GERMANS LAUNCH HEAVY ATTACK; AGAIN THEY FAIL

French Beat Them Back—Victories For Allies in the Balkans—Huns Have Turn at Experiences Which Were British Soldiers' in Early Days of War

Paris, Aug. 24.—After an intense bombardment of the Soyecourt Woods, the Germans attacked, with grenades, the French positions south of the Somme last night, but without avail, says today's war office statement. Positions between Fleury and Thiaucourt, which had been taken by the French, were violently shelled by the German guns.

ALLIES WIN IN BALKANS

Paris, Aug. 24.—The official statement on the Balkan fighting states the French and British have repulsed Bulgarian attempts to recapture positions in the Doiran sector, while the Serbians have retaken Hill 1506, northwest of Trovo.

Enemy's Turn Now

Rotterdam, (Toronto Globe cable)—Max Osborne, in a dispatch from the Somme front to Vossisch Zeitung, says: "One is hunted up and down like a wild beast. There are times when our men cease and are homesick but in the moment of fighting all their feelings disappear."

George Wagner in a despatch to the Koenig Zeitung says:—"The present position held by the Germans consists of a chain of shell holes instead of the girdle of strongly built and fortified trenches. Immovable men crouch in these holes with no cover from the sun and rain and not the slightest protection against the shells from above. Hostile flyers cover the positions at a low height. They see the men in the holes and direct the Anglo-French batteries to a deadly certainty upon them or else they fire themselves with machine guns. Everything has to be done at night, the bringing up of reinforcements, removing the wounded and burying the dead."

"When an attack begins, the terror of these places is beyond description. Like the fire rain in Gomorrah, the drum fire of the enemy pours from Heaven. The little shelter that there is in the trench for holes is quickly flattened out. With thundering roar, heavy shells from the gigantic mines wipe out everything in the neighborhood with their explosion. At the same time a rain of shrapnel falls and poisonous gases roll forward."

Berlin Assumes Indifferent Tone AS TO ROUMANIA

Berlin, Aug. 24.—Government circles here, though none too optimistic, view the Rumanian situation calmly, taking the attitude that it is Rumania's next move. The feeling is that the Central Powers have done everything possible to meet Rumania's views, and that Rumania, in persisting in the course desired by the Entente and her own expansionist party, will find the Central Powers ready, in which event it is to be expected that every effort will be made to insure that the new war theatre is on Rumanian soil.

Information from Vienna indicates that the Austro-Hungarian government, besides its usual diplomatic manoeuvres, is making a special effort to bring about a settlement of the Balkan situation.

This is Enemy Report.

Constantinople, Aug. 24.—The repulse of a Russian attack on the Turkish positions along the Caucasus front with loss of 8,400 Russian troops, is reported in the Turkish official statement today. The announcement follows: "Caucasus front.—On our right wing separate attacks on the Turkish advanced positions were repulsed by counter-

attacks with considerable enemy losses. In the Ognot sector along the Russian front 8,000 men and in front of the Turkish position at Mighi we counted 400 killed."

In the Balkans.

London, Aug. 24.—(New York Times cable)—A wireless press despatch from Bernes says that the Vienna paper, Allgemeine Zeitung, in denying reports that Von Mackensen is on the western front, states that he is the commander-in-chief of the combined Bulgarian-German-Turkish forces operating against the allies in the Rumanian soil.

Japanese Admiral, After Visit to Countries of the Allies, Says Development of War is Entirely Favorable to Allies and Germany Has Lost Advantage

Paris, Aug. 24.—(Toronto Globe cable)—The Terpsit last night estimated that the allies' superiority over the Germans in men and resources now is fully three to one.

Japanese Admiral's Views

London, Aug. 24.—(New York Times cable)—Admiral Togo, who planned the battle of Tsushima, is on the way to New York, after visiting all of the allied countries.

"I am thoroughly convinced that the allies are in two-fold superiority to the Germans," said the admiral before sailing. "To be perfectly truthful, the Germans were a nation much stronger than we ever imagined. What they have done in the last two years will remain a marvelous monument in the history of the world."

"But what made them so strong is their organization and preparation in military matters. Their advantage no longer exists. The allies, by practice and experience, have accomplished all the Germans had perfected."

"All that remains to Germany today is her national unity, which is the fundamental element of her strength. But I have come to believe that the German unity can withstand the strain of the dangers which threaten."

"The discipline lacks elasticity and cannot last. Anyway, the development of the war is entirely favorable to the allies."

King Ludwig III of Bavaria is Seriously Ill

Paris, Aug. 24.—King Ludwig III, of Bavaria, has been stricken with apoplexy and his condition is grave, according to a report from Switzerland, says a Rome dispatch to the Petit Parisien.

King Ludwig III is seventy-one years old. He married the Archduchess Marie Therese of Austria and ascended the Bavarian throne in 1913. He was appointed a field marshal of the Bavarian army last year and visited the Bavarian troops on the battle line in France in January last.

END OF WAR LONG WAY OFF; VIVIAN TELLS THE FRENCH

Paris, Aug. 24.—A difficult and prolonged struggle before the war is ended is predicted by Former Premier Vivian, minister of justice in the present cabinet. In an address before the general council of the Department of Creve, M. Gueret, said:

"Although victory is certain it will require hard and prolonged efforts to break Prussian militarism and prevent recurrence of its crimes. There can be no peace before the attainment of victory, before adequate reparation is made and before justice triumphs."

In an address before the general council of the department of the Aube, Blennes Martin, former minister of justice, said:

Four People Drown in Meteghan River; Auto Goes Over Bridge; Man and Wife; Two Young Women

Digby, N. S., Aug. 24.—A fatal automobile accident took place at Meteghan river about nine o'clock last night. A car owned by Frank B. Comeau and driven by Frank Saulnier of Saulnierville was crossing the Meteghan river bridge when the driver lost control of his car, and the machine and its occupants were thrown into the river at high tide. The driver escaped with some injury, but all the others in the car were drowned.

