LEGISLATURE FORESEES POSSIBLE BATTLE ON TEMPERANCE QUESTION

Independent Labor Convention Today Discusses Plans for Political Action

LABOR IN BRITAIN IS NOT BOLSHEVIST, SAYS HENDERSON

Says It is Constitutional Party Run on Constitutional Lines.

REPLIES TO PREMIER

London, April 1.—Arthur Henderson, labor leader, takes issue with Lloyd George on his statement that the labor of communism is affecting the British Labor party, and that it is not fit to assume the reins of government. "No man knows better than Lloyd George himself that labor in British politics is a constitutional party organization on constitutional lines, run in a constitutional way. It has no secret party funds and no hidden caucus. British labor has constantly refused the temptation to advance its cause by unconstitutional means. It has recently given a striking decisive proof in its determination to abide by a policy of pacific progress in its overwhelming decision against direct action.

"The labor party will continue its battle for progress for improvement of national life, for improved housing and educational conditions of labor, for ensuring that essential sources of national wealth shall be employed for the benefit of the nation as a whole, not for the monopolistic profit of groups, classes or individuals.

"The labor party faces the prospects ahead with absolute confidence."

CONFER ON B.N.A. ACT

To Hold Interprovincial Meeting for Discussion of Dominion's Constitutional Rights.

Ottawa, Ont., April 1.—An interprovincial conference will be held this summer on the question of seeking legislation which would confer on the Dominion parliament the right of amending the constitutional British North America act. The exchange of views on the subject so far is informal and unofficial. For the most part the proposition is viewed with favor, the Premier of Saskatchewan is out against it.

"If such an amendment is secured, the idea in Ottawa is that to give effect to it the consent of all the provinces should be necessary. As matters stand at present and differing from a view that is widely prevalent, the Imperial parliament, on its own initiative or at the instance of the Dominion parliament may make whatever amendment it pleases without consulting any province.

FURTHER CRITICISM OF U. S. NAVY DEPARTMENT

Washington, April 1.—Because of the navy department's policy of "indifference" no effort was made to bring the navy to a state of preparedness before the war. Admiral R. B. Spence, former commander of the Pacific reserve fleet, declared today before the senate naval investigating committee.

The admiral said that in 1913, when he went to the Pacific coast to take command of the reserve fleet the ships had so small complements that they could not be moved from the dock. The navy was "fatally short of manning," he added, but the department failed to advocate sufficient personnel increases, and was "totally indifferent to the possibility of a state of war being forced upon it."

RAILWAY TO FILE NEW TARIFF FARE

Federal Commissioners Permit Revision of Commutation Rates.

Ottawa, April 1.—The board of railway commissioners today brought down judgment in the application of the Canadian railways for increasing commutation rates. The commissioners ruled to allow the railway companies to file a new tariff. The judgment was a bulky document of 47 pages and while it has been issued, the interested parties in the case will not receive copies until Monday.

The judgment of the board provides as follows:

"The railway companies will be permitted to file new tariffs of fares for commutation passenger traffic applicable between the points included in the now existing tariffs of commutation fares as follows:

(a) 50-trip tickets good for 30 days on the basis of 3 1/2 mills per mile of travel, subject to a minimum charge per ride of 7.1-2 cents.

(b) 40-trip tickets (schoolers' tickets) good for 28 days, on the basis of 4 1/4 mills per mile of travel, subject to a minimum charge per ride of 7.1-3 cents.

(c) 10-trip tickets good for three months on the basis of 2 1/2 cents per mile of travel, subject to a minimum charge per ride of 7.1-2 cents.

No extensions of present commutation rates are provided for.

ZEAL OF MEDICAL PROFESSION SWELLS PROFITS ON LIQUOR, CHAIRMAN FLAVELLE DECLARES

Tells Public Accounts Committee of Thousands of Dollars Paid to Informers—Also Pays Tribute to Business Acumen of His Manager, Mr. Cleland.

The opening chapter of this year's O.T.A. comedy-drama before the public accounts committee was heard yesterday. J. D. Flavelle, chairman of the board of license commissioners, and H. Dewar, against Mr. Flavelle's role was somewhat altered from last year. Towards Mr. Dewar he was confidential and courteous, and as visible as ever. Smiling and easy, but with the twinkle in his eye, denoting something held back, Mr. Dewar gave Mr. Flavelle free rein, when one of his answers overran a newspaper column in length.

The story started about the phenomenal business ability of W. B. Cleland, general manager of the government warehouse in Toronto. With such endorsements a trustworthiness, efficiency and experience, Mr. Cleland combines the foresight of a superman and the zeal of a profiteer. This is not the way Mr. Flavelle put it, but it is what it amounted to. The half million profit made by the government warehouse in nine months of 1919 was the accomplishment of Mr. Cleland. And he could enlarge the business right along, but, of course, he had to spend money like water to repress the liquor traffic. Between the business instinct of Mr. Cleland and the righteousness of the board, it seemed to be the impact of a great force.

Mr. Flavelle had not considered that Mr. Dewar had not considered that Mr. Dewar: What was Mr. Cleland occupied at before you secured him? Mr. Flavelle: With the Imperial Munitions Board.

Mr. Dewar: Appointed there by Sir Joseph, eh?

Mr. Flavelle: I cannot say.

Mr. Dewar: He was at one time a traveler for the Royal Distillery?

Mr. Flavelle: That was years ago. He ran a liquor store in Hamilton. Then he was appointed government vendor in Hamilton. When he got the cent (Continued on Page 7, Column 4).

MOVE TO HARNESS THE FRENCH RIVER

A Deputation From Northern Towns Have Conference With Sir Adam Beck.

COMMISSION SYMPATHETIC

A proposition to develop power on the French River was taken up yesterday with the chairman of the Hydro-Electric Power Commission, Sir Adam Beck, by a deputation from northern towns, including North Bay, Sturgeon Falls and Sudbury. The result of the conference was a request from the chairman for a memo setting forth the extent of the requirements for power, tributary to the French River, on receipt of which the commission would go into the matter and submit figures on the approximate cost per horsepower to the northern customers. He said he was heartily in sympathy with the appeal, and assured the deputation that as soon as the formal petition arrives from the municipalities, the commission would take action. It is estimated that from 25,000 to 40,000 h.p. is available.

Speaking to The World last night, a member of the deputation said the proposed development on the French River would open a new era for the north, and would make North Bay a lake port as the long deferred canal of the river would probably be hastened by the production of power.

STRIKE IN DENMARK IS FAST EXTENDING

Copenhagen, April 1.—The strike today extended to the bricklayers, metal workers, bookbinders and workmen in many other trades, and to the composers of the newspapers espousing the cause of the Right party.

On the receipt of the news that troops would be brought to Copenhagen from Elsinore and Vordingborg, the railwaymen's union decided not to operate trains carrying troops.

DEMOCRATS OPPOSE RESOLUTION TO END WAR WITH GERMANY

Chairman of National Committee Says Senate is Exceeding Its Powers.

TO VOTE NEXT FRIDAY

Washington, April 1.—Republican leaders in the house completed today their plans to push through a week from tomorrow a resolution declaring the state of war with Germany at an end. The measure was favorably reported today by the foreign affairs committee and will be taken up next Thursday under a nine-hour debate rule, which will bring the vote on Friday.

Action of the Republicans drew the fire tonight of Homer S. Cummings, chairman of the Democratic national committee. In a statement to press representatives he said it marked "about the lowest point of moral capacity to which Republican leadership has descended." It was an attempt, he added, to use the treaty of Versailles, "without first accepting it" and could and probably would lead to international complications. "The seriousness of which it is difficult at this time to conjecture."

The resolution was reported on a strict party vote by the foreign affairs committee. Representative Hadley, Democrat, Alabama, refused to vote, but his colleagues on the committee all opposed the report.

Leading Republican leaders revised their plan to call the measure up Monday because of the probable absence of members on that day owing to the Easter holidays. They had no doubt that it would be adopted, altho the Democrats were lining up against it, but were not equally confident that the necessary two-thirds majority to carry it over a presidential veto could be obtained.

In that connection Mr. Cummings said he did not believe in the movement that the president would sign such a resolution. He said the house was attempting to exercise powers it did not possess.

HOUSING LOANS ARE INCREASED

Federal Cabinet Gives Authority to the Provincial Governments.

MONTREAL BACHELORS LEAD A HUNTED LIFE

Montreal, April 1.—A new terror has been added to the life of bachelors in Montreal. Not merely is he liable for the \$10 tax, which has already brought it up to the sum of \$117,498, but if he tries to escape payment, the girls make sure that he shall not.

About fifty complaints have already been received at the city hall that such and such a man was unmarried and asking that he be sure and be made to pay. All the ladies are given credit for desiring to have the law observed.

SHOULD FLOUR ADVANCE WITH WAREHOUSES FULL?

Move of Milling Interests Finds Scant Sympathy From Consuming Public—Want Government to Buy Stocks and Ship It to Europe.

"While stories are coming in from east and west telling that warehouses are full to the roofs with flour, the millers further complain of the government that scarcity of mill feed is directly traceable and a lack of market for flour. They want the government to co-operate with them in inducing foreign buyers to take a proportion of Canadian wheat as flour, as they fear the vast quantity of flour in the United States export market will be increased in price in Canada at the present moment. The wheat was bought and stored for a price which showed a profit at the fixed sale of the wheat (Continued on Page 5, Column 2).

CLEMENCEAU, KILLING CROCODILE, ADVISES "KEEP YOUR MOUTH SHUT"

Reptile Was Lying With Open Jaws When Tiger of France Planted Bullet in It.

Cairo, Egypt, April 1.—Georges Clemenceau, former prime minister of France, radiating strength and vigor as a result of his vacation in Egypt and the Sudan, tells of bagging a crocodile on the upper Nile, as one of the proudest achievements of his four score of years.

"They call me 'the tiger' in France," he said. "I believe this is the first time that a tiger has killed a crocodile."

The great reptile, basking in the warm sunshine, opened its enormous mouth when M. Clemenceau approached. A bullet struck the crocodile inside its mouth, killing it.

"I have always held," said M. Clemenceau drily, "that reptiles, as well as human beings, should keep their mouths shut."

DOMINION ALLIANCE ATTACK BRINGS PROMINENT CHURCHMEN TO THE GOVERNMENT'S DEFENCE

Cabinet's Attitude Has Not Changed, Say Ministers in Statement—Whole Issue May Be Reopened, is Latest Prediction—Parties Lining Up for a Battle.

Rev. Ben Spence, Rev. Dr. Shearer and Rev. Albert Moore were callers at the parliament building yesterday. Attorney-general Raney, who has troubles of his own these days, saw that the Premier Drury was also in consultation. Presumably the interview was in part concerned with the manifesto of the Ontario Alliance on the native wine (temperance) issue. Premier Drury authorized the following statement:

"The government has not changed its attitude. We have had no influential representations of any sort. This is not the matter we are considering."

The allusion to influential parties was a quotation from the alliance native wine pronouncement.

The Ontario committee will meet on Tuesday when the legislature reassembles after Easter and it is expected that not only the native wine, but the whole temperance issue will be on the carpet again.

That the temperance legislation of which the government has announced its intention will not have a smooth sailing is indicated by discussions heard in the corridors and lobbies. The divergent views in the camp of the prohibitionists is also adding to the government's pack of trouble and predictions are heard that the whole temperance issue will have to be reopened. Leaders of both Conservatives and Liberals declare their lack of sympathy with the government's refusal to announce a liquor policy.

The premier's declaration finds support in a statement given last evening by Revs. Moore, Grant and Shearer, who, in contradiction of the suggestion that the government's attitude has changed, recall the words of the attorney-general on March 1st. That the temperance forces need not look for any change in the O.T.A. at present. They also declare that the purpose of their visit to the government was to urge the introduction of the resolution calling for the taking of a referendum.

Following is the statement:

"The attention of the undersigned has been called to the statement issued by the Ontario branch of the Dominion Alliance:

"There were surprised to find that the Ontario government had changed on the question of the advisability of removing exemptions of the Ontario temperance act as contained in section 44, which permits the sale of native wines. This change has apparently been brought about by representatives (Continued on Page 5, Column 3).

DELEGATES GATHER FROM ALL ONTARIO FOR LABOR MEETING

Convention of Independent Party Opens in London, Ont., This Morning.

MAY ALTER PLATFORM

London, Ont., April 1.—Delegates from as far west as Schreiber and Sault Ste. Marie arrived in London tonight to attend the annual convention of the Ontario Independent Labor party, which opens tomorrow in the Masonic Temple. Contrary to general expectations, Hon. Walter Rollo, minister of labor, did not arrive, nor did Hon. Harry Mills, minister of mines, but they are expected tomorrow morning.

Among the delegates who arrived tonight were a number of ladies, in fact, the honors were about evenly divided on this score.

An executive meeting was held in the committee rooms to arrange the order of business for the convention. On account of the fact that President Hon. Walter Rollo was absent, the resolutions that will come up for discussion tomorrow were not taken up.

Vital Minutes

Secretary Joseph T. Marks of Toronto assured the delegates that the business to be brought up tomorrow is of the utmost importance to the Independent Labor party. He estimated that all of the resolutions have a bearing on the platform of the party. While it was not openly stated, it was hinted that this convention may possibly be the forerunner of a regular campaign to get the party in good shape for the federal elections when the time arrives.

It is considered probable that some definite steps will be taken to place the organization on a more business-like basis than it is at present. For instance, up to this time there have been no party organizers, nor has there been even an office organizer.

To Debate Tariff

The tariff will be up for discussion also at this convention. In fact, it is expected that this one question will take up a great deal of the time of the delegates. One resolution, dealing with the industrial conditions, will also be presented for consideration. This one asks that in all and any industrial organization for production, transportation, exchange and distribution of commodities or services, where ten or more citizens of 15 years and over are employed, the employees, the books of records and of accounts in which are kept the details regarding investment, production, production, wages, salaries, bonuses, profits, dividends and commissions, and other particulars showing the financial condition of investors, owners or directors of such industry, shall be legally recognized as the common property of the whole working democracy engaged permanently in such industry, without regard to class distinction as between employers and employees, who jointly create the product.

