HON. ARTHUR MEIGHEN SEEMS BORDEN'S CHOICE

Thought Likely That Premier Will Nominate Him for the Succession - No Word From Sir Thos. White-No Election Probable Until After Redistribution.

Ottawa, July 4 .- (Special) -- Owing to a change in political conditions it to a change in political conditions it is quite probable that the successor to Sir Robert Borden will be announced sooner than expected. It may now be looked for on Thursday and probably a day earlier. It is conceded that Hon. Arthur Meighen has made practically a sweep in the polling of the members. His support is placed at not less than eighty per cent: There can be little doubt unless some unforeseen contingency arises that he

There can be little doubt unless some unforeseen contingency arises that he will be named as successor to Sir Robert Borden.

No one seems to know what, if any, negotiations have taken place with Sir Thomas White.

Sir Henry Drayton has received a fair measure of support, chiefly from Montreal. Like Hon. Arthur Meighen, he has not been active in the contest, but has been made a competitor by friends and admirers.

Position of Various Ministers.

The position of the various ministers is becoming more clearly defined. Sir Henry Drayton was made a candidate by friends, and without his consent. Sir George E. Foster has many staunch friends who would like to see him prime minister. It is known that Sir George intimated under no circumstances would he assume the task, but that if desired he would that Sir George intimated under no circumstances would he assume the task, but that if desired he would give his best in support of the new leader. Hon. N. W. Rowell, if he retires, does not intend to go to Washington, but he is fitted for this important mission. He may not retire at all. If he can secure the support of his friends he will remain and support whover is selected. Months ago Hon. A. L. Sifton asked Sir Robert Borden to relieve him of his portfolio. Hon. Mr. Sifton is broken in health. He remained to save the prime minister from further worry. His health has prevented his active participation in debate, but in council his clear judgment has been invaluable. He has not made known his intention, but may remain. "The Winnipeg proportional representation election just concluded, in which forty-one candidates contended for ten seats, has clearly shown that a ten-member constituency may be just as practical as a smaller one, provided that the staff engaged to sort the ballots is competent and well trained. The personnel of the Winnipeg counting staff was all that could be desired in these respects, and it was this that made possible the announcement in less than four days of the results obtained from sorting and "The average number of all men ngaged in the work was thirty-four

Guelph, July 4.—That the delay of the provincial government to issue the necessary orders-in-council, providing for the transfer of the Guelph Radial Railway to the Hydro-electric Power Commission, combined with the press reports as to opposition in certain quarters to allowing the municipalities to purchase the Toronto & Eastern, the Niagara, St. Catharines & Toronto, and the Toronto Suburban Railway from the Dominion government is beginning to stir up somewhat of a tempest, is evidenced by the fact that Mr. J. W. Lyon, president of the Hydroelectric Association, has been fairly swamped with messages from all over the province of Ontario, requesting that a general meeting of municipalities be called early next week to discuss the matter in all details and find out who is responsible for the interference with the rights of municipalities.

Mr. Lyon, in response to these requests, has issued a call for a general meeting to be held in the city hall, Toronto, on Thursday, the 8th instate one o'clock. Mr. Lyons' call for the meeting reads as follows: "Special emergency meeting, city hall, Toronto, Thursday, July 8, one o'clock, daylight time, of all municipalities interested in proposed purchase of Niagara, St. Catharines and Toronto Rallway, Toronto and Eastern Raitway, Toronto Suburban Railway, and Guelph Radial (Centinued on Page 2, Column 5).

A rumor was current yesterday that at today's meeting of the city council at today's meeting of the city council Ald. Johnston, or ward 1, is to try his hand in framing up part of the new transportation commission. The rumor says that a resolution will be made by the alderman requesting Controller Gibbons to retire from council to take the position as one of the commission. Members of council who have heard of this are opposed to such a move as they believe that the three members of the commission should be taken up and dealt with at the one time, and that there must be no piecemeal action on such an important question.

no piecemeal action on such an important question.

Mayor Church sends the following statement in resultation of the Weekly Star statement that his resignation is pending and that he contemplates a position on the transportation commission:

"I wish to strongly deny the slanderuos article in the Weekly Star that I am on Monday to resign. I will not do so, and will serve until Dec. 31. I have not authorized my name to be used and it is done without my knowledge or consent. I am not an applicant and have made this plain on several occasions. The Star does this for its own purposes."