They were: Leo Amiro and his wife, of Saulnierville, each aged about 35. Mary Lombard, aged 25, of Saulnierville, clerk in S. S. Comeau's store. Moneque Comeau, aged 20, adopted daughter of John U. Comeau, of Meteghan river.

The bodies have been recovered, the last one at two o'clock this morning, having drifted out to the breakerwater with the ebb tide. The car was raised out of the river this morning.

They will accept only such peace as assures them legitimate reparation, as well as their independence and security, and they will bear patiently all sacrifices in order that, in conjunction with the efforts of their faithful allies, such a peace may be imposed."

Hops Sell at \$11.30

Chicago, Aug. 23.—Hops sold for \$11.80 a hundred pounds at the Union Stock yards on Tuesday, the highest price since the Civil War. Dealer credited an advance to \$12 in September.

A further advance in the price of beans is expected, dealers said. A year ago beans cost the housewife five cents a pound. The retail price now is eleven cents. The demand for beans for European armies and for United States troops along the border is said to be the principal cause for the advance.

NO COUNCIL

There was no meeting of the common council at noon today owing to the absence of three of the commissioners.

Food Riots Now In Hamburg

Police Overpowered or Unwilling to Act; Shop Windows Demolished; People Want Food and Peace

London, Aug. 24.—(New York Times cable)—A despatch to the Chronicle from Amsterdam says: "For a week past the port of Hamburg has been in a state of revolution. One who has just escaped" as he expresses it, tells an extraordinary story of the gradually rising exasperation of the population until early last week they broke into open hunger riots and passed demonstrations.

"The authorities appear to have been taken by surprise, for the police were unable and perhaps unwilling to quell the disturbances. They were completely overpowered and before the soldiers could arrive angry crowds had forced their way through several of the principal streets and smashed every shop and business house window. Only vigorous measures were able to restore order."

"The utmost severity is shown to all who venture outdoors, except during strictly limited daylight hours."

SECOND COMMERCIAL CREDIT FOR FRANCE

Is Arranged to Extend \$20,000,000 in New York

New York, Aug. 24.—(New York Times cable)—Negotiations for the extension of a second commercial credit to France, announced here tonight, are for \$20,000,000 and will be completed by the end of the month.

The extension of the credit is an equivalent of an American loan of \$20,000,000 for one year and will be repaid by the issue of \$20,000,000 of American government bonds which are held in New York and payment in gold at New York at maturity is guaranteed by the Bank of France.

Several New York banking houses will participate in the advance.

WHEAT AND SHIPPING SUBJECTS OF DEBATE IN BRITISH COMMONS

London, Aug. 23.—During a debate in the House of Commons last night on "German unity and the wheat question," Mr. Griffith said that if the British government, in co-operation with the Canadian government, had not intervened to have grain prices here would not now be so much at the mercy of Chicago speculators. A great amount of Australian wheat, he asserted, held up for the want of ships. He insisted that every farm in the United Kingdom should be under government control.

Richard Houston, a Liverpool shipowner, contended that while wheat has gone up in price in the last few weeks fully fifty per cent. in Canada and is only ten per cent. in the United Kingdom. He urged the establishment of national granaries to "save us from fluctuation in prices."

Defending the shipowners, Mr. Houston declared that Colonel Winston Spencer Churchill, during his tenure of office as first lord of the admiralty, was more responsible than any one for the rise in freights. It was, he said, largely due to Churchill's wasteful use of British shipping.

Confirms Report of Safe Return of Deutschland

Commander Being Feted as a National Hero and is Summoned to Kaiser's Headquarters—Bremen Said to Be Week Out on Way Across

London, Aug. 24.—Reports of the return of the German submarine Deutschland from the United States are corroborated in a telegram received at Amsterdam from Bremen, as forwarded by Reuter's correspondent. According to this information, the Deutschland traveled 4,200 miles on her homeward voyage. At the beginning, the sea was tempestuous, but later it became more calm. The Deutschland proved to be able to navigate the stormy seas excellently. Her engines worked faultlessly. No icebergs were passed on the journey.

The American government, says the despatch, acted in a correct manner as a despatch, vigorously enforcing respect for its frontier from British and French warships by the employment of its own men of war, and the submarine succeeded in leaving undetected. A distance of 100 miles was traversed under water without being detected.

The Deutschland returned some slightly damaged, according to an Exchange Telegraph despatch from The Hague, which says this information is contained in a telegram from Bremen.

The members of the crew, were unwilling, it adds, to give details of the return voyage. The arrival of the submarine surprised her owners, as she was not expected to dock within a week.

London, Aug. 24.—The departure of the German submarine Bremen for America a week ago, is reported in a despatch from Bremen as forwarded from the Hague by the Exchange Telegraph Company. It is said the owners of the Deutschland and the Bremen received word seven days ago of the progress being made by the Deutschland on her return voyage and that it was not until they had obtained this information that they permitted the Bremen to depart.

The Deutschland took the same route on both her voyages, the despatch says. The Deutschland is being feted as a national hero, and has been summoned to Kaiser William's headquarters to report on his voyage.

Expect Her at Boston?

Boston, Aug. 24.—The North German Lloyd liner Wilhelm, which has been in refuge here since the outbreak of the war, slipped out of the harbor early today, presumably for New London, Conn., for which port she obtained clearance papers last night.

Officials of the line asserted that the change was made to reduce docking charges and denied reports that there was any connection between the Wilhelm's movements and the expected arrival of the German merchant submarine Bremen.

TO USE PERSUASION RATHER THAN FORCE

London, Aug. 24.—The east coast of England was visited again last night by a hostile airship which dropped bombs in fields but did no damage. The British official statement says: "A hostile airship crossed the east coast a little before midnight last night. Incendiary and explosive bombs were dropped over open fields. No damage or casualties are reported. The airship went to sea again before one o'clock this morning."

GERMANS AFTER MORE MONEY WITH WHICH TO CARRY ON WAR

London, Aug. 24.—Arrangements have been completed for flotation of the fifth German war loan. The interest rate will be five per cent., as in the case of the previous loans.

Count Von Roeburn, secretary of the imperial treasury, has initiated measures to popularize the loan which, the despatch says, is being described by canvassers as "the last war loan."