Another resolution will ask that the federal and provincial governments be urged to give to co-operative societies every reasonable encouragement, and to pass legislation necessary to insure their incorporation and operation of their undertakings.

BIG STRIKE STARTS ON NEW YORK DOCKS

All Crews Operating Railroad Ferries and Freight Handlers Are Out.

New York, April 1.—Obeying a strike call involving 8000 to 15,000 marine workers, crews operating railroad ferry boats began at 9 o'clock tying up their craft, after the rush of homeward-bound commuters had ended. Engine-room and deck forces of railroad-owned tugs and lighters were called out this afternoon.

All railroad ferries operated between Manhattan and the Jersey shore, except the Lackawanna lines, which were able to continue through three previous strikes, were affected.

The strike, which involves also freight handlers affiliated with unions included in the Marine Workers' Association, and comes at a time when several hundred coastwise longshoremen have stopped work, was called today.

Ferries and tugs operated by the city, and harbor craft owned and controlled by the shipping board or other branches of the government will not be affected by the strike, the union leaders said.

Unions taking part in the strike are the National Association of Masters, Mates and Pilots, the Marine Engineers' Benefit Association, and the Harbor Boatmen.

The men are striking, according to officers of the amalgamated union, to "enforce a continued observance of the eight-hour day," which they say is threatened by the action of one of the railroads in selling part of its tugs and harbor barges to a so-called independent company, not under jurisdiction of railroad regulations.

A number of employees of the Erie, operating these boats, were laid off with the sale of the property, and the union are asking that these men be reinstated.

WILL PRESS DRURY TO DECLARE POLICY

Lobbies Hum With Discussion of Government's Move on the Temperance Issue.

OLD PARTIES ARE AROUSED

Yesterday the legislative lobbies were busy discussing the position in which the Drury government has placed itself on the temperance issue. The Conservatives are declared to be definitely prepared to move want of confidence in the government when one of the government supporters as a private member brings the matter before the assembly.

The ground taken is that the assembly should not permit the government to cast aside its responsibility for a definite policy on a question that is indisputably the business of the executive and administration. The government is, however, on record as approving, by the attorney-general's declaration, the scheme of a private member taking charge of the temperance resolution and absolving the government following from any obligation to stand for or against the issue of a referendum on liquor importations.

One of the leaders of the party said: "If they take this course on temperance, they can take it upon any question of public policy. We cannot permit this to be made a precedent. Besides, the temperance question is sufficiently substantial to form the basis of a straight issue of government responsibility. We are warned to watch all legislation for signs of the tendency displayed so flagrantly by the government on Wednesday evening."

The Liberals are also worked up. Major Toimle and Howard Ferguson took identical positions in the demand for a frank declaration from Mr. Raney. It is even said some of the Labor men are displeased and want to stand for the principle of cabinet responsibility for definite policies.

Mr. Dewar was busy from 7 o'clock yesterday with deputations and the public accounts till he took the train to Brantford to be present at the public ceremony in honor of the late Hon. A. S. Hardy.

STAGE HOLD-UP
IN OTTAWA BANK

Three Heavily-Armed Men
Relieve Bank of Nova Scotia
Teller of Funds.

Ottawa, April 1.—Three heavily-armed men entered the Rideau and Chapel street branch of the Bank of Nova Scotia at 2.30 this afternoon and relieved the teller of about \$1000.

The men are unknown to the police authorities at present and are still at large. After the hold-up they ran down one of the side streets. Manager J. H. Boyd was not in the office at the time, and returning to the bank with his family, the hold-up men drove the junior clerk into the cellar.

Were Heavily Armed.
The cellar door was opened and the total contents taken. Several thousand dollars had been taken to the head office of the bank earlier in the morning, and the \$1000 taken by the robbers was the cash taken in during the morning.

The police were at once called and are working on the case. Teller Scott stated that the men were heavily armed, and gave him no chance to resist. The men backed him into a corner of the office and helped themselves to the contents of the money drawer. There is no safe in this branch, which has only recently been opened, and no large amounts of money are kept there.

The local police and detective forces are making strenuous efforts to locate the robbers, but up to this morning had been unsuccessful.

Story Told by Teller.
Mr. William Scott, the teller, said: "I was making entries in my day book shortly after 2 o'clock when I heard the door open and saw some men come in. In the meantime I had sent Edward Fleming, the ledger keeper, to the basement to get some stationery. I did not pay attention to the men who entered, but went on finishing the work I was doing. Concluding it, I looked up into the muzzles of the revolvers and was greeted with the curt command, 'Throw up your hands and keep them up.' Although a revolver was on the desk a few feet away I had no chance to get it."

Unlocked Teller's Cage.
One of the men covered the teller, a second guarded the street. The teller was forced to unlock the door leading to the teller's cage. The third man went into the cage and took the money.

Fleming, returning from the basement, was ordered back by the men who had taken the money and they then made a getaway.

The robbers went about the business as they were old timers at the game, Mr. Scott says.

White Horse is Only Cue.
The only clue further than the description of the men given by the teller is a white horse and rubber boots. A short distance from the bank, and the police are unable to find anyone who saw the men leaving the bank. The man who covered the teller is described as about 25 or 30 years old, clear complexion with dark brown eyes.

It is expected that when the owner of the rig is located the police will obtain a more complete description of the gang.

Waive Restrictions
Against Immigration
Trades Council Endorses Part of
Single Tax Platform.

Dick Russell, an official of the union of waiters and cooks last night strenuously objected to waiving restrictions against immigration to Canada. This was at the regular session of the Trades Council when the Trades Federation, Gideon Robertson, advocating the cancellation of the restrictions was read out. Russell, on behalf of many returned men in Toronto, pointed out that it was the custom of hotel managers to get help from the United States and that the fact that the union had 35 members unemployed on its rolls.

Mrs. Remington of the Domestic Workers' Union pointed out that steps were being taken in some cases to get girls right off the train at Halifax to take the place of union men and women cooks and domestics in the city of Toronto. The recommendation to waive restrictions was finally carried.

Steamer Prince Albert Arrives in

liding With Sister Ship.

Prince Rupert, B.C., April 1.—Pas- sengers from the wrecked steamer Prince John were landed here today by the steamer Prince Albert, which collided with the Prince John off Queen Charlotte island, near here, several days ago. Both boats belong to the Grand Trunk Pacific line.

Officers of the steamers said the Prince Albert's bow drove 10 feet into the Prince John near the engine-room. When the prow embedded in the other steamer, the Prince Albert continued steaming toward shore, without waiting for the passengers to be transferred. Later the Prince John was beached.

Ruhr Revolution
Comes to an End
Workmen Have Accepted
Compromise Proposals of
Berlin Government.

Dusseldorf, April 1.—Compromise proposals made by the Berlin government were accepted by the workmen's general conference at Essen today, and thus the Ruhr revolution is ended, according to a telephone message received here from Essen to- night.

Leaders of the communist army are said to have expressed their objection to capitulating, saying they preferred to die fighting, but submitted the matter to a decision of the majority of the central committee of the Ruhr district.

Agreement was reached on the basis of the Beisfeld terms, but communist had been extended until noon to- morrow. It is understood that if the communist army and workmen start to comply with the terms in good faith immediately, the government is willing to give a reasonable time for the disarming and withdrawal of red troops which would be technically required by noon to-morrow.

Voted to Accept.
Essen, April 1.—The central com- mittee and two hundred delegates of all the local committees voted this afternoon unanimous acceptance of the Beisfeld agreement of March 24.

The workmen's central committee had been in session for many hours discussing the terms that delegates brought back from Muenster. There was some discussion with the re- sults of the Muenster conference, but most of the members of the central committee maintained an optimistic attitude.

Easter Travel
Will Be Heavy
Railway Officials at Montreal
Predict Advance Over
Last Year.

Montreal, April 1.—Easter travel promises to be heavy this year out of Montreal, according to indications fur- nished. Inquiries at the Windsor Sta- tion tonight elicited the information that Canadian Pacific trains were carrying large numbers of travellers in two sections east and station officials estimate that this year's traffic will be about 35 per cent. over that of last year. But Easter travel is still heavier like what it used to be in pre- war days, when trains to New York went out in five sections. The Dela- ware & Hudson train from the Wind- sor station for New York last night had fourteen sleepers attached to it and the Boston train had three extra sleepers.

Grand Trunk officials at Bonaven- ture station had much the same story to tell at Windsor station.

The abolition of special holiday fares, increases in regular fares and high rates of exchange had all operated to cut down the volume of traffic to the States to the minimum.

Baltimore, Md., April 1.—After hav- ing been adrift in a seaplane for 16 hours, without food or water, Major Sidney E. Parker of the British army and Miss Blanche Frazer arrived here today on the steamship Hilton, by which they were picked up on Sunday last.

Captain Carey said he found Major Parker and Miss Frazer in their plane about 15 miles southeast of Jupiter, on the Florida coast.

HAMILTON

Hamilton, April 1.—Over 235 men employed in the packing houses of the E. W. Fanning Company and the Armour Company went on strike to- day, following the refusal of the com- panies to meet the demands of the newly-organized Meat Cutters' and Butcher Workers' Union, which asked for an increase in wages averag- ing about 50 per cent. and recogni- tion of the union.

Charles O'Neill, who was arrested about ten days ago with six others in connection with the robbery of Con- nor Bros. jewelry store on Locke street, was found guilty of stealing several rings and a wrist watch by Magistrate Jells in the police court today, and was remanded for sen- tence.

After a brief discussion, the work of teaching the English language to Chinese, Bulgarians, Armenians and other foreigners by the Cosmopolitan Mission on East Barton street, was endorsed by the board of education.

Walter H. Davis has again been recommended for appointment as city treasurer. Ernest McMillan, ac- countant in the Hydro department, was really the only other name seriously considered by the board of control this afternoon.

Fred Douglas, an Indian, is under arrest, charged by Max Sitemax with obtaining money under false pretences. The public library board this evening appointed two substitute assistant librarians to assist during the vaca- tion season. Miss Wilson was grant- ed one month leave of absence. The reports of the various committees were adopted.

The city council, in special session this evening, endorsed the recom- mendation of the board of control, that a bylaw be submitted to the ratepay- ers if permission be granted by the Ontario legislature, to which applica- tion has already been made, by June 1, 1920, for the establishment of a municipal gas plant.

The police commissioners today re- fused the application of the caretaker of the patrol station for an increase of \$10 per month over her present salary of \$25.

The commission declined to alter its decision to permit Central Branch, G. W. V. A., to hold its carnival June 28 to July 3, but the representatives of the Soldiers' and Sailors' Federation were advised to join with the G. W. V. A. in fixing a common date.

SUGGESTS BIG BITE
OUT OF TOWNSHIP

Executive of North Riverdale
Ratepayers Advance
the Issue.

North Riverdale Ratepayers' Asso- ciation executive committee suggested a big bite out of the township on the 10th anniversary of the township's creation at a meeting at the residence of the president, Dr. E. A. McDonald, Broadview avenue, recently.

It was decided to submit to the members at the next regular meeting in Frankland School, Logan avenue, the following proposal: "That the city council take into consideration the annexation of the North Riverdale district within the following areas: Don Mills road to Plains road, extending to the C.N.R. tracks, and following the C.N.R. to Dawes road. The urgency of the recommendation from a health stand- point was also pointed out.

The chairman urged that this dis- trict should be annexed, although greater in size than was contemplated by the groups of ratepayers living north of Danforth who have petitioned for an- nexation.

The area under discussion, Dr. Mc- Donald pointed out, took in that por- tion of the Township along the en- tire length of Danforth avenue, from Don Mills road to the end of the civic car line, in a somewhat semi-circular sweep, the greatest depth being be- tween a mile and a half and a mile and three-quarters. Although there are several large gaps between the con- gested sections, consisting of market gardens and vacant land, yet the bene- fit of the car line extensively through the township, Dr. McDonald declared, few, if any, ratepayers would be adversely affected.

Other matters of local interest were briefly discussed.

DAUGHTERS OF SCOTLAND
DANCE
Under the auspices of St. Margar- ete's Camp number two, Daughters of the Kingdom, the seventh annual "at Home," was held in Playter's Hall, Danforth avenue, last night. Mrs. James West, president, presided, and 250 guests were present. Euehr and dancing were provided by the evening and Munro's orchestra rendered a varied dance program for the large number of couples who almost filled the large ball room.

REPAIRS AT RACE TRACK
According to the statement of W. B. Fraser, who shortly be- came to Woodbine race track which was damaged in the wind storm of last November to the extent of about \$100,000, the storm party wrecked the grand stand and part of the booth, the roofing of the stable and fencing.

CATHOLIC CHURCH SERVICES.
Throughout the east and in all Catholic churches, Holy Thursday services were held yesterday. Solemn mass was celebrated at Holy Name Church, Danforth avenue, by Rev. Father Cline in the presence of a congregation which filled the edifice.

The ceremony of placing the blessed sacrament in the altar of repose fol- lowed the celebration of the mass. In the evening Rev. M. Cline preached a sermon proper to the institution of the blessed sacrament.

RENDED "CRUCIFIXION."
Under the leadership of Wilson Davidson, chairman of the choir, Danforth Baptist Church impressively rendered the cantata, "Crucifixion" before a crowded audience in the au- ditorium last night. The cantata was given by H. C. Treney, tenor, and A. Milton, baritone. The proceeds will be devoted to the choir funds. Rev. O. C. Elliott, pastor, pre- sided.

Plans are now prepared for the new Danforth sub-postoffice, which is to occupy the store now leased by Mr. Arnold on the northeast corner of Ferrier and Danforth avenues. The postoffice authorities have possession of the premises from April 1 and considerable interior and exterior structural alterations will be made. When completed the first morning delivery of mail will take place at 8 o'clock, being one hour earlier than at the present time.

