOARD QUOTATIONS

As sales are made on the exchanges they are marked on our blackboard, including Hargraves and other stocks not listed on exchanges. Public welcome.

MINING PROPERTIES FOR SALE

WE deal exclusively in mining properties and have our own representatives in the field. This enables us to secure some of the best properties offered, as prospectors realize it is to their interest to deal with a company that specializes in this respect. The properties we offer are situated in Gowganda, Silver Lake District, James, Smyth, Tudhope, South Lorrain, Bucke and Coleman Townships. These range in value from \$500 to \$500,000, and are offered subject to inspection and on reasonable terms. Out-of-town customers should state, when writing, amount they desire to invest and locality preferred. We have some splendid syndicate propositions that live men could handle to advantage. Also properties upon which development work must be done, and responsible parties may obtain half interest in consideration of such performance.

FARMING AN ALFALFA STOCK PAGE

BE A MISSIONARY.
Every hundred acre farm in old Ontario needs an apostle of the love of regenerated farming.
There is abundance of scope for energies on the soil and the live stock of our farms and farm work.
The call is clear—clear now to every farmer in Ontario. Be a missionary in your own vicinity this spring for better things in agriculture. Show your fellow-man how to get more from that corner field. Preach to him the value of progressive tree planting this month. Sing the anthem of sowing in the morning. The big plump seeds in a seed bed not merely grubbed over but prepared like the gardens of the gods.
Illumine the home life by a happy intercession for modern comforts and pleasures to the farm family and the devoted wife. In short, there is one way where every man can add in the great recovery of Eden, by establishing perfect law and orderliness outside the line fences of that plot of ground which Providence has seen fit to enounce you.
That is true missionary work from the text: "Be ye ever perfect."
CULTIVATE.
For the land's sake cultivate the soil. There is more lost to the farm exchanger by lazy men and horses than is imagined.
Keep the soil stirred, it has a double advantage. Firstly it retains the surface moisture, and lastly, the constant stirring allows the fermentation germs to set free the plant food and make it easily assimilated by the crop.
There are facts, the knowing of which will make the farmer more money. Nature decidedly abhors the lazy cultivator. She shows her abhorrence by rendering milk thistles and other weeds to spur the farmer into activity. For it is an economic axiom that if a man will not work on the soil, neither shall he eat of the soil's produce. For no one looks for figs from thistles or wheat from grass.
For the land's sake it is wise to make a good seed-bed this spring and get at it early.

BRETHOUR'S YORKSHIRES.
On April 8th, at Burford, Ontario, Mr. J. E. Brethour offers for sale at his farm 175 Yorkshire pigs of all ages. The Oak Lodge herd has been known from ocean to ocean for the quality of the stock sent out, and by the awards at both American and Canadian shows.
The herd is the largest and most complete in America and Mr. Brethour as the pioneer breeder and admirer of the large Yorkshire White deserves the generous support of the people of Ontario at his sale, and the thanks of the province for his good work in raising the standard of swine breeding.
Mr. Brethour has believed in the theory of selection in improving the breed and his families, Julius and Cindrella are ones that have arrived at a high state of perfection and while he has from time to time added leading imported blood to the herd, he by no means is a slave to the name imported in a pedigree, preferring the individual to the other. As the result, he has a fine lot of producing sows and dams that are hard to surpass in Great Britain or America. And any farmer who wants to replenish his stock with good sows or boars will do well to make purchases at this sale. Mr. Brethour always treats his customers well and this sale will be no exception to the rule.
The farm is easily reached and there are special rates for Easter; every farmer wanting to see the farm and Cindrella, if possible to go, if the purchaser can authorize Mr. F. M. Chapman as his agent, Mr. F. M. Chapman of the World to do his buying, and as he has been a breeder of Yorkshire at Grosvenor Grange for some time, he is in a position to do justice. Send bids and requirements to him later than April 15th, or mail them to him in care of Mr. Brethour at Burford. Already he holds a few orders. A registered certificate of pedigree of a sow in pig, certificate of service will be furnished for each pig. Each pig will be crated and delivered at the express office without extra charge. Single fare return tickets can be procured at all railway stations, good on day of sale and two following days. Trains arrive at Burford at 8 a.m. from Tillsonburg Junction and at 11 a.m. from Brantford, and leave at 5 p.m. for Brantford and 8 p.m. for Tillsonburg, giving ample time to attend the sale and return the same day. Oak Lodge Farm is one-half mile south of the Grand Trunk Burford Station. Lunch at noon.