FREDERICTON REPORT SAYS T. J. CARTER WANTS PLACE IN CLARKE GOVERNMENT

Fredricton, N. B., Aug. 24.—Titus J. Carter and J. L. White, M. L. A.'s for Victoria were here yesterday urging on Premier Clarke Victoria's claims for representation in the government. Mr. Carter is said to be anxious to secure a forecast berth, and Mr. White is reported to be supporting his demands.

HONOR AND MONEY

"Are you happy?" asked the Sociologist.

"I am not," replied the Millionaire.

"That is strange."

"Not at all. The trouble is that there is no longer any honor in having money."

"There is something in that," agreed the Sociologist.

"And there is no longer any distinction in owning an automobile."

"No."

"And aeroplaning is not expensive."

"And somewhat risky."

"Divorces, with picturesque remarriages are exciting enough, but there never was much honor attached to them."

"Quite right."

"If I have a country house, nobody sees it except middle-class automobilists, to whom it is but one in a hundred of so passed in an afternoon's spin."

"That is an interesting thought."

"And yachts never did make much of a show to the general public. The Horse Show creates only a mild general interest and, since betting has been stopped, the splurge has fallen out of horse-racing."

"That's true."

"And if I purchase a foreign nobleman for my daughter they immediately go abroad to live and the public soon forgets them, unless they are divorced."

"The situation is essentially modern," suggested the Sociologist.

"Yes, and there is the muck-raker. No sooner do I get a dollar than he comes around and wants to know where, how and why I got it."

"What are you going to do about it?"

"Oh, I don't know," replied the Millionaire wearily. "Sometimes I think the honorable thing in the future will be some sort of poverty."—"Life."

Protect Your Eyes

Those to whom nature has given extra good eyes are apt to be rather proud of them. But nearly always abuse it.

The commonest ailments we hear of are eye-strain, headache, dizziness, which are really but the result of eye-strain.

Good vision is priceless. Health, happiness and prosperity depend upon it, yet our eyes are being persistently ill-treated and little attention is given to preserve their usefulness.

The symptoms of eye-strain should be heeded.

The Two Big Points For Watch Buyers

First is accuracy. Second is appearance.

The reason for different grades is watch movements is to provide watches which will keep accurate time under different conditions.

Cases are the show part of the watch. At Sharpe's you suit your own taste with the assurance that the case fits the movement perfectly and will give the service claimed.

Our stock in the few really good watch movements is so small that you get a watch here that will be accurate under the conditions you subject a watch to.

TROUBLE AT RECRUITING MEETINGS IS REPORTED

Montreal, Aug. 24.—Recruiting officers today reported to Ottawa details of disturbances which have taken place at twenty enrollment meetings in this district. The interrupters have for the most part been French.

Three meetings yesterday ended in disorder. At the first, the interrupters were roughly handled by the soldiers. At Mansouville, Que., one soldier was placed under arrest for assault. In the city recruiting rallies were interrupted by men who spoke French.

BIRDS AND SHELLS

(Capt. Louis Keene Jr. Cartoons Magazine.)

During the bombardment yesterday I noticed the swallows flying about quite unconcerned. The birds built in the lines close to the guns, and don't seem to worry a bit. They often warn us of the approach of gas by their fluttering and twittering. Batteries play in the dust. Cornfields extend to the edge of the trenches. Flowers grow in profusion in No Man's Land between the trenches.

The War Cables Of Last Night

With no changes of importance in the main theatres of the war, interest remains centered on the new Allied offensive on the Saloniki front. The latest despatches, however, from the war capitals throw little light on the situation, and the Allies' plans and objectives remain somewhat obscure.

ish push their operations against Thiepval and Guillemont. London reports fresh tightening of the ring around Thiepval in the capture of 300 yards of German trench south of the town. Bitter fighting is going on in this section, the Germans counter attacking with great violence. In these counter attacks they succeeded in entering some of the British trenches but according to London, they were immediately evicted.

WEST SIDE S. C. A. SALE. The West End Soldiers' Comfort Association intend to hold a sale and tea in the 'Pren'ice Boys' hall, Guilford street. A five o'clock tea at the low price of fifteen cents will be served, and the sale will consist of children's dresses, ladies' aprons, fancy work, etc. Many other attractions are promised. This affair will be held on Thursday, August 24, and the proceeds will be used in providing Christmas boxes for the boys at the front. Owing to the immense number that must be remembered by the association the packing and shipping must be done early so the boxes will be distributed by Christmas.—Mrs. A. W. Fraser, president. 8-23.

J. Glick, the ladies' tailor, 106 King street, has a reputation for good work.

LOCAL NEWS

A special committee from the council of the Board of Trade visited the scene of the operations at the West Side docks yesterday to determine how the work was being carried on. A report will be made to the council tomorrow. A Gordon Leavitt, secretary of the Board of School Trustees, and Miss Ellen T. Reed, the assistant secretary, are very busy just now filling out school permits. The average each year exceeds about 1,200, but this year is expected to exceed that number.

DOES THIS MEAN YOU?

Are you one of the many who are suffering with eczema, obstinate sores, ulcers or any other skin trouble? If so, lose no time in trying Zambuk, and you will be amazed at its curative powers. The healing power of any ointment is in proportion to its medicinal ingredients. Ordinary ointments being composed chiefly of animal fats, with only a small percentage of medicinal ingredients, have not sufficient healing power to overcome a bad case of skin trouble. Zambuk, on the contrary, is purely herbal, and is all medicinal, which explains its superiority over other ointments, and its many marvellous cures.

"Good, Isn't It, Grandpa?" "Yes, Sonny, Postum is good, and much better for you than tea or coffee—you'll know why, sometime. In fact, children should never drink tea or coffee—and most grown-ups would be better off without either. In tea and coffee there's a drug that is harmful, especially for children, and it often causes troublesome conditions in older folks."

POSTUM is fine for both children and grown-ups. It is made from good wheat, roasted with a little wholesome molasses—nothing to hurt anyone.