WANT TEMPERANCE LEGISLA-
TION.
The annual meeting of the Cana- dian Order of Rechabites Temperance Friendly Society was held in Bonar Church Hall last night with a full attendance of members.

It was agreed to petition the Do- minion government to pass legisla- tion to prohibit the manufacture and importation of liquor for beverage purposes, also inter-provincial impor- tation.

Young Men's All-Wool Blue Serge Suits, \$29.50

Young Men's Spring Topcoats, \$25.00

Rubberized Tweed and Paramatta Coats, \$6.75

THE ALL-WOOL BLUE SERGE SUITS ARE OF WORSTED FINISHED MATERIAL—material that was bought some time ago in a great quantity; gradually it is being turned into suits in the most approved styles by skilled EATON tailors. For instance, Saturday one may choose from such new models as the one-link, single-breasted model with slash pockets, and the 2-button, semi-fitting, single-breasted model with regular pockets. Trousers are smartly cut and have 2 hip and 2 side pockets and watch pocket; belt loops and cuff bottoms. Vests are in five-button style and fairly high cut. Linings consist of black lustra.

Remember, these are All-wool Blue Serge Suits, made by EATON tailors and offered at a typical EATON price. Sizes 34 to 40.

\$29.50

\$6.75 Buys a "Two-Purpose" Tweed Top Coat

Or a Paramatta Raincoat

The "Two-purpose" Coats offer a varied selection of shades and patterns to choose from, there being fawns, greys and greens in various mixtures and shades.

They're of a rubberized cotton, and cotton and wool material, in tweed effect, in slip-on and all-around belted models.

Have close-fitting convertible collars and wind strap or cuff on sleeves. Pockets are of the patch or slash style type.

The Paramatta Coats are of cotton, in single-breasted motor style, with collar that buttons close to neck; pockets are regular. Not all sizes in every line, but in the lot are sizes 34 to 40. Saturday, reduced price, \$6.75.

\$25.00 Buys a Man's or a Young Man's Spring Topcoat

And Mark Well \$25.00 is a Greatly Reduced Price.

It's a clearance of odd and broken lines, taking in some of the newest models, there being young men's semi-form-fitting styles with slash pockets. Men's single-breasted slip-ons, and single and double-breasted coats with raglan shoulders, and patch pockets having flaps. Most of the coats have the new wide collar, and rather wide notched lapels. Some have cuff effect on sleeves. Materials consist of cheviot finished wool, and cotton and cotton and wool fabrics, in plain medium greys, mixed browns and green, broken checked designs. Linings are of Italian twill or mercerized cotton. Sizes 34 to 42. Reduced price.

MODERN SUBMARINE TREASURE HUNTERS

Peril From Octopus, Shark and Conger Eel—Search for Spanish Armada Riches.

The professional diver is going to be a busy man for years to come, and many adventurous recruits will join his ranks, so huge is the treasure strewn over the sea bottom by ruthless submarines.

Of the 379 British merchant ships sunk by the enemy over 100, many of them practically new vessels, with total tonnage of over 2,000,000, lie within workable depth. Vessels can be salvaged from a depth of twenty fathoms (120 feet), and cargoes from a still greater depth.

Mr. R. H. Davis, managing director of Siebe, Gorman & Co., the well-known submarine engineering firm, writes that salvage operations were rendered possible only by the invention of the diving helmet in 1819.

His greatest danger—the octopus, fortunately, in our seas—is from the octopus, a creature with affectionate tendencies and twining tentacles. The shark, too, provides his thrills, but he is by no means so dreadful to meet as the octopus.

An eight-foot conger eel, weighing about a hundredweight, must be treated with respect. One became wedged in the worn machinery of an old harbor tug, and a diver engaged in repairs had a narrow escape from its bite.

Seeking One Ship, Found Another. In 1842 the Royal George, which sank with Admiral Knowles' fleet, was "twice four hundred men" in Spithhead in 1842, was examined by divers, and many relics were discovered, among them a silver dish, wine bottle, pistol, china cup, and a ring.

The Octopus, Shark and Conger Eel. Since the advent of the modern diving equipment, there have been many romantic discoveries on the sea bed, and divers engaged in salvage work have met with not a few startling adventures.

In his work, the diver has occasionally to face perils that seem like nightmares to the ordinary person. His greatest danger—the octopus, fortunately, in our seas—is from the octopus, a creature with affectionate tendencies and twining tentacles.

The Spanish fleet, however, grips the imagination more than anything else can do. When Philip II. packed off his great armada, it was thought that he was opening one of the wildest chapters of treasure-trove in the world's story.

Two Liverpool divers were employed; and, one complaining of thirst, the other claimed the rocky island to be a source of water from a spring. Happening to look seawards he observed a whole fleet of junks making for the island.

Irish Papers Sneer at Home Rule Bill. Dublin, April 1.—The Irish Times, commenting editorially on the Irish home rule bill, says that even should it become law there would remain a wide gap between enactment and enforcement. It declares:

"Two points will become more obvious as the bill moves toward the statute book—it surrenders three-fourths of Ireland to the forces of anarchy and plants a cancer in every heart in the empire."

The Freeman's Journal says: "The bill can have no other effect than to make confusion more confounded." The Irish Independent says: "The bill was framed on the assumption that the Irish people are idiots and that any abominable system of government is good enough for them."

COW'S DENTIST. An Australian townman living at Kewwick reported that some miscreant had pulled nearly all the teeth of the family cow, and an instrument had been found in the field. A policeman and a veterinary surgeon examined the cow, and it was discovered to be suffering from concussion. There was apparently nothing the matter with its mouth, and the explanation of the trouble was that its owner was not aware that a cow has no front top teeth. The instrument picked up belonged to a blacksmith, and had fallen thru his fence into the paddock.

THE BIG BEND OF TEXAS

Military Trails of the Troublesome Border Run Thru Fairylands.

Time and again during the last decade, the Big Bend of Texas has had an important place in the news of the troublesome Mexican border. It was the Big Bend that two of the three big raids were made from Mexico into the United States, and more recently it was in the same territory that two American army aviators were captured by the Chico Cano band, to be held for ransom.

Guarding the Big Bend is one of the most important of the problems that confront the military administration on the border, and has cost many lives. The main line of the Southern Pacific Railroad skirts the northern edge of the bend, but there are no rail lines in the southern part, and communication between Marfa, Sanderson, Alpine and Marathon, the northern railway bases of the military force, and Ojninga, Indio, Glenns Springs, Shafter and other isolated points along the border and in the interior is maintained by motor truck, pack trains and airplanes.

In numberless instances, the military routes are nothing more than ancient trails, the same used by the Indians in the days before white men emigrated into the Big Bend country.

These roads and trails lead thru a veritable fairland of high jagged mountains, deep canyons and beautiful valleys. Some of the lines of communication are thru a country so primitive that only mule pack trains can negotiate them.

The most inspiring of the Big Bend scenic spectacles is the Grand Canyon of the Rio Grande, more than two thousand feet deep. Another beautiful picture is to be found in western Presidio county. This is Capote Falls in the Sierra Vieja mountains. The Capote river drops nearly one thousand feet, from a canyon-like formation of the mountain top, into a forest below.

With these natural wonders there is also to be found in the crescent worldland as much wild game, probably, as is to be found in any section of country of equal size. Deer are numbered in the thousands, quail are to be found everywhere in count, and wild turkeys and rabbits abound, while bear is plentiful in the mountains. There are panthers, wildcats and rattlesnakes, too.

The ranches which dot the Big Bend are among the finest in the southwest. The grass rivals the bluegrass of Kentucky and Tennessee, and the great ranches of the Angora goats are conceded to be among the most valuable to be found anywhere on this continent.

Some of these great ranches owe to the fact that they are near the border, and are protected by block-houses, to be defended by the cowboys in the event of raids upon the little army posts maintained in every part of the Big Bend country.

GERMAN WAR CRIMINALS TO SEND IN ADDRESSES. Leipzig, April 1.—The committee, which under the direction of the German Bar Association is to defend the persons on the allied extradition list, has notified all parties concerned through advertisements in the newspapers to communicate immediately their addresses to the committee.

WOMAN SUFFRAGE FAILS IN THIRTY-SIXTH STATE. Dover, Del., April 1.—The ratification of resolution to make Delaware the thirty-sixth state necessary to write the woman suffrage amendment into the constitution of the United States went down to defeat in the house of representatives today. The vote was 22 to 9, but before the result was announced three members changed from aye to nay to place themselves in a parliamentary position to move for reconsideration, and the member who was not down as voting asked to be recorded in the negative.

IRISH PAPERS SNEER AT HOME RULE BILL. Dublin, April 1.—The Irish Times, commenting editorially on the Irish home rule bill, says that even should it become law there would remain a wide gap between enactment and enforcement. It declares:

"Two points will become more obvious as the bill moves toward the statute book—it surrenders three-fourths of Ireland to the forces of anarchy and plants a cancer in every heart in the empire."

VISION REQUIRED IN TOWN PLANNING

Reservations Should Be Made for Future Parks, Says A. V. Hall.

"In a broad way, town planning has been defined as the application of scientific principle to all matters connected with town or city. The factors which constitute a city, in the order in which they do so are: (1) industry and external transportation; (2) health and living conditions for citizens; (3) internal transportation; (4) market and food supply; (5) education; (6) recreation; and (7) civic centre and monumental buildings," said Mr. A. V. Hall in addressing the Toronto branch of the Engineering Institute last evening in the Engineers' Club. He dealt at considerable length with each of the above heads and gave his views on the town planning as applied to new cities and old cities.

He said planning for a new city or town must be something orderly and prepared for future expansion along the main line of the steam, water and electric routes of transportation. The centre of the future civic life should be located naturally and conveniently, from which radiated the main streets. Reservations should also be made for future parks.

Old Towns and Cities. Mr. Hall, in dealing with old towns and cities, said the real plan for the future consisted of the study of the general system of arterial streets and transportation lines, including those of motor, steam, electric and gas, and the study of existing and provision for the future, sanitary and drainage requirements, (4) provision for parks and open spaces and resorts for recreation and amusement; (5) zoning, which is a provision for the classification of land, and for certain uses for classified industry, classified business and classified residential uses; (6) the study of communication, such as the width of streets according to their requirements, and the study of the requirements of public service corporations such as the telephone, electric lines, gas, street railway and bus and motor.

Speaking of external transportation, Mr. Hall said that 90 per cent. of the problems between railway companies and the cities do not exist if the cities had had a constructive policy and a plan for the future.

In conclusion the speaker recommended the opening up of organizations which would make the study of town planning one of their principal objects. "The citizens of tomorrow should be educated in the civic life and municipal government of their own city and made familiar with some of the proposals that will come before them at ratifiers later on."

A resolution by the Montreal branch of the Institute, dealing with the remuneration of engineers was unanimously endorsed. The meeting also, unanimously, resolved to make representations to the Dominion government and urge upon them the importance of having at least one engineer on the new Dominion board of health.

INCREASED FARES SET PARIS ON ITS FEET. Paris, April 1.—The increased fares which went into effect today in the subway and the crowded streets of the city resulted in the crowding of the streets this morning by pedestrians on their way to business. All classes were represented among the walkers. Good humor prevailed everywhere. The shop girls seemed to enjoy the invigorating air of the morning, although some of them appeared fatigued after having "hiked" distances of three and four miles. One little midnette was overheard to say that she had walked from the Gare du Nord to the Gare de l'Est, and it was also tiresome, she said, but it was also more expensive than riding, especially with shoes selling at 100 francs, 25 centimes a pair.

COME IN HANDY. Stage-struck Maiden (after trying her voice): "Do you think I can ever do anything with my voice?" Stage Manager: "Well, it may come in handy in case of fire."

VETERANS STILL OPPOSED TO CASH BONUS

Intimated That Federal Government Will Not Grant Soldier's Request.

Ottawa, April 1.—(By Canadian Press.)—The halls of parliament are virtually deserted today. Practically all the members who are within reasonable travelling distance of Ottawa have gone to their homes until next Tuesday, and those who live too far away to go home are for the most part, wishing they were there. It is intimated that there will likely be an announcement soon to the effect that the government has not changed its attitude toward cash bonuses, but is as firmly opposed to them as ever.

This, it is understood, was intimated to a delegation of returned soldiers which met the soldier members of the house earlier in the present week. There is talk of the budget speech being delayed until the prime minister is back in the house, in which case, with a budget debate of three weeks or a month in duration, there would be no prorogation before almost the end of May. However, the members are talking now of getting home about May 24 unless anything unforeseen happens.

SEYCHELLES ISLANDS RAVAGED BY HOOKWORM. New York, April 1.—Ninety per cent. of the 23,000 natives of the Seychelles Islands, British possessions north of Madagascar, are afflicted with hookworm, according to Dr. J. Fox Kendrick of the Rockefeller foundation, who arrived here today on the steamship Mongolia from Hamburg. Since 1917 the physician has been in the islands, endeavoring to eradicate the disease. He has also been working in Mauritius and Ceylon, fighting malaria among the natives.

WALTHY THIEF. A fuss among the chickens in a coop in the yard of a widow at Gardner, Maine, brought out their owner the other night to investigate. She frightened a thief away. But in the morning she found the chicken house floor a \$10 bill. The thief evidently had pulled a string out of his pocket with which to tie the chickens, and out with it came the \$10. Nobody has yet claimed the money.

DOING WELL. When mother and her brood started for town the weather was threatening, and she did not go unprepared. In due time they stepped off the crowded train at the South Station. "Have you got all the umbrellas, Johnny?" was her first question. "I had three when I started and now I've got five."

Postponing Opening to Soldiers of Qd Doukhor Lands in West. Ottawa, April 1.—The opening for soldier settlement of ten thousand acres of former Doukhor lands near Kamack, Sask., has been postponed from April 15 to April 25.

ENQUIRIES ABOUT MEDALS. Ottawa, April 1.—The government's intention in regard to medals to be given for service in the late war is the subject of questions to be asked in the house by Capt. R. J. Manion (Fort William). Capt. Manion asks further, if the government intends giving any recognition in the form of a medal for service to those men who did not get overseas and who will have a complete announcement as to the government's policy in this matter be made.