According to the despatch, the officers regard the whole affair as a development of Sinn Fein agitation, and believe the prompt measures taken to restore order will soon cause the men to settle down.

Terrific Storm at Niagara Causes Big Loss of Fruit

Report Half of Grape Crop Destroyed-Several Inches of Rain in One Hour-Stamford Township Worst Sufferer.

Niagara Falls, Ont., July 4—(By Canadian Press).—A terrific thunder and hall storm yesterday afternoon caused the loss of fully two-thirds of the local fruit orop. Several inches of rain fell inside of an hour and hallstones as large as wainute broke windows and even made holes in wooden roofs.

Stamford Township was the storm centre, and received the greatest damage. An old resident, eighty years of age, spoke of it as the "worst storm in

memory."

Fifty per cent. of the grape crop is destroyed, while two-thirds of the plum, cherry and apple yield is gone. Peaches were torn down, and those left look as if they had been hit by a stick with a nail in it.

At noon the fire was within half a mile of the camps. Cabs and ambulances removed the patients to the King George Institute. The bed patients were removed thru the efforts of the police and men under Inspector-General Hutchings, who cut fire tracks and used a goodly supply of water, supplied by the aid of motor cars. It is suspected these fires and that at Virginia were incendiary.

Apparently the Turkish Nationalists are much discouraged by the speedy advance of the Greeks. There are many indications that the Turks are withdrawing in the best possible order toward the line from Brussa to the hills and mountains, whence bandit gangs can harass the enemy's advance toward the Bagdad railway. It is believed the Nationalists lack artillery and will rely on guerilla warfare.

General Paraskevopoulos, commander-in-chief of the Greek army, apnounces that the Greek troops moving southwards from Panderman, and northward from Smyrna, effected a junction with the advance guard on Friday, 25 kilometres northest of Baltkesri, the Turks fleeing in disorder toward Brussa.

McAdoo Drops Into Second Place After Eleventh Ballot-Democratic Conven-

tion Adjourns Till Today -Hope For Magic Word From Wilson, But None Forthcoming. San Francisco, Cal., June 4.—After wenty-two fruitless ballots, the Democratic national convention just pefore midnight gave up hopes, of

before midnight gave up hopes of selecting a presidential nominee within the first week of its session, and adjourned until ten o'clock Monday morning.

Repeated attempts to adjourn were defeated thruout the early part of the night, but as midnight approached and it was about to become Sunday, the tradition that a Democratio national convention never works on a Sunday, coupled with the fact that the convention was tired, worn and frazzled, had its effect, and the final motion to adjourn was unopposed.

When the convention stopped Cox was leading with four hundred and hirty. Moddoc came next with three hundred and seventy-two and a half. Palmer was down to a hundred and six and a haif.

The situation with respect to the balloting is much the same as it was at Baltimore eight years ago.

In that convention the deadlock caused the convention to adjourn over Sunday.

The votes of the three leaders in the 22 ballots were as follows:

Ballot, Cox. McAdoo, Palmer,

******** ********

21 426% 395% 144
22 430 372½ 186%
The final ballots of the night were
full of McAdoo movement, but it
failed to make much headway. Georgia, his home state, pledged to Palmer,
swung over with 24 votes in a block
for one ballot to see if it would start
her native son toward victory, but it
failed to do so, and she swung back
to the attorney-general.

No Sign of Relief.

The day of rest brought to the convention no release from its deadlock,
and no promise of relief tomorrow.

Fruitless scarch for a dark horse
who could win, left the tired, muddled and ever-exasperated forces with
nothing more tangible than the likelihood of a straight-out fight between
Cox and McAdoo, and growing hopes
that Moses would spring up from
somewhere to lead them out of their
wilderness.

Athens, July 4.—The Greek offensive against Mustapha Kemal Pasha's Turkish Nationalist forces, which began June 22, ended July 2 with the junction at Omerkeui, north of Balikeri, of the Greeks from the south with those which landed Friday at Panderma on the Sea of Marmora.

These operations, which it was estimated would require 15 days, were completed successfully in 11 days, the opposing Nationalist forces being crushed.

McAdoo supporters scented danger. As if by magic, they organized on the floor in opposition, and with the Texas standard leading, began a parade of their own. FOREIGNER FOUN SHOT THRU HEAD

Believed to Have Committed Suicide as Wife Refused to Return to Him.

What is believed by the police to be a case of deliberate suicide occurred at 460-West Rirchmond street, at 11.45 last night, when Staven Cheren, of Peter street, is alleged to have shot himself, because his wife refused to return to his home.