POULTRY WANT AIR.
Perhaps the winding up meeting on Thursday afternoon, says the *Uxbridge Journal* regarding the poultry institute, was the most successful of the convention, and it was with difficulty that seating accommodation was provided for all. J. W. Weddfield, secretary, N. C. Farmers' Institute, occupied the chair. Prof. Graham dealt with the subject of "Poultry Houses." During the course of this practical and detailed discourse the lecturer mentioned the advantages and disadvantages of the poultry houses now in use, and described the houses which they were experimenting in Guelph. The pitch and conclusion of his remarks were that the points in poultry houses are dryness, freedom from draughts, and light. He strongly advocated cold houses in winter, wintering in preference to those warmed by artificial heat. Miss Yates, when later concluding this point, said "Remember birds of the air, Cold fresh air is better than warm foul air."

YOUNG CATTLE WANTED.
Reeve J. A. White of Brougham, was in the city yesterday and reports that feeders are very scarce in the country and good prices are being paid.

Farm Telephone Systems Are Covering the Country And Municipal Phones Also

Chinguacousy Township Was the Pioneer Under the Act, and Now Darlington is Thinking of It—A Network of Rural Companies With No Trunk Lines.

Where is the farmer who does not want a telephone?
When you find him mark him well, and you will note that he does not push his business to its limit.
Again, why cannot every farmer have the phone at a reasonable rate if he wants it?
There is nothing so very expensive in telephone construction to warrant big rates. Of course stock dividends are high.
Some time ago a delegation from Peel County applied to the Ontario Legislature for permission and aid in forming a municipal telephone plant. By the act passed last year provision was made for this under the departments of public works and agriculture. Up to the time of this application by the Peel County farmers, no more towards providing for the machinery had been made. Since then these departments asked the municipal and railway board to formulate plans, which plans have been completed, so the chairman reports.
Enquiry from Samuel Charters of Peel elicits the information that Chinguacousy Township are securing upwards of 400 subscribers and are going ahead to install a system. Alton and Bolton Village, Caledon and Erin Townships have local companies operating phones. More Mills has a system also that is anxious to get into Toronto. All these small companies as a rule permit interchange of business free, except where they have Bell connections.
Other townships among which is that rich Durham County Township of Darlington, are now waiting up to the great possibility of cheap telephones and if by the installation of a system of government ownership, and the service extended, every farmer should agitate for these features of government ownership.
And why not let the municipality do it? Is it not as important to business to-day as bridges, and why should one be excluded and the other favored?
Each and Messrs. Stevenson were well pleased with the sale.
SHORTHORNS, CLYDESDALES AND YORKSHIRES BY AUCTION.
Under the auspices of the Myrtle Sales Association, at Myrtle Station, C. P. R., in the covered pavilion on Friday, April 3, getting the benefit of the holiday single-fare rates, there will be sold by auction a number of high-class Clydesdale stallions, mares and fillies, including the imported mare, Queen, a bay, rising four, by Baron Mitchell. This is an extra choice mare of superior quality, having the Ottawa grand champion, Imp. President Roosevelt. The other mares and fillies are a superior lot, with side and dam, sired by Durbur, dam Imp. Rosalee. This colt is one of the very best, smooth kind, with superior quality throat. Another is a bay, rising two, by the Toronto grand champion, Imp. Baron Richardson, dam by Acme. This is an exceptionally good colt, up to a big size, and check full of quality. The short-horns to be sold number 30, all young, and of the most splendid condition. Among the heifers are a number of show things. Among the bulls are several high-class herd-headers. There will also be sold a number of young Yorkshire sows and boars, high-class representatives of the breed. The terms are cash or six months on bankable paper at 6 per cent. Myrtle is on the C. P. R. and G. T. R., about 37 miles west of Toronto, and has good hotel accommodations. The animals to be sold at this sale are from the leading Shorthorn herds of Ontario County, and are richly and admirably bred, and will come out in splendid condition. This will be one of the sales of the year, and owing to the cheap holiday rates then on, will present a good opportunity for farmers from a distance to attend.

MANY WORLD READERS BUY HOLSTEIN CATTLE

Stevenson & Son of Ancaster Have a Most Successful Sale Realizing Over \$5,500

R. S. Stevenson and Son of Ancaster, whose sale of Holsteins was advertised in *The World*, attracted many World readers, and despite keen competition, they carried home some choice animals. The dispersion of so valuable a herd was one chance in a hundred to secure a good cow and the farmers who wanted good ones were there. Bidding was keen and Auctioneer Almas outdid himself. Visitors from a distance were present and everyone was entertained well.
The following were the leading sales made and are given in order of the catalogue numbers, with buyers' names and addresses. The herd bull went to George Ward for \$325.