WILL FORM NEW BRANCH. When the delegates from the soldiers' organization in the United States to a mass meeting will be held under the auspices of the G. A. R. and U. V. L. when the Canadian R. J. Manion will be formed. Col. John A. Currie, M.P., will preside.

U. V. L. TAG DAY. April the 3rd has been decided upon as the date for the United Veterans League tag day. Twelve hundred workers will be on the city and as the object is to raise funds for the fit of returned men and their dependents, it is expected and believed that the response will be generous. The Kitchener branch of the U. V. L. has been chartered at the 100th of the Dominion president on Wednesday membership having passed the 100 mark.

ABOLISH STRATFORD OFFICE. Guelph, Ont., April 1.—(Special.)—The vocational branch of the department of soldiers' civil re-establishment at Stratford, has been done away with and the staff has been transferred to the local headquarters on Quebec street.

SECURED RELEASE OF SOLDIER. The U.V.L. has been instrumental in obtaining the release from the military prison of a Canadian soldier, Harry Stranahan, who was sentenced to three years' hard labor for some trivial offense. He served three months of this term and has now returned to Toronto. The same association is interested in the case of another soldier, Harry Cohen, who is still in Cairo military prison, although the authorities state that he was acquitted some time ago.

ALLOWANCE FOR SYRIAN. A Syrian, who enlisted in the C.E.F. early in the war, has just learned that his wife, who lives in Syria, has received a cheque for \$119 as full payment of her allowance, to which she was not entitled during the war, as she was a resident in an enemy country. The United Veterans League took the matter up and convinced the government that as Syria is now a British ally, the objection no longer holds good, with the result that the wife will get the money.

JAPS MAKE BUNKS TOO SHORT. Bunks were too short on nineteen ships Japan is building for the United States, so the plans have been changed. The Japanese thought sleeping bunks five feet long would be big enough, but the Yankee sailors need room to stretch out. Porcelain baths will replace the little wooden tubs that the Orientals were installing. The changes will increase the cost of the vessels by \$50,000 each.

ENGLAND VALUES EDUCATED WOMEN

University Degree Now is Considered a Business Asset.

London.—The young women of this country who desire to enter the well-paid professions, have suddenly come to the decision that there is a cash value in a university degree. As a result, the women's colleges at Oxford and Cambridge, cannot begin to be filled with applications for admission. Somerville and Lady Margaret's at Oxford, and Newnham and Girton at Cambridge, cannot begin to accommodate all those who wish admission, it is stated.

The growing popularity of the women's colleges is due largely to the number of excellent positions which have recently been secured by university women. Despite previous prejudices, employers have discovered that a modern university education is a business asset. One commercial man recently stated publicly:

"The Oxford woman writes a good, clear letter and has more common sense than a score of ordinary clerks. And what is more, in these days she is not afraid of work." The university women are also finding employment in all sorts of welfare work, and as inspectors in establishments where women are employed. Offers of work as inspectors are being received from America. It is stated, and good salaries are offered.

FRANCE SUFFERING RACIAL SUICIDE. Clemenceau Urges Raise of Birth Rate to Save Nation. Paris.—Former Premier Clemenceau's pithy advice to the French on his last speaking tour: "Pay your taxes and have children," has been followed by a crystallizing of sentiment for prompt remedies to the gradually decreasing birth rate. "How to save France" and like phrases are being used in a vigorous campaign by the National Alliance, organized to fight birth control and to encourage the increase of population by making it an honor to have large families and by giving bonuses for all children after the second.

WHEN MONEY SAYS "GOOD-BY." Standing on a bridge at Flushing, N.Y., a young woman dropped her purse containing \$5.37. It landed on a cake of ice that was moving seaward. The girl ran down the bank and plunged into the icy water. In a moment she was swept beyond her depth and was crying for help. A patrolman threw her a rope, but she could not reach it. A young man jumped into the stream, seized the woman and swam to the rope. They were pulled out, and after the girl thawed herself out in the police station. At last reports the purse was still in cold storage.

MESSAGE OF RULBAYAT. A physician's widow sent a boy to a drug store for chloroform and then poisoned herself in a Detroit hotel. Alongside the bed was an open copy of the Rubaiyat of Omar Khayyam with this message marked: "The doctor's finger writes, and having writ Moves on; nor all our piety nor wit Shall lure it back to cancel half a Verse, nor all our tears wash out a word of it."

PETLURA TO RECRUIT AN ARMY OF CZECHS

Warsaw, April 1.—Simon Petlura, the Ukrainian leader, has visited Prague for the purpose of arranging for the formation of a Czech army to be used against the Russian Bolsheviks in the Ukrainian front, according to newspaper reports.

A force of 6,000 Ukrainians, newly recruited, was recently thrown against the Soviet line on the southern front. It is stated in despatches received here. Reports have been received here indicating the Bolsheviks are withdrawing large numbers of units from the vicinity of Odessa, and it is believed they intend to make a concentrated drive on the northern front before spring thaws begin.

FRANCE SUFFERING RACIAL SUICIDE. Clemenceau Urges Raise of Birth Rate to Save Nation. Paris.—Former Premier Clemenceau's pithy advice to the French on his last speaking tour: "Pay your taxes and have children," has been followed by a crystallizing of sentiment for prompt remedies to the gradually decreasing birth rate. "How to save France" and like phrases are being used in a vigorous campaign by the National Alliance, organized to fight birth control and to encourage the increase of population by making it an honor to have large families and by giving bonuses for all children after the second.

WHEN MONEY SAYS "GOOD-BY." Standing on a bridge at Flushing, N.Y., a young woman dropped her purse containing \$5.37. It landed on a cake of ice that was moving seaward. The girl ran down the bank and plunged into the icy water. In a moment she was swept beyond her depth and was crying for help. A patrolman threw her a rope, but she could not reach it. A young man jumped into the stream, seized the woman and swam to the rope. They were pulled out, and after the girl thawed herself out in the police station. At last reports the purse was still in cold storage.

MESSAGE OF RULBAYAT. A physician's widow sent a boy to a drug store for chloroform and then poisoned herself in a Detroit hotel. Alongside the bed was an open copy of the Rubaiyat of Omar Khayyam with this message marked: "The doctor's finger writes, and having writ Moves on; nor all our piety nor wit Shall lure it back to cancel half a Verse, nor all our tears wash out a word of it."

OVERLAND BRANCH OPENS TO PUBLIC. Motor Show at 100 Richmond West is Attracting Crowds of Toronto Motorists. The formal opening yesterday of Toronto branch, Willys-Overland Limited, was marked by considerable interest in the showing of Willys-Knight and Overland motor cars at the showrooms, 100 Richmond street west. The branch was actually established several months ago, but extensive alterations have been made to the building, and just recently negotiations were completed for a service station at 657 Queen street east, containing 35,000 square feet of floor space. It is said this will give the company the largest and best-equipped service station in Canada.

GHOSTS AT HAMPTON COURT. Hampton Court, Cardinal Wolsey's famous palace, situated a few miles west of London, and overlooking old Father Thames, is now reported to be the rendezvous of "velvet spectres." They were "heard" many nights during the Titanic struggle of the British in the recent war. It is averred that the cardinal has reappeared, condemning in strident language, the gross materialism of the age. Nell Gwyn, the "jade with the saucy tongue," has been "seen" to ascend and descend the royal steps in light and frivolous deportment. But the most frightening vision of all is that of a white-robed figure running down a corridor, with her long hair streaming behind her, and disappearing into the chapel. This startling apparition is said to be that of the unhappy Catherine Howard, the second queen whom Henry VIII. sent to the executioner's block; and who repeats the incident when she rushed into the chapel to beg for her life from her tyrannous lord, who was praying there.

NOTES ON WILHELM

Dutch Government to Issue
Orange Book to Include
All Communications.

The Hague, April 1.—The Dutch government plans the publication of an orange book, embodying all the correspondence on the question of the former German emperor and including the allied reply to Holland's second refusal to hand Wilhelm over to the entente powers for trial. This reply, which was delivered to the premier at The Hague by the British and French ministers last Tuesday, serves to "put an end to the correspondence."
Also there is no official intimation of the text, it is learned that there has been acceptance of Holland's refusal to deliver the former emperor, but renewal of the warning that Holland will be held responsible for any damage to the world's peace which Wilhelm does.

CHINA AND JAPAN
AGREEING ON SHANTUNG

Tokio, April 1.—Unofficial exchanges between the Chinese and Japanese in Peking in regard to Shantung show a gradual entente, according to advices. They seem to agree on the following conditions:
1. That Kiaochow shall be returned to China and made an open port.
2. To make the railways a joint enterprise between Chinese and Japanese, both contributing the same amount of capital. The shares for the Chinese to be paid by the Japanese for the time being and to become property of Shantung province.
3. The mining rights to be disposed of in a similar manner. Japan will be given the precedence for development and transportation at coal and iron mines, cotton, salt and foodstuffs. Indirect negotiations are reported to have been completed.

ARRANGING INSURANCE
OF NAVAL SERVICE MEN

Ottawa, April 1.—The minister of finance has given notice of a resolution by which persons in the naval service could be insured under the civil service insurance act; to increase the maximum of insurance that may be issued from \$5000 to \$10,000, and to empower the governor-in-council to make regulations providing for the payment of the insurance money as an annuity for a term of years certain or for the lifetime of the beneficiary or beneficiaries or otherwise.

N. W. Rowell in Washington
Conferring With Officials

Ottawa, April 1.—Hon. N. W. Rowell left yesterday for Washington, where he will remain until after Easter. He is acting minister of external affairs and it is understood that he has gone to discuss a number of matters with the British embassy affecting Canada. During the present session a bill will be presented in the House of Commons relative to the status and functions of the proposed Canadian representative at Washington, and it is believed that this is the principal matter which Mr. Rowell will take up with the British ambassador and with the United States government.

EIGHTY CALL FOR AID
FROM ARCTIC ICEFIELDS

London, April 1.—A wireless despatch from Moscow says a dramatic message of distress has been received there from the Arctic ice fields.
The message, sent by wireless, asks help for 80 men, women and children perishing of cold and hunger aboard the steamer Solovet, which became icebound in the river at Chiga in January and finally drifted into the Kara Sea.

"CATTY."

With smiles and honeyed words, the two ladies paused for a little chat. But their smiles hid hearts that hated. After some moments the lady in the red fur coat said regretfully:
"Well, I must go. I have to drop in and see my mother this morning."
The other seized this chance for a dig. Raising her cigarette, she remarked with acid sweetness:
"Really! You don't mean to say you love a mother living?"
"Oh, yes," came the crushing retort, "she doesn't look a day older than you do."

HONEST IF SLOW RETURN.

Fifteen dollars, which a Racine, Wis., cousin, woman lost four years ago, have just been returned to her. A local newspaper published a letter signed "Conscience," in which the writer confessed that in 1915 he had found a pocketbook containing a sum of money, but that being in financial straits did not return it, although he read an advertisement of the loss. He requested the publisher to obtain the name and residence of the loser, and he wished to return the money, having saved considerable money during the year, because of large wages he received. The purpose of the letter was accomplished.

THE DEARLY BELOVED RELATIVE

A Toronto minister told this story of the conversation to a religious life of a worldly woman: "I used to be," she said, "foolish and vain. Worldly pleasures and fashions were my only thoughts. I was deeply fond of silks, jewellery, ribbons, laces, automobiles, etc. But, my friends, I soon found that these worldly things were dragging me down to perdition. So I gave them all to my dear mother-in-law."

ADAM NAMED THEM WELL.

Mose, the darky cook of a party of surveyors, was greatly annoyed by the roachback hogs that roamed around the camp. One evening, while he was at the spring, a particularly ravenous band of these "rotters" raided the cook tent and ate everything that was edible and some other things that weren't.
For several minutes after his return from the spring Mose could find no words to express his feelings.
"Wall," he finally exclaimed, "date first man Adam suitably knowed his business when he named haws 'haws'; dey siod 's haws!'"

SOVIET MINISTER
PROPOSES TRUCE

Suggests an Armistice Along
the Entire Russo-Polish
Front.

Warsaw, April 1.—The note of M. Tchitcherin, the Russian Soviet foreign minister, addressed to the Poles concerning peace parleys, says the Russian Republic Government of Soviets "accepts with pleasure the Polish communication indicating Poland's readiness to open peace negotiations April 10, seeing in it future friendship between two neighboring countries."
With reference to ceasing military activities and a meeting for the discussion of peace, Tchitcherin says: "In the meantime the Soviet government proposes an armistice on the entire Polish-Russian front and wishes the assembly of the Polish and Russian peace delegations to take place on neutral ground, preferably in some town in Estonia. In the end the Soviet feels certain that the foregoing conditions, if agreed to, will have good influence upon the outcome of peace negotiations."
The Poles have contended from the beginning that they would not agree to an armistice, the militarists holding that the Bolsheviks only desired time to enable them to bring up reinforcements along the whole front.
Regarding the Soviet's proposal for Estonia as a meeting place for the peace conference, the Poles contend that the Soviet government in a note dated December 22, invited the Poles to name a place where the peace delegates might assemble.
No announcement has been made by M. Catzak, the Polish foreign minister, concerning when a reply will be sent to the Soviet government, but it is intimated that he will decline to consider an armistice and oppose the suggestion for the meeting to take place in Estonia, the Poles contending that Borisov, on the Polish frontier, is the most practical point for both sides concerned in the controversy.

REPORT ON AMUNDSEN

Message From Explorer States He
Expects to Reach North Pole
This Summer.

Montreal, April 1.—A London cable to the Montreal Star says: "After being held up two years by ice, Captain Raouf Amundsen's expedition, long expected in the silence of the north, is expected to reach the pole during the coming summer. A message from Amundsen has been received in Christiania, it was learned today, stating that he was wintering on Alon Island, Siberia, and telling of the plans for the summer.
"The members of the expedition turned back and started for home in October, 1918, the message said. Their fate is not known."