It seems that Mrs. Cheren left her husband last March and went to live at the Richmond street address. Last night Cheren, who had been living on Peter street, went to his wife and asked her to go back and live with him again. According to the story told to the police, the wife refused, and Cheren went out into the hall and shot himself thru the head.

Dr. Bowrie, of 191 Spadina avenue, was at once called, but arrived too late to be disany service. It is stated that 11 or 12 foreigners were in the place at the time the shooting occurred. P. C. Honsides, of No. 3 division, investigated. Cheren was 29 years old. A letter written in a foreign language was found in the dead man's hand, of which only the word "godty" was intelligible to the police.

Herald Claims Document Found Exposes His Intrigues.

London, July 3.—Newspapers friendly to the Russian Bolsheviki give much prominence to an alleged secret document published in the newspaper Pravda of Moscow, on June 18, which is said to expose Winston Spencer Churchill's "intrigues" with the Russian imperialists in support of General Denikine, the South Russian anti-Bolshevik leader. This document, it is said, was found at Omsk after the retreat of Admiral Kolchak.

Bearing the date of May 6, 1919, it purports to be a confidential report from General Golovine, the czarist commander, to former Foreign Minister, Sazonoff, and tells of the former's conversations with Mr. Churchill and

GLASGOW LABORITE CHAMPIONS O.B.U.

MONDAY MORNING JULY 3 1920

'Also Denounces Religion in Course of Address at Queen's Park.

Why, in your estimation, are both Philip and Mrs. Snowden, both ultraradicals, expressing themselves in Britain as opposed to the Soviet as now constituted in Russia?" asked The World of Alexander Robertson on Saturday afternoon at Queen's Park in the course of an interview.

"The reason is doubtless simple," replied Mr. Robertson, himself a university graduate. "Mr. Snowden is too well off, too near the grind of parliamentary usage and too far removed from the real life of the working man in Britain. Ramsay Macdonald is in no better position."

Mr. Robertson was referring to the alleged interview Mrs. Snowden gave the press in Britain after her arrival from Russia, where she accompanied a committee of Laborites upon an investigation of conditions in Russia, and his reply aptly illustrated his own stand upon the labor question. A graduate of Glasgow University, and founder of the Scottish Labor College, in his home city, Mr. Robertson on Saturday afternoon, in the course of an address before a small gathering of from 50 to 100 people, stated his emphatic opinion that trades unionism as a force was dead and that the new system of shop steward federations was rapidly replacing what he termed the effete policies of the time-honored trade unionists. He ridiculed the ideal of conferences between employer and worker as futile, and advocated direct action thru the influence of the shop steward bodies. Toronto, he said, might in due course be reached by the tail end of the great meteor of the new labor idealism, which urged action not by the craft union labor leader but by the rank and file of the working class. There was practically no difference, said Mr. Robertson, between the shop steward system in Britain and the One Big Union in Canada.

"The struggle today in Britain," said the speaker, "is not merely one

tain and the One Big Union in Canada.

"The struggle today in Britain," said the speaker, "is not merely one of wages and hours. It goes much deeper. However, I might say that in Scotland the worker has begun to realize that he is entitled to the privilege of getting to work at nine o'clock and getting away at four or five o'clock as is the controller at the office. Hence, we may soon expect a widening of the struggle for the 25-hour week. Already the 40-hour week has been obtained in many industries in Scotland." Elaborating the shop steward scheme in detail, Mr. Robertson stated that cards under this system were transferable from any one industry to any other.

The Glasgow radical, who spent a few minutes in a truly bitter denunciation of religion and God, was followed by Joseph Knight, leader of the O. B. U. movement in Eastern Canada, and by James Birks, another Socialist atheist.

There were many returned men among the members, and many of them were not receiving more than 55 cents an hour, some of them less than 50 cents. There was no doubt, said Mr. Bowring, that with the cost of living as high as it was today the rate of 90 cents for highly skilled work and 70 cents for helpers was very reasonable. The union demands included a 48-hour week, with time and a half for overtime and double time for Sundays and holidays. There were many firms engaged in this industry which were not paying more than 65 cents an hour for the most skilled work.