DURHAM WANTS ONE.
West Durham Agricultural Society has been requested to lend its influence with the Ontario Government and county council to secure for Cobourg one of the new county agricultural colleges being established. Bowmanville has not awakened to the importance of having such an educational institution in the town. The other two towns of these united counties seem to have caught the spirit of the government's proposition and are taking practical action to put their desires into effect. One large class room in Bowmanville Public School is unoccupied and could be used for a school of established and maintained such the government says the professor and the committee give a liberal grant—Bowmanville Statesman.

HOW IS THIS FOR FARM LAND?
James Heron of Ellesmere, York County, has sold his 50-acre farm for over \$100 per acre. The buildings are not in good shape either and the orchard is a poor one. Scarborough lands are coming to their own.

SELL THEIR HOLSTEIN.
Chas. Watson & Sons of Agincourt, sold the Holstein bull advertised in the farm pages on Tuesday to James Creighton of Scarborough, for a good figure. Advertising in *The World* pays.

AN OBSTACLE.
There is a big obstacle to the spirit of enterprise that beats under many a farmer's coat. Small towns and villages have given contracts to a telephone company for a term of years which prevents the farmers putting in a line of their own, or if they do make connection, the rates are too high and the restrictions too many. But it must be said to the credit of the Bell Co., that they have been making connections with many of these short line systems at a very nominal fee of late. But the great point with the farmer is, that he has some controlling interest in his telephone system and also the privilege of long distance connection at a moderate rate. Just how this is to be done with the net work of small companies now operating all over Ontario, without government ownership or control of the trunk lines, is indeed problematical. These short lines need reasonable connection with the big main lines, without being within the franchise obtaining in Whitby, and there are many farmers who feel this. The merchants of these towns would be better off to see to it that their farm customers are better pleased.

WORLD SHOW LEAF IN A GROWING ORCHARD?

Enquiries for Alfalfa Seed Are Reported Large By the Seed Houses and Information is Needed

Alfalfa culture is going to be carried on this season on a larger scale than ever. Seedsmen report a most active demand for it and the fact that districts where experiments have been made, are repeating orders, speaks well for this clover.
Alfalfa or Lucerne as some call it, is the best thing our farmers can grow on well drained soils. It may be that time will be needed to put the soil into right condition, or that the soil from an old field should be spread over a new one in order to get a good catch. At any rate there are many places where the farms will be enriched by alfalfa. It is to be expected that many mistakes will be made, but a mistake is a sign of progress in this regard.
Alfalfa enriches the land by gathering a supply of nitrogen from the air and storing it on the roots of the plant. This anyone can see for himself by examining the roots and noticing the small pin head knots on these roots, and as plants feed largely on nitrogen the presence of these nodules, with their stored food in ready condition for plant assimilation, makes for a good crop. Of course there are other things necessary to the production of crops, as phosphoric acid and potash, but these are present in most clay soils in sufficient quantities, the only difficulty lying in their availability, so that application of these often is necessary where an analysis gives their presence already. Alfalfa feeds some of these latter ingredients and in fields of this clover it is well to apply artificial fertilizers containing these.

In connection with the subject, the following letter comes to hand. Agricultural Editor, having read your contribution on alfalfa and being somewhat interested in the growing of alfalfa in Ontario, I have your opinion on sowing alfalfa in a young orchard.
Do you think it would enrich the land in a young orchard so that you could leave it seeded down for a number of years by manuring around the roots of the trees?
Would it be of any advantage to the land to take off the first or possibly the second crop, and leave the remaining growth? Would this have a tendency to smother the roots? One would not be able to pasture in an orchard. Do you think it would die out by being harvested all the time instead of being pastured part of the time?
Would you like to have your ideas regarding sowing it and fertilizing value, sent to me?
Balsam, March 31.