TWO THOUSAND TEACHERS
DEMONSTRATE IN LONDON

Montreal, April 1.—A London cable to the Montreal Star says: "Shouting demands for a hearing of their need of higher wages, two thousand teachers of the Council Schools of London yesterday held a demonstration outside the hall in which the London county council was meeting.
"The police were unable to disperse the teachers until the councillors had been so impressed by the racket that they sent out a message, promising to receive the delegation."

EXPEDITIONARY FORCE
PASSES INTO HISTORY

Ottawa, April 1.—Today marked the passing into history of the official name, Canadian Expeditionary Force. Yesterday the transfer of all the remaining units under that designation to the permanent Canadian military forces was completed, and all that now remains is the glorious tradition of five and one-half years' splendid service.
The C.E.F. had its birth early in August, 1914, when the order-in-council authorizing the raising of the battalions that trained at Valcartier was issued. Since that time over half a million men were on its strength. Only a few hundred men remained on the strength when the order was given to turn the remaining units into the permanent force.

board. More flour was milled than could be disposed of and consequently the stocks became congested, but this stock, it is pointed out, does not come under the miller deputation term, "increased cost of manufacture." Then why, asks the man in the street, should flour be increased in price? Mayor MacBride that "brains, not m." W. A. Black, the managing director of the Ogilvie flour mills—the largest organization in Canada, said: "If the government were to remove the restrictions and let us sell feed outside of Canada where it is selling at a much higher price than in this country, flour would automatically go down in price."
The millers seem to be adopting a policy of heads I win, tails you lose. Mr. Black's interview was given during the winter months, but now that the summer is advancing and grass will replace alfalfa for stock, thus reduce the price of millfeed, the millers claim that it is therefore necessary for them to raise the price of flour, and that poor goat the public will have to pay unless the wheat board maintain their present position and insist on flour and wheat being sold at a standard price. As a large baker said to The World, "The millers cannot but help making a profit by selling flour from stock, and make me, they are just all full up with flour. Their present agitation is not so much to increase the price of flour in Canada, but they are using that factor as a means to induce the government to guarantee European credits so that they can export. If they succeed in their endeavor, then the cry will go up 'Shortage of flour in Canada,' and the price will then go up like fireworks."

FRANCE HAS SIGNED CONTRACT

Paris, April 1.—France is to receive 100,000 tons of coal monthly by a contract signed with the Belgian government in return for pledging favorable treatment for certain Belgian products, according to Le Solr.
FORMER M.P. PASSES.
Lethbridge, Alta., April 1.—George Hugh MacDonell, Dominion lands agent here, formerly of Medicine Hat, died today, aged 72. At one time he sat in the Dominion house as member for Algoma and was also a mayor of Port Arthur.

FOUR MIMICO BOYS
MAKE SAFE GETAWAY

Total of Twenty-Five Have
Escaped From School in
Last Two Weeks.

Four more boys made a clean getaway from the Victoria Industrial School, Mimico, last evening, shortly after supper time. This brings the total during the last week to thirteen, as nine escaped last Friday, picking the lock on the dormitory door. Of this last group five are still unlocated, although they are known to be in Toronto. Two returned almost immediately after the escape, one came in voluntarily a short time after, and one was brought in on Wednesday night; his parents informing the school authorities that he had returned home. The escape of last night's group was learned when they did not report to the dormitory in the evening, but nothing is known regarding their whereabouts or the direction of their flight.
Twenty-five boys from this school have caught the spring spirit of restlessness in exactly two weeks, and have made a bid for liberty. Twelve of this group all but one were either brought back or returned voluntarily, so that of the total of twenty-five only ten are now at liberty. Considerable hardship has been experienced by the boys, who were often forced to spend nights in stacks of hay or straw or in barns. Only the ordinary clothes provided for indoor wear by the Industrial School were worn so that many of the would-be fugitives were only too glad to return to a warm room, supper and bed after sleeping without supper, in anything but comfortable quarters where March rains damped the ground. The boys were for the most part between the ages of thirteen and fifteen.

ELEPHANTS' TUSKS MAKE
VERY FINE, PURE JELLY

Elephant tusk jelly is highly recommended in English factories, where many tons of tusks are sawn up annually, for knife-handles and other uses, great quantities of ivory dust accumulate. This dust is sold at sixpence a pound, and, when properly polished and prepared, it makes a very fine and pure jelly, which is frequently prescribed for the sick.

FOR HOLSTEINS IN BRANTFORD

Brantford, Ont., April 1.—(Special.)—The sale of 48 purebreds brought \$12,000, the amount of the auction under the auspices of the Brant County Holstein Breeders' Association. The maximum was \$410 and the average \$250.
Holland Will Contribute

The Hague, April 1.—As a result of a conference between the Dutch foreign minister and representatives of the American food commission, Holland has given a tentative pledge to contribute approximately \$150,000 to the American scheme for the relief of Austria and Poland.

tions made to the government by prominent and influential parties, who advised that the sale of native wines should not be prohibited.
Further, it is announced in the Toronto evening paper:
"But, whatever their mission, the prominent and influential parties referred to in the alliance statement are said to have been Rev. J. G. Shearer, D.D., of the Social Service Council of Canada; Rev. A. S. Grant, D.D., of the Ontario Referendum Committee; Rev. T. Albert Moore, D.D., of the board of Evangelism and Social Service of the Methodist Church."
We beg to call attention to the announcement made by the attorney-general, published on March 12, 1920, in reply to a memorandum presented by the alliance to the government, asking that the legislature be authorized to embodying the utmost measure of prohibition of the traffic in intoxicating liquor for beverage purposes that the province has power enact.
After giving various reasons, the attorney-general says: "For these reasons it is the view of the government, after careful consideration of your memorandum, that we ought not to encourage your committee to hope for any change in the Ontario temperance act at the coming session of the legislature that would be along the line of the parts of your memorandum which I have quoted."
The introduction of resolution re prohibition and the amendments to the Ontario temperance act in the house on Tuesday last, with the approval of the government, indicates that the government has not changed in its attitude on this subject, as announced by the attorney-general.
The undersigned have approached the government, touching the present situation, only to urge the introduction of the necessary resolution in order to effect the taking of a referendum as provided by amendments to the Canada temperance act, enacted at the last session of the house of parliament, and for such amendments to the Ontario temperance act as will secure its more effective enforcement. Signed: T. Albert Moore, Andrew S. Grant, and John G. Shearer.

SORRY, MADAM.

The horrible turmoil of a tunnel station at a busy hour in the day's traffic. Cars, due to a recent storm, running with maddening infrequency.
One belated suburban car rounding the curve to be met by a swarm of anxious passengers, who clamber on helper-skelter, while the bored conductor repeats, monotonously, the destination of the car.
Suddenly, from the rear of the crowd on the platform, a shrill voice, "Conductor—Conductor—where does this car go? I must have an Arlington car."
And the conductor, in a tone of grief but calm solicitude, "I am very sorry, madam, I have no Arlington cars to give you."—Christian Science Monitor.

REIGN OF TERROR
OVERSHADOWS KIEV

Berne, March 31.—Russian and Jewish refugees arriving in Lemberg, Galicia, report that, in consequence of the incessant fighting between the Bolsheviks and the Ukrainians, the large Russian town of Kiev has been completely ruined, and that the population has decreased from 400,000 to 150,000. Food was obtainable only at exorbitant prices.
The refugees assert that the supreme authority was in the hands of a Bolshevik committee, that bands of Bolsheviks continually strolled thru the streets of the city day and night, and that rifle firing was constantly heard. The police had been replaced by the Chinese imported by the Bolsheviks, and there were daily executions being carried out. The population was living under a reign of terror and in the deepest misery.

FRIDAY MORNING, APRIL 2.

DR. REID'S EASTER EGG.

Down to Rock Bottom.

When a business has to meet a deficit of forty-seven millions in one year, and its owners want to see their way through the future, the first thing to do is to find out why there is a deficit instead of a surplus.

The former leader of the opposition shouts that we must get from under this appalling loss, which he blindly attributes to the vanities and follies of public ownership.

The C.N.R. does not at present pay and the C.P.R. flourish because there is a double dose of original economic sin in any enterprise managed under parliamentary authority.

The troubles of the Canadian National are not primarily inherent in the principles of public ownership, but in the follies of past private ownership.

The \$47,000,000 deficit is immediately due to the extraordinary rises in wages, cost of rolling stock, and all materials that railways use.

It was a canon of partisan political life that, if only public money could be spent in this or that locality, political prosperity would follow.

velopment was ill-balanced. It had wrought the condition that obtained when the war came—heavy unemployment in many cities, even in summer, and a railway situation which had already compelled the government to come to the rescue of railways which it had been asserted would pay from the beginning.

It is impossible to get a true line on the situation disclosed by Dr. Reid without recognizing that it was grave before the war, and that, except through an enormous increase in production from the soil, which was vainly urged upon the government, there was no way of saving the day for the privately-owned railways that had been guaranteed by the Dominion and various provinces.

The present impasse demands that the 1914 condition be admitted for what it was. It was better recognized in London than it appeared to be in Canada. Shortly before the war came powerful financial interests there, which had encouraged the investment of scores of millions of dollars in government-guaranteed Canadian railways, caused definitely intimation to be made to the Canadian government that the end had come to the era of railway expansion, as far as encouragement from the investing world was concerned.

War, or no war, that is where private ownership had brought two great Canadian railways in 1914. It is impossible to segregate the pre-war from the post-war burdens. The facts, as set forth by Dr. Reid, must be faced by all whom they concern, with frankness, courage, and resource. It is no use mourning, or talking as if solid progress can be built on rainbows.

Is internationalism to breed more discord than has afflicted nationalism? It would almost seem so, judging by the newest attitude of the British labor party to the international.

The international is enamored of the "dictatorship of the proletariat." Arthur Henderson, in the name of the great body of the British laborites, has warned the comrades across the Channel that they are going too far.

The obstacle to labor statesmanship is not the opposition of its foes, but the indifference of its natural friends. No dictatorship can ever compensate for apathy in those who have all the power in the state they care to use.

A neat and valuable monograph on the late John Seath, superintendent of education for this province, has been published by the University Press for the author, Mr. John Squair, who has been for many years professor of French history in the university.

Superintendent Seath for many years was largely the department of education. The ministry was not always in strong hands, and if it could be said that a schoolmaster is not by training the ideal man to control schoolmasters, it may also be argued that a Glasgow and Belfast educationist is not the ideal fount for the intellectual expansion of a new country.

One of the most useful sections of the book is the sympathetic sketch of the bilingual situation as between the French and English people of the province. Mr. Squair's liberality towards the French is well known. Reading between his lines it would seem that he feels that a larger spirit might have actuated the English attitude towards the teaching of French in this province.

THE GIRL WHO SMILED THRU

THE WAIF. CHAPTER 47.

Alice came back to the settlement house that night, because a small boy from the town was sent to bring her. She was only working there in the mornings now, superintending the gardening classes; in the afternoons she had her own garden to attend to, and when she wasn't too tired, she spent the evenings studying.

The small boy did not know what the excitement was about. But the settlement house was brightly lit, and two motor cars were standing before it. Naturally, this had drawn a group of small children.

"Why, no," Alice said, surprised. She went over in detail her talk with the woman. "Didn't you get the name?" Mrs. Godfrey asked.

"No," Alice said. "She said the baby needed food and my one idea was to take it where it could get it. So I brought it here."

"Quite natural," Mrs. Godfrey said, "but those people were nothing but frauds. They've gone—disappeared and deserted the baby!"

"They did, nevertheless," Mrs. Godfrey answered. "They camped just outside the town limit, but they would not be under any supervision from our police—the I've never noticed many of our police force around these parts."

"The man, so I learned, went downtown and tried begging, and I believe got some money. He never went for a doctor, however. Then when he was stopped begging, he went to the railroad yard and did half a day's work on some special unloading job they have there. When he was paid off, he disappeared."

"You said someone would come late in the afternoon for the baby, so we had her all ready, clean and newly dressed for it. But no one came. We are supposed to close at six except when we've night classes, but one of the aides stayed on. At 8 o'clock we sent out to the place, and they'd gone! Then some man, named Dugan I think, said he had bought the old horse and cart tained order (not to issue till Tuesday) setting aside his pending."

TORONTO RAILWAY CO. GETS LEAVE TO APPEAL

Decline to Foot Bill for Removing Poles on Several Streets.

The appellate division yesterday granted to the Toronto Street Railway leave to appeal from an order of the Ontario railway board of 19th March last, which required the railway company to bear a portion of the cost of removing wires and poles of the Toronto Hydro-Electric Commission, placed on Pape, Carlaw and Guelph avenues, which removal was made necessary by the construction of lines by the company.

Mr. Geary, for the city, argued that there was no question of law involved but the chief justice said all the court was determining was whether there was an arguable case. The question of the constitution of the railway board was brought up by Mr. McCarthy, for the railway company, but the court declined to have that question argued.

Individual taxi drivers at a specially summoned meeting, held yesterday morning, instructed the president of the union, local 820, to accompany a delegation to the board of control relative to the needed accommodation at the stands. It was pointed out that the meeting with the more favorable weather approaching the stands would be used more frequently.

This union, which has been formed only a few weeks, has for its objects, firstly, the elimination of all inexperienced men in the trade, and, secondly, the welfare of the public generally. It is also the intention to apply to the police commission for permission to register a special deputation to demand hire cabs as such and also to tabulate a new and effective taxi tariff.

A "BURNING CASE." A remarkable action was heard by the Dublin recorder in which Michael Kinsella, 183 Pilsborough road, sued Margaret Temple, proprietor of "The Hut," public-house, Pilsborough road, for the value of a suit of clothes, which the plaintiff alleged was destroyed while he was standing in front of "The Hut" by the rays from a magnifying glass, which was directed at the window for advertising purposes. The recorder said that if the case was to be sustained, the event must be a great one. One could not sustain an action against the sun, against a man because the sun shone on his house. STANLEY CUP FOR OTTAWA SENATORS

Seattle Faltered in Final Period and Ottawa Ran Up Score

Ottawa Senators won the professional championship of the world by defeating Seattle, Pacific Coast champions, in the fifth and deciding game of the Stanley Cup series at the Arena last night, 6 goals to 1. It was a much better game than the score would indicate, and for forty-five minutes of the tussle Seattle had every bit as much of the play as the eastern team. The Coast six were higher than a kite in the last round, and Ottawa simply walked away.