CHURCH NOT A CANDIDATE

Altho the board of control has sent no suggestions on to council pertaining to the appointment of transportation commissioners, The Sunday World hears that the issue will come up, and that an effort will be made to fix the salaries at a level which will dampen the ardor of certain prominent aspirants whose names have already been mentioned. The move is to pay \$5000 to the chairman and \$4000 to each of the other commissioners. Canvasses that have been going on in the last ten days have been based on the assumption that the chairman would be paid \$10,000 and the other commissioners \$2000 each.

Members of council are rather mystified by the front which Mayor Church presents to the whole situation. Both Controllers Maguire and Cameron have been actively campaigning for a week to capture the mayors chair should he relinquish it for the transportation chairmanship, but the signs indicate that all these moves have been rather in the dark. If Mayor Church had any notion or eaching for the \$10,000 job, it is understood his nearest friends have issued an ultimatum that he must stick to the job of being mayor, not only for the balance of this term but next year, if he can beat McBride, who has already announced his candidacy.

With the platform of the National Liberal and Conservative party of Canada approving Canada's entrance into the league of nations, and the Democratic platform at San Francisco new international status of Canada calling for the ratification of the treaty of peace by the United States without reservations, and the entry of that country into the league, it becomes important even on this continent to enquire what the league. as a matter of fact, has accomplished Critics of the league including General Smuts, the South African premier, point to the wars still waging in Europe and Asia. There is an even stronger reason for delay. Next June the decennial census will be taken, followed by a redistribution. During the past ten years the population has greatly changed. In the varied provinces it is felt that for a fair verdict we should await the redistribution based should await the redistribution based on the next census. The result of the census sufficient for redistribution will be known before September, 1921, and if desired, a special session of two weeks would give a redistribution and an election could follow immediately.

There is little prospect of an election this year without there arises some issue that disturbs the unity in the cabinet or party.

Issue that disturbs the unity in the cabinet or party.
While the government's majority has dwindled and one or two other seats may be lost, yet accessions may come from unexpected quarters. There are a number of those sitting to the left of the Speaker very restless under the drift of their party to extremists, and they may ally themselves to the moderates. MOUNT DENNIS MAJORITY AGAINST

MT. DENNIS SITE

"I am supposed to keep an impartial position," said Inspector A. T. Campbell. of West York, addressing the ratepayers of S. S. No. 28, Mount Dennis, on Friday night, where the choice of a school site was later turned down by a large majority, "still, I like to come upon record on a question which is of so much importance, even at the risk of criticism, and I speak in a general way. I was asked my opinion within the last week and I said there was no reason why I should not approve of the Dennis site. It would be only with great reluctance that I could give approval to either of the other sites offered."

Mr. Campbell had walked from the Dennis school to the proposed site, and found it only an eleven minute walk. or 5-8 of a mile.

Lengthy addresses were made by John Marshall and John Bayliss, J.P., the respective owners of the two alternative sites, which Chairman S. Duncan, of the school board, had said were rejected because of the price. The action of the ratepayers has thrown the matter back again upon the board, who have power to build, even upon the site rejected on Friday night, if they feel so disposed. The question has been causing ferment for three years or more.

MERE HANDFUL SEE **LEAFS WIN SUNDAY**

Pounding Barnes After Trailing Early Rounds at Rochester.

Rochester, July 4—(Special).—The nad tional holiday brought out a mere 1,000 for see today's game between the Mapie Leafs and the fast-fading Bronchos. Toronto won because the Leafs found Barnes soft picking when they needed hits. They scored at will. O'Rourke singled in the first, and went to third on Anderson's smash to right. Whiteman took three strikes, Onslow punched a sacrifice fly to right, on which O'Rourke easily rode home. Anderson stole second, but was out trying to get third when White muffed the throw.

Not till the sixth did the Leafs get really busy again, altho they kicked in a few hits here and there to keep up interest. In the sixth, Whiteman singled to centre, and scored on Blackburne's splendid triple to left centre terrace. He scored when White's relay to Long got past Long—in fact, he didn't stop running from the time he hit till he scored. A real fusillade opened the seventh. Singles by Devine, O'Rourke and Apderson filled the bases. Whiteman forced Devine at the plate, Long to Ross. On Onslow's fielder's choice toward short, O'Rourke scored. Riley walked, forcing in Anderson.

Rochester had got one in the first on Particular and stored to the seventh of the decimal of the seventh.

The New York Giants and Benny Kauff will be here tomorrow. Benny could not report to the local club until tomorrow and would not be available for the holiday games today at Rochester. The Giants will arrive on the 3 o'clock train and all the regulars will be in the party, in addition to Spencer, King Lear, Kelly, late of Rochester; Earl Smith, the backstop, from the same club. The game will be called at 3 o'clock.