There's a delightful flavor in Postum—the pure food-drink for those who want to be healthy and happy. "There's a Reason" Canadian Postum Cereal Co., Ltd., Windsor, Ont.

THE WAR NEWS

When several days pass without news of important gains by the Allies on any front we become impressed by the fact that the enemy still possesses immense resisting power, and it is well that we should keep this fact constantly before us.

Progress is being made on all fronts, but at heavy cost. It is useless to attempt to conceal the fact that the cost is heavy and the energy powerful.

The latest news of the recent fight shows, as did later reports of the great North Sea battle, that the British did much better and the Germans probably much worse than at first reported.

PROVINCIAL POLITICS

Referring to those opposition candidates who have been members of the legislature in former years, and whom it describes as "the old gang," the Standard says:

"They have no interest but self-interest, and their sole idea of reform is to ineptly try to place themselves in a position where they can control the public coffers for their own benefit."

THE PRICE OF MILK.

Ottawa is up in arms over a proposal to increase the price of milk to nine cents. There is talk of a municipal dairy, and also of an investigation under the combines act, which says:

"In Canada, the price of food products is steadily ascending, but there has been no move on the part of the government to check this tendency which threatens

to cause widespread distress in the very near future. Is it not time that a strong protest was filed against the ineptitude of the administration in this way, regarding all politics?"

The Journal, as quoted in the Times yesterday, shows from experiments at the experimental farm that milk can be produced at a fraction over one cent per quart.

If the price of milk goes to ten cents in St. John there should be an enquiry here, as well as at Ottawa. If milk cannot be produced and sold for less than ten cents the people of course must pay it.

The opposition convention in Carleton county will be held on Aug. 30, at Hartland.

When is that flour shed for the government railway to be erected? What excuse is there for delay?

It would pay the city of St. John to engage a school nurse, to be constantly on the watch to prevent the spread of disease and vermin in the schools.

The gallant Serbians are again in fighting trim, and with such powerful aid from their allies they will be able to give a good account of themselves.

Whether the Deutschland got safely back to a German port or not is of little consequence. The things Germany most needs cannot be carried by submarine.

Whoever is to command the next battalion from New Brunswick should know it now. It takes time and preparation to get a good staff and to be ready for a recruiting campaign.

The British armies have again and again proved their superiority over the Germans, and are rendering service of the greatest value. The French armies have also accomplished remarkable successes, and this feature of the war has grown in importance from month to month.

The government press is apparently very much worried over the poor type of candidates chosen by the opposition. The Frederickton Gleaner wants the opposition to start all over again and try to do better.

AUSTRALIA GETS AFTER GERMANS

Final and complete success is assured the Australian government's attempt to de-Germanize Australian metal industry. The contract placed by the British government for 100,000 tons of zinc concentrates and 45,000 tons of spelter annually for the balance of the war, and ten years after, provides the necessary British market.

The importance of the consolidation of the all-British control of Australia's metal and refining industries is obvious. It is the first big step in the new imperial policy of conserving the natural resources and output of the British Empire for preferential use within the Empire.

Ottawa is up in arms over a proposal to increase the price of milk to nine cents. There is talk of a municipal dairy, and also of an investigation under the combines act, which says:

THREE IN CASUALTY LIST LAST NIGHT

The names of three New Brunswick men appear in the midnight casualty list as follows: Wounded, J. T. Vanbuskirk, Moncton; A. Joseph Whippley, St. John, and died of wounds, Frank M. Martin, Dawsonville.

Michael L. Esach of Demarara signed on yesterday afternoon at the recruiting office for overseas service, with the 9th Siege Battery.

The two men, Morton Clark and James Wilmut, of St. Andrews, arrested on Tuesday evening on a charge of supplying liquor to soldiers, will be proceeded against under a proclamation of the governor-general of Canada, which provides for a fine of \$5,000 and a term of imprisonment which may be increased to life.

Lieutenant-Colonel P. A. Guthrie has received commendation from the military authorities at Ottawa for the manner in which he has discovered means by which men of the 4th Pioneers were being transported to the United States.

Mrs. A. J. Whippley of 92 St. Patrick street was advised yesterday from Ottawa to the effect that her husband, Private Arnold J. Whippley, had received gunshot wounds in the legs and was admitted to No. 6 Field Ambulance on August 6.

Miss Margaret McDonald, of Long Wharf, wrote letters in May and June to a friend, Private Charles A. Fisher, of the 14th Battalion. One letter was returned to the writer with the word "missing" written on the envelope. Later a second was returned with the word "killed" on it. This was the first intimation that Miss McDonald had of the death of Private Fisher.

On writing Ottawa, she was advised that he was at first reported missing and later killed. Private Fisher went to England with the 50th Battalion and was transferred to the 14th. He had several friends in St. John, who will learn of his death with regret.

CARLETON CO. CONVENTION AUGUST 30

Hartland, Aug. 28—A meeting of opposition forces was held here this afternoon. It was one of the most enthusiastic ever held in the county and many were in attendance. The coming by-election was discussed freely and it was decided to hold the opposition convention for Carleton county on Wednesday, Aug. 30, at 2 o'clock p. m. at Hartland.

Everything points to a victory for the men who have issued a challenge for a clean election to the government party.

Catarrahal Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy.

MORNING NEWS OVER THE WIRES... Fears are entertained that villages on the Saguenay, between St. Alphonse and Chicoutimi, will be wiped out by forest fires that have been raging for two weeks.

A PRECAUTION... At a meeting of the board of school trustees last evening it was decided that every pupil will be examined before he or she will be permitted to enter school next Monday, the opening day for the public schools.

PROPERTY SALES... C. B. Darcy has sold a house and two lots at Randolph Heights, Fairville, to G. G. Bedy, and one lot at Fair Vale owned by William Hunter, to Harry J. Meehan.

A WORTHY OBJECT... The Sunshine class of the Ludlow street Baptist Sunday school aided by Mrs. Price conducted a supper and sale in the Oddfellows' hall on Tuesday evening in aid of the Patriotic Fund and the Children's Aid Society.