It was fast and clever hockey for two periods. Seattle showed heady nursing of the puck on the attack, and they seemed right at home at the eastern rink. They made more use of the free area in centre ice than the Ottawa team and broke away to hot attacks by slipping the puck forward the full distance of the allotted area to a waiting forward.

Bobby Rowe, who was playing a sterling game for the western team, had to retire in the second period, when Gerard's stick laid open his eye under his left eye. Rowe had to go to the hospital to have it stitched up, and the Seattle team were weakened by his loss. Foyton, Walker, Rieley and Riley all played nice hockey. Rieley was especially effective on the defence, and Ottawa found it no easy party when they attempted to break thru.

Gerard, Cleghorn, Darragh and Boucher were the Ottawa stars. Boucher showed the best brand of stuff that he has peddled on Toronto ice this year, and his stick-handling was a treat to watch. There was plenty of earnest checking, but no real rough stuff. Cleghorn was the most offensive, and it needed courage to try and pass him.

Ottawa were quick to take advantage when Seattle hesitated in the first period. The Senators ran in the men, two and three at a time, and the goals came thick as April rain. Holmes was left unprotected, and the lifts were impossible to keep out of the net.

Each club scored a goal in the first period, and the second saw twenty minutes of rattling clever hockey without a tally. The last was Ottawa's, when Darragh broke the tie, when the period was five minutes old.

Plenty of Pepper. The first period opened with a rush, Darragh dashing into give Holmes a hard one. End to end rushes featured. Foyton wiggled in and Benedict cleared cleverly. Howe drew a minor penalty for dumping Nighbor, Morris adding for him. Rieley worked in alone, but it did not high.

Howe scored the first goal on a pretty individual effort, opening with a dash and hurled the sticks of the two defence men and continued on to the net. Benedict going down, but being unable to save.

A lively session resulted at the Ottawa end with Boucher and his mates for over a minute stopping shot after shot. Darragh was lifting long ones at Holmes, but they were useless.

Number two for Boucher. He at once handled his way to the net, taking the route from the side. It was very neatly done and tied the score. The period ended without any more fireworks.

Second Scuffles. They were careful to start the second period. Foyton tripped Gerard and rested. Holmes was tested by Boucher, Cleghorn and Darragh and was found unpeachable. Rowe took the punt when Gerard collided with him. Rowe was carried off with a deep gash under the left eye. Foyton went to Rowe's place on the defence.

Boucher worked in, but Holmes saved. It lived up to Tobin was inside and Benedict came out to save. Gerard broke up a three-man rush, but lost when he hit the seat of his pants. Rieley stick-handled his way in and Gerard hooked him just as he was shooting. The seat went wide and Gerard was benched.

Foyton and Walker had a passing bee with the former just missing the net. Cleghorn earned a penalty for slapping Morris into the boards. The period was scoresless.

With the teams tied the third period opened at a desperate pace. Seattle were the first to attack. Smeaton sent Rieley off for holding Boucher. Morris, Foyton and Walker worked in, but Benedict cleared. After five minutes of play Darragh gracefully skated in alone, crept up past the defence on the side and beat Holmes from the five-foot range to put Ottawa ahead 2-1.

The famous Ottawa four-man defence came into being again. He duplicated the feat of last night, but to dodge a couple before he shot, but led to a breaking up after attack with poke checking. Boucher and Holmes had a sniping session and drew penalties. Seattle tried their best, but Ottawa played the steady hockey that won when Denny shot from the boards and Darragh closed to bat in the rebound. This made the score 4 to 1. Holmes came out to save from Gerard and then Darragh rushed in to score when Denny slipped him and let Ottawa rain shots at Holmes without at-

ARENA CLOSING SATURDAY NIGHT

The grand round-up of the hockey season in Toronto will take place on Saturday night when Seattle, the Pacific coast champions and a selected team will play at the Arena. The team to meet Seattle will include Forbes, the sensational youngster Randall and Mattie, defence of St. Patricks; while Denny and Noble also of the St. Pat, along with Harry Mocking of Victoria, and Alfie Skinner and Jack Adams of Vancouver, will form the forward line. Skinner, Adams and Mocking played with Toronto last year and made good at the coast this year. The Arena management will have skating after the match until twelve o'clock with a band in attendance. Tickets for the big double event will go on sale at the Arena Saturday morning at ten o'clock.

JOE WRIGHT FRATERNIZES WITH GUY NICKALLS

Philadelphia, April 1.—Coaches Guy Nickalls, the Englishman, and Joe Wright, the Canadian, fraternized yesterday at their Yale and Penn crews dipped oars in the Schuylkill in preparation for Saturday's regatta. Nickalls, brother of Vivian, Wright's coaching predecessor at Penn, had not seen Wright since before the war. The last time Guy Nickalls brought a Yale crew here was in 1917. They greeted each other like a couple of college boys, and then Wright invited the Yale tutor to go up the river in the Penn coaching launch to look at the Henley course, and also direct the Yale crew and junior varsity in their first workouts here.

MCCORMICK RECREATION CENTRE

Tuesday night will long be remembered in the hearts of the junior night boys of McCormick Recreation Centre, Brook Avenue, where they held their annual banquet for the teams who competed in the Basketball League last night. From there they adjourned to the library where a chicken dinner was served. Pat Hannabery, captain of the winning team, told some of the secrets how he won the basketball league. Mr. J. Brinneman and P. Denning, supervisors, spoke on the splendid work of the boys this season. A vote of thanks was accorded the lady supervisors, Misses H. Dorin, G. Bartley, J. Butchart, also Miss D. E. Bell and Miss Bell for preparing and waiting on table.

NEW INDOOR RECORD.

New York, April 1.—An American indoor running record of 29 1/2 seconds for 50 yards was set here last night by James W. Driscoll of Boston College, New England, and A. A. V. quarter champion. His time was 4-5 of a second better than that made by Ted Meredith at Newark, N.J., in 1911.

Newest Fashions in "Silks" for Easter

Without the silk hat a man will hardly count himself "fully clothed" for Easter.

We have a superior stock of them—newest blocks—shapes are not all alike, but are all correct. A becoming hat for every man who comes—older or younger.

Finest English—best American—excellent Canadian makes.

Soft hats in the popular new colors.

Derby hats—as well.

Overcoats and umbrellas.

LACROSSE MOGULS IN SESSION TODAY

Annual Convention in Labor Temple—Hot Debate on Amendments Expected.

Judging from the interest which has been taken in lacrosse during the past few weeks, the annual convention of the O. A. L. A. which takes place this morning at the Labor Temple, Church street, at ten o'clock, should be one of the best in the history of the game. While the two highest offices on the executive have been tendered by acclamation, there is a red-hot contest brewing for the second vice-president's position and between George Davis of Brampton, and Ernie Doyle of Newmarket. The former has held down the position for the past couple of seasons, while the latter was voted out at the last convention by a narrow margin. Sixteen nominations have been received for positions on the council, ten of whom will be elected. A recent amendment to the constitution makes it necessary that ten names shall be marked by those voting, otherwise the ballot is spoiled; this does away with the "plumbers." The competition for the executive chairs is also very keen, and it is many a day since so many out of town men have been anxious to get aboard the governing body.

There are not very many amendments to come before the gathering, but as these are somewhat important, discussion may result. It is altogether likely that the executive will be given authority to re-write the rules for the coming season. They will enter the intermediate series. Last season some of the Markdale boys cast in their lot with Durham. James Murphy announced yesterday that he would gladly take charge of the distribution of the school boys sticks. The general James usually gets behind any move intended to foster amateur sport and his assistance in connection with lacrosse in the schools will be much appreciated by all concerned.

RICHARDS AND TILDEN IN THE TENNIS FINAL

New York, April 1.—Vincent Richards, national indoor tennis champion, yesterday eliminated S. Howard Voshell, 1917 and 1918 titleholder, today won a place in the final round by defeating Samuel Hardy, formerly of California, who entered from this city, 6-1, 6-1. Richards' victory gives him the right to play Tilden in the titular round on Saturday morning. These two players were the finalists in the 1919 tournament, which Richards won by his sensational defeat of Tilden. Tilden won a place in the semi-final round this afternoon when he defeated Willard Botsford of this city in straight sets by scores of 6-1, 7-5. Botsford twice held the lead in the set, the closing games of which were carried to deuce, but Tilden's aggressiveness and steady play at critical moments gave him the deciding points.

Youngster Wins Medal In Golf at Pinehurst

Pinehurst, April 1.—Perry Adair, the young Atlanta expert, won the qualifying medal in the north and south amateur championship tournament here today. Adair's great feat was a margin of 36 strokes, with a total of 148 for the 36 holes. Francis Outimet, who tied with Adair yesterday at 76 one stroke from the top, finished at 166, with four men ahead of him. Outimet took 80 today, and Adair went around in 53-72.

MAKERS OF GOOD CLOTHES

THE STYLE SENSATION OF THE SEASON

All London and New York have gone wild over the New Colored Lovat Suitings. Something out of the ordinary. Wonderful examples of the skill of the English weavers. Unrivalled in texture and design. A mingling of wools and colors that is really marvelous. Stylish, yet not gaudy. The fabrics are from the fine Cape Wools—which means, of course, that they are PURE WOOL. Some of the suits now on exhibition in our north window. You should wear one of these suits on Easter Sunday. The kind of clothes coveted by all good dressers. Ready for service, \$60.

KNOTTY LEE RUNNING A FARM FOR BALTIMORE

Branford, Ont., April 1.—(Special).—Appearances are that there will be a working agreement between the Baltimore and Branford clubs this year. Last year's summer, Clark and Doc Newton were secured at a crucial point in the league race from Baltimore, and there are hopes held out here that Clark will be returned for another year's season.

Knotty Lee's relations with Baltimore are more profitable and apparently more amicable than those with Toronto. With Clark and Orme in the outfield, the locals would present a strong front at the opening of the season, for last year's infield and the two star pitchers are still available.

MASON TO VISIT EBER.

South Bend, Ind., April 1.—Frankie Mason of Port Wayne would, today, be matched to meet Bad News Eber, ban- tweight champion of Canada, at Ham- ilton, Ont., April 3. The bout is scheduled for ten rounds.

Henry, Great Lakes featherweight champion, will meet Teddy Murphy in a ten-round bout here April 1.

Aston Rovers practice this morning at 11:30 at Jesse Ketchum Park. A full turn- out is expected for Saturday afternoon at 2:15 at Ramden Park.

After signed players are asked to be at Broadview Y. field at 2:30 p.m. Satur- day.

THE BYNG.

A new Walk-Over last in the popular brogue style, made of heavy Russian grain leather, with heavy sole and a square toe. The leather is finished in the beautiful new shade of light tan that is such a radical digression from the commonplace. A boot for men who desire style and comfort.

Crack Three-Year-Olds Train For the Rich Kentucky Derby

Louisville, April 1.—Since 1911, two descendants in the male line of 1913 Broomstick, the colt Meridian and the filly Regret, respectively a son and a daughter of Broomstick, have come west and won the Kentucky Derby. Ben Brush, himself, won the Kentucky Derby of 1919, also the Latonia Derby in which his opponent was the brilliant Prince Leaf.

There are many colts and a few fillies tracing to Ben Brush in the male line among the potential starters in the Kentucky Derby Club's impending \$50,000 race, but Mr. Whitney seems to hold the strongest prospect. Two of his Derby prospects, Dr. Clark and Wildair, are sons of Broomstick. Three are sons of Wildair, the winner of the Suburban Handicap of 1913, and the fastest of all the sons of Broomstick. These are Upset, John P. Grier and Levitahn. He would be a bold man who would lay a long price against any one of these colts.

Upset, who scored a lucky victory over Man of War in the Standard Members' Saratoga last August, was the biggest winner as a two-year-old of 1919. He was also the champion three-year-old of 1919. He won the Kentucky Derby at Churchill Downs, in 1919, over a field of 18, and was also the champion two-year-old of 1919. But Man of War may have the edge in the hands of his trainer, Rowley S. Whittier, who has trained the two colts while the horses were racing at Laurel Park last October.

RESOLUTION TO PAY DRILL INSTRUCTORS

Appeal of Jews for Lease of Old Technical School Was Heard.

One of the subjects that occupied a good deal of the meeting of the board of education last night was the payment to instructors of cadet drill in the high and public schools.

It was pointed out by Senior Principal Smith that the provincial government paid \$50 per high school and the federal government a grant of a dollar for each cadet up to \$50.

The close of the discussion was reached when Trustee Brown moved that the public school instructors be paid the same as the high school instructors provided the grants were received from the government.

Representing the Jewish Unity Activities, Mr. D. Cohen asked that the old Technical School be leased by the board to accommodate the Hebrew youth and the 6000 girls who were desirous of carrying on various activities necessary to their best Canadianization.

Mr. Cohen explained that formerly the boys had used the building of the Y.M.C.A. but they had been notified that in future, owing to lack of accommodation, only a small percentage of the Jewish population could be accommodated.

At present there are only fifteen Jewish boys in the Y.M.C.A. building and had worked in their camps and that money from the people he represented had gone into the building.

Trustee McClelland, supported by Trustee C. A. E. Brown, moved that the business administrator bring in a report on the matter. The lease of the school is asked for two years, when a building may be erected by the petitioners, who number 14,000 citizens.

A motion introduced by Trustee Bell asking the board to consider the best method of heating, ventilation, lighting and general sanitation of the schools had both supporters and opponents.

Trustee Edmunds moved an amendment to a resolution brought forward by Trustee Mrs. Couric, the amendment being that each child passing from the Form to the 5th in the public schools, if not recommended for promotion, be entitled to ask for an examination.