BUNNNY HEARN MAY COME.

President McCaffery of the Toronto Baseball Club received the following wire last night:

"Do you wish Pitcher Bunny Hearn? If so we can purchase him from Boston. Answer.—John J. McGraw."

In reply Mr. McCaffery advised McGraw that he could use the left-hander, and to go ahead with the deal.

The two games at Rochester today will be played in the afternoon.

HOW THE QUAKER, BILL TILDEN, BEAT KANGAROO FOR WORLD'S TENNIS TITLE

Wimbledon, Eng., July 3.-America won Wimbledon, Eng., July 3.—America won her greatest triumph in the history of tennis here today when the United States captured the singles and doubles championships,
William T. Tilden II., of Philadelphia, defeated Gerald Patterson of Melbourne, Australia, 2-6, 6-3, 6-2, 6-4.
C. S. Garland of Pittsburgh, and R. Norris Williams II., of Boston, defeated A. R. F. Kingscote and J. C. Parke, the British pair, 4-6, 6-4, 7-5, 6-0, 6-2.

Mary Ryan, of California, teamed with Mile. Susanne Lenglen, of France, won easily.

Tilden, in the first set, opened with experiments all around the court and then settled down mercilessly to feeding his oponent's backhand, and as the game progressed Patterson got worse and worse under this method of attack.

Tilden exploited his famous cut stroke to his opponent's backhand again and again in the last three sets and Patterson was unable to get the spinning ball over the net. He frequently hit into the bottom of the net and then when Patterson came in to the net Tilden played a slow fast-dropping shot to his opponent's left hand, and almost invariably the ball was netted.

These tactics were relentlessly exploited by Tilden, who showed Patterson so far as the centre courts were concerned, in an entirely new role. Thousands of persons had believed he was unbeatable, only a few knowing he had a vulnerable joint in his armor.

In the first set Patterson led, 4 to 0, then 4-1, and 5-1. Patterson making numbers of grand drives and serving magnificently. In the second set Tilden served first, taking the score 2-0 and there was a protracted struggle for the ninth game, which Tilden finally won.

The third set went two-all and then Tilden ran it out in the finest fashion. In the fourth set went two-all and then Tilden ran it out in the finest fashion. The third set went two-all and then Tilden annexed three games, in succession and won the set and match. The winner received a notable ovation.

Williams took the courts to try for international doubles honors. They lost the first set 4-6 to Kingscote and Parks, but, like Tilden, stepped out and captured the next three and the match. The third set was the hardest fought of the three, the Americans winning 7-5 from the British Davis cup team.

Gerald L. Patterson, of Australia, and Mile. Susanne Lenglen, of France, defeated Randolph Lycett, of Australia, and Miss Elizabeth Ryan, of California, in the finals of the mixed doubles in the British lawn tennis championship tournament here today. The winners took the match in straight sets, 7-5, 6-3.

TORONTO CLEANED UP

TORONTO CLEANED UP DIVING AT MONTREAL

Montreal, July 4.—The feature of the second day of the Olympic swimming trials, held here under the auspices of the Quebec Branch of the Canadian Amateur Swimming Association on Saturday afternoon, was the brilliant exhibition of George Vernot of Montreal, who earned the right to represent Canada at the Olympic games, together with the title of Dominion champion. Vernot lowered the previous mark in the 220-yard event, established by R. N. Ritter of the New York Athletic Club. This was 3.041-5, and Vernot brought it down to 2.39, a difference of 251-5 seconds. Another mark lowered was that by G. H. Fisk of Montreal, in the 100 yards, back-stroke, which was brought down from 1.261-5, held by R. N. Ritter of New York, to 1.232-5. Yet a third new record was established by Miss Kessier of Winnipeg in the 220 yards, who swam the distance in 3.321-5.

Since the trials also count as Canadian championships, five championships are town held by Montrealers—four by Geo. Vernot and one by Fisk, Members of the Quebec branch hold the undisputed right to represent Canada at Antwerp, Summary:

Benton Harbor, Mich., July 4.—Benny Leonard, New York lightweight champion, will defend his title for the first time in six months here tomorrow when he faces Charlie White. Chicago, considered one of the most dangerous hitters in the lightweight ranks, in a tenround championship contest.