It would be all right to plant alfalfa in a newly set out orchard for a year or two, in order to get the soil into a good mechanical condition and to promote nitrogen gathering. In doing so it would be best to leave a strip where the row is, on which a row of potatoes or corn can be planted for the first year, and for the second year, a row of pin oak pure seed trees, to encourage early growth. Young orchards need the cleanest and best prepared land, allowing it to ripen and threshing and storing separately.
Obtaining pure seed, i.e., free from weeds, is a great deal of work, but can best be detected when the crop is growing.
Promoting the sowing of seed from clean, vigorous crops of uniform stand, with bright, stiff straw.
Ensuring careful and intelligent farming and the production of seed free from weeds. Prizes will also be offered by the department for two bushels of grain from the winning districts. For this exhibit the province has been divided into three districts and prizes amounting to \$80 will be awarded to competitors in each of the three divisions mentioned below for the following kinds of grain:
First prize... \$50
Second prize... \$25
Third prize... \$10
Fourth prize... \$5
Fifth prize... \$2
Each sowing must contain not less than 1000 stems, and must be boxed and shipped C.O.D. to the Superintendent of Agricultural Products, Exhibition Park, Toronto, not later than Aug. 20, 1909.
Division 1 comprises Muskoka; Parry Sound, Haliburton, Nipissing, Manitoulin, Algoma and other districts in New Ontario; division 2, all counties east of York and Simcoe; division 3, York, Simcoe and all counties west and southwest of same.

FIELD CROP COMPETITION GETS INCREASED GRANT

A Sheaf Exhibit From the Standing Crops Is to Be Made at the Canadian National

So marked has been the success attending the field-crop competition of the past year, inaugurated by the Ontario Department of Agriculture, that an increased grant has been obtained for this work.
In a letter to the directors of agricultural societies, Supt. J. L. Wilson limits the number of societies taking part to 100, and the first ones applying have the preference. The main objects that are claimed for this work are set forth also, and those who have participated know that the case is not overstated.
Main Objects.
Stimulating a greater interest in the growing of first-class grain.
Encouraging the practice of growing good crops in a field by the farmer himself, using only the best obtainable seed from the largest yielding strains, sowing it on the cleanest and best-prepared land, allowing it to ripen and threshing and storing separately.
Obtaining pure seed, i.e., free from weeds, is a great deal of work, but can best be detected when the crop is growing.
Promoting the sowing of seed from clean, vigorous crops of uniform stand, with bright, stiff straw.

EUROPEAN DUST COATS, \$12.50

Towards the end of last summer these very styles were shown in the most exclusive saloons of the fashion centres of Europe. These coats are copies of these famous models, and have just come to hand. They are in pale champagne, greys, pale gold dust, light fawns, light tans, and other new colors. The materials are in new weaves, similar to Panama in lightness and durability. Others are in silk, linen finished cloths. The collars and lapels are exceptionally smart, and trimmed and touched with contrasting tones of color. The rounded, tailored and directoire lapels are all in evi-

denance, and every coat is thoroughly tailored and cut very full. With the light princess dresses a coat of this description is absolutely necessary. Every style and color. One 12.50

450 Linen Tablecloth Seconds 1-3 to 1-2 Less

OUR Staples Department has been establishing new precedents this year. Our department of household linens compares favorably with high-priced stores as regards quality and with the lowest priced stores as regards value. Since opening our new department on the ground floor we have doubled our facility for serving housekeepers. We call attention to this fact to-day because we expect big interest will be aroused in this sale of tablecloth seconds for Monday, and no one need hesitate about coming early. There will be lots of room for display, and quick selling will result.

Three Irish factories are represented in the lot—they are manufacturers' seconds, not bleachers' seconds. They will reward your enterprise in coming betimes. You save one-third to one-half the cost of a new cloth, and the only disadvantage is a missed thread or two, which you'd never notice in this world unless it was pointed out to you—like it is when you buy it.

- "Seconds," in fine Satin Damask Table Cloths, every one full bleached and beautiful design, with border all around, some slight imperfection in weave or finish the reason for the sacrifice, but it won't affect the wear or general appearance in the least. Grouped as follows: Sizes 2 x 2, 2 x 2 1/4, 2 x 3 and 2 1/4 x 2 1/4 yards. Regular value up to \$2.00 each. Monday \$1.25. Sizes 2 x 2, 2 x 2 1/4, 2 x 3 and 2 1/4 x 2 1/4 yards. Regular value up to \$2.25 each. Monday \$1.35. Sizes 2 x 2, 2 x 2 1/4, 2 x 3 and 2 1/4 x 2 1/4 yards. Regular value up to \$3.75 each. Monday \$2.40. Sizes 2 x 2, 2 x 2 1/4, 2 x 3 and 2 1/4 x 2 1/4 yards. Regular value up to \$4.50 each. Monday \$2.90. (No mail or phone orders.)