Mr. Justice Latchford has dismissed the action by Rice Lewis & Son, Limited, against Elizabeth Lynch for specific performance of the sale of No. 5 Royal avenue, and has allowed the counter claim of the defendant for \$100.

HAVE BOMBHELL FOR BIOLOGISTS Pathologists' Investigation Shows Two Sources of Mankind's Origin. EIGHT THOUSAND TESTS Conducted Inquiry During War, Using Soldiers of the Various Races.

Montreal, April 1.—A London cable to The Montreal Star says: "A sensational pathological report has been made to The Lancet, Britain's leading medical journal, by two in- vestigators who have tested the blood of different races of mankind. English scientists regard the report as a bombshell for biologists."

May Be a Farmers' Section Of Labor Council in Guelph Guelph, Ont., April 1.—(Special.)—A movement on foot at the present time which is expected to be acted on in the near future, is to have a farm- ers' section of the Trades and Labor Council. This innovation has proven successful in other places and it is the opinion of labor men generally that the amalgamation would go a long way to strengthen the council here and also the position of the farmers and labor men generally.

Guelph Branch of Labor Party Not Sending Man to Convention Guelph, April 1.—(Special.)—The Guelph branch of the Independent Labor Party have decided not to send a dele- gate to the annual convention of the provincial Independent Labor Party in London tomorrow. When the matter was discussed it was the general opinion that the working men of Guelph would be better off by becoming more active in connection with the Trades and Labor Council than come from affiliation with the I.L.P.

BRITISH PRESS ON HOME RULE DEBATE

General Opinion That Important Stage of the Bill Will Come in Committee.

London, April 1.—(By The Canadian Associated Press.)—The majority of 254 for the second reading of the home rule bill was handsomer than expected. Sir Edward Carson and the Ulsterites abstained, the majority consisting of Labor 48, Independent Lib- erals 26, Conservatives 24, National- ists 7. Except during the last hours, when Sir Edward Carson and the premier spoke, the house was never crowded. The general opinion is that the really important stage of the bill will be in committee.

The London Times describes Sir Edward Carson's speech as in greater part a reassertion of the Orange faith in its harshest form with all its provincialism, self-righteousness and sectarian bigotry. The Times admits that the ability of it is unquestion- able, and concludes: "One knew when he sat down that he had got up to say just the one noble, generous thing that he feared about writing many spokes. Ulster will have a parliament, but it never asked for one, and will make a success of it. It is inconceivable that the rest of Ireland, which has asked for a par- liament, will refuse to emulate the success of Ulster."

Praises Chamberlain's Speech. The Daily Telegraph thinks that Austen Chamberlain's speech on the first day was about the finest thing in the whole debate, when he de- clared that the bill put it into Ire- land's power to create, unhindered and unhampered, a union parliament for the whole of Ireland. This is the kernel of the matter, adds The Telegraph. Most Irish leaders who con- descend to discuss the bill at all have conveyed the impression that they regard it as a sacred duty not to acquiesce themselves, much less think about, what the bill actually proposes. If having done so they can still continue to propagate the doc- trine that there is no sincerity, no genuine desire for settlement in the minds of the authors of the bill, then there is no language that could un- deceive them.

The Daily Graphic considers yester- day's vote as a triumph for com- promise and declares it sheer hyper- cecy for the Labor party to talk about self-determination, which, in the present state of Ireland would mean an Irish republic, which no British party will ever grant. Although The Manchester Guardian describes Carson's speech as bitter and sardonic it says he is, for all his pretensions, an Irishman to the bone and no mere nationalist and, moreover, respected in a queer way by even his bitterest an- tagonists. Once the wrench is over, says The Guardian, once it is real- ized that Ulster is Irish as much as Munster and Connaught, we may hope to see her play a more worthy part. She has hitherto boasted of her aloofness from nationalist Ire- land, but it is open to her henceforth to help towards a leading direction.

Attacks the Premier. The Daily News, which is equally antagonistic to the premier and the bill, accuses Mr. Lloyd George of "cyn- ically candid admissions" in the speech he delivered, and declares that "the debate had only one effect, namely, to expose the hopeless impracticability of the measure." The newspaper ad- mits that if the bill "is to be forced thru it can be made in committee a little less bad than it is," by converting the council and the two parliaments into a parliament and two councils. In this form says The Daily News, the whole attitude of the government's critics would be changed.

BAR GERMAN TROOPS FROM MINING AREA

French Premier Reiterates That Occupation Would be Quite Ineffectual.

Paris, April 1.—Premier Millerand today received Dr. von Mayer, the German charge d'affaires, and went over the situation in the Ruhr district with him. The premier improved the occasion to reiterate the terms of his letter of yesterday, dealing with the question of permission for German troops to enter the Ruhr region, in which he expressed the view that military intervention in that region at present would be useless as well as dangerous. He added that the French government was taking steps to con- firm the information upon which its decision was based.

After the departure of the charge, the premier conferred with Marshal Foch respecting eventual measures to be taken in case the Germans disre- garded the decision against the send- ing of more of their troops into the Ruhr district. No apprehension is ex- pected, however, that anything further would result than a demonstration, such as an advance of the French troops a dozen miles or so in such a contingency. This advance would mean the occupation of Frankfurt and Darmstadt. It is not expected, how- ever, that this would provoke any violent manifestation on the part of the Germans, since Dr. von Mayer, in his first interview with M. Millerand on the subject, is declared to have in- timated that his government might con- sent to such an advance as a guaran- tee of the evacuation of the Ruhr dis- trict by the additional German troops, if they were allowed to enter the re- gion.

At the same time, there is much ec- celsia here, even in circles close to the government regarding the efficacy or the desirability of such an advance. It is pointed out that Frankfurt, Darmstadt, and, in fact, all the territory the occu- pation of which is under consideration, are now commanded by French batteries, and would not be more completely domi- nated if French soldiers were picketing through the area. Moreover, such a de- monstration would not be in accord with what appears to be the French policy of avoiding, as far as possible, causes of friction with the German population, and even the adoption of as conciliatory an attitude toward the government as is consistent with insistence upon strict execution of the peace treaty.

HONOR THE MEMORY OF HON. A. S. HARDY Place Bronze Tablet and Likeness in Brant County Court House. DISTINGUISHED SPEAKERS

Brantford, Ont., April 1.—(Special.)—The memory of one of Brant's most distinguished sons, the Hon. A. S. Hardy, former premier of Ontario, was honored fittingly this afternoon at the Brant county court house. A tablet had been placed in the wall com- memorating in bronze his portrait and the principal characteristics of his life, which was usefully spent in the service of his native province. Canon Fotheringham offered the dedicatory prayer, and on behalf of the Brant Law Association, the donors, A. L. Baird, K.C., president of that associa- tion unveiled the tablet and made the formal presentation.

CUSTOMS RECEIPTS GREATER BUILDING PERMITS INCREASE Guelph, Ont., April 1.—(Special.)—The Guelph customs receipts for the month of March showed an increase of \$18,628.44 over the same month last year. In March, 1919, the re- ceipts were \$44,537.35 and in March, 1920, they amounted to \$53,165.79. For the customs year ending March 31, 1920, the returns were \$489,702.21. Last year returns totaled \$445,185.80.

Guelph, Ont., April 1.—(Special.)—The building permits for the month of March showed a very decided in- crease over those of the previous months. The total for the month was \$18,175 as against \$640 in February and \$3,600 in January. This brings the total for the first three months of the year up to \$27,565.

The Nervous Strain of Office Work

"BRAIN FAG" is the name usually applied when the nervous system and of the office worker gets run down. The brain demands an abundant supply of rich red blood. Once this is lacking, the thinking machinery slows down. Con- centration of the mind becomes almost im- possible and headaches are frequent. At this season, as at no other, stenog- raphers, bookkeepers and office managers feel the ill-effects of months spent in the vitiated air of super-heated offices. The blood has got thin and watery, the nervous system is starved, efficiency is lowered and nature begins to give warning of nervous troubles. The tired feelings tell you of the weakened condition of the nervous system and point to the need of rest. An hour or two earlier to bed and the regular use of Dr. Chase's Nerve Food will soon restore your energy and vitality. It is well to remember that from a physical point of view you are approaching bank- ruptcy. To overcome this condition it is necessary to stop the waste of nervous energy as well as to add to the supply by the use of Dr. Chase's Nerve Food. As the appetite is sharpened and digestion improved by this treatment you will soon feel the benefit of this building up treat- ment. Headaches will disappear, you will sleep naturally and feel again the vigor and energy of health. When purchasing Dr. Chase's Nerve Food look for the portrait and signature of A. W. Chase, M.D., on the box. 50 cts. all dealers or Edmanston, Bates & Co., Ltd., Toronto.

RED ARMY ON WAY TO ASSIST CHINESE

Aim is to Succor Workmen From "Brigands and Japanese Allies."

London, April 1.—A despatch to The London Times from Peking, dated March 29, says the Chinese government has received a message from the Moscow Soviet thru Commissary Jansen at Irkutsk, announcing that a Red army is marching east to succor the workmen and peasants in Siberia from the "brigands Kolchak, Semenov, Horvath and their Japanese allies and establish everlasting peace."

The communication expresses horror at the crimes committed against China and undertakes to annul all treaties and renounce all privileges previously acquired from China. China is urged in the communication to resume negotiations for the restoration of the Chinese eastern railway, the cancellation of the protocol of 1901, and the extra territorial rights hitherto enjoyed by the Russians and the renunciation of the "Boxer" indemnity, the privileges of orthodox missionaries and mining rights.

The despatch says the Soviet also offers to hand over to China without charge the great Russian tea factories at Hankov. The only condition made is that the people of China have complete freedom to determine their own system of government.

The message, the despatch declares, vaguely indicates that the services of the Red army will be available to deliver China from foreign imperialistic and capitalistic ambitions.

The correspondent says there is no doubt that everything offered will be accepted by China. The Bolsheviks, he adds, have succeeded in establishing themselves in the good graces of the Chinese, and the future between them promises to be full of harmony.

WAVE OF PROSPERITY FOR BRITISH COLUMBIA

Dut to Colossal Demand for Lumber—Will Take Fifty Years to Meet Shortage.

Montreal, April 1.—"The province of British Columbia seems to be on the eve of a great wave of prosperity, the colossal demand for lumber from the United States and from our own coast also from Europe, is keeping all our mills busy." This is the statement of F. C. Wade, agent-general in London for that province. Mr. Wade added that they were about a million houses short in the United Kingdom and about seven million short in Europe and this deficiency is being supplied to some extent by wooden houses from British Columbia on which the British government is paying a bonus of £100 on every house produced within a certain period. The shortage of houses would, in his opinion, exist for twenty years in Great Britain and for fifty years in Europe.

SLICK TRICK ON BANK BY FORGER IN LONDON

London, Ont., March 31.—A month's preparation enabled a handwriting expert to clear \$450 on a forged check, cashed this morning by a local bank. He presented a check for \$680 this morning bearing the acceptance mark of another bank and casually intimated that he wished to deposit \$180, but required \$500 in cash. A little later the check was discovered to be a forgery and the amount of the money sent to the bank found to total, including the \$500 deposited from the phoney check just \$250.

DEFENCE COMMITTEE IS PROMISED SUPPORT

Winnipeg, March 31.—The defence committee, which is arranging public meetings to be held here on Good Friday in protest against the conviction of the Winnipeg strike leaders, have received messages of sympathy and support from labor organizations in various parts of Canada. The Lumber Workers' Unit of the O. B. U. at Vancouver, threatened that if the committee failed to take whatever action is necessary to secure the freedom of these men, "The O. B. U. miners' union will wire the defence committee in Calgary and Vancouver intimated that protest meetings would be held in these cities on Friday.

LABOR PARTY CONVENTION IN LONDON TOMORROW

London, Ont., March 31.—The convention of the Provincial Independent Labor party, which will be held here on Friday and Saturday, is expected to provide quite an amount of excitement. Mayor MacBride, M.L.A., of Brandon, will be one of the principal speakers. A resolution supporting the returned soldiers in their demand for increased war gratuities is likely to be passed by the convention. A resolution of considerable importance as having a bearing on the cost of living, will be moved by Joseph Hill of the London party branch, asking for greater encouragement by the province of cooperative societies.

Books will be loaned to German universities desirous of keeping in touch with British and American thought.

RED GUARDS PICKET ALL FACTORIES

Threat to Blow Up Plants and Mines May Spur Entente to Action.

London, April 1.—The Essen correspondent of The London Times telegraphing from Cologne today, says he was forced to go to Cologne, as the Ruhr valley is isolated from the rest of the world, there being no trains, telegraph communication or telephone. Several factories are still in operation, although all are picketed by red guards.

The workers of Dusseldorf refused to strike, and it was reported at Essen that the Bochum workers had taken similar action. The reds ordered Krupp's to cease work yesterday, and the huge factory was lying idle, to the disgust of the workers.

The supreme workmen's council sent a delegation to Cologne Monday to inform the allies that the Reichswehr were advancing into the Ruhr without the allies' powers' permission, and to request them either to order that this invasion cease or occupy the Ruhr territory themselves. As the delegation threatened to blow up the factories and mines unless the entente takes action, it will possibly be necessary for the allies to occupy the Ruhr district.

Reporting a visit to the red front, the correspondent says the discipline of the red guard seems to have improved and they are determined not to surrender their arms unless the entente takes action, it will possibly be necessary for the allies to occupy the Ruhr district. Reporting a visit to the red front, the correspondent says the discipline of the red guard seems to have improved and they are determined not to surrender their arms unless the entente takes action, it will possibly be necessary for the allies to occupy the Ruhr district.

Threaten General Strike

Rotterdam, April 1.—A despatch to The Rotterdamse Courant from Essen says the representatives of the labor unions and of the three socialist parties have issued an ultimatum to the government threatening a general strike in all Germany unless their demands are granted. The demands are, first, binding the government to recognition of the resolutions passed at Bielefeld; second, abolition of military measures contrary to the resolutions, and third, the recall of General Von Watter and granting 48 hours in which to carry out the Bielefeld armistice terms.