FIND GERMS ON POSTAGE STAMPS

Philadelphia scientists, Dr. Robert A. Kelley and Dr. Walter H. Weller, have been carrying on an investigation in the McManus laboratory of pathology of the University of Pennsylvania to determine whether or not postage stamps are germ carriers. Their experiments have been completed and the results are published in The Medical Record.

The answer to the query is "yes." They learned that out of 50 stamps tested in several ways, 48 yielded bacteria. On the other hand, with the possible exception of two cases, none of the germs isolated could cause disease. This should not be exercised in handling stamps, for it is just as easy for them to be impregnated with disease germs as with those that are harmless, the experimenters say. Here is part of their report.

The purpose of this study was to determine the normal bacterial flora of postage stamps, that is, to get some idea of the general character of bacteria found on stamps, with especial emphasis in the search for tubercle bacilli, bacillus tetani, the colon group, and diptheria forms.

The literature on this subject is surprisingly meagre and but little record is made of the bacteria of stamps. The subject is usually approached from the viewpoint of the spread of infection by the postal service as a whole, the infection by letters, and the fumigation of letters, and but little record is made of insects by stamps, or of the bacteria of stamps.

GOT DIARRHOEA FROM DRINKING BAD WATER

Had To Give Up Work. Mr. H. M. Ryckman, Port Rowan, Ont., writes: "Last year I was out in Saskatchewan. The water was very bad and I was taken with diarrhoea. In a few days I was in such bad shape I had to stop work. I got a bottle of Dr. Fowler's Extract of Wild Strawberry, and had only taken a few doses when it was stopped, and I was soon able to go back to work again."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past seventy years, and has had such great success in curing all bowel complaints that many firms have undertaken to provide a substitute for it, even going so far as to use a similar name.

Do not be led into taking a substitute for "Dr. Fowler's" but insist on getting what you ask for.

"Dr. Fowler's" is safe and sure, and by taking some of these rank substitutes you may endanger your life.

"Dr. Fowler's Extract of Wild Strawberry" is manufactured only by The T. Millburn Co., Limited, Toronto, Ont. Price 85c.

THE SHOES I CAN'T WEAR All Because of a "Touchy" CORN BUT you can wear them, Madam--and now. Simply place on that corn a little Blue-jay plaster, and never again will you feel it. In two days there will be no corn. It will disappear for good. Millions of women know that. They don't care corn. They don't use old-time methods. And they don't suffer. When a corn appears they end it. We are urging you to join them. Corns are needless since Blue-jay was invented. So they are absurd. You can prove in one minute that Blue-jay stops corn aches. You can prove in two days that it ends them forever. Won't you? See and be convinced. Blue-jay is sold at Drugists, Also at: Union Fishers, Station Fishers, Chalmers and King York, Builders of Special Breadings, etc.

British Crusade Against Alcohol

(Toronto Mail and Empire.) months of war it consumed over 2,500,000 tons of food, with sugar enough to last the nation 30 days. It uses up more sugar than the army. It wastes great financial strength; in the first 20 months of war our people spent on alcohol \$260,000,000. It diverts the nation's strength; it uses up 500,000 workers, 1,000,000 acres of land, and 12,000,000 tons of coal a year, and in 20 months of war it has involved the lifting and handling on road and rail of a weight equal to 50,000,000 tons. It shatters our moral strength; its temptations to women invade grave danger to children and anxiety to thousands of soldiers. Results of Prohibition As it is impossible to estimate the disastrous naval, military, social and economic consequences of alcohol in this crisis, so it is impossible to exaggerate the good results of its removal, according to the petition. In towns under the control of the police, the streets are glowing in their praise of peaceful London and quiet streets at night; the London Sessions, following the adoption of the order, were the shortest ever known, and several prisons have been closed since the order began its work. Yet, though the general drinking hours have been suddenly cut down to two short intervals a day, there has been no serious complaint, and we commend this to the government as proof of the readiness of the people to accept war restrictions, and to share in a common sacrifice. "If it is said we need the revenue the state derives from alcohol, the answer lies in these things. No nation can make a profit from such a trade as this. But the fear for the revenue is allayed by the noble action of our allies and dominions; of Russia, which has prohibited vodka; and of France, which has prohibited absinthe and the sale of spirits to women, soldiers, and young people. Canada, wanting strength and money, has found both in prohibition. The saving power of her people has risen from shillings to pounds. The banks that received \$180,000 in January before the war, received in January, 1915, \$2,600,000, and in January, 1916, \$12,000,000. The industrial efficiency of Russia has increased by 80 per cent., and an increase of 10 per cent. in our efficiency would replace our revenue from drink. I deem it my duty to declare in the most emphatic manner, says the Car's finance minister, that there cannot be any return to the past. No Temperance Reformers "No source of weakness under our control is so widespread, more vital to the safety of the state in war and its welfare in peace. But the dangers of alcohol are tenfold now. The presence of venereal disease among one-tenth of our urban population, its special danger to child-life, and the anxiety with which we must contemplate its wide extension as one of the terrible gifts of peace, impose upon us an increasing responsibility. In 1912 over 270,000 working days were lost in the navy from this cause, and 216,000 days in the army; and the Royal Commission has urged that a decrease of drinking would be an important factor in the decrease of this far-reaching cause of national delay. It is not to be questioned that in all these causes for apprehension alcohol is the greatest single factor that can be controlled. It is not to be questioned that the nation has readily approved the half-way step to prohibition that has already been taken. It is our profound conviction that the next step must be taken before the strength of Britain can be thrown effectively into the arena on which our liberties depend. No nation can be at full strength with such a factor in its midst. We are no temperance reformers as such. We stand for the great desire of all good people to strike the mightiest blow for freedom of which Britain is capable."

Organize To Combat Germans After War

British Would Exclude Them From Civic and Trade Privileges—Seek 5,000,000 Members

An answer to the Pan-German movement, whereby Germany hoped to gain her "place in the sun" of the commercial world, is contained in the prospectus of the British Empire Union, now bidding for 5,000,000 members throughout the British Empire, and whose avowed object is the abolition of German influence.