The lightweight rivals will battle in a huge newly-constructed arena before an expected capacity attendance of 18,000 persons. The gate receipts, if the arena is filled to capacity, will total between \$50,008 and \$60,000, one of the biggest in lightweight history. Leonard has been guaranteed \$15,000 with the providing of a percentage. White accepted a straight percentage. E D. W. Smith, Chicago, will be the third man in the ring. Leonard is an overwhelming favorite in the betting.

In the question of weight, Leonard is likely to have a couple of pounds, and perhaps more of an advantage. White expects to go in the ring, weighing about 135 or 136 pounds, while the champion expects to scale between 137 and 138 pounds.

There will be no decision rendered tomorrow. White, to win the title, must

Gold Stocks Command Most Attention on the Mining Exchange.

TECK-HUGHES RECOVERS

During the first hours of business on the Standard Mining Exchange on Saturday only five hundred shares of Gifford, one of the penny stocks, changed hands. This gives the best impression of the present inactive condition of the market. It was announced during the session that the Peterson Lake Mill had closed down and this news was no incentive to buoyancy in the Cobalts. One relieving feature of the trading was the recovery in Teck-Hughes from 7 to 10. The golds were the only issues in demand, with Trethewey excepted. Dome Extension sold at 23½ and Dome, exdividend, at \$10.80. Hollinger and Monthlyre were not dealt in. Petrol was easier at 131. The annual meeting of this company will be held between now and the 15th inst., and the fight for control is still on.

Chicago, July 3.—Corn—Much will depend on the weather conditions; in fact, they will be vital, and the market will take its immediate action from that factor. The movement must also be taken into consideration. Transportation is giving us a fair run,; should it be interfered with it would help a reaction.
Oats—Considering the bad break in corn and provisions, oats, one might say, acted very well. We believe the possibilities of crop deterioration and small amount of old oats will offset the Argentine bearish news, current, and long side of September offers investment opportunities.

Henry Clews says: The high renewal rates on call loans are not surprising, considering the demands of the government and the preparations now under way for taking care of enormous July disbursements, estimated at over \$340,000,000, or \$25,000,000 more than a year ago. That the market does not decline, only goes to demonstrate what has been evident for some time past, that, while present owners of stocks may not care to increase their indebtedness, they have no intention of parting with their holdings, and, so long as this state of affairs exists, there is not much room for declining prices, especially as most stocks are regarded as reasonably cheap around current levels.

Montreal, July 4.—Saturday's market on the local stock exchange was featured by the fact that no one issue monopolised dealings, but the market was distributed between four master stocks. These were Breweries, Brompton, and the Spanish River issues. Each moved to higher levels except Breweries, which opened at Friday's closing prices and eased to lower levels at 65 1-2 to 66 1-8, a net loss of 1 7-8 points.

Brompton moved up to the previous high record level at 142 and finished the morning at the best, a gain of a point. Spanish River common got as far as 106 and finished at a net gain of 1 1-2 points at 105 1-2, while the preferred made a maximum advance of 7 1-2 points to 113 1-2, retaining six points at the close at 112.

Radically Bearish Sentiment and Discouraged Holders Pressed Selling.

Chicago, July 3.—Radically bearish sentiment regarding corn and oats manifesetd itself today on 'change. Discouraged holders pressed the selling and there was a sharp break in values. Corn closed nervous 21-2 to 61-2 net lower, with September 1631-4 to 1633-4, and December 1513-4 to 152. Oats lost 13-8 cents to 37-8 cents. In provisions the outcome varied from \$1 decline to 45 cents advance. At intervals the corn market was almost bare of support, and the July delivery in particular seemed to be without funds.

BUY Stocks cheap---

the money-making recipe of a famous financier. The question is, when is a stock cheap and when is it dear? One of the most important factors determining this point is the future prospects of the industry which the stock rep-

The shares of a number of industrial concerns made enormous price advances during the war, due, of course, to the unprecedented demand for their products. Recently, this demand has had a great decline, placing the future of these companies on a rather uncertain basis. On the other hand, the gold mines had been handicapped, on account of high operating costs due to enormously increased commodity prices as compared with the fixed value of gold. Now conditions are changing. Commodity prices are falling—the purchasing power of gold is increasing. For these reasons, a period of industrial depression would operate to the benefit of the gold mines. In our opinion, we are on the eve of a great boom in gold mining, which we believe will be ushered in this fall. This is the time to do your buying. Gold stocks of unquestioned merit can be bought cheap.