Berlin More Hopeful

Berlin, April 1.—The situation in the Ruhr district was regarded somewhat more hopefully today in parliamentary circles, where it was reported that the Red army was breaking up. A Dusseldorf despatch to The Vossische Zeitung says it was announced at a meeting of the officials of the three socialist parties that each town in the Rhenish Westphalian industrial region had sent representatives to Munster to confer with the commanding general and Commissioner Severing and it decided to await the result of the conference before calling a general strike.

URGE C.P.R. TO BUY CHATHAM RADIAL

Deputation Will See Sir David Beatty—Will Also Request Extension to Sarnia.

Chatham, Ont., March 31.—(Special)—A large and enthusiastic meeting of representatives from all parts of the district was held at Wallaceburg today when it was decided to send a strong committee to wait upon Sir David Beatty, commander of the Canadian Pacific Railway, to urge that the road acquire the Chatham, Wallaceburg and Lake Erie Radial, as a branch line. The committee will urge that the radial line be extended to link up Wilkesport, Brigden, Petrolen, Wyoming, Oil City and Sarnia. In the event of such a scheme not being feasible, the same committee will emphasize the importance of the building a branch line from Chatham to Wallaceburg and on to Sarnia.

Britain Gives Four Steamers To Newfoundland Government

St. John's, Nfld., March 31.—The Newfoundland government announces that the British admiralty has given four steamers to the country to be used in public service. The largest ship is of 1,400 tons burden and will be operated in the general trade of the country by the shipping department. One ship is destined for light-house service and another for bay mail steamer service. The fourth ship will be employed as a rescue ship in connection with craft in distress at sea and for relief of wrecks which occur on the south coast in the "Graveyard of the Atlantic."

Fire Destroys Farm Buildings; Loss of Ten Thousand Dollars

Peterboro, Ont., March 31.—Word was received here this morning of the destruction by fire in Otonabee township yesterday afternoon of the barn and outbuildings on the farm of Mr. Hugh Fife. The barn, together with its contents, was entirely destroyed, including eight head of cattle, two calves, twenty pigs, fifteen sheep, seed grain, silo and all the machinery of the farm. The loss will be at least ten thousand dollars, with a small amount of insurance. The cause of the fire is unknown. The house was saved after a hard fight by the neighbors.

GERM AN TO C RACY IN SPIRIT OF DEANS WORKING CONDITIONS

Witness, at University Probe in Saskatoon, Charges Two of Staff With Overbearance.

SOME COUNTER-CHARGES

Saskatoon, Sask., April 1.—Charging Dean Ling and Dean Rutherford with arguing into themselves a certain amount of what he termed "German autocracy," inasmuch as they always offered a certain amount of resistance to his proposals on extension work, Dr. J. L. Hogb, on the witness stand at the university investigation this morning, claimed that he was forced to uphold the principles of British democracy as against them, and, in so doing, felt himself "pushed over into a corner."

He further contended that Dr. Murray was not above entertaining autocratic ideas, and, speaking of Dean Rutherford personally, he stated that he exerted a power far out of the proportion to his value to the university.

COUNTER STATEMENTS

As against these statements, Donald MacLean endeavored to prove a certain discontent existed with Dr. Hogb in his own department to such an extent that, at the time, in conjunction with Dr. MacLean, he endeavored to introduce a resolution into a faculty meeting, which, if adopted, would have had the effect of considerably curtailing the powers of Dean Ling. The resolution was to the effect that the dean was not the proper person to be the public representative of the faculty.

A suggestion that Dr. Hogb himself had aspirations to the deanship, and that this was a means to that end, received an indignant denial from the witness.

ROBBERY OF RESIDENCE IN CHATHAM TOWNSHIP

Thieves Take Away Household Furniture in Broad Daylight.

Chatham, April 1.—(Special).—Thieves broke and entered a residence on a Chatham township farm, rented by William Bryan, and removed tables, chairs, beds and other household equipment in broad daylight. Bryan, who resided on a farm a short distance away, kept the house furnished for hired help, but at the present time the house was unoccupied. He told the police that neighbors saw the thieves go to the farm house with a wagon and remove the articles, but the operations were conducted so coolly that they did not pay much attention to what was going on. The complainant also told the police that he noticed a wagon load of furniture proceeding down the road, but had no notion it was his property.

STOCK YARDS STRIKE ENDED IN CHICAGO

Chicago, April 1.—More than 7000 employees of the Chicago Stock Yards and packing companies will be back at work tomorrow as a result of the decision today by striking feeders and stock-handlers to return to their jobs and arbitrate wage differences. Judge Samuel Altchuler was appointed to officiate. The freight embargo on live stock entering Chicago was lifted immediately.

Decisions to end the strike of the 800 feeders and stock handlers who had been out for four days and forced idleness on many packing house workers came after three federal mediators of the department of labor had conferred with the strikers. The mediators told the men they were striking in violation of their agreement with the Union Stock Yards and Transit Company, their employer.

Grant Montreal Man Damages Due to Assault by the Police

Montreal, April 1.—Mr. Justice Surveer, in the superior court, granted Bruno Dugas \$120 damages against the city of Montreal for injuries he received when attacked by a policeman during a disturbance which took place on the steps of the Roman Catholic cathedral, Dorchester street, on October 4, 1916, between a squad of police and a mob of Laval students. Justice Surveer conducted the hearing in order to prevent Dugas from obtaining the number of the constable who had assaulted him, kicked him in the ribs.

Take Down Gas Derivicks In the Puschlik District

Guelph, April 1.—(Special).—The work at the gas and oil wells on the Neubauer farm in Puschlik has stopped completely. The derivicks have been taken down. Both wells have been capped and operations stopped entirely for the time being. This is a big surprise to the people in that locality, as it was thought that drilling operations would be rushed ahead just as soon as the wells were shot.

FRENCH POSTAL RATES JUMP

Paris, April 1.—Increases in French postal rates went into effect today. Domestic letters will carry 15 centimes instead of 10 centimes, but letters to foreign points will go at the old rates. Domestic telegraph rates have also been increased.

START OVERALL CLUBS.

Tampa, Fla., April 1.—To combat the rapidly rising prices of clothing, "overall clubs" are being organized throughout the state. The members will buy overalls as their every-day attire. Many business men have joined the clubs.

FIRE DAMAGES HOTEL.

Gananoque, Ont., April 1.—The International Hotel, one of Gananoque's leading commercial and tourist hotels, was badly damaged by fire, water and smoke about 11 o'clock today. The fire started in the apartment occupied by the cook in the upper story. The cause is unknown.

L.L.P. Convention at London, Will Take This Attitude—May Support Veterans' Demands.

DISCUSS LIVING COSTS

London, Ont., April 1.—The Independent Labor party convention, which will be held here on Friday and Saturday, promises to be productive of many resolutions tending to the amelioration of working conditions in this province. A wider acceptance of the eight-hour day will be urged in a resolution to be later presented to parliament.

Labor leaders from all parts of the province are expected to attend. Hon. Harry Mills, Hon. W. R. Rollo and Mayor MacBride of Brantford are among the prominent speakers at the convention. The demands of the returned soldiers for increased gratuities will, it is expected, be supported by the convention.

CONSIDER LIQUOR ACTION AT KENORA

Federal Officials Debate Provincial Licensing of Fourteen Bonded Warehouses.

Ottawa, April 1.—The Dominion government is considering some action in regard to the liquor situation at Kenora, arising out of the fourteen bonded warehouses for liquor now in operation there. The matter has been discussed in council, but no conclusion has been arrived at.

The question is whether to continue or not the system whereby in licensing such warehouses the consent of the province should be secured. Such an arrangement was entered into in 1915, in connection with the enforcement of the war measure of prohibition. Ontario would discontinue the warehouses at Kenora, according to a statement made in official circles here today, and has so intimated to the government.

Likely Favor the Province. Some of the cabinet are favorable to being guided by the province, while others incline to the view that the matter is essentially one that relates to the inland revenue department, and which the province has nothing whatever to do. A bonded warehouse, it is pointed out, is one in which anything subject to duty or excise should be stored, and in no sense restricted to liquor. It is a question of policy to be determined, but the seemingly prevalent view is that, so far as liquor storage is concerned, the will of the province will prevail.

TO USE AIRCRAFT IN FOREST PATROL

Employment of Airplanes by Fire Rangers on Larger Scale This Year.

Ottawa, April 1.—The use of aircraft in forest fire patrol work is being mapped in to be carried out on a greater scale this season than last, although the whole question of aircraft in forest ranging is still in its experimental stage.

Adds to Effectiveness. The Canadian Air Board Protective Association will use two aircraft and much good work was carried out this season. The Laurentide Pulp and Paper Company is going to use the two machines which the St. Maurice Association had last year.

It is also learned that Price Brothers of Quebec, having engaged an aviator, who is now in England buying a biplane to carry out experimental mapping and ranging work this season. In addition, the air board, in conjunction with provincial authorities, is contemplating further experiments along the lines carried out last season.

While it is not believed that air patrol can replace existing ground protection, according to Mr. Clyde Leavitt, chief forester, commission of conservation, it should be used to reduce the necessity of further large extensions and to greatly increase the effectiveness of forest fire protection, provided the cost does not prove prohibitive, as it is believed will not be the case. It is significant, Mr. Leavitt points out, that the U. S. air service is requesting authority for a large program of work over the forests of the western States. The mapping appear decidedly encouraging.

GALT CUSTOMS RETURNS SHOW LARGE INCREASE

Galt, April 1.—(Special).—Customs returns for March are considerably above those for the same month of last year. March shows collections of \$68,410.48, as compared with \$45,747.87, an increase of \$22,722.98. During March the first building permits of the year were issued, 12 in all being taken out, four for dwellings and the rest for alterations and repairs. The total value of the permits being \$13,600.

EXPULSION OF SOCIALISTS FROM ASSEMBLY OF U.S. RHINE ARMY

New York State Legislature, Wilson Tells Congress That by Huge Majority, Gets Rid of Five.

Albany, N.Y., April 1.—The five socialist members of the state assembly — Louis Waldman and August Claessens of New York, Samuel A. De Witt and Samuel Orr of the Bronx, and Charles Solomon of Kings—were expelled from the lower house of the legislature today by an overwhelming majority.

The next step in the fight against the socialist party, characterized as a "traitorous party" by the assembly's judicial committee, which recommended, after investigation into the charges of disloyalty against the five members, that they be expelled from the legislature tomorrow.

Bills designed to carry out the recommendations of the judicial committee, that "appropriate legislation be enacted to the end that hereafter no party, group or political organization in which aliens are acceptable as members, or whose principles, policies or program are responsive to or dependent upon the interests of any foreign power, shall be permitted to occupy the position of political party on the official ballot of this state," are expected to be introduced in the assembly.

While they have been committed in the New York assembly by Republicans and Democrats, with few honorable exceptions," says a statement issued today by Louis Waldman and Charles Solomon, two of the expelled socialist assemblymen.

Will Appeal to Courts. New York, April 1.—The five socialist members of the New York state assembly today filed a writ of habeas corpus in the state supreme court, and, if necessary, to the United States supreme court. St. John Block, state chairman of the socialist party, announced here tonight.

WOMAN ATTACKED IN HOME. Harry Lines, Colored, is Rendered Unconscious After Desperate Fight.

Truro, N.S., April 1.—Harry Lines, colored, entered the home of Miss Doris Archibald, Truro, at about four o'clock this morning and attempted to assault her in her room. Miss Archibald struggled and fought off the man. Her cries brought her father, Principal Davis, of Colchester Academy, and B. A. Wood, of the academy staff, who were lodged in the house. Lines struck Mr. Archibald on the head with a club, rendering him unconscious. Davis, who was grappled with the colored man and after a hard and desperate fight struck him with a chair, the blow knocking him out. Mr. Davis then phoned for the police, who had handcuffed the man who was lying on the floor.

While they were searching the house for other would-be intruders, Lines recovered consciousness and escaped to his home in Smithwoods, where he was later arrested.

THE MOUSE MARKET TAKES BIG SLUMP

New York, April 1.—A big slump in the mouse market was reported from Columbia University, where large stocks of the little rodents are used for experimental purposes. Quotations for pre-war levels and quotations have been forced out of business, according to Dr. Francis Carter Wood.

Hosts of mice were required during the war for medical experiments and high prices offered for them by the government stimulated the breeding of these animals. When the armistice was signed the breeders were caught "long" on mice and they found themselves carrying a heavy overhead of a useless commodity.

This situation in the mouse market is disclosed in Dr. Wood's annual report as director of the George Crocker special research fund, made public today. The fund was created for conduct scientific cancer investigation and many mice not used for experiments at Columbia University are shipped to other laboratories. As an increase in the number of plus, the one means of the research fund have attempted to ship some of the mice to the Pathological Institute of the Imperial University of Tokio.

SEA FISH CATCH

Ottawa, April 1.—The total value of sea fish at the port of Montreal in Canada during the month of February was \$49,108, according to the naval department statement issued today. This is an increase of \$51,872 over February, 1919, when the value was \$57,236.

Belleville (Special).—Mr. Angus Dunlop, a well-known resident of this city, having been named in an attack of heart failure.

TO RUN IN WINNIPEG

Winnipeg, April 1.—At a local meeting last night Mrs. Lutz, of the nomination to stand for election to the Manitoba legislature at the forthcoming provincial election. The meeting was called by the political education (formerly equality) league.

SHARP UPURNS IN CORN PRICES

Fresh Strength Developed on Opinion of Winter Wheat Condition. Chicago, April 1.—Bullish estimates regarding winter wheat did a good deal today to bring about sharp upturns in the price of corn. The market closed strong, 2 1/2 to 3 net higher, with May 18 1/2 to 19 1/4, and July 15 1/4 to 16 1/4. Oats gained 1/4 to 3/4. In provisions, the outcome varied from no decline to 1/2 cent advance.