"The German civilian in the black coat," the prospectus says, "is as dangerous an enemy as the soldier in field gray. For a generation it has been the role of the Germans in our midst to grip and paralyze the arm of Britain so that in the hour of danger we should be at their mercy. We felt their grip on our financial institutions when the Stock Exchange was closed to avert panic and ruin. We felt it on our trade, on our metal markets, on our output of dyes, drugs, optical glasses, and those 'key industries' which are as vital to commerce as the mainspring to a watch.

"Germans and their dupes, and sympathizers have set in our parliament, under German influence, our people were encouraged to deride the German war bogey, the 'Zeppelin scare,' and the 'spy mania' until war revealed the truth. Every movement of social and industrial unrest has been approved, if not actively assisted, by the Germans among us. Our national security has been menaced for more years than the war has lasted months.

The prospectus points out that thousands of British patriots are giving their lives for their country, and added:—

"All these sacrifices will have been in vain if, after the war, the Germans are allowed to gain by 'peaceful penetration' the victory denied to their arms. To make that crowning calamity impossible, is the work for which the British Empire Union has been founded."

Plan of Campaign.

The plan of campaign under which the union will operate is stated as follows:

- (1) To expound the folly of granting peace on terms so easy as to make it possible for the Germans to again disturb the peace of the world.
- (2) To advocate that all German property throughout the empire shall be held as security for compensating British subjects for losses caused by the war.
- (3) To enforce, strictly existing laws and Orders in Council for the registration of aliens, and to prohibit Germans naturalized or otherwise, from changing their names for trade or other purposes, and to cancel all such changes made since Aug. 4, 1914.
- (4) To abolish the present system of wholesale naturalization, which has proved to be so grave a public danger in time of war.
- (5) To remove from public offices, and from the enjoyment of civic or other honors or titles, all persons of German birth and sympathies.
- (6) To enact that British consuls shall in future be of British birth.
- (7) To discourage, and, if possible, prevent the employment of Germans in this country, either by a tax on employers of Germans or by other suitable methods.
- (8) To restrict the import of all such German goods as can be supplied equally well from British sources or from allied countries.
- (9) To alter our companies acts so as to prevent a controlling interest in any British company being held by Germans.
- (10) To prohibit the sale of land and house property to Germans; and to enforce the acts restricting alien immigration.
- (11) To strengthen the hands of the government in dealing with enemy aliens, to repatriate at once all who are unfit for military service, instead of maintaining them, and at the end of the war all who have been interned.
- (12) To advocate the formation of a register in which all traders of foreign nationality will be compelled to record their real names and nationality.
- (13) To urge the government to publish a list of interested enemy aliens as well as of German firms and of those in which enemy aliens have a controlling interest.
- (14) To support a national scheme for finding occupation for able soldiers and sailors on their disbandment, as well as for those who are partially or totally disabled.

Commercial Policy.

The commercial policy proposed is outlined thus:

1. Supporting the chambers of commerce in their policy in regard to German attacks upon our commerce and industry after the war.
2. Advocating, and as far as possible assisting in making arrangements whereby British banks or industrial trust companies can assist British firms to extend their businesses.
3. Endeavoring to improve transit arrangements for agricultural and other products throughout the country so that home-grown produce may be better able to compete with foreign, and particularly to prevent British railways from giving such preferential rates to aliens as may affect British trade.
4. Giving a preference within the empire to the British dominions, with a view to making the empire self-supporting.
5. Supporting the Board of Trade in obtaining:
 - (a) State grants for the promotion of scientific research in the interests of trade and industry.
 - (b) Amendments of existing laws—e.g., as to copyright, patents, trade marks, the Merchandise Marks Act, etc.
 - (c) The promotion of trade fairs and exhibitions.
6. Advocating that the country of origin shall be marked or affixed on all foreign goods, and not only on the boxes or coverings, and also that it must appear in plain type on all advertisements of such goods.

The prospectus appeals for funds to carry on the work outlined. The officers of the Union are: E. B. Osborn, chairman; Alexander Bethune, J. P., treasurer; Sir George Mackill, secretary; and Reginald Wilson, assistant and business secretary.

NEW ORDER IS NOT DIRECTED AGAINST IRISH-AMERICANS

London, Aug. 23, 6:14 p. m.—The United States, having made an inquiry in regard to the order-in-council issued last week restricting entrance to Ireland, the British government has given assurance that the order is not directed against Irish-Americans, but is intended merely to exclude those persons who might disturb the peace. The order empowers the government to prohibit from entering Ireland any person not a British subject or who, being a British subject, has come recently, or may come hereafter, to the United Kingdom from overseas. The situation was explained in the following official announcement:

"In response to an inquiry from the state department the British government has sent assurance that the recent order-in-council regulating travel to Ireland is not intended to hamper the movement of naturalized American citizens who desire to visit their former homes. Each case will be decided on its merits. No class of Irish or foreigners is affected by the regulations, which will be used only to keep certain people out of Ireland who are suspected of being dangerous to the peace of the country."

THE BIG LEAGUES Tom Daly Badly Spiked By Carl Mays Carried Off Field Phillies Drop Sixteen Inning Game to Pittsburgh; Brooklyn Loses to Cubs; Red Sox Again Defeat Cleveland; Yankees Trim White Sox

Philadelphia lost the fourth game out of a series of five with Pittsburgh yesterday. Rixey, who pitched for the Braves, deserved to win his game, but, between errors and inability of his team mates to get him a run or two, he lost.

Brooklyn lost to the Cubs yesterday when Dell and Cheney were bumped hard. Although the Braves did not play, they gained several points on the leaders.

The Yankees are only three points behind Chicago and fifty-two behind the leaders. The Tigers are right at the Yankees' heels and are waiting for them to slip so they can run into third place.

The Braves have given up trying to secure Zimmerman from Chicago. The Cub management will give the Braves Zim for Maraville, but Stallings would not hear of such a trade.

The Cubs also were willing to trade Zim for Jake Daubert of Brooklyn, but the Brooklyn management said "nothing doing."

SAYS THAT TENNIS IS A GREAT EXERCISE AND HEALTH BUILDER

San Francisco, Aug. 23.—Tennis as an exercise for girls is an established condition in San Francisco, where public courts are provided for their use and many tournaments for girls are held.

Fortland, Me., has been granted a permit to hold a boxing show at the ball park in that city on Labor Day. McMahon is in Boston securing boxers to complete his programme.

Colorado Springs, Col., Aug. 22.—Realizing that his title of lightweight champion will be in danger, Freddie Welsh is putting in some great licks at training in preparation for his 20-round Labor Day battle with Charley White.

Welsh continues a slight favorite in the local betting. But the wagers that attract most attention is the 3 to 1 shot that White won't score a knockout. There seems to be plenty of money on both sides of this proposition.

Mrs. May Sutton Bundy, known the world over as a wonderful player, "perhaps if carried to excess it might hurt one, but none of my sisters has ever been seriously ill, nor have I."

"The girl with a weak heart ought not to play tennis for the game demands considerable running around, and it would be easy to overtax the heart. There is nothing unattractive or unwomanly about the game. It is just good, healthy, blood-stirring exercise and sport."

"The healthiest women I know play tennis and the four huskiest little children I have ever seen are the two Bundy children and the two Wightman youngsters, the children of May Sutton and Hazel Hotchkiss."

When his uncle died and left Edward L. Hutchinson of Fostoria, O., \$25,000 and some Ohio oil lands on condition that he marry within two years, Mr. Hutchinson advertised for a wife. He received 1,000 replies and accepted that of Miss Henrietta Hollody of Syracuse, N. Y., who said she would marry him on condition that he turn up the other 999 answers to his advertisement.

BUD FISHER WINS IN NEW YORK COURT IN "MUTT AND JEFF" SUIT

New York, Aug. 24.—Harry C. ("Bud") Fisher, creator of the comic cartoons "Mutt and Jeff" gained a complete victory in the Supreme Court when Justice Greenbaum decided that he, and not the New York American, had the right to use the title as applied to the "strips."

"Mutt and Jeff" comic strips have been known to Times readers for some months. A year ago, after Fisher left the American and signed a contract with the Wheeler Syndicate, an effort was made by the cartoonist's former employers to prevent the artist from using the words "Mutt and Jeff" in connection with his strips of these fanciful characters. A suit was brought against the syndicate. Theropson Fisher and the syndicate brought individual suits against the Star Company, publishers of the American.

In his decision Justice Greenbaum dismissed the Star Company's suit, finding for the syndicate. In the other suits he finds for the plaintiff, as Fisher and the syndicate win all three. The justice says Fisher created "Mutt and Jeff" in San Francisco in 1907, and that year entered into a contract with Hearst's San Francisco Examiner whereby he was to receive \$200 a week for the first year, \$250 a week for the second, third and fourth years, and \$300 a week for the fifth year. In 1909 he created the character "Jeff." Later he came to New York and worked for the American, also controlled by Mr. Hearst. When his contract expired he accepted an offer from the Wheeler Syndicate. By the terms of this he receives \$1,000 a week and shares in the profits of the sale of the cartoons.

When the case came up for trial the American admitted it had employed artists to continue the strips and asserted it had the right to use the title "Mutt and Jeff." The strips were to be executed as nearly like Fisher's handwork as possible. "In the opinion of the court," says the justice, "the Star Company is not entitled to the trade name or mark 'Mutt and Jeff,' the right thereto being now vested in the Wheeler Syndicate under its existing contract with 'Isabe,' subject to such rights, if any, reserved herein by Fisher."

WANT TO PLAY SERIES
The All-Stars of the North End say that they did not lose Tuesday evening's game to the Beavers. They say the umpire ordered both teams to continue playing at the eighth inning and that the Beavers refused, whereupon they awarded the game to the All-Stars. The latter team is anxious to meet the Beavers in a series of games to be played either on the Shamrock grounds or on the East End grounds. They are sending an answer through these columns.

SERIES OFF; ANOTHER ON
Owing to a disagreement between the management of the Shamrocks and the Thistles the proposed baseball series between these two teams has been called off and one has been arranged between the Mables and Shamrocks. The former team will be allowed to strengthen, and the first game will be played tomorrow evening. The management of the Shamrocks say that they were not a catcher and wanted to play one from the Mables or Roses, and were willing that the Thistles should select a pitcher to replace McGuigan, who recently met with a painful accident, but that the Thistles would not agree to the proposition.

News of Maritime Men In The War

Private Harry Delong of Nashwaakias is reported wounded in France. He enlisted in the winter of 1915 and went to England with the 50th Battalion.

Five Brothers Enlisted
Although one brother has already given up his life, four others are still in the service of the empire, one of these being Private Archibald Cross, of Fredericton, who is with the 28th Battalion. Private Cross has been residing in Fredericton for the past few years. His youngest brother, Lieut. Wilfrid Cross, was killed in action while fighting in France with the Leicester Regiment, but he has three others wearing the khaki. They are Herbert, with an Ambulance Corps now in training in England; Arnold, at the front with the Royal Munster Fusiliers, and Horace, with "The Buffs," a regiment that is also in training in England. All the brothers are natives of Cambridgeport, and their parents are residing at Littleport, England.

Three For Kitties
Three more recruits joined the 28th at Fredericton Wednesday. They are: Serjt. D. Stephen, 15, of St. Mary's; Albert H. Gough, 37, of Millville; and Henry J. Morrison of St. John.

Going to England
Mrs. Ronald Machum, who has been visiting her parents, A.D. and Mrs. Waker, Fredericton, is to leave at once for England to join her husband, Lieut. R. S. Machum, of the 104th Battalion.

Third Time in Hospital
Company Serjt. Major John Hanlon, who left Canada with the 28th Battalion, is now in hospital for the third time. He is in a hospital located in Grosvenor Square, London. He first went to hospital with pneumonia. His next trouble was a sprained ankle, caused by slipping into a shell hole. Later he was wounded near the base of the spine by shrapnel. He writes to the effect that he will be in hospital for six months.

Bandsmen to France
A recent letter from Private Walter Hanlon of Fredericton, who left as a member of the 12th Battalion band, states that fourteen Fredericton men belonging to that band had been drafted to the 6th Battalion in France. Private Hanlon was one of that number, but just prior to final medical inspection he developed a rash which made it necessary for him to remain for another draft which was to leave shortly. The letter stated further that Bandsergeants Theo. Sloan and Irving Tapley were the only Fredericton men who remained with the band, which still is an active organization. The instruments taken from Fredericton with the original band are retained by the present organization.

MOBILIZE PART OF NEW FORESTRY BATTALION HERE

Recruiting Now For the 242nd; Quarters in Exhibition Building

St. John is to be the headquarters of the maritime provinces for the 242 Forestry Battalion, and the members of the unit are to be quartered in the old 118th quarters in the exhibition building. This battalion was authorized in the latter part of June and just recently the authorization for recruiting was received. With headquarters in Montreal and mobilization depots in Quebec, Halifax and St. John, a big campaign is being launched and it is expected that the unit will fill very rapidly, as the medical standard is low, the age limit is higher, being forty-eight, and so long as a man has not lost his thumb or big toe and has some conception of the following occupations he is eligible to become a member of the unit: Woods and mill foremen, choppers, engineers, chauffeurs, cooks, saw filers and other various lines of trades pertaining to lumbering.

This battalion will sail for overseas so soon as recruited, as they do not require seven or eight months of training prior to leaving Canada, as does an infantry battalion. The colonel of this unit is the late manager of the Riddell Paper & Paper Company, J. B. White, Lt.-Colonel White crossed as a major with the 29th Forestry Battalion, and after arriving in England was engaged by the English and French government to make a survey of the forest in Brittany, in the northern part of France, and give to them some estimate as to how much of the timber in this forest would be of use in the work of building trenches.

Only two companies are to be recruited in eastern Canada, one in Nova Scotia and the other in New Brunswick, each company to have a strength of 250. The first intimation that some of the local officers here had that we were to have this battalion was when the three lieutenants—Lieutenants Sydney Downer, D. McDonald and J. B. White, called at the office of the New Brunswick command and acquainted them of the fact that they were to be quartered here.

Lt. Colonel Guthrie immediately escorted the party around to the various military buildings. The result of their visit was that the old 118th quarters in the exhibition building were chosen. It was due to the courtesy of Lt. Colonel Guthrie that the authorities were able to view the buildings and make their choice in such a short time.

ST. JOHN COMING TO PROPER HANDLING OF GARBAGE AND ASHES

St. John to have a new system of collecting garbage and ashes? The answer would appear to be affirmative if a letter received from another city by an officer in St. John explaining the methods of garbage and ashes collecting used there, counts for anything. In showing how St. John is behind, Halifax is cited in this matter, Halifax is cited in the sister city they have an incinerator which cost upwards of \$1,200, and which has amply repaid the city. Every week, barrels are set out for the city teams, which make the rounds and collect all the ashes and garbage from the houses, shops, stores and on a small scale from the hotels. Two barrels or a set of barrels are required by law, to be in each household, shop, etc., one for ashes and the other for garbage. In Halifax there is a weekly collection, while in some parts of St. John there is about one "dumping" in a year. In Moncton the garbage is collected by the city, although it is a much smaller place than here. It is understood that the state of affairs here is being taken up by the proper authorities and something practical will be undertaken in St. John soon.

REV. DR. STEEL HAS WORD FROM HIS WOUNDED SON

Rev. Dr. George Steel has received a letter from his son, Pte. William A. Steel, who was wounded in action on June 1. He said he is now attached to the 92nd Reserve Battalion, and expects to be sent to the front again in the near future. Private Steel had one of his ankle bones broken. It was struck with a piece of shrapnel. The ankle is still quite badly swollen, but at Private Steel's own request he was taken from a convalescent home and attached to the reserve battalion.

POLICE COURT

The local police were kept rather busy yesterday afternoon and evening and seventeen arrests were made since yesterday noon. Of this number thirteen were charged with drunkenness, two of these being soldiers. All pleas of guilty and each was fined \$8 or two months in jail. Four were old offenders and were severely reprimanded by the magistrate. Andrew Arsenau and Daniel Donahue were charged with drunkenness and fighting together at the corner of Charlotte street and the north side of King Square yesterday afternoon. Donahue was fined \$28, while the same fine was allowed to stand against Arsenau, as he proved to be not known in the local police court. Inquiries will be made.

Erling Hrafnason, a Norwegian sailor, was charged with refusing duty on board the vessel Asblad, he being an articulated seaman. He could not speak English and Captain Larsen, who gave the man in charge, acted as interpreter. The defendant was allowed to return to his ship, with eight weeks in jail hanging over him.

James Riley, charged with abusive language, was remanded.

BOYS' SCHOOL WEAR
Great Care Should be Exercised in the Selection

It has been said that a Boy's School Outfit plays a by no means unimportant part in the making of his character, and to dress him well from the outset is to let him start on his career with the requisite amount of self-respect. Just now, when school is about to open, both mamma and her son are interested in the "apparel that oft proclaims the man."

The great fault is to choose something attractive and durable.

As for attractiveness, the cut and color should be carefully selected with a view to becomingness. The durability is quite as important, because, no matter how attractive clothes may be, they must also keep their shape, else they are a snare and a delusion.

The shoddy is the bane of the ambitious but thoughtless buyer.

The fixed principle back of this store is: **Reliable fabrics, thorough tailor work, care in production of style.**

The New Fall Styles are to hand.

No prices quoted! Take it for granted that every style of clothing a boy wears is here and at a right price.

OAK HALL SCOVIL BROS., LIMITED ST. JOHN, N. B.

Now is The Time to Select New Pieces of FURNITURE

which will be required during the coming season.

We have an immense stock of all the newest styles, and you will find a better opportunity to make your selection now than later, when many of the most desirable pieces may have been sent out.

It is very difficult to get prompt delivery of any merchandise this year, so that the person who secures the article he wants when he sees it, is the one who will have best satisfaction.
